This Town That World

More cradles rocked would mean less rock-'n'-roll.

Whoever got the idea, anyhow, that a woman's is the only hand that ever rocked a cradle?

With the Democrats riding their lions for their own little family on Saturday, we revise the old ad to read: "Now is the time for all good Democrats to come to the aid of their faction!"

If Pravda persists in printing criticism of present Soviet rulers as well as of the once-beloved Tsar, the shortage of editors may become more than that of newspaper.

I've never had any consuming desire to be a miner, but as of midnight last night I suddenly developed a yen for that occupation. That two-week vacation with \$140 vacation pay is the attraction.

READING THE ADS
These recently appeared in The Courier-Journal and possibly in other daily newspapers. I am not a full-page advertisement, paid for by a Philadelphia man. The text is that of a read:
If a man says I love God, and hates his brother, he is a liar; for he that loveth not his brother whom he hath seen, how can he love God whom he hath not seen? We have lost that copy of the newspaper and so cannot tell you the name of the man who caused the advertisement to be published. But the text of the ad is not lost; you will find it in the Bible—in the fourth chapter of First John.

OF WANTS AND BOYS AND SUCH

The American Medical Association, no less, heard more of the learned discussion recently of the cause and cure of the very common, unusually ordinary, and usually sent newspaper reporters back to a boyhood vocation to rake up Huck Finn's remedy. Said Huck to Tom Sawyer in this market of 1936: "Take a dead cat and go to the..."

RIVER SURVEY, BUCKHORN JOB FUNDS OKHEKD

\$76,000 Appropriated Will Enable Big Sandy Survey Daring '36-'37

The House voted its approval Wednesday of the appropriation bill which provides for a survey of the Kentucky waterways were recorded in conference Monday. Senator Earle C. Clements voted, The Times.

The conferees agreed to restore \$46,000 out from the appropriations for the survey of the Big Sandy river by the U. S. Corps of Engineers as a study of canalization possibilities, bringing the total made available for that project to \$76,000. This will make completion of the survey possible during the fiscal year beginning July 1. Senator

Bonanza Family Crows Ky. Strawberry Record

If Willie Frazer and his family haven't come up with a state record in strawberry production their very first year, in the business they are crowded it mighty close, according to production figures filed this week by Assistant County Agent Donald Claypool. The Bonanza man and his family, Claypool noted, picked this spring a total of 275 crates of berries from only half an acre. That is a half-acre of strawberries in a half-acre of income. Clarence received nearly enough plants to set another quarter of an acre. Together, father and son set out 2,000 plants in late March of 1935, on a half-acre piece which had been in tobacco for a number of years previously. Having embarked on the venture, the Frazers did not stop at that time that is, read and follow directions as they come to them. They they travel a road for some time, they have had in mind, based on the results of a soil test, adding chlorine to the fertilizer to control grubs that might be present to damage the

Tax Happy Chandler Rides Again

When:—2:00 P. M. Saturday, June 30.
Where:—Courthouse, Prestonsburg.
What:—Floyd County Democratic Convention.
Why:—To elect delegates to the State Democratic Convention.

Happy Rides Rough Shod

After breaking more promises and raising more taxes in 6 short months than any other Governor in history managed to do in 4 years, Tax Happy Chandler, is bored in the Governor's Office, and now says you must elect him President of the United States.

Your Tax Money Is Paying for Happy's Bid for President

Happy's political mastermind, "Virtuous" Vego Barnes, recently fired from his job a social worker, a respected Floyd County mother and grandmother on unproven charges of political activity, "Virtuous" Vego now sings a different tune. He now demands that "Merit System" social workers ignore state law and the Federal Hatch Act, that they go to the County Conventions on state time and pay next Saturday and vote for delegates who will favor Happy for President. (See Courier Journal June 23).

Happy Rides Rough Shod

Tax Happy Chandler, who was elected on a promise to free the state employees, now openly threatens them with dismissal unless each of them dupe five people into voting for Happy's Delegates at the Democratic Conventions next Saturday. (See Lexington Herald June 24).

The Chips Are Down—This Is the Payoff

Tax Happy Chandler wants to rule the roost from President to Magistrate. If he elects his delegates to the State Convention next Saturday you can expect his henchmen to be back next year telling you how to vote for every Floyd County office.

Bob Humphreys, whom Happy recently appointed United States Senator said the outcome of the County Democratic Conventions next Saturday will determine whether or not Happy can pick the next Governor of Kentucky.

The chips are down, this is the payoff. Happy wants to eliminate the possibility of Bert Combs ever becoming Governor of Kentucky. If Happy wins at next Saturday's Democratic Convention in Prestonsburg, he will read Bert Combs and his friends out of the Democratic Party. Floyd County can help save the United States from Tax Happy Chandler. Let's stop Happy before he stomps us.

"Let's correct the mistake, Of Last August the Eighth," Every good Democrat is invited — bring your friends—

Where:—Courthouse, Prestonsburg
When:—2:00 P.M. Saturday, June 30
What:—Floyd County Democratic Convention.
Why:—To elect delegates to the State Democratic Convention.

Happy doesn't want you to be there. Every Democrat present can vote. Stand up and be counted with Bert Combs. Vote against Tax Happy Chandler's Delegates.

RETURNS TO NEW YORK

Edmund Burke returned to his family camp near New York City Saturday after a week-end visit with his parents, Mr. and Mrs. E. R. Burke, and family.

LEXINGTON—The State Agricultural Stabilization and Conservation Committee office has announced the resignation of Henry W. Turner, Taylor county chairman. The Compliance and Investigation Division of the Department of Agriculture investigated the Taylor county ASC this spring.

TIMES WANT ADS PAY TRY THEM TODAY!

STEPHENS ANNOUNCES

Since we have lost in our plan to establish a new bank at Martin, I have been requested by a lot of people, who are interested in me to make the race for either Circuit Judge or Circuit Clerk and after considerable thought and consideration of the matter, I have definitely decided to make the race for Circuit Clerk. If the understanding I have with some people, is kept and, if I may change my mind and make the race for something else.

It is said by many, "that I made a good Circuit Judge and that I held an orderly court and the business was speedily dispatched and that my record in the Court of Appeals was a good one and my record as Clerk was equally as good or better."

I do not wish to ever make another race in which my kintfolks are involved in the same race. I have tried this matter out and it does not bring about the best results. While this announcement is a little early, I know of several other known candidates for office and have been for more than three years, which is much longer than before this statement.

Ask any attorney about my qualification and the amount of paper work I relieved them of in the courtroom. I wish to serve you in the future as I have in the past and anytime I can be of service to you, day or night, it will be a pleasure to do so. I will make the kind of an official you expect and demand.

The others have the keys to the courthouse in their hands and they have the power and it is up to them to remove any one from office they desire or wish to elect. Be careful before you act and then you will not complain later as many do.

If you are registered in the precinct in which you live. You can only vote where you live. If you have moved to another precinct, you are registered, have the clerk transfer your card to your present location and precinct and this must be done six days before you can vote. Many people overlook a few of these simple rules and are thereby disappointed.

Anyone desiring to change their party affiliation from Democrat to Republican or from Republican to Democrat, may do so and this must be done after the Primary and not before as many have attempted to do in the past and this must be done six days before you are permitted to vote.

Any one being 18 years of age before the November election may register and vote in the Primary before.

May I have your active support and I promise you that I will repay you in the best service of which I am capable.

All of which is respectfully submitted for your consideration.

I am, faithfully yours,
HENRY STEPHENS.

PIONEER MEMORIAL

Pioneer Memorial State Park, at Harrodsburg in central Kentucky, showcases the earliest white settlement in Kentucky. It features restored buildings of old Fort Harrod, a museum and the log house where Lincoln's parents were married.

It is nice to be an optimist but over optimism is quite dangerous at times. Now is the time to question every financial move with the utmost care. Debts should be reduced in every practical way. Be especially wary of long standing obligations. We think this is good advice.

JUNK DEALERS TOLD OF LAW

Sheriff Collins Says Records of Purchases Inadequate to Probe

Sheriff Garmon Collins this week cited the new Kentucky statute regulating the traffic in used copper wire and cable, commenting that he wants every person dealing in such items to know the law so that there will be no "pleading of ignorance of the law" when the new statute is invoked later.

Records of scrap dealers in the past have often been so inadequate, he said, that it is impossible to trace stolen materials back to the person who sold them to the dealer. A recent case cited was the theft from the Kentucky Power Company of a quantity of wire which was stolen by the simple expedient of cutting a pole down and taking the wire after it had burned in two from the high voltage it carried. The scrap dealer's record was of little or no help to investigating officers, Sheriff Collins said. The new law, approved by Governor Chandler Feb. 27, follows:

"Every junk dealer, dealer in second hand articles, vendor of bottles or tags or collector of or dealer in articles found in ashes, garbage or other refuse, whether such dealers, collectors or vendors operate a business of an itinerant nature, shall keep a register, which shall contain the name of the person or persons from whom such copper wire or cable is purchased, whatever may be the condition or length of such copper wire or cable, the residence or place of business of such person or persons and a full description of each purchase including the quantity or weight thereof. Each of such dealers, collectors or vendors shall permit any peace officer to inspect said register at any reasonable time and shall report to the sheriff of the county in which any purchase is made and to the sheriff of the county in which his business is located all of such purchases within twenty-four hours thereafter; the report shall contain all the information required to be maintained in the register provided for herein. In the event the purchase is made in or the business is located in a city of the first or second class the reports required hereby shall be made to the police department of such cities instead of the respective sheriffs.

"Failure to maintain the register or to make the report as required by this act shall be a misdemeanor punishable by a fine of not more than one hundred dollars or by imprisonment for not more than thirty days, or both and shall be prima facie evidence that such dealer, collector or vendor received the used copper wire or cable not registered or reported knowing it to be stolen in violation of §236.432.200."

the steel, Akers replied that there are two types of steel to be used in zincaminis. One is the tung steel, so used in the Morehead Fieldhouse and the Pikeville gymnasium. This steel is made in small pieces, he says, and comparatively easy to get in contrast to rigid steel which is produced in large pieces.

Akers said he received a mild shock when he found out that the Morehead Fieldhouse was being the Prestonsburg gym to completion. After calling the steel mill he said he was informed that such a backlog of orders of tung steel has piled up that rigid or large steel would be postponed for at least several months. They couldn't afford to change over in the middle of an building, had been notified that the earliest it can procure steel will be in late 1957.

By Quentin Allen

"Fishing for Gordon Moore" With summertime's fishing full of approaching with dazzling speed, Heber Burke's recent catch of a 6 1/2 pound largemouth was all the more noteworthy because of the size of the fishermen about Dewey Lake can sadly relate, there are many more hours spent fishing than can be accounted by fish. Some even consider, in the heat of summer, a fish a day or a week something spectacular.

What's the answer? It's evident from spring fishing that the fish are there. The problem is to get them. It seems that in the summer, fish are as apt to take naps as our neighbors in the South.

Maybe the answer is night fishing or early morning and late evening, when the water is cooler, might do it. "Popping bugs" are successful, too, and Editor Allen said he got his monthly strike on a jetbug.

It is said of a few hunters who think like the animals they hunt and consequently find them. It is not advisable for the bass fisherman to be outspoken about thinking like a bass. Scientist say that fish have few if any brains and so the true mentality of a bass fisherman might be found in his own self-description.

King Kelly Coleman did a yeoman job in his Saturday night performance at Indianapolis with the Kentucky All-Stars, when he scored 17 points, 12 coming in the last quarter. Last night (Monday) Coleman hit a new low himself as he made only four points, in collecting one field goal and two foul shots. Lowell Hughes, Prestonsburg, is the first alternate on the squad, and thus far has not seen any action.

Indiana maintained marked superiority over the Kentucky All-Stars in their Monday night victory. Oscar Robertson, 6-5 negro guard, and his mates collected Indiana's 18th win against two losses to the Billgrass boys.

If you are an athlete in any sport and enjoying success, shun, for moment's sake, sport writers who wish to glorify your achievements in a magazine. Let's look at the record, as a politician may say, and see why this is the smart thing to do.

Ted Kluzewski, after his first homer when he hit 25 homers, was featured in Collier's in the spring of 1952. Big Klu then suffered his most terrible season when he hit only 29 and hit homers in the fashion of weak-hitting Rocky Brides. He was awful. Al Rosen, last year, received more than his share of publicity extolling his talents. He stank all year! Innumerable pitchers have been "written up" in the top sport magazines and got their ears pinned back all the next season. Now Wally Post, the Cincinnati Redlegs slugger, has been featured in The Saturday Evening Post. This writer would crawl a mile over broken beer bottles to see the Redlegs play, and I consider this a veritable prophecy of doom.

Now watch Post set a new strike-out record instead of pounding the ball out of the park.

Ed Diddle says that something went wrong when they left Prestonsburg's Lowell Hughes off the regular Kentucky All-Star basketball team. Hughes, now in an alternate's position, can play only if a regular becomes incapacitated. Diddle, Western's basketball mentor, said that Lowell and Coleman will be his guards when the Kentucky All-Stars meet the Ohio All-Stars.

Leon "Blue" Childers Now Swinging—Not Pitching For Air Force Nine

Leon "Blue" Childers has made the change, as have many other distinguished gentlemen, but his has been the change from a strike-out pitcher to a slugging outfielder.

"Blue" as baseball fans in the vicinity remember him, is in the Air Force Nine a sergeant who carries his authority to bat. Thus far "Blue" is one of the two top hitters on the Cleveland Bombers lineup hitting at a 47 clip and sporting 15 runs batted in in fourteen games.

Childers, the son of Mr. and Mrs. Peter Childers of Emma has been in the Air Force for five years. He was under contract to the Cleveland Indians before his entry to the Air Force.

The latest hitting spree that "Blue" has enjoyed was recorded against the Berea Jets when he collected seven hits in ten trips to the plate and drove in six runs. The hitting spree boosted his batting average to a blistering .454 for the season.

Police raids in Boonah have uncovered the headquarters of the outlawed Communist Party in South. The newspaper Al Blvd reported.

Klu, Homer Happy Now, Once A Short Hitter While in Minor League

Ted Kluzewski, Redleg first baseman, who topped the minors in homers with 20 two years ago, was strangely enough, a singles and doubles hitter in the minors. With Memphis, where he spent his second year in professional baseball, he led a league-leading 37 but connected on only seven pitches for home runs.

Not until "Big Ted" had gained enough professional experience did he start to use the power that has made him one of the most feared batsmen in the majors. So green was Kluzewski at baseball when he went to training camp with the Redlegs for the first time that, on the second batsman's throw for the completion of a double-play, Kluzewski caught it banded.

Kluzewski was a pre-bonus baby, getting \$20,000 for signing with the Redlegs which promised him to marry his hometown girl, Eleanor. From the awkward giant who looked like a cow on ice, Kluzewski has polished himself into one of the most feared fielding first basemen in the majors.

An all-America choice on many lists across the nation for his feats of pass-catching at Indiana University, 200-pound Kluzewski is rated as one of the most powerful baseball performers in the majors.

P'burg Team Organized For Youths from 15-17; Will Open June 30

Prestonsburg has added another team to its list of baseball teams in the Colts, fielding boys whose ages range from 15 to 17. Don Sullivan, manager of the team, notified The Times this week.

Sullivan expressed his appreciation to the Williamson and Paintsville teams for fitting the Colts into their schedules, although the Prestonsburg team is late in its organization. Sullivan said he feels he has excellent material with which to form his team. "These boys have shown me that they have the determination and spirit to win. What they lack in ability, they make up in courage. I think they'll turn out to be a fine team," he said.

The Colts will open their home schedule on Saturday, June 30, at 2:30 p.m. at the Prestonsburg high school field. The boys on the team hail from all over the county, from Martin, Allen, Auxler, Prestonsburg and other communities.

The Colts' roster follows: Melvin Stewart, Roy Lee Smith, Donald Osborne, Ronald Strickland, James Meade, Jr., Joe Jack Harris, Charles Dotson, Danny Cobble, Billy Henry, Julius Conley, Paul Phillip Hughes, Archie Childers, Henry Hughes, Wendell Childers, Lowell McKenno, Charles Wells, Richard Wireman, Jack Stumbo, Henry Ford, Roger Setzer, Lon Hill, Bunny Setzer, Matt Harris, and Bobby Blackman.

CAMP SEASON OPENS SUNDAY

Expect Camp Shawnee To Draw More Scouts As Facilities Improved

The largest attendance since Shawnee Scout Camp, sponsored by Lonesome Pine Council, was conducted in 1952 in its prospect for this summer season as 126 scouts enrolled for the current week, beginning June 24.

The camp is scheduled to operate during four additional weeks of the summer.

Greatly improved camp facilities are being enjoyed by the Scouts. New construction includes improved facilities for the swimming area, with diving boards and piers constructed in the swimming area. The aquatics program is under the direction of Robert Stages, of Pikeville, a graduate of the Boy Scout National Aquatic School and now serving his fifth year as a member of the camp staff. Stages is assisted by Glen Anderson, of Hays, Va., and Butch Wood, of Pikeville.

Another new feature of the program this year is archery instruction and an opportunity to pass the Archery Merit Badge. The program is directed by Ray Wilder, of Pennington Gap, Va.

Greatly improved facilities for the recreation program are also enjoyed by Scouts. These include a soft ball field, volleyball, and basketball.

As in previous years much emphasis is given to Scoutcraft and outdoor camping skills. The Scoutcraft program is under the direction of Jesse Elliott, of Betsy Layne, who has a background of 25 years' experience in Scoutcraft. Elliott is assisted by J. R. Griffith, of Paintsville, and Jimmy Ray, of Pennington Gap, Va. Another program activity greatly enjoyed by Scouts is Handicraft, which includes basketry, leatherwork, metal work, and Indian lore. Handicraft is directed by S. C. Reed, Jr., of Pikeville, assisted by Steve Elliott, of Pikeville.

A program activity at Scout camp which adds a great deal to the camping standards is the "Order of the Arrow" an honorary camping society to which 10 per cent of its members are elected by their fellow members. Scouts are "tagged" out in a colorful camping program held each Thursday evening which is open to visitors.

Butch Wood is lodge chief this year. Clifford Judd, district executive, is adviser in the Order of the Arrow program. Jim Owens, district executive for the Jenny Wiley district, is serving as assistant camp director.

Some Response Gathered From P'burg Parents; Attendance Is Poor

According to Commissioner of the Little League, Mack Harmon, there has been some response from parents who want their youngsters to play under better conditions.

"If more parents will volunteer for chores before the ball games, the game itself can be played quicker and more enjoyably for the Little Leaguer himself," Harmon said.

The biggest problem we have is getting the parent out to the ball park to see his youngster play. If the youngsters parents would come out they could certainly help us put the park in better shape, he concluded.

At this time Earl McDonald's Indians are leading the league with four wins and two defeat record. His Indians have just reversed last year's standings in coming their mark.

Scores of games thus far this season:

Cook said he destroyed more than 1,000 stray dogs last year. The Floyd County Health Department reported recently that results for four clinics held on successive Saturdays for the immunization of dogs against rabies did not indicate the interest in this phase of the work that was expected. The total number of dogs vaccinated over the four Saturdays was about 350.

BOARD MAKES ROOM STUDY

Betsy Layne, McDowell Additions Are Planned; Hi Name Here Changed

Plans for additional classroom space in three communities for possible emergency work in others were discussed by the Floyd County Board of Education in a special meeting, Wednesday, after a study had been made of Flood plans by an engineer of the State Department of Education.

The Board will submit to the State Department of Education plans for four additional classrooms and a lunchroom involving new construction at Betsy Layne, and more classroom space to be planned for McDowell, it was said. The engineer who made the study authorized three additional classrooms at the Prestonsburg grade school, these to be provided by partitioning the present science room, home economics room and the library.

All these projects are subject, however, to final state approval. The State Department and Board agreed on Lee Shannon, Prestonsburg architect, to plan and supervise part of the work considered for this year.

Superintendent Virgil O. Turner said other needs in different sections of the county will be reported upon by the engineer.

The Board Wednesday's meeting made official the change of names for the high school here. It is now Prestonsburg high school. In fact, the name change was effected before the recent high school commencement here, but the Board had not taken official action on the change.

Henry D. Fitzpatrick, Sr., was designated treasurer of the Board and the Bank Josephine the depository for Board funds. Superintendent Turner said bids were accepted from competing banking institutions because the General's office had ruled that bids are not required. The First National Bank is the present depository, with Burt Sparlock as treasurer.

Bid of \$140 of the Home Appliance Company here on supplying plumbing materials was accepted. Several teachers were hired at the meeting, but the list was not available in time for publication in this edition of The Times.

Superintendent Turner said that the Board of Education, complying with State Department regulations, is requiring that bill for all debts incurred by the Board during and prior to the month of June must be filed on or before July 2.

Baptist Revival Here

Is Attended by 7,000
74 Conversions, Result

The recent revival held at the Prestonsburg Playground under the ministry of Evangelist Vince Cervera resulted in 74 conversions for Christ according to the Rev. Ira McMillen, pastor of Irene Cole Memorial Church.

Of the number converted, 57 chose to unite with Irene Cole Memorial, sponsor of the revival, and four were added to the church by letter; 11 decided to go to other churches for membership, and six were undecided.

It was also determined by many parents to establish a family altar in their homes, which means that they will set aside a definite time each day for Bible reading and prayer for the family.

Total attendance at the 15-day meeting was estimated at 7,000. Music programs of the series were held by Al and Ivy Walsh, of Chamblie, Georgia.

Funeral Rites Held For Mrs. Josephine Music, 72, Who Dies at Paintsville

Funeral services were held at 2 p. m. Saturday, June 16, for Mrs. Josephine Music, 72, of East Point, who died the preceding Wednesday at a Paintsville hospital. Mrs. Music had been in ill health for several years and her condition became critical three months ago.

She was a daughter of the late Noah and Cordeia Patrick Music of Johnson county. Her husband, James Andrew Music, died 12 years ago. She was a member of the Church of Christ.

Surviving are three sons: Heber Music, of East Point, Jake Music, of Hager Hill, and Harry B. Music, of Royaton. A brother, Kay Patrick, of Paintsville, also surviving are: Mrs. Laura George, Orlando, Fla.; Mrs. Celia Salvage, of Prestonsburg; and Mrs. Madeline Hite, of Paintsville. Also surviving are eight grandchildren and eight great-grandchildren.

Burial was made in the family cemetery at East Point.

CLUB HEART MRS. WALLACE

Mrs. Jane Wallace, of the Cumberland Field Station, West Prestonsburg, guest-speaker at the June 18 program meeting of the Drift Women's Club, told clubwomen of the work of this unit of the U. S. Public Health Service in its hunt for parasites infecting the population of Floyd and neighboring counties.

Infant deaths as a result of diarrhea, the speaker said, are more numerous in Kentucky than in any other state of the eastern section of the nation. Mrs. Wallace urged her hearers to visit the Cumberland Field Station and learn, first-hand, how important it is to the health of this area. She complimented the Drift club as the only Floyd Women's Club supplying vitamins and milk to school children. Mrs. Wallace was introduced by Mrs. Chadie P. Cochran.

Mrs. H. D. Hewlett, club vice-president, presided at the meeting, which was held in the office building of the Turner-Barnum Coal Company. The treasurer's report was given by Mrs. Phyllis Reed, and Miss Catherine Reed was voted an honorary member of the club. Refreshments were served by the hostess, Mrs. Amy Lee Turner, to the following:

Pat Hewlett, Sophie Cahill, Ann Showers, Amy Lee Turner, Rebecca Reed, Ann Hoffman, Ruth Reed, Fyllia Reed, Violet Moore, Audra Hall, Chadie Cochran, Myrtle Hakes and guest, Mrs. Paul Maurer. Mrs. Ed Hoffman, Mrs. Wallace and Mrs. Atchley.

The next meeting will be at the home of Mrs. Wayne Stumbo, of Minnie, July 18.

"Head of Licking" Native, Candidate For Michigan Congressional Seat

(Salersville Independent)

The story of the progress of a former Maryland county youth who has chosen Michigan for his adopted state reads like a tale from the pages of one of the Horatio Alger books.

In 1917 Franklin J. Shephard was in the "Head of Licking" section some miles from Ripston. When he was young he decided to get an education and hitch-hiked to Berea without a dime in his pocket and with only the clothes he had on his back. He was aided by Dean Shutt at Berea, who helped him get started, finished four years at Berea Academy and was drafted. After five years service in the Air Corps during World War II he was discharged as a First Lieutenant. He flew 30 missions over France and Germany as navigator on a B-24 bomber.

After his discharge he attended Harvard University, receiving his A.B. degree, with honors, in 1948. He then entered and graduated from the University of Michigan Law School, passed his Michigan bar examination one day and the Kentucky bar examinations the next, set up his office in Ypsilanti and now has a thriving practice.

Shephard and his wife, Ruth, live in Ypsilanti. They have a daughter, 11, and three sons, ranging in age from seven years to eighteen.

Group To Regulate Child-Care Centers

Frankfort, June 24 (Sp.) — An advisory committee on the development of rules to administer the 1956 act providing for state regulation of preschool child-care centers, has been appointed by Dr. Robert R. Martin, superintendent of Public Instruction.

The law provides that any child-care center, private day nursery, nursery school, boarding school, or kindergarten that cares for not less than five children of ages 2 to 6, in return for tuition, must have a permit from the State Superintendent. The state has set up qualifications for the permits.

Named to the committee were C. D. Redding, superintendent of the Frankfort City schools; Marvin Dow, Harrison, Louisville; Vivian Burke, U. K. training school kindergarten teacher, Lexington; Mrs. F. W. Center, editor of the *Marshall Daily Independent*; and Mrs. Arlene Young, supervisor of elementary education, Covington.

ORDINANCE PROHIBITING NON-USE OF STANDARD MUFFLERS AND PROHIBITING EXCESSIVE ACCELERATION OF GASOLINE DRIVEN VEHICLES.

BE IT ORDAINED BY THE CITY COUNCIL OF PRESTONSBURG, KENTUCKY AS FOLLOWS:

1. All gasoline-driven vehicles in the City of Prestonsburg, Kentucky shall be equipped with standard mufflers on the exhaust. No vehicle shall have any kind of equipment whatsoever affixed thereto or used thereon which would cause an unnecessary noise in the operation of such vehicle.
2. No gasoline-driven vehicles in the City of Prestonsburg, Kentucky, shall be assembled in such a manner as to cause the wheels of such vehicle to spin, resulting in the screaming of the tires, which is commonly referred to as "scratching off."
3. Any violation of the provisions of this ordinance shall result in penalty of a fine of not less than \$100.00 nor more than \$200.00, for each offense.
4. All ordinances, or parts of ordinances in conflict herewith, are hereby expressly repealed.
5. This ordinance shall be in full force and effect from and after date of publication, according to law.

Passed and approved, this June 18, 1956.

FLOYD COUNTY GIRL SCOUTS TO ATTEND 12-DAY ROUNDUP

LOIS BRENDA ALLEN

KATHRYN E. ROBERTS

Four girls of the Sandy Valley Council have been named as representatives at the Senior Girl Scout Roundup to be held late this month and early in July in the Highland State Park area, near Pontiac, Michigan. They will join Girl Scouts from all the 48 states and from six foreign countries, with the huge assemblage of Girl Scouts being in a tent city for the 12 days of the Roundup.

Libby Ann Mays, of Wheelwright, has been named patrol leader of the Sandy Valley Council and McDowell county, W. Va. Girl Scout who will attend the Michigan meet. Her scouting career began in 1946 at the age of seven, and she now is a Carved Bar Scout with 23 Merit Badges, a Life-Saving Course and is a registered First-Aider. She will be presented from Troop 16 this month and will receive her 10-year pin at the Court of Awards. Yet she plans to continue with scouting. Even though she will be away from home, she will register with the Sandy Valley Council as an adult committee member. On her return from Roundup she will serve on the staff at Camp Chatternaia. She was graduated this year from Wheelwright high school where she was a member of the glee club and where she received one of the county's highest music awards for serving six years in the high school band.

Kathryn Elizabeth Roberts is a member of the First Methodist Church, Prestonsburg, a member of the church choir and is treasurer of her Methodist Youth Fellowship group. An honor student at Prestonsburg high school, she has been vice-president of the Y-Teen Club

1956 Strawberry Crop Called Extremely Good

Frankfort, June 24 (Sp.) — About 425,000 crates of strawberries were produced and marketed in Kentucky during the 1956 season, an official of the Department of Agriculture said.

This year's crop it was said, was 82.5 per cent U. S. No. 1 grade compared to 72.8 per cent in 1955. Production averaged 62 crates an acre this year and 37 crates last year, that said. The total production last year was 1,040,000 crates.

The price a crate averaged about 19 per cent below last year's. Top prices on the 1956 market have hit a price of about \$8 to \$9.50.

Baptist Girl Camps, Hold At Camp Cedarmore, Will Start Season July 2

The 1956 camping season for Baptist girls will begin at Camp Cedarmore, 20 miles northwest of Shelbyville, July 2 and continue until July 28. Attendance is expected to total 800.

One-week camps during the period will be sponsored by the Kentucky Baptist Woman's Missionary Union. Miss Mary Pat Keat, Louisville, youth secretary for the woman's organization, will be in charge.

Three Kentucky missionaries will be on the program. They are Miss Rose Marlowe, Louisville, former missionary to China and Japan, Miss Thelma Tang, Atlanta, missionary to Japan; and Miss Gladys Hopewell, Hopkins county missionary to Formosa.

If you find roads are not mending as fast as you'd like, there is something you can do about it: advertise smartly.

Brit Armstrong uses no crystal ball. But he sees 5, 10 years ahead. He sees thousands of telephones where today there are hundreds—or none. Brit is one of many Southern Bell engineers who forecast community growth and plan telephone service to meet it for you and your neighbors.

New phones don't just happen. The one you use today is the result of planning years ago. Millions of dollars' worth of equipment, buildings, lines and cables must be engineered and built, long before phones are installed, to fill the needs of a growing community.

Brit Armstrong and some 66,000 other Southern Bell folks have one aim: to bring you the kind of service you want and need, now and in the years to come.

LABOR-SAVING PLASTIC MULCH—Home gardeners who start out enthusiastically in the spring with their plantings, then let the gardens succumb to weeds, can take a tip from Kentucky Agricultural Experiment Station vegetable specialists and use plastic row mulch. Photo at left above shows corn rows where the black plastic was not used. Photo at right shows plot where mulch was put down—and corn plants are much higher. In this right hand photo, Dr. E. M. Emmer, specialist, is actually standing on the black plastic mulch; it is the shiny material visible between rows. The plastic keeps weeds from getting air, or light and thereby prevents their growth. Material is easy to apply and can be used again if care is taken. Other man in photo is Egan Harris, maintenance superintendent. (Kentucky Agric. Extn. Service Photos.)

Ky. Motorists Reminded Gasoline Prices Will Climb One Cent Sunday

Motorists of Kentucky were reminded this week that on Sunday the federal tax on gasoline will go up one cent a gallon, as part of the \$12 billion increase in federal automotive taxes enacted by Congress this year for financing the 13-year federal highway program.

Herbert L. Clay, executive secretary of the Kentucky Petroleum Industries Committee, noted that this increase, added to the present 2-cent federal tax and the 7-cent state tax, will bring total state and federal taxes on gasoline in Kentucky to 10-cents a gallon. This, he said, is equivalent to about a 50 percent sales tax on gasoline.

Commenting on the "amazing growth" in motor fuel taxation in this state through the years, Clay pointed out that the Kentucky gas tax first imposed at a one-cent rate in 1920, brought in only \$441,000 the first full year it was in effect.

The weather is still the best mystery of all time.

What's New in Getaway? Try a '56 Buick and See!

Buick Super 6 Passenger 4-Door Sedan.

You've probably heard us say a lot, recently, about the 1956 Buick's new Variable Pitch Dynaflow.

And maybe you've wondered just what that "new" means.

Well, it means a brand-new principle in transmission design. A new way to make whirling oil add to its own velocity and produce fast torque build-up at only part throttle.

What does it do for you?

It gives you a quick new getaway response right in the first inch of pedal travel—right where you do most of your normal driving—and right where you get better gas mileage every inch of the way.

It gives you more safety—surge breakdown when you floor the pedal and switch the pitch—more electrifying full-power acceleration to pull out of a tight spot.

And it gives you all this with absolute smoothness—because no gears ever shift in Dynaflow.

But if you think this great new getaway is

the only reason for Buick's strong position in the Top 3 of America's best sellers—listen:

In every 1956 Buick there's newness from end to end.

New 322-cubic-inch V8 engines. New brakes, new frame, new rear end. A new deep-oil cushioned ride. New handling ease, new quiet, new comfort. New interlocking safety door latches. New Safety-Arm headlamps. New styling and beauty inside and out.

What it all adds up to is the Best Buick Yet, by far. And you'll find all these new thrills packaged in a price that makes any '56 Buick you choose your smartest buy yet. Can you come in this week?

*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick built today. It's standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

The Drift Woman's Club received the second place award in the statewide Community Betterment Contest, sponsored by the Sears, Roebuck Foundation. This award was a \$100 check. The first place award went to the Midway Woman's Club, third to Harlan and fourth to the Lexington club. Drift's vital project was the establishing of a Youth Center.

Chairman of the Drift committee in charge of the contest was Mrs. B. F. Reed, whose work in assembling the facts for the contest made the prize possible. The club gave two \$50 U. S. Savings Bonds in a contest staged to raise money for the renovation of the youth center. The bonds were won by Johnny Cahill, Drift, and Ray Ward, McDowell.

POST HASTE

A professor at an Eastern university driving to the West Coast, had been invited to stop enroute at the homes of several of his former students. A methodical gentleman who prided himself on efficiency, he wrote all his thank-you notes beforehand. He sealed, addressed and stamped the letters, bundled them up with a rubber band and put them in his bag.
 His first stop was in Buffalo. The glowing night, unpacking in a hotel room about 300 miles farther west, he discovered the thank-you notes were missing. Telephoning his Buffalo host, he asked with studied casualness, "Did you by any chance find a bundle of letters in the guest room?"
 "Why, yes," said his friend, "I mailed them for you this morning."
 The word "meander," meaning "follow a winding course," comes from the name of the Meander River in Turkey.

MAYTOWN

The Maytown Women's Club held its regular meeting Thursday evening at the home of Mrs. Ed Stewart. Mrs. R. H. Messer, of Garrett, was guest speaker, giving different flower arrangements from Florida. Following the program, the business meeting was conducted by the president, Mrs. Theodore Gibson. Plans were discussed to have Mrs. Messer teach a class in flower arrangement some time in August. The club voted to donate \$25 to the Boy Scouts when needed. It was also voted for each member to bring one dollar to the next meeting for the church painting fund, which will be donated as a Club donation. The next meeting will be held at the home of Mrs. Frank Stewart. Refreshments were served to members Mesdames James Allen, Jones Talient, David Reed, Theodore Gibson, John Isom, Charles Patton, George Patton, Paul Berdets and guest, Mrs. R. H. Messer.
 Mrs. Mary Ratliff is visiting her sons, Bill and Wayne and their families in Allen.
 Mrs. C. L. Allen, Teddy and Elizabeth are spending two weeks with relatives in Virginia.
 Mesdames Ed Stewart, Jones Talient and James Allen attended the flower show and tea given at Garrett, Saturday afternoon.
 Mr. and Mrs. Wm. P. Slone and children were called to Ypsilanti, Mich., where Mr. Slone's father underwent a major operation.
 J. T. Parsons, Mrs. Ed Ambrose and John Ambrose, of Vera Beach, Florida, have been visiting Mr. and Mrs. Henry L. May. Mrs. May accompanied them to Ashland for a few days' visit, and her father, Mr. Parsons, returned home with her.
 Miss Paula May, daughter of Mrs. Mac May, of Ashland, is visiting Mrs. Townsend Combs and family.
 Mrs. Savage Cooley is vacationing in Dunell, Florida.
 Mrs. Ann Dixon and daughter, Susan, and Alberta Walker, of Miami, Fla., are visiting Mrs. Dixon's mother, Mrs. Viola Stewart, for several weeks.
 Mrs. Claudia Judd is visiting her daughter in Louisiana.

MEMORY REFRESHED

Togged out in gay gypsy rags, I was the fortune teller at our church bazaar. Business was brisk as people I knew came in to hear the outlandish things I predicted for them. My last customer, a man, was a stranger to me. Trying to sound particularly mysterious and convincing, I intoned in a deep voice, "I see a buried treasure."
 "Oh, I know all about that," the man interrupted testily. "My wife's first husband."

FLOUR DATA

Graham flour will not keep as long as white flour, because graham flour is whole wheat flour and contains fat, and fat will become rancid in time.
 It is surprising how few people get in trouble while attending church services.

Park Accommodations Limited But Available

Prestonsburg, June 24 (Sp.)—Although Kentucky State Parks are having one of their busiest seasons here are still some available accommodations. Today's camps and picnic grounds about kitchens are available in Cave City and Laurel as well as in the State Park near Clinton. Pine Mountain State Park, Pineville, has some cabins as does Carter Cave State Park near Olive Hill. Natural Bridge State Park at Glades has both lodge rooms and some cabin facilities available for the summer. Kentucky State Park, Thompson Springs, and General Butler State Park, Carleton, have cabins available during most of the summer.

Kentucky Dam Village and Kentucky Lake will have a waiting list for all cabins from now through August. Dining rooms are operated in all these parks, also swimming, fishing, and other recreational facilities are offered.

The cool, mountain area of Pine Mountain, Natural Bridge and Cumberland Falls is especially inviting to guests who want a comfortable, quiet place to vacation and sleep. Almost every night is a "sold-out" night at these parks. After September, plenty of reservations will be available. Cumberland Falls, Kentucky Lake and Kentucky Dam are three state parks which remain open all year.

GI Home Loan Lenders Asked to Report Sales; Illegals Are Feared

GI home loan lenders in Kentucky are being requested by the Veterans Administration Regional Office in Louisville to report any loan sales. To their attention in which the property is transferred within 90 days from the loan closing date. May R. Adams, manager of the office, announced this week.

The VA is taking this step to check the illegal practice of veterans acquiring properties with GI loans for resale to non-veterans, Adams said.

From time to time VA has uncovered cases in which home loans were guaranteed on behalf of veterans who had no intention of occupying the properties as their homes.

VA said that generally the veterans who were parties to these illegal transactions were induced to obtain GI loans by persons who were fully aware of the seriousness of the offense and of the consequences which might result.

VA urges all lenders and other persons participating in the GI loan program to assist in every way to avoid such cases.

All property sales occurring within 90 days of closing reported by lenders will be investigated by VA to determine whether sales of entitlement were involved or whether there were valid reasons which prompted the sale of the properties.

Under the law, veterans must have the intention of occupying the properties at the time of closing as well as at the time of loan application. This has been misunderstood by some, VA said.

If circumstances occur after a loan application has been submitted to a lender which would make it impossible for the veterans to occupy the property, the loan would be ineligible and should not be closed, VA emphasized.

VA said lenders should make sure at the time of closing that a veteran does in fact still intend to occupy the property as his home.

50 Years of Progress in Electric Power...

He listens in on seven states to save you money

It's cloudy in Michigan, but down in Kentucky the sun is shining. A major manufacturer in Tennessee has shut down for annual vacation, but production is round-the-clock in a big West Virginia Chemical plant. And in Indiana, a big generating unit in a power plant is out of service for maintenance. Reports like these come in 24 hours a day to this man in the Columbus, Ohio, head and generation coordinating center of the six-company American Gas and Electric System of which we are a part.

It's his job to determine, and quickly, how much electricity each AGE System power plant should generate for every condition of demand and then route this power the most economical way over the seven-state network of high-voltage transmission lines that link these plants with each other and the communities they serve. This integrated system, can thus deliver an uninterrupted flow of electricity to almost 5,000,000 people at the lowest possible cost.

Fifty years ago, when the American Gas and Electric Company was founded, there were no integrated power systems. Towns that had electricity got it from their own small, inefficient plants. Break-downs, which were frequent, meant no electric service until repairs could be made. Yet, this unreliable service cost 4 times more than today's dependable service.

The integrated system is just one of the many technological advances that have resulted from a continuing research and development program. Our "50 Years of Progress in Electric Power" has enabled us to give you better service at lower rates.
