APOLOGIA

This column is unwritten this week with apologies. The senior editor suddenly found it necessary to be away.

Seldom does the associate editor fail to avail himself of an opportunity to move into this column and only the pressure of work spares the reader.

Believe it or not, there's work around here on press day. There are last minute stories to check and handle, heads to write, proofs to read, cutlines to write, new subscriptions to "single" out, et cetera, ad infinitum.

And don't say, "No apology necessary." We love our illusions.

NEW DISTRICT IS PLANNED

Three-County Area To Be District 32 Urged At Wheelwright

Members of the United Mine Workers of America in Floyd, Knott and Breathitt counties have begun a move to split District 30 and form a new district composed of these three counties, it was said here last week by Landell Thornsberry, of Wheelwright.

The new district, if formed as planned, would be District 32.

Landell emphasized the point that "we're not seceding—we simply want autonomy to get the recognition for these three counties that they deserve." He added that not a field worker in the present District 30 is from either Floyd, Knott or Breathitt counties.

District 32 headquarters will be established at Martin, if the move to create a new district succeeds, Thornsberry said.

First meeting of mine workers to urge the split was held at Wheelwright. Thornsberry was named chairman. He said practically all local unions in Floyd county and some from Knott county were represented. Breathitt locals are expected to join in future meetings.

Thornsberry, who has been a member of the mine committee at the Inland Steel Company mining operations at Wheelwright for the last 15 years and who has been elected recording secretary of his local five times, said the new district plans provide for every local in the three counties to have a committeeman serving on the district advisory board.

NOT REYNOLDS OF ALLEN

The Effort Reynolds, who was listed in last week's Times as charged with carrying a concealed weapon, is not Effort Reynolds, of Allen. The confusion arose due to the similarity of names.

KIWANIS CLUB SLATES KID'S DAY, SATURDAY

The Beaver Valley Kiwanis Club's annual Kid's Day will be held at the Wheelwright ball park Saturday, from 1 to 4 p.m., it was announced this week.

Steve Clark, president of the club, said a wider variety of events will be offered, more schools, pupils and teachers will participate, than ever before. A gathering of 5,000 school children is expected. Free refreshments will be provided all children attending.

The club is being given the cooperation of Kiwanis International and the Floyd county school system in staging the annual event.

TWO-YEAR TERM GIVEN HALL IN SON'S DEATH

MELVIN MAN SAYS SLAYING WAS ACCIDENT

Jury Deliberates Less Than Hour; Hall Plans Appeal From Verdict

A jury of the Floyd circuit court last Friday voted a two-year pen term for Lewis Hall, 47-year-old Melvin man, at the conclusion of his murder trial in the pistol-slaying of his son.

It was said this week that Hall will appeal from the verdict. The trial was held exactly a year after the slaying of the younger Hall. The jury deliberated about 45 minutes in reaching its decision.

Commonwealth testimony, consisting mainly of that produced by Dingus Johnson and Carl Caudill, a cousin of the slain man said Lewis Hall and his son, Garland, and Dingus Johnson had been drinking together for two or three hours on the day of the shooting, that they went to Lewis Hall's home and that there had been some promiscuous shooting. The father and son got into an argument, in the meantime entering an old store building. Carl Caudill said he heard the shooting and that when he arrived at the store, Lewis Hall emerged from the building. It was testified that Caudill and Johnson sought to persuade the father to leave and that while they were holding him Garland Hall came outside with a single-barrel shotgun.

Lewis Hall hit the gun and it was discharged, this testimony continued. Then the father and son tussled, both falling to the ground. The shooting then took place. The Commonwealth contended six shots were fired. Garland Hall was struck by two .25-caliber bullets.

The defendant testified he fired only two times and that those shots were fired in an attempt to frighten his son and did not take effect. Maintaining that he did not shoot his son, Hall testified that other shots were fired after he had twice fired the pistol, but he did not say by whom. The accused man testified there was no trouble between him and his son.

David Little was convicted Tuesday of voluntary manslaughter in the auto crash, near the Wheelwright consolidated school, of Earl Little, Jr., and he, too, received a two-year pen term. Commonwealth evidence alleged reckless driving and told of the defendant driving (See Story No. 2, Page 4)

Two Automobile Mishaps Injure Two Here Tuesday, From Mayo Shop Classes

Two separate auto accidents on U.S. 23 south of Prestonsburg, Tuesday, resulted only in first aid treatment at the Prestonsburg General hospital for two and a couple of badly damaged cars.

Hospitalized for treatment but released soon afterward were Paul Stephens, of Martin, who was driving, and Larry Greer, also of Martin. These two, accompanied by Paul Campbell, Raymond Hall and Mack Boyd, all of Allen, were returning to Martin from shop work at the Mayo Vocational school here when the mishap occurred near Knotley Hollow near noon. The car turned over near the trailer of Benny Blackburn.

Several hours later a car, driven by David Bruce Spradlin, 17, of Prestonsburg, left the highway near Ball Alley and crashed into the hill. Spradlin was accompanied by three other high school pupils, their names not available. None were injured. The accident was caused by a tire blowout, it was said.

TICKET PLAN IS INITIATED

By Businessmen Here; Project Treasure Chest To Yield Cash Awards

Prestonsburg's Treasure Chest promotion was kicked off this week with the offering of tickets to the participating merchants. These tickets, given with each \$1 in purchases, will constitute the basis on which cash awards will be made each week.

Actual offering of the tickets to the public will start Monday. Merchants in Prestonsburg were being solicited this week by a circular letter from the newly-organized Business Men's Association to join in a united effort to increase trade in Prestonsburg by participating in the promotion. G.O.P. NAMES ORGANIZATION

McGary Appointed Head Of Republican Effort Martin Picks Leaders

The Republican party, after a formal naming of campaign officers at a recent Martin meeting, opened its headquarters in the Patty Theatre building on Court Street here this week.

Opening of the Republican headquarters followed by a week the formal opening of the Democratic headquarters opposite the postoffice.

Lloyd McGary, of Martin, will head the Republican campaign in Floyd county, it is announced, and he will be assisted by Mrs. Myrtle Allen, Prestonsburg, as woman's chairman. George Roberts, Prestonsburg, has been appointed treasurer and Mrs. Viola Stewart, of Langley, has been named secretary.

The Democratic party named the personnel of other committees this week, it was announced by Burnis Martin, chairman.

They are, Young People's committee, David Herford, chairman; Bob Pearson and Mike Brown, co-chairmen; Green Tussey, Don Wallen, Sammy Wells, David Conley, Melanice Conley, Mrs. Robert Staggs. (See Story No. 6, Page 5)

FUND DRIVE EVENTS TOLD

FCRCC Hears Governor At Dinner Here, Monday; Roadblocks Are Planned

Gov. Bert Combs was the featured speaker at the annual dinner held here Monday evening to kick off the drive for funds for the Floyd County Retarded Children's Council.

The Governor had had a hectic day which included for him the opening of the special session of the General Assembly and an appearance at Charleston, W. Va., where a Democratic conference was in progress, but he arrived in Prestonsburg to help initiate the fund-raising campaign for the Council of which he is a charter member and a former president. INLAND TAKES TOP HONORS

At Safety Day Meet Held At Pikeville; Winners Are Listed

Inland Steel Company teams took top honors in the 24th annual Safety Day Contest, which ended at Pikeville, Saturday.

The contest, which began Friday, was sponsored by the Big Sandy-Elkhorn Coal Mining Institute through the cooperation of the Big Sandy-Elkhorn Coal Operators Association, District 30, United Mine Workers of America, Mayo State Vocational School, the U. S. Bureau of Mines and the Kentucky Department of Mines and Minerals.

The mine rescue portion of the contest was held Friday at the City Park. The first aid contest, held Saturday afternoon, had been scheduled in the park also but was conducted at the Pikeville high school gymnasium because of weather conditions.

Inland Steel's Wheelwright mine team, captained by Harrison Sparks, took top honors in the mine rescue division. Second place was won by the Republic mine of the Republic Steel Corporation, Elkhorn City, with Elihu Coyer as captain. Third place honors went to Mine No. 21 of the Bethlehem Mines Corporation, of Jenkins, with David Barker as captain.

The Price preparation plant of Inland Steel, with James Blevins as captain, took first place honors in the first aid contest for adult teams. Second place went to Mine No. 21, of the Bethlehem Mines Corporation, captained by John Huffman. Richard Watts was captain of third place winner, the Wheelwright Mine of Inland Steel. Fitzpatrick Announces Girl Scout Drive Plans; Volunteer Workers Asked

H. D. Fitzpatrick, Jr., Prestonsburg, chairman of the Finance committee of the Sandy Valley Girl Scout Council, this week announced plans for the annual drive for funds which begins Sept. 22, and closes Oct. 12.

Volunteer workers, under the leadership of Mr. Fitzpatrick, will seek to raise \$16,000. This is the basic amount necessary to maintain the day-to-day operation of the Council and to meet its new needs during the coming year. The Council's goals for next year include more girls in all troops, more and better training for leaders, and a wider camping program for all girls in the Council area.

"Girl Scouting is for all girls from 7 to 17 years, and the program benefits (See Story No. 9, Page 3)

Allen Is Awarded Hampshire Title

Floyd Allen, Hueysville sheepman, who entered a Hampshire ram in the State Fair last year where it was named Reserve Grand Champion, tried again this year to carry off the coveted prize of Grand Champion Kentucky Hampshire ram for his entry.

Allen, a Martin high school teacher who learned sheep husbandry from his father, the late Ward Allen, exhibited 12 other sheep at the recent State Fair.

Allen's success has been a boost to sheep raising in this county, it was noted this week by sheepmen.

"This shows that farmers of Eastern Kentucky are capable of producing livestock that can favorably compete against any other part of the state," commented Robert M. Jones, county agent.

DEMO RALLY IS DEFERRED

Inclement Weather Vetoes Meet At Park; Roosevelt To Speak

The Seventh Congressional District fish fry of the Democratic party, scheduled at Dewey Lake, Saturday, was deferred until Oct. 7, due to inclement weather. Former Governor Frank G. Clement, of Tennessee, who was the featured speaker, wired State Senator Burnis Martin, campaign chairman in this county, that he was unable to take off in his plane at Nashville due to the high winds whipped up by Hurricane Ethel.

Franklin D. Roosevelt, Jr., who is slated to tour Eastern Kentucky in the interest of the Democratic campaign, will be in Prestonsburg, Oct. 7, and the new fish fry date was set to coincide with that event. Roosevelt, accompanied by Keen Johnson, Democratic Senatorial candidate, and Carl D. Perkins, Democratic nominee for Congress. (See Story No. 7, Page 4)

FRASURE ASKS 175 TO MEET

Advisory Organization Planned By School Heads To Promote Education

The Floyd County Board of Education initiated a move this week to establish an advisory board to meet with the board on school problems. Walter Frasure, assistant county superintendent, asked 175 leaders in various fields in a recent letter to meet soon to name the board.

"The board would meet from time to time for the purpose of suggesting and formulating ways and means of improving our entire educational program for the boys and girls of Floyd county," Frasure said.

The 175 written by Frasure were asked to indicate when the most convenient time would be for them to meet and organize the board. Several tentative dates were suggested. (See Story No. 3, Page 4)

AUXIER SPAN IS APPROVED

Replacement Bridge At Auxier Connects Town With U. S. 23

The federal government last week gave the Kentucky Highway Department approval of the construction of a highway bridge across the Big Sandy River at Auxier which will cost an estimated \$1,046,000.

The span will replace the old suspension bridge at Auxier and will connect the town with the new U. S. 23 river route between Prestonsburg and Paintsville.

Announcement also was made last week by the U. S. Corps of Engineers, Huntington, W. Va., that the Kentucky Department of Highways has applied for an extension of time on its approval of plans to construct a second bridge spanning the Big Sandy, this later bridge to cross the river near West Van Lear. Statements of objections to the proposed bridge will be accepted by the Corps of Engineers at its Huntington office until Friday of this week.

In compliance with federal wishes the State Highway Department must start construction of the Auxier bridge within two years and complete it within four. State road authorities had earlier indicated they hoped to get going on the span "as soon as possible." The proposed bridge will be 820 feet long and will be capable of carrying two lanes of traffic. The present suspension bridge will be removed after the new span is completed.

The bridge described as near West Van Lear is planned as a seven-span, deck-grider type, 800 feet long, with one span across the river.

Federal approval for both spans is necessary because U. S. funds will match state money on the cost of the two projects.

NURSERY DEDICATION SLATED

The Eastern Kentucky tree nursery, established last year at Woods-bend, seven miles from West Liberty, will be dedicated Saturday at 11 a.m. Lieut. Gov. Wilson Wyatt will be the featured speaker. County officials and the general public are invited.

EIGHTH ANNUAL FAIR TO OPEN NEXT WEEK

Detective Arrests Hall In Music-Colvin Break; Copley Charges Osborne

Billy Hall was jailed here last Thursday by State Detective E. L. Cornett on a charge of breaking and entering the Music-Colvin Motor Company office here from which approximately \$90 in cash was reportedly stolen.

Two others were booked Tuesday on breaking and entering charges in a Wheelwright case. The two, Eugene Counts and Rufus Ray, Jr., were arrested by Deputy Sheriff Joe Wheeler Lewis. Counts, it was said, is under probation in an earlier case.

James K. Webb, alias Keith Osborne, was jailed last Thursday by Conservation Officer Raymond Copley on a charge of fishing without license, and Jay Music was named Tuesday on a reckless driving charge by Deputy Sheriffs James Hall and Harold Johnson.

LEWIS SUES PIKE GROUP

Taxpayers League Seeks Recovery From Officials; Huge Amounts Involved

More than 60 individuals and business establishments, including some of Pike county's leading officials, were named defendants Wednesday in a taxpayers' suit which charges illegal appropriation and expenditure of public funds.

The 31-page suit was filed in Pike County Circuit Court by Jesse K. Lewis, of Lexington, attorney for a group of residents and the Pike County Good Government League, Inc.

Those named as defendants included County Attorney John P. Runyon; Commonwealth's Attorney Kelsey E. Friend, who is a former county attorney; Circuit Judge F. P. Keessee; County Judge Ervin S. Pruitt, and County Treasurer George W. Coleman.

Also named defendants were members of the County Fiscal Courts of 1949-53, 1954-57, and the (See Story No. 10, Page 4)

KMA AWARDS DOCTOR HERE

Doctor Archer Recognized In Free Choice Advocacy At Medical Society Meet

One of the two highest awards bestowed annually by the Kentucky State Medical Association went to Prestonsburg's Dr. George P. Archer Monday, at the Medical Association meeting in Louisville.

Dr. Archer received the Distinguished Service Award. The 45-year-old Prestonsburg physician and surgeon, who is co-owner with Dr. John G. Archer, of the Prestonsburg General hospital, has been a leader in the criticism of the United Mine Workers' policy of specifying those doctors to whom union members may go for treatment. As a critic of this policy he has been heard at the American Medical Association and other professional meetings.

Dr. Archer's criticism of the UMW has stemmed from his belief that "everyone should have a free choice of doctors."

The other top KMA award went to another Eastern Kentuckian, Dr. John B. Rypstra, of Annville, who was named general practitioner of the year. Until recently he was Jackson county's only doctor.

HOWARD SAYS EXHIBITION IS IMPROVED

Many Departments Offer Exhibitors Wide Range In Entering Products

Amusement rides will be set up at the Prestonsburg high school grounds Monday, heralding the beginning of the eighth annual post-war Floyd county fair which will formally open, Wednesday of next week.

Spade work on the fair has been in progress for several months under the direction of Kermit Howard, chairman of the board, and several committeemen. Clifford Boyd has been in charge of selling the commercial booth space, and Bill Darby handled advertising for the fair catalogue. These two sources are the chief means of financing the agricultural event.

"The improvement of exhibits and activities over the past year are the result of the constructive and friendly spirit of the exhibitors," Howard said this week. "The effort and the advertising of the many who promoted the fair deserve the appreciation of everyone."

Departments of the fair this year will include livestock, field crops, home economics, textiles, antiques and hobbies, flowers, 4-H, F. F. A., P. H. A., and school exhibits.

Rules of the fair are only slightly different this year from the preceding fair, it was noted. Exhibitors were urged by a fair board official to check the rules in the fair catalogue. All exhibits, with the exception of livestock, are to be entered by 6:30 p.m., Wednesday. Livestock (See Story No. 1, Page 4)

PLAY PERIOD IS PROVIDED

Continuous Day System Does Not Exclude Play, Grade Principal Says

Miss Elsie Stephens, principal of the Prestonsburg grade school, explained this week that the continuous day system adopted at the school does not eliminate play periods for pupils. She explained the program after misunderstanding on the part of some parents had been reported.

Heretofore, 30 to 40 minutes of unsupervised play was permitted at the noon hour, and it was at that time that most injuries to pupils occurred. Under the new program, the playground is closed to play at the noon hour, immediately after the pupils eat lunch. But this does not mean, she said, that there will be no play periods. At least two supervised play periods will be enjoyed by all pupils each week, and more will be given if possible. Under the new system all members of one grade play together at the same time, in a planned play period and under teacher supervision.

This same plan has been in effect for several years for the first three grades, Miss Stephens said. "We felt that the upper grades—particularly the fourth, fifth and sixth—have had too much unsupervised play time and at those times stood too great a chance of being hurt." The Parent-Teacher Association is having shuffleboards painted on the blacktop area for use by the pupils, and volley ball also is being provided.

The continuous day program permits pupils to leave school 30 minutes earlier than heretofore.

87-Year-Old Will Stephens Observes Anniversary By Working In Field

What does an 87-year-old man do on his birthday? Usually he reminisces and basks in the congratulations accorded by his relatives and friends. But not Uncle Will Stephens, of Cliff. He worked all day in the field, Sept. 13, and received congratulation when the day's work was done.

His wife, Jane Baldrige Stephens, will celebrate her 88th birthday, Nov. 30. Like her husband, she is not yet succumbing to the infirmities of age, except for a slight impairment which did not prevent her serving punch and cake to their guests.

Guests of the Stephenses at the observance were Mr. and Mrs. Darwin Hunt, Waverly, Ohio; Rev. Ira McMillen, Jr., and daughter, Debbie, Prestonsburg; Mrs. Clara May, of Auxier; Mrs. Cella Hackworth, and Mr. and Mrs. Huey Spradlin, all of Bonanza; Mrs. Jenny Horne, of Auxier; Mrs. Eddie George, of East Point; Mrs. Anna Hale, West Prestonsburg; Mrs. John Stephens and Miss Irene Dotson, both of Cliff.

DEVELOPMENT CORPORATION IS LAUNCHED IN KENTUCKY

A three and one-half million dollar Business Development Corporation has been launched in Kentucky to make loans to businesses for constructing new industrial plants and expanding existing ones. Lt. Gov. Wilson W. Wyatt has called it the most important single step in Kentucky's entire economic development program.

Kentucky thus becomes the only state with two special types of industrial financing, since it also has the Industrial Development Finance Authority. The latter is restricted to making loans to local industrial foundations and similar organizations.

Privately managed and financed, the corporation has a membership of 236 Kentucky banks, insurance companies, Rural Electric Cooperative Associations and other businesses. Members have bought \$750,000 worth of stock and committed themselves to lending another \$2,750,000 through the corporation. Practically every county in Kentucky is represented by companies investing in the corporation.

Its primary purpose is to lend money where it will foster the growth of Kentucky industry. These officers were elected at the organizational meeting:

B. Hudson Miller, executive vice-president of the Louisville Gas & Electric Co., largest stockholding firm, president; Ernest S. Clark, president of Citizens Union National Bank and Trust Co., Lexington, first vice-president; G. J. Tankersley, president of Western Kentucky Gas Co., Owensboro, vice-president and secretary; Roland Fitch, president of Bowling Green Bank & Trust Co., and president of the Kentucky Bankers Association, vice-president, and treasurer.

While the organization's purpose is to make loans to deserving new or expanding businesses, it will not compete with banks, Miller said. When a banker feels he cannot make a requested loan, he can direct the applicant to the corporation, Miller added.

Commissioner of Economic Security Jo M. Ferguson said the August payments increased over those of August, 1959, for the county as well as the state.

Ferguson said the payments were generally the same as those of July, which were at an all time high for the county and state. Last month's total public assistance payments in all categories gave Kentucky the lead over southeastern states in amounts paid to indigent recipients.

Total county payments for Floyd increased by \$5,587 over those of August, 1959, and average payments showed a \$6.97 increase.

All counties increased in average payments and all but three counties showed a total county payment increase. A drop in the number of recipients from last year was responsible for the decrease in total payments in the three counties.

Only 41 counties gained in recipients since last month, 11 retained the same number and 68 counties decreased in the number of recipients.

The committee, under a statutory directive, advises the Commissioner on the administration of public assistance and the aid to needy children program within the county.

James Is Appointed To Advisory Group

Tom James, Prestonsburg veteran leader, was named to the Social Service Advisory committee of Floyd county by Gov. Bert T. Combs, Sept. 6, it was announced this week by Jo M. Ferguson, Frankfort, Commissioner of the Department of Economic Security.

The committee, under a statutory directive, advises the Commissioner on the administration of public assistance and the aid to needy children program within the county.

It was Alumni Day at Caney Junior College, Pippa Passes, Kentucky, Sunday, September 18, when Governor Combs dedicated Caney Alumni Hall.

It was a real pleasure and privilege to visit and see the outstanding work and leadership which began with Founders Shack, back in 1916 — to visit this place where Mrs. Alice Lloyd and dedicated faculty members have struggled to give the boys and girls of the Mountains of Eastern Kentucky an equal opportunity in leadership and education.

One has to visit Caney to really appreciate the outstanding work that is being carried on and to gain inspiration from the fine young men and women, some 200 strong, who are working to have an equal opportunity in life.

My congratulations to Mrs. Lloyd, June Buchanan and the teachers there for their leadership and untiring efforts toward education in Eastern Kentucky! I urge all people in our area to help support Caney Junior College with your gifts.

And, inasmuch as Caney and the few other colleges of the area are forced to turn young women and men away because they are overcrowded, I would also urge our people to encourage our leaders to respond to the need of establishing a state junior college in Eastern Kentucky to help our young people prepare themselves to become the leaders of tomorrow.

P.-T.A. MEETS

The Executive committee of the Prestonsburg High School P.-T.A. met at the home of Earl McDonald, P.-T.A. president, Tuesday evening.

In attendance were Gordon Moore, athletic director; Mrs. Herbert Salisbury, Jr., vice-president; Mrs. Otis Cooley, treasurer; Mrs. Hal Midkiff, immediate past president, and Byron M. Thompson, secretary.

Mr. McDonald stressed the point that the area of operation of the P.-T.A. is in the field of studies and formulating recommendations on various phases of its activities and that the P.-T.A. will in no way interfere with the administrative operation of the school. He also said that great emphasis should be placed on increased membership and active participation in P.-T.A. committee work by all the membership.

The first regular P.-T.A. meeting will be held September 29, at 7:30 p.m., in the Prestonsburg high school cafeteria.

Committees named for the year following, the person first-named being the chairman in each instance:

Publicity—Gordon Moore, J. E. Goble, Mrs. Phyllis Hall.

Membership — Mrs. Francis Harmon, Mr. Chester Patton, Mrs. Charles Burke, Mrs. Tom Dingus.

Program—J. T. Camicia, Mrs. Carlos Haywood, Woodrow Allen.

Hospitality—Mrs. William Wallen, Mrs. Ernest Osborne, Mrs. Gorman Collins.

Ways and Means—Mrs. Glenn Anderson, Homer Wright, Chalmers Frazier.

Building and Improvements — Byron M. Thompson, Allie Howard, Harry Snodgrass, Chester Patton, Tom Cole, Lloyd Wells, Jack Keenon, Lee Shannon, Marvin Music, Russell Rice, Byron Nunney, Earl McDonald, Francis Harmon, Herschell Tackett, Lon Hill, Charles Wells.

Cafeteria Policy — Mrs. Hal Midkiff, Mrs. Tom G. Dingus, Bill Wallen, Byron M. Thompson, Herschell Tackett.

Parking Area Blacktop — Ray Howard, Tom McGuire, W. R. Callihan, Glenn Anderson.

Stage Curtain—Katheryn Frazier and Carlos Haywood, co-chairmen, Virgil Warrick, Claybourne Stephens.

School Safety—J. R. Camicia, James Carter, Byron Nunney.

School Use Policy (for non-school individuals and organizations)—Frank Heinze, Woodrow Allen, Mrs. Charles Stumbo, Harry Snodgrass, Mrs. Herschell Tackett, Lillian McDonald.

Kentuckians Are Urged To Order Trees Early; Morgan Nursery Opened

With orders for approximately a million seedling trees already in, the Department of Conservation's Division of Forestry has urged Kentuckians to file their seedling requests for fall planting promptly.

Harry Nadler, director of the Forest Management Section of the Division, said seedlings should be ordered immediately in order to avoid a "serious distribution problem."

This year's fall tree planting season is the first ever undertaken by the Division. Nadler explained that planting seedlings late in the year "takes the load off the spring season."

Woodland owners should send their requests for seedlings to their local forester of the Division of Forestry, to their county agent or to the local Soil Conservation office. Seedlings will cost \$8 a thousand.

Applications for government cost-sharing funds should be filed at the individual A.S.C. offices. Under cost-sharing, the government will pay 80 per cent, though not to exceed \$16, of the farmer's cost. Application for the funds, the owner submits his planting program to the supervision of a qualified forester.

Some 20 to 25 million seedlings will be produced this year at the state's two seedling nurseries at Kentucky Dam State Park and in the new nursery at Morgan county near West Liberty.

Among the species of trees available for fall planting, Nadler said, will be shortleaf pine, loblolly pine, white pine, yellow poplar, black locust, black walnut, cedar and sugar maple.

COBURN IN GERMANY

Augsburg, Germany — Army Sgt. Elmo Coburn, son of Mrs. Nannie Chaffins, of Garrett, Ky., recently participated with other members of the 24th Infantry Division in Exercise Summer Shield, a two-week field training problem, in the Bavarian region of Germany.

Sgt. Coburn, son of Bee Coburn, Route 2, Wolcottville, Ind., is a member of Company A of the division's 24th Signal Battalion. He entered the Army in October, 1952, and was stationed at the Holoman Air Force Base, N. M., before arriving overseas in December, 1958, on this tour of duty.

Aged Allen Resident Is Claimed At Martin; Rites Held At Hippo

Tommy Ousley, 90, of Allen, was claimed at 12:25 a.m., Monday, at the Beaver Valley hospital, Martin. The aged man suffered a fractured hip in a fall a week before his death but it was said death was due to a stroke. He was a retired farmer.

Mr. Ousley was a native of the Middle Creek section but had resided at Allen for the last ten years. He was a son of Hager and Polly Stephens Ousley. His wife, Lucy Allen Ousley, survives. Surviving sons and daughters are Willie Ousley, Auburn, Ind., Harry Ousley, of Hueysville, Henry Ousley, Prestonsburg, Curtis Ousley and Grover Ousley, both of Hippo, Mrs. Ethel Moore and Mrs. Osa Lowe, both of Ashland, Mrs. Aggie Howard, of Pyramid, Mrs. Darcus Key, of Allen, and Mrs. Sadie Porter, Pikeville. Surviving is a brother, Cleveland Ousley, of Raceland, 43 grandchildren and 54 great-grandchildren.

Funeral services were held today (Thursday) at 10 a.m., from the Philadelphia Regular Baptist church at Hippo, the Revs. Banner Manns, M. C. Wright and Dillard Reed officiating. Burial was made in the Hicks cemetery under the direction of Hall Brothers Funeral Home.

Frequent overloading will ruin a tire long before its tread wears down, tire manufacturers warn. The sidewalls of an overloaded tire flex more than those of a properly inflated tire, thereby building up excessive heat which destroys the fabrics and adhesives holding the tire together.

Those who will lead the drive in Floyd county communities are: Prestonsburg, Thomas Lemaster; Wheelwright, Leon Porter; David, Harmon Tussey; Martin and Drift, John C. Hall.

A Pictorial Review of East Kentucky (No. 110 in a Series)

Forty-year-old picture of Dinwood

This picture of Dinwood, Floyd county, taken in 1920, recalls memories from decades ago. Albert Osborne's store is at the far left, Clayborn Bailey's store is shown in the center and the Bailey home is identified by the smoke. G. C. Roberts' house and the railway depot are shown. The houses on the hill were owned by Wright Lumber Company.

This view was photographed from the bank of Right Beaver Creek.

One Tough Job Is Enough

One of the better moves of Governor Combs was the supplanting of Earle C. Clements as highway commissioner with the appointment of Henry Ward.

Mr. Ward already has plainly stated his position on such matters as favoritism, and because of that he may not fill the bill required by politicians and political strategists. Yet a business administration, letting the chips fall where they may, is what will do the most good for Kentucky and redound to the greatest credit for the Combs administration.

That is our view of Henry Ward as commissioner of highways. We would point out, however, that he is holding one job too many. This highway business will require all his time, his fullest attention, and he should give up the other.

This other post is that of chairman of the State Parks Advisory Commission. If there were no good and capable men to do this latter job, he would be justified in holding on to it in the interest of the state and its parks. But there are others who will do Kentucky a good job on that commission, and for that reason Mr. Ward should relinquish it.

One such man is Marvin Music, of Prestonsburg. Mr. Music should be chairman of the Parks Commission for several reasons, and some of these reasons we list here:

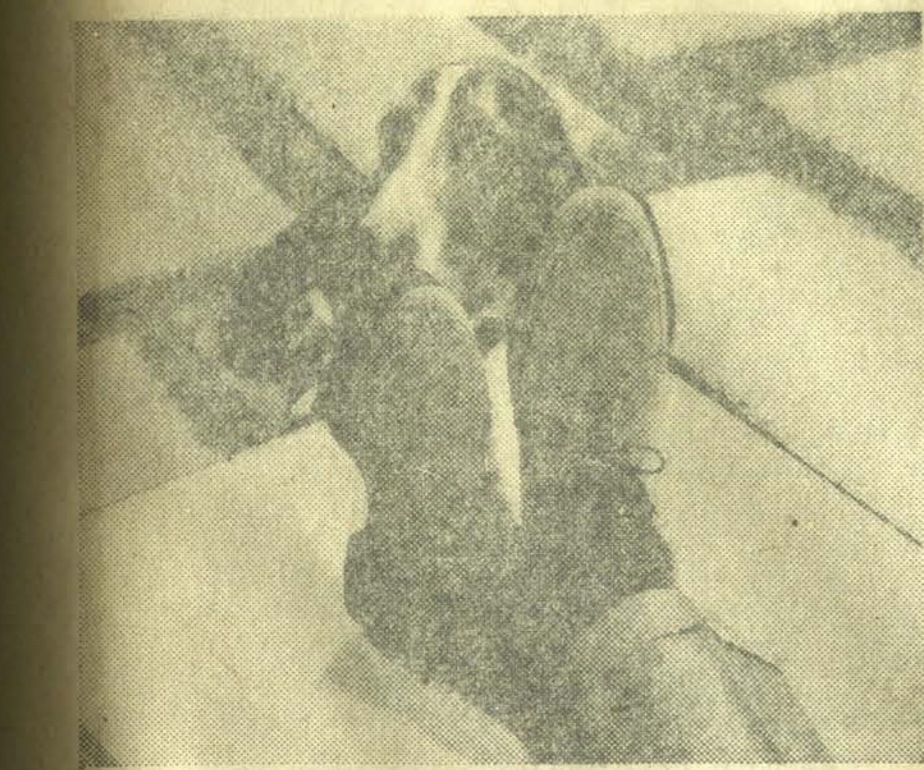

He has for many years now given as much, or more, of his time to causes beneficial to Eastern Kentucky as any citizen of the state, doing so at his own expense and at times to the detriment of his own business; (2) he has an abiding interest in park development and the tourism such development will encourage; (3) he is an apt student of such problems, and views such needs without political bias; (4) he is a friend of Governor Combs, a charter member of the Governor's circle of friends, and not one who is a friend for political favor or personal profit; (5) Mr. Music is an Eastern Kentuckian, a native and resident of a vast region unrepresented as of this date on the Parks Commission and of a mountain area which needs parks development more sorely than any other part of Kentucky.

We are not arguing the case; we merely present the facts.

present court; bondsmen for the officials and several firms which had done business with the county.

The suit seeks an accounting of all funds appropriated and spent during the period. It alleges the Fiscal Court exceeded its authority in approving certain appropriations.

The suit charges that "a floating indebtedness" of more than \$200,000 had been incurred by Fiscal Court prior to 1949 in violation of the state constitution and the County Budget Law in the Kentucky Revised Statute.

It claims the defendants were without legal right, power or authority to assume or pay any part of the indebtedness out of current revenues for any fiscal year.

The plaintiffs charge that Friend, as county attorney for 1954-57, collected salary, commissions, fees and court costs in excess of constitutional limits of \$7,200 a year as salary.

Also alleged was an appropriation of \$50 a month in 1958 to a deputy county clerk for keeping social security records of county employees. An alleged 1959 appropriation of \$500 to Judge Keesee also was assailed as illegal.

Coleman was accused of failing to file with the clerk of the fiscal court monthly financial statements containing a list of warrants paid during the month and showing all cash receipts and the cash balance at the beginning and end of the month.

Pikeville attorney Charles E. Lowe, also representing the taxpayers' group, said the purpose of the suit is to obtain an accounting of all funds appropriated and expended during the period. The group also seeks to have any funds illegally disbursed returned to the Fiscal Court, he said.

away from the scene after his car had run onto a sidewalk and struck Earl Little.

The defendant claimed the tragedy resulted from his car going out of control when a tire blew out. Kenneth Johnson, a passenger in the car, testified, however, that the blowout came after Earl Little was hit.

Trial of Bennie Blackburn, accused of the slaying at his home, near Knotley Hollow, of Bill Buck Baker, was postponed Monday when the principal commonwealth witness, Denville Joseph, did not appear. Judge Edward P. Hill directed that an attachment issue for Joseph and no bond be allowed him when he is found. Commonwealth's Attorney Hollie Conley said Blackburn's trial will be held during the present court term if Joseph is located in time.

Three others have been convicted within the week: Joe Hopkins, child desertion, plea of guilty, three years, sentence probated; Wes Bryant, destroying private property, plea of guilty, fined \$10 and costs; Ezra Shortridge, child desertion, one year.

At the same time five defendants were winning verdicts of not guilty. These were: Curtis Stone, knowingly receiving stolen property; Claude Bailey and Charles Vanderpool, detaining a woman against her will; Mark Henry, child desertion; Oris Hall, grand larceny.

These cases were dismissed: Sheridan Ray Martin, detaining a woman against her will, marked by the Commonwealth's Attorney, "evidence insufficient to convict;" Kenneth Roberts, shooting at another with intent to kill and possessing liquor, lack of evidence.

The \$2,500 bond of Ronald Stone, accused on two breaking and entering counts, was forfeited when he failed to appear for trial, and an attachment was directed issued for Carl Reed for his appearance Jan. 4, next, to show cause why he should not be in contempt of court for his non-appearance in court.

The grand jury returned today (Thursday) to complete its session Friday.

Combs, Baldrige, Reed Appointed By Breathitt To Serve On Committee

Four hundred leading Kentuckians have joined the speakers committee to work for a call to convention for a limited study of Kentucky's 1890 constitution. It was announced at the Louisville headquarters of the Committee for Constitutional Improvement.

Marlow Cook, Republican co-chairman, and Edward Breathitt, Democratic co-chairman, released the names of those who are to take to the stump to urge a "yes" vote for the convention call on November 8.

The two leaders of the non-partisan committee, emphasized that the November vote will not alter the constitution but will only set the stage for a convention. The findings of that convention must be acted upon by the people.

Among the speakers from Floyd county are: C. Kilmor Combs, Prestonsburg; Bernard Baldrige, Martin; B. F. Reed, Drift.

Bishop Gum Visits Churches In District

Bishop Walter C. Gum of the Louisville area of the Methodist Church was in Prestonsburg last week and spent two days in the Ashland district visiting churches and parsonages. He was accompanied by Dr. Homer L. Moore, superintendent of the Ashland district.

THE NEW MUD CREEK ELEMENTARY SCHOOL BUILDING

A DREAM COMING TRUE...

This modern 20-room building will house approximately 500 children beginning September 1, 1961. It will cost approximately one-third million dollars.

This new building will consolidate ten rural schools in the Big Mud Creek area and will bring the best in an educational program to them.

This building will be the culmination of the dream of John M. Stumbo. This is concrete evidence of his leadership.

**MOORE OUTLINES NEED
FOR GYM RESTORATION**

If Prestonsburg high school's practically new gymnasium were to be restored to its original condition, an outlay of an estimated \$40,000 would be required, Gordon Moore, assistant principal and athletic director at the school, told the Prestonsburg Kiwanis Club last Thursday evening.

Broken windows, damaged showers, and damage to the playing floor itself were among the items listed for repair. "The gym is in pitiful condition," Moore said. A volunteer crew of 40 workmen were scheduled Tuesday night to repair the physical education and equipment rooms. Moore also gave the club a summary of the athletic department's financial condition. He declared that in three years \$21,000 has been spent for football equipment and that the school now does not have enough equipment to outfit a 30-man team.

He said athletic receipts last year totalled \$8,273.06, that debts incurred totalled \$13,840.30, with \$11,059.06 paid out on expenses, leaving a debt of \$4,690.04. He broke these totals down by separate sports activities, as follows:
Football receipts, \$2,896.16; expenses, \$8,355.98; expenses paid, \$5,336.6 leaving \$3,019.13 due, plus \$1,296.13 borrowed from the general fund.

Basketball and gym activities receipts, \$5,376.91; expenses, \$5,496.34, including gym sanding, etc.; expenses paid, \$5,484.34, leaving a net loss of \$283.91.

Baseball expenses \$197.36, no receipts; golf expenses, \$10.40, no receipts.

Moore told the club 47 boys participated in the school's athletic program last year, winning a total of nine contests.

This year, he said, the situation is being corrected by an expansion of the program to include a great number of students in sports and physical education.

Little League football will be begun within two weeks with 127 boys already listed as candidates for the four teams, and freshman football has already been initiated at the high school with 127 boys participating. This freshman team, he said, will play a six-game schedule this year.

Of 247 freshman and sophomore boys at the high school this fall, only two had reported as candidates for the varsity squad, Moore told the club.

He added that the school now has 125 boys working out in track ac-

tivities, with equipment donated by business firms, and that the school will have an entry in the regional cross-country run, Oct. 29. In the school's physical education classes 250 boys and 80 girls are now enrolled.

"By mid-year we expect to have a well-balanced program under way," the speaker said.

To finance such a program, he said, various events are planned. Among these are a basketball game here, either Dec. 9 or 10, between Morehead State College and Tennessee Tech; the Prestonsburg Invitational basketball tournament featuring eight teams, including Male of Louisville, Breathitt County, Monticello, Prestonsburg, Martin and Wheelwright.

David Stephens, master of ceremonies, introduced R. V. May, of Prestonsburg, who has been active in the Council program. May welcomed the Governor and other guests.

Other events scheduled by the Council to raise funds, according to Mrs. Dora Stephens, chairman, in addition to the radio auction now being conducted by radio station WPRT, are as follows:

1. Today (Thursday) the second series of roadblocks were set up in the county by the nine high schools. Motorists will be asked to contribute to the cause.

2. A benefit show is scheduled at the Prestonsburg Drive-In Theatre, Tuesday, with all the proceeds going to the Council.

3. The proceeds of all parking meters in Prestonsburg will be donated Saturday to the drive and the Tom Thumb golf course will contribute its net proceeds the same day.

and the team with assurance. The films show he was quite a poised performer. You could quickly tell he was in control of the offense.

I think he did an excellent job, and the figures back me up. This young fellow, just a year out of high school, completed 14 out of 24 passes for nearly 200 yards. And three or four other throws barely missed. I'm real pleased with him.

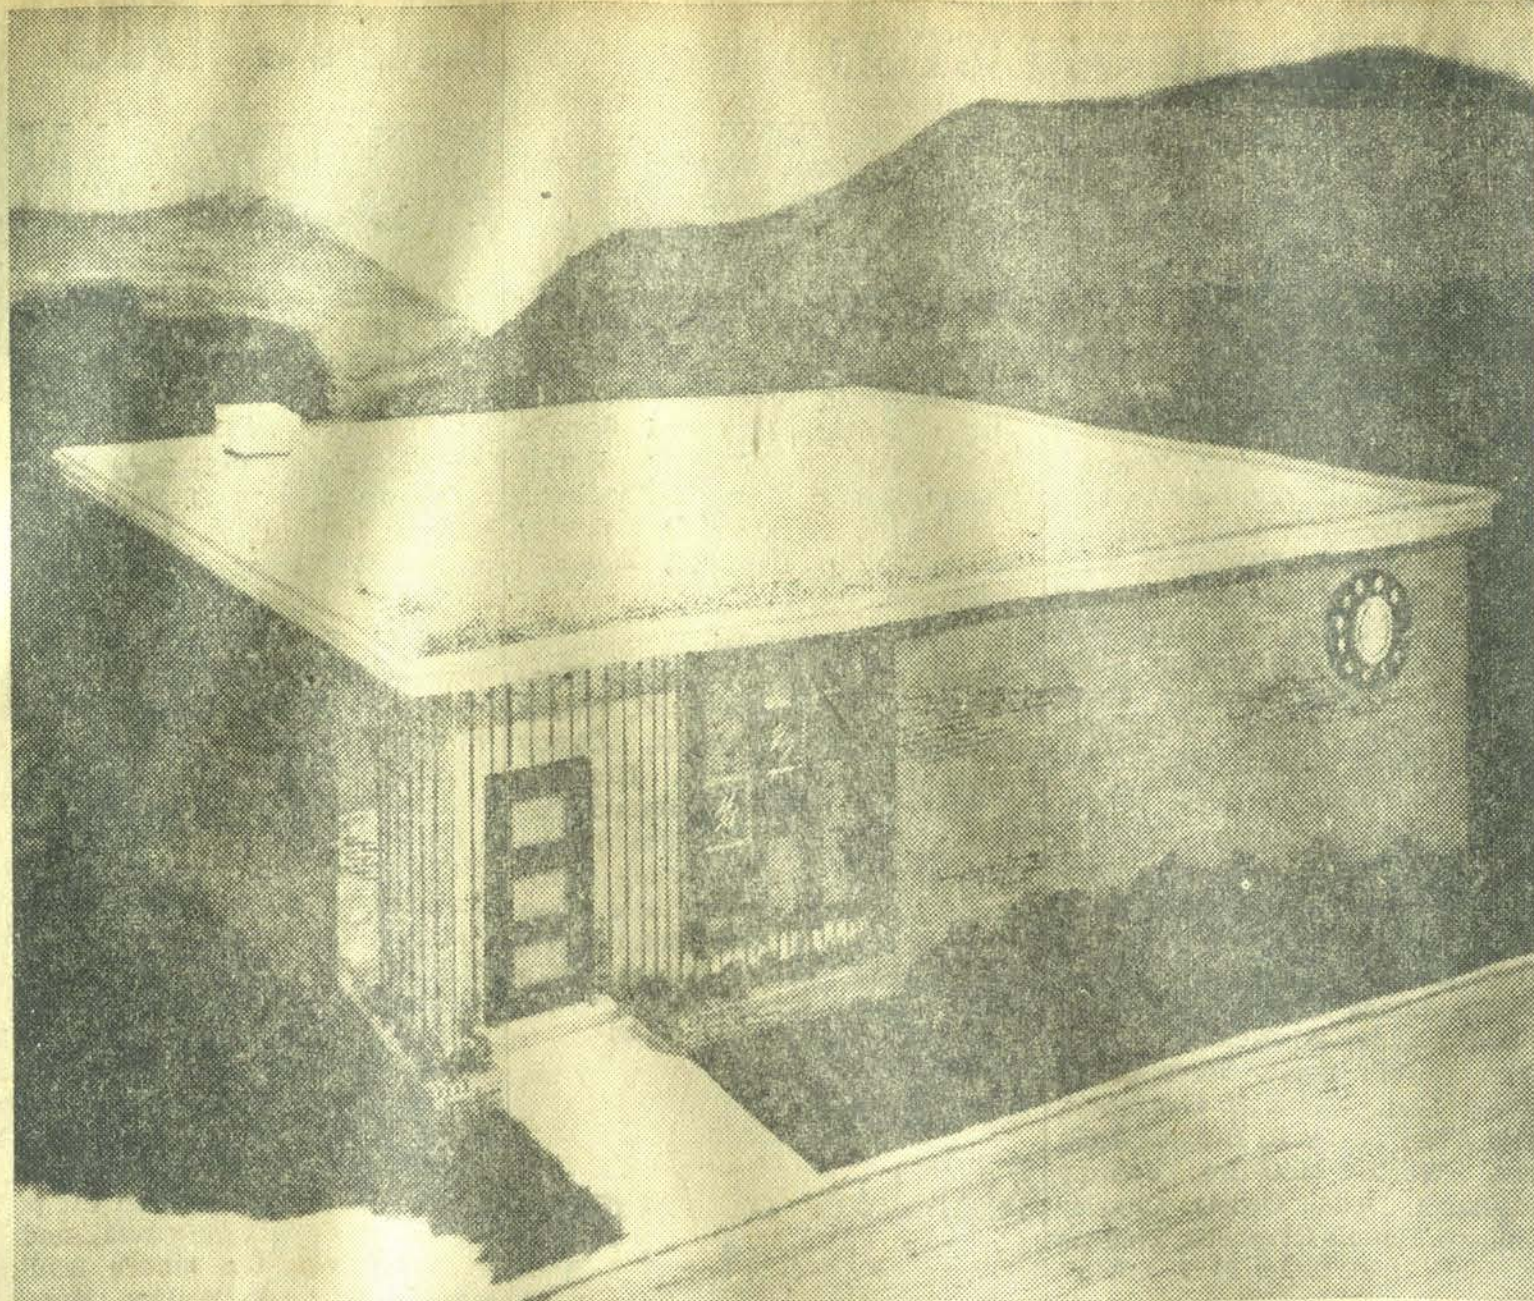

Starting Quarterback Tom Rodgers, although a senior, was also in his first varsity game in the position. He was under tremendous pressure. He'll be O.K. He just needs a little time.

Summing up, we seemed to have first-game jitters and didn't play well at all. Our boys are capable of much more. I've told them numerous times that there is only a small difference between winning and losing. Maybe they'll start acting on that bit of advice.

Mitter asks that persons interested in the Treasure Chest promotion contact him or either of these merchants: William O. Goebel, Hubbard Francis, Virgil Warrick, Dan Nessler or Bob Francis.

At a recent meeting of the group William O. Goebel, Sr., was named treasurer. Mitter remains as permanent chairman.

**Kentucky Traffic Toll
Noted By Roads Council;
Highway Program Urged**

Traffic fatalities in Kentucky in 1959 on all highways averaged 8.8 deaths for each 100 million miles of travel without a single death on Kentucky's turnpike and interstate extension, Kentucky Better Roads Council announced today. "With increasing registration from about 700,000 to almost 1,200,000 in ten years, and evidence of steadily expanding inter-city traffic, inadequate roads will continue to produce more and more traffic deaths."

"Kentucky's effort to improve its roads through the passage of a \$90 million road and \$10 million parks bond issue on Nov. 8 is being watched with interest by traffic experts," the council said. "In Virginia, controlled-access Shirley highway recorded 0.8 deaths per 100 million miles of travel while on U. S. Highway 1, parallel of the same route, without controlled-access, the death rate is 10.6 per 100 million miles."

"Ohio's turnpike keeps the rate at 1.8 deaths per 100 million miles while all other roads in Ohio record a death rate of 7.4 per 100 million miles."

"Experts estimate that the national interstate highway program could save the lives of 37,800 people by 1970."

"During the past five years 3,993 people died and 70,670 were seriously injured on Kentucky highways. Constantly increasing car registration and the expanded use of each makes almost every highway in Kentucky a veritable death-trap."

What's Wrong with a Compromise?

In a recent edition of this paper there appeared an article entitled "no compromise," in which there was an implication that a compromise should be frowned upon as being an act of ill repute or an act of bad faith; unbecoming persons who are interested in promoting unity, harmony, cooperation, and an unbiased, unselfish interest in advancing educational opportunities for our boys and girls of Floyd county.

Included in this "no compromise" article is this statement: "Do not be misled by FALSE RUMORS by those who would divide to conquer."

Who wants to conquer what???

Does this statement imply that a person who is interested in bettering educational opportunities for our Floyd county children would be an arrogant, selfish, self-centered, dictatorial type of individual who would place personal gain above an interest in the well-being of our Floyd county children?

Does the "no compromise" article indicate that a compromise of an honest, just, and a sincere nature could do harm or damage to our educational system of Floyd county?

Included in the "no compromise" article is a statement that FALSE RUMORS are making the rounds.

RUMORS are flying!!

What are the TRUTHS?

Two years ago, Ray Howard and John G. Hall, in the presence of witnesses, and in my home, promised me that if I would support them in their endeavor to become elected to the board of education, and if they were elected, they would in turn vote for me to become superintendent of Floyd county schools.

I trusted them and I supported them.

The RUMOR spread that Ray and John had promised Chalmer Frazier, of Prestonsburg, to vote for him to become the superintendent.

I ignored the RUMOR. I continued to work faithfully and diligently for their election. I did not question their honesty and sincerity in the matter.

I did not even consult Chalmer about the promises Ray and John had made to him. Their word was gold to me.

After Ray and John assumed their membership on the board of education, confusion, unrest, uncertainty, and even chaos became prevalent. There was dissension among the board members. The teachers developed an insecure feeling. Parents were uncertain. Our children were in a state of unrest.

The RUMORS were that our school system was falling to pieces. A fight between board member personalities over-shadowed and dominated the meetings. Pupil educational well-being was pushed into the background. Teachers were seeking employment in other school systems. Some chose to leave the state. Others were forced to leave. Still others were transferred to isolated sections of the county.

Could this be justified?

I began to wonder about the role I had played in helping to bring about this confusion and unrest. Should I be proud of the part I played or should I be ashamed?

I did not have a part to play in the meetings. I did not desire one. I have not attended a board meeting to this date.

Recently, preparations for the current school board race began to take shape.

I returned from Morehead State College one week-end to find that Ray and John had endorsed a candidate who, as the RUMOR goes, favors Chalmer Frazier for the superintendency of Floyd county schools. Of course, this caused me to become worried about my own position with Ray and John.

I invited them to consider my position in this matter of choosing board member candidates. I explained that if Ray and John were still favorable to me and if I were to assume an active part in the electing of a candidate who would favor me as the superintendent, and if I were to spend time and energy in their election, and if I were to be in a cooperative, harmonious, working relationship with a board of education—then certainly I should be granted the courtesy of having a voice in the choosing of candidates who would be favorable to me and not favorable to Chalmer Frazier, of Prestonsburg.

I was informed by Ray and John, and this, too, was in the presence of witnesses, that they would not break an obligation to their chosen candidates.

The RUMOR was that orders were coming from higher

headquarters at Prestonsburg. I could not understand how Ray and John could keep their pledge to me if they were endorsing candidates who were not favorable to me.

RUMORS were that "big deals" were being made and that I did not fit into the plans. I was a "small time" country boy from Left Beaver and did not understand "big time" politics in Prestonsburg.

The RUMOR making the rounds at the present time is that I have sold out on Ray and John. This is quite amusing to me, for I cannot understand how it would be possible for me to sell out on two fellows who had not been for me in the first place.

Too, assuming that Ray and John had been for me, I have supported them to the fullest extent, and need only one more board member to be elected to become superintendent of schools—why would I drop all of this, accept a position as assistant superintendent, and work for the election of three board members? Does this make sense?

I invite the public to investigate my character, integrity, honesty, and reputation and then decide for themselves WHO SOLD OUT ON WHO?

I am a native of Floyd county, was born and reared on Left Beaver Creek at McDowell, graduated from McDowell high school, attended Caney Junior College, Pikeville College, Eastern State, and Morehead College. I have certificates in elementary and secondary education, administration and supervision, and have pursued and completed courses of study which qualify me to hold positions as elementary principal, high school principal, supervisor, guidance counselor, and superintendent. I have a certificate for each position and have 26 hours beyond the master of arts degree.

My parents are James and Susan Mosley Frasure, of McDowell. My grandparents were Robert "Big Bob" Frasure, of Mud Creek, J. C. "Clabe" Mosley, of Knott and Floyd counties, Judy Martin Frasure, of Left Beaver, and Polly Terry Mosley, of Knott and Floyd counties.

My wife, Rosemary Malone Frasure, a native of Allen, is the daughter of W. A. "Bill" Malone and Alta Bailey Malone, of Allen.

I am perfectly willing to let the public judge as to WHO SOLD OUT ON WHO.

I do readily admit that I believe many things in our educational program need to be improved. I do believe that Charles Clark is a most capable superintendent and that these improvements will be made as rapidly as he can study the problems and formulate new plans. Many improvements have already been made during the short time he has served as your superintendent of schools. Other improvements are now in the making.

We need your support in our endeavor to promote greater educational opportunities for our boys and girls.

We feel that you parents and school supporters need to elect board of education members who will help to assure a cooperative, harmonious, working relationship with the superintendent and school personnel who are trained in the field of education.

We seriously doubt that Ray Howard and John G. Hall know as much about education as those of us who have spent years in preparing for our present positions and have years of experience to our credit.

We wonder about the motives Ray and John have in mind when they undertake to run the educational program for the whole county. Do they feel that the future of the school system rests in their hands? Do they feel that the country people of Mud Creek, Left Beaver, and Right Beaver, need leadership from Prestonsburg? Why is it so necessary for them to endorse a candidate in another educational district? Do they feel that we country folk are incapable of choosing good, honest, interested, reputable candidates to represent our people and our boys and girls? Personally, I feel that if I knew as much about the furniture business as Ray Howard claims he knows about the educational profession, I would be engaged in the furniture business and not in the field of education.

I certainly would hesitate to invite Ray to run the school system of Floyd county and I know that he would hesitate to invite me to run his furniture business. Both would be placed in an embarrassing position and both of us would become failures in our life's work.

I invite and accept decisions made by a majority vote. Whatever decisions are made this fall, will certainly be acceptable to me.

JENKINS, FRIDAY

Both Prestonsburg and Wheelwright will send their football teams in front of home crowds Friday night at 8 p.m. in Prestonsburg, the Black Cats will be meeting Jenkins, a team they stopped 18-6 last season.

Wheelwright's Trojans will be host to undefeated Pikeville (3-0), who whipped them 34-6 a year ago.

Prestonsburg, hampered by the loss of regular fullback Dixon Nunery for the season, received another blow Monday when three-year veteran end William Prater quit the squad.

Prater, who was named the outstanding player in the Black Cats' 40-14 romp over Elkhorn City last week, caught two touchdown passes. The weekly Black Cat-Player-of-the-Week award is chosen by a secret five-man committee under the sponsorship of the Francis Stores in Prestonsburg.

One hundred twenty-two boys from the Prestonsburg grade school have been assigned to four teams that will comprise the Prestonsburg Little League football program this season.

The four teams will be the Colts, Giants, Cardinals and Browns. Coaching personnel, schedules and other phases of the program will be announced in next week's paper.

The rosters for each team will appear elsewhere in The Times.

The largest turnout in Perry county history watched Hazard stop M. C. Napier, 20-0, on Napier's new gridiron last Friday night. . . Doran Shelton, 6-3, 215-pound senior tackle will be out three weeks or more with a knee injury. . . Jerry Brewer, Napier's stellar halfback, is averaging 9.3 yards per carry this season. . .

Thus far, Louisville Male, Breathitt County, Monticello, Martin, Wheelwright and Prestonsburg have been signed as definite participants in the Prestonsburg Invitational high school basketball tournament, Dec. 20, 21, 22 and 23. . . Hazard, Clark County, Frankfort and Franklin County are under consideration for the two remaining bids.

Members of Army Represent the U.S. In Olympic Games

A number of competitors in the 1960 Olympics were U. S. Army men stationed throughout the world.

The Army's competitive sports program has been a significant factor in developing top athletes, although this is not the prime reason behind the comprehensive Army sports program.

Primarily, the Army sports program is one of the tools used to develop competitive spirit and maintain physical condition in its troops.

Among the soldier-athletes taking part in the 1960 Olympics were Privates First Class Robert Tetzlaff, Jack Hartman, George Koenig; Corporal Dick Stoll, Private Donald Tony and Lieutenants Bill Nieder, Jack Daniels and Garland O'Quinn.

"Because Olympic competition is a natural step for some Army athletes does not mean that the entire Army athletic program is geared to turning out Olympic-caliber sportsmen," an Army spokesman said, "nor does it mean that the Army is any less proud of them because they entered the Olympics by way of the Army sports program."

EKMC BIG THREE WIN, P'BURG ANNEXES NO. 2

The "Big Three" of Eastern Kentucky high school football—Hazard, Pikeville and Paintsville—all romped to their third consecutive victories without a setback this season.

Paul Wright's Bull Dogs drubbed cross-town rival M. C. Napier, 20-0; Paintsville minixed Louisa, 32-7; and Pikeville edged Catlettsburg 14-6.

In other games, Prestonsburg overwhelmed Elkhorn City, 40-14, and Cumberland nipped Whitesburg, 14-7.

Senior halfback Darwin Turpin tallied all three touchdowns in Hazard's third E. K. M. C. and Region 4 Class AA win. Two of Turpin's six-pointers came on short runs, and one was a pass from quarterback Johnny Davis. Lineman Gerald Burlew kicked the conversions.

Pikeville and Catlettsburg battled to a scoreless deadlock for three periods before halfback Bill Baird tossed a 25-yard play off pass to junior end John Hayes. Baird added another marker later in the period before Catlettsburg retaliated.

Mike Minix, the state's leading scorer, paced Walter Brugh's Paintsville Tigers to an easy 32-7 conquest of Louisa. Minix raced 1, 8, 10, 14, 40 and 44 yards in raising his season's touchdown output to 14 six-pointers. He also averaged 11 yards per carry in 13 attempts.

Prestonsburg used its entire squad in quelling Elkhorn City, 40-14, after both teams played a listless first half which saw the Black Cats on top 14-7.

The visitors marched 67 yards in 14 plays with fullback Bob Smith going in from the three. Halfback Bill Leedy annexed the point, midway the second game, Prestonsburg chalked up another score when quarterback Bob Marshall passed to end William Prater in a 52-yard scoring effort. Leedy again ran for the point after.

The under-manned Cougars drove 40 yards in six plays with the touchdown coming on a 11-yard heave from quarterback Bob Elkins to end Don Phipps.

In the last half, John Anderson, Bob Marshall, Dennis Stephens and Gordon Young tallied touchdowns for the Black Cats and the Elkins-Phipps pass combination was good for an 18-yard score.

M. C. Napier, a large rural high school on the outskirts of the Hazard city limits, is still trying to complete its home football schedule. Coach Ed Orick needs a game for Friday, Nov. 4.

Total output of all red meat this year is expected to be about 27.9 billion pounds—two per cent above last year. Due to smaller imports and the population increase, per person supplies will dip about a pound from the 160 pounds consumed last year.

Since 1946, 25 new pulp mills have been built in the south, and older plants have doubled their capacity. Five more mills are planned.

Radiation is now used to judge amount of fat in meat. The device counts gamma ray emissions that come naturally from the isotope potassium-40 which has always been in animal tissue in small amounts.

Southern area farms produce \$8 billion in products each year.

Plenty of pecans are expected on the market this fall; the largest crop since 1953 is predicted. USDA estimates that the pecan crop may reach 181.6 million pounds, 27 per cent more than last year and 21 per cent above average.

We just took a good country licking at Atlanta Saturday. That's all there is to it.

The rain didn't hurt us. There was no excessive heat to wear us down. And Georgia Tech didn't do anything surprising in the way of plays.

Our boys simply didn't do the job. Especially our veteran players on whom we were depending so heavily. Some of the sophomores turned in good efforts, particularly Jerry Woolum, Dave Gash, Tommy Simpson, and Tom Hutchinson.

It was a question of not carrying out the details of assignments against major competition. And a general lack of aggressive play. We waited for them to come to us. The game films show that over and over we had one man at a time in position to tackle. The gang tackling we had worked on so hard was almost totally lacking.

Funny thing, too, because our team had all the equipment—plays and players—needed to do the job.

We worked as hard physically and mentally to get ready for this any game. The boys went down to Atlanta thinking they would win. They felt they were ready. But thinking and performing aren't exactly the same thing.

Also, our battle plan was good. We had intended to open up the game—to throw the ball and run it wide. But for some reason we failed to loosen up and carry out the plan. Tech played eight men on the line of scrimmage—a six-man line with the two linebackers in tight—and yet we didn't take advantage of it.

The first couple of times we had the ball we were probing the Tech defense, which was fine. But after that we should have taken advantage of their concentration on the line—and the broad undefended areas of their secondary.

Here our sluggish defense hurt badly when it failed to stop their fine young quarterback, Stan Gann. Only one time in the first half did we start an offensive series past our own 30-yard line. So we weren't in too good a position to get fancy, and yet we should have done more in that direction.

We missed tackles all over the place, were caught out of position far too often, and failed to show

the aggressiveness I know our boys can display. In a nutshell, Tech's line whipped our forwards soundly. And Tech's well-coached, fighting team played a good all-round game.

Our defense tightened some in the second half but was still a big disappointment.

In that second half Quarterback Woolum began to execute our plan for the game. He handled himself (Rest of This Is on Page 5)

ENROLLS AT NASHVILLE

Martin V. Lafferty, son of Mr. and Mrs. William Lafferty, of Bypro, has been accepted for admission to David Lipscomb College, Nashville, Tenn., for the fall term. He is scheduled to arrive on the campus in time to begin freshman orientation activities Sept. 14-17, along with more than 500 other first-year students.

A graduate of Wheelwright high school, he plans to major in biology at Lipscomb, and will have for his personal advisor as a freshman Miss Alleen Bromley, faculty member appointed by Dean Mack Wayne Craig.

Former Governor Willis, Judge Rodes Advocating Constitutional Changes

A former Republican Governor, Simeon Willis, has joined in the campaign for a limited constitutional convention and will be Co-Chairman of the 150-member Advisory Board for the Committee for Constitution Improvement. Serving with Governor Willis as the board's Democratic Co-Chairman is Judge John B. Rodes, Bowling Green, whose father was a delegate at the 1890 convention. Announcement of the appointment was made by the Committee leaders, State Representative Marlow Cook, Republican of Jefferson county, and Edward T. Breathitt, Jr., Democrat of Christian county. With the Willis-Rodes appointment the two committee heads emphasized that it will take three to four years before the constitution can be changed.

A "yes" vote in November will merely authorize a study of the 70-year-old constitution. Then, in 1962, delegates will be elected. Later, in late 1963 or early 1964, Kentucky voters will go to the polls to reject or accept the findings.

"Kentucky is fast losing its race to keep in step with other states in this space age," Cook and Breathitt said. "We must—on November 8—take the first step to close the ever-widening gap."

Former Floyd Girl Becomes Bride In Ceremony at Payne, Ohio

Nuptial vows were pledged by Miss Carole Louise Osborne, daughter of Mr. and Mrs. Edgar Osborne, formerly of this county, now of Payne, Ohio, to Mr. Nelson Edward Snellenberger, son of Mr. and Mrs. Virgil Snellenberger, Payne, Ohio, on August 7.

The altar was banked with pink and white gladioli. The Rev. Frank Repnow was the officiating clergyman. Miss Marjorie Shaffer was organist and Miss Colleen Hook was vocalist.

Given in marriage by her father, the bride wore a gown of hand-clipped Chantilly lace and silk organza over satin. The molded lace bodice featured a scalloped sabrina neckline embroidered with sequins and pearls with brief, shirred sleeves. The very bouffant skirt was accented with a tier of scalloped lace that encircled the skirt and was caught up to a bustle back with a large tailored bow and chapel train.

The fingertip veil of silk illusion held to a crown of pearls with crystal teardrops. She carried a cascade bouquet of white roses centered with an orchid.

The maid of honor, Miss Challis Jean Osborne, cousin of the bride, appeared in pink chiffon ballerina gown over taffeta. Her headpiece was a band of taffeta bows with a nylon maline circular veil. She carried a crescent bouquet of orchid pompons. The bridesmaids, Mrs. Dallas Dodane, sister of the groom, Mrs. David Hart and Miss Dawn Pfeiffer, wore orchid ballerina gowns with crescents of pink pompons.

Ray Burris, uncle of the groom, was best man. The ushers were Michael Osborne, brother of the bride, Dallas Dodane and David Hart.

The mother of the bride chose a navy silk chiffon dress with rose accessories, and her corsage was of pink roses, as was that of the groom's mother who chose an orchid, brown-and-white floral silk dress with white accessories.

A reception was held in the church basement after the wedding. Serving were Miss Ellen Farling, Beverly Hook, Jannette Ratliff, Mesdames Maxine Cluts, John Cluts, Don Bullion.

The young couple will make their home in Payne after a honeymoon trip through the north.

Lee Frasure Awarded Damages In Pike Case; Power Company Involved

A Pike Circuit Court jury Thursday, Sept. 1, awarded Lee Frasure, 64, of the Garden Village area, \$70,000 in a personal injury suit against the Kentucky Power Company.

Edward R. Hays, attorney for the power company, said he would appeal.

The same case ended in a hung jury when heard earlier this year in Pike Circuit Court. Judge F. P. Keesee presided at both hearings. Frasure, represented by Attorneys Francis M. Burke and J. A. Runyon, sought \$204,009.05 for losses in wages, hospitalization and medical bills, total destruction of earning power, mental and physical pain and suffering, and services of a personal attendant.

Frasure, a former C. & O. Railway conductor, claimed that he suffered the loss of both arms and other injuries as a result of negligent construction of the power company's transmission lines.

The defendant claimed that it was not negligent and that Frasure was negligent.

Frasure was living at Shelbiana when the accident occurred on Nov. 15, 1957. A court officer said Frasure when injured was helping a neighbor erect a television antenna and that the antenna came into contact with a 7,200 volt-line belonging to the power company and that Frasure consequently suffered burns which resulted in amputation of his arms and other injuries.

Dr. Paul I. Hoover, of the Case Institute of Technology at Cleveland, and Ben C. Ingles, of Lexington, electrical engineering experts, were among those testifying for the plaintiff.

A. B. Campbell, an electrical engineering expert from Houston, Texas, was among those testifying for the defendant. Campbell has had 40 years experience in the study and development of the National Electrical Code.

PROFITS FROM SMALL GRAIN

Kentucky, because of its small grain farms and hilly land, will never be an important small grain state, but small grain (wheat, barley, oats and rye) can be important on many Kentucky farms. These crops have the advantage that they can be planted in the fall after tobacco, corn and other row crops, and harvested early the following summer.

Verses To Remember

Yea, though I walk through the valley of the shadow of death, I will fear no evil, for Thou art with me.

Jesus said: Go ye into all the world and preach the gospel to every creature. We must tell others about God. If we love our neighbors as we love ourselves, we will surely love those who have never heard about Him.

Jesus told the devil, Man does not live by bread alone but by every word that proceedeth out of the mouth of God.

The rich man said, I will tear down my barns and build greater. But Jesus said, Thou fool, tonight thy soul will be required of thee. Work while it is day; when night cometh, no man can work.

If we live by His holy word, then at death we will fear no evil.

KEA Endorses Plans For Limited Revision Of Constitution, Said

The President of the Kentucky Education Association called Monday on all teachers in the state to "actively support the call for a limited constitutional convention."

Writing in the association's official publication, the Kentucky School Journal, Miss Grace Weller, assistant superintendent of Hardin county schools, Elizabethtown, stated: "Not only is educational progress dependent upon the calling of a constitutional convention, but governmental agencies at all levels need a revised constitution in order to better serve the citizens of the state."

This is one of the obligations that teachers have, Miss Weller reported, to go along with the privileges granted them as members of their state professional association.

In addition, Miss Weller called upon KEA members to improve instructional programs, to keep the public informed of school needs and accomplishments, to defend the new revenue program which provides increased revenues for schools, and to make themselves "worthy of membership in the teaching profession through excellence of performance."

In the same issue of the KEA publication, which was released Monday, the executive secretary of the association, J. M. Dodson, reported that the strongest urge evidenced by teachers this year is to do a more competent job of teaching. This, he said, is "as it should be," and is warranted by the trust the general public has placed in school teachers to do a better job of educating the boys and girls of the state.

Dodson also pointed out that a "prime fault" evidenced by some teachers was not taking the public into our confidence in the problems we face and the successes achieved in classroom instruction. He concluded: "As we move forward in education, we should make a special effort, first, to do our best to make improvements, and second, to let people know what these improvements are."

In other sections of the magazine are reports on changes made in the basic teacher retirement law by the 1960 legislature, summer conferences and activities designed to improve the services provided by teachers, schedules of fall conferences and meetings designed to achieve the same purpose, and news of professional activities.

SOCIAL SECURITY CHANGES EXPLAINED BY AREA OFFICE

Social Security amendments signed by the President on Sept. 13, will bring benefits to an estimated 125,000 additional disabled workers and to the members of the families throughout the country, James A. Morris, field representative of the Pikeville Social Security office, announced today.

Morris pointed out that the change regarding disability benefits is only one of a number of changes made by the amendments. The new law will bring increased benefits to 400,000 children and, through liberalized work requirements, will make 250,000 people age 65 or over eligible for benefits. Other significant provisions increase the number of people eligible for benefits and increase benefits in some instances.

Returning to disability insurance, Morris explained that a person can now qualify for disability benefits without regard to his age. If he has worked long enough under social security and if his disability is severe enough to meet the definition in the social security law, he and eligible members of his family may draw the benefits even if he has not reached 50—the age requirement in the prior law.

"Those who have already made application to have their social security records frozen because of their disability do not need to take any action now," Mr. Morris said. "The Social Security Administration has their records on file and will write to them telling them what they should do. However, those disabled people who have not had a previous contact with a social security office to discuss disability protection should get in touch with our office right away because benefits cannot be paid until an application for them is made."

Another change made by the new amendments affects people entitled to benefits and who are working, Morris explained. Unchanged is the rule that a person can get social security benefits for every month of the year if his earnings for the year do not go over \$1,200. For amounts over \$1,200—the following formula applies beginning in 1961: One dollar in benefits is withheld for each \$2 of earnings between \$1,200 and \$1,500. If a person earns more than \$1,500, he forfeits a dollar in benefits for each dollar that his earnings go over the \$1,500 amount. However, in spite of this rule, no one will forfeit benefits for any month that he earns \$100 or less in wages. If he is self-employed, he does not forfeit a benefit for any month that he does not engage actively in the affairs of his business.

Morris estimated that 25,000 people—many of them aged widows—will benefit by changes in the law which permit payment of monthly checks to eligible survivors of working people who died between March 31, 1938, and Dec. 31, 1939, with at least a year and a half of work under social security. Before this change, survivors could not receive benefits on the social security account of anyone who died before 1950, if the wife met the work requirements under social security. Before this change, dependent widowers could not become eligible for benefits unless the person on whose social security account the benefits were claimed died in or after Sept., 1950. But no one can receive benefits under this provision until he has made a claim for them through the local social security district office.

Families drawing social security benefits for two or more children and not now receiving the maximum payable to a family will find an additional amount added to their social security checks for December, 1960, because of a change which calls for payment of an amount equal to three-fourths of the base amount to each child. This is changed from the formula which provided for one-half of the base amount to each child with a quarter of the base amount divided among all the children. Families affected by this change need to take no action. The additional amount will show up on the social security check which they receive in Jan., 1961.

Morris explained that the amendments also reduce the amount of work time needed to qualify for benefits. Instead of needing two calendar quarters of work for every four quarters after 1950, the number of work quarters required is now one for three. Unchanged, however, is the provision that no one may get benefits without at least six quarters of work. "Anyone who has failed to qualify for benefits in the past because he did not have enough work under social security should call at the local social security district office to find out if this new provision now makes him eligible," Morris explained.

Other changes made by the amendments extend social security to parents working in a trade or business owned by a son or daughter, permit nonprofit organizations to provide social security coverage for present employees who want coverage, and for employees hired in the future even if less than two-thirds of the employees desired this coverage, and give clergyment, whose social security participation is optional, an extension to April 15, 1962, to choose to be included under the social security plan.

A further change allows benefits to be paid to wives, stepchildren, and adopted children of retired and disabled workers, if the relationship has been in effect for at least one year. In addition, the lump sum death payment can now be paid directly to the funeral director if no widow or widower of the deceased survives, and the person responsible for the payment of the burial expenses agrees to this disposition, or if no one assumes responsibility for the burial expenses within 90 days of the date of death. Finally, under two further changes in social security disability insurance, a person drawing disability benefits may have a trial work period of 12 months during which he will continue to receive his monthly checks. The second change affects anyone who again becomes disabled within five years of the time that a previous period of disability ended.

Federal Highway Grants Not Gift of Government; Consumer Pays in Taxes

The huge federal aid grants to the state which were recently announced as \$160 million for 1961, 1962 and 1963, are not a "gift" from the government. These funds are provided entirely by taxes on highway users. They are paid daily by all of us—when we buy gasoline, oil, tires or have our cars or trucks lubricated.

The Federal Highway Act of 1960 makes it possible for Kentucky to continue its accelerated program of highway construction. We can have better primary roads—better farm-to-market roads—better connecting streets through our cities, in all parts of the Commonwealth.

These millions of dollars which we Kentuckians pay, go to the Highway Trust Fund and are returned to the state only on a matching basis—\$9 Federal money to \$1 state funds for our interstate system and on a 50-50 basis for the 19,000 miles of primary, farm-to-market and urban routes.

Clay And Auxier Spoke Of Great Change In 1891 At Frankfort Convention

Some 70 years ago Cassius Clay of Bourbon county stood before the 1890 constitutional convention and said these words of wisdom:

"Times change and we change. What is necessary in one era is not necessary in another."

"It is well to ponder those words as Kentuckians prepare to go to the polls on November 8, to vote for a constitutional convention for a limited revision of a 19th Century document," says a spokesman for the committee for constitutional improvement.

"Clay knew whereof he spoke. Today many of the sections of that constitution need revision. We don't need those sections which hamper business in its work. We don't need those parts which prevent the state from establishing farm research centers.

"One other delegate, A. J. Auxier, predicted at that same convention that some day man would fly through the air at 200 miles an hour.

"We have long since reached that day. We have long since reached the day when our constitution should be revised.

"Let's all join to bring our commonwealth into the 20th Century. Let us resolve to go to the polls on November 8, and assure a better, brighter future for our young people," the committee urged in conclusion.

Mr. and Mrs. Bert Allen attended a meeting of C. & O. veterans in Ronceverte, W. Va., over the weekend.

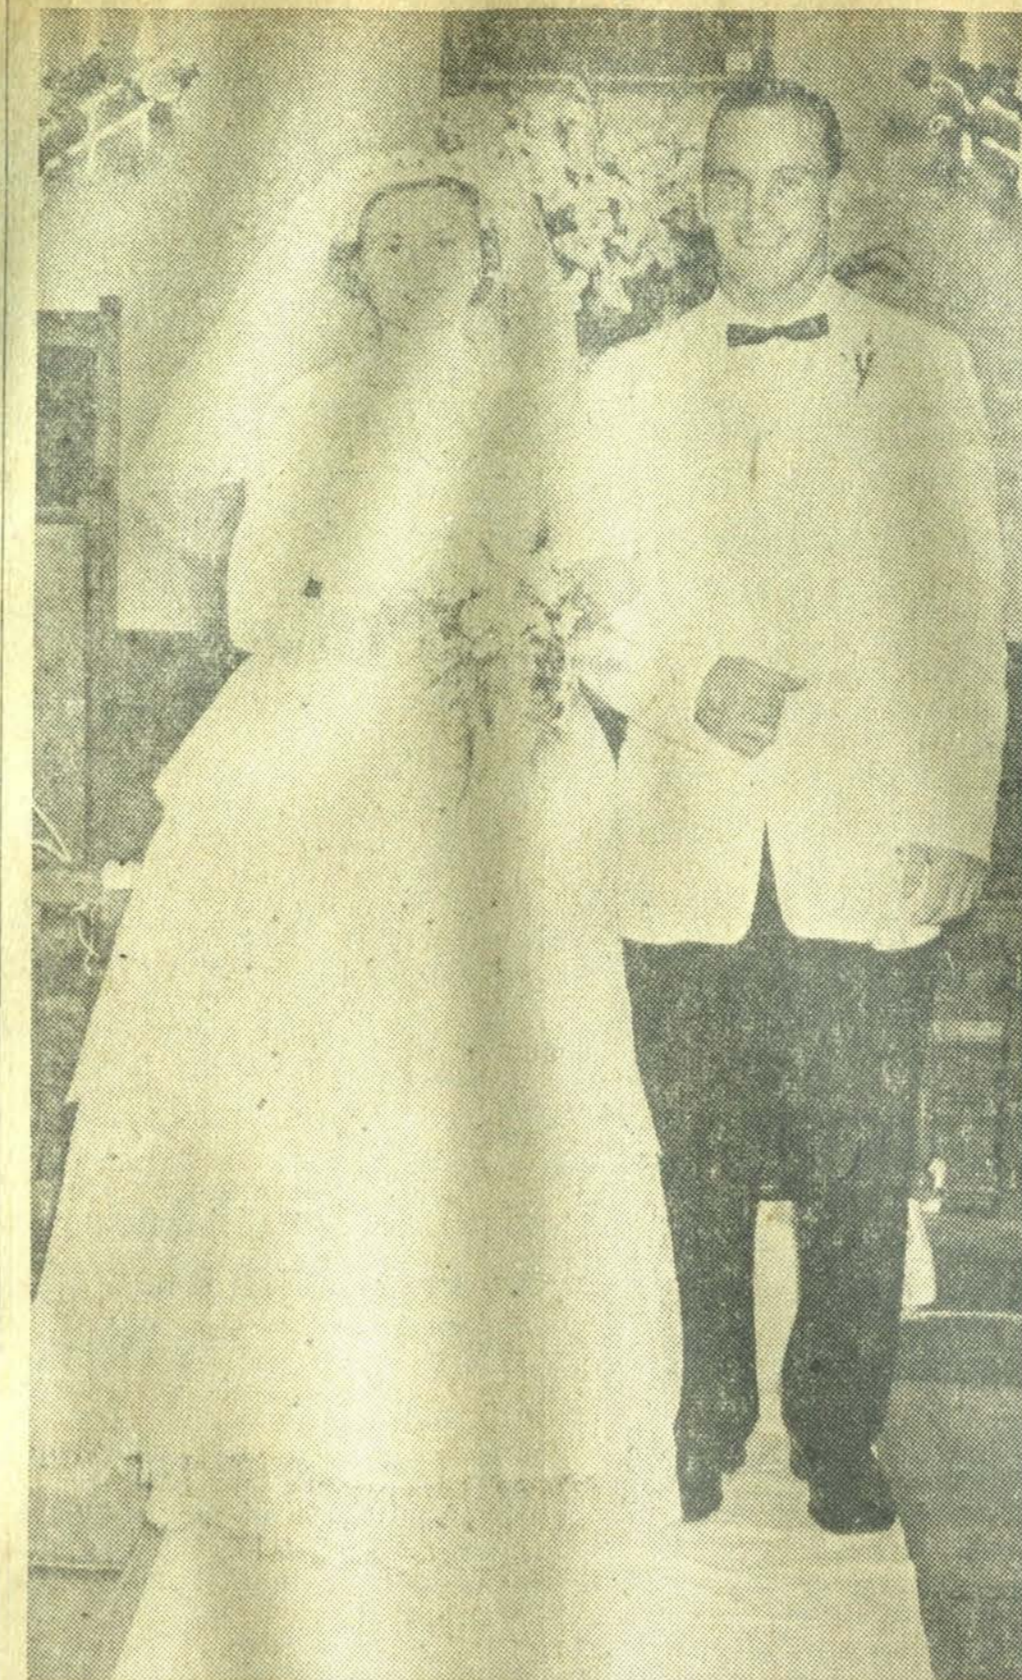

Letter Writing Week Celebration Planned At Postoffice Here

The 23rd annual Letter Writing Week will be celebrated in Prestonsburg during the week of October 2 to 8, it was announced recently by Postmaster Bess S. May.

Postmaster May noted that there has been a revival of personal letter writing during the last few years. "A letter remains the most economical, longest lasting, and sincerest means of extending greetings, communicating social news, and exchanging ideas," the Postmaster said.

During Letter Writing Week it is suggested that individuals write at least two letters: one to a friend or relative from whom you have not heard in a long time, and the second as a reply to a friend or relative who recently wrote to you.

Lykins-Ison Marriage Solemnized

A beautiful candlelight ceremony united Miss Patricia Lykins and Jack D. Ison in marriage at the Methodist Church of Betsy Layne, at 4 p.m., on the afternoon of Aug. 20. Patricia is the daughter of Mr. and Mrs. Edward Lykins, of Betsy Layne, and Jack is the son of Mrs. Pearl Ison, of Flatwoods, Ky.

The double-ring ceremony was performed by the Rev. Charles Elswick. Church decorations included white gladioli, palms, candelabra and greenery.

Traditional wedding music was provided by Mrs. Billie Jean Osborne at the piano and Richard Davis, singing, "O Promise Me," "I Love Thee," and the Lord's Prayer.

The bride, who was given in marriage by her father, wore a floor-length gown with a cathedral train of French imported chantilly lace over bridal satin fashioned with sabbina neckline and long sleeves coming to calla points and tiered skirt. Her shoulder-length veil of silk illusion was held by a sequin and pearl crown. She carried a bouquet of orchids and stephanotis.

Mrs. Sonja Sue Sublett, cousin of the bride, served as matron of honor. She wore a ballerina-length dress of pink embroidered organdy over taffeta with satin shoes to match with headpiece of velvet leaves and veil. She carried a white French lace fan decorated with pink mums and pink ribbon. Miss Glenda Lynn Blackburn, of Betsy Layne, and Miss Jerri Abner, of Richmond, Ky., served as bridesmaids. They wore dresses of mint green embroidered organdy over taffeta with matching shoes and veil headpieces and carried white lace fans decorated with yellow daisies and yellow ribbon. Lillie Kay Blackburn, flower girl, wore white embroidered organdy with a wreath of daisies for a headpiece.

Richard Layman served as best man, Edward Lykins, Jr., and Claude Sammons were ushers.

Mrs. Lykins attended her daughter's wedding in an orchid lace dress with matching shoes and complimenting her dress were white accessories. The bridegroom's mother wore a blue dress with black accessories. Both wore pale pink carnations.

A reception was held after the ceremony at the church. Aiding at the reception were Misses Becky and Mary Grace Barnett, and Mrs. Anglyn George.

For the wedding trip the bride wore a blue silk sheath dress with black accessories. Mr. and Mrs. Ison plan to make their home at Richmond, Ky. Mrs. Ison is a graduate of Pikeville College Academy and Eastern Kentucky State College. She is employed as a music teacher in Madison county.

SCOUT NOTES

BY ROBERT STAGGS

The Jerry Wiley District, Lonesome Pine Council, Boy Scouts of America, is having its fall Camporee at Dewey Lake, Friday, Saturday and Sunday, it was announced this week. Boy Scouts and their leaders will come from a four-county district — Floyd, Martin, Johnson and Magoffin. One hundred fifty Scouts are expected.

The Camporee is an expression of Scouting skills—their most effective activity. Probably nothing in the Scouting program appeals more to boys than the opportunity for adventure in the great out-of-doors. The Camporee is offered to Scoutmasters as a tool to be used in capitalizing of this interest and developing the ability of their Scouts to camp comfortably and safely and in the most Scoutlike fashion.

The public is more than welcome to visit the Camporee. It is a good time to see your boys of today, and leaders of the future in action.

The troops will be checked in Friday afternoon and will begin to set up their camp sites. That night, each troop will have its own camp fire and plan a skit to be given at the Saturday night Camporee camp fire.

Saturday, the patrols of the troops will compete with each other in several Scouting skills in arman-ship, fire building, compass, nature lore and others.

Saturday night at the Camporee camp fire the Order of the Arrow will have its "tapping out" ceremony. The Order of the Arrow is an organization for Scouts who are First Class and have spent at least 10 days and nights camping out. The boys are chosen by their fellow Scouts to receive this honor.

Along with the O. A. ceremonies, each troop will have a skit to present at the camp fire.

Sunday morning, Rev. Ira McMillen, of the Irene Cole Memorial Baptist Church, Prestonsburg, will conduct services for the boys. The public is invited to attend this service also. The time will be 9:30 a.m.

All the meals will be prepared and cooked by the boys. The Scouts will be graded on Scoutcraft, camp craft, cook craft and safety and sanitation.

Floyd Girl One of 7 At UK Freshman Camp

Miss Dorothy Martin, daughter of Mr. and Mrs. William Martin, of Martin, was one of seven upper-class women to help direct the activities of the University of Kentucky's freshman camp, a three-day camp for new university freshmen of outstanding scholastic achievement.

A sophomore at the university, Miss Martin is majoring in Home Economics. She is a member of the campus Home Economics Club, and secretary-treasurer of Holmes Hall, a women's dormitory at the university.

One hundred and ten new students—57 girls and 53 boys—participated in the freshman camp, which was sponsored by the YMCA and YWCA. The three-day co-educational camp was for students of outstanding high school scholastic achievement. Purpose of the pre-school camp was to encourage students with superior scholastic ability to develop their leadership potentialities.

TO THE CITIZENS OF EDUCATIONAL DIVISION NO. 3

In response to misleading rumors that I have quit the race or have gone, or will go, over to the present administration's side, I thought I would tell the good people that they are entirely false. I will never deceive the people.

Permit me to once again say to you good people my main interest in this race is for the purpose of getting, (1) the very best and most education possible for the least possible dollar of YOUR TAX MONEY, (2) to free the teachers from bondage, (3) and ease the tax burden the administration has uselessly put upon the shoulders of you, the working taxpayer, with nothing to show but attempts to buy influence and favoritism and even loyalty for the upcoming election and for the next generation to come.

I am in this race to the final vote. My honor as well as my conscience would never permit me to lose sight of the welfare of the teachers, children and taxpayers, that being what we're striving for.

Now, then, where do you stand? Open your eyes and ears and think. It's your children and your money. Be able to face your children over the breakfast table the morning of Nov. 9 and say, "I gave you a vote of confidence yesterday, I voted for AKERS."

HERE'S HOW YOU BENEFIT BY DOING ALL YOUR SHOPPING LOCALLY

When you buy from your hometown merchants you get

1. HONEST VALUES
2. AMPLE SELECTION
3. INSTANT DELIVERY, SERVICE AND ADJUSTMENT
4. MORE PERSONAL AND FRIENDLIER TREATMENT
5. SAVING OF TIME
6. RELIEF FROM COSTLY TRAVEL
7. FREEDOM FROM ROAD HAZARDS
8. ELIMINATION OF COSTLY PARKING PROBLEMS
9. AVOIDANCE OF JOSTLING CROWDS
10. THE CHANCE TO BUILD A BETTER COMMUNITY BY PUTTING YOUR DOLLARS TO WORK HERE

We don't believe you gain anything at all by driving long distances to shop at BIG CITY stores. Our local sources have merchandise that's just as good and costs no more.

But merely for the sake of argument, suppose you do save a few dollars on a time-consuming trip many miles from home. And suppose you don't even count the cost of gasoline and oil, car wear, parking fees, etc. Forget, too, if you like, the hazards of driving in today's heavy highway and city traffic.

But don't overlook these things: What you buy here can be in your home in a few minutes—no waiting several days for delivery. And if the merchandise doesn't give full satisfaction, any needed service or adjustment of the purchase can be made without shipping the items back to the BIG CITY or being forced to make a second trip yourself.

Why drive scores of miles looking for trouble? Shop right around the corner and be safe and satisfied.

Judge Stephenson Picked On Revision Committee; Marlow Cook Is Chairman

Judge James Stephenson, Pikeville, was one of 11 men appointed last week to serve under the Constitution Revision Committee to study sections of the Kentucky Constitution pertaining to local government.

Judge Parker W. Duncan, chairman of the Revision Committee, said the appointments were made by Governor Bert Combs. Judge Duncan said Governor Combs followed closely recommendations made by the Revision Committee.

The sub-committee is composed of eight Democrats and three Republicans. They will recommend changes to the Constitution Revision Committee, to be submitted to delegates to the Constitutional Convention, if the convention call is approved at the Nov. 8 election, Judge Duncan said.

Marlow Cook, Louisville, was appointed chairman of the group. Cook, a Republican, is also a member of the General Assembly, representing the 34th District.

Other Republicans on the sub-committee are Barney Tucker, London businessman, and Don Cooper, Somerset attorney. A brother of Senator John Sherman Cooper, Don Cooper also serves as co-chairman of his brother's campaign for reelection to the U. S. Senate.

Democrats on the sub-committee are Burl St. Clair, Falls of Rough, president of the Kentucky Farm Bureau Federation; Don Campbell, Lebanon lumber dealer; Judge James Gillenwater, Glasgow, county judge of Barren county; Byron Purdie, Elizabethtown, sheriff of Hardin county; Hecht Lackey, mayor of Henderson; Wells T. Lovett, Owensboro attorney; and Robert Caldwell, Ashland attorney.

Robert Ruberg, a member of the Constitution Revision Committee, will serve as ex-officio member of the sub-committee.

Four additional sub-committees to study other specific sections of the Constitution will soon be appointed, Judge Duncan said.

Twenty years after the enactment of Public Law No. 783, the youth of today is "doing what Dad did" when he registered for military training.

Selective Service Act Anniversary Is Noted;

Frankfort, Ky., Sept. 15 (Spl.)—Congressional action at 3:08 p.m. (E.S.T.) Sept. 16, 1940, has affected almost every home in the United States.

At that hour Public Law No. 783—The Selective Training and Service Act of 1940—was approved. The purpose of this law was to provide for the common defense by increasing the personnel of the armed forces of the United States and providing for its training.

Governor Bert T. Combs has proclaimed October as Selective Service Month in Kentucky.

War is defined as, "State or fact of using violence against another." The student of ancient, medieval and modern history has learned that in most wars able-bodied men have been required to participate actively in the defense of their country.

Four additional sub-committees to study other specific sections of the Constitution will soon be appointed, Judge Duncan said.

Twenty years after the enactment of Public Law No. 783, the youth of today is "doing what Dad did" when he registered for military training.

Bonus Law Administrator Cites Opinion On Law; Maximum Pay Possible

Major General Arthur Y. Lloyd, state adjutant general bonus law administrator, has called the attention of veterans to a recent legal opinion upon the law.

General Lloyd had felt, from the wording of the law, that veterans might be paid the maximum \$500 if they had any overseas service, providing they had enough stateside duty to make up the difference. But the opinion from the attorney general's office says the contrary.

The law provides maximum payment of \$500 for any individual's service. A maximum of \$300 is set for stateside duty. Payments are at the rate of \$9 per month for stateside and \$15 for foreign duty.

General Lloyd had thought it might be possible for a veteran to draw the full \$500 if he had, say, 54 months stateside service and one month foreign. But the attorney general's office says the veterans would be entitled to the \$300 maximum for domestic service and \$15 for his foreign service, totaling \$315.

The law states that a veteran eligible to receive the bonus is a person who served in the armed forces of the U. S. during the Spanish American War, World War I, or the Korean Conflict for a period of 90 days or more. Time spent AWOL in penal confinement imposed by courts martial, or in certain service for which no allowance is made does not count in figuring bonus payment.

Duty in the armed services includes active duty and any period of inactive duty during which the veteran was disabled. A veteran separated or discharged from the armed services for disability incurred in line of duty before serving 90 days is entitled to bonus payment under the law.

The law fixes these periods of conflict and services for which a veteran is eligible for the bonus:

(1) Spanish American War means the period beginning April 21, 1898, and ending July 4, 1902. It includes the Philippine Insurrection and the Boxer Rebellion. In the case of a veteran who served hostilities in the Moro Province, the period is April 21, 1898, to July 15, 1903.

(2) World War I means the period beginning April 6, 1917, and ending November 11, 1918. In the case of a veteran who served in Russia, the period is from April 6, 1917, to April 1, 1920. Also a veteran is credited for any service in the armed forces between April 6, 1917, and July 1, 1921, if some part was between April 6, 1917, and Nov. 11, 1918.

(3) World War II means the period beginning Dec. 7, 1941, and ending Dec. 31, 1946.

(4) Korean Conflict means the period from June 27, 1950, to July 25, 1953. Subsequent service until Jan. 31, 1955, is included if the veteran is qualified for the Korean Medal.

By virtue of Execution No. 13760, directed to me, which issued from the Clerk's office of the Floyd Circuit Court, in favor of Goldie Hall Hamilton, et al, and against Ira Hamilton for the sum of \$5,173.42, I, or one of my deputies, will on the 27th day of September, 1960, at 10 a.m., at the courthouse door in Prestonsburg, Floyd County, Ky., expose to public sale the following described property, to-wit:

(1) A tract of land conveyed to Ira Hamilton by Arthur Hamilton in Deed Book 145, Page 17.

(2) A tract of land conveyed to Ira Hamilton by Sol and Tessie Bryant in Book 149, Page 103.

(3) A tract of land to Ira Hamilton by Orville N. Stephens, etc., recorded in Deed Book 153, Page 96.

The above described land levied upon as the land of Ira Hamilton, and this sale is to sell his interest in said real estate.

Terms: Sale will be made on a credit of six months, bond with approved security required, bearing interest at the rate of 6 per cent per annum from day of sale, and having force and effect of judgment.

VEGETABLE STORAGE
Many vegetables can be stored successfully if handled properly. First of all store only clean, mature, high quality vegetables. Dirty vegetables won't be eaten. If they are not mature, they don't keep well, and if they are of poor quality they are not worth storing.

Pumpkins, squash and sweet potatoes require a warm, dry storage with temperature 40-50 degrees. The barn loft would nearly meet these conditions.

Potatoes, turnips, cabbage, celery and carrots store best in cool moist storage, just above freezing. A cool cellar or proper pit in the ground would nearly meet these requirements.

Many gardens are producing a large fall crop. A little extra effort spent properly storing these vegetables will cut down on the food bill this winter.

FLOWERS AND BULBS
Next year's flowers require attention this fall. A good gardener does not wait until next spring to start plowing their flower garden.

Gladioli should be kept moist to promote growth as long as possible in the fall. The more food the bulbs can store this fall the better the blooms will be next year. The bulbs should be dug and stored after the first killing frost.

September is the month to take up and divide day lilies and iris, and to plant larkspur, hollyhocks, and columbines.

Narcissus, often called daffodils or Jonquils, may be planted up until December but do better if put in the ground shortly after October 1. Be sure to put these bulbs six or seven inches in the ground.

Tulip bulbs should be planted now. Dust bulbs with a fungicide and insecticide before planting. Plant bulbs eight or nine inches deep.

STATE 4-H POULTRY JUDGING
The Floyd County 4-H Poultry Judging Team finished third in the state judging contest held Sept. 14 as a part of the state fair. Burgess Lowe was the third highest individual judge in the state with 650 points out of 800.

Other team members and their scores were Ossie Spencer, 620; Freer Martin, 605; and Randolph Hicks, 605.

4-H SOIL JUDGING TEAM
The Floyd County Soil Judging team, representing Extension District 5-B in the state contest last week, placed fifth. Members of the team are Glenn Salyers, Tyrone Martin, Gaylord Martin and Delbert Ousley.

Glenn Salyers and Tyrone Martin also placed in the prize money in the open soil judging contest, which is open to any contestant.

The team prepared two soil exhibits which placed first and second in the state.

FLOYD COUNTY 4-H'ers
Floyd county 4-H'ers did a fine job in the state fair competition in Louisville last week.

In the demonstration contest blue awards were received by Jack Combs in corn meal and Dana Jack Hicks in an electrical demonstration.

Red awards were received by Ruby May Gayheart in dairy foods, and Clara Anne Allen in an electrical demonstration.

The Floyd County Soil Judging team placed fifth in state competition.

During fiscal year 1960, the special agents considered 15,041 cases, of which 3,561 resulted in full-scale investigations. In initiating these investigations the Intelligence Division screened and evaluated over 100,000 leads, or information items, relating to possible tax evasion.

Revenue Group Reports On Fraud Suppression; 1,079 Persons Convicted

U. S. Internal Revenue Service reported last week that its tax fraud suppression activities resulted in the indictment of 1,194 individuals and in the conviction of 1,079 persons in cases going to trial during the last fiscal year.

As a result of the convictions, federal courts imposed fines of \$2,470,000 and prison sentences totaling 2,538 years, including suspended and probationary sentences.

H. Alan Long, director of the IRS Intelligence Division responsible for the investigations, in a fiscal year summation to Commissioner Dana Latham said prosecution recommendations, indictments, convictions, and total fines imposed represented increases over the previous year.

The Intelligence Division investigates suspected willful attempts to evade payment of income, wagering, and all other federal taxes except those on alcohol, tobacco and narcotics, and such related criminal offenses as aiding and abetting others in attempted tax frauds, perjury, assaults upon Internal Revenue employees, and attempted bribery.

During fiscal year 1960, the special agents considered 15,041 cases, of which 3,561 resulted in full-scale investigations. In initiating these investigations the Intelligence Division screened and evaluated over 100,000 leads, or information items, relating to possible tax evasion.

CARD OF THANKS

We wish to take this means of expressing our appreciation to everyone who, in any way, assisted us during the illness and upon the death of our beloved wife and mother, Louisa Ratliff Hagans. We are grateful to the many friends and relatives who sent food and flowers, to the ministers Mack McCloud, Malcolm Wright and Guy Dean for their consoling words, and to the organist and choir of the First Baptist Church of Martin. We especially want to thank Franklin Moore and Mrs. Jean Hagans for the beautiful and touching rendition of her favorite song, "Precious Words," and the members of the Moore Funeral Home for their thoughtful and efficient service.

Precision in a Pipe Organ

You know what precision it requires to build a bridge, or an engine, or a watch. The same exactness goes into the construction of a pipe organ.

But the men who make pipe organs, like all others who build, have a feeling for the USE of their product.

An organ will lead hundreds in their worship of God. It will support a talented choir in the rendition of a sacred cantata. Or it will blend with a host of untrained voices to raise a stirring hymn to God. It will sing softly while Christians commune, or thunder majestically a great recessional.

And yet this valuable organ whose creation requires such skill and precision is secondary in the life of the Church. It is simply an instrument, like this weekly advertisement, to help the Church fulfill its Mission. That Mission is to lead you, and your family, and your world, to the Lord.

When the organ calls men to worship — be there!

**THE CHURCH FOR ALL . . .
ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

CARTER FAMILY

The Carters were French Huguenots and first settled in America on a land grant in Virginia known as Redlands. The name was variously spelled, Cartier and Carrea being two of the preferred forms. John Carter, the first known emigrant of the name, died at Redlands in 1669. One of his sons was Robert King Carter, born 1663, died 1732, and a son of Robert King Carter was John Carter, born 1690, died 1743. Elijah Carter, a son of John, married Judith Chastain. A son of Elijah and Judith Carter was Joseph Carter, Revolutionary soldier, who died in Morgan county, Ky. The Carter family was prominent in Powhatan and Cumberland counties, Virginia, and in the section near Charlottesville, Virginia. Three prominent descendants of John Carter of Redlands were Gen. Robert E. Lee, William Henry Harrison and Benjamin Harrison.

CRUM FAMILY

The Crum family of the Big Sandy valley was founded in the region when Adam Crum and his wife of Bedford county, Va., came to Rockcastle Creek, in the present Martin county, in 1806. It is said that all the Crums of Martin, Johnson, Lawrence and Floyd counties are descended from this couple as well as the Crums of Wayne county, W. Va.

Two of Adam Crum's grandsons were William and Nathan, merchants at Warfield, Martin county. Nathan Crum afterward sold goods at Inez, then called Eden. William was also a dealer in timber, his operations extending into other states.

An examination of the early marriages as recorded in Floyd county, when embraced the site of the early Crum settlement on Rockcastle, reveal these before 1840:

Adam Crum, m. Elizabeth Banister, Aug. 5, 1821; Frederick Crum, name of wife illegible, married Feb. 5, 1818; Henry Crum, m. Priscilla Wright, April 7, 1822; Henry W. Crum, m. Katy Sullivan Nov. 7, 1840; Jacob Crum, name of wife illegible, married Oct. 7, 1814, by Rev. Simon Justice; Jesse Crum, m. Polly Mills, May 9, 1830; John J. Crum, m. Hannah Lewis, April 4, 1838; Jonathan Crum, m. Peggy Mayo, Aug. 29, 1835; Michael Crum, m. Vastil Garrell (Garrett)?, July 21, 1821.

The above are only the names of the grooms of the Crum family, the brides with the Crum name not listed.

It is said that the Crums of Floyd county are chiefly descended from Henry W. Crum and Katy Sullivan. Michael Crum of Floyd county was a Methodist minister in the Big Sandy valley around the turn of the century.

THE ICE TRAFFIC

An industry of decades ago on the Ohio and tributary streams was the cutting of ice in the winter and its transportation southward in the summer.

During the winter months river ice, cut from such hard-frozen streams as the Allegheny, the Illinois, the upper Mississippi, St. Croix, and others, would be stored in ice houses, where it was insulated by thick layers of sawdust.

With hot weather, and the increasing demand in the Southern states, the ice would be transferred to covered barges where it was again packed in sawdust for the long trip to Memphis, New Orleans, and other ports on the lower Mississippi. Upon arrival at its destination, the ice which had been frozen more than six months earlier, on northern river, would be removed for use in the refrigeration of fruits, produce, and other foods, and possibly for the cooling of a mint julep.

Some of the larger steamboats would tow several barges of ice at a time, and it is said that a remarkably small amount was lost from melting, even under the heat of the southern sun.

Two boats built specifically for this trade by the famed Howard boatyard at Jeffersonville, Ind., were the aptly named Jack Frost and Polar Wave, both of which were operated by the Huse & Loomis Ice & Transportation Co., of St. Louis. The largest of the two was the Jack Frost, 165 feet in length, which was beached early in 1903 below the C. & O. bridge at Covington, Ky., and ended its days there. The smaller Polar Wave, 146 feet long, was destroyed by fire at Helena, Ark., in February of 1904.

A number of other boats on the Ohio and Mississippi were engaged in towing ice from time to time, but the Jack Frost and the Polar Wave were among the best known in this service.

Said Sale will be at public outcry to the highest bidder on said date at the front door of the Courthouse, Prestonsburg, Kentucky, at 10:00 a.m. The purchaser will be required to pay cash or to execute a certified check for the amount of his bid payable to the treasurer of Floyd County, and will be required to pay costs incident to the granting of said franchise or privilege and the Court will have the right to reject any and all bids, and further all provisions of the above referred to order must be complied with.

Rheumatic Pain Gone In 8 Hours

"For years I had rheumatic pains in my shoulders, legs and ankles; when I walked I would flinch with agony, but recently I got RUGON and the pains began leaving my body in 8 hours. Now I am entirely free of pain and praise RUGON to the sky." This is a true, sincere testimonial. RUGON is helping so many victims of rheumatism and neuritis because this NEW Liquid Formula contains Three Wonderful Ingredients. Not a tablet or capsule. RUGON goes to the very source of pain almost at once and costs but a few cents a day to take. So don't go on suffering. Get RUGON at W. A. Rose Drug Co.

WATCH WHAT YOU EAT

Motorists should avoid eating heavy, fatty foods such as potatoes and cake before driving, according to medical studies. It's better to eat easily digestible foods such as lean meat, eggs and milk in order to prevent drowsiness and sluggishness behind the wheel.

A Book That Covers the Field—Including Women and Credit

The 1960 edition of "Uncle Sam's answer book," known as THE STATISTICAL ABSTRACT OF THE UNITED STATES, gives noteworthy samples of information about America. Sample items of interest are:

The number of women employed has nearly doubled since 1940 and approximately three million mothers with children under 12 years of age are employed full time away from home.

Marriage rate has declined in recent years, reflecting the low birth rates of the 1930's.

The Democrats and Republicans have had seven victories each in Presidential elections since 1900.

Farm population has declined by nearly five million in the past decade, reflecting a drop from 17.5 percent of the total population to 12 percent.

Consumer credit rose 6.5 billion dollars in 1959 over 1958, the largest increase ever in a single year.

Over 100,000 babies born in 1958 were delivered by midwives and other persons who were not physicians.

The average duration of marriages which end in divorces or annulment is six years, and well over half of the divorces reported involve

one or more children. An estimated 12 percent of the budget expenditures of the federal government in fiscal year 1960 was for interest payments. This represents a total of nine billion 300 million dollars for that year, the highest on record.

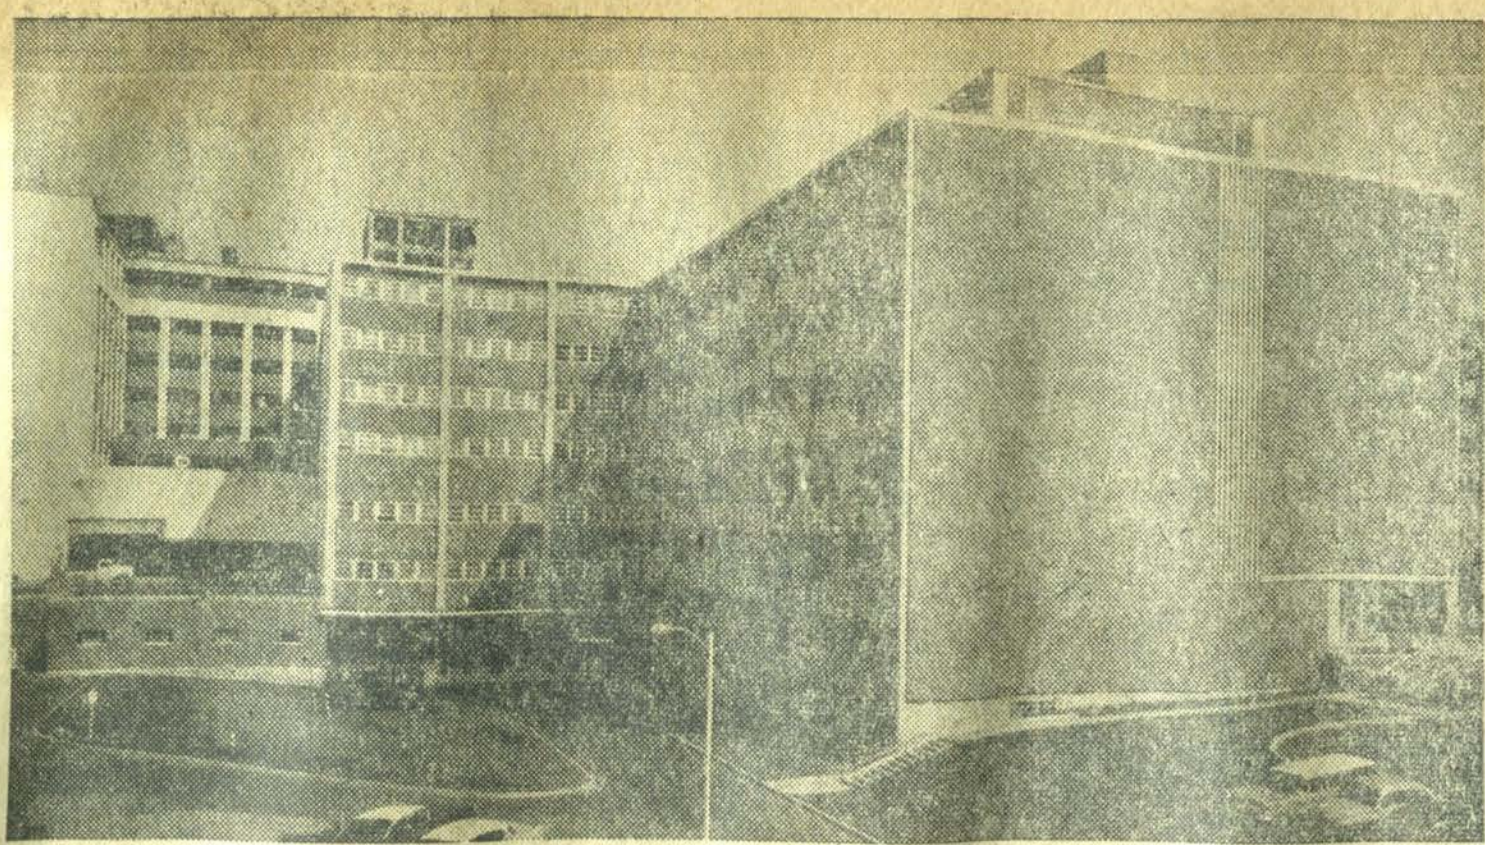

Per capita personal income in 1959 was 2,149 dollars, compared with 2,063 in 1958, 1,506 in 1950, and 596 in 1940. Connecticut had the highest per capita personal income (\$2,817 dollars) in 1958 and Mississippi had the lowest (1,053 dollars).

Money in circulation per capita was 180 dollars on June 30, 1959, three times as much as it was on the same date in 1940.

668 thousand passenger cars were imported in 1959, compared with 431 thousand in 1958 and 21 thousand in 1950.

Total attendance at major league baseball games in 1959 was approximately the same as that for intercollegiate football games—nearly 20 million in each case. Professional football attendance (National Football League) was 3.2 million.

Copies are available from the U. S. Department of Commerce, 915 Fifth Third Bank Building, Cincinnati 2, Ohio.

TO BE DEDICATED—The new six-story, air-conditioned Medical Science Building at the University of Kentucky will be the site of dedication ceremonies Sept. 23 and 24 for the \$27,000,000 UK Medical Center. The uncompleted portion at the left will be the 500-bed hospital.

Tidbits Of Kentucky Folklore

By GORDON WILSON, Ph. D.

Western Kentucky Teachers' College Bowling Green, Ky.

THE PASSING OF FOLK HEROES

Though I am sure that we are still developing folk heroes, the atmosphere is hardly right for them. Sophistication, represented by travel, education, radios, TV's, and such things, is hardly so eager to find such characters as we used to be. It is still possible to rouse the primitive in us for a while, but I doubt whether many of our folk heroes would get a hearing if they suddenly came back in the flesh.

We would probably suggest to such distinguished people a very necessary bath before they started showing off. Davy Crockett would have a hard time getting a crowd, even on County Court Day. Daniel Boone might not attract more than a passing glance. If the Negro Uncle, who was such a big part of my time and of the whole South after the Civil War came, he would probably be sent to the office of the Associated Charities if he appeared on a fashionable street. If he persisted in telling his unbelievable yarns, a jury might send him to Hopkinsville for treatment. Even the Poor Boy Who Became Famous would have to yield his right of way to let ordinary traffic flow by, even as you and I.

Every time I take a long drive, I am amazed at the democracy of the highway. Theoretically, at least, every car is equal; stop signs and red lights and one-lane bridges know no aristocrats, no subservient hangers-on. There is no aristocratic gasoline for sale that I have ever seen advertised. And whoever has

some money or sufficient credit can buy a car and drive along the highway, assured of having a right to his side of the road.

One of my friends, no more aristocratic in birth than I—which means not aristocratic at all—always bemoans the passing of a mansion of other times. There is something very impressive about a mansion, provided the owner can afford to keep it up. But not many people ever lived in one, and now some recently-built modern house can put to shame all the mansions when it comes to having the conveniences, besides the commanding looks, that a house and home demands. Somehow, when I have tried to present the old Southern Colonel, to my advanced classes, even, I got few sympathetic listeners. Nobody was rude enough to say, "So What?" but I could read some such question in the eyes of my students.

Even the professional liar seems pretty tame beside the science-supplements to our newspapers. And many of our youngsters have been everywhere, on their own or under the aegis of Uncle Sam and have seen marvels that make Uncle George's tales pretty childish. Here is something that is so commonplace that probably none who read this will see anything unusual in it; the way our knowledge of agriculture has increased in the last twenty years alone makes fairy tales sound like the imaginings of very primitive or very young people. Talk about a poor boy who does some great deed and gets a princess as a reward! I know very young farmers who have done far greater wonders than that, and there are so many of them that no one such fellow is made into a modern Jack the Giant Killer or some other doer of great deeds.

Many of the local heroes that I knew died in their hayday, still commanding reverence from just about everybody except a few hard-boiled skeptics. I wonder what sort of figure they might cut if they could come back where they used to be so all-powerful. Maybe the leveling out of our lives is a tragedy; maybe it is not. Certainly it is possible for many people in any given generation to attain to a high position without being a local or regional god. I can hardly imagine any of us growing in fame as great local heroes, just a little better than natural and smacking of days when local heroes became almost defied.
