# WESTERN KENTUCKY GETS FLOOD FUNDS

Lexington, Ky., Oct. 18 — Fifteen Western Kentucky counties will share in emergency federal appropriations to restore flood-damaged farm land and drainage systems.

Officials of the State Agricultural Stabilization and Conservation Committee said Friday \$100,000 had been allocated for the area, bringing the state total to \$185,000.

In Western Kentucky, \$60,000 has been earmarked for cost-sharing rehabilitation projects. The remainder will put in reserve to be distributed after a more intensive survey is completed.

Previously \$85,000 was set aside for 16 counties in Eastern Kentucky hit by floods last January. An A.S.C. spokesman said restoration practices are well under way in Eastern Kentucky.

The programs are administered by local A.S.C. committees which handle conservation programs. Allotments so far in Western Kentucky include Ballard County \$45,640; Caldwell, \$2,860; Caloway, \$4,640; Callis, \$6,890;

Crittenden, \$2,080; Daviess, \$8,540; Fulton, \$6,000; Graves, \$1,320; Henderson, \$6,880; Hickman, \$1,760; Livingston, \$5,120; McCracken, \$6,800; Marshall, \$4,190; Ohio, \$3,250; and Webster, \$2,500.

Funds previously approved in Eastern Kentucky included Bell County, \$3,700; Breathitt, \$5,700; Clay, \$4,700; Floyd, \$6,800; Harlan, \$2,000; Johnson, \$6,000; Knott, \$1,400; Knox, \$1,700; Lee, \$4,200; Leslie, \$5,500; Letcher, \$3,200; McCreary, \$7,500; Magoffin, 7,700; Perry, \$12,000; Pike \$3,500; and Whitley, \$7,200.

A new tomato powder for use in sauces, soups, juice and dry mixes will be available commercially in the near future. The powder mixes with water, and can be stored in plastic form indefinitely without refrigeration.

Coal tows on inland U. S. waters frequently exceed for as much as 1,70 feet, a length greater than that of the ocean liner Queen Elizabeth, which is 1,031 feet long.

The Tennessee Valley Authority has reported that its coal stockpile at the end of the fiscal year, June 30, 1956, was 3.1 million tons, or sufficient coal to operate for 82 days.

American Waterways Operators, Inc., reports that 71,461,178 tons of cargo, of which more than half, or 35,000,000 tons, was coal and lignite, moved on the Ohio River in 1956.

Of the 18 new deep coal mines opened or placed in development in 1956 by coal miners in West Virginia, the nation's leading producer of bituminous coal.

The 1957 crop of timothy seed is expected to be about 33-13 million pounds, 29 per cent above the 1956 figure.

About 15 cents of the family food dollar goes for beverages, a USDA survey shows. About two-thirds of this percentage is for fresh fluid milk. A quarter for coffee, a tenth for bottled and canned soft drinks and about four percent for tea.

## Soil Conservation Essays Are Sponsored in Schools

The State Department of Education and the Kentucky Association of Soil Conservation Districts are helping sponsor an essay contest for grade and high school students on "conserving our soil and water resources."

The Courier-Journal, the Times WHAS and WHAS-TV, all of Louisville, are offering \$3,250 in savings bonds as prizes in the contest.

By writing an essay of 1,000 words or less, students are encouraged to appreciate the importance of natural resources. Benefits of the small watershed program are emphasized in a teaching unit suggested for use in classrooms.

Essays must be sent to school superintendents by Dec. 7 and district judging must be completed by Dec. 31.

The education department has stated that it considers the soil conservation essay contest a very important program and urges wide participation in it.

Mining coal by auger, a development perfected since World War II now accounts for more than six million tons a year. In auger mining what appears to be gigantic corkerew drills into the coal seam and pulls out the coal. This method first was used in 1947 in West Virginia.

## Organize Booster Club For McDowell Band

A meeting was held Oct. 21 in the band room of McDowell high school. Out of this meeting a new organization was born, to be known as the McDowell Band Boosters Club. The purpose of this club is primarily to raise money for uniforms for the school band and to support it. Membership is open to anyone who is interested.

Several projects were discussed and for the first project the club will sponsor a "Rock and Roll" dance at the McDowell high school auditorium Saturday, November 2, from 7 till 11.

Officers were elected as follows: Geraldine Ward, president; Viola Turner, vice-president; Marie Frazier, secretary; Marie Frazier Jones, treasurer; Marie Jones, clerk; Chick Hill, publicity; Joy Jones, public relations chairman.

Members present were Louise Cole, Viola Frazier, Viola Turner, Ted Parsons, Margie Parsons, Thelma Patton, Anna Hoffman, Deen Moore, Thelma Frazier, Chick Hill, Mickey Jones, Irene Newsome, Irene Turner, Leviathan Jones, Marie Frazier, Joy Jones, Marie Jones, Elsie Sanders, Olive T. # A STATEMENT FROM THE ECONOMY TICKET

I, and the members of the Economy Ticket, are small property owners here in Prestonsburg and we do not want to lose this property through higher and higher taxes. Recently a bond issue was passed that raised the taxes here in town and now the present city administration with the exception of Watt Hale is asking for another bond issue for a swimming pool adjacent to Dewey Lake. They have the nerve to ask for these luxury "big deals" when the sewers are about to stink the people out of town.

There is only one issue and that is if the average taxpayer is going to be able to continue to live in this town and pay taxes or will he have to move out. (And you car owners, have you noticed the raises in your taxes lately?)

If the people do not hand together in this town for their own protection and put up a fight there is a good chance of their property or car being put on the auction block. You people can help by voting for the Economy Ticket and thereby help yourself and your town.

### PLATFORM:

#### WE ARE AGAINST:

1. We go on record as being opposed, wholeheartedly, to the waste of thousands of dollars on the new water works, which has us in debt very near the limit.
2. We are against waste of our city funds.
3. We are opposed to progress when the cost is being paid by the "little man."

#### WE ARE FOR:

1. Good law enforcement.
2. Good sewers and streets of city government.

# W. A. Smiley and Family Deserve Your Support

## TO THE VOTERS OF FLOYD COUNTY:

We, the members of the Committee that has recently been formed for the purpose of promoting the election of V. A. "Varney" Smiley for Jailer of this County, take this means of telling the people know who he is, how he stands as to Honesty, Sobriety, Morality, and all the assets required of a good citizen in the community in which he lives.

The best way to find out about any man is from his neighbors and the people who know him best, and that is what we want you to do in this case. We feel that it is the duty of every citizen to make a diligent inquiry about any candidate before casting their vote and in this case we have no doubt but that you will gladly vote for Varney Smiley. We have known Mr. Smiley and his wonderful family for a number of years and know of no one who NEEDS and DESERVES the office more than he. Many of you people do not know Varney personally for the reason that you do not have the opportunity to see him often, because you will either find him at home with his family or at his work, for he has no time to loaf.

We doubt if there has ever been many men in this county who have asked the people to vote for them for office that have borne the hardships and obstacles that he has encountered. He has never been a strong man physically, has had several major operations, but some way or other he has managed to rear and educate this family of sixteen children. Varney has always conducted himself in such a way that whenever he needed help he had no trouble getting it. It is the intention of this committee to do our best to acquaint the people with the facts in this case and that is what we intend to do between now and the election. We do not think that politics has any bearing whatever in this case, for we know when the good people of this county make up their minds to do a thing, they always do it and LET'S NOT FAIL THIS GOOD MAN.

It would be fine if you all could visit his home and see how mannerly and neat all the children are and the cleanliness of the house, and have the pleasure of meeting and talking to his good wife. We know that you wonder how they have managed to get along, but his wife will be able to enlighten you on this. We have noticed that the boys will be selling papers, shining shoes or doing any kind of work that is honorable as soon as they are large enough to do so in order to help the rest of the family. But bear in mind that this is done before and after school hours. They have never neglected their education. They have all made top grades from kindergarten through college. This family is loved and respected by all who know them.

Varney was born and reared in the Prater Creek section of the county, is the son of the late A. L. Smiley, and his mother was an Akers. He is related to most all of the families in the Mud Creek and eastern part of the county and many of his relatives are scattered to all parts of the county. His wife is the daughter of Sherrod and Cordelia Stewart Spradlin who both reside in Prestonsburg. Her grandfather was the late Henry Stewart, her grandmother was a Martin and her great-grandmother was a Turner from Left Beaver Creek. You can see that the relationship of this fine couple numbers in the thousands and live in all parts of the county. But we do not ask you to vote for this good man because of this fine relationship. We ask you to vote for him for what he is, what he has meant to this community and county and for the fine example that he and his family have set for the future of your boys and girls.

We beg you to make a thorough investigation of this matter before casting your vote, and go to the polls and cast a vote that you will always be proud of, knowing that you have done something to make things just a bit easier for this good man and his family. DO NOT FAIL AT THIS OPPORTUNE TIME.

### Names Two Coal Group As Officers

Hazard, Ky., Oct. 18 — Two new officers of the Kentucky Coal Association were elected by the group's executive committee at a meeting held in Hazard Thursday.

Fred B. Bullard, Hazard, was named executive secretary, and C. D. McDowell, Harlan, was elected treasurer. Bullard is also executive secretary of the Hazard Coal Operators Association, and McDowell holds the same position with the Harlan District Coal Operators Association.

The two men were selected to fill a vacancy created by the death of George S. Ward, Harlan, on September 21.

Ward was one of the organizers of the Kentucky Mine Owners Association, which was reorganized in 1948 as the Kentucky Coal Association. Ward served as secretary-treasurer of the organization until his death.

The executive committee unanimously adopted a resolution expressing appreciation and gratitude for the many years of service that Ward rendered the coal industry in Kentucky.

The Kentucky Coal Association serves the coal industry in public relations and governmental affairs on a State level. E. F. Reed of Duff is president of the organization.

Forks of the Elkhorn is a village at the forks of Elkhorn Creek, a small river draining the central axis of the Blue Grass. This river was named because its two forks resemble the branching horns of an elk.

Production of bituminous coal for their own use by the four leading steel companies in 1956 was nearly 42.5 million tons, or almost nine per cent of the year's total output of 500 million tons by all producers.

A new plant of the Ohio Power Company uses only 0.65 pounds of coal to generate one kilowatt-hour of electricity, a far cry from Thomas Edison's first plant, which used 10 pounds of coal to the same job.

Mrs. Gavin will receive \$300 a month, the maximum social security benefit, for herself and her family, based on the wage records of her deceased husband, Joseph Gavin. The first checks were presented to her by Marion B. Folsom, Secretary of Health, Education, and Welfare, at a special ceremony in New York City early in June.

### TIDBITS OF KENTUCKY FOLKLORE

By GORDON WILSON, Ph.D.  
Western Kentucky Teachers' College Bowling Green, Ky.

#### 'THE LADY WITH THE RAKE'

One of my former teachers used to tell an excellent story about a wealthy old lady at Mobile who dared public opinion in very stiff times by taking a long-handled rake to her home on the street. My future teacher, then a very proper teenager asked her, "Would not the store send the rake up?" "I don't ask," curtly replied the old lady. "Aren't you afraid of what people will think of you?" "I know who I am," replied the old lady in closing the conversation. Evidently this brave old soul did not care to become quite the thing before it was one's own purchase, she should have lived to see the democracy of the supermarket of today.

It is easy for me to understand the scruples of the proper young boy, for I am not too many years younger than he and can remember when it was almost disgraceful to be caught with any sort of bag or box in one's arms. Such a thing would have branded you as being poor or foolish or cheap. Objects however small, were delivered to everybody who was anybody about thirty-five years ago. I helped for a few days of my vacation in a book store that was ransacked with schoolbook buying. This store had no delivery service. A boy of a third-rate family came in to buy a small lot of penmanship paper and refused to accept the purchase after I had put it into an envelope because he did not want to be caught carrying a bag like a servant or a hired person. I was sorry to have made his life miserable, even for a minute. Along about that same time I bought a two cent scuttles; the store offered to send them by their next delivery on my street. Wanting to be brave and slightly contrary, I said that I would just carry the scuttles myself. You should have seen the looks when me as I slung these buckets alone! You would have thought I was an escapee of some sort. You see, my back like yours, was a very proper place in the late teens of this century. And folks that were just did me a very bright, shiny coal scuttles along the street. Since I had nothing to lose, it made no difference.

In our part of the world this some heavy attitude prevailed, somewhat weakened at our cars came in, until chain stores appeared. And then as I fry some sort of magic, the whole structure broke down. Imagine a lady or a gentleman now who would be ashamed of being seen with an arm full of bundles. When the first chain store opened in my town, I was away in graduate work. When I got back at the end of the summer, I imagine no surprise, several people who had bank accounts carrying bags of groceries. I suppose that we could ascribe to the automobile many of our leveling tendencies now. Imagine a horse-drawn vehicle, no matter how elegant, trying to compete with cars on the roads. Imagine hearing someone brag about having the finest horse-drawn vehicle in town. And imagine such a vehicle with a liveried driver trying to escape certain wreck from scared though aristocratic horses when the very first Tin Lizzie thundered by!

When I was teaching my second

school, I was invited out to dinner at the home of one of my pupils. It was an elegant home, with just about every modern convenience; the dinner was top, too. But my hostess spoiled it all by apologizing a dozen times or so because she had to serve me food that she had cooked when preparing food for her stiff young school teacher. Or, at least, that was supposed to be the rick, often violated. I had grown up in the kitchen, where I had helped Mother since I was big enough to put stove wood into the stove or fry bacon. Somehow the lady's protestation failed to impress me very much, even though I can still remember it for its value as a passing incident.

public gatherings; or that I was set against exposing anybody else to all these germs I knew I was carrying around, and on and on. This is not written to suggest excuses to folks. Rather, it's to head them off. I am reminded that some college students already have suffered three attacks of flu this semester. These attacks coincide with those occasions when classes are cut.

After writing this, I wonder who will believe me when and if I do get thrown for a loss by this unwelcome visitor in these parts.

One fellow claimed it was so dry this summer in his neighborhood that every time he watered his lawn a big bass came up from the creek to be hoed down.

### CASE OF ABSENT-MINDED BASS

There is the story of the bass that learned to breathe with his mouth open, esewing the time-honored gill-breathing of the genus pisces. This fish was a seven-day wonder at the bass school and he would pop to the surface, gulp himself in a great mouthful of air, return below and covert around till time to go aloft again. They were thinking of running him for headmaster or something, he was so popular, but one night he forgot to crawl out in shallow water and lie on his back to sleep. He went to bed with the other fish, started snoring away and drowned.

### THANK!

We are so helpfully remembered sometimes by friends in distant places. Not long ago it was Henry McCowan, formerly of Prestonsburg, who sent us from Michigan clippings of a newspaper telling of the deaths of two former Floyd cousins. This week it was Marvin Music, of Prestonsburg, who remembered us with an item from Lexington. They do not know how much telephoning they saved us. We appreciate such thoughtfulness.

### REMEMBERED AGAIN

Then there was R. L. Stone, formerly of Deck, now of Mathawaka, Ind., who was in Chicago recently and remembered us with the "Angler's Writ of Absolution," complete with seal, and conferring on me the honor of membership in the Honorable Order of Expectant Bass dunkers.

### THEY LIKE IKE

Speaking of fishing, the bass began striking over the week-end at Dewey Lake. Dave Marrs, of Martin, brought in three Sunday — one a four-pounder — and Monday R. E. Mann, of Prestonsburg, showed up with two — one of three pounds, 12 ounces, the other weighing half a pound less.

A black-and-white Lazy Ike was credited with at least a part of these fish.

The river continues to yield good catches — scrappy small-mouth that also like Ike.

Scientists discovered that the Navy-built base in Marie Byrd Land, Antarctica, sits on ice 7,800 to 9,750 feet thick.

It was explained, of monolithic concrete with nine inch structural wall and an additional interior coat of silicate or marbleite finish plaster, the monolithic pour to be specified and provided to eliminate any possibility of leakage, either present or future, and also to eliminate maintenance expense of the common expansion joint. Sufficient glazed tile trim at the waterline would be used to remove the necessity of "bathtub ring" maintenance in the future.

The Oklahoma firm's prospectus also includes complete sub-grade drainage, permitting the pool to be left empty or full in winter; continuous semi-recessed slum gutter or overflow trough, and ample walks around the pool for access to it by bathers or sunbathers. Other features would include filtration and purification equipment, a pump, and a diving, a chain-link fence around the entire area, both overhead and under lighting, and a diving and lifesaving equipment.

The Prestonsburg Junior Chamber of Commerce this week spearheaded the drive for the swimming pool bond issue. It argued that the railroad, power company, telephone company, other corporations and large businesses will pay an estimated 60 per cent of the total cost of the project and that the remaining \$36,000 would be paid over a period of 25 years.

who were not attending school for no valid reasons. Stumbo's notice, among other things, said: "Under the Minimum Foundation Program for Education of the county school system loses \$10 every day a child is absent. This loss is a heavy burden to our schools and of course the pupil is losing an opportunity to receive an education."

Six notices have been sent out and one parent, John Crace, of Water Gap, had a warrant issued for him by Stumbo. Crace was not yet arrested, the attendance officers say.

Crace was exhibiting one response to his clothing appeal that is typical of many letters he is getting since the plight of indigent children was revealed in The Times three weeks ago. It was from a woman in Springfield, Mich., and said:

"I have a few pairs of shoes and some clothing that my children have out-grown," the Michigan resident wrote. "If they will help some little girl or boy to go to school I would like to send them to you. . . I would be very happy to help some little kid to go to school."

### DO MORAL QUALIFICATIONS COUNT?

You, the voters of Floyd county, will be deciding in the very near future who will be serving as your Sheriff for the next four years. We who have known HERSHELL WARRENS throughout his life feel that we should submit a few points for your consideration.

HERSHELL was brought up in a Christian home, the son of God fearing parents. He was taught from early age that honesty and consideration for his fellow man are the most important virtues a man can possess. His daily living testifies to his belief and adherence to these principles. We think the best recommendations that could be given him are the votes of people in communities where he has lived and worked. You may remember the votes he received in these communities when he was little known in other parts of our County.

There have been some so-called issues brought up which were intended to create doubt in your minds. It is our opinion that these were created and circulated by chronic lawless elements interested only in personal gain through the diversion of justice.

We feel that a man of honest guiding principles can do much for the good of Floyd County and our law abiding citizens. It is with humble belief in these principles that we ask your favorable consideration of HERSHELL WARRENS in this race.

Sincerely,  
FRIENDS OF HERSHELL WARRENS

## GOOD SEASON

The Black Cat surprising 18-7 victory over Betty last Friday assured Prestonsburg of its best grid season in the past three years in winning six games. In his first full season at the Black Cat helm Coach John Griggs has done a highly commendable job with a limited number of athletes.

With Whitesburg and Paintsville yet to be met, possible victories would return Prestonsburg to a high level on the state grid scene, which it held for a number of years under the tutelage of Doc Ferrell.

Prestonsburg, now 3-2 in the E. K. M. C. and 0-2 overall, looked most impressive in playing Betty's six game winning streak. Defensively, center Wayne Dixon, Curtis Holbrook and Bobby Howell were outstanding while in the offensive play the entire backfield of Quarterback Paul Hughes, Halfbacks Tom Harmon and Joe Harris and Sophomore Fullback James Allen looked as polished as the vicious quartet of Black Cat backs. Allen, who appears to have one of the brightest futures of any player, came through with the necessary yardage at crucial points in the game.

## PLAYER OF THE WEEK

The Black Cat Player-of-the-Week award for the Betty game went to center Wayne Dixon, who has twice won the award. His play merited all-state consideration as he continually tossed the heavier Pirate backs for losses, recovered two fumbles and was a demon on downfield. Dixon's 220-pound four-year senior letter-winner should have several college scholarships offers awaiting him upon graduation.

## COLEMAN IN NEWS AGAIN

West Virginia's suspension for one year by the N.C.A.A. came as little surprise to many high school fans who know Coleman's activities involving Wayland's Kelly Coleman.

Last summer, a N.C.A.A. representative spent considerable time in Floyd county and Charleston, W. Va., checking and securing information on Coleman's relations with the West Virginia school.

But the turning point came in September, when West Virginia denied Coleman entrance to the Morgantown school. Their chief reason was that he did not have the proper scholastic standing, although the previous summer he had been provided a job, etc., and had his tuition paid to attend Greenbrier Military School.

No doubt, West Virginia knew that the N.C.A.A. was investigating its status in the matter and was leary of forthcoming action by the N.C.A.A., and tried to salvage its standing by refusing him entrance.

The big question involving West Virginia now is who reported them to the N.C.A.A.? We have a good idea, and it was not the University of Kentucky.

## New Battery Fluid Put End to Winter Starting Problems

MIAMI—Every motorist at one time or another has been plagued by "battery troubles."

Nothing is more annoying or frustrating than to climb into your car, turn the key, only to have a slight burring and then—nothing. It's exasperating. And especially if you are heading for work or on your way to an important appointment.

Such annoyances may be a thing of the past, thanks to a new miracle chemical called VITALYTE.

This newly-developed, non-acid liquid electrolyte is expected to have a far-reaching effect upon the entire transportation industry.

Vitalyte, which replaces the harmful and dangerous sulphuric acid in wet-cell storage batteries, will extend the life of such batteries from four to ten years.

For the uninitiated, wet-cell storage batteries are those used in cars, boats and planes in addition to many other types of machine equipment.

According to Vitalyte inventors—Gus DeMalo and George Peteler, both of Miami—an ordinary battery with a 12-month guarantee will not last five years. A battery with an 18-month guarantee can last up to 18 years.

One of the most remarkable features of the new chemical is its dependability and amazing recuperative qualities.

For instance, if a driver in attempting to start his car on a cold, wet morning, finds his battery "run down" without enough "juice" to turn the engine, all he has to do is wait five minutes and the Vitalyte-filled battery re-charges itself sufficiently to start the car.

Tests also show that this liquid revitalizer will eliminate the need for longer spark plug life and will dissolve and suspend sulphuric acid, the major cause of all battery failures.

Such claims for the new product may sound like an advertisement, but more than two years of testing Vitalyte in cars, planes, and boats under all types of weather conditions, firmly testify to the success of these claims.

## MASTER COMMISSIONER'S SALE FLOYD CIRCUIT COURT

Bank Josephine . . . . . Plaintiff,  
Vs. NOTICE OF SALE  
Perry Martin and

Geneva Martin . . . . . Defendant  
By virtue of a judgment and order of sale of the Floyd Circuit Court rendered and entered at the October term, 1957, in the above styled cause I shall proceed to offer for sale at the Courthouse door in Prestonsburg, Kentucky, same being the first day of the regular term of the Floyd County Court, upon a credit of six months, the following described property, to-wit:

Lying and being on Right Beaver Creek in Floyd county, Kentucky, beginning at an elm tree running straight up the hill to a fence and with said fence to Cross Martin's line; thence with said fence around the hill to a cross fence down the hill to a marked rock near Robert Martin's house; thence down the branch to the beginning.

Said property will be sold to satisfy a judgment against defendants in favor of plaintiff for the sum of \$105.00 with interest thereon from Oct. 2, 1955, until paid, and the cost of this action.

For the purchase price the purchaser must execute bond with approved surety or sureties, bearing legal interest from the day of sale until paid and having the force and effect of a judgment with a lien retained upon said property as a further security. Bidders will be prepared to comply promptly with these terms. Given under my hand, this 21st day of October, 1957.

## Social Security Benefits Passed up by Kentuckians, Says Extension Service

Eligible farmers in Kentucky are passing up a good thing in the U. S. Social Security system by not checking into benefits of the program, says the Kentucky Agricultural Extension Service.

For instance, an eligible farmer or participating farm landlord who does not make Social Security tax returns is failing to provide payments of up to \$200 a month for his family in case of his death at any age; not guaranteeing for himself payments of up to \$185.50 per month in event of his total disability between 50 and 65 years of age; and payments of up to \$182.80 a month for worker and wife in case of retirement or old age; and not guaranteeing payments of up to \$200 a month for himself and dependents upon reaching his retirement age.

This lack of understanding, say Extension specialists, applies to about 44 percent of the farmers in Kentucky of retirement age. Participation by all eligible farmers in the state would bring in about 29 million dollars annually here.

Under the Social Security law, 100 farmers who earn \$400 or more per year are required by law to make Social Security tax payments that provide them the benefits of social security.

Dry, canned or frozen peas will be in generous supply on the October market, says the USDA.

Look of the future on new highway calls for concrete.  
The highway ride of 1975 is here!  
New-type, sound-conditioned concrete for your new Interstate System of super-roads

There's not a "thump" to be heard when you drive this concrete-laid concrete. Almost like riding above the pavement, instead of on it. You'll say this new-type concrete gives you the smoothest, most quiet ride ever. It's laid without interrupting joints. Then only the tiniest cushion spaces are sawed into the surface. You never feel or hear them. Freezing, thawing and de-icing can't hurt new-type concrete. What's more, it's laid flat . . . stays flat . . . serves 50 years and more. Sound finishes why new-type concrete is the preferred pavement for the new Interstate System.

To The People  
Of Floyd County

I promised you before the Primary that if you would elect me your Tax Commissioner I would:

1. Keep the Tax Commissioner's office open for your convenience and stay in the office myself as much as reasonably possible;
  2. Give individual attention to the assessment of every tax payer;
  3. Come and look at your property myself when requested to do so;
  4. Assess all property on an equal basis and play no favorites;
  5. Devote all my time to the job and do my level best to make you a good Tax Commissioner.
- You were good enough to vote for me in the Primary and for your kindness, I will always be grateful. Now, before the November election I want to renew the pledges I made to you before the Primary and to humbly ask for your support on November 5. Again I promise that I will do my very best to make you a good Tax Commissioner and I will always be grateful for your confidence in me and for your friendship.

Sincerely,  
MANIS CONLEY

**MRS. MOORE MAKES STATEMENT**

DuRan Moore is my husband, we have two small children, I am a member of the Baptist Church, and October 2, we were married 13 years.

After DuRan came home from overseas he borrowed the money and built us a home which is being carrying a G. I. Mortgage. Together we have worked and planned for the things that everyday life requires for a home and the rearing of children.

Our greatest desire as a mother and father is that we may be able to educate and guide our children in a manner that would be pleasing to God. Our greatest desire as custodian of your County Clerk's office is that we may ever be kind and courteous to you. We know your records are in our trust and that trust we have safeguarded even through flood and unjust attacks by those who would seek to injure our hearts and character for their own political gains.

Because you have given DuRan your vote showing your confidence in his ability, I have had the privilege of helping to serve you as a Deputy Clerk.

DuRan and I have tried very hard to run your Clerk's office so as to give efficient and courteous service, and to make you feel welcome in the Clerk's office. I think everyone will agree that we have worked hard and that the office is capably and efficiently run.

DuRan has never campaigned on a low mud-slinging level. He does not believe this is the way to build a better community in which to rear your children and ours, a community in which we can fellowship with our fellowmen before, during, and after election. It is my firm belief that a candidate who campaigns or allows anyone to campaign in their behalf on a low level, injuring the feelings of their opponents and spreading false and malicious untruths, is committing a sin against God, is demoralizing our Christian Nation and is not worthy to be trusted with the important deeds and records of your County Court Clerk's office.

I have never publicly made a statement in the paper, but the article in last week's Times about the absentee ballots was false and the excerpts were taken from a case in Monroe County and were intentionally misleading and slanderous; therefore in justice to myself and my family I feel compelled to make this statement.

I PERSONALLY issued upon the sworn affidavit of the absentee voter his ballot for the recent primary. DuRan was busy campaigning and naturally could not be in the office. Because I was familiar with the absentee voting law, it was my DUTY to issue these ballots. The law is complicated and hard to administer, but I did my best to follow the law and I was kind and considerate of every voter.

After the Primary the false rumors were spread. I will always be thankful that neither the Two Special Judges, nor the Court of Appeals, nor the Grand Jury here in Floyd County found any fault with the handling of the absentee ballots by the Clerk's office. I would also like to point out that DuRan did not receive any big majority of the absentee voters. Several other candidates received about the same number as did DuRan, namely: Judge Hill, Hollie Conley, and James Carter.

I would like for DuRan's opponent to give you voters some reason for you to vote for her and to show her qualifications, because I do not feel that because she is a woman entitles her to your vote.

DuRAN not only has proven to you his qualifications for your clerk, but he also has a WOMAN and two small CHILDREN needing your help.

DuRan and I both came from large families. We both know the meaning of hard work. Along with many of you, we suffered financial loss during the recent flood and owe obligations which make it necessary for us both to work. Because of this DuRan needs your vote.

PLEASE GO TO THE POLLS ON NOVEMBER 5, and vote for DURAN, he needs your help and has proven that he is qualified to serve you.

Your friend,  
Kathleen Moore.

**Garrard Relics  
Are On Display**

By Charles F. Hinds  
Secretary-Treasurer, Kentucky  
Historical Society

James Garrard—soldier, farmer, Baptist preacher, politician—was the only governor of Kentucky to be selected for two consecutive terms, 1796-1800 and 1800-1804. Only three other governors have been popular enough to be elected for two terms: Isaac Shelby, 1792-96 and 1812-16; James B. McCreary, 1876-79 and 1911-15; and Albert B. "Happy" Chambers, 1935-39 and 1955-59.

Garrard's old home place, "Mt. Lebanon," built in 1785 or 1786 located two miles from Paris on Stoner Creek, is still in the family. They have carefully husbanded the Garrard relics and papers. It is not surprising, then, to find few museum and archival items in public repositories in the State.

The Kentucky Historical Society does have some important Garrard public papers and portraits including executive orders and journals. One of the portraits, by Harold Collins of Frankfort, is in the governor's gallery in the Senate of the Old State House. The other, by Will T. Hundleigh of Woodford county, is on loan to the Old Governor's Mansion, present home of the lieutenant governors of Kentucky and first occupied by Governor Garrard in 1797, the year it was finished.

Garrard was born in Stafford County, Virginia, in 1749. In 1769, he married Elizabeth Mountjoy of the same county. They had 12 children, seven born in Virginia, and five in Kentucky, where the family moved in 1783.

Garrard vacillated between religion and politics. He helped organize Cooper's Run Church and other Baptist churches, serving as pastor of the former. While governor, however, Garrard fell under the influence of Harry Toulmin, his secretary of state and a Unitarian, and attempted to introduce Unitarian views on his Baptist friends. Garrard was dropped from his own church and from the Baptist Association in 1803.

Meanwhile, he represented Fayette county in the Virginia Legislative and Fayette and Bourbon counties in the Constitutional Conventions for Kentucky statehood. Following two terms as governor, he retired to "Mt. Lebanon," without seeking further office.

Garrard died in 1822 and was buried on his farm. In 1883 the Kentucky Legislature erected a monument in his honor at "Mt. Lebanon."

**Suits Ask \$10,000  
In Auto Wreck Case  
From Two Defendants**

Damages of \$10,000 were asked this week in a suit filed by Barbara DeLong who named Bill DeLong of this county, and Lowell Howard, Columbus, O., as defendants.

She claims she was permanently injured in a collision of DeLong and Howard's cars near Greepup, Ky., Dec. 30, last year. The plaintiff's petition alleges that DeLong, with whom she rode as a passenger, operated his auto so carelessly and negligently that it struck the car of Howard who had negligently parked his auto on the highway while making repairs.

The cost of the treatment was nearly \$2,000, yet he paid nothing. Woodmen of the World Life Insurance Society footed the bill. Now it pays for his outpatient treatment. Free treatment of pulmonary tuberculosis is another non-contractual "plus" benefit of Woodmen membership. More than 5,000 Woodmen have benefited from this service. **The \$64,000 Question**

Gorman Collins, the Republican candidate for County Judge, wants to engage in a question and answer campaign. The following list of questions and answers was taken from an actual case against a former deputy sheriff on trial in the Floyd Circuit Court on a charge of accepting a bribe. This is an actual court record of a trial on November 26, 1956.

**"TESTIMONY OF WITNESS NO. 1:**

"Q-15 Go ahead.

A- We came down to \_\_\_\_\_ place, more or less bootlegging joint, and we went in the back; she had a little room in the back where she sold beer and stuff, and he told us that he wanted to explain what protection we would get and that Gorman Collins sent him out and he told us if we didn't believe he was the kind of man he was saying he was, and we all decided that he was all right."

"Q-25 Did you get what was promised you, protection?"

A- Yes, sir. I never was bothered by the county sheriff."

"Q-114 I want to ask you one further question. You tell the jury that as you went along bootlegging there, up up, maybe, be a year or a little over a year, or something like that without being bothered. What happened there? Did you finally quit bootlegging or what happened?"

A- No, I was still in the business. Something went wrong some way. \_\_\_\_\_, he told me that \_\_\_\_\_."

**TESTIMONY OF WITNESS NO. 2:**

"Q-17 What did he say to you?"

A- He wanted to know if I wanted in on the pay-off and I commenced talking to him and I told him I did not understand it and he told me then that Mr. Collins had them out collecting for him; that it wasn't going to him but was going to Mr. Collins and he told me, he said: "Looks like you can pay as much as \$10.00 a week and sell on and if you don't, you will have to quit," and he said: "If you pay as much as \$10.00 a week you can sell on and if you don't, you will have to quit."

"Q-20 Now, did you get that protection?"

A- Well, I got it up until the first Monday after Christmas.

"Q-21 Did something happen then?"

A- The man that was collecting, he said he wouldn't be around anymore.

"Q-29 Did you pay \_\_\_\_\_?"

A- Yes, sir. He said he would put my name down so Mr. Collins would know who it was coming from."

**TESTIMONY OF WITNESS NO. 3:**

"Q-3 Tell the jury what connections you had along that line, if any.

A- Well, I paid the defendant \$20.00 a week to operate my place of business at East Point.

"Q-9 Why did you pay him \$20.00 a week?"

A- Well, he just said it would furnish protection from the sheriff's force.

"Q-10 Well, did it?"

A- Well, I never was bothered by the sheriff's force after that.

"Q-11 Was that in Floyd county, Kentucky?"

A- Yes, sir."

**TESTIMONY OF WITNESS NO. 4:**

"Q-7 What was the line of his conversation?"

A- The only time that he ever had any conversation was the first time and he just told me if I stayed in business I would have to pay off, and the other times was when I would stop and buy gas off of him."

It is in order for Mr. Collins to answer these questions for the people of this county;

1. Who hired the attorneys to defend this former deputy?
2. How were these lawyers paid?
3. Why did you, Mr. Collins, advise with this man and consult with him and his attorneys during this trial?
4. Why would you be interested in this man if he had made false statements about you?
5. Where did the money come from that was used to defend a deputy for killing a man on the streets of Prestonsburg?

When you were a candidate for sheriff, Mr. Collins, you said this in the Floyd County Times on September 10, 1953.

"The taxpayers of this county have been paying a big price for the results they have been getting. The Sheriff's office pays enough money in fees for collecting taxes and fees for all other services that it performs to be able to maintain a good force of officers and pay them a fair salary. It pays enough to give the people good law enforcement and still be able to turn money back into the county treasury."

1. How much money have you turned back into the County Treasury?
2. How much did the Sheriff's office cost you?
3. How did you get this money back?

The past Grand Jury in its report dated September 27, 1957, had this to say about the way you conducted your office.

"We have questioned some 225 witnesses and returned approximately 149 indictments and during our investigations we questioned numerous witnesses, including deputy sheriffs and find that there is still a great deal of law violations and bootlegging going on in Floyd county. During our investigation we discovered that the Sheriff of Floyd county has in his possession a large quantity of alcohol beverages and we believe that since the law requires an officer to execute a search warrant to seize and take possession of the articles found and deliver them unto the Court, issuing the search warrant and this failing to have done, we feel that this Court should see that the said liquor and beer is legally disposed of."

What is your answer to this charge by the Grand Jury?

The people want to know, Mr. Collins. They are looking for your answers to these questions.

**TRICK OR TREAT.** It won't be long 'til we'll all be hearing this familiar greeting from our small friends and some of them will probably be all excited about Halloween parties. Just for fun I jotted down a list of ways the telephone could help in planning a Halloween party, or any other party. The list of calls went something like this: Invite the guests—maybe a dozen or more; order refreshments; order extra ice; have the cleaner pick up your best suit; call around to see who has Halloween decorations—and so it went. It's really surprising how much we all rely on the telephone to get things done quickly. You try it sometime. Make a list of things you do each day by phone, and you'll see what I mean.

**FALL IN FOR DECORATING.** The nip in the air has stirred a lot of activity around here—fall housecleaning, painting, repairing and the like. Seems to me it would be just the time for folks to give their rooms a "new look" too with some bright color phones to harmonize or contrast with new color schemes. Extra color phones are a joy to have and to use in bedrooms, kitchen or den—wherever you find most convenient. And you can have several for less total additional cost than you're now paying for your main phone. Our Business Office will be glad to give you any further information you desire.

**TV IS ON THE PHONE.** This is truer than you think. Whenever you watch a television show coming from New York or Hollywood, the picture and sound are brought to you over Bell telephone system communications. Our scientists tell us that eventually TV will probably be on the phone. Then you'll be able to telephone a friend and see him while you're talking to him. That should be a real pleasure—next best thing to a personal visit.

#### Pfc. Scott Participates In Exercise "Deepwater"

MEDITERRANEAN—Marine Pfc. John H. Scott, son of Mrs. Lenora Adams of Wheelwright, Ky., took part in the North Atlantic Treaty Organization exercise "Deepwater" with the Reinforced 1st Battalion of the 6th Marine Regiment.

The exercise was held during September 24-26, and included an amphibious assault landing on the beaches of the Marco Bay Area off the Thracian Peninsula of Western Turkey.

One of a series of regular exercises, "Deepwater" was designed to test and train the military defensive capabilities of the land, sea and air forces of the participating NATO nations.

The battalion departed from Camp Lejeune, N. C. Aug. 29.

#### WHEELWRIGHT STUDENTS ON CLUB PROGRAM

The Wheelwright Woman's Club held its October meeting in the Woman's Club room, with Mrs. Arthur Bradbury presiding in the absence of Mrs. Mary Ellen Wilson.

Miss Stella Eldins, history teacher at Pikeville College, introduced two Pikeville College students who presented an international relations program.

Alice Louise Moffett, daughter of a long-time missionary to India, and a junior at Pikeville College, described how she and her family lived in India for 15 years.

Isci Sami, a native Iranian, played several numbers with his accordion. The students answered questions asked by the club members.

The club voted to extend an invitation to the 7th district to hold the convention at Wheelwright next year.

Refreshments were served by Mrs. Geo. Lesterman and Cora McHone to Mesdames Arthur Bradbury, Herbert Gillis, Virgil Blevins, Roy Souleyrette, C. R. Tankersley, H. O. Zimmerman, Steve Clark, Alvis Johnson, Leon Porter, Mrs. Willis Gilford Hale, Georgia Cantrill.

#### CENSUS SEEKS ADULT EDUCATION INFORMATION

Comprehensive national statistics on the number of persons attending adult education classes will be available for the first time as the result of special questions to be asked in the October Current Population Survey, according to Supervisor Robert A. Yerkley of the Census Bureau's regional office at Cincinnati, Ohio, which will participate in the survey.

Special questions on adult education are being asked at the request of the U. S. Office of Education. The major aim of the questions is to obtain an accurate count of persons participating in education programs which provide opportunity for adults and out-of-school youth to further their education, regardless of their previous educational attainment. A secondary aim of these questions is to obtain an estimate of the types of adult education and the types of institutions and agencies conducting them.

Questions on regular school enrollment will also be asked in the October survey as well as the usual monthly inquiries on employment and unemployment.

# 1958 EDSEL

why you're money ahead when you buy this first of the '58's

Because the Edsel is the first of the 1958 models to be introduced, its first year's depreciation is well over 12 months away. You get extra months of full-value driving in an Edsel.

Moreover, an Edsel Dealer can offer you a better trade-in on your present car. Edsel Dealers have no '57 models to sell at clean-up prices. And remember this: any amount you may have been told you will save on a '57 model is wiped out the minute you buy it. Any '57 you buy will be one year old in a matter of days—yet 24 months from now your 1958 Edsel will still be only a one-year-old model.

Come in and let us give you the first-hand facts about the first and finest of the '58's—the world's newest car—the Edsel.

#### Sightless Man Master Farmer

Frankfort, Oct. 21 (Spl.) — A blind farmer of Livingston county has been awarded a master conservationist award by the State Soil Conservation Committee.

He is I. R. Brandstetter, of Smithland, who lost his sight in a hunting accident as a youth. He was presented the award on the recommendation of the Livingston County Soil Conservation District board of supervisors.

Brandstetter was the sixth farmer of some 750 cooperators in the district to receive the award which was presented for completion of 90 per cent or more of the recommended conservation practices on a 20-acre farm he owns. Another farm—the 45-acre home place—also is almost ready to qualify for the award.

Brandstetter is quick to admit that he's had a lot of help from his family in the turning of his rundown acreage into a producing farm.

Frankfort, Oct. 21 (Sp.)—Kentucky's Legislature Research Commission is the staff arm and housekeeper of the General Assembly. It performs services that the Legislature would do for itself had it the time and resources. Here are some of the chores of the Commission, under the chairmanship of Lt. Gov. Harry Lee Waterfield:

The study of important subjects expected to come before future legislative sessions; research and publication of reports on the effects of legislation; drafting of bills to be submitted to the Legislature; continuous improvement in the form of the statutes; filing and publication of the rules of state agencies; studies of laws of other states and their relationship to Kentucky's welfare; liaison between Kentucky and the governments of other states; publication of laws enacted by the General Assembly, keeping a printed record of all the Legislature's activities.

### YANKS WERE OBSTINATE

Gov. A. B. Chandler, who says his grandfather was shot at Shiloh, "shooting for the South," tells this joke about the superiority of the Confederate soldier over the Yankee:

"I was told as a boy that we could have whipped the Yankees with cornstalks. Only trouble was, the Yankees would never agree to fight with cornstalks."

### RECOLLECTIONS

I recall as a child my Dad telling me that when we heard a decayed tree fall in the forest when it was a still time, to be on the lookout for plenty of rain. So just a few hours before the recent drought through here was quenched, I heard the loud noise of a tree falling and crashing to the ground. Then my memory of the saying of my Dad was renewed. I am a reader of the Floyd County Times—Mrs. Hans Rasmussen, Tram, Ky.

### GOOD WALNUT YEAR

This appears to be a pretty good walnut year in Kentucky if the heaps of walnuts placed on country roads by ingenious lads and lasses in any indication. The wheels of passing autos do a pretty good job of hulling the nuts.

## Mines Reduce Fatality Rate

Frankfort, Oct. 21 (Sp.)—Kentucky's mining industry is to be congratulated on its safety achievements during the first nine months of this year. James H. Phalan, chief of the Kentucky Department of Mines and Minerals, has stated:

The period ending Oct. 1 saw 13 fewer fatal accidents in Kentucky mines than in the first nine months of 1956, Phalan said. He added:

The industry failed to achieve its goal of "no accidents during September," but reduced the number of mine fatalities from seven during the month in 1956 to three during the month this year, a reduction of 57 per cent.

"For the first nine months of 1957, there was an overall reduction in fatal accidents of 23 per cent, compared with the same period of 1956," Phalan said.

He added that on July 1 a national campaign to prevent injuries from roof falls in mines was initiated to continue until June 30, 1958. The objective is to reduce roof falls injuries by 50 per cent, Phalan said. During the three months of the campaign, the fatality rate from roof falls has been cut 54 per cent, according to Phalan.

"Seven fewer roof fall fatalities over a period of three months," said Phalan. "From cold figures it does not appear to be an outstanding achievement, but realizing the impossibilities of placing a value on human life it is truly a magnificent contribution."

### ENGLI IN EXERCISE

U. S. ATLANTIC FLEET, Gene Engle, boatman's mate third class, USN, son of Mr. and Mrs. Leonard Engle of Wheelwright, Ky., aboard the tank landing ship USS Waldo County, took part in North Atlantic Treaty Organization exercises in European waters during the latter part of September.

More than 200 vessels, with attached air support, from NATO countries took part in the operations, marking the first time since 1953 that forces under NATO have been engaged in large-scale combined fleet maneuvers.

## TAX COMMISSIONER

I have no political enemies to get even with— nothing but fair assessment to make.

I am 34 years of age, born and raised on Frater Creek, the son of Allen W. and Myrtle Boyd Akers. My grandparents are Elijah Akers and Cynthia Ede Akers. Lennie Boyd and Mary Males Boyd. I am married to Doris Williams, daughter of James and Bertha Williams, of Banner, Ky. We have two children.

I have for the past few years been engaged in construction business and I feel that this has given me the necessary background to properly appraise property.

**CARTER FOR CORONER**

**FRIENDS AND VOTERS**

I want to take this opportunity to solicit your vote and support in the coming election. I campaigned extensively in the primary, but due to a broken right leg I haven't been able to get around as I should have liked. I'm trying to see all my friends and supporters, but a broken leg does slow me down, so to speak.

You all know my record since I have been your Coroner, that I have conducted the office as it should be and that I will continue to do so, that I am qualified, capable, and available, and that most of all I have the experience necessary for the office.

If your neighbor needed a helping hand, you would offer it if you could, wouldn't you? When your friend wanted the loan of something, did you not try to accommodate him? As my neighbors and friends, won't you please help me by giving me your vote? Only by your confidence in me and your support of me can we come through to victory in November.

Sincerely,

**BLACK CATS, BULLDOGS  
TROUNCE OPPONENTS**

The Prestonsburg Black Cats and the Hazard Bulldogs served notice on future grid opponents in Eastern Kentucky last weekend as they romped over Belfry and Somerset.

John Griggs' Floyd countians displayed vicious blocking and offensive finesse in stopping Belfry's six-game winning streak as quarterback Paul Hughes, halfbacks Joe Harris and Tom Harmon and fullback James Allen repeatedly reeled off long gains in pasting Belfry, 18-7.

Jim Caudill's vastly improved Bulldogs wallpopped Somerset with little difficulty as halfback J. Handy started the rout with a 40-yard-six-pointer in the first quarter, the Bulldogs ran the halfback margin to 26-0 on Astor Sizemore's 89-yard jaunt to pay dirt, then fullback Bill Stewart hit the Cavaliers with a 22-yard scoring play, and Stewart added another score on a two-yard plunge. With subs playing the majority of the second half, J. Handy scored the only touchdown in the last half by running over from the 15-yard line.

In the other game of the abbreviated week-end, M. C. Napier and Cumberland tied, 13-13, as Wheelwright and Leslie County postponed their meeting until a later date since flu had riddled both squads.

Belfry's defeat left idle Jenkins in the driver's seat in the Eastern Kentucky Mountain Conference, and a win over Belfry for the Cavaliers this Saturday night would give Nick Diachenko's unit the crown.

Belfry and Prestonsburg battled to a scoreless first period deadlock after Prestonsburg had been stopped on the Pirate 5-yard line. With three minutes gone in the second frame, quarterback Paul Hughes, who played his best game of the season, sped 85 yards around end to pay dirt. Quarterback Bob Hamlin blocked Allen's attempt for the extra point, and the Black Cats led 6-0 at the halfway point. Midway the third quarter, following a Belfry punt, Prestonsburg marched 51 yards in nine plays, with fullback James Allen doing the damage, with 40 yards in the drive before Hughes scooted over from the five.

Belfry narrowed the gap to 12-7 on the next series of downs when

**SHERIFF'S OFFICE: A REPORT**

For The Past Three and One-Half Years

This report was taken from the booking record of your County Jail and does not include cases taken to the four magistrates of the county, which would not be on jailer's record.

- 3,328 arrests on drunkenness.
- 340 drunken driver arrests.
- 1,929 Miscellaneous arrests.
- \*30 Moonshine stills cut.
- \*50 Arrests for moonshine sales.
- 350 Arrests made on whiskey search warrants.
- 6,017 Total cases brought before this county's court.

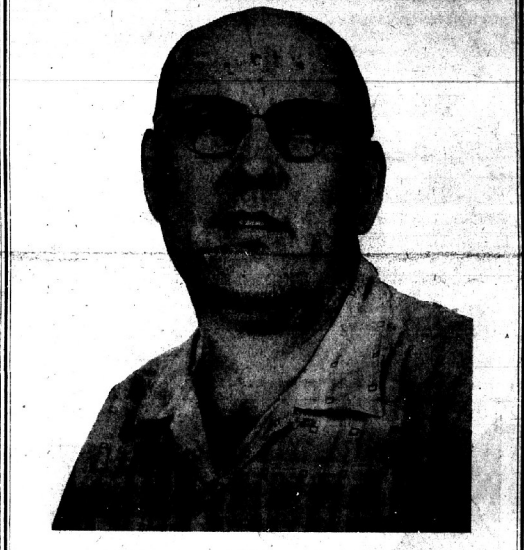

The above record does not contain juvenile cases or arrests made on peace warrants.

On May 23, 1957, Circuit Court Clerk, Mr. Cooley, had printed on Page 4, Section 4 Floyd County Times from docket book of 1956 that 78% of drunken driver cases was dismissed. In other words, 78 out of each 100 cases dismissed from court, 77% of all whiskey cases were dismissed, 77 out of each 100 dismissed.

I and my deputies now have 12 suits filed against us in Floyd County Courts, (the 12th one filed this past week for \$10,000), for a total of \$70,000—all, I claim, instigated by some local politician.

**SOCIAL WORKER DISCUSSES NON-ATTENDANCE PROBLEMS**

Walter Frasure, social worker with the Floyd County school system, released a statement this week on the pupil non-attendance problems. His analysis follows:

"There are many boys and girls in our county who for one reason or another fail to attend school regularly and there are a few who, as yet, have failed to enroll in a school.

"We, of the attendance department, are exerting every effort to promote an increase in attendance and an increase in the Average Daily Attendance Record. We realize that many others are also doing everything possible to help in our effort and should like to take this means of expressing our appreciation to the teachers, civic organizations, and to the many interested citizens of our county for their efforts and the splendid cooperation they have shown and are continuing to show in helping us to bring about this increase in attendance and thus a great saving financially to our county school system.

"By way of explanation, we should like to again call to your attention the fact that Floyd county is losing money each and every day a pupil is absent from school.

"Tax money for school purposes is placed in the hands of the State Department of Education. The State Department of Education in turn distributes or allocates to each county school system, money on which to operate, on the basis of Average Daily Attendance. Those counties having the largest Average Daily Attendance record receive the largest amount of money for operating those schools and those counties having the lowest Average Daily Attendance records receive the least amount of money for which to operate their school systems.

"For each and every day a child attends school, the state allocates 80 cents; thus, for each and every day a child is absent from school our county loses 80 cents.

"Due to poor attendance, your school tax money shall be going to help to educate boys and girls of another county; likewise, by good attendance, tax money from the other counties shall go to help to educate the boys and girls of our county.

"Many children of our county

**BETSY LAYNE**

The Betsy Layne Woman's Club held its regular monthly meeting, October 17 at the home of Mrs. O. Williams. A letter from the Floyd county Health Department was read in which the club was thanked for its participation in the dedication of the new Health Center. The program on Education was under the direction of Mrs. Becher Harwick, who presided the guest speakers, Earl Martin and Herbert Prater, directors of student personal, Floyd county schools.

Mr. Martin and Mr. Prater discussed the problems facing Floyd county schools. Among other things, the Minimum Foundation Program was explained. They stressed the importance of all children being in school and noted that much absenteeism was due to lack of clothing, proper food and unemployment. Club members offered their cooperation in helping the children in school and in any other way that they could help. The club will collect clothing for needy school children. A question-and-answer period followed. Mrs. Harwick expressed the club's appreciation to the guests for their informative talk.

The 50th annual meeting of the Seventh District K.P.W.C. was announced. Dignitaries named were: Moderators Edward Lykins and T. S. Salisbury, with Mrs. Becher Harwick and Mrs. Alice Williams, as alternates.

At the close of the meeting a silver plate was served the following: Elizabeth Lykins, Glenn Blackburn, E. P. Davis, T. S. Salisbury, Becher Harwick, Mrs. Alice Williams, guests Mr. Martin, Mr. Prater and Mr. O. J. Williams, and the hostess Mrs. Williams.

The next regular meeting will be held Thursday night, November 21, at the home of Mrs. Edward Lykins, with Mrs. T. S. Salisbury, program chairman.

**FLOYD GAME SURVEY PROMISES GOOD HUNTING COMING SEASON**

Floyd County Conservation Officer Raymond Copley predicted good hunting prospects for local sportsmen as he pointed to the opening of the 1957 Kentucky hunting season on November 20.

Copley said game surveys in Floyd county indicate a good local hunting season. State-wide prospects, according to wildlife biologists in Frankfort, are very good.

November 20 signals the big end of the 1957 Kentucky hunting season. The waterfowl season opens on November 7, followed by the kickoff of the small game season on Wednesday, November 20.

Copley reminded local residents that hunting licenses are required for all hunters except land-owners hunting on land they own and on which they live. Leases or tenants hunting on land they have leased and on which they live, or persons over 65 years of age, also are exempt. Hunting licenses are on sale at the county clerk's office and in or near all communities in Floyd county.

**IS IT REALLY REVENGE... OR ANOTHER STATE JOB?**

For public consumption, "Hogback" Burnis Martin, professes to be a Democrat, pretends to fight for the "people's interests", and disclaim any desire for political revenge.

Such claims are necessary in order to fool the voters and mask the real motives behind his vicious campaign of smear and abuse.

Martin's real trouble is a state job for his brother Fred. During the present state administration brother Fred has held two goud state jobs—as manager of Dewey Lake Boat Dock and with the Highway Department—and was dismissed from both of them.

Jerry Fonce Howell, the Democratic nominee for State Senator, had no part in the firing of Martin from his state jobs. He merely happens to be on good terms with high officials in Frankfort and, because of his experience and ability in the legislative field, was named by the senatorial committee of Floyd, Knott and Martin counties as the Democratic nominee.

Martin really wants revenge from Frankfort—not from Jerry Fonce Howell. But in order to get his revenge, or perhaps another job for Fred, he must fool the voters and discredit Howell. Do not be deceived by this self-seeking joker. For sincerity, honesty and ability vote for

# VOTE AS YOUR CONSCIENCE TELLS YOU

When I announced for Circuit Court Clerk I was aware of the fact Floyd county has a plurality of Democratic registration but I was not deterred by that fact. I thought then and I am thoroughly convinced now that the vast majority of Floyd County voters does not vote a pre-arranged ticket but carefully selects the men they elect to serve them.

They demand honesty of all their officials. They are expected to be an example for others to follow in every aspect of our ordinary life. Then, too, I have noted public servants are expected to make wise use of the opportunities once given them. If they eat the bread of wickedness or drink the wine of violence, the good people of this county are concerned and will long remember.

I have during all my adult life tried to conduct my personal and public life in such a manner that I could without reservations or apologies ask members of both of our great political parties to vote for me, and that I am begging you to do now.

I assure you that if I am elected I will remain the same common Dick Spurlock you have found me to be when I visited your homes, met you on the streets or at your place of work.

I have greatly enjoyed this campaign and win, lose or draw, I will hold no ill will toward any man. It has been a pleasure meeting old friends and gaining new ones and hearing so many of them assuring me of their support. I am not asking Floyd county to make me rich or keep me in office for a long period of time. To me it is a privilege that thousands of Floyd County citizens are entitled to and I assure you that I have no intentions of oversteering my welcome. So vote your convictions.

## ADVANCING EDUCATION IN KENTUCKY

By Robert R. Martin  
Superintendent of Public Instruction

The State Board of Education in the modern school curriculum - law, requires that health and physical education be included in each pupil's program of daily learning and living in the school.

Physical education and its function in the modern school curriculum is no less important than any other phase of the public school program. In many ways it offers a most significant contribution to the mental and physical growth of Kentucky boys and girls and toward the development of mature understandings of cooperation and fair play.

Our kind of society has granted severe pressures on emotional and nervous stability. To live fully today one must be able to get along with others. One must be able to control his emotions and find outlets for self-expression. In addition to that, the shorter work week has given to many Americans more leisure time to pursue relaxing and recreational activities. For these and other reasons educators have recognized for many years a definite need for sound and realistic physical education instruction.

Not too many years ago physical education was offered only in high schools and even those programs were not all they could and should have been. Today we have recognized that not only is physical education necessary to the educational well being of boys and girls in high school, but that it is of equal value in the elementary program. Standards for health and physical education under the Foundation Program Law require that elementary school pupils shall receive a minimum of one hour per week of supervised physical education activities. In the elementary physical education program emphasis is placed upon participation in selected activities which younger children thoroughly enjoy. These might include such things as rhythmic activities, story plays, mimetics, relays, skills, stunts and games. It should be emphasized, however, that these activities are always supervised. Also, they are not meaningless or without purpose. The objectives of elementary physical education are not only to develop physical fitness, but also to gear toward the development of valuable social attitudes. Physical education in both elementary and secondary schools can be of vital importance in aiding youngsters to gain new measures of self-respect and respect for their classmates.

Our American society has been built by the resourcefulness of its individuals. Individuals who possess vigor, strength, and character are in normal times a great resource to our nation and in times of emergency these qualities have risen to meet every challenge.

Physical education then is merely a means through which we can continue to produce responsible citizens with a full understanding of the importance of fair play, team work, and individual ability.

The child is an active being. He experiences needs as old as the world for physical activity. We are convinced in Kentucky that the physical education program is absolutely necessary to the well rounded development of our future citizens. Its inclusion in the total school program is essential to the program of advancing education in Kentucky.

## SGT. WALKER WINS DECORATION BY RESCUE OF AUTO VICTIM

Sergeant Glenn R. Walker, former army recruiter stationed here but now assigned to the recruiting station at Ashland, was awarded, Oct. 11, the Army Commendation Ribbon for helping to save Gordon Sturgill, an auto crash victim at Larksville, Knott county, on January 23.

Sergeant Walker was traveling between Hazard and Prestonsburg, when he came upon the scene of an automobile accident. As the sergeant made his way toward the wrecked vehicle, he noticed that one of the passengers was lodged under the front wheel and was slowly choking to death as a result of the pressure caused by the wheel forcing the victim's neck against a rock.

The citation for Walker's meritorious achievement continued: "Despite the danger of the car, which was perched at a precarious angle, might roll on him Sgt. Walker held it back and at the same time dug dirt and rock from around the victim's face until help arrived and the injured man could be safely extricated." Sturgill, who is the son of Mr.

and Mrs. Pearl Sturgill, of Larksville, is now fully recovered.

Sergeant Walker, a veteran of over 17 years of Army service, was with the Ashland Army Main Station since 1951, and has served in Jackson, Ohio, and Paintsville and Prestonsburg.

The sergeant's decorations and awards include the Combat Infantryman's Badge, Bronze Star, Purple Heart, Distinguished Unit Citation, European Theater, Good Conduct and Victory Medal.

A native of Oak Hill, Ohio, Sergeant Walker is married to the former Betty Rice, of Jackson, Ohio. Sergeant and Mrs. Walker are the parents of a 14-year-old son, Ronnie, and reside in Paintsville.

## Autopsy Is Performed To Determine Cause Of Death Of Baby

An autopsy performed by Dr. E. T. Reardon, Pikesville pathologist, on the body of 11-month-old Virginia Isaacs, of Teaberry, who died Sunday of an undiagnosed illness while enroute to the McDowell Memorial hospital, revealed that the baby was the victim of an acute upper respiratory infection, Coroner James J. Carter was told Tuesday.

The autopsy was recommended because of the child's sudden illness and death soon after the onset of the illness. The fact that a sister, Lois, had been ill and was in the McDowell hospital also emphasized the need for an autopsy.

Coroner Carter said he was told there is no danger of infection or contagion to contacts with the child. The sister's condition is improved.

The sisters are children of Milford and Nancy Hill Isaacs. Surviving the victim, besides her parents and sister, are two brothers, Coney and John. Funeral rites were conducted Sunday from the home of an uncle, Reuben Isaacs, the Revs. Bill Martin, E. V. Hamilton, Bill Hall and Milford Addison officiating. Burial was made in the Hollybush cemetery at Teaberry, the Carter & Callihan Funeral Home directing.

## UNUSUAL SPOT

One never would have supposed that Kentucky is noted for its fossils. But amateur naturalists and geologists interested in fossilized remains have been rewarded by a national magazine to go to Louisville.

The October "Frod Times" says colonies of coral that lived a billion years ago can be seen in fossil form near Louisville when the Ohio River is at low stage. It seems that these creatures, dying in a prehistoric tropical sea, created a bed of coral in the Ohio river, which causes the rapids known as the Falls of the Ohio.

## THE WOMAN SPEAKS

I would like to clarify the misunderstanding as to the "unsigned article" that appeared in the Floyd County Times with the heading, "Did Mr. Moore Meet His Responsibility?" The article was put in the Times by my campaign committee which consists of friends and supporters. The Times erroneously omitted the signature of the persons submitting the article.

My husband and I were both born in this county and since our marriage have both worked to make a living here. My mother, as many of you know, has worked to support herself and me since the death of my father in 1945.

Someone started the rumor that I was "proud" and and felt above others. I have only one thing to be proud of and that is my mother. I am proud of her for raising me to consider myself equal with, not above, the next person.

Being a Woman does not entitle me to any special privileges but as an individual I have equal rights with anyone.

Therefore, I would like to urge every voter to go to the polls and cast their vote for the candidate they sincerely feel will do their best for the County as a whole, not the individual candidate.

Sincerely,

## HAYS FAMILY SUPPORTS HOWELL

The present age, like each preceding one, has its fair share of critics. They are around about us on every hand. Some are skillful in judging the qualities and merits of various classes of things. They are called constructive critics. Others are of a disposition to operate with a CHIP ON THEIR SHOULDER; to criticize, to censor, to carp, to belittle, to quarrel, to fight, to undermine for the sole purpose of destroying anything and everything not in accord with their selfish aims, plans, and pet schemes. They are the so-called destructive critics.

An article in The Floyd County Times implied that members of our family had been offered the Senator's nomination. We were never contacted by anyone and had no desire to accept the position. We feel that our beloved father would want us to support the Democratic ticket.

Although our father and Jerry Fonce Howell did not see eye-to-eye on all political issues, we nevertheless know that he and Jerry Fonce Howell were personal friends. While Jerry and our father were serving in the Kentucky Legislature they drove to Frankfort together, roomed together and ate together. No longer than eight days before our father died, he, Jerry Howell, Clive Akers, and Judge Stumbo went to Frankfort together in the interest of Floyd County. We feel that our father, if living would want and advise us to vote the Democratic Ticket, of which he was a staunch supporter. Jerry Fonce Howell is the Democratic nominee, therefore we are asking all our friends and father's friends to elect Jerry F. Howell State Senator.

Yours for a more progressive and less confused government in the 29th Senatorial District.

**AN OPEN LETTER TO JERRY FONCE HOWELL:**

I notice in the paper that Happy Lee Waterfield has told you that the Administration needs you in the Senate as Floor Leader because of your ability as a leader. If what Paul Hayes said about you making speeches for a Republican against our late beloved Senator Barkley is true, then it seems to me that your ability as a leader is quite limited. As I recall, Barkley won by over 70,000, in spite of your efforts against him.

I am a poor man with a wife and nine children, seven of them and one grandchild, together with my wife and myself, live in a three room house on the head of Frater Creek, in the same neighborhood where you grew up. Notwithstanding the fact that you are a distant cousin of mine and grew up among my people, yet, when I had a little old road job with the state by which I was able to at least keep the wolf from the door, you, Happy's "Hatchet Man" in Floyd County, had my job taken, leaving my family to live on charity, or actually starve. During the Fall campaign for the Administration outfit, you told me and many other State employees that if we would contribute and work for Happy Lee's ticket, that we would keep our jobs. Well, we did just that, but did you keep your promise to us? Nay, a thousand times, NAY.

Now COUSIN! I am a disabled veteran of World War II, with this large family, among which are two sets of twins and surely, with my loyalty to your CROWD, I was entitled to keep this road job. Not only me, but the many others whose heads has bounced under your "Hatchet Style", are determined to help abolish this deception and TYRANNY. Where were you when I was wearing nee Sam's uniform and fighting for my country? I left a wife and two babies to go to war. You had no babies to leave and you too, were eligible and within the age for service. How did the Draft dodge you? Tell us veterans this before you expect our vote or support. I borrowed the money I donated to your bunch, but just how you expect me to repay, I do not know.

I invite you COUSIN to come up home any Sunday and have dinner with us (such as we have) and then look into the faces of these hungry members of my family and explain to them, if you can, if you have the GALT to ask us veterans to vote for you, then I suppose the hungry, gnawing stomachs of my family would be no bar or even embarrassment to you in facing them. What about it Jerry Fonce? Will you come for that LEAN Sunday dinner sometime?

You say to us that Happy Lee needs you and boast about how close you are to his Administration. Now OLD COUSIN! If you are so close and powerful with the Frankfort CLIQUE, answer me this. Why, out of the millions of dollars that have been spent for roads within the past year, is it that our good old county of Floyd has seen no new roads being built when other local counties are getting their share? What have you been doing with all that influence which you are supposed to have with them? Of course, you only became a candidate recently, and no doubt, had you been contemplating becoming a candidate earlier, you would have been getting our share of road building. You and your Happy Lee crowd love us only when you need and can use us, otherwise, we become members of that large segment of humanity known as "The Forgotten Man." We may be forgotten, but mark you well, we will not be forgotten on November 5th when we will remember too well, and remembering, we will mark our ballot for BURNS MARTIN.

Your cousin and disillusioned, disabled

**1957 FARM INCOME NET NEARS 1956 AVERAGE**

LEXINGTON, Ky., Oct. 18 (Sp.)—The average net farm income for Kentucky farmers is expected to be about the same for 1957, as for 1956, says the Kentucky Agricultural Experiment Station's economic department.

State farmers' average net income in 1956 was \$1,734 per farm, says Economist Beul Lanpher in his bi-weekly outlook letter. This is only 3 percent below the all-time high of \$1,789 in 1951.

The 1956 figure, Lanpher said, was 12 percent above the 1955 figure. He attributed this jump to increased livestock production and excellent crop yields, among other factors. Government payments also were higher in 1956 by \$10 million, he said.

For 1957, he estimates there are a number of favorable income factors. Livestock prices are higher; the number of livestock on farms has increased; and prices of cattle and hogs probably will be above 1956 levels throughout most of 1957.

Government payments, through the Soil Bank, also will have considerable effect. In addition, the number of farms probably has continued to decline during 1957, he says.

Unfavorable factors include, however, such things as higher production expenses and lower crop production in 1957. Value of 1957 grain crops, for instance, probably will be down sharply as production and prices have dropped in the period. Tobacco production in 1957 is about 6 percent less, according to October 1, estimates, which will cut total value of this valuable crop — unless prices rise enough to offset the lower production. If this happens net farm incomes could be slightly higher than for 1956.

Nationally, the net farm income was \$2,237, 35 percent higher than Kentucky's. However, Lanpher notes that this has not been the drop in Kentucky's net farm income that has occurred in U. S. net farm income in the last few years. The 1956 U. S. net farm income was 20 percent below the \$2,911 average of 1951.

Recent jumps in production expenses nationally have had less effect in Kentucky, too, than nationally. Production expenses in Kentucky have been about equal to about one-half of gross farm income.

come throughout the 1949-1956 period; however, on all U. S. farms, the proportion of gross income taken by production expenses has been rising and was equal to almost two-thirds of gross income in 1947, he noted.

Production expenses are relatively less important than nationally, he thinks, because the state has smaller farms; a high-labor crop like tobacco; less mechanization than national averages; and probably less high-priced hired labor on Kentucky farms.

Lanpher predicts, "very little additional rise" in production costs through the first half of 1958. Prices for many basic raw materials for industry have declined considerably; and further wage increases during the next 18 months "likely will be limited to the extent that productivity increases," Lanpher said.

The general level of business has remained practically stationary all year and there are indications it will remain in a "stagnant" state for months. One indication is that new orders for durable equipment has dropped sharply.

Prices paid by U. S. farmers have risen 6 percent since December, 1955, while price-received figures have risen 1 percent in the same period. The parity ratio has risen three points since December 1955 (from 96 to 99), but U. S. net farm income "probably has risen more than that," Lanpher said. "Volume of production per farm has been increasing because of new technology and expansion in size of farms as farm folk moved out of agriculture."

**Future Homemakers Hold Elkhorn City Conference**

The Future Homemakers of America, of the Big Sandy district, held its training leadership conference at Elkhorn City, Saturday, October 12.

The chapter officers were trained by the district officers for their special jobs. The theme of the program was "U. R. A. Leader for F. H. A." The district had a "tournament." The winners were Elkhorn City, first place and McDowell, second place. The trophies for the winners were donated by The Bank Josephine, and The First National Bank. The following attended the meeting from Prestonsburg chapter: Peggy McKee, Ruth Ann Hicks, Beverly Miller, Lois Hackworth, Della Lee Prader, Frances Kay Allen, Lois Dean Greer, Mary Flo Lenaster, Japaline Adams, Ella Rose Moore, Brenda Stepp, The chapter mothers, Mrs. Edna M. Moore and Mrs. Carl Bingham. The special guest was our retiring district president, Peggy Jo Frater.

**Hampshire-Southdown Breeding Is Promising, Specialists Announce**

When Kentucky Agricultural Experiment Station sheep researchers bred Hampshire and Southdown rams to two groups of ewes, they found that a Southdown ram used as a sire ewes had the earliest lambing date. This combination was 17 days earlier than the next combination, with G. Woolfolk, researcher, said this week.

Animals used were a group of Texas-born Suffolk-Tambouline ewes, and Idaho-born Suffolk-cross-ewes.

The Southdown ram-Texas ewe cross produced lambs whose average birth date was January 15. A Hampshire ram used on Texas ewes produced lambs averaging a Feb. 2 birth date. Southdown rams covered with the Idaho ewes averaged Feb. 12.

The Texas ewes raised 135.00 percent of their lamb crop, Woolfolk said, the Idaho ewes, 133.33 percent. The average of all groups was 134.64 percent.

Woolfolk said the Hampshire ram-Texas ewe cross lambs had the highest dollar value (\$21.54) at market time. The Hampshire ram-Idaho ewe cross was second highest at \$20.39 per lamb, the Southdown-Texas ewe cross, \$20.46, and the Southdown-Idaho cross, \$18.23. However, Woolfolk said, the difference in price may be attributed to different marketing dates.

In carcass grades, the Southdown-Idaho cross was best, with 8 prime and 7 choice. In dressing percentage three groups were around 52 per cent, the Hampshire-Idaho cross was low, with 50.95 per cent.

**McDowell Band Group Participates in Event at Morehead College**

The McDowell band, under the direction of Mrs. T. Hall, participated in the band day celebration at Morehead college, Saturday. Twelve hundred students in 28 bands from West Virginia, Kentucky and Ohio took part in the colorful event. The groups paraded on College street prior to the Morehead-Murray football game.

Each band paraded marched into the football stadium individually and joined in field formation on the gridiron. Fred Morgan, director of the band, and Mrs. T. Hall, with the assistance of directors of all the other musical organizations, directed the bands in the National Anthem, "Ode of the Day" and "Smiling Brothers' Grand Entry" marches.

The McDowell high school band consists of ten majorettes and a drum major. Both the high school and grade school bands of McDowell have been invited to participate in the Big Sandy Bowl game at Paintsville November 8.

**Ralph Breeding, 33, Gulf Sales Engineer, Succumbs Saturday**

Ralph Breeding, 33 years old, of Prestonsburg, sales engineer for the Gulf Oil Corporation, died of a heart ailment at St. Joseph's hospital, Lexington, of uremic poisoning. Mr. Breeding had been ill three weeks, possibly as long as a week preceding his death.

A native of Perry county, he was a son of Sillas Breeding, of Ritchie, Ky., and the late Mary Dickenson Breeding. He had received his education at St. Mary's college, Lexington, and the University of Kentucky College of Engineering.

In addition to his father, he is survived by his widow, Mrs. Maxine Montgomery Breeding, one daughter, Linda, and six brothers, Clyde Breeding, Wynand, Mich, Vernard Breeding, Ritchie, Ky., Willard Breeding, Holton, Ind., Eugene Breeding, Van Nuys, Calif., and Carl Breeding, of California.

The funeral was held Tuesday afternoon at Holton, Ind., from the McNeel Funeral Home, and burial was made there.

## DEMOCRATS and REPUBLICANS Reward Good Citizenship With Your Vote

I am 70 years old and have been a strong Democrat all my life. I have only a few times departed from my political convictions in state or national elections. In county and local races, however, when practically every voter in the lives of all candidates are known to almost every voter, the important thing is to vote for the best citizen. The very least that we voters can do to encourage and reward good citizenship and good morals is to vote for those candidates who have lived good, clean lives.

My son-in-law, Richard (Dick) Spurlock, is the Republican nominee for Circuit Court Clerk. He did not ask for my advice before getting into this race. I did not encourage him to get into politics, nor did I try to discourage him. In his own quiet, determined way he made up his own mind.

His lifetime honesty, sincerity and friendliness has earned him many good steadfast friends in both parties. He has made many other friends while campaigning all over Floyd County this summer and fall. Reports from all sections of the county are very favorable and I believe Richard Spurlock has a better than even chance to win. He will make the people of Floyd County a good Circuit Court Clerk.

I would like to ask all my friends and relatives, who are interested in good government and good citizenship to vote for RICHARD SPURLOCK in the coming election.

PENN FITZPATRICK,  
West Prestonsburg, Ky.

### School Lunches Gain in Numbers, According to Report

About 5 1/2 million more school lunches were served last year to Kentucky school children than were served in 1956, according to records of the United States Department of Agriculture. In the nation as a whole, there was a gain of 9 1/2 per cent when nearly a half billion more lunches were served.

The value to the school child in stronger bodies, in better health and in improved study habits would be difficult to over-estimate, say nutritionists at the University of Kentucky.

A part of the food for the lunches is purchased locally, the national total cost being \$97,925,344. In addition, a considerable quantity was received from the USDA for the program.

For example, nearly a third of the cases of canned tomatoes bought by the government this year will be used in the South-eastern states, Kentucky receiving 12,029 cases.

During the past year, 12,373 schools in the southeastern states participated in the school lunch program, compared to 12,304 the year before.

The number of noon school lunches served in Kentucky last year was 40,355,315 compared to 41,128,877 in 1955.

The characteristic taste of an orange, or any other fruit, is really due to volatile materials it gives off, its "smell."

### 97 Floyd Students Are Stranded at UK

The University of Kentucky has reported that 97 students from Floyd County are stranded at UK during the current semester.

The figure represents an increase of 108 students over the record of 189 set last year, according to Dr. Charles F. Elliot, UK dean of admissions and student affairs.

Leading in students enrolled at UK in Fayette county with a total of 1,240, followed by county is second with 795 students.

Students from Floyd county include:

- Melvin Akers, Winifred Akers, David Allen, David Donald Allen, Peggy Allen, Quentin Allen, Robert Allen, Essamery Allen, William Allen, Richard Anderson, Joe Arnett, Donnie Bates, Robert Bowling, Marjorie Bradberry, William Bradberry, Elizabeth Bradberry, James Bradberry, Joe Burnett, William Burke, Hugh Cannon, Donald Capelli, Donald Campbell, Walter Collins, William Cowley, Doyle Dinger, Helen Dinger, Charles Ekins, Otto Pannin, Fred Evans, Robert Evans, Fred Evans, Prater, Larry Offish, John Gobie, Ronald Goebel, Robert Goodman, Robert Grigsby, James Grigsby, Bess Harter, Fred Jerry Hall, Ude Hall, Joseph Hall, Joseph Harlan, Jack Harlan, John Hill, Rose Hill, Clyde Hoover, Oscar Howard, Helen Howard, William Howard, Lowell Hughes, Arlin Hughes, Frederick, Berlin Johnson, Grayson Johnson, Ronald Leslie, Ronald Leslie, Donald Long, Mary Madison, Betty Martin, James Martin, John Martin, Edna Martin, Sam Martin, Jr., William Martin, Barbara May, Frederick May, Kenneth Mitchell, John Moore, Robert Moore, Robert Mullins, Robert Prater, Mikal Preston, Charles Reed, Gary Reynolds, Edna Rice, Shirley Roberts, Fred Robinson, Clarence Salver, Byron Smiley, William Spradlin, Paul Spurlock, Myra Stoeck, Linda Stoeck, Stephen James Stepp, Paul Stepp, Melvyn Stewart, Ronald Stricklin, Virginia Sturgill, Earl Thomas, Alexandra Trigg, Billy Trigglet, Gabriel Wallace, Charles Weathers, Phyllis Wilson and Jesse Wright.

### QUEENS FOR A DAY ARE ENTERTAINED AT KENTUCKY PARK

Frankfort, Oct. 21 (Sp.) — "Queens for a Day," Esther Eyerker and Frances Walker of Knoxville, Tenn., West Africa, Kentucky a delightful and hospitable vacation-land during their recent visit at Kentucky Hotel. The all expense trip, courtesy of Kentucky Division of State Parks, was one of the prizes awarded them as winners of the Jack Bailey radio and television program.

Miss Eyerker of Paris, France, and Miss Walker, a native Californian, who have devoted the past ten years of their lives regarding abandoned native children, are in the United States with a two-and-a-half-year old African girl for examination and observation of a hip deformity.

The missionary-nurses met in Paris while Miss Walker was studying French prior to her assignment at a Baptist mission in Africa. Friendship resulted in both girls going to Korkoro, where they built their own home with faith that the Lord would provide a way, and help of native labor and their own hands.

"The Nest" as their home is affectionally called, is maintained by funds from interested friends and groups who know their story. Here they take babies whose mothers died in childbirth and who are thus branded as "evil spirits" by native superstition. Rather than let the babies be destroyed as is the custom, these girls give them a home with love and care. The oldest girl, Rathie is now nine-years-old and the baby is three months.

During their visit at Kentucky Lake, the visitors were entertained at Paducah, Murray, Benton, Hopkinsville, Paducah, Paducah and Mayfield. They visited Murray College where they spoke to the freshmen nursing class. Appearances were made by the missionary-nurses at television and radio stations in the area and they were feted and dined by local citizens.

## Moore Met His Responsibility

In answer to the question by my opposition, "Did Mr. Moore Meet His Responsibility?", published in the Times last week by an unsigned writer and under the picture of my Republican opponent, I am able to state that as Floyd County Court Clerk these responsibilities were met by me, and the Courts of our great COMMONWEALTH have voiced their approval of the conduct of the Floyd County Court Clerk's office. If the writer of this unsigned article had wanted to be fair with me and with the people he or she could have gotten the record from the Floyd Circuit Court Clerk's office and from the Court of Appeals of Kentucky. There are 120 Clerks and there were at least 120 absentee ballot boxes in Kentucky. No one can honestly say that I, the Clerk of Floyd County, am responsible for what the woman clerk in Monroe County did.

A recent report from a Floyd County Grand Jury tells the fair and impartial story of the Floyd County Absentee Ballots as far as your County Court Clerk and the Clerk's office is concerned, to-wit:

"We have questioned over a hundred witnesses in regard to the wide spread rumor concerning the Absentee Ballots. Among the witnesses were the Clerk, Election Commissioners, and various Candidates, during the last Primary Election including one of the other Candidates for Clerk and for our investigation. We failed to find any evidence where the County Court Clerk, Deane Moore, or any of his office Deputies violated the Absentee Ballot Law, but we do believe that there were some irregularities in the handling of the Absentee Ballots by persons other than the County Court Clerk and we feel that the next Grand Jury should continue to investigate this abuse. In regard to the Absentee Ballot Law, we believe the Law itself needs to be changed, so as to permit only service personnel and students away from home, the privilege of voting absentee.

"Nothing further having come under our observation we beg to be finally excused.  
Respectfully submitted,  
R. J. PERRY GREENE, FOREMAN"

Judge M. J. See had this to say about Floyd County in the recent election, to-wit:

"The Court is of the opinion that no fraud sufficient to invalidate the integrity of the ballots in the absentee ballot box as a whole has been shown, and it is now ordered and adjudged that the plaintiff's complaint be and the same is hereby dismissed..."

In a recent court action regarding the ballot to be used in the special and general election, Judge Marion Rider had this to say about your County Court Clerk, to-wit:

"The importance of this case is to the people of the County, rather than to the parties to this action. We have a situation which is extremely complicated, and it is little wonder that we find the Clerk in the dilemma which this record evidences as to the proper method of the preparation of the ballot to be used in the election. The concern indicated by the Clerk as to the proper solution of this complicated problem evidenced his sincere interest in the proper performance of his duties, and entitled him to the commendation of the people of the County, for that which he has done is in the interest of the people and their rights rather than that of the litigants."

I drove all night in order to go to Frankfort to see if the Attorney General could tell me how to have the ballots printed. County Attorney, Hollie Conby, was my official representative and attorneys for each of the senatorial candidates went with me. I am not a lawyer but I want to do everybody right and be just and honest toward all.

It has never been my intentions as a candidate nor as a citizen to unjustly criticize or stir up strife and hatred among the good people of Floyd County.

Kathleen and I have worked hard and long in order to do the right thing for one and all. We have been honest and faithful to the trust you have given us.

Three Circuit Judges, the Grand Jury and the Court of Appeals have spoken the truth since the primary. They have found our conduct clean and honest. DON'T BE FOOLED BY OPPOSITION. It is easy in an hour of desperation to cry WOLF! WOLF! when there is no WOLF.

The County Court Clerk's Office contains your most priceless records. They have been well filed, recorded, and kept by us and our good office help. As long as we are there you can expect and will always receive kind and courteous service.

We appreciate your help in the past and hope you can vote for me on November the 5th. May God be with you now and forever in the future.

Your friend,  
DuRAN MOORE,  
DEMOCRATIC NOMINEE FOR COUNTY COURT CLERK.

### FOOD NOTES

By Dale F. Higgins Home Demonstration Agent

Halloween time! Many parties are being planned to enjoy the spirit of the season. Parties will be given by and for young people throughout the year.

Basic ingredients needed for successful parties, whether Halloween or otherwise, good food and interesting entertainment.

Combine these ingredients by planning your party from beginning to end, but not minute by minute. An overall plan should answer the following questions:

What kind of a party are you going to have? A Saturday night get-together? After-the-game sock hop? Class senior party? This is easy to decide.

Whom are you going to invite? Try to invite the number your home can hold comfortably.

How will you decorate the "stage"? Several of your friends can help here.

Where will your party be held? Empty a hall closet so there will be space for guests' coats. Roll up the rug if guests are to be played. What food will you serve?

How will you serve the food? Plan to have one or two friends help with the serving.

What entertainment will you have? Plan more games than you can possibly play so that if some guests don't enjoy one, you can change to another. As host or hostess it is your duty to see that everyone enjoys himself.

Who does the cleaning up afterward? You do, of course, with the help of some of your friends. Plan to clean house right after the party. Get everyone to help as much as possible. When you finish up completely after all the guests are gone, Part of the "Good Food" might be caramel apples for the Halloween party.

Stick wooden sticks into the stem end of six medium red apples. Combine 1 cup sugar, 2/4 cup dark corn syrup, 2 tablespoons butter and 1/2 cup cream. Cook over low heat until sugar dissolves and mixture comes to a full boil. Add 1/2 cup cream. Cook to very-hard-ball stage (254 degrees) without stirring.

Remove from heat. Add 1 teaspoon vanilla. Dip apples into syrup (Work fast). Roll in coarsely chopped nuts. If desired, freeze upright on well greased cookie sheet to cool. This recipe will make six caramel apples.

The Deft Homemakers held their monthly meeting at the home of Mrs. Adnan Hill Thursday, October 19. The lesson for the day was "Choosing Color and Fabric for Suits and Coats." Mrs. Fred Zuppan and Mrs. Glen Burton taught the lesson.

Mrs. H. D. Hewlett, president, presided at the business meeting. There was a discussion of dues and the Homemaker Federation program. This was completed at the meeting in the home of Mrs. Glen Burton, Monday evening.

Utility consumption of bituminous coal in 1956 rose more than 10 per cent to a record total of 155,011,000 tons, according to a compilation by Keystone Coal Buyers Manual.

Huntington, W. Va., a leading inland waterway coal port, was one of six Ohio River ports to handle more than one million tons of water horse commerce in 1956.

### LONESOME PINE SCOUTMASTER RECEIVES NATIONAL AWARD

Kedric Roberts, a Scoutmaster of Troop 19, Shelbyana, Pike county, was recently granted a national scholarship by the Rural Scout Service of America to take Scout training at the Big 17,000-acre "Ballroom" Scout Ranch located near Cammeron, New Mexico.

The committee selecting Roberts for the award said that he typified the rural Scout leader of Eastern Kentucky, with his family. His wife, Mrs. Kedric Roberts, is a den mother, and has eight Cub Scouts in her den. His son, Leland, 11, is a Scout in his troop.

Mr. Roberts was one of ten Scoutmasters selected from across the nation and represented Region Four of the Boy Scouts of America, which includes the states of Kentucky, Ohio and West Virginia. He is an electric appliance serviceman.

The Lonesome Pine Council, which he represented, is the most rural Council in America. Ninety per cent of the population, which includes ten counties of Eastern Kentucky and five Southwestern Virginia, live in communities of less than 2,500 population or less. Sixty per cent live in communities of less than 1,000. The total population of the area is around 400,000. At present, about 2,700 boys are enrolled in Scouting in 150 Scout units.

HODGEN BUILDS MILL Robert Hodgen erected a mill on his land in Lartree county about 1788. In addition to operating the mill and farm, he ran a tavern or "ordinary," where many notables were entertained including the French botanist, Michaux, Louis Philippe and his brothers in 1797. After Hodgen died in 1810, the settlement which had sprung up around his tavern was named "Hodgenville" in his honor.

CLUB REORGANIZATION Three more clubs were organized last week. Officers elected and committees appointed in these clubs were: Maytown, president, Sandra Hicks; vice-president, Julia Mae Lumpkins; secretary, Claudine Lowe; reporter, Patty Warren; song leaders, Donna Branham, Gloria Spencer, Phyllis Combs and Don Rowland; recreation, Melanie Ann Conley, Pam Combs, Carol Turner, health, Ruby May Gayheart; music, Carlita Combs; safety, Burgess Lowe, Ralph Manuel, Glenn Sallers; cheerleader, Zedra Prater, Barbara Prater, Letha Prater.

### IN ANSWER TO A QUESTION

Answer to Question No. 5 Testimony of Witness No. 4, "The \$64,000 Question," published in this paper Oct. 3, 1957:

Since this involves our father, W. L. Rice, we would like to answer the question, Where did the money come from we used to defend our father? The entire amount was what little money we had and small donations from our relatives and friends of law-abiding citizens of Floyd county. Now if this Committee is trying to use our father to help their ways of winning an election, we believe this is poor politics. Our father was a peaceable man and did his best to uphold the laws of Floyd county for fifteen years as a Police Officer. And we believe the good citizens of Floyd county will back up this statement. This so-called citizen must have been ashamed to state his name. Since we now live in California we do not want to be involved in your election. We merely wanted our name left out of your mud-slinging. We remain natives of Kentucky.
