SPEAKING OF AND FOR FLOYD COUNTY

THURSDAY, APRIL 9, 1970

# 2-Day Measles War Set in This County

A rubella (German measles or three-day measles) control program will be conducted in Floyd county Tuesday and Wednesday, April 21-22, by the Floyd County Health Department at schoolcentered sites for the immunization of all school children through the sixth grade, including day care and kindergarten children.

The program is part of a nationwide effort to control rubella and interrupt transmission of the rubella virus to susceptible pregnant women.

The live rubella vaccine, recently developed by researchers at the National Institutes of Health, has proved to be safe and highly effective in preventing rubella in children.

The State Health Department will be furnishing vaccine. Dr. R. L. Hall, Floyd county health officer, said two teams from the Kentucky State Department of Health will be assisting county health department personnel, using jet injectors (no needles) to administer the vaccine.

Prior to the program, children scheduled to receive the vaccine will be given an information and permission form, which is to be signed by a parent and returned to the teacher no later than April 17. Permission forms which were issued in January must also be in the teachers' possession by this date. No child wll be immunized without written parental consent.

, Rubella is generally a mild illness in park acreage to a total of 32. children, but when the disease is acquired by a woman in the early months of pregnancy it poses a direct hazard to her unborn baby, such as fetal death-or, in the case of a live birth, severe defects such as blindness, deafness, heart disease and

# **Council Hears Park Potential As Grant Made**

If the local community can raise half the cost, improvements involving the expenditure of \$132,000 will be made at Archer Park here within the next three years, Mayor George P. Archer told the City Council at last Thursday's meeting.

The 17 projects proposed for the park may be undertaken singly within the threeyear period, and half the cost will be borne by the \$66,608 grant recently approved for the park by the U.S. Department of Interior. The grant is contingent upon Prestonsburg's ability to provide matching funds.

Improvements planned include a war memorial, a wading pool for children, baseball and softball fields, a bridge spanning Middle Creek and linking sections of the park on either side of the stream, a rock dam across the stream, horseshoe pits and other work.

Council also was told by Dr. Archer that he recently received \$1600 from the state to apply on the purchase price of 7.2 acres of land at the park. This acquisition brings the

# **Suit Claims Jury Choice Skirts Law**

Three defendants in liquor possession cases pending in Floyd quarterly court last Friday asked the Floyd Circuit court to issue an order restraining County Judge Henry Stumbo from hearing the cases because he and the fiscal court have not complied with state law in providing trial

The plaintiffs in the action also ask that on hearing of their suit the injunction be made permanent. The suit was filed by Clyde Blackburn, Landon Charles and Clarence Martin, who said that an injunction is necessary because their cases are booked for trial this month.

Their petition claims that Judge Stumbo and those serving under him and the fiscal court have failed to comply with KRS 25.037, in that Judge Stumbo has failed to appoint, as provided by the statute, three jury commissioners who would have the task of selecting a list of jurors to be used by county and quarterly courts in the trial of cases. Fiscal court also was cited as in violation of the law because it has failed to provide funds to cover expenses in the selection of jurors. Plaintiffs contend Judge Stumbo and those serving under him are proceeding in the trial of cases without providing unbiased jurors as required by state constitution and statutes, and that the fiscal court has failed to create any fund for the payment of jurors for their services in quarterly court.

Judge Stumbo said Monday it appears that he will have to appoint three jury commissioners, provide a jury drum and authorize payment to the sheriff for summoning jurors. But, he added, as for the pay of jurors the attorney general has held that, since the statute in question has not been implemented with funds, the person demanding a jury trial will be required to advance funds as a part of the court costs for jury pay. County Attorney Barkley J. Sturgill said the confused situation may be decided by the Court of Appeals. He pointed out that quarterly court has 12 terms annually and on not less than 24 jurc's would be required for each term. Circuit court jurors are paid \$5 a day by the state. The attorney general in his opinion pointed out that one statute provides only \$1.50 a day for quarterly court jurors. And where the \$1.50 per juror-if any could be had at that figure-would come from is anybody's guess. Nobody expects a court defendant-especially one who loses his case-to provide the money for paying the jury.

# **Court Term Here By Grand Jurors**

A grand jury composed of five women and seven men was empaneled Monday morning at the outset of the current criminal term of circuit court, grand jury investigation of crime and the hearing of a enactment of an ordinance against unpaved few civil cases by the petit jury will cover the court action for this first week of the term.

Hearing of criminal cases is slated to begin next Monday.

Delbert Davis, of Wheelwright, was named grand jury foreman.

In his instructions to the grand jury Circuit Judge Hollie Conley noted that the jury does not have a murder case to investigate.

"That in itself speaks well for conditions in the county," he commented, adding that there was a time when one grand jury session would have as many as 10 to 12 slayings to probe.

"the whiskey business is starting up," Judge Conley said he thinks Sheriff Frank Leslie is doing a good job. He added that some bootleggers may have decided to "give it a try to see if they could get away with it," and that was possibly responsible for the feeling that the liquor business is reviving.

The jury was told to investigate the liquor situation and to have subpoenas issued for any witnesses needed.

The Prestonsburg Woman's Club presented its check for \$140, this amount to be matched by the city for the purchase of 20 litter baskets for the downtown area. A study is to be made which may lead to parking lots which charge parking fees. These, it was pointed out, scatter mud in winter and dust in summer.

# Army 'Snafu' Makes **Floyd Vet Prisoner**

A Floyd county veteran of the Vietnam fighting has been courtmartialed and imprisoned at Ft. Knox, Ky. as a. w. o. l., although the charge was made after he had made four trips from his home at Garrett to the Army post to report for service after coming home on furlough.

The soldier's imprisonment, regarded by relatives and acquaintances as "an Army snafu," has elicited for him widespread sympathy. The chronology of events in the case runs something like this:

Edward Wallen, who was a specialist five of having been assigned there. She added during his service as fuel-truck driver in Vietnam, was drafted in March, 1968, spent nine weeks in stateside training, then was assigned to service in Vietnam where he spent a year before being granted leave to come home. His orders stated he would be given a reporting date later. The date to report never came. Then, out, the soldier was advised he could not be concerned about the situation, the 22-yearold soldier began trying on his own to establish contact with the Army. He went to Ft. Knox first, early last September, but was told there was no record there of his assignment to that base and he could not for that reason be received. He returned home, then returned to Ft. Knox when orders yet failed to come. Again he was told to return home and wait. A third time he went to Ft. Knox and was returned home.

# **'Bad Weather Dream' Becomes Reality with Groundbreaking**

A dream that had its first glimmer in Congressman Carl D. Perkins' Washington office on a snowy day in January, 1965 was officially realized last Saturday afternoon when ground was broken for the new \$5 million Highlands Regional Hospital, near Auxier-and the congressman was there with approximately 100 other residents of Floyd and Johnson counties to mark the occasion.

Dr. George P. Archer, president of the non-profit Highlands Hospital Corporation, told the gathering that "with Congressman Perkins' courage and persistence, and with us doing the groundwork, we have reached this day... Congressman Perkins this day has seen his baby delivered. I hope in two or three years he can see his baby grown up."

Dr. Archer said he and others were in Washington in 1965 on an entirely different project and were confined for some time by the weather to the Congressman's office. It was during a discussion of Eastern Kentucky problems and needs, he said, that Perkins asked, "Why don't you go back and start a hospital?"

As the principal speaker at the goundbreaking ceremonies, Perkins said, "No other place on earth is more deserving of a facility of this kind."

# IN APPRECIATION

I often defend today's youngsters, pointing to some of my own follies at that age, in a day which was known as the "good old days," and thus sorter sidle up to the proposition that these brats of today are, by comparison, pretty nice youngsters, after all.

Last week I saw and heard a wonderful group of high school youngsters who need no defense. They were the Cavalry Teens of Grand Rapids, Mich., brought here by the Rev. Dan Heintzleman. Clean-cut, healthy, attractive American girls and boys who made no pretense of being anything special.

They sang and spoke ... stood up in church. What made them so inspiring was they were not ashamed to speak of their joy in the Christian life and did not hesitate to speak reverently such words as "God," "country," "home" and "mother," which some have relegated to the vocabulary of us "squares." It all sounded good, because they were sincere. I went away with the feeling that if there are enough of such as these in America, we will whip the daylights out of communism and all other isms, including the civic and moral somnambulism that may be the biggest threat of all.

He gave full credit to Dr. Archer for for such facilities-good, modern hospitals and schools and a four-lane main highleading the long battle for the hospital. "Don't ever let anybody tell you he wasn't way-to help the area win its share of inresponsible for this hospital," Perkins dustry. "I am hopeful that US 23 will be paved all the way from South Paint, Ky. to reminded the gathering.

Prestonsburg Community College won the coveted Brown Jug Award at the festival. Prestonsburg won the jug with 220 points, which was based on the total points from the various events of the festival which consisted of archery, badminton, basketball, bowling, chess, golf, pool, rifle, table tennis, tennis, volleyball, queen contest, and talent contest. Elizabethtown Community College placed second with 210 points and Logan Branch of Marshall University third with 135 points.

Prestonsburg won the basketball tournament against Logan, 106 to 84. The consolation game between Elizabethtown and Alice Lloyd was won by Alice Lloyd, 83 to 90.

Prestonsburg received first place honors in female doubles in badminton, basketball, men's doubles in tennis, men's singles in tennis, mixed doubles in tennis, male volleyball, female volleyball.

Elizabethtown placed first in male individual in archery, female individual in archery, women's golf, team competition in formal crowning ceremonies, with Dr. rifle.

# **Education Board And Court Move** For New School

Orders by two agencies of county government set in motion another attempt at awarding a contract for construction of the Right Beaver Creek high school at Eastern in a school consolidation move.

The Floyd County Board of Education last Saturday requested the fiscal court to serve as fiscal agent in the awarding of a contract, and the court responded Monday in a special meeting by accepting the responsibility and authorizing advertising for contractors' bids.

Renovation of an additional science room at McDowell high school also was authorized by the board, and George Lee Shannon, architect, was directed to prepare plans and ask bids on the project. This will be done with National Defense Education Administration (NDEA) funds sharing the cost with the board of education on a 50-50 basis. Superintendent Charles Clark was authorized to advertise for science materials and equipment, for various schools, and the cost of these will also be shared by NDEA.

The board authorized the leasing of a 40 by 50-foot corner of the Auxier school grounds to the Auxier Volunteer Fire Department, which will construct a fire station there. The lease was made at \$1 per year, and the fire department in turn has guaranteed the board protection of the school property there from fire.

Right-of-way entry to the Betsy Layne high school grounds was granted the Department of Highways.

The fourth time, he was charged with being a. w. o. l., was courtmartialed, convicted and sentenced to six months' imprisonment. He also faces loss of

that at her suggestion he called on the Army recruiter at Pikeville, Sgt. Hundley, for help.

W. W. Burchett, Prestonsburg attorney, in an affidavit reviews Wallen's efforts to establish contact with Ft. Knox by going there in person. On each occasion, he points received there because he had no reporting date. After his second trip to Ft. Knox, Mr. Burchett said, Wallen consulted the attorney, who accompanied him to the draft board office. Later, Wallen called at Pikeville on the Army recruiter, who made several telephone calls regarding the case, and advised Wallen to await orders. This was followed by the third trip to Ft. Knox. The fourth and final call by the Floyd countian at Ft. Knox was on Feb. 17. "I feel," Mr. Burchett said, "like this young man has been done an injustice and that the Army should take some steps to correct this error.'

#### FINANCIAL LINGO?

Speaking of church, we have at hand an anecdote that may or may not be apropos. This certain woman called her bank to arrange for the disposal of a \$1000 bond. "Is the bond for redemption or conversion?" the clerk inquired.

There was a pause. Finally the bondholder in a confused voice asked, "Am I talking to the First National Bank or the First Baptist Church?"

BEAUTY GALORE... These girls represented their respective colleges in the Mountain Dew Queen contest during the sixth Mountain Dew Festival held at Prestonsburg Community College, last week-end. They are, from left, bottom row-Amy Mudd, of Lexington Technical Institute, who was crowned 1970 Mountain Dew Queen; Sandy Hayden, Madisonville Community College; Molly Baker, Alice Lloyd College; Joan Perry, Logan Branch of Marshall University; standing-Dianne Duff, Elizabethtown Community College; Patsy Trotter, Hopkinsville Community College; Carolyn "Susie" Robinson, Prestonsburg Community College; Mary Lois Keplinger, last year's Mountain Dew queen.

Resignation of two teachers—Jerry Lee Hall at McDowell high school and Ned Bush at Betsy Layne high-resulted in the transfer of two teachers to fill the vacancies thus created and the employment of two others as replacements for those transferred. Mary Rose Martin was transferred from Garrett high to Mc-Dowell, and Nina Branham was employed as her replacement at Garrett. Donald Daniels was transferred from Osborne elementary to Betsy Layne, and Yvonne Little was hired as her replacement. Leave of absence for the 1970-'71 school year was granted Patricia Branson, teacher at Clark elementary. Orella McGuire was employed as replacement at Prestonsburg elementary for Nancy Webb who is ill.

Roy Frasure and Rex Vicars were employed as regular bus drivers, and John Collins, Donald Nelson, James Falstead and Don Daniels as substitute drivers.

# **Income Tax Deadline**

# **Nears For Kentuckians**

FRANKFORT, KY .- With the April 15 deadline nearing, James E. Luckett, state commissioner of Revenue, says income-tax returns are still not in from over half a million Kentuckians.

About half the state's estimated one million individual income taxpayers usually wait until the deadline to file, Revenue officials say.

As of March 31, some 192,000 state refunds had been authorized, William R. Reed, director of the Income Tax Division, said. He said that from 250,000 to 300,000 more refunds eventually will be paid, after all returns are in.

Corporation income tax returns are due not later than three months and 15 days after the end of the corporation's fiscal year. Some companies operate on the calendar year, but many have fiscal years ending on June 30 or on some other datefrequently governed by inventory convenience.

#### **DINNER GUESTS**

# **Why Wonder About Loss Of Respect for the Law?**

If the official attitude expressed by representatives of state and county governments recently is to stand unchanged, perhaps the General Assembly should be called into special session to repeal some existing laws.

For this attitude, as expressed, is: The coal business must go on and, although its trucks are tearing up highways, they will not be fined for overloading. Frankfort is agreed on that, it was said, and courts of the coal counties are committed to protecting these truckers.

And we wonder why respect for law and order has been lost. Why, if we have sense enough to think for ourselves, should we wonder when government itself ignores the law as it applies to one industry and exacts from another and from private citizens the last, grinding demand of the same law?

THE TIMES recognizes the economic value to Eastern Kentucky of the coal industry. It is a business that is always plagued by difficulties. The federal government has saddled onto non-gassy mines of the region demands by law which were needed in some areas but not here, and this creates a distressing situation which was not necessary to protect the lives of workers.

This is only one instance of the difficulties the coal industry faces as a continuing experience. But, whatever its troubles, this business is not, surely, to be exalted to a place above the law, free to destroy at the public expense, and exempt from laws that have been enacted ror the protection of the public.

We shudder at the thought of organized crime. What can be more organized than for violation of the law (which is crime) to be given protection of government itself?

# Woman's Club **Aids City Clean-Up**

Prestonsburg Woman's Club will spend \$140 for pole litter baskets, and the city council recently voted to match this amount for the same purpose. Mrs. Stanley Combs represented the Woman's Club at a recent council meeting along with representatives of other civic clubs interested in a clean-up campaign for the city. Mrs. Byron Nunnery, president, presided over the club's regular monthly meeting, April 2, at the Floyd County Library. She urged members to attend the spring contest, April 11, at Prestonsburg Community College, and the spring convention in Lexington, April 27 through April 30.

# **Phone Service** Without Toll Seen in Floyd

Paul R. Gearheart, president of the Harold Telephone Company, announced this week that the Wheelwright-Melvin area served by his company will be connected with other sections of the county for free telephone service, effective at 12:01 a.m., July 1.

Gearheart, who said his firm is spending about \$63,000 on the improvement, described the hookup for free connection with other parts of the county as a mutual South Central Bell.

Martin, he said, will serve as a center out of which service to other parts of the county will radiate, and so nine one-way trunk lines will be run from Wheelwright to Martin, with the same number returning to Wheelwright. Six one-way trunks also will be involved, each way, between Wheelwright and McDowell.

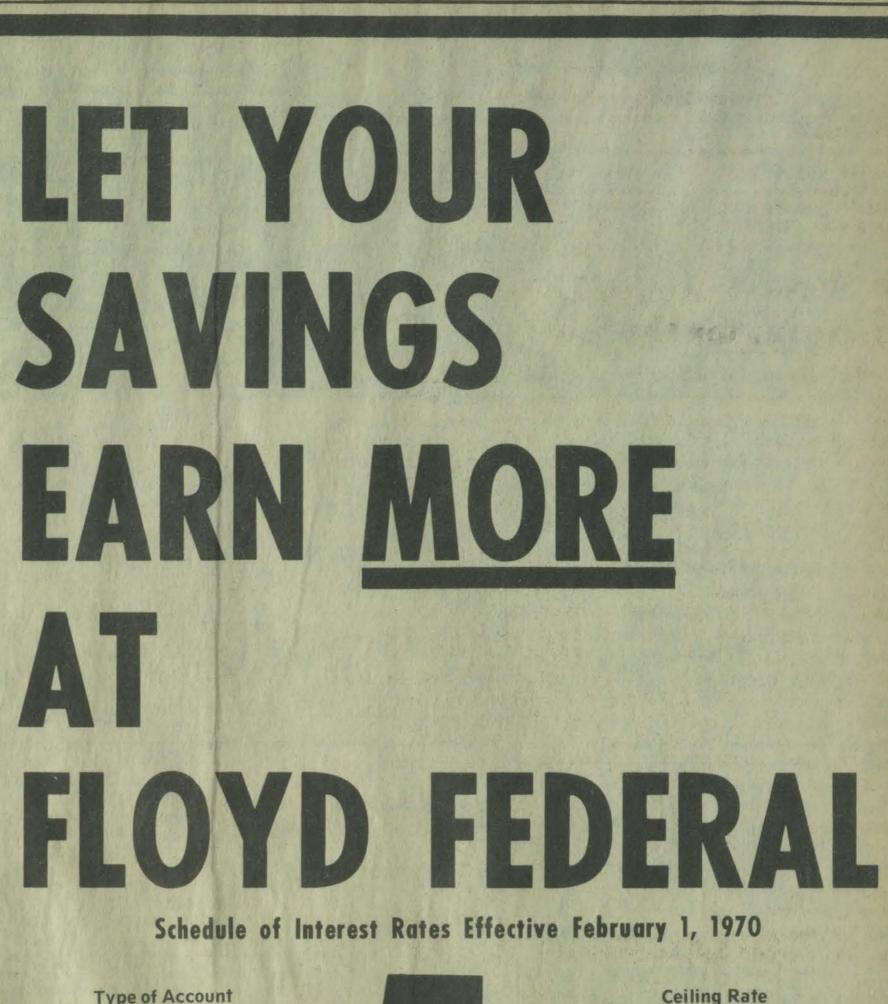

Gearheart also said direct dialing will be in effect between all these points by June 1, next year.

The only section of the county to be left without free connection with the remainder of the county is the Harold-Mud Creek area, which is connected to Pikeville.

# **Boy Scout Council Appreciation Dinner Scheduled April 17**

The annual Appreciation Dinner of Lonesome Pine Council, Boy Scouts of America, will be held at May Lodge, Jenny Wiley State Park, April 17, at 7 p.m., J. M. Wood, Council president, announced this week.

"All Scout leaders and their wives, and Den Mothers and their husbands, are invited to attend," Wood said. This is the occasion when special recognition is given to Scoutmasters, Cubmasters, Explorer Advisors and Den Mothers. Special recognition will also be given to retiring council officers, retiring district officers, and those people who have rendered outstanding service to Scouting during 1969, according to Mr. Wood.

# **A NEW DART FOR NEARLY \$400 LESS. THAT'S WHAT I CALL A WINDFALL!**

To be exact, Sheriff, it's \$378.15 off the sticker price on this Dodge Dart. Here's how the Dodge Boys did it. First, the sticker price has been reduced on all Dart models. (On our Dart Swinger hardtop, this price reduction<sup>®</sup> amounts to \$187.)

Then the Dodge Boys came up with a specially equipped Swinger that includes the automatic transmission at no extra cost. It's called the Dart Swinger Automatic. And it also includes a vinyl roof, whitewalls, carpeting, and more. Add the savings of the automatic transmission (\$191 on V8, \$175 on Six), and you come up with a total price reduction of \$362 to \$378. Makes this 6-passenger Dart America's biggest compact value by far.

More than a hundred years ago, our store owner kept a bear which was chained to a tree next to the store. It was his custom in those days to invite home for lunch all customers who happened to be in the store at the noon hour. The invitation was usually accepted and store and bear were left unattended.

On one such occasion, he and his friends returned to the store to find the bear had broken his chain and was inside the building. They found him inside the overturned sugar barrel, enjoying the sweet. As a result of this incident, he staged the first sale in Prestonsburg ... a sale of the sugar from the barrel . . . at bargain prices.

# You save when you buy it. You save when you drive it.

When you buy any Impala V8 model during our "400" Sale, here's how you can get two popular extras at no extra charge.

You order your Impala equipped with a Turbo Hydra-matic transmission, radio, Comfortilt steering wheel, front and rear bumper guards and white stripe tires. Items you'd probably order anyway.

Then we add our big 400-cubic-inch V8 at 265 hp that runs on regular gas, along with dual exhausts—both at no charge. (The manufacturer's suggested retail price including Federal excise tax for the regular fuel 400 V8 and dual exhausts is \$93.75.) But that's only the beginning. Because your Chevrolet dealer is really anxious

to deal these days.

And the Impala you're buying, of course, got to be America's No. 1 car, because of all the value features built right in. Features like flush-and-dry rocker panels that fight rust. Inner fenders to protect the outer fenders. Long lasting bias belted ply tires, steel guard beams in every door for added protection, an acrylic lacquer finish over its solid Body by Fisher.

All of which contributes to Impala's traditionally high resale value, too.

You're getting America's No. 1 car on sale. The car more people buy-year after year after year. How can you beat that?

## THE FLOYD COUNTY TIMES

#### THURSDAY, APRIL 9, 1970

# **BEST Supports the New School**

the group of citizens from Martin, Maytown, Garrett and Wayland who favor the central high school at Eastern-BECAUSE:

1. The law gives the Board of Education sole right to locate schools.

2. Since Eastern is midway, it is the wise choice. To transport Martin students to Wayland, or vice versa, would be most unfair. Above flood zone, the large site permits future development, in building, sports and parking.

3. DELAY IS COSTLY to all of us. Materials, labor, and interest costs are rising. Aid to Appalachia will end some day. Experts say the national economy is in danger. If a serious recession occurs, or if lawsuits against the school continue, we can wind up without one dime of federal money, and be stuck with four small, rundown high schools.

4. Consolidation is SOUND; advantages outweigh disadvantages. Forty years ago, the county started closing small schools. Did one parent want his child in the old small schools rather than the big new ones? Years ago, Dr. James Conant, then president of Harvard, headed a committee of noted educators who made an extensive three-year survey of high schools across the nation, at the request of the President of the U.S. Their major recommendation was that small high schools everywhere MUST consolidate to maintain QUALITY education.

5. Only large schools can employ more teachers who are specialists, with Master's degrees. Today, many must teach in their minor fields-one reason numbers of our graduates fail in college. This is also one reason that students from large high schools make (on an average) better grades in colleges than those from smaller schools. If small high schools later lose their rating from decreased enrollment or other causes, their graduates will then be required to pass much stiffer college entrance exams. May we suggest that parents opposed to the new school visit Johnson Central and see the advantages offered there over the smaller schools.

6. Only the large schools can provide wide curricula to meet the multiple needs of students today. Years ago professions, occupations, etcetera were quite limited, but not today. Young people go into positions and jobs we never dreamed of. Student talents, aptitudes and abilities vary. It takes some a long time to find what they want to do in life. Many never find it. They go from pillar to post, round pegs in square holes, because they were not exposed early in life to the things they could do best. Small schools could not offer a variety. They never will. Latent talents remain undiscovered, students unhappy. This is another reason so many fail in college, even some from the best families. All students do not excel in the ordinary courses. But numbers are gifted in art, music, drama, athletics, vocational areas, home economics, commerce, countless sciences, and in other fields whose surfaces are barely touched in small schools, if at all. Most Floyd County High Schools cannot now give even one year of one foreign language. It is doubtful if a first-class laboratory for chemistry or physics exists in the county today. Students wanting and needing higher courses in the sciences find only one or two others desiring them. There would be more seeking them in a large school. The bigger library would be an enormous asset. What parent could want his child in a small school when one with bigger opportunities was just a few miles away? 7. We support Eastern because separate locations for grade and high schools are wise. Segregation helps the small children who are sometimes almost run over in crowded halls, restrooms, buses, on the playgrounds and at the fountains. Time allotted them in the gyms and libraries is of necessity limited. Problems of elementary children and teachers differ widely from those on the secondary level. When the same principal must preside over faculty meetings for both groups it is the little ones who get short-changed because of pressing high school problems. 8. An urgent reason for building the new school NOW is that all four of the old high school buildings have been condemned, but there is no choice except to use them or shut down schools. Continued delay in building may endanger our children. Compared with modern standards these buildings are in dreadful condition. All four communities are in the same boat. The old buildings cannot be repaired and modernized until AFTER high school students are attending in Eastern. Summers are too short to permit a decent job. Each town would welcome a new school but schools cost money. The Board of Education would be happy to build new ones in every community, but it must do the best possible with funds available. It is like the man who builds a house; it cannot provide everything it wants. Conditions could be worse in Floyd County. In many places children are attending school in two shifts, from 7 a.m. to 6 p.m. In Martin County 23 pupils have not been to school for three months. THEY CANNOT GET THERE. Let's appreciate what we have and pray for more. Let's take advantage of every cent of federal funds we

BEST (Build Eastern School TODAY) is can and apply for more. Many requests are denied. Most of all, may we pull together, maintain the harmony and friendship of years.

Over 50 years ago, leaders asked to put Morehead University in Martin. Some citizens opposed it vigorously and won. About 15 years ago a few in Floyd County wrangled over the site (and some other factors) of the proposed big central county hospital, whose bond issue passed. We got no central hospital. Thousands of patients and dollars went, instead, to big city hospitals with more specialists and better facilities-money this county needed. Had the hospital been built then, its size and facilities could have been doubled or trebled now under the Hill-Burton Act funds we are at last using for construction of a big hospital that will be on the edge of Floyd and serve other counties as well.

Forgive the hindsight but may all of us use foresight in regard to the new school which gives a tiny hamlet that has not had even a grade school for decades, a chance to grow. Let us rejoice with the Eastern people. Naturally, there is no town quite like the old hometown! Of course citizens of each of the four communities would have been most happy to have the new school there. But may we all be good losers, since Eastern won.

Years ago Bonanza, Lackey, and then Auxier lost their high schools. They were good sports. Garrett and Wayland, Maytown and Martin have been ancient rivals in basketball. Many get a bit "heated" at times, especially in the district tournaments, which thrill everyone. But doesn't the REAL thrill come when the losing team and its fans go to the regional or to State and yell themselves hoarse for the very team that defeated them badly, the week before? Doesn't it warm your heart to see the huge signs favoring the winning team, displayed at the school that lost to them, when some team leaves for the regional or State? What's more, these wonderful kids of ours mean it. They are great in victory but they are often greater in defeat.

It never hurts anyone to be magnanimous. Why can't we adults follow the example of our young folks? How about it?

BEST requests young people of the communities involved to listen for a special message over W. D. O. C. at about 4 p.m.

The last major epidemic of rubella in Kentucky caused an estimated 285 fetal deaths and 360 children born with serious birth defects. These major outbreaks of rubella tend to occur in 6-9 year cycles. Since the last one occurred in 1964, another is to be expected in the early 1970's.

Rubella, commonly called "German" or "3-day measles" is not to be confused with "8-day measles," "old Fashioned measles" or "red measles." Immunization against one will not protect against the other.

Anyone desiring further information about the rubella program may call the Floyd County Health Department.

Dr. Hall said rubella vaccine is also available locally from private physicians.

The Rev. W. D. Jaggers spoke briefly, commending city and state police. Residents of Cow Creek followed the pattern earlier set by those of Middle Creek in petitioning an extension of the municipal water system to their area. The matter was referred to the Utilities Commission. The taxicab quota here was increased from 15 to 16.

**P'burg Man Says 2 Tried Robbery** 

Two men were jailed here Sunday night, soon after a Prestonsburg man had reported to Prestonsburg police that they had attempted to rob him.

The accused men are Dock Blanton and Rafe Lafferty. Harris Campbell, of the Porter Addition, told officers they pulled him from his home, demanded money and that one threatened him with a bottle. The two were arrested Jy Chief of Police Bill Potter and Policemen Blackburn, Click and Frasure. The officers said Campbell was slated to lodge his complaint with the grand jury soon after it convened Monday morning.

Two raids Friday and Saturday resulted in arrests and confiscation of intoxicants by Deputy Sheriffs Bill Hall, Otto Fannin, Hawley Hall and Grady Skeans. A case of beer was reported as having been found on the premises of Homer Stanley, on Abner Fork, Friday, and the following night the haul in a raid on the premises of Marvin Little at Melvin was 23 cans of beer and a half-pint of whiskey.

Mrs. Stanley later produced a Lexington doctor's statement in which he prescribed for her two or three bottles of beer daily, Sheriff Frank Leslie said. She claimed that the beer in her home was bought for her use.

Others booked within the week, charges against each and names of arresting officers:

George Luther Fitzpatrick, driving while under the influence of intoxicants, by State Trooper Gary Rose; George Campbell, a. w. o. l., by Policemen Lonnie Herald and Sam Hale; Wayne Patrick, a. w. o. l., and also held for Magoffin county authorities, by Policemen Herald and Hale; Jimmie Johnson, drunk driving and no operator's license, by Policemen Waddle and Blackburn; John DeRossett, reckless driving and no operator's license, by Trooper Rose; C. M. Whitaker, fishing without license, by Conservation Officer Dalton R. Conley; Kenneth Allen, speeding, by Deputy Sheriffs D. Hamilton and Bill Hall; Thomas R. Burke, no operator's license, by Policemen Potter and Thornsbury; Dennis Watson, operating a motor vehicle while under the influence of intoxicants, by State Trooper Brenner.

The congressman was encouraging about other area projects:

The Paint Creek reservoir in Johnson county, soon to be under construction ("There's going to be money for it this year, although there isn't a cent in the budget"); the Yatesville and Royalton reservoirs will be built.

Chalmer Frazier, administrator of the Highland Hospital Corporation, served as master of ceremonies for the groundbreaking.

Excavation and foundation work for the 150-bed, five story hospital structure has already been started by James M. Grey Construction Co., Glasgow, Ky., low bidder on the big project. Completion is slated for 1972.

# **Turner Home Loss** March 28 to Fire **Placed at \$50,000**

The fire which destroyed the home of Ernest Turner at Drift March 28 caused damage estimated at \$50,000, it was said this week.

Almost all the contents of the two-story brick residence were lost to the blaze. Complete renovation of the home was made in January and new furniture had been installed.

Mrs. Turner was alone at home when the fire broke out. Faulty wiring between the second floor and ceiling of the first floor was blamed for the loss.

The fire truck of the Left Beaver Rescue Squad reached the scene in time to save the carport.

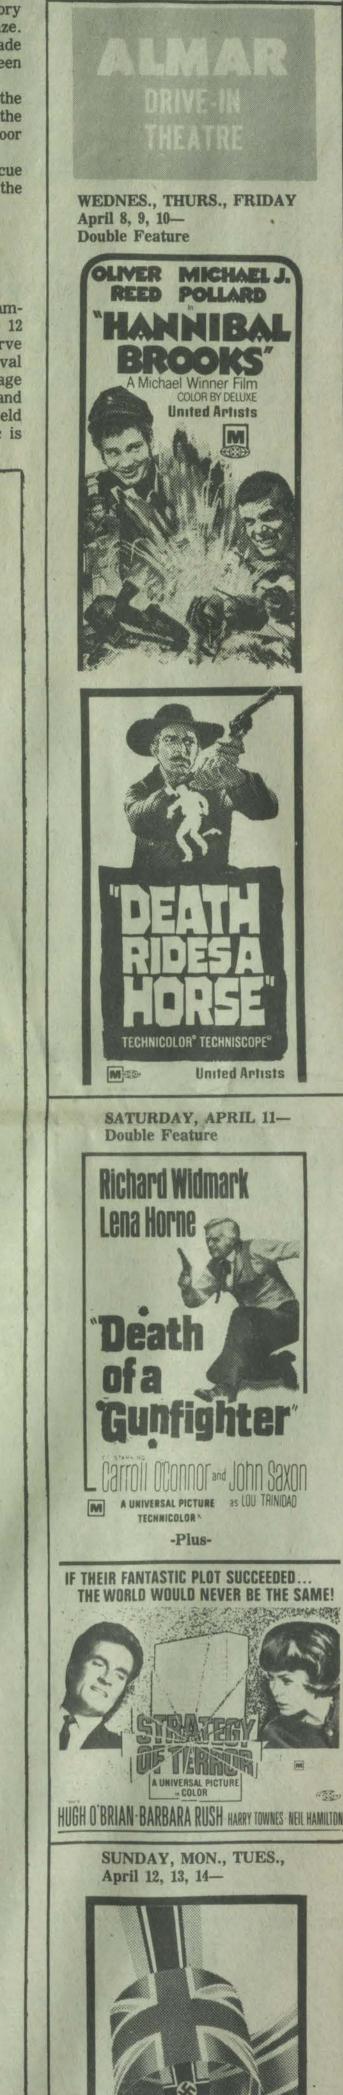

# **To Hold Revival Meeting** At Hi Hat, April 12-18

# **Health Departments To Offer Schooling For Foodhandlers**

The Floyd County Health Department in cooperation with the State Health Department will conduct a Food Handlers School for the purpose of acquainting restaurant and food service establishment operators and food-handlers with the new state Food Service Code adopted by the State Board of Health.

Personnel from state county health departments will conduct the school and explain the rules and regulations of the new code.

## The schedule follows:

Thursday, April 9, 1 to 3 p.m., Betsy Layne grade school auditorium; Betsy Layne, Ky. Friday, April 10, 9 a.m. to 11 a.m., Martin high school Martin, Ky. Dr. R. L. Hall, health officer, said operators of food service establishments falling within the scope of the definition of a restaurant should take advantage of this school, which is free.

# Hueysville Native,

Kruger Martin, 65, Is Victim in Ohio

Kruger Martin, 65, former resident of Hueysville, died of an apparent heart attack at his home in Mt. Gilead, O.

Born November 20, 1905, he was a son of the late Landon and Sally Ann Martin. He was a welder in the gas and oil fields of Eastern Kentucky.

Survivors include a daughter, Mrs. Reda Faye Endicott, of Buchannon, W. Va., two sons, Woots and Joel Martin, both of Hueysville; a daughter, Mrs. Madge Hondel, of Columbus, O., and one grandchild.

Funeral services were conducted Monday afternoon at Hall Brothers Funeral Home chapel, the Rev. Bob Martin officiating. Burial was made in the Roberts cemetery at Martin

Several new events were added this year. A parade of Mountain Dew Queens took place Saturday noon.

Also new was a cheerleader contest, won by Elizabethtown Community College; an art exhibit, won by Nancy Campbell, of Prestonsburg Community College, in sculpture; Paula White, of Logan Branch of Marshall, in painting, and Luona Stephens, of Prestonsburg Community College, in crafts.

Robert R. Allen, coordinator of the Festival, said, "This year's festival was the largest one we have ever had. Probably more people were in the area for this single event than anything else that has ever gone on here. Another partial reason for the success was the ability to use the expanded campus facilities." Allen said the technical vocational buildings auditorium was filled to overflowing for the Queen and Talent contests, and the Student Center was used for playing of some of the events.

# **Dear Citizens of Floyd County**,

Right Beaver Consolidated School? We are a group of interested Floyd Countians who were forced to leave our homes to make a living elsewhere. We still care what happens to Floyd County. That's why we are asking this question, "What has happened to the Right Beaver Consolidated High School?" Many of us read the Floyd County Times each week. We haven't read about any recent progress being made on the building of this school.

The education situation might not seem as important to the people who live there, as it appears to us who had to leave our homes. As we look back, we get a clear view of what it was, what it is, and what it will be, unless people are concerned enough to do something to improve the situation. Since we no longer reside in Floyd County, why do we feel this great concern? There are many reasons. Some of us still consider Floyd County our home. We own property in the county and wish to see our taxes put to good use. Several of us are teachers and are interested in educating all people, not just our own students.

We want to see that our friends and relatives receive a top quality education, and we feel that a large consolidated school can better enable them to receive one. A school of this kind would offer a broader and more meaningful curriculum. A large library would be available to students and class sizes could be smaller. Better studentteachers ratios could be achieved. Teachers would be hired on their own merits rather than their political affiliations. These teachers would be specialists in their fields and would be more effective in the classroom. A consolidated school of this size could offer vocational education units and a wide range of educational units that would better prepare the students for whatever career they wish to pursue after high school. Another important item to consider, is the building itself. Many of the buildings now being used are hazardous traps. They have deteriorated from many years of use and some have suffered from floods.

Many people are more interested in extra-curricular activities during the school years. They are proud to be the parents of the star basketball player, the head majorette, or a beauty queen. We realize these things are important, but we must prepare these students to make a life for themselves as useful citizens when their school years are over. We feel that a large consolidated school, with a good curriculum and teachers who care, can help achieve this goal. We have all attended Floyd County schools. We went out into the world, thinking we had a good education, but soon discovered we had been cheated somewhere along the way. There was so much we didn't know. So many things we weren't aware of. In college, we had to work twice as hard to make up for the background we didn't have. We are tired of

What has happened to the idea of the having to defend ourselves because we are from Kentucky. We are proud of our heritage, but we wonder why people are continuously labeling us as "dumb hillbillies." We need to be equipped with a good education so that we can present a picture wherever we go of an "educated American" rather than a "dumb hillbilly". We are a group of interested Floyd Countians who had to leave our homes, families, friends, churches, and schools. We know that there are many other people who still care about Floyd County. We would like to ask these concerned people to take a little of their time to support better education in Floyd County through the consolidation of Right Beaver high schools. Let's not sit back and be the silent majority, let's speak out for what we believe. It's too late for us, but is it also too late for future citizens of Floyd County?

# **Kentucky Fall and Winter Hunting Dates Are Announced** By HARRY TOWLES

FRANKFORT, KY .- This is for the hunters. For the last few weeks most talk has been about fishing and when it will break wide open. But hunters must be given a bit of consideration and that is exactly what the Fish and Wildlife Resources Commission did at a recent meeting.

Hunters have complained, down through the years, that they were handicapped in applying for vacation dates to coincide with certain hunting seasons-simply because the dates of favorite hunting seasons are not usually announced in time. The commission took care of that little grievance quite adequately at the last session.

All seasons, except those for migratory birds and waterfowl, have been set for Kentucky as of now. The Department of Interior furnishes a framework during which waterfowl or migratory birds may be taken and Kentucky fits its seasons into this boundary. This framework has not yet been announced and therefore the hunting seasons for those species in Kentucky have not been set.

According to the ruling of the commission, the squirrel season will open this year on Aug. 15 and continue through Oct. 31. A second phase will open on Nov. 19 and continue through Dec. 31.

The bag limit again this year is six, with 12 in possession after two or more days of hunting.

Hunters are always interested in the gun deer hunt, especially. That fiveday season this fall will open in all 120 counties on Nov. 14 and continue through Nov. 18 with deer "with antler or spike visible above the hairline" being legal game. In three counties, Edmonson, Barren and Hart, doe may be taken as well as bucks.

The bow and arrow season, in all 120 counties, will run throughout October and December. Of course, the limit for deer in Kentucky is one per year, all seasons included. Dates for the hunting on a number of military installations have not been set nor have the dates been established for controlled hunts on preserves.

The quail and rabbit hunter must have his gun and dogs ready by Nov. 19. That's the day both seasons open. They will continue uninterrupted through Jan, 31, Six rabbits may be taken per day with 12 in possession. The bobwhite limit is 10 per day with 20 in possession.

Grouse hunters will again have a long season. Firing starts on Nov. 19 and concludes Feb. 28, 1971. The limit is unchanged at four per day and eight in possession.

**Funeral Services Held** At Church at Goodloe For Mrs. Marsillett

Mrs. Sallie Hughes Marsillett, 82, of Blue River, died last Monday at Prestonsburg General hospital.

Born January 1, 1888, she was a daughter of the late Mack and Margaret Baldridge Hughes. She was the widow of Jim Marsillett and was a member of the Holiness church.

Survivors include two sons, Tommy Marsillett, of Blue River, and Bill Marsillett, of Tekonsha, Mich.; five daughters, Mrs. Darcus Holbrook, Mrs. Lula Kilgore and Mrs. Oma Adams, all of Blue River, Mrs. Emma Adams, of Salyersville, and Mrs. Katy Spigle, of Claypool, Ind.; a brother, Jim Henry Hughes, of Blue River, and a half-sister, Mrs. Nancy Moore, of Cleveland, O.

Funeral services were conducted Thursday morning at the Pentecostal church at Goodloe with the Rev. Forrester Prater officiating. Burial was made in the

# MASTER COMMISSIONER'S SALE

The Bank Josephine, a Corporation, Plf. VS. NOTICE OF SALE. CR 7,356 Carl Gibson, Glenda Fields and Tommy Fields, Defts.

By virtue of a judgment and order of sale of the Floyd Circuit Court rendered at the February 24 term 1970 in the above-styled cause I shall proceed to offer for sale at the courthouse door in Prestonsburg, Kentucky, to the highest and best bidder, at public auction, on the 10th day of April, 1970 at 10:30 o'clock a.m., same being a day of the regular term of the Floyd Circuit Court, upon a credit of six months, the following described property to-wit:

"Beginning at a box elder at the foot of the hill running eastward 73 feet to the line of Earl Manns; thence running with Earl Mann's line to the road, thence 85 feet running westward with the road to an iron stake; thence running a straight line back to the beginning, containing one acre, more or less."

Being the same property conveyed to Carl Gibson and Glenda Fields (formerly Glenda Gibson,) by deed from E. J. Little and Katherine Little on April 29, 1966, which is duly recorded in Deed Book 190, Page 327, Floyd County Court Clerk's Office.

The amount of money to be raised by this sale shall be in the principal sum of \$71.00 with interest thereon at 6 per cent annually from September 9, principal sum of \$12,963.45 with interest thereon at 6 per cent annually from the 30th day of May, 1969 until satisfied and the costs of this action, including costs of advertising of this sale and the fees and commissions for conducting this sale.

For the purchase price the purchaser must execute bond with approved surety or sureties, bearing legal interest from the day of sale until paid and having the force and effect of a judgment with a lien retained upon said property as a further security. Bidders will be prepared to comply with these terms.

Given under my hand, this 19th day of March, 1970.

3-26-3t.

MARSHALL DAVIDSON Master Commissioner, Floyd Circuit Court. moment of one or two very solemn facts. You are traveling—whether you will or not, you are traveling—to an everlasting heaven or to an endless hell—which? Now this is very solemn, and demands your most earnest and immediate attention.

In the affairs of this life men always like to have important matters settled; and until they are, they are uneasy and restless; but no sooner is all settled than their minds are relieved of every anxiety. And, my reader, if the affairs of your precious soul are not settled, and settled in a divine way, so that you "have peace with God through our Lord Jesus Christ," then remember, if you have peace, it is the devil's peace—the peace of a soul lulled to sleep by Satan, to be awakened (if not in time) by the awful 'judgment of the Almighty in eternity—when beyond all hope. (Ezek. 13:10-22)

Infidelity cannot settle this solemn and all-important question for you. With its cold, cheerless speculations, it cannot brighten the dying countenance with the divine certainty of present peace and grace, and future glory with Christ above. Rom. 5:1, 2. No, no! It may suit the depraved self-will of the sinner here: and at the end give him "a leap in the dark" to find out "the great secret", but it gives no certainty.

Alas! It leaves its dupes in the "outer darkness" of an eternal night!

"Hold on, Jim," said an infidel collier to his dying companion, "hold on, Jim; you will soon find out the great secret." The dying man raised his fast-closing eyes and managed to gasp out, "I've got nothing to hold on by; I've got nothing to hold on by"; and, shortly after, he died—hopeless— Christless—Godless—lost! (Eph. 2:12)

The religion of the world will not settle it for you. Ah, no! The world has a religion without a Savior. It consists in church or chapel going, with a mixture of human goodness added to it; and leaves out the wages of sin, and the precious blood of Christ. Indeed, a person would scarcely be thought respectable if he did not make some sort of profession and go to some place of worship, as it is termed. But that will not settle the question between a guilty dying sinner, and the living, holy God. Never!

Thus the question remains, How are you to meet God? How is this momentous question to be settled, so that God can be glorified and your soul saved?

READER! I want you to think for a Jesus Christ in its solitary dignity settled aoment of one or two very solemn facts. all for me."

> Ah, that was a magnificent answer. It was settled indeed with that old lady. Is it with you, dear reader? It was not her prayers that settled it. No! It was not her tears. No! It was not her religious efforts. No! It was "the blood of Jesus." It was not the blood AND something else, no matter what. No! It was "the blood of Jesus in its solitary dignity." "Oh, the blood of Jesus, the precious blood of Jesus! Oh, the blood of Jesus, it cleanses from all sin."

We see this beautifully brought out in type in Exodus 12:13. The lamb had to be slain and its blood sprinkled, and God said, "When I see the blood, I will pass over you." And He has caused it to be written, "without shedding of blood is no remission." (Heb. 9:22) And, "The blood of Jesus Christ cleanseth us from all sin." (1 John 1:7)

Thus we see it is the blood of Christ that settles it, and the word of God that proves it. God is satisfied with the blood of His Son. When the poor, trembling, anxious sinner comes, he finds the blood of Jesus has satisfied every claim of divine justice, and that God has raised His Son from the dead in proof of His satisfaction. He no longer looks within for peace—he waits for no feelings to tell him he is saved. No! He sees God's entire satisfaction in the person and work of the Savior, and there he finds his own.

How blessed this it! The believer can then say, "It is settled." God sees the blood shed for my sins; and has "raised His Son for my justification." (Rom. 4:25) I am saved. Now I can lay my head down to rest; all the fear is removed from my heart; and I know that whenever it may please God to take me, or Christ may come to me, I shall be "with Himself above, which is far better." Yes, it is settled.

Then the holy life begins; but not till then. Numbers of souls are trying to live a holy life in order to get the matter settled; but this is all a mistake. It is really putting the cart before the horse. There must be life before service. God gives eternal life first as a gift, and also gives us to know the divine and righteous settlement of all our sins; then He can say, "Whom shall I send, and who will go for us?" May you, dear reader, know the settlement of all your sins, and like one of old say, "Here am I, send me." (Isa. 6:7, 8)

CHEAP'S Flemingsburg, Ky. "A Division of Cheap's Chevrolet Co." Only 60 minutes drive From Downtown Prestonsburg Reader, it is God you have to do with! Can you trifle with Him? Dare you attempt it? Can you mock Him and escape? Impossible! Will He be satisfied with a little bit of empty religious profession, which even the eyes of your neighbors can see through? Surely not!

"Be not deceived, God is not mocked." Delude yourself no longer with such foolish thoughts. "The wages of sin is death," (Rom. 6:23) and time is speeding you on to eternity. Where are you to spend it? In heaven or hell, which?

Think of the lifetime of sins which will meet you at the judgment bar! Think of the despised opportunities of blessing, and the slightest mercies. How can you go on, and not have the matter settled? Yet, like Gallio, "you care for none of these things." (Acts 18:17) Remember God has said, "The wicked shall be turned into hell and all the nations that forget God" (Psa. 9:17) and unless you will truly come as a penitent to the feet of Jesus, and trust Him as your Savior, it is settled where you will spend eternity—in the outer darkness, "where their worm dieth not, and the fire is not quenched." (Mark 9:44)

Perhaps you may say, "I do want it settled. I've been seeking salvation for a long time, but seem not to be able to grasp it "

If this is true, is it not because you have been looking in the wrong direction? To have it settled you must look backward, not forward. You must look back to the cross of Christ, and there you will see the settlement of sin.

I remember hearing of a Christian doctor who asked an old lady, a patient of his, if the affairs of her soul were settled. She looked up in his face and gave a most beautiful answer. She replied, "Yes, doctor, thank God they are. The blood of

The clock of life is wound but once,
And no man has the power
To tell just when the hands will stop,
At late or early hour.

To lose one's wealth is sad, indeed; To lose one's health is more; To lose one's soul is such a loss As no man can restore.

The present is only our own; Live, love, toil with a will— Place no faith in tomorrow, for The clock then may be still.

Behold, NOW is the accepted time; behold, NOW is the day of SALVATION (2 Co. 6:2).

WHAT THINK YE OF CHRIST? (Matt. 22:4)

What think ye of Christ is the task To try both your state and your scheme; You cannot be right in the rest, Unless you think RIGHTLY of Him. As Jesus appears in your view, As He is beloved or not, So God is disposed to you, And mercy or wrath are your lot.

Some take Him a creature to be, A man or an angel at most; Sure, these have no feelings like me, Nor know themselves wretched or lost. So guilty, so helpless am I, I durst not confide in His blood, Nor on His protection rely, Unless I were sure He is God.

Some call Him a Saviour in word But mix their own works with His plan And hope He His help will afford When they have done all they can: If doings prove rather too light (A little they own, they may fail), They purpose to make up full weight By casting HIS name in the scale.

Some style Him the pearl of great price, And say He's the fountain of joys, Yet feed upon folly and vice And cleave to the world and its toys. Like Judas, the Saviour they kiss, And while they salute Him, betray— Ah, what will profession like this Avail in the TERRIBLE day?

If asked what of Jesus I think, Though still my thoughts are but poor, I say, "He's my meat and my drink, My life and my strength and my store, My SHEPHERD, my Husband, my Friend, MY SAVIOUR from sin and from thrall, My Hope from beginning to end, My portion, my God and my All."

Believing is the most WONDERFUL thing in the world. Put anything of thine own to it, and thou SPOILEST it. Romans 3:28 says, "Therefore, we conclude that a man is JUSTIFIED by faith WITHOUT THE DEEDS of the law." Galatians 3:11 says, "The just shall live by faith."

# Division Adopts Tougher Policy On Woods Fires

The Division of Forestry is adopting a get-tough policy in a determined effort to cut down on the number of forest fires in this and other areas of Kentucky.

It is taking a new look at violations under KRS 149-375 and 149-400 and has announced that more patrolling will be done than ever before and that citations will be issued wherever a violation is found.

To assist district and county personnel in determining fire causes and to make arrests, seven special investigators have been put to work.

Forrest Burchett, fire control chief said this week:

"Too many fires have been caused by carelessness, too many acres of woodland burned. We ask the help of all good citizens — to obey the law themselves, first of all, and to report to us anyone you know who commits a violation. This information will be held strictly confidential."

Last year, there were 148 fires in Floyd county, and 55 persons were prosecuted for violations. The penalty for a forest fire violation is a fine of \$100 or six months in jail, or both, plus the cost of suppressing the fire.

To report a fire, call the Kentucky Division of Forestry, Allen, phone 874-2822.

# **National FHA Week Now Being Observed**

April 5 through April 11 has been designated NATIONAL FHA WEEK, and during this time members of Future Homemakers of America will carry out special projects and activities designed to share their experiences and achievements with family, friends, and neighbors.

The theme chosen for this year's National FHA Week is, "25 Years of Sterling Opportunity," tying in with the objective for this 25th anniversary year of Future Homemakers of America, "To Promote Communication for the Improvement of Human Relationships."

Mrs. Agnes Foster, state adviser, points out that several million young people have been challenged by the unlimited opportunities offered through membership in Future Homemakers of America over the 25 years since its establishment as a national organization for home economics students in junior and senior high schools. Mrs. Foster states that "members have an opportunity to grow as an individual, to contribute to home and family living, develop leadership, open doors of service to others, prepare for a vocation or profession, make creative and constructive use of leisure time, and most importantly, be a part of a national organization of 604,000 teenagers concerned with people, families, and communities."

The 80 Future Homemakers of America members in Floyd county will join with the more than 604,000 national FHA members across the country in the observance of this special week. There are 16,715 members in 250 local chapters in Kentucky.
