This Town— That World

The fall-out from these atomic blasts is a dreaded thing. But what about the falling out from these elections?

WEATHER REPORT

R. T. Allen reports that snow fell here, about 7 o'clock Monday evening. Well, he's old enough to know snow when he sees it. So it snowed.

NOT THAT DEAD

We fishermen are a bunch of Sad Sacks. If we lose a big fish and tell about it, we are given the old hee-haw. If we don't lose one, we are told, and not without reason, that we can't fish, anyhow. If we do contrive to land one, somebody blandly inquires, "Where's your trap?" We can't win for losing.

And then, if fishing lapses into the doldrums, we swear there just ain't any fish there. Take Dewey Lake, for instance—you take it, I don't want it. Things are so dead there some have begun calling it the Dead Sea.

One guy went so far as to tell of two fellows walking along the lakeside, recently, and of one stooping to pick up a yellowed, tattered piece of paper. "Wonder what this could be?" he mused.

"Don't know," grunted the other, who was a fisherman. "But handle it, careful-like. It may be a part of one of the Scrolls they found in those caves."

QUERIES GIVEN 4 CANDIDATES

Teachers' Group Asks Positions Be Outlined In Educational Program

The four candidates for member of the Board of Education in Educational Divisions 1 and 2 of this county have been asked by the Salary and Legislative committee of the Floyd County Teachers Association to express their views by answering five questions submitted by the committee.

The letters to the four candidates—Dr. J. H. Allen and John G. Hall in Division 2; Ray Howard and W. A. Spradlin, in Division 1—were not mailed, however, till last Saturday, and so the replies of the candidates were not available for publication.

The questions asked are:

1. Would you, if elected, agree to budget 60% of the Local Leeway Fund for teachers salaries?
2. Would you, if elected, be a party to factional and political recriminations toward teachers who worked for you or against you during a political campaign?
3. Would you, if elected, be in favor of supplementing rural teachers a stated amount each month for necessary janitorial services such as fire-building, banking fires, setting up stoves, weed-cutting, cutting of kindling, replacing broken window panes and expenses for hauling necessary supplies to and from school?
4. Would you, if elected, arrange for prompt payment of rural teachers immediately upon receipt of report to office?
5. Would you, if elected, arrange for consolidated teachers' checks to be placed in hands of principals of said schools on last day of each school month and issued to teachers upon receipt of report to principal?

MAYOR NAMES GEO. ROBERTS COMMISSIONER

As Term of Hagewood To Expire November 19; Collins Also Inducted

Two new members of the three-man Prestonsburg Utility Commission were sworn into office Tuesday evening by Mayor Bill Napier.

George T. Roberts was named to succeed Russell Hagewood whose term expires Nov. 19, and Adrian Collins, who was appointed by Former Mayor Harry Sandige following the death of Henry D. Fitzpatrick, Sr., in January of last year, was administered the oath of office. He had not previously taken the oath.

The Prestonsburg Utility Commission was created by an ordinance of the City Council in 1956 to provide for the administration of the water and gas services. Terms of the members are staggered in two, four and six years.

Roberts' term will extend to 1964 and Collins will fill out the Fitzpatrick term which was due to expire Nov. 19, 1960. The third member of the Commission and its chairman is Burl Spurlock.

Collins' appointment by Mayor Harry Sandige was approved by the City Council at a meet subsequent to the death of Mr. Fitzpatrick but, Mayor Napier points out, the ordinance creating the Utility Commission makes no provision for concurrence of the Council. He referred to Section I of the ordinance that provides:

"Said members shall be appointed by the Mayor and their appointment must be approved in writing filed with the City Clerk by the original purchaser or purchasers of any outstanding bonds constituting an incumbrance against said combined and consolidated public project."

The water and sewer bonds providing the money to finance the system are held by Charles A. Hirsch & Company, Cincinnati. This investment company will buy the courthouse and swimming pool bonds if their construction is approved by voters next Tuesday.

Collins and Roberts executed the necessary bonds of \$5,000 each required by the ordinance. Their appointments require the approval of the bondholders.

ACP ELECTION IS SCHEDULED

Five Floyd Communities To Pick Committeemen In County Farm Program

The annual election of community committeemen of the ASC program in this county will be held Nov. 14 at five different polling places, it was announced this week by Elder Gobie, office manager. Farmers will choose the committee for five communities.

To be chosen at the five communities of Middle Creek, Right Beaver, Left Beaver, Mud Creek and Cow Creek are five committeemen who will be designated chairman, vice-chairman, member, first alternate and second alternate. The person receiving the highest number of votes will be named chairman.

The chairmen of the five communities will automatically become delegates to the county convention scheduled Nov. 29. The community vice-chairmen will be named alternate delegates. The convention will name the three-man county committee to operate the ASC program in the county for one year. Daniel Akers, of Amba, is chairman of the county committee at the present time.

Nominations by farmers have already been made for the offices in the local communities, it was pointed out this week.

The nominees of each community and the polling places, follows:

Right Beaver Creek, election to be held at Cooley's grocery at mouth of Brush Creek: Willie Bentley, Will Boggs, French Bolen, Grace Burchett, Wayne Cox, Jack Fitch, Dockie Prater, Perry T. Prater, Temp Prater and Willard Prater.

Left Beaver Creek, polls at John Spurlock store at Printer: Sam Elliott, Bee Halbert, Hargis Hayes, H. D. Martin, William Mayo, Ervin Meade, H. F. Meade, George Salisbury, Lackey Salisbury, Spurlock Tackett.

Cow Creek, polling places at James B. Goble's store: Clyde Blackburn, Roland Blackburn, Wayne Crider, Lewis Burchett, J. N. Burchett, Rus-

This was the scene last week as the body of one of two men killed in an abandoned Middle Creek mine was carried by rescue workers to a waiting ambulance. Workers, including mine rescue team members from the Princess Elkhorn Coal Company, David, and members of the Floyd County Emergency & Rescue Squad, worked two hours before last of the two bodies was removed from beneath a 40-ton rock-fall.

SECTION NEEDS MONEY, INDUSTRIAL SITES, SAID

Eastern Kentucky needs money, industrial sites and the know-how to use them if it is to improve economically, J. C. Zimmerman, of the Kentucky Chamber of Commerce, said at Lexington, Friday.

Speaking at a panel discussion at an open meeting of the Kentucky Association of Organization Executives, he said capital from outside sources is much needed in the mountainous area and another need is in industrial sites. Many sites would be available if they were cleaned up, he said.

B. F. Reed, of Drift, chairman of the Eastern Kentucky Regional Planning Commission, in commenting this week on the recent tour of this section by prominent industrialists and state and national officials, announced that a report setting forth specific benefits and accomplishments of the inspection of the area would be made at Middlesboro, Nov. 3. Zimmerman, director of industrial development for KCC, was a member of the party that toured Eastern Kentucky under the sponsorship of the Reed group.

Zimmerman, in his Lexington talk, added that local citizens of the area lack ability to develop

improvement programs and that in this field state and federal governments should help.

Peter Janis, of the Pikeville Chamber of Commerce, who was with Zimmerman and others on the panel, said Eastern Kentucky must increase its tourist attractions in order to overcome continuing losses in coal production.

Paul Grubbs, public relations director of the Louisville Chamber of Commerce, told the panel that the area should develop a tourist program, build more air strips and make available more level ground for industrial sites. He suggested discontinuing calling the area, "the Eastern Kentucky Mountains," and refer to it as "the Kentucky Highlands."

Reed, in referring this week to the scheduled Middlesboro meeting, said that the principal business of the meeting will be further discussion of a comprehensive tourist promotion and development of the area. "Particular attention will be given," he added, "to discussing possibilities of creation of a scenic route between Middlesboro-Pineville and the Breaks State Park area near Elkhorn City."

JUDGE RULES CONTEST OUT

Prichard Says Evidence Of Irregularities Not Enough To Void Vote

Special Judge Watt M. Prichard, of Ashland, decided his first election contest case Wednesday, and that decision dismissed the contest of the November, 1957 Martin city election.

In dismissing the action Judge Prichard commented that the evidence submitted did not show enough irregularities to justify voiding the election. He said he had presided as circuit judge in the Boyd-Lawrence district more than 30 years and that this was the first election case to come before him. He was appointed special judge when Circuit Judge Edw. P. Hill disqualified.

The Martin contest case was filed by Chiles Chas. H. "Dick" Stanley and D. M. "Doc" Hutchinson, who named as defendants four winning candidates for the Martin City Council, William G. Goff, Haskel Frye, Sr., John H. Tunley and Charles Pinson. Among other things the plaintiffs' petitions claimed no provisions were made for a secret ballot in either of Martin's two voting precincts, some ballots were cast by persons who were not legal voters of the precinct where they voted, the comparative signature book was not signed by some voters and the clerk of the election in one precinct failed to sign 20 or more ballots.

TRAGEDY DATA IN BOOK FORM

Volume To Be Kept Here At Library; Circulation Of Books To Top 100,000

The scrapbook covering the Floyd school bus tragedy, as compiled by personnel of the Floyd County Library, claimed the interest of Floyd Library Board members attending the meeting held Monday evening at the Sea Cafe, Martin.

The scrapbook, which contains photos taken on the scene will be a permanent part of the library here and will be available for inspection by library visitors.

Also included in the scrapbook are the names of all known donors to the Prestonsburg School Disaster Committee and the amount given by each and many of the letters accompanying contributions sent from all parts of the country.

Last month ended the fourth year of Bookmobile operation in this county. Records produced by Homer Lee Hall, one of the two Bookmobile driver-librarians, depicted the steady, if not sensational, increase made in book circulation from year to year.

The circulation figure for the 1957-58 school year stood at 82,000. For the first four months of the current fiscal year, with schools in session less than half of that time, the circulation total was 30,000, and it is expected to reach 100,000 for the full 12 months.

CLUB WOMEN IN 40th MEET

Need for Vision Told By State President At Wayland Meet

"Vision is the only limiting factor in achievement," Mrs. W. B. Frazier, Saroburnville, president of the Kentucky Federation of Women's Clubs, told delegates to the Seventh district convention of Women's Clubs at Wayland Saturday.

Vision, which is necessary for progress, she continued, is affected by environment and training, church and family. "Mankind cannot stand still. From home we move to community, to county, state, nation and on to the world." The speaker emphasized the need for awareness of world conditions and the importance of finding means of communication between peoples—especially the need for education.

The Lackey-Garrett-Wayland Woman's Club was hostess to the

1959 MAY SEE DEER-HUNTING

In Dewey Lake Refuge, Prediction by Stephens; Grouse Prospects Good

Current findings made in the Dewey reservoir game preserve indicate that the deer population has increased to the point that Floyd county's first deer season since the day when the species first came within the protection of the law will be held there next year.

So said Howard Stephens, Prestonsburg, district wildlife biologist, last week-end in a discussion of the overall Eastern Kentucky game picture.

Deer have fared well in the lake area, the rate of propagation has been good, and the loss of deer to dogs and poachers has become almost negligible. The study made around the lake revealed heavy browsing.

Hunters who are willing to hunt the rough spots have a good grouse-hunting in Floyd county, Mr. Stephens said. "In fact," the biologist said, "the grouse population in all Eastern Kentucky counties is good, and Letcher county is tops in Kentucky."

Grouse is considered, next to quail, the best bird for this region since it has been proved that pheasant do not fare well in this area. Pheasant require grain, a food which is scarce in this section, and those released at Dewey Lake and elsewhere in this district have never flourished. Grouse, on the other hand, feed on berries, small nuts and leaves of some bushes, and do well in Eastern Kentucky.

Stephens has requested that one wing and the tail of each grouse killed in this section be

AUTO MISHAPS FATAL TO TWO

Price Dies Instantly, Compton One Hour Later After Pike-Co. Wrecks

Separate accidents at the same Pike county curve claimed the lives of a Floyd county man and a Pike countyman last week-end.

The victims were Jack Compton, 31, of Harold, and Grover Jackson Price, 20, of Harmon Branch.

Compton died less than an hour after his injury early Saturday night in wreck on the curve approximately one and a half miles north of Pikeville, on US 23. Early next morning, Price was instantly killed.

Joe Hopkins, 23, of Harold, who was driving with Compton, was slightly injured, and Walter Gilliam, 26, of Cowpen Creek, companion of Price, also escaped with minor hurts.

Deputy Sheriff Birt Nickles, of Wayland, whose car struck Compton's auto after it had wrecked, was unhurt, it was said.

State Police said both cars were driven at high speed. The two vehicles wrecked within 100 feet of each other. Compton's car left the highway on the right, rammed into the hillside, bounded back onto the roadway and turned around. Price was thrown from his auto as it skidded on wet pavement and turned turtle on the roadway.

Compton, a native of Harold was a son of Mrs. Margaret Gearheart Compton, of Harold, and the late Okie Compton. An electrician, he formerly was employed by the Eastern Seaboard Corporation at Bold-

MOTOR COURT HERE IS SOLD

Justice and Sturgill Purchase 20-Unit Court Built By Browns in '52

The Brown Motor Court here was purchased this week by James Justice, of Pikeville, and A. D. Sturgill, of Harold, from Mrs. W. H. Brown. The new owners of the business began its operation, Wednesday.

Involved in the transaction were the 20-unit motor court and its furnishings. The purchase price was not divulged.

The Brown Motor Court was built by Mrs. Brown and her late husband, and it had been in operation since 1952. Prior to that, Mr. and Mrs. Brown owned and managed the New Valley Inn here from 1940 to 1948.

The added burden of managing the business alone led to her decision to sell, Mrs. Brown said. She added that she will leave soon to reside in Sandwich, Ill., where her daughter, Mrs. James D. Hartley, and family are located.

Books On Exhibit Fair Slated At High School, Librarian Announces

"It will coincide with the fortieth National Book Week," said Mrs. Evelyn Salisbury Prestonsburg grade school librarian, this week in calling attention to the Book on Exhibit Fair scheduled for its initial 1958-59 national appearance at the Prestonsburg high school, Nov. 3.

Theme of National Book Week will be "Explore with Books," she added.

The Book on Exhibit Fair will present 550 volumes and will be added to by Robert Wallace, Bookmobile librarian, with a collection of science works. Name of the books scheduled by Wallace is "The Traveling High School Science Library." The fair will be open from 8:30 a.m. to 3 p.m. and following the high school showing will be taken to the grade school Nov. 5. Afterward it will be shown successively at Betsy Layne, Maytown, McDowell, Martin and Garrett.

HUNT KILLED BY SLATEFALL

Lancer Resident Victim In West Virginia Mine; Body Is Returned Here

John Hunt, 58 years old, of Lancer, Tuesday night became the third Floyd countyman to lose his life in coal mine accidents in a seven-day period filled with misadventures.

Charlie Pennington, 65, and Paul Thurman Dotson, 36, both of the Middle Creek road section, lost their lives, Tuesday of last week, in an abandoned mine near their homes. At Bishop, Va., 22 were killed. Thirteen others were claimed in a mine blast at Summerville, W. Va.

Mr. Hunt was killed by a slate-fall in the No. 17 mine of the Island Creek Coal Company at Red Jacket, W. Va. He was crushed internally by the fall at 11:15 and died within half an hour.

The Lancer mine victim was a son of the late Lacy and Minnie Jarrell Hunt. He is survived by his widow, Mrs. Rosie Yates Hunt, a daughter, Miss Billie Hunt, of Lancer, and three sons, Carl E. Hunt, Huntington, W. Va., Onda Lowe Hunt, Prestonsburg, and Ronald Eugene Hunt, of Lancer; five brothers and three sisters, Dewey, Fred, Elam and Oliver Hunt, all of Lancer, Edgar Hunt, of Catlettsburg, Mrs. Alta Childers, Catlettsburg, Mrs. Nina Preston, Charleston, W. Va., and Mrs. Charlie Calhoun, of Prestonsburg.

Funeral rites will be conducted Friday from the Lancer Baptist Chapel, the Revs. Ira McMillen, Isaac Stratton and Henry Crider officiating. Burial will be made in the Mayo cemetery here, the Carter & Callihan Funeral Home directing.

SECOND-FLOOR CROWD LIMIT IS SUGGESTED

Inspection Report Says Courthouse Foundation Materially Weakened

On recommendation of the Floyd County Health Department the Floyd fiscal court Wednesday morning directed that the public restrooms in the courthouse be closed and that metal gas connections in the jail be installed at once to replace unsafe rubber hose connections.

The action followed the annual inspection, Oct. 24 of the county's public buildings by the Health Department. The inspection was made by J. M. Stumbo, sanitarian, and John Stepp, sanitarian with the Martin County Health Department, who is in training here.

The restrooms were closed, Stumbo, said, because the plumbing is inadequate, ventilation is poor and because of their general unsanitary condition.

Although this was the only positive action taken by the court after the inspection was made, it heard a report from Stumbo that was disturbing.

Pointing out that the foundation of the courthouse has weakened, that the floors have pulled away from the walls and that the wooden sub-flooring beneath the heavy terrazzo surface-floors has decayed, the sanitarian advised that the second floor not be subjected to heavy strain.

"I certainly would not recommend that more people than the minimum required by law be permitted in the circuit courtroom during the vote-count next week," he told the fiscal court. It was at first estimated that the minimum legal number of

Underprivileged Children Object of Local Drive

The United Nations Children's Emergency Fund drive is here on Halloween eve, Thursday, Nov. 2. Young people from Prestonsburg churches are going out to collect money instead of treats.

Any amount will be appreciated, according to Judy Roberts, leader of the local group. She said that the UNICEF drive is to provide for underprivileged children of foreign countries.

She said that the price of a comic book (10c) provides for 50 glasses of milk in India, a nickel candy bar will pay the expense of curing a crippled person in Nigeria and a 10c cone of ice cream will provide for 10 tubercular persons in Chile.

These young people will be distinguished by the tags they will wear. These tags have inscribed on them, UNICEF for the World's Children.

This is a photograph of a swimming pool such as is planned for Prestonsburg if the voters approve the bond issue to be voted on Nov. 4.

GERRYMANDERING

Webster's definition—"To divide a voting area in such a way as to give an unfair advantage to one political party; to manipulate unfairly; falsify to gain advantage."

We are sorry that this map does not show the mountains crossed and the streams forded as these educational districts were wound and twisted around to INCLUDE some and to EXCLUDE others. A map with all these details would show how ridiculous it is for parts of Middle Creek and Bull Creek to be in Division No. 2 and for Lancer, which is inside the Prestonsburg city limits, where the people pay city taxes and the gym tax and where they send their children to school, are put in Division No. 4 which starts with Mud Creek.

We promise you if elected that we will vote for and advocate a return of your precinct into its former Educational Division where you rightfully belong. See your friends and neighbors who are living in the present Educational District and help us right the wrong that has been unjustly heaped upon you to prevent you from voting in this election.

WOMAN'S CLUB MEETS

Mrs. Clifford Wright and Mrs. Jack Hodge were hostesses to the Prestonsburg Jr. Woman's Club which met in the Municipal building, Tuesday.

The 1959 budget for the club was approved with a donation for the Boy Scouts, Girl Scouts and the Rescue Squad included.

Mrs. Fred James and Mrs. James Allen were named as delegates to the district convention held at Wayland Saturday, October 25. The delegates and three other members presented a musical skit on the activities of the club for the past year.

A program was presented by members of the Junior Chamber of Commerce. The program was about the proposed swimming pool for Prestonsburg. A unanimous endorsement was presented to Jaycee members by the Jr. Woman's Club.

Refreshments were served by the hostesses to guest Mrs. Warren Worthington and members Miss Burieta Gearheart and Mesdames Don Sullivan, Robert Branham, Fred Adams, Johnny Ellis, James Adams, Calvin Herrick, Don Moore, and Norris Boggs.

Woman's Club Schedules Arts and Crafts Classes

"November is Christmas Gift Month so make Tuesday night, Workshop Night," advises the Prestonsburg Senior Woman's Club.

November classes will include novelties with small shells in shellcraft decorating, Telecraft, textile painting, and basket weaving will be a few of the crafts included in the classes this month. "Help will be given anyone wishing to make Christmas gifts not in this category," a member of the club said.

Registration should be made with Mrs. H. L. Ley, director, no later than Thursday, Nov. 6. If the quota is not filled by Federated members other women of the community may join for a small workshop fee.

"Remember, 'November is Christmas Gift Month,' so make Tuesday night, Workshop Night," the club advises.

"How Could We...?"

"Keep yourself out of the courthouse—and let it fall," an acquaintance advised the editor of this newspaper recently when he expressed the fear that the building will collapse, one day, with attendant loss of human life.

You say the individual who made that remark is heartless and uncaring for the safety and well-being of others? You are wrong. Our acquaintance said that without thinking; the statement does him no credit, true, but he is not that calloused and uncaring.

The trouble with Floyd county's voters just now may be, they are not thinking of what may happen. Furthermore, they may never think seriously until they are pulled up short by such tragic loss of human life that the county will have had another major disaster.

We have no money to lavish on pet projects. We need to economize. But in this matter of a new courthouse—with the present structure doomed to inevitable collapse, some day—our conscience will not permit us to forget relatives, friends, even those total strangers, who may be found at the bottom of the ruins.

Let us not wait till the time when many of us will be saying, "How could we let a thing like that happen?" If we will listen to the "still, small voice" of conscience, we will vote the bond issue, pay our tax as a sound investment for the county and its people as a whole, and avoid those regrets that could lie ahead if we fail to face up to our duty.

"Our Fair City..."

The Times has never sympathized very deeply with one type of mourner.

This is the individual or official who mourns for "the name of our fair city" when the truth is told about unsavory conditions within its limits and who, until this truth is told, does nothing and says nothing in protest against such conditions.

The city of Newport, Kentucky is such a city and some of its officials are the "mourners."

It is admitted, even by Newport citizens, that prostitution and gambling operate on a big scale there. Most of these citizens have never known anything else; many of them, seeing and knowing of such things in their own "fair city," assume that all other cities have, and abide with, prostitution and gambling on a big scale.

And so it is that when Newport is mentioned as a "hot spot" bitter resentment is voiced by officials who contend that their city is being singled out for unfavorable publicity while other cities escape notice.

Frank Sinatra, the little crooner-roughneck of movies fame, recently dropped a wad of cash at a casino three miles out of Newport, and that got Newport in the news. Folks there contend that that casino isn't in Newport. But they know, too, that there are three such places operating openly in the city where he could have been as effectively taken.

And those who mourn the city's "fair name" know, we are told in a recent Courier-Journal story, that gamblers, prostitutes, pimps and their ilk ply their respective trades in open view of citizens, year after year, generation after generation.

This is not to excoriate Newport, as much as it and its officials deserve excoriation. It is, rather, to emphasize the point that we who would so jealously and valiantly defend the name of our fair city when the truth becomes unpleasant should do something to make that name fair before the lid is lifted for all to see the unsavory mess that has been cooking over the months and years.

Betty Sizemore, of East Point, a 1956 graduate of Prestonsburg high school, was recently selected the 1958 Homecoming Queen at Morehead State College.

The daughter of Mr. and Mrs. Bill Sizemore, she is a junior Home Economics major at Morehead.

Miss Sizemore was chosen by popular vote of the entire student body and won over 10 other finalists to reign over the entire day's activities. Included on the day's program were the dedication of Lappin Hall, parade through downtown Morehead, tea dance and reception for alumni, football game and student dance.

Betty was crowned at halftime of the Morehead-West Virginia Tech game by Dr. Adron Doran, president of Morehead State College.

Her chauffeur is Gary Miller, a Morehead sophomore from Olive Hill.

In Kentucky, expanded plants, during 1957, according to the State Chamber, the machinery industry added the greatest number of plants (five) and the most jobs (501) while the printing industry took top honors in the greatest amount of investment (\$4,000,000).

Tobacco remains "King" in Kentucky agriculture with beef production in second place. The Kentucky Chamber of Commerce noted that emphasis is being placed on varied products such as soybeans, dairy products, strawberries and truck crops to balance the agriculture picture.

Teachers and other eligible taxpayers have until Monday, November 3, to file Federal income tax refund claims for deductible educational expenditures made in 1954, it was announced recently.

W. M. Gray, district director of Internal Revenue Service said the November 3 deadline results from the additional 60-day filing period provided by a law enacted September 2.

Gray explained that on April 5, 1958, liberalized regulations concerning the deduction of expenditures for education, which apply to 1954 and later years, were issued. However, at that time, the last day for filing a claim for the year 1954 was April 15, 1958.

Because of the short period between issuance of the new regulations and the then April 15 deadline, many taxpayers were unable to file their 1954 claims on time.

Under the new law, taxpayers now have until November 3 to file a refund claim on Form 843 or an amended return on Form 1040 for the year 1954 in order to obtain a tax refund based on deductible expenses for education, Gray said. A statement of facts supporting the claimed deductions should be attached, he said.

He added taxpayers who have received notice that no consideration would be given to their claim for the year 1954, or that the claim has been disallowed for the reason it was not timely filed, should write to the district director.

Jim Tilton, mining engineer with the Equitable Gas System, Pittsburgh, Pa., was the guest speaker at the October Foremen's Club meeting in the Sea Cafe at Martin.

He conducted a discussion on the effects of subsidence on a pipe line system. Several charts and pictures, plus a model mine built to scale, were presented.

The point was stressed by Tilton that the solution to the problem is a mutual understanding by both the coal and gas industry and cooperative efforts to prevent or control the difficulties as they occur.

Horton Hewlett, of Drift, was presented with a 25-year service award and a \$100.00 war bond by J. H. Keenon, superintendent of compressor stations, of Prestonsburg.

It's The People's Decision--- Let Your Conscience Make It

The Floyd county courthouse is basically weakened. Inspectors have discovered that. Grand juries have affirmed that fact and have urged a new building.

A building weakened at the bottom cannot be strong at the top. It will inevitably collapse.

When it will fall we do not know. Tomorrow — next year — five years from now? Nobody knows.

The question is, Are you willing, because a bond issue would cost you 7 cents per \$100 (70 cents a year on an assessment of \$1,000), to take a chance on perhaps score of lives being lost, not to mention valuable, irreplaceable records, just to protect your pocketbook?

Shall we ask ourselves, when that day of disaster does come: "Why did we let this happen?"

LET YOUR CONSCIENCE SPEAK FOR YOU..

VOTE "YES"

CATS WIN HOMECOMING TILT; PREP FOR TRADITIONAL FOES

BEREFT
The family—mother, father, sons, daughter—sat silent, staring straight ahead. The silence was broken only occasionally by a quiet remark. All through the house there was an unspoken grief. Even the telephone had become mute.

A stranger, looking unseen on the tableau, would have sensed some matter of deep concern, even tragedy, to this family group. He would have watched the father thumb, absent-mindedly, through a book; the others shuffle their feet as if to rise, then sink back into their seats as if resigned to whatever fate that impended. But if such an on-looker had stuck around long enough the mystery would have been cleared for him.

For the "missing link" in the family circle arrived home, stuck his head inside the door, took a peek toward the wall that was getting so much attention, then inquired:

"Wonder when that repairman will get the television set back?"

The Prestonsburg Black Cats did not let a big Homecoming crowd down last Friday night—they defeated visiting Whitesburg, 19 to 12, and in so doing raised their season record above the 500 mark.

And Friday night of this week they move onto Paintsville for their annual game with their traditional gridiron foe whose won-lost record is identical with that of Prestonsburg's.

Prestonsburg's first marker was scored by Willie Ousley on a 10-yard run. Ousley also scored the only extra point of the evening when he ran the ball over after the Cats' third touchdown. The second Cat score was an exed on a 30-yard run by James Allen, and the third came on Bobby Marshall's quarterback sneak from the one.

Whitesburg scored in the second quarter on a 50-yard pass play and in the third on a pass after a series of running plays had advanced the ball to the Prestonsburg five.

Between halves, Miss Martha Ann Burchett was crowned Homecoming Queen. The coronation during a colorful ceremony was made by Mayor Bill Napier. Her attendants were Cora Ruth Wright and Mona Hughes. All three girls are seniors in the high school here. A sock-hop concluded the homecoming festivities.

The Hazard Bulldogs can wrap up the 1958 Eastern Kentucky Mountain Conference high school football crown with a victory over Fleming, Friday night.

Nick Diachenko's Jenkins Cavaliers paved the way for the Bulldogs last week-end in pasting previously undefeated, unscored-on Belfry 35-6 to move into second place in the league standings.

In winning their sixth consecutive game, Jenkins assured itself of second place, barring an upset to Pikeville, Friday, under the Dickinson System of ratings which the conference uses in selecting a champion.

Inside the loop, Jenkins has lost only to Hazard and by virtue of its easy win over Belfry will finish ahead of the Pirates, provided both Hazard and they win their closing games, Friday night.

Turning to other week-end action, Jim Caudill's Hazard eleven had easy sailing over undermanned Leslie County, 55-6, with the state's leading scorer, Astor Sizemore, increasing his eight-game total to 154 points on three touchdowns and seven extra points. Sizemore broke Paintsville's Frankie Patton's E.K.M.C. record of 144 points that was established in the 1956 season.

Paintsville nipped Elkhorn City, 13-0, last week.

The Pikeville Panthers bowled over M. C. Napier, 33-14, for their third win of the season, and Wheelwright bowed, 27-7, to Russell.

After this week-end's play, only three games are left on the 1958 schedule. Next Friday, Elkhorn City meets Wheelwright, and Pikeville invades Louisa. On November 15, Wheelwright battles Louisa.

SPORTS CHATTER

By GORDON MOORE

A five-game E.K.M.C. schedule this Friday will wind up most of the high school football activity in the Eastern Kentucky area, except for three Bowl games and three other scattered contests.

The Eastern Kentucky Mountain Conference title will be at stake for Jim Caudill's Hazard Bulldogs who lead the pack with a 5-0 record, as compared with Jenkins' 6-1 and Belfry's 5-1.

A win for the Perry countians would give Hazard its first E. K. M. C. title, while a loss would give Jenkins a repeat title; however, it is highly doubtful if Jack Hall's Fleming Pirates have the manpower to cope with Astor Sizemore, the state's leading scorer.

Bowl-bound Prestonsburg and Paintsville enter their 34th meeting with identical 5-4 records and mediocre teams. Prestonsburg will meet Cumberland in the Coal Bowl and Paintsville will tangle with Winchester in the Big Sandy Bowl.

These two neighbors enjoy one of the oldest rivalries in Kentucky high school football. Since their first meeting in 1923, Prestonsburg has won 18 games, Paintsville 9, and five have ended in ties. The Blackcats did not

Setser and Brashear May Be Key Players

Pikeville, Oct. 27 (Spl.) — The 1958-'59 edition of the Pikeville College Bears, learning how to get along without Little-All-American John Lee Butcher, will be built around six returning lettermen from last year's varsity.

Paul Setser, of Auxier, and two other stars of Pikeville's freshman team last season and five newcomers including Dick Brashear, of Manton, will round out the 14-man squad, Coach William R. Daniels said today. Brashear, a junior who was a member of the Bellarmine College Saints as a freshman, sat out last year in order to join the Bears this season.

Also new on the Pikeville scene are Dennis Butcher, Williamsport, and Vern L. Woods, Dayton, Ohio, both veterans of A. A. U. basketball in the Dayton area with National Cash Register Company teams. Butcher, a 1955 graduate of Meade Memorial high school, Williamsport, was basketball captain and a Kentucky all-stater in his senior year there, when the Meade Red Devils rolled up 32 successive wins.

Among the possible combinations open to Daniels when hardwood play begins Nov. 15 is an all-senior starting quintet, with six-four forwards Ken Smallwood, Sassafras, Ky., and John Waddell, of Hindman. The other seniors include the Bears' ace rebounder and six-foot-six, pivotman Garrett Mullins, of Pikeville; Charles Francis (5-9), Sassafras, a veteran guard who has started 78 games and in all has played 86 in his three seasons, and R. H. Singleton, Red Fox, Ky., versatile 6-1 forward-guard.

The only junior letterman on the squad is Ken Maynard, Myrtle, W. Va., is a six-foot guard who saw action in only 20 games last year playing in reserve to Francis and Butcher. The only West Virginian on the squad, he is a graduate of Lenore (W. Va.) high school.

Francis, Singleton, and Smallwood are Carr Creek high school products; Mullins is a graduate of Lincoln Institute, Lincoln Ridge, Ky., and Waddell played his high school ball at Hindman high school.

Two sophomores who did not play last year are Everett Horne, Jr., Tomahawk, Ky., captain of the Inez high school Indians for two years, and James F. Jeanes, Louisville, a graduate of Valley high school, where he was basketball and baseball captain.

The three freshman-team products, all of whom saw some varsity action late last season, are George W. Carroll, Ashland, Ky.; Ronald C. Francisco, Hellier, Ky., and Setser, of Auxier.

Mrs. Eleanor Day Auxier Succumbs At Winchester

Friends here have learned of the passing of Mrs. Eleanor Day Auxier, October 20, at the Clark County hospital in Winchester. Mrs. Auxier had been quite ill for a long period. She was widely known here.

She is survived by her daughter, Miss Jane Day Auxier, of Winchester, three sisters, Miss Golden Day and Mrs. Winston Prewitt, of Winchester, Mrs. Margaret Day Johnson, Birmingham, Ala., and one brother, Floyd Day, Jr., of Lexington. Her funeral was conducted from the Lexington Funeral Home, Winchester, and interment was made in the Winchester cemetery, Oct. 22.

SPORTS SPOTS

A TOUGH LEAGUE
It's surprising how quickly a dangerous and exciting team can have its claws pulled.

Last week, U. K., rated first in the conference in offense, plunged down to fifth this week. Two weeks ago folks were less than calm when talking of U. K.'s chances in the Southeastern Conference this year. Now they are discouraged, pessimistic and generally down-in-the-mouth.

It's little different between a champ and an also-ran, as U. K., is proving once again in the football line. An injury, a bad break, thin reserves, a tough schedule add up to a losing season. U. K. has all of those characteristics.

It takes an "emotional outburst," as Blanton Collier might term it, for U. K. to win. It seems that the "emotional outbursts" at U. K. are as infrequent as cloudbursts in some of the arid parts of our country.

The loss of Floyd county's Lowell Hughes has taken a great deal out of the Wildcats. He is a good portion of their offense, a smart defensive player and a general boost to the team morale.

A team doesn't go any place without its sparkplug, much like our cars. If our Mr. Hughes can get the ailing leg into shape, U.K. might salvage some games. If not, the lads of the Bluegrass seem to have a great talent for tucking their tails between their legs and getting the tar beat out of them.

This is not to detract from brilliant performers such as George Boone, Bobby Cravens, Calvin Bird, Bob Talamini, and a few others. But, in the S. E. C., a team needs two teams of stars to figure.

The S. E. C. is the toughest league in the nation. Want to argue?

COACHES CAN HELP

If we had the time, we would love to talk to every coach in Floyd county, but, alas, time forbids. If you, perchance, happen to read this, relay a message to your high school coach. Tell him we want news of his team. We want the news of sweet victory and sour defeat. We would like to work with them, and thereby give the hard-working coaches, players, and students credit for their accomplishments. Remember, in order to get news, one must have a bit of co-operation.

A RUMOR RUMBLE

Comes the word from a Martin compatriot that Martin high school might have a football team next year. A word to the wise, then if this be so. Stick with your football coach, give him three or four years to "raise" a team. Buy first class equipment. It's your boys you're protecting. Back the team and, above all, have patience.

NICE GOING

Paul Philip Hughes, last of the quarterbacking Hugheses, has been playing a superlative, Hughes-like type of football at Greenbrier Military Academy.

Paul, brother of U. K. quarterbacks Delmar and Lowell, has played all of the last three games at the quarterback position. His team, thus far, has a four and nothing record.

Paul tied the last game against Hargrave Military Academy with a 55-yard-run on a split-T "keeper" play.

Greenbrier's record this year: Greenbrier 13, Emory and Henry College junior varsity, 12; Greenbrier 21, Castle Heights Military Academy 13; Greenbrier, 14, Columbian Preparatory School, 0; Greenbrier 32, Hargrave Military Academy, 12.

TO RECEIVE NATIONAL HONOR

Two home demonstration agents from Kentucky will be among those from other states to be honored for distinguished service in their respective counties at the annual meeting of the National Home Demonstration Agents' Association.

They are Miss Katherine Russell, of Carroll county and Mrs. Thelma Keith Streeter, of Ohio county. The recognition will take place on Nov. 5 at a Luncheon at the Drake Hotel in Chicago.

SCHEDULES

Floyd county's basketball coaches are urged to mail their 1958-59 schedules to The Times Sports Department as soon as they are completed.

RATINGS

Belfry's 35-6 loss to Jenkins last Friday sent them tumbling to 33rd spot in the weekly statewide football ratings, and moved Jenkins to 18th spot, highest of any Eastern Kentucky team. Jim Caudill's Hazard unit is 19th and Paintsville is next in 69th position. The Tigers are tabbed as a one-point favorite over the Prestonsburg Blackcats for their Friday game.

SCHEDULES

Floyd county's basketball coaches are urged to mail their 1958-59 schedules to The Times Sports Department as soon as they are completed.

YOUR RIGHT TO EQUAL REPRESENTATION AND YOUR RIGHT TO VOTE WAS PRESERVED IN REDISTRICTING

Prior to the merger of the Prestonsburg Independent School District with the Floyd County School District, the latter had been divided into five educational divisions. These divisions were created in 1940 and the only reason why they were changed was because of the addition of the Prestonsburg schools to the Floyd County School system. This required the Board of Education to change the boundaries of the divisions which had been created in 1940.

When Prestonsburg was added to the Floyd County School system, it was impossible to include all of Educational Division No. One and Prestonsburg in one educational division. If this had been done, it would have violated the requirement of the statute that the divisions must, as far as possible, be equal in population. If Bull Creek, Lancer and the part of Middle Creek which was placed in the divisions now represented by J. E. Campbell and John M. Stumbo had been placed with Prestonsburg the other divisions would not have been equal in population with Educational Division No. One. The Board of Education made a bona fide effort to make each of the educational divisions as nearly equal in population as possible and the fact that it did succeed in so doing is demonstrated by the fact that no person appealed to the courts from the action of the board and its action has never been questioned.

It is claimed that the board can change the divisions again. Apparently, the author of the article, appearing in last week's issue of The Floyd County Times, has not taken the trouble to read the statute governing this question for by Kentucky Revised Statutes it is provided that no change may be made in division boundary lines more frequently than five years after the last change in any division line. Consequently, the persons, who do not have a vote this year for the election of board members will have such right at the general election to be held in 1960 and will thus not be deprived of their right to vote for a member of the Board of Education.

Why did the author of the article, which appeared last week in the Floyd County Times, fail to appeal the action of the Board of Education in fixing the boundary of the educational divisions? A very simple answer to this question is that the divisions were correctly formed and that such an appeal would have been of no effect.

Incidentally, such an appeal could not be taken further than the circuit court. If an appeal had been taken the issue would have been resolved prior to this date, but the persons, now raising this issue, knew full well that such an appeal would be futile. He preferred to try to make "political hay" out of this phony issue.

Mrs. Cordelia S. Whittier, Age 69, Of Prestonsburg, Dies At Daughter's Home

Mrs. Cordelia Stewart Whittier, 69 years old, died at 6 a.m. Friday morning at the home here of her daughter, Mrs. J. Y. Goble, following an illness of several months.

A native of Minnie, this county, she was a daughter of the late Henry E. and Sarah Martin Stewart, and for many years had been a resident of Prestonsburg. Mrs. Whittier was for 20 years a teacher in the Floyd, Boyd and Lawrence county schools and later was a member of the faculty of the Nashville (Tenn.) Agriculture and Normal Institute. She was a member of the Presbyterian Church.

Survivors include one son, Charles Spradlin, and two daughters, Mrs. J. Y. Goble, and Mrs. V. A. Smiley, all of Prestonsburg, two sisters, Mrs. Margaret Cannon, Maywood, Ill., and Mrs. Elizabeth Mellon, of Ashland, 19 grandchildren and five great-grandchildren.

Funeral rites were conducted from the First Presbyterian Church here at 2 p.m. Sunday, the pastor, the Rev. Paul Bingham, officiating. Burial was made in the Richmond cemetery under direction of the Moore Funeral Home.

Youths Shoot Stepfather At Catlettsburg; Buskirk Ambushed Leaving Tavern

Three former Catlettsburg youths are being held at Huntington, W. Va., in connection with the fatal shooting there Sunday night of the stepfather of the boys.

Huntington Detective Chief **Herman Frazier** said the boys admitted ambushing **Homer Buskirk**, 33, Wayne, W. Va. as he and two companions left a tavern.

Frazier said a warrant charging the three with murder was obtained after 16-year-old **Dallas Wilson** admitted that he fired the fatal shot from a .22-caliber rifle. The other two charged are **Ronald Joe Wilson**, 18, Dallas' brother, and **Gary Steele**, 16, a boarder at the Wilson home in Huntington.

Frazier explained that **Buskirk** was the stepfather of the Wilson boys and had been either living or working in Ohio. He and his wife had been separated since July. The bullet struck **Buskirk** in the center of the chest and punctured his heart, Frazier said.

The youths were quoted as saying they knew **Buskirk** was in the tavern and they waited across the street in an automobile for him to come out. They said they had borrowed the rifle from a friend in **Catlettsburg**.

Frazier and other Huntington officers came here and took the rifle as evidence. Frazier said the boy who had lent the rifle was in no way involved in the shooting, however. The three suspects were arrested in Huntington after they had returned the rifle to **Catlettsburg**, then gone back to Huntington.

district meeting, the 40th in the history of Seventh district woman's clubs. The convention was held at the Wayland Methodist Church. Mrs. Arthur Bradbury, Wheelwright, governor of the Seventh district, presided. Rev. H. Fegan gave the devotional.

Mrs. L. B. Price, president of the hostess club, gave the message of welcome, and the response was given by Mrs. David Reed, president of the Maytown Club.

Mrs. Bradbury introduced Kentucky Federation officers, Mrs. Bill D. Penry, chairman of Club Extension, Mrs. Francis Pennington, Ashland, Student Loan chairman, and Mrs. Frazier, state president.

In giving her report for the year Mrs. Bradbury remarked on the growth of Kentucky club work and expressed appreciation to all clubs and presidents for fine cooperation. She commended all members on hours of service given to public welfare. "Service is the rent we pay for the space we occupy as human beings in this world," Mrs. Bradbury said.

Solos, "I Believe" and "My God and I" were sung by Mrs. Pegan, who was accompanied by Mrs. Pope.

The meeting was adjourned for a turkey luncheon which was served at the club house by the hostess club.

In the afternoon session the group was addressed by Mrs. Francis Pennington, chairman of Student Loan. She said that the Seventh district has received more loans than any other in the state within the last five years with a total of ten loans, each loan for a maximum of \$500.00 over a minimum of three years. She pointed out that the Loan Fund depends on contributions of members and from repayment of loans. "It is an investment in the lives of youth," she said.

Each club present gave its report for the past year's work. The reports were presented in many novel ways, some in the form of skits, song, etc.

Mrs. Bradbury introduced Mrs. Penry, junior chairman, who talked on club extension. She urged the organization of new clubs, and said that without new members the Federation would soon become static.

Mrs. J. H. Keenon, of Prestonsburg, was elected vice-governor of the Seventh district, and Mrs. Frank Day, of Pikeville, was elected recording secretary.

The awards announcements were as follows: First prize went to **Drift Woman's club** for originality in giving its report; second prize to the **Allen-Martin Woman's Club** for its retarded children work, and honorable mention to **Whitesburg**.

Prizes for year books were awarded to **Pikeville Woman's club**, first, and second prize to the **Wheelwright Woman's Club**.

The invitation for the 1959 district meeting was extended by the **Wheelwright Woman's Club**, and was accepted.

Fifteen clubs were represented at the meeting.

Former Floyd Woman Victim in Huntington; Last Rites, Thursday

Mrs. Beauty Damron Boyd, 76, former resident of this county, died at Huntington, Tuesday. She was the wife of **Harve Boyd**. They were residents of the Buffalo section of this county for years. Mrs. Boyd was a native of **Chestnut, Ky.**

Surviving, besides the husband, are several sons and daughters, among whom is **James C. Boyd**, Lexington.

Funeral rites were conducted today (Thursday) at a Huntington church and burial was made there. Attending the funeral from here was **Mr. and Mrs. Tom James**.

The Swimming Pool Is A Forward Step

It is not necessarily what the children want, nor a matter for our own pleasure. THIS IS AN INVESTMENT IN THE FUTURE for each and everyone of us.

Swimming is as necessary to any individual as walking and should be as natural. Our ancestors found this knowledge or accomplishment a necessity. TODAY we progress so rapidly that we may find ourselves in the midst of water at any time, due to an accident, a tragedy or even a mission of grave importance.

This is not a matter to be set aside but rather a matter of action, a matter of safety, which in itself is not harsh. On the other hand, it may well be accomplished with pleasure and happiness and the security of future generations "Healthy of body" and "Sound of mind."

VOTE "YES" for this swimming pool. It is your opportunity for action.

891 Make Guesses In Contest At Fair; 3-Way Tie Results

A total of 891 persons participated in the guessing contest held in the Kentucky Power Company booth at the recent Floyd county fair.

The question was "How much will the electricity cost at 1-cent per kilowatt hour to heat 52 gallons of water from a cold start to 150 degrees and maintain that temperature during the fair?"

The water heater, filled with cold water, was connected to the electric circuit at the booth, and an electric meter was installed to register the electricity used. This meter was read on the last day of the fair.

Here are the statistics on the guessing: Guesses up to 20 cents, 240; from 20 cents to \$1.00, 438; from \$1 to \$5, 132; over \$5, 81.

The actual cost was 14 1/3 cents, and on the winning guess, which was 14 2/3 cents there was a 3 way tie between **Betty Stephens**, **Prestonsburg**, **Gracie Leake**, **Allen** and **Tom Leake**, of **East Point and Prestonsburg**.

A drawing was held to determine which of these three would get the radio, and the winner was **Mr. Leake**.

An exciting new kind of car!
Makes history by making sense
The car you hoped would happen! Looks right, works right. Priced right. Luxurious without overdoing it. Roomy without useless length. Powerful without hogging gas. Styled to last. Soundly engineered. Solidly built. Priced with the most popular three!

Add it up. You get solid new distinction rivaled only by cars costing much more! Bold new vertical grille. Strong new lines. Graceful new rear flight deck.

You get beautiful new efficiency. Wonderfully spacious interiors—with less length outside. Six adults ride in comfort, but Edsel's compact 120-inch wheelbase fits any normal garage, swings easily in and out of tight spots.

You get lots of go for little gas. Pounds and pounds of useless car weight are gone. And four new Edsel engines are here! Including a thrifty six with a powerful test track record. And a new kind of economy V-8 that uses regular fuel and wrings big mileage from every ounce!

You get all the magnificent quality that marks a superior car. Super-smooth ride. Big, self-adjusting brakes. Luxurious carpeting, electric clock and four other customary "extras"—at no extra cost.

Yet the challenging new 1959 Edsel is priced with the most popular three! For example, you'll find that a new Edsel Ranger is priced almost exactly the same as many models of Chevrolet, Plymouth and Ford. See for yourself—this comparison is actually based on the factory suggested list prices.

It's easy to see why this is the car that makes history by making sense. The new kind of car you've been waiting for. See it and drive it now at your Edsel Dealer. Ten history-making new models!

Floyd ASC Head Says Wool Incentive Price Is Set At 62 Cents

The Department of Agriculture has announced a shorn wool incentive price of 62 per cent per pound of wool for the 1959 marketing year which begins April 1, 1959, according to Daniel Akers, chairman, Floyd County ASC Committee.

These 1959 prices are the same as for the first four years of the national wool program running from the 1955 through the 1958 marketing years. New legislation enacted this summer extends the program for three more years—ending March 31, 1962.

Payments to producers for 1959 will follow the same methods as for the current year, the chairman explained. Shorn wool payments will be equal to a percentage of each producer's cash returns from wool sales. The percentage will be that required to raise the national average price received by producers for wool up to the incentive price of 62 cents per pound.

Lamb payments will be made to each producer who sells lambs that have never been shorn. These payments will be at a rate per hundredweight of live animals marketed—to compensate for the wool on them—on a basis comparable to the incentive payment per pound of shorn wool. The payments will be made on the weight increase of the lambs during the period of ownership by each owner.

Lloyd King, 43, of Hall, Dies Friday; Was Miner; Burial In King Cemetery

Lloyd King, 43, of Hall, died at 5:30 a.m. Friday. The cause of death was not stated. He was a miner.

Mr. King was a son of the late Mrs. Lula Hall King and Clarence King, of Hall. He was twice married, his first wife preceding him in death. His second wife, Lonie Burke King, survives.

Surviving sons and daughters are Denny Ray, John Edward, Gary Wayne, Wanda Lea, Beulah Ann, Fattie Faye, Mary Alice, all at home, Mrs. Georgienne Newsom, of Virgie, and Doris Jean, of Detroit. Brothers and sisters surviving are Cratie King, Detroit, Smiley King and Vernon King, both of Kite, Alvin King, of Jackhorn, Hauley King, Mrs. Velma Burke, Mrs. Flossie Amburgey and Miss Maxine King, all of Hall, Mrs. Goldie Holbrook, of Puncheon, Mrs. Wayne Beckner, Lorain, O., and Mrs. Audrey Morris, Louisville.

Funeral rites were conducted Sunday from the Rebecca Baptist Church at Kite, the Revs. Ellis Hopkins, Eppie Holbrook, Troy Nickles and Sherman Stone officiating. Burial was made in the King cemetery at Kite under the direction of Hall Bros. Funeral Home.

The revival is tentatively set to conclude Nov. 9 but it may run a few days longer.

Five Quarter-Century Employees Honored

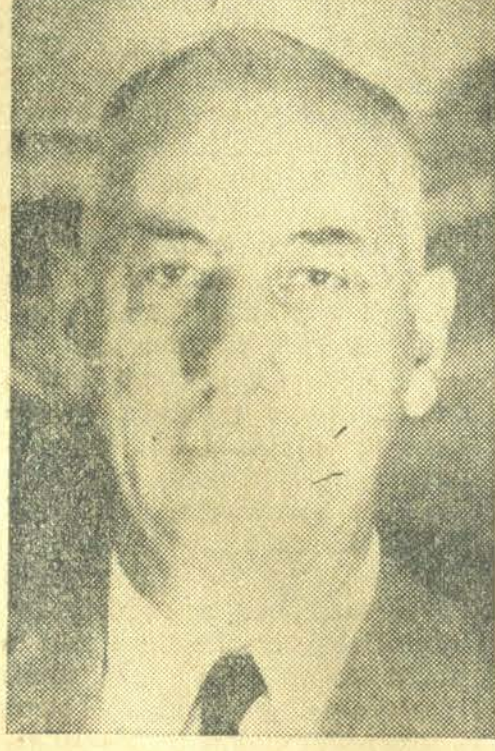

JOHN R. BALDRIDGE

S. W. COOLEY

H. B. MAY

W. H. MAY

Quarter-century veterans of the United Fuel Gas Company, the Kentucky Gas Transmission Corporation and Atlantic Seaboard Corporation welcomed five new members into their ranks at a dinner party last Wednesday night at the Wise Restaurant in Prestonsburg.

The new 25-year employees in Eastern Kentucky are John R. Baldrige, S. W. Cooley and W. H. May, all of Langley, H. B. May, of Alphoretta, and Sylvester V. Younce, of Pikeville.

They were presented gold watches by John W. Partridge, president of the three firms, who expressed his appreciation for their loyal service.

Five other veteran employees were honored at the dinner. Thomas W. Wilson, of Louisa, received a gold lapel emblem for 35 years service and J. Kendall Stumbo, of Printer, Bum Tackett, of Inez, Pete Dawson, of Hi Hat, and Edgar R. May, of Tollesboro, received gold lapel emblems for 30 years service each.

These senior employees and the other persons attending the banquet received gold watches in years past at 25-year ceremonies.

All of the honored guests are employed by United Fuel Gas Company except Edgar R. May, who is employed by the Kentucky Gas Transmission Corporation. Mr. May, formerly was employed by United Fuel. Both firms are a part of the Charleston Group Companies of the Columbia Gas System.

Mr. Partridge and James S. Phillips, vice president and general manager, headed the delegation of company executives from Charleston, W. Va., attending the dinner.

9. AVOIDANCE OF JOSTLING CROWDS
10. THE CHANCE TO BUILD A BETTER COMMUNITY BY PUTTING YOUR DOLLARS TO WORK HERE

We don't believe you gain anything at all by driving long distances to shop at BIG CITY stores. Our local sources have merchandise that's just as good and costs no more.

But merely for the sake of argument, suppose you do save a few dollars on a time-consuming trip many miles from home. And suppose you don't even count the cost of gasoline and oil, car wear, parking fees, etc. Forget, too, if you like, the hazards of driving in today's heavy highway and city traffic.

But don't overlook these things: What you buy here can be in your home in a few minutes—no waiting several days for delivery. And if the merchandise doesn't give full satisfaction, any needed service or adjustment of the purchase can be made without shipping the items back to the BIG CITY or being forced to make a second trip yourself.

Why drive scores of miles looking for trouble? Shop right around the corner and be safe and satisfied.

tabulators, watchers and other attendants would not exceed 88, but this figure was later raised to around 100.

The inspection report also pointed out that general wiring and plumbing conditions are bad in both courthouse and jail, that the sewer main from the two structures is open at one point and that sewer gases escaping beneath and into the courthouse constitute a threat. Sewer lines beneath the courthouse were weakened by the 1957 flood, the report said. An open manhole has long existed at the rear of the jail.

There is no cold water for the jail, although hot water appears to be adequate, the sanitarians' report continued. They also pointed out that walls and ceilings of the two buildings need paint and that the panes of all windows in the jail have been broken out.

"These are the facts as they are," Stumbo said. He declined to comment on the need of a new courthouse.

WINE NAMED TO TOP POST

National Council Picks Former Resident Here; To Leave College Post

James W. Wine, former Pikeville attorney and church leader, has been named to a new top post created by the National Council of Churches. Wine will serve as associate general secretary for interpretation of the church organization and will assume his new duties Jan. 1, it was announced at New York City, Saturday.

Wine, a native of this section and for sometime connected with Pikeville College in a lay capacity and as elder of the Pikeville Presbyterian Church, at one time resided in Pikeville. He is currently serving as vice-president of Park College, Parkville, Mo.

Dr. Roy G. Ross, general secretary, said Wine would head a staff team which, under the guidance of the council's general board, would develop a comprehensive strategy for public interpretation of the ecumenical movement and the National Council of Churches.

He said Wine would also give administrative guidance to operations in this field and emphasized having in this position a layman who has been active in the affairs of his church.

Noting that the National Council already had a number of interpretive operations, he said Wine would co-ordinate these under a common policy and general strategy.

The National Council, the nation's largest religious organization, came into being in 1950 when 13 interdenominational bodies were combined by the churches into one agency. Its 33 Protestants and orthodox communions have 144,000 local churches with 38,000,000 members, and, through the council, carry on 70 co-operative programs in such fields as home and foreign missions, education, Christian life, and relief and rehabilitation.

"Mr. Wine brings to this office effective experience as an ordained Presbyterian elder who has served in his local church and in the synodical and men's work operations of his church," Dr. Ross continued. "He is a man who has participated in the movements for human welfare in his community."

A 1940 graduate of the University of Kentucky, Wine received a law degree there and was admitted to the bar two years later.

He spent four years in service and in 1949 became county judge pro tem for Pike county, Kentucky. In 1951 he was named by the chief justice of the Kentucky Court of Appeals as a special circuit judge and was United States Commissioner for the Eastern District of Kentucky.

He is in his second year as vice-president of Park College, where he functions as executive administrator.

He was ordained an elder of the Presbyterian Church in 1953. He has represented his local presbytery in sessions of its general synod and general assembly and has served with its department of men's work and on numerous committees of the synod. He is on the higher-education committee of the Kansas City presbytery.

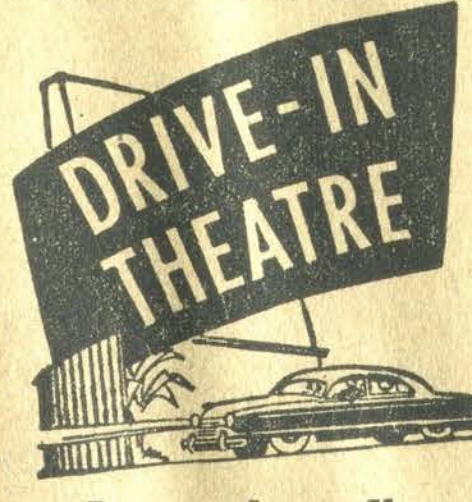

Mr. and Mrs. Wine have four children. Mrs. Wine is a daughter of Dr. Charles J. Turck, former president of Centre and Macalester colleges.

sent to him as an aid to continuing studies he is making.

Although he at one time agreed that wild turkey are not for this section, Stephens said he has changed his mind. This change, he said, was induced by a study made in the Robinson forest and on the Ford tract in Leslie county where 65 wild turkeys have been sighted in the last few weeks. These, apparently, are doing well. Stephens expressed the opinion that trapped, wild birds should be used for stocking purposes rather than the pen-raised birds heretofore distributed.

District and county conservation officers last week released a number of brood stock quail in wildlife food plots established for them. Stephens praised the cooperation given his work in this county and particularly that afforded by the Floyd County Fish & Game Club.

Leslie county is expected to be the "hot spot" during the Eastern Kentucky deer-huntin' season, conservation officials said recently. The bow-and-arrow season will begin Saturday and continue through November. Archers may kill either bucks or does except on Nov. 27 and 28, the two days when hunters with guns are restricted to bucks. Hunting with guns will be permitted only from Nov. 27 through Nov. 30, and during the last two days of this period it is hunter's choice.

Commenting on the statement made last week in The Times to the effect that the Magoffin county beaver colony is perhaps the only in Kentucky, the district biologist said he has had under observation for 19 months now two colonies in Leslie county. One group is composed of about 20 beavers and the other of about 30, he said. When water is impounded behind Buckhorn dam the dams made by these two colonies will be inundated and the animals will probably be trapped and moved to new locations, he said.

Stephens also told of one colony in Wolfe county which created such crop damage that he was obliged to trap and move them.

SPURLOCK SPEAKS

They say that Mr. Turner has told some of my teacher friends and probably others that I will be willing to return to Floyd county to campaign for him in the election if needed and that there is no feeling about the past.

He is very wrong about this. He has made a mistake. While I am correcting this misunderstanding, I would like to make a few comments that will help explain partly why teachers leave, and I give some hint on what to do to get them to return or stop leaving.

PRINCIPAL Prestonsburg High School — I was not re-employed because Turner did not recommend me. He tried to get me to go back to see Jimmy Greene again just after school was out. Greene was mad. I went all the way to Magoffin county to see him in a hayfield. I didn't go back. I owed no apologies. I thought Greene was my friend.

THREATS — I understand that the superintendent is saying that he will be there for another six years, regardless of the outcome of the election. What does he mean by this? Does he mean that he will use his power to make it rough on teachers who do not fall in line with the vote and assign them to undesirable positions? Does he mean that he will not follow the wishes and voice of the voters? If he does mean this, then these kinds of threats and tactics are out of place. They do not belong in our Great Land of Liberty. They belong in Russia.

SUPERINTENDENT INTERVIEW — Who listens in? They say usually another fellow listens who sits by a small desk in the corner. No feelings. I have seen the desk. Why this? Never before. Does he tell Turner what to say? They tell me that this other fellow cuts in on the conversation at will. Maybe they are trying to keep each other straight.

TEACHER RELATIONS — Why don't they place the qualified teachers on continuing contract according to the law? The State has the proper forms. Good school systems do this. This could improve the profession and make the teacher feel much better toward her job. They continue to make the teacher re-apply year after year and go through all the steps of getting hired. And then why don't they get busier earlier in the spring and place teachers — not wait till summer. More might leave, though. Much could be done to improve the personal business relationship between the teacher and school administration.

GIVE CREDIT TO STATE — The state is putting up the extra money for increased salaries and is causing many teachers to earn their college degrees. This is improving the quality of teaching greatly. The state is also furnishing more money for supplies and equipment. They are even putting out some money for the building of new classrooms. Why don't they give Frankfort credit? Far more could be done with more economy on the local level.

BETTER BUSINESS PRACTICES — During the school election two years ago I was slow about making a campaign contribution. I stated that I thought a certain business establishment was supposed to take care of this, since they are getting a good thing out of this. No more illustrations needed.

MAINTENANCE — Why don't they pay the janitors more so they will be able to give better services in maintaining the buildings? Cutting down on gasoline used by all those jeeps will help get the additional money.

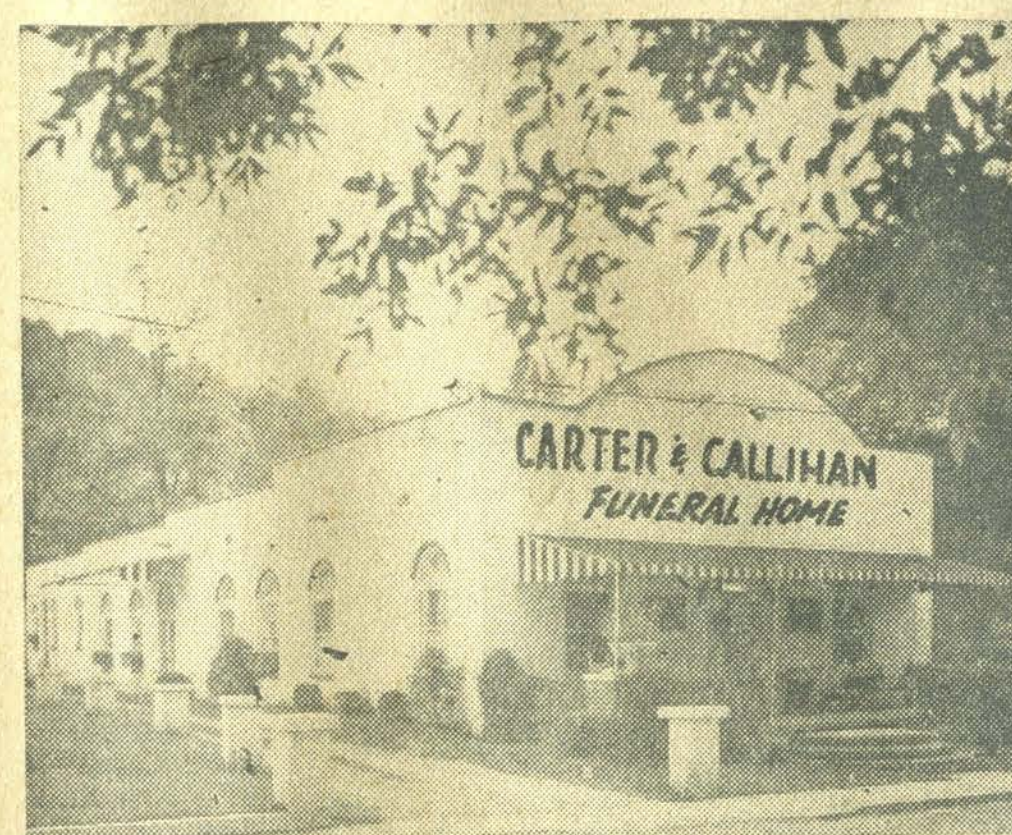

SCHOOL POLITICS — Let the teachers rest during the elections so that they can keep their mind on their jobs. Let the taxpayers and parents who furnish the cash and kids run the elections and get out the vote. They do that in good school systems.

Why do teachers leave? What will it take to get them to return? I think you know why they leave. You know what it will take to get them to return.

Vote for HOWARD and HALL.

OTTIS D. SPURLOCK

School Teachers !

How much raise have you received from the minimum school foundation fund? This fund was for your benefit. If you will or can check the minutes of the school board you will find that the superintendent and certain employes have received the maximum raise. (This has not been published.) The Floyd county superintendent now receives about as much money as the Governor of the state. If you do not believe this, then ask permission to check the minutes of the board meetings—although it is doubtful if you will be allowed to do so. To top it off we have reason to believe these high salaries for the superintendent and his staff were made retroactive. IS THIS LEGAL?

Kentucky has been making rapid strides in industrialization since World War II. By 1957, factory employes had increased about 25 percent or to 170,000.

Bedford, seat of Trimble county, was incorporated in 1816. The town is surrounded by valley farms producing tobacco, grain and livestock.

A POLITICAL MANEUVER TO DISTRACT THE VOTERS

I note that the School Administration is still trying to evade the issues in the Board race. The diversionary tactics being used by them is to distract the minds of the voters away from the bad record for the school children. This is a political maneuver to get your minds off the fact that—

- (1) The Foundation program, that all Floyd countians worked so hard to get passed, was used to enrich the Superintendent, Supervisors and office force, rather than the teachers and children.
- (2) A maintenance force has been built up that cannot be justified by any stretch of the imagination.
- (3) They have, by redistricting, manipulated the county in such a way as to give advantage to themselves without regard for the wishes of the people involved.

Even though the present school administration may not think so, the people of Floyd county know that the office of Superintendent of Schools is not up at this election. At stake, however, are thousands and thousands of dollars of the taxpayers' money, and a new deal for the school children and teachers.

Just for the record, however, I want to say I have the same Administrative Certificate as the present Superintendent. He did his graduate work in the field of Law, and I received my Master's Degree in Educational Administration.

I have studied carefully the platform of RAY HOWARD and JOHN G. HALL and believe it to be a good, sound platform. I think it is time for a change. Let's give two young men, who have children in school, a chance to carry out their educationally sound program.

Hill on Dean's List At Ohio Wesleyan U.

Lon Clay Hill, Jr., son of Mr. and Mrs. Lon Hill, Sr., of Prestonsburg, has been named to the Dean's list at Ohio Wesleyan University, Delaware, O., in recognition of outstanding scholastic achievement.

Hill is a sophomore math major at Ohio Wesleyan. He is active in the Young Democratic Club, the Methodist Student Movement and the Phi Kappa Psi fraternity.

Sophomores with cumulative Grade point averages of 3.3 (out of a possible 4) or better, juniors with 3.35 or better who have had an honors paper approved by a faculty sponsor, and seniors with 3.40 or better who are enrolled in an advanced course, are eligible for the Dean's List. Sophomores, juniors and seniors with semester point averages of 3.5, 3.55, and 3.6 or better, respectively, also are included.

These students are "released" from the usual requirements of class attendance so that they may have additional freedom to plan their work in the most advantageous manner and to engage in independent work approved by the instructor.

DRIFT

WOMAN'S CLUB MEETS

Mrs. Alvin Reed was hostess to the Drift Woman's Club, Oct. 20. In the absence of the president, Mrs. W. L. Reed presided. The club enjoyed two very informative talks on various matters in the county. Clifford Latta outlined the plans for the new courthouse and urged all members to vote for the courthouse bond issue on Nov. 4.

The program for the evening was in charge of the welfare department. Mrs. Ben Martin introduced Walter Frazier from Allen. His topic was the Floyd County Improvement Association. He gave the history of the organization, results of its efforts, plans for the future and some of the problems encountered in supplying necessities to the poor.

In a short business session the vice-president appointed Mrs. Edward Schneider and Mrs. Ben Martin delegate to the Seventh district convention.

Four members volunteered to do the clerical work when the TB mobile unit visits McDowell on Oct. 30.

Members present: Mesdames Ivan Reed, Irvin Reed, McKinley Little, Glen Ward, Ray Heinisch, Ben Martin, W. L. Reed, Ed Schneider, B. F. Reed, H. D. Hewlett, C. J. Cahill, Alvin Reed, Miss Mary Jerome, Dr. Peggy St. Clair.

NOTICE OF ELECTION

"Notice is hereby given that an election will be held in and for the City of Prestonsburg, Kentucky, on the general election day on November 4, 1958, to determine whether or not the City of Prestonsburg, Kentucky, shall incur an indebtedness of not exceeding \$99,500, and in no event to exceed, including all existing indebtedness of said City, a greater sum than allowed by the Constitution and laws of Kentucky. Said indebtedness shall be created for the purpose of constructing a swimming pool and appurtenances necessary for the use of same. If authorized, said bonds, with interest, shall be paid off within a period of twenty years from the date of issue, and the City Council of Prestonsburg, Kentucky, shall levy and collect whatever annual tax upon all property subject to taxation within said City as is necessary to pay the interest on said indebtedness as it falls due and also to constitute a sinking fund for the payment of principal thereof within the period of twenty years, the sum to be raised each year not to exceed \$9,680.00.

"The question to be placed upon the ballots in order for the voters to vote on said question shall be in substantially the following form:

"Are you in favor of the City of Prestonsburg, Kentucky, incurring an indebtedness of not exceeding \$99,500 for the purpose of constructing a swimming pool and appurtenances necessary for the use of same?"

Immediately following such question shall be two squares, under one of which shall be printed the word "Yes," and under the other of which shall be printed the word "No," in order for each voter to vote on such question.

HEALTH NOTES

By Floyd County Health Department

"Now is the time to check your child's immunization record," nurses at the Floyd County Health Department say, "and be sure he is immunized as soon as possible."

Immunizations or "shots" to prevent communicable diseases may be obtained for whooping cough, diphtheria, typhoid fever and small pox. Protection against tetanus is also available. A child may have been immunized in infancy but he needs booster shots every one to two years for whooping cough, diphtheria and tetanus, and every year for typhoid fever in order to stay safe. A vaccination against smallpox should also be given every five to seven years.

Being protected against communicable diseases is extremely important, according to health officials, because every child needs to be immunized to prevent his community from having an epidemic.

The Floyd County Health Department has a number of free pamphlets which tell parents about communicable childhood diseases and how they can be prevented.

"Begin now and be prepared bright and early for school. Be sure your child is protected against communicable diseases. Not only are the diseases a worry in themselves when your child is ill, but after effects of typhoid fever, whooping cough, diphtheria, tetanus and smallpox may present a more serious health problem. See your family physician or local health department," Health Department workers stressed.

GAYHEART WINS

Rhoda Ann Gayheart, Maytown Club, was awarded first place in the Pig Chain Show held October 4 at the County Fair. This is the second time that Miss Gayheart has won the trophy. The winning animal was a Duroc sow and litter. Jack Howard, Prestonsburg Senior Club, was awarded second place and Robert Johnson, Bonanza Club, third place.

POULTRY SHOW

Dingus Smith, of Allen, was judged the winner of the Sears Roebuck Poultry Project for 1958. Second place was won by Burgess Lowe, of Maytown and the third place award went to Nelson Cline, of Betsy Layne. This is a special poultry project sponsored each year by the Sears Roebuck Foundation. Ten club members are given 100 baby chickens. They raise the chickens according to recommendations given by the County Extension Office and then at fair time give back 12 pullets to be shown and sold at auction. The money from the sale is used to buy the chickens for the projects next year.

The Sears Roebuck Foundation furnish the chickens for the first year and then give \$80 in prize money each year. Others showing their chickens and the awards won include: blue ribbon—Joan Martin, Ray Hamilton, Carol Howell; red ribbons — Danny Stewart, Steve Branham, Elzie Campbell; white ribbon—William Simpson.

JUNIOR RECORD CHAMPIONS

The Junior project books have been judged and the following champions named: Phyllis Combs, canning; Melanie Conley, clothing; foods and good grooming; Burgess Lowe, farm labor and poultry; Carla Combs, frozen foods; Gaylord Martin, garden, and raspberries; Rhoda Ann Gayheart, swine and house-keeping; Ruby Mae Gayheart, room improvement, junior leadership and yard improvement; Glenn Salyers, strawberries.

These club members will represent Floyd county in the District Junior Achievement to be held in Paintsville on Nov. 14.

RAYBOURN CHARGES PERKINS SEEKS TO CLOSE SMALL MINES

E. L. "Bud" Raybourn, Olive Hill Republican seeking to unseat Democrat Carl Perkins as 7th District congressman, today charged that Perkins is planning on throwing thousands of Eastern Kentucky miners out of their jobs.

E. L. "Bud" Raybourn

This will be brought about, Raybourn said, by Perkins' efforts to close down the small mines and truck operators.

"After being elected and re-elected by the coal miners to a total of 10 years in Congress, he is going to reward them by helping to do away with their jobs and means of making a living," the Olive Hill candidate told voters in this coal mining district. Raybourn explained that this was to be done by Perkins and UMW leaders in their attempt to force the small mine operator to spend thousands of dollars to comply with Federal Mine Regulations that now apply only to large commercial mines.

With unemployment in the mine field rising ever since he was elected, his efforts will add thousands more to the jobless rolls, Raybourn said of Perkins' actions. "And in addition, he has done nothing to help bring in new industry to provide employment," Raybourn said.

In speaking of the recent UMW endorsement, Raybourn said that he noted the Washington dateline on the story, indicating that the endorsement was by these people who do not work in the mines but who live from the dues paid by those who do. He added that those union miners who work in small mines are resentful of Perkins' attitude toward their jobs and that they will protest it by voting for a change. (Adv.)

FROSTY PUMPKIN PIE

Everybody loves pie—and especially is this true when the pie happens to be Frosty Pumpkin Pie. Make it for a crowd or the family... either way it's bound to disappear in a hurry.

First, you'll want to make a 9-inch pie shell... and to insure a flaky and tender product, don't fail to make the pastry with lard. It's economical and very easy to work with.

After the shell has been made and is cool combine 1 cup of cooked pumpkin, 1/2 cup brown sugar, 1/4 teaspoon salt, 1/4 teaspoon ginger and 1/2 teaspoon cinnamon and 1/4 teaspoon nutmeg. Be sure to mix well. Now, add this pumpkin mixture to 1 quart of softened vanilla ice cream and blend well. Pour into the cooled baked pie shell. Place the pie in the freezing compartment of your refrigerator (or in your freezer) and leave until the ice cream mixture is firm. Just before serving, make a meringue by beating 3 egg whites with a dash of salt until the egg whites are stiff. Now, gradually add 6 tablespoons sugar and continue beating until stiff peaks are formed. Spread the meringue over the ice cream pie, being sure to seal it carefully to edges of the crust. Bake in a very hot oven (450F.) for 2 to 3 minutes, or until the meringue is lightly burned. Serve immediately... people will say it "tastes like more".

Forester Urges Caution With Out-Door Fires

Caution in use of all outdoor fires during the next six weeks is urged by Director Gene L. Butcher, Kentucky Division of Forestry. "The fall forest fire season is here," said Butcher, "and the woods can burn even within a few hours after rain."

Training of state fire fighting forces has been completed, look-out towers have been manned, and all employees and cooperators have been alerted. "We feel," added Butcher, "that our forest fire control organization is a good one, but to prevent fires we need the full cooperation of every citizen."

He urged that these rules be followed outdoors to prevent woods and grass fires:

- Break your match—be sure its out.
- Crush out all smokes—dead out; where there's an ash tray, use it.
- Drop your campfire and warming fire.
- State law prohibits burning trash, leaves, or brush within 200 feet of any woods during October, November, and December except between 4:30 p.m., and midnight.
- The law makes every citizen responsible for any fires he may start, whether wilfully or through negligence, Butcher said.

(No. 17 in a Series)

WINTER ON COURT STREET, IN PRESTONSBURG, 40 YEARS AGO

Prestonsburg has changed quite a bit from the "good old days" before the advent of automobiles and paved streets. Buggies were a favorite means of conveyance then and livery stables for the convenience of "drummers" were operated. Even the hotels kept horses for travelers and the "knights of the road".

The main streets in Prestonsburg were paved by 1921 but the first automobiles had already preceded the surfacing. First auto in the town was a Stutz with five New York City tourists who wrestled mightily with the mud and wagon-rutted roads up the Big Sandy.

Shown in the picture is Court Street looking east after a big snow had fallen. A buggy is being driven at the intersection of Arnold Avenue and a lady walks carefully across the snow and mud.

The First National Bank, organized in 1904, has grown with the town for over half a century. It maintains today, as always, complete and friendly banking service.

TEN GOOD REASONS

For Supporting

Dr. J.H. Allen and Bill Arnold Spradlin

When the time comes for the election of Members to the Floyd County Board of Education it is only fair that you who have children, the dearest possession on earth, have a right to know the facts.

We, with whom you have trusted the responsibility of giving your child his greatest birthright — an education, feel that it is our duty to inform you on how well that trust has been kept.

We have listed below some of the improvements made during this present administration:

1. **Leadership.** Democratic leadership has been shown by teachers leading groups in county-wide meetings, in faculty meetings, by having teacher committees for selection of free textbooks, preparation of materials lists and in making many other major educational decisions.
2. **Lunch Program.** Our lunch program has been expanded until it is possible for two-thirds or more of our children to have a wholesome noon meal.
3. **Materials.** Appropriations for Libraries, Science, Biology, Chemistry, Agriculture, Home Economics, Music, Art, and Classroom Materials have been tripled during the last five years.
4. **Libraries.** Our central professional library to help all teachers, has been made second to none in the state and other library services are the best in history—thanks to the assistance of the Bookmobiles and our Regional Library.
5. **Attendance.** Fewer school-age children are out of school today than ever before in the history of our county. Our teachers are to be highly commended for their cooperation and effort in making this possible.
6. **Salaries.** Our teachers are being better paid and have the lowest pupil load in Floyd county history.
7. **Transportation.** More pupils are being transported than ever before.
8. **Course of Study.** Our Course of Study has been expanded to meet more adequately the needs of high school pupils.
9. **Teacher Preparation.** Teacher preparation is at present at its highest level and each teacher is teaching subjects in her field of special training.
10. **Buildings and Improvements.** New buildings have been constructed at Prestonsburg High School, Prater Creek, Martin, Allen, Drift, Harold, Bosco, Ligon, Betsy Layne, McDowell, Little Paint, Branham's Creek, Left Toler, Right Toler, Home Branch, and Goble Branch. Major repairs have been made at Cliff, Cow Creek, Bunner, Dwale, Clear Creek, Teaberry, Garrett, Maytown, Wheelwright, Melvin and Wayland. Repairs have been made to other buildings where needed.

CONTINUE A GOOD EDUCATIONAL PROGRAM by supporting Dr. J. H. Allen and Bill Arnold Spradlin.

Former Floyd Merchant, Now Lexington Realtor, Buys Bluegrass Acreage

Charles Moore, former McDowell merchant and now a prominent Lexington real estate dealer, figured recently in the purchase of Faraway Farm, Bluegrass horse nursery made famous by Man o' War.

The 365-acre farm, located north of Lexington, brought more than a quarter of a million dollars.

Moore bought 256.68 acres of the farm on a bid of \$508 an acre for a total outlay of \$130,393.44. The remaining 108.7 acres were purchased by Ira Drymon, Lexington horseman, on a bid of \$1,155 an acre. Drymon's acreage is the section where most of the farm's improvements are located.

Excluded from the sale was a 2 1/2 acre tract where Man o' War is buried. His grave, the bronze statue marking it and the surrounding 2 1/2 acres will become a public shrine, with Fayette county and the Lexington Chamber of Commerce jointly maintaining it as a park.

Faraway Farm was owned by the late Samuel D. Riddle, of Philadelphia, who specified in his will that the burial site of his great horse be preserved.

Mr. Moore said he purchased part of the farm as a speculative venture.

Agency Serves 6,006 Kentucky Crippled Youth

The Kentucky Crippled Children Commission served 6,006 handicapped children last fiscal year, James F. Yonts, executive assistant reported.

He added that this was an increase of 1,004 more than were served the previous fiscal year.

Of the children treated during the 1957-58 period, 1,043 were hospitalized for a total of 42,368 hospital days, Yonts said.

He reported that total expenditure for the year by the commission for care and treatment of crippled children was \$1,167,877.

The commission has established permanent therapy centers for crippled children at Ashland, Covington, Glasgow, Lexington, Louisville, Owensboro and Paducah.

Speech and physical therapists of the commission commute to Hazard, London and Pineville to bring therapy closer to homes of children in eastern Kentucky. The commission also conducts field clinics in 26 Kentucky cities.

The commission's program operates through hospital centers at Ashland, Covington, Lexington and Louisville where patients are admitted for surgery and inpatient care.

Employer Scouts Hear Vocational Guidance Talks

Explorer Post No. 18 of the Boy Scouts of America, of Drift, held an interesting meeting on the night of October 16. Theme of the meeting was "Vocational Guidance." Guests were Glenn Spradlin, who spoke on banking and finance; Adrian Hall, who talked on teaching, and Dr. Edward Schneider, who spoke on the medical profession and allied occupations.

Members of the Post, grateful for this meeting, have planned another meeting of similar nature for the night of October 30 with three more guests participating. These meetings are open to the public, especially youths of ages 14 to 18. Bill Hoffman, Post adviser says, "Many boys in high school do not know what they wish to do for a living later in life. We are trying to give them a survey of a lot of vocations and our guest speakers are men who will try to sell their occupation in an interesting manner."

The meeting of October 30 will be held at 6:30 p.m. in the Turner Elkhorn Mining Company office.

STONE AGE WORDS LINGERING TO PRESENT TIME, THOUGHT

Using words of everyday speech as clues, scholars have reconstructed the life of what may have been the first civilized tribe on earth.

This stone-age group, W. L. White writes in the November Reader's Digest, was the ancestor of all our speech. Through this one tribe, more than one billion people of all races now are linked, in Europe, India, South Africa, the Americas and Pacific Islands.

They did not leave so much as an arrowhead, but traces of the language they spoke remain in most of the world's modern tongues. Certain words bear a startling similarity in all languages: the English "father," for instance is the Dutch "vader," the Latin "pater," Persian "pidar," and in the Sansrit of India, "pitr."

Scholars discovered there are enough such seeming coincidences to build a language, and from that, deduce a way of life. In words that describe family and home relationships, for example, most languages are similar: the words for son, daughter, brother, cow, milk, sheep, wool, grain, wagon, water. Therefore, the

scholars decided, the tribe which spoke these words was a farming group, with family ties as strong as ours.

Where did it live? The word for snow is similar in most languages; the word for tiger, camel, palm tree is not. Therefore, this tribe did not live in jungle or desert; its home was cool, probably in the North Temperate zone.

"Dom" was these people's word for home. From it came our "domestic," and also "timber" which indicates they lived in houses of wood which they cut with an "aks." They baked and ate bread, calling it "pa," from which comes our "pantry," a place where bread is kept. And before eating they have bowed their heads in prayer. Their language include "prek" for pray, "Ghutom for God, or being that is worshipped, and "sac," for sacred.

The article, "Words—Our Most Ancient Legacy," is condensed from the Saturday Review.

The climate of Kentucky is one of the most attracting features of the state, according to the Kentucky Chamber of Commerce.

GEARHEART AND HELMS FAMILIES

The following letter, from Mrs. Arthur Koester, 105 Douglas Drive, Jefferson City, Mo., details much information on the Jonathan Gearheart branch of the family. Jonathan Gearheart went to Missouri immediately after the Civil War. Much of the information given below was contributed to Mrs. Koester by her aunt, Mrs. C. S. Nelson, Freeman, Mo.

Excerpts from the letter follow:
"John Gearheart, grandfather of Jonathan, came from Virginia in the early 1800's. He had 13 children, namely: Adam, Joseph, Felty, William, John, George, Peter, Lewis, Valentine, Daniel, Katy, Susan, and another daughter whose name is unknown, possibly died as an infant.

The Gearhearts were of German ancestry and the spelling was originally Gerhardt.

"The children of Jonathan and Nancy Jane Adkins Gearheart were: (1) George Ann, born Nov. 22, 1876, married C. S. Nelson, lives in Freeman, Mo. One son, Charles Orville Nelson, of Kansas City, Mo., born April 16, 1899. (2) Joseph, born Feb. 9, 1878, died in 1951 or 1952 at Port Hammond, B. C. Canada. No children—went to Canada as a young man and never returned. (3) Edward, born Sept. 26, 1879, died May 1, 1956; two children, Inez and John Edward who live at Calgary, Alberta, Canada. He also went to Canada as a young man and never returned. (4) William, born May 18, 1882, died Oct. 20, 1956. Spent his whole life on the home place. One son, Wm. Arlen Gearheart, born April 26, 1934. (5) Vorden, born June 22, — died Oct. 28, 1918. Married Harry Lowe, deceased in 1910. Three children—George Mabel, born April 3, 1912; Charles Allen, born Oct. 15, 1913, died Dec. 6, 1944; and John Gearheart, born Feb. 7, 1916. (6) Carrie, born Aug. 22, 1890, lives on farm adjoining home place. No children, married Frederic Groenke.

"A few notes on Jonathan Gearheart:
"Born Dec. 27, 1838, son of Valentine and Sarah Justice Gearheart, near what was then Laynesville, Ky. During Civil War served in the Confederate Army. Was a member of Co. D, 14th Regiment Cavalry, Kentucky volunteers, Confederate States of America, formerly May's Battalion, Kentucky and Virginia Mounted Rifles. (This from the files of office of Adjutant General, Frankfort, Ky.) An old friend of his, S. R. Williamson, who had been a soldier in the same company, had this to add: 'He enlisted in 1863 at Johnson's Ferry, East Tennessee, and was discharged at Louisiana, April 15, 1865. A soldier of the 10th Ky. Cavalry, Company

D, Col. Ed Trimble regiment, and George Diamond Co. He also served as one of Gen. John Hunt Morgan's bodyguards and was with him when he was killed.' The above was written in 1910. The Williamson family, I believe, had come from Kentucky about the same time—lived near the Gearheart family in Missouri and raised a large family there.

"After the war Jonathan Gearheart rafted timber down the Big Sandy to Catlettsburg. Enticed by reports from the frontier country of Western Missouri, he decided to investigate for himself as he wanted to acquire more abundant living. He came to Cass County, Mo., bought ox-teams and 'broke prairie' for other settlers. He first bought 40 acres of land in Bates county, near Adrian, Mo. He so admired the 80-acre tract where the Gearheart home still stands about halfway between Archie and Drexel, Mo., that he paid \$1,600 for it when he could have entered land farther on west.

"He made three trips back to his old home in Kentucky and on the third trip he took Nancy Jane Adkins, of Pike county for his bride, Feb. 8, 1876. On their return to Missouri they landed at Freeman, Mo., then the nearest railroad, March 4, 1876, and walked from there to the present homestead. Neither ever returned to Kentucky.

"I rather think Adam Gearheart was the eldest of John Gearheart's children. I'm not sure but I believe it is Daniel Gearheart who is buried in the little country cemetery where Jonathan and Nancy Jane Gearheart are buried. Perhaps I can find out for sure. He was one of the brothers of Valentine, I know.

"The above mentioned S. R. Williamson, I believe, was from Floyd county, Kentucky. My aunt still corresponds with some of his children. Do you have a Helms family in Kentucky? A John E. Helms, who married a Gearheart cousin by the name of Rhoda Stratton lived on the farm adjoining the Gearhearts for many years.

In a letter a few weeks after the above, Mrs. Koester wrote that she had contacted her aunt, Mrs. C. S. Nelson, 82, in Cass county, Mo. Her aunt wrote her as follows:
"My father Jonathan Gearheart, and Rhoda Stratton Helms, were cousins. I was born and raised on the farm adjoining the Helms farm, less than one-fourth mile from house to house. Both farms were later owned by my brother, William. Since his death they are still owned by his heirs. Rhoda Stratton, it seems to me, married John Helms, in Kentucky, where he had been a schoolteacher, coming to Kentucky from Tennessee. He had been a Confederate soldier and had suffered a wrist wound that bothered him the rest of his life. They had two sons and two daughters, namely:
(1) Minnie Belle, who married Max Seggar, spent the latter part of her life in Iowa, near Harlan, where they had a restaurant. No children. She was born about 1872, died in 1956.
(2) Robert, born about 1874, married in Texas, became the father of 15 children. He lived near Big Springs. (3) James, born in 1876, died of TB about 1955 or 1956. He married Violet — in Texas, had one son. His wife died early in life. He never remarried.
(4) Cora. Her mother, Rhoda, died at her birth. She was taken into the home of Jake and Liza Akers in Everett, Mo., and kept for several years after which she went to the home of David Miller at Main City, Mo. She married and spent her last days in Chicago.

"After the death of Rhoda Stratton Helms and when the children were nearly grown, John Helms married Hattie Lawson Mayfield, a widow with one daughter. After this his own children had to find other homes. Cora was with them only a short time. Rhoda had a brother who had gone to Texas as a young man and spent the remainder of his life there. It was to this uncle that her two sons went after her death and their father's remarriage."

A 90-foot water tower of rough-hewn Kentucky limestone at the entrance to Fort Thomas Military Reservation was presented by citizens of Covington, Cincinnati, and Newport as a Spanish-American War memorial.

80 Floyd Students Are Enrolled At UK

ANSWERS TO THE 10-POINT PROGRAM

Some class-room teachers, members of the Floyd County Teachers Association, answer the 10-point program of the present administration of our schools.

- ADMINISTRATION**—We are interested in knowing why, if the present members of the Board of Education are truly interested in the welfare of Floyd county children, they would not co-operate with RAY HOWARD and JOHN HALL in any effort that would be for the best interests of our children? It must be that the present administration considers only "yes-men" desirable board members.
- LUNCH PROGRAM**—Without government subsidies where would they be? "Render unto the federal government what is the government's and unto the school authorities what is their own."
- MATERIALS**—Under the Minimum foundation program \$600 was to be spent on each room to enrich the program. "Where, oh, where has my little appropriation gone?"
- LIBRARIES**—Most professional people have their own professional libraries. In addition, the Regional Library is well-stocked with many teaching aids.
- ATTENDANCE**—The Minimum Foundation program set up money appropriation from the state on A.D.A. (average daily attendance). So—no attendance, no money from the state. The attendance problem has been shoved on already over-loaded shoulders of the teachers.
- SALARIES**—Statistics from the State Department 1957-1958, show some average salaries in our area:
Floyd County—\$2,552.60
Van Lear—2,698.11
Rowan County—2,866.72
Pikeville—3,095.34
- TRANSPORTATION**—Why furnish maintenance workers with cars and trucks when more and better buses are needed for the children?
- COURSE OF STUDY**—This is set up by the state. Floyd county is denied the service of instructors in many courses for failure to meet salaries given in adjoining counties and towns.
- TEACHER PREPARATION**—A capsule fable:
"Borrow money to go to summer school to get into a higher-pay bracket, to afford food to provide strength to repay money to borrow money to go to summer school"—and so on, ad infinitum.
- BUILDING AND IMPROVEMENT**—The efficiency of the present administration is such that they have repairs to repair the repairs. This is true economy.

 Muncy Prater Defendant

By virtue of an order styled CRI715, directed to me, which issued from the Clerk's office of the clerk of the circuit court, in favor of the Commonwealth of Kentucky against Muncy Prater, I, or one of my deputies, will on Monday, the 9th day of November, 1958, at 10 a.m. at the courthouse door in Prestonsburg, Floyd county, Kentucky, expose to public sale the following described property, to wit:

One 1950, 2 door Buick, bearing serial No. 1540917, License No. Ky. 552-176.

Levied upon as the property of Muncy Prater and Mary Napier.

Terms. Sale will be made on a credit of three months bond, with approved surety required, bearing interest at the rate of six per cent per annum from day of sale, and having force and effect of a replevin bond.

Agency Approves Church Action On Alcoholism

By J. COLLIS RINGO, Executive Director Kentucky Commission on Alcoholism

One of the most encouraging developments in the examination of the problem of alcoholism is the changing attitude of church organizations. One of the 25 Joint Commissions of the General Convention of the Episcopal Church at Miami Beach Florida October 5-17 was devoted exclusively to the problem of alcoholism. Following is a summary of their support.

An intensive educational program on alcohol and alcohol problems, "including social drinking, effects of alcoholic beverages on behavior and performance (as on driving), teen age drinking, problems of inebriety and dependence on alcohol, the care of alcoholics and their families, and the principles and methods of sound alcohol education," is recommended for the Church by the Joint Commission to Study the Problems of Alcoholism.

In the National Council the program would be implemented by the creation of a Division of Alcohol and Alcohol Problems to examine, study, and work toward resolution of alcohol problems aided in each diocese by an active committee. Theological seminaries are asked to educate their students in the pertinence and application of their disciplines to alcohol problems. Church schools and colleges too must "introduce sound teaching about alcohol problems into their curricula," according to the Joint Commission.

Parish clergy, directors of religious education, Sunday school superintendents, and other educational leaders are urged to teach their children, young people, and adult groups alcohol problems as they "bear upon the general principles of spiritual, mental, social and physical health." With regard to the special problems of alcoholics and their families, rectors are cautioned to enlist experienced and skilled lay help in guiding the work undertaken in the community.

This action by the Episcopal church is particularly gratifying to the Kentucky Commission on Alcoholism. The basic philosophy underlying the commission's effort is that only by understanding on the part of the general public, acceptance of alcoholism as a treatable illness, will this problem be favorably resolved. Treatment of alcoholics is important, but far more important is early detection, a powerful preventive measure.

The Kentucky Commission is prepared to advise, with anybody who desires it, on available and willing experienced and skilled lay help in any community in Kentucky.

DELMAR HUGHES QUALIFIES FOR PILOT'S RATING

Vance AFB, Enid, Okla.—Second Lt. John D. Hughes, son of Mr. and Mrs. John T. Hughes, Prestonsburg, Ky., has qualified for a pilot's rating and now wears the silver wings of an Air Force pilot.

He completed 13 months of pilot training at Vance Air Force Base, Oct. 14, and received the congratulations of the wing commander, Col. Chester F. Gilger. He was one of 53 students to graduate with the class.

Lieutenant Hughes, began flight training last year in Texas and took primary at Bartow Air Base, Fla. His training at Vance was in the T-33, a two-seat version of the P-80 "Shooting Star", the first American jet ever flown in combat.

TEN GOOD REASONS

Mother Goose Tales

The voters who will decide the Board of Education race have a right to know the truth about the administration of its school affairs. But evidently Mr. Walter Frasure thinks the voters are a bunch of geese to be fed a lot of irresponsible statements that, to say the least, are wholly untrue.

A few weeks ago he was buying space in this paper to tell the voters he was a candidate for Board of Education and that he would not quit nor would he come off. In two weeks he was off to support John G. Hall. We do not know why he quit after assuring the voters that he would not do so.

Now, maybe to hide his sudden decision to quit the race, he hollers "Goosie, Gossie, Gander." Well, Mr. Frasure, the voters are not geese.

Here's what you told the voters in your firm decision to stay in the race:

FRASURE HITS FALSE RUMORS

Recently, the rumor has been circulated that I am "coming off" and favoring John G. Hall as a candidate for Board of Education, Division No. 2.

Permit me this means of stating very emphatically that I am not "coming off" and that I am not favoring John G. Hall or any candidate other than myself for Board of Education.

I am running my own race and intend to continue my efforts to become a member of the Board of Education.

I solicit your vote and influence. Thank you.

WALTER FRASURE

But he takes all of that back, reverses everything he said and quits. Last week he again bought space in this newspaper to call voters geese. And he attempted to feed them folk tales of how much money was being paid top personnel in the County Superintendent's office. We don't believe him about his statement that he wasn't going to quit the race for he did quit. We don't believe him now for we know better.

(1) He charges the supervisor of instruction with a salary of \$8,500. Mr. Frasure knows better than that. He has seen the record time and again and if he hasn't seen it lately he may come to the office and look at salary schedules anytime as they are public records. The supervisor of instruction receives far less than he could make anywhere else in a similar position.

(2) He charged big, high salaries to others in the office. Here again we say Mr. Frasure knows better as he is familiar with the records.

(3) He charged that the Board of Education has 50 maintenance employees, when he must have known that only 18 permanent maintenance men are on the payroll. He said the number was going up "by leaps and bounds." Ask him to name these employees who are being added so fast.

(4) He charged that 20 autos were being provided for maintenance men to drive to work. Here again we would like to see these cars. If the Board of Education has any such number of automobiles they should be pointed out by Mr. Frasure. He must have been looking at his own used car lot instead of the maintenance headquarters.

(5) Mr. Frasure charged many other wild things in his article, all of which are too ridiculous to take notice of. But since the election is so important to the voters and their children we notice them only to deny ALL of his charges and ask the public to look at the records in the superintendent's office, check the maintenance and anywhere else they want to check. This administration has always tried to keep the public informed on the conduct of school affairs as the public is entitled to that.

(6) Frasure charges that money is being wasted on a big maintenance force. He knows, as it was discussed here time and time again while he was employed here, that the State recommends an expenditure of 2% of the replacement value of the school property for annual maintenance. Floyd county school properties are worth \$12,000,000. Two percent of that is \$240,000.00. But last year the Board of Education was able to spend only \$87,000 or less than one per cent.

The voters are intelligent men and women, Mr. Frasure, not geese to be fed folk tales. The voters are entitled to the truth, not wild ridiculous charges.

The present administration knows that the office of member of the Board of Education is a responsible and important office as the future of our schools is at stake. Time and time again we have published Ten Reasons for electing Dr. J. H. Allen and Bill Arnold Spradlin to the Board of Education. The Ten Reasons are again published in this issue of The Times and we ask you to reread them.

The Ten Reasons are offered the voters in an attempt to acquaint the public with a good record. Mr. Frasure's Goosie, Gossie, Gander, is but the quacking and hissing of irresponsible and ridiculous charges. Folk tales are best left to the nursery and kindergarten.

To continue a good educational system managed for the good of the children by responsible people, vote for BILL ARNOLD SPRADLIN and DR. J. H. ALLEN.

(Adv.)

Who Can Best Serve the Children?

We are sure that the voters of Floyd county want a united responsible county Board of Education, for if Bill Arnold Spradlin and Dr. J. H. Allen are not elected, the opposing members could not do anything to help the educational system in Floyd county. They could not hire a teacher, bus driver, janitor or any other employee. The only thing they could do is to cause bickering on the board, and their terms would be served out in a futile effort to cause trouble. It is to the interest of the boys and girls of Floyd county for you to ELECT BILL ARNOLD SPRADLIN AND DR. J. H. ALLEN, and to continue a sound progressive school program for the remaining six years that the present superintendent will serve.

DRIFT

HOMEMAKERS MEET

The Drift Homemakers Club met October 23 in the home here of Mrs. B. F. Reed. Mrs. Ward Reed had charge of the devotional program. Roll call was answered by each member stating what fall planting and general outdoor clean-up she was doing. Mrs. H. D. Hewlett had charge of the business meeting. Mrs. Irvin Ward, landscape chairman, gave a short report on fall planting, feeding of grass and shrubs and protective measures to be taken for the winter season. Arrangements were made for two members to attend the next training meeting.

The lesson of the month was given by Mrs. Ivan Reed and Mrs. Edward Schneider. They gave a detailed and informative talk on "Color" and its importance in every-day living. Miss Frances Howland, county home demonstration agent, complimented Mrs. Reed and Mrs. Schneider on the fine presentation of the material made available to them at the training session.

The club welcomes Mrs. Lee Roy Jones as a new member. The next meeting will be held November 20, in the home of Mrs. Ivan Reed.

Members present: Mrs. Peg Hewlett, Mrs. Anna Hoffman, Mrs. Mary Martin, Mrs. Peggy Jones, Mrs. Isabel Reed, Mrs. Ruth Reed, Mrs. Rebecca Reed, Mrs. Jane Schneider, Mrs. Belle Turner, Mrs. Gladys Ward and guests, Miss Frances Howland and Mrs. Sophia Cahill.

Park Commission Names Officers

Frankfort, Oct. 30 — Mrs. Ben Kilgore, State Parks director, was elected secretary of the Breaks Interstate Park Commission at a recent meeting in Pikeville. This will be Mrs. Kilgore's third term.

Other officers elected are: State Senator M. M. Long, St. Paul, Va., chairman, and K. J. Day, of Pikeville, vice-chairman.

The election of Long follows the Commission's policy of alternating the chairmanship between representatives of Kentucky and Virginia each year, according to a spokesman of the group.

Flag In Museum From Steamboat Robert E. Lee

By CHARLES F. HINDS
Secretary-Treasurer, Kentucky Historical Society

The flag of the majestic steamboat, the Robert E. Lee, hangs today in the House of Representatives of the Old Capitol in Frankfort, along with scores of other famous flags, which include Kentucky's original state flag and the battle-tattered banner of the Sixth Regiment of the Orphans Brigade.

The first steamboat on western waters was the New Orleans which sailed in 1811 from Pittsburgh to the Gulf of Mexico. Its importance to the opening up of the continent as the nation expanded can hardly be overemphasized. By 1841 one enthusiastic magazine writer could say in truth "steam navigation colonized the West!" From 1810 to 1850 the population of New Orleans rose from approximately 17,000 to 116,000, while the value of its commerce in the products of the West arose from about \$10,000,000 to \$97,000,000.

As the guns of the War Between the States opened, however, the railroads were cutting deeply into the enormous profits of the steam magnates, and steamboating began to decline on the inland waters. A notable exception to this period of decline was found on the lower Mississippi River, where such boats as the J. M. White, the Robert E. Lee, the Frank Pargoud and the Natchez continued to ply their prosperous way until about 1885 when railroads replaced steamboats as the chief carriers of cotton.

It was in this setting that in 1870 there occurred the widely-publicized race between the Robert E. Lee and the Natchez. The Lee was built in the shipyards at Jeffersonville, Indiana, at a cost of \$250,000. The Natchez, which was built in 1869 in Cincinnati, was expressly designed to be bigger and better than the Robert E. Lee.

A natural rivalry rose between the owners and the captains of the two boats, and when T. P. Leathers of the Natchez threw down the gage to John W. Cannon of the Robert E. Lee, the stage was set. The Lee left New Orleans Thursday morning, June 30, 1870, the Natchez only a minute and a few seconds behind, the closest it was able to get to the Lee. With the attention of the whole country rooted on the scene, the Lee arrived in St. Louis at the end of three days, 18 hours, and 26 minutes. The Natchez disappointed a legion of supporters by taking six hours longer to make the trip.

Georgetown Fans Praise Ray Davis For Music Work

A Floyd county man left the music field at Georgetown, Ky., recently with high praise from his friends, the Band Booster's Club. The man was Ray Davis, of Betsy Layne.

"The members of the Booster's Club are proud of the excellent work done by Mr. Davis," the officers of the club took space in a Georgetown newspaper to say. "We feel that every citizen of Scott county would like to pay tribute to Mr. Davis, organizer of the very first county-wide school band in Scott county."

"This was a task well done in pioneering in the field of developing recruits in the separate elementary schools to build an excellent high school band," the officers wrote. "It was a tremendously hard job, considering time and travel over the whole county, but with continuous efforts, patience and foresight Davis developed in three years a truly great band. Our band was rated at the top in Kentucky for schools of enrollment similar to that of our county."

Young Davis is the son of Mr. and Mrs. Alex Davis, of Betsy Layne. He was started in the Betsy Layne band under Jesse Elliott, band director at the school. He played a solo cornet. Davis left Georgetown to accept a position in Ohio.

A REPORT TO THE PEOPLE

As Congressman representing the Seventh District of Kentucky for the past ten years, it has been both my privilege and my duty as a member of the House Education and Labor Committee, to become intimately acquainted with the problems faced by our Educational program and the economic problems in the Labor-Management field.

Since 1949 I have recognized the serious difficulties faced by our Public School system and have made repeated efforts to obtain Federal Aid to Education. The last Federal Aid for School Construction measure lost by only five votes.

I introduced bills in the past Congress to provide a Federal Scholarship program and a Student Loan Program. These were among the bills that were combined into the National Defense Educational Act of 1958, which provides for a federal-state program of loans to students in accredited colleges. These scholarship provisions were reduced in the Senate and finally eliminated in the House. This Act also provides for federal aid for science equipment in our local schools and certain other special studies.

It has also been my privilege to help expand the Social Security program to provide for limited disability payments and increased monthly payments to our retired workers and their dependents. Coverage has been increased to include farmers, self employed business men, professional men, and in fact, almost all workers who earn their living either as an employee or as a self employed individual.

Soil and water conservation with reservoirs to prevent floods and retain adequate water for industrial uses during the dry seasons are a must.

The conservation of human resources through increased medical research and public health programs must be stepped up to meet the problem created by our increase in population. This includes provisions for adequate pure water supplies and modern sewage disposal units.

Our disabled servicemen have faced the difficulties created by the economy drive. Repeated efforts have been made to reduce the Veterans' medical hospital facilities and to reduce overall veterans' expenditures by disallowing veterans' claims even years after their original approval. Congress has refused to reduce the appropriations for veterans' hospitals but now face the additional problem of preventing the Veterans Administration from removing disabled ex-servicemen from the compensation and pension rolls. This has been done without legislative approval by the simple device of a change in policy of the Veterans Administration which sometimes appears to violate the Veterans Act which provides that all doubts shall be resolved in favor of the veterans. This is not a problem that can be solved by a legislative act, but is rather one of persuading the officials of the Veterans Administration to follow the spirit of the Veterans Compensation and Pension Acts. As a veteran of World War II, I feel that I understand the problems faced by these disabled veterans and will continue my efforts in their behalf.

It is necessary that Congress provide the leadership to keep these programs going and at the same time, find sufficient funds to maintain our National Defense at a level which will prevent any foreign power from provoking an attack at a time when they feel we are too weak to defend ourselves. Our economy must be maintained with a strengthened program of unemployment insurance and action must be taken to maintain a healthy economy for all parts of the country. Also programs such as the R.E.A., the farm program, the national highway program, and a depressed area program must be maintained.

I offer this both as a report of my activities in Congress for the past ten years and as an outline of my policies for the next two years.

CARL D. PERKINS
