

**This Town--  
That World**

If you have ever owned a hound-dog, or hunted, or spent a night in the woods—or if you are one of those unfortunate individuals who never so enjoyed life but have always wanted to—here's a book for you: "HOUND-DOG MAN."

**HUMAN-LIKE FOLLY**

Across a vacant lot, a few weeks ago, we discovered that a groundhog had taken up abode beneath the floor of a roadside building. This denizen of the wild, set right down in the middle of town, would venture out, even in day-time, for a drink of water or to nibble at weeds.

Wild thing that it was, the groundhog was apparently undisturbed as autos whizzed along the highway, only a few feet away. But when our cocker spaniel got wise to his whereabouts, ventured shakily near, ready to run at the slightest movement, it went to hole, in terror.

The groundhog hasn't been seen recently. That dog of ours certainly did him no harm, bark as much as he did. I have an idea the groundhog made the same mistake humans make; ran from the thing he could have chased away but ventured foolishly out among the dangers to which he had apparently become accustomed.

**WHO ELSE BUT YOUR NEWSPAPER?**

This newspaper seldom discusses itself or even the newspaper business as a whole, but the suggestion of some of the press associations that the same advertising rate be charged both local and national advertisers provokes these paragraphs.

Whether you think so or not, your local newspaper takes a more liberal attitude toward home enterprise than any other business you can name.

If, for instance, you are a Floyd County resident and advertise in The Floyd County Times, you pay what we call a "local" rate of 40 cents per column inch. If you fall in the national advertising category, brother, you pay 56 cents a column inch, even though local advertising invariably requires twice as much work to prepare for publication.

Sometimes we wonder if this is just. Also, we wonder if local advertisers appreciate this rank partiality we show in their behalf.

Consider, on the other hand, a drygoods store. If a man asks to see a hat, then inquires the price—

**COUNTY BAND CLINIC DATED**

**Bandsmen Week Is Set To Start Here Monday; More Than 70 Expected**

Floyd county's second annual band clinic will begin here for a week's session next Monday. Jesse Elliott, county band instructor, said this week.

The week's clinic will be climaxed Saturday morning, August 26, with a parade through Prestonsburg streets and, that evening, by a band concert.

Last year's first band clinic for the county was attended by approximately 70 school musicians, and this year's enrollment is expected to be even greater. In 1949 the clinic required the services of six instructors, all of whom are being contacted for the same work this year. These are Walter Nance, Pikeville, general instructor, Mr. Elliott, Mrs. Oval E. Hall, Prestonsburg, Miss Reka Conley, Garrett, Miss Margaret May, Martin, and Mrs. Evelyn Moore Stephens, Wheelwright.

Band students will be transported daily by school bus, it was said. The daily schedule will run along these lines: marching band, drill, 9 to 10 a.m.; concert band drill, 10 till 11:30 a.m.; 12:30 p.m. till 1 p.m., showing of films; 1 to 2 p.m., rehearsals, with instruments grouped by sections; 2 to 3 p.m., full concert band instruction.

**COUNTY AGENT RESIGNS POST**

**Isbell Decides to Enter Private Work; H. B. Rice, UK Grad, Is Successor**

S. L. Isbell announced to the Floyd fiscal court at its Wednesday session that he had resigned the post of County Agent, effective September 1.

Mr. Isbell recently tendered his resignation to the Extension Department, College of Agriculture, University of Kentucky, in order to enter on private veterinary practice. He was in his 20th consecutive year of service as County Agent in this county when the decision to devote his full attention to veterinary work was made.

He will continue his residence in Prestonsburg, and will extend his practice over the eastern section of Kentucky and possibly into border counties of West Virginia.

Accepting Mr. Isbell's resignation, C. A. Mahan, State Agent, wrote: "Mr. Lickert has just handed me your resignation.

"In my 30 years as State Agent I have never received a nicer worded resignation expressing the sentiment that we so much desire with all our fellow-workers.

"In accepting your resignation we wish to extend our sincere good wishes for your happiness and success. I wish we all had your ability to make and hold friends, and your loyalty to the University has been of great satisfaction to your superiors."

Mr. Isbell, a native of Graves county, came to Floyd county shortly after his graduation from the University of Kentucky.

**SAYS LAWMEN FIRED ON HIM**

**And That He Replied In Belief That Pursuers Drunk, Murder-Bent**

James W. Wheeler, who was jailed here for investigation after two Floyd officers, Marion Martin and Serd Daniels, had alleged he fired on them while they were attempting his arrest, told authorities the officers, not he, should be investigated.

Wheeler said he was chased to his home, near Allen, by the officers who, he said, fired several shots into his auto in which his wife and four children were riding with him. He claimed he got a shotgun after arriving home and fired at the pursuing car, thinking its occupants were drunks and bent on killing him.

Tom Parsons, who was released after having been brought here in connection with the shooting, said Wheeler came to his home for a shotgun and explained some drunks were trying to kill him, Deputy Sheriff Frank Parsons, who, with Deputy Constable Ransie Marcum, arrested Wheeler after Martin and Daniels had left the scene, said Wheeler was not drunk. Officers Martin and Daniels were quoted as saying Wheeler was intoxicated and that they pursued him in an attempt to arrest him.

More concrete evidence against the accused was supplied, however, by arresting officers when they brought to jail here Saturday night Robert Morelock, Kingsport, Tenn., and John P. Porter, Wise, Va. The

**TRIBUTE PAID TO A. J. MAY**

**House Hears, Appaids Praise By Both Party Leaders Citing Record**

The national House of Representatives heard leaders of opposing parties in Congress pay tribute Tuesday to Former Congressman A. J. May, and it applauded the praise accorded the Prestonsburg man.

Mr. May's name was mentioned during a discussion of a bill to launch the federal government on an armory construction program which would cost \$400,000,000. Democratic Leader John W. McCormack (Mass.) and Congressman Dewey Short (Mo.), ranking Republican member of the Armed Services committee and former colleague of May on the Military Affairs committee of which May was chairman, extolled the contributions of Ex-Congressman May to the national war effort.

McCormack told the House he could not resist the opportunity to pay a tribute to "Andy May." He called him "a great American" and said the people of his district "are justified in being proud of him."

McCormack said a man should not be judged by a single incident, referring to Mr. May's federal imprisonment.

Representative Short also praised May. Short said May rendered "a great and honorable service to his nation during World War II.

**DEWEY LAKE DOCK AWARD MADE TODAY**

**Goble & Burchett Get Lease on Concessions; Deeper Pool Is Urged**

The U. S. Corps of Engineers today (Thursday) awarded the Brandy Keg dock concession on Dewey Lake to Burchett & Goble (Joe Wheeler Burchett and Mrs. Sally May Goble). The Times learned in a telephone conversation with Col. Harry Poekras, of the district office, Corps of Engineers, Huntington, W. Va.

The successful bidders were reported to be anxious to get started with the necessary building program at the dock located on Brandy Keg Cove, and Col. Poekras indicated the Engineers will urge prompt action. Plans of the Corps of Engineers call for an outlay of approximately \$17,000 by the successful bidders within 12 months and ultimately the expenditure of around \$25,000.

Although Elson Kendrick, Prestonsburg man, was originally listed as the highest bidder, subsequent study of the situation by the Engineers resulted in the choice of Mr. Burchett and his sister, Mrs. Goble, who is the wife of Brandy Keg, present ranger on Dewey Lake.

In addition to the dock itself, the lessees will be required to construct a picnic shelter 35 feet in length by 25 feet wide, a dining lodge with boat storage facilities and other public accommodations.

The Corps of Engineers already had excavated work for these buildings done and also has prepared a 300-car parking area in

**HOWARD DIES OF INJURIES**

**Grocery Firm Executive Victim of Wreck; Wife, Brother Badly Hurt**

Warrnie Howard, 35, vice-president of the Howard Wholesale Grocery Company at Allen, was fatally injured in a collision of his auto and a truck on the Salyersville-Royalton highway at 5:30 p.m., Saturday, and his wife and brother, Girm Howard, Sublett, Ky., were seriously hurt.

Mr. Howard died at the Paintsville hospital at 2:30 the following morning of internal injuries. His chest was crushed and a leg and arm broken.

Seriousness of Mrs. Howard's injuries and those of Girm Howard had not been determined Wednesday. She suffered several broken ribs and a possible hip fracture. Mr. Howard's brother sustained a chest injury and head lacerations. Eleven-year-old Joe Kellis, son of Mr. and Mrs. Warrnie Howard, escaped with only minor hurts.

Mr. Howard, a widely known Eastern Kentucky business man, was driving from Allen to his old home at Swampton, Magoffin county, to visit his mother and attend a local church meeting with a brother when the tragedy occurred. He was passing a car which was parked on his side of the highway with two tires on the road surface when a truck, meeting him at reported high speed, skidded as the driver applied the brakes, the front of the truck struck the Howard auto, it was said.

Victim of the wreck had resided in this county since he and his brother, Allie Howard, purchased the Burl Spurlock Wholesale Grocery in West Prestonsburg and he had been active in operation of the business since its removal to Allen. He was a son of the late Babe Howard, of Swampton.

Surviving are his widow, his two sons, Joe Kellis and James, his mother, Mrs. Mousie Howard, of Swampton, and the following brothers and sisters: Adam and Ernest Howard, both of Swampton, Allie Howard, Allen, Morgan Howard, West Prestonsburg, Girm Howard, Sublett, Mrs. John B. Salyer, Salyersville, Misses Fanny and Melvedine Howard, both of Swampton.

Funeral rites were conducted Tuesday from the home of the victim's mother and burial was made in the family cemetery at Swampton.

**Dr. Kelly and Daughter Injured in Auto Wreck; Mother Reported Dying**

Dr. J. S. Kelly, Lexington dentist and former resident of Prestonsburg, was seriously injured in the wreck of his automobile near Rose Hill, Va., while en route to Big Stone Gap, Va., where his mother had been reported as in a dying condition.

He and his daughter, Jane, 15, were pinned beneath the wreckage of the car for almost an hour. His legs were broken above the knees, and his daughter suffered a deep leg laceration. Dr. Kelly's other daughter, Ann, was unhurt, her grandparents, Mr. and Mrs. E. L. Hopson, Prestonsburg, were told.

The wreck occurred when the auto went out of control on a wet highway and crashed into a tree. Dr. Kelly was taken to a Pennington Gap, Va., hospital. His daughter was taken to a hospital at Middlesboro, Ky.

**FBI DISCLOSES MAN'S RECORD**

**Wheelwright Man, Held On Whiskey Charge, Has Convictions in 3 States**

Robert Lee Morelock, one of the two men arrested at Wheelwright last week-end in possession of 12 gallons of moonshine whiskey, has a long criminal record, files of the FBI disclosed this week to Sheriff A. B. Meade.

His field of crime ranging from Tennessee to Kentucky and Georgia, Morelock has, the record sent Sheriff Meade showed, been sentenced on five separate occasions to prison. The record, in part:

Felonious assault and battery, year and a day, Tennessee; illegal whiskey transportation, year and a day, Tennessee; violation of internal revenue laws, Louisville, two years; assault and battery of government officer while in performance of his duties, Louisville, four years; violation of internal revenue laws and violation of probation, Nashville, Tenn., three years, \$200 fine; hit and run driving, transportation of liquor, drunk driving and carrying a pistol, charges preferred in August, 1945 at Atlanta, Ga.

His most recent brush with the law before his arrest in this county was in Kingsport, Tenn., where he was charged with two cases of breaking and entering.

**Thousands Expected To Attend Eighth Annual County Fish Fry**

**One of State's Major Sporting Fetes to Last Two Days Near Allen**

Among the thousands expected to attend the eighth annual Floyd county fish fry at the Allen golf course, Saturday and Sunday, will be three downstate high school bait-casting teams who have accepted the challenge of the Prestonsburg team, E. R. Burke, district conservation supervisor, said this week.

The "invasion" will be staged by the teams of Harrodsburg, Danville and Lexington high schools whose forces will camp on the golf club grounds during the two days of the big meet.

Thus will the very first day of the fish fry, one of the state's major sporting events, see competition so keen and of such superior quality that wider interest than usual will be attracted. The winning team will receive a 30-inch engraved trophy, and each of the five members of that team will be awarded a Langley Lurecast reel.

This, one of the big events of the two-day program, will be at 2:30 p.m., Saturday. At 8 that night, the

Prestonsburg schools, grade and high, will open Monday, Sept. 5, concurrently with consolidated schools of the county, it was decided at the meeting Monday night of the Prestonsburg Board of Education.

At the same time the Board named substitute teachers for the coming school year. These are Charlotte Salisbury, Pauline Burchett, Ruth Worland, Nell Ferrell and Mary Alice Wright.

School vacation periods also were designated at the meeting. The longest, for Christmas, will begin Dec. 19 and end Jan. 2. Others are two days each for KEA, and Thanksgiving.

**Typhoid Outbreak Seen In Illness of 3 Persons At Drift, Ransdell Told**

Illness of three Drift residents was believed this week to have marked the first outbreak of typhoid in Floyd county in the last three years, Dr. Marvin Ransdell, director of the Floyd County Health Department, said he had learned.

The illness of Mrs. John C. Hall, who is a patient at St. Joseph's hospital, Lexington, was diagnosed by a Floyd physician, it was said, as typhoid. Two others were considered typhoid suspects but one of the two was reported as convalescing after illness of only a few days.

**Group Formed To Urge Ky. 80 As Cross-State 1-Number Route**

A 21-county association to promote a through-numbered highway from the mountains to the Mississippi river along Kentucky's southern border was organized at a meeting Friday at Glasgow.

Russell Dyche, London newspaper publisher and originator of the plan, was elected president of the association. It proposes to connect KY. 80, U.S. 68, and KY. 98 into a continuous route from the Breaks of Sandy on the east to the Mississippi river on the west.

Ky. 80 enters the state near Elkhorn City, joins Ky. 460, the Pikeville-Grundy route, at Millard, joins U.S. 23 at Shelby Junction and continues through Pikeville to Allen where it leaves its northerly course and begins its way westward across the state.

Traveling through Martin, Lackey, Hindman to Dwarf junction, the road comes within three miles of Hazard where it crosses the Kentucky river and goes on to pass through Hyden, Manchester, London, Somerset and Columbia before joining U.S. 68 at Edmondton, 19 miles east of Glasgow. Both roads continue on to Bowling Green. That federal route, in turn, continues on through Russellville and Hopkinsville to west of Kentucky Lake where Ky. 98 reaches on through

First objective of the association, as yet without a name, is to tie the three existing roads together into one uniformly numbered east-west route. Such a route would stretch in a fairly straight line across a potentially great tourist-attraction section which at present is without a through east-west highway.

Most of the delegates, representing 10 key cities along the suggested route, agreed the three existing roads should be numbered Route 80.

**SOLDIER HELD FOR SLAYING**

**Mark Boleyn Surrenders Today in Fatal Shooting Of Knott-Co. Neighbor**

Mark Boleyn, 21-year-old soldier, surrendered early this morning (Thursday) to the Sheriff of Knott county at Hindman in the slaying by revolver fire Tuesday afternoon at Boleyn, Knott county, of Herbert Conley, of the same community.

Conley died instantly of a bullet wound in his neck and another in his chest. Until this morning Boleyn, a son of Cecil Boleyn, postmaster at the postoffice of that name, had been at liberty. Boleyn postoffice is on Rock Fork Creek, about four miles from Garrett in this county.

The Knott county Sheriff's office could supply few details of the shooting. A spokesman said he had heard of previous trouble between the two men while Boleyn was home on army furlough. Another unconfirmed report said the two had engaged in a fist fight at Garrett, several days earlier, and that Conley was sitting in the doorway of the postoffice when Boleyn asked him to move aside and let him enter. The request was repeated, this report said, and when Conley failed to comply the shooting followed.

The victim was a son of Bill Conley and himself marked for early military service after having received pre-induction examination. He was buried today.

**Boy Is Unconscious 24 Hours After Fall From Cliff at David**

Wednesday afternoon marked 24 hours of unconsciousness for 15-year-old Bill Hammonds, David Boy Scout, who suffered a possible skull fracture in a fall from a cliff in the hills near David at 2 p.m., Tuesday.

Young Hammonds, who was playing with other boys, clambering about the cliff, fell a distance of approximately 30 feet when his hold slipped. He is at the Prestonsburg General hospital.

The injured boy is a son of Mr. and Mrs. Roy Hammonds, of David.

**FIRM OFFERS \$500 REWARD**

**Company Posts Reward After 2nd Line Blast In Johns Creek Area**

Dynamiting of an eight-inch gas line of the Kentucky West Virginia Gas Company Sunday morning on the head of Home Branch of Buffalo Creek prompted the company this week to post a \$500 reward for information leading to the arrest and conviction of any person or persons guilty of interfering with or damaging its pipe lines, wells and other properties.

Sunday's blast was the second in three weeks to destroy a section of the company's line. The first dynamiting of a Kentucky West Virginia gas line came a few weeks ago on Johns Creek in Pike county.

The first explosion was described by company officials as "an act of sabotage." They did not ascribe any motive for Sunday's blast.

Sheriff A. B. Meade made an investigation of the latest dynamiting which occurred in the pre-dawn hours of Sunday. He said the area around which a section of two to four feet of pipe had been blown out had been trampled so badly before he was notified that all clues were missing except a fragment of fuse. It was decided bloodhounds would be of no use.

Both dynamitings took place in rather isolated sections and the probe into the first has not resulted in an arrest. The Federal Bureau of Investigation was called into the first case but it was not revealed here if the same aid will be asked in the second investigation.

**LISTS INCLUDE 38 FOR EXAMS**

**8 To Receive Physicals At Lexington, August 8; 30 To Go to Portsmouth**

Thirty-eight more Floyd county men will leave by the month's end for pre-induction examinations, it was announced this week by Mrs. Gladys Allen, clerk of Draft Board 25.

Eight selectees will leave August 28 for examination at Lexington, and 30 will go two days later to Portsmouth.

The Draft Board clerk said Wednesday that under present law married men, fathers, and veterans are not classified as 1-A and are not eligible for induction. It was emphasized that fathers, married men, and veterans who have not notified their draft boards of their status should do so immediately.

Those who will leave on the 28th are Carlos Brown, Jr., colored, formerly of Wheelwright, now of Oklahoma City; Charles Miller, Water Gap; Kirby Newsome, Bypro; Richard M. Litton, formerly of Manton, now of Gunlock, Ky.; Kenas Spears, Dana; Blake Spriggs, Drift; Lee Arnold Sexton, formerly of Drift, now of Rosehan, N. J.; and Herbert Lewis, Banner.

To leave August 30 are Johnny Compton, Hunter; Chester Collins, Minnie; Oscar Horne, Lackey; John Be Clark, Harold; Homer Reynolds, Ligon; Frank Dawhara, Jr., Wheelwright; Noah Newsome, Hi Hat; M. C. Kidd, Grethel; Emery Osborn, Ivel; J. B. Wallen, Prestonsburg; Izel Turner, Garrett; Thurman Sellers, Endicott; Junior Creed Oney, Wheelwright; John Milford Newsom, Hi Hat; Carl Homer Gibson, Wayland; Arlen Calhoun, West Prestonsburg; Carada Hunt, Mare Creek; Johnnie Weddington, Banner; Sherman Hunt, Banner; Robert Grant, Jr., colored, Wheelwright; Crain Maynard, German;

**SCHOOL BOARD VOTES TO BUY BUILDING SITE**

**Naming of Successor To Fraley Is Certified For State Board Meet**

The 2-all deadlock in the Floyd County Board of Education in the voting on a fifth member to fill the vacancy created by the resignation of Ray Fraley, Wayland, was officially admitted at Tuesday's meeting and the fact was certified to the State Board of Education.

The State Board, which re-convenes in mid-September, will name Fraley's successor. The case was certified to the State Board only a day after the Court of Appeals had overruled a petition for re-hearing of the case in which Fraley was held to have abandoned his office.

Despite the deadlock, the Board got down to business during a session which lasted till almost dusk. It named teachers necessary for the opening of the county's consolidated schools and also agreed on the purchase of a site here for a new high school plant.

Purchase of the site, a tract of approximately four acres fronting on the Mayo Trail, a short distance below the former city limits, was authorized for the sum of \$40,000. Mrs. Valentine P. Hopkins owns the land.

The agreement on employment and placing of teachers was described as "a bit of horse-trading," with Board members who had balked at Superintendent Palmer L. Hall's original nominations winning practically all their demands and the Administration winning employment of all office personnel.

Superintendent Hall also was re-elected secretary of the Board for the remaining two years of his present term of office, beginning July 1. The attempt to remove James Salisbury from the principalship of the Martin consolidated school brought here for the meeting a group of approximately 40 Martin citizens in protest against the contemplated action. Some members of the delegation threatened to refuse to send their children to school in the event Salisbury was not returned there.

Refusal of Dr. W. D. Osborne to side with the Administration in the proposal to change Salisbury to Weeksburg was reported to have broken the deadlock resulting in no change in the Martin principalship and also in that at Maytown.

Following the Board meeting, Superintendent Hall said work will be begun immediately on plans for the new school building here. The fiscal court recently voted a bond issue of \$400,000 for construction of the gymnasium at Wheelwright and the building here. The Wheelwright contract was let for \$169,000, and payment of \$40,000 for the Prestonsburg school site will leave slightly less than \$200,000 for the local project. This amount, however, may be augmented if necessary, it was said.

Tentative plans call for 18 to 20 classrooms, with the building so planned that more rooms may be added without damaging symmetry of the structure or its utility, and located so that room will be available for a gymnasium and other possible building needs, Mr. Hall said.

Size of the building, however, may be determined, the Superintendent added, by decision of the Prestonsburg Board of Education in the matter of continuing operation of the school here with the County Board.

Joint operation of the high school here just now is a moot matter. Mr. Hall said further information as to rights of the two Boards is being awaited from the Attorney-General.

"If," he commented, "we have no rights in hiring teachers, we cannot pay those teachers." (This referred to the opinion of Assistant Attorney-General Keller to the effect that the City Board has full authority to employ teachers of the school.)

Board members whose relatives were employed as teachers, office-workers, janitors and bus drivers carefully refrained from voting for their employment.

the vicinity of the dock. A water well also is being drilled on the point overlooking the lake at the entrance of Brandy Keg Cove, to serve the picnic area.

While this was developing, interest mounted in the addition of more water to the lake, and to those requests Congressman Carl D. Perkins added his plea for added impoundment to serve recreational purposes and Pike county as well as Floyd.

The Times learned this week that the United Fuel Gas Company engineers had prepared a report on the company's holdings in the reservoir area, with a view to ascertaining if deepening of the lake will affect its wells or lines. Although no official statement was available, it was reported that the damage would be negligible and could be averted altogether at little expense.

The need for a greater expanse of water is emphasized, it was pointed out here, by a check made on the number of autos traveling the Brandy Keg road from Lancer to the lake. On July 4, it was said, a check showed that more than 3,500 autos visited the lake at that point, and that on the preceding Sunday the number was slightly in excess of 2,800.

Congressman Perkins made his request to General Lewis A. Pick, chief of the Corps of Engineers, Washington, and accompanied his letter with an editorial from this newspaper which pointed out the need for added water impoundment and contended that such action would not impair flood control value of the reservoir. He wrote General Pick:

"I am enclosing an editorial which appeared in The Floyd County Times during the week of August 12. As heretofore stated, I personally believe that Dewey Reservoir has greater value as a recreation project than as a flood control project inasmuch as we have no other similar project in the whole of Eastern Kentucky. Then again, the flood control features will only be impaired to a limited extent by placing five feet more water in the conservation pool.

"I discussed this subject informally with Colonel Johnson, District Engineer, on July 1 at the site of the reservoir. I got the impression that new contracts would have to be entered into concerning certain easement rights and thereby the cost would run in excess of \$600,000 heretofore estimated to complete the project. However, in order that the project may be fully utilized from a recreation standpoint by the people of Floyd and Pike counties, the conservation pool will have to be raised. In my judgment, necessary steps should be taken to raise the conservation pool to a sufficient depth in order that the pool will adequately serve Floyd and Pike counties.

"I will greatly appreciate the fact if arrangements can be made to raise the level of the conservation pool stage in order to serve my constituents at an early date."

officers, Willie and Green Johnson, Enoch Hatfield and Cain Blackburn, brought the 12 gallons of moonshine found in the Buick sedan the two were driving at Wheelwright.

The liquor was poured into the street in front of the courthouse, Sunday, and Morelock and Porter will probably be taken before federal authorities. Officers said they had both Tennessee and Virginia license plates in the car.

Chester Wiley, who was seriously injured August 6 when the auto in which he allegedly was attempting a getaway after the shooting of Collins' store at Lackey, was brought to jail here, last Thursday, by Special Officer Oak Mullins, of Wayland.

Others jailed: Fuller Thompson, accused of selling mortgaged property, arrested by Frank Parsons; Ambrose Williams, charged with breaking into an auto and with juvenile delinquency, by George Hall, Jr., and Grant Akers; Kenneth Roberts, peace warrant, by Frank Parsons and Raason Marcum; Vernon Hicks and John M. Gibson, investigation of robbery, by Parsons and Marcum.

Joe E. Mallance and Clay Swift, who were held here last week for investigation, were released Thursday by Magistrate J. E. Harris.

will be given a special price because he lives in Floyd county or charged more because he is, say, from Chicago? He is not. The merchant has a price based on cost, and it's there for everybody, which is altogether fitting and proper.

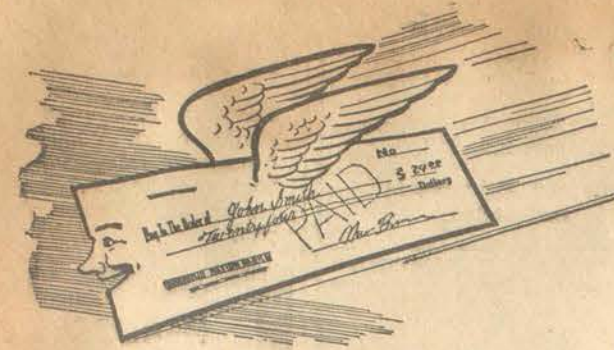

We mention this merely to point out the traditional favoritism newspapers play, with their local advertisers the favorites; and to ask if anybody else is being so considerate of them.

## It says SUCCESS-with SPIRIT

First of the Fine Cars in Value

YOU can see this man has made his mark in life, and while his heart's still young,

You can tell he likes action for his money—that he knows a fine car needn't be the most expensive to give the greatest value.

Yes, such are the things you know of any man, when you note that his car is a ROADMASTER.

Follow him on his spirited way as he pilots this lively motorcar through traffic. Even the light-weights are no match for this road-steady husky—not with the 152-horsepower straight-eight Fireball engine that purrs beneath its bonnet.

Maneuver beside him at the next stop light. Then just try to get away as smoothly, swiftly and silently as Dynaflow Drive gets his ROADMASTER going—and keeps it rolling without shifting, even automatically.

But don't waste time merely envying the man in this great car! Why not emulate him?

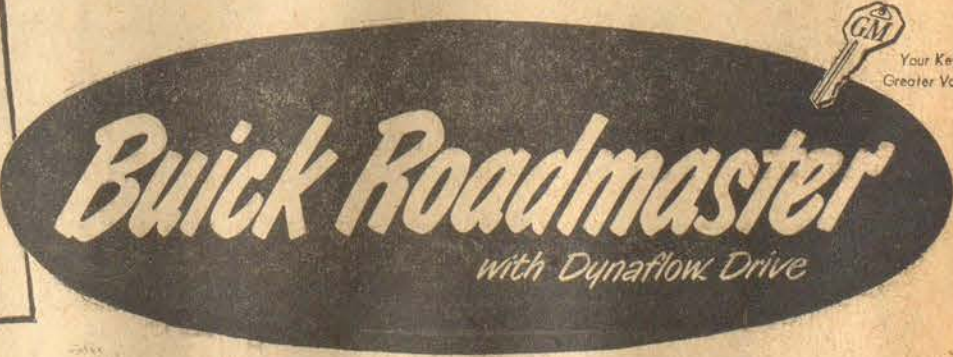

With all its outsize room, interior luxury and exterior grace—with all its front-rank prestige, rare performance and matchless ride—a ROADMASTER can be yours for less than some smaller cars cost.

In fact, even if you had a fortune to spend, you couldn't make a more fortunate buy in the fine-car field.

So we suggest you try a few minutes behind the wheel. We're confident they will convince you that ROADMASTER has everything you could ever ask for in any motorcar—although your Buick dealer asks a good bit less for ROADMASTER than you might pay for other top-line cars.

### LOOK AT THE Typical Delivered Prices ON 1950 BUICKS

### Mrs. Coburn Is Victim Of Cancer at Age 71 At Handshoe Residence

Mrs. Luvisa Boleyn Coburn, 71  
years old, widow of Joseph M. Co-  
burn, died at her home at Hand-  
shoe last Thursday, a victim of  
cancer.

A midwife who had been an at-  
tendant at more than 1,500 births  
in the Floyd-Knott section of Salt  
Lick Creek and adjoining territory,  
she was widely known. She was a  
daughter of the late Wheatley  
Boleyn and Nancy Holliday Boleyn.  
She had been a member of the  
United Baptist Church about 35  
years.

Surviving her are four sons and  
three daughters, Lenzo Coburn, Cor-  
eta, W. Va., Earl, of Lima, O., Ar-  
thur, of Eastern, John M., of Hand-  
shoe, Mrs. Elzira Nunley, Mrs. Nora  
Ellen Howard and Mrs. Nannie Da-  
vis, all of Handshoe; two step-sons  
and two step-daughters, W. O. Co-  
burn, Sardinia, O., Felix Coburn,  
Garrett, Mrs. Martha Adams, Sar-  
dinia, O., and Mrs. Sallie Wright;  
seven brothers and one sister, Wil-  
liam Rice Boleyn, Reece, George  
and Cecil Boleyn, all of Boleyn, Ky.,  
Enoch Boleyn, Garrett, Sam Boleyn,  
Dwight, Gifford Boleyn, Hazard,  
and Mrs. Nora Stone, Raven. She  
also leaves 29 grandchildren and four  
great-grandchildren.

Funeral rites were conducted  
Sunday from the graveside in the  
Chaffins cemetery on Rock Fork, the  
Revs. Ed Howard, Henry Mullins and  
Ernest Moore officiating. Interment  
was under direction of the Arnold  
Funeral Home.

Much of Japan's culture, art and  
learning came from China and  
India by way of Korea.

The proposed route passes by or  
near many of Kentucky's outstand-  
ing scenic and historic spots. Along  
the route would be such spots as the  
Breaks of Sandy, Levi Jackson State  
Park, Wolf Creek Lake, the Jeffers-  
on National Cemetery, Kentucky Lake  
and Columbus-Belmont Battlefield,  
the western anchor of the road. A  
short distance off the route would  
be Cumberland Falls, Mammoth  
Cave, Dale Hollow Lake, and Ken-  
tucky Dam.

A through-numbered highway  
across southern Kentucky first was  
proposed in 1948 by Russell Dyeche in  
his paper, The London Sentinel-  
Echo. The Courier-Journal in a se-  
ries of articles, pointed out the ad-  
vantages such a road would have  
in tourist promotion. However, to-  
day's meeting was the first attempt  
to form an organization to work for  
the project. The session was called  
by Dyeche, who was unable to attend  
because of illness.

J. P. Stiger, state assistant chief  
highway engineer, and Vear Mann,  
the department's public-information  
director, represented Highway Com-  
missioner John Keck at the meet-  
ing.

"Mr. Keck told me to say that he  
is very much in favor of such a  
route," Mann stated, "and that he  
will do all he can to help the pro-  
ject."

Cities represented included Pike-  
ville, Hazard, Somerset, London,  
Glasgow, Bowling Green, Frankfort,  
Russellville, Hopkinsville, Louisville,  
and Mayfield.

(1) Attempt by the Board of  
Trustees to raise taxes for years  
of 1948-49 by taking County As-  
sessment. Since no assessment was  
made, the old valuation you paid on  
in 1947 still governs.

(2) Ordinance to install parking  
meters on Main Street. I have al-  
ways been in favor of bringing  
business into town and not driv-  
ing business away by charging  
people to trade with us.

(3) Criticism has been made  
against me and other members of  
the old board for graveling dirt  
streets, and having lights install-  
ed on streets other than Main  
street. You people judge whether  
the above was needed. An old or-  
dinance governs expenditure of  
license collected on trucks, that  
such collections must be spent on  
the streets. We tried to distribute  
lights and gravel to accommodate  
all the people.

It has come to my attention that  
rumors are being circulated to ef-  
fect that I am responsible for the  
WATER SHORTAGE in the City.  
Such rumors are false as I have  
had absolutely nothing to do with  
the Martin Water Works since April  
3, 1950 the date judgment was ren-  
dered by the Floyd Circuit Court  
against myself and Ray R. Allen,  
holding that we were not legally  
qualified members of the Commission,  
both of us holding public office with-  
in two years as provided by the  
Statutes.

Your Water Works System at  
present is controlled by three com-  
missioners, namely, T. J. Allen,  
Clyde Allen and Lloyd McGarey  
who are responsible for the man-  
agement of the Water works.

Since the above rumor has been  
circulated, others may be circulated,  
and to head off some, I state for  
your information that I am not re-  
sponsible for the following:

(1) Attempt by the Board of  
Trustees to raise taxes for years  
of 1948-49 by taking County As-  
sessment. Since no assessment was  
made, the old valuation you paid on  
in 1947 still governs.

(2) Ordinance to install parking  
meters on Main Street. I have al-  
ways been in favor of bringing  
business into town and not driv-  
ing business away by charging  
people to trade with us.

(3) Criticism has been made  
against me and other members of  
the old board for graveling dirt  
streets, and having lights install-  
ed on streets other than Main  
street. You people judge whether  
the above was needed. An old or-  
dinance governs expenditure of  
license collected on trucks, that  
such collections must be spent on  
the streets. We tried to distribute  
lights and gravel to accommodate  
all the people.

## NEWSPAPERS SHOW GAIN

In Advertising Figures For 1949 from Leading Accounts; Radio Loses

New York, Aug. 12—The nation's 100 leading advertisers last year spent \$208,548,989 in newspaper advertising, an increase of 45.1 per cent over the 1948 figure.

They spent only 2.1 per cent more on magazines than in the previous year and eased back in radio advertising by spending 2.7 less than in 1949 which had already shown a drop under 1947.

The figures were reported Thursday by the bureau of advertising of the American Newspaper Publishers Association.

These 100 leading advertisers spent a total of \$528,620,793 in newspaper, magazine and network radio advertising last year, an increase of 13.8 per cent over the \$464,478,483 of 1948.

In total national revenue, the bureau said, newspapers gained \$55,000,000 while magazines and network radio combined lost \$30,000,000.

Wright Man, Winner  
Of Prize in Contest,  
Gets 'Inland' Stock

James Burl Fields, of Wheelwright, shipping clerk at Inland Steel Company's Wheelwright mine, was one of 37 employees of the company when prizes were awarded in a contest among the company's 25,000 employees for best models of its new ore boat, the SS Wilfred Sykes.

Fields was awarded two shares of company stock for the best Sykes model submitted by employees of the company's coal mines.

Mr. and Mrs. Fields were taken by the company to its Chicago headquarters for the weekend and to attend the annual picnic of Chicago area employees where contest winners were announced.

TIDBITS OF KENTUCKY HERITAGE

By GORDON WILSON, Editor  
Western Kentucky Teachers' College Bowling Green, Ky.

FOLK ENTERTAINMENT

It is a far cry from the horse-and-buggy days to our own times. Just about everything physical has undergone a transformation. Distance is a relative matter now to people who commute daily over distances that very few people had traveled a generation ago. Education has so increased that it is often hard for me to convince my students that I have known many excellent people, people of culture and even wealth, who could not read and write. The moving picture and its marvelous improvements have put within easy reach of just about everybody the charm of motion and color and music. But there is still in all of us folk something that responds to rather old-fashioned and even primitive entertainments.

When I first came to Western as a student, a hayride was just about the last word in having a good time. The automobile was a rare and expensive vehicle then; we actually drove wagons with a tarpaulin or wagon sheet stretched over a pile of hay. And such songs as we sang were still rather rural. Some sophisticates looked at us as if we were still rather rural. But what is more inviting right now than a hayride? Within a month of my writing this I was a member of a hayride party that went some miles out into the country and had an old-fashioned wiener and marshmallow roast. If you think this is too old-fashioned for young people, you should have seen the happiness on the faces of the party. Unfortunately, the boat trips we used to make from my college are now impossible, because the steamboats have gone, but I would be willing to wager that it would not be hard to work up interest again in such a trip if boats of some sort were available.

What set me to thinking of the living quality of folk entertainments was an experience that I had in the early summer of this year. A church of my home town put on a country fair in the old-fashioned British and American sense. There were many forms of entertainment, and hundreds of people from all churches or none, turned out on one of the hottest nights of the year to have a good, wholesome country time. There were fortune tellers, dressed as nearly like gypsies as possible; there was a shooting gallery; there were ponies for the children to ride; there was a tear-jerking play put on by the younger set that would have fit directly into the community gatherings of my own childhood and

farther back. A Midway had all sorts of features, ranging from a pet show through booths selling various woven articles to "The Greatest Show on Earth," as comic and clever a treat as I have ever seen. People went up and down the whole area, buying here, listening there, and lining up in due time to eat a picnic dinner, served right on the grounds and actually eaten at tables! Children played and screamed delightedly, older people laughed loudly and wholesomely, the stars came out and looked down on the community frolic. And the church realized a pretty sum from the sale of meals and everything else. But no amount of money could pay for the solid satisfaction that hordes of people, from grandparents to small children and from all sorts of homes, took away from that community fair under the trees. Some of us remembered and knew why it was so great; but the smallest children felt the joy of the occasion for itself alone, without drawing, as so many of us did, on years of memories of other times and places, when the community had itself a good time. We are so constituted that it is a pretty hard task to separate ourselves from even the ways of enjoying ourselves that have been hallowed by so many generations of plain but very live ancestors.

**Why Shouldn't We Be For It?**

WE'RE all for this association which was formed last week to promote a single-number highway, Route 80, across the state—literally, from the Breaks o' Sandy to Mills Point.

This one east-west highway would pass through sections of rich scenic beauty and would be of great value, as pointed out in the association's publicity, in the matter of tourist promotion. As we say, we're all for it.

But we would like to point out that Floyd county should play a prominent part in planning for that highway. This county should figure large in the fight for the highway, especially when you recall that the original Route 80 begins—or ends, as you please—at Allen in Floyd county. From the Breaks to Allen, the new route would be a synthetic product, following the old U. S. 23.

There's nothing synthetic, manufactured or plain cooked up about our part of Route 80. We're in on the ground floor, so to speak. And we, of course, want to see it become the great Kentucky highway it should be.

**Though Mayor Absent, Louisa's City Council Holds a Legal Meeting**

Louisa, Ky., Aug. 9—The City Council last night held its first legal meeting since May.

Everyone supposed to be present was there except Mayor Millard Branham. There was no explanation for his absence.

The five councilmen named John Page, 57, to fill a vacancy created by the death of Leonard Compton. Mayor Branham refused to approve the nomination of Page last June and as a result Councilmen J. N. Adams and C. C. Ryan resigned.

Governor Earle C. Clements then stepped into the dispute, naming three men to fill vacancies left by Compton's death and the resignation of Adams and Ryan.

Adams and Ryan later reclaimed their seats, saying their resignations had not been acted upon. This resulted in eight men trying to fill six seats on the Council.

Meeting after meeting convened, then recessed as the dispute continued. The night patrolman quit, then the deputy city clerk. Nothing could be accomplished, and there was never a "legal" number of councilmen on hand to conduct business or appoint successors.

Circuit Judge James W. Turner last Wednesday declared Adams and Ryan legal members. He held that the Governor's three appointments were not in order.

Judge Turner also ruled that the question of whether parking meters should be retained in Louisa had no bearing on the case. The original rift between Mayor Branham and Councilmen Adams and Ryan was over parking meters.

For last night's meeting, the Council named Adams acting Mayor pro-tem.

The Council also named a police committee to supervise police activities in Louisa, appointed C. B. Bromley deputy clerk, and hired Charlie Osborne as night policeman.

**HOT, FIERY GAS Stomach Like a Furnace**

A Prestonsburg man said recently that his stomach used to burn like a "gas factory!" That is, when he ate a meal it seemed to turn right into hot gas. He was always bloated, had gas pains daily. But now this man says he is FREE of STOMACH GAS and he says the change is due to taking CERTA-VIN. His meals agree with him.

CERTA-VIN is a new formula. Taken before meals it works with your food, expels the gas, and thus you get the fullest good out of your meals. It contains Ten Great Herbs, plus vitamin B and Iron. Besides relieving gas it also enriches the blood (with iron) and makes stronger nerves (with vitamin B.) Miserable people soon feel better all over. So don't go on suffering! Get CERTA-VIN at the W. A. Rose Drug Store (formerly Hughes Drug Store.)

### Tells How HADACOL Helped Her Pale Run-down Nephew

who suffered from Vitamin B<sub>1</sub>, B<sub>2</sub>, Iron and Niacin Deficiencies

Mrs. Edward Newton, attractive matron from Cincinnati, Ohio, wants readers of this paper to know about Bobby Newton, her little nephew. Bobby was pale, run-down, had no appetite. After she had given Bobby HADACOL, he had a grand appetite, color in his cheeks and is healthier all the way.

HADACOL is great for thin, puny kiddies who are nervous, have easily upset stomachs and poor appetites because their little systems lack precious vitamins B<sub>1</sub>, B<sub>2</sub>, iron and niacin—elements so vital for growth and to maintain good health. HADACOL even helps build up the hemoglobin content of red blood (where iron is needed) to course through their bodies, bringing unbelievable new strength and energy. Sold on a strict money-back guarantee.

'Tis a Sad At St. Michan's Church; Bodies are Preserved

Dublin, Ireland — St. Michan's Church, built by the Danes in the 12th century, has more than one claim to its wide fame among tourists.

Its vaults are unique in Ireland, if not in the world, for bodies interred there do not decompose. This phenomenon is not supernatural but is attributed by scientists to the fact that the church was built on some form of bog ground, the properties of which have a preservative effect on human bodies buried there and on the wooden coffins in which they are encased.

The body of a Crusader, said to have taken part in the second Crusade, rests in one of the vaults. The skin, after more than 800 years, is like tanned leather, the finger joints still movable under the parchment-like covering.

The vaults are also bone-dry. Some years ago, a wreath of flowers was laid on a coffin and the wood-work began to rot. When the withered flowers were removed, the drying process began again but only after a certain amount of damage had been done. No flowers have entered the vault since that time.

In the little churchyard which surrounds the church stands a grave without a name or epitaph. Surrounded by a heavy railing, it is believed to hold the body of Robert Emmet, buried there by friends after his execution.

Inside the church is an organ, still in use, on which Handel played "The Messiah" for the first time in Ireland, before its first public performance in Dublin in 1742.

Anglers can't seem to agree on which type of oarlock is best. So we asked Willard Crandall, who is a boating expert and also a fisherman, to review some of them here.

North River oarlocks are permanently fastened to the oar by a pin which runs right through the oar. This type is not at all bad for the novice since the blade is in a fixed position and prevents him-making wild strokes. But you can't feather the oars or shift the angle of the blade.

The ordinary U-shaped oar lock has simplicity to recommend it. The locks can be taken off the oars if necessary. Most of these oarlocks have the tops of the U bent toward each other which keeps the oar from flying suddenly out of the lock; but unfortunately it makes the losing of an oarlock overboard more likely because the oarlock will come up with the oar instead of staying in the socket when the oars are taken out. It can slide off over the handle or down the blade if there is no collar to stop it.

The type of oarlock which consists of a ring that goes completely around the oar like a U-shaped lock only closed at the top has great advantages. With any sort of collar on the oar it can't be lost. And, of course, feathering and blade adjusting are perfectly easy with this type of oarlock. It is usually the rare favorite of experienced oarsmen.

The oarlock-and-socket combination in which the oarlock cannot be freed entirely from the socket, but is dropped down when not in use, is justifiably popular. Such an oarlock can hardly be lost or misplaced. It is U-shaped and always ready for an oar to be slipped into.

Some oarlocks have a swivel, rather than a shank and, the swivel fitting into a special socket, and such oarlocks aren't easy to lose overboard. Almost all types of oarlocks can be fitted with a short safety chain which prevents loss over the side.

Pvt. Bill Taylor, son of Mr. and Mrs. Mack Taylor, is also in the Marine Corps and is also stationed at Paris Island, S. C. We hope the two meet each other.

Mrs. Will Ward, of Drift, is undergoing treatment in Our Lady of the Way hospital. She is improving nicely.

In World War II 96 per cent of Marine officers and 89 per cent of Marine enlisted men served overseas.

**MOONSHINING SURVEY SAYS DRY NOT SO DRY AND LEGALLY WET NOT SO YOU KNOW WHAT — TAKE THE "REVENOOSERS" WORD FOR IT!**

These hazy bills have no monopoly on moonshining, according to a United Press release. The nocturnal industry is on the upswing all over Kentucky, the state which produces more bonded and blended whiskey than any other . . . and so is the moonshining business. Arrests of moonshiners in the first six months of 1950 totaled as many as in all of 1949. One reason given for the increase was stated by a Louisville investigator as "when people are out of easy money, our business picks up."

Although more than 90 of Kentucky's 120 counties are dry, a United Press survey points to the fact that they are not in a class with the Sahara. The survey indicated that it is easy to get a smort of red whiskey or moonshine in any of them, if you know the right person.

The investigator went on to point out that most of the large scale moonshining activities in Kentucky are conducted in wet counties. Nelson and Marion counties in the western part of the state have the most stills, and both are wet; Nelson having more legal distilleries than any other county in Kentucky, with the exception of Jefferson.

The moonshiner himself is no longer the bearded, bare-footed, juggling, gun-toting individual depicted by cartoonists and fiction writers. The modern counterpart of this outmoded figure is usually a man of above-average intelligence, wears "city clothes," and doesn't carry a gun. Furthermore, the investigator said that as a rule the moonshiner can be trusted. "He is honest and truthful about everything but moonshining," he added.

On the other hand, the "revenooer" is of necessity a "snooper" and a diplomat when he is on the search for a still, but he does not carry a gun, either. From experience the investigator is able to spot a likely place for a still and can tell from the condition of the mash when the moonshine will be run off. He returns at that time and makes his arrest.

Sometimes a tip on a still comes from another competing moonshiner, or from some long-suffering wife whose husband has been buying too much.

Moonshining is easy money, but there is a penalty for those who are caught, with a maximum penalty of seven years for the repeat offender.

**Desires Cited In U.S. Report on Inland Mine**

Washington, D. C., Aug. 4. (SpI). To supplement numerous desirable features at the Price No. 1 mine of the Inland Steel Company, Incorporated, at Price, Ky., a coal-mine reinspection report released today by the Bureau of Mines proposes a few further precautions. The mine employs 221 men and averaged 600 tons of coal daily when it was examined by Inspector George L. Mears in late June.

Blasting and coal dust control conformed with the Federal Mine Safety Code, as did timbering at the close of the inspection, Mears reported. The locomotives had been equipped with proper retarding devices and haulage was suitable with the exception of one locomotive which lacked an audible warning device, the report stated.

Ventilation was good, overcasts had been erected which eliminated the need for using doors on the main haulage way and the ventilating fan had been equipped with an automatic stoppage alarm, but the inspector advised making prestiff firebox examinations. Electrical installations were properly installed and overload protection had been provided for the trailing cables with the exception of those on five hand-held heels, the inspector said.

Other recent safety betterments included effectively allying excessive coal dust during cutting and loading, providing telephone service to each section, and adequately guarding the belt drives on an electric drill press and a power hammer.

**Enterprise Association To Meet at Pikeville**

Enterprise district Association of Baptists will meet with the Pikeville Baptist Church, August 24-25, the Rev. A. O. Allison, of Praise, Moderator, announced last week.

Dr. W. C. Boone, Louisville, will represent the Baptist State Board of Missions at the meeting. The Baptist churches in this area are expected to have a large delegation of messengers and to hear reports of increases in membership and gifts to missions. The Association will consider plans for the churches working together in simultaneous revivals in 1951.

The U. S. Department of Agriculture says coal or wood heaters do not usually have enough heating surface to be efficiently converted to oil or gas.
