

This Town--
That World

O. O'DONNELL:
This O'Donnell guy who says in his New York sheet that we are so "ornery" could have found something right up his alley at the courthouse Saturday night while the votes were being counted. Barrring the possibility that he could have escaped being kicked out of a second-story window before it happened, he could have seen one man whamming a ballot box with a wrench and two others sawing off a lock.

Now this Mr. O'Donnell just naturally would have snapped himself a picture or so of this and labeled it "Ballot Boxes Looted." "Rape of the Lock" or with some other misleading headline, all the while rubbing his baby-soft hands and goosing "goody, goody."

But the truth of the whole matter (in which Mr. O'Donnell would not be interested at all) is:
Keys to these two boxes were broken, accidentally and in view of all concerned. If the boxes were not broken into, another day's pay would be due election commissioners while waiting for new keys; so officials decided it would be cheaper to break or saw the locks and buy new ones than to wait and pay the commissioners for the extra day.

AD-MITS ALL
James Morell, Jr., now in the "Republic of Texas," sends along this from the classified columns of The San Antonio Express:
"BROKEN-DOWN lieutenant and whiskey-drinking live desire turn house or apt. Two spoiled Republican Yankee children. In army because can't make living outside."

OF HITCHIN POSTS AND VARIOUS OTHER MATTERS
We shook this guy Joe last week, but he's back again, spoutin' corn like an overated moonshine still. He writes:
Dere Edittur,
I am not a yunyun man nor am I a nun-yunyun man, but I bieve in yunyun principals and I want 2 register a protest agin the wa yunyun princl, but I don't want to be in the dirt so 2 speak in yore town. Bare with me and I will tell yu how.

Me and Serry hitched our nag to our wagon Saturday and went to buy a new wagon. I want 2 depossit his roskin cher and get 2 see if he bank and fer him 2 git 2 town, er fer ennybody 2 git thar turn heer, is such a job he wuz afraid hit mite be so much wurk the wood take his penhusa awn from him. So me and Serry had 2 make the trip.
Me and Serry, we didnt no enny thing about these hear parkin meters, so wthin we got 2 the bank we wuz the best hitchin post all the way fer us I ever seed. So me and Serry both got out, a-noon Ole Dolly wuz hid up safe.

Me and Serry both got out, a-noon Ole Dolly wuz hid up safe.
When we got to the bank we wuz the best hitchin post all the way fer us I ever seed. So me and Serry both got out, a-noon Ole Dolly wuz hid up safe.
When we got to the bank we wuz the best hitchin post all the way fer us I ever seed. So me and Serry both got out, a-noon Ole Dolly wuz hid up safe.

Then what do yu spose she red 2 me? Well, srr, hit wuz a ticket, she sez. And I think hits derved nice w these people 2 pass out free tickets thatawa. Mr. edittur, hit dont hep me run nuther duz hit hep my reptyashun as a man with hare on his brest, 2 tell yu my luvud is reemarks on occasions like this I wuz in the car. But 2 let yu know me and Serry as we ar, Im tellin yu, she spoke 2 me in no un tartin turns and menushund sumthin about fules ort 2 sta at home. Then she infarmed me that this hear ticket wuz 2 the jail house and we connot do sumthin to explain or dig up sum fine mummy fer parkin overtime.
Oncet in a grate while I rise up on my hind lags and asert myselk like my mind I wuz tell my luv fer Serry maid yu be a weakin, and I woudnt topped parkin. I hadnt ort to and tole her as near off as I conod. She sed that enr hit waznt fer havin 2 pay a fine she woud nock sum since in 2 my hed rite thar. And with that she drove off 2 the polece sianstun 2 take up the parkin meater matter.

FBI TO TEST DRESS WORN BY VICTIM

To Determine If She Killed Herself; Men At Liberty Under Bond

While authorities awaited a report from the Federal Bureau of Investigation on its findings from an examination of the dress worn by Mrs. Maude Lewis, 30, when she was fatally wounded at Lancer, near here, on the afternoon of July 29, three of the four persons questioned in connection with her death were at liberty this week under bond.

Her husband, Mack Lewis, 33, former Floyd county officer, executed \$10,000 bond last Thursday afternoon following examining trial before County Judge Alex L. Davidson for her release.

Bond of Pearl Harris, 55, and his brother, Frank Harris, 53, of \$1,000 each was executed Monday. Remaining in jail is "the woman in the case"—21-year-old Dorothy Spears, who up until Wednesday afternoon had refused to execute the \$5,000 bond demanded by Judge Davidson for her release.

All four maintained at the examining trial, as they did previously when questioned by County Attorney W. W. Burchett, that Mrs. Lewis' mother of eight, snatched her husband's revolver from his holster while they stood in the kitchen of the Pearl Harris home at Lancer and, running to the front door, fired a bullet into her breast. This testimony was corroborated by her son, 13-year-old George Donald.

Dr. Marvin Ransdell, director of the Floyd County Health Department, and one of two physicians to examine the wound in Mrs. Lewis' body, re-iterated at the examining trial his belief that the bullet entered the woman's back.

NO VISITORS ALLOWED MAY

Congressman's Condition Unchanged; Dr. Archer Says Rest Is Needed

Stricken by a heart attack in Washington, Congressman A. J. May was removed last week to his Second avenue home where his condition this week was described as little changed.

Congressman May is permitted no visitors, even relatives being denied permission to see him as his physician, Dr. John G. Archer, is seeking complete rest and quiet for him. Dr. Archer described his condition as "a collapse" and his general physical appearance the worst he had seen it during the 14 years he had been the Congressman's physician.

VALLEY ASS'N PLANS FIGHT

For Canalization; Board of Directors In Meet at Louisa

Directors of the Big Sandy Valley Association held their regular mid-summer meeting Friday at Louisa where plans were continued to be developed for a continuance of the fight for canalization of the Levisa and Tug forks of the Big Sandy.

Dr. O. W. Thompson, Pikeville, president of the Association, pointed out in his annual report that, although the Congress passed the two-billion-dollar Rivers and Harbors bill and added \$150,000,000 to that figure, it estimated the comparatively small Big Sandy project "to save money."

TEACHER PAY UP FOR YEAR BY \$118,000

Top Rural Teachers To Get \$186 Salary In Floyd Per Month

Floyd county's 360 teachers this year will receive approximately \$118,000 more for their services than they were paid during the 1945-46 school term if the teacher salary schedule adopted by the Floyd County Board of Education Tuesday is approved by the State Department of Education.

Tuesday's meeting of the Board was its first since Palmer L. Hall became Superintendent of Schools. Ready approval of the salary schedule by the state department is expected.

The schedule provides that a consolidated school teacher with five years' teaching experience and a college degree but without supplemental pay as a principal or coach will receive \$176.20 a month. The rural teacher this year will receive \$10 more per month, with the understanding that the teacher is to do his or her own janitor work and minor school repairs for which supervision by the Board is difficult.

HALL'S BOND SET AT \$2,000

Galveston Man Named After Woman Found In Dazed Condition

John Smith Hall, of Galveston, was placed under \$2,000 bond by Magistrate Dewey Roberts after Mrs. Frances Hall, 35 years old, wife of Freddy Hall, of the same community, had accused him of criminally attacking her. He was also required to execute \$500 peace bond.

P'BURG DROPS 2 CONTESTS

Wayland, Drift, Harold Winners Last Sunday; Pikeville Holds Lead

After winning a week earlier, the Kentucky semi-pro baseball championship and the right to represent the state in the tournament at Wichita Falls, Kansas, in competition for the national championship, Prestonsburg had its worst slump of the season over the past week-end.

The boys dropped from their championship form far enough to lose to Inez there Saturday afternoon, 7 to 5, and then came home to drop a thriller Sunday to Pikeville, 3 to 2.

Elsewhere in the Big Sandy league Sunday, Drift was defeating Painisville, 8-6, Wayland was blasting Inez with a homerun barrage, 14 to 3, and Harold was whitewashing David, 7 to 0.

At Inez, Prestonsburg scored four runs in the third in the team's only display of power against Bowen's hurling with Blackburn and Hyden getting singles, Roark getting a double and Clifton a triple. Their last runs of the game were scored in the eighth on singles by Roark and May, with an Inez error helping along. Inez scored in the first inning without a hit, added two more runs in the second on a single, a double and an error. Three hits in the fifth were good for two more runs and the same story prevailed in the eighth.

The Prestonsburg team returned here with less than faint praise for the umpiring.

Sunday, Jess Cyrus, who a dozen years ago was a mound star for Prestonsburg, allowed Prestonsburg only six hits to outbatter Kidd. Prestonsburg rightthander who in the semi-pro tourney held the Pike countians to a lone scratch single. Kidd, however, allowed only seven hits over the distance but his error after Caudill had started off the ninth with a double helped to break the two-all tie that existed at the time.

A COW requires about 25 gallons of water a day for health and milk productivity. That makes 1,400 pounds a week. The daily need of poultry is 2½ gallons for each 100 chickens, and hogs quench their thirst with approximately 2 gallons a day each. For ordinary household purposes, 37 tons of water are used annually. Electrically pumped water is a "Must" on the farm today. An electric water system will not only pay for itself in labor costs in six to twelve months, but automatically increases profits on farm production.

ALLEN

To the People of The Seventh District:

It will not be possible for me to write a personal letter to those who have helped in the effort to secure the Republican nomination for Congress. I am, therefore, sending this word of my appreciation through local papers.

My desire to serve as Congressman grew out of the conviction that leadership in the affairs of government should rest with those who believe in spiritual, intellectual and political freedom. For some time I have shared with others the feeling that in local as well as state and national government, Christian people are too ready to leave matters with "politicians" whose public service is selfish and partisan. Good government must be defended and promoted by intelligent and sacrificial effort. We can have free government only when it is Christian.

Sooner or later, all government that is not Christian exploits the individual and robs him of liberty and freedom.

The valiant support given to me by many of the finest people of the Seventh district is evidence that they share these convictions. For the sake of those people who are willing to work and vote for the highest type of leadership, I wish that we might have won. We must, however, accept as our reward in this case the fact that often those who lose an election make a more worthwhile contribution to good citizenship than those who win.

It has been my belief that while serving in Congress I might at the same time be able to render a larger service to the children and young people who, from year to year, seek help in the school and orphanages at Buckhorn. The chief aim of my life is to make the institution there adequate and permanent for a selected number of these young people who are without homes and opportunity.

My faith in a Guiding Providence leads me to conclude that God has other plans by which the accomplishment of this task is to be done. I shall endeavor to follow these plans and covent in their fulfillment the prayers and help of the good people whom I have come to know during this campaign. It is my hope that the ministry to childhood and youth at Buckhorn may have a place in the hearts of all my friends. As a definitely Christian enterprise that is non-denominational and non-sectarian, we ask the support of people who believe in this kind of ministry.

I send to all friends my sincere thanks and good wishes. I shall work with deeper humility, greater determination and larger faith in the Good Cause because I have known you and worked with you.

Faithfully yours,
ELMER E. GABBARD

fishing, bathing, boating, picnicking and motoring may be enjoyed.

If the state or federal park systems give the aid that prompt and thorough work may now earn for the reservoir area, good roads will be built, boating and bathing facilities will be installed. All the features you have seen at other lakes will be available at this new one.

Every recreation spot in the nation is already taxed beyond capacity. Reservations for boats and cabins must be made days, even weeks, in advance. Thousands wait their turn. There is no such spot for the people of this section, a vast area of half a million persons, nearer than Norris or Harrington lakes.

The need for the proposed park area is such that it will not require a lot of pointing to make it apparent to the governmental department that can make all these things possible.

The thing that should be done is to convert the entire valley above the dam into a forest preserve, since the more valuable lowland will be inundated or threatened with inundation at maximum flood stage. Thus could be carried on a bit of natural conservation—letting nature's trees and leaves protect the slopes that, unprotected, will some day wash down and slowly fill the lake soon to be formed.

We Should Not Delay

THE TIMES hopes that those who have assumed responsibility for making a survey to determine the need for, and interest in, the conversion of lands at and around the Dewey dam into a park area do a good job of it.

This is absolutely necessary if the reservoir is to mean all it should to this section. The dam should be more than mere impounded waters forming a lake hidden in a valley which has never had modern roads. To whatever value it may be in flood protection there should be added a value as a vacation spot where

PLANS SINGING SCHOOL

An old-fashioned singing school, open to all in the community, is planned by the Island City 4-H club of Owsley county, after raising \$115 at a recent pie supper. Their plans

include the wiring of the school building which is used also for 4-H club meetings, church services and other gatherings. The Buck Creek 4-H Club is planning a similar project.

Eleven from County Enter Army During June

Word has been received from the enlistment station at Ft. Hayes, Columbus, O., that the following Floyd county men were accepted there for the regular army during the month of June:

Thomas J. Moore, Prestonsburg; Arvil Ward, Edgar; Dewey E. Davis, Martin; Thomas J. Herald, Dwale; Joseph Mullins, Drift; Toiva Hamilton, Amba; Joe E. Coburn, Cliff; Epp Lefery, Jr., Prestonsburg; Donald H. Gibb, Cliff; Wilburn A. Hall, Jr., Bevinsville; Leon Mosby, Wheelwright.

Of this number, Hamilton and Davis are ex-servicemen. Hamilton chose a three-year period of enlistment with the army air forces; Davis, three years with AAF ordnance in the Caribbean Defense Command.

On July 1, certain changes in the army recruiting program took place, such as:

Family allowances are available for the duration and six months for men coming into the service now. After May 12 may come back into the army with rank held at time of discharge, provided they join for a three-year period and have a certain military occupational specialty. Form 100 must be available to be used as proof of MOS and length of service in each rank.

The educational privileges under the G.I. Bill of Rights are available to all men who join the army on or before October 5, 1946.

There has been a substantial pay increase for service men. The pay of privates has been increased from \$50 to \$75 per month, corporals receive \$90 per month, private first class receives \$80 and there are raises for the other grades.

The Paintsville army recruiting station is now a part of the Kentucky military district. Until July 1, it was a part of the Charleston, Va., recruiting district. Applicants for enlistment now will be sent to Ft. Knox, Ky.

Contracts for Caskets For 250,000 Vets Let

Contracts for the manufacture of 250,000 caskets and cases to be used in the War Department's program for returning the bodies of American servicemen who died overseas during World War II have been awarded to five concerns at an approximate cost of \$35,000,000.

Announcement of the award of the contracts was made by Brig. Gen. Harlan L. Mumma, commanding officer of the Jeffersonville Quartermaster Depot which was charged with the procurement of the caskets and cases.

The contracts went to Continental Industries, Chicago; the Cincinnati Coffin Company; Goodyear Aircraft Corporation, Akron, Ohio; Galinot Products, Alliance, Ohio, and National Manufacturing Company, Plainfield, Conn. Each concern will produce 50,000.

Manufacture of all caskets and protective outer cases is expected to be completed within 15 months after production gets into full swing.

The War Department spent many months in research before making its decision on the type casket to be used, Mumma said. It will be of seamless steel hermetically sealed, and conservative in design.

The cases will be of plywood, brown in color, lined with zinc coated steel. The casket is to be permanently attached to the base of the case.

In order to expedite the program, the War Department appealed to the Civilian Production Administration for help in obtaining the steel, plywood and other materials required.

Six Veterans Centers Operate in Kentucky For Advice, Counsel

Six Veterans Administration Guidance Centers are now in operation in Kentucky to assist veterans in selecting proper educational and vocational programs. It was announced this week by Harry W. Farmer, regional manager.

At the various guidance centers, veterans receive expert advice and counseling in the choice of a training course to which they are individually suited. Each veteran's past schooling and business experience, his military specialties, his hobbies and interests are carefully evaluated. He may take a series of tests if so desires. Any physical disabilities, as determined by a medical examination, are listed and compared carefully to the physical requirements of the training which he is considering.

The service is available to all veterans who have received their certificates of eligibility for education or training. Use of the service is required of all disabled veterans entering on-the-job training. Also, it is required before a veteran may change his program of education or training as a result of unsatisfactory progress.

The Veterans Administration urges veterans planning to attend school for the first time under the G.I. Bill next fall to apply immediately for certificates of eligibility at their nearest Veterans Administration office.

The six guidance centers are located at the Veterans Administration Regional Office at Lexington, Veterans Administration Center near the University of Louisville; Union College, Barbourville; Morehead State Teachers College, Morehead; Western Kentucky State Teachers College, Bowling Green; Murray State Teachers College, Murray.

Mine Entries Planned To Recover 20 Bodies

Lexington, Ky., Aug. 3—New entries will be driven through unexplored coal ground surrounding the Kentucky Straight Creek Coal Company mine near Pineville in a redoubled effort to recover the bodies of 20 men trapped inside the mine by an explosion last December 26.

State Department of Mines and Minerals here said today the decision was reached at two recent meetings of the men in charge of the recovery work "because it has been impossible to effectively seal this mine as to smother out existing fires."

At the meetings, the department reported, "it was unanimously agreed that the unexplored territory of the mine which is presumed to contain the bodies of 20 men could best be reached by driving new entries through solid coal to tap the unexplored territory entirely independent of the old mine entries or workings."

Samples of mine air taken from behind the present ineffective seals, the department said, showing the presence of carbon monoxide, indicating semi-active fires, methane or explosive gases, and the presence of high oxygen, indicating an ineffective seal.

The department said a committee had been named to investigate a means of driving the new entries at "all possible speed and dispatch."

"It is difficult to predict definitely how soon the recovery can be effected," the department asserted, "but barring unforeseen difficulties and delays in getting the work started, it is expected that the recovery work should be completed by the end of the present year."

Rites for Floyd Man Who Shot Self Held In Johnson County

Funeral rites for Richard Daniels, 41 years old, of Mare Creek, this county, who shot and killed himself last Wednesday afternoon at Charley, Lawrence county, were conducted Saturday afternoon from the graveside in the Castle cemetery, Johnson county.

Mr. Daniels was said to have shot himself as he sat in a truck with his daughter after failing to persuade his wife, Esta Dickson Daniels, to return home with him from the residence of her parents at Charley.

Surviving him, besides his widow, are two daughters, Florene and Emma; two sons, Kenneth, Charles and Jimmie; his father, J. M. Daniels, of Pikeville; a sister, Mrs. A. D. Swann, Louisa, and three brothers, R. A. and Virgil Daniels, both of Betsy Layne, and Herman Daniels, of Pikeville.

Emma continued its winning streak Sunday, trouncing Dinwood, 15 to 3. Big Ed Leslie was on the mound for Emma while Dinwood played the game out with four hurriers.

The bats of the Emma boys were effective all the way, with Childers and Conley each getting three for four.

Next Sunday, Emma visits Coal Run for what promises to be one of the best games of the season. Emma defeated Coal Run, 5 to 3, earlier in the season at Emma. This game means a lot to either team and will aid in deciding who will end up in leading the Beaver Valley league.

CULLING FLOCKS TO BOOST POULTRY PRICES PREDICTION

Lexington, Ky., Aug. 5—A heavy culling of flocks, especially among commercial poultry producers, is expected to insure good prices for both poultry and eggs this fall and winter and all of next year, H. B. Price, University of Kentucky agriculture economist, said today.

Addressing 111 men and women from 43 Kentucky counties and from Illinois, Ohio and Pennsylvania at the 22nd annual university short course in poultry, Price said the culling of flocks would lead to fewer hens and fewer eggs next year.

While feed costs and the price of poultry are out of balance and discouraging poultry production, the situation is expected to change soon, he said.

"For one thing," he stated, "the feed situation will improve as the corn, wheat, oats, barley and other feed crops are harvested. Crop prospects are among the best in years and feed should be abundant next fall and winter."

Discussing the general economic situation, Price said inflation would continue as long as demand for goods, including foods, exceeds supplies, or as long as people have lots of money.

Biblical Wheat To Yield 100,000 Bushels

Cleveland, July 28—A handful of wheat grains, sowed to demonstrate a Biblical prophecy, this week will yield 100,000 bushels for world-wide relief.

A harvest celebration Thursday at the Adrian, Mich., fairgrounds will climax the demonstration, inspired six years ago by the Rev. Clifton J. Robinson, 28-year-old director of the Cleveland Bible College.

In September, 1940, Robinson, then a senior Bible student at the college, was assigned to preach one Sunday at the Tecumseh, Mich., Friends Church. His sermon was titled, "The Death Route to Life," and its text was from the Book of John, 12:24, which reads:

"Verily, verily, I say unto you, except a corn of wheat falls into the ground and die, it abideth alone; but if it die, it bringeth forth much fruit."

A Tecumseh miller, Perry Hayden, invited the student minister to his home after the service, and asked how the text might be demonstrated.

"Why not a cubic inch of wheat, tithed and re-planted for six years?" suggested Robinson.

The miller four days later planted a cubic inch of wheat—360 kernels—on a patch of ground measuring 4 by 8 feet, on ground owned by Henry Ford near his home.

The first harvest was tithed, one-tenth going to the church, and Hayden re-planted nine-tenths of the crop on a 24-by-50-foot plot on Ford's experimental farm. The third year the crop covered an acre, the fourth 16 acres, and last year 230 acres were planted.

This year, 266 farmers in Michigan and northern Ohio took part in the final planting of the Biblical wheat over 2,668 acres.

The expected 100,000 bushels will be distributed for world-famine relief through the American Friends Service Committee. Mr. Robinson expects to leave for India as a missionary of the Friends Church soon.

New York Helps Dummit In Fight On Ku Klux Klan

New York, Aug. 7—Attorney General Nathaniel Goldstein, who earlier this week obtained a final court order dissolving "The Knights and Women of Ku Klux Klan" in New York, said today he was co-operating with officials of Kentucky and other states in similar proceedings.

Kentucky's Attorney General, Eldon S. Dummit, informed Goldstein that "We are contemplating taking action in this state," and requested copies of legal papers and briefs in the New York case.

Dummit filed suit in circuit court in Frankfort July 22 seeking revocation of the Klan's Kentucky charter. The suit claimed that the Klan showed "Nazi tendencies" and persecuted Catholics, negroes, Jews and labor representatives. The court does not convene in Frankfort until September.

W. N. Stratton, of Hinton, W. Va., was here Saturday. He has been the guest of his parents, the Rev. and Mrs. Isaac Stratton, of Banner.

Highway Patrol Chief Says Accidents Up 96 Per Cent

Frankfort, Ky., July 27—During the first six months of this year, there was a 96 per cent increase in traffic accidents in Kentucky compared to the first half of 1945, the peak year in the state's traffic history.

A report prepared by Col. John Baker, director of the State Highway Patrol, listed 2,722 accidents during the past six months. In the first six months of 1945 there were 1,389 accidents.

Traffic deaths during the first half of this year were reported as 340 against 361 for the same 1945 period.

Fatalities during the same period in 1945, when gas rationing was in effect, numbered 220, but accidents during that time reached 2,629.

Thirty-four persons were killed in highway accidents in June as compared to 44 in May and 72 in April of this year. In June, 1945, there were 79 auto deaths and in June, 1946, there were 22 deaths.

Baker called upon local officials to report accidents promptly, and recommended that Highway Commissioner J. Stephen Watkins take direct action against persons failing to report traffic mishaps.

Salisbury-Stewart Vows Said at Maytown Church

Langley, Ky., Aug. 5 (Spl.)—The marriage of Miss Shirley Salisbury, daughter of Mr. and Mrs. Dial Salisbury of Lucasville, O., and Mr. Edwin Stewart, son of Mrs. Viola Stewart and the late W. A. Stewart, of Langley, was solemnized at the Maytown Methodist Church Sunday morning, July 28, at 11:45. The Rev. L. E. Wells performed the single ring ceremony before the altar banked with ferns and masses of white gladiolus. Tall white tapers burned during the ceremony.

Preceding the ceremony, Mrs. Thomas Patrick played and sang, "O Promise Me." Mrs. C. H. Prater, of Fort Valley, Ga., sang "I Love You Truly."

The bride, given in marriage by her brother, Mr. Thomas Salisbury, of Lucasville, O., wore a wedding gown of white satin brocade. The gown was made with a sweetheart neckline and long sleeves ending in points over the wrists. A skirt of white tulle covered the satin skirt and ended in a long train. Her tulle fingertip veil was caught in her dark hair with clusters of orange blossoms and seed pearls. She carried a bouquet of stephanotis entwined in white satin ribbon and tulle and centered with a purple-throated and white orchid. Her jewelry was a single strand of pearls.

The matron of honor, Mrs. Claude Webb, sister of the bride, wore a gown of gold satin brocade with a sweetheart neckline and elbow length sleeves. Her head dress was a gold satin brocade calot with aqua and brown feathers. She carried a bouquet of lavender and white asters. The best man was Mr. Roger Stewart, brother of the groom, and ushers were Messrs. Ogden Stewart, brother of the groom, and Jones Tallent, of Morristown, Tennessee.

Mrs. Dial Salisbury, mother of the bride, wore a navy dress and hat with a corsage of red rosebuds. Mrs. Viola Stewart, mother of the groom, wore a black dress and a pink flower hat with a corsage of pink rosebuds.

Immediately following the ceremony a reception was held at the home of Mr. and Mrs. Ogden Stewart for relatives and close friends of the families.

In the afternoon, the bride and groom left for a short wedding trip. The bride wore a tailored yellow silk dress with black accessories. An orchid was her corsage.

Both the bride and groom were graduated from Maytown high school. The bride attended Western State Teachers College and Berea College before enlisting in the WAVES. The groom attended Morehead State Teachers College and the University of Kentucky. He served overseas as an army sergeant.

Price Controls Apply To Goods Contracted But Not Delivered

As a result of numerous inquiries, George H. Goodman, Kentucky OPA district director, said the new Price Control Act of 1946 became effective at 12:01 a.m., July 26.

Regarding contracts negotiated while price control was in abeyance, Mr. Goodman said that items contracted for between July 1 and 12:01 a.m., on July 26 but not delivered before that date, must not be delivered at prices in excess of the seller's ceiling price at time of delivery.

Goodman said this had also raised the question of what constitutes delivery. The official OPA interpretation is that unless otherwise provided in the regulation involved, goods have been delivered: (1) if they have been delivered to a carrier not owned or controlled by the seller for transmittal to the buyer, or (2) if the goods have been segregated, identified and earmarked for the account of the buyer, and the risk of loss (as from fire, theft, etc.) has passed from seller to buyer (evidence of the segregation, identifying and earmarking for the account of the buyer must be clear), or (3) if the buyer has actual physical possession of the goods.

It was pointed out by Director Goodman that if a delivery as described took place before the resumption of price control at 12:01 a.m. July 26, then later payment of the purchase price does not constitute a violation.

Mr. Goodman further urged the trade, in considering questions relating to delivery, to study carefully the regulations governing each particular commodity since the language respecting "deliveries" is not the same in all regulations.

STRAWBERRIES PAY
Eleven acres of strawberries brought a gross income of \$8,500 to George Miles, of Trimble county, most of the plants having been set five years ago. Other growers also received good returns, notes Farm Agent J. G. Dye, 22 growers having received \$35,000 from 40 acres of berries. The average yield was around 120 crates per acre.

Ninety-seven dairy farmers in Ballard and McCracken counties have made application for a total of 770 cows to be bred artificially.

Ten farmers in Wayne county have ordered two carloads of Hampshire-Rambouillet lambs from Montana.

Fourteen from Floyd Enlist During July

Word has been received from the enlisting station at Ft. Knox that the following Floyd county men joined the regular army and were accepted for service during the month of July:

James Douglas Wells, Auxier; Russell George Rife, Bevinsville; Claude W. Mitchell, Ligon; Charles E. Hicks, Blue River; George P. Stephens, Dock; Roy Clarence Montgomery, Prestonsburg; Donald Y. Smith, Bypro; Edward Micyus, Bypro; Grant Wells, Garrett; Rubin Stephens, Manton; Bennett Scott Isbell, Garrett; Austin Oakley, Garrett; Andy Newsome, Grethel; Charles Gilliam, Melvin.

Of these 14 men, three have had prior service and 11 are original enlistments. The new pay raise which became effective July 1, 1946, appeals to all eligible young men who are planning on entering the service.

Prospective applicants are reminded that family allowances are still available for the duration and six months. The benefits relating to schooling under the G. I. Bill of Rights are available to all men who join the army before October 5, 1946. Applicants are still being accepted for three main theatres: Alaskan department, Pacific theatre and the Caribbean Defense Command. Enlistments for the ETO and Mediterranean theatres are limited to former service men with six months of service and the following MOS's: 766, high speed radio operator; 858, medical technician; 855, dental technician; 187, telephone repeater man; 213, stenographer; and 301, investigator.

Persons who are interested in coming into the service should contact the Recruiting Office, 200 Post-office Bldg., Prestonsburg.

COUNTY-WIDE DRY RALLY AUGUST 15

A mass dry rally will be held in Garrett school Thursday, Aug. 15 at 8 p.m. Rev. J. E. Felty, of Allen, Mrs. J. D. Mayo, of Prestonsburg, 23 miles from Huntington. A good hill farm. \$3,750.

Other rally dates, all at 8 p.m. follow: BOSCO, Tuesday, 13, Church of Christ, Messrs. Frank Hayes and George Patrick in charge, Rev. Paul Kineer, Clarence King and Mrs. Joe Allen, speakers; HAROLD, Friday, 16, M. E. Church, Rev. C. H. Furman, presiding, Rev. Carl Senter, Rev. Randall Goble and Mrs. J. D. Mayo, speakers; MAYTOWN, M. E. Church, Rev. Wells in charge, Monday 19, Rev. W. B. Garriott, speaker; BANNER, schoolhouse, Tuesday 20, Rev. Isaac Stratton, presiding, Rev. L. E. Wells, Mr. Ben Westfall and Mrs. Ollie May, speakers; PRESTONSBURG and WEEKSBURY, the 2nd, WHEELWRIGHT, county-wide, 26, MARTIN, 29th, Speakers announced soon. WATCH THE TIMES.

Communities wishing rallies should contact speakers' chairman, suggest dates, do NOT change, specify place. Drys NOT registered may register at the county courthouse in Prestonsburg Aug. 13 to Sept. 6. Individuals and organizations donating to the Dry Campaign Fund should make checks payable to Rev. L. E. Wells, Langley.

The committee thanks the prominent citizen who last week informed an officer of tricks often used to steal the election. Every dry officer and challenger will be posted on how to guard against this, and every wet officer guilty of perpetrating fraud will be PROSECUTED to the fullest extent of the law. In 1943 the wet alibi of "It was an oversight or mistake" will not work. To the Left Beaver Wet, who last week declared his precinct will go wet or be stolen, we say: Three Wets from Harlan county are now serving penitentiary terms for such action. The election was stolen in Floyd in 1943, but such will not be tolerated this time. The drys know better than to trust a single wet. Voters will be educated to safeguard their own ballots and report dirty schemers.

Much is being said about Drys' choosing election officers from the county list. THIS WILL NOT BE DONE. The law requires that Drys submit a list to the county committee from which two are chosen for each precinct, likewise the Wets. That is how it will be done.

MRS. E. E. MAY, Phone 2382, Langley, Speakers' and Publicity Chm. (Adv.)

NEWS FOR THE VETERAN

REDUCE INTEREST RATE ON LOANS Interest rates on government life insurance policy loans have been reduced from 5 to 4 per cent annually effective the first of August, the Veterans Administration announced. The VA explained the new rate is in keeping with the present trend of interest rates on policy loans made by commercial life insurance companies.

tion of 186 more beds and 28 additional doctors, dentists and nurses. Fort Custer hospital has increased its capacity from 1,858 to 2,044 during the last five months, making the total capacity in Michigan 2,504. Two 10-story hospital buildings are under construction at Dearborn which will increase the capacity of that hospital to 1,429 beds. An additional 250 doctors, nurses and dentists are needed.

FOR SELF-EMPLOYED Approximately 360,000 self-employed veterans have received more than \$118,000,000 under the readjustment allowance provisions of the G.I. Bill from its inception in September, 1944 to last June 30. The majority were engaged in agricultural activities, the remainder in independent business, trades or professions. Less than 3 per cent of the 360,000 veterans have remained in the program long enough to exhaust their entitlement.

BURIAL FLAGS An American flag to drape the casket of a deceased veteran may be obtained by relatives or undertakers by application to postmasters at any county seat postoffice. Flags may also be obtained at other post-offices designated by the Veterans Administration or at any field office of the VA. The flag will be given to the next-of-kin after the burial. Eligible for this benefit are honorably discharged veterans of any war, or a person honorably discharged from the service after serving at least one enlistment or discharged for disability in line of duty.

QUESTIONS AND ANSWERS Q. Can one veteran have a loan guaranteed by the VA to buy or construct more than a single-family home? A. Yes, but one veteran cannot get a G.I. loan for more than a four-family home. If more than one veteran is buying, then the basic four-family home is allowed for the group and increased by one additional family unit for each veteran participating in the loan. Thus, two veterans can buy or build a six-family home, three veterans a seven-family home, etc.

Q. I am a veteran receiving disability compensation. If I accept employment will my compensation be cut? A. No. Disabled veterans are encouraged to work as long as it does not increase disability. Disability compensations are subject to change only as the disability itself changes. Q. I have just been discharged from the army. I'm thinking about going to college this fall, but I'm not sure what I want to do. Am I obligated to return to college if I apply for a certificate of eligibility from the VA? A. No. The VA urges all veterans starting school for the first time to apply for certificates of eligibility right now, so as to avoid delays later. After securing your certificate of eligibility, you might consult the VA Guidance Center for advice as to what course it would be best for you to pursue.

Q. My husband, a veteran, needs hospitalization for a malignant condition. I understand the Postment he needs can be given at Hines, Illinois. Can he be admitted there direct? A. Direct admissions for the treatment of malignant conditions are not made to Hines or other tumor clinics unless they are those to which the applicant would normally be admitted. Admission is made to the nearest VA hospital, home or center with subsequent transfer to tumor clinics.

Q. My son is a patient at a VA hospital. Can he buy cigarettes, candy and the like at the hospital? A. Yes. VA hospitals have a canteen service and such items may be purchased at a reasonable price. A cart service is maintained for non-ambulatory patients.

Bath county farmers were encouraged to plow up tobacco bed sites and plant gardens to help in the food shortage.

year was \$1.25; now is \$1.50. When he announced the new rate for Floyd county, shortly before he left the office of County Superintendent, Town Hall said the increase will make possible nine-month terms for every school and help pay the increases in teacher salaries. He estimated the higher levy would result in \$60,000 more school revenue.

The figures prepared by Dr. Falls show most of the increases are outright moves to raise more money for schools at the local level. A few of the increases, however, reflect absorption of the county level of old sub-district levies of about 25 cents. The new act abolishes these sub-district levies except where they are used to retire building bonds.

Public educators in Kentucky fought many years for the permissible maximum local rate of \$1.50 before the 1946 General Assembly finally enacted it. Under the old law, the highest a county district could levy was 75 cents, while certain town districts could levy as high as \$1.50. Educators argued the differential imposed a hard burden on county districts, inasmuch as wealth concentrated at the county seat could be taxed twice as much as wealth scattered through the county.

Dr. Falls said he has not calculated accurately how much more local revenue the increased rates will produce. However, an informed guess would put it at around \$2,000,000 a year. The old scale of local rates produced \$19,000,000 a year, and 43 per cent of the districts have raised rates by 33 per cent. If this much new money is raised at the local level, it still will be less than half the increased funds available to common schools this term, as compared with 1945-46. The 1946 Legislature appropriated \$3,792,910 more state support than it did for the last term.

DOUBLES HAY YIELDS Short of hay and unable to obtain any more hayland, Ray Henry, of Morgan county, stepped up production by applying 130 pounds of ammonium nitrate to the acre, he told County Agent Charlie Dixon. The yield of timothy hay was twice as much as last year, where he top-dressed hayland with nitrate, he said. The meadow had been limed and phosphated.

HOME WORK VALUABLE Homemakers in Graves county estimate that they saved \$8,236 by making, remodeling, repairing and dyeing articles of clothing the past few months, said Mrs. Golden Christenberry, county clothing leader. She reported that 5,514 garments had been made or remodeled and 359 sewing machines put in good running order.

Local boards are to decide whether registrants in their jurisdiction are still entitled to the occupational deferments they were given during the war. (State Selective Service headquarters explained that an industrial scientist, for example, may have been indispensable during the war but is not necessarily indispensable now.)

W. H. Praysure, state director of the U.S. Employment Service, said that there is no such shortage in Kentucky. Lack of farm workers, he said, is limited to needs in certain localities in crop seasons. State headquarters defines skilled agricultural workers as those who are indispensable the year 'round. "Since the return of many veterans who are former farmers, the farm labor problem has been greatly relieved," said Capt. Sam E. Hicks, acting manpower chief at Selective Service headquarters. "The University of Kentucky has on record that 3,000 veterans are now taking agricultural vocational courses under the G. I. Bill of Rights and performing full-time work on farms throughout the state."

Local boards have been asked to review the classifications of men 19 through 29 who have not served in the armed forces overseas, or who have served less than six months in the armed forces in the continental United States. Under old rules such men were not subject to draft if they had been discharged under honorable conditions. Under the new regulations they are subject to re-examination and possibly to draft. Time served in educational institutions is not to be counted in computing such length of service.

Concerning college and university students, the new regulations say: "Consideration will continue to be given students pursuing a full-time course in medicine, dentistry, veterinary medicine or osteopathy in a recognized school. However, the student in veterinary medicine must have started his studies before March 16, 1945." State headquarters added that consideration would be given to registrants accepted by a recognized college or university for a master's or doctor's degree in physical science. Men who have served at least 24 months in the merchant marine are not subject to draft. The new regulations say that after October 1 this requirement will be reduced to 18 months.

Due to blue mold, only about 85 per cent of the planned tobacco acreage in Estill county was planted. Porter Kirkland, of Fleming county, has five registered Brown Swiss cows which he estimates produce twice as much milk as average cows.

WHEREAS, the need for a clean-up of Prestonsburg is so apparent that it becomes urgent in the name of decency and civic pride; and WHEREAS, the community will on Labor Day be host to several thousands of visitors who will expect to find here not only hospitality but also cleanliness; and WHEREAS, it is our duty as men and women of a modern community to live in cleanliness and welcome visitors to a clean town;

NOW I, E. P. Arnold, Mayor of the City of Prestonsburg, do proclaim the last week of August PRESTONSBURG CLEAN-UP WEEK, and urge upon the citizens of the city their duty to see that all unsightly accumulations of dirt, weeds and debris be removed from the sidewalks and streets and from around the homes and vacant lots in the community. To facilitate such public improvement, I have directed that all such work on the part of the citizens be aided by the operation of the city-owned truck which will haul away refuse from all properties.

How Mrs. G. E. Branham, of Adair county, controlled a severe outbreak of coccidiosis in a flock of 300 young chickens with a loss of only 12, is told by Farm Agent R. B. Rankin. Upon discovery of the disease, the chickens were confined to the brooder house which was daily dry cleaned and scraped and swept, and kept sufficiently warm by a fire in the brooder house heater. At regular intervals, the chickens were fed growing mash with sulfaguandime as recommended by poultry specialists at the University of Kentucky College of Agriculture and Home Economics.
