Dear Friends of Floyd County:

I am very thankful for the support that I received in the past General Election. I am grateful for the confidence that you have shown in me...

We will strive hard to do a good job for all of you in the future as we have tried to do in the past.

I deeply appreciate the kindness you have shown me in the past and it will be a pleasure serving you in the future.

Your friend, DuRan MOORE

NEWS & NOTES

By ROGER TURNER

"There is a deity that makes us brothers
None of us lives his life alone
All that we send into the lives of others
Comes back into our own"

How much beauty and wisdom there is in the few lines quoted above! Have you noticed the great inner satisfaction you acquire when giving? True, the takers are sometimes ungrateful, but on an overall basis, most people everywhere are inherently decent and appreciative.

There is an old proverb "give until it hurts." While that method may be a bit extreme, nevertheless giving is such a great joy-giving materially and spiritually to others as much as you can and your spiritual satisfaction, will definitely give you a longer fuller and more complete life. You'll discover that, strangely enough, the things you give away are those that you keep!

COMPLETE FUNERAL SERVICE

Hurst Preston Webb, 43, Former Floyd Resident, Dies at Indiana Home

Funeral services were held Saturday for Hurst Preston Webb, of Dale Ind., formerly of this county, who died Nov. 11 in the Beaver Valley hospital, Martin, of a heart condition from which he had suffered for several years.

Born Dec. 11, 1910 at Lacey, he was the son of T. J. and Mary Preston Webb, after graduating from Kentucky Military Institute at Lyndon, Ky., he attended the University of Kentucky.

He was married to the former Elsie Coburn, of Moulie, Knott county, and was the father of four children.

He had been engaged in farming at Dale, Ind., for the past ten years. Survivors include his widow, two daughters: Mrs. Mary Sybil Kelly and Myra Louise Webb, two sons: James Hurst and Solomon Milford Webb, all of Dale, Ind.; his parents, Mr. and Mrs. T. J. Webb, Langley, one sister, Mrs. Olive Webb Timmer, also of Dale, and one brother, T. J. Webb Jr. of Dale, Ind.

The funeral was held in the Maytown Methodist church, with the Rev. C. A. Wiley in charge. Burial was made in the family cemetery at Warsaw. Active pallbearers were J. T. Spillman, Carl Stewart, Robert Allen, Herman Harmon, Otto Martin and S. M. Martin.

Funeral arrangements were under the direction of the Everage and Watt Funeral Home, Hindman.

claims contestee did not file on Oct. 17, 15 days prior to the election, in an expedient manner, getting out in detail, or at all, all sums of money or other things of value contributed, expended or promised by him, or by any person in his behalf, and that he did not show when, to whom and for what purpose these sums were paid. Contending that Collins exceeded the \$1,000 legal limit for such expenditures, the petition alleges that the Sheriff-elect willfully and purposefully failed to include in his expense statement many large sums of money contributed, spent or promised by him, or by his supporters with his consent.

Constant states that he complied with the law in this and all other respects.

FLOYD QUINTS START SEASON

Martin Wins Two Games, Barely Edging Maytown, Wheelwright Drops One

With the bowl games ending high school football play, the basketball season got under way in something like the normal last week, as four Floyd county teams saw action in as many games.

Donell Faber's Martin Purple Flash got off to a good start, thumping Auxier, 87 to 63, Thursday night and coming back the following evening to edge neighboring Maytown, 52-50.

Before that, Maytown had lost a 61-51 decision to Carr Creek but had established itself pretty soundly in the local basketball picture by overcoming Wheelwright, 59 to 53.

Line-ups in these games follow.

GYMLESS BLACK CATS TO PLAY ALL GAMES AWAY FROM HOME

Although most schools of this section have, or soon will have, their basketball seasons under way, the gymless Prestonburg Black Cats will not see scheduled play until the night of Dec. 8, the schedule released this week by Coach Bill Dameron shows.

With no place at home for practice, the Cats will travel daily, the last of the season being played at Martin.

Although the team lost only one regular at the end of last season, the loss of a gymnasium for regular practice and being obliged to play away from home through the entire schedule are factors which are not expected to be helpful.

Martin's Purple Flash opened its season with a win at home last Friday night over Auxier. Coach Donell Faber announced the following remaining games of his team's schedule:

Table with 2 columns: Date, Opponent, Location.

Soil Conservation Essay Contest Now Underway; \$3,200 Offered Winners

Prize totals: \$3,200 in U.S. Savings Bonds are being offered Kentucky grade and high school students in the 10th annual Soil Conservation essay contest.

The competition was announced jointly by Barry Bingham, president of the Courier-Journal, the Louisville Times and WHAS; Wendell P. Butler, state superintendent of Public Instruction; and A. Threlkeld, president of the Kentucky Association of Soil Conservation Districts.

"How Soil Conservation Benefits My Community" is the subject of this year's essay.

The student submitting the best composition will receive first-place award of a \$100 Savings Bond. Second prize is a \$50 bond and third prize, a \$25 bond. The three state award winners and their families will be given all-expense-paid trips to Louisville to be guests of honor at the annual Farm Awards Luncheon next spring.

In addition to the state prizes, a district award of a \$25 bond will go to the winner in each of the 121 soil conservation districts where at least five essays are submitted. These winning district essays will be judged for the state award.

Entries should be sent to the county and city school superintendents by December 19, 1953. Complete information for the Soil Conservation Essay Contest may be obtained from school superintendents, principals, soil conservation supervisors or the promotion department of the Courier-Journal, Louisville 2 and WHAS, Louisville 2, Kentucky.

HUNT SEASON CLOSES JAN. 18

Rabbit Bag Limit, Eight; Daily Quail Limit Is Ten, Possession Limit Is 20

Frankfort Ky. Nov. 18 (Sul)—Kentucky's principal hunting season, for quail and rabbits, will open on November 20 and a n d continue through January 18 amid reports that the supply of these two species this year is as great or greater than for the past several seasons.

From throughout Kentucky the Department of Fish and Wildlife Resources has received encouraging reports on the game prospects from its conservation officers, with some sections claiming more game than in previous years and others reporting an equal amount.

The quail and rabbit season will be preceded by the beginning of the waterfowl shooting period at noon on November 17. That season will close on January 10 with shooting hours after the opening day from one-half hour before sunrise to sunset.

The limit of ducks per day is four which may not include more than one "woodcock" with a possession limit after two or more days of hunting of eight. The daily and possession limit for geese is five which may not include more than one Canada or white-fronted geese. Woodcock, season, from November 20 through December 30, and a jacksnipe season opening on November 20 and extending through December 4 also has been provided this year with a limit of four woodcock per day and a possession limit of eight.

Auffed grouse season will extend through the hunting period for rabbits and quail with a bag limit of two and a possession limit of four. The bag limit for rabbits is eight per day or a possession limit of 18 after two or more days of hunting, and the quail daily limit is 10 with a possession limit of 30. A state hunting license is required for all hunting and a federal duck stamp for the hunting of waterfowl must be obtained.

Only a few days of the squirrel season were lost due to the forest area manna, those 26 days will be given back to the hunter starting with the opening of rabbit and quail season on November 20 and extending through December 15.

SPORTS AFIELD

By TED KESTING (Editor, Sports Afield Magazine)

One of the qualities required of a fine pointer dog is backing. In honoring another dog's point, the average well-bred dog will back instinctively, especially if he has been raised with his litter brothers and sisters and watched their point butterflies and grasshoppers or songbirds. But as many dogs develop all-junior streak and refuse to back. They often go in and steal the other dog's point. I have seen pointing dogs react this way so much that a fight ensued.

In teaching your dog to back promptly and staunchly, dog expert Henry P. Davis thinks it is best to work him with a thoroughly finished brace in which your dog has confidence. Never work him with a flimsy pointing dog or pointer, or your dog will lose confidence and go in to do some investigating.

Get the brace on point. Call the young dog in and work him up to such a position that he won't catch the scent of the game but will see the pointing dog. As soon as he does, caution him sharply by name. The surprise of seeing the other dog on point and hearing his name will very likely cause him to check his stride and stop, stiffening up to a point.

E-roke your dog along the back, talking to him in low tones of approval. Have an assistant go in and flush the birds while you stay by the young dog. Once he has voluntarily backed and watched the birds flushed to the other dog's point, he will soon acquire the habit of backing without much effort on your part.

However, if he should refuse to back and goes in front of the pointing dog to catch the scent and point the birds himself, don't do anything right then. Just flush the birds and resume hunting.

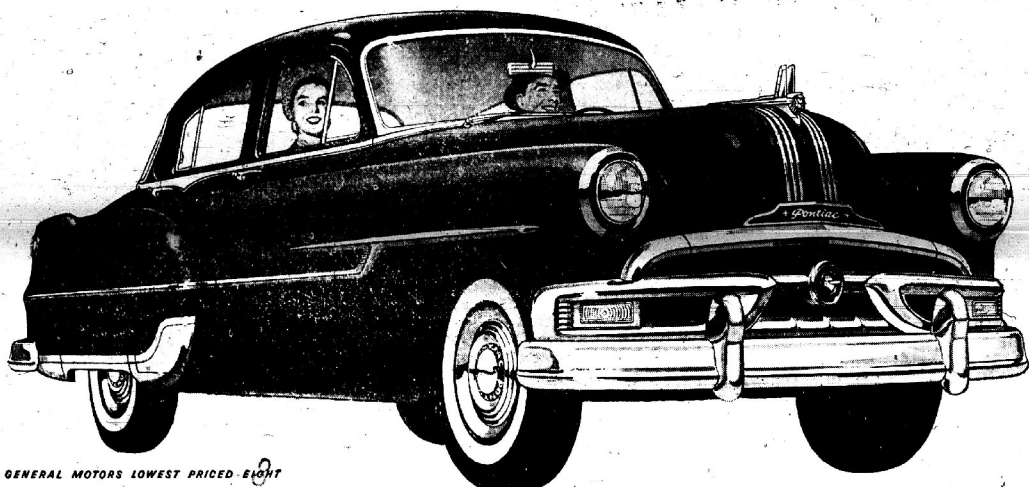

But then the next time the brace returns, fasten a check cord on your dog's collar and work him toward the birds in a direction that will provide unfavorable—meaning conditions for him. As soon as he sees the pointing dog, check him with the cord and tie him to a bush or sapling. Let him watch the other dog. Do not lead him up so close he can smell the birds himself, for he must learn to back on sight at a distance.

After a few such sessions, try getting him to tense up to a point himself. Caution him in a low tone, checking and steering him gently while he is watching the other dog. And soon he should be backing properly.

Williams, Colvin See Preview of '54 Trucks

E. J. Williams and Bert J. Colvin, of Valley Motor Car Company have returned from Cincinnati where they attended a private preview of the new 1954 Chevrolet trucks.

The exhibit and accompanying business session were sponsored by the company for all retail dealers and salesmen in this area and emphasized the importance Chevrolet is attaching to its 2000-to-be announced new truck line.

"The meeting was somewhat without precedent in our experience because it was devoted exclusively to new truck models," said Mr. Williams. "The reason soon became clear. The 1954 line contains a many new features that even a review of its displays required considerable time."

Williams said he plans to arrange a special showing of the new line in his dealership when the trucks become available for display later this month. It is one of the best times in history that Chevrolet has exhibited new trucks apart from new passenger car models.

STAGES EBB ON STREAMS FEEDING OHIO, KANAWHA

Record or near-record low water levels in tributaries of the Ohio and Kanawha Rivers have been recorded in recent weeks as dry followed day without rain.

Changing factors other than the lack of rainfall are responsible for the 50-year record low in the vicinity of Louisa, Ky., on the Big Sandy River, it was reported by Meteorologist Leroy Stone of the U. S. Weather Bureau office in Huntington, W. Va.

In recent years there have been navigation lock operations in the Big Sandy, and for this reason, the six-foot depth of the river at Louisa is lower than it has been at any time since the 1890's. Meanwhile, there is a one-foot depth at Pikeville and an 18-inch depth at Paintsville.

The levels of the Elk, the Gaudy and the Greenbrier Rivers in West Virginia are, according to Mr. Stone, nearly as low as they were in 1930.

The Ohio and Kanawha Rivers are at normal stage, however, in spite of a lack of rainfall.

For those who depend on river navigation for a living, and for the thousands dependent on industries which in turn are dependent on river navigation, the maintenance of a normal pool stage during dry weather is a dividend from the tax investments in locks and dams on the rivers.

At Huntington, the level is approximately 15.8 feet. Men in charge of the locks let through sufficient water to maintain this level.

Even if the river flow of normal water supplies should decline further, additional water would be supplied from reservoirs on the Muskingum River in Ohio. "There are additional water storage dams on the Kanawha and in the upper tributaries of the Ohio."

In the immediate Huntington area the Guyandotte river is quite low. Flood wall Superintendent E. D. Fisher said sand bars can be seen which had not been visible throughout his experience there.

CARD OF THANKS

We wish to take this means of thanking all of our friends who in any way contributed assistance or spoke words of consolation and sympathy upon the occasion of the death of our mother, Mrs. Mattie Jones. We wish especially to thank those who sent flowers and the ministers, Revs. Carl Layne and Wesley Patton. To those who sent food and to those who donated the use of their cars we extend our thanks. Our thanks are also offered to the Civil Funeral Home for their fine and efficient service.

"American Legion Weeks" Proclaimed by Governor

American Legion posts throughout Kentucky have the welcome that out for new members and Governor Lawrence W. Wetherby has urged all eligible veterans of our State to support the organization and become a part of its program.

The period from Armistice Day to Thanksgiving was designated by National Legion Commander Arthur J. Connel for intensive campaigning to sign up 150,000 members. Announcing Kentucky's participation in the two week's special effort, Tom H. Hayden, Louisville, Legion state adjutant, urged local posts to live up to the national campaign slogan and "knock on every door" to extend an invitation to every eligible veteran. Hayden is director of the membership drive in Kentucky.

Governor Wetherby's plea is contained in a proclamation designating Armistice-Thanksgiving period as "American Legion Week" in Kentucky.

"23 Skidoo" or "Trail of the Lonesome Wiggle Worm"

Of grave concern to many of us here in the Big Sandy Valley is the decline in production of truck mine coal, and the many failures of small locally managed operations. A number of these failures may be due to inefficiency in operation, and lack of cooperation between various mining groups on the market, and high price of coal, decline.

The only answer is increased efficiency resulting in lower cost production. This may be brought about by a close-knit truck mine operation association, where mining procedures and methods may be discussed and improved through the exchange of ideas and competent industrial assistants employed to make surveys, and to improve mechanization.

We do not fully appreciate the efforts of the truck mines, and the stabilizing effect they have on our economy. The truck mine operator is usually a local independent business man. Through this type of mining the community enjoys maximum benefits from the coal that is being depleted.

At least one enterprising organization in Floyd County has done much to promote truck mining. It has developed markets for truck coal, and has also developed machinery applicable to this type of operation.

We must give more thought to the possible patronization of other local business establishments. The purchasing power of the people of the Big Sandy Valley is an enormous weapon that must be utilized to fight unemployment and small business failures.

It is as simple as this. When you patronize a local business establishment you are, in effect, creating jobs in your community for you and your children. As you know, a business can employ more workers when it has your patronization.

This is the second of a series of articles published as a public service by the Hayes Motor Supply Company of Hi Hat, Kentucky. If you would like to assist in the program outlined in these articles, drop in on your neighbor's business establishment or offer to discuss his problems. You will find that his problems are, how to get you in to see his goods and services. Now that you have solved his problem, you both "turn to" on your problems and soon neither you or your neighbor will have any problems.

THE COMPLEX PLANNER

The "coal planner" developed in Germany and now being tested in a West Virginia mine, is another new type of continuous mining machine that shears the coal from the vein without the use of explosives.

CARD OF THANKS

We want to take this means of expressing our appreciation to our many friends and relatives who in many ways aided us upon the occasion of the death of Alex Preston Hunt. We want to thank the ministers, Messrs. Paul Hughes and Henry Parsons, those who sent floral offerings and the J. W. Call Funeral Home. To all who spoke words of consolation and sympathy in our hour of grief we thank you from the depths of our hearts. Mrs. Jane Theobald Mrs. Vera Hunt

PROGRAM RECOMMENDED

Frankfort, Ky., November 10 — The Alcoholic Study Commission created by the 1952 General Assembly, has recommended initiation of a State-wide program for treatment and rehabilitation of alcoholics, research into causes and prevention of alcoholism and an intensive program of public education relative to the disorder.

The commission headed by Dr. Charles R. Rounsaville, Chairman of Louisville, recommended an independent agency to be known as the Kentucky Commission on Alcoholism, to include at least five districts, one of whom should be a physician. It was proposed that a state administrative and information office and a out-patient clinic for treatment of alcoholics be established as soon as funds are available.

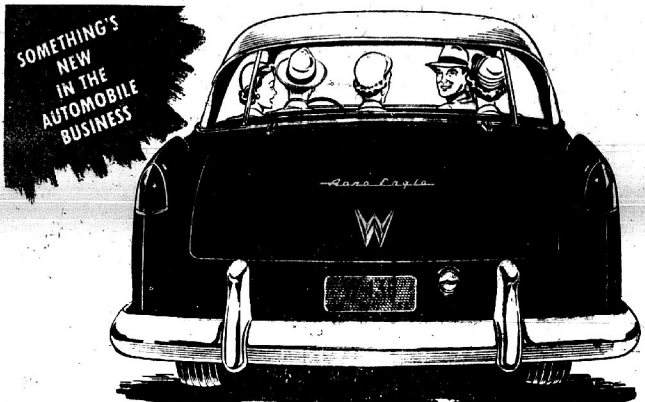

REVENUE DECLINES

Frankfort, Ky., November 16 — Kentucky's general fund tax revenue has fallen approximately \$2,000,000 during the first four months of the present fiscal year compared to the same collection for the July-October period of 1952.

The department of Revenue reported collections of \$14,771,976, compared with \$17,265,308 a year ago. On other fronts the road fund income for the same period is approximately the same as a year ago with \$22,467,023 being reported for this month, compared with \$22,607,625 last year.

ALL TRUCKS SERVE THE FARMER!

TRUCKS like this take Farm Products To Market

TRUCKS like this deliver what Farm Families Need For Happy Healthy Living

Penalize Either of These Trucks and You Penalize Farm Families

The trucks that carry crops to market are not the only trucks that serve the farmer. For in addition to these, there is a far-reaching network of trucks... big ones and little ones... that move produce to the far corners of America and bring in return, the countless industrial products needed for modern farm living and operation.

Big trucks contact big markets to assure the sale of crops at a price that is profitable to you, and, the bigger the demand, the better price you get. Thus, big trucks make NEW markets... while expanding established markets for you. Big trucks are as important to your prosperity as your own farm delivery truck... and that's why any attempt to penalize the trucking industry is an attack on your family's welfare.

Don't let ANYONE tamper with ANY LINK in our nation's long chain of trucks that roll to and from the markets.

Thrill Maker from start to stop (That's T.T. Dynaflow!)

SOMETIME soon — like this week — you ought to try a Buick with Twin-Turbine Dynaflow. You ought to try it just to be familiar with the great advance in this fully automatic transmission that Buick engineers have accomplished. You ought to try it just for the fun of bossing a drive where you don't do a blessed thing but steer and press the gas or the brake pedals go you. But, pure and simple, you ought to try it for thrills. We mean the thrill of instant getaway response — with two turbines doing the job that one did before. We mean the thrill of whisper-quiet acceleration — where you barely hear the sound of power build-up, or of flowing oil at work. And, most emphatically, we mean the thrill of perfect and sublime smoothness from start to stop — the thrill of moving from standstill to and through all travel ranges in one, progressive, infinitely smooth forward "carry" without a gear ever shifting or a clutch-pedal pushed — the thrill, rarely found elsewhere, of silky smoothness in deceleration, too. Will you be our guest at a sampling of a Buick with TT Dynaflow? Will you try the sweetest, the smoothest, and the simplest-to-operate automatic transmission yet devised — and powered by the highest-compression engines in Buick history, including the world's newest V8 in SUPER and ROADMASTER models? Drop in on us this week and we'll be happy to accommodate you.

It's Trade-In Time for a Better Deal

You'll be thrilled with the top allowance we will make on your present car. Come in and see us for the happy news — now. We can give you immediate delivery.

Mine Leaders Draft Program for Convention

Kentucky's coal mining industry is represented on the Program committee now shaping plans for the 1954 Coal Convention of the American Mining Congress to be held in Cincinnati on May 2-4. Congress officials have announced.

The committee met in Pittsburgh, Pa., on November 12 to draw up plans for the 1954 gathering of coal industry officials from all the nation's coal-producing areas.

The convention next May will be concerned with the many problems besetting the hard-pressed solid fuels industry, and the preliminary program draft features discussions on these topics: Mine management, safety, coal utilization, roof support, mechanical mining, haulage, maintenance and power developments, progress in coal preparation, continuous mining and advances in coal stripping.

Industry officials from Kentucky taking an active part in the work of the Program Committee are: Harry LaVern, president, South-East Coal Co., Paintsville; and Kenneth Smar, vice-president, Miners Coal Co., Madisonville.

SAYS BENSON PLAN WRONG BUT ASKS FOR COOPERATION

A plea for cooperation between those interested in the Soil Conservation Service and the Extension Service was made today by Henry Ward, state commissioner of conservation and chairman of the state Soil Conservation committee.

Secretary Benson did a great dis-service to the whole cause of agriculture when he insisted on putting his reorganization of the Soil Conservation Service into effect in the face of widespread suspicions that agency in favor of the Extension Service," Ward said.

"He should have made more extensive efforts to displore the contention that he favors the Extension Service over Soil Conservation, especially in view of the fact that there appear to be some good grounds for that feeling," the state commissioner continued.

"The program of the Soil Conservation Service was hampered for many years in Kentucky by feuds between representatives of that agency and the Extension Service," Ward declared. "As a member of the state legislature in 1949 I knew of the opposition of some of those in Extension to the creation of Soil Conservation, Robinson and the enactment of the law authorizing them.
