Three or four unsigned news-letters hit the waste basket this week. We are still holding the announcement of an engagement which was written by we-don't-know-who. Our experience is that, sometimes, folks get frisky and try to perpetrate what they regard as jokes through the newspapers. And, in some instances, engagements announced in such fashion have resulted in the editor having an engagement with

INTERNATIONAL DATE LINES

Now the Germans claim there is no such thing as a Gustav or Hitler line in Italy. They're telling the truth about the Gustav-there isn't any such thing now. And if they'd waited a few days, they probably would be telling the truth about the Hitler line.

After the boasted West Wall is scaled they'll probably be saying that was merely a hedge. Anyway, we have a date with these lines.

This is a Tried and Proved Idea

Dropped in to see Judge Cunningham the other night. Got to talking about one thing and another including the brewers'

self-regulation program.

The judge settled back in his easy chair, stretched his legs full length and took a few puffs

on the old briar. "You know, Joe," he said,
"this business of self-regulation
is nothin' new, Self-regulation is what the doctors had in mind

when they organized the American Medical Association.
"For the same purpose, the legal profession has the Bar Association, professional base-

ball has Judge Landis and the motion picture industry has Will Hays.

"In the same spirit of coopera-tion, the makers of malt beverages formed the Brewing Industry Foundation to insure their products bein' sold on a high and

moral plane."
"Yes," I agreed, "and from where I sit, they're doin' a darn fine job of it. The Foundation's Kentucky committee is certainly an outstanding example!"

"Well, That's News To Me --

I had always thought that such a fine funeral must be terribly expensive."

Often, there is needless anxiety about the expense when one inexperienced in such matters finds it necessary to make funeral arrangements.

A talk with us provides a clear understanding of why the price of a truly distinguished service need not exceed a family's wishes.

be only two kinds of people in America . . . 1. those who can still get to work in automobiles, 2. those who are forced to walk.

If you want to be in the fortunate group who will still be riding to work in automobiles, join Gulf's "Anti-Breakdown" Club today. How do you do it? Just come in for Gulf's Protective Maintenance Plan!

This plan was conceived by experts in car care. Gulf developed it because car maintenance is a most important civilian job.

1 It protects your car at 39 danger points!

GULF'S Protective Maintenance Plan includes Gulflex Registered Lubrication which reaches up to 39 vital points with six different Gulflex Lubricants that reduce wear, and lengthen your car's life.

Le It helps keep your motor in A-I shape!

IT'S IMPORTANT to give your car a good motor oil and change regularly. Gulf offers two outstanding oils . . . Gulfpride, "The World's Finest Motor Oil," and Gulffube, an extra-quality oil costing a few cents less.

AIR-FILTER and spark-plug cleaning, and radiator flushing help give better gas mileage. A clean air filter makes gas burn more

economically; clean plugs increase power: a clean radiator prevents overheating.

what he knows, but nobody thinks the editor knows anything

He is regarded as a grouch by the majority of the population, a something to be suppressed by quite a few. Some farmers feel sorry for him and send him early turnips.

Only a small part of the public deigns to read what he has written. Those who do know very well they could have done better.

He has three children, all of whom try to keep it a secret from their playmates that their father is engaged in such a trade.

He receives one letter a day. It is critical five times out of six. At least one each week tells him how to run his paper. If he ever approaches anything

akin to popularity it is at election time. All he gets out of the politicians, however, is a hearty slap on the back, usually serving to weaken his aenemic frame.

He wears old clothes. He is hit for every drive in the books. He belongs to every committee in the county. He doubles as news reporter. He is nervous and loses lots of friends because of the pressure of his work.

He swears that if he could do things over again, he'd be a farmer or a preacher-never an editor. Don't you believe it! As everybody

will tell you, an editor is a liar and he's at it again.

U. S. PATENT NO. 828,227 - 1906 Feeding Device for Poultry

This is described in Letters Patent as an improved device that campels exercise by forcing the fowl to race on an inclined revolving platform to get her food. It sure would make a hen hustle for her

More exercise-More eggs for Victory

TE DON'T know whether the patent shown above was ever marketed or not. The inventor certainly had the right idea—to keep hens laying, give them plenty of exercise.

Electric lights do this easily and at low cost. For a few cents a night, you can turn your henhouse into a "Night Club."

With electric lights, your hens keep exercising and feeding and laying more eggs for Victory.
