EX-SERVICE MEN'S NEWS

By CLAUDE S. SPROWLS, Ex. Secy. Disabled Service Men's Board Lexington 9, Ky.

Beneficiaries of National Service Life Insurance

Any veteran has a right to designate a beneficiary or beneficiaries to his National Service Life Insurance Policy within the following classes: wife (husband) child (including an adopted child, stepchild, illegitimate child), parent (including parent thru adoption and persons who have stood in place of a parent to the veteran at any time prior to his entry into active service for a period of not less than one year), brother or sister (including those of the half blood) of the veteran.

A veteran may change the beneficiary or beneficiaries within the classes outlined in the preceding paragraph, without their knowledge or consent. All that is necessary is a notice signed by the veteran, giving the beneficiary change, and forwarded to the Veterans Administration. A change of beneficiary may not be made by last will and testament if a beneficiary has been submitted to the Veterans Administration by a veteran.

Guaranteed Values All permanent policies have guaranteed cash, loan, paid-up and extended insurance values available after the policy has been in force one year. The eight year level premium term policy has no cash, loan, paid-up or extended insurance value.

Policy Loans The permanent policies (20-pay life, 30-pay life, and ordinary life) provide for loans at any time after the first policy year, and before default in the payment of any subsequent premium, in any amount not exceeding 94 per cent of the cash value. Policy loans bear interest at the rate of 5 per cent per year. The eight year level term policy has no loan value.

Dividends Policies may participate in dividends from gains and savings as determined by the Administrator of Veterans' Affairs. Assignment, Taxation, and Exemption

The proceeds of a National Service Life Insurance policy are not assignable, and except where invested in property, are exempt from taxation. Payments to a beneficiary are exempt from claims of private creditors of the deceased veteran, or of the beneficiary, and are not liable to attachment, levy or seizure by any legal process whatever, either before or after receipt by the beneficiary.

Information Free Information relative to any government insurance may be had, free of charge, by directing all requests to the Disabled Ex-Service Men's Board, Lexington, Ky.

BOY HAS LITTLE HOPE OF RECOVERY BUT LOOKS FORWARD TO CHRISTMAS

Williamson, W. Va., Nov. 18—Fifteen-year-old Obie Curry, bedfast from a crippling disease and given little chance of recovery, is looking forward to Christmas with a hope that it will be a cheerful one.

Obie lives at Ragland, near Williamson, and is a victim of muscular dystrophy, a progressive muscular disease which has killed two of his brothers. Medical science knows little about the disease.

The son of Mr. and Mrs. Boyd Curry, Obie became 15 years of age last July 4. He was able to walk until he was eight.

His pitiful case was brought to public attention by Mrs. C. T. Haukeness, of Portsmouth, Va., who wrote the Charleston Gazette:

"All day he sits at home and whittles or draws and colors pictures. It is very lonesome when the other children are in school and he lives about seven miles up a hollow off the main road. It has been some years since he has been out of the hollow.

"As I know he would appreciate toys, games, books and anything to help him pass the time away, I hope the public will join me in sending him the little things that will do so much to bring him at least some happiness. His family is a large one, and there isn't much money to spend for toys."

There were 14 children, but seven died. One brother walked until he was 10 and died three years later of the disease, another contracted it at 11 and died when he was 17 years old.

Wayland Announces Basketball Card; Wins 5, Loses 2

Wayland, Ky., Nov. 17 (Spl.)—Wayland high school's basketball schedule, a troublesome detail this year, was announced this week by Coach L. B. Price as near-complete. Games definitely scheduled are:

Nov. 23, Wheelwright, at home; Nov. 27, Flat Gap, there; Dec. 7, Garrett, there; Dec. 15, Paintsville, at home; Dec. 18, Oil Springs, there; Dec. 21, Hindman, home; Jan. 5, Betsy Layne, home; Jan. 11, Vicco, home; Jan. 12, Wheelwright, there; Jan. 19, Martin, home; Jan. 22, Prestonsburg, there; Feb. 1, McDowell, there; Feb. 2, Garrett, home; Feb. 8, Auxier, home; Feb. 9, Maytown, there; Feb. 22, Prestonsburg, home; Feb. 25, Hindman, there.

Wayland has played seven games, dropping the first two to Betsy Layne and McDowell, 29-28 and 20-24, respectively. The last five have been won from Martin, Oil Springs, Maytown, Auxier and Flat Gap.

It is possible that as many as four games more than those already scheduled will be booked, Mr. Price said.

Robert Snow, of Gallatin county, has 16 grade cows which produced 100,000 pounds of milk in eight months.

A bumper crop of hay, twice that of last year, has been harvested in Knox county.

TO THE PEOPLE OF PRESTONSBURG:

I wish to thank you all for your support of the Victory ticket in the recent city election.

The overwhelming majority you gave the candidates for City Council on the Victory ticket does not in any way, as I consider it, mean you did not like those who were candidates against them; it meant that you approved of the conduct of the town's affairs since the last election, and that you want a continuance of good government.

The results of the election were particularly pleasing to me and all other members of your police force, since I was made a major issue. I thank you all for your vote of confidence. I have always tried my best to serve you without partiality, to maintain the peace without oppressing anybody and to co-operate with the good citizens of the community in all ways possible.

EPP LAFERTY, Chief of Police.

SELF-REGULATION

A sound principle

Upon the sound principle of Self-Regulation—Kentucky brewers have developed a program which reaches every licensed retailer of malt beverages in the State—a program which enlightens them all as to their legal and social responsibilities in the sale of beer and ale—a common-sense program which provides for the prompt correction of any infraction, however small.

It is a program heartily endorsed and supported by local and State law-enforcement agencies.

It is a program that works.

ELECTRICAL APPLIANCES

WHEN?

On the basis of our observations, we cannot see more than a trickle of appliances flowing into the market within the next few weeks.

HOWEVER

Once production really gets rolling good, appliances will be available in ever-increasing volume, and we don't advise our customers to grab at the first thing that comes along, but rather to exercise a little patience and select a product of proven quality, even if it means a few weeks delay.

About Advance Orders

This is a problem to which we have given much thought. We have come to the conclusion that we should not accept advance orders until we have complete samples on display and the customer can see what he is going to get and know what he will pay, thus assuring customer satisfaction. Another factor that influences our decision not to accept advance orders at this time is

THE RETURNING WAR VETERAN

If all dealers should accept advance orders for appliances, this man would have to wait longest for needed home conveniences and we feel that most people will agree with us that this must not happen. In fairness to all we will, therefore, hold in reserve a fair percentage of our first shipments for these men.

We shall, as always, do our best to serve our customers in a fair and equitable manner.

Brands We Will Sell

OUR LINE ON MOST ITEMS WILL BE

HOT POINT

- Hotpoint Electric Ranges
Hotpoint Electric Refrigerators
Hotpoint Automatic Water Heaters
Hotpoint Electric Home Freeze Units
Hotpoint Electric Steel Kitchens, complete
Hotpoint Electric Sinks and Dishwashers
Hotpoint Electric Washers
Hotpoint Electric Automatic Home Laundries
RCA Radios and Phonographs
Bendix Radios and Phonographs
Domestic Electric Sewing Machines

Many other famous brands of smaller appliances. All appliances sold by us will be nationally known.

SERVICE

Before the war there were not more than two or three appliance dealers in Floyd county. These few dealers were able to take care of the normal service requirements of the appliances they sold. Now, it is a different story. Because of the pent-up demand, every known (and unknown) appliance will be for sale right here in our county. Some of these new dealers will continue in business and be in position to take care of service on the products they sell. Others will quit when the demand has been met and leave their customers without a local service outlet. So you can see that while it is important what make of appliance you buy, it is also most important FROM WHOM YOU BUY.

Will they be in business when you need service? If so, will they be fully equipped to handle any service problem? Some will—many won't.

Morell Supply Company has been in business in the same location for over 45 years. We have placed orders for over \$4,000 worth of service equipment. We are placing in charge of our Service Department a World War II veteran with three years' experience repairing radios on the battlefronts. He is now taking a refresher course on refrigerator service and will be on full-time duty with us after January 1.

THE CAR THAT'S REALLY NEW!

1946 OLDSMOBILE

WITH MANY NEW ADVANCEMENTS

"Look to Olds For All That's New!" Look to America's oldest motor car manufacturer for the newest, smartest thing in 1946 models—and the newest, simplest way to drive. The 1946 Oldsmobile, with General Motors' new and finer Hydra-Matic Drive, is here now—for all to come and see!

And it's truly NEW in every sense of the word. The appearance is different from any previous Oldsmobile—with newly tailored lines, smart new front-end design, and newly appointed Bodies by Fisher. The performance is new, due to smoother and livelier "Fire-Power" engines. There are many new advancements throughout

the chassis to provide greater ruggedness and reliability.

Hydra-Matic Drive is new, too. First introduced by Oldsmobile in 1939, and thoroughly battle-proved in fast Army tanks during the war, this great General Motors development has now been made even finer, smoother, and longer lasting than ever... for the new 1946 Oldsmobile.

You are invited to come in, see and inspect this great new General Motors car. Oldsmobile has been building quality automobiles for nearly fifty years. This newest Oldsmobile is by far the finest—the best-built Oldsmobile of all time.

OFFERING THE NEW GENERAL MOTORS HYDRA-MATIC DRIVE

Hydra-Matic Drive is a combination of a fluid coupling and a fully automatic transmission. Gears shift automatically through all four forward speeds, and there's not even a clutch pedal in the car!

Eight types of storage batteries declared surplus by the Signal Corps will have dollar-and-a-cent price ceilings for all sales in civilian channels, the Office of Price Administration announced this week.

The ceilings, effective Nov. 15, range from \$3.39 to \$28.34 at retail and from \$2.26 to \$18.89 f.o.b. shipping point, for sales to industrial users and retailers. Ceilings also are established for sales to wholesalers. Approximately 85,000 of these batteries are now located in various parts of the country and will be sold for civilian use by regional offices of the Reconstruction Finance Corporation.

The batteries, which range from two volts to 12 volts, can be used in passenger cars, buses, trucks, motorcycles, radio sets and as an emergency source of power for lighting.

**IN MEMORIAM**

In memory of our dear husband and father, G. B. Newman, who departed this life one year ago today.

In loving memory we can see his ever-smiling face before us, inspiring the continuance of our lives in the pattern he set by his devotion to family and community, unselfishness in dealing with his fellow-humans, a sense of fairness and honesty which was inviolate, and an humbleness of spirit which caused all who met him to love and respect him.

Our home is lonely without him, and we hope to meet him in the sweet bye and bye.

Needed: \$1,000,000 worth of equipment in every farm county! Jobs!

Big demand for one-man combines will make factory jobs.

Many farmers will buy one-man hay balers. More jobs!

One-man ensilage harvesters will add to jobs in factories.

**Making Postwar Jobs—With Farm Equipment**

How many jobs will there be for men and women released from military service—and from war industry? No one can say, exactly. But this much we know: Business management, in scores of industries, has long since laid plans to meet quickly the tremendous, pent-up demand for goods of all kinds—and to introduce new products and services that will make jobs by the thousands by creating new demands.

Take the farm-equipment industry. Right now, there is a critical demand for standard farm implements of all kinds. Nearly a million dollars' worth of equipment is needed in every farm county! Making this equipment will make jobs for thousands, in mines, mills, and factories.

And a great new force for job-making is in the new developments by farm-equipment manufacturers. Among these developments are new ensilage harvesters that cut standing corn and make it ready for ensiling in one simple operation. New combines that harvest and thresh wheat without backbreaking toil. New machines that pick corn, pick up and bale hay, dig and pick up sugar beets. Machines that not only mean easier, better, more diversified, more productive farming—but also new jobs in industry.

The farm-implement industry is but one of many along the Chesapeake and Ohio, the Nickel Plate, and Pere Marquette, that are going full speed ahead putting their plans into operation, now that Victory has been won.

**Former Floyd Boy, West Virginia Girl Are Wreck Victims**

Woodrow Wilson Conner, 18-year-old son of Mr. and Mrs. Albert Conner, Milton, W. Va., formerly of Northern, this county, and Miss Saddle Holbrook, 15, of West Hamlin, W. Va., were instantly killed, Monday night of last week, when the automobile in which they were riding crashed into a lumber truck on Route 60, near the West Virginia Colored Children's Home, between Milton and Huntington.  
 According to Dr. F. X. Schuller, county coroner, Miss Holbrook's head was severed just below the chin and she suffered a fractured left wrist and a crushed chest. Dr. Schuller said the Conner youth, believed to have been driving the automobile, died of a crushed skull, and also sustained fractures of the left leg, left thigh and left arm.  
 The Conner youth is survived by his parents, Mr. and Mrs. Albert Conner, of Milton, W. Va., three brothers, Raymond Conner, with the navy, Charles Conner, with the army, and Bill Conner, at home; and four sisters, Mrs. Clara Chapman, of Milton, Mrs. Tina Allen, of Martin, and Katherine and Janet Conner, of Milton.

Both bodies were taken to the Heck Funeral Home at Milton and later both were taken to the home of Mr. and Mrs. Albert Conner, Woodrow Conner was graduated from high school this year. Funeral for Conner was conducted Friday at Zoar Baptist Church, the Rev. John Cremeans officiating.

**Kentucky's Highways Were Not Built for 20-Ton Trucks**

It is reported that the commercial trucking interests will endeavor to have the next session of the Kentucky Legislature pass a permanent law authorizing the operation of truck-trailer combinations weighing twenty tons.

Heavy trucks, when grinding slowly uphill, impede all traffic because of the difficulty and danger of passing. A fast-moving 40,000 pound truck, whether on a down-grade or on a narrow level road, is a positive menace to all other traffic. The book "Kentucky: Designs for Her Future," recently issued under the auspices of the University of Kentucky, thus aptly expresses the views of the operators of all motor vehicles — whether busses, trucks or automobiles: "Few experienced drivers relish the prospect of encountering 'highway trains' on a narrow, slippery, double switch-back curve." The danger and inconvenience in the day time is increased many fold at night.

According to the Good Roads Federation the 10,000 miles of highways in the Kentucky State Highway System include only 2,100 miles of high-type surfacing and there are 8,200 miles of road less than 20 feet wide and 3,200 miles less than 18 feet wide with 16,000 places where

sight ahead is restricted by sharp curves or other obstructions. The facts are graphically portrayed in the following statement in the book "Kentucky: Designs for Her Future": "Her (Kentucky's) standing in high-type surfacing is relatively low — next to the bottom per unit of population."

In the County Road System, of 47,000 miles there are 27,690 miles of unsurfaced, mud roads, and the remainder cannot properly support the 18,000 pound trucks which were permitted before the war. The simple fact is that Kentucky's highways, consisting so largely of narrow, winding, hilly roads, were not built for 20-ton vehicles.

All commercial trucks in a normal year pay only about \$600,000 in gasoline and license taxes. That is less than 5% of the total highway taxes paid by the public and is also less than that part of railroad property taxes that is used for highway purposes in this state. To permit the operation of 20-ton trucks is as unfair to competing forms of transportation as it is unreasonable from the standpoint of the capacity and character of the highways.

Protection of the safety and convenience of the operators of passenger cars and of trucks of reasonable size, preservation of the highways and due regard for the taxpayers who build and maintain those highways — all unite with simple fairness to competing forms of transportation in requiring that reasonable limitations be imposed upon the instrumentalities that use public property for private profit.

This message is published by the Kentucky Railroad Association. In addition to income taxes the railroads in a normal year pay in this state more than \$5,000,000 in property taxes, of which approximately \$2,500,000 is used for schools and more than \$800,000 for county roads and city streets.

**Former Floyd-Co. Girl Weds in Indiana**

Miss Naomi Hughes, daughter of John W. Hughes, of Medaryville, Indiana, formerly of this county, became the bride of Mr. Wilbur German, son of Mrs. Alta German, of Rossville, Ind., Oct. 6.

The nuptials were read in La-Porte, Ind., the Rev. Hershel Conley officiating in the double ring ceremony.

The bride wore a blue suit with black accessories and a shoulder corsage of roses and baby breath.

Mr. German received an honorable army discharge on Sept. 25 after 39 months service. He spent 19 months overseas with Gen. Patton's Third army in the European theater of operations where he was attached to the 174th field artillery.

Mr. and Mrs. German will reside in Gary, Ind., where he will be employed by the U.S. Steel Corporation in the same capacity he held before entering the service.

**Auxier Seaman Who Survived Ship Sinking To Die in Shore Mishap**

Frank E. Hubbard, M.M. 3/c, son of L. C. and Dora Hubbard, of Auxier, died at Panama City, Florida, as a result of injuries incurred in an automobile accident. He was on shore patrol duty when the accident occurred.

Born June 17, 1924 at Pikeville, he attended the Auxier consolidated school and was in the second year of high school when he was called for service. He was inducted in the navy in July, 1943 and was sent to Great Lakes Naval Training Station. After completing training there, he was sent to Norfolk, Va., and was assigned to the USS Twigg for active duty. He was sent to the Pacific where he was in six major battles around Leyte and the waters around the Philippine Islands.

The last engagement he was in was at Okinawa when the Twigg was torpedoed on June 16, 1945 and sank in less than one hour. He was rescued and given a 30-day leave. At the expiration of this leave he reported to Nashville, Tenn., and was sent to New Orleans, La., and from there he was sent to Panama City, Fla., at which place he met his death while performing navy duty.

He is survived by his widow, Mrs. Roberta Hubbard, Prestonsburg, his father and mother, of Auxier, and six brothers and four sisters: Jack and John Paul, Theodore, Clifford and William, of Auxier; Lt. Charles Hubbard, stationed in India, Mrs. Charles Trivette, Virgie, Ky., Mrs. W. L. Wells, Auxier, Mrs. C. L. Kephart, Hagerstown, Md., and Miss Olive Hubbard, Cincinnati, O. Three members of his family have their discharges from the service.

The third annual farm tour of the Kiwanis Club in Clay county was held in September, when 15 farms were visited.

**Our Roots Are in This Land...**

How often you hear a man say of the land he owns... "When my son takes over, this will be a better place than when I got it!" Such a desire is natural to a father and splendidly American! Along with the expressed thought, there is a deep-rooted pride in continuous family ownership of productive land. So long as this ideal lives, agriculture will continue to be "the broad, enduring base upon which the entire U. S. economy rests."

There are many farm and ranch sons who stay in their families' business on the land. Some who do leave, however, might also stay, were there written business agreements between father and son. Such agreements insure a fair return to both "partners" for the labor, capital and ability they contribute to their joint enterprise.

Practical father-and-son farm business agreements have been worked out and are proving their worth in actual practice on many of the nation's farms and ranches. The various forms of these agreements cannot be explained in detail here, but they are available and worth study. Excellent bulletins on this subject may be had by writing to the College of Agriculture, University of Illinois, Urbana, Illinois, for Circular No. 587; or to Michigan State College, East Lansing, Michigan, for Special Bulletin No. 330.

We, at Swift & Company, know that a prosperous agriculture is the base of our prosperity and we are proud to say with you... "Our roots are in this land."

**Have you heard about the new improved lard?**

Swift & Company, after ten years of research and consumer tests, has developed a brand new product—Swift's Bland Lard. It has all the advantages of other high grade shortenings, plus the important qualities found only in lard. It will cause millions of American housewives to use more lard, and that's mighty important to hog producers. Any improvement in pork products which boosts consumer demand (such as a superior lard) will have a supporting effect on live hog prices, because the price paid for livestock is governed by what the meat packer can get for the meat and by-products.

★ ★ ★ NUTRITION IS OUR BUSINESS — AND YOURS ★ ★ ★  
Right Eating Adds Life to Your Years — and Years to Your Life

**THE EDITOR'S COLUMN**

The livestock-and-meat industry is like an endless chain. The meat travels in one direction; from livestock producer to meat packer, to retail dealer, to consumer. And coming back

in the opposite direction is money; from the meat purchaser to the storekeeper, to the meat packer, to the man who grows the livestock.

There must be motive power to keep that chain running, and that motive power is profit. It is profit that keeps ranchers and farmers producing livestock; profit keeps meat packers slaughtering, dressing and delivering meat to retailers; profit keeps retailers selling meat in their stores.

We at Swift & Company well know that a continuing loss anywhere along the line would mean that all of us would suffer. Thus, it is clearly to our own advantage to operate our end of the livestock-and-meat industry so efficiently that the money the consumer pays for meat shall cover all costs plus a sufficient profit for retailers and livestock producers, as well as for ourselves.

**PIGS INHERIT ABILITY TO MAKE RAPID GAINS**  
By J. C. GRIMES

Alabama Agricultural Experiment Station  
Pigs from certain families or blood lines consistently made faster and cheaper gains than pigs from other blood lines in a swine breeding experiment at the Alabama Experiment Station. The ability to consume large amounts of feed and to convert it into meat rapidly and efficiently was found to run in families.

A strain of hogs which was selected for economy of gains reached a finished weight of 225 pounds in an average of 27 days less time than a strain that had not been selected for economy of gains. They also consumed an average of 34 pounds less feed to make 100 pounds of gain during the fattening period.

The appetite of a pig was found to be a good index to his ability to make rapid and cheap gains.

**CATTLEMAN ON HORSEBACK**

Next time you are at the Union Stock Yards in Chicago, if you see this big, jovial man sitting on a horse in the middle of a milling pen of cattle, that will be M. S. ("Si") Hughes, Swift's Head Cattle Buyer at Chicago.

'Way back in 1917, Si Hughes walked up to the Swift buyer in Kansas City and said, "Mister Stemm, I want a job." He got the job, and he's been with Swift ever since, except for a two-year army-hitch in World War I. Kansas City, St. Louis, Fort Worth, St. Joseph, Kansas City again, and finally Chicago—all added to his experience in judging the quality and yield percentages, grading, etc., of cattle.

In 1943 he was made Head Cattle Buyer for Swift & Company at the Chicago Yards. He has a staff of experienced cattle buyers directly associated with him.

## IN MEMORIAM

In loving memory of our dear son and brother who was reported missing in the southwest Pacific two years ago on Nov. 14, 1943—T/Sgt. Eugene Hyden.

If we could only speak to you today, Gene,

Hear your voice and see your sweet smile,

Then life would be worthwhile.

We miss you, Gene, in many ways,

We long for you through lonely days.

Taken so quickly—why

Should it be?—our son who

Meant so much to us, we cannot tell.

But God who doeth all things well

The answer holds in His own hands;

So some day we will know and understand.

Our lips cannot tell how we miss you, Gene.

Our hearts cannot tell what to say,

For God alone only knows how we miss you

In a home that is lonely today.

So sadly missed by

Daddy, Mother and Sister

## MASTER COMMISSIONER'S SALE

**FLOYD CIRCUIT COURT**

Duran W. Hamilton (Joe P. Tackett) Plaintiff vs. NOTICE OF SALE Matilda Newsome, Et Al. Defendant

By virtue of a judgment and order of sale of the Floyd Circuit Court rendered and entered at the October term, 1945, in the above-styled cause, I shall proceed to offer for sale at the courthouse door in Prestonsburg, Ky., to the highest and best bidder, at public auction, on the 26th day of November, 1945, at 10 o'clock, p. m., same being the first day of the regular term of the Floyd Circuit Court, upon a credit of six months, the following described property, to-wit:

Lying and being in Floyd county, Ky., and on Abner Fork of Left Beaver Creek, being the John P. McCoy tract, and more particularly described as follows: Beginning on a stone on the left side of branch at Lee Johnson's line; thence up the hill with said line to top of the point to Willie Johnson's line; thence down the point with said line to a black oak; thence on down to a black walnut; thence on out to the creek; thence up the center of the creek to the beginning so as to include all the land in said boundary.

For the purchase price the purchaser must execute bond with approved surety or sureties, bearing legal interest from the day of sale until paid and having the force and effect of a judgment with a lien retained upon said property as a further security. Bidders will be prepared to comply promptly with these terms.

Given under my hand this 7th day of November, 1945.

**WHAS' Agricultural Activities**

FRANK H. COOLEY, tall, lanky Kansan, is carrying on WHAS' typical personalized farm activities designed to do everything possible for the advancement of agriculture in the broad WHAS listening area.

No fancy ballyhoo, but a consistent, day-by-day co-operation with farmers, dairymen, stockmen, anyone with an agricultural problem. Cooley travels to every nook and corner of Kentuckiana, promoting every movement for the betterment of life on the farm. He goes to and reports on the livestock conventions, farm fairs, purebred breeders' sales, livestock and crop-improvement meetings and the like. To keep you informed he works closely with National, State and County farm agencies, seasoning his gleanings with his own broad farm experience.

Cooley, recently discharged from the Army, is no studio farmer. He was born and reared on a farm in northeastern Kansas, where one of his many projects was a dairy farm with a maximum of 90 head of cattle. A graduate of Kansas State College of Agriculture, he has taught vocational agriculture in Kansas high schools in addition to holding night classes for adult farmers.

Every morning at 10 minutes to 7 Frank is at the WHAS microphone giving farm news, market reports and agricultural information. Several times each week he is heard on another WHAS farm program, "Kansas Almanac," and he's likely to pop into many daytime programs when he has some farm news to give you.

## 20 or 25 Lots FOR HOMES and BUSINESSES

### Reasons why these lots are most desirable:

1. They are near the center of Floyd county. A man can drive to work within a few minutes over good highways. Prestonsburg is only a 10-minute drive. Lucrative businesses can be built along both highways.
2. Allen has fine church facilities. A new stone church was recently completed.
3. Allen has a splendid school system. High school buses going to Martin, Betsy Layne and Prestonsburg pass these lots.
4. Allen has a pure water supply operated by Herman Porter. Every home can have running water and a bathroom.
5. The lots are 50 by 100 feet—large enough for a garden, too.

They Won't Last Long.

No Public Auction Will Be Held.

## THROUGH THE EYES OF A FRIEND

Customers are people. And the Telephone Company has always considered customers in that light—as individuals, like the men and women who make up our own company.

This friendly feeling, we are happy to say, is reflected in the progress that Kentucky and the Telephone Company made together through the years. It is this same kind of partnership that makes the future sparkle with promise.

Like Kentucky, the Telephone Company is bucking down to its postwar tasks. For the 3,326 men and women of the Telephone Company in this state, it means the greatest expansion program in our history in Kentucky. It's a full and complete program, designed to meet the state's industrial and agricultural needs of the future. It means the expenditure of millions of dollars in Kentucky.

Specifically, the program will provide telephones for all who have been waiting for them. This is one of our first jobs! A greatly expanded telephone program for our farmer friends is also in process. Expansion of long distance service is being scheduled too. It will include the installation of coaxial cables to handle more calls with speed and convenience for you, and provide more facilities for that exciting visual art—television. A mass of construction is to be done and a new service to motor vehicles is also in the offing.

Here's a program of achievement, to be worked out together by Kentucky and the Telephone Company as they have worked out their attainments of the past. By mutual understanding and cooperation, Kentucky and the Telephone Company will grow greater than ever.

It's a big program that shall become a reality as fast as materials become available—a reality to be translated into prosperity and payrolls for the people of Kentucky. For a business is like an individual. If he fares well, his community fares well with him. And that is the way it should be, among friends.
