## U.S.E.S. OFFICE FOR DISTRICT MOVED HERE

**Formal Opening, Nov. 4; Local Office To Serve Region of 5 Counties**

Central office of the U.S. Employment Service from which job placement, labor stabilization, veterans' employment and rehabilitation will be directly conducted for a five-county area of 1561 square miles and a population of 124,044 was established last week in Prestonsburg.

Branch offices at Goody, Pikeville and Whitesburg will also be under the supervision of C. W. Saling, district USES manager now located in the office here. Establishment of the office eliminates the Paintsville branch office, and that place will be served only by the itinerant USES service formerly given Prestonsburg.

Counties directly given USES service through the office here are Floyd, Johnson, Magoffin, Martin and Morgan.

Although the office was set up here last week in the Harlowe building, First avenue, its formal opening will not be held till Saturday, Nov. 4, when "open house" will be held by Mr. Saling and other office personnel. Business men, employers and all interested citizens are invited to visit the office on that date.

Although plans for the office call for a personnel of 11, only nine are working at this time. They are, in addition to Mr. Saling: Mrs. Minerva Spradlin, applicant service; Miss Ellena Turner, secretarial work; Glenn S. Anderson, employer contact; Mrs. Irene Murphy, veterans and physically handicapped and employers' service; Mrs. Grace H. Spencer, receptionist, pre-interviewing and routing applicants; Miss Ellen Alexander, itinerant, taking applications, etc.; Mrs. Edna M. Napier, stabilization; Miss Bessie Coleman, reporting.

## WAR FUND OVER QUOTA

**Mine Contributions Approximate \$15,000; Drive Will Continue**

The Kentucky War Fund drive in Floyd county this week neared the \$15,000 mark.

This figure was well beyond the county's quota and yet it included only the contributions of a few firms and individuals above the total contributed by miners and coal firms.

"The miners and operators have shown the rest of us what they will do," commented N. M. White, Jr., Floyd drive chairman. "Now it's up to the rest of us to come through on our own behalf."

New contributions: Beaver Coal & Mining Company local union, \$274; Wayland-Elk Horn Coal Corp., local union, \$1,742; non-union employes, \$470; Diamond Coal Co., local union, \$79.50; Hi-Hat Elkhorn local union, \$243; Sizemore Mining Company, local union (100 pct. contribution), \$130; Stephens Elkhorn Coal Co., local, \$167; non-contract employes, \$41; company \$50; Guaranty Elkhorn local union \$400; Turner-Elkhorn local union, \$176.

## Mrs. Mintie Spears Passes At Emma

Funeral rites for Mrs. Mintie Dillon Spears, 85 years old, widow of George Spears, who died Oct. 18 at the home of her son, James Spears, of Emma, were conducted Thursday last week, the Revs. Isaac Stratton and Lon Childers officiating.

Mrs. Spears had been blind for the last six years. Her death was ascribed to neuralgia and complications.

A daughter of James and Rebecca Woods Dillon, Mrs. Spears was born near Ivel in 1859. Her husband died 32 years ago and for the last 30 years she had resided at Emma. Mrs. Spears had been a member of the United Baptist Church for the last quarter-century and was one of the county's most deeply revered women.

## Court of Appeals Reverses Floyd Court

Judgment of the Floyd circuit court favoring the defendants in the case of Ernest Boyd vs. W. L. Stumbo, G. D. Ryan and Floyd county was reversed recently by the Court of Appeals.

## FLOYD BABE CARRIES BULLET FOR DAYS BEFORE CAUSE OF 'SWELLING' KNOWN

The strange story of a toddling baby being shot in this county and of its parents not learning the babe had thus been wounded till days later was received this week by THE TIMES.

Everett Jones and his family live near the highway, a short distance below the Arkansas curve, two miles north of Martin. Two weeks or more ago when their son, a babe of less than two years, suffered a head wound they thought the tot had been hit by a gravel hurled by a passing automobile. Blood was found at the back of the child's head and a knot appeared on the right side of his head, approximately four

inches from where the injury was evident.

After waiting a few days for the "swelling" to subside, Mr. and Mrs. Jones called Dr. Claude L. Allen, of the Martin General hospital staff, to make an examination. The child was then taken to the hospital.

There Dr. Allen removed a .32-calibre steel-jacketed pistol bullet which had ranged around the baby's head, beneath the skin. The child suffered no ill effects from the wound.

It was said here no report of a gun was heard in the vicinity of the home at the time the child was hit, and it is held that the wound may have been caused by a spent bullet.

The surgeon at one time was co-owner of the Beaver Valley hospital at Martin and was known to hundreds of Floyd countians.

Dr. Gronnerud was born in Madison, Wis., May 25, 1869, a son of Hans and Irene Gronnerud, natives of Norway, and was married to Mrs. Amale Gronnerud in Chicago June 14, 1893.

He practised in Chicago and Ashland, Ky., before going to Pikeville 20 years ago and was active in his profession until forced to retire because of illness.

In Ashland Dr. Gronnerud was associated with Dr. J. W. Stephenson in operation of the Stephenson hospital.

Dr. Gronnerud is survived by his widow and one daughter, Mrs. Dorothy Gronnerud Deem, of Chicago.

Dr. Gronnerud was a member of the Episcopal church, was affiliated with the Masonic order and was a member of the American Academy of Surgeons.

The funeral was delayed till Wednesday, pending the arrival of Mrs. Deems from Chicago. Last rites were conducted from the Pikeville Episcopal Church and burial was made there.

The funeral was named head of Central Elkhorn

A. H. Mandt, Prestonsburg, was named president of the Central Elkhorn Coal Company at a meeting last week of the firm's board of directors in Columbus, Ohio.

The company operates three coal mines in the upper Right Beaver Creek section of the county.

## FIRE LEVELS HOME, 2 HURT

**Mrs. Melvin Laferty And Daughter Given Hospital Treatment**

Two women are in Floyd county hospitals this week after having been injured in the destruction by fire Sunday afternoon at Sloan, near here, of the home of Melvin Laferty.

Inside the structure when belated discovery of the blaze was made was Mrs. Laferty who had only three days earlier been returned home from a hospital where she had been since breaking her hip in a fall. Roof of the building was collapsing when the family learned of the fire and hurried rescue of Mrs. Laferty resulted in the cast being partially torn loose from her hip. She was taken to the Martin General hospital, Martin. Her daughter, Mrs. Ashland Derossett, wife of a soldier, was burned about the face and shoulders and is a patient at the Prestonsburg General hospital.

The fire started in a clothes closet where a lighted cigarette tip had been dropped. Entire contents of the five-room home were destroyed. The loss, uninsured, was placed at \$3,000.

## Warfront Friendship Reaches Back Home

An interesting incident of the war developed last week when Mrs. John Westenberg, of Chicago, arrived here to meet in person for the first time Mrs. Kenneth Bernard Tackett. Their husbands are pals in the Signal Corps, stationed somewhere in Italy, and through their friendship their wives made a tentative acquaintance by correspondence.

Mrs. Westenberg came from Chicago to spend her vacation with Mrs. Tackett and while here has won the friendship of many of the younger set who will regret her departure soon for her home.

Mr. Westenberg is a war correspondent with the Stars and Stripes, overseas edition. He and Tackett have been overseas one year and their wedding anniversaries by coincidence, come on the same day.

## Church Without a Member Conducts First Communion

The Spurlock Community Church at Dock which has no membership, Sunday conducted its first communion service since its organization more than a year ago.

Nondenominational, the church invited members of all churches to participate in the service.

The communion marked the beginning of the third year of work in that section of the Rev. and Mrs. Robert L. Martin. When they began their work in October, 1942 they held services in the home of Wm. Haywood, Dock postmaster, and in schoolhouses. When the crowd was too large and the weather was good, they moved the meeting-place out under the trees.

In 1943, without the solicitation

of funds, the present church building was begun. For the most part, the pastor himself did the work; one or two men gave a few days' assistance. Later, an organ was bought and last week the pastor and a neighbor completed the construction of church seats.

Land on which the church stands was donated by Mr. and Mrs. Bill Fitzpatrick, of West Prestonsburg, in memory of their little daughter who died a few years ago.

One of the services of the church and its pastor is to the sick who are taken without charge to hospitals or doctors' offices for treatment. "The church and its leaders are here to serve and minister to others," the Rev. Martin said.

## BIG SANDY LOCATION, CERTAINTY

**Sanitoria Commission Feted Here on Visit Last Week to County**

Hope that the proposed tuberculosis sanitorium for this district will be located in Floyd county rose rather than fell with the visit to the county last Friday of the Kentucky Sanitoria Commission.

Representative W. G. Biggers, co-author of the tuberculosis sanitoria legislation and member of the committee, joined county officials and interested citizens in this optimistic view after the committee visited three potential hospital sites Friday morning.

Those who attended the Kiwanis Club banquet given at the Valley Inn Thursday evening for the Commission noted that each member of the committee in addresses to the gathering of more than 100 from all parts of the county specifically mentioned the Big Sandy section as the location for the district sanitorium.

The Floyd site selections were narrowed by the Commission to three—the Bascom May farm on the Auxier road, near here, the Beaver Valley golf club course owned by the Beaver Creek Consolidated Coal Company at Allen and the Miles Gibson farm at Langley. Either of these would be acceptable, it was indicated.

No definite action was taken, however, as the Commission continued its itinerary in this section to inspect sites offered by other counties.

County Attorney W. W. Burchett, acting as toastmaster at the banquet, introduced Mayor E. P. Arnold, of Prestonsburg, who delivered the address of welcome to members of the Sanitoria Committee, and a liberal representation of the medical profession and citizens from various parts of the county.

Representative Biggers then introduced fellow-members of the Commission: State Senator Cass Walden, Edmonton, Ky.; Lawrence Ashmore, Madisonville; Representative Claude Hammons, Corbin; Dr. Carl C. Howard, Glasgow.

"I hope the next time I come back to the Big Sandy," said Senator Walden, "to see a tuberculosis hospital somewhere on the banks of this beautiful river." "If," he added, "we will go on and make this program a success, the time will come when tuberculosis will be in the same category as typhoid, diphtheria and other almost-eradicated diseases."

Representative Hammons pointed to the need of tuberculosis hospitals, not for civilians alone but also for

At the same time the draft board was authorized by the chief medical officer at Louisville selective service headquarters to have 63 selectees hitherto classified 4-F re-examined here for possible pre-induction examinations at a later date. The medical officer listed these for examination after reviewing histories of approximately 150 Floyd selectees who had been classified 4-F. All these selectees are under 26 years of age.

Names and addresses of those to go to Huntington for induction next month:

Bennie Shepherd, Goodloe; Matson Prater, Pyramid; Henry Pitts, Risner; G. B. Laferty, Sloan; Johnnie Laferty, Jr., Edgar; Lonzo Laferty, Sloan; Curtis Haywood, West Prestonsburg; Frank Adams, Brainard; Tom Goodman, West Prestonsburg; Maurice E. WE WOULD BE DISCIPLES . . .

Perversely enough, the things I really want to write about in this column are matters most of you readers care naught about. So, most of the time, I deny myself that certain pleasure there is in expressing one's-self on a pet topic. But, this time, I am indulging myself. You have been forewarned. So . . .

The other night, I went home from one of the few public functions I have attended in a long while. I had had an experience that cried to be written.

You know how it is—you've read a poem or story of such power and beauty that you felt you must talk to somebody about it. Such things of art lose a lot in the re-telling; often I have been deeply bored by some enthusiastic extrovert who insisted on following a fiction characterized from chapter index to "finis." Having all this, I have waited several days now to write this—certainly didn't want to do a sob-sister piece.

I'm not going to quote the words heard at this meeting, I could repeat some of them; but in cold type they would fall utterly to convey their true meaning.

This experience that I am writing about was seeing and hearing a wholly sincere human being. It is, to us of this day, a rare as well as a beautiful experience. I never saw the man before; did not speak to him on this occasion, know nothing of his personal life. But I would swear to his sincerity.

Others who had heard the speaker, Dr. Carl C. Howard, of Glasgow, Ky., on previous occasions said he was tired the other night, that he was not at top form.

Well, he seemed tired, looked drawn. His voice was tired. But the effect of that plain-looking man, member of a profession that is sometimes typed as "hardboiled," talking quietly, softly, as intimately as a kindly father to members of his family—telling of his dream of places where Kentucky tuberculars may be cared for, some cured—relating as perfect illustration of the need of such hospitals incidents from the tragic lives of his acquaintances doomed to death by the White Plague, hopeless, helpless, unable to offer dim promise of sur-

relief from pain while awaiting the table of even a bed on which to lie—I say, the effect was as if one good, bound, indignant, yet sorrowing, unable to lift voice or finger as loved ones died.

I have an idea that Dr. Howard's talk, delivered from behind a curtain or by radio, without the man there before the listener, talking from the heart and compassion for suffering humanity transfiguring his countenance, would not have been nearly as effective. As it was, it was all done without any straining for effect, without any of the elocutionist's tricks or the orator's perorations—it was just plain, human goodness.

This Kentucky doctor, sixtyish, balding, not a robust man, gives of himself and his substance in a cause which can never mean anything of material profit to him. He is the apostle of mercy to thousands now suffering and more thousands to be born.

To suffer the living death that is tuberculosis. And if every Kentuckian could hear and see him as he tells of these people who walk with death and of what should be done for them—well, it is what we would sit as disciples at.

IT WHERE DUE

Proverb is more obviously true than this: "A prophet is not without honor, save in his own country."

World does not intend to do the proverb literally to Representative W. G. (Bill) Biggers in work for tuberculosis sanitoria; some of us have given him credit for splendid work. Yet in his own county—Floyd county—he will not be honored for this work as much as he deserves, certainly not as much as he will be honored elsewhere.

## A Matter of Gratification

IT is especially gratifying that the U.S. Employment Office is at last located in Prestonsburg, strictly on the merits of this place as a central location.

There was no political pressure brought to bear in effecting the change. Out of justice to the thousands of persons who must visit the office for job placement, job transfers and other varied

services it renders, Prestonsburg, the center of the district, was selected for district headquarters.

Also considered was the fact that Floyd county has approximately 5,000 men in the country's armed forces, and these, as well as other returned service men, will find the office accessible as their rehabilitation and employment becomes a major post-war program.

To County Judge E. P. Hill and other county officials the county and the district are due much credit for the location here of this important center of war manpower mobilization. They have continued to present Floyd county's claim to this office, and their persistence has finally won out.

THE TIMES, as a matter of community pride, is naturally glad that this governmental agency has moved here; and, as a matter of plain, common justice to those who need the best service at the least expense and waste of time, it welcomes to Prestonsburg the Employment Service and the men and women who compose its office staff.

# To the Fathers, Mothers, Wives, Brothers, Sisters, Relatives and Friends of Men <sup>In</sup> The Armed Services

Probably at no time have the people of the Seventh Congressional District ever been called upon to assume a more serious attitude in the selection of a Congressman than at the present time. On November 7th it will be our privilege as well as our duty to make this selection. WE MUST DO WHAT WE KNOW TO BE TO THE ADVANTAGE OF OUR BOYS WHO ARE FIGHTING ON THE BATTLEFRONTS OF THE WORLD.

Ordinarily the selection of a Congressman is a very simple matter. Most of us go along with the man who represents our own political party. Many of us simply cast our vote without much thought.

## BUT, THIS TIME IT IS DIFFERENT, MUCH DIFFERENT

At this election we will decide whether we will continue in office a man who is probably more familiar with the problems of the boys who are fighting to protect their country and its institutions than ANY OTHER MAN IN THE UNITED STATES. We will decide whether he will be replaced by a man who, while he is a high class gentleman and who, in peace time, might serve his district and his country well, has had no experience in military matters nor does he understand the problems of our boys in service.

For 14 years Jack May has represented the Seventh Congressional District as our Congressman. For 14 years of that time he has been a member of the important Committee on Military Affairs. For six years he has been Chairman of this Committee. Long before this country became involved in war Mr. May was struggling with the problems which the country was destined to face. When war came he was familiar with every phase of military preparation. There is no doubt that his knowledge and experience contributed more to our successful conduct of the war than that of any single civilian individual. This same knowledge and experience will continue to contribute to the welfare of our country and to the welfare of our boys in the armed services so long as he remains in Congress.

## A RECORD OF ACTION—NOT PROMISES

During our preparations for this war and while it has been going on many questions involving the welfare of our boys in the armed services have come before the Committee of which Mr. May is chairman and he has constantly placed their interests above everything else. He has seen to it that they have received and are receiving the very best of everything and that their welfare is being preserved. HE DESERVES THE GRATITUDE OF EVERY PERSON IN THE SEVENTH CONGRESSIONAL DISTRICT AND EVERYONE OF US SHOULD BE PROUD THAT THIS DISTRICT IS ABLE TO FURNISH A MAN OF HIS TYPE TO SERVE OUR COUNTRY IN THESE TRYING TIMES.

Every Father, Mother, Brother, Sister or other Relative or Friend of a boy in service, whether he is overseas or in a military camp in this country, should support Jack May for his re-election to Congress regardless of their party affiliation or of anything else. THERE IS NO MAN IN THE SEVENTH CONGRESSIONAL DISTRICT WHO CAN DO WHAT HE IS IN POSITION TO DO FOR THE SERVICE MEN.

Many people seem to have the idea that, if Dr. Gabbard should be elected to replace Mr. May, Dr. Gabbard would become Chairman of the Military Affairs Committee. Nothing could be further from the fact. The chairmanship of this Committee as well as all other committees of the House of Representatives is governed by seniority and a newly elected member of Congress cannot possibly become chairman of a committee. Neither is there any assurance that Dr. Gabbard, if elected, would ever become a member of this committee. THINK WHAT THIS MEANS TO THE PEOPLE OF THIS DISTRICT IN TIME OF WAR. IT MEANS A LOT TO US, DOESN'T IT?

## DON'T TRADE EXPERIENCE FOR INEXPERIENCE

Today we have a man in Congress who thoroughly understands just what to do in response to any request made of him by the people of his district concerning any matter of a military nature. He is personally acquainted with the heads of the various government departments. Matters of an important nature are discussed personally by him with such men as General Marshall, Chief of Staff of our armed

forces, Secretary of War Stimson and others of equal prominence. He has on many occasions been in conference with the President of the United States. WHO ELSE FROM THE SEVENTH CONGRESSIONAL DISTRICT COULD ARRIVE AT THIS IMPORTANCE IN THEIR GOVERNMENT AND IF THEY COULD HOW LONG WOULD IT TAKE THEM? The answer is NOBODY. With all due respect to Dr. Gabbard, HE COULD NOT DO IT. And, remember—Jack May represents US PEOPLE IN THE SEVENTH CONGRESSIONAL DISTRICT. Could it be possible that we would agree to replace him with a man who has no experience or an understanding of the situation which it takes years to acquire?

The entire nation is fervently praying that not long hence our boys will be returning home to join their families that they were so abruptly called upon to leave to fight for their country. Nobody is in a better position to expedite their return than Jack May and he has earnestly pledged that he will use every effort at his command to see to it that no boy will remain in the armed services a day longer than is necessary after victory is won.

## CAN HELP 'BOYS' AFTER RETURN FROM WAR

Upon the return of our boys many problems will arise concerning their interests which will call for expert guidance and counsel. Their rights under the GI Act, pensions, hospitalization and a thousand and one other things will confront them. Who is better prepared to assist them than a man who has spent years in dealing with legislation providing for their welfare and under whose direction much of it has become law? Jack May is not only willing to assist them but he is eager to contribute his experience and prestige in helping to work out their problems.

From the day he entered Congress he has been a consistent and unflinching friend of the veterans of all our wars. Thirteen years ago he stood up and was counted on the side of the defenders of our country on the bill known as the Economy Act, by which the Liberty League, a device of the rich, undertook to close forever the doors of every hospital in the country in the face of our sick and disabled veterans of World War I. In this war he has at all times been in the forefront for them and has unflinchingly supported and sponsored all administration recommendations in preparing the country in the present war.

## HERE ARE SOME OF THE THINGS HE HAS CHAMPIONED:

- (a) To provide adequate housing, clothing and food for all our fighting forces with necessary weapons for their defense and use.
- (b) To increase the enlisted man's pay from \$21.00 per month as in World War I to \$50.00 in this war.
- (c) To provide hospitalization and medical treatment for the sick and wounded while in the service.
- (d) To protect their wives, children and dependent parents against law suits by landlords to oust them from their homes while their husbands and sons are in the service.
- (e) To provide liberal pay and allowances of money for the support and maintenance of the wives, children and dependent parents of our soldiers in the service until time of their discharge and return home.
- (f) To provide \$5,000.00 government insurance against death paid for by the government with the right of the service man to purchase an additional \$5,000.00 insurance, the government paying half the cost of that at a small rate per \$1,000 for the protection of the soldier's wife and children.
- (g) To provide discharge or muster-out pay for all men who serve 60 days or longer and are honorably discharged.
- (h) To provide pensions, compensation, loans to buy homes, hospitalization for the disabled, vocational training, apprentice training, homes for the disabled veteran, loans for business purposes and many other benefits.

This statement of facts is being published and distributed by a committee made up of prominent men and women of the Seventh Congressional District, both Democrats and Republicans, who are interested in the welfare of our boys in the armed services. In urging the re-election of Jack May they have laid all politics aside. It is sincerely hoped that no person in the District will allow politics or any other thing to interfere with the duty we owe to the boys to see to it that their interests are preserved.

**How to keep a house from catching cold!**

ONE WAY to keep a house from getting cold is by weatherstripping all doors and windows. Closing up the cracks that let cold in—and heat out.

There is going to be some shortage of coal delivered to homes this winter. Not because less coal is being mined. It is estimated that 29 millions more tons of bituminous coal will be mined this year than last—with fewer men. Quite a tribute to mine owners and miners alike!

There are adequate rail facilities for hauling the coal to your city. But certain grades of coal are going to be greatly in demand for war production. And your coal dealer is handicapped by a shortage of manpower, trucks and tires. So be patient with him.

Little, common-sense precautions can

make your coal pile last 10% longer—and save that much on your fuel bill.

Such things as weatherstripping, cleaning the heating system, closing off unused rooms, firing carefully, and drawing your shades at night can help to keep your family snug and warm.

One of the biggest jobs of the C & O Lines is hauling coal from the mines along its routes, so we're in a position to understand the problem, and to know how essential coal is these days.

From where I sit ... by Joe Marsh  
**Life's Too Short for Idle Bickering**

"He's learned to make his sole objective the winnin' of this war and makin' this world a better place to live in."  
"Well, Bill," I said, "From where I sit that broad-minded tolerance of his—that respect for the rights of others—religious, political and social—is the thing needed most to do the job, both abroad and here at home, during these trying days of war."  
"Don't know about that, Joe," said Bill. "But he's learned one thing that's mighty important in this day and age. That's to get along with others—men of all classes and creeds. Without bickering over trifles and with due allowance for the other fellow's point-of-view."

Court Re-Affirms Boyd Dry Ruling

Kentucky's Court of Appeals Tuesday reiterated its ruling that Boyd county voted dry in last year's local option election. Action was taken in refusing a plea of wets that irregularities had voided the election and asking that the ruling of last June 23 be reconsidered. Under court rules prohibition goes into effect in Boyd as soon as the court's mandate can reach there and be recorded by the circuit clerk. However, it was pointed out a stay might be granted on a move to carry the issue before the United States Supreme Court. John W. McKenzie, attorney for the Anti-Bootlegger League, was quoted as saying that a petition for appeal and a motion to suspend judgment had been filed with the Court of Appeals. McKenzie said that a petition for appeal to the United States Supreme Court and a motion to suspend judgment pending the appeal would be filed.

He Conducts "Worship for All"

Rendering practical aid to listeners who grapple with the cares of life!

C. E. BURNS... WHAS' newly ordained Religious Co-ordinator, is a seasoned, kindly man of the cloth, now offering an entirely new type of air-fare to listeners. Selected from numerous candidates after a country-combing search Burns has been entrusted with an important mission. WHAS is the first station ever to offer a sustaining broadcast service... endowing religion with a full-time place on its staff.

"Worship for All" is what the name implies, a message with broad appeal to all ages, all creeds, church and unchurched alike... applying the principles of religion to major problems of the day. Heard Monday through Friday, 1:45-2:00 P.M., the service opens with a theme song especially written for it, has a brief prayer, three well known hymns and the eight-minute sermon.

Holder of degrees from Hiram College (Ohio) and the University of Chicago in religion and social sciences, Burns took a pastorate for four years, then turned to child welfare foundation work. Prior to joining WHAS he served Milligan College, Tennessee, as college pastor, dean, professor and finally president. Tempered by life, Burns has seven grown, married children with whom he recently celebrated the arrival of his 17th grandchild. "Worship for All" has been on the air only since September 1st, yet many listeners have written us their appreciation of this much needed service.

Dedicating the power of 50,000 watts to the greatest message of all time!

members of the armed forces, citing the fact that, of the 363 tuberculosis patients at Dawson Springs, 180 are veterans of the present war. Of the sanatorium location he said, "This immediate vicinity—I am going to add, 'immediate' to it—certainly needs a hospital of this kind."

Mr. Ashmore's talk, while in humorous vein, stressed the need of tuberculosis hospitals and predicted the Big Sandy region as the location of one of the sanatoria to be built.

Dr. Howard, the Glasgow leader in the tuberculosis sanatoria movement, was described by Representative Biggers as having "given more time and money to this cause than any man in Kentucky."

"When the map of the tuberculosis districts was drawn," Dr. Howard declared, "I had the Big Sandy in mind. It and other sections of Kentucky cut off from Louisville need these hospitals where the common people may be treated, perhaps cured."

"But we have waited so long," Dr. Howard continued, "that half of those put in these hospitals at first will die. We must look forward to the time when hospital facilities will be such that they can be saved."

"Hazelwood (at Louisville) has been a state institution carried on as a private institution," he declared. "For those able to pay—that's the truth of it." The urgent need of sanatoria was illustrated by the story of a high school girl near Glasgow whose uncle had died in her home, then her father died and now she has tuberculosis; the farm mortgaged; no hospital for the girl's treatment, since Hazelwood has a long waiting list and she could not establish Louisville residence and gain admittance to another hospital there. "Now this girl, as fine a girl as any in your high school or town, who wants so much to live, is at home—just waiting to die," the speaker said. "Whatever affects your neighbor, if you're right, affects you," he concluded.

Congressman A. J. May followed Dr. Howard to pledge his efforts toward an appropriation of \$25,000,000 federal aid to this cause rather than the \$10,000,000 now promised. "I don't want anybody to think a certain approaching event would influence me to make this promise," the Congressman, a candidate for re-election, said, "but from this time on this program is my job as long as I am in Washington." The Congressman commended Governor Willis and the State Legislature for "taking this program out to the people in the country."

Representative J. F. Howell, of McDowell, expressed the hope that the decision of the committee would bring the sanatorium to Floyd county and at the same time warned against commercializing the program.

Town Hall, former Floyd school superintendent, now of the navy, gave a brief and interesting review of his service experiences.

W. A. Rose, president of the Kiwanis Club, presided at the meeting. The invocation was given by the Rev. M. Robert Regan and the music program consisted of two solos by Mrs. Wayne Bradley, accompanied by Miss Carlos Hale.

Signal Corps Unit Puts Nazi Equipment to Work

WITH THE U.S. FORCES IN FRANCE—Captured German radio parts and supplies, abandoned by the Nazis in their hurried retreat, are being used by a U.S. army signal corps depot company in maintaining American radios and e-type machines.

Thousands of tubes, condensers, resistors, and other spare parts were found in a vast enemy underground signal headquarters. The cavern, evidently used by the Germans as a repair shop, is now serving as billets and shop for the signal corps company. In addition to the electrical equipment, the signal corps men found hundreds of crated Nazi airplane motors and large sheets of aluminum.

Lt. Roger J. Link, commander of the depot company's repair platoon, described the German radio units and equipment as good, mechanically, but old-fashioned and cumbersome. Lt. Link is the son of Mr. and Mrs. W. C. Link, of Sibley, Iowa.

The depot company, a mobile outfit, specializes in the repair and maintenance of radios, teletype, telephone, radar and meteorological equipment.

"Detachments from our company often work right up to the front, repairing telephone lines and other communications facilities," said 1st Sgt. Herbert Weber, of the Bronx, New York.

"A man at the top of a telephone pole makes a fine target for a sniper."

Personnel of the company includes Cpl. Joe E. Burke, son of Mr. and Mrs. R. A. Burke, Prestonsburg.

Hunter Receives 'Wings' From Army Air School

Cpl. Gerald H. Hunter, son of Mr. and Mrs. L. D. Hunter, of Betsy Layne, was graduated from the Army Air Forces Flexible Gunnery School, Laredo Army Air Field, Laredo, Texas, a member of the AAF training command. He is now qualified to take his place as a member of a bomber crew.

Along with his diploma, he received a pair of Aerial Gunner's silver wings and a promotion in grade at brief graduation exercises held there.

He was prepared for his place in America's stepped-up offensive by a comprehensive six weeks course in every phase of aerial gunnery warfare. Besides learning to fire every type weapon from camera guns to the deadly .50-caliber Brownings, he studied turret manipulation, aircraft identification, stripping and re-assembling of machine guns while blindfolded. He climaxed the course by air firing on towed targets.

Joe Cooley, husband of Mrs. Mildred Cooley, of Harold, has recently been promoted in England to the rank of sergeant. He entered the service at Ft. Thomas, Ky., Dec. 12, 1943, was assigned to the ordnance department and received his basic training at Atlanta, Georgia. From there Sgt. Cooley went to Texarkana, Texas, where he was given advanced training. In civilian life he operated the Cooley Motor Company, Prestonsburg.

E. F. Frazier, formerly of Martin, now in service in the Mariana Islands, was recently promoted from private to private first class. A member of an anti-aircraft battery, he is the son of Kaner Frazier, of Martin. He recently wrote his brother, Russell Frazier, it was a mistake about there being South Sea romances, as the material wasn't there.

Astor Kermit Howell, 34, of Harold, is receiving his initial naval indoctrination at the U.S. Naval Training Center, Great Lakes, Ill. When his recruit training is completed, the seaman will receive a period of leave.

FORT DES MOINES, IOWA, Oct. 19—Pvt. Mary L. Wells, daughter of Mrs. Betty G. Maddox, Auxler, Ky., is a member of the Woman's Army Corps unit which recently left First WAC Training Center here for duty with the army at South Post, Ft. Myer, Virginia.

WAC units now are at work with the army on more than 268 posts in all 48 states, the District of Columbia, and in Africa, England, Italy, India, New Caledonia, Hawaii, New Guinea, Australia, Labrador and France.

Among the Floyd county soldiers in basic training are: James L. Salisbury, of Martin, and Thomas Prince, brother of Carroll M. Prince, Wayland, in the infantry at Camp Blanding, Fla.; Levi Johnson, son of Jay Johnson, Melvin, armored RTC, Ft. Knox, Ky.; James E. Johnson, husband of Mrs. Geneva Johnson, Hi-Hat, and Herbert Manns, son of Green Manns, Wayland, both in 1584th Sec. Stu., Camp Atterbury, Indiana.

Sgt. Burton Enjoys Rest After 24 Air Missions

AN AIR SERVICE COMMAND STATION, Somewhere in England—T/Sgt. Lloyd Burton, brother of Mrs. Oneida Daniel, of Prestonsburg, Ky., recently enjoyed a "recess" from aerial warfare at an air service command rest home—a remodeled English manor house where America's airmen who provide aerial cover for the advancing allied armies in France may relax between missions.

Here T/Sgt. Burton, a veteran of 24 missions over Nazi-dominated Europe, put on sports clothes and lounged in the restful atmosphere of an old country home complete with butler, tea in bed, and every type of recreational facility. American atmosphere, and all the touches of "home" are provided by the American Red Cross, co-partners with the air service command in the operation of the rest home. After seven days he went back to his combat station ready to play his part once again in the air battle supporting the Allied march across the continent.

Pvt. Carl Chaffin, son of Mr. and Mrs. Henry Chaffin, West Prestonsburg, is somewhere in the southwest Pacific in a paratroop outfit "of which I am proud to be in." "The paratroops," he writes, "is the highest paid outfit in the army and they are proud of themselves. The paratrooper gets \$100 a month. We get the extra \$50 for jumping out of a plane by parachute, which is very easy."

Pvt. Ernest Owens, husband of Mrs. Vada Owens, of Lancer, has been transferred to Camp Atterbury, Ind., and Pvt. James Gibson, son of Clawson Gibson, of Garrett, has been transferred to Camp Fannin, Texas. Both are receiving basic training.

Pvt. Lewis H. Conley, son of Mr. and Mrs. Manis Conley, Prestonsburg, has recently completed his basic training at Camp Berkeley, Texas, and has been assigned to the Fourth Service Command at Ft. McPherson, Ga., and is now serving as dental technician at the Central Dental Laboratory. Pvt. Conley entered the service May 16. His family resides at Prestonsburg.

Mrs. Fred Hall, formerly of Galveston, now of Trenton, Ky., has been informed by the War Department that her son, Pfc. Quentin R. Hall, was killed in action in France Aug. 19. Pfc. Hall was sent from Pikeville in July, 1942 to Ft. Thomas. He took his basic training at Camp Forrest, Tenn., where he received special honors as a sharpshooter and an expert rifleman. He was in the invasion of southern France.

His brother, Sgt. Phillip Hall, enlisted in the Marines in July, 1943, took "Boot" camp training at San Diego, Calif., and was placed in the transport service. He went in Feb. 1944 to the Pacific theater of war and has seen action on several islands of the Pacific, the last two being New Guinea and Saipan. While on Saipan he wrote his mother: "It's nice to meet some of your childhood friends. Do you remember the Martins, mother? Last week I met Kermit and Lovell. In fact, I was the means of uniting them."

The old saying, "Necessity is the mother of invention," is proved true in a letter from Cpl. Kenneth Rice, on an island somewhere in the Pacific, to his parents, Mr. and Mrs. Bernice G. Rice, of Lackey. The letter reads in part:

"It looks like this is going to be a wet night, but I worked on my tent Sunday till it doesn't leak. I also made two tables to put in my tent, and they come in awful handy, especially when I write letters.

"We have a washing machine now which we made from a gasoline drum and a G.M.C. truck drive-shaft and universal joint. We just hook it up to the wheel of a jeep, jack the wheel up, start it running and wash the clothes. It does a good job, too.

"This old kerosene lantern I found up forward on Guam comes in mighty handy when I write letters at night.

"A bunch of us old guys are going to celebrate the completion of our third year in service Saturday night, October 14.

"We have very little to beef about, considering how the boys get along in some other zones."

T/Sgt. Raymond Rice, younger brother of Cpl. Rice, who is also somewhere in the Pacific area, has been in service almost five years, serving his first three years and four months in Panama, then a year in Texas and overseas again in April of this year. He writes his parents he has a splendid outfit to work with and gets along well.

Lt. Lyons Receives Silver Pilot's Wings

PAMPA, TEXAS—First Lt. Harry D. Lyons, 24, son of Mr. and Mrs. Ora Lyons, Glo, Ky., has been awarded his silver pilot's wings in the army air forces upon completion of his twin-engine advanced training at this top o' Texas unit of the AAF central flying training command.

With 350th Infantry In Italian Campaign

WITH THE FIFTH ARMY, ITALY—Pfc. Clarence Crisp, rifleman, of Water Gap, and Cpl. Walter J. Martin, gunner, of Wayland, are members of the 350th infantry regiment, one of the 88th infantry division units which paced Lt. General Mark W. Clark's Fifth Army smash from the Garigliano to north of the Arno river in Italy.

Men of the 350th, hardened mountain fighters, went into action in early March and during the drive up the peninsula, skipped cities and towns to capture innumerable strategic heights which paved the way for advance of other Fifth Army units.

Particularly outstanding was the regiment's capture of Mt. Cianelli in 51 minutes after opening of the May 11 drive. Seizure of this height, almost unmentioned in news dispatches at the time, has been described as the most important action in the initial operations against the Gustav Line since it cleared the flank of the French Corps and enabled the French to crash through the bottleneck that was Castelforte.

After Cianelli came Hill 316, Mt. Ceraconi, Ventosa, Mt. Rotundo, Mt. Casareccio, Mt. Marino, Mt. Alto and Salvatore. Standing off fierce German counterattacks in the valley south of San Boggio, where supplies and ammunition were dropped from planes, the 350th drove on to capture Roccasecchia del Volsco, 10 miles ahead of Fifth Army lines.

Swarming down out of the mountains after Roccasecchia, a motorized unit of the 350th was among first Allied troops to enter Rome late Sunday afternoon, June 4. North of Rome, the 350th was pulled out for rest and reorganization and returned to the lines July 7.

NEW GUINEA—Technician 4th Grade Darwin W. Hunt, son of R. T. Hunt, German, Ky., where his father is a teacher, is now in New Guinea with the evacuation hospital in which he is a medical laboratory man. Sgt. Hunt left for overseas early this year.

A 1934 graduate of Prestonsburg high school, Sgt. Hunt attended Pikeville College and Morehead State Teachers College, and was a teacher when he was inducted into the army in August, 1942. He received his training at Ft. Sam Houston, Texas, and the Desert Center, California, and holds the Good Conduct medal. Sgt. Hunt is now a veteran of the Hollandia operation which cut off the entire Japanese 18th army and again advanced Gen. Douglas MacArthur's forces several hundred miles nearer the Philippines.

One brother, W. E. Hunt, is in the armored corps in France, and another, Elmer V., in the air corps in Georgia. Sgt. Roland L. Burchett and Pvt. Victor Stepp, of German, are fellow-members of Hunt's unit.

S/Sgt. Eugene Conley was expected last week to arrive at Camp Atterbury, Ind., after 27 months in the Caribbean area. He will later visit his wife, Mrs. Eileen Allen Conley, at Hueysville.

The Louisville Kiwanis Club gave four registered Duroc-Jersey girls to Jefferson county 4-H club boys.

Times Have Changed

(By a West Virginia Miner)

We used to work twelve hours a day With two dollars and less for pay, Way back in the year of '32 We had no union, so what could we do?

Hoover was our President then And we miners were "in the pen." Of course our prison had no bars But we came back home by the light of stars.

We worked and worked 'till it hurt our back, Moved slate for nothing, and laid our track Till we voted Hoover out to stay— That was the dawn of a better day.

With Roosevelt came the Union too, And we got nine dollars instead of two, We gained our freedom through F.D.R., And it's hard to express how glad we are!

Wives and children are happy to see Husbands and fathers at half past three, For there was no joy then for them When dad ate supper at half past ten.

And this is plain to you, I guess We're not going back to that Hoover mess. So the score will be, when all is done, Roosevelt four—Dewey none.

War follows Democratic rule, they say, Sometimes it really looks that way; But the Bible tells us that wars must be So the party is not to blame, you see.

Inside my Bible I've never read Where God wants His people to beg for bread, Yet when we had the Hoover mob There were thirteen million without a job.

Our boys will soon be home again From far-off lands of war and pain, They're looking for loved ones, home and peace, Where the noise of total war shall cease.

Our boys came home one time before To find the old "Wolf" at the door. They lost what they'd been fighting for, Found peace at home was worse than war.

No work, no money, just awful dread While little children cried for bread. With a tattered uniform on each frame Our heroes were reduced to shame.

So they marched to Washington, for they knew They had a Soldier's Bonus due, But Hoover drove them out of town— Their native land had turned them down.

Now all you voters remember this— A cautious word won't be amiss. Just turn thumbs down on political "Bull" And vote to keep the flour barrel full.

If I had a pencil ten feet long And I was a Superman, big and strong, I'd put an X in the Rooster's nest Forty feet long from East to West.

For I've seen conditions, both good and bad In our fair land since I was a lad; I've seen both parties in power, you see— And I know damned well what's good for me.

# LETTERS TO THE EDITOR

## IN DEFENSE OF MRS. WILLIS

Editor, The Times:  
Inasmuch as much is being said about the good wives of some of our leaders today by radio and in the papers, I wish to express my resentment to those unwise cracks, especially to those of the new Governor of our beloved state. I am sure I am speaking the sentiments of good citizens, Democrats and Republicans alike, who, after eight years of misdeeds, decided to give Kentucky a housecleaning.

Why smear the Governor's efforts and good intentions and acts by saying he is henpecked, and because

his God-given helpmate is only acting as any man's wife should act in assisting him in anything he may do that is for the good of all? After all, these days, if you want to make a man mad, especially a politician, you must talk about his dog. Tell him his dog is a flea cushion and he barks at the moon or lags behind. He will retaliate with funny stories, big funny speeches that will so stir his listeners they will beat up saffors and probably would tackle a Marine. Even while my two sons and hundreds of Floyd county boys are fighting to keep this a free land, so wife can hand groceries over the counter or be her husband's secretary, and still have the respect she deserves.

WAYLAND CITIZEN

## DESPERATE FOR LETTERS

Editor, The Times  
I don't know whether you could

slip in my address in your paper anywhere or not, but I'm going to try. I'd like to hear from anyone that knows me, especially Buford Bartley from Betsy Layne or any of the guys I graduated with.

I suppose this is a pretty common request from servicemen but I am pretty desperate for some letters. I would be glad to tell anyone about the air corps and cadet training. I am a navigator on a B-17 and I find it very interesting.

My sister sends me your paper every now and then and there is nothing like it to take you back to Floyd county for an hour or so. My address is below:

Flight Officer I. N. Hall, Jr.,  
Squadron 'A' LAAP  
Lincoln, Nebraska

## THANKS FLOYD COUNTY FRIEND

Editor, The Times:  
In this letter I wish to acknowledge receipt of The Floyd County Times, sent to me by my good friend, Ted Burke, of Wheelwright, Ky. I can not fully express my gratitude to such a friendly gesture of Home County Goodwill.

I wish to say "Hello" to my many friends and to readers of The Floyd County Times. I promise to cheerfully answer each and every letter that my friends care to write me.

To say a little about my present status, I'll start with my departure from the States on Sunday morning, July 9. Due to low speed, it was on the 20th when we crossed the equator and eight days later we skipped a day due to crossing the International Dateline. We arrived at our destination just one month from the day of sailing from Los Angeles. At present I am unassigned to any regular organization but still remain in ordnance. There are no specific jobs here, but the time is passed with routine details and military training.

Elaborate facilities are missing, but our crude accommodations serve us satisfactorily, considering the fact that this was formerly a dense jungle area and, at the beginning of the war, the scene of a bitter battle.

In closing I again want to publicly thank Ted Burke. And once again I want to repeat the invitation for all of you to write. It really is swell to know what is going on back home while I am thousands of miles away in foreign territory.

Yours for a hasty peace,  
WM. H. (BILL) FERGUSON  
(formerly of Wheelwright,  
Somewhere in New Guinea)

(Editor's note: The Times regrets that, for reasons of security, newspaper publication of complete addresses of servicemen overseas is not permitted.)

## CARD OF THANKS

We wish to express our thanks to all those who offered assistance and consolation upon the death of our dear husband and father, W. F. Laferty. We would especially thank the miners and the Utilities Elkhorn Coal Company at Martin and the good people of Allen for their financial aid to us, also those who sent flowers and the ministers, the Revs. W. H. Horn, Isaac Stratton and J. C. Laferty for their comforting words.

# Dewey's Mask

When World War I was over, that great and immortal American, Woodrow Wilson, looked down through the annals of time and saw the dangers of another World War unless some plan for world peace was organized. Consequently, he went to work on trying to join the United States with the other peace-loving nations in the League of Nations. He met on every turn the bitter opposition of Republican leaders and Isolationists. He took the matter direct to the American people, but those Republican Leaders in Congress defeated him in his efforts to avert this very war we are now fighting and Woodrow Wilson died a martyr to that cause and a victim of their bitter partisan fight against it.

After defeating the League of Nations the Republicans, then in power, steamed a third of our navy out in the ocean and "scuttled" it by blowing it up and sinking it. Oh, how our gallant boys at Pearl Harbor would have loved to have had these warships that fateful December day! But no! Dewey's crowd had deliberately sent them to the bottom of the sea.

When the war clouds began to envelop the foreign nations we were fortunate in having in the White House another great American of the Woodrow Wilson type—Franklin D. Roosevelt. He, head and shoulders above the rest of us, saw the lurking dangers and immediately set about to prepare us for the inevitable. What did those same Republican Leaders and Isolationists do to help him get us ready? Nothing. To the contrary, they fought his efforts to lift the embargo. They fought the bill to fortify the island of Guam. They scorned him for asking for 50,000 planes a year and said he was just "Plain Dumb." In short, they bitterly fought his every effort to get ready for this war, the seed for which was sown by them when they killed the League of Nations.

Now, Mr. Dewey, with that record staring him in the face, has the audacity to stand in the speaker's rostrum and whimper, "He took us to war unprepared!" Great Caesar! What a thin smokescreen of a mask!

But, talk about nerve! Dewey not only cries that, but he actually has little enough sense to try to make us believe that he can and will take the Old Age Pension Laws, the Social Security Laws, and, in short, all the Labor and Social Reform Laws that Roosevelt and the Democratic Administration enacted, in the face of and over the opposition of his Republicans in Congress, and so administer them as to give the people more and better benefits from them. Another very thin mask indeed. Since when, Mr. Dewey, did your party become the champion of the masses? It certainly didn't feel that way before Roosevelt became President. Has he really shown you the light and converted you over to the cause of the "Forgotten Man?" If he has, then his tenure in office has been a magnificent success. But no, Mr. Dewey, you and your leaders are the same old crowd, but you need votes now and you know you can't get them by saying you will repeal a single one of these great humanitarian laws. Your "Mask" therefore, from behind which you hope to fool the great masses of the people is to say, "These are good laws all right, but I think I can execute them better than the Democrats can." In other words, your position is: "It's your baby, Mr. Roosevelt, but it will grow better nursing at my breast."

Voters — don't be "Duped by Dewey." Don't tie Roosevelt's hands with a Republican Senate and House. If you do, they may, and very likely will, kill his plans for peace just like they did Wilson's plan.
