From where I sit... by Joe Marsh

A Definition of Our Town

Somebody defined our town just the other day as "A place where the people talk about you behind your back, and come to wait on you when you're sick."

I've got to admit there's something to it. A lot of our folks are inclined to be pretty outspoken and quick to criticize. . . . even about little things, like a woman's hat, or a man's preference for a class of beer, or the color of Cy Harman's new barn.

But when anyone's in trouble, those differences and points of criticism are forgotten. . . . and folks become neighborly and helpful, like they really are.

From where I sit, criticism never did much harm to anybody, as long as folks don't let it guide their actions. . . . so long as they respect our individual preferences, whether they apply to hate or beer. That's the way it is in our town, anyway, and I hope that it's the same in yours.

VA LAUNCHES NEW PROGRAM

To Inform Veterans Of GI Life Insurance And Offer Assistance

The Veterans Administration Regional Office Tuesday launched an intensive National Service Life Insurance information program designed to assist 265,000 Kentucky veterans of World War II in retaining or re-instating G.I. insurance. Of this number 60 per cent are permitted insurance to lapse.

Harry W. Farmer, regional manager, said the state plan is being co-ordinated with a nation-wide drive to bring NSLI information to the 14,000,000 veterans of World War II. Only 4,000,000 still retain G.I. insurance.

The VA feels that the majority of veterans who have let their NSLI lapse are not familiar with the privileges and economic security that this insurance affords them. Mr. Farmer said. "We believe that NSLI will provide protection against privations and hardships that enter the lives of veterans' families who are left without security for the future."

The VA official emphasized that cost of NSLI is low "because Uncle Sam pays all overhead expenses out of the national treasury."

Mr. Farmer urged veterans to continue NSLI term insurance during their readjustment to civilian life, and to convert only after they have become established and know what their financial capabilities and insurance needs will be.

After term insurance has been in effect for one year, it may be converted in whole or in part to one or more of the following permanent forms of insurance: Ordinary life, 30-payment life, 20-payment life, endowment at age 65, endowment at age 60, and 20-year endowment.

Complete NSLI information is available at all VA offices in Kentucky and insurance collection units have been established at Ashland, Corbin, Covington, Hopkinsville, Lexington and Louisville. Premiums may also be mailed to the Collections Division, Veterans Administration Branch Office No. 6, 53 South Starling Street, Columbus 8 Ohio.

State local service Administration contact office is located in the Kentucky State Employment Service office at Biggs Bldg., Prestonsburg.

When paying premiums or in submitting inquiries, it is of utmost importance include complete information, specifically: full name, present mailing address, "M" or "V" insurance certificate number, service serial numbers, date of discharge from service, and date of birth.

Resolutions of Appreciation Of Rev. and Mrs. J. E. Felty

WHEREAS, the Allen Baptist Church has been most fortunate in having Rev. J. E. Felty, Jr., as pastor for the last 18 months, and

WHEREAS, Rev. and Sister Felty have rendered great service to the advancement of God's work during his pastorate, both of them unwaveringly of their time, talents and epiritual ability, and

WHEREAS, under their leadership and fine examples of Christian manhood and womanhood, the church has made immense progress in organization, in material advancement and in spiritual growth, the membership having tripled under his ministry, and

WHEREAS, a great loss is sustained by the Allen Baptist Church of Allen, by Martin, Warco, Maytown, Emma and Lancer communities served by weekly prayer services by Bro. Felty, by all Floyd county, which will remember him as the general chairman who led the Floyd County Dry Campaign Committee and his force in an overwhelming victory, and

WHEREAS, Rev. Felty has been called to another pastorate,

BE IT RESOLVED, that we express to him and Sister Felty our heartfelt appreciation for their services among us, our unflinching love and prayers for God's richest blessings on their work through the years to come.

BE IT FURTHER RESOLVED, that we heartily commend him to the Fairview Baptist Church of Ashland, Ky., as a fearless exponent of the faith, unvarnished gospel of Jesus Christ, who preaches with fervor, zeal and courage, under the power and influence of the Holy Spirit, unmindful of opposition or subsequent consequences to himself, since his major purpose is the glorification of his Lord and Saviour Jesus Christ.

BE IT RESOLVED, that we recommend him and Sister Felty as consecrated, efficient leaders in all fields of church work, especially in the department of the young people. We particularly commend them for the complete dedication of their fine talents to the work of the Master.

BE IT FURTHER RESOLVED, that we rejoice in these resolutions be sent to the Western Recorder, the Ashland Daily Independent, The Floyd County Times, the Fairview Baptist Church of Ashland, Ky., the moderator of the Enterprise Association for recording in said minutes, that they be published in the bulletin of the Allen Baptist Church and that a copy be mailed to Rev. and Mrs. J. E. Felty, Jr.

Unanimously passed by Allen Baptist Church, Allen, Ky., January 10, 1947.

"I'll be fired for that fool story!"

The managing editor of the *New York Herald* took a day off
on December 21, 1937. So his headline in his paper hit him
without warning.

EDISON'S LIGHT—
IT MAKES A LIGHT, WITHOUT GAS OR FLAME!

The public promptly shouted "hoax!" Scientists called Edison
a crazy, and our shocked, angry editor expected to be fired.

But he wasn't. Eleven days later, Thomas Edison held a
unique New Year's party in his laboratory at Menlo Park,
New Jersey, and invited the world to see his "flameless light."
Thousands came and were so impressed.

Soon small companies were bringing the benefits of Edison's
new lamp to the people. Engineers and business men
poured in their energy and their... risked their own careers...
...overcame all kinds of obstacles... broadened and
improved the service.

Government didn't do the job. Individuals did. And in the
process, they created jobs for many thousands of Americans...
as well as a great new service for many millions more.

When Edison opened the first power plant in 1882, the
lights cost 25¢ a kilowatt-hour. This year the first anniversary
of the inventor's birth, the average price of household electricity
across the country is only 3.1¢ per kilowatt-hour.

Thanks to Edison's imagination and enterprise—thanks to
the courage and initiative of many men and women working
under the American business system—this country enjoys the
most and best electric service in the world. And all our lives
are richer, safer, more productive.

**Information for those
who wish to order a**

PONTIAC

Because of their goodness and beauty—and their wonderful war-
won reputation for dependability—the Pontiac Silver Streaks
are in unusual demand. Furthermore, because of strikes and
material shortages, production at the factory has not reached
the levels which had confidently been expected. As a result,
some of you who wish to order Pontiacs will experience delay
in delivery. In order that you may know just how we are handling
the cars which we receive from Pontiac, we publish below the
major points of our distributing policy.

**The Sooner You Order Your Pontiac the
Quicker You'll Get It**

It is obvious that—regardless of any priorities which
may be involved—order your Pontiac
the earlier you get it. So place your order now
for future delivery.

**Your Order Will Be Filled According to
These Priorities**

We feel duty bound to give preference in the order
of delivery to certain users whose work is in the
public welfare, and to veterans with certain occupa-
tional requirements. Otherwise, your order for a
Pontiac will be filled on the basis of the date it is received.

**We Want Your Order Whether You
Have a Used Car or Not**

We need used cars to take care of our regular used
car customers and will give the highest appraisals
possible on the basis of current values. We think you
will find it to your advantage if you trade your car to
us, but whether or not you have a used car, we want
your order for a new Pontiac.

**You Will Pay the Prices Which Are
Current at Time of Delivery**

We have at all times a published list of current
Pontiac delivered prices in this community. That is
the price you will be asked to pay when your car is
ready for delivery.

**Your Pontiac Will Come Equipped as
You Specify on Your Order**

Insofar as factory production of accessories will
permit, your car will be equipped as you want it.
You do not need to purchase equipment when you
order to get a new Pontiac.

**We Will Give You Our Best Estimate as
to Delivery Date**

Due to conditions beyond our control, we cannot
say exactly when your car will be delivered. How-
ever, when you place your order, and at any time
after that, we will give you our best estimate of when
you may get your car. But we say again that, regardless
of the "wait"—you will get your car earlier if you
place your order now.

HOT AND IN A HURRY!

Hot as a firecracker. That's an expression. Hot as a soldering iron. That's a fact! A fact spelling progress as new telephone connections are soldered together—putting speed into the Telephone Company's program to improve service.

Telephone folks are in the thick of things, striving to give you as quickly as humanly possible the kind of service you want. Installing equipment for more and better telephone service is a time-consuming, complicated job. Miles of wiring must be laced into switchboards. Millions of intricate connections soldered, each in its precise place. Banks of electrical relays set up. Cables laid. Poles erected. Wires strung. And sometimes a whole new building constructed.

"Get the work out!"

That's our slogan. And that's exactly what we are doing as fast as we can get the materials and then install the equipment.

PROGRESS... and How!

In KENTUCKY during 1946, the Telephone Company installed more facilities than at any other time in history. 34,000 miles of exchange wire, 518 miles of long distance circuits, and 35,303 telephones were added. 76 local and long distance central office additions were made and the number of employees increased 30 per cent.

Watch telephone service grow, for as it grows so does its value to you. That's because you can reach so many more people!

Mr. Halley stated that the rural
highway department also placed
1800 tons of gravel on the David
road without expense to the county.
The gravel purchased for the Boso
road for 1946 delivery was not deliv-
ered in 1946. The road was omitted
from the maintenance program last
year, Magistrate John May said, be-
cause the highway department gave
its promise that the route would be
shelved.

"To help the highway department
along in the hope of getting roads
built and gravel on before winter,
the county has furnished air com-
pressors and graders for whatever
grade and ditch work that has been
done in the county," Magistrate
Burchett said. But, he declares, the
program is not a success—"and we
are not pleased with it."
And not a member of the court
disseminated that opinion!
