This Town— That World

Title of the song apparently has been changed to "There's a Gold Mine in Kentucky."

ANOTHER VANISHING AMERICAN

Those of you who find the honking of auto horns offensively blatant and nerve-jangling, have you ever heard a mule get up a full head of steam and give with a series of jarring hee-haws?

Many of the poor, little city-bred, city-bred and city-limited children of today have never seen one of these hybrid freaks of the animal kingdom.

Even the American Royal Livestock and Horse Show at Kansas City has dropped the mule from competition. And that's in the Missouri mule country.

Time marches on, and this animal that has been described as a sulking tyrant, smoldering beneath every insult and biding his time to get even, has just about come to the end of the trail.

PLAN CLOSING OF HOSPITAL

Stumbo Memorial Will End Work on April 15th, Is Announcement Made

The Stumbo Memorial hospital near Lackey will close its doors April 15, it was announced this week.

The hospital has not been open since March 15 to bed-patients. But Dr. C. L. Roach has continued use of the property for clinic purpose since that time.

Dr. Roach has operated the hospital since its owner, Dr. C. M. Aker, left Lackey two years ago.

Closing of the hospital and departure of Dr. Roach will reduce to two the number of physicians in Knott county and will leave only three doctors in the entire Upper E.

Dr. Aker, who purchased the 45-bed hospital in 1946 from Mrs. Anna Stumbo, widow of Dr. W. L. Stumbo, founder of Stumbo Memorial, is serving his residency in surgery at a Mississippi hospital.

NEW MERGED BOARD MEETS HERE TUESDAY

Board Reserves Right To Question Directive In Merger of Systems

Limited compliance with merger orders of the State Board of Education went into effect Tuesday when the first meeting of the new merged Floyd County Board of Education was held.

The two former Prestonsburg Board of Education members added to the County Board by order of the State Board—Tom Graham Dingus and William Arfhold Spradlin—met with the five regular board members.

Orders of the Board indicate, however, that several merger details remain to be unraveled. This is not considered an insurmountable task, however.

The order of the Board specified that the attendance of Dingus and Spradlin shall not operate as a waiver of the right of the County Board to question the State Board merger order. Another order provided that the County Board's payment of salaries of teachers and other City Board employees shall not constitute ratification of the contracts made with them by the City Board.

County Superintendent Virgil O. Turner explained that Order No. 65 of the City Board employing a janitor for four years at a salary of \$2,520 a year and of lunchroom workers and others at salaries "out of line" with salaries paid by the county system made this last order necessary.

"We don't want to complicate matters or leave any impression that we aren't cooperative," Mr. Turner said, "but, obviously, we couldn't live with such contracts. We just don't have the money, and, besides, the statute provides a uniform salary schedule."

The contract salaries of these employees were paid, subject to the Board's order. The Prestonsburg system's bills and claims also were paid.

Dingus and Spradlin did not vote on the questions involving the merger of independent district, because they were members of the Prestonsburg Board.

Game Laws Enforcement Strictest in 7th District

For the third successive year the Seventh conservation district in 1955 led all other Kentucky districts in the ratio of convictions to the number of persons arrested on charges of violating fish and game laws, figures released by the Department of Fish & Wildlife Resources show.

Conservation officials in this district made 416 arrests during the year, and all but 11 of these were convicted for an amazing 97.3 percentage. The Fifth district was nearest the Seventh with 89% convictions.

Floyd county, however, had the worst record in the Seventh in the matter of convictions, having eight of the 11 acquittals in the whole district. With 40 arrests in the county, this gave Floyd county a conviction record of only 80%.

Pike county with 105 arrests convicted all but one, and Breathitt county with 23 arrests lost only two of these cases. The other counties of the district convicted all who were arrested.

The number of licenses checked in this county last year totalled 10,700. State totals: 3,605 arrests, 2,972 convictions, 633 acquittals, 183,153 licenses checked.

Officers Renew Drive On Floyd Bootlegging; Find 11 Half-Pints Here

Floyd county officers renewed their drive on bootlegging Saturday after a lull in their operations, and their biggest haul was made in Prestonsburg.

Eleven half-pints of whiskey were confiscated at the Master Service Station operated on Lake Drive here by Sam Adkins. Three cans of beer were found at Allen Stone's place at "Winchester," between Allen and Prestonsburg, but all three were promptly claimed by a youth who was present. Slightly more than half a pint of whiskey was found at the Shingle Top, operated by Jim Blanton near Allen.

A thorough search of the Steak House at East Point failed to uncover intoxicants, officers said.

Local Board Accepts Seven, All Volunteers

Seven men were inducted into the armed service Wednesday by Draft Board No. 25, according to Mrs. Lydia Porter, clerk. All were volunteers. They are James Dempsey Allen, of Hunter, Jackie Joseph Scott, of Hite, Gordon Calhoun, of Water Gap, Charles Victor Nitchie, of Hunter, Freddie Gene Collins and Frankie Delee Bush, both of Martin, and Henry Nelson, of Goodloe.

BOARD ORDERS REDISTRICTING

Boundary Lines Revision On Educational Divisions Provides Perplexing Job

One of the more perplexing tasks merger of the county and Prestonsburg school systems will create is that of redistricting, it became evident this week.

Redistricting before May 1 was one of the directives included in the order of merger made last week by the State Board of Education.

The State Board, specifically, directed that "the merged Board determine before the first day of May, 1956 the five educational divisions and include Prestonsburg in one or more of these divisions so that the voters of the merged district may have the opportunity to participate in the election of any Board members that may be elected from any territory to which the independent school district has been added."

(No board member is to be elected from this part of the county this year, it was pointed out this week.) The vote on all points of the State Board order was unanimous. H. D. Fitzpatrick, Jr., new State member, did not vote, however, because he was a member of the Prestonsburg Board of Education at the time merger was first considered.

If the merger order is accepted without further delay and redistricting is undertaken, Prestonsburg could be added to one district, or it could be split into northern and southern segments and added to the contiguous Divisions Nos. 1 and 2.

Either method, however, will throw the population balance between divisions askew. If an attempt is made to provide a population balance among the divisions, redistricting of the entire system would be necessary.

MUSIC PUPILS IN PREP TEST

Regional Music Festival Participants in Preview Of Talent at Martin

The annual musical instrument presentation of Floyd county high school students in preparation for the bigger event of the four-day Pikeville regional music festival which began Wednesday was held at Martin last Thursday. Nearly every type and kind of instrument and various oral renditions featured the prep presentation.

Twenty-two Eastern Kentucky high schools are entered in the Pikeville event that began Wednesday with approximately 1,400 students participating. The students are from seven counties and constitute 350 entries. Successful entrants will be judged for state festival eligibility.

The Martin meet, under the direction of Jesse Elliott, Floyd county music director, had sections in woodwinds, brass, and ensembles. Judges of the woodwinds sections were Paul Hager, teacher in the Floyd county high school, and Wm. Richardson, of Pikeville College. The brass section, held at the Martin high school auditorium and Baptist church, was judged by Richard

U.S. 23 Resurfacing Bids Sought

MARCH OF DIMES DRIVE AGAIN SUCCESSFUL, SAID; \$6,162.39 CONTRIBUTED

The March of Dimes drive in this county went "over the top" this year, according to Jesse Elliott, chairman of the fund soliciting campaign. Total amount collected was \$6,162.39, which is in excess of the previous year's contributions.

Wheelwright led all Floyd county communities in contributions, Elliott said. The drive there was sponsored by the Foremen's Club of the Inland Steel Company. No detailed figures on the contributions by other communities were available at this time, although it was said most of them exceeded last year's.

FIRE MARSHAL LAUDS BOARD

Says Compliance Job In Floyd One of Best; Recommendations Made

"You have done the most wonderful job on our submitted recommendations that we have seen in a long time," Assistant State Fire Marshal Cecil C. Hicks wrote the Floyd County Board of Education a few days ago after reviewing the report made on Floyd school building safety by Buck Patrick, deputy state fire marshal.

Remaining recommendations made by the Fire Marshal's office listed as "very satisfactory" the Auxier school and the Betsy Layne grade school. Marked "satisfactory" were Betsy Layne high school and gym, the Bosco school, Wheelwright high, Wheelwright Arts & Science building, the gym, cafeteria and manual training buildings, there, the Garrett gym, the Lackey, Melvin and Ligon building.

These recommendations were made for other structures: Install panic release hardware on all exit doors—in the David, Allen, Wayland grade, Drift, Harold, Martin high school, Maytown grade, McDowell high school and grades and the Palmer-Dunbar buildings.

The heating plant and coal room at David should be cut off from the remainder of the building, with walls, ceiling and floors having a fire resistance rating of not less than one hour.

At Garrett high school replace standpipe hose on two floors, repair plaster on walls and ceiling and replace broken window panes. Provisions at Martin grade school would include cloak rooms, reopen exit doors in rear of building and construct a fire escape to replace the one that was removed. The Martin gymnasium heating stoves should be placed away from inflammable walls, seats, etc.; all branch circuit fuses should be reduced to 15 amperes or less, and a competent electrician should check wiring which should conform with the state electrical code.

At Maytown high school, repair of all exit doors and panic release hardware where this has not already been installed. Installation of a fire extinguisher was recommended for the cafeteria there.

Installation of a metal door between the boiler room and the hallway or McDowell high school. Provide additional means of egress from the third and fourth floors of the Wayland high school building.

Review of Land Listings Is Required, Hicks Says, Not Later Than May 1

Wm. Hicks, chairman of the Floyd county ASC Committee explains that the county committee is required to immediately review all land listings in the county and to take immediate action in determining that all farms in the county are properly listed as required by the regulations and the definition of a farm based on the actual operation.

Hicks points out that the regulations and procedures to be followed in administration of the related farm program provide that a farm is generally defined as all land that is operated by the same person or persons, as a single unit with respect to rotation of crops and with work stock, farm machinery and labor substantially separate from that for any other land. In line with this require-

HILL, COLLINS IN JOINT PLAN

To Curb Pin-Ball Play As Children Reported Wasting Lunch Funds

Circuit Judge Edward P. Hill and Sheriff Gorman Collins have jointly announced plans to pin down on pin-ball machines in this county.

Their plans for action followed reports received from various sections of the county saying that school children are wasting their lunch money on these devices.

The two officials in a joint statement to The Times said: "It is a violation to keep pin-ball machines and to operate them where there is a gift or other consideration, including free games for high score. This is a violation of the gift enterprise statute.

"We will undertake to enforce the law governing ownership and operation of these machines. To avoid any unpleasant consequences that may ensue through their continued operation, we ask the public and the owners of pin-ball machines to discontinue their use."

One deputy sheriff described the waste of money by children on such machines as constituting the worst situation in his territory. "Children are going without their meals in order to play them," he said.

BOOZE SALES TOLD BY HILL

Judge Asks 'Repeaters' Get Stiffer Penalties; Court Term in Recess

Although he did not instruct the grand jury in detail on most offenses when it was empaneled here Monday morning for the April term, Circuit Judge Edward P. Hill did call in strong terms for enforcement of the law against bootlegging.

Pointing out that the law provides a stiffer penalty for second offense bootlegging and for a felony charge after the third offense, he said the Commonwealth's Attorney should draw indictments to that effect. "I feel pretty strongly about this," Judge Hill added. "It is my sworn duty and yours to enforce the law, and in view of the seriousness of the drinking of alcoholic beverages we ought to enforce that law."

Judge Hill made bare mention of other offenses, pointing out that he did not propose "to go into my philosophy of law enforcement, because a number of petit jurors are present in the courtroom at this time and I have been criticized for

11 FIRES HIT FLOYD WOODS

Middle Creek Section Suffers Most, Turner Says in Report Made

Eleven fires have burned over woodlands in this county since beginning of the present "fire season," according to Roe Turner, forest warden. In addition to these, five fires occurred in Magoffin county, which is also in Turner's jurisdiction. Total acreage burned over was 140, the warden said.

"The suppression cost of those fires was \$140, or a dollar per acre, but the actual damages cannot be estimated," Turner said. "You can see the burned trees and the charred stumps but the unseen damage, resulting from future soil erosion and the destruction of wildlife, cannot be calculated now."

Distribution of the Floyd county fires was wide, Turner said, except for the six in the Middle Creek section. Two were at Jack's Creek with one each at Turkey Creek, Hi Hat and other places. The Turkey Creek and Hi Hat fires were both on Easter Sunday. "Two was better than we expected, though," Turner said, "because of the greater number of picnickers out."

Four Floyd countians are listed by Turner for indictment at this session of the jury. "Biggest cause of Forest fires is carelessness," the warden declared. "People burn brush and sedge grass without noticing the wind and a fire out of control is

Prestonsburg, chaplain; Harvey L. Gunnell, Prestonsburg, surgeon; Boyd M. Knuckles, Prestonsburg, three-year trustee; Billy Spradlin, Prestonsburg, two-year trustee, and Billy D. Hale, Prestonsburg, trustee for one year.

State V. F. W. officials who will attend are: C. M. Carter, Scottsville, department commander; C. Marshall House, Louisville, department adjutant and quartermaster and past department commander; E. H. Stumbo, Harold, senior vice-commander; Pete Flynn, Frankfort, immediate past commander; Bud Doit, Louisville, department inspector.

JARVIS ALLEN JR. CHAMBER IS CHAIRMAN

Of Clements Campaign; George Glenn Hatcher Enters Congress Race

Jarvis Allen, Prestonsburg attorney and former Floyd County Clerk, this week was named Floyd county campaign chairman for U. S. Senator Earle C. Clements.

"This is the second time Senator Clements has placed his confidence in me. When he ran for Governor in 1947 I was his campaign manager, and I am honored to have been selected as manager of his campaign in my home county again," Mr. Allen said in announcing his appointment. He added that chairmen and chairwomen for each of the county's four magisterial districts will be named within the next few days.

A fourth Democratic candidate for the Seventh district Congressional post loomed in the political picture as George Glenn Hatcher, native Floyd countian, filed as a candidate late Wednesday afternoon at Frankfort, Congressman Carl D. Perkins, Judge Ervin S. Pruitt and Ralph Walter had filed earlier.

Claude P. Stephens and John Allen, both of Prestonsburg, signed Hatcher's notification and declaration papers along with several others.

State To Spend \$40 On Election Precincts If Measure Is Passed

Kentucky's approximately 4,000 precincts would receive some \$40 each for primary election expenses under a bill introduced in the House this week.

The measure was signed by 31 representatives. It calls for an expenditure of \$170,000. Sponsors said that when the legislature shifted the primary election date from the first Saturday in August to Tuesday after the fourth Monday in May, the 120 counties had no provision in their budgets for the cost of the May elections. The counties' fiscal year begins July 1.

The bill points out that "many counties will be placed under a heavy financial burden" by the change in dates. Another measure, introduced by Senator William L. Sullivan, Henderson Democrat, calls for appropriation of \$82,500 to meet the state's share of the primary-election costs.

Coleman, Hughes Win Spots On C-J All-State Net Team

Two of Kentucky's all-time athletic greats—Wayland's net genius, "King Kelly" Coleman and Prestonsburg's all-around athlete, Lowell Hughes—have been named to The Courier-Journal's 1956 all-state basketball team.

Coleman, who broke all scoring records in regular-season play and set a whole flock of new marks in the state tournament, polled the most votes of coaches, sports writers and officials to become honorary captain of the 1956 dream team.

Hughes, at 6-1½ shortest man on the team, is the third Kentucky high school athlete ever to be named to all-state teams in two sports. Earlier in the year he was named for

BLACKTOPPING FOR HIGHWAY IS PLANNED

Work Starting Here To End at Pikeville; Plan Brandy Keg Job

All of U. S. 23 from Prestonsburg to Pikeville was advertised this week for blacktop surfacing.

Sealed bids on this big project and the same type surfacing for the Brandy Keg road from Lancer to the boat dock on Dewey Lake will be received by the Department of Highways till 10 a.m., April 20.

It was said at the Highway Department's district office in Pikeville that edging work on U. S. 23 will probably widen the route by about a foot on each side.

All improvements advertised for bids in this and Pike counties call for bituminous concrete Class I surface, which, it was explained, amounts to a strong black blacktop surfacing job.

The work is split up into four projects for bidders: 1. U. S. 23 from the north end of the bridge at the west city limits of Pikeville to the Floyd county line, a distance of 8.89 miles.

2. The same highway from the end of concrete pavement on South Lake Drive here to the east city limits of Prestonsburg, .886 mile.

3. The same highway from the east city limits of Prestonsburg to the Pike county line, 18.77 miles.

4. The Brandy Keg road from S. 23 at the mouth of Dewey Lake to a point near the Dewey Lake, 2.201 miles.

Department of Highways here here this week making a survey for the proposed sidewalks leading to the new county high school building.

FIRE DAMAGE HERE SLIGHT

Saturday Night Blaze Eighth in This Vicinity; Search May Reopen Case

The eighth fire to break out in Prestonsburg and vicinity within last six weeks caused slight damage Saturday night in County buildings occupied by Young Shop, Napier's Barber Shop, Castle's Jewelry.

Fire Chief Vernon Blanton said the cause of the blaze is not known. The fire was discovered in the ceiling between the barber shop and shoe shop.

Ann Allen, whose household belongings were destroyed recently in a fire which levelled a West Prestonsburg house she occupied, has been "recognized" for her grand jury appearance Monday. This action was taken after a blanket found in the home of Johnny Newsom on Middle Creek was identified as having been hers. Fire Chief Blackburn said the Newsom home and that of Jim Marslett were searched Tuesday after a man had been reported as having been seen leaving Miss Allen's premises shortly before the fire was discovered. Blackburn said Newsom told officers his wife's sister gave her the blanket. Miss Allen had described the blanket before it was found.

The all-state squad: Kelly Coleman, Wayland. Corky Withrow, Central City. Don Mills, Berea. Roger Newman, Greenville. Billy Ray Lickert, Lafayette. Lowell Hughes, Prestonsburg. Martin Holland, Heath. John Turner, Newport. Byron Pinson, Henderson City. Harry Todd, Earlinton.

to glasses and took to automobiles to parade through Hazard. They carried signs reading "We Want Martin" and "No School Without Martin."

The demonstration followed a meeting Monday night of the School Board at which Gilbert Bowling, county school superintendent, said other principal and two teachers received letters similar to Martin's delegation of some 200 parents.

Students crowded into the school where the board met at the principal's office.

He did not name the others and the letters and demands would not be final until the meeting of the board when teachers for next year are hired.

Board Chairman Moss Staudafer also denied any politics was involved in the development concerning Martin. A delegation spokesman claimed someone already had been named to replace the principal.

ment, if two or more tracts of land are being operated as a single unit in conformity with the definition of a farm, the regulations require that they be combined as one farm. If two or more tracts of land are now listed as a unit but are actually operated as two separate farms the regulations require that they must be divided.

Hicks explains that the regulations provide for no option in a matter of constitution of land, since all land is required under regulations to be constituted and listed in conformity with its actual on-the-ground operation.

Uniform review and action by each county committee has been requested from the Washington and dState offices and each county committee is required to review the operation of each farm unit in the county and to take action to complete the work by not later than May 1, 1956.

Story of Marriage Was False, Report

In The Floyd County Times edition of March 22 a two-paragraph news-story gave what, we are told, was an erroneous report of a marriage.

This report, to which the name of Dora Watkins was signed, told of the marriage of Miss Maudie Watkins and Mr. Charlie Salyers.

Although Mr. Salyers has not, to date, personally informed The Times that the report is untrue, we have otherwise learned that he has declared no such wedding took place.

This newspaper does not publish unsigned statements, but when one such as this is signed we have no way of knowing that the news is not authentic, and in our desire to represent all in the news we published the item in question. We regret our part in the story, and can only say that apparently we were the dupes in the case.

CIRCLES IN MONTHLY MEETING

The Presbyterian Auxiliary met Tuesday evening with Circles 1, 2 and 3, uniting for the monthly meeting. Miss Mary E. Power, vice-president, presided. New members were welcomed. Circles 1 and 3 will meet Monday, April 9, with Mrs. Fred James on Central avenue, with Miss Fanny Mae Howell as leader. Circle No. 2 met today (Thursday) with Mrs. E. R. Burke. The Circles will be represented at Presbyterian, April 17-18, at Hyden, Ky., by Mesdames E. R. Burke, Frank Layne, F. L. Heinze, David Leslie, Rainley White, Harold Ensminger, and Miss Daisy Miller. Mrs. Mary Ellis Branham and Mrs. David Leslie will be hostesses in May to the Circle groups. Miss Alma Collins, program leader, presented an interesting program on "Talks from Missionaries throughout the Presbyterian Mission Fields." She was assisted by Mesdames David Leslie, Billy Paris Conley, Mary E. Branham, Belvard Friend, E. R. Burke, Donald Hunt, Frank Layne. The hostesses, Mrs. Rex Osborne and Mrs. E. R. Burke, served a refreshment course to Mesdames Rainley White, O. T. Stephens, Ralph Davis, Everett Sowards, Cecil Willys, Harold Ensminger, F. L. Heinze, Frank Layne, Rex Osborne, Orville Pearson, E. Miss Caldwell is now eligible for the state speech festival which will be held April 19-21 at the University of Kentucky, Lexington.

Mrs. Angie Alley Rorrer, Age 77, of Lancer, Dies Of Heart Attack Here

Mrs. Angie Alley Rorrer, 71 years old, of Lancer, widow of George W. Rorrer, died at the Prestonsburg General hospital Saturday following a heart attack. Mrs. Rorrer had been ill six years, but her passing came as a shock to many relatives and friends.

A daughter of the late James W. Alley, former Floyd coal operator, and Mrs. Josephine Knuckles Alley, she was a native of Tazewell, Virginia. She was married on May 1, 1901 to Mr. Rorrer, who preceded her in death May 13, 1949. To this union were born three children, Mrs. Lucy Stephens and Charles Rorrer, both of Lancer, and Guy K. Rorrer who preceded his mother in death.

Mrs. Rorrer and her husband came to Prestonsburg 48 years ago, and he for years was superintendent of Bull Creek mining operations. She was for many years a member of Irene Cole Memorial Baptist Church and until her illness she maintained an active interest in church and civic affairs. Besides her children, she leaves the following brothers and sisters: Charles W. Alley, James W. Alley, Thomas A. Alley and Mrs. Z. S. Dickerson, all of Prestonsburg, Mrs. F. G. McGuire, Cedar Bluffs, Va., and George Alley, Albany, Oregon.

Funeral rites were conducted from Irene Cole Memorial Baptist Church Monday morning, the pastor, the Rev. Ira McMillen, and the Rev. Harold Dorsey officiating. Burial was made in the Bascom May cemetery at Cliff under direction of the Carter & Callihan Funeral Home.

Tree Planting, Staking On Trail, Progresses

Work on the Dogwood Trail, honoring the county's war-dead, was advanced around Arbor Day when 450 more trees were planted. Two hundred were set out on Arbor Day and 250 were planted a few days previous to then, Mrs. Winnie F. Johns, regent of the John Graham Chapter of the Daughters of American Revolution, says. The local DAR chapter is sponsoring the trail which will extend alongside U. S. Highway 23 from East Point to Boldman.

Staking of the trees for protection is also being done now, it was said. The stakes were donated by Mrs. Eunice Spradlin, Gold Star Mother, of Cliff.

The first soil conservation district in the United States was organized in Anson and Union counties, North Carolina, on August 4, 1937.

The eight-pound, three-ounce bass caught by George Wilson, of Auxier, March 12, in the spillway below Dewey dam is believed to have been the largest of the species taken from Floyd county waters. The fish succumbed to the lure of worms dangling from a No. 4 hook. Wilson used a cane pole.

Autopsy To Determine Cause of Nelson Death In David Mine, Today

An autopsy was being performed this morning (Thursday) to determine if the death of Jim Nelson, motorman for the Princess Elkhorn Coal Company, was caused by a heart attack or by electrocution. The autopsy was performed by Dr. Thorness, Pikeville pathologist.

Mr. Nelson, a resident of Town Branch, near here, died about 1:30 a.m. today inside the coal company's mine at David. Marion Graham, of Nippa, brakeman on the motor, was quoted as saying the trolley had jumped from the power cable and that Nelson had replaced it and had started walking back around the motor when he groaned and slumped down.

Funeral arrangements are incomplete, it was said at the Carter & Callihan Funeral Home. The victim was a son of the late Tom and Alpha Hubbard Nelson. He is survived by his widow, Mrs. Lily Caudill Nelson, three brothers and two sisters: Highland Nelson, Prestonsburg, George Nelson, of Cincinnati, Jeff Nelson, Webster, N. Y., Mrs. Angie Marsillett, West Prestonsburg, and Mrs. Rosie Owens, Columbus, Ohio.

Aged Craynor Woman Victim Last Saturday; Rites Conducted Monday

Mrs. Polly Martin, 77, of Craynor, died at home, at 6 p. m., last Saturday. She succumbed to the infirmities of old age.

Mrs. Martin was a daughter of Andrew and Bertha Mitchell and the husband of Andy Martin, who survives. She was a member of the Regular Baptist church for 50 years.

Surviving sons and daughters are Kenis, John D. and Charles Martin, all of Craynor, Joseph Martin, of Teaberry, Mrs. Goldia Hamilton, Wyandotte, Mich., Mrs. Bertha Mitchell, and Mrs. Delma Johnson, both of Teaberry, Mrs. Ocie Reynolds and Mrs. Tava Howell, both of Craynor. Brothers and sisters surviving are John D. Mitchell, of Hi Hat, Bob Mitchell, and Mrs. Vertie Hall, both of Craynor, and Mrs. Ollie Justice, of Osborne.

Funeral services were conducted at home, Monday at 10 a.m., the Revs. Chas. Jones, Milford Adams, Butler Howell, Sherman Crum and Ed Mosley officiating. Burial followed in the Roberts cemetery under the direction of Hall Brothers Funeral Home.

John C. Babb, 77, Martin, Dies Monday; Was Native Of Scott County, Tenn.

John C. Babb, 77, of Martin, died at our Lady of the Way hospital, Martin, Monday, at 11:15 a.m. He was retired, having served for years as a coal company employee.

Mr. Babb was a native of Scott county, Tenn., the son of the late Davis L. Babb and Sarah Wilhite Babb. His wife, Martha Ellen Thompson Babb, preceded him in death in 1923. He was a member of the Church of Christ.

Surviving children are Owen C. Babb, of Martin, Herry C. Babb, Salt Lake City, Utah, John C. Babb, Jr., in the West, Mrs. Maude Billups, of Martin, and Mrs. Blanche Prater, Adele, Ky. Twenty-two grandchildren and 10 great-grandchildren also survive. He had no surviving brothers or sisters.

Funeral rites were conducted, at 10 a.m. today (Thursday), at the Martin Church of Christ, the Rev. S. C. Honeycutt officiating. Burial was made in the Laurel Grove cemetery at Norton, Va., Hall Brothers Funeral Home directing.

Drop in Attendance Discourages Leaders In Youth Center Work

A sharp drop in attendance at the Youth Center here since its location was changed from the Municipal building half a mile north on the Mayo Trail is causing the board of supervisors and Coach Bob Wallace, nightly supervisor, deep concern.

"We are very unhappy about the drop in attendance since the change in location," Mrs. Lon Hill, chairman of the Interclub board, told The Times this week. "Our supervisor reports that instead of 35 to 45 youngsters, both boys and girls, attending, we now have only about 15 boys and a few girls every other week. Thus we are meeting only a part of the need of our young people for supervised recreation."

Mrs. Hill pointed out that the Center now is reaching only the boys who want active recreation but that it is not serving the girls, or even the boys who congregate where the girls are. "This is a disappointing situation for us all, especially after we had such a good start in our first location," she added.

The Youth Center was moved from the Municipal building after three weeks' operation when the ceiling board in the room below loosened under vibration because of the weight in the room above when the youngsters gathered there. At that time Lee Shamon, Prestonsburg architect, reported that the city building is sound but that there should be bridging support of the joists. He estimated cost of proper installation of the ceiling at \$200.

RESOLUTION

WHEREAS, it is deemed advisable, necessary for the best interest of the City of Martin, Floyd county, Kentucky that the existing sewerage system be improved by the construction of an extension Southward of this sewerage system along State Route 80, and

WHEREFORE, Be it resolved by the Council of the City of Martin, Floyd county, Kentucky, at this, the regular April 2nd, 1956 meeting, that the present sewerage system of the City of Martin be extended Southward along the Eastern side of State Route No. 80, commencing at the upper property lines of J. H. Osborne and Sumpter Tackett, Jr., and thence South from this point on the East side of the right of way of Highway 80, to the intersection of Bralley street with highway 80, and thence crossing Highway 80 at this intersection so as to join with the main line of the present sewerage system at a point on the West side of Highway 80 at this intersection. The proposed extension is to continue to the lower property line of Mrs. Georgia Davis at its Southern limit and is to embrace and include all property abutting the East side of Route 80, providing an entrance to this sewer for each of these abutting property owners, including the aforesaid Osborne, Tackett and Davis.

It is further resolved that this extension of the sewerage system be constructed and financed under the provisions of KRS 94, 291-325, and that an Ordinance to this effect be enacted at the next meeting of the City Council on May 7th, 1956, thirty days after the publication of this resolution in The Floyd County Times, at Prestonsburg, Kentucky and its circulation in the City of Martin on April 5th, 1956.

On motion of L. L. Osborne, seconded by Cecil Conley, the above Resolution was duly and legally adopted and passed by the unanimous vote of the Members of the Council present, viz: L. L. Osborne, Cecil Conley, G. H. Dingus, Eugene Frazier, and John P. Sammons, on April 2, 1956, and was entered of record on the Minute Books of the City of Martin.

burg board when it made the contract with teachers and employees. The board of education renewed its contract with the Floyd County Health Department. Under the contract provisions the board's annual contribution to the health department is \$2,400. It also accepted the \$630.97 bid of Brockman-McVey Company, Lexington on plumbing supplies.

The question of redistricting did not arise at Tuesday's meeting. Mr. Turner expressed the belief that it would be impossible to redistrict the county's five districts equitably before May 1. To add Prestonsburg to one district would be to create a population imbalance, he added.

The three board member elections to be held this year would not affect the voters in Prestonsburg, anyhow, it was explained, because the elections are to be held in Educational Division 3 (Upper Right Beaver Creek), 4 (Left Beaver Creek) and 5 (Mud Creek-River section).

The Navy's Test Pilot Training school at the Naval Air Test center, Patuxent River, Md., is one of only three such schools in the free world.

Christ, Church, Woman and Home

CHRIST, SEED OF THE WOMAN, Gen.3:15: I will put enmity between thee and the woman and between thy seed and her seed; it shall bruise thy head and thou shall bruise his heel.

Rev. 2:1: And there appeared a great wonder in heaven. A woman clothed with the sun and the moon under her feet, and upon her head a crown of twelve stars.

THE STARS FOUGHT FROM HEAVEN TO HELP THE ONLY WOMAN JUDGE, Judges 5:20: They fought from heaven, the stars in their course fought against Sisera. Judges 9:53: A certain woman cast a piece of millstone upon Ambelech's head. And all to break his skull, and rather than give a woman any honor he called his own crowd to kill him (verse 54).

You see, men in days of old had rather let their own crowd kill them than to give a woman any honor. What about men of today? I hear and see over T. V. letters being read by men on Parson's Study, women asking men questions about wearing blue jeans. Read what the Bible says. Deut. 22:5: The woman shall not wear that which pertaineth unto a man, neither shall a man put on a woman's garment, for all that

do so are abominations unto the Lord Our God.

About the hair question of men and women, eating in the church and at home read 1st Cor. Chapter 11 in full and you men and women take care of your own heads.

AND GOD WILL TAKE CARE OF ME. Church of God (Acts 20:28). Church Foundation (Matt. 16:18). Church Loved by Christ (Eph. 5:25-29). Seven churches in Asia (Rev. Chapter 1). God's Mercies and Promise to the church (Isaiah 41:7). So the carpenter encouraged the goldsmith and he that smootheth with the hammer him that smote the anvil saying, It is ready for the soldering, and he fastened it with nails that it should not be moved.

Now all you men who fight the works of women, prove to me a son has ever been born without a mother. I worked in my father's blacksmith shop. I know how to smite an anvil, a hammer and nail or a man. Home (Gen 43:16; Ruth 1:2; Psalm 68:12; St. John 19:27; Titus 2:3). You all know I pay in advance for my letter writing and I know what I say and do is divinely guided. God bless you all to sneeze seven times and awake.

Sincerely and prayerfully,

commenting before petit jurors in the past while instructing grand juries.

"There are remedies to all these situations," he added, "but they are not in these law books. They will be found in what we call the Sermon on the Mount." Judge Hill indicated that the grand jury may be in session no longer than six days, pointing out that there is no emergency existing that requires the usual extra three days of the term.

Clifford Reynolds, of Allen, was named foreman of the grand jury. The grand jury was in session Monday, then adjourned along with the court for remainder of the week, to reconvene next Monday. The adjournment was made because a number of attorneys here had planned to attend the State Bar Association meeting in Louisville this week.

One trial was held Monday. This was the drunk driving charge against Landell Thornsbury, which had been transferred from Wheelwright police court. He was fined \$100.

CARD OF THANKS
 We wish to acknowledge the many kindnesses and courtesies shown us upon the passing of our mother and grandmother.

We wish to thank Dr. George Archer, the Carter & Callihan Funeral Home, Rev. Ira McMillen, Rev. Harold Dorsey, Mrs. Ira McMillen, Mrs. E. R. Burke, the many who sent flowers and food, those who called and all those who helped in any way. These expressions of sympathy are greatly appreciated and will be long remembered. the result. The law requires landowners to burn only after 4:30 p. m., when the wind velocity is less," he added.

The Magoffin county fiscal court renewed its five-year tax of two cents per acre on all woodland within its area this week. Appearing before the court to solicit the tax renewal were Turner, H. W. Berkman, of Frankfort, and District Forester William Music, of Prestonsburg.

"I want to thank the general public for the cooperation extended in calling us on forest fires," Turner said. "This interest of the public enables us to get on a fire before it gets too big a start. We have four towers in this county and two in Magoffin county but is of course, impossible for the tower men to observe and correctly report the location of every fire."

Jeep Wreck Injuries Two High School Boys On Middle Creek Road

Two schoolboys, Joe Ed Hicks, son of Mr. and Mrs. Henry Hicks, and Donald Ray Webb, son of Mr. and Mrs. Bill Webb, and Johnny Shell, a passenger, suffered contusions and lacerations in the wreck of their jeep, Tuesday morning. At the time of the accident they were on the left fork of Middle Creek where they live, on the way to high school here.

Chille Thornsbury, 30, of Pyramid, was hit by a car as he crossed the street in West Prestonsburg. Thornsbury, who sustained lacerations of the nose and forehead was released from the Prestonsburg General hospital, Wednesday.

Martin Holbrook, 19, of Brainard and Rebel Nelson, 23, West Prestonsburg, lost control of their car on the Town Branch road to go over the hill and smash the car against a tree. Before that they allegedly sideswiped the auto of Joe Wheeler Jarrell, of Prestonsburg. They were admitted to the Prestonsburg General hospital on Tuesday and released the next day after receiving treatment for minor injuries.

BILL CHANGES ROAD SET-UP

Highway Department May Set Own Specifications; Hill For, Martin Against

The House of Representatives at
its Tuesday of last week session,
passed the Administration bill to
allow the Department of Highways
to build rural roads in Kentucky
according to its own specifications
and to have within its discretion
who shall maintain these roads.

The vote was 49-22, and Representa-
tive Lon C. Hill, Prestonsburg,
was among its supporters while his
fellow-Democrat from the other
Floyd legislative district, David Mar-
tin, Jr., of Hi Hat, opposed it. Bare-
ly beaten was an amendment which
would have required distribution of
the 2-cent rural highway fund under
this formula:

A third divided equally between
the 120 counties, a third divided
among the counties on a rural popu-
lation, and a third on the basis of
county area.

State Senator Doug Hays last
week declared the measure, which
is Senate Bill No. 4, to be "the worst
Bill for the mountains of Kentucky
that has ever been passed." He ad-
ded: "It repeals the law under which
the state keeps up our rural high-
ways and puts all the burden on the
county, and the mountain counties
cannot do this."

The bill passed the Senate, 34-2.
Representative John B. Breckin-
ridge, Lexington, speaking against
the bill, said the measure will allow
the Highway Department to go in-
to the 120 counties without an agree-
ment and build such roads as it
might find expedient.

Representative Harry M. Caudill,
Whitesburg, termed it "one of the
most irresponsible pieces of legisla-
tion to come out of this House
in many years."

Under the bill as approved by the
Legislature, rural roads can be built
to any standards set by the com-
missioner of rural highways.

These roads may, or may not, be
maintained thereafter by the State,
at its option. Present law requires
the State to maintain every rural
road it builds.

TB CAN BE ELIMINATED IN 15 YEARS, PREDICTION

Frankfort, Ky., March 23 — Eli-
mination of acute tuberculosis from
Kentucky within the next 15 to 20
years was set as a goal for the State
Tuberculosis Commission today.

Dr. C. C. Howard, Glasgow, chair-
man, said that goal can be reached
by continuing the present tubercu-
losis program and making a few ad-
ditions.

The commission, appointed this
week by Governor Chandler, met
for the first time today and named
Howard chairman. The Rev. Fred T.
Moffatt, Frankfort, was named vice-
chairman, and Joe D. Miller, Frank-

Tubercular Admissions Exceed the Discharges By Seventeen in March

Frankfort, March 26 (Sp.) — Ad-
missions to Kentucky's six tubercu-
losis hospitals last month exceeded
discharges by seventeen, with 125
admissions being chalked up against
108 discharges, Joe D. Miller, execu-
tive director of the State Tubercu-
losis Sanatoria Commission, dis-
closed today.

Population of the institutions was
749, compared with 729 at the close
of January, Miller added. Patient
population at each of the hospitals
was:

Madisonville, 103; Hazelwood, near
Louisville, 238; Paris, 103; Ashland,
99; London, 102 and Glasgow, 101.

Normal bed capacity of the Louis-
ville institution is 250 beds, and the
other institutions, 100 each.

Marine on Maneuvers Mistaken for Prowler

Los Angeles, March 24 — Police
think the woman who called them
today to report "a man in the bush-
es with a rifle" must be a little
near sighted.

Investigating, they found a bat-
talion of Marine reserves on maneu-
vers in Brushy Hills near the wo-
man's home.

Woman Hurt Little Under Subway Train

New York, March 26 — A 40-year-
old woman escaped serious injury
today when she toppled in front of
a subway train.

After being rescued, Mrs. Mina
Kuchowsky, Brooklyn, told police
she had been pushed off the crowd-
ed platform. The accident occurred
during the morning rush hour.

The first car of the train passed
over Mrs. Kuchowsky, who had fallen

Dishonest Burglar Fails Holdup Man

Arkansas City, Kan., March 24 —
When they arrested Lawrence H.
Schulte for parole violation, sher-
iff's deputies said, they found a
note in his pocket that read:

"Hand over all the money you
have. Don't look around, just hand
it over. I have a gun."

Sheriff James Dill said Schulte,
30, orally admitted he had planned
to use the note in a bank robbery.

But he didn't, he quoted Schulte,
because someone had stolen the gun
from his car.

Old Glass Counter Top Explodes in Iowa Bank

Des Moines, March 24 — An ex-
plosion in the lobby startled em-
ployees of Bankers Trust Company,
but no one was injured.

The explosion was traced to a
half-inch plate-glass counter top,
which shattered with a deafening
blast because of the release of in-
ternal pressure caused either by age
or damage, officials said.

LAWYERS GET BAR AWARDS

Attys. May and Ferguson Of Prestonsburg, Cited For 50 Years of Service

One hundred fifty lawyers whose combined legal experience totals 8,325 years are being awarded "Senior Counselor" certificates at the State Bar Association in Louisville today...

The number represents those who have practiced law, or held licenses for fifty years or longer.

Included in the group of 50-year veterans are Ex-Congressman A. J. May and S. C. Ferguson, both of Prestonsburg.

Judge Ferguson, who was admitted to the bar in 1896, is possibly the lean of Eastern Kentucky lawyers...

Thomas B. McGregor, Frankfort, former Attorney General of Kentucky, will present the awards to those of the 150 in attendance...

Topping the list of those to be honored are Edward C. O'Rear, Frankfort, a former Chief Justice of the Court of Appeals...

Others include U. S. Senator Alben W. Barkley, Paducah, one-time Vice-President of the United States...

Two former Governors, both of whom served on the Appellate bench, one as Chief Justice...

17 Ky. Youths Killed On Roads By Autos in 1956

Frankfort, April 2 (Spl.) - Seventeen children under 16 years of age have been killed on Kentucky roads through March 26 of this year. Eleven of them were pedestrians.

State Police Commissioner P. A. B. Widener said 88 children under 16 were traffic victims last year. Forty, or nearly 50 per-cent, were killed when hit by cars while walking or playing.

He called on parents today to teach their youngsters how to stay safe in traffic. "Spring and summer are the most dangerous times for youthful walkers because they are playing outside more," Commissioner Widener explained.

"Parents have the prime responsibility for their children's safety in traffic because they have the care of the youngsters in their most formative years." Long before a child reaches school age he has been out in traffic with his parents.

Emphasizing that parents have a definite moral obligation to teach their children how to stay safe in today's traffic, the State Police head said example is of great importance in a youngster's early training.

The Commissioner stressed the necessity for full cooperation between parents, schools and traffic officials in teaching safe traffic habits to children of school age.

It's also important to be careful when they're at play. "See that they play only in approved play areas—not in the street—and teach them how to use roller skates, tricycles, bicycles and other outdoor toys safely," Commissioner Widener said.

The wonder drugs STREPTOMYCIN, ISONIAZID and PARAMINOSALICYLIC ACID have helped cut drastically the death rate from tuberculosis.

better techniques of treatment and especially through the discovery and almost universal use of wonder drugs such as Streptomycin, Isoniazid and Para-aminosalicylic Acid.

The Association points out that it also has been discovered that climate is not a major factor in the treatment of TB.

"Today, the men who have spent their lives in research, diagnosis and treatment of tuberculosis are convinced that climate is not necessary in the fight against this disease. Most tuberculars can be successfully treated at or near their homes, regardless of where they live."

Our new plan for free treatment of afflicted Woodmen

Keeping in step with modern medicine, Woodmen of the World is discontinuing operation of its own hospital in favor of a new and better plan for the treatment of its tuberculous members. The plan provides that Woodmen with a year or more of membership will receive free treatment at nationally recognized private hospitals in or near their home cities

...or even as outpatients if this treatment is authorized.

This new plan offers many advantages. The most important:

- 1. Treatment near home and family. 2. Quick, easy access to modern methods in lung surgery. 3. No reacclimatization necessary.

Many members can complete con-

valescence at home, benefiting from family contacts and familiar surroundings.

Healthy people make happy homes.

The Woodmen of the World has provided free hospital treatment to more than 4,900 members since 1923.

Wool Growers Reminded To File Applications For Incentive Payments

Wool growers are reminded to file their applications for payment under the wool incentive program with their local county ASC office before May 1, 1956, on all wool and lambs and yearlings which were sold during the 1955 marketing year, which runs from March 31, 1955, to April 1, 1956. This announcement was made today by Wm. Hicks, Chairman of the Floyd County Agricultural Stabilization and Conservation Committee.

Mr. Hicks stated that producers who present the necessary sales records when submitting their application will receive an incentive payment which will amount to about one-third of the total value of the wool which they marketed. Actual payment will be made during August or September of this year.

Share-Croppers Covered By Social Security Laws

"Share-croppers in Floyd county should be interested in knowing that they are generally considered self-employed for social security purposes," announces Robert A. Flynn, district manager, Ashland Social Security administration. "This means share-croppers are building toward protection for themselves in their old-age and protection for their families in case of their death. To qualify for this valuable family protection, they must have net earnings of at least \$400 from their farming operations in a year."

Flynn pointed out that share-croppers, like all farm operators, will report their earnings for social security purposes for the year 1955 by filing an income tax return with a farm schedule. Share-croppers must file these tax returns with the district Director of Internal Revenue, Louisville, Kentucky, early in 1956, in order to receive social security credits for their farming operations, even though they may not owe any income tax.

For tax return forms and other information relating to the filing of returns and tax obligations, contact the Internal Revenue office at Louisville, Kentucky. For information concerning your right to social security payments, contact the resident representative, Mr. William C. Noel, at the Employment Office, each Tuesday of the month, at 10:00 a.m.

TOO FEW SIGN BERRY PACTS

Meade Expresses Concern Over Lack of Agreements In Marketing Cooperative

Concern was expressed this week that too few farmers were signing the marketing agreement with the East Kentucky Strawberry Growers Cooperative Association. Deadline for signatures was set at April 1.

"Knowledge of the acreage in strawberry production is important to the Association," County Agent O. E. Boggs said. "We will only get that from the agreements signed. Growers are urged to get their signed agreements in as soon as possible as volume of marketing will determine the success of the program."

Claude Christian, county agent of Johnson county, one of the leaders in strawberry promotion in this area, wrote agents of Floyd, Pike and Magoffin counties, March 20, urging immediate action on the agreements.

"I was talking to Russell Meade (co-op president) here this morning concerning our strawberry program, and he tells me he is getting a little worried over the number of marketing agreements that have been sent in. As of to date, there has been only 86 agreements turned in, with 18 from Martin county and 30 or more from Johnson."

MODERN BOOBY TRAPS

Do you yearn for the adventurous life of your pioneer ancestors? Does the thrill of danger appeal to you? Just look around you. You are surrounded by dangers Grandma never dreamed of.

Like a scout moving into Indian territory, the modern woman must have the soul of an adventurer when she enters her kitchen. She is surrounded by booby traps, the modern devices that she uses every day. She rarely understands what makes them work, but if they don't work she can always try a bobble pin. This may do the trick 99 times, but the 100th time may mean electrocution. Her husband out in the field has a "safe" way of unclogging the cornpicker without shutting it off—until the day he loses a hand.

The use of modern equipment, whether it's in the kitchen, in the barn or fields, in the town dweller's back yard, or in a factory, requires skilled hands and a clear, alert mind. Most accidents with machinery are the result either of ignorance or of human failure. The machine is rarely at fault.

Machines, when anything is wrong, stop working. But people go right on trying when they are upset, tired, or cross. It's not so bad when you merely drop a plate, but you are just as likely to push the wrong button on the electric ironer or hastily pull out an electrical cord with wet fingers.

In the old days the farmer with horsedrawn equipment had to take a break now and then to rest his horses. Today he can drive himself 'til he's ready to drop, and often does. The tractor doesn't mind. But the human body rebels, and then there's an accident. Fatigue and emotional upsets which temporarily blind the victim are behind too many accidents.

It's high time we all began to realize the special demands that modern machinery makes upon the human beings who use it. The push button age demands more of us than mere knowledge of how to push a button. We don't all have to be mechanics, but we must at least learn our own limitations in dealing with the wonderful inventions that should make our lives more happy, not more hazardous.

The searchlight in the wing-tip of a Navy P5M patrol is equivalent in brightness to 15,000 one hundred light bulbs.

Kentucky Streams Fail To Furnish Ample Water For Farm, Industry Use

Tobacco leaves were hugging the stalk and corn blades were shriveling. Hay had made a short crop. Pastures were brown. Stock water was being hauled. Some streams were down to a trickle and many wells, springs and ponds had gone dry. It was a summer drought.

A wise old farmer was urged to pray for rain. He shook his head and said, "Maybe we need to learn how to use the rain the good Lord gives us before we ask for more."

That's an old story, but it points the way to solving Kentucky's growing water problems.

Water problems in Kentucky? Water problems in a state blessed with more miles of streams than any other of the 48 states? Water problems in the state which has the world's largest man-made reservoirs?

Yes, there are water problems in Kentucky. Despite an adequate annual rainfall—45-inch average over a 50-year period—there is not enough to meet the farming demands during the growing season in three years out of four. It has been said that "Kentucky usually has an unusual dry spell."

Kentucky's streams furnish the major portion of the industrial and municipal water supply. But Kentucky's streams do not furnish a stable supply. Although the North Fork of the Kentucky River at Jackson has an average discharge of 8,500 gallons per second, and a peak discharge as high as 351,000 gallons per second, it also has had a minimum flow of zero gallons per second. This range of discharge is typical of all of Kentucky's secondary streams, and even the head-water areas of the major ones.

These problems are a part of the growing pains of progress. It now takes around 65 million gallons of water a day to supply Louisville. This is more than double the daily use 20 years ago. Modern cities and modern industries require ever-increasing amounts of water. And modern farming, too, with an expanding program of irrigation, means a much heavier use of water.

Thus, within recent years, water consumption by cities, industry and agriculture has increased the demands on the state's water supply. These demands will be even greater in the future as they all continue to expand. Proper and equitable use of water is the key to future growth.

A Peeping Tom Is Not Fair Game, Sheriff Agrees

Garden Grove, Cal., March 22—The law agreed with a "Peeping Tom" who said irate husbands have no right to shoot him.

Residents of the Vokwood Lane area here have been complaining to police that a "Peeping Tom" was busy in the neighborhood, particularly when husbands were away at work. One husband shot at the prowler when he caught him outside his house.

"You can't shoot me unless you see me coming into your house," the husband said the prowler yelled as he fled.

Sheriff's Capt. Herman Stahl agreed with the peeper.

"They have no right to shoot a man for peeping," said Stahl, "and we have told them so."

Chandler Reveals Plans For Youth Forest Work

A plan to "rebuild Kentucky's forests and at the same time our dependent youth into responsible men" was revealed last week when Gov. A. B. Chandler announced that a site at Kentucky Dam Village has been selected for a 100-acre tree nursery to be operated by teenage boys who are charges of the State.

The youngsters will be housed in a barracks type camp to be constructed near the nursery where a "tent city" will be set up this summer.

The nursery is the first step in an expanded reforestation program promoted by Conservation Commissioner Laban P. Jackson's department and sanctioned by Governor Chandler. Jackson and the Governor asked that the possibility of a nursery to meet the demands for seedlings be investigated shortly after a conservation program designed for initiation in the next four years was outlined to the Governor recently.

Federal, industrial and state forestry experts from neighboring states volunteered their services in selecting the site which was described as the "best possible." The land near the west end of the dam has been idle since Kentucky Dam was built.

Work in the nursery, which will ultimately produce more than 25 million seedlings a year, is now underway.

According to Harrod Newland, director of the Division of Forestry, some 40 acres of seed beds will be planted eventually. Seeding of five to seven acres is scheduled for the first week in April.

Newland said the nursery should reach peak production in three to five years, when its output will reforest 25,000 acres annually.

"We will encourage needed planting and establishment of farm windbreaks and improvement of existing woodlands by producing these seedlings and selling them at low cost," Jackson said.

"Actually, this nursery is a cooperative effort by the Department of Conservation, Welfare and Economic Security," the Governor said.

"It's aim to conserve and perpetuate our forests and at the same time, conserve our dependent youth. Under a plan worked out by Commissioner Jackson, Vego Barnes, Commissioner of Economic Security, and Welfare Commissioner Charles Alphin, we intend to use dependent teenage youths to do much of the work in the nursery," Chandler added.

Jackson elaborated on the plan, explaining that it will amount to a tremendous saving in labor costs and at the same time, give orphaned youths an opportunity to enjoy closely supervised camp life. He said the boys will probably work 30 to 35 hours a week and spend the remainder of their time in recreational and educational activities.

If successful, the plan may later be expanded to include charges of the Welfare Department. Jackson said similar plans have been in operation in Ohio and other states.

Seedlings from the nursery will be sold at cost and will not be available for ornamental, shade tree, or roadside planting, in compliance with Division policy.

Last year, the state's only nursery at Pennyrite State Park, produced 1,500,000 seedlings, and the Division of Forestry distributed

more than 6,500,000, obtaining the balance from the neighboring states.

"We could have distributed 10,000,000 last year," Newland said, "but we were in a position to just sit and take what orders happened along, instead of promoting reforestation and better management practices that would have resulted in a higher demand."

"Because of Commissioner Jackson's program of development of small watersheds, with emphasis on reforestation, activity of various soil conservation agencies, the proposed Federal Soil Bank plan and nation-wide interest in tree planting, demand for seedlings in Kentucky should easily reach the 25 million mark by the time we reach peak production on this nursery, and possibly before," Newland concluded.

Species to be produced include short-leaf, loblolly, Virginia, pitch pines and several miscellaneous hardwoods, Newland said.

Newland said experience has shown that the 25 million production figure represents the point of top efficiency in production of pine seedlings, and will probably meet demands in Kentucky for several years.

Garroway's TV Show Set To Originate From WSAZ Showing American Ruhr

Political figures and local talent from the Central Ohio Valley will appear on NBC's TODAY when the program originates from WSAZ-TV on April 24 and 25.

Political figures from West Virginia, Ohio, and Kentucky will be interviewed by Dave Garroway, star of the show. Marching bands, drum majorettes from Huntington, and local talent will appear during the two day coverage of the Valley industrial story.

The purpose of the Huntington origination of TODAY is to report on one of the world's most intensely industrialized areas (ten times the production of the more highly publicized Ruhr Valley) and will utilize TODAY's two basic techniques: filmed features and live remotes. Film footage will cover major industrial installations in the Central Ohio Valley. Industrial growth in this area has been phenomenal because of the access to power (coal, natural gas and electric) and transportation (rail and river). The valley has become extremely attractive to industry because it is already a center of manufacturing, of distribution, of low cost operations, and has ample room for construction and expansion.

Wayland Student Slated As Assistant Director Of Morehead School Play

Miss Phyllis Stone, Morehead State College student from Wayland, is assistant director in the next Morehead Players' production, scheduled for March 28 and 29 at 8:30 p.m. (EST) in Button Auditorium.

Miss Stone, daughter of Mr. and Mrs. Ike Stone, will serve as assistant for the English version of a Latin play, THE ROPE. A junior Education major, she has appeared previously with the Morehead Players as Eybil in MRS. McTHING.

A 1954 graduate of Corbin high school, she was active in drama and appeared in THREE OLD MAID AUNTIS, NEVER TRUST A MAN and WEDDING SPELLS.

The production, billed as "An Evening with Plautus and Moliere (Masters of Comedy)", is unusual in that it marks the first time a production has ever been done in foreign languages at Morehead. The players, in cooperation with the Division of Languages, are presenting two one-act plays—one in Latin and one in French—, both of which will be followed by English versions of the scripts.
