Change of Plan **Delays Dredging**

Work To Await Lake Drawdown About Nov. 1st

The dredging phase of the \$880,000 improvement work at the Jenny Wiley boat dock on Dewey Lake may be delayed because of a change in plans for the removal and disposal of sediment from the boat dock harbor and the necessity of awalting the lake drawdown before the work can be begun.

Originally, It was planned to pump the estimated 12,000 cubb; yards of sit from the dock is located to a waste area to be prepared in a hollow, a short distance upstream from May Lodge. But the sub-contractor who was equipped to do the work could not begin operations imcontractor who was equipped to do the work could not begin operations im-mediately, and the plan was changed to improve the harbor by dredging and to haul the sediment to a dumping area

Park Superintendent George Barker Park Superintendent George Barker and intitud fredging in the shallow head of the Cove will be begun as soon as the lake drawdown by the U. S. Army Corps of Engineers begins, but Dean Murray, becopys in anager of Dewey reservoir, said Friday that the drawdown will not start before Nov. 1. He added that the lake level will be reduced slowly, perhaps over a period of 20 days, in order to prevent the loss of fish.

The visitor looked out the window and remarked, "See the Bonus Marchers". I saw only two elderly men walking past and confessed my ignorance. So my visitor explained:
"Any time old geozers like us or those two get one foot ahead of the other, it's all a bonus. Bonus Marchers, that's us."

If you've ever seen these trees on our mountainsides at this time of year, there's no need for me to describe them for you. If you haven't seen them, there's still no need—you wouldn't believe it.

Plus Extension

The \$500,000 HUD grant to the Beaver Elkhorn Water Distriet will be used not only for extension of the water system to serve the town of David and vicinity but also to hook onto the water maintained to have paid deposits and have been without water service.

In all, the proposed work will receive \$500,000 in federal funds, with the Appalachian Regional Commission adding \$200,000 to HUD's \$500,000.

The two magistrates attending Friday's special fiscal court meeting—Bound to magistrate the point that the connection of customers who have paid deposits for the service must be assured if the court is to disburse, or agree to the disbursal of, HUD funds on the extension work. But there was no argument on that point. Both J. C. Wells, manager of the sprawling water system, and the both J. C. Wells, manager of the sprawling water system, and its engineer. W. H. Kennoy, agreed to the need for hookup of those who have paid for the service.

Lack of funds has been the main problem in early days of the system operation. The system is not at this time making any money, Mr. Wells said.

Hoffman Scores State 'First' As Stripmine Permit Voided

John S. Hoffman, secretary of the Department for Natural Resources and Environmental Protection, Monday revoked the permit to strip-mine Poor Bottom hollow in Pike county, and thus may have recorded a "fars" in surface mining history. In Kentucky.

The revocation was said to have been the first ever made in the state. Revoking the permit, Hoffman overrode an earlier ruling by a hearing referee who refused to hait the Poor Hoffow operations to the the Poor Hoffow operations to the American Poor Hoffow operations to the American Poor Hoffow operations to the American Poor Hoffown by the Applaichian Research & Defense Fund, headed by John Rosenerg, of Presionsburg, Hoffman's decision, in turn, could be subject to appeal to the Franklic riccuit court.

Dozers and other heavy equipment at work at Allen, scene of 18-car derailment, moving coal spilled from gondolas and clearing wrecked cars from the right-of-way.

Damage estimated in excess of \$200,000 resulted from the reck of 18 gondolas of a Chessie System coal train last Thursday night at Allen.

An estimated 1350 tons of coal were spilled from 16 cars which overturned, and the wreckage was not removed and track repaired for a period of 22 hours.

Some of the coal cars were twisted beyond repair. Charles F. McDavid, trainmaster at Martin, said the wreck was the result of "equipment failure."
Railway company employees and the Donahue Wrecking Service, Barbourville, W. Va., operating winches and heavy moving equipment, worked to clear the wreck scene.
No injury to trainmen resulted.

Spare Us More Laws

Governor Carroll's statement to the effect that not more strip-mine laws but the enforcement of those already enacted is Kentucky's need makes sense to us. Kentucky law has already prohibited surface mining on slopes steeper than 27 degrees. It has taken into account the pollution of streams and the reclamation of the dislurbed earth. The state's laws governing surface mining are among the strictest in the nation.

But if anybody has ever said that Kentucky's enforcement of those laws has been strict, we failed to hear it. Yet it has without

those laws has been strict, we talled in leaf II. Tell II has will hook doubt improved.

Forfunately for Kentucky, many operators, whether out of fear of the law or in answer to their own consciences, are making an effort to reclaim the land over which they have worked and to prevent the ruin of streams.

Yet hundreds of "orphan spoilbanks"—not really orphaned but yet how who fathered them—remain for the taxpayers

Yet hundreds of "orphan spoilbanks"—not really orphaned but deserted by those who fathered them—remain for the taxpayers of this state to care for, if they are ever to return to anything approximating the state that nature allotted them.

What dismays us is this inescapable fact:
Wherever and whenever any individual or group is permitted to flaunt the law without penalty, there is at least one public official who is a partner in the crime.
New laws are not needed for surface mine control. New laws are not needed for control in any phase of American life. Enforcement of the laws that are now being ignored is, essentially, all that we need and all that the public should demand.

Miss Hopson-Mr. Schwanebeck Wed

The wedding of Miss Elizabeth Ann Hopson and Mr. Frank Jarrell Sch-wanebeck was solemnized Saturday evening. October 18, in the Whitfield United Methodist Church in Savannah, Ga by the Rev. J. Cohen Arms.

Ga by the Rev. J. Cohen Arms.

Miss Hopson is a daughter of Mr. and Mrs. Claude Hopson, of Thunderbolt, Ga., and Mr. Schwanebeck is a son of Mr. and Mrs. Harold C. Schwanebeck, of Savannah, Georgia.

Given in marriage by her father, the bride wore a formal gown of candielight silk organiza of Victorian styling. The bibbed yoke and long tapered sleeves were of French Princess lace accented with pearls. Ruffles outlined the yoke, neck, and cutifs, and the full skirt flowed into a long cathedral train. A deep flounce of lace encircled the hem line. Her fingertip veil of illusion was sedged with Cluny lacefield by a Camelot cap of the same lace accented with pearls.

Mrs. Harold Schwanebeck, Jr., of Savannah, Ga., was matron of honor, and Miss Lisa Foreman, of Thunderboll, Ga., was mat of honor. Bridesmaids were Miss Carol Pigott, Miss Cathy Arms, Mrs. Gwen Rycroft, and Junior bridesmaid was Miss Rene Thomson, all of Savannah, Georgia Miss Sherri Cowart was flower girl, and bear of the Savannah, and the Miss Cathy Arms, Mrs. Gwen Rycroft, and Jeff Bizzell Following a reception at the church, the couple left for a wedding trip to Gatlinburg, Tennessee. They will reside in Thunderbolt, Georgia.

The bride is a granddaughter of Mr. and Mrs. Buck Hopson, of Prestonsburg, and of Mrs. Elizabeth Thomson, of Thunderbolt, Ga., and the late John Joseph Thomson.

Autumn Beauty in Kentucky

Autumn Beaut

By HELEN PRICE STACY

There are poets who have said that autumn is a beggar, but do not be misled by its poverly any more than many were about Appalachia's buried wealth. Beggars need not always be as poor as Job's turkey.

Although much depends upon the eye of the beholder, how could a field of autumn cornstalks be called poor when shafts of sun play up and down the rows, turning common statks into uncommon beauty.

This is the gold season: the dull and tawdry gilded by sun and shadow, the gawdy and overbright dulled into subduced legance by frost and weather. The play of season and weather on things of the earth—especially in Kentucky with its many changes—might dull a field here and there, but at the same time to many flowers.

Throughout the Commonwealth, autumn has taken over and for those longing for a look at this magnificent season, the time is now.

Walk autumn's rich path, past oaks as rusty as a garden hoe and maples as bright as a flirt's ruffled skirt. Gaze at lives are the season and maples as bright as a flirt's ruffled skirt. Gaze at lives are the season and maples as bright as a flirt's ruffled skirt. Gaze at lives are the season and maples as bright as a flirt's ruffled skirt. Gaze at lives are the season and seas

Walk autumn's rich path, past oaks as rusty as a garden hee and maples as bright as a flirt's ruffled skirt. Gaze at wild asters, still avender blue, swaying beneath bright red staghorn sumaes Talk back to jarring crows on a boney ridge, but stop every now and then to hear squirreds cutting on nuis. Stop at tall milkweeds to scatter silvery fluff in sequined whitis and gather some pods for angel wings or tree ornaments in preparation for the season ahead.

ornaments in preparation for the season ahead.

Jump when you unwittingly frighten a rabbit from its home, but if you are quiet in this season of quietude you might come face to face with a deer, it be brown eyes more startled than your own.

Look at your feet, for there beneath your eyes is a soft carpet of leaves and the winder home. The concerning the wondering why you haven't been by sooner to pick them up for a table or doorway arrangement and bits of wood are ready for new showplaces.

Linger amid autumn and its magnificence. Sook up the reds, oranges, rusts, magentas and variances of color while you weave bright leaves into a bouquet.

If weeds and foliage are brown and spotted, think of them as the beautymarks on an otherwise flawless face—foils for other outstanding features.
If your thoughts wander skyward when

features.

If your thoughts wander skyward when you hear the droning of a plane, imagine what you could behold from that high window Hills in shades and tints of all primary colors with subtle hendings into secondary and even tertiary hues. Hills and meadows looking like glant bouquets and meadows looking like glant bouquets bouquets of handmade calico flowers. Autumn is not a beggar in the things that really count. There is an inner radiance that glows in sunshine, enough to list when the sun goes down Take a drive on Mountain Parkway or one of the other highways and interstates. See for yourself how this season of brown and beige is utterly beautiful in its crisp gown of changeable, rustling taffeta. And, when ravaged by the cold and other unkind elements, if the taffeta seems to be a bit worn, look beneath, for autumn will be wearing a flirty petiticoat complete with scarlet ruffles.

Wanted—Ideas on Promoting Kentucky

These are some of the logos and slogans used in the past by the Department of Public Information to promote Kentucky. The department is conducting a publicity campaign to recruit citizen to promote Kentucky. The department is conduct participation in selecting a new logo and symbol.

A campaign to recruit citizen participation in selecting a new slogan and
logo to promote Kentucky's \$850 million
tourist industry was launched today
(Wednesday) by the state Department of
Public Information.

"The old symbolis and slogans we have
used, "Call of Kentucky," with the
trumpeting jockey and "Rediscover
Kentucky," have served us well, but now
a fresh approach is needed, "said James
C. Vernon, commissioner of the department.

"We're searching for complaint above."

usual his year—armin the latter part of July Some say this is a sign of a hard winter Great flocks of them settled on the wires and spent a few days training their young for the long and ardusual their young for the martins until the latter part of March 1978.

So you have plenty of time to get your martin house roudy. If you make a new one, put it on a pole about 12 feet high. If your box has been used this season, clean it out and dust it with sulphur to kill the mitter. If you use a wooden pole for your box, he sure to place guards on it to keep the blacksnakes and cats from climbing it. Martins greatly fear these snakes, and when one climbs the pole and swallows their young. They will not come back to the same place next year. Do not put up a martin box near free, as martins like to have a word high of their sound they have a word to the same place next year. Do not you have a word will fight these victously, should they come ton near the next.

Be sure to protect your martins against rowing cats. These predators will capture and kill the adult martins if they can get up the pole to the next.

Our mosquito problem seems to grow worse, with the spread of sleeping sickness. I truly believe if all rural families would provide houses for the inattins this would go a long way in helping to control these dangerous pests. By JEANNE BECKETT

To Tell McCoy Side of Feud

Piecing together the history of the Halfield-McCoy feud. Paul McCoy (left), a great-grandson of Randolph McCoy, famed leader of the McCoy family during one of Eastern Kentucky's most colorful eras, and Dr. Leonard Roberts (right), director of the Pikeville College Appalachian Studies Center, scour maps to determine points where parts of the feud took place. "Goling, Soing, Sone" are the words that
aftract anyone in search of bargains or
unusual merchandise unobtainable in a
retail store. All of us would like to get
the buy of a liteliume" at a nominal
price. But, the informed consumer
should approach autoin buying with an
eye toward facts and practicality.
Before you arrive try to find out all
you can about the auctioneer and his
merchandise.

you can about the auctioneer and his merchandise:

—Does the auctioneer have an established reputation in his field?

—Do the claims made in the advertisement sound valid or are they "a little too good to be true?"

—Check the validity of estate auctions. Find out if the goods are being sold, or consignment or if it is a collection of merchandise bought to be sold at a profit. When you arrive at the auction, closely examine the merchandise and:

—Be warp of claims of "original" artworks and museum pieces.

—Be skeptical of written appraisals presented by the auctioneer. If you are not familiar with the appraiser if would be difficult to know whether or not the 'prices stated were correct.

When the auction starts, observe the

activity. You should:

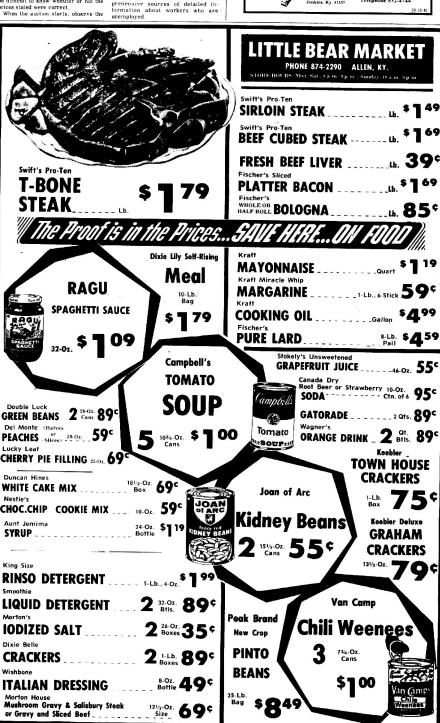

—Watch for "buy bidders" who are placed in the audience to increase the bidding.

—Notice whether the merchandise is being sold for substantially less than the

—Notice whether the merchandise is being sold for substantially less than the auctioneer states that it is worth —See if the auctioneer points to the irregularities and flaws of the merchandise as well as the attributes. The most important consideration is you—the buyer. Sel limits on how much you are willing to spend. Determine what type of goods you want to buy Don't be an impulse buyer. If you are well informed and exercise self-control, auction buying can be an enjoyable experience. I Met My Master

"I had walked life's pathway with easy

followed where comfort and pleasure led;
And then it chanced in a quiet place,
I met my Master face to face.

"I had built my castles and built them

With their towers that pierced the blue of

the sky
I had sworn to rule with an iron mace,
When I met my Master face to face.

"I met Him and knew Him and blushed to

That His eyes, full of sorrow, were fixed

on me And I failtered and fell at His feet that day While my castles melted and vanished

Melted and vanished, but in their place I saw naught else but my Master's face. "And I cried aloud, "O, make me meet To follow the marks of Thy pierced feet."

My thought is now for the SOULS OF

MEN.
I've lost my life to find it again.
E'er since alone in that holy place,
I met my Master, face to face." -Unknown

Frankfort, Ky—Most strip mine operators in Kentucky reclaim the land they disturb and therefore don't forfeit their reclamation bond.

An Southerstein Kaifeld to reclaim its strip-mined land, presenting a new wrinkle in a changing reclamation bonding picture.

The now detunet company, which operated during the coal boom of 1970-71, abandoned some strip-mined areas in Laurel and Rockcastle counties.

This action by the Michagina company has led to the first lawsuit filed by the state to force collection of a reclamation bond. The Kentucky Department for Natural Resources and Environmental Protection and the state attorney general have sued Citica Mutual Insurance Co. of Utica, N. V., for forfeiture of \$9,000 in strip mine reclamation bonds. Utica Motal Took According to the suit filed in Franklin circuit court, the department's reclamation division sent bond forfeiture notices to the insurance company in 1873. Ken Ratliff, acting director of the division of reclamation, said the Utica, N. Y. company is the first to refuse to pay the reclamation bond. "We had some foot-dragging before," said Ratliff, "but this is the first refusal."

Ratliff said the department forfeits bond when a mining company moves its equipment offa job before reclamation is complete. "Often if we threaten forfeiture, the company moves the equipment back and reclaims the area.

complete "Often if we threaten for-feiture, the company moves the equi-ment back and reclaims the area Sometimes, the bonding company ap-plied pressure to get the reclamation done," said Railfi. "Most don't force us to forfeit their bond." Last year a bout \$43,000 in reclamation bonds was forfeited to the state When bond on strip-mined land is forfeited, It is placed in a special bond account. The state advertises for bids to

claim the land, then issues a contract

account. The state advertises for bids to receilain the land, then issues a contract to a low bidder and pays for the reclamation out of the bond account. Until 1974, the maximum bond allowed by state law on an acre of strip-mined land was \$1,000 Dure to firing costs of raised that maximum to \$1,500 bids. Since then, the average bond on an acre of strip mined land has risen from \$500 to about \$800 Higher bond is required for hard-to-reclaim areas. Hatfliff said the bond that was established several years ago is not enough to pay for the reclamation of abandoned strip-mined areas today. However, he said the new bonding rates should cover the expenses. No strip mines, bonded under the system of laggher rates, have yet forfeited their bond, said Rathiff.

Earle Combs: "Country Gentleman" of Baseball

ONE OF THE 1927 YANKEES-Kentucky's Earle Combs, far right, was the fleet-footed centerfielder for the New York Yankees from 1924 to 1935. Combs played alongside leftfielder Bob Meusel and the legendary. Babe Ruth, center. Combs says he believes this photograph was taken in 1927, the year Ruth set his long-standing record of 60 home runs. doctor's degree from his aima mater, Eastern, at the university's 1974 spring commencement.

Sitting in the farmhouse that looks like it came from the movie "Gone With The Wind," Combs proudly stated that throughout his baseball career, he had not been kicked out of a game. His wife chided him with, "You came very near it once, though." Combs laughed and recalled, "The umpire told me 'One more word and you're out of the baligame." I never said that one more word, though. "The Country Gentleman" paused, and then laughed and said, "I don't guess Leo Durocher would think too much of me for that."

Comba's on, Donald, who is the athletic director at Eastern Kentucky University, said that his father played a prank on Ruth one game, when Ruth was expecting Combs to help him cover right field.

"It was late in the season, the pennant had already been decided and in a rare situation the Yankees were getting beaten badly," Donald Combs prefaces his story. "Ali me drive was hit between center and right field. Ordinarily daddy would have run the ball down. But this one time, he took off running as hard as he could in the opposite direction of the ball. Permits Slump Again after Peak

Issuance of strip mine permits is decreasing during the early fall. During the past 12 weeks, the division of reclamation in the Kentucky Department for Natural Resources and Environmental Protection has issued an average of 24 permits a week. Compared to the 31-permits per-week average during the late spring-April, May and June—the lower issuance indicates a declining coal market.

The slump began in July when a total of 18 permits were issued for the month.

The slump began in July when a total of 108 permits were issued for the month. During the peak in June, 144 strip mine permits were issued of Kenneth Rathiff, acting director of the division of reclamation, believes fewer small coal companies that would normally speculate on a rising coal market just aren't getting into it. "Even some of the large companies," said Rathiff, "that can't find a market for coal have closed down and are waiting for the market to get better. When the coal market improves—probably in October or November—they'll work out their permitted areas and then apply for additional permits.

that we can occur response. The response of the people we serve," Harless said.

Boards of governors have been formed at Harlan, Middlesboro, Hazard, Whitesburg, and South Williamson, all in Kentucky, Boards are now being selected for ARH hospitals at McDowell and the Morgan County Hospital at West Liberty, at Man and Beckley, in West Virginia, and at Wise, Va.

In his report to the board, Dr. Heydinger cited several examples of ARH's "Continued sensitivity" for Central Appalachia's health care requirements.

He said ARH has converted extended

requirements.

He said ARH has converted extended care heds—for which demand has lessened—to acute care use in Hazard and Harland Alland and Harland Alland and Harland Alland Al

Reviewing the performance of the ARII system last year, Harless reported a 16.5 percent increase in out-patient service, a 147 per cent increase in service, and a 10 per cent increase in laboratory examinations. The hospital treated 42,151 in patients, four percent increase in laboratory examinations. The hospital treated 42,151 harless said ARII spent \$42 million–\$422 million for wages and salaries—during the fiscal year ending last June 30 and had revenues of \$41.5 million. A significant increase in expenses, he

significant increase in expenses, he noted, was a 37 per cent jump in the cost of utilities

notes, was a syper cent yunp in the cost of utilities.

The deficit of slightly more than \$300,000, the chairman said, was the system's lowest since 1970 and was considerable improvement when compared to the \$2 million deficit the Harless and a major factor in the deficit was the \$2.4 million in "free care".

The chairman said ARH, since its founding Oct. 1, 1985 has provided \$13.6 million in "free care."

Some Asians need your prayers during the bicentennial...

and your help.

Americans have a lot to thank God for During this country's 200th birthday, we're often reminded of that, In other parts of the world, many people have not had our prosperity, Right now, in Asia, millions of them are starving to death. Floods and earthquakes have left others homeless and penniless—and family-less. The God we worship expects us to help them. Join with others at your local church or synagogue and help make this world—and this country—a better place.

Welcome God to America's bicentennial... practice what you pray.

Let's Set the Record Straight for Martin

For the past eight years the Town of Martin has been moving forward. We are proud of the following accomplishments by the PROGRESSIVE TICKET and offer them for nevy more is consideration.

1. We have exemplified sound and efficient flacal responsibility for our town. We have not borrowed any money to promote our projects but have kept the town's business within its own means and income. We have spent money only as we have taken it in, and still we have been able to accomplish our goals and purposes.

2. We have not raised properly taxes in the past eight years?

3. The town is in good financial condition and we are not in debit.

4. We initiated and procured funds for the present Pederal Plood Control Project fee Martin. We also raised the funds necessary for the preliminary channelization of this project, WITHOUT additional taxes.

5. We planned and worked realously for the present Housing Project in downtown Martin for the elderly and disabled citizens of our town. It took several years of persistence and patience in working out this project with the proving several propers.

6. We accured the right-of-way to Bridge Street and elevated the road above flood level, which was a vast improvement for that part of our town.

7. We are paying our streets and building new sidewalks in town, which has helped substantially to improve appearances and conveniences for our citizens. Furthermore, the Floyf Fiscal Court has never provided any money for streets or roads in Martin.

8. We improved our law enforcement and protection of our town when the present city pollocent and the learner of the provided and substantially to improve community.

9. We have SUPPORTED and will continue to SUPPORT progress in our school system for our Martin Elementary School. With the addition of a new F. E. building and gynmanium, we shall continue to figh for the court of the proposed and system for our Martin Little League,

Some Past Accomplishments by Mayor E.P. Grigsby and the Progressive Ticket from 1951-1955 and the Present Administration of 1967-1975:

1. Bought the FIRST FIRE TRUCK for Martin at a cost of \$14,000, with no extra taxes or assess

citizens.

2. Bought land and built the present City Hall at a cost of \$16,000, with no extra taxes or assessments from citizens. This also included a better and more modern julif for prisoners.

3. Installed all the present modern street lights in Martin, with the exception of one that the Independents in-

stalled.

4. Bought one new and one used Fire Truck at a cost of \$20,000, also bought land and built a new addition to Town Hall for the fire trucks at a cost of \$6,000.

5. Reduced fire Insurance rates up to 50 pct. by purchasing the fire trucks and organizing the volunteer fire department.

TO THE CITIZENS OF MARTIN:

We would like to take this opportunity to clarify our position as related to the Water and Sewer Commission in our town. Since 1937 The Town Council lost control over the Martin Water Commission. A decision handed down at that time by the Court of Appeals, declared that a 3 man Water Commission would be established and the commission would operate independently from the jurisdiction of The City Council. The court estabhished the terms of these commissioners as 6, 4, and 2 years with the 2 remaining commissioners selecting the new commission to continually stay in office. The Water Commission to continually stay in office. The Water Commission, by law and statute, is solely responsible for the WATER and SEWER systems in our town.

The Mayor and Town Council are not responsible and do not control the activities and decisions of The Martin Water Commission.

Thank you.

Seven Conservation Workshops Planned

Workshops Planned
FRANKPORT, Ky.—Gov. Julian
Carroll has announced that Kentucky's
3,000 manufacturers will soon be
receiving invitations to seven regional
energy conservation workshops designed
to prepare Kentucky industries for an
environment in which interstate supplies
of natural gas for industrial uses may be
unavailable by 1880.
"The increasing shortages of natural
gas for industrial uses may be
unavailable to 1880.
"The increasing shortages of natural
gas for industry make conservation un
absolute must for Kentucky Manufacturers," Gov. Carroll said. "The
seminars will decate our industries on
methods of conserving energy and use of
alternate tuels. Kentucky Energy
Commissioner Damon Harrison, the
sessions, which are a joint understaining of
the Energy Department and the
University of Kentucky College of
Engineering, are "only the beginning of a
broad, continuing conservation program
which will involve government, schools,
hospitals, businesses and the general
public.

which will involve government, schools, hospitals, businesses and the general public.

"A top priority of the energy department is to keep Kentucky industry operating so that people will have jobs," he said. "This can only be accomplished if industrial firms install adequate standby facilities for alternate fuels and conserve in every way possible, particularly in the use of natural gas."

Program participants will include engineering specialists from the university, representatives of utilities are held and officers of limms which have ended and officers of limms which have entered and officers of limms which have entered in the programs of the second of the control of the programs of the second of the control of the programs of the second of the se

East Kentucky Paving Among Firms Threatened with Penalty

Firms Threatene
Three companies which were recently fined \$10,000 in a highway bidringging conspiracy could be barred from bidding on federal-aid road work for as long as three years, Federal Highway Administration officials said last week. The firms are East Kentucky Paving Corporation, of Grayson, Hoover, Inc., Nashville, Fenn, and Standard Slag Co., Youngstown, Ohio.
Livingstom Taylor reported development in the case in The Courier-load of the Courier of the Couri

following negotiations between the U. S. attorney's office and the defendants.

After East Kentucky Paving, Hoover, Inc. and Standard Slag changed their pleas from not guilty to ne contest, the U. S. attorney's office moved that the conspiracy charge be dismissed against the other five defendants.

Hermansdorfer accepted the changes of pies and the motion for dismissals. He then fined East Kentucky Paving, Hoover Inc., and Standard Siag the maximum of \$10,000 and \$35 costs, each. The conspiracy charge that was dismissed concerned Hot-Mis, Inc., Nashville: Eph Hoover Jr. Antioch, Tenn., principal owner of Hoover, Inc., and Robert S. Jones, North Ridgeville. Othe Sales Kennberg of Hoover, Inc., and Robert S. Jones, North Ridgeville. Othe Sales Kennberg of Standard Slag.

Asked why the government agreed to the dismisseals, Assistant U. S. Atty James Cook said in an interview, "We concluded that the three who entered the (no contest) pleas were those responsible for the violations... and by their entry of pleas the purpose of the prosecution had been satisfied."

The Eastern District of Kentucky court docket is one of the most crowded in the federal system and Herramasdorfer

been satisfied.

The Eastern District of Kentucky court.

The Eastern and Hermansforfer tenderal system and Hermansforfer commended the parties for the settlement.

"It has saved the court untold time which can be devoted to other pressing matters," Hermansforfer said, according to court records.

The eight defendants were indicted in 1973 by a federal grand jury at Lexington. The indictment charged that:

—Hot.Mix, low bidder in 1980 on an 1-84 construction project in Rowan and Carter counties, agreed to withdraw its low bid by claiming it contained errors, and to not re-bid the project.

The Kentucky Department of Highways, relying on Hot.Mix's false statements, allowed the low bid of \$2,218,640 to be withdrawn,

—East Kentucky Paving increased its own bid by \$181,630 on the second bid ding, but was still low bidder and was awarded the contract.

Kentucky Road Oiling Co., Georgetown, of which Ruth is part owner, and The Allen Co., Winchester, also submitted "inflated" bids in the second bidding as part of the scheme to generate sexess profits, the indictment charged.

Harlan Fuel Co. has agreed to spend \$70,000 on pollution control, in addition to paying the state \$15.000 in damages, as a result of action taken by the Kentucky Department for Natural Resources and Environmental Protection (NREP). In an agreed order signed recently by John's Hoffman, NREP secretary, the Harlan Fuel Co. agreed to complete renovations to prevent black water spills at its coal preparation plant Yancey by mid November. The controls—planned by J. W. Miller & Associates Mining Engineers of Charleston, W. Va.—are estimated to cost \$70,000 and have been adopted by Harlan Fuel, NREP approved a copy of the plan on July 31.

Harlan Fuel Co. was purchased in mid-March by the Getchell Mining Corp. At that time, charges of violating state water pollution regulations by allowing black water and coal solids into Slaters Ford and failure to report the discharges were already pending against the company.
