2 DIE IN PRICE MINE, DAY OF ITS OPENING

ORKNEY MAN, SON-IN-LAW ARE VICTIMS

Fatalities First Since May 2 Last Year, Said; Moore, Little Victims

A cave-in of rock from the roof of a small mine of the Hamilton Coal Company at Price died the first Tuesday morning of 1963, killing two men, the Orkney man, Carl Moore, and his son-in-law, Clyde Little, 33, of Wheelwright.

The mine in which they died was in its first day of operation. The mine opening had been driven by the hole only about 12 feet, and the two men were working at the face of the coal when a slab of rock 14 feet long by 10 feet wide and seven inches thick fell, breaking into two parts on a home-made shale boulder. One struck Moore, the other the younger man. Both died instantly.

Another son-in-law of Moore, Carl Mullins, witnessed the tragedy and himself escaped the fall. It was the first mine fatality in this county since May 2, 1962, when the highest coal production in more than three million tons of coal had been mined during that time. The highest coal production in the county prior to this time without a fatality was 1,870,000 tons, he added.

Marion Moore was a son of the late Tom and Cecilia Gayhart Moore. He is survived by his widow, Mrs. Moore, two sons, Glenn Moore of Orkney, and Carl Hamilton Moore of the U. S. Army in Texas; three daughters, Mrs. Shirley Little of Wheelwright, Mrs. Verle Masley, Dayton, Ohio, and Mrs. Paegy Sue Mullins, of Orkney. Two other sons, Barry Edwin, Kirby Ann, Gayle and Sharon Kay, and a daughter, Mrs. Verle Masley, are also living.

Funeral arrangements were in complete, it was said at the Hall Brothers Funeral Home, Tuesday afternoon.

JOHNSON JURY SETS 2 YEARS AS PENALTIES

Second Trial of Last Friday; Coal Companies Fined

A jury of Johnson counties last Friday held Troy Mullins and Marion Martin, Floyd county officers, guilty of manslaughter in the slaying of Ex-Magistrate John May last August 26, and fixed their pen terms at two years each.

It was the second trial of the two. The first resulted, early last December, in a "hung" jury. Testimony heard in that case was much the same as the prosecution in the first trial, except that the defense did not introduce as witnesses Sheriff Henry Hale, Deputy Sheriff Samuel H. Hale, and a former state and county judge and Ex-Deputy Joe Horn.

Katherine Martin, who stayed at May's place of business on the mountain at the head of Cove Creek, where the shooting took place, was the principal Commonwealth witness. She testified that May was sitting in the kitchen, eating at a table, with his back to the door when the two officers entered. She testified that she saw May shot by Mullins and that she saw Mullins shoot at the table at his left side.

The Law Governs the Clerk's Office... Not Just What A Man Thinks

One of my opponents has been active over the county and through the columns of The Floyd County Times advertising that he would set up a drivers training program. According to the laws of Kentucky as shown in the Statutes of this State, he cannot do this. See K.R.S. 186-620, which states as follows: "No person shall authorize or knowingly permit a motor vehicle owned or controlled by him to be driven by any person who has not taken steps to drive it, and K.R.S. 186-400 specifically states that the Department of Public Safety shall prescribe all regulations and shall enforce regulations governing the acts of the Circuit Clerks and motor and motor vehicle operators."

K.R.S. 186-400 specifically states all licenses shall be issued by the Department of Public Safety. The Circuit Clerk has nothing to do with this, and they must be certified by the Department of Public Safety. As to notifying each operator of a drivers license thirty days before date due, this would be utterly impossible, since there is contained in the files of this office approximately three thousand, which would take two people about one month to perform this duty which would have to be done each month in the year. These copies are filed alphabetically and then by letter as bank ledgers are kept. The law requires these copies to be kept as stated above, however this party seems to be or will make an attempt to change the whole law governing the issuing of drivers license and everybody knows that this cannot be done, because the Department of Public Safety would not permit it.

One candidate copies a few of the many duties of the clerk, but copying does not mean that he would know how to do the duties under these requirements. Another candidate states that he will see that all jurors are drawn according to law which he has nothing to do with whatever.

The Judge of the Circuit Court each January in each year appoints three jury commissioners who are directed to place in a jury drum or wheel case several hundred names of persons eligible to serve upon juries and then the drum is locked and the keys delivered to the Judge who unlocks the Jury drum himself and delivers the names from the drum and the clerk in turn delivers the names to the sheriff who summons them for various terms of court as required times as provided by law. So you can readily see that the Clerk has nothing to do with the selection of juries.

I know since a lot of false rumors have been spread among a lot of people by candidates for this office, many people have been coming to this office, thinking they could get a drivers license without the required test as provided by law.

One Circuit Clerk in this State thought he was so wise he undertook to evade the law in the issuing of drivers license and was displaced and put out of his office and another took his place instead. A lot of this talk is ridiculous and people should not be misled, merely causing them to make trips to this office without avail. If a candidate will deceive you about little matters such as these what will he do when it comes to bigger ones? Never deceive you will be caught.

I noticed in your editorial where you was praising Bert Combs administration for doing so much for eastern Ky. Can you honestly say he has done anything for eastern Ky. except waste our tax money. If his administration had been argued as defeat, I am supposed to know it for I can see things as same as you can. Why did you and the little Judge let Abbott precinct go republican. Eastern Honors Four Floyd County Students

Richmond, Ky., April 3 (Sp.).—More than 500 students were honored for outstanding scholarship, leadership, and service Wednesday morning at the first Joint Honors Day Program for both men and women at Eastern Kentucky State College.

This marked the first time that both men and women had been honored in one ceremony. Previously, separate programs were held. A Women's Honors Day was initiated 16 years ago by Mrs. Emma T. Clark, former Dean of women, and a Men's Honors Day was started ten years ago.

Receiving recognition at the Hiram Brock Auditorium program were students with high scholastic standings within each class, students receiving departmental and organizational awards, presidents of organizations and nominees for the four honor societies. Also presented were those who have received graduate scholarships and assistantships.

Among those honored were these from Floyd county:
 Sophomores with 2.5 Overall Standing: John David Wallten, Prestonsburg.
 Freshmen With 2.5 Overall Standing: Patricia Anne McCormick, Allen.
 Burnam Hall, Best Contributor: Jackie Howard, Dwaite.
 K. I. E. Nominees: Carl Edmond Tackett, Prestonsburg.

MINISTERS ENDORSE DEROSSETT

We, the undersigned ministers, want to take this means of urging upon the voters of Floyd county a consideration of Frank DeRossett as a candidate for the office of Circuit Court Clerk.

Considering these things, we think it proper and in the interest of Floyd county that we endorse Frank DeRossett for Circuit Court Clerk and urge you to support him in the May 28 Primary.

KENTUCKY MUST NOT TURN BACK! FOR PROGRESS VOTE BREATHITT

For democracy to succeed voters must use their minds and their memories. If you don't know what the candidates stand for—not just what they SAY they stand for—the battle for self-government is lost.

Mr. Chandler thinks in terms of the 1930's. He thinks people MUST be poor; that we must do as little as possible for them, and then only when forced.

But this is not the decade of the great depression. We refuse to believe that Kentuckians must be poor.

Mr. Chandler wishes to reduce expenses for parks and recreation. We see these as an expanding need.

Mr. Chandler sees the state as it was over thirty years ago when he was Lieutenant Governor. Since that time he has been twice Governor and United States Senator. He resigned as Senator in a crucial time, because he was able to get a higher paying job in baseball.

Mr. Chandler's chief adviser and lieutenant, Mr. Clements, has been Representative, Governor, Senator.

Between them, these two men have been elected by Kentuckians to the highest offices that the state can bestow for terms totalling more than thirty years.

Mr. Chandler says we reached peaks and pinnacles of education under him. But the Federal Census of 1960 shows us in 50th place, the lowest, at the end of his last administration.

VOTERS, BEWARE! The technique of the Big Lie is abroad in the land again.

Look about! Do you believe the people of Kentucky are so witless or have such short memories as to believe Mr. Chandler? Can he cut taxes and at the same time increase expenditures?

This is what he has always promised. This is what he has never done.

Do you believe he can destroy the Merit System and overnight reconstruct a competent independent group of state employees?

Do you believe in a Governor closing his eyes to open gambling and vice such as was at Newport—and then closing his ears to the pleas of Christian people asking him to do something about such a shameful situation?

We have no way to judge his future conduct except upon his past performance.

Do you remember the mass, indiscriminate firing of hundreds and hundreds of state workers in 1936 and in 1956?

Do you remember the merciless assessment of low-paid state workers?

The standards that rule his conduct appear to be revenge and personal advancement.

Kentucky deserves better, much better than this. Only the voters can get it.

Our hope, our only hope, is that Kentuckians can see and remember; that they can see the roads being built; that they can see the schools that have been built. That the teachers can tell them of the increase in salaries...; that they use the parks and recreational facilities; that they can see how they benefit from the swelling tourist tide.

Our hope is that Kentuckians remember and that they care about Kentucky.

Oral Polio Immunization Program Is Appreciated By Kentucky Med Group
Appreciation for an outstandingly successful oral polio immunization program has been expressed by the Kentucky State Medical Association in a congratulatory letter to county medical societies, the State Department of Health and other statewide organizations which were active in this campaign.
More than 1,500,000 persons received Type I vaccine in Kentucky last year, reported Dr. Dudley M. Clardy, chairman of the KSMMA and Public Health Committee. Nearly one and a half million doses of Type II vaccine were administered, and a little under a million of Type III. Doctor Clardy noted that a number of counties had not yet reported and some had not completed their program.
During 1962, total cases of poliomyelitis in the United States was 868, a 59% decline below the annual average for the preventive years of 1951-1954. Kentucky's 30 cases reported last year marks a 90% decline from the 819 average of pre-preventive years.
"Doctor Clardy said that the cooperation of everyone involved made it possible for Kentucky to approach reaching a long desired goal of complete eradication of this dreaded disease. He urged that every Kentucky family continue this same effort in helping push poliomyelitis toward oblivion."

TO THE PEOPLE OF FLOYD COUNTY

In an attempt to get sympathy, my opponent has been telling the people of this county that I have attacked the legality of his filing papers. He repeated this accusation in last week's paper and on the radio. I say to you as I would say to him, I HAVE NOT DONE SO. Yet, I would not be entirely frank with the people of this county, if I failed to tell them that in truth my opponent FAILED TO HAVE HIS SIGNATURE NOTARIZED on his nomination papers to run in the Democratic Primary. This is a matter of public record for all to see.

Whether this mistake is serious enough to keep him off the ballot is quite another matter. I do not intend to take any legal action in this direction. In fact, I am willing to go with my opponent to the Clerk's office and allow him to correct his mistake. I say this because I want to serve the people of this county in public office in the future. I do not want the office of Circuit Judge given to me on a technicality. I believe the people should have the right to vote and elect their Judge. On the other hand, I do not appreciate my opponent accusing me of spreading false rumors.

Dr. Hall Notes Threat Of Rabies In Spring; Clinics Dates Are Told

With the arrival of spring always comes the threat of a rabies outbreak, and Dr. R. L. Hall, health officer, and his staff of the Floyd County Health Department, realizing the dangers of such an outbreak, have scheduled rabies clinics a little earlier this year. The health department again this year, has acquired the services of Dr. Beecher L. Seuthfield, licensed veterinarian, to conduct the clinics. The health department, in trying to take this service as near as possible to the people, has scheduled clinics in practically every community within the county. A complete schedule of these clinics will appear in this newspaper next week. The clinics will start Monday, May 13, and continue through Tuesday, May 28. All clinics will start at 4:30 p.m. and continue through 7 p.m. This will give those who work an opportunity to bring their animals to the clinics. The cost of the immunization will be \$1.50 per animal, and will minimize the animal for this year.

Corvair Motor Club Coupe

Who needs muscles?

Do you know how easy it is to take a corner with a Corvair or park and turn this new super-sleek car? And it will give you a pretty good idea. The wheel handles just about that easily.

The Corvair's engine is in the rear, so you see for not only greater traction but more balanced weight distribution. And that's what makes the steering so completely effortless.

The engine is cooled, too. No radiator. No water or antifreeze. No boiling over or freezing up to worry about. It takes the weather and the terrain as it comes.

But you had better hurry before somebody muscles in ahead of you. Spring's here. Summer's coming fast. And with these sporty good-looking Corvairs selling the way they are, he who hesitates will want to kick himself.

Fires Floyd might be 100 as a result of the current wage dispute between the United States Wootton and operators, was that of the Elk Horn Coal Corporation at Wayland where, 800 miners did work this morning. Floyd county dump growers, helping to supply America's wartime need, after the Japanese captured our best source of imported fertilizers, are seeking a goal of 400 acres this year. Last obstacle to the purchase of the Prestonsburg Gas Company by the city of Prestonsburg was removed last week when the transaction was approved by the Public Service Commission at Frankfort. Attempts of Mrs. Catherine Nolan, 71 years old, to extinguish a flaming curtain in the home of her daughter, Mrs. Melvin Allen, near Garrett, Sunday resulted in burns which proved fatal here Monday. Floyd county is definitely "over the top" in its drive to reach the \$485,000 quota assigned it in the nation's 413 million War Bond campaign this month. The Floyd circuit court grand jury adjourned Wednesday noon with a final report in which it took notice of "certain officers of the law, assuming them for a general effort to cover up the true conditions of public cases in this county, particularly bootlegging." A sanitation report of Floyd county schools made by Oaten Brown, state area sanitarian, shows that unsanitary conditions exist in an alarming degree in the county schools, with only 25 percent having safe water supply and an adequate disposal system. For his rescue of a three-year-old child from the path of an oncoming passenger train, Glenn L. McComas, 25, Lima, Ohio, formerly of Elders, in this county, has been awarded the Carnegie Medal for Merit. The firm of Akers & Akers, of Banner, successful leaders on construction of the county high school building here, with a bid of \$888,241.47, is expected to begin work on the structure in a week. Members of the Big Sandy Valley delegation were highly encouraged Tuesday by the senior of the meeting held before the Senate Public Works subcommittee in the matter of river construction. TO SPIKE A FALSE RUMOR

Last Sunday, my opponent, Hollie Conley, and some of his supporters spread a false rumor pertaining to my nomination papers. They rumored that I would not be on the ballot on account of a defect in my papers. These rumors are false and without foundation in law or in fact. The County Court Clerk, possibly through unintentional oversight, did not sign my papers on the proper line after administering an oath. This oversight is unimportant, and can be and will be corrected in the time. In fact, the law does not require an oath at all.

My opponent did not believe these rumors himself. Otherwise, he would stop campaigning if he thought he was getting elected your judge that easy.

What do you think about a crowd that will resort to false rumors in an effort to get the highest and most important judicial office in our county?

I ask my friends to spike these false rumors, and continue to wage the good fight against the forces of evil.

Faithfully yours,
EDWARD P. HILL

WHY WE ARE FOR BILL REYNOLDS

We, the friends of Bill Reynolds, want to take this means of stating why we are supporting him for Representative of the 95th Legislative District. Mr. Reynolds has for many years devoted himself to various civic causes in Floyd county without any compensation whatever except the satisfaction of serving his people. It was he who sparked the drive to raise \$100,000 to buy the Community College site here and under his leadership as president of the Floyd County Parent-Teacher Association Council the new Garth-Vocational School is now being built.

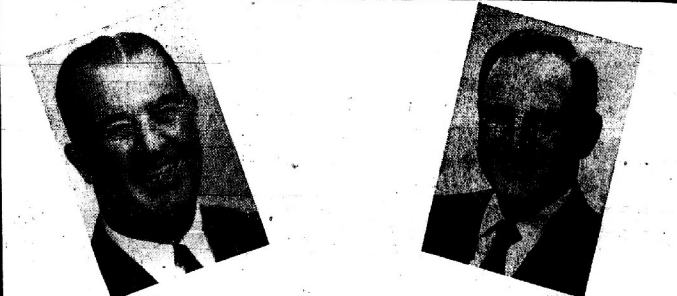

His leadership as head of the P-T-A. Council has resulted not only in the construction of the Garth Vocational School but the group has brought about many accomplishments, among them the renovation of classrooms at various schools. He feels that the children of our area are as entitled to educational opportunities equal to those of Lexington and Louisville.

Mr. Reynolds served as chairman of the Finance Committee of the Big Sandy College Development Association and by working with 3,000 other participants, raised the necessary amount to insure the purchase of the college site and the construction of the institution will soon be started. The hundreds of boys and girls, who will attend Prestonsburg Community College and Garth Vocational School will have a greater opportunity due to the dedicated efforts of Bill Reynolds.

We urge you to join with us in supporting him not only because of his civic accomplishments in the interests of our people but because he will continue to dedicate himself to the job of making a better and greater Floyd county. Not only that but he is sober, honest, a man of dedicated purpose and with high ideals of integrity. He has nothing whatever to say against his opponents and will not indulge in mudslinging. He expects to win upon his merits.

Again we urge you, in the interest of our children and all our people, to vote for Bill Reynolds for Representative.

GOVERNOR COMBS REDUCED TAXES ON 8 MILLION BARRELS OF WHISKEY YET OPPOSES REMOVAL OF 3% SALES TAX ON FOOD, MEDICINE, AND CLOTHING.

Recently Governor Combs reduced the value of whiskey in barrels for tax purposes from \$28.00 per barrel to \$27.00 per barrel. This means a reduction in taxes for municipal, county and school districts of 8 million dollars. We submit that an empty barrel is worth approximately \$27.00. This is a wind-fall for the whiskey industry. Governor Combs is urging you to support his hand-picked candidate for Governor—Ned Breathitt—who has promised to continue the program of the present administration which would include tax favors to the whiskey industry.

We ask you in all fairness if it is right for Governor Combs and Ned Breathitt to reduce the tax on whiskey and yet oppose the removal of the 3% sales tax on your bread, meat, potatoes, medicine, clothing, and diapers??

We urge you to support "Happy" Chandler for Governor who will relieve the people of these unfair tax burdens and will not favor the whiskey industry against the welfare of the people.

Farm families alone lose about 800 lives and \$163 million worth of farm property through fires each year. Annually, about 11,300 farm residents are killed and 950,000 injured in accidents. A general clean-up of homes and barns will help remove many of the hazards that cause fires and accidents, they note.

DeROSSETT APPEALS TO VOTERS

To the Young . . . To the Old . . . To the Veterans:

I am a son of John Derossett and Anna Cathann Derossett of Bull Creek, a lifelong resident of this county. My father is now 82 years old. He is a former teacher and former employee of the Kentucky-West Virginia Gas Company. He is a lifelong resident of the county and a life member of the Regular Baptist Church.

I was born in 1922, attended our local schools, served in the U. S. Army 5 years in the European Theatre.

I do not make any hero's claim but I was awarded the Bronze Star and five Battle Stars, one for the Normandy Invasion. I am a member of the Free Will Baptist Church.

My family connections include many well-known Floyd county names, to mention a few: Cathann, Lafferty, Robinson, Rowe, Mayo, Rorrer, Wallen, Shepherd, McGuire, Sizemore, Meadow, Miller, Stone, Warrick, Tussey, Parrott, Wells, Thornsberry, Webb, Montgomery, Flannery, Sprigg, Hall, Mosley, Peters, Anderson, Sammons, Skeans, Smith, Ellis, Prater, Moore, Nelson, Ousley, Patton, Sparlock, Baisden, Baldrige, Banks, Hicks, Bingham, Blackburn, Burchett, Conn, Crisp, Crum, Davidson, Dingus, Dotson, Ford, Frasure, Howard, Hubbard, Bayes, Campbell, Clifton, Scotchfield, Barnett, Younce, Gunnell, Merritt, Ramey, Garrett, Goble, Gray, Harmon, Hayes, Herald, Holbrook, Hobson, Layne, Horn, Jarrell, Marshall, Osborne and Clark.

This is my first time to ask for a public office and I do now, knowing that I can perform the required duties, and I will go beyond that call and establish a Driver-Training Program in every Floyd county high school. I believe Floyd county owes this to our younger generation. It will eliminate many highway accidents.

I trust your good judgment and beg to remain your friend.

Superintendent Clark Speaks at Club Meet

Wayland, Ky., April 29 (Spl.)—"You must be objective in assessing your own personality," stressed Charles Clark, Floyd county superintendent of schools, speaking on "Self Improvement" last Monday evening to the Lackey-Garrett-Wayland Woman's Club.

"There are some personality traits that lead to success and without which you cannot be a success," he said. "We must see ourselves as others see us," he quoted from Robert Burns.

- Mr. Clark further listed the following ten questions for his listeners to ask themselves in evaluating their personality traits:
1. Do you have the ability to assess your own shortcomings?
 2. Are you big enough so that you are not blind to your own situation?
 3. Do you think positively?
 4. Do you accept the fact that others are your equals?
 5. Do you have a pleasing voice?
 6. Have you cultivated the habit of listening?
 7. Are you constantly agreeable, or do you gush and frown alternately?
 8. Do you hold grudges?
 9. Can you laugh at yourself?
 10. Do you have the strength and determination to defend your position on what you think is right?
- "If you can answer 'Yes' to these questions, then you are a well-rounded personality. If not, else, there is room for improvement," warned the speaker. Concluding, he pointed out that wealth and authority are two basic tests to prove the real character of a person.

Prior to Mr. Clark's discussion, Mrs. J. T. Spillman conducted a brief devotional period. Her subject was "Worry." Mrs. Spillman pointed out that when we realize that life itself is more important than the things this world can bring, our worries will diminish. After the program, a business session was held during which the current officers were re-elected for the coming year. They are Mrs. S. M. Martin, president; Mrs. Fred Hall, vice-president; Mrs. Arnold Cooley, recording secretary; Mrs. Glenn Pack, corresponding secretary; Mrs. Mary Dixon, treasurer; and Mrs. J. C. Wells, building treasurer. The installation breakfast will be held Saturday morning, June 1, at the clubhouse, Wayland.

At the conclusion of the meeting refreshments were served by the hostesses, Mrs. Arnold Cooley and Mrs. Charles Hornaby.

CARD OF THANKS
We wish to express our deepest thanks and appreciation to all our relatives, neighbors and friends for being so kind in our time of trouble, during the loss of our son, Marcus. Especially, our thanks go to our minister, the ones who sent flowers and food or helped in any way, and to the Hall Brothers Funeral Home, for their sympathetic cooperation.

TOTAL PERFORMANCE:

IF YOU KNEW WHAT HE KNOWS...YOU'D BE DRIVING THE 1963 TOTAL PERFORMANCE FORD

Ford is nationally the nation's Number One police car. The reason? Total Performance!

When it comes to cars the police don't take chances. Put yourself in a State Trooper's shoes. Every day you must patrol hundreds of miles in your cruiser. Mileage and time grind into a man and his machine. But when the bell rings you've got to be ready. Chase. Turn. Corner. Quick stop. You've got to be able to do it all. It's your going to do your job.

Listen to a trooper list the reasons why he prefers a Ford and you will soon know that it is not only a car to measure up to his standards. The car must be strong . . . it has to stand up to his abuse. It must be stout . . . when you practically live in a car a rattle can sound like a kettle drum. It must be swift . . . powerful enough to catch any car on the road. It must be sure . . . dependable even in the face of the unexpected. Strong. Silent. Sure. Save. A four-word outline of total performance. The police demand it. That's why they choose the total performance Ford. Why should you settle for anything less?

Whatever your special demand, and needs, the total performance Ford is the car most likely to satisfy you all the way down the line. You can't lose this for yourself.

First, look at Ford's outstanding record in open competition. This year in the grueling Daytona, Riverside and Atlanta 500's, and in the demanding Pure Old Performance Trials. Only a car with total performance could hold up so many impressive wins.

Second, before you buy any new car, test-drive the solid, silent Super Torque Ford. If you haven't driven one lately, you can't really know what a new Ford is like. Make this important discovery. If it's built by Ford, it's built for performance . . . total performance.

CARROTS PROMINENT

Carrots first gained prominence as food because of their supposed medicinal value, according to USDA's Agricultural Marketing Service. Ancient Greek physicians, for example, considered carrots a valuable stomach tonic. The carrot was cultivated in the Mediterranean area before the Christian era and reached the orchards and gardens of Germany and France by the 13th century. It appeared in England by 1601 as a farm crop as well as in gardens.

HAMILTON FAMILY

A letter from Emory L. Hamilton, Box 481, Wise, Virginia, inquires for information on James Hamilton, our Virginia correspondent's father, on James, who was married some time after 1830.

A cursory glance at records shows no James Hamilton marrying in Floyd county prior to 1830 but to James who married Patsy Tully in 1830.

Mr. Hamilton, an accomplished genealogist and a teacher in the West Virginia schools, would appreciate information on this branch of the Hamilton family.

Low Temperatures Damage Many Evergreen Shrubs

The unusually low temperatures of December and January caused considerable damage to many of our broad-leaved evergreen shrubs and trees. Some of our more tender deciduous shrubs and trees also suffered from the cold. The total extent of the damage is just now becoming recognizable.

Don't get in a hurry to cut into these damaged plants until their time for growth to start in some cases wait until the new shoots are from one to three inches long. Often, pruning will reduce the plants' chances of recovery if they have badly damaged tops.

Where cambium (bark) is completely killed around the trunk, a tree or shrub, growth may start from an apparently normal main stem. Most plants do not have the ability to regenerate the cambium. Most plants do not have the ability to regenerate the cambium.

It is no sign that the plants are dead even though the leaves of broad-leaved evergreen shrubs and trees are mostly or fully killed. Pruning on these plants should be delayed until the extent of the damage can be fully appraised.

Where cambium (bark) is completely killed around the trunk, a tree or shrub, growth may start from an apparently normal main stem. Most plants do not have the ability to regenerate the cambium.

However, most of the late flowering shrubs are usually cut back severely every spring anyway, and a little delay in their pruning needs to be done. These include butterfly craps, myrtle, and snowball hydrangeas among others.

Probably those grown as a bush will be more likely to survive. The usual time to remove the top is in the spring when new growth is just beginning to appear.

If you should be able to appraise the damage to roses now, or very soon. The winter of 1961-62 was our hardest in our history in Kentucky. Unless adequate winter cover was provided last fall, severe damage will be evident now.

SAVE OUR SCHOOLS

NOW IS THE TIME FOR PARENTS AND TEACHERS OF KENTUCKY TO UNITE IN THE FIGHT FOR THE CONTINUED PROGRESS OF EDUCATIONAL OPPORTUNITIES FOR OUR CHILDREN.

We, as teachers, would ask you parents to visit our schools—talk to the principals and teachers, and let them show you the progress that has been made in the past THREE YEARS. Visit the classrooms and see the effort being put forth to enable your child to compete in this Modern Age. Visit our science departments. See the equipment and work being done there that was not possible three years ago. Visit our English, Social Science and Mathematics departments and see for yourself what has been and is being done.

We have been able to add a fine testing program along with an excellent guidance and counseling program directed by capable teachers.

Can we as parents and teachers allow a group of men, who would for their own personal gain, destroy the opportunities that our children have now, and will continue to have for an education?

The TEACHERS OF KENTUCKY are united and have pledged themselves to fight for equal educational opportunities for your children and ours.

We have pledged ourselves to support the candidates for public office in our state and county who will support the LEGISLATIVE PROGRAM proposed by the K.E.A.

We are asking you, MOM and DAD, to join us in this fight for the welfare of our children, our most precious resource. VISIT OUR SCHOOLS. Talk to your neighbors; tell them of the importance of this issue.

WATCH SWEET BEVERAGES

During hot weather when adults and children drink more fluids than usual, a drink of water helps body water losses without adding calories. This adult or child who is less active than usual in hot weather does not need the extra calories of sweet beverages. Excessive use of sweet beverages also tends to spoil the appetite for well-balanced meals.

To The Voters Of The 98th Legislative District

I am asking your support for my Daddy, A. J. CONLEY, for Representative at the May 28, 1963 primary election.

I am recovering from two serious heart operations—one on Dec. 20, 1961, and open heart surgery on May 4, 1962. Just before my last operation, my Daddy had to get 23 pints of blood before I could have the surgery. I want to thank the people who helped do this for me.

I am still under the care of doctors at Louisville, Ky., and have an appointment for a check-up May 22. I have been going there four years. As you all know, it takes a lot of money to pay these expenses. My Daddy doesn't have any job or income and has our home mortgaged. I am a freshman in high school and have my mother to care for me, just a father.

A vote for my Daddy will be a vote for me. He is a candidate for the Democratic nomination for Representative at the May 28 primary election. I will appreciate your support of my Daddy in this race.

L. T. is Lowell Hughes, of Prestonsburg, Floyd county, son of J. T. Hughes, owner and operator of Hughes Motor Co., Cadillac dealer in Prestonsburg, a friend and supporter of the Combs Administration, and is the son-in-law of A. M. Howard, of Howard Wholesale, Allen, Kentucky.

The records at the University of Kentucky will show that Lowell was a full-time law student during all the period set out and the Department of Revenue had him listed on their payroll as Field Representative.

How many of you students have had to work part-time and borrow from your relatives and home-town banks to go to college???

Maybe you could have qualified for a job like this had you lived in the Governor's home-town and your father was a Cadillac Dealer and worth over One Hundred Thousand Dollars. The Administration's Candidate says he approves all the Combs payrolls — the only thing he needs is keep the Sales Tax on Food, Clothing and Medicine so that they can continue the payroll padding. This is not an isolated case, just one of the many hundreds, in the state of Kentucky.

Too many people in Kentucky do not realize the great amount of wealth that is brought into a community by the creation of new fishing waters. They have, down through the years, taken fishing and its returns as a matter of fact without even giving thought to the business end of this art. They are not aware that hunters and fishermen in Kentucky each year spend an amount equal to about one-third of the annual cash value of the Kentucky burley crop. They do not know that money spent by local and visiting sportsmen totals well above \$6 million dollars each year and, therefore, they are unaware of the vast revenue that is forthcoming, especially to the people of those areas where good fishing waters are available.

The Department can point with accuracy to better living conditions that have been created in given areas merely by the creation of new waters. Take, for instance, the area around Kentucky Lake: Only a few years ago the economy of this area was very low, with most of the residents relying on revenue from farming practices to supply their needs. Today fine motels, hotels and restaurants dot the landscape and these have resulted in a civic pride that has caused residents to build better homes and barns and fences. And because of this influx of new money those residents have higher incomes and can afford the better things of life.

The Kentucky Lake area is but one of many examples.

There has been created a relatively small lake in Central Kentucky and as a result of that lake residents of several counties in the

area are benefiting. Boat dealers sold a greater number of boats and motels and restaurants offered better menus. As a result of new people, gasoline stations took on a new look and not only offered their products in a more attractive manner but also gave out information on fishing and fishing conditions.

Most violators are committed by persons who are not acquainted with the rules and regulations covering a given field of operation. For instance, there are those who are arrested or cited for driving their car in an unlawful manner, but who, because they are unfamiliar with the rules and regulations governing that particular phase of operating a car. In the field of fish and wildlife there is no doubt that many of those arrested are conscientious, law-abiding citizens, but they do not know the rules and regulations that govern the various species of game and fish, simply because they do not know what they can or cannot do.

This again points up the phrase that has been heard so many times—ignorance of the law excuses no one. We have had for years and it is as true today as it was 100 years ago. If a person is to drive a motor car, or operate a grocery store, or fish or hunt or take refuge, then he should be acquainted with the rules and regulations that are designed for that particular phase of living.

If a basketball player becomes a star he must be familiar with the rules of the game. A baseball player, although he may be the best arm in the national pastime, would not get far if he did not know what to do or where to go in the pitcher's box. The same is true of a team that did not know how to legally use his bats. And if these athletes are "found guilty" of any of these offenses, they are punished for committing a violation. They should have known the rules.

We realize that many laws are enacted by the chronic violator. How the type who have had as much as he can get away with and most often after he is apprehended and pays, perhaps, a fine, he'll return to the streets and will continue to commit the same infraction of the rules. For him it is no ignorance of the rules, but that he was just born into the violation. A fellow who believes the laws were made to violate.

We sympathize with those who violate the game and fish laws through ignorance. But it is their responsibility to acquaint themselves with the rules of the game before they practice. Otherwise they are sure to be caught off base and they must pay the penalty.

Babe Ruth, Connie Mack Baseball Leagues Meet; Officers Re-Elected

Garrett, Ky., April 29 (Sp.)—Representatives of several towns in Floyd and Knott counties attended the meeting of Babe Ruth and Connie Mack baseball at Garrett last Thursday night. Attending and entering teams for their communities were: Paul D. Hager, Prestonsburg; Rudell Wickert, David; Carlos Watkins and Ova Simpson, Hindman; David Osborne and W. C. Smith, Wheelwright; Edd Stewart, Martin-Maytown; Day Crisp, Allen; Cost Messer, Joe Gayheart and Shelby Draughn, Garrett.

All officers were re-elected for the coming season. These are: Shelby Draughn, Garrett, president; Carlos Watkins, Hindman, vice-president; Paul D. Hager, Prestonsburg, secretary; Rudell Wickert, David, treasurer.

Two teams that were in the league last year, the Auxier Braves and Wheelwright Millers, did not enter this year. A new team from Allen entered the league to bring the teams to seven for the year. It is still possible for other teams to enter the league if they so desire. Any one interested should contact the League president.

Three communities are interested in Connie Mack this season. So the Floyd County Connie Mack League was formed. Garrettsville, the league's headquarters, will enter a team. Each other team in the county or an adjoining county is needed to complete the League. Connie Mack Baseball is for 16, 17 and 18-year-old boys. With Connie Mack, there will be baseball for boys from 8 years to 16 for the first time in Floyd county.

The two leagues will hold their next meeting Sunday, May 5, at 4 p.m. in the Garrett school building. The session schedules, birth certificates of boys and other items will be on the agenda. All people interested in baseball for all age groups are urged to attend this meeting.

MISS MARY ANN MARSH TO VISIT IRELAND AS IFYE

Lexington, Ky.—Mary Ann Marsh, Jefferson county, will be one of Kentucky's 1963 International Farm Youth Exchange (IFYE) delegates, according to an announcement made today by Boyd Wheeler, UK Extension 4-H field agent who is Kentucky's state IFYE program leader.

IFYE's spend about six months living with families in their host countries. They learn how the people there live by actually living as a member of the family on a dating part in the everyday life of their hosts. They tell their host families about life in the U. S. and, when they return home, they give many talks about life in their host countries and about their experiences while living with families there.

Horseback riding will be available this summer at 10 Kentucky State parks.
