This acknowledgment of the services of the teachers and pupils was but one of many voiced as the work progressed, by workers on the trail project. Long before the first tree planting ceremony was held on Veterans Day, Nov. 11, at Lancer, the teachers and pupils of the rural and consolidated schools had begun the gathering of young dogwoods. When planting actually started after the official ceremony, they had gathered over 5,000 trees.

### A Sign Your Life is in DANGER

You're driving on a dark-surfaced highway. The sky becomes overcast. It begins to rain. Traffic bunches up. You strain to see. "Slippery" warnings keep you tense. Then-suddenly you pass onto light-colored concrete. What a relief! Traffic moves out. No "slippery" signs. You know you're on a safer pavement.

Yes, the difference between a sickening swerve and a safe, quick stop often is the pavement. Concrete grips tires-helps you avoid accidents. Wet or dry, its gritty texture provides uniformly high skid resistance.

Remember, no driver expects trouble but if it comes your chances are much better on concrete pavement.

Remember, you pay more for poor roads than for good roads. Kentucky deserves the best-insist on concrete.
