This Town-- That World

And how are all my dear dear friends, the little sheeps and sheeps, this morning? I'm like a pumpkin, thank you, as soon as I can shake my little head out from under the seat of my trousers.

This morning, I am reminded to say, a coffeeing figure was presented in the room that he was suffering from Holloway's hanging. He had to explain the cause of the subject, he explained that this resulted from getting "witches" brew full of your head, like a pumpkin.

WE AWAIT WITH INTEREST
Next Monday night the Prestonsburg Women's Club again will call on the C. B. Council for assistance toward organizing a public library in Prestonsburg in accordance with the project of the Council's response.

The Council should give these women all possible aid. Financial help, if possible, would be of great interest. It is just a matter of the minds of the people, and the women, in particular, to have access to a library, and to improve their minds, and to read their books in the enjoyment of the written word.

It is a pity that the women of this town have their assets maintained and preserved, kept in the hands of a few, and that they are by way of low-rate planning, but it will pass eventually.

Prestonsburg, indeed, the sections of the town, where the people may go to find a good book, is not a matter of the Council, but a matter of the people. It is a pity that the women of this town have their assets maintained and preserved, kept in the hands of a few, and that they are by way of low-rate planning, but it will pass eventually.

Myers-Harrison Vows Solemnized

Marriage vows were exchanged by Miss Roberta G. Myers and Mr. John F. Harrison on Sept. 7 at 7 o'clock p.m. at the Church of Christ, Detroit, Mich. The Rev. J. E. Alexander officiating.

The bride is the daughter of Mr. and Mrs. W. L. Myers, formerly of Fruit. The groom is the son of Mr. and Mrs. Wm. Shaw, of Shelbina, Mo. He is a veteran of 5 1/2 years service, two years of which were spent overseas. He now is employed by the U. S. Rubber Company.

The bride was attired in a beige suit and black accessories, with a corsage of red roses. The groom wore a tuxedo of honor. Miss Willine Tucker, who is a blue suit with brown accessories and a corsage of baby maids. The best man was the bride's brother, Mr. William K. Myers. A reception followed the wedding and was given at the recreation room of the Leiland Court apartments, with close friends and relatives present.

Launch and refreshments were served, buffet style. Many beautiful gifts were received. The bride and groom then left for Chatham, Canada, where they spent their honeymoon. They are now at home in their apartment at 5103 Robins avenue.

These present from out-of-town were Mr. and Mrs. Wm. Shaw, of Shelbina, Mo., Rose Mary Stumbo, McDowell, Ky., Mrs. W. H. Manning, Waynesboro, Va., Bonnie H. Martin, Waynesboro, Va., Mr. L. W. Sexton, Amba, Ky., and Mr. Bob May, Maytown, Ky.

Elect Mrs. Edgar R. May For County School Board Member

To the Voters of Division No. 2: I take this means to ask each of you to consider this and ask yourselves the question: Do we want dictatorialism in our schools or do we want honest and fairness? As you know, our taxes are double this year. I think it is time and high time the people of Floyd county awaken to the fact that our county is what we make it. Let's elect a woman who is trustworthy. She is honest and capable, is 40 years old, an understanding and hard worker, is not a college graduate but is classified a secretary in a Missionary Baptist and an outstanding Christian. Her standard is, be what you are and not a fence-sitter.

She could not pass the physical test for tobacco mission work, so came to Kentucky in 1924 as a teacher. She has taught for a number of years, as principal, was in charge of the Floyd county relief work in several states and still works there. She has been a woman's club work and given lectures in several states and still works there to God.

Mrs. May also served as our public chairman in the Dry campaign and that without pay.

She is a daughter-in-law of H. F. May, or Uncle Harry at Masterton, and has borne more persecution than any one I know, because she stands for the right. Mrs. May is running an individual race. No one is running her and there will be no money waiting a job. She does not believe in the interests of school children and parents. Why I'm writing this, Mrs. May does not know I'm writing it. God is directing my mind. He is my leader and guide.

When I have had a Christian in office? How many county officials voted, Sept. 30, and how did they vote?

We need sober and Christian Board members, principals of our schools and teachers. We have some and are proud of them. Let's awaken to the fact we need more.

So vote for Mrs. Edgar R. May in November.

THINK IT OVER

Before making up our minds in the School Board race, let us consider the welfare of our children and of our neighbor's children. First, our county is having a good school system—good as any county in Kentucky. How do I know? I am a mother and have children in school. I know because I am a teacher and county children for the past 15 years. Much progress has been made in our schools. Now the rural schools are coming to the front. Yes, we are having more than 100 new schools the first time. We are put on an equal basis with the consolidated schools. Then, do you think we are the rural areas object to paying a little more taxes? Look at our bus shelters. In one month they are worth more to our children than the few dollars tax I pay. Watch our school buses roll by. We need many more! Mr. May and Mr. Harrison failed to mention buses in their platform. Now they say they are for the buses.

If you must bring Town Hall's name into this, then give him credit for a good school system. You will admit that he did a good job. What does the opposition say against our present Superintendent, Palmer? **HALT NOTHING!** You know how record. You know he will give his very best to continue to improve our schools with good schools. **HE IS QUALIFIED!** His experiences in World War I have better qualified him. What is a better teacher than experience itself? Palmer Hall is a school man in every sense of the word.

Mr. Wickler seems to oppose many "opposes". His little speech at Emma left a bad taste with the people. The implication that campaign literature has been handed out in the Emma school is false. The Emma teachers say you are wrong. Mr. Wickler, do you tell these stories of campaign literature in all schools? Our rural communities seem to be getting a barrage of false stories from those opposing the present school administration. That worked a while because our rural homes are far apart. **THE TRUTH WILL OUT!** Presently the neighbors have been getting together and learn that every home is being told a different story. Why can't the TRUTH be told in every home?

That democracy you spoke of, Mr. Wickler, is being lived every day in every school room in Floyd county. You saw that when you were principal and when you did supervision in our rural schools. Yes, you were a part of the Floyd county School

System for many years. You have said many times that our schools were the best in Eastern Kentucky. Now you say it's all wrong. What has happened to you? Aren't you just kidding?

My certificate expires next year. I will not be teaching next year, but even so I will continue to see that our schools are the best and let's keep them that way. Let us continue forward by voting for James Jimmy Greene in Division No. 1 and Dr. J. H. Allen in Division No. 2.

Pburg, 31 Other Towns Receive Federal Forms For Airport Assistance

Thirty-two Kentucky cities, including Prestonsburg, have received federal forms for requesting airport aid in 1947, the Federal Aeronautics Commission said last week. Director Charles Gannett said that stipulated forms must be in the hands of the commission by Harry A. Gerard, Louisville, setting the date for airport engineer for the federal government by November 2. There still is time for air boards in other cities to make the request, Gerard advised.

Forms have been sent to Middleboro, Mayfield, Paducah, Bowling Green, Covington, Lexington, Louisville, Owensboro, Frankfort, Franklin, Bardonia, Maysville, Danville, Lanesburg, Paris, Leitchfield, Hopkinsville, Pikeville, Glasgow, Ashland, Carrollton, Greenville, Cynthiana, Madisonville, Hazard, Prestonsburg, Liberty, West Liberty, Russellville, Frankfort and Somerset.

Mr. and Mrs. Robert Harlowe and children left last week for Buffalo, N.Y. where Mr. Harlowe will continue his connection with the Dupont Company. During the time he was employed by Dupont at Richmond, Wash., and for the several weeks he and his family have been guests here of his parents, the Rev. and Mrs. A. G. Harlowe.

Veteran Coal Man Dies in Huntington

Funeral rites for W. L. Gentry, 85 years old, secretary of the Beaver Creek Consolidated Coal Company...

Mr. Gentry, who was well-known in Eastern Kentucky and West Virginia mining circles died Oct. 22 at St. Mary's Hospital, Huntington. He had submitted to an operation here several days earlier.

He was a native of Huntington and was a graduate of Marshall College. His connection with Beaver Creek Consolidated had extended over the last 40 years.

Attending the funeral from Prestonsburg was C. H. Coats, head of the Prestonsburg office of Beaver Creek Consolidated.

Renée R. Rudolph, of Marshall county, had a gross income of more than \$1,200 from one acre of strawberries.

YOU BE THE JUDGE!

How They Answered the \$64 Question

(To Joe Taylor)

Are you for Veteran's Preference? Answer: May-be a little preference if qualifications and everything else were equal.

Are you the man who would be superintendent if Burdett and May could have their way? No definite answer but an implied "No."

Are you not for Monroe Wicker, a non-veteran and a native of Knott county? No definite answer but an implied "Yes."

(To Mr. Wicker)

1) Are you seeking the superintendency thru your support of Burdett and May? No definite answer but an implied "Yes."

2) Would you do away with the one supervisor we have, Mr. Wicker? He would do away with Henry Martin as supervisor, he says, because he considers him as unqualified and practically "worthless" as a supervisor. Yet, Mr. Martin has a certificate in supervision and administration, the same as Mr. Wicker has. Our State Supervisor of Elementary Education, who spent four days in our county this summer, has chosen Mr. Martin as one of seven supervisors to represent Kentucky in a four-state supervisors' conference next month. We'll take his opinion, Mr. Wicker.

3) Would you do away with the Transportation and Maintenance man? A definite "yes" as it now is, he says. He would look after himself, yet he has complained about overwork in the much smaller Prestonsburg system where there is no transportation problem.

4) Explain to Chalmer Frazier, Joe Taylor, Claude May and Gordon Moore (these men have all been spoken of in one office or another as getting half-the-office or assistant superintendent's job) where they come in. No public explanation.

5) Would you be for setting the county-wide equalized tax rate as low as \$1.00? An emphatic "yes," he says. He was against the equalized county-wide tax from the beginning, he says. In other words a rural community which does not happen to have any of the county's railroads or industrial operations is not entitled to any of the tax from these concerns but should have only what they can pay on their worn-out, mountain farms and what the state gives them. This does not spell equal opportunity for all Floyd county children—but the state law now requires it anyway.

a) Explain why you have not lowered the tax below \$1.50 in Prestonsburg, Ans. In the first place he didn't set the tax rate at that, he says. And in the second place it is a small taxable unit with a concentrated population (and like we said with a greater concentration of wealth to tax). Anyway, the tax wasn't reduced in Prestonsburg!

b) Explain to the teachers and people who higher salaries could be continued, and how nine months of school could be continued, and how the school bus system could be continued and expanded, and how the high school curriculum could be expanded. Ans. Elimination of unnecessary jobs would save \$10,000 a year, he says. Even if it could be so that would operate the school bus for only about \$10,000 a year, he says. He would pay all the teachers for about four days. His final figure for the teachers' budget was about \$60,000 short of what they will actually be paid this year. That is approximately the total salary of all teachers for one month.

Cites Dozen Practices At Mine As Commendable

In an initial inspection report released this week by the Bureau of Mines on the Turner-Elkhorn Mining Company's Columbia No. 3 mine at McDowell, a federal coal mine inspector cites a dozen commendable safety practices, but recommends certain supplementary improvements. The mine, employing 45 men and averaging 350 tons of coal per day, was examined for the first time by Harold Doerflinger several weeks prior to the effective date of the federal safety code on July 28.

Safety practices adopted since the opening of the mine in August, 1945, included the posting of a systematic timbering plan; the use of a special insulated truck for transporting explosives; the coupling of a sufficient quantity of air through the last open crosscut in each set of working entries; the continuous operation of the fan; the erection of substantial incumbrance stoppings in the crosscut between the main entries; the installation of fire extinguishers on the mining machines and locomotives; and the use of permissible electric cap lamps underground.

To insure better haulage conditions the inspector proposed smaller holes along haulageways, doors, and most switches; unobstructed clearings; effective blocking of all standing cars; the use of permissible trip lights; and a ban on ripping, coupling moving cars by hand and getting on and off moving trips.

Although ventilation was generally satisfactory, the inspector recommended the installation of a fan in a fireproof housing on the surface, the installation of a mine escapement and equipped with certain safety devices; the erection of doors in pairs to form air locks; and the installation of fireproof stoppings. To minimize ignition hazards, he stressed safer blasting practices and a ban on smoking.

Other protective measures recommended included strict enforcement of the timbering plan; the setting of safety posts before loading coal; the bonding and cross-bonding of all electrical safeguards; the installation of a shut-off valve in the natural gas pipe along the surface near the main opening; the wearing of safety shoes, hats, gloves and goggles; annual first-aid training; and the establishment of a safety organization of officials and employee holding joint monthly meetings.

A MESSAGE OF INTEREST

to all who await deliveries of new Chevrolets

We want you to know that everything possible is being done to speed deliveries to you; but production still lags far behind schedule—even though Chevrolet has built more cars and trucks than any other manufacturer from January through September 1946

WE REALIZE how eagerly you are awaiting delivery of the new Chevrolet you have ordered from us, and we want to pass on to you the latest information received from the Chevrolet Motor Division, even though that information isn't too encouraging at this time.

It is true that Chevrolet leads all other manufacturers in total production of passenger cars and trucks from January through September 1946, despite the fact that Chevrolet was out of production entirely during the first three months of this year. It is also true that Chevrolet has continued to maintain its lead in total production during the third quarter of 1946. And yet production is still running far below desired levels, with the result that Chevrolet's output of cars and trucks through September 1946 was only 38.7% of the number produced during the corresponding period of 1941.

This means it may take many months for the Chevrolet Motor Division to reach peak

production of new Chevrolets—even longer to fill the unprecedented demand for this product of BIG-CAR QUALITY AT LOWEST COST—and, for the present at least, "there just isn't enough Chevrolets to go around," much as we wish there were.

However, we want you to know that new Chevrolets are leaving the plants in the largest numbers possible today. The Chevrolet Motor Division tells us it is doing everything it can, in the face of continued suppliers' strikes, material shortages and manpower problems, to step up shipments to us and to all dealers, in accordance with a predetermined distribution plan assuring each dealer of his fair allotment, based on 1941 passenger car sales. And we, in turn, are doing our best to deliver new Chevrolets to our customers as rapidly as they are received and in the fairest possible way. We are too appreciative of your loyalty and goodwill—to be grateful for your patience and understanding—to do anything less than continue to serve you to the very best of our ability.

KEEP YOUR PRESENT CAR RUNNING

Members, the most important car of all to you is the car you are driving now. May we suggest that you keep it in top running condition until you secure delivery of your new Chevrolet, by means of our oil and filter service now and at regular intervals. Be on hand—call to schedule a check-up today. . . . And, again, thank you!

Back To Voting Bonds and IOU's

c) Explain to the people how the building program could be carried on under our advanced tax rate. Ans. The building program should be paid for over a long period of time, he says. This means that the people would have to vote bonds for all of the new school buildings needed. In other words, it's back to the old IOU system (just as we are getting out of debt) running up huge debts on which interest would have to be paid, and special taxes would have to be levied to retire the bonds and pay the interest. So what: If the pay-as-you-go system is best for your personal business it is best for the School Board. Furthermore, so long as the rural districts are paying the same tax, he says that not another single large building should be built until running water, lavatories, etc., are placed in all the rural school buildings. This would be fine but the children in town must have a school building just as the children in the county—the way may differ in size and accommodations.

d) Try to convince the people that you are thinking of economy and efficiency and not just trying to "talk yourself into a job!"

Layne Scores High In Tests at U. of K.

Lexington, Ky., Oct. 28 (Sp.)—Placed in the top scores of approximately 2,300 students entering the University of Kentucky for the first time at the fall quarter indicate that the graduate of a Floyd county high school was among the 338 students who finished in the upper 15 per cent. Dr. LaSalle Croft, university press secretary, reports, "such achievement reflects credit not only upon the parents, but also upon the high school from which the students were graduated." Dr. Croft pointed out that 15 per cent of the top 15 per cent, after entrance examinations on general English and mathematics, was Glen Stanley Layne, son of Mr. and Mrs. Clyde Layne of Justice, Ky. He was graduated from Betty Layne high school.

HANG ON TO YOUR WAR BONDS —YOU'LL BE GLAD YOU DID

Published Every Thursday by
PRESTONSBURG PUBLISHING CO.
NORMAN ALLEN Editor

Entered as second class matter June 18, 1927, at the
postoffice at Prestonsburg, Ky., under the act of
March 3, 1879.

To Start the New Year Right

BEGINNING with the first day of next year, a law goes into effect which does not force the Kentucky motorist to have public liability and property damage insurance—but, if he has an accident, it will make him wish he did have.

This new law provides for "proof of financial responsibility" and there are only three kinds of such evidence: a certificate of insurance, a bond, or a receipt showing that the driver has on deposit with the State Treasurer the tidy sum of \$11,000.

The law will be a boon to the insurance salesman. At the same time, if properly enforced, it will be a boon to the public, both motorists and pedestrians.

Reckless or drunk driving thus receives another penalty, one which cannot be sidestepped. The law may be onerous to some who are careful and sober, since it requires "responsibility" of every driver in a wreck, whether at fault or no, but the greater benefits it will render the public as a whole justifies any harshness it possesses.

A Salute to Solid Citizens

A STATE of lawlessness no longer exists in Floyd county.

That was another of the verdicts written by petit juries at the recent circuit court term here, in action rather than in as many words.

A few short months ago, the Commonwealth, dismayed by the failure of juries to meet effectively the threatening challenge of crime, asked that murder trials be transferred to other counties.

"A state of lawlessness exists," declared Commonwealth's Attorney John Chris Cornett.

But all that is changed now. Floyd county juries, not juries from other counties, changed it. Even when the regular panel, composed of jurors regarded as "too tough" and rejected by defense counsel for certain trials, was not in service, jurors summoned from over the county came to Prestonsburg, heard evidence—and they were "tough." Four of five men given murder trials received life pen terms.

This is not to say that every man accused is guilty. Nor do we maintain that every man who escaped with a light sentence at the hands of juries at earlier court terms was a double-dyed murderer. But it is to say this: Men and women every man who escaped with a light sentence, to have come to abhor crime, to shudder at the threat of murder to the good name of the county—and they have met the grave challenge.

This, then, is to salute these solid citizens—citizens who had an unpleasant duty to perform and who, like Wellington's soldier, seeing danger, met it bravely.

CHICKENS PAY FOR MUSIC EDUCATION

Although Mildred Norval of Webster county is only 11 years old she raised and sold fryers this year to pay for a used piano and music lessons. Her record book shows that she made \$162 in this project. Then she grew an acre garden with 15 varieties of vegetables. During the past two years she received \$77 for vegetables sold from her garden and also provided the family table with a supply estimated at \$124. She earned 200 quarts. Mildred used \$20 of her earnings to pay for dental work and clothing. This was the third year Mildred had been a 4-H club member.

VETERAN EMPLOYMENT RISE NOTED IN USES LABOR REPORT

Reports received from 15 establishments, including 14 coal mines in the Prestonsburg area indicate that total employment has risen 2.4 per cent and veteran employment has risen 2.6 per cent from July 19 to Sept. 15. During the same period, however, female employment dropped 5 per cent. Employment data for all coal mines showed: Total employment in July 1942, 5722 in August and 5709 in September; total veteran employment for July 1942, 654 in August and 678 in September. Female employment dropped from 180 in July to 141 in August and 140 in September. Of this total, 109 were veterans and 28 were women.

My customers really deserve a medal! They've been so considerate about waiting a bit for the fine that... OUTWEARS PREWAR TIRES

Even despite the outstanding price... in H.E. Goodrich's 75-year history, so many new customers have heard about the amazing performance of the new B.F. Goodrich Silvertron we had to ask our customer friends to wait at times.

The new B.F. Goodrich Silvertron is selling like hot cakes—is worth waiting for!

If you're looking for a passenger car tire that will OUTWEAR PREWAR TIRES, pick the new passenger Silvertron which has been tested on taxi fleets, police cars, special test cars, and by hundreds of thousands of car owners.

To match the performance of this heavier tread, a new 35 per cent stronger cord body was developed with sturdier cords and more of them to give the tire better resistance to bruising and road shock.

Do you want Barkley and Brown to help ratify the peace treaties, or Taft and Cooper? You know the Democratic Party will assume responsibility of leadership.

Do you want a deadlock between the President and Congress? You know that condition would be bad for the United States and the United Nations.

Do you remember what the Republicans did to Woodrow Wilson's peace plan? You know Taft is an isolationist and he is the Republican leader in the Senate.

"LET'S TAKE A LEAP AT THE RECORD," and vote an intelligent ballot. Certainly we do not want our children, or our grandchildren, going to war.

Let the world know that we, the American people, are behind the join of the United Nations for world peace and that we are willing to vote and work for its accomplishment.

The record of the Republican Party in the past as to the League of Nations is well known. We must not take that chance again.

Barkley and Brown will pull together.

To Whom It May Concern:

A report has reached the Mothers of Bosco that it has been said that Monroe Wicker either wrote or helped to write the letter we wrote to Palmer Hall with the Oct. 17 issue of the Times. Mr. Wicker had nothing whatsoever to do with the letter and we can furnish proof of this fact to anyone concerned. We feel it is unfair to Mr. Wicker to allow him to take the blame.

**Hindman Clubwomen
Are Guests at Garrett**

Garrett, Ky., Oct. 29 (Sp.)—Members of the Hindman Women's Club were guests of the Lackey-Garrett club at an exhibit and tea given at the Garrett high school Saturday afternoon.

Ten reproductions of paintings in the National Art Gallery were displayed to illustrate the work of the American portrait painters—Benjamin West, John Singleton Copley, Gilbert Stuart, Sally Hardy, Savage and Whittier. Mrs. Thomas Hatcher, who was in charge of the exhibit, gave an interesting discourse on the lives and works of these American painters.

Hostesses for the tea were Miss Marie Coburn and Mesdames Fleta Coburn, C. B. Ison and Frank Rucknick. White mums, tall white tapers and gleaming silver added to the beauty of the tea table. Presiding at the tea and coffee services were the presidents of the two clubs, Mrs. Clark Pratt of the Hindman club and Mrs. Fred A. Martin, of the hostess club.

Cheats from the Hindman club were Mesdames Anne Beckman, Beckham Combs, W. R. Smith, Edna S. Taylor, C. D. Caldwell, Rose B. Craft, Clark Pratt and Lillian Simpson. Miss Edith A. Crick, Mary Frances Bradley, Anne Cobb, Clara Sandilich and Frances Grover.

Members of the Lackey-Garrett Club attending were Mesdames Irene Miller, Harry Sherman, Noah Howard, Melvin Hayes, R. H. Messer, Everett Hamilton, K. C. Beverly and George Evans, Jr. J. G. Sullivan, W. T. Hatcher, John Paul, Thomas Hatcher, Fred A. Martin, Clara Sturtevant and the four hostesses.

Fifteen members of the Lackey-Garrett Club attended the meeting of Women's Clubs at Hindman, Oct. 19. These were Mesdames S. M. Martin, Harry Sherman, Roy Souleberry, Thomas Hatcher, J. C. Wells, George Evans, Jr., John Paul, Frank Cooley, J. T. Spillman, Melvin Hayes, W. T. Hatcher, M. M. Collins, H. H. Horsby, Charles W. Martin, Fred A. Martin. Hostesses were Mrs. J. C. Wells and Mrs. George Evans, Jr. Mrs. Thomas Hatcher and Mrs. S. M. Martin were alternates and served on the committee. Mrs. Fred A. Martin, president, gave the report of the club's work. Her report received second prize. The club also received a 100 per Honor Certificate awarded by the State Federation for the work of the past club year.

HANDSHOE

A large crowd attended the Salt Lick Church Sunday. The Rev. Ed Howard, his brother, Stuart Howard, of Garrett, and Rev. Henry Mullins, also of Garrett, conducted the services. Among those from a distance attending the service were Mrs. Cora Olsen, of South Bend, Ind.; Mrs. Ellen Wellman, Mishawaka, Ind.; Mrs. Carl Conley, Mrs. Harry Campbell, Mrs. Reece Onicy, Mrs. Helma Waddell, Mr. and Mrs. Beech Bailey, Mr. and Mrs. Herbert O. Greenwald, Mrs. Oney, all of Garrett; A. J. Coburn, Haysville, Mr. and Mrs. Chester Sutton and Mrs. T. B. Sutton, all of Vevie.

Miss Dorothy Bailey, who is attending school at Hindman, was visiting homefolks recently.

A wedding of interest occurred here recently when Mr. Eldon Bailey and Miss Beatrice Welch were united in matrimony. They are at present making their home with Mr. Bailey's parents, Mr. and Mrs. Green Bailey, here. The groom served two years overseas and was slightly wounded. His twin brother, Claude Bailey, also served overseas, and Norman Bailey, still another brother, lost his life in service.

TO THE VOTERS

From MRS. EDGAR B. MAY
Pulse reports say I am off, we have the county and are for them. It is all untrue. I came out myself to train for the county, uncommitted to anyone for the support. If elected, I will go to the office for awhile when voting time comes my vote will go to the office for which I am not seeking the office who seems to be the best for the county. I will not be trading by me. I shall remain independent. I will not go to office waste or graft.

Some say Willard May is running for office with Claude May, Dave Leslie, Bob Shepherd, Chalmers, Gustavos Stephens and Joe Taylor Hyden as possible aspirants. The public is entitled to know how many of these men expect good jobs. Our schools have been a football long enough.

Palmer Hall has not convinced the public Town's rule is broken. Some fear a repetition of what went on during his first term as superintendent. Town is reported to have said from the platform regarding the county to advise Palmer. The following unselected signatures were given for publication:

When Palmer was Superintendent before, I went into the county intending office to apply for a position as teacher. After the election I learned his throat a couple of times and he cleared me I would have to see Palmer. He was informed I was out in the hallway. I found him out there seen the business that was supposed to have been done before the election. Palmer had been against him, so he offered to give me a job but never offered any signed.

ALTON CRISP
Martin, Ky., Oct. 25, 1946.

How does Palmer Hall answer these questions? IS IT TRUE?—That Boone Hall will be the next Superintendent? That Hester Martin was employed in the office to help in running the county? That Preacher Alex Stepiens was hired in the office because he was a board member? That Mrs. Campbell was hired because her husband had been a board member? That "Sold John," who is backing your administration in the Times now, is the wife of one of the job holders who quit today? Do you explain why so many schools held campaigns at all the same time recently, and why you do not come out against campaign funds from teachers and voters? Is it true that Knott county has only one school running in the county? That Boone Hall, in the Times you state you propose to be dictated to. But is it true that Dr. Allen, chairman of the Board, would not take any part in the campaign? Is it true you first refused, and then accepted, did not refuse one in saying you would take no part in any controversial issue not affecting the schools?

DR. ALLEN. Is it true that you have made recent pre-election promises to schools, telling one community it will have a school bus if you are re-elected? If so, why didn't you get it for them some time? Is it true that you told the county board and members of the other force to take no part in the dry campaign, but that you were going to win? That when your son, George, wanted to be a teacher, you, as principal, kicked out of manual training for him? That your daughter, Harriet, an intermediate teacher, replaced the experienced instructor of the kindergarten—a snapp of a job—with a handful of tots, leaving the former and first grade to the other teacher? That your sister-in-law Mrs. Baker, still holds the "night" job of part-time librarian? That when the new building was ready for occupancy you and Mrs. Baker and Harriet, insisted upon having the teacher in the building, though their grades were due to be elsewhere, because of granted blackboards? That most poor teachers stood no chance of teaching in Maytown till the war gave them better jobs elsewhere, although some of them were really good teachers? That Maytown teachers who failed to "fall in line" when you were trustee were ousted? That your niece, Corinne Allen, was moved from Maytown to Bosco this year because of a remark her mother made about a certain household? (Several persons know why Cola Allen is not supporting his brother as he previously did.) Is it true you were disqualified eight years ago in a contest suit for violating the Corrupt Practices Act, but went back on the board the same year after your wife replaced you temporarily? Is it illegal for you to serve then after having been disqualified by law. Isn't it true you refused me a school anywhere in the county for years (reasons well known, and to my credit), and then wanted me to give your sons jobs during my term as re-elected? Would you have done so had their qualifications been sufficient? If elected, I shall not refuse my relatives school positions, but I will not approve of their arriving late, leaving early, cutting classes, and faculty meetings. Are you interested in getting or giving, Dr. Allen? Are you for service or for the dollar and self? Your record speaks for itself. I may explain why I found only two men for you while campaigning in one precinct, and each of those drives a school bus!

Again I suggest that the candidates of Division 2 meet in public and express their stands on school positions. (Political advertisement)

Higher Telephone Rates are Needed

Because the amount paid to furnish you service is increasing faster than the amount taken in. All costs of providing service have gone up tremendously, while your rates are generally lower than 15 or more years ago. Therefore, it has become imperative for us to apply to the Kentucky Public Service Commission for telephone rates that will more nearly meet these higher costs and enable us to go ahead with improvement and expansion of your telephone service.

VETS IN SCHOOL MUST REGISTER

Veterans attending educational institutions under provisions of the G. I. Bill must register with the regularly prescribed standards and procedures of the institution during their period of enrollment, was the advice of VA officials at the Columbia Branch Office for Ohio, Michigan and Kentucky. Government-aided tuition to an educational institution does not place a veteran in a "special privilege" status, nor does it constitute a ticket on the so-called "cray-train."

THREE-WAY RADIOS IN VA HOSPITALS

Two Veterans Administration hospitals in Ohio and one in Kentucky are installing 30 VA hospitals in the nation in which three-channel radio receiving equipment will be installed during the coming year. The equipment will be installed in a choice of three radio programs instead of the one at present installed eventually in all VA hospitals and clinics. During the coming year the equipment will be installed in Dayton and Brecksville hospitals in O., and the VA hospital at Outwood, Ky.

Dinner was also served to County Attorney and Mrs. Kenneth Caldwell, Mr. and Mrs. Glenn Burchett and Tom W. Burchett. After dinner, Judy was the recipient of many gifts. The afternoon was enjoyed in a hike to the hills.

QUESTIONS AND ANSWERS

Q. What benefit does a veteran get from having the Veterans Administration guarantee the loan? A. According to the Veterans Administration means that the credit of the United States government stands behind the guaranteed part of the loan. The better a veteran can offer a lender is increased by the amount of the guarantee. Q. How can I arrange to have my National Service Life Insurance premiums deducted from the disability compensation checks I receive from Veterans Administration? A. You can do this if you will go to any Veterans Administration office and fill out a form authorizing VA to make the deductions from your compensation payments. Q. Before the G.I. Bill was amended I used up my whole guarantee of \$2000 to buy a farm. Now that the maximum guarantee has been increased to \$4000, would I be entitled to an additional \$2000 loan-guarantee if I wish to purchase more land? A. Yes. If you used part or all of your loan guarantee before the Servicemen's Readjustment Act (G.I. Bill) was amended last winter, the amount of loan-guarantee credit used is deducted from the amount for which you are eligible under the amended bill and the remainder of the amount of guaranteed credit which you may use in obtaining future loans.

NATIONAL FIGURE ENDORSES MAY

The following is an exact copy of a letter from John W. McCormack, Democratic leader in the House of Representatives—a national figure whose ability and foresight have won for him Congressional leadership:

OFFICE OF THE MAJORITY LEADER
HOUSE OF REPRESENTATIVES U.S.
Washington, D. C.

Hon. A. J. May
House of Representatives
Washington, D.C.

Oct. 15, 1946

Dear Andy:

In your present high position, I consider your re-election essential for the best interests of your people, and the welfare of the nation.

During the years you have been a member of the Congress, you have rendered outstanding service to the people of your district and the people of our country. Not only have you represented your people ably and with loyalty, but you have represented them with courage.

As the Chairman of the all-important House Committee on Military Affairs before Pearl Harbor and during the war, you led the fight for passage of legislation necessary to defend and preserve our country. Your post as Chairman of the House Military Affairs Committee is not only a most important position but in addition, a most trying one. History will record that the part you played in the passage of necessary legislation would justifiably place you as one of the foremost Americans of this

A. J. MAY

generation. I am sure the people of your district appreciate this fact.

Our late and beloved President, Franklin Delano Roosevelt, our war-time Commander-in-Chief, had the strongest feeling of regard and friendship possible for you. I know he admired you very much. As you well know, I was very close to the late President. On many occasions he mentioned you to me in a most complimentary manner. I well remember the many important conferences you and I attended, and in which were discussed and considered legislation of vital importance to the future of our country. President Roosevelt had a high regard for your opinion.

I know the people of your district are honored and pleased with the progressive type of representation you have given to them. You richly deserve reelection.

I am confident, as I hope and urge, that the people of your district will reelect you and enable you to continue to give to them, and to the people of our country, the highest type of service you have always rendered to them.

With kindest personal regards, I am

Sincerely, your friend,

JOHN W. McCORMACK

Majority Leader

Who's Trying To Tell Us How To Vote?

The Big Boys from Gotham love us like a step-child. Haven't you noticed how they love us? It is touching.

First of all, they are out after Jack May. They tell us what to do to satisfy them—defeat Jack May. They send their most talented smear-artists to Eastern Kentucky, the counties where Jack May has lived and practised law, where he was born and reared and expects to die, then these purveyors of dirt go back to New York and write rot—pure rot—about Mr. May and the people who are his people and who sent him to Washington.

They hate Jack May because, above all things, he will not be dictated to by them or any other group of Big Shots. They hate the folks who live in his district because they consider us apart from them, even beneath them.

Two weeks ago, for instance, NEWSWEEK, the New York magazine which poses as an impartial dispenser of the nation's news, wrote of Mr. May's opponent's campaign by jeezy through this section:

"The men who live in the Kentucky hollows along the Big Sandy river haven't had much chance to talk to strangers. Dry creek beds and wagon paths are all that connect many of their log cabins where at night spinning wheels still hum and the 'leatuns' play by the open fire."

Let us break off the quotation there to ask, HOW DO YOU LIKE THAT? Aren't we pitiful, shut off from strangers, cooped up in our log cabins, lulled to sleep only by the hum of the old spinning wheel in the parlor?

Yes, they love us—they would not lie about us for anything—ex-

cept to regale the appetite for lies and dirt that their readers have. Now, read further from this same magazine:

"It is a long time between visitors, like the wandering singers with their 'sure-enough' fiddlers and their songs—'My Gal Is Bill-be-Damned' or 'Pa's Done Et the Shotgun'. Their names for their hollows give them away—'Lonesome, Troublesome, Peevish'."

Personally, we see nothing wrong with "Lonesome" and "Troublesome" as names. Of "Peevish" we know nothing. If it exists, it's all right. It is there—and nothing is "given away" but the spirit of malice these New Yorkers feel for us. Remember John Fox' fine romantic story, "Christmas Eve on Lonesome," or Mrs. Furman's novel, "Mothering on Perilous"? These two very fine writers found only romance, color, beauty, rugged honesty here.

Speaking of names, what about these New York "darbs"—Yonkers, Harlem, Hell's Kitchen, Jamaica, the Bowery and all those illing euphemisms that tickle the delicate New York ear?

But do we folks of Eastern Kentucky go around sniggering up our sleeves with stories of East Side filth and crime, of New York killers on the prowl, of a child ground to death under the wheels of a gangster's car in one block, of a child dying horribly at the hands of a sex maniac in another?

WE DO NOT. We are a fair and unprejudiced people.

Do we try to besmirch the names of their public officials because they do not recognize us and do as we would like them to do?

WE DO NOT. We are an independent people who believe as little in dictating to others as we believe in others dictating to us.

NEWSWEEK, from which we have here quoted in an article commending Jack May's opponent, has its editorial offices on 42nd street, New York City. It is owned and controlled by the Wall Street Astors.

In the same great city is The New York Post whose John O'Donnell came to Prestonsburg several weeks ago and returned to write with the same poison pen that assailed the late President Roosevelt. He attacked not only Congressman May but all the rest of us. He wrote, not in kindness, not with any thought of helpfulness, but from the distilled essence of vitriol that fills his heart, this diatribe of falsehood:

"Human nature is nowhere more enery in this Republic than among these feudin' hillbillies . . . And nowhere is the universal streak of larceny darker and deeper."

And there we are, all of us—libelled, ridiculed, set apart as Things, not People, by folks who know nothing and want to know nothing of Eastern Kentucky, its fine people, its beauties, its hope of the future and its great and fine loyalty to its own.

These are the kind of folks who tell you and us how to vote and for whom to vote—these folks who paint us as savages living in log cabins, as deep in hopelessness as the Man with the Hoe.

We ask you—are you willing for such as these to advise us?

We wonder if these New Yorkers know that out of the Kentucky hills have sprung a Fred M. Vinson, Chief Justice of the Supreme Court of the United States, a Green H. Hackworth, a member of the World Court, and an Andrew Jackson May, who has made a fine record as our own Congressman, and many others.

Miss Smith Named To Students 'Who's Who'

Miss Marcia Smith, daughter of Mr. and Mrs. R. Smith of Hindman, has been chosen as one of five from Kentucky Wesleyan College, Winchester, Ky., to be a member of 'Who's Who Among Students in American Colleges and Universities.' The members were elected by the faculty of Kentucky Wesleyan and their choice was based on the following outstanding qualities: character, leadership in extra-curricular activities (athletic, society, religious, etc.), scholarship and potentialities of future usefulness in business and society.
Miss Smith, a member of the senior class, is president of Chi Upsilon Chi society, president of the Women's Athletic Association,

Mr. Wicker was asked by a statement in The Floyd County Times last week to come to the courthouse and answer three questions. He appeared in person and here are the answers:

1) He stated that he has the training, experience, and the legal qualifications to hold the office of county superintendent, and further, that he would accept the job should a majority of the Board be for him. He added that he would refuse the job if there were strings attached, such as three county superintendents, for instance. It is his opinion that one county superintendent can serve the Floyd county schools most effectively.

2) He answered the second question by stating that he would do away with the offices of both assistant superintendents. It was pointed out that a complete reorganization of office personnel was needed and that a trained staff could replace those who were not qualified for the jobs they are holding at a saving to the taxpayers of thousands of dollars. It was revealed that the present rural school supervisor majored in biology and prepared to teach high school without a day of experience in the elementary field. Perhaps this person is holding a job without thought of the children, but to keep him from becoming the opposition.

3) He stated emphatically that he would lower the burdensome \$1.50 tax to \$1.00. It was shown that the Floyd county schools had been operated for years on a \$1.00 tax. It was a special tax in some of the consolidated schools. Figures were presented to show definitely that a tax of \$1.00 and the increased merit and equalization funds would be sufficient to operate schools with more school bus service on a nine months' basis, to increase teachers' salaries, and to finance a planned building program.

Mr. Wicker explained that most city school systems, including Prestonsburg, had a higher tax levy than county systems because of a greater concentration of population and smaller taxable units. The \$1.50 tax was shown to be particularly hard on the farmer, who usually has to sell some livestock or other farm product to meet his tax bills. It was reasoned that the rural schools ought to have running water, sanitary rest rooms, lavatories, etc., like the schools in the towns, since the people in the rural communities pay the same tax.

Three reasons were given why there should be a change in the administration of the Floyd county schools:

1) A change is needed for the sake of democracy. No family or group should be allowed to perpetuate themselves in office for a whole generation.

2) A change is needed because the present administration has not kept faith with the taxpayer. The law allows a 25 cent minimum and a \$1.50 maximum school tax according to the needs of the system. The taxpayer in this county is being taxed to the limit of the law when it has been shown not to be necessary.

3) A change is needed to promote economy and efficiency in the school system. Many examples of inefficiency were pointed out and five suggestions presented to remedy and improve these conditions:

- a) Reduce and replace office personnel with strict emphasis placed upon employing persons qualified for the job which they are to do.
- b) Better organization and administration of both elementary and high schools of the county. Pupil-teacher ratio was suggested as a basis for beginning a reorganization to effect a great economy.

as well as efficiency.

c) Effective supervision of the school bus garage, the county school truck, and other school properties. It was added that expense accounts needed careful attention and accounting.

d) Do away with three county superintendents. It was pointed out that three county superintendents were found to be unpopular with the people, and that now the name of assistant superintendent was being camouflageed by another title.

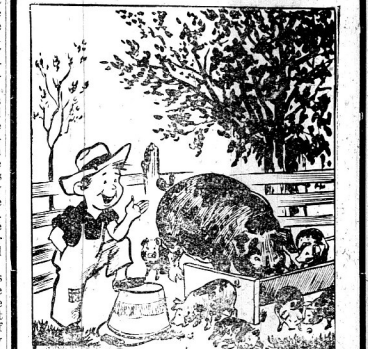

e) A more equitable basis for paying principals and teachers. The principals are paid on a twelve months' basis. The teachers are paid on a nine months' basis. The principal in most instances receives twice the monthly salary of the teacher. Yet the teacher is nearer the child. Some of the principals were paid to attend summer school, but all teachers paid their own way.

Mr. Wicker concluded his address by saying, "I hope sincerely, regardless of the outcome of the election, that the interest in the welfare of the Floyd county youth may be advanced. Each of us, ally and opposition, must rededicate ourselves to a better program of education everywhere. Let us vote, and when we vote, let us vote to preserve and perpetuate the ideals of democracy. Let us be on the march."

Who Is The Veteran's Friend?

The answer to this question is simple and easy. "Let's take a look at the record."

Every one will agree that the passage and final approval of all legislation affecting men in the service was reported and passed by the Committee on Military Affairs of which Congressman May is Chairman.

The following are some of the many bills he sponsored and had enacted into law:

- 1. "Soldiers and Sailors Civil Relief Act."** This law suspended enforcement of certain liabilities of men in the service as follows:
 - (a) No landlord was permitted to throw any soldier or sailor's wife and children out of their home for non-payment of rent or taxes while he was in service.
 - (b) Prohibited collection of taxes or enforcement of other debts while the soldier or sailor was in service.
- 2. Pay and Allowance Law.** This law provided family allowances to wives, children and dependent parents of men in the service. The following are the rates of allowance:
 - The wife \$22.00 from soldier, \$28.00 from the government, equals \$50.00 per month. 1st child \$30.00, additional children \$25.00 each so that a wife and five children would receive \$150.00 per month.
 - An Act to readjust pay of service men raising their pay from \$21.00 in first World War to \$50.00 in the last war.
- 4. A Bill to Protect Mentally Disabled Veterans.** This bill removes restrictions and provides prompt payment of muster-out-pay to mentally disabled veterans—a very human act.
- 5. A law that liberalized the pay and allowances of the wife, children and dependent parents of service men by increasing the allowances.**
- 6. Muster Out Law.** This bill, which is now Public Law No. 225, provides "muster out" pay of \$300.00 for all men on being discharged from the service, payable \$100.00 at the time of discharge, \$100.00 thirty days thereafter, and \$100.00 sixty days thereafter.
- 7. A law to provide for return of bodies of our war dead.** This law directs the War Department to provide metal caskets without cost to the relatives of our soldiers, sailors and marines who lost their lives in the service, and bury the bodies wherever parents or next of kin may request. It authorizes appropriation of the necessary money which has already been made available. The War Department is now engaged in returning the bodies as fast as caskets can be provided.
- 8. The G.I. Bill of Rights.** This law provides material assistance to all our service men and women who want to go to school and hundreds of thousands are now in schools and colleges throughout the country who otherwise could not have gone to school at all. It authorizes federal loans to enable veterans to buy homes or start in business. It provides unemployment compensation for those who can not secure a job. It is the open door of opportunity for all those who strive for a chance in life.
- 9. Terminal Leave Pay.** This bill, now Public Law No. 704, provides terminal leave pay to enlisted men and women in the service on a basis of equality with officers. Gives equal treatment to the privates in the ranks as heretofore given under a law passed in 1887 to officers. These claims are now being processed and paid as rapidly as possible.

Wheelwright, Ky., Oct. 30 (Sp.)—Six members of the Wheelwright Woman's Club attended the 28th annual meeting of the Seventh District, Kentucky Federation of Women's Clubs, in the recreation building of the Hindman Settlement School. They were Mesdames H. O. Zimmerman and Yale Kover, delegates, and Mesdames Arthur Bradbury, Stephen W. Clark, Robert Airle and Lyman Jones.

Delegates and representatives from the 19 clubs in the Seventh district were there, and presented interesting reports of the past year's work.

Of special interest were the addresses of Miss Chloë Gifford, president of the Kentucky Federation of Women's Clubs, and "To Menorah" by Mrs. Clark Pratt and the special music provided by Mrs. Garland Franklin.

In her address Miss Gifford, speaking on the post-war period, said: "Only one thing stands out clearly—the need for objective thinking." She stressed the idea that each Kentucky clubwoman be an informed and participating citizen of the world and that she be made of the Committee for the United Nations conferences. This year membership into the Committee for the United Nations was urged and she called upon the clubmembers to get behind the movement, it being only a fast-finding boy and the result of this depending upon the citizens of the state.

Mrs. Clark Pratt gave the interesting story of Miss May Stone, the founder of the Hindman Settlement School, describing her as the great benefactor of the rural mountaintain boy and girl.

Two new members of the official family were elected: Mrs. Archie Grant, of Whitesburg, vice-governor, and Mrs. Glenn Blackburn, Betsy Layne, recording secretary.

The Jenkins Younger Woman's Club won the honor of being the club that had done the outstanding work of the year, while the Whitesburg Club won the prize for having the nicest year book.

From where I sit... by Joe Marsh On Playing the Fiddle Braddy

With nothing more exciting than old songs, and a glass of moderate beer or cider. From where I sit, it's a heap more important to be a poor fiddle player, than not to play at all.

(In the language she understands) "Kipling said, 'The female of the species is more deadly than the male.' I feel it takes a woman to discern a woman's real character, and she's getting to be a woman, as evidenced by Mrs. E. R. May's recent political advertisements, especially in her remarks concerning Dr. Allen. Only a woman, I fear, could be invited to answer it."

Do you realize, Wilma, that the cost of everything (which includes materials needed by the schools) has gone up in price since your day? Surely you know this, so how do you propose to pay higher wages to teachers (which they deserve) on that 75 tax which you claim is sufficient? Sister, you figure out that one and you can balance my budget any day, Frankly, I don't believe you can. It is the writer's opinion that just so much vote-bought. When you are shopping, don't you trade at the store where you know you will get the most for your money? The favored store you mentioned has always sold supplies cheaper to the Board than could be found elsewhere. Don't you consider that economy? Incidentally, Wilma, you really should get your facts straight. Neither Dr. Allen nor his wife has owned stock in this store since before Dr. Allen first ran for Board member.

Dr. Allen would be the first to admit that at one time he did prefer having other than local teachers in Maytown school, but not for the reason implied by you. He has always been deeply interested in our school and at one time there were two few qualified local teachers to maintain our high standard. Surely, Wilma, you do not assume that you are a well-educated woman, with few college hours you have indeed. I have heard rumors that you once failed to pass an examination held for county teachers at Prestonsburg. But enough of that. When I stop to repeating gossip, that's another plank stolen from your platform.

As for your volunteering for the air corps burial for him, Floyd county is proud of him, just as they are proud of all the boys who served their country. But why do you drag politics into this political campaign? He did his job in the army; now he has to do yours, now? By the way, he must have inherited your talent, as the recent letter, signed by him in The Times, amply shows of your literary style.

You persist, Wilma, in dragging out the wet and dry question. This has been settled, and shall may be on the present election, no more than "Right or wrong, and what we do is right." You are a Methodist and another Baptist. Any intelligent person can see it is merely a matter of opinion, to which we are all entitled.

If it weren't for the children who attend school in Floyd county, I'd like to see you win, Wilma. It would be interesting just to watch and see how long it would take for the Board to become disorganized, demoralized and the members at each other's throats. As it is now, they work as one smooth unit. The people of Maytown could probably testify as to your disturbing influence in their church. They haven't forgotten you by any means. I firmly believe the people of Floyd county have enough sense to know what they want, and will not be influenced by false rumors. If you are as sure as certain, articles would have us believe, Wilma, why don't you write us something real new? (As for me, I have no claim to say "Right or wrong, and what we do is right." Denouncing your opponents as lawless and un-American—others that one is so old it is green with moss.)

I realize I am making a perfect fool of myself for Mrs. May's ire, but as she herself would probably say, "Right or wrong, and what we do is right." HELMETH ALLEN Lanckey, Ky. (Political advertisement)

We Voters Know We Need A Change

CITIZENS of Floyd county in great numbers are echoing and re-echoing, "WE NEED A CHANGE! WE NEED A CHANGE! WE NEED A CHANGE IN THE ADMINISTRATION OF OUR SCHOOL SYSTEM!"

We voters know that our school taxes did not have to be raised from 75c to \$1.50. We voters know that we do not need three superintendents to operate our school system. We voters know that the salaries of these superintendents are \$4,500.00, \$3,600.00 and \$3,600.00, respectively, making a total cost for three superintendents \$11,700.00 annually. We voters know that there are a number of other workers in the superintendent's office who draw big salaries. We voters know that the school system received \$43,900.00 more from the equalization fund and \$70,000.00 more in per capita from the state this year without raising the taxes one penny. We voters know that there are 115 counties in the state with school administrators who did not impose the maximum school tax of \$1.50. We voters know that there are 119 counties in Kentucky operating their schools without three county superintendents.

We voters know that WE NEED A CHANGE. We voters know that we must vote for

JOE WHEELER Division No. 1, and WILLARD MAY Division No. 2, for school board members. They are the candidates who stand for a change. They are the candidates who will lower our taxes to a fair rate. They are the candidates opposed to three superintendents.

Yes, WE VOTERS KNOW, "WE NEED A CHANGE! WE NEED A CHANGE! WE NEED A CHANGE!"

Yours for a change, VOTERS AND SUPPORTERS OF JOE WHEELER BURCHETT AND WILLARD MAY

No matter how he kicked... we stood 'Ole Debbil' Inflation on his head. HOW can inflation be prevented? Some say that the keen competition that comes with rapidly mounting production will quickly force prices to reasonable levels—others say we must have government control of prices until production gets into full stride. No matter which theory is right, our customers need have no fear of "uncontrolled" electric prices. The history of electric service is one of long and continuous effort to bring the price of our product down so that every one can afford to use it extensively—and for many, many years we have consistently passed savings on to our customers in the form of reduced rates. Actually during and after the war, when the price of nearly everything else went up, we turned inflation upside down for we have reduced electric rates in the face of considerable increases in the cost of labor and materials. Today, the average household customer pays less for each unit of electricity he buys than he did at the beginning of the war. Basically, greater economy, improved methods and mass production have enabled us to keep down the price of electricity... and don't forget that we may not increase our rates without sanction of the state utility commission. Every day more people realize the work-saving, health-saving, recreational values of light and power—they find that electrical appliances are the key to better living and put them to work. As use of our product expands... as methods and facilities improve... the unit cost of electricity declines—that has been our experience through many years. *5% less.
