most is one which would heal up injured families and purge us of our petty hatreds and prejudices.

A host deck is where some of us get out of our boots to see the fish other folks caught.

NICE GOIN' Some politician whose name escapes me for the moment once said, "Get the children for you, and you'll get the older folks, too."

After seeing the results of work done here for a community swimming pool by a group of youngsters, we agree it begins to look like the children with which the boys and girls attacked this problem will pay off. And we, among others, are 100 per cent for 'em.

Maybe we elders would get along better if we would first convince the children that certain things are needed. Then put them to work at it immediately, keeping ourselves far back in the background.

Young America will keep America alive.

ON THE FISHING FRONT

Henry Fitzpatrick writes me from Indian-ville, "Whatever you are fishin' and fish takes are the same." Dr. J. H. Allen instructs his fishing partner, Ed Allen, to turn me green with envy with a report of their fine success on Norris Lake last week. Why pick on me fellow? Father, Hall caught his second "keeper" Friday—a 17-inch bass on Dever.

Harman in Fort Worth For Directors' Meet

Russell Harman, auditor of the Prince's Elkton Coal Company, of David left Wednesday for Fort Worth, Texas, to attend a three-day meeting of the board of directors of the National Association of Foremen.

Mr. Harman has been a director for two years and was recently nominated for re-election at the general convention to be held at Chicago in September.

The board of directors, composed of 100 members, is the policy-making body for NAP, which has membership in 42 states. NAP is an organization which functions in the interests of foremen in all industries.

District No. 4 had an assessment drop from last year's \$9,427, with a total of \$82,741 listed this year. Non-resident listings were down from \$9,653,665 to \$9,292,320 this year. To be added to the figures listed by the Tax Commissioner for this county is the franchise assessment amounting to approximately \$190,000.

The number of autos and trucks listed this year was 4,187, but 20,000 others explained that models older than 1949 are not assessed. The Tax Commissioner expressed the belief that Floyd county has hit its tax assessment peak and that a decline in values may be expected for future years.

Huesville Schoolgirl Neither Absent, Tardy In Period of 11 Years

Since the day she started in school 11 years ago, Ilean Prater of Huesville, has not missed a day of school, she is completing her junior year in Garrett high school this week.

Mrs. Prater is a daughter of Mr. and Mrs. Corbett Prater, who reside on Salt Lick Creek, some distance from the neighborhood graded to which she walked until she was ready for high school. Attending high school at Garrett has meant that she has had to walk daily to the school bus route, mornings and from that point home in the afternoon, in all weathers.

Despite all this, she has not been tardy over once according to Charles Clark, principal of the Garrett high school.

Over 100 Members, Guests Enjoy Annual Barbecue

More than 100 members and their partners attended the barbecue given on the playground here, last Wednesday night, by the Future Homemakers and Future Farmers of America chapters of Prestonsburg high school.

Mrs. Arthur Bartridge was named an honorary member of the F.F.A. and she responded with a brief talk. Chapter members entered the playlet, "Twinkle, Twinkle, Little Star."

Nervous, Run Down Housewife Now Sings at Her Work

HADACOL Relieves Fatigue and Nervousness When Caused by a Lack of Vitamins B, B2, Niacin and Iron

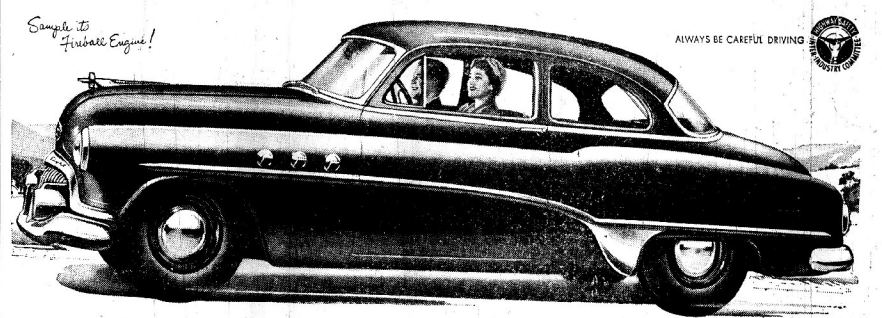

after my first large bottle, I am lots better. Thanks to HADACOL I can now sing at my work. I cannot praise HADACOL enough and you will be I recommend HADACOL to all my friends and neighbors. You may use my letter if you like. I will be truly thankful if my letter helps someone else. So, thank you HADACOL, I am feeling fine.

It's not easy to get your housework done, be pleasant, when every little noise nags on your nerves. By the end of the day you're so tired, frazzled, and at your wit's end, life seems hardly worthwhile. This is just what happened to Mrs. C. M. Moody, 849 Hinton Street, Petersburg, Virginia. She had been told HADACOL, however, heard how it could help nervousness, when due to a lack of vitamins B, B2, Niacin and Iron. She decided to try this wonderful formula and see if it could give her the same help it had so many other folks she knew.

She says: "I was so nervous and run-down, could not stand the least noise. So, I tried HADACOL, and,

For it is just such deficiencies that HADACOL has been especially compounded to overcome. These vital elements, plus helpful quantities of Phosphorus and Calcium, are in a special liquid form already dissolved, for quick, sure absorption in your system. Try it today... you, too, will be saying that HADACOL gives you the "Wonderful Hadacol Feeling!" You don't risk a penny to find out what it can do for you, because HADACOL is covered by a strict money-back guarantee. Recommended by many doctors. At your drugstore, only \$1.25 for the trial size; only \$2.50 for the large economy family size.

Here's something Special in Spaciousness

A LOT of folks like the two-door idea, because they feel that tiny tots are safer in the back seat. But that's no reason why back-seat head-room should be dimensioned for midgets only. So Buick engineers have done something about it, in the Buick SPECIAL 2-door Sedan pictured here. They've kept the compactness of over-all length that's important in modern garages. But they've arched that sturdy steel top to give you head-room—headroom in back as well as headroom in front—that makes a six-footer feel at home. And they've designed a trunk that has "room for tourists." Don't ask us how they did it. Come see for yourself. Slip into those spacious seats—and while

you're there, find out why this compact honey is one of the hottest numbers we've seen in years. Find out how that F-263 valve-in-head Fireball Engine pours out the power and stretches the miles per gallon. Find out how Buick's exclusive combination of torque-tube drive and coil springs on all four wheels puts big-car steadiness and stability into this nimble performer. Find out how Dynaflow Drive® takes the strain out of traffic driving—and brings you relaxed to the end of a long day's cross-country driving. And above all find out how much comfort and luxury and convenience you get for the prices you see featured here. The sooner you see your Buick dealer—the better off you'll be.

Table with Buick models and prices: Buick SPECIAL 2-Door, 6-Passenger Sedan, MODEL 480 (illustrated) \$2,075-15; Buick SUPER 4-Door, 6-Passenger Sedan, MODEL 52 \$2,366-92; Buick ROADMASTER 2-Door, 6-Passenger Sedan, MODEL 748 \$3,041-00

Floyd Soldier, Veteran Of Korea at 17, Home After 7 Months' Action

Although only 17 years old, Pfc. Dennis C. Allen, of Melvin, has seen seven months' active duty in the Korean fighting and wears the Purple Heart for a wound received in action. He recently returned to his home at Melvin for a visit with his parents, Mittie and Clyde Allen.

Pfc. Allen, a machine gunner with Company H, 2nd Infantry, Seventh Division, was in three amphibious landings at Incheon, Seoul and Wonsan and was the first unit to hit the Manchurian border. He also was a member of the American Forces trapped by Communists at the Chosin reservoir.

John Howard Hill, 29, Dies at Hospital Here; Last Rites Held Today

John Howard Hill, 29 years old, Goodloe merchant and member of a well-known Floyd county family, died at the Prestonsburg General Hospital at 10:45 p.m., Monday, of complications following an operation to which he had submitted last Thursday morning.

News of Mr. Hill's passing was received with deep regret by many friends and relatives over this section. He was a son of Mr. and Mrs. Harry T. Hill, of Cliff, and operated a prosperous mercantile business here at Goodloe Middle Creek. He was a veteran of World War II, after the close of which he entered business. Mr. Hill was regarded by all who knew him as one of the county's finest young men.

Surviving, besides his parents, are his widow, Mrs. Virginia Lee Patton Hill, two daughters, Jeanette and Janie Fannette, two brothers, Chester and Billy Hill, and one sister, Miss Hazel Irene Hill.

Funeral rites will be conducted this afternoon at 2 o'clock from the home of the parents on Middle Creek. Burial will be made in the nearby family cemetery under direction of the Carter & Callahan Funeral Home.

MAYTOWN

CLINIC TO BE HELD

May meeting of the Maytown Woman's Club was held in the Home E. de monument of the 80th district, Thursday evening. Mrs. George Patton opened the meeting with prayer and Mrs. Ed Stewart presided over the business meeting. Mrs. Stewart reported \$306.65 collected for the Cancer Fund.

Final plans for the baby clinic, which will be held June 7, were made. It is hoped that there will be a good turnout for this clinic, as a lot of work has gone into the preparation of it. Dr. Ransdell will conduct the free examinations, assisted by one of the county health nurses. This will be for all preschool-age children, and those who are to begin school this fall may have their required health certificate filled out by Dr. Ransdell while he is here. All babies who haven't had the various immunization shots will be immunized. The examinations will be from 9 a.m. until 3 p.m.

Refreshments were served by the hostess, Mrs. Ed Stewart, who was assisted by Mrs. Frank Stewart. Mrs. Omer Turner will be hostess next month with Mrs. Ed Stewart, program leader.

Mr. and Mrs. Roger Stewart, Mrs. Henry May and Misses Ann Stewart, Presonsburg, Ky., at a member of the 7th Division Artillery helped stem the Communist spring offensive in Korea.

Bowling With Artillery Helped Stop Comms

WITH THE 7th INF. DIV., U. S. ARMY—Private First Class Robert E. Bowling, son of Mr. and Mrs. Elsie Bowling, 511 Howard St., Prestonsburg, Ky., at a member of the 7th Division Artillery helped stem the Communist spring offensive in Korea.

Bowling's unit recently spent its 333,000th round of the Korean campaign blasting the enemy. In eight months of Korean action, his unit has made two amphibious landings, gained the Manchurian border, and fought on both coasts of the Korean peninsula.

Bowling and his buddies of the 31st Field Artillery Battalion have moved 70 times in the shifting Korean battle zone. They have covered a total of 2800 miles of guerrilla infested land and 680 water miles since the Inchon landing.

A veteran of two and one half years service, Private Bowling joined the 7th Division in December, 1948.

PICK A DODGE "Job-Rated" PICK-UP

Prize Winner

ONLY Dodge Trucks offer gyrol Fluid Drive!

Before you buy any pick-up, let us give you a demonstration in a Dodge with Fluid Drive! You'll discover driving ease, convenience, load protection, and safety offered by no other pick-up.

Only Dodge has it! This Dodge exclusive—available on 3/4, 1/2, and 1-ton "Job-Rated" trucks—saves wear and tear on more than 80 vital parts. It reduces repairs... lengthens truck life. It makes driving easier... protects your load. It helps avoid wheel-spinning... increases tire mileage.

FIRST in Load Space!

Haul more payload with a Dodge 1/2-ton pick-up. Take your choice of a low-side body with 31.41 cu.-ft. capacity or an optional high-side body with 44.16 cu.-ft. capacity—more load space than any other popular pick-up of comparable wheelbase. The trucks also have lower loading heights to save work, time.

WINNER in Visibility!

Drive in safety—with the biggest windshield of any popular make! Enjoy wide, clear, forward vision through an area of more than 900 square inches. You'll sit at good close-up of the road—with the new, lower hood line. You'll have excellent side- and rear-visibility, too!

CHAMP in Easy Handling!

It's a cinch to maneuver, park, and drive these pick-ups in traffic! They turn sharper than comparable trucks—because Dodge gives you cross-steering, wide front tread, and short wheelbase. They steer easier, too, thanks to the worm-and-roller steering gears and a new, more comfortable steering wheel arm. Try 'em and decide!

TOPS in Plus Features!

Only Dodge gives you all these extra-value features: Revolutionary new "Oriflow" shock absorbers for matchless riding comfort on any road. Four-ring pistons with chrome-plated top ring for dependability and economy. Exhaust valve heat inserts to reduce valve grinding. Moistureproof ignition. Wide running boards for safe footing. 45-amp generator. Independent hand brake. Two fuel filters. Heavy-duty radiator.

America's Largest and Finest Low-Priced Car!

First and finest in the low-price field

TIME-PROVED POWER Glide Automatic Transmission

Here's why we say LARGEST!

It's LONGEST—measuring 197 1/2 inches from bumper to bumper. You can see that extra length—and feel it in the smoother ride!

It's HEAVIEST—flipping the scales at 3140 pounds. You can feel Chevrolet's big-car solidness in its steady, even way of going!

It has the WIDEST TREAD—spanning 58 3/4 inches between the rear wheels. That wider base means better roadability—helps steady the ride!

You'd expect to pay a little more for the largest low-priced car... longest, heaviest, with the widest tread. But not with all its extra size and weight—all its exclusive features—Chevrolet is the lowest priced line in the low-price field.

Here's why we say FINEST!

FISHER BODY QUALITY • UNITIZED KNEE-ACTION RIDE • VALVE-IN-HEAD ENGINE ECONOMY • WIDE-VIEW CURVED WINDSHIELD • JUMBO-DRUM BRAKE SAFETY • SAFETY-SIGHT INSTRUMENT PANEL • TIME-PROVED POWER GLIDE AUTOMATIC TRANSMISSION. Combination of Powerglide, Automatic Transmission and AUTOMATIC TRANSMISSION. 1951 is engine optional on De Luxe models at extra cost.

Discussions on UN Heard at Meeting

Betsy Layne, Ky., May 21—(Sp.)—The Betsy Layne Woman's Club held its regular monthly meeting Thursday night, May 17, at the home of Mrs. C. H. Dickerson, with Mrs. Beecher Hardwick as co-hostess. Mrs. Glenn Blackburn, program leader, presented a timely program on the United Nations. This program was presented, by transcription, with informal discussions on the United Nations by Mrs. Eleanor Roosevelt, Fannie Hurst and Mr. Wm. Dick Spurgin, of the General Federation International Relations department. These transcriptions were obtained from General Federation headquarters and were made especially for the use of clubs in their efforts to become better acquainted with the purpose and work of the United Nations. They brought out the fact that it is important to bring to underdeveloped countries the hope of a new life and that only moral principles will be victorious in the long run.

A chart of all the flags of the United Nations was shown, and Mrs. Hardwick closed the program by reading the Preamble to the Charter of the United Nations adopted at San Francisco.

Mr. Williams presided at the business session. The minutes of the last meeting were read by the secretary, Miss Williams. Club members will assist the Woman's Society of Christian Service of the Methodist Church in serving the district meeting of the Methodist Youth Fellowship, May 21. Delegates to the Kentucky Federation of Women's Clubs Convention in Mrs. J. Hardwick and Miss Williams, alternate delegates are Mrs. J. Chandler and Mrs. Glenn Blackburn. Additional pen friend names were distributed at this time, and the president urged each member to correspond with these women abroad. It was voted to make a contribution to the American Bible Society. Mrs. Arthur Van Kammern was appointed Civil Defense chairman.

A special meeting, for the purpose of planning work for the June 15, at the home of Mrs. Edward Lykins and all members are urged to attend. A desert plate was served the following: Mesdames O. Williams, Glenn Blackburn, A. K. Robinsette, Elizabeth Pritchard, Alex Davis, Arthur Van Kammern, Edward Lykins, Miss Alice Williams, the hostesses Mrs. Dickerson and Mrs. Hardwick and Mrs. Bill Humphreys.

Lawrence county farmers bought 80 tons of rock phosphate in March for use on pasture.

IF YOUR STOMACH IS LIKE A GAS FACTORY!

When you eat a meal and it turns right into gas, it's a sign your food is not digesting quickly enough. It just lays there and ferments. So you are in misery with gas for hours afterward.

Many Prestonsburg people used to feel that way before they got CERTA-VIN. This new medicine digests food faster and better. Taken before meals it works with your food. Gas, ruins gut, hinders of blood vessels! Contains Vitamin B-1 with Iron to give pep and make nerves stronger. Miserable people soon feel different all over. So don't go on suffering. Get CERTA-VIN — W. A. ROSE DRUG CO.

SEARCH IN KENTUCKY FOR MISSING HEIRS TO CALIFORNIA ESTATE VALUED AT \$15,000

San Francisco, Cal., May 17 (Sp.)—A will-o'-the-wisp search is under way in Kentucky for the heirs to a \$15,000 estate, of which they obviously never heard.

The heirs are the possible children or grandchildren of the late John Adkins and his wife, Margaret, nee McKee, but are believed more likely to be the couple's nieces and nephews.

James W. Smith, probate generalist, 1289 California St., San Francisco, who specializes in tracing missing relatives to settle estates, is directing the hunt with but few clues on which to proceed.

"The estate was left," Mr. Smith said, "to a childless descendant of Mr. and Mrs. Adkins who are known to have married in an unidentified locality in Kentucky in about 1854. First inheritance laws applying claim to the money revert back through the lineage of the couple to their next of living kin."

"Since there is slim evidence that Mr. and Mrs. Adkins' children who would be quite aged if living, and then to their grandchildren."

"Since there is slim evidence that such descendants are living, it is believed that the couple's nieces and nephews are the heirs sought."

"Most Dependable Car in America!"

Everyone knows that Pontiac is famous for dependability. If you want personal confirmation of that fact, talk to some of our Pontiac owners. Talk to owners of high-mileage cars—owners who speak from experience. You'll be surprised how many will say, "The most dependable car in America!"

That, essentially, is why the 1951 Pontiac is in such tremendous demand. To be sure, it is the most beautiful thing on wheels—a

joy to drive and to ride in. But it's that reputation for dependability and long, trouble-free operation which causes so many people to make Pontiac their choice.

Bear that in mind when you consider your next new automobile. It's one of the big reasons why so many people are saying, "Dollar for Dollar, You Can't Beat a Pontiac." Come in today—get the facts and figures that prove it.

I Admire the Human Race

By Roger William Riis

I admire the human race. I do, indeed. Everybody is busy running us down, these days, for the mess they say we have made here and there and everywhere. Pshaw! That's short-range stuff, a woman's eye view of our world. Over the marching and abundant centuries, we haven't made any mess. Far from it!

We have done and are doing a better job than anyone has any right to expect. We're all right!

From the beginning, we found ourselves alone in a vast universe, and not only alone but the only living thing on this planet, which could realize its loneliness. We realized it, gave it a good close look, and then turned our attention to making something practical and useful out of an unprecedented situation.

First of all, we found for ourselves a light, a God, and we got a sense of direction, a goal to work toward. This was pretty clever of us, if you think of it carefully.

We succeeded in setting standards for our living together. Early in our experience we made the revolutionary discovery that gentleness and kindness were more practical than brute strength. No other species has ever found that out and used it as a mental and practical code of conduct.

We have in actual fact no one we need answer to, beyond ourselves, and yet we observe our ideal standards in remarkable degree. We are honest, and trustworthy one with another so that it is the exception, it is news, when we commit a theft. We are decent 99 percent of the time, when we could easily be vile. With silence and mystery behind us and ahead of us, we make up gay little songs and whistle them, and our feet keep in time with them. We look life and love in the eye and smile. I like that, and I admire the people who do it.

Alone among all living things, we have discovered Beauty and we cherish it, and create it for eye and ear. Alone among living things, we have the power to look at our environment and criticize it, and improve it.

Finding it necessary to live together by the millions, we created for ourselves governing systems covering vast geographical spaces. Now we actually have the thrilling and terrific idea of a world government, a global government to bring justice to white and black, to Eskimo and Afrikaner, rich and poor, not because any tribe is powerful and can exact justice, but because we have cooperated and created the ideal of justice and plan it for all men. This is great. This is not the act of a little animal, or a mean animal. This is possible only to a great animal. We think in global terms. We inhabit a star, and we know it.

Knowing that we have to work to stay alive, we work with ability beyond imagining. Out of the earth we take food, and improve that food year by year; we take heat, and light, so that darkness which lay upon the face of the earth is dispelled by man-made light. We enjoy all the myriad products of our unparallelled ingenuity.

Every morning the necessity for the day's work faces us. And we go and do a day's work, with an overall average effectiveness and perseverance that is amazing, considering many of the jobs.

Of a persistence, a daring and ingenuity impossible to surpass, we find ways to move easily under the water and through the air. Now we speculatively eye our neighboring planets. It is still assumed no one of man one day begins to move among these planets. How shall I not admire such a creature? Daunted by nothing, his horizons constantly recede, the territories of his possession and use expand and expand.

Whenever he comes to an impassable object, an apparently final barrier, he goes to work at it and, in due time, surpasses it. If he has limits I do not see where they are. I do not think he has limits. I think he is a child of the universe who inherits eternity. I think he is wonderful. I am his devoted partisan, and I am proud indeed to be one of him.

Woman's Club Members Have Husbands, Friends As Guests at Dinner

Wheelwright, Ky., May 21 (Sp.)—The May meeting of the Wheelwright Woman's Club was held in the Community Hall at which time a buffet dinner was served to the members of the Club, their husbands and friends.

The Social committee, under the direction of Mrs. J. T. Anglin, planned the dinner. Each woman was presented a rose corsage and each man a carnation.

After the dinner the guests were entertained with several songs by the Women's Club sextette under the direction of Mrs. Cora McHone. Members of this sextette are Mrs. John Ruge, Mrs. Herbert Collins, Mrs. Geo. P. Leatherman, Mrs. H. M. Wilkinson, Jr., Mrs. R. W. Gibson and Miss Jane Clark.

Mrs. Carlton Wrightson, formerly of the Seventh district of the Kentucky Federation of Women's Clubs, was the guest-speaker for the evening and she gave a brief enumeration of things that are being done by Women's Clubs. After her talk Mrs. Wrightson formally installed the officers of the Wheelwright Woman's Club for 1951-52. These are: Mrs. F. E. Conley, president; Mrs. J. E. McKinney, vice-president; Miss June Staker, recording secretary; Mrs. Herbert Collins, corresponding secretary; Miss Betty Ann Zimmerman, treasurer.

HYBRID CORN

Hybrid corn has probably done more to increase the average corn yield in the United States than any other factor in corn production. It has been so successful in other areas and has not been used as much as it should be in this county that we need to consider its merits and demerits.

First of all, let's consider what determines how many bushels of corn is produced on an acre. The main things, with the exception of fertility, is the number of stalks per acre, the number of ears per stalk, and the average size of the ears. With hybrid corn more stalks can be grown per acre, there are more stalks with two ears, fewer stalks without ears, and the ears are more uniform in size. With old-fashioned corn you will get some very large ears which make you think you have a good corn crop. You will also get more nubbins than you get large ears. The best way to tell which corn is the best is to plant a shock row of hybrid corn and a shock row of open pollinated corn side by side. Give them the same treatment and measure your yield.

Some farmers have not had much success raising hybrid corn. They try it one year and don't give it a fair trial. For the farmers that have tried hybrid and didn't like it I would recommend that they try a different variety. New hybrids are being tested and approved every year and, some day, will completely replace the ones being used today.

The varieties recommended this year are: Yellow—Ky. 154, Ky. 162, Ky. 169, and US 15; White—US 923, W. Ky. 200, Ky. 4033, and Ky. 725. US 923W was put on the recommended list in 1950. It is high yielding with an excellent stalk. Samples of seed of US923W were distributed in 38 counties in 1950. Reports from 44 farmers who compared this hybrid with local varieties of old hybrids show that the new hybrid was superior to older hybrids in practically all cases and was very well liked. Ky. 4033 continued to perform better than older hybrids in these tests.

I would like to get about five farmers in the corn derby who plant open pollinated seed corn. This way, we could see just exactly which corn is best by measuring the yields.

KENTUCKY ON THE MARCH

By EWING GALLOWAY

After seeing my column in the Lexington News about overcharges by physicians, Dr. Sam A. Overstreet, of Louisville, president of the Kentucky State Medical Association, says in a letter to me: "We of the medical profession feel most grateful to you and the editors of many Kentucky newspapers for the friendly and constructive criticism contained in this and similar editorials. No doubt you are concerned as we are primarily in improving the medical care of people of our state at a price commensurate with their ability to pay . . ."

"I wonder if the father of the 16-year-old surgical patient discussed with the surgeon his inability to pay \$25 for the appendectomy to another the surgeon was willing to accept a fee that he was able and willing to pay. I wonder also if the farm couple, who were charged \$125 for the delivery of a baby, didn't pass by their own family physician who would have charged a more reasonable fee and seek the services of an obstetrical specialist when specialized service was not necessary."

The father of the girl operated on for appendicitis, who happens to be my bookkeeper in New York, left the selection of a surgeon to the hospital. He didn't know a surgeon and the job was done in a hurry. In such cases as usually, the farmer asked for a better rate and was told the fee was uniform. The doctor was a general practitioner.

I know of another case where the same thing happened. For Dr. Overstreet's information, the fee in baby cases in Evansville, just across the river from us, is \$50 to \$90.

Dr. Overstreet says it is generally known by now, he believes, that the Kentucky State Medical Association has a standing committee to which inquiries may be referred when a patient is unable to arrange a satisfactory adjustment with the physician concerned. The good doctor is mistaken about the grievance committee being "generally known." And he failed in his letter to give names and addresses of members of the standing committee.

Further along in his letter Dr. Overstreet says, "The K. S. M. A. has in preparation a statement of policy covering the general problem of medical care in our state." He goes on to say that physicians from seven Kentucky cities and towns left their practices recently, "sacrificing a day of their work and traveling these distances without compensation and spent three and a half hours in discussing together just the problems you have noted, and others."

The annual meeting of the association is in October. Just what the organization may do to correct individual abuses may make an interesting story.

"I'll be a-watching," Dr. Overstreet.

SPORTS AFIELD

By TED KESTING

Every time we publish a picture of a man standing in a boat, a lot of people write and indignantly denounce such a practice, saying that you should never stand up in a boat.

These sincere people overlook a number of good reasons why there are occasions when standing in a boat is almost a necessity. Willard Crandall, our boating editor says: "Standing in a boat is something to be universally condemned, as docking a boat. Even with canoes, there are occasions when it is not only safe but perfectly sensible to stand. Commercial fishermen often stand up in their narrow dories to pull in nets, often in rough water. The duquet canoe of the Seminole Indian in Florida rolls more easily than a birch-bark canoe. And the birch-bark canoe is less steady than today's factory-designed canoes. Still, the Seminoles stand and pole their dugouts."

Here's angling editor Jason Lucas' opinion on the subject: "I've been in and around boats all my life and I've never heard of one non-intoxicated fisherman being drowned because of standing in a boat. Fact is, most experienced fishermen do, habitually or occasionally, stand in a boat. One may do it to stretch his legs or save tarring the boat to cast behind him. There's no particular reason why he should not stand—since he knows when it is safe to do so. If the boat is narrow and unstable, he probably won't stand. But if the boat is wide in the beam and stable, a person of very moderate experience should be safe in standing in it."

Naturally, circumstances vary. Only a foolish person would stand in an overloaded boat, for example. But, as the Outboard Boating Club of America advises, there are even more important things to worry about—such as heeding weather signs and always stepping into a boat rather than jumping into it. "A good boatman piloting a good boat under good conditions could seldom come to trouble by standing up in a boat," says James G. Hildebrand, publicity director of the Outboard Boating Club.

Wilbur Shaw thinks so much of this new Chrysler, he has selected it as Pace Car for the 1951 Indianapolis 500-mile race.

WILBUR SHAW, AMERICA'S MOST FAMOUS DRIVER, DRIVES NEW 1951 CHRYSLER—REPORTS TO YOU ON REVOLUTIONARY FIREPOWER ENGINE AND HYDRAGUIDE POWER STEERING

Here are Wilbur Shaw's reactions—in his own words—as taken down by a recording machine in the car:

"The '51 Chrysler has it! With this new engine and power steering, the first on any U.S. car, it's a whole of an automobile."

"I'm completely bowled over by the ease of steering! "This steering combined with the automatic transmission . . . is the nearest thing to an automatic pilot for a car I can possibly imagine."

"This engine . . . I can't get over the amount of power and snap in this engine . . . it's incredible!"

"I drove 111 miles with the feeling I had expended no more effort than in driving around the block."

"When Mrs. Shaw drove, her comments just about squared with mine. Here's what she thinks of the 1951 Chrysler . . ."

Shaw inspects FirePower, the greatest new engine in 27 years.

Smartly styled Chrysler convertible to pace Indianapolis 500-mile race.

"I've just driven the most powerful car* in the U.S."

Mission . . . is the nearest thing to an automatic pilot for a car I can possibly imagine."

"This engine . . . I can't get over the amount of power and snap in this engine . . . it's incredible!"

"I drove 111 miles with the feeling I had expended no more effort than in driving around the block."

"When Mrs. Shaw drove, her comments just about squared with mine. Here's what she thinks of the 1951 Chrysler . . ."

Mrs. Shaw: "At first I could hardly believe the ease with which I could turn the wheel. That's important . . . especially in the summertime."

"Often after I have parked a car in the average parking space, I feel I should taxi home, shower and get dressed again. But with Hydraguide Power Steering I parked it with one hand. It practically drives itself."

Wilbur Shaw: "It's hard to describe this new Chrysler without going off the deep end . . . it has it in every department."

"In fact, I think so much of this car, I've selected it as Pace Car of the 1951 Indianapolis 500-mile race!" (Mr. Shaw's comments are repeated through the courtesy of Popular Science Magazine.)

*Mr. Shaw refers of course to standard passenger cars—not racing cars or special models.
