EDWARD B. LESLIE

DENTIST

Wright Bldg., Prestonsburg

Office Phone—3971
Residence Phone—3791

TO THE PEOPLE OF FLOYD COUNTY:

I want to talk to you about Tuesday's school race. During the three months I have been your Superintendent we have worked night and day to put a good school program in operation. In this undertaking we have had your cooperation and good will. And I am sure you wish to be just and fair-minded in regard to the School Board race. But lest the ebullience that goes with elections may mislead you I want to give you some facts. The facts are these:

Some of the candidates are running against the administration, yet in certain places they are saying they are for the administration.

We had nothing to do with their candidacy, but are trying to keep the Board free of next year's Sheriff's race. We are not trying to elect magistrates nor any other public officials. We are school people and not politicians.

For schools free of political interference, for a harmonious and progressive Board, for improved transportation, for lunch rooms, for better business practices, for new buildings and better teachers, I strongly urge you to support JOHN E. CAMPBELL in District No. 5, and JOHN (Lightning) STUMBO, JR., in District No. 3, for members of the Board of Education.

V. O. TURNER,
County Superintendent of Schools

Let the PEOPLE Know the TRUTH

I want to take this opportunity, just like my opponent, to state certain principles for which I stand and set out for the record the position I shall take if elected your member of the Board of Education from District 3.

My opponent devotes 10 paragraphs to his statement. In eight of them he lambasts the Betsy Layne school system. From what we gather from his statement that school must be the only issue in this campaign. We wish he were right.

Let us look at the record. Instead of being hand-picked by the politicians from outside the district, I became a candidate at the urging of men and women from every section of the district—from Betsy Layne, Mare Creek, Little Mud, Toler, Big Mud Creek, Johns Creek and Ligon. I could name the people who urged my candidacy but their sponsorship is so well known to the general public that it is unnecessary to name them.

Let us look at those who sponsor Mr. Eash's candidacy if we can see through the smoke screen of the Betsy Layne high school issue he has thrown in to obscure his real intentions. Do you see any "big time" politicians working for him? Sure you do, and politicians work only for themselves.

You know my folks, and that there cannot possibly be anyone in my family wanting jobs. I would like to ask my opponent how many in his family are teachers. Would he tell us what he intends to do at Betsy Layne? Does he want to gather up all his people and cram them into the Betsy Layne school system? His folks are good teachers and have representation on the present faculty. But we wanted to ask. The public would like an answer.

Any school can improve but if a school satisfies the vast majority of patrons, then it is functioning well in our democracy. It certainly is not a below-standard school. If there has been any strife it has been because the administration there has resisted interference from groups who themselves would like to dominate the school. The school belongs to the people of the district—the entire river section it serves and Mud Creek. If it were to cease serving all the people all the time its excuse for being would cease.

It is unnecessary to remind my opponent and his supporters that in a democracy the people rule by the orderly process of the ballot. In this well ordered democracy we envision the minority accepts the verdict of the majority and cooperate to promote unity and progress. Agitation and destructive criticism only foster and thwart the majority decision. Let us join in this orderly expression of a people's will. Go to the polls and when the people have expressed themselves abide by it. It is the American way. All else is disunity and useless strife.

In soliciting your vote I will say that I am committed to no one. I owe no man a promise. For no man has asked it of me. All the promise I have made is to myself and my conscience. With that conscience as the guide and no "big time" politicians to serve, I will do a good job for you. Your support upon that statement of principle is solicited and will be appreciated.

(Pol. Adv.)

JOHN M. STUMBO, JR.

(Continued from Page 1)

Washington declined a third term in order to avoid setting a precedent, but he would not believe the sad state of his once-great popularity may have had something to do with his decision.

Then there was John Adams, a gentleman for whom most of us have a right high regard. Back in his day, though they ascribed our second President as "vain, irritable, stubborn, egotistical and quarrelsome." Did they curl his peruke? They said, as many were later to say of others, that he was ruining the country.

In the election campaign which Thomas Jefferson won over Adams, one Timothy Dwight of Yale prophesied that if Jefferson and his followers were victorious, "our wives and daughters would become the victims of legal prostitution, soberly disordered, speciously polluted." They later said Jefferson had openly declared that honor, integrity and love of the Constitution were not yet qualifications for the office. Jefferson paid off the national debt, the nation prospered, and the administration—but, said his critics, he was trying to help the rich by repealing internal taxes and was trying to pull down the federal government.

And what they didn't say about the others—about the great Lincoln for one. And Andrew Jackson, whose only regret when he left the White House was that he hadn't shot Henry Clay and banished John C. Calhoun.

Right now, they're flinging charges around about, and we think it's just awful, depending on whether we're hit or the other fellow is. But what about that campaign when James G. Blaine and Grover Cleveland had at each other?

Both Blaine, the famed "plumed knight," and Cleveland, an illustration of the New York emergency law, were at that scrap with cauliflower ears, so to speak. The Democrats gave wide publicity to charges that Blaine had received bribes from the Little Rock Railroad, and Cleveland was accused of fathering a son without benefit of clergy. And you should have seen the cartoons of the day! Oh, well! It's a great country. Greater, even, than that country which claims it invented "beauty."

The Corpse Smote the Mourners: Cats Defeat Belfry Hi, 26 to 14

At the half Belfry carried out the "corpse" and blew taps for Prestonsburg but the Black Cats took a page out of Mark Twain and proved a real all and sundry last Saturday night at Williamson, W. Va., that the report of their death was greatly exaggerated.

At the halftime juncture, true, the Cats were doing a fairly good job of playing dead. They had scored a first period touchdown but after that had done nothing much while hitherto undefeated Belfry was rolling on 14 points.

What Coach Perrell said during the intermission does not appear on the record, but the huge crowd saw a different Black Cat team with the beginning of the third quarter.

The result: The Cats went on to score three more touchdowns, hold the Pirates scoreless and pull the game out of the fire, 26 to 14.

A series of passes and Dixon's goal kicked set up Prestonsburg's early score, and Chaffins plunged over from the two. Before that, however, during an exchange of punts Belfry had scored and run its ball across for the extra point. Prestonsburg's kick was wide, leaving the Cats trailing Belfry, 7 to 6. The Pirates' early touchdown came when Dixon received a punt on his two, was hit here and fumbled into the end zone as he started to run. King, of Belfry, covered the ball.

After Prestonsburg had brought the score to 7-6, Belfry took over and marched from its 49 to the Prestonsburg 30 on straight football. Then a pass to Moran annexed the Pirates' countings' second and last touchdown. The conversion attempt was good.

Coach Ferrer's boys came roaring back to start the third period. After Chaffins and Lowell Hughes had alternated in working the bill upfield on pichtoons from Delmar Hughes, Lowell Hughes raved 18 yards for the marker. The kick for extra point was good.

The Cats' quarterback added a

Korea Veteran, Killed in New Mexico Mishap, Buried on Abbott-Cr.

Funeral services were held Monday for Cpl. Carl Whitaker, Korean veteran, who was killed in an automobile accident October 21, as he was being taken to an army hospital in El Paso, Texas from Las Cruces, N. M. He was 22 years old. Cpl. Whitaker entered the army in January, 1949 and spent 18 months in Korea, where he was wounded. On his return to the United States, he was discharged from service. He later re-enlisted and was stationed at White Sands Proving Grounds, Las Cruces, N. M. He was being taken from there to El Paso for treatment of a leg wound received in Korea, when a blow-out caused the ambulance in which he was riding to overturn, killing Cpl. Whitaker.

He was a son of Minnie and Julia Wright Whitaker, of Abbott Creek, who survive. Also surviving are the following brothers and sisters, Clyde, Edgie, and Raymond, all of Marion, O.; Douglas, of Milwaukee, Wis.; Dennis, at home, Mrs. George Ratliff, South Bend, Ind.; Mrs. Orville Dotson, West Prestonsburg.

Funeral rites were conducted from the home at 2 p.m. Monday. The Revs. Alex Stephens and Paris Music officiating. Burial was made in the family cemetery under direction of Carter and Callihan Funeral Home.

they and Congressman Carl D. Perkins appeared before the Corps of Engineers and procured from the chairman of the Public Works Committee a request that the engineers make a study of the reservoir, with a view to its deepening.

"That study has been authorized. The actual work, said Senator Clements, will depend on what the engineers see in greater recreational values retained, as a result of a deeper body of water.

"A few years ago," he said, "there was a tendency on the part of most people to scoff at talk of recreational advantages and tourist attractions. But fewer and fewer people are doubting these advantages now."

The Senator saw more impediments as one answer to the recreational and flood control needs of the section, adding that Doney Lake will never be large enough to meet the demands of the area. Three flood control dams similar to Doney were authorized for this section while A. J. May was chairman of the House Military Affairs Committee, he recalled, adding that the Corps of Engineers is inclined to build the dam at Fishtrap in Pike county, next when and if defense needs do not extend to such projects can be undertaken.

Turning to the subject of river canalization, Senator Clements declared, "The whole future of this section is dependent on what is done with Big Sandy. The blight must be taken from these hills."

He suggested that the fight for authorization must be so organized that every interest in the section is represented and that technical information as to the value of the waterway to transportation now and in the future be assembled with such care that the data submitted will stand up under attack from the opposition.

Ex-Congressman A. J. May spoke briefly and movingly of the loyalty of the two Senators to him in his battle for canalization and other phases of his career.

Conservation Supervisor Burke pointed out that a larger lake will not only accommodate more people but will provide more spawning ground for fish and make fishing better. He added that there no longer be denied—the impoundment lacks an adequate supply of fish.

What Has Our Present Congressman Done For Eastern Kentucky?

Defense plants have been built by the hundreds in Western Kentucky and all parts of the United States. Did our Congressman get one of these factories for Eastern Kentucky?

Did he get any contracts from the Government to buy Eastern Kentucky coal? The Government is one of the biggest users of coal. Isn't it a fact one-half of our coal mines work only two or three days a week because of the lack of orders? Did he protest when the railroads changed from coal-burning engines to diesel oil thereby causing 1,000 coal miners and railroad workers to lose their jobs? Did he get the ATOMIC PLANT for Eastern Kentucky or even one of the steam generating plants that will require millions of tons of coal and would have brought prosperity by giving jobs to thousands of people in Eastern Kentucky?

DID HE FIGHT FOR CANALIZATION OF OUR RIVERS?

When he was first elected the Army Engineers had approved the Big Sandy as a worthwhile project. One year later after our Congressman had been elected the engineers decided that it was not a good project.

WHY?

Did he oppose the Lien Law on old people's homes, whereby they take a mortgage on your home if you are to get Old-Age Assistance? Has he worked to get good roads around Dewey Dam, to build a swimming beach to attract tourists? Can you lease a cabin-site like people do at other lakes? Is the lake well stocked with fish? Now just before election he says he is for improving Dewey Lake but why did he wait THREE YEARS TO DECIDE?

Has he ever done anything about the COMMUNISTS, the FIVE PERCENTERS, or the crooks in the Federal Government? We say he hasn't.

If you want a Congressman who will work to bring factories to Eastern Kentucky so our people can have jobs here at home, who is opposed to the "MORTGAGE LAW" on our old people's homes and is for increased assistance for people past 60, who will work to get our rivers canalized and bring prosperity to Eastern Kentucky, to get Dewey Lake improved, to get the crooks and Communists out of our government.

THAT MAN IS
CURTIS CLARK
REPUBLICAN
CANDIDATE FOR CONGRESS

What We All Saw This Week

The blue haze that cut out of the nature of things cloaks in beauty the hills merged, this Indian Summer, into a dark, oppressive pall of smoke, and there was little of beauty about it at all. Youngsters since time immemorial have pondered the cause of the misty blue of Indian Summer, and have perplexed their elders with their questions. But there was nothing of the unknown about this week's shroud of smoke. We all knew the cause. All knew it was man-made, the work of man, the destroyer.

We saw destroyed in fifteen minutes the work of nature over as many years. We saw prepared destruction in years to come from flood and erosion. Carelessness and wantonness are both to blame.

How indignant we all would be, if we could pin the blame on one individual—a peace officer, say, or a public official. How indignant are we, now that plain, un-sung citizens are to blame and glad to remain anonymous?

The loss in precious timber would reach appalling figures, surely. Young trees which, some day, would have taken the place of earlier forest giants felled by the woodsman's axe are dead. The leaves which, one day, would have added to the fertility of the soil have been whirled away in ashes by the wind. The leaf-bed which would have absorbed next year's rainfall and held back the water to prevent flash floods and gutted hillsides is in many sections non-existent.

One man saw destroyed by fire a thousand young pine trees he had planted as a reforestation measure and as an investment for his grandchildren. Nearing 70, he sadly remarked, "I am too old. This is my last attempt." This is one such individual tragedy. Multiply it by perhaps a dozen in this county, by a hundred or more over Kentucky.

This section does not stand indicted alone for this crime against nature. Careless or wanton destruction has visited almost every section of the country where there is forest-land to be scorched. By next spring, a few more leaves will fall. The weeds will die. And another "fire season" will roll around. Then the autumn, and more fire.

What is the remedy? There is no pat answer. Education of the young, strict enforcement of the law against the old who cannot or will not be taught, larger and well-organized crews of firefighters—these will help, and may have to suffice until we have so nearly depleted our timberland that the public becomes alarmed and seasonal all-outdoor on forest fires is waged by local, state and national governments.

Washington — President Truman sent birthday greetings to the Sha of Iran.

NEW YORK — More than 50 University of Notre Dame professors endorsed Governor Stephenson for president.

WASHINGTON — The Federal Civil Defense Administration announced plans to mobilize the nation's civilian population for home defense.

CHARLOTTE, N. C. — Governor

Byrnes of South Carolina said that "carpetbaggers now control the Democratic party. He has announced his support of Gen. Eisenhower.

BUFFALO — William White President of the New York Central System, declared that many businessmen "have been giving the railroads a nudge in the direction of nationalization."

CHICAGO — Sen Lehman (D N. Y., called "McCarthyite" and "McCarthyist" Stalin's unconscious helpers."

WASHINGTON — The Supreme Court upheld a ruling that the government must pay the Bell Aircraft Corporation \$2,236,819 for fighter planes purchased during World War I.

PEACE? PROSPERITY?

FATHERS AND MOTHERS WILL REMEMBER!

Can any one call it peace when, in recent days, many communities have seen boys not too long out of high school come home with battle-front wounds; have read of local men who are prisoners of war; have stood at attention beside a flag-draped coffin bringing a local soldier who made the long, sad trip back home from Korea, sealed in silence.

Is it peace when a newspaper in a neighboring county reports that the contingent is the largest single-month draft call since reactivation of Selective Service. Is it peace when, in another country it is found necessary to order 23 men to report for their draft call on a Sunday?

PROSPERITY? Yes, of a kind. This is the bloddiest prosperity any nation ever bought. Let's not brag about it.

Since the fighting started in Korea in June, 1950, the U.S. has suffered 122,117 casualties. The toll for last week was 963. The United States now has about 500,000 men in Korea.

The "Bear Trap" continues. Millions of our young men face the draft. Next year, 19-year-olds will be taken. If left to Truman and Stevenson the Korean War will probably drag on for years, costing thousands of American lives and billions of American dollars.

The Truman-Acheson-Hiss followers have a peculiar blind spot when they claim credit for a peace that does not exist and a prosperity that is bloody and borrowed.

You can reverse this ghastly trend—vote for Eisenhower and prosperity without war!

WAYLAND

CLUB HEARS MRS. VINSON

"A nation is only as strong as the local community," quoted Mrs. P. F. Vinson from a letter written by Mrs. John L. Whitcomb, chairman Americanism department, General Federation of Women's Clubs, as Mrs. Vinson opened the Americanism program given by the Lackey-Garrett Woman's Club last Thursday evening at the Wayland high school auditorium.

"This meeting was in conjunction with the General Federation's 'Getting Out the Vote' campaign, which aims at awakening the American people to their political heritage—the right to vote. 'We must awaken from our lethargy, and do something, if only to hope, to pray, to vote,' stated Mrs. Vinson.

"Democracy begins in our hearts, our homes, our communities," emphasized L. B. Price, Wayland high school principal, as he spoke on "Religion and Democracy."

"If the election doesn't go to suit us, it's our fault, since the plain American voter outnumbers the professional voter by 1,000 to 1," informed Mrs. Willard Castle, as she spoke on "Getting Out the Vote."

Presentation of colors was made by Geo. S. Owsley Post 295, American Legion. The pledge to the flag was led by Mrs. Thomas Hatcher, who also read the American Creed.

Rev. R. L. Myers, pastor, Wayland Methodist Church, led in prayer. Several selections were played by the Wayland high school band under the direction of Jesse K. Elliott.

They included "The Columbia," "United Nations March," "March of the Victors," and "Liberty March." The program ended with the playing of the national anthem, after which coffee and doughnuts were served by the Home Ec room by Mesdames Earl Castle and Ervin Mullins.

BEIJING PREPARED—NEW YORK—Paul Van Zeeland, Belgium's foreign minister said his nation is prepared to do "her full share" in any collective action in Korea.

WAR DEPARTMENT ANNOUNCES WEEKLY CASUALTY LIST

WASHINGTON, Oct. 23—The Defense Department today announced the highest weekly U. S. casualty toll in the Korean War since the week ending July 2. The total for the week ending last Friday was 363.

This raised the total U. S. casualties in the Korean fighting to 122,117.

In the previous highest week, more than three months ago, the total U. S. casualties were 885.

The department's weekly report showed that 123 U. S. servicemen were killed in action last week, bringing the total number of Americans killed in the fighting to 19,194.

The next film should be even better as we profit from the mistakes we made this time.

FILM, "OUT OF THE NIGHT," SEEN AT DAVID GYMNASIUM

A nice crowd came to the gym at David Monday night and viewed "Out of the Night," a movie that, all agreed, excited the Lord Jesus Christ. It is hoped that this first meeting in the interest of the teenage (and older) group will not be the last. The sponsors wish to thank those who allowed them the use of the gym and the projector, and the boys from the David school who helped so much.

The next film should be even better as we profit from the mistakes we made this time.

Corn Furk, Garrett and David. Cause of the widespread blazes are not definitely known. Some fires, it is believed, were caused by hunters attempting to smoke from hollow trees squirrels and opossums or by carelessly tossed lighted cigarettes. Others may have been deliberately set, it was said.

As a result of the fire situation, Governor Wetherby late last week declared a state of emergency, and the squirrel season was closed Monday by Earl Wallace, director of the Division of Fish and Wildlife Resources.

Palmer Crum, district forest ranger, has been required to give Magoffin county, a part of his area, some of his attention. He and Forest Warden Burchett organized fire crews totaling about 35 men to meet the varying situation in this county. Tuesday of this week, fires of fires were coming in so fast they could not reach them. At times they were in the woods as fast as 35 hours without relief.

State highway and maintenance workers and a crew of seven employees of the Kentucky West Virginia Gas Company joined the regular firefighters. A few men were drafted for firefighting, and some refused. Indictments may be filed against some of these. At David, a theatre crowd turned out to help fight a big woodland blaze.

The damage had been restricted to the woods in this county except for one empty building which burned at Emma. At Ivyton, Magoffin county a tenant house owned by Eliza Dotson, brother of Dr. M. T. Dotson, was destroyed by flames starting in the nearby woods. He also lost a barn and two stacks of hay.

Firefighters worked much of the time in the dark—or in the smoke. "You'd be fighting one end of a fire like mad," said Forest Warden Burchett, "and you didn't know where the other end was. Men fighting on another section of the fire would backfire on us and that made it mean. It's a wonder they didn't burn us up. I'm going to indict some people for backfiring the woods."

The number of fires had dropped Wednesday morning and the wind and cooler weather which came with Monday night lifted the smoke. But the dry weather and the threat of other blazes continued. Over Kentucky—and few woodland sections were left untouched—it was estimated 77,000 acres of forest had been burned over.

A MESSAGE for AMERICANS

From **General Eisenhower**

ONCE BEFORE I had the honor and duty of leading a crusade for human freedom and dignity—in Europe during World War II.

This crusade was won not by Generals and Admirals but by the blood and effort of American G.I.'s and all the other forces fighting for freedom. Now in 1952 a different call to duty has honored me—as Republican nominee for President of the United States.

This time the effort is civilian—not military. But again, the crusade will be won not by me nor by the political leaders, but by everyday Americans who value their National heritage and are willing to go to the polls and vote to protect it.

The damage is done—and we all know what has been badly begun must be well ended.

BUT—shall we forget or forgive those who blundered? Will you? DO YOU DARE? Will you trust America's future foreign policy to those responsible for Korea? Is this official fumbling what YOU want for America? You know it isn't!

Not if you value the lives of your sons. Not if you value your own life and welfare and that of your family. NOT IF YOU VALUE THE PEACE AND PROSPERITY OF AMERICA.

No—you will want to clean house. You will want to sweep out of power and into the ash can the Administration that brought your country to this. You will RUN, not walk to the polls. You will vote eagerly, glad that you CAN make a change. You will.

JOIN THIS CRUSADE TO:

- SWEEP OUT OF GOVERNMENT the corruption and the scandal which have brought us dishonor at home and disrespect abroad.
- BANISH THE SUBVERSIVES and incompetents who have crucified both good public service and good public servants.
- BUILD A STRONG ECONOMY not based on war.
- SAVE OUR GREAT, FREE NATION from the reckless policies which are leading America down the road to bankruptcy—Socialism—and possibly even World War III.

I INVITE YOUR SUPPORT NOVEMBER 4.

Dwight D. Eisenhower

Oscar Bush, Candidate

For Member of the Board of Education,
Floyd County District No. 3

I want to take this opportunity to explain to the public my candidacy for member of the Floyd County Board of Education, District No. 3. I am not running in opposition to Mr. Turner, present county school superintendent, or his administration. It is my purpose to cooperate with Mr. Turner and other members of the board in improving the educational opportunities of this school district.

My opposition stems from the fact that my opponent is committed to support and continue the present administration of the Betsy Layne high school which is at the center of four school districts.

The Betsy Layne administration has politically dominated not only the high school but the ENTIRE DISTRICT which the high school serves.

The Betsy Layne administration has taken the schools away from the people and delivered them into the hands of politicians which has resulted in schools that are not a part of the community but APART FROM the community.

This allowing of our children and our teachers on the altar of corrupt politics has caused the loss of many capable and progressive minded teachers who would not bow to such practices.

Furthermore my candidacy is the result of the urging of interested citizens WITHIN the district, thus giving the people a voice in choosing their candidate. The candidacy of any of our present is the result of the influence of a few politicians OF THE DISTRICT in league with the Betsy Layne administration, contrary to the wishes of the people of the district.

I shall earnestly strive to remedy the above mentioned conditions and relieve the Betsy Layne high school of an administration that has been consistently falling below standard for several years, fostering strife, disunity, suspicion in the life of the community. Because of this state of affairs the Parent-Teacher Association has been unable to function as a community enterprise and all other community-wide activities have met with opposition from the same administration.

All efforts in the past, and they have been many, have failed to bring relief and I believe this school district deserves and ours have such relief.

I promise as your Board member to administer the duties of my office free from political considerations and to work for the selection of teachers on the basis of character, training and merit qualifications. I promise to rescue this school district, its teachers and children from politicians and return it to its rightful owners, THE PEOPLE.

Finally, as a citizen of experience and MATURITY and a former teacher in the public schools of this section of Kentucky, I solicit your support at the polls on November 11th.

OSCAR BUSH, Harold, Ky.
Candidate for School Board Member
School District No. 3.

GI WANTS LETTERS

Editor, The Times:

England, Oct. 23, 1952
I am a GI stationed in England, and at times it gets lonely. So, I wish to ask you a favor. Run this little ad in your paper. If it costs any money, let me know. I suppose you may think this somewhat unusual. But I'd appreciate it very much.

If any of you good people, young or old, would care to write I'll do my best to answer. I'm 29 years old, five feet, brown curly hair and my main hobby is writing letters and collecting photos. If you have the desire to write, don't hesitate.

GREETINGS

From ALLAN M. TROTT

To grin and bear it was the stuff that pulled us through the depression of low prices in the 1930's, and the same stuff is serving us so ably well in the depression of high prices in the 1940's.

The classic of that era, I suppose, was the farmer's prayer. It was printed at one time or another in every country paper in the nation with Democratic leanings.

Mrs. Leslie Hart, of Turner's Station, has sent me a yellowed clipping of the famous prayer. It was from the New Washington Courier, New Washington, Ind., and is dated March 5, 1931. This is how the lamentation goes:

"Lord, I am only a Ripley county farmer. Thou knowest that when wheat was \$2 a bushel I had flour and sugar in the house, and cake and pie every time I wanted them. Thou knowest I was not satisfied and voted for a change.

"Thou knowest that I wore a Hoover badge and was faithful in all things to the G.O.P. Even so, Thou knowest I believed in the dawn of a new day when wool would advance in price and I would get \$3 for wheat and 20 cents for pork.

Lord, two years have gone by, never to return, and I am too poor to buy the necessary Rockefeller, in my Henry. I still wear a Hoover badge, oh Lord, but it is on the seat of my overalls.

But, oh Lord, I am thankful that Hoover has been able to make the common rabbit taste good in the summer time. I pray, and Thou wilt keep them replenished so I shall not want. I am glad, oh Lord, that thou hast prospered the railroads so they can put up freight rates when my own corn will not pay the expense of gathering. I pray that Thou will continue to uphold Mellon, that he may collect for years the interest on the funds in his own bank account for a righteous cause.

Our Father, who art in Washington, Hoover is thy name, his kingdom come, his will be done, even to beating soldiers out of their bonus.

Give us each day our daily corn-bread, that Coolidge tried to make us eat for four years, and Hoover had us eating in three months. Lead us not into temptation to vote for another Republican president, for Hoover got all the power, Mellon got all the money, Rockefeller got all the oil and I got all the patched trousers forever and forever. Amen. (Advertisement)

Sees Planes Strike

Ben Conley, 22, son of Mrs. Grace Conley, of Benanza, is with the 43rd Division in Korea. He entered the service Dec. 26 1951, and received his basic training in Hawaii. He had one leave before he was sent to Korea, in July this year.

In a recent letter to his mother he says: "I'm sitting on top of a hill watching our planes make a strike on the enemy. Believe me, it's some sight."

Conley is a graduate of Prestonsburg high school. He will start soon to take a four-week course that will make him a squad leader.

Donald Conley is a brother of Ben and is in the navy, stationed at Guam. On Ben's journey to Korea the brothers met in Hawaii and spent two weeks together.

TO MY FRIENDS, THE VOTERS OF THE 5th EDUCATIONAL DIVISION:

As the November 4th election draws near the end, I make my last and final attempt to show YOU, the people, why YOU must awake before we have that change that we, the common people, must have before we get the improvements our schools have so badly needed. After November 4th it will be too late for us voters to help our schools for a few more years. Are we to sit back in the comfort of our living rooms and discuss conditions of the schools as we have in the past? Can we as loyal, devoted fathers and mothers look our children and the teachers of our children in the eye after November 4th, if we have not made a sincere effort to help them?

We say that we are living in a democracy. Let's stop and see if we are practicing democracy in our schools. Are the parents, teachers, and pupils given an opportunity to help plan the education that our youth are to receive? Our main objectives are to teach our pupils the democratic way of life, make them responsible citizens, and give them something that will enable them to earn a living. Can we honestly say that we are accomplishing these objectives? I am from the school of thought that the best way to learn democracy is to practice it, and we can do this in our schools if you will get behind me and give me your silent support.

Let's look around at some of our neighbors and see how our education compares with theirs. TEACHERS are more interested in the schools and children. THE SCHOOLS ARE COMMUNITY AFFAIRS. How many invitations have you received to visit the school or to make suggestions for IMPROVEMENT? How many other systems and states do not have PARENT-TEACHER and other community organizations functioning in their schools? I am of the opinion that a PARENT-TEACHER ASSOCIATION for a DISTRICT should be represented by all parents having children attending school, someone may say, "We have tried, but it just won't work around here." I adhere to the old slogan, "If at first you don't succeed, TRY, TRY again." WHOSE CHILDREN find it extremely difficult to succeed when they have a chance and decide to continue their studies after high school graduation? How many states are making an effort to provide for those who do not continue their studies after graduation and those who do not finish high school? Do other systems try to work out school bus schedules that will be advantageous for the student rather than that of the driver? Are the emergency teacher given a chance to become qualified? I don't think I need to mention buildings or answer these questions for you since they are so evident. Go visit your school, or ask your children attending, and the graduates of your schools, and you will find the true conditions and face the facts and the answers to the above questions and give them your IMMEDIATE ATTENTION because YOU are the PEOPLE who can do SOMETHING about them.

Is it not true that several school buildings have been started in order to sway votes in their direction camouflaging their efforts under the pretense of having the children's interest at heart?

YOU, the teachers, are letting the politician take away from you one of your most precious freedoms: THE RIGHT TO VOTE FOR WHOM YOU PLEASE. I promise ALL of you this, that your position will not be in danger because you did not support me in this election. You know that there is a shortage of teachers throughout the nation and that you cannot be cast aside simply because your thinking is not in line with certain parties. This practice can only continue as long as you are willing to be fearful of them.

From the beginning of my campaign, I have again and again stated, in our county paper and other literature, the type of service I will give you if given the chance. I have noticed the papers and literature to see what my opponent has to offer you, and I have not, up until the issue of this paper, seen anything except a poster with my opponent's picture on it stating, "JOHN E. CAMPBELL for SCHOOL BOARD MEMBER," and a sticker for automobiles stating, "CAMPBELL, OSBORNE, and STUMBO for SCHOOLS. THE CHOICE IS YOURS. WHY HAS HE NOT GIVEN HIS VIEWS ON OUR EDUCATION? Could it be that he has had a chance to give you something better before now? Do not overlook this fact on November 4th.

I do not say that these faults can be tacked onto any one individual, but I do think that they are the result of politics in our schools. I am not a politician. I have no intentions of personal gain, and I would like to see in the history of one Floyd County Election, a man put into office that through him the people may have a voice to speak which is so rightfully YOURS. THE CHOICE IS YOURS. DON'T CONSIDER POLITICS BEFORE YOUR CHILDREN. I shall serve only the children of Floyd county if given that chance. A vote on November 4th for RALPH JOHNSON is a vote for your BOY OR GIRL.

RALPH JOHNSON

Public Assistance Rolls Decrease During Year

Frankfort, Ky., Oct. 27 (Sp.)—The number of persons receiving public assistance in Kentucky during the year but the cost increased substantially. Aaron Paul, director of the Public Assistance Division of the Department of Economic Security, said today.

The three aid programs—Old-Age Assistance, Aid to Dependent Children and Aid to the Needy Blind—resulted in a total outlay of \$14,700,000 during the recent fiscal year, an increase of \$6,500,000 over the preceding year. The sum includes federal grants.

Old-Age Assistance recipients which were \$7,122 last year, jumped to \$11,008 in June of this year. Average old-age assistance payments, however, rose from a \$20.67 average in July, 1951, to an average of \$20.54 for June, 1952.

The Aid to Dependent Children program affected 19,827 families receiving \$3,893 children in June, 1952, for an average of \$19.34 a month, compared with 22,806 families and \$9,002 children last July, for an average of \$41.95.

Aid to the Needy Blind program rose from 2,500 persons in July, 1951, to 2,525 in June, 1952, with payments being increased from \$22.24 to \$21.21 a month.

"Goodbye, Jim and Jenny"

In 1900, granddad grew his crops with the labor of men and mules. In 1925, dad raised his cotton, corn and tobacco with — you guessed it — men and mules.

But today, Grandson likely doesn't have a mule on the place. He has graduated to a tractor... said goodbye to "Jim and Jenny"... and is using modern farming methods, modern machinery to produce bigger yields

at lower cost. There are four times as many tractors on southern farms as there were just ten years ago, and farm income has tripled.

When the first tractor rolled onto a southern farm field, it was powered with a Standard Oil fuel. We are proud of the fact that from that day to this, Standard Oil fuels have been first in sales with southern farmers.

TIDBITS OF KENTUCKY FOLKLORE

By GORDON WILSON, Ph.D.
Western Kentucky Teachers' College Bowling Green, Ky.

"SIC TRANSIT"

The Pacific Greyhound bus was jangling along through fertile mid-western farms as we passed a sign which read "Grand Army of the Republic Highway," one of the passengers asked what that term meant. The driver, who seemed above the average in intelligence, frankly said that he did not know. He thought it was the name of some organization, but he did not know what. From my seat a few feet away I felt that time was rapidly getting its revenge. Here we were in a country that had once swarmed with members of the Grand Army. If I as a boy had not known what the word meant, I would have been branded as very ignorant, in spite of the fact that all our Civil War veterans had fought on the other side. But it has been a long time since the Civil War ended as it had been since our fathers

brought forth a new nation," as measured by Lincoln at Gettysburg. It is highly probable that the passenger and the driver had never seen an ex-Federal soldier or an ex-Confederate, either, just in time has taken its revenge. "Sic transit gloria mundi!"

Some four or five years after I had left Profferty, about 1919 or 1921, was visiting at my mother's and then returned to help her clean up the shed-room by the side of the smoke-house. My little nephew, big enough to be in the way but not big enough to help, was underfoot all the time, talking incessantly. He liked the look of the price tags and the stored in the shed-room the old spinning wheel that had figured so largely in my childhood. He gave the wheel a savage turn and then remarked, "Aunt Carrie says that Grandma used to run this thing." That was the first time it had dawned upon me that the spinning wheel had ceased to be an active part of my old home. As far back as I could remember, I had associated the long winter evenings with the drone of the wheel as Mother spun the yarn that she later would knit into stockings and socks for her large family. The spinning wheel seemed then as much a fixture as meat and bread. Now spinning wheels have become a symbol of antique shops and are as far from our everyday lives as oxcart.

Some 25 years ago I went one Saturday to a neighboring county to attend a teachers' association, to help talk up an interest in a local high school. As I drove out from the county seat with the county superintendent, he remarked that I would see one of my passing institutions that day, dinner on the ground in unchanged style. Sure enough, the tables were spread out end to end on the grass, and we ranged up and down, eating our fill. Apparently nothing had been changed since quarterly meeting days at Sulphur Springs in the early days of the century. What I did not feel very strongly that day, though, was that I was seeing the last genuine dinner on the ground that I had known a witness to. I have been a witness when meals were served in the open, but paper plates, ice cream cones, and serving from the food arranged in a truck had taken the place of the older custom. We used to be perfectly unaware that there was anything unusual about dinner on the ground, and there wasn't. It was done everywhere. And now it has gone completely and vanished almost overnight.

Some weeks back I wrote, somewhat nostalgically, about the old book satchel. I cannot recall the last one I ever saw; I hope that there are several being used right now, but I suspect that she aunts I saw when I taught my first school in 1907, just about ended the tradition for me. In my long years of strolling fields I have made many accurate records of the spring arrivals. Just yesterday, let us say, there were two Brown Thrashers to be seen and heard; today one showed up in the treetop across the street from my house. Hereafter, until the fall migration, Brown Thrashers will be a daily experience. And then some fine morning the species will not be here, but I have been so accustomed to the sleek brown bird and its ventriloquial song that I hardly miss it. Just so we are with customs: they are here and everywhere, so common that nobody would even mention them; then they cease to be, they are superseded by other customs that are not better or worse but are just different. And no one is around to tell us when we are seeing the last days of a passing institution.

Local Radio Station WPRT Near Completion; Will Be On Air In Less Than Three Weeks

As the tower crew hoisted the giant red beacon into its final resting place atop WPRT's 250-foot tower, Prestonsburg finally decided at last it had a radio station. A piece of bore sound just two weeks ago now sports a new building and a bright orange and white tower.

According to recent reports from the owner, D. C. Stephens, and Manager Rex Osborne, WPRT should take to the air shortly after Nov. 16. WPRT is located one mile south of Prestonsburg on Highway 23. The station will have a power of 1,000 watts and will be at the 960 spot on your radio dial. The plans at present call for a full daytime schedule of broadcasting activity. This will include national and local news, sports, personality and public service programs.

Mr. Edwin C. Healy, installation and chief engineer, says the WPRT coverage area will be the best in the Big Sandy district. This area will include Floyd, Pike, Johnson, Perry, Knott, Martin, Magoffin and Morgan counties. This will be due largely to late engineering techniques and high quality broadcast equipment.

WPRT assures the people of Prestonsburg, Floyd county and neighboring counties of only the best in radio entertainment. And to back this, the management and staff of Radio Station WPRT say, "If the people are for it, so is WPRT." The formal opening date for WPRT will be announced later. (Advertisement)

THACKER IS TECHNICIAN

Naples, Italy—Noah D. Thacker, Jr., electronics technician first class, USN, son of Mr. and Mrs. Noah D. Thacker, of Banner, has taken up his duties at the headquarters here of Admiral Robert B. Carney, USN, commander in chief, Allied Forces, Southern Europe.

Thacker works in the communications division of Admiral Carney's command which protects the southern European flank of the 14-nation NATO defense system.

During World War II, he served as a Marine in the Pacific theatre, participating in the famed battles of Bougainville, Guam and Iwo Jima. Following his Marine service, Thacker, a graduate of Martin high school, enlisted in the navy in January, 1946.

This is his second tour of duty in the European area, having served with the U.S. Sixth Fleet in the Mediterranean in 1949.

Don't Plow Under 20 YEARS OF FARM PROSPERITY

America is a big country. At the beginning of 1952 there were 156,000,000 of us — with 7,000 newcomers daily.

Feeding that many mouths is a big job—a job that rests squarely on our nation's farmers.

We can't have a healthy people or a healthy economy, unless our farmers prosper. Today they are prospering and we all benefit by it.

But it didn't just happen. It wasn't always this way.

1932 POVERTY and CHAOS
In 1932 the average American farmer earned 80 cents a day. The price of wheat was the lowest in 300 years. Corn fell to less than 15 cents, cotton and wool to 5 cents, sugar to 3 cents and beef to 2½ cents.

It was cheaper to burn corn for fuel in the Midwest than to try to sell it and buy coal.

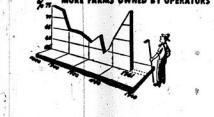

The Democratic Party tackled the problem head-on.

THE ROAD TO PROSPERITY
Here's how the Party strengthened America by building up its farm economy:

- 1 Encouraged farmers to raise adequate supplies. Insured them against price drops that could wipe them out, destroy their productivity. Today basic farm products are supported at 90% of parity.
- 2 Established soil conservation service. Today four out of five of the nation's farms are included in the program. Almost 78 million acres of farm and pasture land have been restored, protected and improved under Democratic administration programs.

- 3 Helped farmers to own their own farms. For 50 years the trend had been the other way—toward tenant farming. More than 2,000,000 farmers have been encouraged to own their farms by loan help from the Farmers Home Administration.
- 4 Brought electricity to the farm. In 1932 only one farm out of ten had electric power. Today only one out of ten does not have it. The Rural Electrification Administration did the job.
- 5 Extended farm credit at moderate interest rates so that farmers could improve and expand their production.
- 6 Expanded Federal agricultural research.

A GREAT DAY FOR AMERICA

The results have been:
Our farm output has increased 50% since 1932. In 1920 there were only 920,000 tractors on American farms. Today there are 4,100,000. Today there are 2½ times as many tractors, 10 times as many mechanical corncripers and 13 times as many grain combines on America's farms as there were in 1932.

Net income for the average farmer stood at nearly \$2,800 in 1951—almost ten times what it was in 1932. Allowing for the rise in prices farmers pay, the average farmer's income is four times what it was in 1932 and double what it was in 1929—the peak year of Republican prosperity.

Farm prosperity has been matched by the rest of our economy. People have jobs. Business is prospering. There is money to buy what our farms produce. Increased farm income has sent millions of rural Americans into the marketplace to buy what our cities produce.

We're eating more and eating better. Though we have grown by 30 million people since 1932 our per capita consumption of all foods is 13% higher than the 1935-39 average!

Republicans Against The Farmer

Where did the Republican Party fit into this march of progress? Here is what it did:

- 1 Reduced the number of commodities on which definite price supports was assured. (80th Congress.)
- 2 Reduced parity for several important commodities. (80th Congress.)
- 3 Reduced price floors by putting in a sliding scale of 60 to 90 percent of parity. (80th Congress.)
- 4 Prevented the Commodity Credit Corporation from acquiring new storage facilities to enable farmers to get price support loans. (80th Congress.)
- 5 Voted against an improved Soil Conservation Act in 1936. Voted to wretch on conservation payments in 1943. The 80th Congress voted to abolish soil conservation in 1948. The 80th Congress voted to cut the program in half.
- 6 Voted to kill the farm ownership loan program in 1947.

- 7 Voted to cut off one-third of the staff of the Rural Electrification Administration in 1947.
 - 8 Voted to cut the budget of the Research and Marketing Administration by one half.
- Whether you're a farmer, worker, businessman or professional man—no matter how or where you earn your living, you're better off today because farmers are prospering.
- Which party had the foresight and courage to do the job? You can see for yourself.

FLOYD COUNTY GOOD GOVERNMENT TAXPAYERS LEAGUE

Rural Highway Dept.
Lists Road Progress

Frankfort, Ky., Oct. 27 (Sp.)—Kentucky's Rural Highway Department has contracted for \$5,589,044 worth of work since January 1 of which \$1,005,524 was federal aid covering 702 miles of road. Commissioner of Rural Highways B. T. Moynahan announced today.

All but 14 of Kentucky's counties are involved in work done under the program—these being due to either lack of plans or right-of-way problems—but all will probably have work contracted by January 1, said Moynahan. Counties included in this category are Carlisle, Livingston, Crittenden, Trigg, Jefferson, Oldham, Shelby, Mercer, Kenton, Campbell, Grant, Bourbon, Robertson, Mason and Leslie.

"We would be able to let work in Jefferson, Kenton, Bourbon, Mercer, Lincoln, Livingston and Estill counties within 30 days and the remainder by January 1, depending on the availability of suitable plans and clearance of right-of-way problems," Moynahan said. "It is contemplated that federal aid be obtained for work to be done in Jefferson, Marion and Mercer counties."

Moynahan also called attention to the gradual elimination of covered bridges throughout the state and substitution in their stead of modern concrete passable bridges. A covered bridge in Bourbon county was recently replaced, as has one in Pendleton county.

Within the next year, four other covered bridges—in Greenup, Montgomery, Mason and Harrison counties—are scheduled to be replaced with modern concrete structures, Moynahan added.

IT'S A GOOD WORLD

BY WILMAY

To my Mother: Many happy returns on your seventy-first birthday. Mother dear, and may you have as many more as joyous as they come. Your hair is streaked with silver and your face is getting lined. You are not as young as you were, but it was loving care and serving and living, and we love you for it. The sacrifices you made to send six of us to college would fill a book. You will some day leave us a heritage all the money in the world could not buy.

You kept your house open to all our friends, and it was generally full. Remember how you used to set an extra plate at meals because we were sure to bring someone with us, and when we failed to Father did? You quit school to marry at 19, but I'd like to know spelling and the king's English as well as you do. You kept abreast of the times, and one has only to hear your friends by the legion say, "Mother Gunn," to know any community where you live regards itself as fortunate to have you.

You have good taste but a parson's pocketbook cannot always afford to prove such, so there was a hodge-podge of missus oak and veneered pieces generally, but you could make a home of soap boxes and cretonne, while some women with millions could never convert four walls into a home. This entire column could be devoted to you and still not be adequate to express my feelings.

You make our world go round. 'Tis the least I can say. When God made you, he surely Threw that one mold away.

Do not miss the beauty of our hills now, for the few remaining weeks. Surely no section in the world can surpass ours when autumn splashes her tints upon Mother Nature's canvass.

We call attention to the fact that the Passion Pageant next spring will be on Easter Sunday, which is too early to risk having suitable weather. Easter is April 5; the Pageant will be the 19th, third Sunday. Last Easter no leaves were visible. On May Day the hills were glorious. The season was late last year so the Board voted to select a date when the leaves would be unfolded on the beautiful hillside where the event will be staged.

Enormation disclosed that a huge, long wall of concrete, with a tremendous fill, would be needed if the settlements were placed at the foot of the hill. And while Aunt Mandy Dings, the dear old lady, has said, "Use the land for God's glory," no one wants to tear it up any more. And funds for such an undertaking are simply not available. So the Pageant leaders are placing the group of eight or 10 stage settlements as high as possible on the hill. The former platform has been removed. Everybody will be able to see a small admission fee will be charged next spring to help purchase a permanent home for the Pageant, which is to be featured in spring issues of a number of magazines.

Members of the cast are reminded to be at the hill Sunday at 2 p. m. in costume. Bring cameras and film to help make pictures.

A Martin visitor from Atlanta, Georgia, made the statement this past week that wherever Passion Pageants are presented they become a tremendous drawing power for churches, the community, etc. The answer is simple: Christ Himself is the central figure, and He was, is and forever will be the greatest drawing power in the world. Pageant leaders and cast in Martin have sought to emphasize the spiritual side, to give all prominence to Christ alone. Christ made it possible. He is the only one who can do so again. Workers are praying earnestly that the Pageant may be used to glorify Him in a large way. It is like a small revival when the Board gets together. Every member desires to thank the many who are assisting in countless ways.

Warsaw, Poland—Communist Poland and East Germany ratified their agreement fixing the frontier between them along the Oder-Neisse rivers.

ALLEN

WOMAN'S CLUB MEETS

The Allen-Martin Woman's Club met Oct. 8 at the home here of Mrs. Mack Elliott for the regular monthly business meeting.

Mrs. James Webb, Jr. gave a report on the progress being made on the Girl Scout troops in Allen. She said they had been organized and are now functioning. The Cub Scouts are being organized also. The president, Mrs. Virginia Short, appointed a committee to see to the president's report to be given at the district meeting in Prestonsburg, Nov. 1. The committee consists of Mrs. Russell Laven, Mrs. William Martin, Mrs. Walter Frasure and Mrs. Belford Reitz.

After discussion of a kindergarten, Mrs. Louis Warren made the motion that the club sponsor a kindergarten in Allen. The move was voted and Mrs. Russell Laven was appointed teacher and to see about locating a place to teach.

The president asked for 10 women from the club to be in the Fagant at Martin as dancers. Those who volunteered were Mrs. George Laven, Mrs. Charles Marshall, Mrs. T. J. Allen, Mrs. Belford Reitz, Mrs. William Martin, Mrs. Louis Warren, Mrs. W. O. Ruddleston, Mrs. Earle Martin and Mrs. John P. Sammons.

Mrs. William Lyon was appointed on the Excuse committee for Allen. Next meeting will be a dinner party at Drift. Refreshments were served to the following: Mesdames T. J. Allen, Mack Elliott Boone Hall, George Laven, Russell Laven, William Lyon, Belford Reitz, James Webb, Jr., Virginia Short, Charles Marshall, Walter Frasure, William Martin, and Louis Warren.

Democrats for Eisenhower

DWIGHT D. EISENHOWER

WHY?...

1.—President Roosevelt Said:

"For one reason or another, even a wisely led political party, given long tenure of office, finally fails to express any longer the will of the people, and when it does so fail to express the will of the people, it ceases to be an effective instrument of government. It is far better for such a political party, certainly far better for the state, that it should be relegated to the role of critic and that the opposing political party should assume the reins of government."

2.—Stevenson Said:

"I am not morally or mentally capable of being President of the United States."

Maytown Woman Urges Women Vote for Adlai E. Stevenson

Langley, Kentucky
October 25, 1952

Dear Friends:

As a member of the Floyd county campaign committee it is my duty to reach every lady voter and urge them to go to the polls on November 1 and to vote. I am afraid I will not be able to see some of you and I am taking this means of contacting you instead.

The first item that I want you to think about is our present Social Security law. If a man is earning \$300.00 a month when he retires he will draw \$80.00 a month and when his wife reaches 65, she will draw \$40.00 a month and one child will draw \$120.00 and a widow and two children will draw \$150.00 with like benefits on down. I want you to think what a contrast that is to what we had to live on in the days of the Republican administration.

Second, we now have a retirement pension of \$72.00 a month for soldiers. If you remember after World War I, a lot of the soldiers marched to Washington to plead for what was then called a Soldier's Bonus; and they were brutally abused and driven out by General Douglas MacArthur with machine guns, bombs and tear gas. That was under a Republican administration, and if you don't come out and vote under the Democrat, we may have to face just such a thing again or even worse.

If the Democrats stay in power, we hope to eventually get the age for dependent allowances lowered to 50 years instead of the present 65. There are many mothers today unable to work for a living and can't draw Social Security benefits until they are 65.

The Republican party is backed by Big Steel, Little Steel, Wall Street and all the big Corporations. The Democratic party is not only the Laboring Man's party, it is the party for us all. The fact that Eisenhower is backed by Wall and Main Street is enough to show us what will happen to the laboring class of people if he should win.

When the age of retirement draws near, you begin to think seriously of these things and wonder what might happen if the Republican party should come into power. You might make bread out of the present Social Security payments. If they would it have to do if they cut the budget. They say they intend to do.

Our nation is Democratic by majority if we all vote. If we win we must all vote.

Don't let anything keep you away from the polls on November 1.

Sincerely,
MRS. ED SUTTON

Parish Council Meet Held at Shelbiana

The Parish Council of the Big Sandy Valley Larger Parish of the Methodist Church, met, Sept. 27, at the Methodist Church, Shelbiana, Ky. The work of the Parish was outlined for the conference year closing in August, 1953. Officers for the new year were elected: Kelly J. Day, chairman; Jesse Elliott, vice-chairman; Mrs. Henry Dammor, secretary; F. H. Sharp, treasurer. Churches composing the Parish area: Hardy and Freeburn, Rev. H. M. Wiley, pastor; Elkhorn City and Darton, Rev. Lewis Adams, pastor; Shelbiana, Rev. Everett Brown, pastor; Salem and Shively Chapel, Rev. Charles R. Ewlich, pastor; Betsy Layne and Vogel-Dav, Rev. Robert L. Anderson, pastor.

The Parish has served this area for six years and is beginning its seventh year. During these six years, Rev. Robert L. Anderson has served as director of the program. His leadership will continue through the seventh year. This program of administering the work of the smaller churches has met with much success and has been copied in all sections of the church. The Parish was launched as an experiment in the southeastern jurisdiction under the sponsorship of the General Conference Board of Missions and Church Extension, New York, the Kentucky Conference Board of the Methodist Church, and the Methodist Church in Pikeville.

TRUE RELIGION

By ALEX M. SPRADLIN

"True religion can exist only in free souls." So long as we are compelled to bow to some priest, pope or potentate—so long as we wallow in the dust at the shrine of some denomination or grovel in the fog of uncertainty in its creeds and doctrines, just that long we are not free souls. The dynamic power which elevates the spirit of man to a pinnacle "that surpasses all understanding."

Our submission to the doctrines of denominations, quacks, creeds, false teachers and false prophets has built a screen between us and that powerful light which would bring spiritual truth, understanding, exhilaration and peace of mind to every soul upon which its gentle rays fall. Most of us need a good laxative to eliminate that damnable, toxic condition which is consuming our very beings. We will not find a panacea for our poisoned minds, our restless souls and our weary bodies in the hallelujahs of some of our pharisaical denominations, we will not find it in the sermons of some of its pentitent followers. It is not hidden beneath the cloak of some preacher, priest or pope, nor is it found under the altar of some great cathedral, vatican or stylish synagogue. It is found within ourselves. All we need is the true formula for using it.

"Go forth under the open sky and list to nature's teachings." There we will find the true formula which lets in the light of Truth and dispels the fog and darkness which poisons our minds and cramps and distorts our souls. Christian virtues, demonstrated by our spiritual pilot, are: Love, Meekness, Mercy, Purity, Peace-making, Righteousness and Sorrow. The greatest of these virtues is love. These are old landmarks made by the Original Survivor and Abstractor, Jesus Christ.

Jesus seemed contented with living and doing good and leaving a clear, concise road map by which every man being might follow. If Jesus Christ has intended that His church should have been divided into hundreds of denominations He would have said so and made it one of the old landmarks. Or, He would have said: "The plan of salvation is hardly complete. My church has not yet been divided. My time on earth is up and I must leave the finishing touches to man. Fifteen hundred years after I am gone let man begin dividing and subdividing My church into small groups. Each individual soul shall select a name for itself and set up its own creeds and doctrines. The creeds and doctrines of each individual group shall be different from all other groups so that there will be no conflict as to the individual rights of any group. You may establish as many groups as you wish, build as many churches, houses as you wish and elect each member of your special group as much as you like. Each group shall have the power to convert people according to its own creed. Each group shall make a special effort to secure the largest membership of all the groups. Special award will be given to the group whose enrollment book shows the largest number of names."

Older Democrats Say,

"Lest We Forget..."

"THE LAST REPUBLICAN GOVERNMENT GAVE US 13 MILLION UNEMPLOYED AND THE WORST PANIC IN HISTORY"

STEVENSON

It is said that the elephant has a long memory, but it is the elder Democrats who went through the Hoover Depression that remember longest and deepest from a bitter well of memory. That cataclysmic holocaust of human suffering the Republicans called a business recession is so burned on our minds that an elephant would have to live a long time to out-themember us.

The Republican Elephant wants to forget that story. We, the elder Democrats, would like to pass it on to you. People learn by experience and we had the classic experience of a political party creating a real mess.

It began in 1929 and lasted until Franklin D. Roosevelt was elected. Millions were out of employment. No accurate count was ever made of these unemployed, but the figure was near 13 million. It is no misery to be unemployed if you have unemployment benefits as now, but back then the only thing you could do was beg or sell apples—or steal! Soup lines were everywhere. Veterans who had defended their country marched on Washington to seek relief, and met army bayonets under Hoover's order. Men who in desperation were appealing to their government were gassed and bayoneted out of Washington.

Thousands of books and articles have been written on the human suffering occasioned by the cynical and negligent Republican Administration's attitude toward the depression. Any attempt by us to add to that story would be futile, but we try. We want to tell the story, for the Elephant will not.

The roads were lined by refugees from starvation. They came from everywhere and were going nowhere. Only wearily drifting around looking for something to eat and hunting for a place to lay their heads. Compassionate people along U.S. 28 helped old, dilapidated automobiles near the highway, so that these transient victims of the Hoover Depression could crawl into them and sleep.

Coal miners lived only in the night, for they never saw the day except on the Sabbath. They went to work anywhere from 2 o'clock in the morning and stayed until they "cleaned up." If they did not "clean up" they were fired. No union representative gave any protection—there wasn't any. Sometimes that "clean up" took until 10 o'clock at night.

Long near midnight tipples were running to prepare coal and the workers stayed on the job. Maybe they made a dollar and a half. But if they did, they took it in trade at the store.

Coal loading by hand was in lots of mines not by shovel but with a fork. Yes, a big fork that let the fine coal drop through, for only the lumps went into the cars. The small egg and dust was thrown away with the slate and bone for nothing. If your scrapping was six inches thick you took it with a pick. The company would not give you a single stick of explosive to save you hours of work.

If a miner worked one or two days he and his family ate only those days, for the company allowed him to take out scrip for what he worked. What the rest of the week, God only knows. We do know that plenty of families did not eat at all except by charity.

At one mine in Floyd county the miners, in desperation, met secretly in the woods at night and discussed their rights. Next day they went, hundreds strong, to the commissary and with an appointed clerk handed out groceries. These groceries were charged on the books by themselves. Outside, the front office was plastered with Hoover signs—put up by a cynical crowd that asked a desperate people to vote a continuation of starvation and misery.

No Elephant's memory will be longer than a miner's when it comes to remembering that.

Not only the miner suffered. The farmer didn't sell hogs or cattle. He kept them. One Floyd county farmer shipped his cattle to Cleveland and received 12 cents a pound. Back in Floyd county, if he could possibly have sold them, he would have gotten about three cents. Hogs were so plentiful that motorists had to get out of their cars and shoot them out of the road. Some farmers seeing their hogs starve shipped them into a neighbor's lot in order that they would get fed. They weren't worth anything, anyway.

There was plenty of food, yet people starved. Corn was piled up in the Bluegrass fields and was offered at 17 cents a bushel. No takers. While people cried for bread this source of food rotted because the Republicans couldn't find a way to get it to where it was needed.

While we were in the depths of this human misery the Republican Vice-President and his friends at Washington threw a big party. They came in their furs, their expensive clothes and chauffeured automobiles. They spent enough on the "Big Blow" to feed all of Floyd county for a month. Yet this same old, cynical crowd now asks you, hoping you do not remember, to vote for them.

The Republicans talk about high prices. They ought to talk a little about low prices, for back under their prices slumped until they reached the point where, since there were no buyers, it would be useless to quote still lower prices. Cotton fell to a point that men looked back to Queen Elizabeth's day in England, before America was founded, to find a price as low.

A man put a nickel in a slot machine in Floyd county and "hit the jackpot." Out came \$7.50 in tokens to be spent in the store. He bought a bag of flour, bag of meal, six pounds of coffee and two cans of hard for that money. Things were cheap, just as cheap as the Republican negligence could make them. Labor was cheap, too. It would have taken 15 days on the farm, or five days in the mines, to have worked out that money.

Back in 1931 if you were out of a job you starved or lived on charity and only through the grace of a compassionate God. Now you draw unemployment benefits. If you became old and could not work you either lived on your children or your savings. Now you can draw old-age assistance. If a bank failed and you lost your savings, you were just out of luck. Now the government pays your money back. Three banks failed in Floyd county under Hoover.

We are prosperous in America today and it is not a false prosperity, either. Working men who were laboring under Hoover sometimes as long as 60 or 70 or even 80 hours a week to feed their families can now work 40 hours and afford an automobile. We eat and there is no cry for bread.

We have two candidates for President. One is a General whose place in history as a military chieftain is assured. The Democratic candidate is a man of that class of statesmanship to which Woodrow Wilson belonged. The same old cynical crowd that supported Taft because he was the Big Business Darling now support Eisenhower. This group of Economic Royalists started out with Taft. They saw defeat and switched to Eisenhower. A general takes orders from his superiors and the Taft crowd that has now moved in on Eisenhower will give the orders.

Stevenson said recently: "Under our Democratic Administration the people have bread." Under Hoover a few ate cake and the rest of the people lived on charity and by the grace of a compassionate God. Let us remember and as wise stewards keep what we have.
