DWALE PLANT TO COST \$500,000

BIG SANDY REA RECEIVES 3RD ALLOCATION

HALF OF \$100,000 MAY BE SPENT IN FLOYD

Funds making possible the construction of an additional 85 miles of Rural Electrification Administration line in this section was made available last week to the Big Sandy Electric Co-operative Corporation, Prestonsburg, as the REA announced the allotment of \$100,000 to the co-operative.

Most of the allotment will be spent on lines in Floyd county, it was said here.

Last week's appropriation brings the total of allotments to the Co-Op to \$260,000. The first allotment, under which work has been done in this and adjoining counties to date, was for \$150,000. This was followed by a second of \$10,000 for electric fixtures.

At least half of the last allotment will be allocated to the construction of lines in the Right Beaver section of the county and on the Left fork of Middle Creek.

The \$150,000 allotment is being spent in the construction of lines on Abbott and Middle Creek in this county and in Johnson county. The lines into Bull Creek, Cow and Arkansas Creeks and the Auxier section are to be financed by this first allotment.

At this time 73 miles of line are under construction, with an additional 18 miles started and ready to work. The 85 miles financed by last week's appropriation are ready for staking, it was said.

Some delay has been experienced in the work as a result of heavy defense orders for materials used by the REA, yet the work has made better progress than expected, it was said at the Co-Op's office here.

This Town That World

A TITLE EXAMINER'S NIGHTMARE

It would seem that a Prewitt, Texas, attorney started the new year, 1928, off in embittered mood. It was on Jan. 4, that year, that he indited the following masterpiece after worrying himself addle-pated over a title to a "certain tract or parcel of land."

Mr. Alex Deanton, Prewitt, Texas.
Dear Sir:

In accordance with your order, I have examined abstract of this title in seven parts covering the South 236 1/2 acres out of the Edmondson Survey in _____ County, Texas, which you are preparing to buy and herewith render my opinion.

Don't buy the G453751 1/4 land. It has been my sorrow and burden to look over several horrible examples of a title-examiner's nightmare, but this alleged title takes the outclass flyswatter. It is my private belief that you couldn't cure the defects if you sued everybody from the Spanish government (who started this mess) on down to the present possessor of the

\$10,000 Is Sought In Suit Filed By Craft

Alleging that Arthur Thomas Craft was permanently injured by burns through carelessness and negligence of his employer, Marvin Music, and of Marion Leak, Howard Brown and Ernie Baldrige, Clarke & Francis, Craft's attorneys, filed suit last week against the four, asking \$10,000 damages and an undetermined amount for hospital fees.

The petition, filed through Craft's mother, Mrs. Florence Craft, alleges that Ernie Baldrige, an employe of Music, carelessly placed an open can of gasoline near an open fire and that Leak and Brown, employes of C. H. Smith, Gulf products distributor, carelessly kicked the can, as a result of which the plaintiff was burned.

BODY FOUND BESIDE RAILS

ORA DAVIDSON, 37, HELD VICTIM OF TRAIN

Body of Ora Davidson, 37 years old, Drift miner, was found beside the railway tracks at Drift Saturday night. He is believed to have been a train victim.

It was reported here that two small boys told of seeing a man lurch against a passing train, but they could not identify him.

Death is believed to have resulted from a brain concussion. The skull, though lacerated, was not fractured. Other injuries consisted of bruises about the face and arms.

A native of Perry county, Mr. Davidson had been employed for several years by the Beaver Coal & Mining Company at Drift where he had many friends. He is survived by his widow, Mrs. Siller Spencer Davidson, six children, Claude, Clyde, Mary Lou, Jack, Franklin D. and Orris Glenn, and four brothers, all of Drift.

The body was prepared for burial by the Ryan Funeral Home and taken to Chavies, Perry county, where the funeral was held Tuesday. Burial was made in the family cemetery.

Finley, Only Man To Hang In County, Was Offered Freedom On Bond Of \$600, Old Records Show

Only \$600 stood between Gus Finley, the only man ever legally executed in this county, and at least temporary freedom, old records uncovered by WPA indexing workers in the Circuit Clerk's office here show.

And the bond for this man who was to be hanged was less after he had been given examining trial than it was before! When first arraigned before Magistrates E. S. Robinette and A. J. Yates, his bond was set at \$1,000. After the two Magistrates, some time later, heard the evidence, they cut the bond to \$600.

But Finley the friendless could execute neither bond.

To Finley's credit remains the fact that he did not plead self-defense in the slaying of young Jim Hunt. When the case came up for trial here before Circuit Judge John M. Rice, Finley's only defense was that he was drunk and not responsible for his acts at the time Hunt was shot.

And on Sept. 19, 1884, three days after Finley was convicted, Dr. Alex H. Stewart, famed old-time mountain physician, filed an affidavit supporting the slayer's claim.

Dr. Stewart, after describing dipomania as a disease which may be acquired or inherited, stated that "I have been forcibly impressed with the idea from my acquaintance and observation of the defendant, Finley, that he was a subject of dipomania, and have often so expressed it privately, but not to him or his attorneys until called upon by the latter. . . . And I now give it as my opinion that he is a dipomaniac and that he inherited the disease and that when attacked with a desire to drink he is unable to resist it and that when under the influence of intoxicating liquor to any extent he has no control of himself."

The affidavit further described dipomania as becoming more severe as age advances, with shorter intervals between attacks, "until the age of 35 or 40 years, after which it almost irrevocably terminates in confirmed imbecility or death. A very small amount of the stronger intoxicating drinks may and usually does produce in these persons fits of anger and outbursts of abuse of their best friends." Dr. Stewart continued, "Homicidal intents usually seize their brain, over which they have no control. . . ."

In seeking a continuance of his case, Finley set forth that he expected to prove by an absent witness, John Mays, that he and Finley went, the day following the shooting, to see Hunt and that the latter told Finley that he knew the shot was accidental and that he did not "want defendant hurt" that they were good friends. This statement also claimed that Finley expected to prove by Dr. M. Gar-

Gas Company Plans Program Costing Over \$2,000,000

The Kentucky West Virginia Gas Company will shortly begin construction at Dwale, nine miles south of here, of a compressor station at an outlay of \$500,000.

Peter C. VanGilst, Ashland, vice-president in charge of operations for the company, Wednesday confirmed reports of this and other pending developments in this section.

At the same time, he told THE TIMES that an additional \$100,000 will be spent in increasing the capacities of the company's compressor stations at Drift and above Wayland. Moreover, VanGilst announced, 40 wells in addition to the 90 already planned will be drilled in Floyd, Pike and Knott counties.

Beginning of work on the Dwale station depends, it was said, upon the installation of sidetrack there to accommodate 100 carloads of materials which will go into the huge plant.

The station will be of approximately 5,000 horsepower and will have a capacity five times that of the Kentucky West Virginia Gas Company's Maytown plant. When the Warfield Gas Company's station at Boldman was planned in 1931, it was said that its original 4,000 horsepower would give the plant a capacity of 40,000,000 cubic feet daily; hence, it is estimated that the Dwale station will have a capacity ranging between 50,000,000 and 75,000,000 cubic feet.

'Understanding' Reached With County Judge, Unsatisfactory

When Willard Singleton, 17, and his pals this week returned to T. J. Miller, Garrett merchant, a part of the \$150 loot taken from his store, they acted under the general impression that that was the end of the affair.

But Mr. Miller asked them to accompany him here to reach an "understanding" with County Judge Hill. Singleton and Charles Morgan did glad to get matters straightened out. A Fugate boy didn't.

Singleton is in jail, awaiting his return to Greendale; Morgan is free on bond. Fugate is a fugitive.

X-RAY CLINIC TESTS MADE

15 PCT. OF SENIORS ARE REACTORS TO SKIN TESTS

The Floyd County Health Department this week was completing the work of skin-testing Floyd county high school seniors, preparatory to the tuberculosis x-ray clinic to be held in the department's offices here Tuesday of next week.

The clinic will be conducted by Dr. John B. Floyd, of the tuberculosis department, State Board of Health, and will be under the auspices of the Prestonsburg Woman's Club and the county health department.

Any person who desires an x-ray examination may benefit from services of the clinic. A nominal charge of \$1.25 per x-ray photograph is made.

Dr. Marvin Ransdell, director of the health department, said that approximately 15 percent of the high school seniors given tests are reactors.

Jury Commissioners Not To Be Paid For Overtime

Jury commissioners who serve more than the statutory five-day maximum do so without extra pay. Assistant Attorney General Jesse K. Lewis advised Circuit Judge Henry Stephens, Jr., last week.

Judge Stephens wrote that the commissioners appointed last March spent five days in selecting jurors and then were called back into session last November when the list had become exhausted. He said the State Finance Department had disallowed a claim for their pay in November.

Lewis wrote that when the General Assembly increased the time limit to five days to cover such situations, it made no provision for additional pay beyond that, and added: "It is a well recognized rule of statutory construction that when extra duties are imposed upon officers, and no compensation therefor is provided, that none can be had."

It's The Big Sandy In His Blood---This Love Former Prestonsburg Man Has For Boats

Top, "The Favorite," first of the three boats in a Prestonsburg man's life. The photo shows the old side-wheeler tied up at the Catlettsburg wharf, a tow boat loaded with flour consigned to White House—remember it?—alongside. Third from the left, we are told, is the late Brig Harris. The man standing next to him is the late John Hunley. George Branham, owner of the boat, is shown leaning against the top deck.

Bottom, left, Joe Branham's "bicycle boat"; right, Branham and a party of friends at the launching of his new boat on Grand Lake, Oklahoma.

From the days, half a century back, when as a boy he rode "The Favorite," his father's steam freighter, up and down the Big Sandy, Joe Branham, former Prestonsburg man, today retains his love of the water and boating.

"The Favorite" and "The Natchez," the two boats owned and operated by his father, the late George Branham, were, of course, his first loves. Then came one of his own invention, a "bicycle boat," which he built in 1909 after he moved to Tulsa, Okla., where he now is a bottling company executive. Latest craft to claim his fancy is the "Miss 7-Up," a trim motor

cruser.

"The Favorite" and "The Natchez" are names to conjure with among old-timers from Pikeville to Catlettsburg—but for ingenuity, now that "bicycle boat" was sump'n! While it was a building, some of Oklahoma's most prominent men stood by to watch Mr. Branham work and to wonder how it all would come out. Well, it floated all right; worked on water, just like a bicycle on land—only it wasn't so easy upset. As long as the old legs held out, you kept on going. "I don't see why boys don't build bicycle boats now," says Mr. Branham. "Bicycle parts can be bought,

second-hand, and ball bearings would make propelling the boat much easier. They're a lot of fun."

Incidentally, while building his bicycle craft, Mr. Branham got the idea of entering the soft drink bottling business. And that plan worked, too—so well that it is one of Oklahoma's leading enterprises of its kind. The boat-lover himself is president of the firm. Mr. Branham's parents moved from Prestonsburg to Catlettsburg during the old steamboat days, then to Tulsa, about 35 years ago. He is a brother of Mrs. D. O. Harmon and Mrs. Flora Sizemore, both of Prestonsburg.

NORMAN ALLEN Editor

Entered as second class matter June 18, 1927, at the postoffice at Prestonsburg, Ky., under the Act of March 3, 1879.

'SPITE WORK' MAY HELP THE LAW

"ALL SPITE WORK," the official branded the charge against the defendant. And so the case escaped the close attention ordinarily to be expected.

And therein the official erred. Perhaps the indictment was made as "spite work"; maybe many the warrant is sworn out by some individual seeking revenge.

But therein lies the strongest ally of the law—"spite work." Without it, few criminal secrets would be divulged, the links of every crime ring would be iron-strong.

In Floyd county so many "good" citizens fear criminal elements that they are inclined to suffer in silence. So moonshine nests, thieving rings and other forms of outlawry sometimes flourish unhindered, unabated.

They flourish in comparative security until rivalry or jealousy or some bitter enmity invades the "set-up." Then—from "spite work"—the authorities learn the full story. Indictments are made, warrants sworn out, arrests made.

All remaining to be done, after that, is for trial of the case—trial, whether the prisoner is at bar as a result of "spite work" or the righteous indignation of an aroused citizenry.

THE SIREN SONG, AGAIN

IF THERE have been any doubts about the role of Charles A. Lindbergh in contemporary American

affairs, the former Colonel in the Air Corps Reserves has now resolved them himself. For he has effectually denounced himself as the nation's foremost defeatist.

We must keep hands off this war, Mr. Lindbergh writes in the current issue of Collier's Magazine, because we have waited until it is too late. "We are unprepared. . . . We have not as many thoroughly modern fighting planes. . . . as Germany produces in a single week." There is "no feasible plan of victory. Our leadership will not carry us successfully through these periods of war and crisis."

That Mr. Lindbergh admires the type of leadership exemplified in Germany has been revealed abundantly in that period in which he made the miraculous transition from an aviator who dared, successfully, to fly the Atlantic, to a political scientist. That we have waited until it is indeed late we have learned also, to our regret. We also know that had we ignored the Lindberghs earlier, it would not now be so late.

But the people of America will not accept the coward's dogma that there is "no feasible plan for victory." They will refuse to allow a naked defeatism to be dressed up in bogus patriotism and held before them as their only reasonable foreign policy. Having been lulled so long by the old siren song, they will not go back to sleep again until it is, in truth, too late for anything but complete appeasement, then slavery.

If we are unprepared now, how much better prepared shall we be if we permit Britain to go down, then are left to face what has been specifically proclaimed to be a world revolution that demands our dissolution? Or does Mr. Lindbergh welcome "the wave of the future," which has engulfed all who have not heroically attempted to push it back?

For one who purports to think in terms of American values, this advocacy of complete nonresistance, of futility and despair, is strange doctrine. It is the heart of the Nazi propaganda effort, intended to hypnotize anti-Fascists into a belief in the invincibility of the Axis. But we shall not repudiate our leadership for that of the Axis in this critical hour. Nor shall our hopes for peace be exploited by those who would make us pawns and slaves.—Cincinnati Enquirer.

Urges Registration of Skilled Workers

Unemployed skilled workers of Floyd county who have not recently registered with the office of the Kentucky State Employment Service at Pikeville are urged to file applications or to renew old applications there at once. R. F. Fields, manager of the Pikeville office which serves the counties of Floyd, Johnson, Mageffin, Martin, Morgan and Pike, said this week that the government needs now, or soon will need, all unemployed persons who have had skilled training in any work which relates to the national defense industries.

Mr. Fields added that, although a close canvass of this area has been made for such workers, he believes there are still a number of men in mechanical occupations who have not yet learned of opportunities for employment and who would fit into jobs in the national defense industries.

The Kentucky State Employment Service, in co-operation with the public employment services of all other states of the Union, is now seeking a record of the skills and activities of all unemployed trained craftsmen in the country, so that they can be located promptly when they are needed for work in industries manufacturing materials for national defense.

Workers who register their qualifications with the Kentucky State Employment Service do not commit themselves to take any job offered. Manager Fields pointed out. They will not be sent to jobs in other parts of the country unless they wish to take them. Nor does registration mean that all persons who register will get jobs.

CHILD FOUND DEAD

Mr. and Mrs. Reece Bentley, Ligon, awoke Wednesday morning, March 19, to discover their two-months-old son, Dewey, dead. The cause of death is not known.

Funeral rites were conducted from the parents' home and burial was made in the family cemetery under the direction of the Arnold Funeral Home.

SAWS BUTT KERNELS ARE GOOD SEED CORN

The irregular-shaped butt kernels produce as good corn as the flat kernels, says Prof. E. J. Kinney of the Kentucky College of Agriculture. Their shape, however, presents a planting problem. If they are so shaped that they go through the planted evenly, then there is no reason why one should not buy "rounds." Many producers of hybrid corn sell "rounds" for less than they quote "flats."

HIGH TIME

FOR A Low-Cost Extension Telephone

Probably your stairs seem to assume these proportions after you've dashed down several times a day to answer the telephone. Then isn't it high time you thought about the only remedy—an upstairs extension telephone? Think of the hundreds of tiring, time-wasting steps it would save. . . . the extra ease it would give. . . . plus the priceless protection at night because of its nearness. And then consider the trifling cost—only a few pennies a day—less than you pay for a package of gum! Isn't an upstairs extension something you really need for the sake of comfort, efficiency and security? Call the telephone office.

land who is there by virtue of a peculiar instrument optimistically designated by the abstractor as a general warranty deed.

In the first place, the field notes of the Spanish government do not close. I don't think it is possible to obtain a confirmation grant since the unpleasantness in 1898. In the second place, there were 19 heirs of the original grantee and only three of them joined in the execution of the conveyance into the next party in this very rusty chain of title, which is a major defect in the first place. We might rely on limitation here, except that I am reliably informed that nobody has succeeded in living on this land for a longer period than two years, before dying of malnutrition. Laches might help out but anybody who undertakes to buy land under a title acquired by laches is, (to paraphrase Mark Twain), setting out like the man who set out to carry the cat home by the tail—they are going to acquire experience that will be of great value to them and never grow dim or doubtful.

The land has been sold for taxes eight times in the last forty years. Nobody has ever redeemed one of these tax sales—glad to be rid of it, no doubt. The last purchaser-

sued the tax collector a month after he bought for cancellation of the sale for fraud and misrepresentation. He doubtless had grounds, but this incident will give you a rough idea of what kind of muzz'e-loading smoothbores have been fritzing this title.

On January 1, 1908, a gentleman who appears suddenly out of nowhere by the name of Eli Gretzberg executes a quit-claim title to one Peter Perkinson. Perkinson, the prolific old billy goat, died, leaving two wives and seventeen children, the legitimacy of two of them being severely contested. I am not being funnier than the circumstances indicate; he actually left two wives and it seems never to have been legally adjudicated who he done wrong by. Each one of these ladies passed away in the fear of God and the hope of a glorious resurrection and left a will devising this land to their respective brats. A shooting match between the two sets of claimants seems to have assisted the title slightly by reducing to six, the original number and substituting eleven sets of descendants. One of the most prevalent causes of defects in this title seems to be the amorous proclivities and utter disregard for consequences prevailing in this neighborhood.

Your prospective vendor deraigns tite by virtue of an instrument concerning which I have previously remarked. It is executed by a fair majority of one set of the offspring of Peter (Prolific) Perkinson and is acknowledged in a manner sufficient to pass a County Clerk with his fee prepaid. Outside of the fact that it doesn't describe the property under search, the habendum clause is into the grantors, the covenant of general warranty doesn't warrant a thing and it is acknowledged before it is dated. I suppose it is all right. I might mention that this land was the subject of a trespass to try title suit between two parties who appear in the abstracts for the first time when the suit was filed and one of them recovered judgment awarding title and possession. We may waive this as a minor defect, comparatively speaking.

I would advise you to keep the abstracts if you can. They are a speaking testimonial to the result of notaries public drawing instruments, county clerks who would put a menu on record if a fee was tendered and jacklegged jugheads posing as lawyers.

You can buy the land if you so desire. There are five hundred and seventy-three people who can give you as good a title as your prospective vendor has, not counting the heirs of the illegitimate son of Prather Linkon who died in the

penitentiary in 1889 while serving a term for sodomy. Yours very truly, Kress L. Campel. P. S. You owe me two dollars more for headache powders I used.

WHERE PEACE REIGNETH

Either Dr. Ransdell's home county, Owen, is mighty lawabiding or the court wanted to go fishing. At the February term there was only one criminal case for trial, a grand larceny charge which resulted in an agreed verdict of \$25 and costs; the petit jury, having nothing to do, was discharged—and the grand jury returned a "super-grand-total" of two indictments.

NOTICE

Folks simply can't dissociate THE FLOYD COUNTY TIMES with the WPA Commodity office. Our latest to report is the fellow who called Friday morning to report that a certain Middle Creek man had been "laid off" because he had been sick.

"Hadh't been drunk, had he?" we asked, playing the role expected of us. "Nope. Just sick." The informant departed after we had sympathized with the unfortunate ex-worker.

Back he came, a few minutes later, to add that "(the man who had been "laid off" claims that, if anybody works up there, he's aimin' to. He shot the tool house up yesterday."

We made another note—for this column—and the man again departed, satisfied his report had reached the proper authorities.

No, we weren't trying to be smart about the matter, though we admit that we should have explained that this is a newspaper office. But we are tired of saying, "THIS IS NOT THE COMMODITY OFFICE — IT'S NEAR THE BUS STATION, WHERE THE DRY-CLEANING PLANT USED TO BE!"

A REPORT to America

The Ford Motor Company's business has always been to serve the needs of the American people. In providing them with low-cost transportation for the past 38 years, we have developed one of the country's largest and most useful industrial units. During a national emergency, we feel that these facilities should be devoted without reserve to our country's needs. Toward that end we started rolling months ago, with these results:

5 Several months ago work was started, on our own initiative, on an entirely new 1500 horsepower airplane engine especially designed for mass production. This engine is now in the test stage and plans are being developed for producing it in large quantities when and if needed.

6 A Ford aircraft apprentice school has been established, to train 2000 students at a time.

That is a report of progress to date.

The experience and facilities of this company can be used to do much of the job which America now needs to get done in a hurry.

FISH AND GAME (By WILLIAM ADAMS)
The Floyd County Fish and Game Club is an organization of sportsmen and farmers united in an effort to improve, protect and restore fish and game to the fields and streams of Floyd county.
Dues for the club are \$1.50 per year. All of the money taken in is spent for the program of re-stocking and protecting fish and game in Floyd county.
This year (1941) about 500 quail will be liberated. Twenty-five raccoons have been liberated, some in every corner of the county. The organization plans to spend about \$125 for the foxhunters of the county. Plans are now being made for the purchase of red-fox to be turned loose where foxhunters most desire them.
Through the efforts of the Fish and Game Club we now have a full-time Game Warden, paid by the state. Warden E. R. Burke and 18 commission wardens are using every effort possible to keep down fish and game law and fire violations. Report all fire law violations to the warden.
Junior sportsmen clubs have been organized in nine high schools to teach boys when and how to hunt for SPORT, how best to improve farms for game and the value of the sportsman's part in the task. Boys are also taught how to handle firearms safely; how to get the most out of fishing; and the importance and protection of song birds. The club is of the opinion that future success of our fish and game program lies within the education of our boys in fish and game conservation. V. A. Hayes, Langley, Ky., is in charge of the Junior Sportsmen. If you would like to have more information about a Junior Sportsmen club for your community, contact Mr. Hayes.
Here are a few things that the Fish and Game Club has done:
1. This is the first time Floyd county has ever had a full-time state-employed game warden.
2. First time Floyd county has ever had an allotment of quail.
3. First time we have shared equally in fish from state hatchery.
4. First time we have been offered red foxes free.
All of these things have been made possible by an active club working toward but one end—to re-stock and protect our fish and game.
Join the Fish and Game Club and help re-stock, protect and provide for game and fish. Add your dollar to the program.
In order that the public may see what happens to all funds of the Club, an itemized financial statement will be published in THE FLOYD COUNTY TIMES.
The Club wants every citizen to help in protecting our fish and game, by preventing and putting out forest fires. Fire will drive away all quail, coons, rabbits and foxes that are turned loose, and refrain from hunting out of season, and help in the general program of the Fish and Game Club.
The Fish and Game Club holds its regular meetings, the first Tuesday of each month. Come out and help make Floyd county a "Happy Hunting Ground" again.
Miss Carolyn Dills and Bert Dills of Wittensville, spent the week-end with their aunt, Mrs. J. F. Layman, and Mr. Layman.

POLITICAL ANNOUNCEMENTS

FOR COUNTY JUDGE

We are authorized to announce EDW. P. HILL as a candidate for COUNTY JUDGE, subject to the action of the Democratic party at the August, 1941 primary.

January 4, 1941

I have this day become a candidate for the office of County Judge of Floyd County on the Republican ticket. If elected, I will build a poor home for the poor people, old men and women who are thrown out on the mercy of the people and not able to maintain a home, and for the little children that are kicked about from pillar to post without a chance in life. Think of the crippled and blind that are mistreated. I pledge my support to extend roads to the isolated and forgotten districts of the county. For results, vote for

DIAL SALISBURY, For County Judge.

To the Democrats of Floyd County: I hereby announce my candidacy for the Democratic nomination for County Judge.

I have grown old in the service of the party. I have never held public office, though I have lost—barely lost—political races. These losses hurt—but never for one minute did they hurt my Democracy. Everybody who knows me will swear to that. Elect me and I will make you a County Judge serving all the people. If you do not elect me, I will still be the same Doug Hays, serving our party as every good Democrat should.

DOUG HAYS.

I further promise, if elected, that these "big-bugs" or political bosses will have no strings on me, as I will try to show the people what the office is intended to be. I intend that the office is to be the Justice of the Peace and not a Robber's Breastplate. I also will see that the County Judge's salary is where it should be and not the salary it was recently raised to. I will also show my friends that I appreciate their support by doing them favors instead of trying to rob them or taking their last and only milch cow for unnecessary costs.

1st Blue Ribbon Day In Two Years Held At Wheelwright

A feature of the graduation exercises held at the Wheelwright graded school, March 21, was a Blue Ribbon program, the first presented in Floyd schools during the past two years. Dr. Marvin Ransdell, director of the Floyd County Health Department, assisted by Miss Gertrude Mayer, nurse for the Inland Steel Company, and Miss Margaret Denham, county health nurse, made physical examinations of the school's 600 students during the past two months. Two hundred and seven corrections were made, including five tonsillectomies and 18 were fitted with glasses. During the program 214 blue ribbons were awarded. The school, Dr. Ransdell stated, rated a high average in its health program. To receive a blue ribbon a student must be in excellent physical condition, have received vaccination for smallpox and diphtheria, have sound teeth and good tonsils. Chessie Chats Did Papa monopolize Junior's toy train last Christmas? Don't be alarmed, Papa's normal according to the results of a recent census of model railroad builders! The average age of these enthusiasts is between 30 and 35 years and almost 60% of them are between 25 and 40 years of age. Railroads are good customers! Their shopping list includes more than 70,000 distinct items ranging from soap to steam locomotives, from toothpicks to telephone poles, from box cars to bituminous coal! Is the water we drink fit for use in a locomotive? The chemists tell us "No"! Chemical treatment of water prevents rusting of boilers and boiler tubes and increases locomotive efficiency. This may seem unimportant—but it's one of many factors contributing to constantly improved freight and passenger service. The first genuinely air-conditioned sleeping car train in the world was placed in service on Chesapeake and Ohio Lines in 1932. A train starts on its run somewhere in the United States on an average of every 2 2/3 seconds! Did you know that Ancient Roman chariots influenced railroad development? Their wheels were built with a 4 foot, 8 inch spread, a measurement that became standard for carts in England during the Roman invasion of the British Isles. Early English tramways were built to accommodate carts of this size, and much later, their railroads were also built with tracks 4 feet, 8 inches apart. Principal early American railroads adopted this gauge, too. Finally, so many roads conformed to it that the measurement became standard! SHIP and TRAVEL by TRAIN! CHESAPEAKE AND OHIO LINES
