Appointment of County Committeemen

Appointment of R. D. Spurluck of Printer to a three-year term on the Farmers Home Administration committee for Floyd county was announced this week by Earl Mayhew, state director. Mr. Spurluck succeeds Clayborne Bailey, of Justell, whose term expired June 30. Also on the committee are Dick B. Clark, of Cliff, and Webster Akers, of Crutcher. A committee of three serves in each agricultural county throughout the nation in which the agency makes farm ownership and operating loans. Appointments are scheduled so that a committee always has two experienced members.

The Floyd county committee has an important place in making supervised credit available to local farmers, according to Clisby C. Modes, county supervisor. Before any money can be borrowed through the agency an applicant must have the approval of the county committee. In the case of farm ownership loans, the farm to be purchased, improved or improved must also be approved by the committee.

To protect the backs of sheep bleachers or dresses in hot weather, make a removable yoke or back lining which can be washed, then snapped in place.

needed. I have been convinced time and again of the abilities of our engineers.

"Progress hurts no one—not even those who at first feel it will hurt their interests," Cooper declared. "I firmly believe you will get the best (reference to Congress action)—you deserve the best," he told the backers of the project.

He pointed out the wise move of the Big Sandy Valley Association and Congressman Meade in having Senator Malone to inspect the river for possible canalization. "George Malone is the only successful engineer in the Senate; he understands the need for strategic materials; he has the technical knowledge, and is particularly in an advantageous position as Chairman of the Senate Rivers and Harbors Subcommittee to help you."

Former Congressman A. J. May, of Prestonsburg, was praised by Cooper for having championed the cause of the river canalization when he was in Congress. He also hailed Congressman Meade as one who has been working hard on the project.

"We are living in a rather fictitious prosperity at the present time. But the coal business is becoming more competitive, and Kentucky must be prepared to enter the competition on an improved basis," Cooper stated.

Senator Malone followed Cooper in speaking to the meeting. He told of conferring with the advocates of the Big Sandy canal in Washington and promised to come to Kentucky to inspect. "My committee cannot possibly approve every project put before us. We do the best we can and hear them in order of their importance."

Before returning to Washington for the special session of Congress, Malone will inspect other projects in Arkansas and Texas.

He said that many things are being done in Washington now which will affect the Big Sandy river economically. He referred to the National Resources Economic Committee of the Senate, of which he is chairman, and said that research is being done to find synthetic uses of coal and other minerals. "When it is all worked out, we will be sending money to foreign gifts and loans."

In pointing out the importance of developments for better and more transportation facilities, he declared: "I have never seen a development, yet, no matter what that does not help a community as a whole, the railroads, power companies, and what have you. More business than ever before results."

comic books never yet have improved any child's mind. I doubt that they have ever existed any younger's nerves. But, somehow, I am unable to imagine any normal boy being influenced by the printed word or picture to the extent of turning criminal. As for the abnormal mental type, it will get the urge somewhere, sooner or later, and the opportunity, to express itself, unless the aberration itself is cured.

Time was when boys were given a tanning for reading Nick Carter. I myself have stayed up late, nights, to keep a clandestine appointment with thrillers about Jesse James and brother Frank, the Younger brothers, etcetera. Many times I have shivered in my copper-tinted boots in fear that during Jesse was going to get his come-uppance. We boys assumed hard-boiled, straight-shooting roles, at play.

But not one of us ever got the idea we should hold up a bank, ride an auto, or ride a motorcycle. And we were certainly no brighter than the usual group of boys today.

I also recall the Loeb and Leopold case a decade or so ago before comic books were in circulation.

I am all for getting the youngsters to read good juvenile literature. The day after tomorrow I have a stack for a more intellectual fare of reading matter. I'll be very happy.

But I do not believe the way to get girls and boys away from this trash is to start out on crusades with bonfires clearing the scene of such puritish reading matter. If we start that, we shall have to carry it on to clean out all these comic-and-robbers films, a lot of these sensational radio programs—and, too, we shall have to clean out our libraries shelves of a lot of downright dirt beside which would prefer that the boys and girls just stick to Dick Tracy, G. I. Joe, and all the rest of that moolay crew.

I myself might have to forego Porky Pig, on the theory that reading about him might make me self-conscious.

(Continued from Page One)

\$100, and, in most cases, the school rate of \$150. There also is applied whatever rate prevails in cities where franchise property is located.

These franchise values are the backbone of local revenue in many counties and school districts. Not counting revenue paid to cities, the franchise companies pay around \$20,000,000 a year to counties and school districts. In Caldwell county for example, the I. C. pays one-half as much as all other taxpayers combined.

The state rate of 50 cents yields some \$5,000,000 on the franchise assessments.

The conferees told Reeves they are more interested in reaching a fair standing with other taxpayers than in a reduction of the 80 per cent value they pay on.

A company attorney said: "We had rather the others were pulled to 80 per cent than for us to be reduced to 50 per cent. That is simply because we don't believe the state could operate at the lower figure."

Reeves told the group he is trying to correct the inequity by forcing improvement in local assessments. He asked for one year of grace.

The request was granted, upon his promise to correct the situation in one year. And then, in essence, came this ultimatum: If the situation is not corrected by next year, we will consider ourselves in position to insist upon the relief we think we are entitled to this year.

Rev. and Mrs. Campbell Jeffries and two children, of Louisville, are here this week, guests of the sister, Mrs. A. H. Spradlin, and Mr. Spradlin. Rev. and Mrs. Jeffries formerly lived here where he was pastor of Iron Cole Memorial Baptist Church. Their many friends are glad to see them again.

SPURLIN
INSURANCE AGENCY
Prestonsburg, Ky.

TO THE VOTERS OF THE 7TH CONGRESSIONAL DISTRICT:

We the officials of Knott county, Ky., take very great pleasure in recommending to the people of the Seventh Congressional District our good friend and fellow-townsmen, the Hon. Carl D. Perkins, as a Democratic candidate for Congress.

It has been our pleasure and good fortune to have Carl as our Representative in the state Legislature and as our County Attorney for two terms. He has more recently been Assistant Attorney General, assigned to the Department of Highways. All of these positions he has filled with great honor and distinction and they have certainly given him a variety of experiences which have better qualified him for the office of Congressman.

Carl D. Perkins is a very outstanding young man who possesses the rare qualifications of being honest, capable, sober, and courageous. He has demonstrated time and time again that he is a liberal of the Franklin D. Roosevelt School who has the courage to speak his convictions and who has consistently labored to better the conditions of the working man.

We sincerely believe that Carl would make, by far, the strongest candidate that the Democrats could offer for the final election in November since he possesses all of the good qualities that any of the other candidates could possess and in addition he has an established record of being a friend to the laboring man and he is the only Democratic candidate who served in World War I.

II, except Dr. J. C. Coldiron. He served 14 months overseas in General George S. Patton's army and took part in several battle campaigns, including the "Battle of the Bulge."

We urge the good people of this district to make a special effort in helping us to send this unusually capable, fine, and energetic young man to Congress, and we assure you that you will never be sorry for having done so.

We shall greatly appreciate the efforts of every person who helps to nominate our good friend Carl D. Perkins.

WHAT "Stepping Down" MEANS TO YOU

How the New Hudson, America's most streamlined car with the low silhouette, brings you roominess and comfort never before obtainable in an automobile.

You've seen them flowing by in all their sparkling colors—those trim, gorgeous New Hudsons with the low, streamlined silhouette.

But have you really examined one of these amazing cars? They are the big ones in the automobile world today! Hudson, always known for great forward steps in the development of the automobile, and for efficient use of available space—again "way out ahead" with a motor car that has a new high in efficient use of space—that makes a greater percentage of its total space actually available for you use and comfort.

When you take a close look, you'll find that Hudson, through the use of a new exclusive "step-down" zone, reclaims so much usually wasted space that this sensibly efficient gives you more useful interior room than you've ever before experienced in an automobile.

This new kind of motor car has a sturdy foundation structure surrounding the passenger compartment, which permits the floor to be recessed down within the base frame so that you step down when

entering. This makes space between frame members, which is usually wasted, available for use inside the car.

Seats can thus be lowered to harmonize with the new, lower top, and by stepping down into Hudson, which is only five feet from ground to top, you get more leg room than in any other mass-produced car built today!

And how about seating room? Hudson's new design reclaims space formerly taken up by wheel housings and protruding fenders. This is accomplished by placing rear seats ahead of the rear wheels, in a zone unrestricted by wheel housings. As a result, rear seats are 15 inches wider in this car than in only a few other cars of the front seats extend the full width of the body, giving Hudson the roomiest seats in any American-made car! Hudson's use of the "step-down" zone and unique seating arrangements are illustrated in the sketches that follow:

OTHER CARS—Passenger sits on top of a frame, as wheel housings, which occupy space that should be a part of seating room. Riding on top of a frame means that essential leg room must be reduced (the foot is forced to accommodate).

The New Hudson even reclaims the unused space in doors by providing generously tapered, recessed compartments where interior door handles, window cranks, ash receivers, and generous arm rests are placed out of the way to allow increased elbow room for passengers.

This development of Hudson's exclusive, silver-Moonlight body and frame with its "step-down" zone, reclaims years of engineering work, the perfection of new production techniques and millions of dollars in highly specialized, new plant investment. This may be why Hudson, and Hudson alone, offers this important advance today!

"Stepping down" is so important to motor-car beauty, riding qualities and safety—as well as roominess and comfort—that the nearest Hudson dealer has a booklet—yours without obligation—fully explaining this design principle. Hudson Motor-Car Company, Detroit, 14.

MINISTER ENDORSES JUDGE EDW. P. HILL

Somerset, Ky., July 15, 1948
Judge Edw. P. Hill
Dear Brother Hill:
Every thinking man today knows that our national and international problems are more perplexing than at any previous time in our history. We need more men to represent us in Congress who are clean living, clear thinking students of world conditions. We need men who have character and courage. We need family men with sons and daughters and men who are vitally interested in the present institutions of our country and the future peace and prosperity of our people. We need men who, like Joseph in Egypt, Daniel in Babylon and Ben Franklin in our own country, are not ashamed nor afraid to pray to God under any circumstances, and have the heart to stand for the right as they see it.
Because I have found you to be such a man I am sincerely pleased that you are available for the position of Congressman from our district and I hope that our good people will see that you are nominated and elected.
Sincerely, your Pastor,
L. W. BENEDICT
Prestonsburg, Ky.

P'BURG LICKS HAROLD, WINS DIST. CROWN

Two Floyd Teams In State Tourney At Elkhorn City

The Prestonsburg Reds of the Big Family Baseball League was the district champion Saturday in the finals of the American Baseball Congress sectional tourney held at Pikeville.

The Prestonsburg team, bolstered by players from the Wayland team, defeated Harold, Boone leaders who however were strengthened by the addition to Floyd players and others. The score, 9 to 6.

To reach the finals, Prestonsburg defeated Paintsville last Thursday, 11 to 6. Semifinal action in the semi-finals, they edged Louisa, 10 to 4, and then the Pikeville NEW.

Thursday, in an opening round game, 8 to 0 and Louisa eliminated Weeksbury, 8 to 4.

Adkins, Wayland pitcher, who played the outfield for Prestonsburg in the first two games, and who pitched the championship tilt, was the outstanding player for the winners and was the No. 1 selection for the all-tournament team. The entire Prestonsburg team played aggressive, heads-up ball.

Patton and Bradley hurled the shutout against Paintsville, with Blackburn catching. Bradley pitched the win over Louisa, with Wells relieving. In the final game Adkins went all the way, with Wells again behind the plate.

Prestonsburg was slated to meet Glendale in the state tournament at Elkhorn City Wednesday afternoon, but it was reported Tuesday that Glendale may not arrive in time for the contest. In this event, Prestonsburg may not play till Thursday.

Winner of the state tournament will probably play the Tennessee winners for the right to represent this region in the national tourney at Wichita Falls, Kansas.

While Game Club Makes Record Its Brood Quail Hen Lays One

While systematically going about the business of setting marks for other similar groups of the section to object at, the Floyd County Fish & Game Club has come into possession of a hen quail which is setting a record of her own.

Ken Vanderpool, of Midas, who has set many of the club's brood quail, is authority for the statement that this particular Bobbielwhite has quail has already laid 91 eggs this year since beginning of the laying season around April.

Anyway, the club has been experimenting, with marked success, in keeping its own quail brood and incubating the eggs. Twenty-five pairs of quail owned by the club are averaging 17 eggs a day. The club has two incubators of 125-egg capacity each which lay out a hatching every two weeks. At the present rate the eggs are being set, the club figures to set approximately 500 more eggs during the current season, which will end around the last of August.

The club is otherwise adding to the quail supply by rearing birds from the day-old stage. Of 600 birds received July 1, 200 went to the colony brooder constructed by the club and kept at Langley by Mrs. Baldrige, county conservation officer. Only 12 of these had died as of this week. The other 488 went to Ken Vanderpool at Midas, and only 16 of these have died. The Division of Game and Fish figures to lose 20 per cent of young quail on the first day after hatching.

Of the eggs laid by quail kept by the club, 81 eggs comprised the second setting, and of 77 quail hatched not one died. The first setting was of eggs, some of which were as old as 20 days, but 36 of the birds are living.

In the stream division of its activities, the club spent \$450 for 2,000 smallmouth bass which were released June 30, in the Big Sandy from a mile south of Prestonsburg to Banner. An allotment of bass from the Division of Game and Fish, as well as crappie is expected later in the year. The crappie, it has been decided, are destined for Beaver Creek. These waters were decided upon for crappie upon proof that this species is doing well there, with several nice catches reported. A month ago, between 7,000 and 8,000 sun fish from the Kentucky West Virginia Gas Company's cooling ponds at Dwale were released in Floyd streams before acid was added to the water to kill weed growth.

The club's sixth annual fish fry will be held August 8 on the Mayo farm, one mile south of Prestonsburg. For this event the club has planned a program which it expects to be better than any of the previous five.

Tram Defeats Dwale Behind Good Hurling

The Tram Sluggers defeated Dwale, second place Beaver Valley League team Sunday behind the three-hit pitching of Letty Joe Hinchman. Hinchman struck out 16 men, and collected three safeties himself. This game proved one of the upsets of the season, since the Tram boys haven't been able to come through in the clutch all year.

Tram's hitting power was boosted somewhat Sunday with H. Conn behind the plate and C. Hinchman in left field. The hitting attack was led by H. Conn, J. Hinchman, C. Hinchman and Dale, all collecting at least three hits each.

Sunday, July 25, Tram meets Ivel, first place team, at Ivel.

DU PONT HOUSE PAINT CLEANS ITSELF!

Your house keeps its freshly painted look when finished with Du Pont House Paint. Dirt and grime can't become embedded—rains just wash them away!

SELF-CLEANING Du Pont House Paint is so formulated that, as time goes by, a microscopically fine white powder forms on the surface. Heavy rains wash the powder away, taking dust and dirt with it, and leaving the surface clean and white again. Excessive accumulations of dirt (particularly in sooty industrial communities or in heavily shaded locations) may delay or interfere with this process. Because this "self-cleaning" is gradual, the

wearing qualities of the paint film are not abnormally affected.

SELF-CLEANING Du Pont House Paint is as durable as it is beautiful—

- protects against rust, rot, and decay—
- gives lasting beauty and protection. Costs no more than ordinary paints—saves repainting bills! Call on a reliable painter for your painting jobs, and ask him to use Du Pont House Paint!

IMPORTANT MESSAGE TO EVERY KENTUCKY VETERAN

WE HAVE A TRIED AND TRUE FRIEND SEEKING THE DEMOCRATIC NOMINATION FOR UNITED STATES SENATOR

We refer, of course, to Virgil Chapman who, during 22 years in Congress, has an unsurpassed record on veteran legislation. Mr. Chapman has supported EVERY law for the hospitalization, compensation, rehabilitation and education of veterans, and ALL measures of justice for war veterans or their dependents. His record for veterans is far too long to list in detail, but here, in brief, are some highlights:

To increase compensation and grant pensions to veterans of Spanish-American War, Boxer Rebellion and Philippine Insurrection, their widows and children.

To liberalize laws providing pensions for dependents of veterans who died in service prior to April, 1898.

To provide allowances for widows and children of veterans.

To provide for immediate payment of the Veteran Bonus.

To kill the so-called Economy Act of 1933 which cut compensation of war veterans and repealed measures benefiting veterans and dependents. If this bill had become law in the form it passed the House in spite of the strong opposition of Mr. Chapman and other friends

Virgil Chapman

of the veteran, many veterans hospitals would have been closed and future hospital construction would have been stopped.

To renew expiring five-year level-premium term insurance policies for another five years. Five years later, he voted to renew the policies another five years.

To increase pensions for dependents of veterans.

To liberalize of death-certificate benefits for veterans' wives and children.

To provide mustering out pay.

To set up the G. I. Bill of Rights. Later he voted to expand and increase its benefits.

To liberalize the National Service Life Insurance Act.

To increase pensions to veterans.

To provide terminal leave pay for enlisted men.

To increase subsistence of veterans in schools and colleges and taking on-the-job training. These are a few—ONLY A VERY FEW—of the many measures favoring veterans that Virgil Chapman has supported.

His actions—not just his promises—have stamped him a true friend of the veteran. Don't forsake an old friend, a man who has fought our battles in Congress for 22 years. Let us prove our loyalty to one who has been loyal to us.
