

## OPA TO HOLD MEETING HERE

### PRICE CEILING TO BE TOPIC OF MEET

**Attendance of 700 East Kentuckians Is Expected**

Prestonsburg has been chosen by the Office of Price Administration as the "strategic" point at which to conduct a meeting for the benefit of the business men and citizens of nine Eastern Kentucky counties, Mayor E. P. Arnold was informed Monday by the OPA.

The meeting will be held in the grade school auditorium May 15, from 8 to 10 p. m., when an Office of Price Administration official will explain the plan and purpose of the new overall price ceiling. Mayor Arnold will preside.

This and similar meetings throughout the country are being given wide press and radio publicity, James K. Davis, of the OPA's Cleveland office, wired Mayor Arnold, and an attendance of at least 700 persons is expected here.

"This is an open meeting," Mayor Arnold said Tuesday, "and it is the duty of every American citizen to attend."

Mayor Arnold has been asked by the OPA to invite Mayors and officials of towns throughout this section as well as the merchants and other business men of this, Johnson, Martin, Pike, Morgan, Magoffin, Rowan and Wolfe counties to attend. Co-operation of secretaries of Chambers of Commerce, Rotary, Kiwanis and Lions Clubs and trade associations in this area is sought to secure full attendance from this section.

Complete understanding of the need for established price ceilings and the plan devised for an effective curb on inflation is of prime importance, it is held.

### Samuel L. Collins Dies in 92nd Year At Auxier Home

Samuel Lewis Collins, one of Floyd county's oldest men, died at his Auxier home after a short illness Saturday, the day following his 91st birthday anniversary.

Mr. Collins, one of his community's best men, resided at Auxier throughout his life and until his retirement was forced by advanced age was a blacksmith. He had been a member of the M. E. Church for 73 years.

Surviving are his widow, Mrs. Sarah Collins, 83; two daughters, Mrs. Vada House, of Johns Creek, and Mrs. Rosa Wells Auxier; four sons, Will and Worth Collins, of Auxier, Malcolm Collins, of Johns Creek, and Ollie Collins, East Point; 25 grandchildren, 27 great-grandchildren and one great-great-grandchild.

The funeral was conducted Sunday, the Rev. W. B. Garriott, Prestonsburg, and the Rev. W. H. Horn, of Auxier, officiating. Burial was made in the family cemetery, near the Collins home.

### WANTED!

With scrap paper receipts mounting, the Floyd County Salvage Committee this week issued a call for hay-baling wire which can be used in baling paper for shipment to defense industries. The Committee, it was explained, cannot pay for the wire and must depend upon the public's sense of patriotic duty to help supply this material.

A clerk supplied by the Works Progress Administration is at salvage headquarters on Third avenue throughout the day. The office telephone number is 3081.

### JOHN GOBLE DIES MONDAY

**Merchant 30 Years, Paralysis Victim At Age of 72**

John M. Goble, for 30 years a merchant in this county, died at his home on Cow Creek Monday morning as the result of a stroke of paralysis suffered a month ago. Mr. Goble had been in ill health for the last five years. He was 72 years old.

A son of the late Isaac and Mrs. Susan Woods Goble, he was born Sept. 24, 1869. In addition to his activities as a merchant, he was a well-known farmer. Mr. Goble had many friends and relatives in this section of the county.

Surviving him are his widow, Mrs. Laura Ferguson Goble, three sons and two daughters: William O., Bradis and James Beta Goble, Mrs. Maxie Woods and Mrs. Rhoda Gray, all of Emma. He also leaves six brothers and one sister: Alex Goble, of Emma; Elige and Willie Goble, of Woods; Anse Goble, Prestonsburg; Mont Goble and Mrs. Jane Harris, of Lancer, and Sam Goble, of West Virginia.

Funeral rites were conducted from the home Wednesday afternoon, the Rev. Isaac Stratton, of Banner, officiating, and burial was made in the family cemetery under the direction of the Arnold Funeral Home.

### 276 TO GET DIPLOMAS

**Dean Taylor, of U.-K., To Be Graduation Speaker Here**

Floyd county's 276 high school seniors will be graduated here on the evening of May 22 in the county's sixth annual mass graduation exercises.

Dean W. S. Taylor, of the College of Education, University of Kentucky, will deliver the Commencement address, County Superintendent Town Hall announced this week.

Scene of the exercises will be the Prestonsburg high school gymnasium. Its decorations will be school colors—the red and black of Auxier, Betsy Layne's blue and white, Garrett's orange and black, the purple and gold of Martin, the blue and gold of McDowell, Prestonsburg's scarlet and grey, the Wayland blue and gold and the Wheelwright maroon and white.

This year's county-wide graduating class is 26 short of the 1941 class of 302. County Superintendent Hall predicted fewer high school seniors next year, basing the prediction on the call of defense industries to families now residing in the county, and on the fact that mining is the only industry that may be expected to hold working families in the county.

The list of seniors to be graduated follows:

**PRESTONSBURG**—Thelma Jean Africa, Dorothy Sue Allen, James Edward Alley, Henry Curtis Baldridge, Mildred Boyd, Robert Clay Branham, Johnny Burke, George David Butler, Bennie Mae Caudill, William Clarke, Jr., Thomas Clay, Russell Raymond Coburn, Sophronia Jane Crisp, Carl Crum, Gertrude Crum, Judith Morgan Davidson, Ralph Howard Elkins, Peggy Fitzpatrick, Burieta Gearheart, Ruth Deanne Goble, Virgil Goble, Zella Green, Adrian Gunnell, Frances Elizabeth Hagans, Edgar Hale,

### Everything From Soup to P'nuts-- 114 Tons of It!--Sent Schools

Potatoes, corn meal, flour, dried beans, evaporated milk, pork and beans, grapefruit, grapefruit juice, dried peaches and prunes, fresh canning peaches, apples for eating purposes, skim milk, soup, oatmeal, tomatoes, peanut butter, salt pork, creamery butter, sweet potatoes, cabbage, eggs—what will you have?—114 tons of it!

That's what the Works Progress Administration distributed in surplus commodities to 5,217 Floyd county school children during the nine months from August, 1941 to April 25, this year.

Announcing commodity distribution to schools, Henry C. McCown, Floyd county commodity supervisor for the WPA, said that last month foodstuffs were going to eight school lunch kitchens and 70 rural schools, with 5,217 pupils benefiting from the feeding program.

Mr. McCown said he had been advised by D. R. Holley, district supervisor, that this service will continue at least through the next school year.

Mr. McCown's itemized report of commodity distribution to Floyd county schools during the last nine months follows: 2,094 pounds of lard, 4,300 pounds of potatoes, 1,490 pounds of corn meal, 8,567 pounds of white flour, 2,774 pounds of dried beans, 12,631 cans of evaporated milk, 14,921 cans of pork & beans (large cans), 32,044 cans of grapefruit (sweet, ready to serve), 15,480 cans of grapefruit juice (quart cans), 5,189 pounds of dried peaches, 6,427 pounds of dried prunes, 6,330 pounds of fresh canning peaches, 37,071 pounds of eating apples, 2,200 pounds of dry skim milk, 2,246 pounds dehydrated soup, 1,460 pounds of oat meal (rolled oats), 3,679 dozen eggs, 49 pounds of graham flour, 4,220 cans tomatoes, 830 pounds peanut butter, 1,086 pounds salt pork, 1,890 pounds creamery butter, 2,325 pounds sweet potatoes, 2,656 pounds cabbage.

### SENIORS JOIN SIGNAL CORPS

**Ten Students Here Leave Hi School For Service**

Ten of Prestonsburg high school's 69 seniors who will graduate this month have left school for U. S. Signal Corps training, Claybourne Stephens, principal of the school, said Monday.

A wartime concession by state school authorities to youths entering the Signal Corps makes their graduation, along with those yet in school, possible. This regulation provides that a high school senior who attends school eight days of the last semester is entitled to his diploma.

The 10 students from Prestonsburg enlisted for Signal Corps service are Virgil Goble and Darwin Lafferty, of Johns Creek, now in training at Ashland; Radford Hall, Paul Gene Williamson and William Leslie Roberts, all of Prestonsburg; Thomas Clay, of Woods, and Richmond Stone, Blue River, all ordered to report to Paintsville for training; Jerry Stephens and Wilburn May, both of Prestonsburg, and Palmer Patton, of Emma, who have passed their examinations and are awaiting call to training.

It also was announced here this week that Joe Taylor Hyden, Prestonsburg high school athletic coach, will enter the Naval Reserve sometime next month. Two applications for the coaching job here have already been received, Mr. Stephens said.

### 19 VOLUNTEER

Nineteen more Floyd county landowners, including two women, this week joined the volunteer group pledged to the prevention and suppression of forest fires, County Agent S. L. Isbell announced. They are:

Mrs. Pet Salisbury, Hunter; Mrs. Lucy Fraley, Prestonsburg; J. W. Cooper, Emma; Chauncey Hager, East Point; Walker Spears, Edgar; Will Boggs, Garrett; James Stephens, Cliff; Clayborne Bailey, Ivel; Lindsay May, Cliff; R. C. Barnett, Martin; George Meade, Amba; Roscoe Layne, Harold; Johnny Hall, Blue Moon; James Hunter, Printer; W. B. Tackett, Craynor; Add Warrick, Water Gap; Willard Hamilton, Grethel; Lilburn Hall, Blue Moon; John Stephens, Water Gap.

### HALL CLEARED IN SLAYING

**Of Perry Johnson; April Court Term Ends Saturday**

Last of the Floyd circuit court's April term murder trials was that of Jim Hall, who was acquitted Saturday in the slaying of Perry Johnson at Wheelwright Junction.

Hall contended that the shots he fired were aimed at Caspar Osborne and that he fired them in self-defense after Osborne had fired on him. He testified that, if Johnson was hit by his bullets, the shooting was accidental; that he did not see Johnson during the gunfight with Osborne. It was testified during the trial that Johnson shot Osborne twice.

The Commonwealth sought to show that Hall, an officer at the time of the shooting, was the aggressor in the shooting with Osborne and that his action resulted in Johnson's death.

Allen Stone, former Lackey officer, recently convicted in the slaying of Marion (Jack) Triplett, was sentenced Saturday by Circuit Judge Stephens to two years in the state reformatory.

The murder trial of Mrs. Mary Tackett, accused in the slaying of Byrd Tackett, was continued and set for Sept. 12. Her husband, Ben Tackett, was given a 21-year term in the same slaying at the April court term.

### Dies at Tram Sunday After Long Illness

Charlie Justice, 72 years old, colored, died Sunday at his home at Tram after an illness of several weeks. Burial was made at Tram under the direction of the Arnold Funeral Home.

Surviving him are one son, Curtis, of Caretta, W. Va., and one daughter, at home.

## Floyd Supply of 1A Selectees Nearing Exhaustion Point

**May Call 3A Class By Next Fall, Hill Says**

Floyd county's supply of draft registrants classified as 1A is nearing the exhaustion point, and filling of future draft quotas may see a demand on the more deferred classes.

Harry T. Hill, clerk of Draft Board 44 here, said he could not authorize any statement as to the procedure to be followed after the 1A group is called up, but did express the belief that by autumn selectees from the 3A classification will begin receiving calls for service.

It was announced in Washington Saturday that a small number of the February draft registrants in the 35-45-year group and those who had attained the age of 21 since the previous registration will be called for service next month.

Of the 96 men notified Tuesday by Board 44 to appear for physical examination, 24 registered in February. Board 45 has also notified some of its February registrants to

take their physical examinations, but the number was not revealed by Robert Wallace, clerk.

Selective service authorities have asked full publicity of the fact that selectees may, upon recommendation of their local boards, be granted 10-day furloughs after induction in order that they may make necessary disposition of personal or financial affairs. Local boards have been asked to advise selectees not to make final disposition of such matters until action has been taken in their individual cases by the army examining board. Draft board officials point out, however, that no selectee need apply for such furlough unless financial and business circumstances require the extra period of time for the adjusting of affairs. Each furloughed selectee will be required to pay his own expenses in making the trip from the reception center to his home and back.

Local boards here this week received blanks for possible re-classification of registrants in the 3A group to 3B. Occupational certification blanks in such cases are to be signed jointly by the registrant and

his employer, and these will be sent only to those deferred by reason of dependency. At present this concerns only those who registered last February.

Draft Board 45 this week announced names and addresses of its 63 selectees who will leave here Thursday, May 14, for army service: Clyde Vernon Dillow, Lakon; Robert Vance, Orkney; Arthur Scott, Garrett; Marion Anderson, McDowell; John Blanton, Martin; Ernest William Cole, Garrett; Robert Stanley, Fed; William Henry Barnett, Wayland; Clell Broglin, Wheelwright; Herman Mack, Jr., Weeksbury; Frank Gayheart, McDowell; Roy Denver Gearheart, Gearheart; Willard G. Spence, Wheelwright; Alex Deel, Weeksbury; Joe Berger, Jr., Weeksbury; Roy James Smith, Drift; Jay Hall, Bevinville; Tivis Newman, Fed; Sylvan Johnson, Mel-

### THE LAME, THE HALT AND THE BLIND

Last of the week-end "receipts" at the county jail here was a group of five—a blind man, two one-legged men, another on crutches and a teen-age boy, says Jailer Guy Horn. But don't start cussing the officers for jailing such a helpless quintette. The five were arrested for fighting—and one of them was a brother of one of the officers!

### HE WAS CORRECT

"Printer" Goble twice set that "Louisa-Pointsville road" line in this week's road report as follows: "Louisa-Pointsville road." We marked the correction, but that didn't make the road any less lousier.

### REGRETTABLE MISTAKE

THE TIMES regrets any error that it makes, but its publication last week of the false statement that Price McGuire was arrested here was particularly regretted, since, we are told, Mr. McGuire was never arrested in his life. The statement was made in good faith, and certainly without malice.

### ONE IN 120,000,000

The board of physicians pondered the poor man's case. One, a noted psychiatrist, stepped to the door of the conference room, peered outside and in a sibilant whisper cautioned the two burly guards:

"Watch him. Closely, please."

Back inside, the grave quartet resumed their discussion of the case.

"Um—m—most extraordinary—"

"Reactions absolutely unique."

"In most respects, he seems wholly rational. But this—ah—aberration is so pronounced, so gravely serious."

"Let us ask him this one question again. If he persists, we must make the inevitable decision."

The four slowly left the room. The man under guard regarded them with clear, untroubled gaze.

"Again, Mr. Brown, I ask you, the eldest of the doctors addressed him."

"Are you certain that you couldn't run this war better than those in charge are running it?"

The man laughed heartily. "I certainly could not," was his answer.

His questioner turned to the others, solemnly pronounced, "Gentlemen, that settles it—this man is insane."

### GIRLS ENTER NYA CENTER

**21 Leave P'burg For War Work Schooling**

Twenty-one girls, 12 of whom are Floyd county residents, left Prestonsburg Monday for the National Youth Administration's resident center at Carrollton, Ky., where they will receive training in, and work at, production of war materials.

They are:

Opal Compton, West Prestonsburg; Ada Lewis, Woods; Martha Parsons, Allen; Nancy Dennison, Boons Camp; Helen Hunnicutt, Auxier; Helen Hyden, Auxier; Mary Etta Dillon, Ivel; Ida Marsillette, Prestonsburg; Dixie Damron, Escot; Hazel Mitchell, Yeager; Hazel Belcher, Lookout; Emma Pinson, Boldman; Vernia Conley, Falcon; Thelma Duty, Lookout; Clara B. Watkins, Lackey; Rhea Gearheart, Hueysville; Alma L. Byrge, McAndrews; Thelma Clay, West Prestonsburg; Ora E. Hall, Betsy Layne; Minerva McGuire, Cliff.

Area Supervisor Burton said here that they will be engaged in work or training, seven hours a day—usually four hours of work in the shops

### Woman, Found Dead In Bed at Lackey, Is Heart Victim

Mrs. Amelia Walls, 57 years old, wife of C. W. Walls, who was found dead in bed at her Lackey home Monday morning, was declared a victim of a heart attack, THE TIMES was told Wednesday morning by the Ryan Funeral Home, Martin, which conducted the funeral.

Mrs. Walls was a member of the United Baptist Church and had many friends in the Right Beaver section of the county.

She is survived by her husband, three sons, Robert Lee and H. T. Walls, of Lackey, and Orville Eugene Walls, of West Virginia; one daughter, Miss Winnie Mae Walls, Lackey; one brother and three sisters.

The funeral was conducted Wednesday at Jeff. Perry county, the Rev. Sam Combs officiating. Burial was made there.

### PARK METERS ARE BOUGHT BY COUNCIL

**Purchase is Made On Nine Months Trial Basis**

Purchase of parking meters to be installed immediately here was unanimously authorized Monday evening by the City Council.

Seventy-one meters were purchased and will be installed in the postoffice area on Third and Court streets, in the business section of Court street and on First avenue from the Auxier hotel to the Valley Inn.

The machines were bought on nine months' trial, the city to receive 25 per cent of the money deposited in the meters by motorists, the meter company to receive the remainder as credit against the cost of the machines. Fines collected for violation of the parking ordinance to be enacted in connection with the installation of the meter system are to remain in the city treasury. The city will be permitted to deduct each month from the gross 25 cents per meter for maintenance purposes.

The Council here was prompted to purchase the meters by the success met in Pikeville with the same system.

Cash price of the meters, it was said, is \$65 each, with an installation charge of \$1.50 each to be added.

The meters will be in operation, Monday through Friday, from 8 a. m., to 6 p. m. They will not be in operation on Sundays and holidays.

A representative of the meter company estimated that the average collection from each meter should be 20 cents a day. Deposit of 5c in a meter would entitle a motorist to an hour's parking, and a dime would insure from two hours to 125 minutes' parking before "time up" is registered.

It was indicated at Monday evening's meeting of the Council that, for the first few days of parking meter operation here, warning tickets will be issued by officers to violators of the parking regulations. Thereafter strict enforcement of the ordinance will be made.

George Harris was sworn in at the meeting as substitute street commissioner during the illness of Starling Sweeney.

### CORRECTION!

**Story in TIMES False; McGuire Not Arrested**

The statement appearing in this newspaper, dated April 30, to the effect that Price McGuire was arrested, with Casey Newsome, by Prestonsburg police, on a charge of taking certain items from the smokehouse of Mrs. Ben Ferguson here is wholly untrue as to Mr. McGuire.

The TIMES published the news-story in good faith and without malice whatever. It regrets that the good name of Mr. McGuire, who has an excellent reputation in this community, has been impugned and takes this means of correcting the mistake that was made.

As this newspaper now understands the case, neither Mr. or Mrs. McGuire had any connection whatsoever with it, except that some of the stolen items were taken by others to their home. Thereupon Mrs. McGuire informed police, thus enabling them to make the arrests.

### To Represent Chanters At National Festival In Washington, D. C.

Mrs. Edith Fitzpatrick James left Tuesday for Washington, D. C., where she will represent the Kentucky Mountain Plainsong Chanters at the National Folk Festival. From Washington she will go to New York for an appearance at Madison Square Garden.

Mrs. James' appearance at the National Folk Festival is sponsored this year by the Inland Steel Company, Wheelwright, and the Princess Elkhorn Coal Company, David. Through Mrs. James' own individual efforts, for several years past, the Plain Song Chanters have been represented at the Washington festival.

THE STUDY OF A MINUTE MAN

The Minute Man came into being at Concord and Lexington. He was so called because the question of hours didn't bother him when trying to win a war.

With him a minute was 60 seconds and even if it ran into 62, he didn't demand overtime.

When his country wanted him, a minute's notice was plenty. He was so loyal he would even take your version of what time it was.

The Minute Man was a Minute Man and never a Four-Minute Egg. He realized that a minute is a long time when somebody's life is at stake.

He knew a minute was 60 seconds and not subject to change without notice. He knew there were 60 minutes in an hour but he acted as diligently as if he were afraid there might be only 59.

He stood ready to fight at a minute's notice but didn't squawk if he got only 30 seconds.

He never put off till the morrow the bull's-eye he could make today.

He never heard of the word complacency, but if it had been explained to him he would have thought himself guilty if he had stopped to look around between shots.

His slogan was, "Don't shoot till you see the whites of their eyes!" but he gets 'em now when he senses the black of their hearts.

When life and liberty were involved he knew no form of compromise that didn't depend on marksmanship. The Minute Man hadn't even a half second for an appaiser.

He was no luxury hound even when the going was good, and when the going was tough he thought he was well fixed if he had a fair supply of dry powder and bullets.

He never left to any committee, agency or board anything he could do himself.

He never confused an attack with an appropriation.

To a Minute Man every minute counted in the job of licking the foe and he never argued over hours. He didn't worry about the peace until he had won the fight.

It never entered his head that he could do his duty in a free-for-all fight by buying some stamps, appearing at a benefit or offering to spend two hours on a roof every other week, unless he was over 60. Nothing would have disturbed him less than a reduction in luxury transportation, less rubber in his suspenders and a room in which the temperature got below 70.

He knew all the Indians were in the woods and not in his legislative bodies. He was brave and rugged but he thought one war at a time was enough.

He never called his fight a "defense" effort and was always out to lick the fellow who started the trouble.

He didn't need long and frequent speeches to make him understand he was in a battle.

In his most desperate minutes the Minute Man never gave any part of a minute to worrying about his morale. It would have taken too many hours.

The Minute Man was an all-year-round man every second.

THE GARDEN

By JOHN S. GARDNER Kentucky College of Agriculture and Home Economics

THE BLIGHT

Blight is a disease that destroys vegetable foliage and thus curtails the crop. It always starts on the older, lower leaves, dotting them with small spots which grow until the leaves are entirely brown and drop off.

It is caused by germs that are carried on the air. If the weather is showery and hot as they alight, they "dig in" and multiply until they completely cover the foliage. The endeavor of control is to cover the leaves with a material through which germs cannot dig, and copper is such a material, which, applied as a spray or as a dust, literally plates the plants with a copper armor.

Two forms of copper may be used, copper sulphate (bluestone), and copper oxide (the "yellow" form). The sulphate bluestone is combined with lime and water to make Bordeaux mixture. The "yellow" copper oxide, quite recently developed to make a spray, needs only stirring into water, and may therefore be considered more simple to use.

Complete directions for using "yellow" copper oxide in spray are printed on the container, but simple instructions for making Bordeaux mixture in lots small enough for a home gardener to use are given under the "May" discussion in Kentucky Extension Circular 376. Of this, a copy may be procured free in the County Extension Office, or by writing to the College of Agriculture and Home Economics at Lexington.

Inasmuch as the copper armor must be complete, it is recommended always to use a sprayer, a 3-gallon compressed-air sprayer, for example. Both the tops and the bottoms of the leaves should be covered. Also as the vegetables grow, causing "breaks" in the protective armor, spraying should be done again. Generally the interval should be two weeks, and as many as three sprays will pay on the shorter-growing crops as beans, and up to 6. on potatoes and tomatoes that stay in the garden longer.

Jackson county expects to exceed its quota of 134,000 extra gallons of milk this year.

THE HOME FRONT

HERE IS A RESUME OF IMPORTANT HAPPENINGS

- OPA battles inflation. Overall price control here. Rent ceilings being prepared. Farmers assured low cost fertilizer. We spend 100 millions a day. More than 8 billions to go for planes. Gasoline price ceiling coming. War licking up drinking alcohol. Taxi service may disappear. Labor agrees on internal disputes. Hairpin gets WPB attention. Henderson thanks school teachers.

The government's bold stroke to combat the rising cost of living and inflation by a comprehensive control of prices overshadows every other event on the "home front" as the nation enters its sixth month at war.

In a single sweeping order—General Maximum Price Regulation—Price Administrator Leon Henderson set the highest prices charged in March as an absolute ceiling on virtually everything Americans eat, wear and use.

For wholesalers and manufacturers the price order is effective next Monday, for the retail trade, on May 18.

Prices on literally millions of articles of all sorts are thus automatically controlled. When a given commodity because of special conditions required special price treatment, separate order was issued. In the first World War the United States paid 31 billion dollars to crush German imperialism and it is estimated that 13 billion of this was wasted paying swollen prices for war supplies.

Back of the present drastic price regulation is this lesson of World War I and the determination of the government that it shall not happen again.

Thus goes into effect the most drastic and far-reaching step ever taken to control the American economy.

Rents will not be permitted to skyrocket, while other components in the cost of living are stabilized. The rent fixing order of the week will affect rents in 302 "defense rental areas" housing 76,000,000 people in addition to the 21 areas previously designated. It reaches into every state except North Dakota and Idaho and extends even to Puerto Rico. The order does not have the immediate effect of law, as does the price control order. OPA is giving state and local officials 60 days to cut back rents to varying previous levels. After that, if adjustments are not made voluntarily, OPA will take things into its own hands.

"A program as vast as this," said Mr. Henderson, "will need the fullest public support, and we know that we shall have the backing of all landlords who have not attempted to take advantage of abnormal conditions."

The nation's farmers are assured that there will be no upping of mixed fertilizers, superphosphate or potash, by an OPA order ceiling price order, making permanent a temporary order which expired. The prices on bulk amounts of 250 pounds or over are those which prevailed in March. Smaller sales are covered by the General Price Ceiling Order.

Said Price Administrator Leon Henderson: "Because of the great expansion of agricultural activity due to the war effort, the demand for fertilizer has sharply increased. To permit sales without a maximum price regulation at such time, might result in an unreasonable increase in prices which would be unfair to the farmers and a hindrance to their efforts in producing vital commodities and foodstuffs. . . high fertilizer prices at this time can only serve to hinder the national food production program."

President Roosevelt told the nation during the week that we are spending at the rate of 100 millions daily for war, and will be spending double that rate before the year is over. Said he about the whole war program: "The blunt fact is that every single person in the United States is going to be affected by this program . . . the price of civilization must be paid in hard work and sorrow and blood."

Figures which picture as accurately as possible the economic effort on the "Home Front", were made available this week. War funds made available by Congress for the Reconstruction Finance Corporation since June, 1940, have reached a staggering total of \$164,416,000,000. The sixth supplemental appropriation of \$19,138,000,000 signed by the President, significantly budgets \$8,761,000,000 for planes.

Service station gas prices will be under ceiling throughout the nation effective May 18. Ceiling is at the maximum March level except in 17 rationed eastern states and the District of Columbia where the March base is raised four cents a gallon, to adjust the market to wartime transportation conditions.

War production demands alcohol for explosives. Known to the industry as "high wine," beverage alcohol from 100 to 189 proof has been brought under allocation control by the War Production Board to supplement the industrial alcohol supply.

The fate of the taxicab which last year carried almost a billion passengers, will depend largely on how carefully the business conserves its machines and tires. Office of Defense Transportation warns against cruising, dead mileage, and individual hauls.

Jurisdictional disputes between rival labor organizations are stopped for the duration. William H. Davis, chairman of the National War Labor Board, announced that an agreement to this effect had been arrived at with heads of the American Federation and the CIO.

Day by day steel is more at a premium. War Production Board now restricts the amount of metal for hairpins and bob pins, and is even urging American women to save the metal containers in which they buy lipstick and other beauty aids.

Mr. Henderson publicly praised the school teachers for their work in carrying out the industrial, commercial and institutional sugar reg-

istration. "We asked the public school teachers to handle the registration, because we were confident they would do a good job," he said. "They came through 100 per cent."

Even the Kentucky Derby felt the impact of the war. OPA asked hotel men in Louisville, Ky., not to increase their rates for war workers living there, during Derby week.

OFFICIAL ORGAN FOR FLOYD COUNTY, KY.

Per Year \$2.00

NORMAN ALLEN Editor Entered as second class matter June 18, 1927, at the postoffice at Prestonsburg, Ky., under the act of March 3, 1879.

A MILLION DOLLARS 'GONE TO THE DOGS'

FLOYD county farmers could make a million dollars a year that they aren't.

That is the value placed by County Agent S. L. Isbell on the county's non-existent sheep-raising industry.

A million dollars literally gone to the dogs! For the raising of sheep is consid-

ered by Floyd county farmers as an impractical undertaking, with uncontrolled dog population as large as it is.

Now, at a time when the need for wool is urgent, and when the greatest returns would accrue to sheep-growers, only a few farmers in this county own flocks, and these are small.

Floyd county's hills and hollows and climate are ideal for sheep-raising. Apparently, the only bar to this new industry for Floyd county is the lack of protection farmers have from the inroads of dogs.

Not every dog is a sheep-killer. The hound has been maligned as such, but the real killer is the cur. But no matter what dog kills sheep, the killer should be eliminated.

If it is our patriotic duty to supply those things most needed by the country in its war effort, sensible, practical steps should be taken now to make Floyd county a sheep-producing section and a county wherein its farmers may work and live with the full protection of their property that will enable them to realize a profit from their work.

U-K. Plans Music Festival For 'Singers for Fun of It'

The University of Kentucky, thru its extension department, is sponsoring an adult music festival in the afternoon and evening of Thursday, May 21. This singing festival is designed for every day folks, professional and semi-professional musicians being barred from participation. Persons receiving remuneration for musical services in any way are eligible.

Six entrance divisions have been set up: women's quartet, male quartet, mixed quartet, women's chorus, men's chorus, and mixed chorus.

Emphasis is to be placed on American music. An American folksong of the Foster type, a spiritual, a mountain ballad, a cowboy or frontier song may be used, or a song by an American composer. Two American songs of the group's own choosing are to be presented, and, in addition, everyone is asked to be prepared to sing the first stanza of the "Star Spangled Banner," the first stanza of "My Old Kentucky Home," and the first and third stanzas of "Home on the Range," and "Sourwood Mountain." These songs are for mass singing.

Groups have the privilege of singing for fun or singing to have their performances evaluated by a competent judge. Quartets receiving a rating of "Superior" will be given a pin similar to the one used in the Kentucky high school music festivals. This is a seal of Kentucky with enameled lettering in the blue and white colors of the University of Kentucky. Choruses rating "Superior" will be given a certificate of merit.

The festival is for folks who like to sing just for the fun of singing.

LETTERS TO THE EDITOR

SPEAKS FOR COUNTRY'S FINEST

Editor of The Times:

In regard to our soldier boys, I hear of some talk about them not being good enough to go out and associate with nurses.

Now, I don't mean to throw off our nurses, for I think they are doing their share in this war and I feel they ought to be highly respected, the same as our boys. But I don't think there is anything too good for the boys in the army, even though it should be a king's daughter. I know she ought to feel it is a grand opportunity to have the privilege of associating with our American sons.

I have two boys in the service on lonely islands, across the stormy

deep, and they are standing as targets to be shot at by the foe. They volunteered and went in defense of their country, that we may have our freedom back home; and it just makes my blood boil to hear of any one saying anything against our soldiers.

I know there is nothing too good for them, and I say this in plain language that whoever says anything against them is low-down and onery and ought to be arrested as saboteurs and not put in jail—that is too good for them—they ought to be lined up and the Hitlerism shot out of them. I would like to meet the one that has this talk and look him square in the eye and tell him what he is.

TIDBITS OF KENTUCKY FOLKLORE

By GORDON WILSON, Ph.D. Western Kentucky Teachers' College Bowling Green, Ky.

PECK'S BAD BOY

WHEN boys were models of excellence, having been reared by pious mothers and Civil War-trained fathers with a decidedly military air, a source of great joy was some book that would show the naughty world in its most alluring badness. It was permissible, I suppose, to long for bad days, when men killed Indians and scalped them in retaliation for similar deeds done the whites, but it would have grayed our parents' hair if we had expressed any such wicked desires. Life was so regulated that it was hardly possible to do anything very bad, hence, we found our way out through books. And even our parents, often joined us in this orgy of badness by laughing with us at the antics of comedians that seemed very funny. One such book, long a household favorite, was PECK'S BAD BOY. It was a series of sketches and stories giving the exploits of the bad boy, with his father often the victim of practical jokes. Always the dumb father found out that he had been taken in; then followed the usual parental outburst of outraged dignity; the boy found refuge in the grocery and told the merchant his yarn, meanwhile eating such knickknacks as he could pick up in the store, for which freedom the merchant charged the boy's poor father double or treble. Looking back now at the stores, which I haven't seen for 30 years or more, I fear that I find them pretty monotonous and not nearly so risque as they were once felt to be. But when one has been sheltered from every appearance of evil and made to fear that he will wake up some day with the odor of primrose in his nostrils, it is great to steal, even at second hand, some daring raids on smug decency. That may account in some measure for our inordinate love of PECK'S BAD BOY.

Not only were the practical jokes regarded as rich, but the language was racy for us, too. Nearly every sketch, it seems now, ended in some such formula as this: "Pap told me to go to hell, and I came over here." When we heard of hell, it was usually at church, and we somewhat shivered at the word. Here was a mere boy able to use it and not perish instantly; in fact, he could come back on the next page and tell how delightfully he had again taken in his long-suffering, gray-matterless father. We wanted to imitate such boldness of language but did not dare without saying it as a quotation from our great book.

Another similar book, now a sort of classic among students of American humor, was SUT LOVENGOOD'S YARNS, or THE AUTOBIOGRAPHY OF A NATURAL-BORN DURN POOL, by George Harris, sometime captain of a Tennessee river steamer, Sut was all that his name implied, a rough practical joker, consumer of moonshine, and lanky, ragged hillbilly. His exploits were not nearly so sophisticated as those of Peck's hero, for they took place in east Tennessee in almost pioneer times. Some of them have almost historic importance, as his experience with the shirt that had been boiled in the kettle where preserves had been made. His language was coarse and rough, giving us another thing to quote, for we somehow felt that quoting cuss words did not make us guilty as making them up ourselves.

Much more subtle but still naughty were the writings of Eli Perkins, otherwise Melvin D. Landon, a humorist once very popular. Perkins represented himself as an observer at naughty watering places like Newport and Atlantic City and Saratoga. Through him we got glimpses, even though satirical ones, of the lazy, aimless, but (very strange to us) wealthy scions of great American houses. I know now that some of the things we learned from him were really great satires, but we were too innocent then to guess how great they were. Anyway, these three naughty books and a few others opened up a forbidden world for us that our strait-laced life knew little of.

MONEY TALKS By FREDERICK W. STAMM Economist and Director of Adult Education University of Louisville

THE full meaning of war is rapidly becoming clear to many Americans. Last week the War Production Board ordered a drastic curtailment of production or a complete shutdown of a score of industries that up to now have made life more comfortable for the average citizen.

The use of metal in garment hangers, vegetable bins, curtain rods, soap dishes, sink and dish drainers, carpet beaters, towel bars, and fly swatters, has been banned after July 1. The production of toasters, percolators, flat irons, waffle irons, and electric shavers is out after May 31. The production of vacuum cleaners and mechanical refrigerators to stop April 30 while April 2 puts an end to the production of radios for public use. Lawn mower production for non-farm use stops June 20, and the output of washing machines for civilian use will end April 15. Sale of bicycles to adults has already been halted. When we add this list to the already large list of commodities which have been banned for general use (automobiles, tires, etc.) we can readily see that life cannot go on as usual.

Retailers who handle these items are going to be seriously affected. It is estimated that the sales of consumers' durable goods (refrigerators, washing machines, radios, etc.) will drop from the high of nearly 15 billion dollars in 1941 to around 9 billion dollars in 1942, or 42 per cent. This simply means that some retailers must take on additional lines of goods or be prepared to suffer through a long period of hard times.

What can they do? Well, they might consider adding a line of non-durable consumer goods (groceries, dry goods, shoes, clothing, etc.), for the estimated sales volume of these articles will jump from about 39 billion dollars in 1941 to nearly 45 billion dollars in 1942, or about 15 per cent. Unusual times call for unusual action. What's wrong with a hardware dealer who has a store room, delivery and store equipment, and a sales staff adding a line of groceries, dry goods, shoes, or clothing? It may mean the difference between keeping the doors open or closing down business. Adjustments in business and in life are coming. They will be severe; now is the time to prepare for them.

BALL SEASON OPENS HERE

P'burg, Wayland, Wheelwright Win Loop Openers

A fair-sized crowd here Sunday forgot the war and next (or last) month's rent as Drift and Prestonsburg opened the Big Sandy Baseball League season locally with a stirring contest which ended in Prestonsburg winning, 3 to 2.

Young Billy Damron was the hero of the afternoon, his home run smash over the right field fence with Woods on base putting Prestonsburg in the one-run lead it never relinquished. That was in the fifth inning, and until that time the visitors were leading by virtue of a two-run outburst in the second inning, the only round in which they tapped the pay-off rubber.

The game was a pitchers' battle throughout, with big Ray Patton strong-arming it the entire distance for Prestonsburg, and Kit and Buck Stumbo sharing the mound work for Drift. Kit Stumbo worked six innings and, though wilder than usual, was effective. His successor was not scored upon in his two-inning stint.

Floyd county's other two teams of the league won their season-openers—Wayland at Van Lear, 12-2, and Wheelwright over Thealka, 8-1.

Box scores of the Prestonsburg-Drift and Wayland-Van Lear games follow:

Berea Is Approved As Naval Reserve Training Center

Berea, Ky., May 3 (Spl.)—Berea College has been approved by the U. S. Navy Department for the training of prospective naval reserve officers enlisted in class V-1, President F. S. Hutchins has announced.

Young men 17 years old and under 20 are eligible, if they meet the physical requirements for enlistment in the U. S. Naval Reserve, and are enrolled or accepted for enrollment in an accredited college.

Those who enlist in the V-1 class are allowed to finish two years of college work, at the end of which they stand an examination.

Those who are successful are assigned to Class V-5 or V-7. The V-5 class are transferred to special schools for aviation cadet flight training to be officer pilots. The V-7 class are permitted to remain in college two years more and receive their degree, after which they may take special training and are commissioned ensigns of the U. S. Naval Reserve.

Anyone eligible for this enlistment and interested should ask for a certified statement of his acceptance to Berea College, procure from the nearest navy recruiting office Form NRB No. 24 and N. Nav. 400, and obtain a birth certificate and then apply for enlistment.

Ten NYA Trainees Leave for Work In Maryland

Ten more "graduates" of the NYA defense shop here left Monday for jobs in Maryland war production plants. They are:

Warren Blackburn, Woods; Paul R. Hale, West Prestonsburg; Bradis Calhoun, Water Gap; Kavanagh Moore, Alphoretta; Forrest D. Coburn, Garrett; James Brewer, Sloan; Joe Jack Daniels, East Point; Basil McGuire, West Prestonsburg; Lawrence Howard, Pyramid; Lafon Ball, Prestonsburg.

Enrollment of youths for training was under way Tuesday—some to fill vacancies caused by boys leaving the training shop for work in defense plants, others to form classes in the new addition to the shop.

Richard Quillen, shop superintendent here, said this week the addition will be completed within four to six weeks.

Safety Meet, Banquet Held Tuesday Eve At Bus Station

A safety meeting and banquet was held Tuesday night in the lobby of the bus station by the company officials and employees of the Sparks Brothers Bus Company. Oakley Sparks presided over the meeting and presented Luther Conley, Salyersville, operator of the Conley Bus Lines, McKinley Sparks, general manager of the local bus line, and the Rev. A. L. Allen, all of whom made interesting talks.

The general theme of the meeting was "Safety and Comfort of Passengers." Highlighting the evening's discussion was the proposed adjustment of present schedules to meet the war emergency conditions which would embody a speed limit of 40 miles per hour. Twenty-two attended the gathering, the second of a series to be held every four months.

Those attending the meeting were Lemmie Jones, Bill Allen, Fonzo Harrington, Tom Burke, Chester Sparks, James Lafferty, Clarence Logan, Charles Maynard, Jim P. Harris, Woodrow Osborne, Curtis Jones, Ray Pack, Charlie Curmuto, Fred Dickerson, Paul Messer, John P. Wells, Tom Calhoun, Junior Wells, Oakley Sparks, McKinley Sparks, Rev. A. L. Study of Timber In East Kentucky To Be Undertaken

Lexington, Ky., May 3—Dean Thomas P. Cooper of the University of Kentucky College of Agriculture and Home Economics today announced a three-year study of timber lands in Eastern Kentucky has been launched by the land-economics section of the farm-economics department of the college with the aid of a grant from the General Education Board of New York.

The study will deal with the kinds and quantities of timber available, the question of whether timber-growing is preferable to agricultural uses of land, markets, employment of people, cutting practices to make forests continuously productive and other phases, according to Dean Cooper.

Dean Cooper said the project, centered at the Robinson Experiment Substation at Quicksand, will have the advice of Dr. Henry S. Graves, formerly chief of the U.S. Forest Service and later dean of the Yale School of Forestry, as consultant on the entire project; Dr. R. H. Allen, land economist at the Kentucky college, and Max Tharp, assistant land economist; R. O. Gustafson, forester; Ben N. Hornbeck, junior forester, and others. The Appalachian Forest Experiment Station of the U.S. Forest Service is making available the services of Dr. W. A. Duerr, forest economist, the university dean said.

Breathitt county was selected as typical of the Appalachian highlands region and most of the work will be located in this and nearby counties, according to the dean.

Mrs. Jane Bradley, one of the section's oldest women, died at her Dema, Knott county, home Friday at the age of 91.

She was the widow of Ike Bradley and was a sister of Allen Stone, of Blue River, this county. Mrs. Bradley was well-known in this and Knott counties and had many relatives and friends.

The funeral Saturday from the home was conducted by the Revs. Ellis Hopkins, L. M. Mosely and Clabe Mosely, all of the Regular Baptist Church. Burial was made in the family cemetery under the direction of the Arnold Funeral Home.

Surviving are nine grandchildren, sons and daughters of her only son, Butler Bradley.

Harris, Aviation Cadet At Santa Ana, Calif.

Taking the first step toward winning his wings as a pilot, navigator, or bombardier, Joe T. Harris, 21, son of Mr. and Mrs. J. T. Harris, Sr., of Lancer, has become an aviation cadet at the Air Force Replacement Training Center, according to army at Santa Ana, California.

During his stay at the replacement center, Cadet Harris will undergo various physical and aptitude tests designed to demonstrate the specific branch of the air force for which he is best suited.

Also included in the aviation cadet program are "refresher" courses in subjects that Harris will encounter as he "wings" his way toward a second lieutenant's commission.

Martin Man Dies After Long Illness

An invalid for the last year, Andrew J. Griffin, 79 years old, died at his home in Martin, at midnight Tuesday. Mr. Griffin was crippled, several years ago in an auto wreck.

He was a native of Alabama. Surviving are his widow, Mrs. Vonia Griffin, and one step-daughter, Lila Jewel Crowder, of Langley. Funeral rites will be conducted this afternoon at Martin, with burial following in Martin cemetery under the direction of the Ryan Funeral Home.

BUY WAR BONDS!

ATTACK! ATTACK! ATTACK!

America's attacking on both the fighting front and the home front today! We're giving the Axis a bitter taste of what's to come. We're fighting the inflationary 6th column that blows prices sky high here at home, too. And every one of us who saves at least 10% of his pay in War Bonds is an important soldier in the attack! Join the attack yourself!

Mother of 5 Sons In Armed Forces To Get Award

The Emblem of Honor Association, New York, has awarded a Five-Star Emblem of Honor Pin to Mrs. Julia Hicks Bailey, of Hippo, in recognition of the services of her five sons with the armed forces of the United States. They are: Sgt. Leonard L. Hicks; Sgt. James K. Hicks; Seaman Samuel B. Hicks, Seaman Benjamin F. Hicks, and Seaman Preston D. Hicks.

"We believe," said Martin Stone, secretary of the Association, "that any woman who contributes so handsomely to the defense of her country is deserving of an award of this kind and recognition, not only by her own community, but by the nation as a whole."

R. M. Hicks, of Hippo, has been asked to make the presentation of the pin to Mrs. Bailey.

Scout Fund Here Up to \$400 Mark, May Pass \$600

More than \$400 has been subscribed in Prestonsburg to the Boy Scout fund, and this figure is expected to approximate \$600 when 12 solicitors of funds who have not reported file their receipts, it was said Wednesday.

A sizeable contribution is also expected from David where the Princess Elkhorn Coal Company announced it will match the total subscribed by its employees.

Funds subscribed in this county will be used in Scout extension work in Lonesome Pine Council. Any community interested in establishing a Boy Scout troop is advised to communicate with N. M. White, Jr., Prestonsburg.

New Yorkers Are Talking About:

The Columbia University professor (sympathetic to Japanazi groups) who just became a Lt. Col. in the Military Intelligence Reserve Corps... The mysterious disappearance of lovely Caroline Lee Gilbert, daughter of a newspaper man. Her mother is limp from the heart-ache... The Merciless Truth: In Damon Runyon's new film, "Butch Minds the Baby," (which they say is a corker) to wit: "On Broadway a character is a jerk with personality."

The cluck colymer who is playing into the paws of the enemy by falling for and publishing stuff comforting to Goebbels. Two of his offerings one week were so palatable to the Jack-Axis—that their short wavers here flashed the phony paragraphs abroad... But wait! Within 48 hours CBS reported that its short wave monitors here heard the same items credited to "reliable American sources" from Berlin and Rome. Imagine!... The Gov't, however, sent for the Soandso the other day and read the riot and espionage act of 1917 to him... 20 years in prison next time.

Counsel Ed Foley (of the U. S. Treasury) and his extreme satisfaction over the ousting of all Nazi-philites from the German Alliline firm. Congrats to Mr. Morgenthau, Foley and the agents for making the U. S. safer without those bums.

Joan Fontaine's verbal lashing of a femme colyunist (not L. P.) after she won the Academy Award. Nasty wordage made Joan feel better, and she wound it up by inviting the coward into the alley... Eve Symington's groom's huge portrait of Capt. Colin Kelly in his defense plant—to inspire the workers... Press agents on Broadway who hand colyums or anyone military information—rumors or facts. They are inviting an awful lot of trouble... A word to the wise men of B'way should be sufficient, but it probably won't be... Anyway, please don't offer any of it to me... Tom Dewey who says he never was offered Biddle's job, so he couldn't have spurned it.

Capitol Hill wags claim Congress' recent try for pensions wasn't so unreasonable. They name members of both Houses who'd be worth money to the Gov't—out of office.

Daladier told the Biom courtroom that petty bickering among French statesmen in time of crisis is what gave France to the Nazis on a platter. It is also worth noticing that Laval, the best administration hater over there, was taken care of when the conquerors came.

Paula Crystal, the concert singer, tells of the air raid warden making the rounds of an apartment house. One question is: "Have you any pets here?"

A woman on the 11th floor admitted she had a rooster in the apartment. He warned her it was illegal, and then went on.

On the floor below he asked a tenant, "Have you any pets?" She said no—she hadn't because a small city apartment was no place for pets. "Well," he said, "the woman above you keeps a rooster." Whereupon the 10th floor lady let out a piercing shriek and then swooned.

When she recovered she told the warden that for months she had been visiting a psychiatrist on the advice of her husband—because every time she told him she heard a rooster crow, he'd shout, "you are going crazy."

Boomerang: Here's the latest "draft dodge" gossiped around... Get yourself a "friendly" doctor, a case of pneumonia and a private room in a hospital—preferably a private hospital where your "friendly" doctor handles the case. The usual (and latest) sulphur drug therapy is administered. Then the patient suffers "after effects" of the sulfanilamide. He gets pernicious anemia. Continued consumption of the drug keeps him in this condition. The payoff is that the drug not only breaks down the red corpuscles in the blood stream but it DESTROYS THE BRAIN CELLS TOO! When the slap-happy draft-dodger finds out it's too late—he's nuts!

Charades becoming a popular indoor sport again around the mid-town bars. Frixample: I came home and told my valet I was dressing for a dinner, so he laid out my dress clothes, brown shoes and no studs. What book am I reading?... "How Green Was My Valley"—you dope.

The gag amusing Washington: "I hear they are setting up another office to be called O.U.C.H."... "Office of Utter Confusion and Hysteria."

GASOLINE RATIONING

Effective May 15, gasoline rationing will begin in 17 Eastern states, including West Virginia and will operate until July 1, when a more comprehensive coupon rationing system will become effective.

All persons from the unrationed area going into these Eastern states, will be required to secure a ration card at the local ration board nearest to the border. These cards may be secured on May 12, 13 and 14, and registration card must be shown, which will be stamped in order to avoid duplicate applications.

No definite amount has yet been announced; however, the best grades is around five to six gallons per week for all motorists.

Ration cards cannot be transferred as they bear the license number of the owner's vehicle.

A motorist may buy all his units at one time, but will not be able to get another card before July 1, with the exception of those with priority rating and persons working in defense plants.

It will not be necessary for commercial vehicles, including truck owners, to secure ration cards. However, gasoline cannot be shifted from trucks to automobiles and rigid penalties will be imposed upon violators.

JOHNSON MINE AT WORK

As Strike Placed In the Hands Of Umpire

The Consolidation Coal Company's Van Lear mine was not picketed for the first working day in a week, and a full shift of approximately 200 men went to work in the mine Monday.

Superintendent M. M. McCormick said there had been no settlement of difficulties that led to a closing of the mine to all save maintenance men, and added that he was unable to account for the withdrawal of the picket line.

A number of former employees, contending that the company discriminated against those living outside the mine camp in making discharges, began picketing the mine last Monday.

Both the management and the United Mine Workers (U. M. W.) said no strike was authorized but that the men would not go to work through the picket line.

McCormick explained that the discharges against which former employees complained were necessary under a curtailment program, and

that those living farthest from the camp were the first dismissed.

The dispute was placed in the hands of an umpire, E. S. McCullough, of Fairmont, W. Va., but so far as could be ascertained he had not given a decision.

"I drink large quantities of milk and am well and strong," an 82-year-old man told a foods meeting in Grayson county.

MAYBE you don't care about two movies for the price of one. But there's another kind of double feature that every one enjoys.

This bargain bill is continuous too—right around the clock and the calendar—the fact that the average American household gets about TWICE as much electricity for its money as it did fifteen years ago.

You probably don't realize that household electricity costs you only half as much as it used to, because you've added so many useful new appliances over the years—more and better lamps—radios, refrigerator, clocks—vacuum cleaner and washer, perhaps—all serving you well and saving you work.

The same careful business management that made this possible has also helped provide the power for today's tremendous production of tanks, planes and ships from Democracy's Arsenal. Electric power is military power too!

KENTUCKY

U. S. Treasury Official War Bond Quotas for May

May Quota for State, \$5,557,700

EASTERN PART OF KENTUCKY

The above map of Kentucky shows the War Bond quotas, by counties, for the month of May, 1942. Total War Bond quota for the State is \$5,557,700. Every income earner in the State is expected to step-up War Bond purchases on a basis of ten per cent or more of income. This is necessary to help America's

armed forces take the offensive against the Axis powers. The American voluntary method of War Bond purchases must be successful in reaching the quotas set by the Treasury Department for every county in the nation. The job of every American now is to stop spending and save dollars to help win the War.

SHIKE'S POKES

(The views expressed herein are those of the writer and not necessarily those of The Times.)

Merwin K. Hart, president of the New York State Industrial Council, in the letter to The Courier-Journal, denies attending an anti-Roosevelt rally with Fritz Kuhn. However, he sez that some strangers were at a luncheon with him and one of them was Kuhn. Mr. Hart was in damn bad company when he was out with a gang that catered to Kuhn. Birds of a feather flock together — wonder where Lindbergh was?

It seems that our county law enforcement officials could do something about the wave of forest fires that are raging unchecked. These fires have already wrought untold thousands of dollars' damage. Remember, setting a fire or letting it

get out of control is "sabotage" and just why wouldn't the 1942 Defense Act cover the "fire bugs"? Instead of so many deputy constables snooping around, trying to catch some working man drinking a beer (the non workers are not molested), why don't they check a little on the forest fire business? Visibility was almost zero on Beaver Creek Sunday, due to the pall of smoke from raging fires.

Chandler sez at Ashland that the bombing of Axis territory will be an every day occurrence when our production hits its stride. Oh, yeah? Mr. Chandler, every citizen of Kentucky knows it would right now be an every day occurrence if it hadn't been for a dumb bunch of axolotlist Senators like you, Wheeler, Byrd, Taft and several others I could name. You, Senator Chandler, are in the same boat with the isolationists. The bombs bursting at Pearl Harbor threw cold water in your faces and woke you fellows up. And, by the way, Senator, what happened to your bill to

increase the Senators' clerical hire. You might have dropped it, but we haven't forgotten it.

Boy, the bombing of Japan was a happy event in this section. The Japs say they went about their business as usual—but from reading some of their broadcast bulletins, it seems they had an air raid alarm every time a crow flew over.

Yeah, people who live in grass houses shouldn't play with fire—and what the Japs got is just a small sample of what is to come.

I'll bet that if the court forced the deputy constables to take their costs in War Bonds, they'd all resign. They are not \$6.60 patriotic.

Mack Lewis had to come out of Kershaw Creek before daylight Saturday. He bought a new green straw hat and, if it had been light, all the cattle would have followed him out.

22 Acres of Hemp Pledged By Farmers

Floyd county farmers, County Agent S. L. Isbell announced this week, have already filed applications for permits to grow 22 acres of hemp this year as an aid to the national war effort. The county's quota is 100 acres.

Mr. Isbell said other farmers are expected to join in the move within a short time. The state quota is 33,000 acres. The hemp is wanted this year only for seed, and farmers "signing up" are expected to find in it a new cash crop.

No castor bean acreage has been assured by Floyd farmers to date, the County Agent said. The state quota is only 500 acres.

War and Navy Secretaries Stimson and Knox let the senate foreign relations committee in on a number of military secrets, which cannot be disclosed, when they testified behind closed doors on the \$500,000,000 loan to China. In return, the cabinet officers were vouchsafed a political secret by Senator Tom Connally, committee chairman, which can be told.

The courtly Texan was confronted with a problem in protocol in trying to decide whether Stimson or Knox should be the first witness. Finally, he turned to the 74-year-old war secretary and said:

"Mr. Stimson, we will hear you first. I believe you have seniority."

"I won't stand on my seniority if you prefer hearing Mr. Knox," smiled Stimson.

"Oh, we insist," said Connally. "We are great believers in seniority here in the senate. If that weren't so, some of us committee chairmen wouldn't have our jobs."

Note: Though not named by Connally, Senator Reynolds of North Carolina, chairman of military affairs, is definitely in this category. Able Senator Austin, though a Republican, does the real work of the senate military affairs committee.

ARMY GOES TO SEA

A hot, backstage fight between the army, navy and maritime commission has developed over Brig. Gen. Charles P. Gross and his ambitious plan for the army to take over all war shipping. The row has even gone up to Harry Hopkins and to Transportation Czar Joe Eastman, so far without settlement.

Crux of the battle is that General Gross, an infantry officer recently placed in charge of army transportation, is eager to take over docks, ships, rails and inland transportation, operate all of the supply ships which now sail under the maritime commission and the navy.

The maritime commission and the navy, however, claim that the job of the army is to remain on the land, and they will handle water transportation.

Before the sea-dogs realized what was happening, however, General Gross had quietly written out an order and taken it to Joe Eastman, who was on the verge of signing it. Gross is under General Somerville, the quartermaster general, who was New York WPA administrator under Harry Hopkins, and Somerville has pushed the plan with his old friend in the White House.

However, ex-Budget Director Lewis Douglas, newest addition to the maritime commission, so far has blocked the army grab. He claims the army has enough to do fighting, without sailing ships.

BRITISH RED TAP

"There'll always be an England," but U. S. fliers now trying to save India are wondering why. British officials in India don't want them to enter India until 31 days after they have taken yellow fever shots. By that time the Japanese, who don't have to observe the 31-day rule, may obviate the need of U. S. fliers going to India at all.

Stopping Inflation

Inside fact about the current quarrel over inflation and the farm bill is that sage old Bernie Baruch long ago warned the President, Leon Henderson and the inner circle that they could not stop inflation if they put the brake only on prices.

"Price-fixing is like a four-legged chair," Baruch warned them. "It won't stand on two legs or even three."

There is no use regulating consumer prices, he said, unless you also regulate profits, also wages, also farm prices. If one of them gets out of hand, the others will too.

Baruch, who was head of the War Industries board in the last war, has been harping on this point for months. He urged congress more than a year ago to adopt a very high excess profits tax to take away all the war profits from industry; and at the same time he urged the President to clamp down on wages as well as prices.

The President actually got a little irritated at Baruch's pounding away on this theme. Today, however, chief resentment of the farm belt is not so much against Roosevelt's urging that farm prices be kept down, but over the fact that labor's income has skyrocketed while the farmer's hasn't. Furthermore, the farmer complains that he has to pay a lot more for his labor—when he can get it at all—but he can't increase his farm prices proportionately.

MERRY-GO-ROUND

Army, navy and civil defense authorities rate tall Mayor Ed Kelly of Chicago as the most co-operative and efficient municipal executive on war problems in the country.

Having taught himself Spanish, Good Neighbor-conscious Vice President Wallace has taken up the study of Portuguese.

Among agriculture department irreverents, the high handed bureaucrats of the AAA are known as "clusterheads."

Mother

(Editor's note: THE TIMES publishes the following from two of its readers as a Mother's Day tribute to mothers everywhere.)

A TRUE MOTHER By A. J. COBURN Hueysville, Ky.

Next Sunday is Mother's Day and I am dedicating this to all mothers. And here, at the beginning, I want to pay brief tribute to my own mother—one of the finest and most Christian-like mothers in this world. I thank God for having had such a mother.

To me, mother is the sweetest word on earth. But it has not always been such. History tells us that before Christ came women were mere chattels, regarded as little more than a beast of work, considered as the provider for the home. But after the coming of the Saviour and the Christian dispensation, motherhood was established in its rightful place and mother became the most sacred person on earth.

There is an old saying, "What is home without a mother?" The question answers itself with a great truth. But when I look out upon the younger generation of womanhood and see the type from which the mothers of the future are to come, I sometimes ask myself, "What is home to be with that type of mother"—girls drinking, smoking, going to immoral places, running to and fro, ruining not only their own character but also their health, and losing the respect of mankind.

The mother is the soul of the home. The foundation may be of stone, brick, concrete, anything you may choose; the floor, of pine, oak or cedar. The home may be illuminated by tallow candles, coal oil lamps, gas jets or electric bulbs, or even pine knots such as I have gathered for my mother to card and spin wool by. All this is inconsequential. The home is inanimate without mother. She is its life.

I would like for you all to remember some of the things that happened when you were with your mother. These memories will mean something to her, may cause you to smile at her more often. I am thinking she might want to feel your arms about her a little more often. And, if you are away from her, don't fail to send her a message as often as you can. Some of us would have to send our messages up to the throne of God to reach our mothers, but we can deliver the message in person, some day. If your father is yet living, let him hear from you and know that he is not forgotten.

Boys and girls, those of you who are away from home, don't forget that May 10 is Mother's Day. You boys in U. S. training camps, don't forget to write your mother—she is your best friend, and is worried about you. God, help me to live until this cruel war is over and see as many of you boys back home as it is God's will that shall return, with my own boy accompanying you. He has no mother here to come to, but I feel that she is at the throne of God, asking for his return home to me. If he is not permitted to return, I pray God to receive him with this message to mother.

MOTHER'S GRAVE By GEORGE MATHEWS Beaver, Ky.

Within a few days we will take time off, in the midst of world-wide tragedy, to do honor to our mothers on Mother's Day. To those who have their mothers with them it will be a day of happiness. But to those who have lost their mothers by death, it will re-awaken in them memories of the greatest of all tragedies—the hour they stood by and watched mother's coffin being carried into the house, and then tenderly carried away.

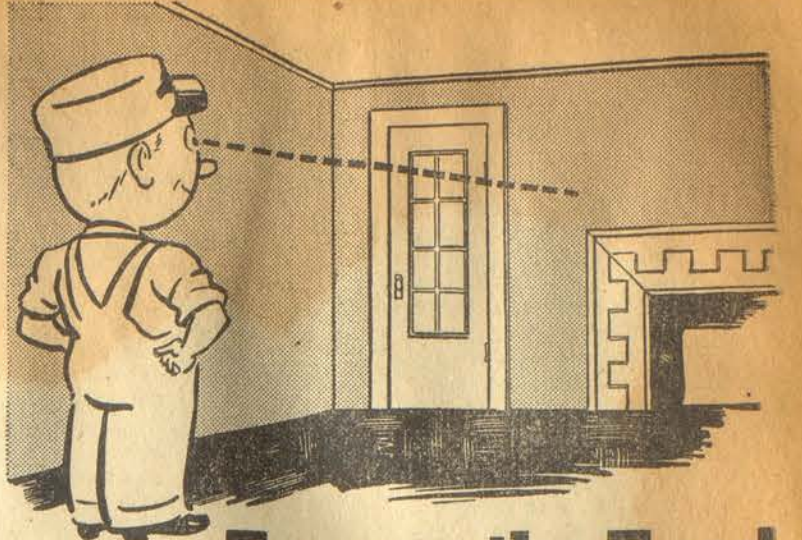

Recently I accompanied a small girl and boy on a pleasure stroll over some Floyd county hills. An April shower had just refreshed the tiny plants and flowers that waved in the balmy breeze, and the sun that now shone seemed to change the raindrops that still clung to the branches into sparkling diamonds.

While my spirit was lifted high by such heavenly beauty, the girl, pointing far across the valley, asked me: "Do you see the tall cedar on top of the mound?" It was low in the valley, at the edge of the half-green forest, and the winding Big Sandy helped to obscure it. After some difficulty I was able to answer, "Yes, I see it." With her eyes now turned toward the ground the girl said in a low voice: "It's at the foot of my mother's grave."

My spirit no longer seemed exalted, for, here in the midst of indescribable beauty, where heaven seemed to be giving eternal life to all things, was a mother's grave.

QUALITY KURFEES PAINTS

WAYLAND HOT SHOTS

By R. H.

You know, I feel like the Baptist preacher when he says he has to preach as his mind directs him. So my mind is directed to the slacker. I see by the report of our Draft Boards of Floyd county there are over 100 men rejected from military service because of just plain ignorance. Now, I personally know some of those men who have been sent back home for that cause, and they know a lot more than I do when they are around here. But when they are taken before the doctor for examination, they don't know how many months in a year or anything else.

Instead of the examining doctor sending these men back here among the good fathers and mothers to make them feel their boys who are in the service have been unjustly dealt with, they ought to send these fellows to an insane asylum. If these

slackers can work in Floyd county, they can work for Uncle Sam.

They have what is known as "the bull gang" in the army camps and K. P. duty. Surely these alleged illiterates could at least peel potatoes or dig a ditch.

Some of those rejected are just out-smarting their examiners. Some are not. The ones who are, are just plain slackers—not good enough for the country in which they live, and not good enough for an American to work with.

330 Unemployment Checks Issued; New Claims Filed

Benefits paid by the Kentucky Unemployment Compensation Commission to unemployed workers in Floyd county during March totaled \$5,850.00 it was announced this week by Executive Director V. E. Barnes. A total of 330 checks were issued during the month, it was announced, and 20 new claims were filed.

Although the state total of 5,324 new claims filed in March was a decrease of 34.5 per cent from the number for February, benefit payments for March were up \$45,150 over February's figure of \$285,885. This, the Commission's report said, is an indication that workers in the higher wage brackets are filing claims and is a reflection of unemployment of skilled workers due to the adjustment of plants and other enterprises to the war effort.

Checks written during the month, the report continued, represented payment for 40,418 weeks of unemployment. The average size of each check issued for a two weeks' period of unemployment was \$16.31, an increase of 73 cents over February's average payment.

The size of the unemployment trust fund at the end of March, 1942 was \$43,071,878, representing an increase of \$8,629,737 since March 31, 1941.
