NEW DRAFT RULE HITS 18-25-YEAR-OLDS

DRAFT BOARDS NOTIFY 128 FOR SERVICE

Board 45 To Send 241 to Huntington For First Exams

Floyd county's two draft boards this week were engaged in complying with new regulations providing for the induction of all 18-to-25-year-old men, with the exception of the few in key positions in vital industries.

Meanwhile, Draft Board 45 issued pre-induction calls for April—131 to leave for Huntington April 5, 110 to leave April 8, and both draft boards called up men who already had been accepted for service at their pre-induction tests.

Draft Board 44 issued notices to 43 men to go to Ft. Thomas for army service on April 8 and notified 15 to leave April 10 for navy service. Board 45 will send 37 to the army and 33 to the navy, April 11.

Board Moving to Martin

Board 45 this week was engaged in moving its headquarters from Prestonsburg to Martin with the aim of providing a location near the center of the Right-and-Left Beaver sections which it serves. The board's offices will be located at Martin in the Collins building.

Board 45, according to state headquarters, has jurisdiction over more draft-eligible men than any Eastern Kentucky board, with the exception of a Harlan county board which has 11,000 registrants.

RED CROSS SHY OF GOAL

In County by \$2,000, Is Guess Ventured At Headquarters

Floyd county this week, as the deadline for contributions drew near, was still around \$2,000 short of its Red Cross goal of \$22,500, Miss Ella Noel C. White, executive secretary, Floyd Chapter, announced.

"We have around \$4,000 cash in the bank as a result of the work done in Prestonsburg and elsewhere by loyal workers," Miss White said. "Our figures for the remainder of the \$20,000 we think we have raised are based solely on reports from communities of the county, including guarantees of mine local unions."

Miss White expressed full confidence in the amounts promised by mine locals, yet remained anxious about the final outcome of the drive for Red Cross funds.

"If indeed we do lack only \$2,000 of attaining our \$22,500 goal, and after all reports are in and we still lack that amount, we are trusting that a 'second thought' by many citizens and business men of the county will cause them to open up their hearts and over-subscribe our quota."

Miss White pointed to the expressions of service men, mailed to her, various citizens and to THE FLOYD COUNTY TIMES, asking that the "folks back home" back them with aid to the Red Cross.

FLOYD FINANCE RECORD IS 2ND BEST IN STATE

Is Lynn's Comment As County's Debt Is Under Control

"No county in Kentucky, with the possible exception of Boyd, has made such progress during the past two or three years in getting its financial house in order as has Floyd," Harry R. Lynn, state local finance officer, wrote County Judge E. P. Hill, Jr., last week by way of comment on the manner in which this county is handling its \$150,000 refunding bond issue.

"It's a new story for Floyd county to be operating on a cash basis and to be paying off its old debts rather than creating new ones," Mr. Lynn added. Mr. Lynn's letter was prompted by receipt of the last \$10,000 due on the \$40,000 appropriated for the funding bonds in this fiscal year's budget.

"Mr. May (W. J. May, County Treasurer)," he wrote, "has always been very prompt in sending in all of the money appropriated, and it is very pleasant to deal with a man who does not require occasional dunning, as is the case in some other counties. It is quite clear by now that you folks will do what you say you will do."

In round figures, Mr. Lynn said, the Department of Revenue will have \$38,000 of Floyd county's money on hand at the close of the current fiscal year. "If you will repeat the appropriation next year, I will have on hand as of June 30, 1945, \$55,000. That will be sufficient to pay the \$50,000 worth of bonds due Oct. 1, 1945, and also the interest coupons on the entire \$150,000 issue. After the next fiscal year you thus will be able, if you want to do so, to drop your annual appropriations to the \$31,000 pledged on the bond order."

The \$150,000 bond issue was voted to settle old indebtedness at an interest rate lower than the rate paid on the original debt which was incurred by former county administrations.

FORD DISPOSES OF HOLDINGS

Sparlin Buys Acreage In Breathitt County; Archer Sells Home

Real estate and property transfers here for this week involved sums totaling upwards of \$65,000. Transfer by Winston Ford to Commonwealth's Attorney John Allen and Lawrence Keathley of his gas interests, real estate, trucks and personal property was being made this week for a reported price of \$45,000.

At the same time it was reported that Mr. Ford had purchased the George B. Archer property on Maple avenue. Amount involved in the trade was said to be \$7,000.

It was said Thursday morning that Commonwealth's Attorney Allen and Circuit Judge Henry Stephens had sold to Jack Sparlin 2,430 acres of land which they owned in Breathitt county, including mineral and timber rights. Amount involved in the transaction was not stated.

Spanish War Veteran Dies in Lexington; Burial in County

James Andrew Taylor, 69-year-old Spanish-American War veteran, died Thursday, last week, at a Lexington hospital and his body was returned to his home at Ivel for funeral and burial.

Mr. Taylor was a native of Scott county, Virginia, but had resided in Floyd county for the last 40 years and was known as a good citizen. He was married 37 years ago to Miss Margaret Dillon, of Ivel, who survives.

Funeral rites were conducted Saturday from the residence, the Rev. Isaac Stratton officiating, and burial was made in the Davidson cemetery at Ivel under direction of the Arnold Funeral Home.

VISITS IN ASHLAND

Miss Betty Jean May spent last week-end in Ashland, the guest of Mr. and Mrs. W. J. Patrick. Miss May was also entertained in the home of Mr. and Mrs. Iley B. Brown.

Sgt. Stumbo Receives Air Medal for Role In German Bombings

The award of the Air Medal to Staff Sgt. Denzil P. Stumbo, of Printer, this county, was announced recently "somewhere in England" by Brig. Gen. James P. Hodges, commanding general of a Liberator bomb division.

The citation reads: "For exceptionally meritorious achievement while participating in five separate bomber combat missions over enemy occupied continental Europe."

Sgt. Stumbo is a son of Mr. and Mrs. Monroe Stumbo, of Printer. His wife, Mrs. Ethel L. Stumbo, resides at Martin.

Prior to the war, he attended Martin high school and the Spencerian Commercial School in Louisville.

He is now ball turret gunner on the combat crew of the Liberator "Feather Merchant" at a base in England. After his entry into the service Nov. 27, 1942, he received training in airplane mechanics school at Seymour Johnson Field, N. C., and in aerial gunnery at Ft. Myers, Fla. Overseas combat training was taken at the army air base, Sioux City, Iowa.

MOORE KILLS GEORGE ALLEN

Slayer of Allen Eludes Kinsmen Of Floyd Man

Although authorities of this county had not been called upon for their assistance, Farris Moore, 25, alleged slayer of his father-in-law, George Allen, 50, of Lick Fork of Salt Lick Creek, this county, was being sought by citizens inside the county's lines, it was said here Wednesday.

Moore is alleged to have turned a shotgun blast onto his father-in-law while the two were on the headwaters of Licking river, Magoffin county, Sunday and after Allen had asked Moore not to fire on others.

Relatives of the slain man surrounded the home of Jasper Moore, a brother of E. M. Moore, former Knott county judge, and father of the alleged slayer, on the night following the slaying, but Moore escaped through the cordon before the Knott county Sheriff arrived on the scene.

Allen, a son of the late Proctor Allen, of Salt Lick Creek, is survived by his widow and several children. His body was returned to his home in this county for burial.

The man accused of the slaying served a previous pen term on a shooting and wounding charge, it was said.

HICKS WAS 13TH MAN ALONGSIDE GUN 13; SHIP SUNK ON 13TH

That 13th man of a crew alongside gun No. 13 on the U.S. cruiser Atlanta which was sunk Friday the 13th day of November, 1942 is living refutation of all the superstitions surrounding that certain date and number.

He is Bo'sun's Mate 1/c Samuel Hicks, one of the five sons of Mrs. Julia Hicks Bailey, of Hippo, who not only have seen service throughout the war but who were trained and ready for duty long before the Jap sneak on Pearl Harbor.

That 13th man, Boatswain's Mate Hicks, who was a gun-pointer—all that happened to him when the Jap shell exploded in his battle station, killing the other 12 men with him, was the loss of his left ear, but for the miracle of plastic surgery, burns on his hands, 25 pieces of shrapnel in his back, legs and head. See him today and you'd swear, unless you looked ever so closely, his left ear had never been harmed.

If the Japs hadn't made "lightning" strike twice in the same spot, Hicks in all probability would never have returned to tell only a small part of his story. (He has things to

What's Wrong With Price Control?-- Nothing, Display Here Indicates

A display in the window of Perry's Grocery, arranged by G. R. Allen, Floyd county OPA price clerk, last week end provided a striking comparison of prices when uncontrolled in World War I and prices under control during the present war.

The display showed what could be bought for \$15, and in the World War I side of the window were only 50 pounds of sugar, which in the uncontrolled inflation of 1918 cost that amount. On the other side of the window were the following items which under price control are bought today for the same amount: 50 lbs. sugar, \$3.50; 24 lbs. flour, \$1.40; 10 lbs. meal, .50 4 lbs. lard,

.75; 1 dozen eggs, .42; 1 lb. butter, .51; 2 quarts milk, .32; 1 lb. coffee, .35; 1 loaf bread, .10; 1 box breakfast food, .14; 10 lbs. potatoes, .46; 3 cans milk--Carnation tall, .33; 3 cans tomatoes, .50; 2 cans peas, .28; 2 cans corn, .30; 1 bottle catsup, .30; 2 boxes macaroni, .20; 1 Dutch Cleanser, .10; 1 lb. box salt, .05; 1 lb. rice, .15; 2 lbs. dried beans, .20; 1 bottle salad dressing, .15; 2 cans green beans, .40; 1 box soap powder, .25; 4 bars soap, .20; 1 box tea, .27; 1 baking powder, .10; 3 rolls toilet paper, .25; 1 jar peanut butter (qt.), .15; 1 mop, .40; 1 box crackers, .19; 7-8 pounds dry salt bacon, \$1.78.

FLOYD NATIVE IS DROWNED

Stanley, One of Five Claimed in Pike-Co. During Past Week

One of five victims in a tragedy-filled week for Pike county was Scott Stanley, 45 years old, native Floyd county man, who with two others was drowned Saturday night when their automobile plunged into swollen Shelby Creek, approximately 16 miles above Pikeville.

Drowned with him were Wesley Adkins, 32, of Greasy Creek, and Stafford Kinney, 41, Robinson Creek. The following day, the body of Andrew Wright, 14, of Elkhorn City, who had been missing since the preceding Monday, was found on a sand bar in the Big Sandy.

Monday night, Mrs. Mary Belcher, 54 years old, of Stewart, Pike county, was killed when the auto in which she, her husband and their grandson were riding plunged from the highway at a point between Lookout and Esco. She and her husband, G. C. Belcher, leaped from the auto, Mr. Belcher escaping with minor injuries. The grandson remained in the car and was unhurt.

The Floyd victim was a son of the late Sam Stanley and was born and reared on Abbott Creek, near here. He had been an employe of the Chesapeake & Ohio Railway Company for the last 25 years and at the time of his death was a conductor on the Big Sandy division. He had resided in Pike county for several years.

Surviving him are his widow, two children and his mother, Mrs. Julia Stanley Spradlin, of Middle Creek, two brothers and one sister: Jim Stanley, Prestonsburg; Bruce Stanley, Clear Creek, and Mrs. Penn Fitzpatrick, of Middle Creek.

His funeral was conducted Tuesday and burial was made at Shelbyana, Pike county.

G.O.P. NAMES NUNNERY

To Chairmanship At Caucus Held Here Saturday

J. H. Nunnery, Prestonsburg merchant, was elected county chairman of the Floyd county executive committee of the Republican party at the caucus held Saturday afternoon here.

Mrs. W. B. Boyd was named county chairwoman; D. P. Dings, secretary, and Lackey Salisbury, treasurer.

Mr. Nunnery was elected on the second ballot. The first rollcall found D. P. Dings well ahead of both Mr. Nunnery and George T. Roberts, a candidate for re-election to the post. On the next ballot Mr. Roberts withdrew, his voting strength going to the winner.

Atty. Edward L. Allen, Prestonsburg, presided as temporary chairman. The caucus, which on the whole was harmonious, was attended by the largest number of Republicans to gather for a county organization election in years. Approximately 100 precinct representatives attended a dinner preceding the caucus.

Business Houses Here Are Asked to Close For Church Hour

All Prestonsburg places of business are being asked to co-operate with Prestonsburg churches by closing for the services which will be held on Good Friday at the Methodist Church from 2 to 3 p. m., the Rev. W. B. Garriott, pastor of the Methodist Church, announced Wednesday. The service, it was said, is for all churches and all are invited to attend.

Floyd County Sailor Lives to Prove 13 Is Not Unlucky Date or Number

AND YET HE SURVIVES BURNS AND WOUNDS TO FIGHT AGAIN

his only medical attention being the ministrations of his brother, Chief Machinist's Mate Benjamin F. Hicks, who was in the Atlanta's engine room when it sustained its death blows and who escaped without a scratch.

Later, Hicks was evacuated to Australia to a hospital, then was taken to the United States where the plastic surgeon got in his master touches.

Besides his brother who cared for him when he was wounded, Hicks has three other brothers in the armed forces--Lt. James Hicks, who was wounded in Sicily, but who now is in Italy; Preston D. Hicks, assigned to an aircraft carrier; S [Sgt. Leonard Hicks, in a Florida army camp.

Good as new, Hicks is looking forward to his next navy assignment. "I have had two ships sunk from under me, the Atlanta and a small cargo vessel in inter-island work which went on a reef. They should make my third a hospital ship--I've had enough time in hospitals to be qualified for a job," he said in jocular vein this week.

BEAUTY AT HOME

They'll not be running special excursions to Washington this year so that folks may see the Japanese cherry trees in bloom. But why go to Washington, anyway, when you can see them on Riverside, by far the season's most beautiful Prestonsburg street? (And don't say the bloom isn't beautiful, even if they are Japanese cherries.)

A RED CROSS VOLUNTEER

Writes William Arrowood, of Drift: "Please hand this check to the Red Cross Chapter. Although I haven't been called on to donate to the Red Cross this year, this shouldn't be necessary for any of us. This is for the benefit of all and the Red Cross is one organization we can be sure of using our contributions for the purpose for which they are donated.

"This is a small service for us on the home front to contribute our money while those on the battlefield are giving their lives for the same purpose--freedom for all."

P.S. The check was for \$25.

THE OFFICE CAT

This kitten which has been roosting on my desk this week is "Printer" Goble's, and like all his other pets is a non-descript sort of specimen. Its tail is dark, grey-striped, but as you look farther this feline shows outcroppings of all kinds of cats--grey, yellow, brown, with intervening stripes.

Between spells of playing with papers on the desk, it has caught two mice, played them to exhaustion and, of course, eaten them. And it has made the acquaintance of every visitor who stayed with us for a spell. Seaman Curtis George it climbed over Tuesday morning; that afternoon, it curled up in Sgt. Henry Shipman's air corps cap. Thursday, it prowled up and down Congressman "Jack" May during his

visit. This cat has spells of sneezing and in an unguarded moment it leaped to cat-arrrh. Yeah, the pun is terrible, but it's catty of you to say so.

KIN ARE TOLD OF CASUALTIES

Vaughan Held Lost As Troopship Sunk; Osborne, a Prisoner

Anxious Floyd county relatives this week learned that--

Pfc. Douglas Vaughan, 19, at first reported missing in the North African area, became missing when a troop transport from this county was sunk by "direct enemy action" in the European theater (presumably at the approaches to England).

Pvt. Emmett Osborne, son of Mr. and Mrs. Bev Osborne, of Eastern, recently reported as missing, is a German prisoner, taken while in action in Italy.

Pvt. Monroe Green, son of Mr. and Mrs. Roe Green, West Prestonsburg, was reported as having been seriously wounded in Italy after 16 months' overseas' service, is now reported as convalescing.

W. J. Vaughan, Prestonsburg, grandfather of Douglas Vaughan, was notified this week by the War Department that the Prestonsburg soldier was on a ship attacked by the enemy at night while rough seas were running. "Despite every protection humanly possible," the letter stated, "the ship was struck at night by the enemy and sank in a heavy sea. . . . Many American soldiers are listed as missing."

Military secrecy forbids identification of the ship on which Vaughan sailed, also the details of its sinking. He volunteered at the age of 17, and had been in the army about three years when listed as missing.

THIS 'N' THAT

By NOBLE HOBBS

We would like to inquire of the old Shike if he has seen the red hot "Hot-Shot" of Wayland riding a boss up Left Beaver. Yes, he actually did go to Allen to the stock market and bought a boss which he says is a good pacer. Bob was preparing ahead for the event and bought some feed. His brother Dan passed the house and saw it and asked Densel if Bob had bought a cow to give the kids some milk and Densel said no, he had bought a horse, and Dan allowed that maybe

the horse would give some milk and the kid said no, it was a he boss. Bob has his Dan Patch II in a company garage and is paying horseage instead of car rent.

From up Pennsylvania way in the hard-coal fields comes a new safety engineer for the Elk Horn Coal Corporation—Mr. O. Wrightson, who seems to know what his job is all about. Instead of throwing a book of rules at you when he visits your place of work in the mines, he talks commonsense about safety and pretty soon you are practising the things that keep you alive to see your family at the end of the shift. Yes, indeed, Mr. Wrightson is a coal miner's miner with a kind word and a smile or whatever it takes to keep you alive and producing.

We enjoyed the editorial in a recent TIMES in regard to the bombing of Germany. It might have been a coincidence that we received a letter from our favorite soldier who was writing on the same subject. He was all burned up about the people taking pity on the enemy and making plans for a post-war rule of the enemy country. He writes:

"To read some of the writers in the popular magazines you would think that all we have to do is to open up a hymn book and sing our way into Germany and Japan, and treat the people very, very kindly and be as good as good can be and maybe thereafter they will always be our friends.

"My idea is that the civilian population doesn't realize what a slow process this war really is, and that you can't do things like that. My idea is to kill all the yellow monkeys you can and then when the war is over and you occupy the country kill a lot more of them if they don't behave themselves."

The writer can fully agree with this soldier, for never have we had enemies as we now have and it is our belief that the peace should be dictated in accordance with the way the people act and treat the boys who actually take over and rule after the war is over.

Well, ye old scribe feels all puffed up this week and for very good reasons. Reason No. 1 is that the Red Cross drive is progressing so nicely in Floyd county. And here I wish to pay my respects to the leaders and the good people of Prestonsburg. County Judge Ed Hill reported to a convention of miners at Martin recently that, outside the mine fields, \$3,200 dollars had been raised in the county and that the citizens of Prestonsburg had raised just about all of this amount. Good work, folks, but don't slack off. We miners are fighting till the gong sounds.

Reason No. 2 is that we have recently heard from so many of the boys in the service about our puny efforts at writing. From Chris Crabtree somewhere in the Pacific comes a request that we continue with tales such as the one about Millard Salisbury and Joe P. Tackett dancing, and from Sgt. Elmer Bowe at Will Rogers Field in Oklahoma comes a request for more news from his home town. And the note from Papa Melvin Innes, the old Wild Hoss of Beaver Creek in the balmy days when we played baseball. We have always heard that soldiers and sailors were not good until they became proficient at the art of griping. If that be so, ye old Wild Hoss will be just about the best sailor in all of Uncle Sam's navy. "Griping Grimes," we used to call him around the mines. And, oh, yes! we think the Old Hoss will repent with bitter tears one of these days and come over to the Grand Old Party (chuckle).

From the high school boys who journeyed down Lexington way to see the state basketball tournament come many and varied tall tales that sound sort of Bob Burnsy, such as Rural Hicks getting caught in a revolving door . . . Dickie Castle and his pals got lost from their hotel and didn't find it until 6 o'clock in the morning (That ain't funny, McGee!) We shall see Coach Lawrence Price and ascertain just what the boys did see and hear and do. And incidentally examine the head of Mr. Price to see if he hasn't grown some gray hairs since last week.

Aside to Clarence Mullins, president of Wheelwright Local Union. In the last Bond drive Wayland high school beat Wheelwright high school \$275, and to my favorite Bondholder, Miss Pauline Pigman, who sold more than \$5,000 worth of Bonds goes the thanks of my local union. We didn't check the list very closely, but we think she was high for the county. Our town ain't so large, but watch our smoke. We do things in a great big way. Hot dog!

Yeah, after a spell of hibernation by ye old Shike he comes out last week to blast the—L—out of both Democrats and Republicans. Wonder what he is now—a Socialist?

And so long till next time.

Aladdin was a "Piker"

IN THE story of the "Arabian Nights," Aladdin had a magic lamp which when rubbed summoned a "jinn" who obeyed Aladdin's bidding—but no mystic jinn is needed by ELEC—the likeable bell-hop whose full name is ELECTricity and who hops to your bidding at the touch of a switch. Yet ELEC has brought forth wonders beyond the wildest dreams of Aladdin.

Electricity's contribution to the war effort is tremendously important. Helping to build fortresses, tanks, "battle-wagons" and the other vital equipment is just one of its functions in the War job. Electricity is proud to be one of the Powers of Good which will speed V Day, the day that must come before our loved ones in the Armed Forces and all other branches of Service will come home to us.

ELEC's war record has been accomplished through our American System of Free Enterprise by men free to think and to plan. Freedom of thought is the heritage of Americans... freedom to first dream and then to make those dreams come true to the benefit of humanity.

THE OLD JUDGE SAYS...

Just dropped by to tell you, Frank, I had a letter from your son, Joe, this morning. He's a mighty nice of him to take the time to write me... I know how busy they keep the boys. That's a fine camp he's been transferred to up in New England.

"Yes, Catherine and I had a letter this morning, too. Said he was writing you... he's very fond of you, Judge. Catherine is certainly proud of Joe and proud of the great Army he's a part of."

"She has good reason to be, Frank.

Joe is one fine fellow and the Army he's in is the best disciplined, best behaved in our history. Just last night I was reading an article that quoted a report signed by five chaplains in the very camp where Joe is now training. I remember their exact words which were "there is no liquor problem at this Post." And I understand that's true in camp after camp all over the country. And if Catherine would like to see that report, I'll drop it off at the house tomorrow."

Another 'Forgotten Man'

WENDELL WILLKIE, one of the few truly "big" men in the national political picture, looks to be "the

forgotten man" as the Republican party prepares to select a Presidential candidate for the November election.

He definitely is getting the cold shoulder from G.O.P. big-wigs. His appeal to the rank-and-file of the party will amount to little more than a quixotic venture.

For Willkie has made the mistake of attempting to lead his party away from retrenchment and Old Guard ideals; has erred, if he would be a successful politician, by refusing to subordinate his views of "One World" to the isolationism of those who could have nominated him.

In fact, this man Willkie has no place in politics. His honesty is positively dismaying to the politician; it even shocks the voter to see and hear a man who casts off the fetters of politics, shoots from the shoulder and tells his own party of its faults.

What! — nominate a man for the Presidency who admits Franklin D. Roosevelt is sometimes right? a man who seeks to reason with folks rather than to preach a gospel of hate Roosevelt? a political heretic who refuses to promise to bring the boys home soon after he is elected?

It is all very sad. This country probably will never see one of its most honest men in the White House.

Pfc. John Huff, son of Mr. and Mrs. Price Huff, West Prestonsburg, writes W. G. Africa, of the American Legion Post here, to thank him for the "Soldier's Guide Book" the Legion Post gave to inductees in the early days of the war as the boys left Prestonsburg. Pfc. Huff found it while going through his belongings at Anzio beachhead, back in February, and promptly wrote Mr. Africa. Those stories and pictures of Mussolini pitching hay grown on prize Italian farm land are a myth, Pfc. Huff writes. For, said he, "On this same spot where I am now was Mussolini's prize farm land. This place is nothing but a marshland and a network of canals. . . I dined today on canned corned-beef, coffee, crackers. . . We dine on steak occasionally. Maybe a cow will step on a mine or get in the way of a shell; then we set forth, every man a butcher. . ."

From where I sit... by Joe Marsh

Sam Abernethy Knows a Thing or Two

Dropped in Sam Abernethy's store the other day and we got to talking about the American way of life.

"Suits me to a T," Sam said, as he trundled out a bale of barbed wire that Bert Childers aimed to call for after dinner.

"Well, I reckon we all feel the same way, Sam," I told him, "Just think—if we were regimented, like folks in enemy countries, most likely you wouldn't have this store business and you wouldn't be serving your customers in the friendly, accommodatin' way you do."

"That's right," said Sam, "and you and I wouldn't be allowed to talk out loud about our government, or to listen to verboten radio programs or to enjoy each other's company over a moderate glass of beer now and then."

From where I sit, that little confab with Sam just about summed up the things our country's fighting for.

ALONG THE WATERS OF PRATER CREEK

Editor, The Times: We, the people who live along the waters of Prater Creek stay close at home. We can't get out. The one person to be seen regularly is the mail carrier who is often behind schedule.

The traffic is very considerate along the waters of Prater—more often waiting than moving. Some of the wealthier residents are planning on leasing a few railroad gons of coal. Maybe somebody will spill a few loads of bug-dust along our famous highway—one of the oldest roads in Floyd county and the least remembered.

The G.O.P. had a swell meeting and get-together Saturday. Say, you Democrats, if you plan your December meet, you will start a week in advance.

Mr. Prater Creeker, our good friends, the voters and taxpayers—are you aware that the road machinery you bought and paid for with your hard-earned money is being worn to a frazzle making a golf course, and not a cornfield or Victory garden given first thought.

Happy Chandler had to explain about a swimming pool. We swim in mud. No explanation—just dumb, dumb as hell. Believe it or not, a Democrat—ELMER W. RICE.

Their Needs Over There May Delay Your Getting Telephone Service Over Here

BECAUSE metals and other communication materials are so badly needed in war, it is becoming more and more difficult for the telephone company to fill service requests. In fact, facilities are now insufficient to meet the demands for service. So unless you qualify as an essential user—one whose telephone usage is directly essential to defense or the health, welfare or security of the community as a whole—we regret that you may experience delay in getting service.

When facilities are available, they must be employed first for essential users. Then, from any facilities remaining, others will be served in their regular order. We will be glad to take your application for service and notify you when facilities become available.

Everything possible is being done to lessen the effect of wartime restrictions on telephone service. And we look forward to the time when materials will be available and we can again furnish the service you want when you want it.

Where the PULPWOOD SHORTAGE hits the farmer

Over 1/4 of all pulpwood is used in packaging farm products

THE FARMERS of this country responded patriotically to the appeal for more pulpwood. They cut wood because their country needed it. Few of them stopped to think that their own business of food production was threatened by the pulpwood shortage. Already there have been cases where packing plants were unable to accept perishables because they could not get packing materials; and the distribution of food may be seriously upset this year unless the pulpwood shortage can be overcome.

So the farmer who cuts pulpwood is not only helping his country meet a serious wartime shortage; he is also adding to his income, improving his draft deferment status, and helping to provide for the packaging and distribution of his own farm products. Cut your pulpwood now!

C.-J. Sports Writer Hails Appearance of Patton

Tommy Fitzgerald, Courier-Journal sports writer, in Monday's C.J. hailed the arrival at the Louisville Colonels' spring camp of Ray Patton, Floyd county hurler, with the following:

For a few frightening minutes Sunday morning, Bruce Dudley, president of the Colonels, thought he had discovered the whereabouts of the Seventh Army when Ray "Blood and Guts" Patton, the pitching man from the mountains, made a surprise appearance on the Parkway Field spring training camp scene with a string of candidates in his entourage.

Dudley had been informed by the big Estill, Ky., right-hander that he would bring in "another ballplayer" with him, but when Dudley saw the small-size army trooping in behind old "Blood and Guts" he began to tremble as he mentally computed the cost of feeding all Floyd county the next few weeks.

It developed, however, much to Dudley's prayerful relief, that only one of them was a Patton protege and that the others were Colonels Dudley hadn't gotten around to meeting yet so cluttered are the premises with ballplayers.

Patton's "find" is a shortstop from Drift, Ky., Russell Moore. Big, unspotted Patton, as refreshing and as

natural as the mountain dew, grinningly denied gentle taunts that he had brought in "another ballplayer" just to keep him from getting homesick, a nostalgia to which he was subject during his first training appearance with the Colonels last year. He gave a glowing account of Russell's accomplishments and aroused the avid interest of Manager "Nemo" Leibold until Leibold learned Russell is a left-handed batter. Then "Nemo" grabbed his head and grimaced.

"Left-handers," he screamed. "The army must not be taking anybody but right-handers."

One of Leibold's problems is a shortage of right-handed hitters. Right now there aren't enough right-handers available on the roster to make a good oath.

The 6-foot-3, 204-pound Patton, who won 17 and lost four for Roanoke last season despite wildness, lost no time in getting into mid-season form. After tearing off the glove of one catcher as the other pitchers, who still aren't throwing hard enough to break an engagement, Patton was told by Leibold to slow down.

Patton, the father of three children, the serious illness of one of whom is the reason for Patton's belated arrival, recently has been classified 4-F in the draft. He has a strong arm that might help the Colonels if he has acquired during his sojourn at Roanoke enough mound polish, poise and knowledge to go with it.

THE WEEK IN OPA

What Stamps are Good

Since the green and brown stamps K, L and M in War Ration Book Four and brown stamps Y and Z in War Ration Book Three—expired on March 20, housewives are now using only Book Four in buying rationed foods. Book Three will continue to be used in the shoe rationing program and may be put to other uses from time to time.

Ten-point ration stamps and 1-point tokens are now used in the purchase of rationed foods. Red tokens are used as change with red stamps, blue tokens with blue stamps.

The following stamps are now good:

Red stamps (meats-fats)—A8, B8, C8, D8, E8, F8, good through May 20.

Blue stamps (processed foods)—A8, B8, C8, D8, E8, good through May 20.

Other stamps for which validation dates have been set are:

Red stamps G8, H8, J8, good March 26 through June 18.

Blue stamps F8, G8, H8, J8 and K8, good April 1 through June 20.

New Shoe Stamp Due May 1

The OPA suggests that consumers bear in mind that shoe stamp 18 in War Ration Book One will not be good after April 30, 1944. A new stamp to replace stamp 18 will be announced May 1. Also, Airplane stamp No. 1 in Book Three will be valid until further notice. Thus, after May 1, two shoe stamps will be valid.

Camera Prices Established

All used cameras and other photographic equipment will be brought under a ceiling price on April 6, the OPA has announced. A new regulation, effective on that date, establishes dollars and cents ceilings for the major items of photographic equipment and provides a formula for computing ceilings on all others.

The regulation governs all sales of photographic equipment to consumers, including sales by consumers.

Since Pearl Harbor, all importation of cameras and accessories has ceased, and since domestic production has been curtailed, the consumer has had to depend entirely on the used camera market to fulfill his requirements. In some instances, it is reported, extravagant prices for items of photographic equipment have been widely advertised and charged by sellers.

Prices applicable to different types of photographic equipment can be obtained from the district OPA Office at Lexington.

Coupons Invalid After March 31

The OPA has announced that after March 31, the following types of ration evidences will be invalid for consumer's use:

1. Old-type "B" and "B-1" coupons and "C" and "C-1" coupons, which have not been issued since November 30, 1943.

2. Old-type "E" and "R" coupons, which have not been issued since October 1, 1943.

All strip "T" coupons which do not bear a quarterly designation, which expire on March 31.

Most of the old-type "B," "C," "E" and "R" coupons still in circulation represent expired rations. In the few cases in which they are part of currently valid rations with an expiration date or earliest renewal date later than March 31, ration holders may exchange them at their ration boards for coupons of the types now valid.

Corn Land Requires Lots of Fertilizer

The use of plenty of fertilizer for corn pays during periods of high grain prices, says a new leaflet published by the Kentucky College of Agriculture and Home Economics in the interest of boosting corn production. Here is what it says about the use of fertilizers:

On well-manured, highly fertile soil, use 200 pounds or more of 20 percent superphosphate to the acre.

On moderately fertile soil, where legume residues have been plowed under, use at the row 300 pounds an acre of a fertilizer high in phosphorus and potassium, such as 0-12-12.

On soils low in fertility, apply at

the row 500 pounds an acre of 6-8-6, or other fertilizer high in nitrogen and potash.
