Spring Use of Lime Advocated

Because of the early closing of the agricultural conservation program this year, the Kentucky College of Agriculture is urging farmers to spread limestone this spring, instead of waiting until fall. The program will close August 31 this year, according to present plans, whereas it has been closing October 31. Farmers have been spreading most of their limestone in September and October in previous years.
Therefore, farmers who plan to use much limestone this year should give consideration to using it ahead of corn and other spring crops. Tests which the Experiment Station made over Kentucky indicate that limestone increased corn yields seven bushels to the acre, and limestone and phosphate together increased yields 17 bushels to the acre.

Limestone can be used ahead of alfalfa, soybeans, cowpeas and other hay and pasture crops. It also may be spread during spring and summer as a top dressing on established hay and pasture fields. It may be used on summer-seeded alfalfa and other grasses and clover and on cover crops that are seeded before August 31, in order to take up payments allotted in the agricultural conservation program this year.

1923 when Rotary Clubs of the state undertook a survey to ascertain the number of crippled children in Kentucky. Since that time, she said, approximately 10,000 children have been treated as far as corrective measures can be carried, in many instances children who never walked being physically restored.

Floyd county now has approximately 100 children under treatment, Miss P'Pool said. The infantile paralysis epidemic last year added not less than 50 cripples to the list from this county needing treatment.

Dr. C. L. Hutsiniller, president of the Kiwanis Club, followed Miss P'Pool as speaker, told of the work Kiwanians have done with underprivileged children. He gave the Prestonsburg Kiwanis Club credit for starting the movement which resulted in the organization of the business Association here.

In a talk preliminary to the presentation made to Mr. Hatcher, Frank H. Layne discussed Prestonsburg's need for a hospital, and declared that local doctors, as a whole, had discouraged the idea. "The Prestonsburg Co-operative Business Association appointed a committee to meet with local doctors and two 'outside' surgeons. Only one doctor here met with us. Because of this lack of interest, the matter was dropped and almost forgotten. This is the only plan we have had that has been a complete flop."

The crowd was delighted by a program offered by the Girls' Glee Club of Prestonsburg high school under the direction of Mrs. Chalmer Frazier. To the piano accompaniment of Miss Eloise Williams they sang "Tales from

Vienna Woods," "Maiden Remember," "Comes Love," "At the Balalaka," and, as an encore, "Oh, Johnny,"—at the special request of Ex-Mayor A. C. Carter. After his sister, Edna Joyce Conley, had favored the crowd with a tap-dance, five-year-old John Ernest Conley, son of Mr. and Mrs. Elza Conley, sang from the commanding height of a table top, "Will the Circle Be Unbroken?" and back he came to answer insistent demands for an encore with "Cowboy's Sweetheart."

### Former Floyd Man Slain By Cousin In Breathitt

Calloway Minix, 28 years old, whose bullet, fired in a poolroom gunfight at Garrett, killed Earl Heath in February, 1936, met death in Breathitt county a few days ago at the hands of his second cousin, Noah Minix.

The killing was described as a family fight, and the slayer upon surrendering claimed that he shot Minix in self-defense. The former Floyd cousin died instantly.

Slaying at Garrett of Heath was said to have been accidental, Minix' bullet striking Heath as the latter fled from the poolroom when Hence Terry and Minix began an exchange of shots. Terry was shot through his jaw and Minix was grazed across his

### Floyd Prison Inmate Shot As Convicts Attempt Escape

In an attempt Wednesday of last week to escape from the State Prison Farm at LaGrange Dennis Walker, 21, Melvin, was shot through both legs, as Robert Duncan, 17, South Portsmouth, was killed and Donald Daughtery, 20, and Alex Daughtery, 18, brothers, of South Portsmouth, were wounded.

Walker, sent up from Pike county, was convicted on a hitch-hike hold-up charge last September and was serving a 21-year term. Duncan and the Daughtery brothers were serving life terms, having been convicted of armed robbery.

Warden James Hammond said the four men early Wednesday morning seized a prison truck used in delivering supplies to the prison, and three times crashed it into the gate at high speed in an effort to force it open. The gate was about to give way when three guards opened fire. Twelve shots in all were fired at the men in the truck, who ignored orders to halt. Donald Daughtery was at the wheel. The regular prison driver, Hammond said, had turned in an alarm even before the men reached the gate. The wounded men were taken to the prison hospital.

**Yellowstone Early American Maintains Pioneer Traditions**

Antiquity ranks high, when it comes to Kentucky Bourbons—and for a reason which is well known to those who prefer Kentucky Straight whiskies made in the old-fashioned way.

California in its rip-roaring days, early development in the Black Hills, and ridding the southwest of Geronimo and his hordes, are incidents linked with the most colorful periods of American history—and by the same token they are tied into the early history of one of Kentucky's most famous brands of Bourbon whiskey—Yellowstone. Yellowstone was the favorite whiskey of the pioneers of our romantic past.

Old record books at the Taylor and Williams Distilleries show that Yellowstone rode the untamed plains in the saddle pockets of Buffalo Bill, and guided in the burro-packs of the hardy pioneers who broke new trails and built new towns throughout the old West to the Pacific Coast.

Taylor and Williams is proud of these pioneer associations and the Yellowstone of today is made to the same meticulous formula that made the Yellowstone of pioneer days a great whiskey and greatly preferred.

**Keeneland Race Course Opens**

Racing returned to the Bluegrass Thursday, April 11, when Keeneland Race Course opened its eleven-day spring meeting. Racing at the non-profit track will continue through Thursday, April 25.

Many of the country's top racing stables already are on the grounds, and stall room was exhausted weeks ago by the applications which flooded the Keeneland office. Among the starters here will be Col. E. R. Bradley's unbeaten Blimelech, favorite to win the Kentucky Derby. The Bradley colt is coming up to his Keeneland races in splendid shape and he is considered a certain starter in the Bluegrass Stakes, highlight of the Keeneland spring season.

Other eligibles to this race include Andy K., second best two-year-old of last year; Call to Colors; Flight Command; Carrier Pigeon; Roman; Roman Flag; Nemases; Corydon, and other top colts.

Four other stake races are also on the program. Other highlights will be the Thoroughbred Club of America's yearling judging contest and the entertainment planned for Charles H. (Trainer) Hughes, 81-year-old racing official. A race in his honor was run April 12, and he presented a trophy to the winner.

**Mammoth Cave National Park**

The Mammoth Cave National Park, probably Kentucky's most outstanding tourist attraction, is preparing for greatly increased travel during the year 1940.

In an effort to prolong the stay of visitors to the park, most of whom have heretofore contented themselves with one or more cave trips, the authorities, representing the United States National Park Service, the Kentucky National Park Commission, and the Mammoth Cave National Park Association, have installed new recreational facilities in the park, such as, tennis courts, shuffleboard courts, outdoor bowling, ping pong tables, and croquet. Rates on the new cabins which were erected during the summer of 1939 have been reduced for multiple and family groups to assist in the recognition of the area as a vacation spot.

The National Park Service has now under construction a large and handsome trailer park with all modern facilities. The C.C.C. organization in the park has recently completed eighty new picnic tables and are now building eighty grills, which will make available to the public these much-needed facilities.

During the year 1939, approximately 125,000 people, representing every state in the union and thirty foreign countries, visited Mammoth Cave National Park. Due to the war situation in Europe, which is expected to increase domestic travel, it is believed that the present year will prove to be the greatest in the history of Mammoth Cave.

**"Money on Convenient Terms"**

### "Paint Up For Summer"

In the spring, a young man's fancy may lightly turn to love, but a home owner's inclination is to clean and brighten his home.

Peaslee-Gaulbert Paint & Varnish Company of Louisville, Kentucky, have published a book called, "Styling Your Home for Better Living," that every home owner and house wife should read.

It tells with a simple chart, the color schemes for every room in the house, and it gives a suggested color scheme plan for the exterior of every architectural type, from the small cottage to the large colonial mansion.

Their two coat system of painting gives five important advantages, and in many cases is being specified by architects and home owners because:

1. Your paint money goes twice as far. This New Pee Gee 2-Coat System outlasts ordinary paints 2 to 1. . . . Tests on 2,400 homes in 30 states prove it.
2. Your house is whiter—colors truer. No other pigment produces such dazzling white, or such glorious tints. Your home is the envy of your neighbors.
3. Paint stays clean, fresh and bright. Years after other paints become streaked, your Mastic-painted home is still clean and fresh-looking.
4. Saves one whole coat on new wood. 2 coats of Pee Gee Mastic House Paint do a better job over new wood, or dark surfaces, than 3 ever did before.
5. Four paint evils are overcome. Properly applied, the new system defies checking, cracking, peeling. And Pee Gee pigments resist fading.

### Great Onyx Cave

Great Onyx Cave, in the heart of the Cave Region of Kentucky, is one of the three principal caves within the boundary of the proposed National Park.

It is situated near Green River, and is 12 miles west of Cave City, Ky., and 3 miles northeast of Mammoth Cave. It is not on the Dixie Highway, 31-W. Tourists on Highway 31-W should turn west at Cave City, and at Mammoth Cave archway turn right and follow the signboards to Great Onyx Cave. It is a pleasant drive, and excellent taxi-service is available for tourists arriving at Cave City by railroad.

Discovered and opened to tourists in 1913, Great Onyx Cave has been exhibited continuously since that time to ever-increasing thousands of delighted visitors.

Unlike the other caverns in this region, Great Onyx Cave has no natural outlet; and the artificial entrance is so constructed that neither

the vandal hand of man nor outside atmospheric conditions can interfere with the continued growth of the million marvelous artifices of nature which have been in building here for countless ages—and the nature-lover who strolls through its spacious avenues among the great fluted columns of onyx and the down-swung draperies of translucent alabaster, who beholds the gleaming gardens where darkness through the ages has wrought a riot of roses and lilies and daisies and chrysanthemums from the fadeless, snow-white gypsum upon the walls and overhead, and who gazes enraptured amid these and a million other miracles of nature which surround him everywhere cannot but feel this "Darling of Nature" is too beautiful for comparison, too rare for any price.

A corps of competent and courteous guides is always available; and trips of from 30 minutes to 3½ hours may be arranged at any hour of the day or night for the convenience of visitors.
