

GAS COMPANY MAY BUILD BIG LINE

KY.-W.VA PIPELINE WILL DEPEND ON NEEDS

Looking to the future when more gas may be needed by steel mills for the production of defense materials, the Kentucky West Virginia Gas Company is planning a preliminary survey of a 200-mile pipe line from this county to northern West Virginia, it was said on good authority in Ashland last week.

The line, if laid, would connect with the Pittsburgh & West Virginia Gas Company's lines.

The survey, however, is not being undertaken with the intention of immediate work; is being planned, rather, to save time if a greater volume of gas is demanded.

The amount of money to be expended on the proposed pipeline was not revealed but it is certain that a project of that kind would call for the expenditure of several million dollars. It is probable that a good percentage of this total would be spent in the Eastern Kentucky area.

The survey, including securing rights-of-way and other essential details preparatory to construction, will be made for the purpose of possible future work.

Apparently the national defense program will be the main factor in the proposed pipeline, as the Ashland sources indicated construction would rest on the steel industry's need for additional gas for use in producing defense materials.

"It would be a matter of the steel industry needing more gas in large quantities in an exceptionally short time," was the explanation given, but it was emphasized that construction of the pipe line would not begin unless the demand for additional gas was apparent.

Floyd county is the leading gas-producing county of this section, but several neighboring counties have high-production gas fields. Wells now completed, those being drilled, and others

This Town... That World

A SOUND CASE OF SELF-DEFENSE

I was a witness, during a recent snow, to a typical Floyd county self-defense case. A little girl was walking along Third street alone—en route home from school, I presumed. Behind her came a girl, a bit larger. As she raced by the smaller girl she threw a snowball and struck her mark squarely on the cheek.

There arose a howl, and there appeared a still larger girl whom I took to be the smaller child's sister. "What did you do that for?" she fairly yelled at the other.

Then came the same, old "wheedling plea that has afflicted Floyd county's public ear down the years: "She hit me first."

"I want you to do me a favor. Last month my brother, Willie Allen, was drafted for the Army. I wish you'd look out for him for me. And you'd better look out for yourselves, too.

"I am sending an alarm clock, which I wish you would give to Willie for me when you see him. It runs eight days without wind-

SALISBURY ENDS FUGITIVE ROLE

SURRENDERS TUESDAY IN KNIFE-SLAYING OF DAVIDSON

Nineteen-year-old Pearl Salisbury returned to Floyd county Tuesday to face a murder charge in the knife-slaying on June 15 last of Ira Davidson at Hunter.

Young Salisbury, it was said, came here alone from Ohio where he had been employed on a farm. He was released under \$7,500 bond to answer to the murder indictment filed against him several months ago, by the Floyd circuit court grand jury.

Davidson's jugular was slashed and he suffered eight other knife wounds, it was stated.

At a recent court term an indictment was filed charging B. B. Salisbury as an accessory after the fact in the killing. It was alleged that he aided young Salisbury in his flight from this county.

Postoffice, Stores Looted at Martin; Three Jailed

Postoffice inspectors this week were investigating the robbery last week of the Martin postoffice. No arrest had been made in the case Tuesday.

The postoffice loot consisted of any one package, it was reported here. Stamps and postoffice funds were locked in a safe.

Three Martin men were jailed here last week on breaking and entering charges after the grocery store of Z. C. Dingus and Jones' whiskey dispensary had been entered. Ed McCoy, an employe of Dingus, was jailed Thursday for entering the grocery store and taking a load of pickles and coffee. He was arrested by W. M. Griffith as he carted the groceries home. Tivis Colley and Ray Hamilton were jailed, the following day, by Policeman Tavish Flanery, for the liquor store looting.

ASKS DAMAGES OF \$8,100

WOMAN ALLEGES BURNS SUFFERED AT HOSPITAL

Alleging that she suffered great pain, was temporarily totally disabled and is partially disabled for life as a result of burns sustained while undergoing an operation at the Stumbo Memorial hospital, Anna S. Branham last week filed in the circuit court a suit asking of Dr. W. L. Stumbo and his wife, Mrs. Anna Stumbo, the sum of \$8,100 to cover damages and medical fees subsequent to her injury.

The petition, filed by Atty. J. D. Bond, claims that a "super-heated" hot water bottle, applied to Mrs. Branham's feet while she was under an anesthetic, caused severe burns. Because of her alleged pain and suffering, Mrs. Branham asks \$5,000. She asks \$3,000 on the grounds that she was totally disabled for 60 days, is now and will continue to be partially disabled. She seeks to recover \$100 for fees paid other physicians for treatment after leaving the hospital.

An 'Extra Helping' For WPA Clients Made Possible

Floyd county direct relief clients—approximately 3,000 families of them—should not fare so badly this month.

An extra "helping" of foodstuffs, made possible by acquisition by the fiscal court of additional warehouse space, is being served through this month only, Carl Horn, WPA commodity supervisor, said. Foodstuffs being distributed during February cost \$18,910, and consists of—

60,000 pounds of yard, 77,400 pounds of apples, 60,000 pounds of meal, 117,600 pounds of flour, 33,600 pounds of grapefruit and 12,000 dozen eggs.

ALLEN BOY LOSES HAND IN FALL FROM TRAIN

Right hand of 14-year-old Chester Porter, of Allen, was severed Tuesday morning when he fell from a moving coal train onto the railway tracks. The bruised and mangled forearm was later removed at the Martin General hospital.

The youth, a son of Henry Porter, Jr., Allen, was clambering down from the top of a coal car when he fell between the cars, it was reported here. His condition was pronounced "excellent" at the hospital.

PEN-KEN ATTACK OF WARFIELD TITLE TO GAS HOLDINGS HEARD

Arguments in a \$70,466,000 suit over land which affects indirectly the validity of titles held by hundreds of Eastern Kentuckians were heard by Federal Judge Mac Swinford in Lexington Monday.

Summary dismissal of the suit, brought by the Pen-Ken Gas and Oil Company, of Wilmington, Del., against the Warfield Natural Gas Company of Charleston, W. Va., for that sum, was asked by the defendant concern. Judge Swinford deferred decision and ordered opposing counsel to submit briefs.

Pen-Ken claims title to the land, where Warfield has more than 130 producing wells from which it pipes natural gas, under a patent issued in 1797 by Virginia's Governor James Wood to Benjamin Haskell.

Originally, the patent embraced more than 300,000 acres in what was Virginia, but only the title to 130,400 acres in what is now Kentucky and which include the Warfield holdings are challenged.

A decision upholding the Pen-Ken claims against Warfield under the Haskell patent would have the effect of clouding the titles of many small farm and home-owners in parts of Floyd, Knott and Pike counties.

Warfield's attorney, Harold A. Ritz, of Charleston, former member of the West Virginia Supreme Court, argued Pen-Ken's claims could not be sustained because title to the property

REA POLES CRUSH WOODS TO DEATH AT PAINTSVILLE

Funeral rites for James Woods, Jr., 18 years old, who was crushed to death Wednesday morning, last week, at Paintsville, were conducted Friday from the home of his mother, Mrs. James Woods, Sr., at Brainard.

Young Woods and Ollie Holbrook, 20, also of Brainard, were trapped beneath an avalanche of telephone poles which they were unloading at the Chesapeake & Ohio Railway Company yards, Paintsville. Holbrook, a brother of Theodore Holbrook, Prestonsburg, will recover. Woods died instantly.

The tragedy occurred as the two were unloading a carload of poles consigned to D. L. Walker & Co., contractors on the construction of REA lines in this section. The poles, piled high on the car and lashed together with wire, rolled onto the Floyd coun-

Councilmen R. T. Allen and Roe Layne were named to study the needs of that section of town and report their findings at the next meeting of the Council.

Sewage from 20 to 30 homes empty into the sluggish stream which runs through the ravine.

Perry Jailed Here After Johnson Is Slashed

Nick Perry was jailed here Sunday by Deputy Sheriff Marion Martin after he was alleged to have cut Buddy Johnson at Whelwright on the preceding night.

Cause of the slashing was not learned. Perry told authorities that he was en route to Virginia in search of a job when the trouble arose. Johnson was returned to his home after Dr. W. D. Osborne, Bypro, treated his wound, a deep cut under his ribs.

FLOYD, NEXT TO GREENUP

IN TAX RECEIPTS ON PROPERTY OF C. & O.

Except for its Greenup county holdings, the Chesapeake & Ohio Railway Company's properties in Floyd county are more heavily taxed than in any other county of the state, a statement issued recently shows.

Including state taxes of \$25,184.08, the company for the year 1939 paid \$157,432.40 in taxes on Floyd holdings. Its tax check for 1940 will approximate that of '39, and, next year, is expected to be even greater, what with the addition of 10 miles of line on Middle Creek.

Greenup county's C. & O. properties were taxed \$168,861.71 in 1939. The Russell yards of the company are in Greenup.

C. & O.'s 1939 tax bill on Floyd county holdings follow:

State taxes, \$25,184.08; county taxes, \$51,605.76; city of Prestonsburg, \$1,295.36; town of Allen, \$765.63; town of Martin, \$1,108.90; town of Lackey, \$326.30; town of Wayland, \$543.93; town of Wheelwright, \$634; town of Weeksbury, \$1,152.71; Prestonsburg graded school district, \$5,565.98; com-

CROSS SLAYING INVESTIGATION RE-OPENED

OFFICIALS BELIEVE PUZZLE NEARER SOLUTION

The murder mystery case presented in the hotel-room slaying here, last Tuesday midnight, of Waid Cross, 45, prominent Prestonsburg man, was re-opened Monday and investigators at the end of a day of interrogating "witnesses" believed that they had drawn a step nearer a satisfactory solution of the puzzle.

Assisted by Capt. Roy D. Mulberry, of the State Bureau of Investigation, Highway Patrol, Frankfort, County Attorney Forrest D. Short and Assistant U. S. District Attorney Claude P. Stephens quizzed half a dozen persons who were near Cross' room when he was slain.

Out of this questioning came the statement of Russell Jarrell, of Warco, who told of seeing Tommy Ratliff emerge from the room in which Cross' body was found, a matter of seconds after the shot was fired.

Jarrell said he was spending the night with Elder Wright and Willard Smith in the room of the former, adjoining Cross' room; that, after they had retired, loud voices were heard in the hall outside and that he was asked by Wright to open the door and see the cause of the trouble. "I turned on the light and I stuck my head out the door and I saw Tommy Ratliff come out the door," he stated.

Before Jarrell appeared as a witness, Wright told of Jarrell's visit to the door and of his report when he returned to bed of what he saw. Smith corroborated this statement, except that he claimed the shot was fired before Wright asked Jarrell to investigate.

Ratliff declined to make a statement, "on advice of counsel."

Identity of the women who occupied a room across the hall from the murder-room established, the two, Ruby Blackburn and Ethel Hall, were questioned. Miss Blackburn said that her room was occupied only by herself and Miss Hall and that all the men questioned last week in the case were outside in the hall. Though asserting that she and the other girl were the only occupants of their room, Miss

Do you have to "TUCK YOUR CAR IN" at night?

Not if it's One of these Four New Additions to the BUICK SPECIAL Line that Compact Automobile Bigness into Fewer Bumper-to-Bumper Inches

HERE of late the modern automobile has been giving a pretty good imitation of a man getting up in the morning.

It has stretched and s-t-r-e-t-c-h-e-d—until today you almost have to have a shoehorn to get a car of any size tucked away in the family garage.

We thought something ought to be done about that.

So today in Buick dealers' showrooms you'll see four new models, additions to the 1941 Buick SPECIAL line.

They are typical Buicks on every count—steady, tireless travelers with a big 115-hp. Buick FIREBALL straight-

eight under their bonnets.

But by the simple step of compacting all this ability, goodness and value on a 118-inch wheelbase, we've trimmed inches off the over-all length—and dollars off the cost.

We're passing those dollar savings on to you, which makes three reasons for going to see these honeys now: You'll go for their ability—your wife will go for trim size and easy handling—and both will stand up and cheer for the easily-reachable price.

BUICK PRICES BEGIN AT

LETTERS TO THE EDITOR

DISCUSSES TIMES IN VERSE

Of all the papers that's printed
The Floyd County Times I'll take;
I read every item in it,
Its pages I scan and rake.
No matter what I'm doing
When I find the paper's arrived—
I throw my spoon if I'm cooking
And for it I make a dive.

My children climb upon my knee,
Together the pages we take,
And when the last line is finished
Into tears I almost break.
I read about my old friends,
The last years together we missed;
I find what court cases are on docket
And who's entered matrimonial bliss.

I learn who's candidates for this and that,
What pictures the theaters will play;
I read the news of the county,
The happenings from day to day.
Why, even in my home town,
There's news I never hear
Until I pick up The Floyd County Times
And on its pages it will appear.

I find in it where to buy my clothes
And the dentist when my molars ache,
Where to get my radio repaired
To hear the Cincy Reds the series take.

And then I like that Shikepoke
With all his wit and humor;
He'll tell you all about F.D.R.
And the latest Nazi rumor.

I read about the county's deaths,
I hear of all the births—
Honest, I wouldn't trade this paper
For any paper on earth.

Then hurrah for The Floyd County Times!

More power to it, I say!
I hope, ere long, the time will come
When it's published every day.

WATER LURES FISHERMEN

Frankfort, Ky., Feb. 9 (Sp.)—With old man winter giving the people of Kentucky a treat in the form of above-average temperatures and very light snows, fishing waters have been beckoning the anglers for the past several weeks.

Reports received by the Division of Game and Fish from various sections of the state indicate this beckoning on the part of the waters has not been in vain because several nice strings of game fish have been caught.

Several fishermen-report nice catches of newlights from Herrington Lake and they say that weather and water are ideal for this type of fishing at the present time with possibilities of hooking good bass always present. The smaller rivers and large creeks in practically every section of the state are reported as being clear and affording some good fishing for those persons who are brave enough to take a little mud and cold weather in order to feel a fighting fish on the end of their line.

S. A. Wakefield, director of the Division of Game and Fish, calls the fisherman's attention to the fact that the resident fishing license is 1 and entitles the holder thereof to fish anywhere in the state. The non-resident fishing license for one year is \$2.50 and the non-resident seven-day fishing license sells for \$1.

Mr. Wakefield is urging all hunters who have not already purchased their 1941 hunting license to do so immediately, since the number of quail to be purchased and released this spring will greatly depend on the number of licenses sold by March 1, 1941.

"As the Division operates solely upon revenue derived from the sale of hunting and fishing licenses," Wakefield pointed out, "the immediate purchase of the \$3 state-wide licenses by the quail hunters will be a means of releasing additional thousands of quail in April for re-stocking purposes."

KIDNEY STAGNATION IS WORSE THAN CONSTIPATION!

Because We Treat Constipation at The Onset, While We Neglect Our Kidneys Indefinitely

No other organ in your body is of more importance than your kidneys. For in your kidneys there are nine million tubes which must work day and night to filter the fluids and keep the system free from wastes, acids, poisons which, if permitted to remain, may cause serious kidney and bladder troubles.

It is no wonder then that Nature often calls for help to clean out the kidneys. So if you are troubled with Getting-Up-Nights, Leg Pains, Backache, Nervous Headache, Dizziness or Loss of Energy, due to functional kidney disorders, try KIDANS, the famous kidney remedy, which aids Nature to flush out the kidneys, to filter all wastes, to prevent kidney stagnation.

KIDANS is Safe and Reliable. Thousands report entire satisfaction. Taken according to directions, KIDANS will give splendid results. Try KIDANS. Buy it at our Special Price Offer on two boxes. Use one box. If not satisfied, return unopened box and GET YOUR MONEY BACK.

VALUE OF AN INDUSTRY

You may be surprised at what it means to a community to have an industry that employs 150 persons—

A plant investment of at least \$100,000 . . . annual payroll of \$200,000; support of 1,000 people; support of one dozen stores; a 10-room schoolhouse; \$60,000 annually for transportation; a new market for the farm products from 8,000 acres of land; an annual expenditure in trade of at least \$1,000,000; an increased taxable valuation of at least \$1,000,000.

Multiply these benefits 100 times, and you have an idea of what Kentucky's brewing industry—which employs 15,000 persons—means to this state.

The purpose of the Kentucky Brewers & Beer Distributors Committee is to help preserve beer's benefits for Kentuckians, by cooperating with law enforcement authorities to keep beer retailing as wholesome as the beverage itself.

POLITICAL ANNOUNCEMENTS

FOR COUNTY JUDGE

We are authorized to announce EDW. P. HILL as a candidate for COUNTY JUDGE subject to the action of the Democratic party at the August, 1941 primary.

January 4, 1941

I have this day become a candidate for the office of County Judge of Floyd County on the Republican ticket. If elected, I will build a poor home for the poor people, old men and women who are thrown out on the mercy of the people and not able to maintain a home, and for the little children that are kicked about from pillar to post without a chance in life. Think of the crippled and blind that are mistreated. I pledge my support to extend roads to the isolated and forgotten districts of the county. For results, vote for

If you do not elect me, I will still be the same Doug Hays, serving our party as every good Democrat should.

THE TIMES ENDORSES

1. Immediate completion of the Left Beaver, Middle Creek and Johns Creek road.
2. Consideration by officials of human needs, not the need for political influence.
3. Completion of all Farm-to-Market roads, by W. P. A. labor if possible, maintenance of these routes by the state rural road fund.
4. A trade-at-home policy followed by merchants and customers alike.
5. Full co-operation with all county and city officials, insisting that lawmakers and enforcement officers themselves obey the law to the letter.
6. Continuance of the Floyd county health department and the county agricultural agent work.

TRAINED INVESTIGATOR NEEDED

WITH a murder mystery in the county seat itself, THE TIMES reiterates, with more confidence than ever before, its contention that a county of the size, population and criminal proclivities of Floyd needs the full-time services of a trained detective.

Those who conducted the investigation here did an admirable job with the tools at hand. But the tools

were inadequate. These officials were diligent, they worked hard and with apparent success—employing mainly native intelligence as their modus operandi. Certainly there is no criticism to be made of those who undertook the discouraging task of solving the sombre problem of this mysterious murder.

But, had a man trained in the science of criminology been immediately available, the task of these other officers of the law would have been comparatively light, there would be no lingering doubt as to the identity of the slayer, and the ends of justice ultimately would be more fully achieved.

No prosecutor can be expected to make a criminal investigation as capably as one skilled in the grim business. Dewey of New York has achieved a brilliant reputation as a prosecutor of crime—but the detailed detective work, the piecing-together of clues, the actual following of the trail was done by skilled investigators.

Had Floyd county's law enforcement machinery included a man qualified to make the paraffin test, it is highly probable that the mystery would have been unveiled immediately. Such a man might have solved numerous other cases in which the regular machinery of the law failed. An honest, capable man trained in the science of fingerprinting could have convicted many the slayer in years past in this county. It is altogether within the realm of reason to believe that some of the innocent would not have suffered, had scientific investigation, unhampered by politics and the influence of powerful persons, been called into the cases in which they became involved.

Frankfort, apparently, is too far away for Floyd county to depend upon the state bureau of investigation—the paraffin test is not practical, five days after a shot is fired; much material evidence may be lost in five days. And it was that long before the state bureau reached the county with an investigator in the particular case which is mentioned here only as an immediate example of our needs.

Floyd county needs such a service for its own.

SHIKE'S POKES

(Views expressed in this column are those of the writer and not necessarily those of The Times.)

I just wonder if Vance Porter is getting any eggs—he swapped a radio and gave \$1.50 to boot for 21 chickens so that he could cut out paying 40c a dozen for eggs. But when he got home he had 19 roosters and two hens.

Willie B. Parker's young son was looking at "the Shikepoke's" picture in The Floyd County Times and asked his dad if there were two Shikepokes—and when his dad asked, why? the young fellow replied, "Well, that Shikepoke that we saw down at Drift was an old, hairy fellow."

Ole Chin was sure having tough luck with the "women folks" over the week-end. He had a taxi rented for two days and spent four dollars on phone calls—and then, when he located his "better-half-to-be," she was at Sunday School. Maybe he'll have to stop "holding coats" now.

To date, Bob Shay hasn't moved anymore. He must be slipping—a fellow ought to move at least twice a week.

Instead of some of our dumb Senators worrying about the Lease-Lend bill giving FDR dictatorial powers—they'd better be worrying about the dictatorial powers Hitler will have if England falls.

I have just figured out a way to keep the "giggers" off our creeks during the month of May. Just protect bull frogs for that month.

I agree with the Reverend Walters of Salyersville and Mr. Johnson of Mobile, writing in the "Point of View" of The Courier-Journal, Lindbergh has a yard-wide yellow streak down his back, and classed with him are such prominent citizens as Senators Wheeler, Nye, Johnson, Taft, etc. Just a few years ago Lindbergh sailed from our shores—to a foreign country—saying that the U.S.A. wasn't a safe place to raise his children in—and just as soon as the war clouds rose ole Lindy came back to the protection of the Red, White and Blue. If he thought so much of Europe, why didn't he stay over there? I'm sure we wouldn't have missed him.

The city of Louisville is making a big fuss over the "smog." I figure they had better find out whether it's the coal or just a flock of English sparrows that "blacks out" the sun.

That Pike county grand jury that advocated the abolishment of the office of Deputy Constable should be commended by every newspaper in the Commonwealth. I feel that the "Deputy Constable" has been the cause of more bloodshed on the Big Sandy than any other cause. Deputy Constables are not needed for the enforcement of the law—the Constables and the Deputy Sheriffs are enough. The Deputy Constable has been worked as a "racket" in a lot of localities—arrest everyone possible and release them for \$0.50 costs. The law says the cost for arrest in drunkenness is 50 cents. If Floyd county could get a rebate on the six dollars overcharge it would be like paying off the bonus again. Now, mind you, I am not taccusing all deputy constables—we have some in Floyd county who are our best citizens—and then we have some who won't work, can't get credit and have to live—and that is where we get our racketeers. Some of them I know of even swapped their last cow for a big gun t carry. I say, "Abolish the Deputy Constable and bloodshed will be averted."

I've got "Noah" back for a buddy. Guess Uncle Sam will have to send Light'ing back for our boss again.

I see that Woodrow is still walking the long, dark, damp and cold trail.

The state of Kentucky has righted a wrong by releasing those Harlan county miners from prison. They were not convicted of murder, they were convicted of being members of an organization.

I noticed where the Chicago Tribune said last week that they were leaving the barefoot of Edwood—leaving him as a bare-faced fraud. Mayor LaGuardia said nothing was too low or too base but what the C-Tribune would print it. If I ever agree with the Chicago Tribune, I'll be wrong.

I notice that a lot of people are listening to old Iron-Pants Johnson's advice—and I can't see why. I've met him personally and the only thing I noticed different about him was—he is an expert cussar—and just who isn't that has been in the army as long as him? I always figured that a long and

loud cussar was just cussin' to cover up some of his defects—and the fact Ole Iron-Pants is an expert cussar falls to hide his weak points.

I see by the papers that the Army engineers were up Big Sandy way looking for locations for war industries. He or they couldn't have been in a better location for the purpose.

Beverly Cole is really doing some campaigning.

Hornets Sting Devils Three Times Friday In Same Place

Auxier, Ky., Feb. 17 (Spl.)—Auxier high school's basketball teams won three games Friday night over Garrett—and all by one point.

The Auxier Hornets defeated the Garrett Black Devils, recent Floyd county "pre-tournament" champs, in the main attraction of the evening. This upset of the dope followed defeats of Garrett's "B" and girls' teams, 14-13 and 15-14, respectively.

The Black Devils took an 8-4 lead at the end of the first quarter, but the Hornets came back to tie the score at the half. With a minute to play, Patton scored on a gratis toss to clinch the victory.

It was Garrett's second defeat at the hands of Auxier this year.

The line-up:
Auxier (28) Pos. Garrett (27)
Patton (11) ... F. ... Hughes (7)
Hall (2) ... F. ... Martin (5)
Bickford (7) ... C. ... Music (7)
Watson (1) ... G. ... Meade (4)
Evans (7) ... G. ... Francis (4)
Substitutions: Auxier—Frazier; Garrett—Webb, Terry. Referee—Turner.

NOTICE

I have taken over the hospital insurance business for the Prestonsburg General hospital which was formerly conducted by my late husband, Waid Cross. I will be at Dr. Daniels' office at the hospital to receive renewals of hospital contracts on the 1st, 2nd, 3rd, 15th, 16th and 17th of each month.

I will appreciate the co-operation of all who have had, or plan to have, hospitalization insurance with us.

MRS. ETHEL CROSS.

TO THE POULTRY RAISERS OF FLOYD COUNTY:

I want to recommend Paul Francis' baby chicks. They are the finest ones I have ever raised.

Last April 1, I bought one hundred. I raised ninety-seven out of the hundred. They started laying when four months old and are still laying.

I have tried raising baby chicks from other sources, but they cannot be compared with Paul Francis' chicks. I feel I owe this to the people who raise baby chicks.

St. Xavier To Play Inez at Warfield
St. Xavier of Louisville, winners of the recent All-Kentucky Conference basketball tournament, will play the Inez Indians at Warfield Friday night. Russell Williamson, Inez coach, announced this week.
On the following Friday night, Feb. 28, the Ashland Tomcats, runners-up to St. X., in the tournament, will play Inez at Warfield. The games will start at 8:15 without preliminaries.
The two games, with two of the state's most powerful aggregations furnishing the opposition, ends the regular schedule for Inez this season and sees the last high school appearances outside of tournament play of Kirk, Harmon, Taylor, West and Cooper, Inez seniors.

Blackcats Win 6 Games in Row; May Stars
Following last week's defeat at the hands of Garrett, the Prestonsburg Blackcats had, up till Wednesday afternoon, this week, a string of six victories in a row.
Closest call was at Wheelwright Friday night when the 'Cats won out in the last seconds of play, 33 to 31. Martin, high-scoring forward for Wheelwright, waxed hotter as the game progressed, and scored 22 of his team's 31 markers.
Saturday night, Prestonsburg defeated McDowell here, 44 to 27. In an afternoon game Tuesday the 'Cats doubled the score over Van Lear, 56 to 23.
Starting with the Garrett game, when Salisbury and Heinze were out of the line-up because of illness or injuries, Coach Hyden uncovered a scoring sensation in Junior May, a senior who had not seen regular service prior to that game. He scored 23 points against Wayland here last Thursday when Prestonsburg won, 42-32, chalked up 22 against Salversville. Against these two teams, McDowell, Van Lear, Garrett and Maytown he scored a total of 79 points for an average of better than 13 points per game.

New Martin Sewer Work Completed
Martin, Ky., Feb. 17 (Spl.)—All of the sewer system in New Martin is now completed, but there are still 509 square yards of sidewalks to be replaced there. This work will be started on or about Feb. 18.
In the Osborne Addition there are approximately 800 lineal feet of eight-inch sewer line still to be laid and one crossing to be made under the state highway. This section will be completed in about 10 days.
Sometime within the next 10 days work will be started in the "Hospital Bottom." At present, this project employs 38 men living in or near Martin.
To date, the WPA has spent approximately \$14,000 on the sewer project and the city of Martin, as sponsor, approximately \$6,000.

Mother, Two Sons Are Overcome By Gas
Martin, Ky., Feb. 17 (Spl.)—Mrs. E. P. Grigsby and children, Charles Gray and David Lee, were overcome with gas last Wednesday morning. Mrs. Grigsby had given the children a bath, had taken them out of the tub and left them playing while she went to get their clothes. When she returned the tots were lying on the floor.
Failing to revive them and feeling faint herself, she contrived to get out of the house and call for help before she herself collapsed.
Mr. Grigsby revived the younger child, but hospital treatment was required for the older.
An artificial gas valve on the water heater was blamed for the near-tragedy.

Concert Association To Present Violinist
The Sandy Valley Concert Association will present for its third and final concert of its series, Miss Betty Jane Atkinson, violinist, Wednesday night, Feb. 26, at Wickham Chapel, Pikeville.
Miss Atkinson began lessons at the age of four with her father as teacher. At the age of six she was taken to Markus Elein, foremost among Pittsburgh teachers, who presented her at the age of ten in her first major recital.
At 15 Miss Atkinson joined the Pittsburgh Symphony and gained national recognition as the youngest member of any major orchestra in America. At 16 she went to Europe and studied for a time under Carl Flesch in London. Shortly after her return to America, Stokowski heard her play and took her to South America as assistant concertmaster of his blue ribbon, all-American Youth Orchestra. Betty Jane Atkinson is America's undisputed 18-year-old queen of the violin and her star is still rising higher and higher.
Miss Atkinson's program in Pikeville will consist of a concert by Mozart, a sonata by Franck and other numbers by well-known composers such as Kreisler, Greig and Saint-Saens.

WORST ACCIDENTS

As if to appease angry gods who were dissatisfied with sacrifices of only one or two human lives, auto-tragedies, killing three or more persons, are becoming more numerous and more ghastly.

Most "blood thirsty" of the year were auto-train crashes.

In 13 tragedies with a total of 51 victims, youth killed youth. The drivers were all under 21 years, and two were girls. Included in these were three of the year's most notable catastrophes, all auto-train crashes in which 17 young people were killed.

The safety of one's passengers in a motor vehicle cannot be taken for granted. Yet it is often placed below the level of a driver's cigarette which is lighted and in due course flipped from his fingers, for as the car rolls along at high speed more attention is given a cigarette, the conversations, the driver's thoughts, etc., than the safety of passengers in the car. Such attitudes were present in last year's worst accidents. Inattention, recklessness, failure to observe flashing signals at railroad crossings, and running stop signs were the leading violations which caused the tragic crashes.

The utmost of caution, common sense, and consideration should be exerted in driving—especially when there are others as passengers. Such driving is modern and will prevent the pagan slaughter of human life.

The greatest menace to safety is an inert driver.

Hog Raisers-Use
Electric Fences

Electric fences are enabling Kentucky hog producers to use more pasture and thereby reduce costs, according to Grady Sellards, extension field agent for the State College of Agriculture.

Agricultural agents in 88 Kentucky counties report 7,496 farmers fed balanced rations last year. There is a tendency, however, to skimp on the use of protein supplemental feeds when hog prices are low, as they were last year. This tends to increase costs, according to Sellards. To offset this tendency, he and county agents encourage the use of more pasture for hogs, even to the point of planting special crops for grazing. Pasture helps to insure balanced feeding and cheapens the cost of production.

Search for New
Crops Continues

Farmers in many Kentucky counties are continuing their search for new sources of income. Through the assistance of the county agent and the State College of Agriculture, Calloway county farmers last year produced "green wrap" tomatoes with considerable success. Sixty-eight acres of tomatoes were signed up early in the year, 54 acres were set and commercial selling was done from 48 acres. John S. Gardner, College of Agriculture specialist in truck crops, reports acre receipts of \$31 to \$96, with 10 men making more than \$90 an acre. The average income from the 48 acres was \$49. Two men grew beans following tomatoes, with an average income of \$44 an acre from beans.

REMEMBRANCE EXPRESSED!

The memories we treasure today will fade, even during our own lives, as we grow old, and after we are gone may be lost entirely. To preserve memories—to record them as they deserve—they must be entrusted to a reminder that will last through the years to come. A beautiful monument will be that reminder. Even the smallest and most modest memorial will be something permanent to perpetuate the name and the memory of the person or family to whom it is dedicated. This young lady remembered her father—she bought this beautiful memorial and had his picture placed in it—and she saw that it was properly erected at his grave in Mountain City, Tennessee.

If you are interested—call and see us; it will in no way obligate you. Mr. Hickey, shop manager, will be glad to show you how monuments are built.

FLOYD RECORD LEADS STATE

LIME USE INCREASE, 3,967 PER CENT OVER 1939

Floyd county farmers have gone "over the top" in the use of agricultural lime in the 1940 Agricultural Conservation Program, using 5,776 tons of liming materials, supplied in place of cash payments by the Agricultural Adjustment Administration this year, for a 3,967 per cent increase over 1939. They used only 142 tons of lime in the 1939 program.

The county leads all others in the state in percentage of increase in the use of lime under previous programs, using nearly 18 times as much in 1940 as the total of 323 tons used in the county in the past four years in the program. These figures are based on the amount of lime supplied by the AAA and may be increased by reports of liming materials secured from other sources by individual farmers.

Three other counties in Kentucky that lead the way in percentage increases in the use of lime in the 1940 Agricultural Conservation Program, according to incomplete reports, have stepped-up the use of liming materials in three different methods.

The counties are Butler, McCreary and Perry. In Butler county the increase came largely through assignment of soil-building payments to the supplying lime and to local credit sources. In McCreary county lime was supplied in place of cash payments by the Agricultural Adjustment Administration, and in Perry county the farmers organized a cooperative which utilized services of all farm groups in the county and arranged credit and lime deliveries for all farmers.

Butler county, where farmers used only 2,100 tons of liming materials in the 1939 program, reports that more than 400 farmers have assigned soil-building payments to secure 8,000 tons of ground limestone for use in the program this year, and the use of marl and lime secured by other means probably will add materially to this total.

McCreary county, which reported only 169 tons of lime spread in connection with the program in 1939, received 1,505 tons of liming materials from the Agricultural Adjustment Administration, in place of cash payments, this year and, in addition, used approximately 200 tons from other sources.

In Perry county this year increases were largely the result of a new farm organization, incorporated as the Perry County Farmers Cooperative Association, which promoted the movement of lime into the county by utilizing the services of the county agent, the county and community committees of the AAA, and the Farm Security Administration. The amount of lime used in Perry county was increased from 144 tons in 1939 to 4,500 tons in 1940.

Although these increases are especially large compared with the amount of lime used in these counties in 1939, ranging from a 233 per cent increase for Butler county to more than 3,967 per cent for Floyd, larger increases in tons of lime used have been reported from some of the counties which ordinarily use large quantities. Logan county, where farmers in the program used 19,852 tons of liming materials in 1939, reports approximately 35,000 tons used in the 1940 program; and Christian county which led all others in the 1939 program with 43,308 tons, reports that 60,000 tons has been used this year.

Incomplete reports have also shown increases in many other counties of the state. Several other counties have farmers co-operative organizations similar to that in Perry for distribution of lime, but no reports have yet been received from these counties.

Farmers in 26 counties of the state received liming materials in place of cash payments from the AAA in 1940 under a plan of distribution similar to

that in McCreary and Floyd counties. The number of counties receiving lime from the AAA in the 1941 program will be increased to 53. Assignment of payments to secure lime for use in the program may be made to lime suppliers who will accept them in any county.

Commercial poultry keepers who fail to follow modern methods may soon find their flocks unprofitable, according to a statement issued by the Kentucky Poultry Improvement Association, which cooperates with the Kentucky College of Agriculture in encouraging better methods.

There is a trend toward specializing in production of market poultry and eggs, says E. A. Baute, field manager for the association. He fears side-line poultry keepers may be forced out of business. This already has happened in the fruit growing and whole milk industries, he says.

For the benefit of persons who would stay in the poultry business and produce eggs for either commercial or hatchery sale, Mr. Baute offers these suggestions:

Poorly lighted, improperly ventilated, dilapidated buildings with makeshift feeding and roosting equipment should be replaced or made over.

Start chicks in March and April so that the pullets will be laying by September or October.

Feed the young chicks a growing ration until the pullets are housed and laying mash in hoppers thereafter. Don't neglect the water supply.

Sell all old stock in April or May. Keep 15 to 25 hens to supply the home table with eggs until the pullets come into production.

Cull slow growing, slow feathering and late maturing pullets and cockerels. Sell non-producing hens.

Lice even breed in the winter months and retard egg production. Examine several birds and don't delay treating the flock for lice if necessary.

Increases In Small Payments Continued

Provisions for increases in small payments under the Agricultural Conservation Program in 1939 and 1940 will be continued in the 1941 program, James Stephens, chairman of the Floyd County Agricultural Conservation Association, announces.

This provision, Mr. Stephens said, increases all payments under \$200, on a sliding scale, so that farmers in the lower payment brackets are paid proportionately more for their soil improvement work than those in the higher brackets.

All payments up to \$20 are increased by 40 per cent of the amount of the payments, and on payments from

\$20 to \$200 the percentage of increase is lowered with each rise in the amount of the payment.

Mr. Stephens emphasized that this is not a new provision. He estimates that approximately 1,200 farmers in the county received these increases in 1939 and that about 1,400 will receive increases under the 1940 program.

to be drilled will furnish sufficient gas to meet any demand from areas that would be serviced by the proposed pipe line, it is held.

Many Eastern Kentucky wells produce several million feet of gas per day. Additional demand for gas would spur drilling activities in this part of the state.

Information as to the route of the proposed line was not available but it was indicated that the preliminary survey would include a thorough study of all topographical factors.

Cross Slaying

(Continued from page one)

Hall said she did not hear the shot, saw nobody in the hall and was "too drunk to remember when or how I left." She recalled hearing an unidentified voice say, "He's killed himself."

Byron Nunnery, testifying for the second time, re-iterated, in substance, his story of last week.

Lilas Burchett, occupant of a nearby room, gave no information of value. Captain Mulberry was asked to come here to make paraffin tests of the hands of those in the vicinity of the room in which the slaying took place, but did not arrive till Monday afternoon—too late for the tests to be made. The tests, it is claimed, will, if made within a period of three or four days, detect minute flecks of burnt gunpowder on the hands of any person who has fired a gun.

See editorial, "Trained Investigator Needed"

After inspecting the bullet which killed Cross, Captain Mulberry said it is of .38-calibre but that a portion of the missile is missing. Rifling on one side of the bullet, however, is clear, he added.

FUNERAL OF VICTIM HELD FRIDAY

Funeral rites for Mr. Cross were conducted Friday afternoon from the Methodist Church here, the Rev. W. B. Garriott, assisted by the Rev. Campbell Jeffries, officiating.

The services were attended by hundreds of friends and relatives of the victim, and a profusion of flowers bespoke the esteem in which he was held.

Interment was made in the Salisbury lot of the Porter cemetery here, the Arnold Funeral Home directing.
