"My Pop knows when everybody gets up!"

No, Tommy's Dad is not a snooper. It's part of his job to know what time you and your neighbors start turning on lights, ranges, shavers, percolators and toasters in the morning. For these all call for more electricity, and he's the man who tells the power-plants when to send more current through the wires.

If a bad storm breaks, Tommy's father detours your electricity, so storm damage won't black out your community. If tomorrow will be colder, or cloudy, you'll need more current. . . . It'll have it ready. As a *Lead Dispatcher*, he holds one of the most important jobs in your electric company.

Next-door neighbors to everybody are these helpful men who see that you get all the low-cost electricity you want, when you want it. They have to know the hour-by-hour needs of every neighborhood . . . and that's where they draw on the intimate knowledge of the community that the electric company has gained over many years. It's the skill and experience of electric company people like Tommy's Dad—and the common sense business methods they use—that have built up for Americans the most and the best electric service in the world.

A MESSAGE FROM THE SECRETARY OF WAR

**How you can help YOUR ARMY DO ITS PART FOR PEACE**

With the President's proposal for the discontinuance of Selective Service on March 31, America will rely on voluntary enlistments for the maintenance of the Regular Army at authorized strength.

In view of world conditions today, this is a step of the gravest importance to every American citizen. Never before in history has any nation raised and maintained a million-man army by the volunteer system alone. Our ideals, our belief in individual freedom, our safety and our duty to promote world peace—all are bound up in this decision.

This is your Army, and voluntary enlistment is your choice. It must not fail. With your help it will not fail. The Army must continue to provide adequate occupation forces overseas, to supply these forces, and to help in keeping America strong and secure.

Your help and understanding can do much to encourage a steady flow of 3-year voluntary enlistments, necessary to sound training and the efficient performance of the Army's task.

When you discuss this subject with your sons, brothers, husbands or friends who may be considering an Army career, bear in mind the advantages offered by a 3-year enlistment. Among them are the choice of branch of service and of overseas theater where openings exist, and the opportunity for thorough training in valuable skills.

A job in the new Regular Army compares favorably with the average in industry, and has more opportunities for promotion than most.

You can help by giving your respect and support to the man who enlists voluntarily—to do his part in carrying out your country's world-wide obligations to build a peace that will endure.

SECRETARY OF WAR

### ETERNAL REST

My heart is heavy with the memory of a loved one gone to rest; He will always be remembered By the one who loved him best.

Peace be thine in rest, dear Roy. It is so sweet to speak thy name. In life I loved you dearly, In death I do the same.

Sad and sudden was the call By one so dearly loved by all; A bitter grief, a shock severe, To me to part with one so dear.

May God grant you eternal rest.

Dedicated by Mother, Eva O. Hall, McDowell, Ky., in memory of Sgt. Roy Hall, killed in action March 3, 1945.
