This Town— That World

PROBABLY WASN'T A NATIVE
Once upon a time there was a Floyd county man who insisted on talking about such unimportant matters as the weather, predictions about crops, what high waters and freezes had done, how nice his neighbor was and what he planned to do about helping somebody in distress. And folks wondered about this queer individual, wondered what was wrong with him, why he wasn't as others were. Some decided he was just an old fuddy-duddy who didn't belong. He hadn't said a word about politics.

SUGGESTION
Plan to join the Easter Parade? Be sure it wends its way toward the Sunday School and church of your choice.

One of the less renowned writings of Ibsen, the famous dramatist, is that in which he declared animals should not be cruelly sacrificed for dissection and other scientific purposes. He suggested they use politicians and journalists as laboratory specimens.

IN APPRECIATION
Every weekly newspaperman who has besought larger organizations or business firms for news knows how coy these companies can be, how they will stall along till the middle of some week or till weekend, two or three days ahead of or after the weekly's publication date, and then let the dailies splash the yarn all over the place, leaving the "weakly" editor to gnash his teeth, if any.

But not all companies are like this. The Princess Elkhorn Coal Company is a wonderful exception. For instance:

This week, when Floyd county's Russell Harman was named vice-president and comptroller of Princess Elkhorn, the Powellton Coal Company and allied firms, David L. Francis, president of Princess Elkhorn, set a release date on the story for Thursday, so that "The Times" would get an even break with the dailies of Huntington and other cities. Then when Mr. Francis learned that we don't "hit the street" till early Friday morning, he re-scheduled the release date for

CHANDLER'S TALK HEARD BY OVER 500

Candidate's Address At Opening Headquarters, Scores Administration

"I invite inspection of my record as governor," said A. B. (Happy) Chandler in a speech at the courthouse here last Friday evening. Chandler, who was governor 20 years ago, now seeks to defeat Bert T. Combs, Administration-backed candidate for the Democratic nomination for Governor this year. "I'm running now to fill a vacancy," he told a crowd estimated at 500 persons.

His appearance here marked the official opening of Floyd county Chandler - for - Governor headquarters. Happy, in top form as a political candidate, charged judges of the Court of Appeals with having raised their salaries illegally while in office; took issue with the proposed toll road to cost \$40,000,000; alleged that waste and extravagance accounted for from 25 to 30 million dollars of tax money. He pointed out that his budget, when Governor, was 26 million dollars and that he had a surplus each year. The present administration has a budget of 86 million and no surplus.

John W. Hall, of Martin, introduced Chandler to an audience that contained delegations from seven nearby counties. Burnis Martin, Commonwealth's Attorney, presided and asked leaders of the pro-Chandler delegation from other counties to introduce members of their delegations. Among those present were Judge Irvin Pruitt and County Clerk Bessie Riddle Arnold, of Pike county; County Superintendent Beckham Combs, of County

AUTO WRECKS CLAIM 2 LIVES

Miller Is Fatally Hurt Near Here; Melvin Youth Victim Near Wheelwright

Highway accidents have claimed the lives of two young Floyd county men within the week.

The dead:
Donald Miller, 17, of Cliff, fractured skull and broken neck.
Billy Eugene Little, 19, of Melvin, skull fracture and chest injuries.

Little was injured last Friday noon when, leaving the home of his parents, John and Bessie Johnson Little, to go fishing, his auto hit a wrecker towing another car on the highway, near Wheelwright. He died at the Methodist hospital, Pikeville, at 2:30 a.m., the following day.
The other victim, a son of Mrs. Ella Stephens Miller, of Cliff, and the late Oscar Miller, was one of three youngsters in a pick-up truck which wrecked on U. S. 23, near Knotley Hollow, south of here, around 4 o'clock Tuesday afternoon. He was dead on arrival at the Prestonsburg General hospital.

Seriously injured in the wreck near here, but given a good chance of recovery, was Pfc. Abraham L. (Buddy) Greene, 19, of West Prestonsburg, who had only recently returned.

VERIFY FIFTH TYPHOID CASE

Second McDowell Case Not Confirmed; Vaccine Given Over 1,000 Here

A fifth typhoid case in this county was officially confirmed this week, and yet another was reported, County Health Administrator M. V. Clark said.

The confirmed case is Barbara Sue Lawson, McDowell school-girl, daughter of Mr. and Mrs. Deway Lawson. Another case has been reported from the same vicinity.

These cases, as well as one at Harold and three in Prestonsburg, are attributed to pollution left by floodwaters. The McDowell school was surrounded by waters of Left Beaver Creek.

A thousand or more school children and adults have received typhoid vaccinations here since the first case developed about 10 days ago. And the demand for this protection is over-taxing the health department's staff of nurses, Mr. Clark said.

Typhoid clinics were held at McDowell, Betsy Layne, Martin and Maytown immediately after the big rise of water, but attendance was slim.

Mr. Clark said first reported sufferers from the disease are recovering and that the cases that have developed to date are not severe. He said that all three Prestonsburg children who developed typhoid had been vaccinated last May.

MURDER TRIAL NEARING END

Verdict Expected Today; Jury Levies \$1,000 Fine In Magistrate's Trial

Ira Hamilton was given a life term this afternoon after 15 minutes of deliberation.

Trial of Ira Hamilton, of Beaver, charged with the slaying of his Kinsman, Bert Hamilton, was half completed in a single day, Wednesday. The case is expected to reach the jury, sometime today (Thursday).

The feature case of this first week of the new court was the firing of Magistrate John May, of Langley, \$1,000 upon his conviction Tuesday of assault and battery in connection with his attack in the Circuit Clerk's office last Oct. 4 on Commonwealth's Attorney Burnis Martin.

The fine is the heaviest ever imposed in this county on such a charge.
Circuit Judge Hill overruled the Magistrate's motion for a new trial. May executed bond after having been granted an appeal to the Appellate Court.

Also overruled by Judge Hill was a motion filed at the outset of the trial by May's attorneys, seeking to remove Commonwealth's Attorney Martin and to have appointed a Commonwealth's Attorney pro-tem for the hearing.

The maximum fine for assault and battery is \$5,000.
Martin testified that he was struck by May on the back of his head after he had entered the Circuit Clerk's office last October to inquire about some "cold checks." He said he did not see May until the latter hit him. Circuit Clerk W. W. Cooley, called as a witness for the Commonwealth, said May struck Martin.
The defendant testified, however, that he and Martin had been talking prior to the altercation and that he hit the other with the palm of his hand.

Fire That Burned Home Of Wheelwright Resident Claims Year-Old's Life

Verlin Isaac, year-old-son of Howell and Lily Wright Isaac, of Wheelwright, died in a fire that consumed the home of his parents at 6:45 p.m., Thursday last week. Two other children were in the home at the time of the tragedy but Tommy Lee, 3, led his sister, Clotie, a year younger, to safety.

Mr. Howell was at work in the mines at Wheelwright when his home burned, his wife was in the garden and two other children were playing in the yard. The child who was burned to death was asleep when the home caught fire. No house furnishings of any kind were saved.

Surviving brothers and sisters, besides Tommy Lee and Clotie, are Wilma Jean and Floris.

Funeral rites were conducted Saturday at 2 p.m. at the Isaac cemetery, the Rev. Berry Pass and Rev. Moore officiating. Burial was under the direction of Hall Funeral Home.

JURY MISSES USUAL CROWD

Court Opens Monday On Quiet Note; Judge Stresses New Dog Law

Circuit court opened here Monday morning on a quiet note—with brief instructions to the grand jury by Circuit Judge Edw. P. Hill and with the usual crowd at the entrance to the grand jury room strangely missing.

During the entire first day of court only four witnesses appeared before the grand jury, and these were prisoners in the county jail. Later, business picked up, but it still was only on a moderate scale.
As of Wednesday afternoon, only seven indictments had been returned.

Judge Hill pointed out, in particular, the need for enforcement of the new dog law. He advised the jury not to indict members of the fiscal court for failing to take necessary steps to effect enforcement, suggesting, instead, that the fiscal court be given time to set up in its 1955-56 budget, effective July 1, an appropriation of funds to carry on the work.

Alex Spencer, of Eastern, was named foreman of the grand jury. Indictments returned as of Wednesday were:

CHEMIST EYES INKY STREAM

Report Says Mine Water From Virginia Coal Mines Polluted Big Sandy River

Mercer Peters, Department of Fish and Wildlife Resources chemist, last week conducted a three-day investigation in the Virginia-Kentucky state line area into causes and effects of blackened waters of the Big Sandy river and one of its tributaries, the Russell Fork.

He returned to Frankfort without announcing his findings. John R. Redwine, Seventh conservation district supervisor, said Peters' report will be made public when his study is completed.

The Big Sandy, which had been muddy after one of its biggest floods, turned inky black early last week, but was clearing some this week. Conservation authorities found the situation unusually plaguing, because their investigation disclosed that the black water came from another state, Virginia, instead of Kentucky, and that there was little they could do about it.

It was reported here that coal companies near Splash Dam and Haysi, Va., on the Russell Fork of Big Sandy, were washing coal in preparation plants and had permitted the blackened water to escape into the Russell Fork.

Coal dust in streams clogs the gills of fish and is extremely damaging to fish life, biologists say.

COURT VOTES TRAVEL CUTS

Reduction May Cost County Asst. Agent; Some Funds Increased

A reduction made by the fiscal court at its meeting here Tuesday in his travel expenses for the year 1955-1956 may cost Floyd county its assistant county agent, it was said here Wednesday.

The assistant county agent's travel allowance was reduced from last year's \$900 to \$600. The minimum contribution from the county on travel expense, as set by the Extension Department, College of Agriculture, is \$900, and the cut means that Assistant County Agent Ervin C. Joseph will be transferred to some other county unless the allowance is increased.

The travel allowance of County Agent O. E. Boggs was reduced from \$900 to \$700, and this is below the state minimum also, it was said.

There is a possibility that Mr. Joseph will be transferred to Greenup county, The Times learned. He had figured heavily in the county agent's plans for development of the new Floyd farm program which includes work with 180 strawberry growers, 60 sheep-growers and those farmers who plan cultivation of 50 to 60 acres of commercial beans this year.

At the fiscal court's meeting Tuesday the salary of Miss Ann Garrett, clerk in the county agent's office, was raised from \$1,380 to \$1,800, and the miscellaneous expense item of the office was increased from \$320 to \$400.

The Soil Conservation Service appropriation was raised from \$500 to \$800, and the Floyd County Health Department fund was set at \$5,900 an increase of

BOARD PICKS SCHOOL NAME

Adds Four More Schools To Vocational Home Ec Program; Policy Defined

When the county school building being constructed here is put into use next fall the school will be known as Prestonsburg high school, the Floyd County Board of Education decided at its Tuesday meeting. The school when formerly operated jointly by the county and city boards of education was known as Prestonsburg and Floyd County high school.

At the same time the board decided to bear the extra expense of \$755 and change the dark tile planned for all departments except the home economics, lunchroom and laboratory to a lighter shade and a grade of higher quality.

It was announced by County Superintendent Virgil O. Turner following the board meeting that four more high school home economic departments have been added to the vocational home economics program, which affords home ec teachers in these schools a 10th month of work. These schools are Garrett, McDowell, Wheelwright and Prestonsburg when the latter is opened in its new structure.

Maytown and Betsy Layne were already on the vocational home ec list, and the new additions leave only Martin and Wayland off it. Under this program the home economics departments of the several schools will meet certain standards set by both the state and federal education departments, and the county system will be reimbursed with federal funds via the State Vocational Education Department, it was explained.

The board of education renewed its annual appropriation of \$2,400 for the Floyd County Health De-

Floyd Akers, Age 86, Victim at Harold Home; Burial in Rice Cemetery

Floyd Akers, 86, of Harold, died at home Monday of this week. He was a victim of the infirmities of old age. He was one of this county's best citizens.

He was a son of Levi and Nancy Hall Akers and was married to Eva Akers who survives. Mr. Akers was married three times; first, to Nanny Justice, second to Christine Jarrell and after her death to Mrs. Eva Hunter, who survives.

Surviving sons and daughters are Jeff Akers, of Harold, Mrs. Minnie Moles, Beaver, O. Miss Addie Akers, of Dana, Mrs. Anna Blevins, of Harold and Mrs. May Adams, Springfield, Mich. Brothers and sisters surviving are K. F. Akers, of Banner, George Akers, of Toledo, Mrs. Kate Dalton, of Alta Vista, Va., and Mrs. Ellen Kidd, of Dana.

Funeral services were held at 9:30 a.m. today (Thursday) at the Prater Creek Regular Baptist church, the Revs. Tack Hall, Luther Conn, Linnie Boyd, Sam Thomas, Walter Akers and J. P. Hall officiating. Burial followed in the Rice cemetery under the direction of Hall Bros. Funeral Home.

Middle Creek Raid Nets Three Prisoners; Bates Faces 2nd Charge

Deputy Sheriffs Amos Gray, Craft and W. B. Boyd arrested two men and a woman last Wednesday during a raid in the vicinity of Katy Friend on the Middle Creek road.

Clarence Prater and Minnie Horn were booked at the county jail on charges of possessing beer for the purpose of sale, and Miss Horn and Rex May were charged with fornication.
T. A. Bates, well-known Bypro man, began last Friday serving a 30-day jail term which with a \$100 fine had been imposed on him for possessing alcoholic beverages. Another warrant bearing the same charge was served on Bates at the jail, Wednesday morning.

Deputy Sheriffs Willie and Glenn Johnson jailed Glenn Moore last week on charges of drunk driving and hit-run driving, and Alfred Duff was booked Saturday by Deputy Sheriffs Al Patton and Obe Ousley, charged with possessing whiskey and drunk driving. Ollie Robinson, of the Spurlock section, was jailed the same day on a gin possession count.

CANCER GROUP ASKS HELPERS

To Serve in Fund Drive; Cancer Is No. Two Killer In Nation, Chairman Says

A call for volunteers to serve during April in the 1955 American Cancer Society's educational and fund-raising crusade was issued this week by Miss Mary Elizabeth Powers, chairman of the drive in this county.

"We still need workers for soliciting, clerical, and other organizational duties," Miss Powers said. The committee chairman has been working hard for several weeks preparing advance publicity for the drive and planning the strategy to be used during the month-long duration of the campaign.

"But just as the infantry is the basic unit of an army, so the volunteers who carry the cancer crusade to the front door of every home in Floyd county form the bulwark of our campaign organization.

Ceremonies To Mark 25 Years in Floyd

Alfred Lewis, 74, Dies At Daniels Creek Home; Was Life-Long Resident

A year's illness of heart disease resulted in the death at 8:45 p.m. Tuesday, at his home on Daniels Creek, near Banner, of Alfred Lewis, 74-year-old farmer.

Mr. Lewis was born in the community where he died and spent his entire life there. He was a son of Lizzie Lewis and was a member of the Methodist Church.
He is survived by his widow, Mrs. Emma Hunt Lewis, who has been an invalid 27 years, three sons, Albert and Robert Lewis, both of Banner, and Bill Lewis, of Pikeville, four daughters, Mrs. Eliza Adkins, of Amba, Mrs. Ida Lewis, Mrs. Eulevne Lewis and Mrs. Minnie Lewis, all of Banner. He also leaves 35 grandchildren and one great-grandchild.

Three Deer Are Seen On Mare Creek, Monday

Three deer were seen on Mare Creek Monday, having wandered there, it is presumed from the Dewey Lake area. Although no dogs were seen chasing the animals, residents said dogs were heard on the chase near where the deer were first seen. All attempts to get close to the animals failed and they disappeared into the woods north of the schoolhouse.

Floyd County Students Score With 48 Wins at Music Fest

Thirty-two students of six Floyd county high schools qualified 48 times for the State Music Festival last week in the three-day Pikeville Regional Music Festival at Pikeville Junior College.

Prestonsburg high school took top honors as 18 Prestonsburg students won 32 state-festival places—more than any other school in the regional meet. Martin placed eight students, McDowell four and Maytown, Wayland and Wheelwright high schools one each in the state fete, April 28 and 29, at Lexington, Dr. A. A. Page, college president, said.

State-festival eligibility, the only honor given in this year's Pikeville festival, went to 132 students in the meet's 32 events. Taking part were some 1,300 students of 21 high schools in nine Eastern Kentucky counties.

Besides those competing for trips to the state music meet, a number were entered for local performance and criticism only. The Pikeville festival is believed to be the only regional festival in Kentucky receiving entries on a local basis.

Randall Wells, Prestonsburg, broke his own record for one student's state-festival qualifications with six, topping almost every event he entered. Wells, winner in five events last year, took the individual top rating in trombone solo and baritone (vocal) solo, then repeated as a member of four state-rated groups—Prestonsburg's male quartet, mixed quartet, double quartet, and brass sextet. His only miss was with the school's 11-piece brass choir.

Prestonsburg's Gene Wright won state-meet eligibility in the same four groups—male and mixed quartets, double quartet and brass sex-

tet. His twin brother Ballard qualified in tenor solo, and was in the male quartet and double quartet, and Johnny Cook captured two awards, in baritone solo and double quartet. Also from Prestonsburg, Margaret Ann Collins won the top honor three times, in soprano solo and in both mixed quartet and double quartet; Winnie Sue Cooley qualified for state action both in clarinet solo and as student conductor of the band; Elizabeth Burchett won double honors with the mixed quartet and the double quartet, and Raybon Akers qualified in tuba solo and in the brass sextet.

Other Prestonsburg winners of the top rating were Joy May, in clarinet solo; Joe Marshall, in the school's male quartet; Katherine Roberts, Mabre Newman, Sherry Sirkle, and

Flood-Isolated Valley Suffered 'Biscuit Panic'

"We had a biscuit panic on Buffalo Creek," says Elbert Burchett of that section in referring to the stopping up of that valley by the recent record rise in Dewey Lake. "We were out of all the essential groceries and the only way to get any more was to use a trail over the mountains to Mare Creek. Several did," Burchett added.

There are three stores on Buffalo Creek but 41 water-bound families soon bought them out and the supply couldn't be replenished. What added to the grocery pressure was the fact that Missouri Creek, a tributary of Johns Creek, was shut off, too, from the outside world. Residents of that valley stepped up their supply purchases quite a lot on Buffalo Creek, when they climbed through the Day Branch Gap and began buying at the three little stores. All three merchants, Lee Justice, Harve Spears and Ollie Blackburn, could only show besieging customers their empty shelves. The "biscuit panic" lasted nearly four weeks.

A little desperate for feed and food, several farmers climbed the Paw Paw mountain to Mare

Creek, bought supplies at a grocery there. "Bringing a 100-pound bag of feed and a poke of flour on a mule over that mountain isn't my idea of a snap," one man said.

Mails ceased to get through, too. The little postoffice of Endicott and the office of Thomas at the mouth of Brushy Creek on Johns Creek, maintained, after several days of clean misses, a sort of loose connection that got the mails through. The mail carrier had a boat at the mouth of Brushy, and receiving mail there that had been routed through by Coal Run and down Johns Creek, it was carried on the mail man's back across a big mountain to Endicott. When the water receded it was brought to Prestonsburg.

It was pointed out by several residents that a bridge, the construction of which was contemplated on Buffalo Creek two years ago, had never been finished although the steel was delivered. The construction of the bridge would make it possible in future "biscuit panics", to get the mails, and the groceries through.

CHESS HELPS WASHINGTON

Chess helped George Washington win the Battle of Trenton, says Joseph Phillips in the April Reader's Digest. Although the American commander had tried to keep his attack preparations a secret, a Tory agent sent a warning note to the British general commanding the city. Absorbed in a chess game, the general absentmindedly slipped the message into his pocket. Several hours later, when he opened the note, it was too late.

CELEBRATED BIRTHDAY

Betsy Cottrell entertained twenty-five little friends on March 26 at her home on First avenue, celebrating her seventh birthday anniversary. Games were enjoyed from two until four o'clock. The lovely gifts received from her little friends were opened by her after which refreshments were served by her mother, Mrs. Fred Cottrell. Her birthday cake with Easter motif centered the gift table. A happy time was had by all present.

THE BIBLE IS A CATHOLIC BOOK

People differ radically in what they think about the Bible.

Some seem to think it was handed down from Heaven written in English and bound in morocco. Many accept it as the inspired Word of God without knowing why they are justified in doing so. And others say that the Bible is full of contradictions and must be taken "with a grain of salt."

A proper understanding of the Scriptures can exert a tremendous influence for good in your personal life. You should, therefore, know where we get the Bible... what it means... why you can believe its every word.

Nowhere in the Bible text will you find a list of the 73 inspired books of which it is composed. This list was given to the world by the Catholic Church almost three full centuries after the crucifixion of Jesus Christ. Between the time of the Crucifixion and the time that the Scriptures were gathered into a single Book, millions had received and accepted the teachings of Christ... and had died without ever seeing the complete Bible.

Established by Christ Himself and rapidly spread among the nations of the world, the Catholic Church was carrying on Christ's work for the salvation of men some 60 years before the Apostle John wrote his book of the New Testament.

For more than a thousand years afterward, the Scriptures were preserved and circulated by Catholic monks and scholars who laboriously copied the sacred text by hand. And the Bible authorized by the Catholic Church was the first book produced by Gutenberg upon the invention of printing.

Yes, the Bible is truly a Catholic book. They were members of the Catholic Church who, under God's inspiration, wrote the New Testament in its entirety.

It was the Catholic Church which treasured it and gave it to the world in its original and unaltered form. It is the infallible authority of the Catholic Church that always has been the only sure guarantee of its inspiration.

There are obscure and difficult passages in the Bible, some of which may seem confusing. But with the complete revealed truth of God, delivered to her from the beginning, the Catholic Church has faithfully unfolded the meaning of the written Word of God to past generations of mankind—and does so today.

Those who are familiar with the Bible, as well as those who are reading it for the first time, will find many important questions concerning it clearly answered in a free booklet which we shall send you on request. Ask for Pamphlet No. 3-N.

Getting Down To Cases

The Times is pleased to note that at last county officials are giving serious consideration to enforcement of the new state dog law. This newspaper has urged its enforcement, and has no apologies to offer for taking that stand, because it believes this is a good law.

Circuit Judge Edward P. Hill has, in effect, served notice that if nothing is done by the fiscal court by July next, the grand jury will be asked to act. The fiscal court, in turn, has called on the State Department of Health to relax its regulations to the extent that the dog warden would be permitted to inoculate dogs against rabies and thus earn a salary that would justify his fulltime work at the job.

Neither Judge Hill nor the fiscal court is being unreasonable. The Circuit Judge asked the grand jury to give the fiscal court time to set up in its budget, effective July 1, an appropriation sufficient to meet the expenses of the job. The fiscal court merely asked official permission to do what Pike county so effectively did without permission.

The State Department of Health is primarily interested, as it should be, in rabies control. Dog laws have been anathema in this section, and their enforcement should be arranged as quickly as possible while the people are convinced of its necessity. Relaxation of a rule is justified if it will serve the purpose of protecting human lives and also help this county on its way to a new industry such as sheep-growing at a time when the economy so sorely needs bolstering.

History in the Making

By the miracle of television millions saw recorded this week one of the most historic events of an era that overshadows the long history of man.

They saw Sir Winston Churchill step down as Prime Minister of Great Britain, and, so doing, they witnessed the passing from the world political stage of one of the rare geniuses to rise to power. Those now living may not see his like again. Pitt, Disraeli, Gladstone, Lloyd George—these are names familiar to the student of history; but none shines as brightly for all the halo history places around heroic figures of the past, as the bulldog figure with the black cigar.

Whatever one may think of the English, Churchill's figure stands out in bold relief against the backdrop of modern history. Soldier, writer, historian, artist, statesman, his is a genius of many facets.

Kentuckians like to recall that Winston Churchill's mother was a native of Virginia, which is only a few whoops and hollers across the mountains from us, and a state to which this Commonwealth once belonged.

Out-of-the-ordinary crops to be grown in Grayson county include tomatoes, pickles, popcorn, grain sorghum and strawberries.

To Conduct Revival At Baptist Church

Revival services start Sunday morning at the Irene Cole Memorial Baptist Church with the Rev. L. O. Griffith, Secretary of Promotion of the Southern Baptist Home Mission Board, of Atlanta, as guest evangelist. Services will be held each night during the week at 7:30. Some of the best in religious motion pictures will be shown during the revival. The ordinance of baptism will be observed at the morning worship service in what may be the first baptismal service ever broadcast by radio in this area.

All who do not otherwise have commitments to attend another Sunday school are cordially invited to attend the Sunday school at the church at 9:45 a.m. or one of the nine mission schools operated by the church in the county.

the dailies to conform with that distribution time for this newspaper.

I hope David Francis realizes how much we appreciate such consideration. Everybody has an even break as he has arranged it. I call that good public relations.

We try our level best to treat everybody alike in this newspaper's news columns, but such a favor recalls the statement a resident of Bull Creek made to the late Edward L. Allen, Prestonsburg attorney, a few years ago. "Ed," said he, "I never leaned one way or t'other in my life on a jury, but if I was on a jury and you were one of the lawyers, and if I did any leanin' it'd have to be in your direction."

If you've plumb run out of anything to worry about, try wondering if the freeze has killed off the dogwood bloom this year.

WASN'T SURE HE'D MAKE IT

Without pretext or excuse we relate here the story of the two neighbors who had no use whatsoever for each other following a good, solid disagreement of some sort or another, and spoke not at all except on Sundays. On the Sabbath both attended the same church, and there they forgot past differences enough to speak as if nothing had ever happened, then they would lapse into a belligerent sort of silence, come Monday.

These two neighbors were wont to become very happy during church services, and they gave vent to their happiness by shouting. On one such occasion both were shouting at the same time, and one said, as he passed the other, "John, if you get to heaven before I do, tell them I'll be there."

And the other gave answer: "I'll tell 'em what you said."

'Operation Poison' at Dewey Lake, Second Biggest in United States, Kills Off Huge Number of Shad

The Times last week said the Dewey Lake shad-killing operation was the biggest ever undertaken in Kentucky waters. Truth is, it's the second biggest ever undertaken in the United States.

A 10,000-acre lake was poisoned near Ardmore, Okla. Until then only one fisheries department had ever attempted the wholesale spraying of an impoundment of Dewey's length and area as a single operation. Larger lakes have been treated to dosages of rotenone, the chemical used at Dewey, but operations in these larger impoundments have been localized to small arms of the lakes and extended over a season of work. Most of the work at the Floyd county lake was done by airplane.

Results of the poisoning of Dewey Lake became more visible, days after the work ended. Countless shad floated on the surface, while an untold member had sunk. And the toll of carp, some of which were in the whopper

SCADS OF SHAD—These are some of the fish killed at Dewey Lake last week.

class, was pleasingly heavy. Some bluegill and crappie were killed, but the cost in bass was at a minimum.

Full effect of the treatment will not be known until later in the year, after biologists of the State Department of Fish & Wildlife Resources have completed a study of the lake such as was made last summer.

Better fishing, and soon, is predicted at the lake. In fact, a five-pounder and two or three of the lunker class bass were landed last Sunday.

For every 10,000 population, on an average, five persons will be saved from dying of cancer in 1955, but 14 will die and 45 will be treated for cancer. Give to the American Cancer Crusade.

Ira Luther Adkins Dies Of Heart Attack At Work In Michigan Plant, Monday

Ira Luther Adkins, formerly of Mare Creek, but for the last few years a resident of Parma, Mich., died of a heart attack while at work in a plant at Albion, Tuesday afternoon. Relatives here were notified that burial would be in a Parma cemetery.

Mr. Adkins was a son of the late Roland Adkins and Mary Stephens Adkins, of Tram. He was first married to Mildred Fife who preceded him in death several years ago. He remarried to Margaret Garrett who survives. Surviving also are five children. Brothers and sisters surviving are Charley Adkins, Wilburn Adkins and Leonard Adkins, all of Mare Creek, Mrs. Kate Perkins, of Tram, Mrs. Carlye Steffey, of West Virginia, and Tom Adkins, of Michigan.

Several relatives from this county attended the last rites at Parma, this afternoon (Thursday).

Thirteen of the Kentucky wells will be on a 113,000-acre lease-hold on the Fordson Coal Co. property in Leslie and Clay counties. Three contractors already have eight strings of tools busy on the lease-hold. W. B. Figley, district formen, is the company's representative in the drilling.

The contractors are Oliver Jenkins of Paintsville, Butch Martin, of Virgie, and Earl Prather, of Oil Springs.

One of the Kentucky wells will be on a 4,676-acre leasehold on the Majestic Collieries Co. and Hurricane Corp. farm in Pike county. United Fuel plans to drill to a total depth of 4,500 feet to test the Big Lime, Berea and Brown Shale formations.

Another Kentucky well will be on a 1,776-acre leasehold of the Martin P. Downing farm in Breathitt county. It will go to 2,550 feet to test the Maxon Weir, Brown Shale and Big Six formations.

partment work, and also agreed to defray the expenses to Huntington for the Tri-State spelling bee of the Floyd county champion and runner-up in the Herald-Dispatch bee held here.

Policy of the board as to use of school buildings for church services was re-defined. The board specified that all school buildings are to be made available to all denominations as long as no strife and major disagreements result in communities where these services are held. Each church group so using school structures will be responsible for care of the building it uses, and each is asked to use the services of the janitor regularly employed at the school for such services as opening and closing the building and sweeping. In the event of a major disturbance arising because of the use of a school building for worship, the school will be closed.

Deed for right-of-way for the Stone Coal road across school property on that stream was executed. The fiscal court was asked to set the school tax levy at last year's figure—\$1.50 per \$100 evaluation.

Mrs. Bertha Osborne, 51, Of Garrett, Is Victim At Paintsville Hospital

Mrs. Bertha Osborne, 51 years old, wife of James Osborne, of Garrett, died at the Paintsville hospital of heart and kidney complications, Saturday.

A daughter of Harve Stidham, of Garrett, and the late Darius Griggs by Stidham, she was a native of Knott county. Surviving, besides her husband and father, are a step-daughter, Mrs. E. J. Elson, of Cincinnati, two sisters, Mrs. Minnie Coleman, Centerline, Mich., and Mrs. Mae Hicks, Wayne, Mich., a brother, George Stidham, address unknown, one half-brother, Buster Stidham, of the Air Force in Japan, her step-mother, Mrs. Sallie Stidham, and a step-sister, Mrs. Rebecca Bingham, both of Lancer.

The funeral was conducted Tuesday from the United Baptist Church at Garrett, the Revs. Alex Coburn, Marion Chaffin and Banner Manns officiating. Burial in the family cemetery at Garrett was under direction of the Hall Brothers Funeral Home.

UK TO BE HONORED

The University of Kentucky and its president, Dr. H. L. Donovan, will be honored by the Newcomen Society in North America at the Society's 1955 Kentucky dinner to be held Thursday night, April 14, at the Phoenix Hotel in Lexington. By virtue of the University's being the institution chosen for the 1955 recognition, President Donovan will deliver the annual Newcomen address at the dinner.

DRAMA FESTIVAL STAGED

More than 200 young actors and actresses, representing 17 Kentucky high schools, took part in the annual Kentucky High School Drama Festival, held this week at the University of Kentucky. Winners in the three divisions were Murray Training High School, Daviess County High School and Eastern High School, Middletown.

DELAY CHOICE OF CAMP SITE

Dewey Location Among Eight Sites Offered For Regional Camp

The site committee planning to locate a new regional 4-H Club camp in this area met at West Liberty Tuesday and after receiving eight nominations for locations deferred final selection of the site until the proposed locations could be viewed by the committeemen in person.

Attending from this county were Marvin Music, member of the committee, Burl Spurlock, member of the finance committee of the regional 4-H organization and Irvine Joseph, assistant county agent. Dewey Lake in this county is considered a distinct possibility for the location.

Six counties in the 19-county area proposed eight different sites. Morgan county offered three. Elliott, Fleming, Carter, Boyd and Greenup counties proposed one each. The Morgan sites were either two farms on the Licking River and what was called Rube's Woods, a 60-acre tract which could be leased for 99 years, or longer; Elliott offered a farm site to be purchased for \$9,000, containing 76 acres on the Little Sandy River and would require a dam to insure boating and swimming; Fleming county has a State Park as does Greenup and these sites were nominated as locations. Carter Caves was sponsored by the Carter county group.

The site proposed by Music here is a 178-acre tract near Camp Shawnee, the Boy Scout camp on Dewey Lake, and contains 46 acres of level land with the rest rolling, to upland. It can be leased for 99 years with renewal rights. "Mr. Music presented an excellent case for this location," Joseph said.

Action will be taken soon after Jay Young, site committee chairman calls his committee together to view the proposed locations which will be in a matter of weeks. There are 19 men on the site committee with one from each county.

County Sheepgrowers' Meet Here Discusses Marketing, Breeding

The Floyd County Sheep committee met in the post office building here Monday evening of last week to discuss wool marketing and sheep breeding. One item of discussion, not on the agenda, but bringing considerable comment, was the consideration of the dog law.

The committee voted to sell wool sheared this year through the Blue Grass Sheep Association. Wool bags were ordered and are to be delivered here on April 27, which is the opening day of the sheep shearing school being offered farmers of this county by the Extension Service. It takes one bag to carry the wool from 15 to 20 sheep, it was said.

"Old ewes were so successful this season in high-average yield with vigorous lambs, that it was voted to continue their purchase next year," a member of the committee said. If farmers want them, a car of ewe lambs will be ordered this year, it was said. Two cars of ewes are now made up and will be shipped here in either late June or early July. Anybody wanting to purchase sheep may do so through Russell Hagewood at the First National Bank, who is secretary-treasurer of the committee. Virgil Smith, of Allen is chairman.

15 Vegetables Help Family Food Supply

At least 15 varieties of vegetables are desirable for the family gardens, say food specialists at the University of Kentucky. To quote them: "Include an ample supply of health-promoting green and yellow vegetables, such as greens of all kinds, parsley, lettuce, broccoli, okra, young green beans, peas, green peppers, asparagus, carrots, pumpkin, Hubbard and acorn squash and yellow sweet potatoes.

"Buy only good, dependable seed of recommended varieties. Locate a good source of plants of adapted varieties."

Results of surveys made for the American Cancer Society show that about two of every five American adults still do not know cancer is curable.

Chandler said that Wetherby had put a lien on the homes of recipients of old-age assistance, and promised he would undo it. He stated he wanted a fair distribution of the state's road money. Turning to the needs of the educational system of the state, he said he was not in favor of a "minimum program, but an adequate program with maximum support."

Turning to the relationship allegedly existing between Governor Wetherby and Senator Earle C. Clements, he said that the telephone bills between Frankfort and Washington were too high. Speaking of the recent appeal of the state officials for aid from Washington after the recent floods, he said they told Washington our road system was exceeded in decrepitude only by Arkansas. "I'm tired of hearing, 'Thank God for Arkansas,'" he told his audience.

While here Chandler was the over-night guest of H. D. Fitzpatrick, Jr.

ELECT HARMAN TO NEW POST

Former Floyd Countian Steps Up in Mine Group; Named Vice-President

David L. Francis, Huntington, W. Va., president of the Princess Elkhorn Coal Company, Tuesday announced the election of Russell Harman to the position of vice-president and comptroller of the company.

Mr. Harman also assumes the duties of vice-president and comptroller of the Powellton Coal Company, which has mines in Logan county; Mallory Stores, Inc., which operates a chain of stores in the mining communities served by the two companies; and Princess Coal Sales Company, selling agency for both Princess Elkhorn and Powellton, which markets the combined 2,000,000-ton annual production of the two companies.

Mr. Harman, son of the late Taulbee Harman and Mrs. Harman, was born at Auxier. He attended Floyd county schools, graduating from Prestonsburg high school. He later attended Morehead State College and Bowling Green Business University.

After teaching four years in the Floyd county schools, he joined the accounting department of the Mallory Coal Company at Mallory, W. Va., and in 1941 he was named auditor of the then-new affiliate, Princess Elkhorn, at David. In 1952 Mr. Harman moved to the Huntington headquarters of the affiliated firms as secretary and treasurer, a position which he still retains in his capacity as chief financial officer of the companies.

Mr. Harman resides at 720 Twelfth avenue with his wife, the former Geneva Clark, and their three children, Roslyn, Billy and Elizabeth Ann. They are members of the Johnson Memorial Methodist Church.

He is a member of the Tax Committee of the National Coal Association. In Huntington, he is vice-president of the newly organized Babe Ruth League, and is actively interested in girl scouting, the Little Leagues, the Biddy League and other community affairs.

Aged Puncheon Resident Dies of Heart Condition At Home Last Thursday

Mrs. Sarah Hall, 77, of Puncheon, Ky., died Thursday of last week at her home of a heart condition. She was a daughter of the late Harrison and Elizabeth Hall and the widow of Tommy Hall who preceded her in death in 1953.

Surviving children are Merdie Hall, of Puncheon, Granville Hall, of Pikeville, Mrs. Lizzie Thornsberry, of Puncheon, Mrs. Nora Thornsberry, of Bevinsville, Miss Alma Hall and Miss Helen Hall, both of Puncheon. READ AND WEEP, TAXPAYERS!

Is Floyd County Solvent or Bankrupt?

You have heard so many false statements about the members of the Taxpayers League. You are invited to take a look at the financial condition of Floyd county. This financial condition is your condition for after all the taxpayers pay the bills. Below we give some of the record. From time to time we will offer more for you to think on. After due consideration we want you to ask yourself a simple question. Is Floyd county bankrupt? We are not offering our opinion—we offer the figures and you form your own conclusions.

We don't know how much this county owes. We know some of it. For your information and consideration we print herewith a copy of a memorandum submitted by the county's own auditors, Allen and Hager, and made a public record. It reads:

Table with 2 columns: Item and Amount. Items include Clerical and court reporting, Office and jail supplies, Paupers, Hospitalization, etc., Insurance and Miscellaneous, Road work.

The list of claims submitted is not complete due to the fact they were not on file at the Clerk's office.

Respectfully submitted ALLEN & HAGER By R. R. Allen, Allen and Hager Audit submitted July 14, 1954.

The above represents to some extent the awful financial condition of this county. In other claims not on file, The Taxpayers League estimates, will be another \$50,000.00 or more. This would jump the above figure to least \$175,000. Also this county owes, according to a statement of the Budget Commissioners which can be seen at the Clerk's office, another \$189,000.00 in outstanding bonds. This will raise the figure to \$364,000.00 There are other claims against the county that will raise this figure still more.

Water and gas bonds \$230,000.00? Who is liable for this amount?

What do the taxpayers of this county want to do about this condition of bankruptcy? How long will it take to pay this indebtedness—20 years, 30 years or when?

There is a law controlling this affair but laws are not adhered to by no means.

We would like to have a statement from our County Attorney and County Judge, what they intend to do about this condition.

The Taxpayers League invites your study of the county's financial condition and if you are interested enough, contact any of the directors and they will gladly go over the books with you and explain where your money has gone.

Ella Phillips, in clarinet quartet; Carl Brickley, Janet Whitten, and Don Brickley, in the brass sextet, and other members of the double quartet, Sallie Hill and Dorothy Herald.

Other entrants passed to the state festival were:
From Martin—a girls' trio of Glennis Lafferty, Florence Blackburn, and Janice Sammons; Chady Lou Salisbury in baton-twirling solo, and Martin's group of twirlers, Shelby Calton, Billie Jean Martin, Chady Lou Salisbury, Barbara Sargent, and Maxine Taylor; from McDowell—Connie Gail Turner in French-horn solo, and the baton-twirling group of Bethelene Blanton, Carol Sue Cooley, and Janice Newsome; from Wayland—Barbara Martin in baton-twirling solo, and from Wheelwright, Bobby Jones in clarinet solo.

An outbreak of mumps forced two Wheelwright soprano soloists, Bonnie Hall and Clara Wallen, to drop out before the festival, it was said.

All eight senior-high school bands and eight senior-high choruses which were registered with the state-festival organization are eligible to go on to the state meet without regard to their performances at Pikeville. Included are Prestonsburg's 40-voice girls' chorus 63-voice mixed chorus and 47-piece band; Martin's girls' chorus. The Betsy Layne and McDowell high school bands were entered for local participation only.

Judges for the Pikeville festival were Rolf E. Hovey, head of Berea College's music department; J. William Worri, professor of music education at the University of Kentucky; Ford Montgomery, piano instructor at the University, and Gomer C. Pound, woodwind specialist at Morehead State College.

Tetanus Takes Life Of 11-Year-Old Boy At Martin Hospital

Tetanus, the time and place of its inception unknown, took the life of 11-year-old Bartemas Tuttle of McDowell, at Our Lady of The Way hospital, Martin, at 11 a.m., Tuesday. He had been ill 11 days.

Doctors were unable to locate any place on the boy's body that could be determined as the source of infection. Only a scratch, completely healed on his knee, may have indicated the place.

The boy was the son of I. B. and Bessie King Tuttle who survive. Surviving also are the following brothers and sisters: Mrs. Birdie O'Bryan, and Burnis Tuttle, both of Chillicothe, O.; Mrs. Opal Carter, of Lorain, O.; Cleta Ray Tuttle, of McDowell, Sally Jo Thurman, Cornelius, Patricia Ann, Shirley Marie and Lonnie, all at home.

Funeral rites will be conducted tomorrow (Friday) at the home at McDowell, and burial will be made in the Sizemore Gap cemetery under the direction of Turner Funeral Home.

\$300 from that of 1954-55. The Health Department had sought an increase of \$420, it was said.

The court adopted a resolution calling on Dr. Wayland Rhodes "to use his influence in securing a permit for the Floyd county dog warden, Roy Cook, to vaccinate dogs in this county". The resolution pointed out that the request is made because this county is at this time unable to budget funds for a dog warden. It pointed out that Mr. Cook has treated dogs for 15 years and is well-qualified to do such work.

Resignation of J. W. James as a commissioner of the Floyd County Water & Gas System was accepted. A successor was not named. His resignation followed by a few weeks that of Ray R. Allen, and it leaves only one commissioner, C. C. Craft, of Hueysville.

The court fixed the tax levy for the next year at the same figures that prevailed last year: 50c per \$100 on real estate and personal property, \$1.50 poll tax, 20c per \$100 on bank shares, 1% of the market value of crude oil produced in the county, and 2c per acre for the forest protection fund.

24,000 DIED OF CANCER

Last year, 24,000 Americans died of lung cancer, about seven times as many as in 1933. Early detection with chest x-rays twice a year can cut that toll. Support this effort by contributing to the Cancer Crusade.

Rob't Henson, 77, Beaver, Succumbs at Son's Home; Burial Made on Mud-cr.

Robert Henson, 77, of Beaver, died at 11:08 p.m. last Saturday at the home of a son, Beverly Henson. He was a victim of the infirmities of old age.

Mr. Henson was a son of the late Will and Darkie Bentley Henson and had married Darkie Hamilton Henson, who preceded him in death in December, last year.

Surviving children are, besides Beverly Henson, Levi and Effort Henson, both of Beaver. Brothers and sisters surviving are Mrs. Elizabeth Hall, of McDowell, Mrs. Frances Reynolds, of Ligon, and Mrs. Ella Tackett, of Wales, Ky.

Funeral rites were conducted at the home at 10 a.m. last Sunday, the Revs. Bert Hall, Joe Reynolds, Tink Osborne and Floyd Mullins officiating. Burial followed in the Reynolds cemetery under the direction of Hall Bros. Funeral Home.

Moore Announces For Senator

E. M. (Earnest) Moore, of Topmost, Knott county, Kentucky, seeks Senatorial seat in 29th Senatorial District composed of Knott, Floyd, and Martin counties.

I take this opportunity to announce my candidacy for the office of Senator of the 29th Senatorial District and to state my position on a few of the major issues that I feel should receive serious consideration by the people of our state. These issues are as follows:

I shall use all of my ability and energy to fight for repeal of the very unfair "Old Age Assistance Lien Law."

I shall use every honorable means at my command to see that the Minimum Foundation Law is fully financed.

My conscience directs me to feel very strongly that we should show our appreciation to our boys who fought and bled for us and finally brought us victory in World War II and the Korean War. I shall introduce a bill and work with all my prayer for its passage that will give these boys a long overdue State Soldiers' Bonus.

These and other issues will be discussed by me from time to time as the campaign progresses.

Master Commissioner's Sale OF REAL ESTATE (Dewey Lake Area)

On Monday, April 25, 1955, at the hour of 1 p.m., at the front door of the courthouse in Prestonsburg, Floyd county, Kentucky, I will offer for sale at public outcry the real estate hereinafter described, on a credit of six months, purchaser to execute a sale bond bearing interest at 6% per annum, with good sureties acceptable to the commissioner, which bond shall have the force and effect of a judgment, upon which at maturity execution may issue, sales under which shall be for cash and without stay. This sale is being made obedient to judgment of the Lawrence Circuit Court in case No. 1569-E, an action in which Laura Vires et als are plaintiffs and J. D. Nunnery et als, defendants; and the sale is made for the purpose of effecting a settlement of the estate of James Nunnery, deceased.

TRACT I. A tract of land on the waters of Johns Creek, Floyd county, Kentucky, consisting of the unsold portion of a boundary of land acquired by James Nunnery by deed from Wm. Crider of date March 4, 1898, and of record in Deed Book "U" at page 226 in the office of the Clerk of the County Court of Floyd county; by a second deed from Wm. Crider of date June 15, 1898, of record in Deed Book "W" at page 373; deed from J. D. Fraley of date November 3, 1916, of record in Deed Book 47 at page 144; deed from Henry Taylor of date April 29, 1917, of record in Deed Book 49 at page 369; but excepting therefrom a certain tract of land conveyed by James Nunnery to Lena Nunnery Steele by deed of date April 2, 1934, of record in Deed Book 100 at page 16 of the aforesaid Clerk's office, leaving unsold approximately 175 acres to be the same more or less; and excepting therefrom all the Oil and Gas in and under the land so to be sold. Further excepting therefrom a certain portion of the land above mentioned which was taken by the U. S. Government in connection with the Dewey Reservoir project described as follows, to-wit:

"A tract of land situate in the State of Kentucky, County of Floyd in Bear Branch, a tributary of Johns Creek approximately 17.0 miles above the Dewey Dam and more particularly described as follows:

Beginning at a cross mark on a rock on the left descending bank of Bear Branch near the edge of a farm road approximately 1100 feet upstream from the intersection of Johns Creek and Bear Branch, said rock being a point in the line dividing lands of Lena Nunnery Steele and the subject owner; thence, with and along the lands of said Steele,

N. 14 deg. 05 min. W 55 feet to a point in the said dividing line, said point being at or near the 690-foot contour above mean sea level as determined by a survey made by the Corps of Engineer in 1940; thence leaving the lands of said Steele and running upstream along the right descending bank of said branch, following generally the meanders of the said 690-foot contour and severing the lands of the subject owner as follows:

N. 51 deg. 39 min. E. 202 feet, N. 44 deg. 03 min. E. 270 feet, N. 45 deg. 30 min. E. 175 feet, N. 64 deg. 28 min. CARD OF THANKS
We want to express our thanks and deepest appreciation to all who helped in any way during the illness and upon the death of our husband and father, C. L. Collins. We would like to thank the ministers for their kindness and comforting words; to all who sent flowers and especially to the Hall Bros. Funeral Home for the kindness and sympathy shown us.

The Family

AFTERMATH OF FIRE—This is not a unique scene. Each year hundreds of the country's recreational areas are destroyed by fire. And the sad part is this: Most of these fires could be prevented for they are caused by carelessness, pure and simple. Be extra careful this year. Won't you? Help stop the shameful waste. LAKE MARKET COAL STARTS

But Opening of Lakes Not Seen Before May 15; Business Up for 1955

The first coal to start moving to Great Lakes ports from this section has been shipped within the last few days, but that market is not expected to open before May 15, Floyd coal operators said this week.

The May 15 opening of the lakes is later than usual but no later than that of last year. As of this week, the coal business is better in this section than at this same time a year ago. Yet the price of coal is no better. In fact, said one operator, the price of better-grade coal is still settling. Strangely enough, this situation prevails with coal of the better grades while the price of inferior coal is pretty well settled. It was explained that competition between larger producers for the steel market for better coals has driven the price of this grade downward and leaves it still unstable.

The 25 member-mines of the Big Sandy-Elkhorn Coal Operators Association worked an average of 49.39 days during the 1955 work period ending with the week of March 26. Last year at the same time the average was 36.93 days. Leading in this department was the Princess Elkhorn No. 1 mine at David with 63 days worked. Edgemont Mining Company with 59 days was second; Weeksbury with 58.2 days, third, and Floyd Elkhorn with 58 days, fourth. Other leaders in the number of days worked were: Princess Elkhorn No. 2, 57.5 days; Kathryn Elkhorn, 57; Columbia mines 1 and 3, 57; Consolidation at Hendrix, 54.6; Stephens-Elkhorn and Turner Elkhorn No. 5, 53 each; Liberty Elkhorn, 52; Pond Creek No. 2, 52.5 and Columbia No. 2, 50.

The week ending March 26 the Big Sandy-Elkhorn Coal Operators Association mines shipped 132,840 tons of coal, as compared with 138,790 tons shipped the same week of the preceding year. Tonnage to date this year totals 2,436,450, which represents a 15.46 per cent increase over the 1954 tonnage of 2,110,240 for the same 1954 period. Twenty of the 25 mines mentioned in the report showed tonnage increases over their 1954 record.

turned from Germany. Aubrey Gene Wyatt, of Abbott Creek, recently of the army, driver of the pick-up truck which smashed into a cliff on a curve, was only slightly hurt. He was booked at the county jail here on a drunkenness charge but was released Wednesday morning, Greene is in the Prestonsburg General hospital. He is a son of Perry Greene.

Two youths in the car with Little suffered bruises.

Tuesday afternoon's wreck was witnessed by John G. Heinze, of Prestonsburg, and Wayne Ratliff, principal of Wheelwright schools. The pick-up truck in which the three youths were riding entered the curve at high speed, hit the cliff, bounced off, then rammed the cliff again and turned onto its side, skidding along the highway. Young Miller was thrown onto the pavement.

Surviving Miller, besides his mother, are four sisters and three brothers, Miss Nora Miller, Kansas City, Mo., Mrs. Alex Hyden, Jackson, O., Mrs. Les Wallen and Mrs. Marvin Calhoun, both of Water Gap, Henry, James and Bill Miller, all of Cliff.

His funeral will be held from the Miller residence on the Auxier road Friday afternoon at 2, and burial will be made in the Langley cemetery on the Spurlock Fork of Middle Creek under direction of the Moore Funeral Home.

Little is survived by his parents, John and Bessie Johnson Little, of Melvin, five sisters and two brothers, Mrs. Margaret Gibson, San Diego, Calif., Mrs. Margie Hogsted, of Melvin, Mrs. Betty Lou Mullins, Dayton, O., David H. Little, of Melvin, John Little, Jr., of the army, stationed in California, Joyce Aileen and Bobby Jean, both of Melvin. Funeral rites were conducted at 1 p.m., Tuesday, from the Little residence, the Revs. Ollie Sammons and others officiating. Burial was made in the family cemetery at Melvin, the Turner Funeral Home directing.

Leaflet Describes Strawberry Growing

Strawberries can be as profitable as tobacco, it is stated in a new leaflet published by the College of Agriculture and Home Economics, University of Kentucky.

A yield of 150 crates an acre is comparable to 1,500 pounds of burley, and yields of 300 crates an acre are as common as ton-an-acre tobacco, it is claimed.

Information is given on establishing a patch or field, the kind of land to use, fertilizing, planting, cultivating, mulching, picking, grading, packing, shipping and other operations connected with producing strawberries.

See a county or home demonstration agent or write to the college at Lexington for Leaflet 145, "Payday in May from Strawberries."

MARKET PLAN STUDIED HERE

Meeting Is Scheduled To Promote Handling Of Berries and Beans

Marketing specialists of the Extension Service and other groups were moving this week to set up the needed organization to handle this area's berry and bean crop. First step will be taken Wednesday of next week when the Floyd County Strawberry Association's board of directors meet at the courthouse here. The second step will be a 12-county meet here on April 20 to talk about a regional marketing organization.

Guest of the board of directors of the Strawberry Association next Wednesday at the courthouse will be William Langfitt, a Huntington produce broker, who will tell the strawberry and bean growers how to handle their crops for successful marketing. Kermit Howard, president of the group, will preside.

The 12-county meet of farm leaders will hear W. I. Farmer, field agent in fruit and vegetable marketing, of the Extension Service, discuss problems of marketing. Recently he wrote O. E. Boggs, county agent: "The things we hope to get accomplished at the meeting are: (1) to discuss the marketing outlets, methods and procedures available; (2) to get the farmers to select an organizational committee; (3) to outline the organizational procedure for them. In this way every county will have the information and the decisions will rest with the farmers themselves."

It was pointed out that when a regional marketing organization is set up the services of a Federal grader will be made available to the group. If a crate of strawberries are marked, "U. S. No. 1," they will sell, anywhere, without question as to quality, it was said.

Twelve counties will participate in the April 20 meet. If Elliott county is represented. Other counties to be represented, Letcher, Floyd, Pike, Perry, Knott, Magoffin, Johnson, Martin, Lawrence, Morgan, and Carter.

"For volunteers who cannot participate in house-to-house solicitation, there are plenty of other equally necessary tasks to be assigned. Valuable service can be rendered by those who can do typing, addressing envelopes, filing, assembling of literature, mailing, or soliciting of funds with canisters in offices, stores, and on the streets."

Miss Powers explained that the cancer crusade has a much broader scope than just the solicitation of funds.

"The volunteers," she said, "will not only be seeking contributions, but will be appraising the public of the latest discovered facts about cancer. ACS literature, which will be distributed by the campaign workers, will describe common recognizable symptoms of the disease and will emphasize the importance of regular cancer check-ups. The public will be informed of the vital necessity of early treatment if sufferers are to be cured.

"Residents of our community also will be told how cancer dollars are used to fight the nation's Number Two killer in the Cancer Society's year-round program of research, services to patients, and professional and public education. Those who wish to take an active part in the fight to defeat cancer can volunteer for the campaign by writing Miss Powers here or by telephoning 2688, Prestonsburg.

COULD BE BETTER

Only 15 per cent of rectal cancers are cured today. Early diagnosis could increase cures to 70 per cent, the American Cancer Society says. Giving to the Cancer Crusade can help make this possible.

On cross-examination Martin said he suffered no broken bones and that the blows did not produce blood. He added that he did not see a doctor but immediately swore out a peace warrant against May. In his argument he pointed out that he was attacked while about his official duties.

In the Hamilton murder case the state had completed its testimony and the defendant had testified for the defense before adjournment of court, Wednesday afternoon. Defense attorneys are Tackett & Tackett, A. J. May and W. W. Burchett. For the prosecution Commonwealth's Attorney Burnis Martin is being assisted by his brother, Dan Martin, of Hindman.

The second conviction of the week was that of Jim Wallace, who was given trial in absentia for possessing alcoholic beverages, and fined \$100 and given a 30-day jail term.

WATERFIELD AND WETHERBY ARE BOTH CORRECT, SAID

Frankfort, Ky., March 30 — Was Governor Wetherby, or Harry Lee Waterfield, correct about what transpired between them during a political conference March 15 in Louisville's Seebach hotel?

A third person present at that conference, Harrison M. Robertson, Louisville attorney, supplied the answer today:

The original versions of the conference given by both men were substantially correct in their basic facts.

Waterfield, when he filed for the Democratic nomination for lieutenant governor on March 19 as the running mate of A. B. Chandler, declared he had turned down overtures from Wetherby that he withdraw from the race and manage the campaign of Bert T. Combs, the Administration-backed candidate.

Two days later, Wetherby said Waterfield had "misrepresented" conversations between them.

"Waterfield asked me to agree to his proposition that if my Administration would give him support for lieutenant governor, he would endorse Bert T. Combs for the Democratic nomination for governor," Wetherby said at that time.

In his letter to the Governor, attorney Robertson said:

"As I recall it, the meeting lasted 2 hours or more. Politicians do a lot of talking in that time, so I do not purport to remember exactly all the specific words that were spoken. My recollection is clear on what I believe was the substance of what was said.

"You outlined at some length the importance to the welfare of Kentucky and to the Democratic Party that Judge Combs be elected governor. You then stated that Mr. Waterfield could contribute greatly to this end and suggested that he manage Judge Combs' campaign.

"Harry Lee said that he had managed enough campaigns—that he wanted to be lieutenant governor. He then suggested that you and the Administration forces back him in the primary in the race for that office and that he would support the Administration forces' slate with him on it.

"You explained that you were not then in a position to try to have the Administration forces slate or endorse him for lieutenant governor—that might happen later but you made no commitment.

"The meeting closed with the understanding that Harry Lee would consult with some of his close friends and that within a week or 10 days he would let you know whether he would be willing to manage Judge Combs' campaign.

"I consider the meeting wholly exploratory with no final commitments by anyone."

Last Thursday, however, Waterfield branded Governor Wetherby's version of what had happened as "untrue." He said,

"In Governor Wetherby's statement he said that I made a proposition to him that if his Administration would give me its support for lieutenant governor I would endorse his candidate for the Democratic nomination for governor and make the race as his running mate.

"That statement and any implication to that effect is absolutely untrue."

Wetherby today merely pointed to attorney Robertson's letter, adding:

"In my statement of March 21, I said that Harrison Robertson present, at Mr. Waterfield's invitation, at the conference with Mr. Waterfield which I had at the Seebach Hotel in Louisville on March 15, and that Mr. Robertson was there throughout the discussion between me and Mr. Waterfield.

"I added that Mr. Waterfield told me that he would have to consider my suggestion that he join in helping to elect Judge Combs, and that he wanted to discuss it with other friends before reaching a decision. He told me that one of those with whom he wanted to discuss the matter was Phillip P. Ardery."

Ardery, law partner with Robertson in the firm of Robertson

& Ardery, also wrote this letter to Governor Wetherby, which the Governor made public today:

"I talked with Waterfield shortly after your conversation with him which was reported in the papers. He gave me the distinct impression that he would prefer to run with the support of the State Administration, if he could get that support.

"It seems a pity that the agreement to maintain a confidence about the meeting was not observed by Mr. Waterfield. This is made worse by the fact, that the statement he made did not fairly depict the attitudes of those concerned. In my mind there is no mistake about the attitudes Waterfield expressed to me."

The Governor said that both Robertson and Ardery had authorized him to make their letters public.

A Times Want Ad will give you good results, inexpensively, too.

STATE INCOME TAX ESTIMATE

Required of Taxpayer, R. H. Allphin Announces; 50,000 Taxpayers to File

Frankfort, Ky., April 6 — Commissioner of Revenue Robert H. Allphin reminded taxpayers today that the Kentucky pay-as-you-go income tax law provides for declarations of estimated income tax by persons not subject to withholding.

The Department of Revenue anticipates 50,000 Kentuckians will file a declaration of estimated 1955 income. Persons who make declarations are required to pay one-third of the estimated tax due by April 15, 1955. The balance of the tax due can be paid in two installments by July 15 and November 15, 1955. The declarations can be amended if the taxpayer estimates his income will vary from the first estimate.

The declaration requirement applies to all persons who expect to receive \$1,500 income, more than the \$1,000 of which is not covered by withholding. Thus, the requirement applies to those who are self-employed and those who work outside Kentucky and earn wages or salaries not subject to withholding.

Farmers—that is those individuals who earn at least two-thirds of their income from farming—may elect to file a declaration for 1955 estimated income by April 15 and pay one-third of the estimated tax. Farmers may elect, instead, to file the declaration anytime until February 15, 1956. If they prefer, farmers may file a final return for 1955 income by February 28, 1956, instead of a declaration.

These declarations should be made on Revenue Form 740-ES which are available at banks, county courthouses, county tax commissioners' offices, and Department of Revenue offices in Ashland, Covington, Lexington, Louisville, Frankfort and Paducah.

Allen Woman To Head Local Population Study

Supplemental questions on consumer income, migration and family characteristics will be asked in the U. S. Census Bureau's Current Population survey in April, according to Supervisor Selma D. Johnson of the Bureau's district office at Cincinnati, Ohio. The supplemental questions will be in addition to the regular employment and unemployment inquiries asked each month.

Supplemental questions on family characteristics asked in the Current Population survey in April of last year revealed that the estimated number of households in the United States increased from about 43.6 million to 46.3 million, or 8 per cent, between March 1950 and April 1954. The average annual growth in number of households during these approximately four years was about 800,000.

The Current Population Survey will be conducted locally and in 229 other areas of the country during the week of April 11. Local interviews will be handled by Mrs. Mary C. Mitchell, of Allen, Ky.

Supervisor Selma D. Johnson emphasized that all information about individuals furnished to the Census Bureau is held in absolute confidence under Federal law. It is used only to obtain summary figures such as totals, averages, and percentages for various groups in the population and not to show information for particular families or individuals. The information cannot be furnished to any other Government agency and this cannot be used for investigation, taxation or regulations.

Circular Deals With Irrigation

The interest in irrigation has brought from the University of Kentucky College of Agriculture and Home Economics a new circular dealing with the use of water to improve the yields and quality of crops.

Despite the 44 to 48 inches of rainfall in Kentucky in normal years, there often are periods during season when moisture is needed to keep crop yields from being reduced.

Many farmers already have installed irrigation systems for tobacco and other crops. Their results have attracted attention. In some instances increased yields in one year paid for the irrigation system.

Written by Earl G. Welch, agricultural engineer, the circular deals with irrigating tobacco, corn, alfalfa, pasture, truck crops and berries, the cost of irrigation systems, frequency of applying water, amount to use, sources of water, pumps, pipes and other equipment, and the new Kentucky law on water rights. Interested farmers should see a county agent or write to the college at Lexington for a copy. Ask for Circular 528, "Irrigation in Kentucky."

'Loyalty Day' Is Set By Governor Wetherby

Frankfort, Ky., April 6 — Governor Wetherby proclaimed Sunday May 1 as "Loyalty Day in Kentucky" and called upon citizens of the State to conduct appropriate programs in its honor.

"The American government is founded on principles of freedom with liberty and justice to all," the Governor proclaimed. "Vigilance must be kept to safeguard justice of our courts, to protect our freedom of thought, freedom of worship, freedom of speech and those many other liberties written into the Bill of Rights.

"Loyalty to the inalienable rights of men and redemption to those principles which have made America great are emphasized by the observance of Loyalty Days."

New Classification Plan To Lower Auto Liability Rates After April 1

Commissioner of Insurance S. H. Goebel announced approval of a new plan of classifying private passenger vehicles for automobile liability insurance rates in Kentucky, effective April 1.

"The new plan classifies private passenger automobiles in seven classes of risks for rate purposes and apportions insurance costs more equitably among those insured than the three-class plan formerly in use," Goebel said. "Under the new plan, less hazardous risk will pay a relatively smaller share of insurance costs than before. The more hazardous risks will pay a larger share.

Rates were reduced for certain types of private passenger car risks involving women operators under 25 years old—with rate reductions ranging from \$8 to \$17 depending on territory. Rates also were reduced for non-business cars with no operators under 25 years old and for farmers.

Rates to which revisions apply are for basic limits coverage, which means protection up to \$5,000 for bodily injury to one person, up to \$10,000 for bodily injury resulting from one accident and up to \$5,000 for property damage.

A TRIBUTE To Those Who Are "Getting the Message Through"

In cities and towns over the South today, thousands of men and women are maintaining a great tradition.

They are telephone employees who are on the job, and because of them, the messages are going through.

In our Company, we call it the spirit of service. This spirit never burned so brightly as it does today — in the hearts of the men and women at the switchboards completing the calls and at other vital posts of duty keeping the lines open — making sure that their communities have dependable telephone service 24 hours a day.

We salute them — for their sense of duty, their skill and their magnificent spirit.

We are deeply grateful for the patience, understanding and friendly cooperation of telephone users everywhere.

SPORTS CHATTER

By Gordon Moore

Ed Moore, former Prestonsburg and Catlettsburg all-state basketball and baseball prep star, will hurl for Mobile of the Southern Association this season. He is rated one of the brightest prospects in the Brooklyn organization, although he has spent 32 months in the Air Force. He is a son of Mr. and Mrs. Ed Moore, formerly of Langley and Allen, now residents of Louisiana.

Speakers of all-Americans, all-state, all-conference and all-etc.—George Shaw, Oregon's great quarterback, was not named all-anything last season, but he was the No. 1 choice of the professionals, the boys who play for pay and know what they are doing.

Ozark Worm farm of Willow Springs, Missouri, claims any person can earn \$200 or more a month raising and selling earthworms. For 25 cents they'll provide you with all the information you wish. If nightcrawlers go much higher, this may become a profitable business, now that Dewey is again a fishing lake.

The spring racing meet for Keeneland Race Course, Lexington, is set for April 14-28. Churchill Downs, Louisville, opens, April 30, and continues through May 31, with Derby Day on May 7. Reserved seats are still available at \$9.15 per head, for Kentucky's greatest single daily attraction.

Now is the time to order your tickets to the 1955 Kentucky-Tennessee football game. Write Ticket Director, Department of Athletics, University of Kentucky, Lexington, Kentucky.

Conference Schedules Baseball, Track Meets

The Eastern Kentucky Mountain four-sport conference scheduled its annual baseball tournament and track meet at its spring meeting Sunday in Pikeville.

To eliminate unnecessary travel, and because of the scattered locations of the nine members, the baseball games will be played in two divisions.

In one division, to be played at Jenkins, April 17, Hazard will meet Fleming at 10:00 a.m., and Jenkins will tangle with Whitesburg at 12 noon. The finals are carded for 2:30 the same afternoon.

In the other division, slated for Paintsville, April 25-27, Paintsville clashes with Prestonsburg at 2:30 p.m., April 25. Pikeville battles the winner at 10 a.m., April 27. Elkhorn City and Belry vie in the other bracket at 2:30, April 27.

The two division winners will meet for the championship in Elkhorn City on a date decided on by the respective winners.

Outgoing president, James V. Powell, principal of Elkhorn City high school, suggested that the track meet be held at Elkhorn City, April 28 at 1:00 p.m. (EST) and all members unanimously agreed.

All events sanctioned by the KHSAA will be reeled off. Hazard and Pikeville were declared co-champions of the EKMC cage loop since both had the same standings. The All-EKMC basketball team included: R. Blackburn, Belry; Gobel Salyers, Elkhorn City; J. Murphy, Fleming; Johnny Cox, Hazard; G. Gabbard, Hazard; C. Goins, Jenkins; Ralph Gilliam, Pikeville; Jack Deskins, Pikeville; Lowell Hughes, Prestonsburg, and B. Sexton, Whitesburg.

For the first time in eastern Kentucky, the nine circuit members will stage a preview football game in Pikeville, Tuesday, August 30, with each school to play at least one quarter.

After some teams failed to play the required number of loop games last season, the conference passed a new rule permitting any member school failing to schedule the required football games after an honest effort to play a non-member school on its schedule chosen by the Board of Control, and it shall count in the standings for the championship.

For the 1955 season, the Board of Control chose Benham for Whitesburg and Irvine for Hazard to give each school its required games.

Officers elected for the coming year are: Homer C. Davis, Jenkins high school principal, president; Bernard Mims, Pikeville high school principal, vice-president; Arthur Mullins, Elkhorn City high school athletic director, secretary-treasurer.

SPORTS AFIELD

An ounce of prevention is worth you know what, so right now is the time to rejuvenate your casting reel insists Jason Lucas, angling editor of Sports Afield magazine.

We'll concentrate on the casting reel for these reasons: In most fly fishing the reel is subject to very little wear and needs almost no attention; a spinning reel does operate on each retrieve, but it too can be said to be idle during the cast. These two reels can go through a long life without much oiling or other care.

The case is quite different, however, with a casting reel. During each cast it works fast and furiously—spool, crank and gears whirring, level-wind mechanism racing madly back and forth. Perfect smoothness is necessary; without it you'll have constant backlashes, short and difficult casts.

To avoid this, your casting reel needs pretty constant attention, which includes an occasional complete overhaul. Now is the time to do it, before the fishing season. Reconditioning a casting reel is a simple and interesting job that should not take over an hour. It calls for no mechanical aptitude, unless the end bearings are worn. So, before proceeding, see about those.

Remove the end caps. Take the spool between thumb and forefinger and shake sidewise. Look, or feel, to find out if there's a very noticeable amount of sidewise play. If there is, send the reel to its maker for new bearings; it cannot cast properly with worn ones. Let him do the whole overhaul job while he has the reel. It will cost very little, and he'll make it just like new.

But if the bearings aren't unduly worn, and nothing is bent, you can do the job yourself.

Remember when assembling the reel again, you work backward from what you did in taking it apart. If you have forgotten what some of these steps were, don't get annoyed or impatient and start forcing things; if something doesn't slide in to place easily, you've got it wrong. Try reversing it, or try another part there.

Pikeville Senior Scouts Plan Annual Net Classic; First Meet At Hazard

Plans were announced recently by the Pikeville Senior Scouts for the sixth annual East-West All-Star basketball classic, which is to be played in three eastern Kentucky cities this year.

The annual event, which was founded by the Scouts of Explorer Troop No. 1 in 1949, will feature twenty-four of Kentucky's finest high schools from the eastern and western sections of Kentucky.

Hazard, home of this year's Kentucky high school-boy cage king, will be the site of the first meeting, Tuesday, May 31. Thursday, 2 teams will clash, in a repeat performance in Paintsville and the final battle will be reeled off in Pikeville, June 4.

Two of Kentucky's top prep mentors will be named later to tutor the two teams.

Following the final game in Pikeville, Bruce Walters, star, will be presented as an outstanding player of the twenty-four.

The players will convene in Pikeville from May 29 to June 5 for a week of entertainment and sports. While there, they will be entertained by the various civic clubs and will have the opportunity to meet and talk with college coaches of the tri-state area.

Climaxing the week's activities will be a banquet at the Green Meadow Country club featuring a big-name speaker.

No other low-priced car even comes close to matching these important Chevrolet advantages...

If you're planning to buy a new car, the one you just can't afford to miss seeing is Chevrolet—for 19 straight years America's best-selling car. The Motormatic Chevrolet offers you so much more than the other low-priced cars that it's hardly fair to compare them. And even the high-priced cars don't have all the advantages that today's Chevrolet offers you.

The beauty's built-in—not bolted on! Chevrolet's beauty is inherent in the basic contours of metal and glass. There's no excessive bolted-on ornamentation to go out of style overnight.

The Body's by Fisher! You see Body by Fisher on lots of the high-priced cars—and only Chevrolet has it in the low-price field!

Today's most modern engines! That goes for Chevrolet's new V8 and two new sixes as well. All bring you a modern 12-volt electrical system—double the voltage of other low-priced cars. Then Chevrolet's new "Turbo-Fire V8" has the shortest piston stroke in the industry!

A drive to suit your driving! There's silky, peppery Powerglide (even

better this year!), new Overdrive (both extra-cost options), and a new Synchromesh transmission that's as smooth as they come.

All the power helpers you want! Windows, seat, steering, brakes—all are available with built-in "muscles" to make driving as effortless as you wish. They're optional at extra-cost—and worth it!

Come take the key! There have never been so many good reasons why you should drive a Chevrolet!

Over Ten Million Chevrolet owners—Two Million more than any other car!

No Bovine Tuberculosis Is Found in 200 Cattle Tested by State Vet

Of the 200 cattle tested for tuberculosis by Dr. Green, of the state Department of Agriculture, last week, not one was found to have the disease, it was said here Tuesday by County Agent O. E. Boggs.

The cattle were tested in a spot-check of the county's herds, including both beef and milk stock, and the tests provided a representative cross-section of the county.

The tests are made every three years in a cross-section study, and not a case of t.b. has been found in this county in the last 15 years. Had one animal been found infected, a thorough test on a countywide basis would have been made.

Dr. Green will return to the county later to test at least 50 more cattle for t.b., and also to make Bang's disease tests, the County Agent said.

Sheep Shipments In State Require Special Permits

Frankfort, Ky., April 6 — Prevalence of sheep scabies in states surrounding Kentucky, where the disease is widespread, today resulted in Dr. L. L. Breck, state veterinarian in the Department of Agriculture, ordering that sheep coming into Kentucky do so on special permits.

"Permits must accompany shipments along with health certificates issued at the point of origin stating that the sheep have been inspected and found free from and have not been exposed to scabies and have been dipped within 10 days prior to shipment under Federal-State supervision," Dr. Breck said.

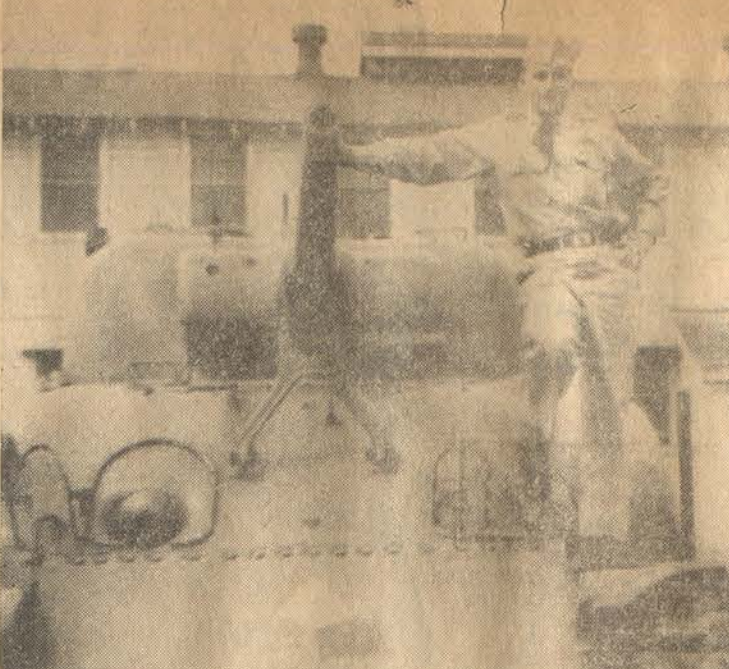

The state veterinarian notified all veterinarians, county agricultural agents and stockyards of the directive, and added:

"We have had no reported cases of sheep scabies in Kentucky since 1932. Let's keep Kentucky free of this dreaded sheep disease if at all possible."

The disease is especially widespread in Indiana, Ohio and Illinois, Breck added.

Big news about Buick's 4-Door Riviera

THIS brand-new kind of automobile—the sensation of all the Auto Shows this year—is now rolling off the Buick assembly lines in volume numbers. That's the first news.

And the second is just as wonderful—this dramatic new model is very definitely everything that eager buyers hoped it would be.

For the 4-Door Riviera is the first "hardtop" ever available with separate doors for rear-seat passengers—plus rear-compartment room big as a Buick-size family sedan.

It comes breezing in with all the low-lined sweep and wide open visibility of Buick's original 2-Door Riviera—and with luxurious new spaciousness in its sizeable and full-length 4-door body.

With windows down, no posts appear for the rear doors, and you get a completely unobstructed view at both sides.

You find rear doors are hinged at their front edges to swing wide and free, and assure easy entrance and exit.

And you'll find legroom, headroom and hiproom extra-generous both front and rear—with interiors tailored in fabrics and patterns specially reserved for the 4-Door Riviera.

Best of all, this new Buick beauty comes off the line in both the low-price SPECIAL Series and the high-powered CENTURY Series.

So you can pick your 4-Door Riviera with the potent performance of a 188-hp or 236-hp Buick V8 engine—the swift get-away and gas saving of Variable Pitch Dynaflo—the velvet stride of the Million Dollar Ride—the long list of Buick bonus features at no extra cost—and all at "great buy" prices that have helped move Buick into America's "Big Three" of best sellers.

But—better come see us about the 4-Door Riviera now.

With all-out production—and a prompt order—this newest excitement in cars will be yours that much sooner.

*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.

Harlan, New High Court Justice, Hears Associates' Opinions Read; Grandfather Was Famous Dissenter

John Marshall Harlan, distinguished New York attorney and jurist, took his seat on the United States Supreme Court March 28 after a solemn swearing-in ceremony.

The former circuit justice of the U. S. Court of Appeals heard his new colleagues read the day's opinions from the seat of the most junior justice at the far left of the court's mahogany bench. Then, chin in hand, he turned his attention to the arguments of the day.

By a unanimous vote the court held that a state may not use its own antitrust laws to halt picketing of a firm engaged in interstate commerce. The opinion, written by Justice Felix Frankfurter, said authority over such picketing rests with the National Relations Board rather than State courts.

In another labor case the court ruled 6 to 2 that a union may not sue to recover back pay allegedly withheld from its members in violation of a collective bargaining contract. Only the members themselves may bring suit, the court said.

Harlan, the 89th man to serve on the Supreme Court, fills the vacancy caused by the death last October of Justice Robert H. Jackson.

With its full membership of nine, the tribunal now can go ahead with its determination of how and when the states must racially unify their public-school systems. Arguments are set for the week of April 11.

Harlan's grandfather, after whom he was named, was the lone dissenter in a famous case that first laid down the "separate-but-equal" racial doctrine almost 60 years ago. (Harlan's grandfather was born in Boyle County, Kentucky. His father was born in Louisville. Harlan himself was born in Chicago.)

The marble-columned chamber was crowded with dignitaries as Harlan, attired in his black judicial robe, recited the judicial oath after Court Clerk Harold B. Willey. A tall, erect man with thinning gray hair and blue eyes, Harlan promised "to do equal right to the poor and to the rich."

Spectators included Harlan's wife; his daughter, Mrs. Wellington Newcomb, New York, and his 86-year-old mother, Mrs. John Maynard Harlan, also of New York, who watched the ceremony from a wheel chair.

Earlier, in brief orders, the court rejected the first appeal filed by Adlai E. Stephenson since his return to private law practice after his defeat in the 1952 presidential election. Stephenson represented the Radio Corporation of America, which sought to block trial of a Zenith-R. C. A. patent suit in Chicago until a similar suit in Delaware has been decided.

Plot on Smith Farm Demonstration Site For Fertilizer Study

One of Eastern Kentucky's two fertilizer test demonstrations was established at Virgil Smith's farm at Allen yesterday (Wednesday) by the University of Kentucky's Extension Service, S. H. Phillips, field agent in agronomy said. The second demonstration is in Lawrence county, near Louisa, Mr. Phillips added. All told, there are only 18 such fertilizer demonstrations in the entire state.

Four plots of land, each 100 x 40 feet, were laid off on the Smith farm. Two plots will receive the usual fertilizer treatment as recommended after soil-tests are made and the other two will be treated to double this amount.

"We are trying to find out how to produce good pastures, keep the legumes in the pastures, maintain a good legume balance, how much money to put into fertilizer and the effect of fertilizers on the year-round pastures," Phillips explained. He added that the test demonstration would run five years. Location of the test plots were made at the Smith farm so interested farmers may view the results, the agronomist said.

Scout Circus Plans Advance as Meeting Held Here, Recently

Preparations were advanced for the holding of the Boy Scout Circus at Pikeville, May 14, when a meet was held here, Tuesday, March 28, and the program committee reported its job practically complete. The recent meet of Scout leaders was held at the First Methodist church and persons interested in Scouting from the Lonesome Pine Council were present.

The Scout Circus, the first of its kind to be staged in this section of the country, will be a panorama of Scouting activities. One item of the program will be the pageant of Jenny Wiley, as written by Henry P. Scaif, chairman of the program committee. James Owens, local Scout executive, is adviser to the program committee and is assisting with the major burden of piecing together the program to be presented.

The presentation of the Wiley pageant at Pikeville will be the second time Scouts from this area have offered it. Two years ago parts of the pageant were presented at the World Scout Jamboree in California.

ENTERTAINS TEAM AND COACH

The Men's Fellowship Club of the Betsy Layne and Vogel-Day Methodist churches entertained the Betsy Layne high school basketball team and Tom Boyd, coach, at its regular dinner at the Vogel-Day church at Boldman at 7 p.m. last Friday.

RECOMMENDS BONDS

Sandy MacGregor says: The Scots have contributed many a guid thing to the makin' of America, and one of the best is plain ole thrift. And the easy way to thrift is the payroll plan for buyin' those bonny Savings Bonds.
