Floyd Teachers Vote To Follow KEA Lead

Action Targets Are Gov. Nunn And Assembly

Floyd county's teachers are overwhelmingly in favor of following the lead of the Kentucky Education Association in deciding if they shall, or shall not, call a work-stoppage in protest against the failure of Governor Nunn and the Kentucky Legislature to provide increased teacher

The 11-member executive committee of the Floyd County Education Association in emergency meeting last Sunday at Allen voted unanimously to follow this course. The committee, in a prepared statement,

"We, as a local school association, are extremely disappointed, shocked and dismayed that the Governor's budget and the revised Legislative budget include no additional monies for the public schools . . . It is not our desire to close our schools; however, we feel that the increase requested is a realistic one, would only

cover the cost of living increases . . . The committee emphasized that "if a work-stoppage does occur, it will in no way be a reprisal against the Floyd County Board of Education but directed against the Governor and the State Legislature."

Michael Auxier, of the Betsy Layne high school faculty, and president of the Floyd County Education Association, said that as of Monday night the ballots remain to be received. Not voting on the question are central office staff members, school principals and assistant principals.

County Superintendent of Schools Clark said the board of education has "no particular policy" regarding the matter and has no comment. He did say, however, that when a one-day stoppage occurred during the administration of Governor Breathitt he pointed out that 99 per cent of the teachers in the county are KEA members and that the board was assuming that if KEA called a stoppage the teachermembers would follow its lead.

Bar Association Elects Sturgill

A "Dabbler in Color" Since 16, P'burg Man Is Self-Made Artist

Mr. May retouches one of his paintings that is especially popular locally, since it depicts the West Prestonsburg railway station. Other paintings shown are also his work.

Less than three years ago, Russell May, sign-painter by trade, saw a landscape painting that he liked. He liked it so much that he then and there decided to try his hand at doing one on his own.

Since that time May has done literally hundreds of paintings. The May Paint and Wallpaper Company which he and his wife, in itself, filled with colorful scenes and landscapes that range all the way from

The Prestonsburg City Council at its meeting last week authorized the borrowing of \$11,700 to finance repair of the damaged drain in the vicinity of the Second street flood protection installation.

The repair work by Armco, now in progress, includes lifting of the nearly closed culvert and installation of a steel "sleeve" to permit unimpeded flow of water through the drain. This work is being done at the insistence of the U.S. Corps of Engineers, which installed the floodwall protecting a large portion of Prestonsburg from Big Sandy backwater.

Also authorized was the installation of 19 street lights at the Highland Heights housing project in the Goble-Roberts Addition and the application of gravel to streets there.

Council adopted a resolution endorsing bills in the General Assembly which, if enacted, would provide supplement by the state of policemen's salaries and return to cities and counties a portion of sales tax revenues. The salary supplement for teachers would be partially financed through U.S. grant in the federal crime control program.

Recording at the County Clerk's office of liens held by the city against delinquent property-owners was arranged.

Not in Nixon Budget **Perkins Voices**

Concern; Meet

Slated Feb. 19 Congressman Carl D. Perkins said last week he was "greatly disturbed" upon learning that President Nixon's budget as submitted to the Congress contained no funds for the Martin local protection

project. The Martin project, which will involve the eventual expenditure of upwards of \$5 million for flood protection, has been a pet project of Congressman Perkins, who has led the fight for its approval and funding

over a period of years. Said Perkins in a wire to The Times:

"Apparently the Administration plans to utilize in the coming fiscal year only the \$150,000 appropriated in the Public Works bill finally approved on December 11 during the fiscal year 1971, thus slowing down our table for construction of this important facility. I shall most certainly be doing everything I can to enable construction funds to be provided at the earliest possible date."

The \$150,000 already appropriated apparently will be used for planning and acquisition of easements. A meeting of Martin city officials with the Floyd fiscal court and representatives of the U.S. Corps of Engineers has been scheduled for Feb. 19. Plans for the work and acquisition of easements will be studied.

Funding of the controversial Red River Gorge dam also was omitted from the President's budget, but this is of no significance, since the Corps of Engineers already has \$500,000 for planning.

The President recommended appropriations of more than \$20 million for reservoirs and floodwalls in Kentucky. Of the total, \$19,532,000 is earmarked for construction and \$585,000 for planning.

Projects scheduled for construction funds are the Carr Fork Reservoir, \$5,250,000; Cave Run Reservoir, \$6,425,000; Fishtrap Reservoir, \$1,600,000; North Frankfort floodwall, \$314,000; Green River Reservoir, \$1,643,000, and Laurel River Reservoir,

Co. Board Asks Equipment Bids; **New Gym Opens**

One of the actions of the Floyd County Board of Education at its Saturday meeting was to authorize Supt. Charles Clark to advertise for lockers and a public address system for the new Betsy Layne high school gymnasium which was opened to play only this week.

The first basketball game in the brandnew \$500,000 structure was played Tuesday night. Dedication of the gym, which replaces the facility destroyed by fire two years ago, is scheduled for next week, but the exact date had not been set Tuesday

Also scheduled for bids are materials for the Martin, Prestonsburg, McDowell and Clark schools. Bids on the printing of 1000 copies of the board's policy booklet are also to be sought.

Employed on recommendation of the superintendent were substitute teachers, Sandra Martin, Joyce Stephens, Kathleen Keithman and Georgia L. Blandford; Sam Arnett as substitute janitor at Maytown; Jane Hall as substitute contract driver, and Carl Bentley as substitute bus driver.

Construction Start Near on Hospital

The contract for construction of the \$5.3 million regional hospital on US 23, near Auxier, was signed last Tuesday, and the contractor is now preparing for the beginning of foundation work.

The weather determined the place for the pact-signing. Snow and ice-covered roads made travel from Glasgow, Ky. to Prestonsburg difficult for James N. Gray, low bidder on the project. So a compromise was effected, and Dr. George P. Archer, president of the Highlands Hospital Corporation, and Chalmer H. Frazier, administrator, met Gray in Lexington for the signing of papers, the last step before actual construction.

Construction, the contract provides, is to begin within 10 days of the date of the work order. Gray already had some equipment on the 22-acre site before the contract became official. The work is to be completed in two years.

Work Stoppage by Teachers May Close State's Schools

The Kentucky Education Association's Delegate Assembly has put Governor Nunn and Legislature on notice that a statewide teacher strike could be the consequence if significant progress on four "equal priority" items in its legislative program is not apparent by Friday.

Frankfort, the 687-member policy-making body spelled out the priority items as: 1. The professional negotiation (PN) law

hours at Franklin County high school,

developed by the KEA Commission on Professional Negotiation. 2. Removal of the limitation on local

school-tax rates. 3. Fringe benefits, which include group insurance, personal leave, sick leave, sabbatical leave, and optional retirement of teachers on full benefits after 30 years

4. An annual cost-of-living increase of 6 per cent on the base salary for teachers as indexed by the state's foundation program for education. The base, currently \$5000 for a beginning teacher with a bachelor's degree, would thus go to \$5300 next year and \$5600 the following year.

delegates called the salary proposals of the page.' Democratic leadership, announced earlier the same day, "too low." Democratic legislative leaders have revised Republican Governor Nunn's executive budget, which provided no salary increases In a special session of more than three for teachers, to allow a base salary increase of \$200 next year and a \$100 increase the following year. The cost would be \$16.6 million over the two years.

Originally, the KEA legislative program called for increasing the state-mandated minimum salary to \$6000 next year. The cost-of-living proposal by KEA would cost an estimated \$27 million instead of the \$94 million for the original KEA salary

proposal. Dr. Kenneth Estes of Bowling Green, KEA president, emphasized that singling out four items for priority attention does not mean that KEA is dropping other items

in its legislative program. KEA delegates authorized the KEA board of directors to call them back into special session on February 14 if progress on the four priority items is not made by the previous day. The Delegate Assembly will be mandated "to decide upon a program of

The salary statement came after action to include a statewide work stop-Meanwhile, delegates asked that all KEA

members be polled on the work stoppage

In other action, the delegates declared a "sanctions alert" for Kentucky and asked that the governor and the legislature be made aware of the damaging effect that

imposed. State sanctions are a formal public notice of censure or condemnation by the state education association of an agency, organization, or community, resulting from the violation of standards judged by the association as essential for the maintenance of an adequate educational

KEA president Estes told the delegates, "we are right now face-to-face with one of the most serious crises our schools have ever experienced. Approach this task of securing your fair share of Kentucky's economic growth with a sincere desire to develop plans that would solve the problem, even if it means to move progressively

towards work stoppage." (See Story No. 1, Page 16)

Grade School Youngsters To Play For College Scholarship Benefit

county boys in grade school will play basketball, the week of Feb. 23-28, to raise the scholarship funds which will enable some of their older brothers and sisters to attend college.

The annual event is the grade school tournament sponsored by the Floyd County PTA Council for its scholarship fund. During the last three years the Council through funds thus raised has provided an even dozen \$200 scholarships. This year, five students are attending Prestonsburg Community College and one is at Alice

Lloyd College on PTA Council scholarships. Grade schools of the county are divided into Class A and Class AA, and this year all games will be played at the Prestonsburg high school fieldhouse, beginning on Monday night, Feb. 23, and ending on the following Saturday night. A tournament queen and princess will be named on the closing night, each PTA in the Council will participate in the operation of concession stands, all-tournament teams will be selected—the entire plan is to make the tournament a full-scale operation of public interest. John K. Pitts, principal of the Clark elementary school, is tournament manager.

Governor Nunn's Plan For Welfare Is Sound

mere maintenance to rehabilitation" sensible, realistic and promising more than a day-today existence for the poor.

The governor's proposals to the General Assembly are akin to plans President Nixon has suggested nationally. These are the proposals-and tell us what's wrong with them, if anything:

-1. Require welfare recipients to apply for work or training if they are able. Failure to do so would make a recipient ineligible to further benefits.

2. Establish a Community Resources for Employment and Training Effort (CREATE), in each county to help find jobs for recipients who qualify.

3. Require absentee fathers whose families draw welfare to be "located and required by law to make a financial contribution to the care of the family whenever and wherever possible."

Governor Nunn gets pretty near the heart of the matter when he says that a basic failure of the welfare system as it now stands is that everyone who gets on the welfare rolls "comes to be regarded as permanently dependent."

Men who would work are discouraged by the present system by a regulation which causes them to lose welfare support if they try to become self-supporting. The same system encourages the separation of married couples in

THE TIMES, which has been order to make child support a less than enthusiastic on occasion more lucrative matter. The Aid about some of Governor Nunn's to Families with Dependent policies, finds his proposals to shift Children (AFDC) program is the emphasis of welfare "from costing \$52 million a year, and the end is not yet in sight.

> One reason for this mushrooming cost, and the dim prospects for its reduction, is the refusal of the General Assembly to support Senator Hubbard's bill to set a limit on the number of illegitimate children a woman can bear and still receive this aid. The federal government may be a culprit in this case, since it threatens the loss of federal funds to Kentucky if such legislation is enacted, but this state needs to take a stand in such matters, even if the stand is costly, and Governor Nunn should lead those legislators with whom he has influence in taking such a position.

The governor's plan for men to work, if they are physically able to do so, will lend dignity to welfare recipients whose role in life surely is more than to pick up a check, once a month, and live out that month in near-penury, without hope of bettering their place in the scheme of things, ever. Those who are able to work should be required to work . . . period. They should be required to prepare themselves for gainful employment. Opportunity should be offered. There should be a reward for those who take it. Those who refuse it should be penalized.

Both reward and penalty come under the heading of "incentive." And without incentive man merely vegetates.

At First Basketball Homecoming

Prestonsburg high school had its first homecoming basketball game, the night of Jan. 31, when Miss Pam Spradlin was crowned Miss Blackcat of 1970 by Bill Goebel, Jr., 1961 basketball coach.

Also honored at the homecoming game were 1960-'61 team members, Dixon Nunnery, Ronnie Robinson and Raymond Schoolcraft; the team's coach of that era, Mr. Goebel, and the one cheerleader from that season who was present,

Mrs. Bea Nunnery.

Miss Spradlin and her attendants were escorted in the homecoming ceremonies by members of the current Blackcat team. Shown in photo, from left, are: Connie Clark and escort, Robert Tackett; Debbie Goebel and Keith Leslie; Kerry Shannon and David Neeley; Miss Blackcat, Pam Spradlin, and Larry Senters; first attendant, Betty Meador, and Bobby Howard; Waynette Davis and Jimmy Reynolds.

Fifty-seven years ago, when this photograph was made, the Floyd town of Auxier was one of the prime mining centers in the Big Sandy valley. Photo shows the North-East Coal Company plant (center foreground) and the trestle across the Big Sandy by which coal from the opposite side of the river was transported to the tipple and railway cars. Coal mining is no more at Auxier, but a number of its residents work at mines in the area. The old company store (in foreground)

was put to use, three years ago, as the first building used by the new Princess Manufacturing Company, which has given Auxier a new lease on life. The town is located near what will be the Highlands Regional Hospital, which will be under construction within a matter of weeks, and the American Standard plant which is scheduled for opening soon on what is known as the Kenwood site.

RATE RISE DENIED

Rejection of a request for a 14 per cent rise in homeowners' insurance policy rates by companies which write 90 per cent of such business in Kentucky was announced by State Insurance Commissioner Robert Preston. He estimated such an increase would cost Kentuckians an additional \$2.5

million a year. Preston recalled a hearing last December indicated some relief would be needed this year. He added an increase would be granted when "a request for a proper amount, properly substantiated" is made. He said it was the second time in seven months his department had denied such a request "because it was excessive."

Is It I?

Brother, stop! Don't cast that stone Aimed at another brother, It might not reach the one aimed at, It might wound many others.

It might reach further than you think, Might wound the Elder Brother, Who said, "You do it unto Him, When His little ones you bother."

If Christ has given you the task, To oversee His flock, Who gave you stones to cast about, Not knowing where they'll stop?

There may be goats among the flock, And tares among the wheat. But who among man has the power To make the church complete?

If you would, as Christ has said, Leave all the stones alone, For those to throw who has no fault, Not one would ever be thrown.

Tis true, he said, reprove, rebuke, And told us how, and when, To deal with brethren found in fault, Without casting stones at them.

He gave command to feed His sheep, And to tarry where you go, Till power comes down from Him on high, He gave no stones to throw.

If on that great and noble day, Your work should all be burned, Alas! what precious time you have lost, Which never will return.

Oh! Be your brother's keeper, Protect His lambs and sheep, And Christ will own your labors When He the harvest reaps.

If only kind, persuasive words, Would greet the ears of sinners, From our sacred pulpits here on earth, More souls would enter Heaven.

Don't cast that stone, my brother! Christ never works that way, Be humble, kind, persuasive, And you will gain the day. It.

The marriage of Miss Wanda Gaile Cornett, daughter of Mr. and Mrs. Lucian Cornett, of Warsaw, Ind., formerly of Emma, Ky., to Mr. Gerald Lloyd Collard, of Minneapolis, Minn., was solemnized at 2 p.m., December 21 at the Walnut Creek Methodist church in Warsaw.

Christmas carols presented by organist Mrs. Barbara Asher, of Middlesboro, Ky., preceded the ceremony performed by the Rev. Kenneth Overguyer. The altar was decorated with red poinsettas, white mums, and candles with small poinsettas.

The bride, given in marriage by her father, wore a floor-length white velvet dress with chapel train trimmed with venice lace, and a matching shoulder-length veil. She carried a cascade of small mums and roses.

Mrs. Betty Fore, of Louisville, Ky., served as Miss Cornett's matron of honor. Bridesmaids were Miss Ann Chew, of Warsaw, and Miss Paulette Parker, of Silver Lake, Ind.

Mr. Collard's best man was Steve Skinner, of Racine, Wisconsin. Ushers were Don Heck, Minneapolis, and Ronnie White, Novi, Michigan.

A reception was held for approximately 100 guests in the church fellowship hall, after which the couple left for a wedding trip to Chicago.

The bride is a graduate of Prestonsburg high school and Berea College. Mr. Collard, the son of Mrs. Ruth Webb of Yorktown, Ind., and Lloyd Collard of Muncie, Ind., has a degree from Ball State University, Muncie, and is doing graduate work at the University of Minnesota. The couple is at home at 4024 Sheridan Avenue South, Minneapolis, Minn.

Backs Two Bills

Rep. T. P. (Tim) Reynolds (D-Beaver) is interested in numerous bills now pending in the Kentucky House, but he is giving special support to two measures.

The two bills getting extra attention from the 96th district representative are:

House Bill 12, which would add black lung to the list of occupational diseases covered by the state workmen's compensation law. The bill to raise the pay of county judges to \$12,500 a year.

Revnolds also favors more funds for education, but he says: "I don't know where the money would come from."

Revnolds, a new member of the House, is serving on three committees: Education, Labor and Industry, and Counties and Special Districts.

*At the end of each year.

[†]More than you saved still in account after 15 years of withdrawals.

These figures are projected at 5% a year, compounded quarterly.

This is the plan:

DECIDE HOW MUCH YOU'LL SAVE each month and put that amount aside monthly before you start your spending.

IT PAYS TO REMEMBER that regularity of saving over a period of time is what really counts.

THE CHART IS BASED on saving \$100 monthly for 15 years, then withdrawing \$100 monthly for the next 15 years. Throughout the entire period, interest is added to the account and compounded regularly.

TO USE THE CHART to figure the effect of saving \$25 a month, divide all figures by 4. For \$50 a month, divide by 2. For \$200 a month, multiply by 2, and so on.

This is the time:

LOOK AHEAD 15 YEARS into the future. No matter how young or old you may be, there's something you'll need money for, isn't there?

YOU CAN HAVE the money you need 15 years from now, if you start your own sensible "15-Year Savings Plan" at once. But don't put it off . . .

TIME IS THE MAGIC INGREDIENT in this practical savings plan. And, as the chart shows, time is-literally-money to you. Delay is costly.

SAVING IS EASY once you start out right with a workable plan you know will get results. Here you have the workable plan. Why not come on in and get started on it?

This is the result:

AS SUGGESTED by the example in the chart, you stop saving and start spending at the end of 15

FOR THE NEXT 15 YEARS, spend as much each month as you saved for the first 15 years.

YOU CAN STILL HAVE MORE MONEY in your

account than you put in during the 15 year period.

THAT'S THE MAGIC of compound interest and the secret of the plan. Though you are withdrawing each year, your savings have built up to sizeable proportions and continue to earn substantially for you, year after year.

This is the place

YOUR FRIENDLY BANK is the best place for your savings, and this is why:

YOUR MONEY IS SAFE, insured to the full legal limit by Federal Deposit Insurance Corporation and further protected by sound assets and experienced management.

YOUR INTEREST IS TOPS, always the highest we can pay in keeping with sound management policies. Interest is paid and compounded regularly.

YOU'LL FIND OUR PEOPLE PLEASANT and helpful in many ways. You can open your account, add to savings, or withdraw by mail if you wishthe last word in convenience!

Extension Service Develops Plans For Low-Cost, Economy Homes

By FRANCES H. PITTS

Several plans for low-cost "economy" houses have been developed by the University of Kentucky Cooperative Extension Service agricultural engineer, and several already have been built from the plans, says the engineer, Kermit Mills.

The houses are designed to satisfy housing requirements of lower-income groups. Costs are variable, depending on location and price and choice of lots.

There are three plans available now, for

Few Over Half Thought Eligible File for Benefits

Daryl E. Ratliff, district manager of the Pikeville Social Security office, reported this week that 3,407 protective statements have been received from totally disabled miners, or widows of miners, as written expressions of intent to claim black lung benefits under Title IV of the Federal Coal Mine Health and Safety Act of 1969.

Ratliff said he anticipates as many as 6,000 such statements will be filed with the Pikeville office by disabled miners and widows. Many of the miners are receiving social security disability and retirement benefits. Disabled miners, or widows of miners whose death was due to pneumoconiosis, who have not yet filed, should indicate their intent to claim payment, he said. For the purpose of these benefits pneumoconiosis is defined to mean a chronic dust disease of the lung, arising out of employment in an underground coal mine, such as rock dust, silicosis, or black

The Federal Coal Mine Health and Safety Act provides cash benefits of up to \$272 monthly for totally disabled miners and dependents. Widows of coal miners are entitled to benefits at the rate prescribed for totally disabled miners. It does not matter how long ago death occurred. The widow must not have remarried.

The Pikeville Social Security office services five Kentucky counties, Pike, Floyd, Martin, Magoffin and Johnson, and Buchanan county, Virginia, all of whom are large coal producing counties. The new law does not provide for retroactivity of entitlement, so any person who is entitled but delays filing may miss one or more months

Ratliff explained:

Black lung benefits for miners and widows will be reduced on account of payments under Workmen's Compensation. A black lung claim will not be considered unless the applicant has also filed a claim under the State Workmen's Compensation law, the only exception being where filing would clearly be futile, due to the length of time the miner has been out of work in the mines.

Social Security Retirement and Survivors Benefits will not be affected by the black lung benefits.

Student Probations At P.C.C. at Record Low Last Semester

Prestonsburg Community College set a record this past semester for its lowest plan, two of the bedrooms are in the number of students on probation. basement. This is the only plan calling for a

According to Admissions Officer Thomas E. King, only 13.7 per cent of the 428 students were placed on probation. This amounted to 59 students. Only 3.7 per cent. or 16 students, were dropped.

A student is placed on probation if he is 6-14 quality points down from a C average. A student is dropped if he has been on probation for three semesters or exceeds 14 quality points down from a C average during any given semester.

"Both these figures represent a record the community can be proud of," King said. "Our students are better prepared, study more, and consequently receive better marks," he said.

Hueysville Girl Pens Best Essay In 1969 Contest for Floyd County.

Ronda Hayes, junior at Garrett high school, is the 1969 Floyd County Soil Conservation Essay winner.

The essay contest this year was on the

topic, "Water Conservation and Its Effect on My Community.'

With the full cooperation of the county's schools, a total of 3,657 essays was entered into the contest. This may have led the county to have, again, the highest number of essays in the state.

Trophies were provided by the Floyd County Farm Bureau, the Dewey Lake Fish and Game Club, Wright's Jewelry, The First National Bank and the Bank Josephine. Cash awards were made by the Floyd County Soil Conservation District.

Toni Ranier, eighth grade at Prestonsburg elementary, was runner-up in the county. Thomas Stapleton, junior at Prestonsburg high, placed third.

The school winners were: Weeksbury, Robin Adkins, seventh grade; Banner, Letty Jo Smith, eighth grade; Maytown, Joy Blevins, seventh grade: Maytown, Michael Joe Halbert, twelfth grade; Martin high, Audry Miller, eleventh grade; Martin elementary, Laura Conn, eighth grade; Prestonsburg high, Thomas Stapleton, eleventh grade; Home Branch, Deborah Garrett, sixth grade; Wheelwright, Anna Lee Hall, ninth grade; J. M. Stumbo, Harold Paul Curry, fifth grade; Melvin, Robin Humphrey, fifth grade; Allen elementary, James David Flanery, seventh grade; Ligon, Estalean Newsome, fifth grade; Garrett, Ronda Hays, eleventh grade; Osborne, Judy Martin, eighth grade; Bonanza, Mary Akers, eighth grade; Clark elementary, Demetra Slone, eighth grade; Drift, Cheryl Ann Shepherd, seventh grade; Dwale, Terry Goble, seventh grade; Prestonsburg elementary, Toni Ranier, eighth grade.

IN MEMORIAM

In memory of my dear husband, Luther Allen, who passed away October 15, 1967, and for our forty-fifth wedding anniversary, February 14:

Now you have gone-I am left here with the night-I am afraid of the night that trembles With dreams of you, The sweet, wild beating of my heart, Of the longing which is at once

A joy and a bitter ache. How desolate is the place you were before— Now only emptiness fills my reaching

While the night calls and the wind Whispers of magic through the trees, The stillness oppresses me. I am alone with this night that cries of

I must exist somehow— Struggle through endless hours Until the first pale ray of morning Brings me back into dull yawning day. I must listen to the night call With its soft fearful voice to me. I am oft afraid of this voice-Of this night—heavy and laden With love-empty of you.

Sadly missed by your wife, Helen

Cordell Martin, Hindman attorney and chairman of the board of directors of Calvary College at Letcher, Ky., announces the appointment of Dr. Gillis Partin, of Lexington, as president of Calvary College.

Dr. Partin succeeds Forest Williams, who resigned recently to do pastoral work in Wisconsin. Dr. Partin holds a bachelor of arts degree from Bob Jones University and a bachelor of divinity degree from Dallas Theological Seminary. In 1962, Bob Jones University conferred upon him the honorary doctor of divinity degree. He has pastored churches in Texas, Oklahoma, Alabama, Georgia and Tennessee. His present pastorate is Faith Baptist: The Bible Church of Greater Lexington. For nine years, while engaged as executive director of Ontario Bible Conference, Oswego, New York, Dr. Partin carried on an extensive evangelistic ministry. During this period of time he was asked to deliver lectures on evangelism at Central Baptist Seminary, Minneapolis, Minnesota and Bob Jones University, Greenville, South Carolina.

Mrs. Mary Tackett, 71, Victim of Long Illness At McDowell, Monday

Mrs. Mary Johnson Tackett, 71, of Melvin, died at the McDowell Appalachian Regional hospital, February 9, following a long illness.

Born March 3, 1888, she was a daughter of the late Henry and Hannah Hall Johnson and was a member of the Joppa Regular Baptist church of Melvin. She was the

widow of Harvey Tackett.
Survivors include one daughter, Mrs. Winnie Tackett, of Melvin; four brothers, Malon, Dow, and Kelly Johnson, all of Melvin, and Mander Johnson, of Weeksbury. Nine grandchildren and two great-grandchildren also survive.

Funeral arrangements were incomplete, Tuesday morning, it was said at Merion Funeral Chapel.

(Continued from Page One) "If work stoppage or strike is the only solution, we must all go but we must do it together," Estes emphasized.

Directing his remarks to Governor Nunn and members of the legislature, Dr. Estes, KEA president, has issued the following

"I represent more than 31,000 determined and resolute citizens of this Commonwealth who feel that they have been grossly discriminated against by the Governor in providing no cost-of-living increase in teacher salaries in his budget which appropriated \$90 to \$100 million of anticipated growth in our economy, and by the action of the General Assembly in submitting a budget that provided only an average increase of 3 per cent when the cost of living has risen 6.1 per cent.

"All employees at every level of employment are entitled to an income that adjusts to the economic levels of the times in which they live. This has never been true of the teaching profession. Their raises have always been sporadic when they have had a sympathetic legislature. The legislature holds the reins on both local and state revenue for schools, so we must go to the General Assembly for funds.

"It is unfair that teachers must encounter hardship and even ridicule at every turn when they are forced every two years to make their own fight for professional financial status.

"Governor Nunn implied in a recent news release that we do not have quality teachers in this state. He would have been no doubt correct if he had labeled some of our teachers as lacking quality and not producing quality education. I daresay that some individuals in every occupation known to man fail to measure up to another's evaluation of what should be quality performance.

"However, 31,000 of the same occupation should not be condemned for the faults of a few. I know more quality teachers than I do those who lack quality. More quality teachers would be teaching our children if many of the best did not leave for higherpaying states. Even more distressing is the knowledge that good beginning teachers offered \$5000 to \$5500 in most of our school districts leave immediately after graduation from our state-supported universities and colleges to instruct the children of other states at beginning salaries as high as \$8000.

"In any case, cutting a large segment of a state's population off without its fair share of the state's economic growth is not the way to improve a condition considered unsatisfactory. Higher salaries do not necessarily denote superior teaching. However, they are more apt to attract and hold superior teachers.

"Over 600 teachers came to Frankfort Disney Vanishing Prairie Series, is part of Monday night for a special session of our KEA Delegate Assembly. Many were ready to leave their classrooms immediately, if necessary; many fully expected to stage a work stoppage immediately.

Magoffin Blaze Claims Woman

Funeral of a Magoffin county woman who was burned to death last Wednesday in a fire which destroyed her brother's home at Waldo, Magoffin county, was conducted Friday evening from the residence of another brother, Ollie Howard, at Handshoe, Knott county.

The victim was Miss Evie Howard, 49, a semi-invalid. Her brother, 50-year-old Robert Howard, with whom she resided, was critically burned and is in a Lexington hospital. The scene of the tragedy is on the Trace Fork of Licking River.

Other members of the family, Mrs. Robert Howard, a daughter, Sally, 14, and a six-months-old infant, escaped burns, but Mrs. Howard and daughter suffered frostbite as they made their way, barefoot in near-zero cold, to the home of a neighbor, a quarter of a mile away.

The blaze, which was under investigation last week, apparently had its origin in a wood-fuelled kitchen stove.

Miss Howard was a daughter of the late Reuben and Mary Stone Howard, and was a native of the Salt Lick section of Knott county. Besides the brother with whom she resided, she leaves two brothers, Lee and Ollie Howard, both of Handshoe, and two sisters, Mrs. Dixie Holbrook, Canton, O., and Mrs. Stella Planter, St. Clair, California.

Officiating at the funeral was the Rev. Malcolm Wireman. Burial in the Howard cemetery at Handshoe was directed by the Hall Brothers Funeral Home.
