Blaze Damages Harlowe Building

One room of a small frame building owned by A. C. Harlowe on First avenue, and occupied by Winson Whitaker and family, was destroyed by fire last Thursday morning, with its contents. Another room was damaged by the blaze which was believed to have been the result of a wiring defect.

The first alarm fire followed by a day a blaze in the basement hallway of Sam Hale on Broadway in which two lockers were burned out. A cigarette was suspected as the origin of this fire.

Notice to Taxpayers

Year 1948 county, state and school taxes are now due. Discount of 2 per cent will be allowed if paid by Nov. 1, 1948. Penalty of 6 per cent will be added after March 1, 1949.

**FLOYD COUNTY
 VETERANS**

OF

World War I and World War II

THE DUTY:

WORLD WAR I VETERANS: We, the veterans of World War II are back of you 100% in your fight for your just and over-due pensions. We believe all veterans of all Wars should be treated alike. We realize you have been long neglected and long forgotten. We know that you have been recognized for the first time in the "Meade Bill" to provide monthly pensions up to \$115.00 per month beginning at age 50. We will fight for the "Meade Bill." We will continue our fight to re-elect Meade "The Veterans' Best Friend in Congress."

THE RIGHT:

WORLD WAR II VETERANS: Under the G. I. Bill of Rights it is provided that the benefits received under the G. I. Bill shall be deducted from our bonus. Now over one-third (1-3) of the veterans of World War II have drawn all or part of their bonus. But most of those 1-3 who have drawn theirs are in the big cities. Many World War II Veterans have already received over \$5,000.00 from the Federal Government under the G. I. Bill. 2 1-2 million have drawn all or part of theirs for their college training. Three million more have drawn all or part of theirs in other parts of the Bill.

THE TIME:

We believe that now is the time to equalize these benefits. We want our just dues now. We deserve this adjustment in loss of pay while we were in the service. World War I veterans had to wait until their later years for their bonus from the Federal Government. We need ours now. Most of the "Big City" veterans have had theirs. Now is the time for the small town and rural veterans to get their just dues. The Federal Government can easily finance this obligation at this time, and now is the time when we need it most.

THE PLAN:

Every veteran can easily figure his own bonus at the rate of \$5.00 per day for overseas and \$4.00 per day for Stateside duty. The limit will have to be \$4,450.00 for any one of us, except the disabled. Benefits already received (not pensions) will have to be deducted.

THE EXAMPLES:

Veteran A: S-Sgt. 8 months in States 13 months Pacific	Veteran B: Sgt. 15 months in States 21 months lap prisoner	Veteran C: S 1-c 13 months States	Veteran D: P.I.C. 6 months in States 15 months Europe	Veteran E: P.I.C. 7 1/2 months in States 14 1/2 months South Pacific \$3,075.00. Less \$1,281.50 received under G. I. Bill in College Due
\$2,910.00	Limit \$4,450.00	\$1,560.00	\$2,970.00	\$1,793.50

We have seen that Howes Meade can get things done. He has earned the title "The Veterans' Best Friend in Congress." In 1948 the Meade Sub-Committee alone was responsible for \$289,500,000.00 per year additional benefits for us and our families.

- For the first time in history allowances have been made for the dependents of disabled veterans.
- For the first time a fight has been started for World War I Veterans' pensions.
- Our older veterans of the Spanish American War have received 20% increases.
- Howes Meade has earned the title "The Veterans' Best Friend in Congress."

THE FIGHT:

VETERANS, — MOTHERS AND FATHERS OF VETERANS — FRIENDS OF VETERANS — HELP US IN OUR FIGHT FOR ADEQUATE PENSIONS FOR WORLD WAR I AND OUR JUST EQUALIZATION PAY FOR WORLD WAR II.

HELP US SEND BACK

Is the Big Sandy Valley to Remain A "Stand-by For War?"

TO THE TRUCKERS, MERCHANTS AND ALL CONCERNED IN THE BIG SANDY VALLEY:

Because business is bad, many people are asking, "Is this the end of the Truck Mining Industry?" Stores have lost trade, many men are out of work and the outlook is not bright for the Big Sandy area.

No railroad men have been laid off in the Kanawha River Valley. In West Virginia miners are not having to live on one or two days work per week. Trade is booming there, and it may boom even more after the last peal of the funeral knell has been sounded for the Big-Sandy Valley.

WHY IS THIS? Why should prosperity abound in one area while economic poverty lurks in a neighboring community?

The rail freight rate in the Kanawha River Valley is barely more than half the rail rate per mile in the Big Sandy Valley. The Kanawha River has been canalized and river barges haul part of the huge coal production, and railroads operating in that Valley have not dared increase their freight rates all the traffic will bear.

THE BIG SANDY RIVER MUST BE CANALIZED! I urge you to take action. Howes Meade, in Congress, has done much in such short time to resurrect the Big Sandy Canalization Bill which the 79th Congress defeated. Let's get in line for him; work for him; vote for him and send him back to Congress to present the new Canalization Bill next January! Let's put our truck mines to running full blast.

Howes Meade has brought the men to our Valley who will be in position to get this job done. He brought us Congressman Frederick A. Muhlenberg, Chairman of the House sub-committee on Rivers and Harbors; Howes Meade presented us with Senator George W. Malone, Chairman of the Senate sub-committee on Rivers and Harbors; he brought us Dr. W. C. Schroeder, Chief of Synthetic Fuels Division of the Bureau of Mines; and he has brought to us Minnesota's able former Governor Harold E. Stassen. Congressman Muhlenberg and Senator Malone are both Engineers and their opinions will stand.

These men will be working with Howes Meade for this great program.

The Board of United States Army Engineers want the Big Sandy River canalized in the interest of vital national defense. These men want it done. Only one force can stop it, and that is the Congress itself.

That's why I urge you to vote for Howes Meade. We can depend on him. He has made the proper contacts. He will be a tower of strength with our next President, Tom Dewey! Howes Meade is the only one who can get this done!

Howes Meade is from this Valley. He has lived here all his life. He wants the Big Sandy to prosper. He wants an even flow of prosperity for our people. He does not want our great coal industry to be just a "Stand-by for War."

VOTE FOR HOWES MEADE FOR CONGRESS and share in the honor of getting this great job done.

Very Sincerely,
CHARLES F. TRIVETTE
Former State Senator

The best costs no more!

Thousands of Pontiac owners all over the country have learned that regular servicing by their Pontiac dealer is the best, most economical way to keep their cars in top condition.

Our service is best for your car because our mechanics have been trained by factory experts and because we use factory-engineered parts and specially selected tools—everything geared to the one job of keeping your Pontiac at its very best.

The result is that your work is done faster—in such a safe-handed manner that it will "stay done." The cost of our expert work is no higher—in fact, is often less—than you would pay for ordinary servicing.

Our policy is very simple: If we do only the work called for—we do it in an expert manner, we save you money by eliminating guesswork and makeshifts.

Give your Pontiac the best—have it serviced by your Pontiac dealer—for the best costs no more!

DEATH AT PAINTSVILLE
 Death of Florence Gull, five-week-old daughter of Jackie and Dorothy Mullins Caudill, of Hi Hat, at the Paintsville hospital Friday was ascribed to dehydration fever after an illness of more than two weeks, during which time the babe refused to take nourishment. One sister, Jacqueline, survives. Funerals were conducted Saturday, the Revs. Jerry Hall and Mack McChesnut officiating, and burial under direction of the Arnold Funeral Home was made in the family cemetery at Hi Hat.

Hi-Ho, Mister!
 Every week I get to write this piece for the paper. If you think that's easy you must never have wrote more than an excuse for Junior. Folks get tired of everything they do that's regular. Except eating. Three times a day we like to eat. Specially when there's Silver Mist biscuits on the table. Eat 'em with molasses. Or fresh country butter. Or jelly, or jam, or gravy. Any way you want to because stone cold or half burned, Silver Mist biscuits still got flavor. Honest-to-goodness flavor you get whenever you or the Missus buys Silver Mist Flour. Must be some reason why Silver Mist's better, but all I know is biscuits and cakes and pies just TASTE better when you tell your grocer you got to have Silver Mist. If you haven't had any in the house lately right now's a mighty good time to go to see your grocer, too. Ask for good-tasting Silver Mist Flour.

That's about for Silver Mist for an advertisement. This is what the paper makes me say. If you don't buy some Silver Mist Flour, I don't see how long!

You and your friends are cordially invited to attend a

WE PICK PERKINS

(An editorial from the Hindman News, Oct. 15)

Frankly, if the Hindman News, as his home-town newspaper, had nothing good to say of Carl D. Perkins, it would remain silent. But, inasmuch as Carl Perkins is the type of man and official whom we can, with full obligation to our readers, endorse, we propose to make clear to the people of Knott and surrounding counties why this newspaper gives him its unqualified support.

Carl Perkins is no stranger to you. Many of you have known him from boyhood. Practically all of us have known him, or known of him, as he served Knott county as County Attorney, the Thirty-first Judicial district as Commonwealth's Attorney, the Legislative district of Knott and Magoffin counties as state Representative, and, currently, the state of Kentucky as Assistant Attorney General.

His advance in the esteem of his people and in positions of honor and trust has been steady and sure. Now, he is the Democratic party's nominee for the office of Representative in Congress from the Seventh Congressional district. We are tempted to be guilty of a cliché by saying: "Such popularity must be deserved."

This native Knott countian is the type of man to whom the common man can go for advice, help, sympathy. Carl Perkins is that sort. He naturally likes people. He shares with others their joys and sorrows, he instinctively reacts to their moods.

What we are trying to say is, he is the type of individual folks can't help liking. He belongs to no one class.

More than that, Carl Perkins has a forward-looking program, one which envisions better living and working conditions for all. He knows how to do things and how to get things done. His experience as a lawyer and public official now stands him in good stead.

Labor knows his sincere friendship for the man and woman who earn a livelihood by toil. Labor also knows the record left behind in Congress by his opponent—which, certainly, by no stretch of the imagination could be considered the work of a friend of labor.

As for the veterans, Carl Perkins entered the army in the recent war as a buck private, participating in four battle campaigns, Northern France, Battle of the Bulge, Rhineland and Central Europe.

Carl Perkins, then, knows the thoughts and feelings of the man who saw battle in the mud. His deep feeling for other veterans has led him to condemn Congressman Meade's support of the Wolcott Bill in Congress. This was the bill which the real estate lobbies wanted. And the real estate lobbies did not want legislation providing for low-rent housing for veterans and alumni clearance. This was the bill Senator Tobey of New Hampshire angrily declared "a snare and a delusion. It is not a housing bill. It is a scheme, a circumlocution process. The veterans have been flim-flammed by this legislation."

Carl Perkins has pledged himself to vote and work for legislation which will provide low-cost housing to the veteran and others who are now homeless because Congressman Meade and others bowed to the millionaire real estate dealers and manufacturers; he is pledged to work for low cost of living, to benefit the wage-earner, the "white collar" worker, the teacher and all those others who have suffered from greed.

Is it any wonder then that, even if we did not know this native of Knott county for his fine human qualities, while knowing wherein his opponent has failed, we say:

Those who believe in the humanities and in human progress for the small as well as the great, should vote for Carl D. Perkins for election to the Congress of the United States at the coming election. (Pol. adv.)

(Continued from Page One)

search is credited the story which made the community and the section conscious of the historic interest of the town of David, read The Floyd County Times' story of Boone's encampment.

David L. Francis, president of the Princess Elkhorn Coal Company, and H. E. Greer, Hazard, president of Lonsome Pine Council, Boy Scouts of America, lauded the work of the Scouts and their leader, the Rev. J. B. Durham, of David.

Of the work of Mr. Francis as a sponsor and godfather to civic improvements at David Mr. Greer advised: "You are lucky to have with you such a man as Mr. David Francis."

Ex-Congressman A. J. May, Prestonsburg, delivered the principal address of the afternoon, and he established a parallel between the adventurous spirit of Boone and the spirit of progress in the building of the Commonwealth, "Boone," he declared, "started out to replace an era of savagery with an era of civilization."

"Being a man of great commonsense," he logically added, "he came to Kentucky."

Directing the Scouts in their part of the program was the Reverend Durham, who gave the invocation. Music was rendered by the Prestonsburg school band and by the glee club of the David school.

An "unquiet" slit depicting the slaying of a deer by Daniel Boone was also directed by the Rev. Mr. Durham. In this Glenn Dixon enacted the role of the explorer, and was assisted by Sonny Carver and Jack Bartlett.

Mystery Shot Wounds Auxier in Wrist

A bullet from the revolver of an unseen gunman penetrated the wrist of Knox Auxier, 24, of East Point, Monday as he and four others sat near the entrance of a small mine, a short distance below the Dewey dam.

Auxier said here Tuesday he had raised his hand when the revolver cracked, that the others ran for the cover of a nearby house and that he followed inside before he realized he had been hit.

The shot, he said, came from nearby, but nobody was seen, and he could ascribe no reason for the shooting. No investigation had been made, it was said.

The bullet of .38-calibre, failed to pass completely through the wrist and was removed at the Prestonsburg General hospital.

The 1949 FRAZER

Trailblazer—of cars to come!

Once in a blue moon the stylists and engineers outdo themselves. They create a car that goes beyond today and sets the pattern for cars of the future.

This is what they have done with the FRAZER for 1949!

Low, sleek and differently handsome it is the trailblazer in style of cars to come. Its exclusive colors and fabrics have made the world's leading fashion designers fall in love with it. They call it "the dream car."

The same car, the FRAZER for 1949, has even won the hard-to-win hearts of the test drivers who most reluctantly punish a car mile after mile for weeks on end. They say the Frazer makes such driving no punishment for them. Its driving ease and riding comfort "make 600 miles a day a breeze," they say.

There's a thrill waiting for you at your dealer's today. With 100 new features, improvements and refinements, the 1949 FRAZER is ahead of its time—out front—trailblazing the way for all the cars to come.

First to break clean and scrap tradition, the cars from Willow Run have done it again. Because unlike other "new" cars built since the war, they've road-proved their dependability—2 billion miles worth! Value-proved to a quarter-million justly proud owners. See and drive the new FRAZER now! It's at your dealer's. Kaiser-Frazer Corporation, Willow Run, Michigan.

TIMES WANT ADS PAY

TO THE VETERANS:

Carl Perkins, an ex-G.I., is the Democratic nominee for Congressman from this district, subject to the election on November 2. Carl went into the army as a private, like the rest of us. He was a private when he landed on Omaha Beach and was discharged as a T4 after taking part in the "Battle of the Buge." This is the first time since the last war that the people of our district have nominated a former enlisted man for national office. Carl is a typical "G.I.," and knows our troubles and problems. He has pledged himself to vote for all legislation beneficial to the VETERANS. He is particularly interested in legislation which will enable VETERANS, with government assistance, to purchase homes under a long-term payment plan.

His Republican opponent has shown that when the chips are down he will desert the veterans for the real estate lobby and the moneyed interests. The record shows he did that on the 18th day of June, 1948, when he voted for the pseudo makeshift Volcott Housing Bill which the real estate lobby rammed through the House of Representatives as a substitute for the Taft-Elder-Wagner Housing Bill which the veterans' organizations were supporting.

Carl Perkins is fully qualified by education and experience to represent the people of this district in Congress. He is an able lawyer, has served as a member of the State Legislature, and has been County Attorney of Knott county and Commonwealth's Attorney for the judicial district composed of Knott and Floyd counties. He is now Assistant to the Attorney General of the state of Kentucky.

The laboring man is solidly behind him—and he is going to win. The politicians are watching the veterans' vote. Let's show our loyalty by giving Carl Perkins a record vote on November 2nd. As VETERANS and "G.I.s" ourselves, we are asking you not only to vote for Carl yourself, but ask your relatives and friends to vote for him.

Sincerely yours,

Cats in Garrison Finish Win Over Pikeville--Louisa, Next

For one-half of last Friday night's football game here with the Pikeville high school Panthers, the Prestonsburg Black Cats gave an excellent imitation of dead cats.

Then at the halftime intermission something happened. Something which converted a bumbling, inept eleven into a fighting football team, strong defensively and with power in its running attack.

The result was that the Cats came from behind after spotting the visitors to 13 points in that dimly lighted first half to win a dramatic victory in the very last seconds of the contest, 15 to 13.

Pikeville, a team which has not won a football game all year, showed the heavier Cats all over the field in the first two quarters. A reverse play had the Prestonsburg defense up in the air, and when this failed the Panthers took to the air with considerable success. The Panthers scored in the first quarter, but they didn't appear to be fatal. When they were apparently stalled on the Prestonsburg 35, however, and hurt through center on a delayed back for an almost effortless touchdown, then added the extra point, many fans thought it was curtains.

Prestonsburg came back from the halftime recess, however, a different team. Facing almost certain defeat, with their unsuited Conference record at stake, the Cats were far from a whipped team. Pikeville attempted all the effective reverse went into reverse; Pikeville backs were thrown for losses; their passes went for naught or were intercepted. The visitors' running attack in the last two quarters was completely stymied.

Meanwhile, Prestonsburg was mounting an offensive of its own. In the third quarter a drive on straight running plays did not stop until Gene Boyd lunged off-tackle for eight yards and the first Cat touchdown. Moments later, he converted with a line smash. In the fourth period it was Joe Stanley again, with a touchdown off-tackle from the left after contributing an earlier sparkling run. The conversion attempt failed and the score stood at 13-all. End of the game year, and Prestonsburg kicked off to Pikeville. The Panthers lost the ball on a fumble deep in their own territory. Prestonsburg drove in for the kill.

but the sturdy Panther defense held within their five. Then came the Panthers who won the game for Prestonsburg.

With seconds remaining in the contest, Pikeville was expected to kick, the punter standing back of his own goal line. Instead the Panthers chose to run. The runner was barely started when Paul Harmon, Big Black Cat end, crashed through to down him for a safety and the winning points.

Featuring the Pikeville attack was the running of Wally May, former Prestonsburg boy.

Friday night of this week, the Cats face their toughest: Big Sandy competition of the year in the undefeated Louisa Bulldogs. Louisa comes here with wins over Highlands of Covington and Hazard high school, the latter last Friday night by a 14-4 score at Hazard. The Bulldogs have lost only one game over the last two seasons and that to Prestonsburg last year, 7 to 6.

For the game, unless injuries are suffered during practice this week, Prestonsburg will be at near full strength. Coach Benedict is pinning his hopes on the possibility that his team will retain for this game the fight and drive they found in the last half of Friday night's never-say-die effort.

FISH AND GAME NOTES

Coons and opossums may be hunted with dogs only during the month of November, the state Game and Fish Commission and the director of the Division of Game and Fish have announced. Under previous regulations hunting with dogs would have been permitted in December and January and all hunting barred in November. However, the new recommendations by a group of coon hunters, an amendment to these regulations was unanimously agreed on by the Commission and Director, permitting hunting and taking of coons and opossums during November with dogs only.

The hunting area shall consist of Bullitt, Meade, Hardin, Nelson and Breckinridge counties, and only shagbark hickory cones and cones being permitted. The hunter may not use dogs to chase his quarry, the Commission has ruled. Bow and arrow hunters will have an additional seven days to hunt in these counties, their season exclusively opening on Nov. 20 and continuing through Dec. 3. However, they may continue to hunt during the regular deer hunting season. In addition to the regular statewide hunting license a \$5 deer hunting permit also is required. This permit may be obtained from the offices of the Division of Game and Fish.

Hunters will have eight days in which to stalk a deer in five Kentucky counties this year, the Division of Game and Fish and the state Game and Fish Commission have announced. The season will open on Nov. 27 and continue through Dec. 4. It was announced, with the taking of antlered bucks only being permitted. The hunting area shall consist of Bullitt, Meade, Hardin, Nelson and Breckinridge counties, and only shagbark hickory cones and cones being permitted. The hunter may not use dogs to chase his quarry, the Commission has ruled. Bow and arrow hunters will have an additional seven days to hunt in these counties, their season exclusively opening on Nov. 20 and continuing through Dec. 3. Cooley's 19 1/2-Inch Smallmouth Biggest Taken on Week-End

Big Sandy fishermen who could take to the section's streams on Saturday again found bass striking, but Sunday's rough weather held the catch to a minimum, reports received here say.

Biggest of Saturday's reported catches was a 19 1/2-inch smallmouth taken by Savage Cooley, of Langley, on an Eagle Claw lure. The big 'un was snared in the Big Sandy near Boldman.

Floyd county anglers returning from Dale Hollow reported the bass catch light after several days at it. Fish yielded to artificial bait last week were nabbed on surface lures, it was said.

Floyd Competitors Win Half of Prizes In Perry-co. Match

Of 20 prizes awarded in the Perry county Fish & Game Club's annual fall fry held Sunday at Hazard, exactly half were brought home by Floyd competitors.

Floyd county winners and prize they received: Junior division—Bill Burke, first; Heddon Pal rod; Stewart Stephens, third; Langley reel; David Allen, fifth; Shakespeare Sportcast reel; Scotty Stephens, eighth; hunting shirt.

Senior division—Donald Workman, fourth; Action rod; Robert Hamling, sixth; Coleman camp cook stove; Ed Stephens, seventh; Shakespeare Sportcast reel; Winston Burke, eighth; Edmund Burke, ninth, tenth and eleventh prizes, respectively a hunting shirt each.

Ed Reynolds, of Hazard, was the senior division free prize winner with a score of 96, despite a heavy wind.

Of the 11 Floyd competitors—most this he told—only Roy Stephens finished out of the money.

ORIGIN OF MASCARA

Women's oldest manufactured beauty aid, according to a Hollywood make-up man, is mascara.

This material is known to have been composed by the Egyptians as far back as 4000 B.C. Inspection of genuine portraits of that time, as presented by wall paintings in modernly unearthed tombs, leads one to suspect that the glamour gals of ancient Egypt were highly comparable with those of today.

Many of them were inclined to apply their mascara more heavily than is artistically advisable.

BEWARE OF SOFT WORDS--INDIANS UP TO NO GOOD!

Russ Williamson, the perfectly harmless looking coach of the Indians, never looked less harmless or more sincere when he said it, but his statement made here last week struck the bolt in the old memory-box.

And so we warn: "Watch out for them pesky Redskins."

Said Williamson of his team's prospects for the basketball season coming up:

"We'll do well to win half of our games."

Russ Williamson spoke thus as flabby and as sincerely here in Prestonsburg, back in 1941.

And let all the poor Indians did that year was win the state championship. So have a core there, Kentucky coaches, who have big ideas this year.

Williamson admits that he has the largest group of boys out for basketball in the history of the school. Twenty of them! But says he there are too many young boys in the bunch. "Good freshman prospects," he grants you. But title editors, football or state--no boys.

Getting down to cases, he pointed out that he has only three regulars back from last year's team which lost to the Parisville Tigers in the district tournament. Two of these regulars are little Harrison and Fairchild, six-foot center. Finding two more starters and competent reserves is a task the wily coach solemnly assures one and all he just doesn't expect to do with any great deal of success this year.

The slow-moving, quick-thinking

Williamson should! Williamson's perfectly harmless looking coach of the Indians, never looked less harmless or more sincere when he said it, but his statement made here last week struck the bolt in the old memory-box.

Williamson admits that he has the largest group of boys out for basketball in the history of the school. Twenty of them! But says he there are too many young boys in the bunch. "Good freshman prospects," he grants you. But title editors, football or state--no boys.

Floyd and Knott Dogs Rank High at Carlisle; Herald's Hound, Second

Floyd and Knott county dogs ranked high in the bench show of the Central Kentucky Pastime Association at Carlisle last week, with Rowdy Haggin, owned by Lonnie Herald, of Woods, leading the Big Sandy pack.

Herald's dog placed second to Joe Gordon, owned by Roy Biebert, of Carlisle, as the best derby dog. Jackie McClure, owned by Roy Cook, of Wayland, ranked third in the derby matrons, and Flying Crow, owned by Bob Martin, of Deaf, was third in the all-age matrons group. Blanket Crow, owned by Fred Fairchild, of Inez, was third among the all-age dogs.

feet weren't used to a hardwood floor." They lost to Midway, the champs by a lone point.

They got their gym, the following year. But it burned to the ground in 1939. The Indians, however, didn't return to dirt courts after that. They practised on the floors of the Paintsville and Kermis high schools and were at home at nearby Warfield to visiting fives during 1940 and 1941.

Now, they while they used the Warfield gym for home games that they defeated St. Xavier of Louisville eight points in 1941. When the two teams met in Lexington in the finals of the state tournament, the Indians trounced the city slickers by exactly the same score.

Now, they has one of the finest basketball floors in Eastern Kentucky. And rival coaches are wondering if the Martin county town won't wind up the year with one of the finest basketball teams.

Handed yarn means the cotton has gone through one process to straighten out the fibres before they are made into yarn. Combed yarn has gone through two. This means more long fibers, and a smoother and more durable yarn.

Since frankfurters are cooked when manufactured they need only be heated; cover them with boiling water and simmer (do not boil) for about 5 to 10 minutes until they are thoroughly hot.

Asht trays should be emptied and washed each night before closing up the house. This prevents a stale, musty odor the following day.

Here it is! A long look ahead!

The modern design for '49

new Hudson

Come in and see the new Hudson—the lowest-built car on the highway, with beauty, riding qualities, comfort and safety only possible because of a new "step-down" design, offered by no other automobile!

Only once in a blue moon does a car step so far ahead that it is a protected investment in motor-car value! You are invited to see just such a car—the New Hudson with "The modern design for '49"—and for years to come!

Here is truly streamlined beauty—a stunning combination of free-flowing, low-built lines that develop naturally out of a recessed floor which is the key to a basically new and exclusive design principle. The New Hudson is the only car you step down into.

The development of a "step-down" zone in an exclusive, all steel Monoball body-and-frame* permits Hudson to build the lowest car on the highway—only five feet from ground to top—while maintaining more interior head room than in any mass-produced car built today!

But streamlined beauty isn't the whole story of Hudson's modern design.

Hudson has a buy-the-road way of going on every conceivable kind of highway. The way in which this car takes even the sharpest curves makes it a "stand-out" for roadability in any year!

These remarkable riding qualities are largely due to the fact that the New Hudson provides the lowest center of gravity in any American stock car—yet road clearance is ample! It is a widely recognized fact that the lower to the ground a car can be built, the more stability it will have and the safer it will be.

Such a delightful conformity to the road, coupled with the protection of riding encircled by a sturdy box-section steel frame, gives to everyone who rides in a New Hudson a grand feeling of safe well-being! This feeling is further enhanced by the ease with which this car is operated, and by the useful quiet with which Hudson glides along—thanks to the superb sound control* engineered into this advanced automobile.

See "The modern design for '49" today! Come in and let us show you the many advantages of Hudson's fabulous "step-down" design principle.

OF INTEREST TO VETERANS

A savings in insurance is available to World War II veterans who still are paying their G. I. insurance premiums on a monthly basis. Insurance officials at the Veterans Administration Branch Office in Columbus, O., said this week.

Pointing out that approximately 90 per cent of the veterans are currently paying premiums on a monthly basis, officials explained that by paying on a quarterly, semi-annual or annual basis they receive a three per cent discount annually. In addition, the fewer premiums due lessen the chance of a policy lapsing.

Veterans can take advantage of this saving by visiting any office or writing to the VA Branch Office in Columbus, requesting the type of premium payment desired.

More than half of the World War II veterans holding converted National Life Insurance policies have selected 20-payment life plans. Veterans Administration reported recently. The 20-payment life policies accounted for \$2,100, or 58 per cent of the 1,512,150 permanent NSLI policies in force at the beginning of the current fiscal year.

Veterans who converted to other permanent plans include: 276,900 30-payment life; 240,130 ordinary life; 95,130 20-year endowment; 46,600 endowment at age 65; 20,400 endowment at age 65. Permanent NSLI policies amounted to more than \$65 billion dollars worth of insurance.

Nearly 5,000,000 veteran-holders of NSLI have not yet converted their policies to permanent forms of insurance. The term policies in force represent more than \$31,000,000,000.

QUESTIONS AND ANSWERS

Q. I am a World War I veteran and was discharged from the U.S. army in 1938. I would like to know if I am eligible for the education, readjustment allowance and guaranty loan provisions of the G.I. Bill?

A. No. Benefits of the G.I. Bill are available only to World War II veterans.

Q. I signed a statement before my discharge that I had a disability because I maimed in the armed forces. Will this statement bar me from receiving compensation?

A. No. Under the law, any statement of this nature which you may have made at discharge is considered null and void.

NEW DEMANDS
SOARING COSTS
WAGE INCREASES
48 hours pay for 40 hours work
Penalty pay for weekends & holidays
25¢ an hour increase
Total 1 1/2 BILLION DOLLARS
1 1/2 Billion Dollar Road Block!
RAILROADS MUST OPERATE around the clock every day and night of the year.
Although they know this, leaders of 16 railroad unions are demanding a five-day, Monday through Friday, week for one million railroad employees.
They want 48 hours pay for 40 hours work—in itself a 20% wage increase.
They also demand a minimum of 12 hours pay for any work performed on Saturdays, and 16 hours pay for any work performed on Sundays and holidays.
On top of all this they want an additional increase of 25¢ an hour for every employee!
You'd Pay the Bill!
Summing up these demands, they mean that these union leaders seek to force the railroads to give one million employees an annual raise which would average \$1500 per employee!
The total cost of this would be no less than 1 1/2 billion dollars per year, which is more than twice the expected net income of the railroads this year.
You'd pay the bill, because if these increased costs are forced on the railroads, they must have still further rate and fare increases.
Demands Unreasonable
These employees have had substantial raises during and since the war. Their average weekly earnings are higher than the average weekly earnings of workers in manufacturing industries. They have more job security than the average worker in American industry. They also enjoy paid vacations, a retirement system and other advantages more generous than the average worker receives.
In contrast with the demands of these 16 unions, which add up to the equivalent of 48¢ an hour, the Conductors and Trainmen recently settled their wage request for an increase of 10¢ an hour.
Railroads Run for Everybody—Not Employees Alone
The railroad industry must serve not one but many groups—producers, businessmen, shippers, passengers and the general public—night and day, every day of the year. These unions are proceeding in utter disregard of this important difference between railroads and other industries. Industrial plants can be shut down over weekends and holidays, but freight, mail, express and passengers must continue to move. Everybody who enters railroad employment knows this.
Strike Threat
On September 18, 1948, the leaders of these 16 unions began taking a strike vote. But the threat of a strike will not alter the opposition of the railroads to such unreasonable demands!
EASTERN AND SOUTHWESTERN RAILROADS
We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.

JUDGE EUGENE SILER

The people of this county and of the Seventh Appellate District have an unusual interest in the general election of November 2, 1948, because one of our native sons, Eugene Siler, is seeking re-election as Judge of the Court of Appeals of Kentucky.

Judge Siler has served only three years of the unexpired term of the late Judge Alex Ratliff and during such term has made a splendid record and is held in the highest esteem by the legal profession throughout the district and state. Judge Siler is likewise a man of unimpeachable character, maintains a good standing among his people and is well known for the work he has done for charitable organizations.

It behooves us who are interested in good government to give him a full term as Appellate Judge. He deserves this consideration and will receive this office if his friends, both Democrats and Republicans, will keep him in mind and give him their support and votes.

Siler Campaign Committee (Pol. ad.)

WAYLAND

Mr. and Mrs. Walter Martin spent Saturday evening in Prestonsburg at a Democratic spending.

Mr. and Mrs. George Henyce, of Ashland, were week-end guests of Mr. and Mrs. Gilbert Williams. Mrs. Henyce is the former Mrs. Marilee Lee, of Wayland.

GARRETT
 Members of the Lackey-Garrett Women's Club were guests of Mrs. Frank Cooley for an all-day meeting and dinner at her home on Still Heights, Saturday. During the morning, members engaged in a quilting contest. The membership was divided into two sides. The side which first completes a cover will be entertained at a dinner prepared by the losers. Proceeds from the sale of the covers go into the club's treasury. After a short business session, the president appointed the following members to represent the club at the district meeting at Pikeville, October 30: Delegates—Mrs. Fred A. Martin and Mrs. Carlton Wrightson; alternates—Mrs. Rudolph Spencer and Mrs. Roy Souleyrette; judge—Mrs. Germain Collins. Dinner was served to the following: Mrs. E. S. Collins, of Prestonsburg; and Mrs. T. H. Fickler, of Wayland, visitors, and members, Mesdames Charles Sturgill, Floyd Copler, John Wallace, Joe Messer, Thomas Hatcher, D. D. Howard, Willard Castle, Bert Stapleton, S. M. Martin, Carlton Wrightson, Roy Souleyrette, Earl Castle, James T. Fraley, Germain Collins, George E. Evans, Jr., Bigear Dale, W. T. Hatcher, Felix Coburn, Radolph Spencer, Mildred Eldon, C. B. Leon, M. M. Collins, Mike Staley, J. E. Miller, J. C. Wells, Fred A. Martin.

KENTUCKY ON THE MARCH
 By EWING GALLOWAY
 "Thirty-five hundred Madison county school children have been given the eye-screening test," writes Maurice D. Bennett, executive director of the Committee for Kentucky, who recently visited that county in company with James W. Armstrong, head of the committee's community service department.
 "This number has been examined at a total cost of \$3150. Here is how it has been done. The women voluntary workers came into Richmond, where they are put through a course on how to screen the children, under the supervision of local doctors. After finishing this course, these women go directly to all schools in the county and give the test to all students. If a child is found to have an eye deficiency and needs glasses, the Lions Club of Madison county furnishes glasses to the children if the parents are unable to furnish them. In the event a child is found to have some deficiency that cannot be corrected by glasses, but needs an operation, the child, with the parent's consent, is brought into the hospital at Richmond. A surgeon is secured and the operation and hospital expenses are furnished without charge if the child's parents are unable to finance it.
 "Another item of the program is in relation to dental care. This group has purchased tooth brushes in wholesale quantities and furnishes them to the children through the schools at a cost of 5c each. This is not a cheap toothbrush, but a first-rate nylon bristle brush. In the event the students are unable to pay for the purchase, the churches of the county furnish brushes without charge. Rather than have students pay toothpaste—which they know many would not do and could not afford to do—they are demonstrating to the children in the schools, through the teachers, how to mix a preparation of salt and soda, which will do as well as commercial pastes."
 The new health program is sponsored primarily by the Ladies' Auxiliary of the Madison County Health Society. This club, headed by Mrs. Shelby Carr, got the cooperation of service clubs in the county, churches, woman's clubs, veterans' organizations, the school authorities, and the county medical society. Hearty press support came from the Daily Register and the Weekly Madison County Post.
 This child health report is only one chapter in the story of civic awakening in Madison county. You will get more in the near future.

LSU, KENTUCKY ARE MATCHED
 Baton Rouge, La., Oct. 20—Football teams of Louisiana State University and the University of Kentucky will meet next fall—and the game was arranged more than two years ago, Louisiana State Athletic Director T. H. "Red" Heard said today.
 Heard would make no comment on the termination of football relations between Vanderbilt and Kentucky, which led to reports that L.S.U. might replace Vanderbilt on the Kentucky schedule.
 But he said the agreement for the L.S.U.-Kentucky game was reached while athletic officials from the Louisiana school were attending a basketball tournament in Louisville in March, 1946.
