Myers-Harrison Vows Solemnized

Marriage vows were exchanged by Miss Roberta G. Myers and Mr. John R. Harrison on Sept. 7 at 7 o'clock p.m., at the Church of Christ, Detroit, Mich., the Rev. J. E. Alexander officiating.

The bride is the daughter of Mr. and Mrs. W. J. Myers, formerly of Drift. The groom is the son of Mrs. Wm. Shaw, of Shelbina, Mo. He is a veteran of 5 1/2 years service, two years of which were spent overseas. He now is employed by the U. S. Rubber Company.

The bride was attired in a beige suit and black accessories, with a corsage of red rosebuds. The maid of honor, Miss Willine Tucker, wore a blue suit with brown accessories and a corsage of baby mums. The best man was the bride's bro-

ther, Mr. William K. Myers. A reception followed the wedding and was given at the recreation room of the Leland Court apartments, with close friends and relatives present.

Lunch and refreshments were served, buffet style. Many beautiful gifts were received. The bride and groom then left for Chatham, Canada, where they spent their honeymoon. They are now at home in their apartment at 5103 Robins avenue.

Those present from out-of-town were Mr. and Mrs. Wm. Shaw, of Shelbina, Mo., Rose Mary Stumbo, McDowell, Ky., Mrs. W. H. Mathis, Waynesboro, Va., Bonnie H. Martin, Waynesboro, Va., Mr. L. W. Sexton, Amba, Ky., and Mr. Bob May, Maytown, Ky.

Elect Mrs. Edgar R. May For County School Board Member

To the Voters of Division No. 2: I take this means to ask each of you to consider this and ask yourself the question:

"Do we want dictatorship in our schools or do we want honesty and fairness?" As you know, our taxes are double this year. I think it is time and high time the people of Floyd county awaken to the fact that our county is what we make it. Let's elect a woman who is trustworthy. She cannot be hired, bought or scared. She is honest and capable, is 40 years old, an understanding wife and mother, is not a college graduate but is classified a senior, is a Missionary Baptist and an outstanding Christian. Her standard is, be what you are and not a fence-rider.

She could not pass the physical test for foreign mission work, so came to Kentucky in 1924 as a teacher, has taught for a number of years, one as principal, was in charge of the Floyd county relief office one year and went many places where cars could not go. She served twice on the State Board of Directors for Kentucky, has done woman's club work and given lectures in several states and still does, and it is always a religious topic. She does all her church and club work free because she feels she owes it to God.

Mrs. May also served as our publicity chairman in the Dry campaign and that was without pay.

She is a daughter-in-law of H. F. May (or Uncle Harry) at Maytown and has borne more persecution than

any one I know, because she stands for the right. Mrs. May is running an individual race. No one is running her and there will be no money spent on her. She does not believe in vote-buying, and has no relative wanting a job. She is running for the interests of school children and that's why I'm writing this. Mrs. May does not know I'm writing it. God is directing my mind. He is my leader and guide.

When have we had a Christian in office? How many county officials voted, Sept. 30, and how did they vote?

We need sober and Christian Board members, principals of our schools and teachers. We have some and are proud of them. Let's awaken to the fact we need more.

So vote for Mrs. Edgar R. May in November.

I am your friend, neighbor and co-worker,
MRS. OLLIE MAY

THINK IT OVER

Before making up our minds in the School Board race, let us consider several things. We should first consider the welfare of our children and of our neighbor's children. Floyd county is having a good school system—as good as any county in Kentucky. How do I know? I am a mother and have children in school. I know because I am a teacher and have worked with and for Floyd county children for many years. Much progress has been made in our schools. Now the rural schools are coming to the front. Yes, we are having nine months school for the first time. We are put on an equal basis with the consolidated schools. Then do you think we in the rural areas object to paying a little more taxes? Look at our bus shelters. In one month they are worth more to my children than the few dollars tax I pay. Watch our school buses roll by. We need many more! Mr. May and Mr. Burchett failed to mention buses in their platform. Now they say they are for the buses.

If you must bring Town Hall's name into this, then give him credit for a good school system. You will admit that he did a good job. What does the opposition say against our present Superintendent, Palmer Hall? NOTHING! You know his record. You know he will give his very best to continue and go forward with good schools. HE IS QUALIFIED. His experiences in World War II have better qualified him. What is a better teacher than experience itself? Palmer Hall is a school man in every sense of the word.

Mr. Wicker seems to oppose many things. His platform is made up of "opposes." His little speech at Emma left a bad taste with the people. The implication that campaign literature has been handed out in the Emma school is false. The Emma teachers you tell these stories of campaign literature in all schools? Our rural communities seem to be getting a barrage of false stories from those opposing the present school administration. That worked a while because our rural homes are far apart. THE TRUTH WILL OUT. Recently the neighbors have been getting together and learn that every home is being told a different story. Why can't the TRUTH be told in every home?

That democracy you spoke of, Mr. Wicker, is being lived every day in every school room in Floyd county. You saw that when you were a principal and when you did supervision in our rural schools. Yes, you were a part of the Floyd county School

Receive Federal Forms
For Airport Assistance

Thirty-two Kentucky cities, including Prestonsburg, have been mailed federal forms for requesting airport aid in 1947, the State Aeronautics Commission said last week.

Director Charles Gartrell said signed forms must be in the hands of the commission or Harry A. Gerard, Louisville, acting district airport engineer for the federal government, by November 2. There still is time for air boards in other cities to make the request, Gartrell advised.

Forms have been sent to Middletown, Mayfield, Paducah, Bowling Green, Covington, Lexington, Louisville, Owensboro, Murray, Franklin, Bardonia, Maysville, Danville, Lancaster, Paris, LaGrange, Leitchfield, Hopkinsville, Pikeville, Glasgow, Ashland, Carrollton, Greenville, Cynthiana, Madisonville, Hazard, Prestonsburg, Liberty, West Liberty, Russellville, Franklin and Somerset.

Mr. and Mrs. Robert Harlowe and children left last week for Buffalo, N.Y., where Mr. Harlowe will continue his connection with the Dupont Company. During the war he was employed by Dupont at Richland, Wash., and for the last several weeks he and his family have been guests here of his parents, the Rev. and Mrs. A. C. Harlowe.

Veteran Coal Man Dies in Huntington

Funeral rites for W. L. Gentry, 68 years old, secretary of the Beaver Creek Consolidated Coal Company and an associate of the late W. P. Hite and J. C. Mayo in early days of this section's coal development, were conducted last Thursday in Huntington, W. Va. Mr. Gentry, who was well-known in Eastern Kentucky and West Virginia mining circles died Oct. 22 at St. Mary's hospital, Huntington. He had submitted to an operation there, several days earlier. He was a native of Huntington and was a graduate of Marshall College. His connection with Beaver Creek Consolidated had extended over the last 40 years. Surviving are his widow and two daughters. Attending the funeral from Prestonsburg was C. H. Corbin, head of the Prestonsburg office of Beaver Creek Consolidated.

Renloe R. Rudolph, of Marshall county, had a gross income of more than \$1,200 from one acre of strawberries.

Cover crops of rye or vetch, or a combination of vetch and small grain will be planted this fall by about 90 per cent of the tobacco growers in Meade county. Homemakers in Boone county have bought more than 110 pressure saucepans since they studied how to use this piece of equipment in June.

YOU BE THE JUDGE!

How They Answered the \$64 Question

(To Joe Taylor)

Are you for Veteran's Preference? Answer: Maybe a little preference if qualifications and everything else were equal.

Are you the man who would be superintendent if Burchett and May could have their way? No definite answer but an implied "No."

Are you not for Monroe Wicker, a non-veteran and a native of Knott county? No definite answer but an implied "Yes."

(To Mr. Wicker:)

1) Are you seeking the superintendency thru your support of Burchett and May? No definite answer but an implied "Yes."

2) Would you do away with the one supervisor we have, Mr. Wicker? He would do away with Henry Martin as supervisor, he says, because he considers him as unqualified and practically "worthless" as a supervisor. Yet, Mr. Martin has a certificate in supervision and administration, the same as Mr. Wicker has. Our State Supervisor of Elementary Education, who spent four days in our county this summer, has chosen Mr. Martin as one of seven supervisors to represent Kentucky in a four-state supervisors' conference next month. We'll take her opinion, Mr. Wicker.

3) Would you do away with the Transportation and Maintenance man? A definite "yes" as it now is, he says. He would look after it himself, yet he has complained about overwork in the much smaller Prestonsburg system where there is no transportation problem.

4) Explain to Chalmer Frazier, Joe Taylor, Claude May and Gordon Moore (these men have all been spoken of in one place or another as getting half-the-office or assistant superintendent's job) where they come in. No public explanation.

5) Would you be for setting the county-wide equalized tax rate as low as \$1.00? An emphatic "yes," he says. He was against the equalized county-wide tax from the beginning, he says. In other words a rural community which does not happen to have any of the county's railroads or industrial operations is not entitled to any of the tax from these concerns but should have only what they can pay on their worn-out mountain farms and what the state gives them. This does not spell equal opportunity for all Floyd county children—but the state law now requires it anyway.

a) Explain why you have not lowered the tax below \$1.50 in Prestonsburg. Ans. In the first place he didn't set the tax rate at that, he says. And in the second place it is a small taxable unit with a concentrated population (and like we said with a greater concentration of wealth to tax). Anyway, the tax wasn't reduced in Prestonsburg!

b) Explain to the teachers and people how higher salaries could be continued, and how nine months of school could be continued, and how the school bus system could be continued and expanded, and how the high school curriculum could be expanded. Ans. Elimination of unnecessary jobs would save \$10,000 a year, he says. Even if it could be so that would operate the school bus for only about two months or pay all the teachers for about four days. His final figure for the teachers' budget was about \$60,000 short of what they will actually be paid this year. That is approximately the total salary of all teaching for one month.

Back To Voting Bonds and IOU's

c) Explain to the people how the building program could be carried on under your advocated tax rate. Ans. The building program should be paid for over a long period of time, he says. This means that the people would have to vote bonds for all of the new school buildings needed. In other words, it's back to the old I.O.U. system (just as we are getting out of debt) running up huge debts on which interest would have to be paid, and special taxes would have to be levied to retire the bonds and pay the interest. So what: If the pay-as-you-go system is best for your personal business it is best for the School Board. Furthermore, so long as the rural districts are paying the same tax, he says that not another single large building should be built until running water, lavatories, etc., are placed in all the rural school buildings. This would be fine but the children in town must have a school building just as the children in the county—the way may differ in size and accommodations.

d) Try to convince the people that you are thinking of economy and efficiency and not just trying to "talk yourself into a job!"

Layne Scores High
In Tests at U. of K.

Lexington, Ky., Oct. 28 (Sp.)—Placement test scores of approximately 2,300 students entering the University of Kentucky for the first time at the fall quarter indicate that one graduate of a Floyd county high school was among the 338 students who finished in the upper 15 per cent, Dr. Lysie Croft, university personnel director, reports.

"Such high achievement reflects credit not only upon the parents but also upon the high school from which the students were graduated," Dr. Croft pointed out.

Placing in the top 15 per cent, after entrance examinations on general ability, English and mathematics, was Glen Stanley Layne, son of Mr. and Mrs. Clyde Layne, of Jussell. He was graduated from Betsy Layne high school.

Cites Dozen Practices At Mine As Commendable

In an initial inspection report released this week by the Bureau of Mines on the Turner-Eichorn Mining Company's Columbia No. 3 mine at McDowell, a federal coal mine inspector cites a dozen commendable safety practices, but recommends certain supplementary improvements. The mine, employing 43 men and averaging 350 tons of coal per day, was examined for the first time by Harold Doctorman several weeks prior to the effective date of the federal mine safety code on July 29.

Safety practices adopted since the opening of the mine in August, 1945, included the posting of a systematic timbering plan; the use of a special insulated truck for transporting explosives; the coursing of a sufficient quantity of air through the last open crosscut in each set of working entries; the continuous operation of the fan; the erection of substantial incombustible stoppings in the cross cut between the main entries; the installation of fire extinguishers on the mining machines and locomotives; and the use of permissible electric cap lamps underground.

To insure better haulage conditions, the inspector proposed shelter holes along haulageways, doors, and most switches; unobstructed clearance; effective blocking of all standing cars; the use of permissible trip lights; and a ban on nipping, coupling moving cars by hand and getting on and off moving trips.

Although ventilation was generally satisfactory, the examiner recommended the installation of a fan in a fireproof housing on the surface, offset 25 feet from the mine opening and equipped with certain safety devices; the erection of doors in pairs to form air locks; and the installation of fireproof stoppings. To minimize ignition hazards, he stressed safer blasting practices and a ban on smoking.

Other protective measures recommended included strict enforcement of the timbering plan; the setting of safety posts before loading coal; the bonding and cross-bonding of both rails of all tracks; additional electrical safeguards; the installation of a shut-off valve in the natural gas pipe line along the surface near the mine openings; the wearing of safety shoes, hats, gloves and goggles; annual first-aid training, and the establishment of a safety organization of officials and employees holding joint monthly meetings.

Weeks Vet Receives Presidential Citation

Mrs. Millard Hall, of Weeksbury, announced recently that her son, Homer Hall, navy veteran, received the Presidential Unit citation Sept. 18, eight months after his return to civilian life.

Her son served in the naval air forces as a radio operator, later to be transferred to an amphibious unit, later transferring to the U.S.S. Belleau Wood, an aircraft carrier. He has received numerous awards, including the Silver Star and Purple Heart. At the end of his service he had received 13 battle stars representing as many major battles.

The citation reads: "For extraordinary heroism in action against enemy Japanese forces in the air, ashore and afloat in the Pacific war area from September 18, 1943, to August 15, 1945. Spearheading the concentrated carrier warfare in forward areas, the Belleau Wood and her air groups struck crushing blows toward annihilating Japanese fighting power; they provided air cover for our amphibious forces; they fiercely encountered the enemy's aerial attacks and destroyed his planes; and they inflicted terrific losses on the Japanese in fleet and merchant units sunk or damaged. Daring and dependable in combat, the Belleau Wood with her gallant officers and men rendered loyal service in achieving the ultimate defeat of the Japanese Empire."

In McCreary county, where several farmers cut five crops of alfalfa last summer, Tilford Taylor cut 10 tons of hay from a half-acre patch.

A MESSAGE OF INTEREST to all who await deliveries of new Chevrolets

We want you to know that everything possible is being done to speed deliveries to you; but production still lags far behind schedule—even though Chevrolet has built more cars and trucks than any other manufacturer from January through September 1946

WE REALIZE how eagerly you are awaiting delivery of the new Chevrolet you have ordered from us, and we want to pass on to you the latest information received from the Chevrolet Motor Division, even though that information isn't too encouraging at this time.

It is true that Chevrolet leads all other manufacturers in total production of passenger cars and trucks from January through September 1946, despite the fact that Chevrolet was out of production entirely during the first three months of this year. It is also true that Chevrolet has continued to maintain its lead in total production during the third quarter of 1946. And yet production is still running far below desired levels, with the result that Chevrolet's output of cars and trucks through September 1946 was only 38.7% of the number produced during the corresponding period of 1941.

This means it may take many months for the Chevrolet Motor Division to reach peak

production of new Chevrolets—even longer to fill the unprecedented demand for this product of BIG-CAR QUALITY AT LOWEST COST—and, for the present at least, "there just aren't enough Chevrolets to go around," much as we wish there were.

However, we want you to know that new Chevrolets are leaving the plants in the largest numbers possible today. The Chevrolet Motor Division tells us it is doing everything it can, in the face of continued suppliers' strikes, material shortages and manpower problems, to step up shipments to us and to all dealers, in accordance with a predetermined distribution plan assuring each dealer of his fair allotment, based on 1941 passenger car sales. And we, in turn, are doing our best to deliver new Chevrolets to our customers as rapidly as they are received and in the fairest possible way. We are too appreciative of your loyalty and goodwill—too grateful for your patience and understanding—to do anything less than continue to serve you to the very best of our ability.

KEEP YOUR PRESENT CAR RUNNING

Meanwhile, the most important car of all to you is the car you are driving now. May we suggest that you keep it in top running condition until you secure delivery of your new Chevrolet, by bringing it to us for skilled service now and at regular intervals. Remember—cold weather is hardest on old cars. Please see us for a complete check-up today. . . . And, again, thank you!

To Start the New Year Right

BEGINNING with the first day of next year, a law goes into effect which does not force the Kentucky motorist to have public liability and property damage insurance—but, if he has an accident, it will make him wish he did have.

This new law provides for "proof of financial responsibility" and there are only three kinds of such evidence: a certificate of insurance, a bond, or a receipt showing that the driver has on deposit with the State Treasurer the tidy sum of \$11,000.

The law will be a boon to the insurance salesman. At the same time, if properly enforced, it will be a boon to the public, both motorists and pedestrians.

Reckless or drunk driving thus receives another penalty, one which cannot be sidestepped. The law may be venous to some who are careful and sober, since it requires "responsibility" of every driver in a wreck, whether at fault or no, but the greater benefits it will render the public as a whole justifies any harshness it possesses.

VETERAN EMPLOYMENT RISE NOTED IN USES LABOR REPORT

Reports received from 15 establishments, including 14 coal mines, in the Prestonsburg area indicate that total employment has risen 2.4 per cent and veteran employment has risen 3.6 per cent from July 15 to Sept. 15. During the same period, however, female employment dropped 5 per cent.

Employment data for all coal mines showed:
Total employment in July 5662, 5742 in August and 5799 in September; veteran employment for July 654, 663 in August and 678 in September.
Female employment dropped from 149 in July to 141 last month in mining company stores and offices.

At the end of September, 428 workers were needed at coal mining establishments in this area. Only 16 local job openings were available to applicants in industries other than mining.
Recruiting is still being conducted for labor, both male and female, in the various food processing plants in other states. However, the period of peak employment at these establishments has passed and some of them have started laying off workers.

The Prestonsburg office furnished by direct recruitment a total of 340 workers to food processing plants during August and September. Of this total, 109 were veterans and 38 were women.

A Salute to Solid Citizens

A STATE of lawlessness no longer exists in Floyd county.

That was another of the verdicts written by petit juries at the recent circuit court term here, in action rather than in as many words.

A few short months ago, the Commonwealth, dismayed by the failure of juries to meet effectively the threatening challenge of crime, asked that murder trials be transferred to other counties. "A state of lawlessness exists," declared Commonwealth's Attorney John Chris Cornett.

But all that is changed now. Floyd county juries, not juries from other counties, changed it. Even when the regular panel, composed of jurors regarded as "too tough" and rejected by defense counsel for certain trials, was not in service, jurors summoned from over the county came to Prestonsburg, heard evidence—and they were "tough." Four of five men given murder trials received life pen terms.

This is not to say that every man accused is guilty. Nor do we maintain that every man who escaped with a light sentence at the hands of juries at earlier court terms was a double-dyed murderer. But it is to say this: Men and women of the county, from all parts of the county, have come to abhor crime, to shudder at the threat of murder to the good name of the county—and they have met the grave challenge.

This, then, is to salute these solid citizens—citizens who had an unpleasant duty to perform and who, like Wellington's soldier, seeing danger, met it bravely.

Strawberries brought an average income of about \$1,000 to growers in Harlan county, family labor largely being used.

CHICKENS PAY FOR MUSIC EDUCATION

Although Mildred Norval of Webster county is only 11 years old, she raised and sold fryers this year to pay for a used piano and music lessons. Her record book shows that she made \$162 in this project. Then she grew an acre garden with 15 varieties of vegetables. During the past two years, she received \$37 for vegetables sold from her garden and also provided the family table with a supply estimated at \$124. She canned 209 quarts. Mildred used \$20 of her earnings to pay for dental work and clothing. This was the third year Mildred had been a 4-H club member.

exhibit and tea given at the Garrett
high school Saturday afternoon.

Ten reproductions of paintings in
the National Art Gallery were dis-
played to illustrate the work of the
American portrait painters—Benjamin
West, John Singleton Copley, Gilbert
Stuart, Sully, Hardy, Savoye,
Hetcher, who was in charge of the
exhibit, gave an interesting discus-
sion of the lives and works of these
American painters.

Hostesses for the tea were Miss
Marie Coburn and Mesdames Felix
Coburn, C. E. Igo and Frank Basick.
White mums, all white ta-
pers, and gleaming silver added to
the beauty of the tea table. Presid-
ing at the tea and coffee services

gates were Mrs. J. C. Wells and
Mrs. George Evans, Jr. Mrs. Thomas
Hatcher and Mrs. S. M. Martin
were alternates and served on the
judging committee. Mrs. Fred A.
Martin, president, gave the report
of the year's work of the club. This
report received second prize. The
club also received a 100 per cent
Honor Certificate awarded by the
State Federation for the work of the
past club year.

HANDSHOE

A large crowd attended the Salt
Lick Church Sunday. The Rev. Ed
Howard, his brother, Stuart How-
ard, of Garrett, and Rev. Henry
Mullins, also of Garrett, conducted
the services. Among those from a
distance attending the services were
Mrs. Cora Olsen, of South Bend,
Ind., Mrs. Ellen Wellman, Mish-
awaka, Ind., Mrs. Crit Conley, Mrs.
Harry Campbell, Mrs. Reace Oney,
Mrs. Thelma Waddle, Mr. and Mrs.
Beech Bailey, Mr. and Mrs. Herbert
Oney, Miss Gwendolyn Oney, all of
Garrett, A. J. Coburn, Hueysville,
Mr. and Mrs. Chester Sutton and
Mrs. T. B. Sutton, all of Vest.

Miss Dorothy Bailey, who is at-
tending school at Hindman, was vis-
iting homefolks recently.

A wedding of interest occurred
here recently when Mr. Eldon Bal-
ley and Miss Beatrice Walker, of
Yellow Mountain, Ky., were united.
They are at present making their
home with Mr. Bailey's parents, Mr.
and Mrs. Green Bailey, here. The
groom served two years overseas and
was slightly wounded. His twin bro-
ther, Claude, Bailey, also served
overseas, receiving a serious wound
in the arm, finally recovered. Den-
ver, another brother, also saw over-
seas service, and Norman Bailey
still another brother, lost his life in
service.

TO THE VOTERS

From MRS. EDGAR K. MAY
False reports say I am off, was
put out by the Hills and am off,
show. It is in that manner I can
uncommitted to anyone for the su-
perintendency. If elected, I shall co-
operate with Palmer Hall, who has
the office. For awhile. When voting
time comes my vote will go to the
man seeking the office who seems to
be the best for the place. There will
be no trading by me. I shall remain
independent in order to oppose
waste or graft.

Some say Willard May is running
for Mr. Wicker, with Claude Mar-
Dave Leslie, Bob Shepherd, Chal-
mer Frazier, Claybourne Stephens
and Joe Taylor Eyer as possible
aspirants. The public is entitled to
know how many of these men ex-
pect good jobs. Our schools have
been a football long enough.

Palmer Hall has not convinced
the public Town's rule is broken.
Some fear a repetition of what went
on during his first term as superin-
tendent, since Town is reported to
have said from the platform re-
cently that he only wants to advise
Palmer. The following are the
statements were handed me for pub-
lication:

"When Palmer was Superintendent
before, I went into the Superin-
tendent's office to apply for a po-
sition as teacher. After Palmer had
cleared his name, he informed me
he informed me I would have to see
Town. I was informed that Town
was out in the hallway. I found him
out there doing the business that
was supposed to have been done be-
hind the desk. Town knew I had
been against him, so he refused to
give me a job but never offered any
reason.

Signed:
ALTON CRISP,
Martin, Ky., Oct. 26, 1946.

How does Palmer Hall answer
these questions? IS IT TRUE?—
That Boone Hall may be the next
Superintendent? That Henry Mar-
tin was employed in the office to
keep him from running for the
Superintendency? That Preacher
Alex Stephens was hired in the of-
fice because he was a board mem-
ber? That Mrs. Campbell was hired
there because her husband had been
a member? That a staff job was
"created" for one because her father
had been a board member? That
"Solid John" who is backing your
administration in the campaign, is
the wife of one of the good job
holders under you today? Can you
explain why so many schools held
pie suppers at about the same time
recently, and why you do not come
out against campaign funds from
teachers and vote buying? Is it true
that Knott county has only one
Superintendent, Mr. Beckham
Combs? Mr. Hall, in The Times you
state you do not propose to be dic-
tated to. But is it true that Dr. Al-
len, chairman of the Board, told
you last summer to put an article
in The Times, saying you would not
take any part in the dry campaign?
Is it true you first refused, and
then, at his insistence, did put one
in saying you would take no part in
any controversial issue not affecting
the schools?

DR. ALLEN, is it true: That you
have made recent pre-election prom-
ises to schools, telling one commu-
nity it will have a school bus if you
are re-elected? If so, why didn't you
get it for them sooner? You have
been in office a long time. Is it
true that you told the county board
and members of the office force to
take no part in the dry campaign,
for the wells were going to win?
That when your son, George, want-
ed a job, Thomas Patrick, a grand
teacher, was kicked out of manual
training for him? That your daugh-
ter, Harriet, an intermediate teach-
er, replaced the experienced instruc-
tor of the kindergarten—a snap of
a job—with a handful of tots, leav-
ing the primer and first grade to
the other teacher? That your sister-
in-law, Mrs. Baker, still holds the
"soft" job of part-time librarian?
That when the new building was
ready for occupancy years ago, Mrs.
Baker and Harriet insisted upon
having the two choice front rooms,
though their grades were due to be
elsewhere, because of graduated
blackboards? That most poor teach-
ers stood no chance of teaching in
Maytown till the war gave them
better jobs elsewhere, although
some of them were really good
teachers? That Maytown teachers
who failed to "fall in line" when
you were trustee were ousted? That
your niece, Corinne Allen, was moved
from Maytown to Bosco this year
because of a remark her mother
made about a certain hospital?
(Several persons know why Dr. Al-
len is not supporting you as he
previously did.) Is it true you
were disqualified eight years ago in
a contest suit for violating the Cor-
rupt Practices Act, but went back
on the board the same year, after
your wife replaced you temporarily?
It was illegal for you to serve then
after having been disqualified by
law. Isn't it true you refused me a
school anywhere in the county for
years for reasons well known, and
to my credit, and then wanted me
to give your sons jobs during my
term as relief head? I would have
done so, had their qualifications been
sufficient. If elected, I shall not re-
fuse your relatives school positions,
but I will not approve of their arriv-
ing late, leaving early, cutting classes
and faculty meetings. Are you inter-
ested in getting or giving Dr. Allen
are you for service or for the dollar
and self? Your record speaks for it-
self. It may explain why I found only
two men for you while campaigning
in one precinct, and each of those
drives a school bus!

Again I suggest that the candi-
dates of Division 2 meet in public
and express their stands on school
issues.

NEWS FOR THE VETERAN

INCORRECT ADDRESS SLOWS UP VA CHECKS

Veterans, their dependents and beneficiaries who are in receipt of monetary benefits from the Veterans Administration must notify VA immediately upon changing their legal mailing address, it was emphasized at the VA's Ohio-Michigan-Kentucky Branch Office in Columbus, O. Failure to provide VA with notice of a change in address may result in an indefinite delay in the delivery of checks for subsistence allowances, insurance benefits and disability and death compensation. In recent weeks approximately 1,200 checks could not be delivered in Michigan, and 2,000 in Ohio, the result of incorrect addresses.

VA said it is powerless to assure prompt delivery of checks when changes of address are not reported. Under the law, federal checks cannot be forwarded from an old to a new address. Forms for "Request for Change of Address" are available at all VA offices. Notification of change of residence also may be made directly in writing to the Veterans Administration office in the area in which the beneficiary resides.

VETS IN SCHOOLS MUST FOLLOW REGULATIONS

Veterans attending educational institutions under provisions of the G. I. Bill must comply with the regularly prescribed standards and their period of enrollment, was the advice of VA officials at the Columbus, Branch Office for Ohio, Michigan and Kentucky.

Government-paid tuition to an educational institution does not place a veteran in a "special privilege" status, nor does it entitle a ticket on the so-called "gray train." VA officials said. Student veterans must abide by all of the rules and regulations, and, of course, maintain satisfactory academic marks. Willful misconduct or unsatisfactory progress are grounds for withdrawal of subsistence and tuition payments.

THREE-WAY RADIOS IN VA HOSPITALS

Two Veterans Administration hospitals in Ohio and one in Kentucky are among 30 VA hospitals in the nation in which three-channel radio receiving equipment will be installed during the coming year. The equipment, which allows patients a choice of three radio programs instead of the one at present, will be installed eventually in all VA hospitals and homes. During the coming year the equipment will be installed in Dayton and Brecksville hospitals in O., and the VA hospital at Outwood, Ky.

A new three-way selector switch, developed by VA engineers, will permit patients to change programs by merely pulling a string attached to a switch above their heads. Another innovation for patients is the pillow-telephone, which fits underneath pillows, allowing patients to lie down while listening. Patients who are hard of hearing will be provided with an instrument which increases the volume of sound materially. It is similar to a physician's stethoscope and fits into patients' ears while they are listening to broadcasts.

QUESTIONS AND ANSWERS

Q. What benefit does a veteran get from having the Veterans Administration guarantee the loan?

A. A guarantee by the Veterans Administration means that the credit of the United States government stands behind the guaranteed part of the loan. The security a veteran can offer a lender is increased by the amount of the guarantee.

Q. How can I arrange to have my National Service Life Insurance premiums deducted from the disability compensation checks I receive from Veterans Administration?

A. You can do this if you will go to any Veterans Administration office and fill out a form authorizing VA to make the deductions from your compensation payments.

Q. Before the G. I. Bill was amended, I used up my whole guarantee of \$2,000 to buy a farm. Now that the maximum guarantee has been increased to \$4,000, would I be entitled to an additional \$2,000 loan-guarantee if I wish to purchase more land?

A. Yes, if you used part or all of your loan guarantee before the Servicemen's Readjustment Act (G. I. Bill) was amended last winter, the amount of loan-guarantee credit used is deducted from the amount for which you are eligible under the amended bill, and the remainder is the amount of guaranteed credit which you may use in obtaining future loans.

Inspector Recommends Added Improvements For Mine at Ligon

A federal coal mine inspector has recommended a number of additional safeguards to supplement some recent improvements effected at the Ligon Company's 350-ton-a-day Ligon mine, the Bureau of Mines has announced in a detailed inspection report based on a re-examination of the mine in July. The mine employed 40 men when it was revisited by Inspector Matthew J. Duncan prior to the effective date of the Federal Mine Safety Code.

Some suggestions concerning the ventilating facilities were omitted by Inspector Duncan in view of the short life of the mine, but he urged that sufficient air be coarsed thru each set of entries and certain air-couraging devices be used in controlling the air.

The inspector also advocated a ban on smoking, replacement of the remaining four open lights with permissible electric cap lamps, adoption, posting, and enforcement of systematic timbering rules, safer surface storage of blasting supplies and transportation of explosives on trips separately from men, control of coal dust, elimination of sub-standard haulage conditions and maintenance of adequate clearance and ample shelter holes along haul-aways, frame grounds, fuse protection, and other electrical safeguards, increased underground fire protection, universal wearing of safety apparel, formation of an active safety organization, with meetings at least monthly, adoption of company safety rules, maintenance of first-aid supplies, and regular training of all employes in first-aid methods and a crew in mine-rescue work.

Among improvements credited since the August, 1945 inspection were instruction of all workers in the use of an vibration method of roof testing, continuous operation of the main ventilating fan except on week-ends when all men are out of the mine, frame grounds for pumps and apple motors, telephone service at the mine, adoption of a satisfactory checking system, removal of exposed bits of cutter bars before mining machines are trimmed, insulators for light wires in the mine, protection for starting switches, maintenance of a record-book for hazardous conditions, and use of a combination roof-testing rod and jack handle by mining machine operators.

WOODS

Judith Glenn Caldwell celebrated her sixth birthday Sunday, Oct. 27, at the home of her grandparents, Mr. and Mrs. Glenn Burchett. The table was decorated in the Halloween motif. Tiny witch and black cat place cards helped the following little friends find their places at the table: Joy Cyrus, Sally Hill, Martha Ann Burchett, Sarah Elizabeth Burchett, Doris Jean Hunt, Ollie Mae Clay, Woodrow Burchett, Jr., Jim Boy Caldwell, Bill Jones, Jr., and Miss Frank Caldwell with Judith Glenn as hostess. Dinner was also served to County Attorney and Mrs. Woodrow Burchett, Mr. and Mrs. Kenneth Caldwell, Mr. and Mrs. Glenn Burchett and Tom W. Burchett. After dinner Judy was the recipient of many gifts. The afternoon was enjoyed in a hike to the hills.

Minister, 72, Slain While At Dinner

The fatal wounding of an elderly minister while at dinner with his family was disclosed last week by Pike county Sheriff D. C. Moore, who said a murder charge had been filed against Tilden May, 32.

The Rev. William D. Stamp, 76-year-old life resident of McAndrews, died in a hospital at Williamson, W. Va., Monday night several hours after the shooting, which Constable George Smith said occurred at the family home.

May, an army veteran employed by the Eastern Coal Corporation at McAndrews, near the West Virginia border, was taken into custody a short while later on a malicious shooting and wounding charge and lodged in the Pike county jail.

Smith quoted Mrs. Lona Stamp, wife of the Freehill Baptist minister, in this account of the shooting: "May, intoxicated and armed with a pistol and a shotgun, entered the Stamp home at dinner time and cowed the family with the weapons."

A daughter, Annie, whose age was not disclosed, left the room. May said, "If she doesn't come back, I'll kill her."

The girl returned directly and May opened fire, just as the minister flung himself in front of the girl. He was struck twice by bullets from the pistol.

Sheriff Moore said no motive for the shooting was disclosed.

Mr. Stamp is survived by his widow and five children.

Higher Telephone Rates are Needed

Because the amount paid out to furnish you service is increasing faster than the amount taken in. All costs of providing service have gone up tremendously, while your rates are generally lower than 15 or more years ago. Therefore, it has become imperative for us to apply to the Kentucky Public Service Commission for telephone rates that will more nearly meet these higher costs and enable us to go ahead with improvement and expansion of your telephone service.

NATIONAL FIGURE ENDORSES MAY

The following is an exact copy of a letter from John W. McCormack, Democratic leader in the House of Representatives—a national figure whose ability and foresight have won for him Congressional leadership:

OFFICE OF THE MAJORITY LEADER
HOUSE OF REPRESENTATIVES U.S.
Washington, D. C.

Hon. A. J. May
House of Representatives
Washington, D.C.

Oct. 15, 1946

Dear Andy:

In your present high position, I consider your re-election essential for the best interests of your people, and the welfare of the nation.

During the years you have been a member of the Congress, you have rendered outstanding service to the people of your district and the people of our country. Not only have you represented your people ably and with loyalty, but you have represented them with courage.

As the Chairman of the all-important House Committee on Military Affairs before Pearl Harbor and during the war, you led the fight for passage of legislation necessary to defend and preserve our country. Your post as Chairman of the House Military Affairs Committee is not only a most important position but in addition, a most trying one. History will record that the part you played in the passage of necessary legislation would justifiably place you as one of the foremost Americans of this

A. J. MAY

generation. I am sure the people of your district appreciate this fact.

Our late and beloved President, Franklin Delano Roosevelt, our war-time Commander-in-Chief, had the strongest feeling of regard and friendship possible for you. I know he admired you very much. As you well know, I was very close to the late President. On many occasions he mentioned you to me in a most complimentary manner. I will remember the many important conferences you and I attended, and in which were discussed and considered legislation of vital importance to the future of our country. President Roosevelt had a high regard for your opinion.

I know the people of your district are honored and pleased with the progressive type of representation you have given to them. You richly deserve reelection.

I am confident, as I hope and urge, that the people of your district will reelect you and enable you to continue to give to them, and to the people of our country, the highest type of service you have always rendered to them.

With kindest personal regards, I am

Sincerely, your friend,

JOHN W. McCORMACK

Majority Leader

The Big Boys from Gotham love us like a step-child. Haven't you noticed how they love us? It is touching.

First of all, they are out after Jack May. They tell us what to do to satisfy them—defeat Jack May. They send their most talented smear-artists to Eastern Kentucky, the counties where Jack May has lived and practised law, where he was born and reared and expects to die, then these purveyors of dirt go back to New York and write rot—pure rot—about Mr. May and the people who are his people and who sent him to Washington.

They hate Jack May because, above all things, he will not be dictated to by them or any other group of Big Shots. They hate the folks who live in his district because they consider us apart from them, even beneath them.

Two weeks ago, for instance, NEWSWEEK, the New York magazine which poses as an impartial dispenser of the nation's news, wrote of Mr. May's opponent's campaign by jeep through this section:

"The men who live in the Kentucky hollows along the Big Sandy river haven't had much chance to talk to strangers. Dry creek beds and wagon paths are all that connect many of their log cabins where at night spinning wheels still hum and the 'leastuns' play by the open fire."

Let us break off the quotation there to ask, HOW DO YOU LIKE THAT? Aren't we pitiful, shut off from strangers, cooped up in our log cabins, lull to sleep only by the hum of the old spinning wheel in the parlor?

Yes, they love us—they would not lie about us for anything—ex-

cept to regale the appetite for lies and dirt that their readers have. Now, read further from this same magazine:

"It is a long time between visitors, like the wandering singers with their 'sure-enough' fiddlers and their songs—'My Gal Is Bill-be-Damned' or 'Pa's Done Et the Shotgun'. Their names for their hollows give them away—'Lonesome, Troublesome, Peevish'."

Personally, we see nothing wrong with "Lonesome" and "Troublesome" as names. Of "Peevish" we know nothing. If it exists, it's all right. It is there—and nothing is "given away" but the spirit of malice these New Yorkers feel for us. Remember John Fox' fine romantic story, "Christmas Eve on Lonesome," or Mrs. Furman's novel, "Mothering on Perilous"? These two very fine writers found only romance, color, beauty, rugged honesty here.

Speaking of names, what about these New York "darbs"—Yonkers, Harlem, Hell's Kitchen, Jamaica, the Bowery and all those lilting euphemisms that tickle the delicate New York ear?

But do we folks of Eastern Kentucky go around sniggering up our sleeves with stories of East Side filth and crime, of New York killers on the prowl, of a child ground to death under the wheels of a gangster's car in one block, of a child dying horribly at the hands of a sex maniac in another?

WE DO NOT. We are a fair and unprejudiced people.

Do we try to besmirch the names of their public officials because they do not recognize us and do as we would like them to do?

WE DO NOT. We are an independent people who believe as little in dictating to others as we believe in others dictating to us.

NEWSWEEK, from which we have here quoted in an article commending Jack May's opponent, has its editorial offices on 42nd street, New York City. It is owned and controlled by the Wall Street Astors.

In the same great city is The New York Post whose John O'Donnell came to Prestonsburg several weeks ago and returned to write with the same poison pen that assailed the late President Roosevelt. He attacked not only Congressman May but all the rest of us. He wrote, not in kindness, not with any thought of helpfulness, but from the distilled essence of vitriol that fills his heart, this diatribe of falsehood:

"Human nature is nowhere more onery in this Republic than among these feudin' hillbillies . . . And nowhere is the universal streak of larceny darker and deeper."

And there we are, all of us—libelled, ridiculed, set apart as Things, not People, by folks who know nothing and want to know nothing of Eastern Kentucky, its fine people, its beauties, its hope of the future and its great and fine loyalty to its own.

These are the kind of folks who tell you and us how to vote and for whom to vote—these folks who paint us as savages living in log cabins, as deep in hopelessness as the Man with the Hoe.

We ask you—are you willing for such as these to advise us?

We wonder if these New Yorkers know that out of the Kentucky hills have sprung a Fred M. Vinson, Chief Justice of the Supreme Court of the United States, a Green H. Hackworth, a member of the World Court, and an Andrew Jackson May, who has made a fine record as our own Congressman, and many others.

Miss Smith Named To Students' 'Who's Who'

Miss Marcia Smith, daughter of Mr. and Mrs. W. R. Smith, of Hindman, has been chosen as one of five from Kentucky Wesleyan College, Winchester, Ky., to be a member of "Who's Who Among Students in American Colleges and Universities." The members were elected by the faculty of Kentucky Wesleyan and their choice was based on the following outstanding qualities: character, leadership in extra-curricular activities (athletics, society, religion, etc.), scholarship and potentialities of future usefulness in business and society.

Miss Smith, a member of the senior class, is president of Chi Upsilon Chi sorority, president of the Women's Cabinet and a member of the Women's Athletic Association.

Mr. Wicker was asked by a statement in The Floyd County Times last week to come to the courthouse and answer three questions. He appeared in person and here are the answers:

1) He stated that he has the training, experience, and the legal qualifications to hold the office of county superintendent, and further, that he would accept the job should a majority of the Board be for him. He added that he would refuse the job if there were strings attached, such as three county superintendents, for instance. It is his opinion that one county superintendent can serve the Floyd county schools most effectively.

2) He answered the second question by stating that he would do away with the offices of both assistant superintendents. It was pointed out that a complete reorganization of office personnel was needed and that a trained staff could replace those who were not qualified for the jobs they are holding at a saving to the taxpayers of thousands of dollars. It was revealed that the present rural school supervisor major-ed in biology and prepared to teach high school without a day of experience in the elementary field. Perhaps this person was employed without thought of the children, but to keep him from becoming the opposition.

3) He stated emphatically that he would lower the burdensome \$1.50 tax to \$1.00. It was shown that the Floyd county schools had been operated for years on a 75-cent tax plus a special tax in some of the consolidated schools. Figures were presented to show definitely that a tax of \$1.00 and the increased per capita and equalization funds would be sufficient to operate schools with more school bus service on a nine months' basis, to increase teachers' salaries, and to finance a planned building program.

Mr. Wicker explained that most city school systems, including Prestonsburg, had a higher tax levy than county systems because of a greater concentration of population and smaller taxable units. The \$1.50 tax was shown to be particularly hard on the farmer, who usually has to sell some livestock or other farm product to meet his tax bills. It was reasoned that the rural schools ought to have running water, sanitary rest rooms, lavatories, etc., like the schools in the towns, since the people in the rural communities pay the same tax.

Three reasons were given why there should be a change in the administration of the Floyd county schools:

1) A change is needed for the sake of democracy. No family or group should be allowed to perpetuate themselves in office for a whole generation.

2) A change is needed because the present administration has not kept faith with the taxpayer. The law allows a 25 cent minimum and a \$1.50 maximum school tax according to the needs of the system. The taxpayer in this county is being taxed to the limit of the law when it has been shown not to be necessary.

3) A change is needed to promote economy and efficiency in the school system. Many examples of inefficiency were pointed out and five suggestions presented to remedy and improve these conditions:

a) Reduce and replace office personnel with strict emphasis placed upon employing persons qualified for the job which they are to do.

b) Better organization and administration of both elementary and high schools of the county. Pupil-teacher ratio was suggested as a basis for beginning a reorganization to effect a great econ-

omy as well as efficiency.

c) Effective supervision of the school bus garage, the county school truck, and other school properties. It was added that expense accounts needed careful attention and accounting.

d) Do away with three county superintendents. It was pointed out that three county superintendents were found to be unpopular with the people, and that now the name of assistant superintendent was being camouflaged by another title.

e) A more equitable basis for paying principals and teachers. The principals are paid on a twelve months' basis. The teachers are paid on a nine months' basis. The principal in most instances receives twice the monthly salary of the teacher. Yet the teacher is nearer the child. Some of the principals were paid to attend summer school, but all teachers paid their own way.

Mr. Wicker concluded his address by saying, "I hope sincerely, regardless of the outcome of the election, that the interest in the welfare of the Floyd county youth may be advanced. Each of us, ally and opposition, must rededicate ourselves to a better program of education everywhere. Let us vote, and when we vote, let us vote to preserve and perpetuate

the ideals of democracy. Let us be on the march."

CAVALCADE OF HISTORY

Born: Lancaster, Mass. March 7, 1849. World's greatest plant wizard. Through 50 years at Santa Rosa, Calif. he originated countless new flowers, vegetables and fruits, until his fame encircled the earth. Lacked interest in financial reward, he said: "If because of me, there shall be better fruits and fairer flowers, I shall be content." Died: Santa Rosa, April 11, 1926.

Who Is The Veteran's Friend?

The answer to this question is simple and easy. "Let's take a look at the record."

Every one will agree that the passage and final approval of all legislation affecting men in the service was reported and passed by the Committee on Military Affairs of which Congressman May is Chairman.

The following are some of the many bills he sponsored and had enacted into law:

1. "Soldiers and Sailors Civil Relief Act." This law suspended enforcement of certain liabilities of men in the service as follows:

- No landlord was permitted to throw any soldier or sailor's wife and children out of their home for non-payment of rent or taxes while he was in service.
- Prohibited collection of taxes or enforcement of other debts while the soldier or sailor was in service.

2. Pay and Allotment Law. This law provided family allowances to wives, children and dependent parents of men in the service. The following are the rates of allowance:

The wife \$22.00 from soldier, \$28.00 from the government, equals \$50.00 per month. 1st child \$30.00, additional children \$25.00 each so that a wife and five children would receive \$180.00 per month.

3. An Act to readjust pay of service men raising their pay from \$21.00 in first World War to \$50.00 in the last war.

4. A Bill to Protect Mentally Disabled Veterans. This bill removes restrictions and provides prompt payment of muster-out-pay to mentally disabled veterans—a very human act.

5. A law that liberalized the pay and allowances of the wife, children and dependent parents of service men by increasing the allowances.

6. Muster Out Law. This bill, which is now Public Law No. 225, provides "muster out" pay of \$300.00 for all men on being discharged from the service, payable \$100.00 at the time of discharge, \$100.00 thirty days thereafter, and \$100.00 sixty days thereafter.

7. A law to provide for return of bodies of our war dead. This law directs the War Department to provide metal caskets without cost to the relatives of our soldiers, sailors and marines who lost their lives in the service, and bury the bodies wherever parents or next of kin may request. It authorizes appropriation of the necessary money which has already been made available. The War Department is now engaged in returning the bodies as fast as caskets can be provided.

8. The G.I. Bill of Rights. This law provides material assistance to all our service men and women who want to go to school and hundreds of thousands are now in schools and colleges throughout the country who otherwise could not have gone to school at all. It authorizes federal loans to enable veterans to buy homes or start in business. It provides unemployment compensation for those who can not secure a job. It is the open door of opportunity for all those who strive for a chance in life.

9. Terminal Leave Pay. This bill, now Public Law No. 704, provides terminal leave pay to enlisted men and women in the service on a basis of equality with officers. Gives equal treatment to the privates in the ranks as heretofore given under a law passed in 1887 to officers. These claims are now being processed and paid as rapidly as possible.

Vote for your friend. It's action, not promises, that count.

Congressman May from the very beginning of his service in Congress has been the outstanding friend and champion of the veterans of all wars.

VETERANS COMMITTEE FOR MAY FOR CONGRESS

REPLY TO MRS. E. R. MAY

(In the language she understands) Kipling said, "The female is more deadly than the male." I feel it takes a woman to discern a woman's real vindictiveness and sheer pettiness, as evidenced by Mrs. E. R. May's recent political advertisements, specifically in her remarks concerning Dr. Allen. Only a woman, I fear, could be incited to answer it.

First, Wilma, let's get down to facts. You appear to pride yourself upon being an advocate of TRUTH (written in foot-high letters). The fine print probably reads, "But not the whole truth."

Do you realize, Wilma, that the cost of everything (which includes materials needed by the schools) has gone up in price since your day? Surely you know this, so how do you propose to pay higher wages to teachers (which they deserve) on that 75 tax which you claim is sufficient? Sister, you figure out that one and you can balance my budget any day. Frankly, I don't believe you can. It is the writer's opinion that's just so much vote-bait. When you are shopping, don't you trade at the store where you know you will get the most for your money? The favored store you mentioned has always sold supplies cheaper to the Board than could be found elsewhere. Don't you consider that economy? (Incidentally, Wilma, you really should get your facts straight. Neither Dr. Allen nor his wife has owned stock in this store, since before Dr. Allen first ran for Board member.)

Dr. Allen would be the first to admit that at one time he did prefer having other than local teachers in Maytown school, but not for the reason implied by you. He has always been deeply interested in our school and at one time there were too few qualified local teachers to maintain our high standard. Surely, Wilma, you do not assume that you are a well-educated woman, with the few college hours you have. Indeed, I have heard rumors that you once failed to pass an examination held for county teachers at Prestonsburg. But enough of that. When I stoop to repeating gossip, that's another plank stolen from your platform.

As for your son volunteering for the air corps, hurrah for him. Floyd county is proud of him, just as they are proud of all the boys who served their country. But why do you drag Ronnie into this political campaign? He did his job in the army the way he must have inherited your talent, as the recent letter, signed by him, in The Times, smacks of your literary style.

You persist, Wilma, in dragging out the wet and dry question. This has been settled, and has no bearing on the present election, no more than the fact that one man may be Methodist and another Baptist. Any intelligent person can see it is merely a matter of opinion, to which we are all entitled.

If it weren't for the children who attend school in Floyd county, I'd like to see you win, Wilma. It would be interesting just to watch and see how long it would take for the Board to become disorganized, demoralized and the members at each other's throats. As it is now, they work as one smooth unit. The people of Maytown could probably testify as to your disturbing influence in their church. They haven't forgotten you by any means. I firmly believe the people of Floyd county have enough good, commonsense to know what they want, and will not be influenced by false rumors. If you are as clever as certain articles would have us believe, Wilma, why don't you think up something really new? (As for me, I have no claim to brilliance so I can use the old stuff.) Denouncing your opponents as law-breakers and money-grabbers—that one is so old it is green with moss.

I realize I am making a perfect target of myself for Mrs. May's ire, but as she herself would probably say, "Right is right, and what matter the cost to do it?"

CELEBRATES BIRTHDAY
Little Miss Madelyn Sue Porter celebrated her fifth birthday Saturday with a party given by her mother, Mrs. Bert N. Porter, at their home at Emma. She entertained little friends with outdoor games, after which refreshments were served and the many gifts opened. Those attending were Jane Carol Harris, Betty Harris, Bonnie Collins, Dolores Ann, Dawn Elaine, Mona Lou and Randall Hughes, Ann Burchett, Doris Faye Burchett, Phyllis Cline, Judy Caldwell, Jim Lamar and Caleb Bernard Cooley, Junior Porter, Mrs. Kenneth Caldwell, Mrs. Joe W. Harris, Mrs. W. H. Porter, Mrs. A. F. Hughes, Mrs. Otis Cooley and Mrs. E. L. Porter. A beautifully decorated angel food cake was cut before the guests departed.

Rev. and Mrs. Hargis Conley were the week-end guests here of Mr. and Mrs. M. F. Hughes.

BRANDY KEG
Miss Requia Kinzer, county Home Demonstration Agent, met with the boys and girls of Brandy Keg a few days ago and organized a 4-H club. The club started with a total of 24 members. The following officers were elected: Bill Harris, president; Paul T. Stephens, vice-president; Katherine Akers, secretary; Florene Conn and Charlene Akers, song leaders. The girls of the club are taking sewing for their projects for the coming year. Most of the boys have chosen poultry or hog-raising for their year's work. The club will be known as "The Willing Workers Club."

WED SATURDAY

Miss Gifford Declares That State Clubwomen Should Be World Citizens

Wheelwright, Ky., Oct. 20 (Sp.)—Six members of the Wheelwright Woman's Club attended the 23rd annual meeting of the Seventh District, Kentucky Federation of Women's Clubs, in the recreation building of the Hindman Settlement School. They were Mesdames H. O. Zimmerman and Yale Rogers, delegates, and Mesdames Arthur Bradbury, Stephen W. Clark, Robert Allie and Lyman Jones.

Delegates and representatives from the 10 clubs in the Seventh district were there, and presented interesting reports of the past year's work.

Of special interest were the addresses of Miss Chloé Gifford, president of the Kentucky Federation of Women's Clubs, and "In Memoriam" by Mrs. Clark Pratt and the special music provided by Mrs. Garland Franklin.

In her address Miss Gifford, speaking on the post-war period, said, "Only one thing stands out clearly—the need for objective thinking." She stressed the idea that each Kentucky clubwoman be an informed and participating citizen of the world and that study be made of the Committee for Kentucky, the State Constitution, and the United Nations conferences. This year membership into the Committee for Kentucky is being solicited and she called upon the clubmembers to get behind the movement, it being only a fact-finding body and the results of this depending upon the citizens of the state.

Mrs. Clark Pratt gave the interesting story of Miss May Stone, the founder of the Hindman Settlement School, describing her as the great benefactor of the rural mountain boy and girl.

Two new members of the official family were elected: Mrs. Archie Craft, of Whitesburg, vice-governor, and Mrs. Glenn Blackburn, of Betsy Layne, recording secretary.

The Jenkins Younger Woman's Club won the honor of the outstanding work of the year, while the Whitesburg Club won the prize for having the nicest year book.

KENTUCKY INSPECTION BUREAU

G. H. PARKER, Manager
Louisville, Ky.

To Subscribers and Agents: We are communicating the following ruling from the Hon. Harry B. Wilson, Director of Insurance, Frankfort, Ky.

"It has been called to the attention of this Division that building and loan companies, banks, and finance companies, having insurance agencies in connection with such institutions, have required the giving of insurance as a prerequisite to obtaining a loan. This practice varies and some institutions permit employees, officers or associates to be licensed as insurance agents to secure insurance in connection with loans. Such practice is clearly a violation of Kentucky Revised Statutes 238.230, which provides that no insurance company nor any agent, in connection with placing or attempting to place insurance shall offer any inducement not specified in the policy of insurance. Conversely, such action upon the part of the financial institution is coercion and a restraint of trade.

"Any agent or agency using undue pressure or influence to secure insurance in connection with a granting of a loan shall be considered in violation of Kentucky law and will be cited to appear and show cause why such agent or agency should not be revoked. Any company having knowledge of such acts upon the part of its agents shall be cited to appear and show cause why its license shall not be revoked.

"You are hereby directed to have a copy of this letter brought to the attention of each of your agents soliciting insurance within the Commonwealth of Kentucky.

"Please acknowledge receipt of this letter.

Yours very truly,
G. H. PARKER, Mgr.

No matter how he kicked...

we stood "Ole Debbil" Inflation on his head!

HOW can inflation be prevented? Some say that the keen competition that comes with rapidly mounting production will quickly force prices to reasonable levels—others say we must have government control of prices until production gets into full stride. No matter which theory is right, our customers need have no fear of "uncontrolled" electric prices.

The history of electric service is one of long and continuous effort to bring the price of our product down so that every one can afford to use it extensively—and for many, many years we have consistently passed savings on to our customers in the form of reduced rates. Actually during and after the war, when the price of nearly everything else went up, we turned inflation upside down for we have reduced electric rates in the face of increased

in the cost of labor and materials. Today, the average household customer pays less for each unit of electricity he buys than he did at the beginning of the war.* Basically, greater economy, improved methods and mass production have enabled us to keep down the price of electricity... and don't forget that we may not increase our rates without sanction of the state utility commission.

Every day more people realize the work-saving, health-saving, recreational values of light and power—they find that electrical appliances are the key to better living and put them to work. As use of our product expands... as methods and facilities improve... the unit cost of electricity declines—that has been our experience through many years.

On Playing the Fiddle Badly

A favorite recreation in our town is getting together in one or another's home and making music. There's somebody at the piano; a guitar; a fiddle player; and Molly Birtles even has a harp!

What comes out isn't the best music in the whole world. In fact, a lot of it is downright bad. But nobody even thinks to question or to criticize.

Because the spirit of harmony is there—harmony between folks who like each other's company, who enjoy the simple, homey atmosphere

—with nothing more exciting than old songs, and a glass of moderate beer or cider.

From where I sit, it's a heap more important to be a poor fiddle player, than not to play at all. More important to be a part of the American scene—with its community music, home entertainment, friendly glass of beer—than to hold out for professional perfection. (Besides, I like to play the fiddle—even badly!)

We Voters Know We Need A Change

CITIZENS of Floyd county in great numbers are echoing and re-echoing, "WE NEED A CHANGE! WE NEED A CHANGE! WE NEED A CHANGE IN THE ADMINISTRATION OF OUR SCHOOL SYSTEM!"

We voters know that our school taxes did not have to be raised from 75c to \$1.50. We voters know that we do not need three superintendents to operate our school system. We voters know that the salaries of these superintendents are \$4,500.00, \$3,600.00 and \$3,600.00, respectively, making a total cost for three superintendents \$11,700.00 annually. We voters know that there are a number of other workers in the superintendent's office who draw big salaries. We voters know that the school system received \$43,000.00 more from the equalization fund and \$70,000.00 more in per capita from the state this year without raising the taxes one penny. We voters know that there are 115 counties in the state with school administrators who did not impose the maximum school tax of \$1.50. We voters know that there are 119 counties in Kentucky operating their schools without three county superintendents.

We voters know that WE NEED A CHANGE. We voters know that we must vote for

JOE WHEELER BURCHETT

Division No. 1, and

WILLARD MAY

Division No. 2, for school board members. They are the candidates who stand for a change. They are the candidates who will lower our taxes to a fair rate. They are the candidates opposed to three superintendents.

Yes, WE VOTERS KNOW, "WE NEED A CHANGE! WE NEED A CHANGE! WE NEED A CHANGE!"

Yours for a change,

WOTERS AND SUPPORTERS OF
JOE WHEELER BURCHETT AND
WILLARD MAY
