—Photo by Strahan

The marriage of Miss Pauline Sparks, daughter of Mr. and Mrs. McKinley Sparks, and Mr. Solomon McGuire son of Mr. W. J. McGuire of Louisa, Ky., was solemnized March 13 at 2 p.m. at the home of the bride's parents.

The piano prelude, played by Nancy Sprague, was "O Promise Me" by Charles and Katherine Adams. "Because" accompanied by Naomi Fanning. The Rev. Isaac Johnson read the impressive double-duty ceremony before an improvised altar of pink and white carnations.

The bride wore a navy blue street-length dress with a yoke of white lace and carried orchids on a white Bible with a shower of white streamers. She was given in marriage by her father.

Miss Peggy Jo Sparks was her sister's only attendant. She was dressed in a blue and white printed silk dress and carried a bouquet of pink and white carnations. Mr. Herbert Burchett, a friend of the groom, served as best man. Following the ceremony a reception was held, which was enjoyed by a large group of the young couple's relatives and friends who attended their wedding.

The table was covered with a white linen cloth, with the center displaying a beautiful arrangement of pink and white carnations. Displayed at one end of the table was the large five-tiered wedding cake topped by a miniature bride and groom.

The "young" couple spent a short honeymoon in Huntington, W. Va., and are now at home in their apartment on Highland avenue.

go up every time the engineers submit a report.

If the appropriation is finally made, impoundment of water behind the dam is promised in June after a delay in the relocation of pipelines in the reservoir area. The deadline for impoundment was recently set for April 1, but the corps of Engineers has held that because of weather conditions and attendant inconveniences, cost of relocation would have been exorbitant if begun before April 1. The relocation may require six weeks' time, resulting in the new impoundment date.

These lines, however, are located in the Dick's Creek area, eight to 10 miles upstream from the dam, and gas men here said last week they were convinced impoundment could be begun concurrently with the start of relocation operations and that all lines would be moved before the lake would be formed that far up Johns Creek.

Also cut by the House committee were appropriations for flood-control projects at Ashland, Louisville and other Kentucky cities. It approved a \$10,000,000 appropriation for completion of the Wolf Creek reservoir but was critical of the Corps of Engineers for its steadily rising estimates.

GENERAL ASSEMBLY RECOGNIZES FLOYD COUNTY SESQUICENTENNIAL

Recognition of Floyd County's Sesquicentennial observance this year was accorded by the General Assembly, Friday, August 12, at a session held through the approval of both Houses of a resolution introduced by Representative Paul H. Hayes and Henry C. Hale and Senator Doug Hays.

The resolution which follows was written by Secretary of State George Glenn Hatcher, himself a native Floyd countian.

A concurrent resolution expressing congratulations and felicitations to the citizens of Floyd County on the celebration of the Floyd County Sesquicentennial on behalf of the people of the Commonwealth of Kentucky by the 1950 General Assembly.

WHEREAS, The King of England did issue a charter on May 23rd, 1609, to colonize the territory comprising Virginia which included the now present Commonwealth of Kentucky; and

WHEREAS, the Grand Assembly of the Colony of Virginia in the year 1625 met and divided the new colony into eight shires of James City, Henrico, Warwick, Warrrior's Oak, Charles City, Elizabeth City, Charles River and Accomack, and in 1703 Spotsylvania County was created, and out of which in the year 1742 the county of Orange was created, then in 1738 Augusta county was formed, then in the year 1754 Governor Dinwiddie issued a proclamation giving George Washington authority to survey 200,000 acres of land on the Big Sandy, Guyandotte, and Kanawha rivers. This land included portions of John Frye for 2,084 acres and John Savage of 28,627 acres, a part of which were later in Floyd county, being lands purported to have been previously surveyed by George Washington; and

Then in the same year 1797 Fleming County was made including the present county and lands east of Licking river and Big Sandy lands to present West Virginia line; then

WHEREAS, on June 1st, 1860, the county of Floyd was formed from parts of Mason, Montgomery and Fleming counties, which boundary on north and west were to Forks of Big Sandy at Louisa and east to what is now West Virginia line, including lands above mouth of Quickland Creek on the Kentucky river on the west, and

WHEREAS, Floyd County is the mother county of Pike, Johnson, Martin, Letcher, Magoffin and Perry, which counties were in their earliest created out of Floyd County; and

WHEREAS, parts of the counties of Lawrence, Clay, Carter, Wayne, Harlan, Leslie and Logan were formed from what was originally in Floyd county; and

WHEREAS, in the year 1769 Daniel Boone came to Kentucky with John Hancock and his men to explore and trade with the Indians, and a year later was found by the brother, Squire Boone, on the waters of Letcher river; then in 1773 he it known that Daniel Boone spent the winter in present Floyd County on the waters of Lick Fork of Middle Creek of the Big Sandy river, where he made with wife his companion, went back to North Carolina for amputation; and

WHEREAS, in the year 1798 John Graham came to what is now present day Floyd County and made the first John Preston survey in Floyd County of 800 acres, of land where Prestonsburg, now county seat of Floyd county stands, which land was patented to John Graham. This name "Prestonsburg" was given to the Floyd county seat in memory of John Preston, who made 120 surveys in that county. John Graham received patents on about one-half of the surveys and the rest being issued to various other persons.

Whereas, Floyd County was the hunting ground of the Indians and a refuge for the pioneers in the early days of our Commonwealth, who helped her out the destiny of our great people, and the interesting Indian lore of the past includes the story of Jennie Wiley and her escape from the Indians in 1790 where she found aid of safety in the Empress Station in what is now Floyd county at the mouth of Johns Creek on the Big Sandy river; and

WHEREAS, the endurance and endeavor of the pioneers of the past and the progressiveness of the present day citizenry developed one of the greatest industrial sections of our Commonwealth, starting with the day of the canoe, horseback and steamboat transportation into the present day where railroads and improved highways and modern conveniences have made Floyd county with its timber and mineral deposits an industrial empire; and

WHEREAS, Floyd County has an illustrious history and has produced many famous sons active in state, national and world affairs, including those who have participated in the defense of our great nation, all of which reflects credit upon this great Commonwealth; and

WHEREAS, from July 1st to the 6th, inclusive, in this the year 1950, the citizens of Kentucky will at Prestonsburg celebrate the one-hundred-fiftieth anniversary of the existence of Floyd County; and

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES, THE SENATE CONCURRING THEREIN:

That the General Assembly of the Commonwealth of Kentucky do hereby extend congratulations and felicitations to the citizens of Floyd County on the occasion of their Sesquicentennial celebration.

organized for rumors which had linked Prager's name with that of Mrs. Wells and had "disturbed" on the radio. He said that he started Monday morning to Paintsville where he was a Mayo Vocational School teacher, but had motorcycle trouble at the lower traffic light here and returned homeward.

He found the Bonanza man's trunk packed on the street, a short distance from the apartment, he said, and jerked loose an ignition wire. He still had the key in his hand when he took the door. After that, he continued, he decided to go hunting, borrowed the rifle and bought a box of cartridges. Then, he said, he decided to go to his apartment and tell his wife where he was going.

Door of the second-floor apartment barred his entrance, he said, and he forced the door. To find Prager and his wife inside the darkened room. The shooting followed.

"Don't be a fool!" the wounded man shouted and ran from the room then downstairs and onto the street. He made his way across Third street to the J. H. Runyan street. He entered a truck which took him to the hospital.

The officers said Wells wrenched the rifle mechanism of what was believed to have been his. He admitted he had shot Prager. "I would have killed him if it hadn't been for my wife," he was quoted as saying. His wife had assisted with him for possession of the weapon, officers said they learned.

The prisoner told County Attorney Burghart that both he and his wife were church members and that he had been trying to lead a religious life. He was described by intimates as "a fine boy."

The victim was a son of Robert L. (Bob) Prager, well-known Bonanza merchant and former Floyd county sheriff. He is survived by his wife and two children who reside in Ohio and two brothers, Elmer and Scott Prager, both of Bonanza.

The body was returned here Tuesday noon to the Arnold Funeral Home, then taken to the home of Elmer Prager. Funeral rites were held from the Bonanza school this morning (Thursday) at 11 o'clock, and burial was made in the family cemetery.

MAYTOWN IS FIRST COMMUNITY TO PASS RED CROSS QUOTA

Maytown is the first Floyd county community to exceed its goal in the current Red Cross drive, Ella Noel C. White, executive secretary of Floyd Chapter, reported Tuesday. Mrs. G. E. Allen is chairman of the Maytown committee.

Elsewhere in the county the drive is gaining momentum slowly with \$7000 quota. The fund as of Tuesday stood at little more than \$2,000. The mine shutdown, however, cut down the drive for special gifts from heavier contributors, and residents of mining communities have not yet been asked to aid the drive. Normally, the special gifts campaign is started in February, well in advance of the drive proper.

The importance of attaining the quota set for Floyd county is emphasized by workers who explain that by doing so residents of the county will benefit from the gigantic blood program being developed by the Red Cross against future disasters and local emergencies.

SAY IT ISN'T TRUE—GOVERNOR!
A. H. Frost, who as a reporter has been close enough to the Kentucky political scene to learn that idealism gets you little respect Saturday voyagers, gave in last Sunday's Courier-Journal his reasons for believing Governor Clements will drop the seat for Senator.

He pointed out, among other things that the Governor holds the whip hand, because:
1. No courteous crowd will oppose him, since it is to him they must look for highway improvement and the like;
2. No city council will dare incur his wrath by opposing him, since he has the power to improve or maintain certain city streets;

3. Fiscal courts and city councils in him, since it is to him they state tuberculosis sanatoria are located will ponder long before opposing him, in view of the fact that that of the capital outlay fund which is in his hands must come funds for completion of these institutions.

These are big clubs which might be brandished around the heads of various influential groups. But to say that they will be saying what might be described as "considerable" does Mr. Frost mean to say the boys "had better go down the line" if they want their roads and streets unencumbered with taxpayers and their children? Does this analysis of his mean that the Governor would resort to retaliation, or to the threat of retaliation, by neglecting hospitals upon which human lives depend?

Let us say, for the sake of argument, that a politician is so selfish, that he will say the people of Kentucky, their courts and city councils and other representatives should bow subserviently to that politician's wishes in order to avoid his wrath and vengeance?

Maver Clark said this week the Council plans a "White Way" for Broadway and Court street. This can be effected, it was said, at little or no extra expense by using present light poles and increasing only the brilliance of lights. He said several additional lights are also planned for the sidewalk of the Middle Creek bridge, scene of the murder of Murrel Daldridge.

PRESTONSBURG WINS THIRD STATE CROWN

Average 104.67 Points Against Top VFW Hoopster Competition

MAY REPRESENT STATE IN NATIONAL MEET

The Prestonsburg team capped their third consecutive Kentucky VFW basketball championship by clipping the wings of the Burlington Eagles, 79-65, in the Veterans of Foreign Wars annual state-wide hoop meet at Burlington, Ky., Saturday night.

The victory qualifies Prestonsburg to represent Kentucky in the national VFW tournament at Mankato, Minn., later this month.

Thanked by their own team as one of the best all-around independent basketball teams in the state, the Prestonsburg team averaged 104.67 points per game in the 1950-51 season. They scored 39 points in the first half and 65.67 in the second half. The team's record is 10-1 in the state-wide competition.

The Prestonsburg team was coached by Coach Martin. The team's record is 10-1 in the state-wide competition. The team's record is 10-1 in the state-wide competition.

SPORTS AFIELD

BY TED KESTING

Some fellows believe that the more you pay for a camera, the better pictures you get. They are often amazed to find that it is possible to just as poor results with a good camera as it is with a cheap one.

Here are a few tips from Outdoor Photographer Ormal Sprungman which will help you get pictures which will do credit to your camera, no matter its price.

Start within the shooting limits of your outfit. If your lens is rather slow, don't try filming in weak light or in hazy conditions. Instead, get a flash or photoflood. If your top shutter speed is 1/500 second or less, don't expect to stop pheasants or ducks in flight, or leaping fish in mid-air.

The first accessory you should add is a filter, since nearly every outdoor subject in black and white is vastly improved by the use of the yellow, red or green filters. As a starter, the yellow filter should be adequate. It darkens blue skies, enhances fluffy clouds, and gives normal color correction.

The red filter over-corrects on the blues giving blacker skies and whitening red objects often resulting in dramatic effects. Since both disks hold back a certain amount of light, it is necessary to open the lens one stop farther for the medium-yellow filter and two stops for the red. Deeper tints require even larger stops. The green filter is the landscape filter, brightening green foliage which might otherwise record in darker shades.

If your lens is not otherwise protected from sun glare, buy a lens shade. It will repay you many times over in sparkling pictures, and enable you to take less impressive silhouette pictures, which often must be shot almost directly into the sun.

There is no excuse for fuzzy, out-of-focus photographs with a ground-glass focusing reflex camera, but with less expensive outfits, don't buy at distance. Measure them. If you can't afford a pocket range finder, carry a 12-foot length of string, knotted at one-foot intervals to help determine distance.

HOSTS TO ANNUAL BENEFIT TOURNAMENT

LOUISIA BEATS WAYLAND FIVE FOR EK TITLE

Floyd Team, Defending YMCA Champs, Dismiss Mayo Quintet, 69-63

Hosted by a lineup of Marshall College stars, the Louisia Independents upset the defending Eastern Kentucky YMCA basketball champions, Wayland, 69-63, in the final of the annual YMCA independent basketball tournament Saturday night.

Playing for Louisia were team captain and forward Bob Wright, center Norman Wiley, and guards Ivan Reppic and Eddie Ball, all of this year's lineup of Marshall College.

James "Cougar" Stone, Wayland guard, topped the point-makers with 27 and his teammate, "Copper John" Campbell, will record with 23. It was the second consecutive game that Campbell had tallied that number.

Show his nine of 10 two-point field goals attempted for a first-half total of 18 points. His scoring antics accelerated Wayland to a flying start which saw the defending champions lead, 29-12, at the end of the first quarter.

Louisia picked up second quarter momentum but the half found Wayland still leading, 59-33.

Louisia roared back to take the lead at 69 after three minutes of the third quarter had elapsed. The teams traded baskets on even terms and the beginning of the fourth quarter found Wayland on top, 69-57.

In the third quarter and the early minutes of the fourth the score was deadlocked eight times but with approximately five minutes left to play Louisia forced a 71-69 lead and was never headed. Wayland began to tremble and the Louisia fast-break began to click to gradually wear down the defending champions.

The runnerup team, Wayland, received small individual trophies while the champions will be awarded jackets.

While Louisia was doing semi-final chores by disposing of Parsons, 70-10, the Wayland club set down a strong South Shore team, 67-49, on Friday night.

After South Shore had led for three quarters, 21-18, 23-32 and 34-47, Wayland turned on last-minute steam and scored 20 points while the champions were in the hole.

MARTIN PURPLE FLASH, 1950 Big Sandy Conference Tournament Winner and Defending Floyd County and 88th District 1949 King who was dethroned in the semi-finals of the district meet here by the Maytown Wildcats. The Fishman have one of the most impressive two-year records in the state.

They and their cheerleaders are shown above, first row, left to right—Chester Anderson, Tom Hayes, Robert Flannery, George Ann Adams, Barbara Sue Allen, Pat Allen; second row, left to right—Burt Campbell, Pete Griesby, Jr., Donnie Lafferty, Bill Taylor, Dean Peters, Blake Rattiff; third row, left to right—Team manager "Billy" Crush; Hanger, Bob With, Edna Chick, Bob Taylor, Coach Donald "Boss" Hatberg, Doug Lafferty, Donald Tucker, team manager Bobby Butler.

WILDCATS IN THIRD WEEK OF PRACTICE; SKEBS 6 NEW FOES

Lexington, Ky., March 22 (Sp.)—Approximately 70 members of Kentucky Wildcats football hopefuls are in the middle of their third week of spring practice. The number includes 30 lettermen but registers 16 missing letters from last year's Orange Bowl squad.

The 1950 schedule was completed as spring practice here March 6. Coach Paul Bryant announced that the Wildcats will open their season here on the night of Sept. 15 here against North Texas State, a newcomer to UK grid football.

Six new faces appear on the 1950 lineup. These are North Texas State, University of Dayton (Ohio), Villanova (at Philadelphia), Georgia Tech, Mississippi State and North Dakota replacing Mississippi Southern, The Citadel, University of Miami (Fla.), Georgia, Southern Methodist and Xavier (Cin., O.).

The 1949 UK grid schedule, prior to the Orange Bowl setback at Santa Clara, was a 11-game tally of 300 points to 43 for the opponents. The Wildcats averaged 27.6 points per game to 4.8 for the opposition for regular schedule play.

The first five games next fall will be played under lights here. L.S.U., Mississippi, Dayton and Cincinnati follow North Texas State.

TRANSY TO ENGAGE ONLY "PURE" TEAMS IN FUTURE GAMES

(Special to The Times)

Lexington, Ky., March 22—Transylvania College will engage in athletic contests only with those colleges whose teams are unblemished after this school year. It has been announced by Dr. Raymond F. McLean, Transylvania's president, after a meeting of the executive committee of the school's board of curators.

In stating the general policy of the college, Dr. McLean pointed out that for some years the athletic program at Transylvania has been completely non-scholastic. "Athletics," he said, "like music, dramatics and journalism, is a student activity, available to all students according to their interests, abilities and needs. The college does not employ students, or bid for them through subsidies, to represent the college in these fields."

"Instead," he declared, "the college employs teachers and provides facilities so that students may be trained in such activities according to their interests, abilities and needs."

This policy, the college president reported, was affirmed by the executive committee in today's meeting, and expressed the unanimous agreement of the faculty as well as the preponderant opinion of a group of student leaders who have been discussing the situation for some time.

"The present trend in colleges and universities, with reference to athletics," Dr. McLean pointed out, "is toward professionalism, away from amateurism. More colleges are granting subsidies than formerly, the grants are larger than formerly, and a greater number of grants are being made. This favors commercialization of athletics, at the expense of good sport and good sportsmanship. It places a disproportionate value upon winning. College athletics is becoming more of a business and less of a sport."

Urges Ban On Cigarettes Minus Kentucky Stamp

Frankfort, Ky.—A bill to make it illegal to possess cigarettes that do not bear Kentucky tax stamps has been introduced in the Senate by Majority Leader R. P. Mahoney, Lexington.

The bill is designed to strengthen Kentucky's fight against individuals buying cigarettes without paying the State tax. Many individuals get cartons of cigarettes shipped by dealers in states which levy no tax. It's against Kentucky law to sell such cigarettes in Kentucky.

Dr. Hans Hass, Austrian scientist, will investigate unknown forms of deep sea life in the Red Sea, early this year, to evolve rational means of exploiting undersea resources.

NOTICE

All teachers who expect to teach in the Floyd county school system next year should file application with the Superintendent as early as possible. The applications especially in new teachers, application blanks will be sent on request.

Art Contest Winners
At David Announced

Winners in the Art contest held in the David grade school during the month of February have been announced by Mrs. Russell Harman, chairman of the committee of the David Woman's Club, sponsor of the contest.

The 286 entries were judged by Mrs. Charles Schneider, of Prestonsburg, who selected, as most outstanding, the drawings in crayon and colored pencil from the various grades.

Brenda Joyce Clay was winner in the first grade grouping, with a drawing of a rainbow and tinted sky showing vari-colored flowers in the foreground. Jimmy McKenney won in the second and third grade group with a color sketch of vegetable children behind a fence responding to the influence of the sun. Helen Shepherd's drawing was of mountains and sky, trees and rocks and flowers, such as any of us can see from our windows, with a pool of water as a focal point.

An entry by Leon Hicks, of the sixth and seventh grade group, treated a conservative subject of house and tree with excellent technique. "The Opossum Chase" was the title of the eighth grade winning entry by Donald Ray Carver which showed a night scene with yellow moon and purple sky, with denuded trees through the branches of which can be seen an opossum hanging by its tail.

Prizes of art materials were distributed to the winners by Mrs. Harman. A representation of the drawings will be on exhibit at the David school. Much interest in the contest has been shown by teachers and pupils alike, and it is hoped by many that the art contest may become an annual project of the David grade school.

Kentuckians Have Paid Nearly \$400,000 In Back Income Taxes To State

Kentuckians have paid nearly \$400,000 in back state income taxes and penalties since last June, State Revenue Commissioner Clyde Reeves reported at Frankfort.

The state's program, started last year, of photo-rubbing federal income tax returns to find state tax delinquents may produce \$1,000,000 more, the revenue commissioner added.

The Department of Revenue wrote to about 35,000 taxpayers filing 1949 state returns who had not filed for previous years. Reeves said. Of these, 10,000 owed back payments of \$175,000 plus \$220,000 in penalties.

COMMENTS

BY WOODROW ALLEN

It is a humiliating fate for an able-bodied man to become dependent on his children; and there is usually no reason for this to happen.

In those instances when parents are dependent on their children for support, the responsibility always falls when the expenses of rearing their own children are greater—thereby making it an even greater burden.

Dead, when you think of your own future, before you assume your or taper off, you are giving your children one of the biggest breaks you can give them.

Now is the time to talk with me about Commonwealth Retirement Income Plan. May I see you soon?
