NOTICE
 —of—
LOCAL OPTION ELECTION

To the Voters of Little Point Precinct, Floyd County, Ky.

There will be an election held at Little Point place of voting on the 23rd day of September, 1946, said day being Saturday, the polls opening at 6 o'clock a.m. and closing at 1 o'clock p.m.

Said election will be held to decide the question of a referendum on the proposed local option law, and showing the postoffice address of each voter and the date said petition was signed. Said petition was filed July 19, 1946.

Given under my hand as Sheriff of Floyd County, Ky. this 27th day of August, 1946.

TROY B. STERCHILL
 Sheriff, Floyd County, Ky.

IN THE MATTER OF LOCAL OPTION ELECTION IN LITTLE POINT VOTING PRECINCT No. 27:

It appearing to the Court that a petition has been filed by a number of the constitutionally qualified voters of Little Point Precinct No. 27, being more than 25 per cent of the voters of said precinct, to have local option general election, with the County Court Clerk, said petition being in due form according to law, and showing the postoffice address of each voter and the date said petition was signed. Said petition was filed July 19, 1946.

Pursuant to said petition, a local option election is hereby directed to be held in said Little Point Precinct No. 27, on September 21, 1946.

The Clerk of this Court is hereby directed to deliver to the sheriff of Floyd county a certified copy of this order within five days from this date.

The Sheriff is directed to advertise this order by publication in the Floyd County Times for two consecutive weeks, and by reading written or printed handbills at not less than five conspicuous places in said precinct. The Sheriff shall report his action in writing to this court.

The County Clerk is further directed to prepare the necessary ballots and equipment for said election as is provided by law.

This July 22, 1946.

ALEX L. DAVIDSON
 County Judge

STATE OF KENTUCKY
 COUNTY OF FLOYD

I, JARVIS ALLEN, Clerk of the County Court for the County and State aforesaid, do hereby certify that the foregoing is a true and correct copy of the Order as appears of record in Order Book 36, page 586.

Witness my hand, this 23rd day of July, 1946.

JARVIS ALLEN, Clerk
 by Hildred Allen, D.C.

IS LOCAL OPTION A SUCCESS?

By MRS. EDGAR R. MAY
 President, Chairman
 Floyd County Dry Campaign
 Committee

(Now what can they say?)

Twenty counties in the state have some dry in Scott county—yes, the one the Wets featured in their first whole page—in thirty-one months of Local Option following July 19, 1943 court records show 67 convictions for liquor law violations. In the county embracing Lee, Clinton, there were 124 convictions. Doesn't that sound like success?

In Madison county court cases decreased 75 per cent under prohibition.

In Harlan county, Judge Meadows says, "The Monday morning roundup of drunks was 49 to 50. In dry Harlan the average is 10 to 11. Few are spending their money for their families instead of saloons."

Shelby county court records for June with a majority of 1977. Tommie Scott and Ernest Alford dry in this year to REMAIN dry, 3 to 1.

In Harlan county grand juries has almost disappeared. Juries say crime has decreased and criminals are down two-thirds. Elizabeth in this county has already REDUCED her taxes since the county went dry. How the Wets like to spend higher taxes if Floyd goes dry?

Desha county had 172 convictions for drunkenness under two years of local option. In the same time she had 246 while WET. It is time to DRY.

Johnson county had 1,294 arrests for drunkenness July 1, 1942 to July 1, 1945. BEFORE prohibition. By Johnson county records from April 8, 1945 to Sept. 28, 1945—a six months period, the local option took record of any year under PROHIBITION—there were ONLY 44 arrests.

In 1943, BEFORE prohibition, Johnson county had 1,294 arrests. In the same period of time, there were 44 arrests. A 600 per cent increase over prohibition. Does that mean 90 per cent of all arrests in Johnson county are for drunkenness? There were no charges of drunkenness?

Madison county showed a reduction of crime and arrests from seven to one after local option went there. For the first time in two years, Madison county did not have a single case for the court clerk, after Boyd went dry. The judge says his statement in the Ashland Daily-Tribune was empty.

Liquor consumption in America in 1924, when Prohibition was first enforced, was 10.23 gallons per capita in 1924. In 1944, ten years later, it had fallen to 2.24. CRIME HAD DECREASED PROPORTIONATELY, as indicated by the above proof. The connection between the decrease in the amount of liquor consumed and the increase in crime is so obvious that when a man or woman votes wet or declines to vote at all, he goes on record in the eyes of God as FAVORING AN INCREASE IN CRIME. The percentage of crime that can be attributed to drunkenness varies according to the different states. In Massachusetts where the most comprehensive survey has been made, Judge Zettoli of the Boston Municipal Court declares ninety per cent of all prison inmates were there because of liquor, either on charges of drunkenness or for crimes that were committed while the accused was under the influence of ALCOHOL. Ninety per cent is a high figure, but so are people who vote wet or refuse to take part. We give our best of approval to these conditions.

NOT BY MY VOTE

Saloons, crime, poverty, insanity, children, straggled houses, disrupted morals, social degradation, but NOT BY MY VOTE. I will have my friends and men will sell liquor, but NOT BY MY VOTE.

Truth may be wrecked and character dismantled, homes may be destroyed, and women and children become beggars, but NOT BY MY VOTE.

Children may be caught in the net, the victims of alcohol may fill their porches and basements with beer, but NOT BY MY VOTE.

The saloon may degrade and impoverish the people, producing illness, disease and pauperism. It may breed anarchy and crime, but NOT BY MY VOTE.

The government may license the craft traffic for money, take toward against the innocent, and bargain away the public health and morals, but NOT BY MY VOTE.

The liquor traffic may corrupt the social and national life of the nation. It may worm its way into all business and into the pockets of some and church, but NOT BY MY VOTE.

The bootlegger will take the death toll of a human being slain by rum every five minutes of the day, but NOT BY MY VOTE.

Rimmer-Webb Vows Said Here Sept. 11 In Church Wedding

On Saturday, Sept. 1, at 3:30 o'clock at the Methodist Church, Miss Patricia Elizabeth Rimmer, daughter of Mr. and Mrs. W. C. Rimmer, became the bride of Mr. Richard Spur Webb, III, son of Mr. Richard Spur Webb, II, of Lexington, Ky.

The church was beautifully decorated with amaranth and carnations, the background of the sanctuary being covered with a heart arrangement of amaranth set with white gladioli and gardenias.

The bride entered on the arm of her father, wearing a white satin gown with square scalloped neckline with long sleeves ending in points over the hands, the bodice fitted lightly with a point extending into the full gathered skirt with a heart-shaped lace bonnet to the end of her train. She carried a large bouquet and had a ring set on a ruffled mantle circuit with white streamers knotted with tinsel.

The bridegroom wore a white tuxedo, the groom's attendant, William Gabbert, B. L. Kessinger, Alex Hall, Lexington, George DuDette, Lexington, Ky., and Paul Kenard, Huntington, W. Va.

The impressive ring ceremony was read by Reverend A. J. Pollock, pastor of Pikeville College. To the Receptional from Mendocino the bride and groom with their attendants left the church.

SELF-REGULATION WHERE IT SUCCEEDS

Self-Regulation is not confined to the cities and towns of Kentucky. It reaches out into the highways and the by-ways—guarding the interest of the public and of the brewing industry wherever beer or ale is sold.

In the remotest rural areas, beer retailers are aware of Self-Regulation, and the great majority of them are in full compliance with its principles, cooperate in its aims.

Our suggestions for better operating practices are, in most cases, followed to the letter. Where such cooperation is not forthcoming, steps are taken to effect strict compliance with the law and with the high standards of the brewing industry.

AN EXPLANATION IN ORDER

By MRS. EDGAR R. MAY
Candidate for Floyd County Board of Education, Division No. 2

Since some comment is being made on the dry campaign, facts may be of help. Mrs. Stephens used me as publicity chairman and speaker in the 1943 dry campaign. Jesse Elliott, who placed my name in nomination this year, the vote was unanimous. Mrs. Elliott, who probed about my small part in the dry campaign were themselves, to speak, etc., but declining for obvious reasons. My resignation was offered—but rejected—long before the public knew of my intentions to announce as a board member. Dr. Randall of the Health Department, Fred Lawson, former agricultural agent, rate women's club officers, Red Cross workers, other civic and religious leaders were consulted as to my fitness for organizations for years. While my record was not impressive, each understood my best. Prestonsburg leaders of the Floyd County Club had my co-operation. When friends were asked to accept the candidacy of that organization, which politicians ripped in the bud, I declined, and frequently omitted my name as reporter, also tried time and again to get out of speaking.

WPA officials listed me as the only person in the state who worked free. I served free of charge for months as county director of packing libraries, under Mr. Ellis, of Louisa, district supervisor so several needy girls might have employment. A supervisor was necessary, but Washington had not allocated funds for the position. Not one cent was ever paid me or expected.

Had I wanted the kind advantage of any movement for personal gain, I could have done so while in charge of the county relief office, since "credits" were put out with regard to my letting certain names the boys sent to the CCCs. No one found my name on a political slide, did they? Here it is now, but independent of my like to please, your support will be appreciated. It is unnecessary to say why the board needs a woman, a former teacher, principal and author of articles in the leading grade school magazines. In too many of you have told me. Accept my appreciation for the support given me, for the requests that I run.

I FAVOR:
Higher pay for teachers.
Athletic coaches trained for the job.
A broader curriculum for high schools.

More economical administration of the county office.
The establishment of school lunch rooms where possible, your support.

Employing teachers on the basis of qualifications. NOT according to how they vote.

I OPPOSE:
Having too assistant superintendents of education.
Monopoly of one individual, family or group for years.

"Creating" jobs to remove political opponents, OR to favor supporters.
Campaign "slush" funds from all sources, including teachers.

I am:
A DRY candidate, running for the SCHOOL CHILDREN of Floyd county.

No pledged to anyone wishing to be county superintendent.
No strings are attached to me. None will be later.
Not one cent will be spent to buy votes for me.
(Pol. adv.)

TAXICAB STAND NO PARKING BETWEEN SIGNS

Take a Taxi Driver's word for it!

"MORE RUGGED... EXTRA SAFE!"
For safety's sake," says Mr. R. W. Thompson, driver of Yellow Cabs, Louisville, Ky. "I want the protection of the new B.F. Goodrich Silver-tone. No wear tires I ever rode on could match them for ruggedness and traction. It's a swell feeling to know you've got that extra margin of safety."

OUTWEAR PREWAR TIRES

A taxicab is a machine to get you places... and translates miles into money. Delays are costly... That's why taxi drivers go so fuzzy about their tires. Before B.F. Goodrich offered the new Silver-tone tire to the public, over 17 million miles of tests were run on taxi fleets, police cars, and on the B.F. Goodrich test fleet. From these tests, came proof that the new B.F. Goodrich Silver-tone was a superior tire that outperformed, outran, outlasted, and outwore prewar tires—even at high speeds.

How? The tread itself was broader, flatter... covered more road surface... followed the wear at any

LETTERS TO THE EDITOR

CHILDREN CAN'T WALK ON PROMISES

The following is a copy of my letter of Sept. 7 to Senator Douglas Hays, of McDowell.

Have some mighty nice letters, big promises being before me from you and our good friend, J. Stephen Watkins, Highway Commissioner, dated away back in the winter, regarding the fixing of the streets through Martin, Ky. Well, school starts Monday and we still have our same conditions which we had been promised would be remedied. We have had the same promises during other administrations, for some reason.

Looks like you are keeping in the past, previous administrations, making big promises. That helps a lot, but the children can't walk on promises and keep out of the mud. Believers or not, the road is so bad through our town when it rains very much trucks get stuck in the mud and the cars are stuck in a short time also a truck parked in front of my house and couldn't get out.

I hired Willard Johnson and his dump truck to haul some staves, got stuck in the mud and had to pay for the holes filled up. Since no chance to get anything done with the money I have Willard pay him myself and keep the holes filled up with gravel.

SPEAKS FOR MINERS ON WET-DRY ISSUE

Being an ex-miner and yet serving them and their families daily in the home on the shop that is a few things to them and about them.

Being a large part of Floyd county's workers and voters, naturally around election time they are very gracefully mentioned in various ways. The spots of advice, the book of promises, and the tongue of praise are not spared. The average miner knows how to vote. They know what is best for them, regardless of the day set for an election or the purpose of the same. They do not feel disfranchised because of a date set for an election. A poll shows they do not believe in a "temporary breeze," but pay their taxes, daily, 100 per cent.

Where was this league while they were sweating out the long day to reach their standards of today? Were they telling them to "stay with it?" Did they offer a helping hand as the hat was passed around?

District Masons To Meet At Wheelwright Sept. 21

Annual meeting of the 32nd Masonic district will be held with the grand lodge on Sept. 20, 21, and 22, at the Wheelwright Hotel. It was announced recently by Robert M. Spirk, master of Wheelwright lodge.

Attending the meeting, which will begin at 7:30 p.m., will be Charles H. Hester, grand master of the Masonic order in this district. John W. Hall, district deputy grand master, will preside at each of the lodges in the district to form a masonic and swell the attendance.

Mrs. H. B. Patrick and daughter, Emma Louise, were business visitors in Lexington this week.

Or were they the same fellows that were lobbying at Frankfort against the home tax on the shop that is sold to teenage boys and girls of these miners? I don't know how much per cent of the taxes they represent in Floyd county, but I fear that they represent the liquor interests and business one hundred per cent.

The miners are not all "drunks" or "drifters"—the most sober and best of people are in their ranks. They believe in God and the church, and happy homes. They will march to the polls for the things they know is best for their families, for God and the country. They do not have to be hauled, begged or paid. Many of them that are not what they should be confess that their troubles start at the hotel's mouth.

May the men of the underground be blessed of the Lord.

Respectfully,
J. DAVID TUNNEY

NOTICE

Pursuant to an order of the Fiscal Court of Floyd county, Ky., the County Judge of Floyd county, Ky., is authorized to accept bids for the purchase of an exclusive franchise for the lease and distribution of natural gas in the unincorporated town of Allen, Ky., and the same is hereby offered for sale to the highest and best bidder.

It is further ordered that all bids for the purchase of this exclusive franchise must be submitted to the County Judge of Floyd county, Ky., on or before 10 a.m., September 14, 1946. This court reserves the right to reject all bids.

It is further ordered that the franchise to be sold shall contain conditions and stipulations as follows:

1. The franchise shall extend and cover that area commonly known as New Allen, Kentucky, and the grantee shall be required to furnish natural gas to every applicant living in said area upon application therefor.

2. The grantee shall be required to construct, lay, maintain, and operate pipe lines sufficient to distribute natural gas to every applicant in New Allen, and the costs for so doing must be borne exclusively by the franchisee.

3. The grantee shall within sixty (60) days after the purchase of the franchise begin and continue to lay main line of pipe from the most available source of supply of natural gas.

4. The grantee shall furnish at his own expense all gas meters, which shall be of standard make; however, grantee, if desired, may require of each consumer a deposit on the meter interest is paid thereon at the legal rate of six (6) per cent per annum.

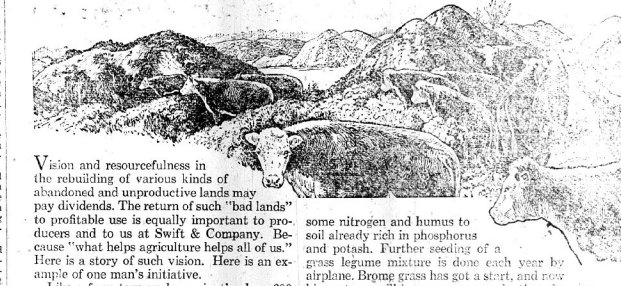

5. The maximum price at which the grantee of this franchise shall furnish gas to consumers shall not exceed forty (40) cents per thousand cubic feet. The grantee may also make special contracts with consumers at rates based upon the amount of gas used, which special rates may be less than those charged to consumers taking a small amount of gas but such special rates shall be the same to all consumers using a like amount of gas under the same contract conditions.

6. The grantee shall take all reasonable precautions and measures necessary to furnish natural gas to all the consumers in New Allen, during the period hereinafter authorized in this franchise.

7. The grantee of this franchise shall enjoy the exclusive right to sell and distribute natural gas in the unincorporated town of the New Addition to Allen.

8. The grantee is hereby authorized to use the public ways of the town of New Allen for the purpose of laying and operating a system of mains and pipes.

"Bad Lands" Into Good Meat

Vision and resourcefulness in the rebuilding of various kinds of abandoned and unproductive lands may pay dividends. The return of such "bad lands" to profitable use is equally important to producers and to us at Swift & Company. Because "what helps agriculture helps all of us." Here is a story of such vision. Here is an example of one man's initiative.

Like a farm torn up by a giant's plow, 600 acres of Illinois strip-mined land stood bare. It was apparently worthless. This was in 1938. Today those once-bare ridges are knee-deep in grass and clover. Each rugged acre makes more than enough grass for one steer. And it's getting no better each year.

The year after the land was mined for coal, a few volunteer sweet clover plants took root. They flourished in the lime-rich soil. Byron Somers of Canton, Illinois, who farmed adjacent land, noticed them. He bought the "bad land" for \$5 an acre. With a hand seeder, he walked the ridges and sowed sweet clover. The next year he had a good stand. This added

some nitrogen and humus to soil already rich in phosphorus and potash. Further seeding of a grass legume mixture is done each year by airplane. Bromo grass has got a start, and now his pastures will be even more productive. In addition to grass, plenty of drinking water for the cattle is held in the little valleys.

Since being returned to usefulness, this land has averaged a net profit of \$7 an acre each year. Similar Illinois land has recently sold for \$25 an acre.

This is only one example. Every state has unproductive lands. Many of our men have returned them to use—and profit. Huge areas still offer a challenge and an opportunity to American producers everywhere. Your opportunity, too, may be indicated by such a little thing as sweet clover growing on abandoned land.

It's extra care that cuts shipping losses among feeder cattle. It's extra care that gives a measure of immunity. After cold stress the feed lot has covered them with shelter from cold winds and rain. Give them full, bulky feeds such as whole oats and timothy. Cattle always poor to shipping fever when they are overfed, due to their irregular feeding. If you can't get a lot of them promptly and call a veterinarian.

You BET There's Competition!

Recently I spoke to a meeting of livestock producers. When I had finished talking, the chairman asked if any persons in the audience wanted to ask questions. Immediately one livestock man stood up. "Is there any competition in the buying of our livestock?" he asked. Naturally, my answer was, "Yes." I went on from there to an explanation...

One of the best evidences of competition is found in United States Government figures. They show that there are more than 3,500 meat packers in the United States. Also there are 22,500 other commercial slaughterers of livestock. Surely this means much competition. Of course, Swift & Company does not come in competition with every one of these 23,000 slaughterers at every point at which it buys livestock. However, there is no place in the United States but what Swift & Company does come in competition in the buying of livestock with one or more of the 23,000 slaughterers.

Here's another fact about competition. At practically all markets in the country there are order buyers. During a year they buy for up to hundreds of meat packers. No individual buys for several hundred on any one day. But when the meat packers who they represent need livestock, these order buyers are out competing with Swift & Company and every other buyer in the market.

The foregoing are just two examples of the many to be found indicating the ever present competition in our business.

FEED SUPPLY AND INDIVIDUAL DAIRY PRODUCTION
by Extension Dairyman
Purdue University

More and cheaper milk will be produced by many herds if and when better feeding systems are used. Where good quality legume hay is fed, grain ration averaging 10-12% protein is sufficient. With good quality legume hay and silage, grain ration should consist of 12-14% protein. With mixed hay of good quality with or without silage, grain ration of 12-16% protein is desirable. Where corn fodder, stover or straw is the main roughage, with or without silage, an 18-20% protein grain ration is required.

Weighting of silage occasionally will determine if it is being overfed at the expense of roughage. Normally, one pound of hay and three pounds of silage per 100 pounds of live weight is recommended. In the case of fresh cows, during the first three or four weeks of lactation, silage may be reduced to 1 1/2 pounds per 100 pounds of live weight and hay increased proportionately. Grain should be coarse ground and mixed with ground soybean supplement or 32-34% commercial feeds to obtain desired percentages of protein, based on type and quality of roughage.

Cows should be fed according to daily production—for high-testing breeds, feed one pound of grain for 3-4 pounds of milk. For low-testing breeds, feed one pound of grain for 5-6 pounds of milk.

Geography of Meat Production and Consumption

The United States by rail is approximately 3,000 miles from East to West. It is about 2,000 miles from North to South. Not all of its 1,934,326,289 acres produce agricultural products. Not all of its 139,439,000 people have the same number of people. The western part, including the Corn Belt, is the great food producing area. The East is the section in which most of the people live.

Approximately two-thirds of the livestock is produced west of the Mississippi River. Approximately two-thirds of the people live east of it. More specifically, about one-third of the people live in the area from Pennsylvania northeast into New England. This area is a great distance between the producers of livestock and the consumers of meats. This makes it necessary to have national concerns like Swift & Company in the slaughtering of livestock, processing, handling and selling of meats. The products handled by most packers average to move more than one thousand miles from producer to consumer.

LET'S VOTE LIQUOR OUT OF FLOYD COUNTY MONDAY, SEPT. 30

SAMPLE BALLOT
FOR LOCAL OPTION ELECTION
MONDAY, SEPT. 30, 1946

Are You in Favor of Adopting Prohibition in Floyd County, Kentucky?

YES NO

THE LIQUOR TRAFFIC DOES NOT PAY ITS OWN DAMAGE

So the Taxpayers Pay the Bill

Seven years ago Mayor Schutte of Louisville appeared before the Legislative Council at Frankfort and argued for more liquor tax because Louisville was being money taking care of the product of drink. "Costs," declared the Mayor, "have increased steadily, outlays being greater from year to year for the upkeep of prisoners, their medical care, and the care of dependents of liquor addicts." And SO WONDER. In 1929 the peak of Prohibition Louisville had 3,543 arrests for drunkenness. In 1927 it had a total of 12,500 ARRESTS FOR DRUNKENNESS and 4,000 of these were boys and girls under age. That's what repeal has done.

THE USE OF LIQUOR

- 1—Dulls the Intellect
- 2—Dethrones Reason
- 3—Impairs Health
- 4—Destroys Character
- 5—Squanders Property
- 6—Produces Pauperism
- 7—Wrecks Homes
- 8—Makes Widows and Orphans
- 9—Leads to Prostitution
- 10—Causes Trouble
- 11—Breeds Criminals

WHAT GOOD DOES LIQUOR DO?

Has it ever made life pure, noble or happier? Has it ever made a better citizen? Has it ever contributed to the Peace of any family or community? If you vote to license the sale of liquor in Floyd county, you thereby vote for all the damage and degradation and evils that it brings to our people. If you vote to license liquor, you vote to fulfill what was said in McGuffey's Reader in 1836, more than one hundred years ago, and is true today:

"Licensed—to do thy neighbor harm,
Licensed—to kindle hate and strife,
Licensed—to nerve the robber's arm,
Licensed—to whet the murderer's knife,
Licensed—like spider to a fly,
To spread thy nets for man, they prey;
Then cast his worthless form away."

TO VOTE DRY—VOTE YES

At Local Option Election September 30

Liquor dens, beer joints and road houses are far more disgraceful than the old saloon. The people grew tired and disgusted with the stench of the old saloon—they are sick and tired of the present methods of disposal.

Floyd County Is Calling a Halt

VOTE YES

DON'T BE DECEIVED

No Liquor Revenue Is Lost To Floyd County

Dry Kentucky will continue to receive her full share of the \$11,759,419.45 pouring into the state's general fund from 4,000 saloons, 73 distilleries, 6 breweries and 150 wholesale dealers over the state. The only state revenue Floyd county will lose amounts to less than 2 cents per person. The local license fees have never paid for the drinks the saloons make. Floyd county will save thousands of dollars by going dry.

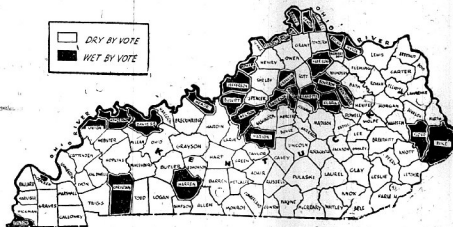

Kentucky Is Going Dry Faster Than Any State In The Union

90 Counties Now Dry--1,716,020 People Live In Dry Territory--Make Floyd County The 91st

WHAT DOES LIQUOR PROTECT? CAN YOU NAME A SINGLE PERSON IT HAS HELPED?

Does liquor protect the good name of the citizens of Floyd county? Do drunk drivers protect human lives and property? Does liquor protect the fair names of the widows and orphans whose husbands have spent every dime for drink, then died from the effects? Does it protect the boys and girls of this county from the temptation of drink? Does it protect the earnings of a man who labors for the support of his wife and children? Does it protect the physical strength, stamina and courage of the young men of the county? Look around you. Count up the number of men who have lost their farm, their business, their job because of drink. Pick out the boy or girl you want to see drink this poison soup, then vote for liquor if YOU CAN.

IF YOU MUST VOTE FOR LIQUOR BE FAIR—DRINK IT YOURSELF

WET AND DRY MAP OF KENTUCKY JULY 1, 1946

The 90 dry counties appear white. The 75 precincts scattered in 12 wet counties do not show except in McCracken County, which is all dry except Paducah and 2 precincts in the county.

HOW MANY BOOTLEGGERS WILL IT TAKE TO HANDLE 90,000 BOTTLES OF LIQUOR?

The next time you pass a whiskey store count the bottles on the shelves. You'll find around three to eight thousand. There are thirty Whiskey Package Stores in Floyd county. At only 3,000 bottles to a store, 90,000 bottles are constantly on display with Neon signs inviting you in. Figure for yourself—How many bootleggers after this county goes dry, will it take to handle these 90,000 bottles? At ten bottles to a bootlegger—it would take 9,000 bootleggers, sneaking in the hollows and in back alleys. Silly, isn't it? And don't forget the 94 beer dives.

HOW MANY MORE BOOTLEGGERS WILL IT TAKE TO HANDLE ALL THIS POISON SUDS?

THE CITIZENS OF FLOYD COUNTY ARE NOT FOOLED

Saloons Don't Dare Tell The Truth About Liquor

Why Don't They Explain The Bootleggers Now In Floyd County?

WHEN BOOZE GOES OUT

Bank Deposits and Business Come In

In EVERY War Bond Drive, DRY Counties

Were FIRST Over the Top!

On entering Mayfield, the county seat of Graves county, a city of about 5,000, you are greeted by these signs: "Mayfield, a big little city, clean and dry." Graves county voted dry May 22, 1938. The First National Bank of that city has more capital, surplus and undivided profits than any other bank west of Louisville. This takes in Paducah and Owensboro, each four times the size of Mayfield. It also takes in Henderson, Hopkinsville and Bowling Green, all larger. Each and every one of these cities are in wet counties and jammed with liquor joints.

Soon after Graves county voted dry, the First National Bank had \$2,914,122.71 in deposits. Last June (1945) these deposits had climbed to \$6,326,492.99. Over 200 per cent increase in four years. The good people of Mayfield and Graves County are spending their money for the necessities and good things of life instead of booze. They also have plenty left for bank savings.

In every case in counties voting dry, bank deposits have increased. One of the Harlan banks reported a 25 per cent increase the first year of dry. Everywhere business men report the only business lost is the booze business.

My! Isn't Prohibition Terrible—For the Booze Business!

RECORDS FROM 88 DRY COUNTIES

Reveals Proof That Prohibition Does Prohibit—In Kentucky!
\$61,266,349.31 Saved Last Year!

Official Records from Kentucky's Liquor Revenue reveals LESS BEER CONSUMED for the fiscal year closing June 30, 1945. While Kentucky's dry counties were REDUCING beer consumption, National records disclose an INCREASE OF TWO GALLONS PER CAPITA for the entire nation.

THE DISTILLED SPIRITS INSTITUTE recently announced a startling INCREASE OF OVER 11 PER CENT in whiskey consumption last year over the Nation. While wet states are on a whiskey spree, they admit that dry territory kept Kentucky's increase down to a "trifle over one per cent."

EVEN THE LIQUOR BOYS are now forced to confess that dry counties are causing an alarming "fade-out" in Kentucky's drinking habits.

In 1945 KENTUCKY'S 88 DRY COUNTIES SAVED HER CITIZENS \$61,266,349.31. This averaged a saving of \$23.53 for each man, woman and child. Because of the dry counties, Kentucky drank less than half consumed in the ten top states led by Nevada and Michigan with over 27 gallons per capita. Kentucky's 12.17 gallons was over 8 gallons less than the 1945 National average of 20.7 gallons. According to the United States Department of Commerce the nation drank SEVEN BILLION, EIGHT MILLION DOLLARS worth of alcoholic beverages in 1945, \$56.00 for every man, woman and child in the nation. This is \$23.53 more per capita than Kentucky drank. This means that Kentucky saved over the national average a total of \$61,266,349.31 to spend on groceries, clothing, furniture, travel and the better things of life.

Just a Confession That Bootleggers Operate Best in Wet Territory—That's All!

Bootleggers Increase As Whiskey Shortage Grows, Sugar Hacking Is New Development

Chicago, April 24—Bootleggers of the prohibition era will be back in business as the shortage of good whiskey becomes worse, E. C. Yellowley, Chicago Chief of the Treasury Department's alcohol tax unit, warned today.

Yellowley said that many former bootleggers already were leaving their illegal but less lucrative enterprises to return to their old business.

Reports of a survey indicated, however, that the bootleggers were troubled seriously by one obstacle—the shortage and rationing of sugar. If sugar rationing is ended, the report said, a sharp increase in bootlegging can be expected.

Yellowley said that bootlegging operations in the Chicago area still were on a modest scale because of the tight sugar controls and increased vigilance of the income tax unit.

However, gang activities in illicit sugar deals and the distilling materials field already have been reported in Chicago. More than 50,000 pounds of hijacked sugar and distilling materials were seized in the last week on the south side of Chicago.

An ex-conviet, operator of a saloon, was killed by a blast from a sawed-off shotgun. Charles J. Fleck, Chairman of the Illinois Liquor Control Commission, said that such crimes and "other evils" would bring on prohibition again. He urged that distillers and brewers stop trading with persons of ill repute.

Caused by so-called "Regulated" Saloons Are Trying To Remain In Floyd

From The Temperance Advocate Courtesy of The National Voice Los Angeles 12, Calif.

Brewers and Distillers of Louisville, Cincinnati, St. Louis and Milwaukee are back of a vicious movement to keep open saloons and roadhouses all over the county.

THIS BROOD IS RESPONSIBLE FOR:

- 50 per cent of all crime—60 per cent of juvenile delinquency.
 - 78 per cent of unwed mothers—90 per cent of venereal diseases.
 - 40 per cent of automobile accidents—90 per cent of all divorces.
 - 49 per cent of all destitute children—60 per cent of paupers.
- The United States Supreme Court has summed it all up in these words: "The statistics of every state show a greater amount of crime and misery caused by liquor than to any other source."
- SALOONS AND ROADHOUSES WILL NOT STAY IN FLOYD COUNTY BY MY VOTE... BECAUSE:**

- THE POLICE SAY:** Liquor and gasoline cause accidents.
- THE MURDERER SAYS:** Liquor caused me to kill.
- THE JUDGE SAYS:** Liquor causes most of the crime before me.
- THE DOCTOR SAYS:** Liquor weakens resistance and shortens life.
- THE LADY SAYS:** A liquor breath is very repulsive.
- THE LAWYER SAYS:** Liquor causes most of the divorce cases.
- THE UNDERTAKER SAYS:** Liquor speeds up my business.
- THE MOTHER SAYS:** Liquor robs my home of peace and happiness.
- THE CHILDREN SAY:** Liquor makes our daddy drunk and dangerous.
- THE PASTOR SAYS:** Liquor robs souls of eternal life.
- THE BIBLE SAYS:** A drunkard shall not inherit the kingdom of God.

The Devil's 23rd Psalm

King Alcohol is my shepherd;
I crave and I want.
He maketh me to lie down
in mud holes,
He leadeth me beside troubled waters;
He dammeth my soul;
He turneth my ear over for
my taste's sake.
Yea, though I ride in the
valley of the shadow of
hell,
I will HOLD to the BOTTLE,
For the devil is with me,
His saloon and his beer joint,
they beckon me. Thou pre-
parest an empty table be-
fore me in the presence of
my family. Thou anointest
my head with bruises. My
pocketbook is empty. Surely
evil and misery shall follow
me all the days of my life
and I shall dwell in the house
of the devil forever.

Resolutions of Respect

WHEREAS: Our heavenly Father in His infinite wisdom saw fit on August 12, 1946, to call from our Chapter here, to that Chapter beyond the river our beloved sister, Josephine Davidson Harkins.

BE IT RESOLVED: That Adah Chapter has lost not only a charter member, but a bright and shining link from that golden chain of fraternal love which binds us so closely together. Always our faithful champion, though for some time before her death she was not physically able to gather with us around the altar which she loved, yet many pages of the chapter's records bear eloquent testimony of her love and loyalty to the order. As long as she could she attended every session of the Kentucky Grand Chapter and was a gracious and welcome visitor in other grand jurisdictions as well. Her chair on the porch is now vacant, but

"At home in the beautiful hills of God by the valley
Of rest so fair,
Some day, some time, when our task
Is done with joy we shall meet
Her there,
And ever hear us, though unseen
The dear immortal spirits tread,
For all the boundless universe is
His—there is no dead."

DRIFT

Born to Mr. and Mrs. Oscar Vandorpo a son, Danny Lee, on Sept. 4, at the Pikeville hospital.
Mrs. Virginia Ann Howlett left Saturday to continue school at Berea College. She will stop in Ashland to visit her cousin, Ethel Clark, over the week-end.
Miss Mildred Beverly and Hugo Miller left, the first of the week, for Berea College.
Billy J. Turner, Harold Stumbo and Allen Reed are leaving this week for Berea College.
School started at Drift Monday with Milton Stumbo as principal. Children and patrons are glad to have the playground improvement, which last year's P-T-A. bought. This includes two sets of swings and a merry-go-round. The school was promised that the county board would install water in the school. It is the reason the P-T-A did not do this. We have no water.
Mr. and Mrs. Wiley Warrick, of the Auler road, spent the week-end with their daughter, Mrs. Hansel Honeycutt, and Mr. Honeycutt.
Mr. and Mrs. Leonard Conn and children spent the week-end on Prater Creek.
Ernest Turner was a business visitor in Cincinnati last week.
Mr. and Mrs. Dan Baker, of Whitesburg, were week-end guests of Mr. and Mrs. F. Jones and attended the wedding of Miss Billie Jones and Sylvia Hale.
Mrs. Laura Green and daughter, Mrs. Yella Dieging, are visiting Mr. and Mrs. F. Jones and attended the double wedding of Mrs. Green's son, Harry, and Miss Theima Jones, who will return to their home in Louisville Wednesday.
Mr. and Mrs. Ernest Porter and daughter are vacationing in North Carolina this week.
Nell Jo Prater and Freddie Prater left last week to attend Stewart Robinson school near Whitesburg.
Mr. and Mrs. Ben Martin and Lizzie Stumbo were shopping in Huntington Saturday.

MYRTLE

A pile supper was sponsored by Philippine Stanley at Myrtle school Saturday night, the proceeds being \$65.20. The negro minstrel act given by Bobby Hill and Lucy Miske was enjoyed by the audience. A song was sung by four-year-old Tommy Mullett. The pretty girl contest was won by Edith Harmon, of Bonanza.

Don't Be Fooled

One might think from reading the papers that the Floyd County Taxpayers League would at least have the hundred and eighty members to make full investigation but it is at least suspected that the head of this organization, though they seem ashamed to give their names, is a liquor dealer, and would be surprised if that is not correct. Why the secrecy? Are they afraid of their record or ashamed of their business? Wide anyway, it is investigation resulted in these facts:

The tax record of five of the supposed largest dispensaries reveals the following: The one who is supposed to be at the head of this league in letting his business grow in at \$1200 and his other property at \$1800 and on both of these he figured to pay \$775 to the county. The next one listed his business at \$1400 which figures \$420 to the county. The next one listed his business at \$1500 which figures \$150 to the county. Another listed his business at \$1350 and his tax at \$1350. Another listed his business at \$2000 and his tax to the county figured at \$400. There are a little more than is taken from the tax book. A grand total of \$203.45, which would be an average \$40.69. If there are twenty-three such places of business in the county, that would mean a total of \$938.97. Now wait a minute, my friend, for they will tell you that this is not all of the revenue—but wait a minute, who pays it? The consumer does and here they have been claiming that they pay so much tax. It would seem that they do not have much to boast about.

In the Floyd County Times, week before last, they gave almost a full page of advertisement to discussing why this vote was not to be taken on Monday. If they wanted a vote on this matter, why didn't they get up a petition and have it set for Saturday? No one prevented them. What are they griping about, for in that same advertisement they state that every miner is entitled to time with pay while he casts his vote and isn't it just as easy for one side to vote on Monday as it is for the other? These liquor fellows have not always been considered as the miner and did not yet when it comes to taking the money from their families. One of these men whose tax list is given is reported to have made somewhere around \$30,000 in the past few years and is also reported to have bought a farm for a figure over \$100,000. What did he give you men for this money in return? This money for which you labored went into that amount. WHAT DID YOU GET?

OUTSIDERS
Another statement they make is for the voters not to be disfranchised by a few politicians and hired temperance workers. No one is hired to do this work that I know of, but rather the best people of this county are behind it and they pray and efforts. It is a case of the old farmer getting ready to cut his grain and the hawk has said it is time to move. Who is trying to disfranchise any one? The most crooked thing I have heard of was an effort to get some young people who were not of legal age to register to vote and certainly the DEYS did not do that. There is not a politician giving this vote any attention that I know of unless it is one who came into the county as a whiskey salesman and was later elected Representative from this county. There may be one other who was also elected Representative, for they both voted for what the whiskey people wanted down at Frankfort. Still they say, "This is still America, the land that our boys and our boys shed their blood that we might all be equal." Brother, that man who sells liquor has a poor appreciation of what they did. The thousands of dollars these fellows are getting out of this business is what they are after and it seems to make no difference to them what happens to your family or the families of this county, just so they get the cash.

SCOTT COUNTY
Why bring Scott county into this picture? They have already voted dry. Here are some facts about Floyd county from Jan. 7, 1946 until Sept. 1, 1946, the total amount of fines reported by the judge and Magistrates for all purposes is \$17,970.38. Charges of drunkenness and offenses caused by drink too marked on the books \$10,165. (Note the percentage.) Assault and battery and reckless driving are not included in the \$10,165.
It was interesting to see several cases marked "selling liquor without license," "BOOTLEGGING," I suppose, and not in prohibition times, either. A very interesting thing happened while these figures were being tabulated. A man came in and when he discovered what was being done

card which was passed out by a liquor place in Prestonsburg and I wonder that he would tell so much truth about his place of business:
He knows all our sorrows and all our joys.
He knows all the girls that chase the boys.
He knows all our troubles and all our strife.
He knows every man that steps out on his wife!
If the bartender told all he knows he would turn all our friends to bitter foes.
He would start forth a story which, gaining in force
Would cause all our wives to sue up in a fight.
He would turn all our bright days to sorrowful nights—
In fact, he would keep the town in a stew.
If he told one-tenth of all that he knew!
So when out on a party and from home you steal
Drop in for a drink—the bartender would squelch.
