

Hall Murder Trial Begins Here Monday

Extra Veniremen Called As Only 4 Jurors Seated

The work of empaneling a jury for the murder trial of Bob Hall for the slaying of his step-mother, Mrs. Willo Dean Bentley Hall, at Allen Jan. 12 was begun Monday, and it appeared that testimony in the case may not be heard before Wednesday.

The regular panel was exhausted Monday, with only four jurors accepted by both Commonwealth and defense. Sixty veniremen were summoned to appear Tuesday for possible jury service.

Although Hall, a part-owner of the Hall Concrete Products Company at Allen, was named in murder indictments for the revolver slayings of both his father, Edgar H. Hall, and his stepmother, the Commonwealth elected to try him for the slaying of Mrs. Hall.

Preparing for the trial, the defendant, by counsel, filed a motion Friday to require State Detective Chester D. Potter to produce pictures taken at the scene of the double slaying. The photos were made available the following day.

Otherwise, the current court term has dragged. Only one conviction has been recorded, and that resulted in a one-year pen term for Charles L. Phillips, who pleaded guilty to a grand larceny charge. The shooting and wounding charge against Russell Thornsby was dismissed.

Also dismissed, on motion of the prosecuting witness, was the desertion charge against T. Y. Jarrell. The \$500 appearance bond of MacArthur Stumbo, accused of child desertion, was forfeited when he failed to appear for trial. The appeal of German Salisbury from a quarterly court conviction for possession of alcoholic beverages for the purpose of sale was dismissed and the case was remanded to quarterly court.

Out of Stockade, and Now Back, Story of Pvt. Wallen vs. Army

The case of Pvt. Edward Wallen vs. the Army entered a new phase, April 13, when he was once more charged with being a. w. o. l., and once more is in the stockade at Ft. Knox.

Wallen was granted a week-end pass for the week-end of April 11, came home and was married Saturday to the former Madonna Williamson, daughter of Mr. and Mrs. W. H. Stratton, of Betsy Layne. Next day, he called the duty officer at Ft. Knox to ask an extension of the pass in order to help his wife move her trailer. She had been notified that it had to be moved within the next two days because of new road construction. Wallen avers that the duty officer, though saying that he could not grant the extension, did say that it would be all right to stay overnight and call the first sergeant on Monday morning.

Monday morning, Pvt. and Mrs. Wallen called Ft. Knox, and were referred to a major on the clemency board who told them he could not extend leave on a pass,

A feature of the revival will be Youth Night on Friday, May 1, when the youth choir under the direction of Gus Kalos will present the folk-musical, "Purpose."

Layoff of 180 At KAI Plant May End Soon

End of the temporary lay-off of 180 workers at the KAI plant in West Prestonsburg may come by next Monday. L. E. Danielson, plant manager, told the Times that government representatives who were here Wednesday will decide whether to reject or approve material from which wet weather parkas are being made for the Navy.

Shrinkage problems with the material caused the first lay-off three weeks ago. Workers returned to work the following week, but the same problem again forced their temporary lay-off last week.

Mr. Danielson said that once the workers return, enough orders are on hand to keep at least 300 employees busy throughout the summer. While the stoppage has meant a loss for both workers and KAI, he said that he could make no estimate at this time.

Floyd Man Slain, Brother-in-Law Held in Pike-Co.

Bond of \$25,000 has been asked for the release of Henry D. Bailey, 38, of Island Creek, who last Wednesday morning shot and killed his brother-in-law, Bill Jones, 30, native of Bevinville and a Pike coal mine foreman. Bailey had not executed bond, Monday afternoon.

Jones was slain at 6:15 a.m. last Wednesday as he walked out the driveway of his home, which is next door to the Bailey residence. Two acquaintances, Charles and James Donald Salisbury, of Toler Creek, with whom he rode to work, waited for him in their car when three shots were heard.

One bullet struck the former Floyd man in his temple, another passed through his body at his armpit and a third struck him in the back. Roland Jones, former Floyd county bookmobile driver-librarian, said he was told the Salisbury brothers reached his brother before he fell.

The report received here said the shots were fired from a distance of about 12 feet and that Jones fell in front of the Bailey home.

The two men had argued, several days before the shooting, State Detective James Harmon said, but there had been no further known trouble.

The victim was born March 28, 1940 and was the youngest son of the Rev. Charlie Jones and Mrs. Lottie Hatfield Jones, of Bevinville. He was a Marine Corps veteran of the Korean Conflict. In addition to his parents, he is survived by his widow, Mrs. Judith Ann Holbrook Jones; two sons, Billy Charles, 4, and Wayne Ellis, 6 weeks old; two brothers, Roland Jones, of Printer, and Buck Jones, Columbus, O.; six sisters, Mrs. Virginia Johnson, Mrs. Charlene (See Story No. 5, Page 12)

FISHING REPORT

The population of the Center Hill Reservoir area, around Cookeville, Tenn., was diminished by six when we left Sunday morning, but the fish population was still holding its own, in case you want to know. Things, however, have taken a turn for the better. I didn't ride in on the wings of a storm, but we barely cleared port just ahead of one.

FIFTY-NINE YEARS AGO

At hand is a report from the Metropolitan Life Insurance Company which lists my old friend, George W. Snodgrass, as the No. 2 agent of the company in a 11-state area of 7,000 agents and No. 8 among the 17,000 in the United States and Canada. What makes this item unusual is that this was the company's report for the period ending with July 31, 1911. And he's still in insurance.

NOT MY ITEM

That item in this edition which says daylight saving time will be upon us next Monday was not written, I wish to make it perfectly clear, by yours truly. If the date is wrong or there are any questions, I will provide the number to call. (See Story No. 4, Page 12)

That Early Riser, DST, Is Due Next Sunday (It Says Here)

Heard along with the voice of the turtle in the land next Sunday will be moaning, groaning, gnashing of teeth and other more unprintable comments normal for the human animal when confused, confounded and frustrated. Yes—daylight saving time will have arrived, and it will undoubtedly be for some, if not most, later than we think.

Spartan individuals will, of course, simply set their clocks ahead an hour before retiring Saturday night, get up when the alarm sounds on a bluer than usual Sunday morning, stagger around for an hour or so, and revel in the extra hour of gardening, golfing, or working time they've gained.

Magoffin Man, 82, Shot Accidentally, Is Hospitalized Here

William Patton (Win) Allen, 82-year-old Magoffin county man, is in fair condition at the Prestonsburg General hospital after suffering an accidental revolver bullet wound last Thursday morning at his home.

The bullet penetrated the large intestine, his stomach and lung.

The elderly man, it was said, had slept with a revolver under his pillow or within easy reach from his bed for years. On the morning of the accident, this report continues, he arose from bed and walked across the room with his finger in the trigger-guard of the weapon. He stumbled, and the revolver was discharged. Mrs. Allen was with him at their home at the time of the mishap.

Craft Is Nabbed In Meter House, Held for Theft

Sheriff Frank Leslie said that a Magoffin countyman held in jail here on breaking and entering and grand larceny charges was caught Sunday inside a meter house of the Kentucky West Virginia Gas Company.

The prisoner, Grover Craft, a man in his 40's, had in his possession at the time of his arrest two jars of mercury which, officers alleged, had been taken from gas meters.

The mercury, without which meters are inoperable, sells for \$10 a pound, the sheriff said. Gas company officials said that at one time five gas wells were shut down because mercury had been stolen from meters.

The week-end was a busy one for officers as 40 persons were jailed. Two raids failed of result, and the third netted only two cans of beer—"not enough to report," Leslie said.

Booked on major offenses were: Lloyd Robinson, drunk driving, by Policemen Bill Potter, Girven Waddle and Tom Blackburn; Kathryn Calhoun, drunk driving, by Policemen Bill Potter and Lonnie Herald; Roy Boyd, drunk driving, by Lt. Sword of the State Police; Mark Edward Dempsey, drunk driving, no operator's license and resisting arrest, by State Troopers Rose and Bevins; Ralph Lewis, drunk driving, by State Trooper E. B. Allen; Noah Robert Nichols, drunk driving and no operator's license, by State Trooper Bevins; Volley Church, Jr., drunk driving, by State Trooper Allen.

Case Histories Back Plea Made by Agency

Asking the public for help in providing temporary shelter for its wards, the Child Welfare Agency this week used two case histories to emphasize the urgency for Floyd county residents to become aware of the vital part they could play in caring for those who are unable to help themselves.

Case 1: Sheriff Frank Leslie called a Mental Health worker on a recent week-end, reporting that he had taken into custody a 20-year-old girl and her six-months-old baby who had just arrived by bus from Ohio. The girl had come to this area in what appeared to be a fruitless search for the father of the child. Desperate, she had attempted suicide. A doctor was called, and the young mother was immediately sent to Eastern State Hospital, Lexington, for treatment. Then Mental Health began a search for a place for the baby until the following Monday when Child Welfare could help.

Interest Nil With Only 2 Men in Race

First preparations were made Friday for the May 26 primary election which may set an all-time low for interest in politics in Floyd county where politics normally serves as a daily eyeopener.

Only two candidates for the Seventh district Congressional seat—both Republicans—will appear on the ballot, since the Democratic incumbent, Carl D. Perkins, is unopposed in the primary. The election, which will cost the county between \$6,000 and \$8,000, is such a washout, interest-wise, that new election commissioners have not been appointed, and the old commissioners were required to act in the selection of precinct officers last Friday. Precinct chairmen even neglected to submit names of prospective officers, and the commissioners were forced to make their selections from voting lists and their own knowledge of party members in the 43 precincts.

Incidentally, the two Republicans whose names will appear on the mini-ballot are (See Story No. 1, Page 12)

Youth Assumes a Role Of Needed Leadership

This week is being marked across the land by observances on college campuses of Earth Day, which is designed to create a national awareness of the mortal threat to the environment.

It is well that youth is assuming a leading role in the fight that must be waged to protect this country from deadly pollution of air and water and from those deadly chemicals which threaten every living thing. We say that, because it is obvious that not enough of their elders are really concerned.

We trust these youngsters will not permit their role to degenerate into mere demonstration and a destructive attitude at a time when they are aligned with those who would preserve a livable environment. They can get their point across, can influence thinking, through civil means. Wild-eyed disorderliness will not restore order to the ecology or anything else.

In future assemblies arranged for the discussion of the peril humans face these young people should attempt to induce industrialists, civic leaders and officials of all degrees of importance to hear their story. These leaders should be given an opportunity, also, to state their own case.

It seems important, in particular, for city, county and state officials to get into the picture. They need to know, first-hand, the thinking of the generation that must live—or die—with this mess the older people of the country have created.

Spawn Damage At Lake Feared

The water level at Dewey Lake, rising since April 13 toward summer pool stage after having been dropped eight feet, gained only 2.7 feet in the first week, and fishermen are wondering if the bass spawn for the season may not be adversely affected.

The average rise is about 3 1/2 inches every 24 hours but this rate picked up with a week-end rain. Dean Murray, reservoir manager, said he believes the lake will fill by May 1, even if there is no further rainfall.

Mr. Murray said he does not believe the bass spawn will be affected but added this was merely his own personal opinion. He quoted Bernard Carter, director of the Division of Fisheries, as saying before restoration of the summertime pool began that he did not expect any harmful result.

If bass begin nesting at the present low stage, the water would rise approximately five feet above the spawn, and this could cause trouble, some fishermen say.

Blackburn-Burton Vows Exchanged

Miss Constance Glee Blackburn, daughter of Mr. and Mrs. Lloyd R. Blackburn, of East Point, and Herbert Alan Burton, son of Mr. and Mrs. Herbert H. Burton, of Hager Hill, exchanged wedding vows, March 29 at the Little Paint Church of God. The double-ring ceremony was performed by the Rev. T. W. Farmer at 6:30 p.m., before an altar decorated with greenery and branched candelabra holding lighted tapers.

Preceding the ceremony, Mrs. T. W. Farmer, pianist, presented a program of wedding music, and Jerry Meek, soloist, sang, "I Love You Truly."

Given in marriage by her father, the bride wore a floor-length gown of white satin, fashioned with a Victorian collar and long sleeves puffed at the top and fitted at the wrists. Delicate lace appliques with seed pearls and French sequins. Her bouquet was of white mums and pom-poms tied with satin streamers.

Mrs. Larry Lyons, sister of the bride, was matron of honor. She wore a floor-length gown of maize chiffon trimmed with white lace, and a matching headband. She

carried a multi-colored nosegay of pom-poms.

Larry Lyons acted as best man, and ushers were Mark Burton, brother of the groom, and Tony Burchett, cousin of the bride.

Miss Sandra Kaye Burchett, cousin of the bride, was flower girl, and her dress was similar to that of the matron of honor. Master Steven Burton, brother of the groom, was ring-bearer.

Following the wedding, a reception was held at the home of the bride's parents. The bridal table was covered with a white linen cloth bordered with handmade lace and centered with a three-tiered wedding cake, flanked by white tapers. Assisting were Miss Gen Mace, Miss Rita Burchett, Mrs. Bob Burchett, Mrs. Gary Burchett, and Mrs. Denzil Walker.

Mrs. Burton is a graduate of Prestonsburg high school and is now a sophomore at Prestonsburg Community College where she is majoring in physical education. Mr. Burton is a graduate of Paintsville high school and is associated with radio station WDOC. They are residing at Indian Hills in Prestonsburg.

MAY INCREASE ASSESSMENTS
State Revenue Commissioner James Luckett said his department, as empowered by law, may order property assessment increases this year in counties where property valuation standards fall short of the court-ordered 100 per cent level. It is too early, Luckett said, to tell which counties will get the state-imposed increases but recent figures show 51 per cent are liable unless their assessments have been raised since 1968.

**April Proclaimed
Clean-Up Month Here**

Mayor George P. Archer this week issued a proclamation designating April as Cleanup Month in Prestonsburg and calling upon all residents to join in the move for a cleaner, and more beautiful community.

The proclamation pointed out, in part: "Ours may be only a small part of a big America, but no individual has a greater responsibility to the national environment than any one of us, because cleanup and beautification begins at home... I earnestly urge every person to become an active participant in this movement which is important to us all."

Mayor Archer said that if householders, owners of businesses and others will collect refuse from their premises next to the street bordering their properties, a city truck will haul it away. Those desiring this service should call the City Hall.

IN MEMORIAM

In loving memory of my husband and our daddy, Scott Compton, who passed away April 25, 1967:

Three years has passed since that sad day the Lord called our daddy home to sleep and rest. Our home will never be the same without our daddy there to greet us with a smile. You were a wonderful dad to us all. Our family circle has been broken on this earth, but I pray that some day the family can all have a reunion in Heaven where Jesus will be in that reunion with us. The Lord loves us enough to give us eternal life and he promised us a mansion in Heaven if we would all live for him.

Daddy, mother spends a lonesome life without you but we understand the Lord giveth and the Lord taketh away. But there is coming a day we that line for the Lord will see our loved ones that died in the Lord, when our Jesus comes back for his children. Daddy, I want to see Jesus first of all. Then I will be looking for you. We miss you so much, your sweet memory will always be here with us, dad.

Pikeville College Plans
Three Summer Sessions

PIKEVILLE, KY.—Pikeville College will, for the first time, present a summer study program of three five-week terms, John Waddell, registrar, has announced.

The three summer terms are possible because of an early commencement, resulting from accelerated fall and winter study schedules. Six hours credit may be earned in each session.

The first starts May 6, the second June 10, and the third July 15.

Registration is scheduled at the college gymnasium on the opening day of each term.

Seniors who will participate in this year's commencement on May 3 may register from 9 a.m. to 9:30 a.m. All others may register from 9:30 a.m. to 11:30 a.m.

The VA says about 3,300 payments (not to exceed \$1,600 each) toward the purchase of an automobile will be made in fiscal year 1971 to veterans who lost the use of an extremity or were blinded during military service.

S-SGT. CARVER MEMBER OF OUTSTANDING UNIT

NORTH CHARLESTON, S. C.—Staff Sergeant Daniel V. Carver, whose wife, Betty, is the daughter of Mr. and Mrs. Hansford Honeycutt, Auxier Road, is a member of a unit that has earned the U. S. Air Force Outstanding Unit Award.

The 437th Military Airlift Wing at Charleston AFB, S. C., was cited for meritorious service from July 1968 to July 1969 for its support of military operations. This marks the fourth time in five years the wing has been honored as an outstanding unit. Sergeant Carver, an aircraft maintenance technician in the 437th, will wear the distinctive service ribbon to mark his affiliation with the unit. He was graduated in 1952 from Prestonsburg high school.

PRESTONSBURG CHEERLEADERS, winners of the Class AA cheerleading championship trophy, awarded at the Floyd county elementary school tournament held here in March, are from left to right: Sandy Collins, Suzanne Harris, Locky Lambert, Sharon Branham, Caroline DeRossett, Tammy DeRossett, Connie Pelphrey.

Speaker Says Drug Problem Challenges Parents, Teachers

"We see drug use and abuse as a problem and as P. T. A. people should do something about it; we must speak out against these things," Mrs. James Gibson, third vice president, KCPT, said at the morning session of the Ninth district spring conference, Kentucky Congress of Parent and Teacher Association, held recently at Jenny Wiley State Park.

Mrs. Gibson, of Louisville, is from Fifth district and has served in various offices on the local, council, district, and state levels. She has been juvenile protection chairman and character and spiritual education chairman, is active in church work, organist in the Eastern Star, has been a teacher in a rural school and is presently employed by the health department. Mrs. Gibson added, "As parents our example has much to do with the situation; children want to identify themselves, so they copy their parents. We are determined our children should have all the material things they need, but they need love." Mrs. Gibson gave nine points to help combat the use of drugs among our children through com-

munity action to help disadvantaged groups; realize we have a responsibility for our own drug use; be alert to warning signals for signs of drug pushers; educate young people fully about drugs; school education should begin as soon as young people are exposed to drugs in the community; help disadvantaged and advantaged groups have hope for the future; face the fact that it could happen here; realize in order to support a 'habit' it takes money which in turn leads to crime and can be very costly to a community, money-wise, and believe that you are only one but you are one and you will make your voice heard.

Mrs. James E. Adkins, president of the Ninth district, headed the board of managers meeting and the general session. At the pre-conference board meeting, Mrs. Goldie Short, Mrs. Paul Ratliff and Mrs. William Cornette were appointed to audit the minutes. Committee to audit the treasurer's books include Mrs. Clyde Blevins, Miss Blanche Dingus and Mrs. Gaylord Pack, Jr. Vacancies filled on the board were Mrs. John BelHasen, human relations chairman, and Mrs. Lawrence Armstrong, character and spiritual education chairman. Delegates named to the state convention which will be held in Louisville, April 20-22 are Mrs. Earl Smith and Mrs. Charles Wright. Alternates are Mrs. Minnie C. Winder and Mrs. Paul Williams.

At the general meeting, the Rev. Dan Heintzleman, of Martin, gave the invocation, and Miss Blanche Dingus led the salute to the flag. Charles Clark, superintendent of Floyd county schools, welcomed the guests, and Dr. William R. Eidson, superintendent of Boyd county schools, gave the response.

Miss Blanche Dingus, Prestonsburg, was elected second vice-president, Mrs. Paul W. Williams, Ashland, third vice-president, and Mrs. Earl Smith, Ashland, recording secretary. During the morning session, special music was presented by the Boy's Choir, Prestonsburg elementary school, under the direction of Mrs. Kathryn Frazier.

Station WUKP-FM Prepares For Air

Final Government inspection is all that awaits WUKP-FM, Prestonsburg Community College's new FM radio station, from going on the air. Approval is expected within 5 days.

According to Thomas E. King, advisor to WUKP-FM, "construction of the station has been completed with the building of a custom console and installation of tape recorders and turn tables. The result is one of the neatest appearing stations I have ever seen."

The addition of the FM radio station is part of the expanding communications program being offered at PCC. The station will operate about 35 hours a week during the weekday only. Students will operate the station with only major program decisions made by the advisor.

WUKP-FM will transmit 10 watts on 89.1 mhz. on the FM band. Programming will include several hours a day of educational programs, commentaries, and documentaries, etc., an hour of classical music, and several hours of local material produced by the station.

The station has already received many different programs to air but desperately needs records of both a classical and popular music type. Magnetic tapes are also needed. Individuals wishing to donate material to PCC's new FM station should contact Thomas E. King at PCC, 886-3863, Ext. 251, or they may leave them in the main office of the college.

Do you put a higher price on an Olds than we do?

Our own surveys indicate that quite a few people think an Olds costs a lot more than it really does. Result? Many people buy an ordinary car and end up with a lot less car and value for their money.

It's so unnecessary, too, because Oldsmobile has many models that are priced right down with so-called low-priced cars. See your Olds dealer. He'll prove that you're closer to Olds than you think.

Girl Scout Council Holds Area Meeting

Adult volunteer leaders from five counties, including Floyd, met at Pikeville Tuesday for a semi-annual area meeting of the Wilderness Road Girl Scout Council.

Principal speaker at the luncheon was Richard K. Howard, former Floyd man who is professor of special education at Pikeville College.

The area is made up of Floyd, Pike, Martin, Magoffin and Johnson counties and serves 222 girls in 16 troops. It is part of the Wilderness Road Council, which has headquarters in Lexington and serves 55 counties in Central and Eastern Kentucky plus one each in Ohio and Tennessee.

Registered adult Girl Scouts in the area were given a chance to "have their say" about the direction Council planning will take, goals that will be set and leadership that will be selected.

Principal business at the area meeting was to elect delegates to the annual Council meeting and to choose members of the nominating and resources committee.

Easter Visits, Gifts Bring Smile To Voiceless Patient at Home

Rosa Vesselka, the patient at the Golden Years Rest Home, Lackey, who has not uttered a word since she came there months ago, found Easter such a happy time that she smiled and waved happily. Her return to reality was evoked by the Maytown Homemakers Club and its two live bunnies, Madonna Branham and Connie Gray, who brought gifts to the old people at the home.

Shown in photograph at left is Mrs. Vesselka, holding one of the "bunnies." Standing at rear is Mrs. Otha Hopkins, Maytown teacher and member of the club.

Patients at the rest home had a triple treat for Easter. On good Friday Mrs. Sue Osborne and Mrs. Delcie Gayheart representing the Homemakers Club, delivered gifts of milk glass bud vases filled with artificial roses to each patient. On Sunday Mrs. Osborne and Mrs. Gayheart and other club members returned with colored Easter eggs and candy. Mrs. Kathy Halbert and her Sunday School class of preschoolers and first-graders were there to help with Easter cards made at school. The

gifts were appreciated, but more than the gifts, the patients appreciated the fellowship and concern that prompted the gifts.

Also entertaining the patients and visitors that day was a string-band and singers, Mr. and Mrs. Eddie Taylor and children from Hunter and Mrs. Rebecca Roberts and Mrs. Mary Jenkins, of Martin.

Mrs. Gladys Rowe Wolfe, Columbus, Ohio, was so touched by the gratitude of the patients that she decided on returning home, to do a bit extra for them. Through a family friend who distributes potato chips, she received a huge donation and sent them down, Easter week-end by sister Augusta. Mrs. Shirley Stewart and Maytown students promptly followed up with another treat of pop and chips. One old fellow remarked, "My, my! It's Christmas every day!"

Mrs. Marcella Bailey, Club president, says she has been amazed at how the gifts, when asked in the name of "the least of these," poured in.

Annual Observance Slated April 28th

The annual call to Prayer and Self-Denial is issued by the Women's Division of the United Methodist Church to provide an opportunity for every member of every Woman's Society of Christian Service and Wesleyan Service Guild to respond in corporate and personal ways to particular needs of the day by study, prayer, and giving.

The theme for the 1970 observance, "... For the Now," seeks to interpret the momentous need for immediate personal response to the call of God to mission by prayer and by self-denial. Locally, the observance will be held at the First United Methodist Church Tuesday, April 28, at 8 p.m.

Miss Canada May Attend Fest Here

An international flavor may be added to the Fifth annual Kentucky Highlands Folk Festival scheduled at Jenny Wiley State Park amphitheatre next September.

A request has been received here by Mrs. Edith James, program director for the Festival, from the executive director of the Dominion of Canada Beauty Pageant to "seek out the possibility of Miss Dominion of Canada appearing in conjunction with your forthcoming event". If the young lady can pick, fiddle, sing or dance an authentic folk song of the region, she may well be among those taking part.

Mrs. James has also received requests from prospective participants in Tennessee and North Carolina.

Music Resigns Coal Firm Post To Be Realtor

Frank Music, who for the last 30 years has been associated with five major coal companies in this area as mine foreman and manager, has resigned the post of manager of the Elkhorn Division of the Island Creek Coal Company of Left Beaver Creek to enter the real estate business.

President of Oak Lawn Estates, Inc., Mr. Music and his associate, James R. Preston, of Paintsville, are engaged in the development of a 200-acre tract of land at the southern entrance to historic Blockhouse Bottom, near the new American Standard plant.

They began this work a year ago and have built 10 homes there which are in the \$35-\$50,000 range. This part of the venture is in a hidden valley, off US 23, and it has been developed so as to preserve as much as possible the natural terrain and environment, with excavation held to a minimum and many wooded areas left in their original state.

A city water system has been installed at Oak Lawn Estates with storage facilities, and fire hydrants will be added this year, Music said. Streets have been ballasted and will be surfaced soon. Across US 23 from the entrance to the development an antique museum has been built and stocked. It will open soon.

Oaklawn Realty, which owns commercial property on either side of the highway there, has a shopping center and other commercial structures in the planning stage.

GUESTS AT LACKEY

Although Smither, who reported to Carter, did not say what corrective action has been begun, it is presumed that it will be to halt the introduction of coal washings into the stream.

TOO MUCH PAPER WORK

When the son and I ran into a state police roadblock, near London, Sunday afternoon, he was driving, and the trooper asked for his operator's license. With the usual Allen aplomb, he rapped his hand into his pocket and came forth with the sought-for document. The trooper took one glance and reminded him that was a permit which had expired some years back. With well-known family penchant for stubbing his toe on the minutiae and trivia of this life, he had armed himself with this outmoded license, leaving the current one safely cached at home, somewhere.

I announced that the car was mine and that I had my driver's license. The trooper paid me no mind, but I delved into the old wallet, anyhow, and began looking. Aha! there it was, and I held it up to view.

"That's only your temporary permit," the trooper informed me. "Better see about your permanent permit." Then he did a second take of the windshield of the car, and advised me that the inspection sticker was at least 16 months old.

All of which convinces me that there are too many confounded papers to keep track of, these days, for a body to be a law-abiding citizen.

A member of St. James Episcopal church here, she was also a Kentucky Colonel and Admiral, a member of the Order of the Eastern Star of which she had been a past worthy grand matron and past deputy grandmatron of the Paintsville chapter. ICC Authorizes Martin Railway To Serve Mines

Coal developments which will change Martin county's way of life will be connected with outside markets by a 24-mile-long railroad which the Interstate Commerce Commission last week authorized the Norfolk and Western Railroad to build.

The \$19 million rail spur can be completed this year, given favorable building conditions, a N. and W. spokesman said.

When finished, the line will provide rail access to approximately 100,000 acres of coal land in Martin county that is held by the Pocahontas Land Corp., an affiliate of the railroad.

Initially, the coal will be mined by the Island Creek Coal Corp. of Cleveland and the Martin County Coal Corp., an organization newly formed by the Massey Coal Co. of Richmond, Va.

Spokesmen for Pocahontas said that a third firm, the Consolidation Coal Corp., has an option on more land in the area and may develop active mining operations in the future.

The new mines, which Pocahontas general manager Douglass Crickner said will be "predominantly underground, deepmined coal," are expected to produce between 8 million and 10 million tons yearly after five years of operation.

An Island Creek spokesman said that his company is in the "active planning and engineering" stage of development of its Pevler mine, which will employ an estimated 600 men. Actual shipments of coal may not start until late 1972.

The Martin County Coal Corp. operation may require as many as 1,200 employees, according to Crickner. Raymond Bradbury, of Prestonsburg, is general manager of this operation.

The Island Creek spokesman said the company is considering the possibility of eventually opening a second mine on the Martin county land, but this may be largely dependent upon the availability of labor.

The N and W rail line will branch off from main trackage in Mingo county, W. Va., which adjoins Martin county. The construction project includes boring of a 1,700-foot tunnel along the way to prospective mine sites.

"Liza Minnelli has given a performance which is so funny, so moving, so perfectly crafted and realized that it should win her an Academy Award but probably won't, because Oscar is archaic and Liza is contemporary!"

Sometimes we get the feeling we're being followed.

Everybody's getting into the act. Everybody's making a small car. And since we've made more of them than anyone else, we thought we'd pass along some things we've learned about the business over the years: First off, there's no doubt about it, the only way to make an economy car is expensively. So Rule No. 1, don't scrimp. Get yourself the best engineers in the business and then hire 9,000 or so top inspectors to keep them on their toes. Next, try to develop an engine that's not a gas-guzzler. If you can get it to run on pints of oil instead of quarts, great. If you can get it to run on

air instead of water, fantastic. Work on things to make your car last longer. Like giving it 45 pounds of paint to protect its top and a steel bottom to protect its bottom. Important: Make sure you can service any year car you make. There's nothing worse than having someone find out that a part they need to make their car go is no longer available. Finally, spend less time worrying about what your car looks like and more time worrying about how it works. Perfecting a good economy car is a time-consuming business. So far it has consumed 25 years of our time.
