PRESTONSBURG, KENTUCKY

May 16, 1963

This Town... That World

IN OLD KENTUCKY It's a great state. Otherwise, it couldn't stand up under a political campaign such as it is enduring...

For years now we have tried to get local candidates to sort themselves out, and we thought we were making some progress till this Governor's race came along.

THE AD-LIBBER Why some stories register with me and leave others cold, I do not know.

COLLEGE CONSTRUCTION BID ASKING IS NEAR

FINAL PLANS ARE CHECKED AT FRANKFORT

Bid Invitations Stated Next Week, Announced; No Delay Is Envisioned

State Finance Commissioner David H. Pritchett told The Times, Wednesday afternoon, that bids will be asked on construction of the Prestonsburg Community College not later than next week.

Final plans for the college building are being checked Wednesday at the Department of Finance. The new plans for the college are an adaptation of the plans for the Elizabethtown Community College which now is well under construction.

Mr. Pritchett said some discussion over the proximity of the city of Prestonsburg's sewage disposal plant to the college site has been raised by the University of Kentucky. He added that he did not foresee any situation which would delay letting the project to contract.

Work on the structure is expected to be completed in time for class-work to begin in the fall of 1964.

Original plans prepared for the college were discarded when it became evident that its construction according to such plans would cost more than the funds designated for the work.

"An excellent idea!" said Miss Margaret Willis, director of the State Library Extension Division, in a speech at the plans, announced recently by the Floyd County Library Board to hold a Homespun Arts Festival at the library here, June 17-22.

Promising her fullest cooperation toward publicizing the event, Miss Willis told Mrs. R. V. May, Library Board chairman, that she would (See Story No. 4, Page 3)

BERRY PLANT OPENS FRIDAY

Strawberry Processing Scheduled Second Year; Acreage Is Increased

The strawberry processing plant here will open to receive berries, Friday, it is announced. This is the second year of its operation.

No prices have been announced but it is said that the firm will pay the highest market price as it did last year. The plant is owned by Carl Abbott, Bedford, Ky.

The plant was operated last year on a sort of contingency basis with Abbott willing to risk the venture with the hope that a larger acreage would become available through new planting. A drive was initiated in Floyd and adjoining counties last fall to get 200 new acres planted but it fell short. However, Abbott agreed to go ahead with the plant operation here. It is thought that the berries needed to make the plant profitable will be available in the future.

No definite reports are available as to frost damage but fresh berries were being sold locally this week.

FESTIVE CEREMONIES OPENS AREA HIGHWAY

The Mountain Parkway, "a long-time dream of Eastern Kentucky," became a reality as Gov. Bert Combs and many state and local officials helped dedicate the scenic, new superhighway last Wednesday.

"At least, it was the dream of this Eastern Kentuckian," Gov. Bert Combs said of himself at ribbon-cutting ceremonies at Campton.

Ribbons were also cut at seven other exits of the Parkway in ceremonies lasting three hours. Festivities got under way at Campton, the eastern end of the 43-mile stretch of the Parkway now open, and ended at Winchester where the highway connects with the new Interstate 64. More than 200 cars were in the motorcade traveling from Campton to Winchester.

Combs described the Parkway as "a lasting symbol of the perseverance and hopes of the mountain people." It will pay for itself—not only financially but by answering the dreams of a people too long isolated, by rewarding their hopeful patience, and by instilling in them new hope and confidence for the future.

Also under construction is another toll section of the Parkway from Campton 33 miles to Salyersville, and two freeway extensions. The freeways run from

Campton 80 miles to Whitesburg and from Salyersville 46 miles to Pikeville. The Campton-Salyersville section will be opened, later this year.

The 23-mile toll section now open was built at a cost of \$40.5 million.

Speaking of Kentucky's overall road development program, Combs said that the first concrete being poured "at the very minute" on the Western Kentucky Turnpike and that he planned to move "with deliberate speed" toward construction of a Central Kentucky Turnpike from the Lexington-Frankfort area westward to Elizabethtown.

Combs predicted that the Mountain Parkway will become known as "one of the most beautiful scenic drives in Mid-America."

The state is not overlooking the need for rural and secondary roads while building superhighways, Combs stated. He reported that \$25 million in state funds went into construction of rural roads last year and that 871 miles of new roads were built in addition to the maintenance of more than 24,000 miles of these highways.

New Floyd Business Raises Houses Stricken By Late Winter Flood

It is seldom that a business thrives on disaster but the newly-organized WAEM Building Service of this county does. Homeowners, stricken by the February flood, want their houses raised.

Three Floyd men, Sam Martin, Orville Adkins and Walter Frasure, with Don Wellman, of Louisa, went into the house "raising" business immediately after the flood. One of the first homes jacked up to a higher foundation was that of Frasure's at Allen. He had been hit twice by floods.

To date they have raised three houses, have two others under way and have a back-log of 18 houses to raise on order.

Two Floyd County Groups To Attend Folk Festival Scheduled At Covington

When the National Folk Festival is renewed for the 26th year, May 23-25, at Devou Park Amphitheatre, Covington, Ky., two Floyd county groups led by Mrs. Edith F. James, of Prestonsburg, will take a prominent part in the program.

The two groups of singers are the Jenny Wiley Chanters and the Patsy Teen-Agers, who will be directed by Mrs. Chalmers Frazier, of Prestonsburg, and Mrs. Laura Roberts Collins, formerly of Prestonsburg, now a member of the faculty of Midway (Ky.) Junior College.

Floyd county's representatives will go to Covington at the invitation of Sarah Gertrude Knott, director of the National Folk Festival Association.

ELECTION HEAT RISES IN GOVERNOR'S RACE

Acetylene Torch Used To Cut Into Magazine; 2 Jailed As Beer Taken

Twenty-five cases of beer were reported found by Deputy Sheriffs Harold Johnson and James Hall last Wednesday morning in the auto of Walker Newsome on Mud Creek, and the same officers confiscated five cases from the car of Leon Isaacs in the same vicinity. Both Newsome and Isaacs were jailed here.

An acetylene torch was used by thieves to cut into the explosive magazine of Paul Porter, in Magazine Hollow, near Allen, last Saturday night. State Detective Chester D. Potter was investigating the break this week.

George Lucas Fitzpatrick, who was booked by State Trooper Don Goble Saturday for investigation of a stolen car, later was booked for larceny. James Tackett was jailed the same day by Sheriff Henry Hale and Deputy Sheriff Harold Johnson and charged with carrying a concealed deadly weapon.

The same day, at 7 p.m., Harry Lee Waterfield, candidate for lieutenant-governor and running-mate of A. B. Chandler, will speak at a rally at McDowell.

A Chandler fund-raising dance will be held Friday, beginning at 8 p.m., at the former Martin Youth Center.

Last Saturday evening, an estimated 1,000 persons gathered at the Prestonsburg high school cafeteria for a \$10-per-plate fund-raising dinner for the Breathitt campaign.

Edward Richard, of Paris, spoke at the dinner in behalf of Mr. Breathitt, declaring that the biggest question at stake in the Breathitt-Chandler fight is the moral issue.

"If," he said, "the people of Kentucky believe in justice, in paying for more than \$800,000 worth of contracts with 80% never fully filled, and in leasing state parks for exploitation to the gain of a few individuals, then they should vote for Chandler."

Richard cited the progress made during the Combs administration and listed the areas of achievement. Heaviest applause was evoked by his reference to the attack made on (See Story No. 2, Page 8)

Revival services will begin Monday, May 20, at the Hueysville Church of Christ and continue through June 1. Evangelist Bill Ford, of Pikeville, will conduct the services nightly, beginning at 7:30.

The public is cordially invited to attend.

MISS VANOVER CROWNED QUEEN OF ANNUAL MUSIC FESTIVAL

Miss Barbara Vanover, 18, Martin high school senior, was crowned queen of the annual county-wide music festival here Saturday. The Printer beauty won over six other candidates from Floyd county high schools. She is a daughter of Mr. and Mrs. Clark Vanover.

The best marching band and the best majorettes were from the Wheelwright high school, the judges decided. The best playing band was Prestonsburg high school. No selections were made from the grade school entrants.

Several outstanding floats entered in the festival were sponsored by Floyd county businessmen and patrons of the several schools.

FOREST GROUP URGES STIFFER ACTION TAKEN

Concern that the forestry program in this area was severely crippled by the recent woodland blazes was expressed Wednesday to Gene Butcher, director, Kentucky Division of Forestry, Frankfort. The Floyd County Forestry Association, organized here two years ago, wrote Butcher that the policy of allowing forest law violators to pay only a nominal fine or low suppression costs was falling to deter negligence.

"The damage to our forests, however, is not the total measure of what these fires are costing," the Association wrote Butcher. "They are costing in disillusionment of the people interested in conservation and the rising reluctance of landowners to plant trees. The forestry program in Eastern Kentucky has been dealt a blow that will require a decade of effective forest fire prevention to overcome."

The letter was signed by Henry P. Scalf, president of the organization, and leaders in conservation were in accord with the letter.

Butcher was urged to initiate a policy of strict enforcement and that the policy of small fines and low suppression cost payments be reversed.

"Only in this way can we ever hope to lessen the number of ravaging fires," the letter said. No figures on the number of acres burned in this county are available this week but forestry personnel say that it is high.

BREATHITT, WATERFIELD SET SPEECHES

Rally, Dinner Feature Agenda of Demo Factions As Campaign Nears Close

It's a hot political campaign, and in Floyd county it's the hottest. Local races figure heavily, but the focal point of interest lies in the fight for the Democratic nomination for Governor.

Meanwhile, the Republican party has the role of onlooker during this primary Donnybrook, awaiting the results and biding its time for the November campaign.

This week, with 10 days of campaigning left, the two factions of the Democratic party prepared for the election day showdown.

Edward T. "Red" Breathitt will come here Saturday for a major speech at the Breathitt-for-Governor Eastern Kentucky rally to be held at 11 a.m., at the Prestonsburg high school gymnasium.

The same day, at 7 p.m., Harry Lee Waterfield, candidate for lieutenant-governor and running-mate of A. B. Chandler, will speak at a rally at McDowell.

A Chandler fund-raising dance will be held Friday, beginning at 8 p.m., at the former Martin Youth Center.

PEN ESCAPEE RECAPTURED

Former Floyd Countian Wrecks Car In Missouri; Was Wanted In Michigan

James J. Hall, 40, former Floyd countian who was one of four convicts who sawed their way out of Southern Michigan prison at Jackson, April 23, was captured last week as a result of his bad driving.

His car left the highway at high speed, near Carthage, Mo., and he admitted his identity to officers who pulled him from the wreck. Hall received only minor injuries, but a Chicago man whom he had picked up as a hitchhiker suffered a broken back. Two other hitchhikers fled, uninjured.

Hall, according to records released by prison authorities, was convicted in Kentucky in 1940 of shooting and wounding and in 1941 of murder and striking and wounding.

(No James J. Hall is listed in Floyd circuit court records as having been convicted in either 1940 or 1941, but a Joe Hall was given a pen term in 1941 for a slaying at Dwayne. It could not be established if the two names belong to the same man.)

Besides admitting he was one of the escapees, Hall told officers he had taken part in holdups in Milwaukee and Oshkosh, Wis.

The car was ditched two miles west of Carthage. Hall suffered cuts and bruises and was jailed. In the car, State Highway Patrol officers found \$450 in cash, mostly in \$1 bills.

Hall and three other men sawed and drilled out of the Jackson, Mich., prison. The others were Richard E. Mauch, 40, serving life for assault with intent to murder; Robert L. Gipson, 20, serving 13 to 25 years for second-degree murder, and Elmer J. Crachy, 35, 20 to 30 years as a habitual criminal.

Hall told officers the four remained together until May 4 when they robbed a supermarket at Oshkosh, Wis., of about \$10,000.

"OIL" TRUCK CARGO SAID DESTINED FOR PRESTONSBURG

Discovery of an ingenious liquor transportation operation in Bath county, April 22, got into the news last week and interested Floyd countians as it was reported from State Police headquarters at Morehead that the cargo was consigned to what was described as a "non-existent Prestonsburg firm."

State Troopers Farley and Watson, of Morehead, reported that they noticed an oil-tank truck leaving a point outside Mount Sterling with its license plate mud-spattered. They trailed it to Salt Lick, Bath county, where the driver was signalled to pull to the side of the road.

What appeared to be a cargo of oil turned out to be 25 cases of whiskey and 175 cases of beer. State Police gave this account of how the liquor was found:

Troopers stopped the truck because the license plate was not legible and then, suspicious, searched the truck.

A trooper climbed to the top of the tank and opened the hatch. Everything appeared to be in order as the tank seemingly was filled with oil. But the trooper stuck his hand into the oil and found that it was stored in a small compartment holding about two gallons.

Then the troopers opened the rear door where the hoses were stored. They found four screws in the rear of the tank.

After they were loosened, the rear of the tank came off and the troopers found the beer and liquor stored inside.

Ronald Allen, dispatcher at the Morehead State Police barracks, said the truck-driver, Kenneth Fultz, of Rowan county, pleaded guilty to a charge of illegal transportation of alcoholic beverages in local option territory, was fined \$150 and given a suspended 30-day jail term by Bath County Judge Claude Fhrouf. He listed Oliver Henry, of Winchester, as owner of the truck.

Chandler headquarters here said its representatives have made repeated requests to see the bill of lading reported to have been taken from the driver of the truck but that these requests have not been honored.

Dr. Russell L. Hall, county health department, Prestonsburg, was the speaker. Dr. Hall spoke on "The Functions of Local Health Officers and the Functions of the Health Department." He gave an illuminating talk on some of the problems which confront the department and explained to the group what public health is really all about.

A short question-and-answer period followed.

Floyd County Must Continue The Progress It Has Made In the Past Four Years!!

EDWARD T. BREATHITT

During the Administration of Governor Bert Combs Floyd County Has Made More Progress than Any Time In History

EDUCATION. Our schoolteachers have been raised a total of \$1,100.00 per year. New school buildings are being built all over the county. Under this administration Kentucky has led the nation in Educational Progress. Ned Breathitt is pledged to continue this forward-looking program.

Under Chandler Kentucky was at the bottom of the ladder. Happy Chandler said, "If the teachers think they aren't getting enough, then it's time to go somewhere else." This is Chandler on education. He will scuttle the tax program that is vital to Educational Progress. Chandler will scuttle higher teacher pay, more school construction and our children's future.

WELFARE. Under the Combs administration our old pensioners are getting \$200.00 more per year than ever before. Our needy blind, dependent children, permanently and partially disabled are getting 10 times the amount that is paid in the sales tax. Ned Breathitt has promised to raise the old age pensions to \$70.00 per month!

Under Chandler very little was done to increase any aid to our old people, needy blind, dependent children or permanently and partially disabled people. Breathitt has promised \$70.00 per month. What has Happy said on this? . . . NOTHING.

MEDICAL CARE. The medical care program in Kentucky has been increased from 6 days to 10 days. Medicine is free to those unable to pay and recipients in Floyd county were paid \$107,391.00 last year. \$4,549,812 was spent last year in the state and the program is being rapidly expanded. Ned Breathitt is pledged to a continued expansion of this aid.

PARKS. Under the Combs Administration Kentucky has expanded our parks system that is considered the best in the United States. \$1,200,000.00 has been spent in Floyd county at Jenny Wiley State Park. This means tourists will spend hundreds of thousands of dollars in Floyd county. Their trade with our people will bolster the economy in this county.

Under Chandler not a single park in Kentucky was built or expanded. Chandler said Floyd county's park needed something rustic like out houses. Chandler leased our parks and its land to political cronies for exploitation. Happy Chandler will wreck our park system.

COMMUNITY COLLEGE. A Community College will be built here in Prestonsburg. Hundreds of our children will be able to get a college education, stay at home and be in a position to prepare themselves at the college level and better themselves and our people in Floyd county.

Under Chandler: Happy Chandler never dreamed of building a college in Floyd county. He wouldn't if he could. Records show all the building he ever did is around his home in the Bluegrass.

HIGHWAYS AND RURAL ROADS. Under the Combs Administration more highways and rural roads have been built in Floyd county than anytime in history. More than \$8,000,000.00 has been spent on road construction in Floyd county in the last three and one-half years. This is three times the amount spent in Chandler's last administration in Floyd county. The Mountain Parkway has been built and is coming right into Floyd county. For the first time in history Floyd county will not be landlocked. We have a modern highway to get in and out on. This will bring new industry, more jobs, more money into Floyd county.

Under Chandler: Road construction moved only at a nominal pace. Floyd county got very little. Chandler's cronies got kickbacks from highway contractors and equipment dealers. This kickback money could have been spent on roads but it went into the pockets of Chandler's cronies and employees of his administration. Happy Chandler insulted Floyd county on his "Road To Nowhere" statement. Chandler's son-in-law got nearly \$1,000,000.00 in engineering contracts. This was for roads of which 60% were never built! Think how many roads this would have built—how many tons of gravel this would buy, how many bridges it would build.

Ned Breathitt does not believe in government by BIG DEAL. There will be no BIG DEAL boys when Ned Breathitt is Governor.

Ned Breathitt is an honest, clean, upstanding man who is dedicated to building a greater Kentucky and to continued help to build a greater Floyd county.

Vote Breathitt! Vote for Floyd county! Vote Breathitt for Governor!

Alice Lloyd Students To Present Three-Act Play In Prestonsburg

"The Skin of Our Teeth," a play in three acts by Thornton Wilder, will be presented here Tuesday, May 21, at 7:30 p.m. in the grade school auditorium by students from Alice Lloyd College under the direction of James Hunter Herr. The author of the play is one of America's most honored writers. Three times has Mr. Wilder been awarded the Pulitzer Prize — once for his novel, "The Bridge of San Luis Rey," and twice for plays, "Our Town" and "The Skin of Our Teeth."

The play is unusual in many ways. It is the story of the Antrabus family, who are representative of the whole human race. Mr. Antrabus is really Adam and Mrs. Antrabus is Eve. He is the dreamer, the inventor, the artistic type. She is the practical, matter-of-fact mother. The play was written shortly after

"we came through the depression by the skin of our teeth," as Sabina, the maid, says. We have survived the Ice Age, as we see in Act One. In Act Two we survive the Deluge. In Act Three we face the destruction of the world by fire. The element of time is irrelevant in the play. So we are not surprised to see a baby mammoth and a baby dinosaur in a modern home in New Jersey. Nor are we surprised to learn that Mr. Antrabus has just invented the wheel.

The play has many touches of comedy to offset the serious undertones of the plot. The two performances on the campus of Alice Lloyd College were outstanding successes. The public is invited to see the production in Prestonsburg.

The play also will be presented at Hindman, May 21, and at Wheelwright, May 24, at 7 p.m.

"Once the matter clears Washington, things can move fast," Goble said. "All we need here is a notice of availability of funds." Floyd county was designated a disaster county by President Kennedy following the recent flood.

Telephone Talk

TWENTY OPERATORS ON DUTY AT THE UNITED NATIONS switchboard in New York can answer in five languages—English, French, Spanish, Russian and Chinese —plus several others. They get about 300 requests for information every day!

1962 PROGRESS REPORT . . . Last year was a big year for the Bell System. Here are some of the highlights of a year that made space history and brought new and expanded communications services to home and industry.

- February 14: Final agreement reached for 1964 laying of transpacific telephone cable between Hawaii and Japan.
- February 20: Stations around the world maintain contact with John Glenn in historic three-orbital flight. Communications network tracking Glenn was built by a team led by Western Electric, Bell System supplier.
- June 21: Ground broken for Bell System exhibit building for 1964-65 New York World's Fair.
- July 10: The Bell System's experimental active communications satellite, Telstar, successfully completes initial tests.
- October 17: Storms lashing California, Oregon and Washington knock out 140,000 telephones. Service speedily restored by over 3,000 Bell System people.

WHY TELSTAR II? You may wonder why the Bell System wants to launch a second experimental communications satellite when the first one performed so well. The answer is that the extremely fast-growing demand for overseas communications imposes a sense of urgency on the development of satellites. Our success as a business depends on facilities being ever-ready to meet public needs. We need to learn as much as we can, as soon as we can, about the technology of space communications. Especially, we want to know more about protecting satellites from radiation damage. Telstar II will have a "command" system designed around transistors that will be more resistant to radiation than those of Telstar I. Also, it will be launched into a higher orbit where it will be exposed to less radiation. As with Telstar I, the Bell System is paying the National Aeronautics and Space Administration for all launching costs including the rocket.

To the Voters of Legislative Dist. 95

(Magisterial Districts 1 and 2)

I am a candidate for Representative. I want to say to the voters that on May 28th you good people are going to make a choice in this election. I want you people to vote your feelings. I am a man who has no job or income and have a little home mortgage for doctor bills and in debt otherwise. Now my opponent, W. J. (Bill) Reynolds, has a good job and doesn't need this office.

I want you voters to think this over. Which one are you going to choose—the man with the job or the man without the job? I will appreciate anything that you people will do for me. Most of all, I would like to have your support and influence just once on May 28th, 1963. I am a poor man and need help. Your votes will be appreciated on that day.

Chicken corn salad is a summertime treat—here's how US-DA home economists say to make it. Combine corn cut from the cob, cubed cooked chicken, and chopped red and green peppers. Season with chili powder, salt and pepper. Add enough mayonnaise to hold the ingredients together and serve on crisp, fresh salad greens.

Fresh sweet corn and beef are mealtime companions—and both are good buys right now. Both are in generous supply, according to USDA.

Last year, the "average person" in the U. S. drank 38 glasses of frozen concentrated orange juice (reconstituted, of course) and 59 glasses of other juices and fruit drinks.

HAS FLOYD BOOTLEG RING MUZZLED STATE POLICE?

Below is reproduction of story in Morehead News under date of May 2, 1963.

Tricky Tank Truck POLICE FAIL TO BELIEVE ALL THEY SEE, SUSPICIONS CONFIRMED BY FULL SEARCH

Its appearance was about the same as that of a hundred similar rigs which ply the highways of Eastern Kentucky with regularity.

On both doors were the neatly painted signs "Bulk Oil Company, Winchester, Ky." The rear also bore this designation.

The 1962 Chevrolet cab and chassis was in first class condition. So was the liquid-carrying tank which appeared to have a capacity of about 1,500 gallons.

The vehicle was being driven carefully and when a cruiser carrying four state police officers pulled in behind it east of Mt. Sterling, April 22 only one thing appeared amiss—the license plate on the rear was mud-smudged and illegible.

Sensing something was up because of the muddy license and the unusual hour—it was 2:05 a.m.—officers in the cruiser decided to keep the truck under surveillance.

Twenty-five miles further east on U.S. 60—about one-half mile east of Salt Lick—the cruiser's red light flashed and its siren screamed, signalling the operator to pull over and stop.

The driver, Kenneth Fultz, 27, of Haldeman, was arrested for improperly displaying a license plate and the four officers—Lt. L. C. Pyles, Sgt. Harold Watson, and Troopers Doyle Elliott and George Robinson—began an inch-by-inch inspection of the vehicle in an effort to either confirm or refute their suspicions.

To determine exactly what the truck was hauling, Trooper Elliott climbed to the top of the truck, opened the single fill-hatch and peered in. Oil glistened in the beam of his flashlight and the smell verified what he saw.

To remove all remaining doubt, Elliott dipped his hand into the liquid and made a startling discovery—the tank, supposedly carrying 1,500 gallons of oil—was only about three inches deep. Total oil in the truck appeared to be about two gallons.

Convinced that they had stumbled onto something, the officers intensified their inspection.

Opening the rear doors on the tank,

they discovered a metal panel in which four screws had been "spot painted" in an attempt to conceal them. Removal of the screws loosened the panel, which, when taken out, revealed a second set of doors. When these doors were opened they exposed the remainder of the oil tank and its true cargo:

4,200 cans of beer and 25 cases of whiskey, gin and vodka, one of the largest hauls of illegal "booze" taken in this section in many years.

According to the officers, the three-inch deep compartment which contained oil ran only a short distance on each side of the fill-hatch at the top of the tank. The apparent hope of the rig's designer was that a perfunctory examination by officers would convince them he was running a legitimate oil-hauling operation. The attempt at subterfuge was complete with a bill of lading, indicating that the truck was carrying 1,500 gallons of oil consigned to a firm in Prestonsburg. A check by State Police disclosed that the Prestonsburg company is as non-existent as was the 1,500 gallons of oil.

Charged with transporting alcoholic beverages in local option territory, Fultz pleaded guilty and was fined \$150 and costs and given a 30-day jail sentence by Bath County Judge Claude Shroat. The jail sentence was suspended.

Fultz also pleaded guilty to a charge of improperly displaying a license plate and was fined \$10 and costs. This sentence was suspended.

His cargo, valued at \$2,500, was confiscated by Bath county authorities. The truck was impounded at State Police headquarters here.

It was later released to its owner, Oliver Henry, of Winchester.

The extent of the operation in which Fultz was involved is unknown, a State Police spokesman said. He indicated he believed that it had been active only a short time.

Troopers in all parts of the district have been alerted to be on the lookout for any resumption of "oil-carrying" service by the vehicle or those similar to it.

Bill of lading referred to in story is on file in State Police Headquarters at Morehead, in charge of Roland Allen, Dispatcher and Sgt. Sword, Commanding Officer, who have, thus far, steadfastly refused to exhibit same to news reporters, law enforcement officers, and interested public officials of Floyd county.

It is reliably reported that the bill of lading will reveal the biggest "BOOT-LEGGING RING" in the history of Eastern Kentucky.

QUESTION

Who in the Governor's home county has the power to muzzle the State Police? Christian people of Floyd county, now is the time to go to the poles and show your color.

Watch next week's issue for a "cloud burst"—not a "downpour."

VETERAN FLOYD DOCTOR OFFERS PEOPLE ADVICE

At the age of 88 (I was born February 1, 1875) it may be that I can out of my experience contribute something of worth to our people.

My experience goes back to four or five years as a teacher in the Logan county, West Virginia schools as a young man, plus some farming and work in mining camps. I entered the Louisville College of Medicine at the age of 30 or 31, and after graduation I returned to Logan and began the practice of medicine. I remained there until the early 1930's, when I came to Floyd county and began working among you people.

I have no political ambitions and nothing to gain personally from this election. But I am interested in Floyd county and Eastern Kentucky, in particular.

From the fact that all of our food, clothing and medicine has to be shipped in from other states, I can see that good transportation in the Mountains is of the greatest importance. For lack of this, our young people leave us at an early age in search of employment. We cannot have adequate schools and education without this transportation.

It has been my unpleasant task to see many people suffer and die because of the lack of good transportation, which, as a matter of course, brings bigger and better hospitals and better medical care for everyone.

As sad as looking on suffering and death is, there is another side to the picture. It has been my great pleasure to see the hand of progress extended in our direction during the last four years. Tourists are beginning to pour into our hills and spend their money here. This, of course, helps everybody.

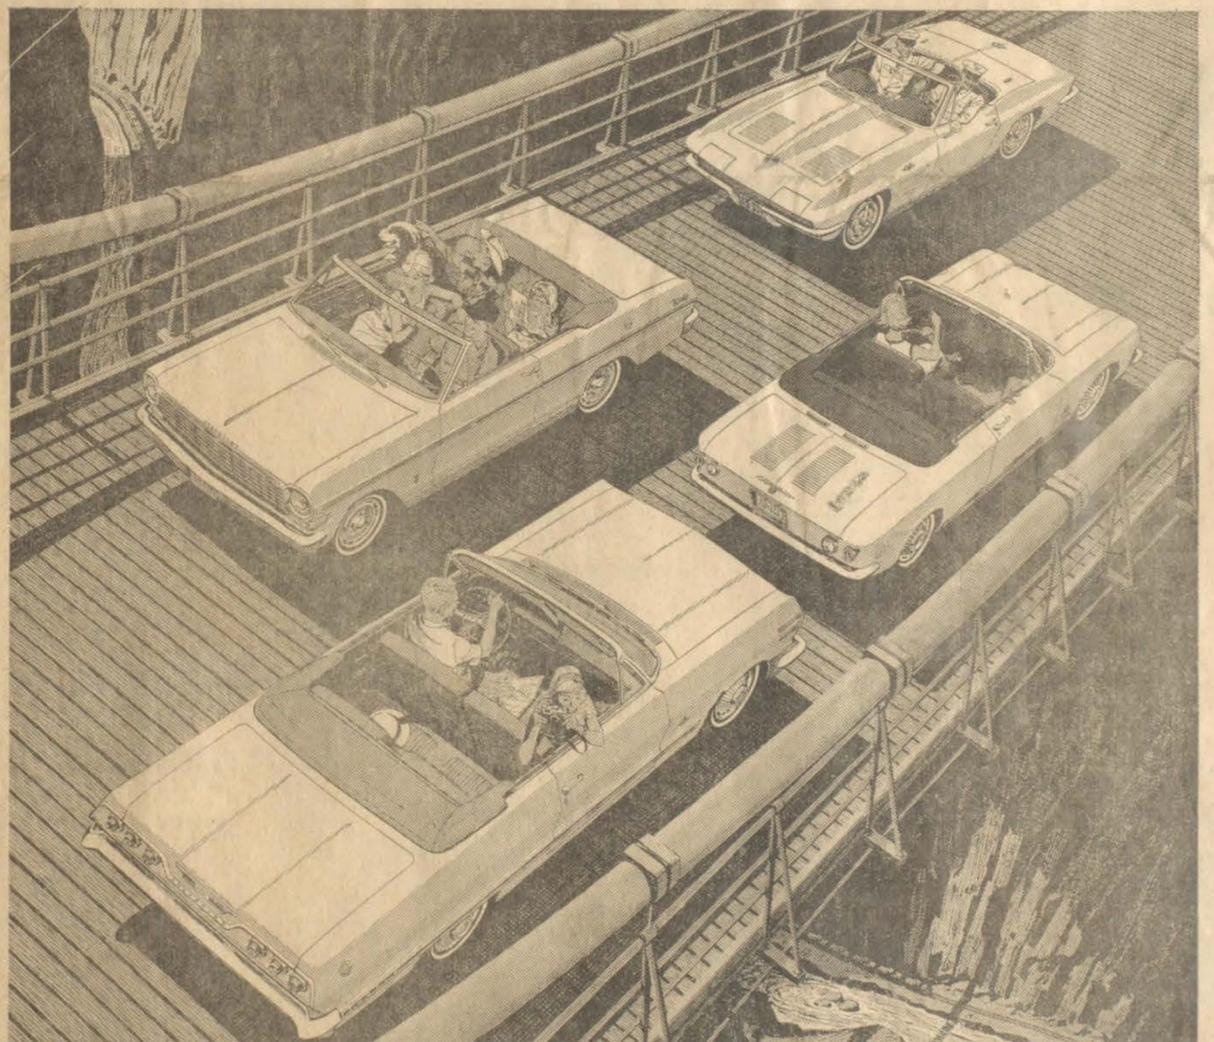

Let us add to the state's Mammoth Cave, Blue Grass and Breaks of Sandy all the other great, natural attractions of our hills. The tourist business which this will bring us will pay for the Mountain Parkway, many times over.

Everyone can have a better standard of living when our Mountain Parkway is completed. So let us work hard to keep in office men with progressive ideas, aimed at the betterment of Eastern Kentucky and all Kentucky.

For the sake of our children and future generations, let's continue this progress by nominating a man pledged to continue the good work—Edward T. "Ned" Breathitt.

Summer's coming, get going!

If this isn't a great time to get yourself a new Chevrolet—well, we just don't know when is. Why, you'd almost have to be anti-summer not to let one of these four convertibles get to you. Or any of Chevrolet's sedans, wagons, sport coupes and sport sedans, for that matter.

And there are a lot of other buy-now reasons besides the season. Like the carefree feeling you get heading out on a long vacation trip in a brand-new

car (not to mention weekends). And it's a very smart time to trade, what with your Chevrolet dealer all stocked up for a busy summer. Chances are, he has just the model and color you want—be it Chevrolet, Chevy II, Corvair or Corvette—ready to go right now.

So maybe now you're all wound up? Then spring into summer at your Chevrolet dealer's. He can satisfy your new car urge like nobody else!

Thirty Years Ago (May 12, 1933)

Mother Nature's Pageant, directed by Mrs. E. P. Hill, Jr., and sponsored by the Woman's Club, and featuring the Blue Ribbon children, was presented Monday afternoon on the grounds of Prestonsburg high school as part of the annual May Day program... Charles Stanton Allen, 15-year-old Maytown high school student, was instantly killed and three girls driving with him—Nancy and Betty Stapleton, of Allen, and Maude Collison, of Dwalco—were injured when the youth's auto plunged over an embankment into Beaver Creek near Martin, Saturday afternoon... Federal prisoners from Floyd, Johnson, Martin and Magoffin counties are being brought to the Floyd county jail now, the jail at Painsville having been condemned and the county jail here having received the approval of a federal inspector as one of the best jails he had ever visited... Ewell Osborne, 35, was struck and fatally injured at Harold, Thursday evening, last week, when he stumbled into a car driven by Mrs. W. R. Lewis, of Betsy Layne... Ballstones as large as hen's eggs fell here Tuesday night, damaging roofs of houses and cars and killing chickens roosting in the open... There died: James Nunberry, 66, former resident of Brandy Keg, at his home near Inez, Sunday; J. T. "Jim Tom" Herald, Friday at his home on Cow Creek.

Twenty Years Ago (May 13, 1943)

As part of President Roosevelt's nation-wide stabilization order of wages, prices and employment, Floyd county workers and all others in the Pikeville area who plan to get jobs elsewhere will not be hired without a referral and a statement of inter-area clearance from the local office of the U. S. Employment Service... CFA investigators this week were probing into food prices asked and received by grocery stores of this section, seeking to verify or refute charges of John L. Lewis, UMW leader, that food prices are out of control in mining sections and a \$2-a-day pay raise is necessary for the miners... Robert Mosley, 19 years old, of Detroit, was killed March 31 in action on the North African front... The Floyd War Price and Rationing Board prepared this week for registration of users of sugar for canning purposes... After 74 disabling injuries, and two deaths, as a result of accidents to miners in the Elk Horn Coal Corporation's Mine No. 28, Wayland, the mine was inspected and reported "gassy" and in need of extensive safety work... Floyd county more than doubled its War Bond quota of \$466,000 for the month of April... Married: Miss Jean Yvonne DuRand, of Wayland, and Sgt. Raymond Rice, of Garrett, April 9, at Painsville... Employment in Floyd county has been on the decline since March, the total number of April claimants up to 3,365... At this battle station in Korea, Cpl. Charles F. Laferty wrote a letter on the familiar subject, "Mother," which won for his mother, Mrs. William F. Laferty, of Allen, the 839th Engineers battalion's award as "Mother of the Year"... Fred Jarrell, 43-year-old Prestonsburg man, was killed early last Saturday as the result of an accidental gunshot wound... Wilbur R. Lowell Hughes, of Prestonsburg and Lexington, as Prichard declared that Chandler, failing to find anything to run on, finally decided to "jump on" Hughes.

The Breathitt rally here next Saturday morning will begin at 10 o'clock with a parade of bands starting at the Prestonsburg grade school, travelling out Highland to Court street, then to Lake Drive and north to the high school gymnasium. Motorcades from counties of the district are expected to converge on Prestonsburg for the event. Taking part in the parade will be the high school bands of Pikeville, Martin, McDowell and Prestonsburg.

Breathitt campaign chairmen and chairwomen of the several counties of the Seventh Congressional district will be seated with the gubernatorial candidate on the speaker's platform. Foster Ockerman, state campaign chairman, and Miss Katherine Peden, state chairwoman, will accompany Mr. Breathitt. Other candidates for state office who will attend the rally, last of a series of three such major events planned for Breathitt during closing days of the campaign, are: Wendell Butler, for commissioner of agriculture; Henry H. Carter, state auditor; John Moloney, secretary of state; Drexel Davis, clerk of the Court of Appeals; Robert F. Matthews, attorney-general; Emerson "Doc" Beauchamp, state treasurer.

The University of Kentucky Law School coordinator for the campaign of A. B. Chandler today renounced his support of the two-time former governor, saying, "I am now ashamed to have ever been associated with his campaign."

Bill Graves, U. K. law student from Paducah, said that the reason for his denunciation of Chandler was what he called the former governor's unwarranted and deliberately misleading charges that fellow law student Lowell Hughes had drawn full salary from the state while attending the University as a full-time law student.

Graves said that he was personally familiar with Hughes' employment by the state, and that Hughes had spent 35 hours per week of his time to pay his way through school. Graves added that Hughes had carried 12-15 hours of class time per week, spending the additional 35 hours working for the state when not in class.

"Many students in Lowell's position would simply have chosen the easy way of letting their parents carry them through school rather than take on the load that Lowell has. And when Mr. Chandler starts attacking a student for doing that, I want no part in his campaign for public office."

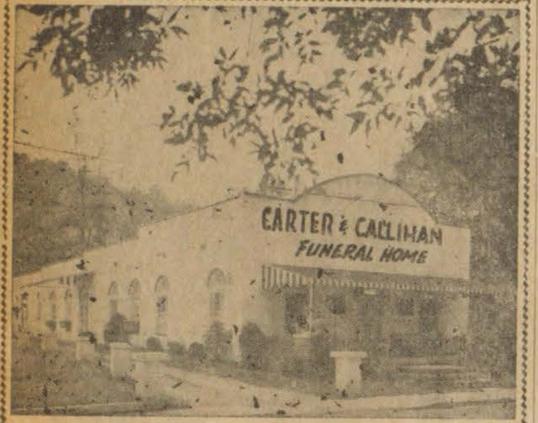

"Students in the law school, regardless of their preference in the governor's primary, respect Lowell Hughes for choosing to make his own way, first by long hours on the athletic field where he earned letters in three sports, and then by putting in 35 hours per week contacting taxpayers in person and making out audit reports for the revenue department."

"A fitting testimonial to the respect Lowell enjoys is provided by the fact that he was elected president of the student bar association by his fellow students and was selected as a member of the law journal staff by the faculty of the law school," said the student who renounced his support of Chandler.

"Several weeks ago a student active in the Chandler campaign circulated an affidavit pertaining to Hughes' employment among law students known to favor Chandler, but not a single law student would sign the affidavit. Even the student who circulated the affidavit under instructions from Chandler headquarters felt that he had been assigned to perform dirty work."

"When that incident occurred, I called Chandler state headquarters and told them that I could not condone such below-the-belt and intentionally misleading charges. I

know. This one, told by a college student home on a visit, hit the spot.

The college Thespians, or whatever they call the group, were doing a highly dramatic play, and the scene unfolding was the most dramatic of all. The mother faced her daughter (or was it her son?), and the tension was almost palpable as the mother began her immortal lines, handing down the last word—when, from somewhere in the crowd came a male, falsetto voice:

"But, mother, I want to do it myself!"

Those present still aren't sure just how the play came out.

Said bill is as follows, viz:

Be enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. In this Act, it is the intention of the General Assembly to assure substantially equal public school educational opportunities, through a foundation program, for those in attendance in the public schools of the Commonwealth, but not to limit nor to prevent any school district from providing educational services and facilities beyond those assured by the foundation program; and to provide, as additional state funds are made available for the public schools, for the use of such funds for the further equalization of educational opportunities. This Act shall be interpreted as a measure to provide for an efficient system of public schools throughout the Commonwealth, as prescribed by Section 183 of the Constitution of Kentucky, and for the manner of distribution of the public school fund among the districts and its use for public school purposes, as prescribed by Section 186 of the Constitution.

SECTION 2. As used in this Act, unless the context otherwise requires:

(2) "Average daily membership" means the aggregate days of membership of pupils in a public school divided by the actual number of days the school is in session for the year;

GOVERNOR COMBS SPEAKS AT MEETING OF EDUCATORS

Frankfort, Ky., May 6 (Sp.) — Gov. Bert Combs told 200 educators meeting at the University of Virginia in Charlottesville that "the one-room school and the poorly-trained teacher are not going to produce the future Einsteins, Schweitzers, or Platons of this world. The little red schoolhouse and Telsstar do not belong in the same era."

Attending the two-day conference were educators from Kentucky, Virginia, West Virginia, Maryland and North Carolina, the District of Columbia, the Virgin Islands, and Puerto Rico seeking ways to de-

velop and implement programs to develop talent of gifted students.

Describing Kentucky's efforts to identify and help Kentucky's talented youngsters, Governor Combs explained programs in Kentucky such as educational television, special classes, added library facilities and books, regional and state science fairs, and special campaigns against student drop-outs.

He cited the 3,595 new classrooms since 1960 and consolidation of 750 elementary schools into 102 since 1959 as factors in helping the talented students by providing more space, wider range of subjects and better teachers.

Governor Combs said, "We have increased support of our public schools by \$80 million a year in the last three years and that annual state aid per pupil in average daily attendance has risen from \$101 to \$106 since 1960. Some \$71.5 millions have been spent for new school buildings and improvements since 1960."

The conference was sponsored by the Office of Education of the U.S. Department of Health Education Welfare, the University of Virginia, departments of education in each state participating, and the Region 3 office of the Health, Education and Welfare agency.

QUESTIONS THAT CRY FOR HONEST ANSWERS

Last week in this paper, my opponent, Hollie Conley, said, relative to my charge that a liquor monopoly exists in Floyd county, that "IF IT EXISTS" I should have had the problem solved.

First, could there be any doubt in the mind of anyone in Floyd county that a LIQUOR MONOPOLY exists. Certainly not, when liquor is available nearly anywhere in Floyd county, even to young boys. Now, could or should I have had the "problem solved." Everyone knows, long before I became a candidate, and before the law was changed in 1962 pertaining to retirement of Circuit Judges, I screamed out at every opportunity before the Grand Jury about the liquor situation. You will recall, last September I exposed the big storage warehouse near the lake, causing the people to abandon the plan. This is all a judge can do.

My opponent has been your Commonwealth Attorney the past six years. Has the liquor situation gotten better or worse during Mr. Conley's term? It is the duty of the Commonwealth Attorney to investigate crime, have witnesses subpoenaed before the Grand Jury, institute suits to confiscate automobiles or real estate in which illegal liquor is sold. You will recall, last September, after I had raised the roof about the liquor situation, my opponent told The Floyd County Times of his plans to file suits to confiscate. What happened to that promise? You know the answer. It does not take an attorney to know that a Judge, who has to try criminal cases, can do no more than call attention of the Grand Juries to law violations. The Commonwealth Attorney has the duty of representing the state, investigating and prosecuting violations. Many know of crusading District Attorneys over the nation who cleaned up crime situations, singlehanded.

My opponent says he is not interested in my retirement situation. Well, I am, and there are hundreds of other men in Floyd county who have been knocked out of their pensions by various reasons. I have explained thoroughly, in this paper and by handbills, my reason for changing my plans and running again. If you doubt my previous explanation, or if you are inclined to believe my opponent, let me ask you to call any attorney in Prestonsburg, Pikeville or Paintsville, and inquire if I could retire under age 65, as stated by my opponent. He has reference to a SPECIAL JUDGES law, not retirement. If a candidate seeking the high office of Circuit Judge will intentionally misrepresent any issue in a political campaign, what will he do, if elected your Judge? Sometimes you think you know a man when you don't.

By the way, did you hear last week about the converted oil tank truck, full of whiskey and beer, consigned to one of the "handful" of politicians that got my opponent to run for Judge. Why were the big liquor people so interested in getting someone to run against me? Why do they now support my opponent? You know the answer. A word to the wise is sufficient. The day is far spent and night is at hand—a dark night blackened by a corrupt crime syndicate right here in Good Old Floyd County, where we are trying to get a college, good roads and jobs for our people.

Sincerely yours,

EDWARD P. HILL

HEREFORD

AN OPEN LETTER

DEAR FELLOW CITIZEN:

The 1963 Primary election campaign is rapidly drawing to a conclusion. For the past year, and particularly during the last five months, Peggy and I have attempted to visit every home in Floyd county. My position now is the same as it has always been—I WANT TO SERVE THE PEOPLE OF THIS COUNTY.

I have tried to conduct myself in such a manner as to be worthy of your support and confidence. I have not downgraded my opponents nor have I promised to perform services which are not duties of the Circuit Court Clerk. I have the qualifications to make you a good clerk. Your present Circuit Clerk has made an outstanding record. I would in no way attempt to detract from it. However, I earnestly believe that young men should be given a chance to show their mettle. If we do not intend to delegate responsibility and public trust to the youth of this county, then why do we strive so hard to see that they receive a proper education?

In closing, I would like to issue a word of warning. During these last few days rumors will be widespread. They will be designed to mislead you and to cause you to vote AGAINST instead of FOR the candidate of your choice. I ask you to make ME ONE SOLEMN COMMITMENT—JUDGE ME NOT ON THE BASIS OF RUMOR, BUT, RATHER, JUDGE ME BY WHAT I SAID TO YOU WHEN I WAS IN YOUR HOME, OR WHEN I MET YOU ON THE STREET-CORNER OR ON AN UNPAVED COUNTRY ROAD. Then, as now, I stand for honesty and fair dealing in public office, for service and dedication to a public trust. If you honor me with your vote I will not betray your confidence.

Sincerely,

DAVID R. HEREFORD

CIRCUIT COURT CLERK

Give Youth a Chance

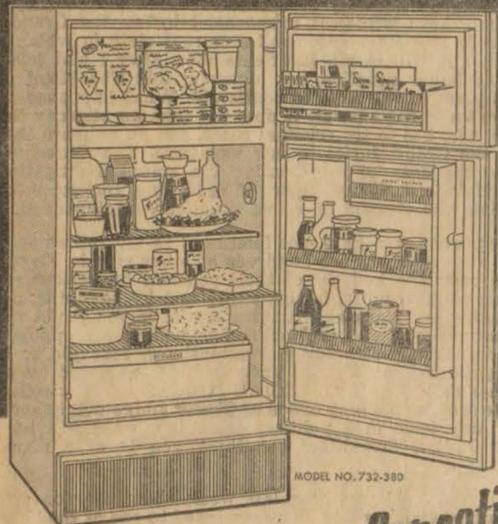

This is a familiar scene in Floyd county. Peggy and David Hereford have carried their campaign to the people. Their future, and in some degree, the future advancement of Floyd county rests in your hands. Give them the chance they deserve. CHURCH TO ACQUIRE TEN UMW HOSPITALS

By October, the United Mine Workers will turn over five of their Eastern Kentucky hospitals, including its hospital at McDowell, to the United Presbyterian Church. Another five hospitals, including one at Pikeville, three in West Virginia and one in Virginia, will be turned over to the Presbyterian group by July, 1964.

The announcement was made in Washington where the U.M.W.'s Welfare and Retirement Board last Wednesday wound up a second round of negotiations with the Church's National Mission Board.

Final arrangements for the six Kentucky hospitals, built by the U.M.W. in the 1950's, depend on funds from the state and federal governments.

On receiving word of agreement between the two organizations, Gov. Bert Combs said, "The prayers of a great many people are being answered. We will follow through with our obligation. I'm of the opinion the Kentucky Legislature will do its duty."

PFC. SPEARS ASSIGNED

U. S. Forces, Germany — Army Pfc. Alfred Spears, whose wife Janet, lives at Amba, Kentucky, recently was assigned to the 56th Medical Company in Germany.

Spears, a medical laboratory technician, entered the Army in December, 1961, completed basic training at Fort Knox, Kentucky, and was last stationed at Fort McPherson, Georgia.

The 23-year-old soldier is a graduate of Van Lear high school and received a B.S. degree in 1961 from Pikeville College.

Governor Combs said he may call a special session of the Legislature for June, if details of the agreement in Washington require the session. He appeared before the Presbyterian Board several weeks ago to stress the importance of continuing the hospitals' operation.

Since October, 1932, when the U.M.W. announced its decision to close four of the Kentucky hospitals, state officials have conferred with federal agencies, the U.M.W., the Presbyterian Board and with the Eastern Kentucky communities affected by the decision.

Initially, the U.M.W. put a \$7.7 million price-tag on the hospitals at Middlesboro, Hazard, McDowell and Whitesburg, but no purchase price has been announced. These four will be turned over to the Presbyterian group in October, along with the Harlan hospital.

At a special session, the Legislature could provide the Presbyterian body with the legal framework for a nonprofit board to administer the hospitals' affairs. (The group stated earlier the hospitals would not be operated as church-affiliated institutions.)

The Legislature could also provide the basis for and the necessary appropriations to pay for care of indigent patients in the hospitals. The financial situation of the hospitals could be relieved by providing additional funds to broaden benefits now available under state and federal medical care programs.

Felix Joyner, administrator of the State Health and Welfare Agency, said that the federal government will hesitate to aid the purchase of the hospitals unless the state gives assurance that they will continue to operate. (Dr. E. D. Rosenfeld, a New York City hospital consultant retained by the Presbyterian Board, estimated that the care of non-paying patients in the first five Kentucky hospitals amounts to about \$700,000 a year.)

Franklin D. Roosevelt, Jr., under-secretary of commerce, represented federal authorities at meetings of the U.M.W. and the Board last week. Roosevelt was recently named by President John F. Kennedy to head the new Federal Appalachian Agency.

Ask Tiny Lund about Ford durability: He'll tell you how it helped him win America's toughest stock-car competition, the Daytona 500. Lund placed first in a Ford, with four other Fords right behind him for an unprecedented sweep of the first five places. Only the Fords were tough enough to stand the pace.

Greater durability is the reason Ford is able to offer a total-car warranty. Only a true total-performance car could offer as complete a warranty as this—with no strings attached:

"Ford Motor Company warrants to its dealers, and its dealers, in turn, warrant to owners as follows: That for 24 months or for 24,000 miles*, whichever comes first, free replacement, including related labor, will be made by dealers of any part with a defect in workmanship or materials. Tires are not covered by the warranty; appropriate adjustments will be made by the tire companies. Owners will remain responsible for normal maintenance services, routine replacement of parts, such as filters, spark plugs, ignition points, wiper blades, brake or clutch linings, and normal deterioration of soft trim and appearance items."

You can't put a long-term warranty like ours on a short-term car. The '63 Fords have a better warranty because they're built better than any Fords in history. You see evidence of this extra toughness in Ford's outstanding competitive wins this year.

'63 Fords won the grueling Daytona, Riverside, and Atlanta 500's, and the demanding Pure Oil Performance Trials. Only cars with total performance could roll up so many big wins.

Before you buy any new car, test-drive the solid, silent Super Torque Ford. If you haven't driven one lately, you can't really know what a new Ford is like. Remember: If it's built by Ford, it's built for performance... total performance.

*90 days or 4,000 miles, whichever comes first, for the 412 C.I.D. V6 or V8 and 229 C.I.D. V4 engines and related power train components

NELSON R. ALLEN
Candidate for
RAILROAD COMMISSIONER
Democrat

TO THE CITIZENS OF FLOYD COUNTY

With less than three weeks before the May Primary, I would like to ask you for your support in my candidacy for Railroad Commissioner of the Third District. I am opposed by five other fine mountain boys, but, realistically speaking, my many friends of Eastern Kentucky, Ashland, Greenup, Morehead, Whitesburg, Pikeville, Owingsville and the Big Sandy basin area, say I am the only mountain candidate who can successfully oppose the two other candidates from Maysville and Covington.

I am asking the voters of my home county, to take part in this election. Give me a plurality that will beat the city boys. Let's establish a record that will never be forgotten. It will never be forgotten with me. (Pol. adv.)

MRS. MULLINS, SPEAKER

"If families would go back to family altar as our forefathers did, there would be no juvenile delinquency," said Mrs. Eugene Mullins, Garrett Home Economics teacher, speaking to the Lackey-Garrett-Wayland Woman's Club, on the subject, "Home Life."

"Home means something different to everyone, but it should be a place of peace. All mankind shares one goal—a happy home," continued Mrs. Mullins.

Mrs. Hansel Bradley, Mrs. Mullins' sister, spoke briefly on "Background of Our Home Living." Mrs. Bradley pointed out there are three tools the homemaker may use in home decorating. They are color, furnishings and arrangements. She emphasized that each room should not be considered as a separate unit but should be coordinated with the rest of the house as to color and furnishings.

Mrs. Mullins and Mrs. Bradley then passed out "Home Decorator's Work Sheets," published by Good Housekeeping Magazine, and answered questions from clubmembers on home decorating. Prior to the main program, Mrs. Richard Vinson conducted a devotional period on the subject, "Worship in the Home." She reminded her hearers that the home "is the cradle of religion and the center of Christian worship."

Since this was the last meeting of the club year, old business was discussed and disposed of during the business session following the program. The president, Mrs. S. M. Martin, asked for volunteers for the current Cancer Drive. At the conclusion of the meeting, a dessert course was served by the hostesses, Mrs. John Duffell and Mrs. Mervil Dixon.

The installation Breakfast for officers for the coming club year will be Saturday, June 1, at the clubhouse.

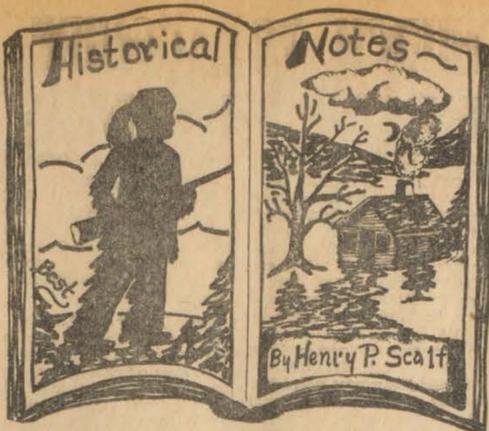

OUR ERROR

In the advertisement of J. D. Payne, published last week, The Times erroneously stated that a saving of 50% would be made on all monuments bought from him. The saving correctly should have been stated as 30%.

KNUCKLES FAMILY

A letter from Mrs. John Paul Franklin, Route 4, Bedford, Va., inquires for information on her mother's family. She writes:

"I am trying to locate relatives of my mother, maiden name of Sarah Jane Knuckles, later Sarah Jane Sanders. She married my father, George Robert Franklin, of Goodview, Bedford county, Virginia, June 3, 1913. The wedding ceremony was performed by Rev. William G. Gilford, witnessed by a Mr. Will Howard and my mother's brother, R. B. Knuckles.

"My mother was known to have sisters and possibly brothers, names unknown. My mother died at Pineville, Kentucky, April 1917, and was buried at Wayland, Kentucky, there being a marker at her grave at the present time."

If anyone has information on this branch of the Knuckles family, would they write Mrs. Franklin?

SELLARDS FAMILY

A letter from Mrs. Earl Brossard, Eden Valley, Minnesota. She writes of her grandmother, Clarinda Sellards, of Floyd county, widow of John Scalf, who died in 1865 on Buffalo Creek, Floyd county. She migrated to Minnesota with her children, Solomon, Breckinridge, Mary and James Scalf with other members of the Sellards family in 1866. She later remarried Jeff Shortridge. Mrs. Brossard writes:

"My grandmother was Clarinda Sellards and Jeff Shortridge. My mother and Mary Scalf (Coleman) were half-sisters. We were always very close. Last year we took a trip south across Missouri and we stayed over with friends in Fredericktown with a former pastor of ours here in Minnesota. There we met several of the Sellards cousins of my mother's and also saw our great-grandfather's grave and tombstone with its odd inscription in the village cemetery.

"We crossed Kentucky then and stopped overnight in Renfro Valley. We were told that a Leonard Scalf lived in a nearby town.

"I have always been interested in family history but it seems like I am a long way from the heart of it. We want to come back and spend more time in your area. We have a daughter living in Eastern North Carolina."

This columnist had heard that there was a lake in Minnesota named Sellards Lake and upon writing Mrs. Brossard, she replied recently:

"I am sending a Minnesota map and have marked a dot where Sellards Lake is located. (It is in Meeker County, near Dassel, and northwest of Minneapolis.) It would have to be only a dot as it is round and shallow, one mile across and less than a mile southwest of the village. Great-grandfather's homestead was on the north shore of the lake and is now between the Great Northern Railway tracks and Highway 12. I understand there is a small plot fenced in a field near the lake where there are several graves. When our weather is better and I feel sure I can get to the place I plan to go over and see what is there. My cousin, Ellen Coleman, is in a nursing home here in the valley and will be glad to go with me."

Another letter from a Sellards-Scalf relative in Minnesota is from Mrs. Alice Coleman Hale, wife of Harmon Hale, formerly of West Prestonsburg. The Hales live at 6813 W. Shore Drive, Edina 24, Minnesota, near Minneapolis. She is a cousin of Mrs. Brossard and her husband is remembered at Prestonsburg as a studious and promising young man who "would go places," which he did. He is now national sales manager for General Mills with offices in Minneapolis.

The Hales were here a few years ago and visited The Times. It was her first visit to the country of her ancestors and she really enjoyed talking to relatives.

HISTORY OF PIKE COUNTY

Several months ago this column fell into an error in regard to a supposed history of Pike county, Kentucky. It all began when Clyde Runyon, of Belfry, Pike county, wrote to say that a William A. Grimshaw was "supposed to have written a history of Pike county, Ky., in 1877."

That Mr. Runyon, accomplished genealogist and bibliophile, had his doubts about the book was evidenced by the word "supposed." Anyway, this column published a paragraph on the "supposed" book.

Mrs. R. H. Bobbitt, librarian of Free Public Library, Pikeville, who is putting together historical Kentuckiana, immediately wrote the Library of Congress and was informed that the book was not on Pike County, Ky., but on Pike County, Illinois.

Another letter in regard to the book comes from Miss Fanny Mae Howell, of David. It dissipates completely any hope that a Mr. Grimshaw ever wrote a history of our adjoining county. Miss Howell wrote the Library of Congress and was informed that the Grimshaw book was on Pike County, Ill. Henry J. Dubester, chief, General Reference & Bibliography Division, wrote Miss Howell, Feb. 27:

"Neither the catalogs of the collections of the Library of Congress nor the National Union Catalog lists William A. Grimshaw's History of Pike County, Kentucky. However, the following work is listed in the catalogs of the new collections of the Library of Congress:

"Grimshaw, William A. History of Pike County. A Centennial address delivered by Hon. William A. Grimshaw, at Pittsfield, Pike County, Illinois, July 4, 1876. Pittsfield, Ill. Printed at the Democrat Job Rooms. 1877. 46 pages."

This column regrets its misinformation and thanks Mrs. Bobbitt and Miss Howell for correcting an error.

**The Heavy
Hand of
Politics**

They have forgotten the 3 R's, and took up Politics —

Some of our Floyd County School Teachers are caught in an embarrassing position — Afraid to express their sentiments, voice their convictions, or speak their piece. Politicians, posing as educators, are trying to organize them into a political block, into ward heelers and precinct strikers.

They are being brain-washed as methodically and systematically as CASTRO'S CUBA. The politicians are afraid to tell them the plain truth — that Happy gave the teachers everything they asked for and provided the money to implement the Minimum Foundation Program, and built the finest Institution of Higher Learning in Kentucky, over the objection of his present opponents.

A year ago the teachers of this county were asked to elect a Sheriff. This year they are being asked to elect a Circuit Judge, a Commonwealth's Attorney and a Governor.

If this practice is permitted to continue they will be asked to elect Jailers, Magistrates and Constables, and will be so involved in politics that they won't know whether to electioneer or teach.

No one wants to destroy our fine school system in Kentucky, least of all Governor Chandler.

(We teach that action speaks louder than mere words)

The House Journal unmistakably proves that Combs' puppet Candidate did not sponsor the Minimum Foundation Law. He was present and had two opportunities, but did NOT VOTE FOR IT!

I urge the teachers of Floyd County to throw off their yoke of bondage and not be deceived by the BIG-Fisted, hand-picked politician.

FLOYD LAFFERTY

**YOU CANNOT AFFORD
FOR ONE FAMILY
TO CONTROL YOUR COURTS!**

There was never a time in the long history of Floyd county when so much was at stake in the Commonwealth's Attorney race as now. Your Commonwealth's Attorney is the shield between the proponents of law and order and the lawless who are always utilizing every means possible to further their ends. Only a competent, well-qualified Commonwealth's Attorney can shield you by vigorously prosecuting bootlegging and all other crimes.

Every voter should ask himself: Who is the best qualified man for Commonwealth's Attorney? Which candidate manifests those attributes of honesty, integrity and ability that are a requisite for the job? Which candidate has the ability to perform the duties of office? Which candidate is unfettered by unholy alliances and is free to perform the duties?

I submit to you that I am qualified and meet all the other tests. I have the legal training and experience. I have the mental and moral ability to do the job. I have no unholy alliances and will owe my election to nobody but the voters.

You cannot afford to allow interests adverse to law and order to influence your vote. The protection of your home, your person and your rights as a citizen depends upon the Commonwealth's Attorney who is between you and the lawless element of our people.

A minority of people would be satisfied with lax law enforcement but the majority of people, I firmly believe, want strict law enforcement. Your choice of Commonwealth's Attorney may mean the difference between whether you have law enforcement or none whatever.

Some men are using the race for Governor to promote their own candidates. I am not trying to ride any coattails. The choice of Governor will not make one bit of difference in the conduct of your court but your choice of Commonwealth's Attorney will.

CERTAIN INTERESTS AND CERTAIN FAMILIES ARE OUT TO TAKE OVER FLOYD COUNTY.

If they are permitted to do so your property and person will be at the mercy of those whose interests are adverse to law and order.

If you want law enforcement, if you feel that bootlegging and crime must be curbed, support me in this race. Don't place the control of both the county and Circuit Court in the same family.

WHEREAS, the existing franchise held by the Kentucky Power Company for the distribution of electric power in the City of Martin, Kentucky, will expire on October 5, 1963, and

WHEREAS, there is a continuing public necessity for adequate service of electric power and energy to the citizens of the City of Martin, and

WHEREAS, it appears that it is to the interest of the public that a franchise be advertised and sold granting and entitling the grantee to use the public streets, thoroughfares and other public places for the erection and maintenance of lines for the transmission and distribution of electric power.

NOW, THEREFORE, be it resolved by the City Council of the City of Martin, Kentucky.

SECTION 1. That there be sold at public auction to the highest and best bidder, the right, privilege and authority to acquire, maintain, construct and operate in, above, under, across and along the streets, thoroughfares, alleys, bridges and public places (as the same now exist or may hereafter be laid out) of the City of Martin, Floyd County, Kentucky, lines, poles and equipment for the distribution of electric energy, either by means of overhead or underground conductors, with all the necessary or desirable appurtenances for the purpose of supplying electric energy to said city and the inhabitants thereof and persons and corporations beyond the limits thereof for light, heat, power and any other purpose or purposes for which electric energy is now or may hereafter be used, and for the transmission of the same within, through or across said city.

SECTION 2. Said lines and appurtenances shall be constructed so as to interfere as little as possible with the traveling public in its use of the streets, thoroughfares, alleys, bridges and public places. The location of all poles or conduits shall be made under the supervision of the proper board or committee of the city government.

SECTION 3. The right, privilege and franchise shall be in full force and effect for a period of twenty (20) years from the date of the passage of the ordinance granting it.

SECTION 5. Whenever the grantee of this franchise shall begin the erection of any lines or other equipment, it shall promptly and diligently prosecute the work to completion and leave the streets,

SECTION 6. Wherever in this franchise, either the City of Martin, or the grantee thereof is referred to, it shall be deemed to include the respective successors and assigns of either, and all rights, privileges and obligations contained in this franchise shall be binding upon and inure to the benefit of the respective successors and assigns of said city, and said grantee, whether so expressed or not.

RETRAINING PROGRAM STARTED AT MAYO

INCOME LOOMS . . . Demonstrating the use of a loom is Mrs. Merrill Brinson, Louisville, an instructor in weaving. Students are, from left, Mrs. Joan Gibson, West Prestonsburg, Mrs. Bertha Auxier, Paintsville, and Mrs. Gaynell Gillispie, Meally.

The nation's first federal program to retrain the unemployed in handicrafts is generating enthusiasm among teachers and students involved in the course at Paintsville.

"This could be one of the biggest things we've had come to Eastern Kentucky," remarked George Ramsey, director of Mayo Vocational School. "There's no question but that it has tremendous potential."

The 16-week course is being conducted on the Mayo campus under a \$10,000 grant from the Area Re-development Administration. Fifty students—42 women and eight men ranging in age from 19 years to 65—are enrolled in courses in weaving, pottery, ceramics, woodworking and metalcraft.

"If they learn to make what the public wants, and I believe they will, they'll have no problem selling," said Mrs. Merrill Brinson, Louisville. Mrs. Brinson, a partner in Brinson Semloff Studios, Louisville, is teaching the course on weaving.

She calls her 13 students "the most enthusiastic class I've ever taught."

The weaving course is typical of the handicrafts being taught. Each student is in the classroom five days a week and six hours a day.

Mrs. Brinson's instruction accents the use of native materials and items found around the home, such as cast-off sheets, flour sacks, old shirts, and burlap bags, to produce a quality product. The course includes instruction on dyeing, color harmony, and design.

"They can market what they make if they attain quality," Mr. Brinson said. "For instance, there's always a demand in any community for a good rag rug with eye appeal."

Mrs. Mary Auxier Hale, Prestonsburg, envisions the training the students are receiving as the nucleus for home industries in Eastern Kentucky. She teaches the course in ceramics. Her students include wives of unemployed miners and miners who are working part time.

The students receive a subsistence allowance of \$28 a week while en-

rolled in the course. Each was screened and tested to determine his aptitude for handicraft training before being admitted to one of the four classes.

The students readily acknowledge that when their training is completed they hope to start making handicrafts in their homes to supplement the family income.

"I'm trying every way I can to become an artist," remarked Mrs. Betty Spradlin, Floyd county, a student in ceramics. "This will help us financially if I succeed—which I fully intend to do."

Another student, Mrs. Georgia Shepherd, West Prestonsburg, is already talking of setting up a small industry in cooperation with her classmates.

IS WELL PLEASED
WITH THE PROGRESS OF HIS RACE
FOR
CIRCUIT COURT CLERK

I began this race for Circuit Clerk with the handicap of being relatively unknown, due to the fact that I have never sought a public office before. However, by hard work and long hours, I have made the acquaintance of a vast majority of our people. I have told them of my hopes and aspirations as an elected official. Men and women, boys and girls have rallied to my cause.

I take this opportunity to urge my supporters, my friends everywhere, to continue the good work, to keep our campaign on the high road, not to engage in mudslinging, nor be deceived by the same. I also take this opportunity to congratulate my opponents for a clean campaign, devoid of bitterness and the familiar smear tactics.

Again I urge my friends to work until the polls close May 28, and victory will be ours.

For

CIRCUIT JUDGE

The high office of Circuit Judge demands the candidate to seek justice for those who must be in court, offer himself as one whose personal morality is above criticism, who would give firm decisions and would lend dignity and respect to the business of the court.

My opponent, who has promised to retire, raises issues which should have been already solved by him as your judge. If they still exist he can solve them now.

Let us examine the issues, all mentioned by my opponent, one by one and see whether he is sincere, or whether he is raising a smoke screen to call your attention away from his failure to use the power of his office to enforce the laws in Floyd county:

1. My opponent, Edward P. Hill, says that a liquor monopoly exists in Floyd county. He has been County Judge for eight years and Circuit Judge for eighteen years, a total of twenty-six years. A power of his office allows him to call special grand juries, to force speedy trials, to make his rulings firm and without favor, and to sentence those found guilty without political protection or favoritism. I have pledged you SPECIAL GRAND JURIES, but no special consideration to those who violate the law.

2. Most of you know that six years ago he promised to retire and promised he would not seek reelection. This is the same old story — give me one more term. He tells you that the law has changed. Under the old law he could have retired and drawn \$4,700.00 per year. Now he can retire and draw \$6,156.00. This is more than \$500.00 per month. As a young man I am more interested in service than in retirement. I am more concerned with truth, personal morality and dignity in our Floyd County Courts than in a big retirement pension and personal favoritism in our courts.

In desperation my opponent hopes to win sympathy by his retirement plea. It is the same plea he made six years ago when he promised to never run again.

3. My opponent has publicized his failure to notarize his declaration papers properly. This issue was raised by my opponent, not me — another smoke screen. I shall not take advantage of my opponent's failure to follow the law. I want the people to vote and elect their Circuit Judge — and to choose the candidate also who will make a sober, discreet, law-abiding judge.

**ADULTS PAY FOR GOOD SCHOOLS--
OUR CHILDREN "PAY" FOR POOR ONES**

We as PARENTS and TEACHERS know that an investment in a CHILD'S future is the greatest investment one can make.

Are we going to remain unconcerned while a group of AMBITIOUS POLITICIANS play around and use our children as political footballs? Can we let this thing happen? EDUCATION has made much progress in the PAST THREE YEARS. Are we going to let these men take away those gains? DO WE WANT TO AGAIN REVERT TO THE "DARK AGES" OF EDUCATION IN KENTUCKY? Remember, MOM and DAD, it is OUR CHILDREN they are playing around with.

We as PARENTS should realize the SERIOUSNESS AND IMPORTANCE of this campaign. Do we want a man as GOVERNOR who has given us nothing but promises in the field of education, or do we want a man who will continue the PROGRESS made by the PRESENT STATE ADMINISTRATION?

In NED BREATHITT we have a man who is dedicated to the great task of continuing the RENAISSANCE IN EDUCATION so ably begun by the present administration.

In this entire campaign NOT ONE WORD has anyone been able to utter about the CHARACTER of this fine YOUNG MAN. Let's give him the opportunity to move Kentucky ahead, not only in the field of education, but in every field of government.

PARENTS, GO ON MAY 28 and cast a VOTE for the educational welfare of YOUR CHILD. VOTE for a MAN who has FOUR of his own.

WHO FOR CIRCUIT JUDGE?

I am a Republican and a World War I veteran. I have no vote in the Circuit Judge's race, but as a citizen and taxpayer I am vitally interested in the race.

I have heard so much said about the retirement situation of Judge Hill that I have investigated the law and find that there is no retirement available to Judge Hill until age 65. He could qualify for Special Judge work at 60 by taking a 25% reduction in his salary and making himself available over the state of Kentucky. This, I do not think he should have to do. Certainly Judge Hill would not be working and be concerned so much in this election if he could retire soon. Certainly not when he loves to fish so well.

Even if Judge Hill could retire, which is not true, I would not be willing, as a taxpayer, to pay Judge Hill a salary under retirement, and pay Mr. Conley also. After all, this retirement question is unimportant. What we need to think about is QUALIFICATION, and what the two men STAND FOR, and their REPUTATIONS.

The 28th we choose a Governor for four years, and a Judge for six years. Let's not let the Governor's race keep us from choosing the right man for this important post. We could be awfully sorry, and six years is a long time to wait to correct a fatal error.

HAROLD STUMBO for COMMONWEALTH ATTORNEY

If elected to the office of Commonwealth's Attorney, I will not tolerate crime or corruption.

As your Trial Commissioner I was criticized vigorously by violators of the criminal law.

Law enforcement officers in this county have stated that I gave them full cooperation in the fight against crime.

As your Trial Commissioner under County Judge Henry Stumbo, I devoted many hours trying to solve problems for the people of this county.

My opponent, Jarvis Allen, has been your former County Court Clerk. The sole issue in this campaign is whether Harold Stumbo or Jarvis Allen would render FRIENDLY, HONEST and EFFICIENT SERVICE as your Commonwealth Attorney for the next six years.

I will protect the Constitutional rights of every citizen, regardless of economic standing, race, creed or color.

It is my belief that government is by the people and for the people.

Your support will be appreciated.

Thirteen Thousand Thirty-Two Dollars and 12c

Thirteen Thousand Thirty-Two Dollars and 12c

L. T. Lowell Hughes, of Prestonsburg, Floyd county, son of J. T. Hughes, owner and operator of Hughes Motor Co., Cadillac dealer in Prestonsburg, a friend and supporter of the Combs Administration, and is the son-in-law of A. M. Howard, of Howard Wholesale, Allen, Kentucky.

The records at the University of Kentucky will show that Lowell was a full-time law student during all the period set out and the Department of Revenue had him listed on their payroll as Field Representative.

How many of you students have had to work part-time and borrow from your relatives and home-town banks to go to college???

Maybe you could have qualified for a job like this had you lived in the Governor's home-town and your father was a Cadillac Dealer and worth over One Hundred Thousand Dollars. The Administration's Candidate says he approves all the Combs payrolls — the only thing he needs is keep the Sales Tax on Food, Clothing and Medicine so that they can continue the payroll padding. This is not an isolated case, just one of the many hundreds, in the state of Kentucky.

WRITER TELLS HOW HUGHES WORKED WAY THRU COLLEGE

"College degrees can be obtained on a shoestring budget," Lowell Hughes, a handsome University of Kentucky law school senior, advises high school June graduates.

Hughes, son of Mr. and Mrs. John Thurman Hughes, of Prestonsburg, left home in 1956 with the double-barrel determination to put himself through college—and to eventually study law. He fortunately began early to plan for his upper level education.

Not only were his high school grades at almost A-average level but his skill with a football on Prestonsburg's high school team earned him an athletic scholarship from Coach Blanton Collier at U. K.

Once in college, Hughes soon gained his academic balance and survived the frightening freshman fallout that annually eliminates hundreds.

He made the varsity football team as a sophomore and is proud today of having quarterbacked the only UK squad in history ever to beat mighty Tennessee four years running (that included a victory when Hughes was on the freshman team.)

Even though on a full athletic scholarship, Hughes was not content to leave the playing field once the pigskin season ended; he also went out for basketball and baseball earning letters in each sport.

Good or bad, college turned the dark-haired, six-foot-one Hughes into an inveterate clock watcher.

Even before he obtained his BS degree, Hughes had decided on law as a career. Three more years on the campus meant a drastic re-approach to his budget balancing as he no longer had an athletic scholarship for base living expenses and tuition.

A job with the State Department of Revenue came along just at the appropriate time. In June, 1960, Hughes went to work handling assignments for the Lexington field division of the Frankfort bureau.

"With that job, I could go to school 12 hours a week, and at the same time get valuable experience. I collected cold checks, investigated delinquent sales tax reports, helped tax payers who came into the office," he said.

Bill Forest, assistant to Revenue Commissioner James V. Marcum, commented on Hughes and on the success his bureau had had with hiring men who are being trained in special skills.

"This program has been a help to our department as we can use men learning law, and men studying in adjacent fields, to do the courthouse work we require," he said. "Our field personnel are rated with each supervisor. And Hughes has been one of our best. He's scored well above average; I'd say, even exceptional."

Besides his job and studies, Hughes found time to be elected president of the Student Bar Association, and to work on the staff of the University of Kentucky Law Journal.

He is married to the former Helen Howard, of Allen, and he credits her with efficiently running their household so each dollar is squeezed and each hour stretched. Mrs. Hughes has contributed materially too, to the family bank account by working at UK as a secretary.

Hughes has now resigned his revenue job and is concentrating on his final exams, his June graduation and on his state bar test.

Thinking back over his almost-to-an-end days in college, he says, "The most beneficial aspect of working your way through school, aside from the financial help, is that you must discipline yourself into wise use of your spare time. I consider that almost as important as my college degrees."

PROF. H. M. BROMLEY, BELOVED AREA TEACHER

One of the area's most-beloved teachers half a century ago was Prof. H. M. Bromley, who taught in Pike and Floyd counties. He first came to Gulnare, Pike county, in 1907, at the request of Miles McCombs, school trustee, and taught three years. Many teachers and other professional men of today attended.

Prof. Bromley taught in Prestonsburg in 1909 in the old Prestonsburg Baptist Institute. In a few years he went to Montana and home-stayed. He came back to Eastern Kentucky after improving his land claim and taught again at Gulnare in the early 1920's. He died at his native Gee, Anderson county, Kentucky, shortly after his last school in Pike county.

The First National Bank salutes the memory of Prof. H. M. Bromley and the many outstanding leaders of our area who studied under him.

Lowell Hughes Answers FALSE CHARGES by CHANDLER and His Puppets

I make the following comments in regard to a handbill and to a political advertisement appearing in the May 2 and May 9, 1963, editions of The Floyd County Times:

I have worked for the Department of Revenue and I am very proud of having done so. I have earned, through hard work, all of the money which I have received from the state. I preferred to work my way through college and that is exactly what I have done. I am sorry that some people think I wasn't entitled to do so and that my doing so should be held against me.

I think it is obvious to everyone that this is just the typical Chandler routine. Mr. Chandler and the people of his philosophy that support him do have a claim to fame, they are noted for their reputation of deceit and half-truths. I do not intend to attack any of these people personally, but you know who they are. I think my comments in regard to the handbill will serve to justify and bolster these reputations.

I would prefer that my comments not be taken as a rebuttal or denial of the handbill. I regret even having to give the handbill and advertisement the benefit of comment. However, as is so often the case when you are dealing with the kind of people who surround Mr. Chandler, it is necessary to point out facts which they have conveniently ignored.

The handbill and advertisement contain a complete, outright lie. They say that I was in school during the whole period referred to and that the records will show just that. In fact, and it would be no problem whatsoever to establish, during twelve full months which they make reference to I was not even in school.

They talk about my being a full-time law student but conveniently neglect to point out that this only means that I spent twelve hours during the work-week attending classes. They deliberately failed to mention that I worked an adjusted work schedule so that I could make up the twelve hours a week. They conveniently failed to mention that it took me three years to graduate because of my work instead of two and one-half years. They conveniently failed to mention that I also worked my way through four years of undergraduate school. They conveniently failed to mention the other thousands of students who have worked their way through college.

All of these deliberate omissions are typical of the type of persons who have associated themselves with the handbill and advertisement. Another thing which they neglected to do was to actually challenge the fact that I did the work. There is an explanation for their failure to do this. The type of work that I was doing required that I contact people personally and to prepare reports in regard to these conferences. In addition, in most instances I obtained the persons' signatures on the reports. There are copies of all of this work on file in both the Lexington office and the Frankfort office. Once again, there is no problem in establishing this fact. I think this explains why they did not actually challenge the work.

I wonder why the handbill wasn't even signed. Of course, the advertisement had to be signed before it could appear in the newspaper. If these people are sincere in their efforts, what is this man's name doing on the advertisement? Why didn't someone who is a somebody in the Chandler organization sign the advertisement? Could it be that they were so ashamed of the ridiculousness of it that they refused to take the credit for it?

I think enough of the facts which were ignored have now been pointed out and no further comment is justified. The assertions are so ridiculous that it makes you wonder what their purpose was. My guess is that their purpose was to draw attention away from the things which we have been reading in the newspapers; the things which evidently are true because when they are asked to comment about them they refuse to do so.

I would like to point out that one of my real regrets is that I haven't had more time to devote to the gubernatorial campaign. The issues of a campaign have never before been so clearly defined for the people of our section of the state. We heard Mr. Chandler's promises when he was making the 1955 race, and we saw what he did for our section after he was elected—NOTHING. Contrast that record with the Mountain Parkway, the new lodge at the lake, the new junior college, the new schools in the county and the overall advancement of our educational system. When the contrast is made it is obvious that the right-thinking people of our section of the state must support the energetic and youthful Mr. Edward T. Breathitt.
