## Two of America's Most Popular Motor Cars

Pictured above are typical examples of the two smart and separate lines of cars which bear the current imprint of Pontiac goodness—the Streamliner and the Chieftain De Luxe Sedan Coupes.

Each is in such demand that, on its own, it ranks among America's most popular cars today. That two cars of such decidedly different appearance should each enjoy such wide acceptance is easy to explain. THEY'RE BOTH PONTIACS!

While each has its own individualized smartness, both offer all the great basic Pontiae virtues. Both

are conspicuously beautiful. Both carry the wellare conspicuously beautiful. Both earry the well-known promise of Pontiae quality—long life, depend-ability, and fine performance. Both afford the smooth, enjoyable performance of Pontiae's two great engines. —the power-packed straight eight or its equally fa-mous six-cylinder companion.

Finally, both represent unusual values—a very fine-product at a very low price. Either one you choose will make you mighty happy.

**TO THE VOTERS OF FLOYD COUNTY:** 

A's a candidate for the Democratic nomination for Sheriff of Floyd county I hereby present for your thoughtful consideration this statement.

I am not A RICH MAN. My father died when I was four years old and left my mother with nine children and heavily in debt. Being one of the oldest, I soon had to assume responsibility for the support of my mother (now dead), and my other brothers and sisters. I worked my father's rough mountain farm for the support of the family and in winter seasons when farm work was not required, I sought and obtained work with drilling contractors, where I did every sort of work they had to do until I became an experienced driller. During these years of hard work I saved my wages until I had enough money to make the down payment on a well drilling outfit and went heavily in debt for the remainder. Without assistance from any one, by hard work and strict economy, I finally paid for the drilling outfit with which I, by hard work and good management, was enabled to support my wife and three children and make my widowed mother comfortable and happy in her last years.

If elected Sheriff I will use the same energy and determination to be an honest and capable official that I have used in the pursuit of my own business. With our rapidly increasing population and business activities the Sheriff's office presents many difficult problems that require cool judgment and discretion. I will see to it that no deputy sheriff is permitted to oppress or impose upon any citizen of this state, but I shall see that every deputy I appoint is an honest, sober and upright citizen of our county and they will all be required to do their whole

There is no denying it, the ranks of Labor have been in-filtrated by Communists.

Some strikes in this country have been Communist-inspired. With all the farflung organizations of Labor that there are in this country, and with the Labor front receiv-

promised the people of Floyd county, four years that if they would elect me County Judge I would ne very best job I could, and that promise I have e every effort to keep.

I make you the same promise again, and I feel that the experience of these four years behind me I will better qualified to handle the office than before.

Now, I do not mean to say I have been perfect in ery respect as County Judge. I have made mistakes, iny mistakes, and I am the first to admit that I have. t I have tried my very best AND WHATEVER MIS-KES I HAVE MADE WERE HONEST MISTAKES. o man is perfect; no man can be all things to all men, id the voters of this county know this as well as I do.

I also admit many things have been needed by oyd county that have not been done, but I think the people should have the facts about this matter, so they vill understand exactly why we have fallen short in some respects. Several years ago, an indebtedness of nearly a million dollars was piled up against this county. Because of that, there must be paid, each year, interest and principal on that indebtedness. After taking care of the bonds as they come due, with interest, there is comparatively little left with which to do the many things that should be done.

Each year I have been in office, we have met our debt obligations as they came due, and I assure you, every year I am your County Judge these debts will be paid until this county is debt-free.

Right now, Floyd county has over \$300,000 in the bank, placed there in a sinking fund against this county debt. With sound business handling of the county's financial affairs, this debt will be paid within another four years. Many of the bonds against the county, now drawing heavy interest, could be retired at this time but, unfortunately for us, they are not callable.

All this I point out to show why the individual needs of communities in the county-roads, bridges and other improvements-cannot be available immediately, no matter how much you or I may want them.

Permit me to add: I intend to run a clean race during this campaign. I have no ill word to speak of any opposition I may have. I want the people simply to know the facts and to consider me as their servant strictly on my merits. I promise you courteous and faithful service nd an honest administration. Did I seek your support on any other grounds, I would not merit your votes.
