OFFICIAL ORGAN FOR FLOYD COUNTY, KY.

Entered as second class matter June 18, 1927, at the postoffice at Prestonsburg, Ky., under the act of March 3, 1879.

### Temporary or Permanent?

THE TIMES would not appear critical of the proposed closing this week of the Vocational Training Shop here, but it does lift an eyebrow as the doors close. It wonders if those doors are to re-open, if Prestonsburg students and Floyd county war veterans desiring vocational training are to find it at home, once these doors are shut.

In Carter county, 46 4-H clubs have been organized with a total membership of 1,127 boys and girls.

### Hunt Overseas Year With Krueger's Army

WITH THE SIXTH ARMY ON LUZON—Technician Third Grade Darwin W. Hunt, son of R. T. Hunt, German, Ky., has completed more than one year's service with Gen. Walter Krueger's forces in the Pacific theater. Hunt is a laboratory technician with the 36th evacuation hospital, one of the first medical units to land with the liberation forces on Luzon. Before joining the armed forces, Hunt was teaching the district school at German, Ky. Other members of the Hunt family serving in the armed forces are two brothers, Cpl. W. E. Hunt and Sgt. Elmer Hunt, both in the army.

BUY WAR BONDS!

In the same skeptical mood, we wonder why, even though there is a dearth of trainees at this time, those charged with the program's responsibilities do not recall that July and August have in the past been equally dull at the shop. We wonder why the shop should be closed throughout those two months, a time when several youngsters and perhaps many veterans will be thinking of learning trades. To close its doors is to admonish these of Floyd county who want such training at some future date to go where the doors are open—for instance, to Paintsville.

That the institution here has not been considered an integral part in vocational education plans for this section is strongly hinted in recent requests from the Mayo school that any veteran seeking such training be brought first of all to Paintsville. Why the twelve miles on farther away from home if he could find what he wanted here?

Floyd county has a very real interest in this matter, for it was the money paid by every taxpayer which made the building here possible, and federal funds equipped it with modern machinery such as which at one time made it the envy of other NYA plants of the section.

That the shop should "go on vacation" is not a matter for argument. Perhaps it should for these two months. But it most certainly should not be closed—somebody should remain there to confer with applicants for future training—if it is to remain an active part of the vocational education program.

### Floyd County Marine Is Buried at Foot Of Mt. Suribachi

Wounded March 5 on Iwo Jima while fighting with U. S. Marines, Pfc. Daniel Howard, 21, son of Mrs. Dove Howard Horn, of Hueysville, died March 13 and was buried at the foot of Mt. Suribachi, atop which took place the Marine Corps' historic flag-raising from which emerged the most striking photograph of the present conflict.

Pfc. Howard entered the Marine Corps Dec. 12, 1942 and served eight months overseas. His brother, Richard D. Howard, is with the marines somewhere in Pacific action.

### Marine Corps Accepting 17-Year-Old Volunteers

The Marine Corps is now accepting enlistments from 17-year-olds, it is announced by Capt. Charles G. Haskins, officer in charge of U.S. Marine Corps recruiting in Kentucky.

Men accepted for enlistment will be sent to Parris Island, S.C., for nine weeks of "boot" training. After a 15-day furlough, they will receive additional training at Camp Lejeune, N.C.

A 17-year-old has two enlistment choices: he may enlist in the regular Marine Corps for four years, or he may enlist in the Marine Corps Reserve for the duration of the war plus six months.

Applicants must be between five feet four inches and six feet four inches in height with proportionate weight. At least a grammar school education is required, but high school graduates are preferred. Interested 17-year-olds may report or write to the Marine Corps Recruiting office, 1014 Heyburn Building, Louisville 2, Ky., or the District Recruiting Office, Postoffice Building, Paducah, Ky.

### Pfc. Wells Killed In Philippines May 15

Pfc. Arvil Wells, 22-year-old son of Sam Wells, of Garrett, was instantly killed on Cebu, Philippine Islands, May 15, while fighting as an infantryman.

He had been overseas 28 months. A letter from his commanding officer, Capt. Edward L. Wood, told circumstances of the Floyd soldier's death: "Our company was engaging the enemy 2500 yards southwest of Tabogan, Cebu, Philippine Islands. In the action Arvil was mortally wounded in the head by an enemy rifleman. He died instantly. . . Arvil was with us through two major campaigns and was always dependable, even during the many trying times we had to endure. . . He was a credit to his family, his country and his fellow-soldiers."

Besides his father, Pfc. Wells is survived by three brothers and two sisters: Johnny, of Weeksbury; Grant and Billy, of Baltimore, Md.; Mrs. Herma Wells Patton, Kingsford Heights, Ind.; Mrs. Dortha Wells and Mrs. R. W. Morton, both of Palo Alto, California.

### Johnson Is Member Of 'Ack-Ack' Battery

Pfc. Homer Johnson, 22, son of Henry Johnson, of Risner, volunteered for army service in January, 1943 and is now in the South Pacific as a member of an anti-aircraft unit.

### Armored Warfare Vet On Way to 'States'

WITH THE 3RD ARMORED DIVISION IN EUROPE—First Sgt. Chester W. Mosely, of Weeksbury, Ky., has been awarded a merit furlough to the United States and is now on his way home for re-classification or discharge.

Sgt. Mosely is a veteran of armored warfare. As a member of the famous Third armored "Spearhead" division he has fought in five European campaigns: in Normandy, Northern France, the Rhineland, the Ardennes, and in central Germany. His division was the first armor in Belgium, the first allied force to take a German town, and the first to completely pierce the Siegfried Line.

Homemakers in Anderson county are planning to do a large amount of their canning from their early gardens before the dry season.

## Can the Surplus from Your Victory Garden

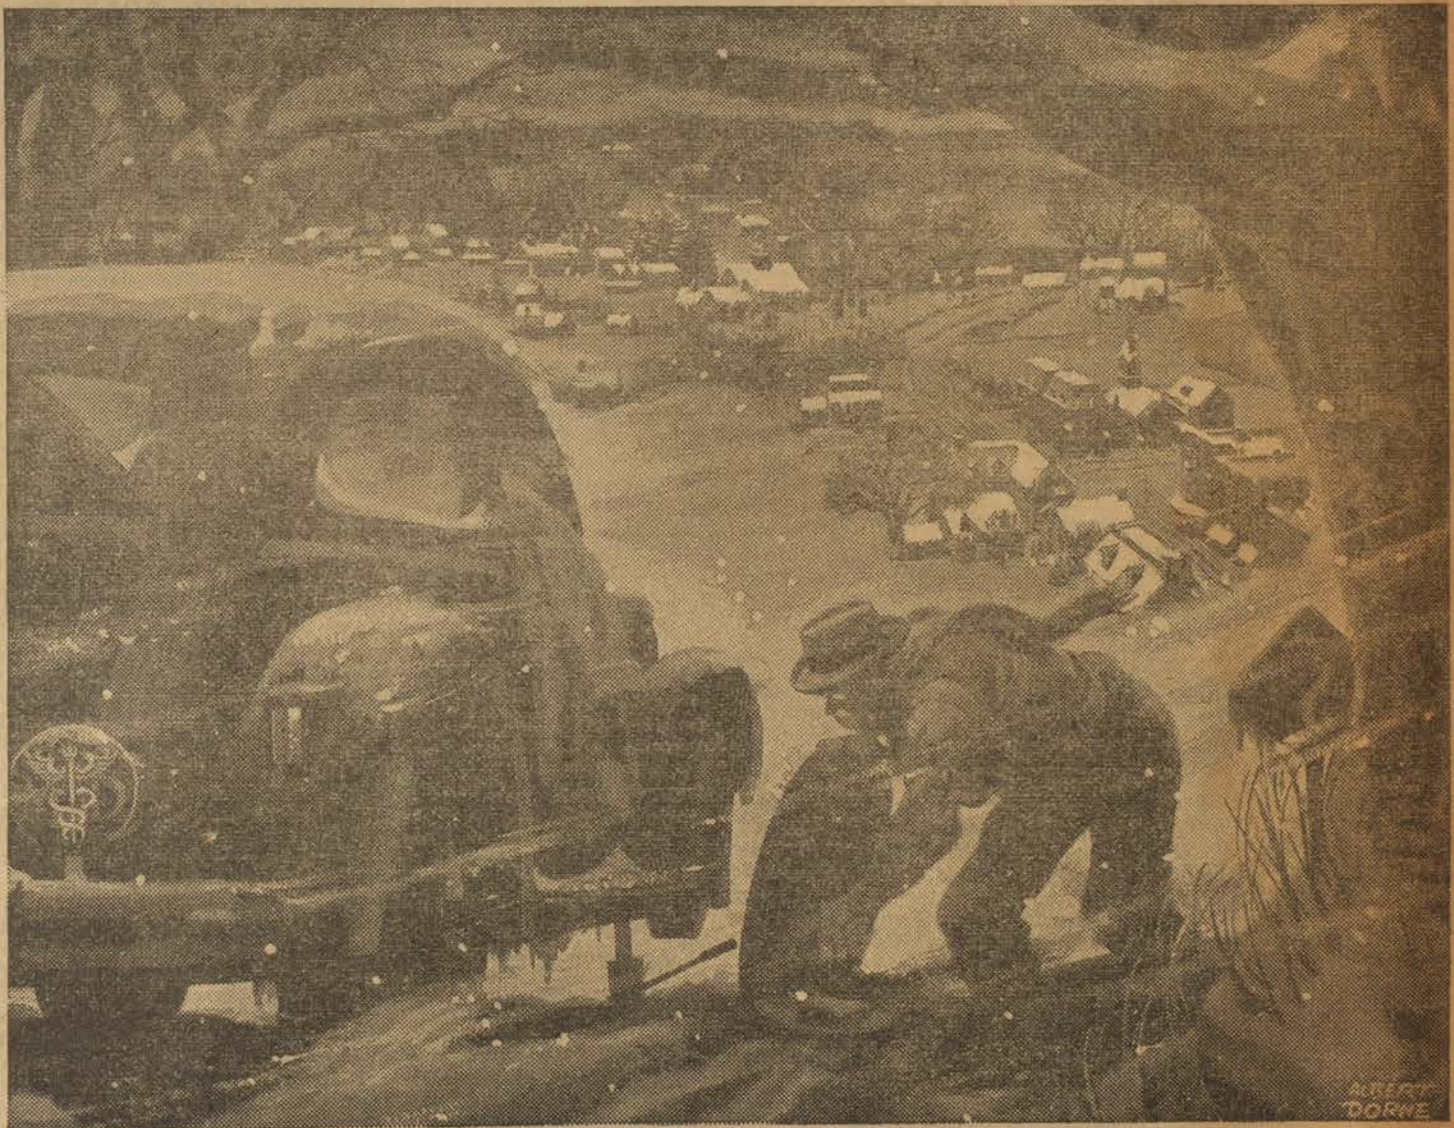

ANOTHER year of War and again it's a must—the need for food conservation. The threatened curtailment of commercially canned foods, the demands of lend-lease, of our armed forces and of the liberated peoples, all add up to the vital necessity for you to can the surplus. Last year, thousands of women canned surplus food at home—additional thousands will do it this year. It's wise—it's economical—it's easy. We want to help you can and conserve your excess garden produce and have again issued a compact booklet containing essential information for the successful canning of fruits and vegetables.

Also keep in mind these basic rules for canning:

- Select only sound garden fresh fruits and vegetables.
- Follow jar manufacturer's instructions exactly for handling and sealing the particular styles of jar used.
- Pack material loosely to allow heat circulation and leave sufficient space to allow for expansion without overflow.
- Do not subject jars to sudden temperature changes—do not open jars after cooking in jar starts.
- Boil all home-canned meats and non-acid vegetables 10 to 15 minutes before eating or even tasting.

Be sure to get your copy of our canning booklet. It is yours for the asking in our office.

## Office Hours: 24 Hours a Day

Your doctor, who is the first to detect a need for rest in others, has driven himself without mercy in wartime. He serves his own patients as well as those of absent physicians, yet finds time to keep abreast of medicine's many wartime discoveries.

Most people were quick to appreciate the doctor's sacrifices and looked for ways to encourage him. They attended his First Aid classes and learned to call him only when absolutely necessary. They volunteered to assist overtaxed nurses in crowded hospitals . . . and turned his dream of

a national blood bank into a magnificent reality.

Today the word, "cooperation", has a fuller meaning in America. The threat to our freedom has rekindled an intense national spirit . . . revealed amazing capacities on the part of our people to help themselves and their fellow countrymen until victory is complete. They are strengthened for the road ahead. They should go far, indeed, in aiding our gallant younger generation get the reward it has earned and will go on earning—progress in a world at peace.

When a product maintains the character that people respect, they are quick to demand it. Generations ago, the makers of Budweiser set a standard—distinctive in taste, pure, good and distinguished for its uniform quality. That's why people everywhere have agreed that Budweiser is "something more than beer . . . a tradition". No wonder it is the most popular beer in history.

BERNARD

HERSCHELL

EDDIE EUGENE

JOE P. JR.

"HE COMETH FORTH AS A FLOWER . . . AND WITHERETH LIKE THE GRASS"

One of these four sons of Joe P. is already reaping the results of war-time service and is now totally disabled. The other three are now in the bloom of health and prime of life. Look at Joe P.'s 1918 picture and then look at him now and you can draw some idea of what effect he has had from his war-time service in World War One. Cut down in that "Dark and Bloody Argonne Battle," he laid in hospitals nine long months and like your sons and his, he endured hardships, pain and suffering beyond description. Twenty-six years in the future, let us hope and pray that our boys will not have gone from stout robust young men to weaker ones. Joe P. has one whose health, vigor and youth has already been given for his country, while three others are thousands of miles from home on the far flung battle-fronts, and he and their mother, like you, will spend many sleepless nights waiting with you for their return, along with yours. The families of these boys have been too well cared for by Joe P., for we, who know his sacrifices for their welfare, to turn him down in this race. We shall by your support, elect him to this office so he can continue to care for them and to serve ALL Veterans, Soldiers and their dependents in their government matters. We know Joe P. will know best how to receive our returning boys and deal with them.

Not only has Joe P.'s family a fine war record, but he has had many years of experience in all the courts of the land and has served two terms as a public official—one term as County Attorney of Floyd county and one term as our State Senator. With his training and experience in the law, coupled with his knowledge and experience of the actual practice, we know of no better qualified man for the job. His best qualifications are his honesty, devotion to his family and friends and the clean life morally which he lives.

The money he would receive for this entire term wouldn't pay him for the thousands of government papers he has prepared and the time he has given freely to the veterans and their dependents of the other war, for which he has never charged one penny. We notice with deep satisfaction that he has pledged the veterans that he will keep a competent stenographer on duty at the Commonwealth's Attorney's office at all times to continue this free work for them. The job will be great, but we know Joe P. will do it well.

Let us show our appreciation for his past favors and let us each take over individually the job his boys would be doing for him if they were here, and fight for him like he and his boys have fought for us and ours.

Yours for a deserving man,  
VETERAN FRIENDS OF JOE P. AND HIS SONS

### LET'S LOOK AT HIS RECORD

Old Age Pensions—the largest in the state's history. For the Teachers of Floyd county—over 20 per cent in salary increase, an Equalization Fund in which this county shares, plus a model Teacher Tenure law.

Roads—The largest appropriation for rural roads we have ever had.

For the Veteran—an amendment to our Constitution to be voted on this fall to allow 18-year-olds the right to vote, plus a Kentucky G.I. Bill of our own, guaranteeing returning service men and women all the rights and privileges granted them under the federal act.

For Our Industries—the defeat of a tax on both coal and natural gas. Neither of these was ever allowed to come on the floor of the House.

I was the author of the Tuberculosis bill to construct five new hospitals in this state, 50 per cent of the beds to be free of cost. No bill has ever been introduced in the Kentucky Legislature more important to the people.

I have worked hard for the people of Floyd county and Eastern Kentucky. I ask your support to return me and let me help finish the job I have started. (Pol. Adv.)

## TO THE VOTERS OF FLOYD-CO.:

To the voters of Floyd county I wish to say that I am a natural born citizen of this county and a resident of Allen, Ky.

At all times I have tried to work and vote for the best interest of our county and I shall continue to do so as long as I can vote.

Sometimes it has been very hard to make a choice between candidates. But I have always let my better judgment lead me to a decision.

In the present contest we have two very worthy men aspiring to the nomination for County Court Clerk. One of these men is efficient and capable in every way. He is our present County Court Clerk. The other one is a veteran of World War II. He is a young man whose greatest appeal seems to be his service in the war. Well, as the father of Arnold Bentley, whose body is buried in France—a victim of a German bullet in battle—I unhesitatingly recommend the nomination and re-election of A. B. (Banner) Meade for the office of County Court Clerk.

I appreciate and greatly admire our soldiers but when it comes to voting I must let experience and efficiency guide me. I firmly believe it will be for the best interest of our people to nominate and re-elect Banner Meade. (Pol. adv.) JOHN G. BENTLEY

Mrs. D. C. Stephens has returned from Gatlinburg, Tenn., where she took her daughter, Dora Elizabeth, to spend a month in Camp Chewase. She was accompanied by her sister, Mrs. Alice Preston, and children, of Loyall, Ky.

Mrs. Henry Stephens, Jr., Mr. and Mrs. Robert J. Wallace and Mrs. C. Hall were guests of Pine Mountain Chapter, Order Eastern Star, last Thursday evening, the occasion being "Friendship Night." Preceding the meeting, a banquet was served in the hall, after which an initiatory degree was conferred on three candidates. Representatives from Pound, Va., Pikeville and Whitesburg were in attendance.

To the Voters of Floyd County:

We ask the people of Floyd county to support Banner Meade for County Court Clerk upon the record he has made. 1. He has been friendly, fair and accommodating in the discharge of his duties. 2. His office is well kept, and is one of the best arranged and indexed offices in Kentucky. 3. He has kept the records so well that you do not have to hire a lawyer to look up a record for you. 4. There has always been several efficient people working in his office, who have been willing and able to find a record for you without delay or expense.

5. The title to all the property you own and the records concerning you and your family are kept in this office. It is important that these records be correctly and safely kept. Don't be influenced by anything but your best judgment as to who is better qualified to serve you. Vote for the man who has proven his qualification and ability. NAVY VETERAN ASKS SUPPORT FOR COLLINS

I have known Everett Collins for some time before he joined the army. Was a good citizen of Weeksbury and worked hard for what he got. This has been about 10 years before he joined the army. As a boy I went to school where he did and can remember when he played ball, that he was a very good sport in the game. Now since he is a veteran of foreign wars and got his medical discharge from the U.S. army for losing one of his legs during combat with the Germans and was taken prisoner in Germany and put in a concentration camp for some time—in fact, just about too long.

In the army a man has to be able to do many things in order to make a rating and the next to the biggest one of those things is guarding prisoners in the brig (brig is what we call it in the navy.) Everett has had plenty of that and now that he has been a prisoner for so long, I know that he knows his job well and know that he will serve his countrymen like they should be served. I know this, for I have had the experience myself as being a guard over men who have violated the laws of the navy. Treating men or women who have violated the law like they should be treated will help a great deal in making a better citizen out of them. This is the most important thing to the state of Kentucky (is having better citizens) men and women are alike in one way and when once served in jail they can see where they committed their mistake when they are not treated like they treat people in the European countries, will come out of jail with a better thought of life. And this is why I highly recommend that Everett Collins should have the job. I am sure there isn't a better man in the state of Kentucky that knows his job like Mr. Collins knows his.

If the people of Floyd county will give this a second thought, and remember the old saying that experience is the best teacher, and if you have a little knowledge to go with that, experience cannot be beaten. Mr. Collins has all the experience that a man could wish for, and as he has lost one of his legs serving his country and the people of America, it is up to the people to give him a good chance to make good and to forget the past and look forward to the future, and it is up to the people of Floyd county to do this little thing for him.

When the August election gets here, let each and every one vote wisely and make it count. Yours truly, NELSON HOLT GM 2/c USNR (Pol. adv.)

REPRESENTATIVE 96TH DISTRICT

Five years in the infantry and air corps—therefore I shall be for any legislation beneficial to the returning soldiers.

Good Roads—My father has been engineer for the Department of Highways for the past seven years, giving me a special interest in roads of our district. My father was also a country school teacher for five years and has always stressed the need of improvement of the schools and the lot of the teachers. Therefore, I shall stand for any improvements or increases to the schools and the teachers, especially those of the country.

Miners—If you will look back you will find my father as financial secretary of a local back in 1919 even before they were recognized and also as a charter member of Local No. 5900. Without the coal that you have mined, we, as soldiers, could not have won the battles as we did during the 2 1/2 years I was overseas. Although I was seriously wounded by shrapnel and machine gunfire, I am still able to put up some fight; and I hope that you will allow me to do this for you in the next Legislature.

I have nothing to say against my opponents and am leaving our race to your choice. Thank you. (Pol. adv.)

This is the Jap we haven't yet tackled. JAPANESE ARMY DEFENDING JAPAN GERMAN ARMY DEFENDING THE REICH IN THE WEST. He's big—The Jap now controls one of the largest empires in the world. He has 4,000,000 to 5,000,000 war-hardened soldiers—twice as many as the Germans had to defend the Reich in the West. He is entrenched in China, Korea, Manchuria and the homeland—we have yet to meet these major forces. He's strong—for 20 years the Jap has feverishly worked to make Manchuria an immense war arsenal. Here, out of bombing range, he has huge war plants. He has ample resources—in many cases greater than ours. He can build ships, tanks, guns in great numbers. And thousands of swift planes. 35,000,000 WAR WORKERS He's hard to hit—Every punch at the Jap has to travel thousands of miles. It takes three times as long to carry men and guns and food to our rear bases in the Pacific as it did to our front lines in Europe. It takes three times as many ships for the same amount of material—and more men in our supply lines. He's a hustler—The Jap war worker works like a beaver—he is 35,000,000 strong, working 12 to 16 hours a day, 7 days a week, taking only 2 days off per month. He isn't quitting. He isn't willing. He isn't easing up—he's hustling every muscle he's got—building ships, planes, guns to beat us. Says Lieutenant General Holland M. Smith, U. S. Marine Corps: "The Japanese fighting man may sometimes fight foolishly but he always fights furiously, savagely, ruthlessly. Any notion that such a people will wilt morally, psychologically or economically is quite certainly wrong. Our battles with the Jap will go into Marine Corps history as the toughest of all our time. Beating him will take the best we've got." This explanation of the war ahead is published in cooperation with the Armed Forces by Maloney-Davidson Co., Inc. 823 South Floyd Street Louisville, Kentucky

ious. In most camps there has not been any meat in the last 10 to 14 days. If the coal supply is to be maintained this matter must be adjusted immediately as it is serious. It is impossible to expect coal miners to maintain present coal production unless this matter is corrected at once.

"President Caddy has literally burned the wires up sending telegrams to Senator Barkley and Congressman Robison telling the story of the meat shortage in the Hazard field, showing that only two pounds per person of fresh meat, bacon, lard and lunch meat was available for the combined months of March and April. The telegram also revealed that during April only 1.07 pounds of lard and meats were available for the 11,000 people in the Big Sandy area. Five mines of the Elk Horn Coal Corporation received less than one pound per person for the month of April, including butter, lard and cheese. At the Wheelwright mines 1,500 persons received less than four ounces for the month of April, or less than 20 pounds per person per year, which includes all fats, butter, lard and cheese. Caddy pointed out that for a population of 1,225, only 18 pounds of meat and 36 pounds of lard were received for one week."

**ALLEN FOR CIRCUIT JUDGE**

**TO THE VOTERS OF THE 31st JUDICIAL DISTRICT:**

Since it is a physical impossibility for me to meet each of you personally, as I would like to do, I am making this statement as my personal pledge to you:

If nominated and elected Circuit Judge, I will perform the duties of the office exactly as my sworn oath enjoins me to execute them.

I will appoint as Jury Commissioners good, substantial citizens who will place in the jury wheel the names of both men and women to sit in trials of the circuit courts of Floyd and Knott counties.

I will take to the bench the experience I have gained during the six years of my office as Commonwealth's Attorney and from this knowledge of the needs of the district give my full attention to serving all the people, without fear or favor, to the end that all may receive justice.

As Circuit Judge, I will hold, as always, the deepest respect for the Service Man and Woman and to these will be extended every leniency compatible with law and justice.

I was born and reared at Bosco in Floyd county, and not far from the Knott county line. The problems of both counties are familiar to me and none has stronger ties of blood and friendship in the two counties than I. My acquaintance with the two counties and their people would enable me to take to the Circuit Court bench a keen consciousness of their needs which could and should be filled by a Circuit Judge.

These statements are not made as mere "Campaign promises." I ask you to check them in the future against my record as Judge. These things I can do—I am not promising more than I can and will do. I can only offer the services of a friendly, conscientious official who will treat poor and rich, black and white, regardless of political or religious faiths, with complete impartiality.

Sincerely,

To the Citizens of Floyd County:

It is a pleasure indeed to speak for a real citizen of Floyd county. He is a man who has gone out there and helped do a real job; a man who would have given all in order that the men and women of Floyd county might carry on their normal way of life. Yes, he bought bonds, and had his pay cut to rock-bottom in order that he might do more than offer his life. Jarvis Allen is at home due to a medical discharge or he would still be in there destroying the enemy.

Now, neighbor, he wants to serve you at home while others are serving you on the battlefield. You cannot afford not to give him a job. I shudder to think of anyone being against him. He is unquestionably the man for County Court Clerk.

Let us plan now to make it a "must" to get to the polls in August and give him a vote. He stands out as a symbol to help you and me in casting our votes. Don't misuse your voting right. Let's show Jarvis that we appreciate his work in helping defeat Germany and give him our vote.

His character is unimpaired. Tell your neighbor and pass the word on that I for one am for him.

The Hatler Johnson Life Insurance Agency has several million dollars' worth of insurance in force on the lives of prosperous, satisfied, permanent policyholders; and is currently placing new business at the rate of over \$1,000,000 a year.

This success is due to three factors:

- (1) Selection of agents whose business methods inspire public confidence.
- (2) Policies for every need from the cradle to the grave and beyond: Educational, Disability, Income, Retirement, Mortgage Redemption and Family Protection.
- (3) Agent's contract, training and learning the business in dignified manner that enables the agent to make enough money to conduct himself as a business man should.

We have no "high-pressure-30-day-wonder-blow-hards" whose "brilliant" records are eclipsed with the discouragement and the ill-will of a constant long train of lapsed policies. We are looking for people in Floyd county who can qualify as agents our way; and the pay will be good.

**GOOD NEWS**

Automobile factories plan on building NEW CARS in 1945. Your car is worth MORE MONEY now than at any future date.

NOW IS THE TIME! HERE IS THE PLACE!

SELL YOUR CAR AT THE HIGHEST POSSIBLE PRICE.

By selling your car to us will place your name on our SPECIAL LIST when new cars are here again. We operate under OPA regulations.

DON'T DELAY! SEE US TODAY!
