D. A. R. ELECTS NATIONAL AND STATE DELEGATES

The February meeting of John Graham Chapter, Daughters of the American Revolution, was entertained Feb. 14 by Mrs. R. V. May at her home on Arnold avenue. Mrs. Winnie F. Johns, the regent, presided, Mrs. H. L. Mayo, second vice-regent, conducted the ritualistic service. Plans and dates of the 65th annual conference to be held at the Brown hotel in Louisville, March 15-17, were read from the state regent, Mrs. Collis P. Hudson. Mrs. Thomas Henry Lee, candidate for national president, will visit the state conference and will be guest speaker at the regents' dinner, March 15. Miss Gertrude Carroway, national president, will be the honored guest and speaker at the state banquet on March 16.

The regent appointed a committee, Mrs. J. W. McIntosh, Mrs. Greenville Spradlin and Mrs. Ed May to collect contributions to Duncan Tavern to go on new indebtedness of real estate purchased adjoining the tavern. A gift of \$5 in honor of Mrs. Winnie Johns, the regent, will be added to the Sarah Hudson Chest Fund at the Tavern. Plans were formulated for a colonial dance to be given Feb. 24, at the new high school building for the Dogwood Trail association of which Mrs. Johns is president.

Delegates and alternates elected to the state conference are Mesdames Winnie F. Johns, Grace D. Ford, Joe Hobson, Greenville Spradlin, Everett H. Sowards, Joe M. Davidson, Claude P. Stephens, J. W. HOUSE VOTES
AID PER PUPIL

\$80 Minimum Approved;
Other Legislative Acts
Claim Local Interest

The Kentucky House of Representatives last Thursday acted to strengthen the Minimum Foundation program for education by voting to guarantee each public school district in the state at least \$80 per pupil in average daily attendance.

The bill piloted through the House by Representative Brooks Hinkle, a Paris school principal, was tagged as an administration measure with the full backing of the State Department of Education.

The bill provides for a single foundation-program fund to take the place of the per capita account and the equalization account now in operation.

Money will be distributed to the school districts in accordance with the minimum-foundation program. If the total does not average \$80 for each pupil in average daily attendance in the district, the State will make up the deficit.

The bill passed today also makes adjustments in the educational requirements for the various teacher-salary grades.

It requires that local and state allotments for teachers' salaries and capital outlay must be used only for those purposes.

Another bill which passed the House last week was that introduced by Rep. Paul E. Young providing that the police judge in cities of the fourth class shall be elected by the voters of the city at the general November election.

Prestonsburg is a city of the fourth class. Police Judges are appointed by the city councils of such cities under present law.

Floyd legislators figured in the sponsorship of various bills. Approval of the local fiscal court would have to be obtained before the Commissioner of Fish and Wildlife Resources could authorize the use of fire, explosives or gas to destroy the den of any furbearing animals, under terms of a bill offered in the House by Rep. David Martin, Jr., of Hi Hat.

Meetings of all public agencies would be required to be held in the open, with secret sessions being outlawed, if a bill sponsored in the House by Reps. David Martin, Hi Hat and Lon C. Hill, Prestonsburg, is approved.

In addition, the same two representatives along with Rep. Goebel Newsome, Elkhorn City, proposed to make it mandatory that State Auditor's reports be required to be published in local newspaper with the largest circulation in the affected area.

The General Assembly approved and sent to Governor Chandler for approval a bill to require natural gas producers to supply consumers living within reasonable distance of their pipelines at rates to be fixed by the Public Service Commission. The bill was sponsored by Rep. Bill Cornett, Hindman, and Senator Doug Hays, of McDowell. The legislation, it was said, applies only to gathering lines.

State Senator Hays proposed a bill in the Kentucky Senate to permit local option elections on whether to permit the legal sale of 3.2 "nonintoxicating" beer in local option (dry) territory.

Firms in labor surplus areas would be allowed a 20% differential in bidding on public contracts, under terms of a proposal offered in the Senate by Senator Hays, who hails from an area that has been suffering economically. The bill would direct that such contracts be awarded to contractors and suppliers in such areas where the price in differential is not greater than twenty per cent.

STRAWBERRY CRATES

Floyd county strawberry growers will be interested to know that the county association has 2,600 strawberry crates and are offering them to growers in the county. The crates not taken here may be turned over to the East Kentucky Strawberry Growers Cooperative Association.

These crates are available at last year's prices and are \$7 less per hundred than they can be replaced for at the present time.

K. R. Howard, president of the Association, is urging all Floyd county growers to take advantage of this price difference immediately.

After 48-Day Illness

A. R. Matney, 59 years old, of Dwale, succumbed to a 48-day illness of cancer at Our Lady of the Way hospital in Martin at 2 p.m., Tuesday.

Matney was the son of Aaron Rice Matney and Syrena Sizemore Matney, of Knott county. He is survived by John H. Matney, a brother, of Oceana, W. Va., and a sister, Mrs. Ruth Dean, McConnell, W. Va. A veteran of World War I, he belonged to the Fraternal Order of Eagles, the American Legion, Veterans of Foreign Wars and Order of Moose.

The funeral was held today (Thursday) at 10 a.m. at the Church of God at Dwale. Burial, under the direction of Hall Brothers Funeral Home, was made in the Leslie cemetery at Emma.

Contract Carrier Service
Denied Louisville Man

Existing contract carrier service being sufficient in the area sought to be served, the State Department of Motor Transportation last week denied application of Ben Becker, Inc., 4407 Jewell Street, Louisville, for a contract carrier permit authorizing transportation of products of Standard Oil Company, Inc., Louisville, to points in Eastern Kentucky.

It was proposed that the service be rendered between Louisville on the one hand and Allen, Ashland, Fleming, Jackson, Lohair, Manchester, Paintsville, Pikeville and Weeksburg on the other.

Families in Laurel county have ordered approximately a million strawberry plants from the Cumberland Strawberry Growers Association.

Rabid Foxes Increasing
Health Department Says

That rabid foxes were on the increase in Kentucky was pointed out this week by a report of the State Department of Health. In the fiscal year of 1953-54 only 23 foxes were diagnosed as rabid by the department but the fiscal year of 1954-55 had 52 rabid fox diagnoses.

The number of rabid dogs decreased from 338 in the first named period to 115 in the last, according to the report.

"It is apparent that the number of cases in dogs has been reduced by approximately two-thirds, while in foxes the number has more than doubled. The number of cattle has increased slightly, while in all other animals the cases have dropped to less than half, with a 50% reduction in total cases," the report said.

"There were 27 counties which had one or more confirmed cases of rabies in foxes. The majority of these counties were in the eastern part of the state; however Jefferson county reported ten cases. Breathitt and Henderson each had five cases; Lee and Madison, three cases each; Boyd, Hardin, Estill, and Jessamine, two cases each; and the remainder—Bath, Boyle, Owsley, Clark, Elliott, Shelby, Wolfe, Woodford, Jackson, Oldham, Christian, Menifee, Morgan, Powell, Hopkins, Nelson, Rowan and Lawrence—each had one case."

Appliance Demonstration
Witnessed by Sixty

Sixty persons attended the clothes dryer demonstration given at David, Feb. 8, by the Home Appliance Company, Prestonsburg, according to Don Phillips of the Big Sandy R. E. A. Cooperative, Paintsville. Three more demonstrations are planned—one in this county and two in Johnson.

WHY hold back from the fun and thrill and pride of bossing a Buick—when you can boss such a big and strapping beauty for the price of a smaller car?

Hard to believe? Listen... If you can afford any new car, you can afford this brawny Buick SPECIAL Sedan—for a very simple reason. This Buick is priced within a few dollars of the well-known smaller cars—and actually costs less than some models of those very same cars. (The price we show here proves that.)

Want more proof? For two years in a row now, Buick has outsold every other car in America except two of those well-known smaller cars. And you can bet your bottom dollar that it takes bedrock prices to stay in the Top 3 of the nation's best sellers.

But even that isn't the whole story—not by a long shot. Folks are buying Buicks in record numbers because they find in these big beauties a lot more automobile for the money. They find here more styling freshness and distinction—more snap and ginger and power thrill—more comfort and luxury—more ride stability and steadiness—and more structural solidity and pure automobile than the same money buys elsewhere.

So if you want to move into the big-car travel world at a small-car price—if you want to have the time of your motoring life with the lift and lilt and pride and prestige of a beautiful new Buick as your very own—what's holding you back?

Drop in on us right quick—tomorrow, maybe?—and we'll show you the biggest bundle of high-powered Buick ever offered in America's low-price field.

Live Telecast To Show Ohio Valley Development Over WSAZ-TV in April

The industrial development story of Huntington and the Central Ohio Valley will be shown in live telecasts over the National Broadcasting Company originating from WSAZ-TV in April.

Announcement was made last week by Lawrence H. Rogers, vice-president and general manager of WSAZ, Inc., that the station in co-operation with the Huntington Chamber of Commerce has completed plans to originate NBC's "Today" program, 7:00 A.M. to 9:00 A.M., April 24 and 25th.

According to Rogers, the entire cast of "Today" including star Dave Garroway, reporting personalities Jack Lescouie, Frank Blair, Lee Ann Meriwether, and the chimpanzee mascot J. Fred Muggs would all be brought to Huntington with a crew to telecast live from area locations utilizing the facilities of WSAZ personnel and equipment.

It is planned to arrange a special meeting of the Governors of West Virginia, Ohio and Kentucky on the program one morning to discuss the potential of the area now developing.

The schedule of features forming the major portion of the telecast each day will be concerned primarily with industry in Huntington and the Central Ohio Valley including Ohio and Kentucky.

It is contemplated that the show will originate from locations on the Ohio River, various industrial and transportation developments, as well as the studios of WSAZ-TV.

Governor Seeks Approval For State Road Program

Frankfort, Ky., Feb. 13 (Spl.) — Public approval of a bond issue to finance an enlarged highway development program in Kentucky that may go as high as \$200,000,000 will be sought by Governor Chandler.

The Governor revealed his plans to a State-wide advisory committee — more than 40 members of the group being present. The group is headed by William F. Foster, Mayfield, industrialist.

The plan of the governor is to correlate Kentucky's road program with any federal road building plan that may be developed, and take full advantage of any federal funds that may be available on a matching plan. President Eisenhower has suggested a plan of 9-to-1 that is \$9 of federal funds to \$1 of state funds.

Such a program could easily result in more than \$1,000,000,000 being spent on the improvement of Kentucky's highways. A survey last fall made by an outside group estimated that it would cost approximately \$2,000,000,000 to bring Kentucky's highways up to proper standards, and to meet needs of the foreseeable future.

The bond issue method is desired by the Governor as a feasible and practical approach. It will be submitted to the people, as the Constitution forbids the General Assembly from living beyond its current means—authorizing a \$500,000 limitation to take care of casual deficits only—but allow for popular approval of bond issues.

The Governor praised the Advisory Committee headed by Foster for giving "unselfishly of their 'time and talent' to public affairs. He promised that he would submit a 'sane' and 'sensible' budget to the General Assembly at a coming special session.

Phyllis and Elmonia Proctor, Oldham county 4-H girls, sold 699 pounds of tobacco for an average of \$60.26 a hundred.

FRAUD RACKET IS REPORTED

Unlawful Persons Posing As Internal Revenue Men, District Director Warns

Warning was given this week by Wm. M. Gray, district director of Internal Revenue, to Kentucky taxpayers to be on their guard against being defrauded by persons posing as Internal Revenue field officers as has happened recently in several cities in Ohio, in Covington, Kentucky and in New Albany, Indiana. The method followed by such individuals usually is of a pattern:

A strange person visits a taxpayer, usually a small businessman, asks to see his books and then informs him that he owes the government a specified amount. The imposter attempts to secure cash in payment. In several instances these imposters have quantities of various tax forms which they use to "window-dress" their activities. Of course it is well known that tax forms are available to everyone and should not be given any weight in a situation of this type.

Mr. Gray went on to say that all Internal Revenue field officers carry very distinctive credentials or means of identification which consist of a black leather folder with the Treasury Seal stamped over parts of a picture and the signature of the Agent, together with the signature of the regional commissioner of Internal Revenue, on the inside. All taxpayers should demand to see this identification folder when anyone purporting to be an Internal Revenue officer.

Mr. Gray also requested that any one who has been approached by a person posing as an Internal Revenue officer contact immediately the nearest office of the Internal Revenue Service or the Federal Bureau of Investigation.

Chandler Proclaims "President's Day"

Citizens of Kentucky, especially school, were urged by Governor Chandler to observe March 5 as "President's Day" in honor of the office of the President of the United States.

The Governor, in a formal proclamation, suggested that "prayers be offered in all places of worship, in homes, and at all public gatherings on that day for Divine Guidance of our Chief Executive and the continuance of the freedoms guaranteed under the American flag by the Constitution."

The Governor especially suggested engaging in projects relative to Presidents of the United States, and that interested organizations prepare suitable programs for the occasion.

"The office of President of the United States of America is the highest and most important which a citizen may attain, and it is the living and working symbol of the American flag, and the Constitution of the United States," the proclamation continued. "Religion is our most vital asset, and our nation was founded on the authority of our Creator as the very foundation of our 'life, liberty and the pursuit of happiness . . . and it is refreshing to remember and reaffirm our faith in God and our system of delegated authority under Him."

Gov. A. B. Chandler, left, holds the handle of the Silver cup presented to him as "The Kentuckian of the Year," an honor given annually by the Kentucky Press Association at their winter convention in Louisville. Standing with the Governor is William C. Caywood, Jr., editor of the Winchester Sun and outgoing president of the Association.

Highway Program Set-Up Change Urged by Wells In Memo to Humphreys

Frankfort, Ky., Feb. 8 — Rural Highway Commissioner J. B. Wells, Jr., today recommended closer coordination of the rural-highway and rural-secondary-highway programs.

Under present Department of Highways organization, Wells directs the rural-secondary-highway programs, which is financed by the 2-cent gasoline tax levied for that purpose.

The rural-highway program—financed by a \$5,000,000 appropriation from the Legislature—is handled by George Hailey, director of rural highways.

Wells would supervise both programs under the recommendations he made in a memorandum to Robert Humphreys, commissioner of highways.

The rural-highway commissioner also recommended a reduction in State standards for some rural secondary roads. He said money could be used to better advantage and provide roads to some areas where they are needed most.

The change he recommended is to delete the 60-foot right-of-way requirement for a road to qualify for the rural-secondary program. In some instances, he said, the 60-foot right of way takes up the entire strip of tillable land in mountain valleys.

Wells would permit rural-secondary funds to be used for some such county roads, but the roads would remain under county ownership.

Wells also would make a change in the maintenance of rural highways and rural-secondary highways. He recommended that special maintenance crews be put to work on these roads, to work independently of the maintenance crews who work on primary highways.

Farm and Home Development Clubs have been organized at Hardin and Palma in Marshall county.

Dr. Addie M. Lyons Returns to Old Post

Frankfort, Ky., Feb. 13 — Dr. Addie M. Lyons, Ashland, has returned to the first position he held with the state, superintendent of the state's institution for Feeble-minded, now known as the Kentucky Training Home. He became head of the institution in 1926 and held the post for ten years.

Since that time, Dr. Lyons has served as superintendent of Western State Hospital, Hopkinsville; Central State Hospital, Lakeland; head of the division of Hospitals and Mental Hygiene in the Department of Welfare and Commissioner of Welfare.

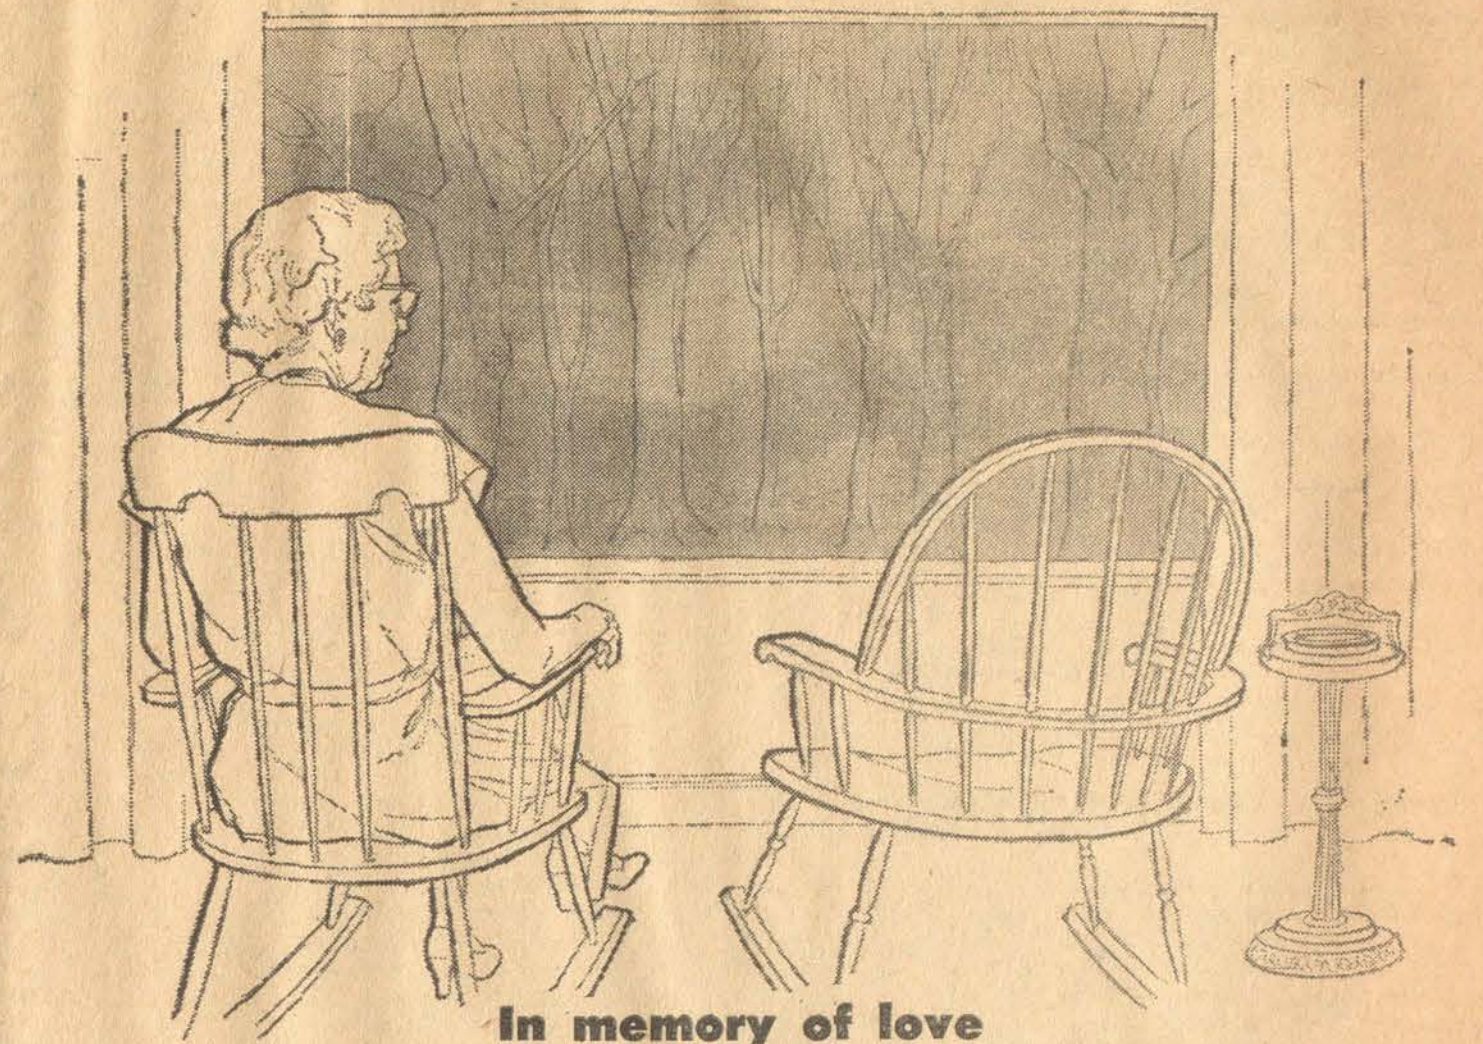

A native of Elliott county, Dr. Lyons taught school, attended Eastern State Teacher's College and the University of Louisville Medical School, from which he was graduated in 1912.

FLOYD TEAMS IN "BIG FIVE"

Wayland's Hindman Win Features Regional Play; Other Leaders Keep Pace

By Gordon Moore

The "Big Five" of the 15th region—Wayland, Paintsville, Pikeville, Wheelwright and Betsy Layne—continued their battle for hardwood supremacy on the high school front over the past week-end as all continued to win.

Wayland's uncanny-scoring Wasps and their ace markman, Kelly Coleman, blasted Hindman, 96-80, before a capacity crowd at the Knott county seat Saturday night, thus avenging a 70-69 loss on November 19. Coleman staged a remarkable exhibition in the first half by scoring 39 points and controlling the rebound. Tired by his phenomenal first half, he could get only 20 points in the final 15 minutes to end up with 59 for the night.

Jim Wheeler's Paintsville Tigers joined Wayland and Wheelwright in the 20-game-winner circle by beating Meade Memorial, 63-50, for the third time on Friday night and pasted Hazard 82-66, on the following night. Charles Hall, Tommy Daniels, and Phillip Estep hit 24, 18 and 15 respectively for the victors.

Paintsville now has a 20-1 record, having lost only to Wheelwright. Pikeville's late-coming Panthers whipped Elkhorn City 71-61 in a Pike county contest, Saturday night. In front 35-22 at the half, John Bill Trivette's charges coasted in the last half. All five Panther starters hit in the double figures: Forward Darwin Smith led with 16 and Delbert Justice paced Elkhorn City with the same number.

Auxier, the smallest school in the region, led Betsy Layne for three quarters before bowing, 90-72. The Hornets lost six men via the foul route and finished the last two minutes with four players while Betsy Layne romped to the 18-point decision.

The Wheelwright Maroons, one of the top offensive teams in Kentucky, bounced Maytown 99-78 mainly through the efforts of center Chet Curry's 32 points. High scoring honors for the night, however, went to Maytown's Glennis Ramey, who totaled 36.

Wayland's triumph marked its 13th consecutive win and upped the team's season's slate to 23-4, best in the mountains. Currently "Copper-John" Campbell's unit is averaging 87.7 points per game and Coleman 47.9 in 27 games, or 1,292 total points.

Martin's Purple Flash split two week-end games in downing Elkhorn City, 63-52, then lost a close fray to Garrett Saturday night, 54-51. Senior guard Delmar Thompson led Denzil Halbert's charges with 22 and 27 in the two games.

Prestonsburg lost two starts—to Maytown, 83-79, and Hazard, 96-79, but all-around athlete Lowell Hughes was the one bright spot for Coach William Goebel as he burnt the nets for 49 and 40 points to

Wayland and Betsy Layne Seeded for Net Tournament

BY GORDON MOORE

The two leading teams in the 58th district tournament—Wayland and Betsy Layne—are the first teams in Floyd county basketball history to be seeded in the annual district eliminations.

Despite the seeding, Wayland (23-4) drew powerful Wheelwright (22-6) in their first game at 7 p.m. Wednesday, February 29. In the other contest of the upper bracket, Martin tangles with Maytown at 8:30 on the same evening.

In the lower bracket of the tournament, Auxier and Garrett open play at 7:30 p.m., February 28. McDowell will play the winner at 7:00 p.m., March 1, and in the other tilt of the lower half, second-seeded Betsy Layne (18-4) clashes with Prestonsburg.

Wayland's wild-scoring Wasps have beaten Wheelwright, 100-75, on their own floor and two weeks later on the same floor in the semi-finals of the pre-season Floyd tournament. Wheelwright grabbed a 73-63 decision, with fabulous-scoring Kelly Coleman watching the latter part of the game from the bench.

Wayland and Wheelwright will meet for the third time Friday night on the spacious Wheelwright floor. Hugo Miller's Wheelwright Maroons have pinned two of the defeats on Betsy Layne, 96-76 and 91-90, while Betsy Layne has split two with Wayland, winning 90-88 and losing, 80-66, three weeks back.

In the 5th district, the two favorites Paintsville (20-1) and Flat Gap (19-8) drew in opposite brackets.

Warfield and Inez open the eight-team meet at 7:00 p.m., February 29, and in the second game of the upper bracket at 8:30 on the same evening Paintsville vies with Van Lear.

In the lower round, Meade Memorial takes on Louisa at 7:00 p.m., March 1, and in the other affair, Flat Gap squares off with Blaine at 8:30 p.m.

In the 57th district John Bill Trivette's Pikeville Panthers (15-7) are in the same bracket with Belfry, Virgie and Feds Creek. In this bracket Dorton and Feds Creek open the tourney at 8 p.m., February 29, and Virgie meets the winner at 7:00 p.m., March 1. Pikeville, host of the nine-team meet, begins action with Belfry at 8:30 p.m., March 1.

In the top bracket, Hellier collides with Johns Creek at 7:00 p.m., February 29, and in the second game of the night Phelps is matched with Elkhorn City.

The 15th regional tournament will be played at Pikeville high school March 7, 8, 9 and 10. Pikeville is the defending champion.

What Do You Want Out of Life?

Do you want to be a success? Are you set on getting rich? Do you want to be famous? Even if you attain these goals, it is practically a sure thing that you still will not be satisfied. It has been demonstrated time after time. So why break your back and your heart in the rat-race to secure them?

Perhaps it would be well for you to do some re-thinking about your goals. Do you have a worthwhile purpose in life?

Religion gives purpose to life—eternal purpose. Knowing God gives the only lasting satisfaction. "Acquaint now thyself with Him, and be at peace; thereby good shall come unto thee." (Job 22:21.)

There are many ways to get acquainted with God, but the most direct is through the church. Worship God in Church Every Week.

Mr Advertiser:

The above space is the exact size of a two-cent postal card that business establishments sometimes use for advertising their products.

An ad this size in THE FLOYD COUNTY TIMES is seen by at least 12,000 people and at a cost of only \$6.50 to you.

If postal cards were mailed to 12,000 people it would cost you, the advertiser, \$240.00 for the cards alone plus the cost of printing and handling.

THROUGH NEWSPAPER ADVERTISING YOU CONTACT THE SAME NUMBER OF PEOPLE AND AT A SAVINGS OF MORE THAN \$280, besides saving the work of addressing and mailing cards.

Newspapers Lead In The Advertising Field

In a survey made of the advertising practices of department stores in all sections of the country, it was found that the typical store allocated 80 per cent of the advertising dollar to the newspapers, 9 per cent to television, 4 per cent to radio, 3 per cent to direct mail and 4 per cent to other media. Newspapers have been and still are the advertising leaders.

EL MAKES POWER
 Statistics reveal that 20 manufacturing industries use nearly all of the electric power generated in the United States and that almost 49,000,000 tons of coal are required annually to produce the power demanded by the three leading industries — primary metals, chemical companies and stone, clay and glass products.

Inez came from behind in the last half to nip Morgan county, 57-52 on diminutive center Everett Horn's 25 points. Van Lear lost, 28 to McDowell, but Larry Joe Adams managed 33 points.

60th District—Herman Bolin's Oil Springs Wildcats took the lead in district with a 15-11 record. Their latest victim was McDowell, 85-64.

Tuesday night, Paintsville offers another attractive doubleheader with the host Tigers meeting Oil Springs and Flat Gap battling Meade Memorial in the other fray.

Any of Seven Teams May Win K.I.A.C. Game To Be Held at Centre

Danville, Ky., Feb. 10 (Spl.)—Almost any of the seven teams can win it! That is the way most cage fans seem to size up the annual Kentucky Interscholastic Athletic Conference Tournament which will be held in Centre College's gym from Wednesday, Feb. 22 through Saturday, Feb. 25.

Georgetown, Berea, Centre, Union, Villa Madonna, Transylvania, and Bellarmine are the K.I.A.C. clubs that will gun for the tourney championship here. Berea's Mountaineers are the defending champions.

Georgetown, now at top of loop standings, perhaps rates as at least a slight favorite to cop the tourney. The Tigers have been strengthened too by the recent return to action of "Stick" Cottrell, standout forward, who has been sidelined many weeks with an injured leg.

Villa Madonna of Covington, now in its first year as a loop member, is rated as a dangerous threat to take the title. However, regular season play to date emphasizes that almost any loop team is capable of knocking off any other loop foe.

Opening tilt Feb. 22 pits Transylvania against Villa Madonna. The next night finds Bellarmine against Georgetown, followed by Centre against Union. Eye-team Berea meets the Transy-Villa winner Feb. 24 while winners of the Centre-Union and Bellarmine-Georgetown tilts clash in the nightcap. The championship tilt is Saturday, Feb. 25.

Governor Proclaims 'Teacher Week' In Ky.

Frankfort, Ky., Feb. 13 (Spl.)—The week of March 25 to 31 was proclaimed by Gov. A. B. Chandler as "Teacher Appreciation Week in Kentucky" with suggestions that appropriate programs be had honoring our teachers and urging that "capable young people enter the teaching profession."

"The teacher is the central factor in any program of education," said the Governor. "There is a shortage of well-qualified teachers in Kentucky and as a result of a continuous decrease in the number of young men and women in training for teaching, and in increase in the school population of Kentucky, the shortage may become more acute unless immediate attention is given the problem."

DISTRICT PAIRINGS

Floyd county high school basketball coaches have set a precedent by seeding the two top teams in Floyd county, based on season play within the county. Wayland was the Number One team and the county's nine mentors gave Betsy Layne a slight nod over Wheelwright as the No. 2 quint.

Ironically enough, seeding four teams was never brought to the floor. In usual proceedings of this nature, it is always customary to seed the top four, rather than the top two.

We believe that this is a major step for Floyd county to have the opportunity to send its two top teams to the regional each year, rather than have them lambast each other to death in the hectic district eliminations.

Seeding does not insure that either team will survive district play, it merely means that the two best teams will not meet until the finals, but each of the seeded teams must earn its way to the finals and that's no easy matter in turbulent Floyd county basketball.

A gentlemen's agreement is to prevail among the nine county coaches to seed the top two teams each year at the annual district pairings, and these two teams are to be chosen on play against county opposition. A strong addition to this agreement would be to seed the top four teams and this still would not insure any victory until it is won on the hardwood before the howling mass of humanity that annually crowds into the Floyd county "crackerboxes" at district tournament time.

JIGGING IDEAL AT CUMBERLAND

Word comes from Cumberland Lake that jig-fishing has produced several fine catches this week-end and that ideal conditions will prevail over the coming week-end. Now that the water is being held in Dewey Lake, Saturday and Sunday, barring bad weather, should see several local anglers with their jigging outfits.

FOUR DISTRICT PAIRINGS

For each of the complete district pairings, 57th, 58th, 59th and 60th, see story elsewhere on this page.

K. H. S. A. A. BOARD ELECTION

The term of Russell Williamson, K. H. S. A. A. Board of Control member from Section 8 (15th and 16th regions) expires on June 30. Two men have been nominated for membership on the board by the principal of Section 8: Russell Williamson, current president of the board, and Edwin V. Stewart, principal of Maytown high school. The ballots are now in the hands of the principals and must be returned to the state office on or before March 1.

LEADING SCORERS

Four 15th region teams are the leading high school offensive teams in the state, as all are averaging over 80 points a game. "Copper John" Campbell's Wayland Wasps are No. 1 with an 87.7 average mark, the highest ever recorded in Kentucky. Flat Gap is second with a 81.2 mark; Fees Creek, third with 81, and Wheelwright fourth with 80.3 for 28 games.

MODERN HOUSEWIVES DEPEND ON COAL

Modern-day housewives depend on coal every bit as much as their grandmothers did, but not directly. Coal generates over 50 per cent of the electricity that runs the clock, the mixer, attic fan, electric blanket, oil burner, refrigerator, waffle iron, TV set and radio-phonograph. In a home with all these, electricity consumption is equivalent to more than 1800 pounds of coal a year. And an electric water heater uses electricity equivalent to 3,400 pounds per year.

NOW BOTH ARE Detergent GASOLINES

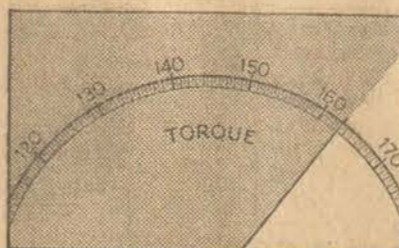

PREMIUM USERS

Detergent Ashland Ethyl is tops for all late model cars. Reason: today's high compression engines demand an Ethyl gasoline. Ashland Ethyl is not only detergent, it's compounded with ICA* POWER TONIC to stop spark plug fouling, pre-ignition and knock. Yes, Ashland Ethyl is detergent... plus!

REGULAR USERS

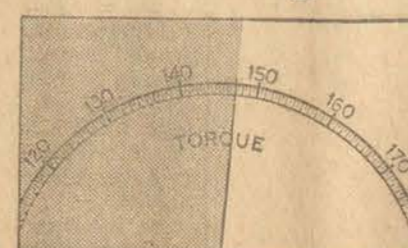

If your car can use regular, buy only Ashland Flying Octanes—it is the regular that's different, it's detergent! It restores pep, power and performance, tankful after tankful.

BOTH drive out engine dirt!

ASHLAND DETERGENT FLYING OCTANES

Proved power gain measured on the Dynamometer, the nationally accepted scientific measurement for engine power. Thanks to detergent Flying Octanes, harmful engine dirt is driven out while you drive. Result: increased power, smoother performance, a better engine.

NON-DETERGENT REGULAR

Here's proved power loss measured on the same Dynamometer when harmful engine dirt from non-detergent gasolines builds up as you drive, robs you of engine power mile by mile. This actual power loss was measured with the engine developing maximum power, operating at a constant speed.

IMPORTANCE OF BELTS FOR CONVEYER SEEN

Conveyor belts are important in modern coal mine operations, as at the Robena Mine of U. S. Steel Corp., at Greensboro, Pa., where more than 2.5 miles of belting are in use. More than 5,000 feet are used in the cleaning plant and another 9,500 feet used to carry raw coal to the plant, clean coal to the loading tipples and refuse to the disposal area.

COAL EXPORTS ARE DOUBLED

U. S. Coal Exportation Twice 1954 Volume, 1955 Figures Prove

The Coal Exporters Association of the United States, Inc., reported recently that 1955 overseas exports of American coal was approximately 34,743,389 tons, or more than twice the 1954 volume of 15,118,287 tons.

F. F. Estes, executive secretary of the Association, pointed out that 1955 export volume was the second largest in history, being exceeded only by the all-time record of 42,818,846 tons sent overseas in 1947 and said the 1955 improvement in exports "becomes all the more important in the light of the fact that as recently as 1950 overseas shipments of U. S. coal totaled only 2,459,305 tons."

Current high demand for American coal abroad directly reflects industrial expansion, particularly in Western Europe, Mr. Estes said. Present indications are that exports will be just as large, or larger, in 1956," he said.

"European industry is having a rapid expansion, and huge quantities of coal are required for fuel and power," the Association executive said. "This demand must be met by American coal since sources of coal abroad are unable to do so. Polish coal still is being taken in large quantities by Russia and production in England's nationalized mines in 1955 had another decline of two million tons. Consequently, England already plans to reduce her exports for 1956 and Free Europe, generally, will feel the impact," Mr. Estes said.

America's ability to meet this European demand reflects, not only the unlimited reserves of coal in this country, but the high degree of production and preparation efficiency coal mining has achieved here.

Shipments of American coal to Canada showed a modest improvement in 1955 when the total rose about one million tons to 16,827,157.

Meet the man who performs hundreds of "weddings" a day...

BILL BAKER

Bill is just one of about 1,300 Southern Bell cable splicers. Been with the Company almost 10 years. He's active in PTA work, likes to bowl, and is as handy with tools around the house as on the job. Was "topkick" to his National Guard pals for years.

Meet Bill Baker, cable splicer for Southern Bell. In his day's work he "joins together" the hundreds of tiny wires in the telephone cables which carry your calls.

Cable splicing is just one of many jobs it takes to fill your telephone needs. And Bill is typical of some 65,000 Southern Bell people who work as a well-coached team. Keeping intricate equipment in top shape. Putting your calls through. Giving you the kind of service you want.

Because you can depend on the people behind the lines, you can depend on your telephone — 24 hours a day.

DAVID

CLUB HOLDS REGULAR MEETING

The David Woman's Club held its regular monthly meeting, Feb. 13, at 7:30 p.m. at the home of Mrs. Wm. Crawford. Members voted to have a Valentine party, Feb. 18, at the Clubhouse. There will be dancing and games of all types for members. The president, Mrs. Jon Stratton reported that the library is open from 11 a.m. till noon on Saturdays and is being well cared for by Mary Lois Wilson. Mrs. Stratton also reported that six members had completed the First-Aid course given by Ray Spears.

The club voted to serve the dinner for the Jenny Wiley District meeting next month. Mrs. Crawford reported it is time to raise money for the Juliet Lowe Fund, and it was suggested that a patch apron be circulated through the community. The business session was closed, and Mrs. James Camica, program leader introduced Rep. Lon C. Hill as the speaker of the evening. Mr. Hill gave a very interesting and informative talk. Refreshments were served to members and two guests, Mrs. Royce Mayo and Mrs. Edward P. Hill.

Two-Year Enlistment Offered By Marines, Announced Johnston

Marine Major John C. Johnston, officer in charge of Marine Corps recruiting activities throughout Kentucky and Southern Indiana, announces that qualified young men will now be able to serve on active duty with the Marines for a two-year period.

The former minimum was a three-year enlistment.

Elaborating on the newly authorized change, Marine recruiting Sergeant King, of Pikeville, said that this will allow thousands of youngsters to serve the minimum duty time allowed by law with the United States Marine Corps as active duty participants.

In order to qualify for this program, said Sgt. King, a young man must enlist in the Marine Corps Reserve for a three or four year period. If otherwise qualified, he may request active duty for either 24 or 36 months.

Requesting active duty with the Marines will also enable many young men to enter the various college programs offered through service in the Marines, said Sgt. King.

Sgt. King said that complete details concerning the two-year active duty program may be obtained by visiting the U. S. Marine Corps recruiting office located in the Federal Building, Pikeville or by telephoning 1133. He also will be at the Post Office building, Prestonsburg, on Thursday mornings from 10 till 12 noon.

LARGEST DEER INVENTORY

California now reports the largest deer inventory in the nation, having well over a million. From this herd about 75,000 bucks are harvested yearly. But an article in Sports Afield magazine says that hunters could be taking 20 to 30 per cent of the various herds, instead of the four to nine per cent they are getting, with no harm to the deer supply.

Scutchfield In New Post

Beecher Scutchfield, Floyd native and Perry county's only registered veterinarian, has taken a position with the United Mine Workers Memorial hospital, at McDowell. He assumed his new duties at the McDowell institution last Monday.

Scutchfield, a son of Dr. Frank Scutchfield, of Water Gap, is a Berea College graduate and was associated with the Hazard Clinic since its founding in 1947. He specialized in laboratory work and as an X-ray technician.

The Scutchfields have as yet announced no plans to move from Hazard to McDowell but it was said they would probably remain there until the present school term expires.

Scutchfield's resignation leaves Perry county without a registered veterinarian. Raleigh Johnson, Perry county health administrator, said the matter of securing a successor to Scutchfield would be referred to Ronald Hechtorn, state director of veterinary medicine.

Scutchfield assisted his father in this county last year in the administration of anti-rabies serum to dogs in clinics held at various local communities but in the main his specialty has been lab and X-ray work.

GOVERNMENT OFFICIAL EXPECTS COAL GAINS

INCREASED FLOOD CONTROL FUNDS ASKED BY CLEMENTS

Washington, D. C., Feb. 13 (Spl.)—Specific details of a campaign he will wage for increased federal funds for East Kentucky flood control projects were announced here today by Senator Earle C. Clements.

They include money to begin construction of the Buckhorn reservoir on the upper Kentucky river near Hazard; to complete the survey of the Big Sandy river and its tributaries; to hasten completion of the floodwall at Catlettsburg; survey of the Kentucky River; and work on the Ohio.

Senator Clements said that he has conducted intensive discussions with the Corps of Engineers and other persons since the President's budget was submitted to Congress January 15, and is now convinced that the specific appropriations are needed to provide realistic progress on flood control.

"The control and development of eastern Kentucky's water resources are vitally necessary to the economic future of that area," Senator Clements said. "I feel strongly that the federal government should give increased recognition to this, and speed up studies of rivers to determine what should be done, and then hasten the construction of projects which these studies show are needed."

Senator Clements summarized his program as follows: "The President's budget contains only \$30,000 for the Big Sandy survey. I will seek \$76,000, the amount needed to complete this study. "Only \$30,000 is recommended for the Kentucky survey. I will ask for \$50,000, which the Corps of Engineers needs to make proper progress."

"There are no funds in the budget for Buckhorn reservoir, plans for which have been completed. I will ask for \$1,500,000. "The budget calls for \$1,000,000 for the Catlettsburg floodwall. I shall request appropriations for

such additional sums for this important work as the Corps of Engineers will support in aid of my presentation of a sound case to the Congress.

"There is no money in the budget for a survey needed on the Little Sandy river and Tygart's Creek. I will ask Congress to appropriate \$20,000 for this study.

"Modernization of navigation facilities on the Ohio River is important to eastern Kentucky, because these projects are necessary if our hopes to provide for navigation on the Big Sandy are realized, and they will stimulate the industrial development of the area.

"Last year Congress agreed with me that construction of the Greenup and Markland-Warsaw locks and dams should be speeded up. "Senator Clements added, "The Corps of Engineers informs me that the \$9,900,000 in the budget for Greenup will be adequate, and that if it is found that more money can be used it will be transferred to Greenup from other funds. The same is true of the \$5,000,000 in the budget for construction of Markland-Warsaw locks and dams.

"However, I feel strongly that another of the great Ohio River navigation projects should be started in fiscal year 1957, and I will press for \$1,150,000 to start construction at Lock 41 at Louisville. The budget contains only \$150,000 for planning on this project. I will also ask for an increase from \$50,000 to \$150,000 for planning at the New Richmond lock and dam."

SOVIET IS SECOND

Insurance Commissioner Seeks Court Action

Frankfort, Ky., Feb. 13 (Spl.) — Commissioner of Insurance Cad P. Thurman filed suit in Franklin circuit court asking that it name an ancillary receiver in Kentucky for the Inland Empire Insurance, an Idaho corporation, whose rights to do business already have been suspended in Idaho and Kentucky.

A receivership for the company has been ordered by a United States Court in Utah.

The suit also asks that approximately \$20,000 in bonds, and other accounts and collateral due the company that are located in Kentucky "should be conserved for protection of policyholders, creditors, subscribers, and stockholders who reside in Kentucky."

Thurman's pleading averred that he is of opinion that the company's "liabilities exceed its assets . . . and its affairs are in such shape that it would be hazardous for it to attempt to further transact business in Kentucky."
