

## Plant Here To Publish Area Papers

### Printing Operation Scheduled To Begin Within Two Weeks

A central printing plant moved into Prestonsburg last week to serve at least four county-seat newspapers and, hopefully, other publications.

The plant now being installed in the John Allen building on Third street by the Highlands Publishing Co., Inc. is expected to be in operation within a week. Its main item of equipment is a new V-15 Cottrell offset press which will print 15,000 12-page standard-size newspapers an hour.

Cost of the plant will range between \$65,000 and \$70,000.

Although the stockholders of the Highlands Publishing Company are owners of the four newspapers which will be published regularly by its plant, the company is wholly independent of the newspapers and will serve only as printer, each newspaper paying Highlands Publishing for its services. Officers of the company are Norman Allen, of The Floyd County Times, president; Zach Justice, publisher of the Pike County News, vice-president; and Allan Perry, publisher of the Paintsville Herald and the Salyersville Independent, secretary-treasurer.

The Floyd County Times, Paintsville Herald and Salyersville Independent, all of which have for months been covered to the offset printing process and phototypesetting, will be printed at the plant as soon as the press is ready. The Pike County News will begin publication at the plant when its conversion to offset is effected. This is expected to be done within the next month.

## Hall Seriously Injured In Shuttle Car Mishap

Orville Hall, 52, of Bypro, is at University of Kentucky Medical Center in Lexington following an accident at 2:15, Friday afternoon, at Price No. 1 mine of the Island Creek Coal Co. He remains in serious condition.

His injuries include broken arms and legs, and severe head injuries.

Willard Stanley, safety director of Island Creek Coal Co., said Hall, a shuttle car operator, was pinned between the wall of the mine and his vehicle after it collided with the rib of the No. 24 section.

Hall was transferred from Our Lady of the Way hospital at Martin, where he was first hospitalized, to the medical center.

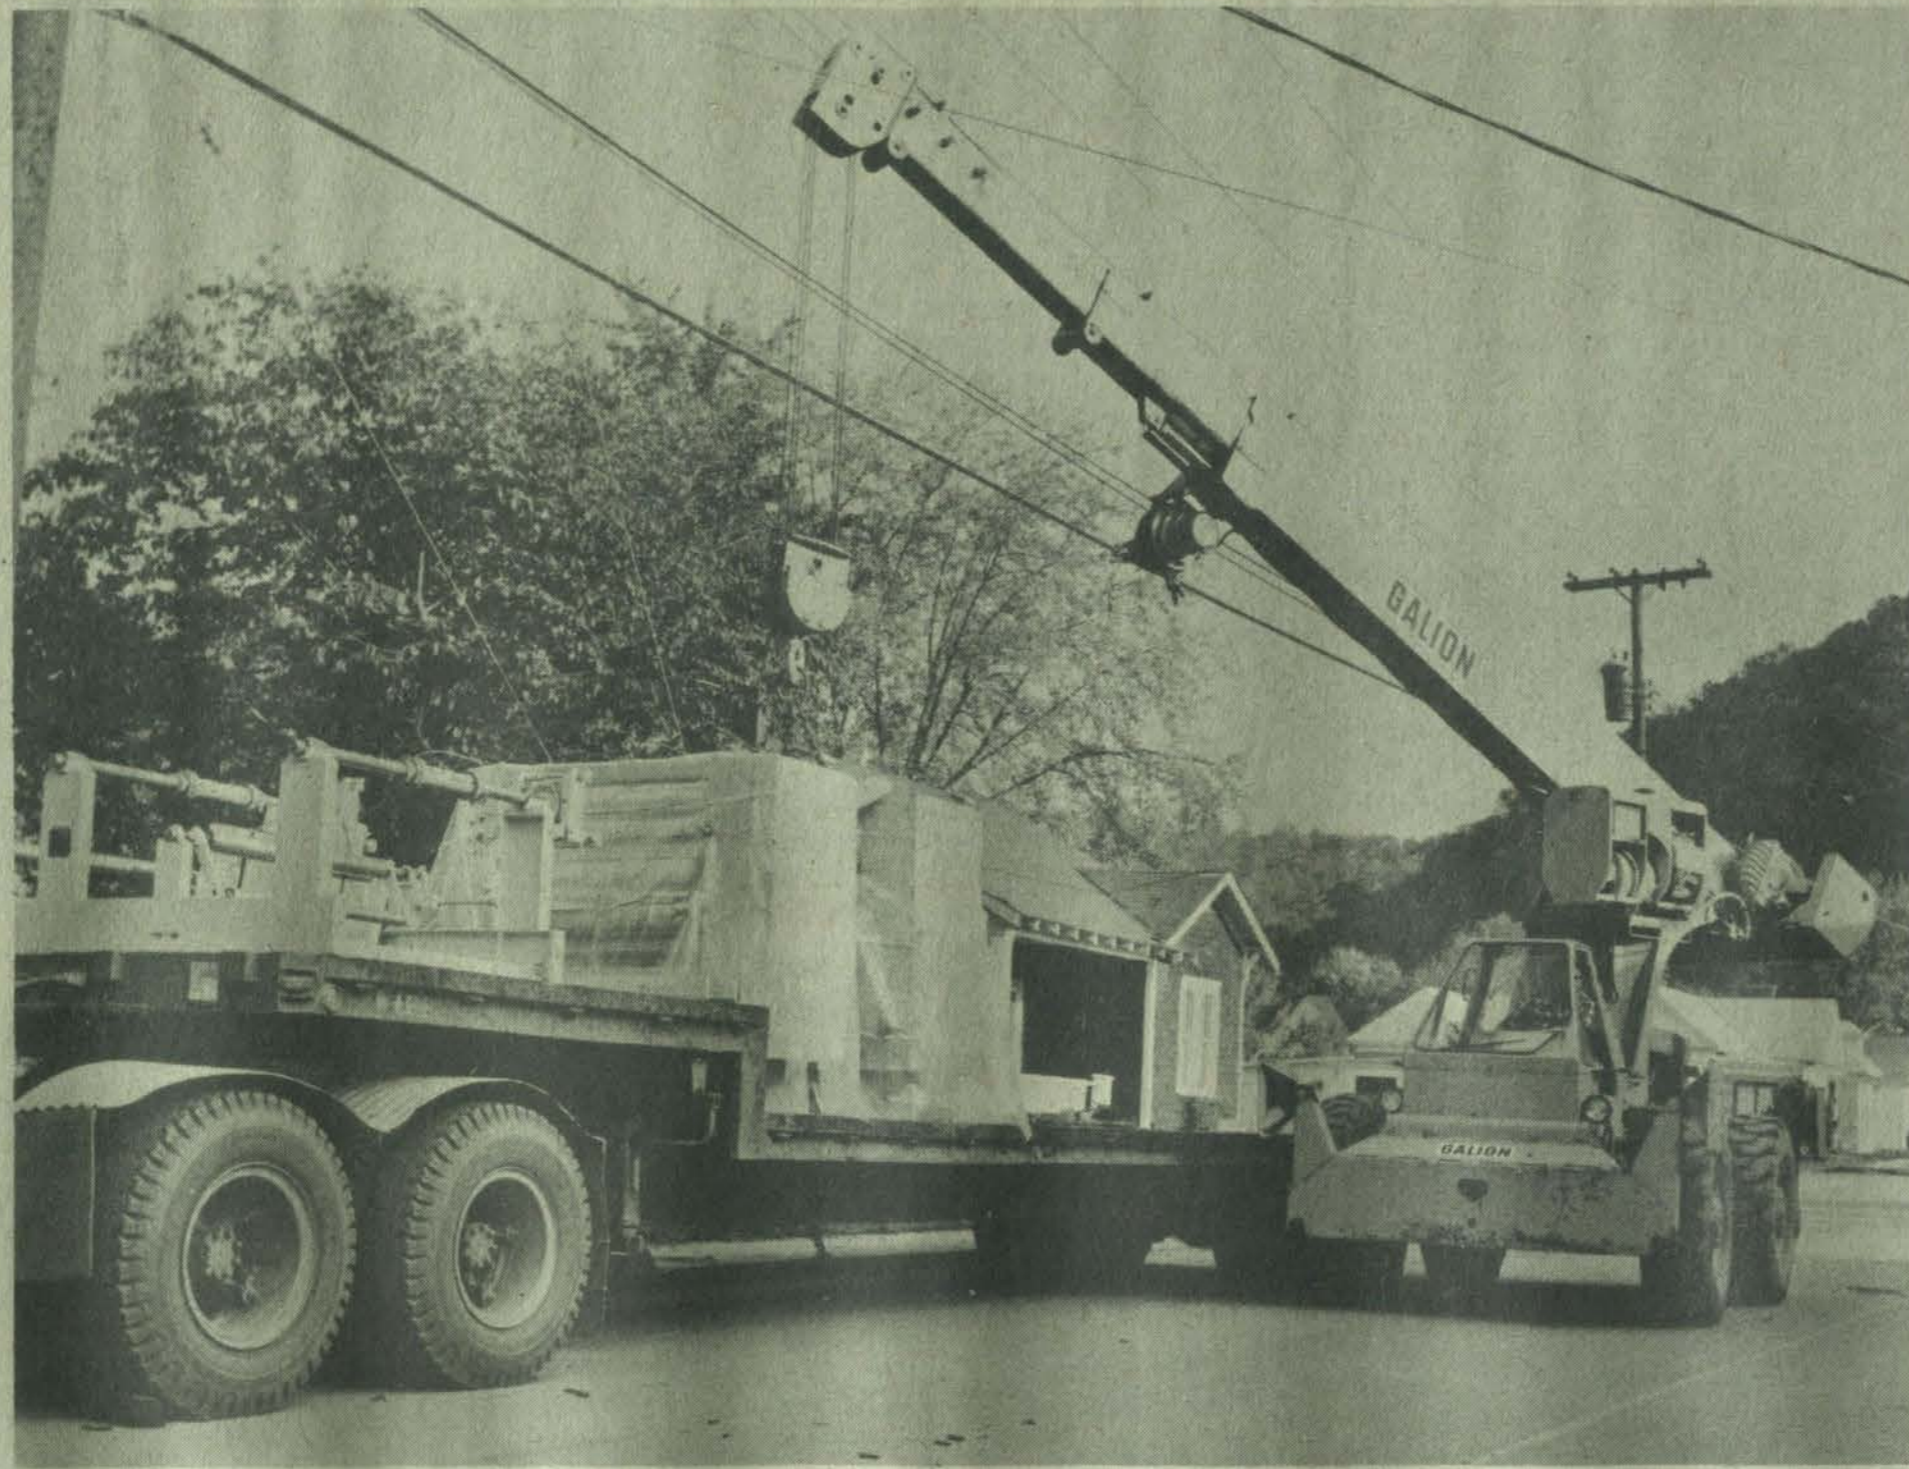

## Patriotic Demonstration Plan Gets Encouraging Response

"The response to our plans for our patriotic parade and program has been wonderful," Mrs. Marcella Bailey, of Langley, co-chairman for the Nov. 7 event scheduled here, said this week.

Most schools, including elementary schools, have indicated that they will take part in the program.

Col. Arthur Kelly, professor of military science at Morehead State University, will be the speaker.

The patriotic motif will be emphasized in costumes, colors and floats in the parade.

Crane Employed To Unload Press

A crane operator prepares to swing from a truck a unit of the new V-15 Cottrell offset press which soon will begin publication here of newspapers of four county-seat towns. Weight of each unit ranged from 4000 to 6000 pounds.

## School Board Races Assure Strong Vote

A heavy vote is almost certain in at least two sections of the county at next Tuesday's election, with school races in two educational divisions warming up the voters.

In Educational Division No. 1 the race is between Dr. James D. Adams and O. R. (Pete) Howard, the incumbent, for member of the Floyd County Board of Education. Candidates for the same post in Educational Division No. 2 are Dr. J. H. Allen, incumbent, and Donald L. (Donnie) Lafferty.

Outside the precincts in these two educational divisions the interest in the election dies, since there are no local issues

at stake and the Congressional race between Congressman Carl D. Perkins, Democrat, and his Republican challenger, Herbert E. Myers, is generally conceded to Perkins.

Also lacking in interest, though of importance, as is the Congressional race, is the bond issue question which will appear on the ballot. This little-publicized question asks the voter if he is in favor of general obligation bonds in the amount of \$48,300,000 being issued and sold to provide structures, facilities and services for the School for the Deaf, the School for the Blind, the Department of Education for vocational schools, the Department of Corrections, Department of Child Welfare, Department of Mental Health and the Farm Development Loan Guarantee Fund.

A plain answer of "Yes" or "No" is to be given by the voter.

## Hyden Says Story That He Led Groups At Martin, Untrue

Dr. Joe T. Hyden, Martin dentist, said last week that The Times story of the Court of Appeals' refusal to rush Special Judge Fanning to an immediate decision on a Martin school case is incorrect, especially in view of the fact that he was mentioned as head of the Martin group.

The case is that in which a group of Martin citizens were enjoined after picketing at the school there.

Dr. Hyden said: "When I'm said to be the head of the group, that is implying that I am leading it. I was not a party to that suit. Somebody simply put my name in as a dependant when the restraining order was asked."

The Martin man complained that he has repeatedly been the target of both rumor and publicity. "I have never opposed the Eastern school itself," he said. "In fact, I am for consolidation. But I have opposed taking Martin's school from it. I do not think Martin should be the only fourth-class town in the state of Kentucky without a high school."

## Siler Calls on FBI For Road Bid Probe

U. S. District Attorney Eugene Siler last week asked the FBI to investigate an alleged attempt to bribe a former Kentucky commissioner of highways to reject bids submitted on three US 23 sectors in this county.

The investigation proposed by Siler involves an allegation made in depositions taken in a Franklin circuit court damage suit that \$25,000 was to be offered Former Highway Commissioner Eugene Goss "to throw out all bids" on the Floyd county work. Other payoffs alleged in the depositions may not, even if true, violate federal laws, Siler was quoted as saying. He explained that the only possible federal violation would be "an attempted bribe on anyone's part of anyone who handles federal funds."

The FBI probe, if made, will look into the circumstances surrounding rejection of the first bids offered on the three sectors of US

## This Town . . . That World

Note to lowlanders and others: If you don't hurry to Eastern Kentucky, you'll spend all winter wishing you had. The leaves and all their colors can't wait on you any more rains.

### HE'LL GET HIS PAPER

This newspaper has some of the most faithful sort of readers. We have folks who have "been taking the paper" since it got off to a somewhat wobbly start, back in 1927. But our most unusual subscriber may be a gentleman named Claude M. Brown, who lives on Route 4, Hodgenville, Ky.

He wrote recently to this effect: "Strange to say, I have never been in Floyd county, but somehow I have grown to like and respect all the folks in your county. . . Don't let me down, please. . . I can't afford to miss a copy. . ." I seriously doubt if this man's subscription will ever be in arrears around this place.

### ONE YEAR LATER

A year ago last week, The Times took the big leap from letter-press production to offset. Since then, we've driven several thousand miles to Morehead and Winchester to get the paper printed. And now, a year later, a brand-new offset press is being installed, just up the street, to serve this and other newspapers. Let's hope somebody doesn't come up with something better, just when we're into this method up to our ears.

### LOST SOUNDS

Are the pressures of modern life clamping us up? Neighbors seldom visit, these days. Many pass on the street without a word, their thoughts probably ranging far beyond themselves. But for our ability to make brakes screech and tires scream, we might be the human counterpart of "Silent Spring".

Watt Hale was in the other morning to ask me if I remembered days when, anytime you stepped outside, you could hear somebody whistling. Then he asked, "Just how long has it been since you heard a man whistle?"

And I couldn't remember. There are two reasons for this, I am reminded. Some have lost the blithe spirit that once set them to trilling, caring not a hang whether school kept or not. And some have become so hidebound that a V would have to be cut in their scalps to give them room to pucker for a whistle.

## Drug Use Spreading, School Boards Told

### Court House Happenings

Larry Ronnie Goble, 20, and Martha Ann Hunt, 16, both of Prestonsburg.

## Murder Attempt Laid to Youth; Raid Nets One

Roger Williamson, age about 19, was released from jail here last week under bond set by Magistrate Eddie Caudill after he had been arrested Oct. 20 and booked on a charge of attempted murder.

State Trooper Don Thornsbury, who arrested Williamson, said a warrant for Williamson's arrest was sworn out by Wince Walters, who accused Williamson of shooting him in the foot with a shotgun blast. The incident occurred near Drift.

Bobby R. Newsome, of Prater Creek, was arrested, Tuesday of last week, by Deputy Sheriff Buddy Ward, who booked him on a charge of possessing alcoholic beverages. The arresting officer confiscated 12 pints of vodka.

#### Other arrests within the week:

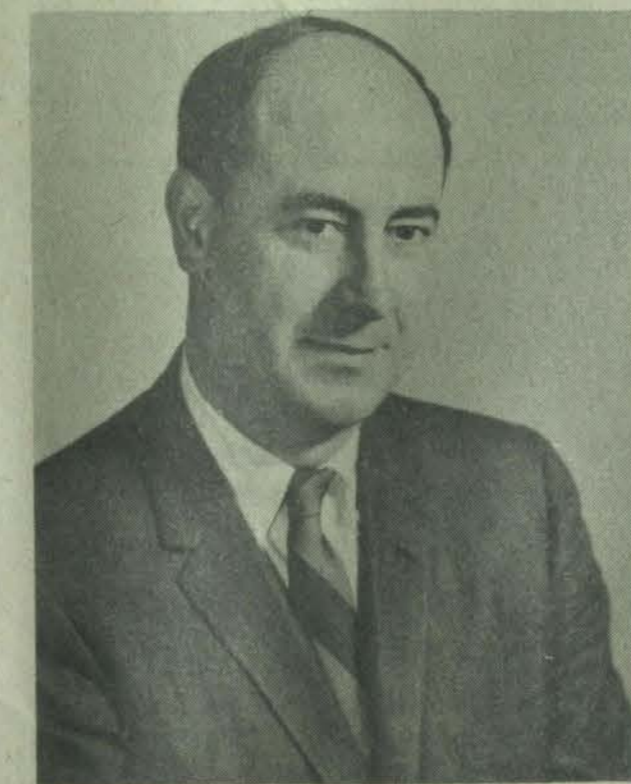

Day Isaac, Jr., reckless use of a deadly weapon, two counts, arrested by State (See Story No. 1, Page 14)

#### CHILD IS VICTIM

Wendy Renee Lazar, two-month-old daughter of Kenneth and Pearl Compton Lazar, of Spurlock Fork of Middle Creek, was dead on arrival last Tuesday at Prestonsburg General Hospital. Surviving, besides the parents, are a brother, two half-brothers, and four sisters, all at home.

Funeral services were conducted Wednesday at 2 p.m., at Floyd Funeral Home, here. Burial was made in the family cemetery at Estill.

## Armco Promotes Native of Floyd

The appointment of Townsell G. Marshall to the post of assistant vice president-personnel relations has been announced by Harry Holiday, executive vice president of Armco Steel Corporation, Middletown.

Mr. Marshall is a native of Floyd county and was educated at Prestonsburg high school, at Caney Junior College and at the University of Kentucky.

Mr. Marshall joined Armco's industrial engineering department at the Ashland works in 1945. He was assigned as a time study man in 1947 and as suggestion coordinator in 1951. He was named personnel advisor in 1953 and was promoted to supervisor-labor relations in 1956. From 1957 until 1961, Marshall served as assistant to the manager at Ashland. In 1961, he moved to corporate headquarters in Middletown as manager-contract administration. In 1965, Marshall was named director-industrial engineering.

Mr. Marshall is married to the former Mary Fleming, of Ashland, and they have three children, Townsell Gordon, Jr., Rebecca Jane, and Joseph Fleming.

While in Ashland, Mr. Marshall was active in many civic and charitable organizations. He served as a member of the executive board of the Tri-State Area Council of the Boy Scouts and was a member of the official board of the First Christian Church, the Chamber of Commerce and the Ashland Kiwanis Club.

## Educators Meet At Jenny Wiley, View Problems

"No school—large or small, urban or rural—is completely immune to the horrors of drug abuse," Kentucky School Boards Association Executive Director Maurice D. Bement warned area school officials meeting at Jenny Wiley State Park last Wednesday evening.

The only completely effective antidote to illegal drug use is prevention, Bement said, and he urged local school boards to join with other community groups in establishing or expanding drug abuse education programs.

Bement spoke before school board members and administrators from the seven school districts in the Eastern Kentucky Region (South) of the Kentucky School Boards Association (KSBA).

KSBA State President F. C. Bryan, a member of the Mt. Sterling Board of Education, reviewed other challenges facing Kentucky's local school boards—including teacher strikes, court cases, financial problems and student dissent—and outlined the steps the statewide association is undertaking to assist local boards in those areas.

A panel composed of regional and state KSBA officers discussed the controversial subjects of public funds for nonpublic schools, accountability, performance contracting, and the voucher system.

The concept of accountability, the panel noted, illustrates the switch in emphasis (See Story No. 2, Page 14)

## Court Dockets 25 Rum Trials At Coming Term

Twenty-five liquor cases, the heaviest docket of its kind in the modern history of the court, are scheduled for trial at the November term of circuit court here, it was said this week.

Defendants are charged with either possessing alcoholic beverages for the purpose of sale or the actual sale of intoxicants. Five defendants are booked for trial on the third offense. This means that they have been convicted twice previously and conviction under the third-offense indictment would draw a pen term ranging from one to five years.

Although dismissal of narcotics cases was reported earlier, five defendants appear on the November docket for trial on charges of possession of narcotics.

Four men—Charles Jackson, Whirley Hall, Reecie J. Combs and Bob Hall—are slated for trial on murder charges during the term.

Other scheduled trials list four on charges of arson and two for horse stealing.

## Ask FBI Watch On Floyd Vote

Jake Layne, president, and Rita P. Lafferty, secretary-treasurer, of the Martin Parent-Teacher Association, wrote J. Edgar Hoover, director of the Federal Bureau of Investigation, last week asking that FBI agents be sent to this county for a look at the conduct of next Tuesday's election.

The two said in a letter to Mr. Hoover that 10 of the 32 election officers named for the eight voting precincts in Educational Division 2 are employees of the Floyd County Board of Education and requested the presence of the federal agents "to assure the people that this election will be properly conducted and assure the chosen teacher-election officers that their integrity will not be held suspect as a result of this election."

## Mischief Gets Jump On Hallowe'en; Curb Set Here by Mayor

Hallowe'en, its trick-or-treat, ghosts, goblins and other characters do not officially arrive (as you may have heard) till Saturday, but the pre-Hallowe'en high-jinks have already started.

Motorists are running into roadblocks at various points. At Emma flooring of the bridge spanning the Big Sandy was removed, temporarily blocking traffic. Sheriff Frank Leslie said the main street of Auxier was blocked Monday night and that numerous instances of refuse having been thrown onto porches of Auxier homes were reported. State police found railroad ties blocking KY 122 at Price, Sunday night.

Mayor George P. Archer, of Prestonsburg, moved last week to establish control of Hallowe'en activities here. By proclamation he ordered that the practice of trick-or-treat be limited to the night of Saturday, Oct. 31, only; that no person above the age of 12 will be permitted to wear a mask of any kind, and that a curfew of 9 p.m. is imposed on all engaged in trick-or-treat.

ALL SMILES—Donnie Werner, 7, Frankfort, shares a toothy grin with a round yellow pumpkin. Donnie, like most youngsters, is eager for Hallowe'en—that night of black cats, witches and candy treats. (Craig Clover Photo)

## Report Cites Service Against \$500 Annual Cost to County

The Floyd County Soil Conservation District, an agency which costs the county only \$500 a year, says in its annual report that it is, with a fulltime conservationist and a staff that includes only two other part-time workers, carrying out a diversified program.

One feature of its work is total resource planning and development in the area. The soils report which it has covers approximately 2000 acres of land along the Big Sandy River and Middle Creek. The report provides information which includes the depth to bedrock, underlying material, runoff and permeability, water table depths, flood hazard, erosion and soil stability.

Planning commissions and consultants are using the interpretations from this report in locating sewage effluent disposals and lagoons, home and small building sites, streets and parking facilities, lawns, sanitary landfills, campsites, athletic fields, access roads and the like. The soil report also will assist engineers in selection of sites for industrial, commercial and residential construction, locations for highways, airports, pipelines and underground cables. It has afforded assistance to Prestonsburg in selecting a hospital site and several industrial locations, and the Harold community was assisted in selecting four potential industrial sites.

Its major effort to conserve and develop woodland in the county, begun several years ago, continues. Several thousands of acres have been reforested and a greater acreage has been improved. This year, landowners of the district have reforested 83 acres, and the soil conservation district plans to emphasize more timber improvement in areas where trees have been planted in the past. Also developed within the last year have been 131 acres for wildlife.

Seventy Middle Creek landowners, the report points out, continue to use funds provided by the Appalachian Land Stabilization Act to improve their farms. About \$100,000 has been allocated for establishing conservation practices such as planting of meadows and pastures, laying tile drains, making livestock and fish ponds, tree planting, wildlife food plots and stream channel improvement.

The soil conservation district applied for a second Appalachian soil stabilization project, this for the Bull Creek section, but it failed for lack of funds.

Cited in the report also was its sponsorship of the soil conservation essay contest in the county and the fact that Floyd county each year contributes the greatest number of essays (this year, 3657 were submitted); its presentation in schools of slides depicting water pollution; work with the ASC county committee toward

educating the people on the land-clearing component of the pasture practices; development of a map of the Jenny Wiley State Park area for tourists, in conjunction with the Floyd County Board of Education, the Dewey Lake Fish and Game Club and the Tourist Information Center here.

Full credit is given by the soil conservation district to state, federal and local agencies, groups, officials and individuals for their assistance in the work undertaken.

Its technical staff includes Jimmie R. Childers, district conservationist; Victor May, conservation technician, parttime, and Margaret Wells, part-time office clerk. Governing body of the district is composed of J. B. Clarke, chairman; R. C. Barnett, vice-chairman; Billy Merritt, treasurer; Lloyd Wells, secretary, and H. D. Fitzpatrick, Jr., member.

## Mrs. Millie M. Hall, Dies at Nursing Home

Mrs. Millie Mosley Hall, 82, of Topmost, died Monday at Mountain Manor Nursing Home, here, following an extended illness.

Born November 9, 1887, she was a daughter of the late J. C. and Polly Terry Mosley, and widow of John B. Hall. She had been a member of the Regular Baptist church for the past 50 years.

Survivors include three sons, Raymond and John Hall, Jr., both of Topmost, David Hall, of Lexington; two daughters, Mrs. Holly Martin, of Cincinnati, O., and Mrs. Faye Newsome, of East McDowell; two brothers, Crawford Mosley, of Dema, Tom Mosley, of Topmost; two sisters, Mrs. Elizabeth Hall, of Topmost, Mrs. Susan Frazier, of McDowell; 24 grandchildren and nine great-grandchildren.

Funeral services were held at 10 a.m., Thursday, at the Caney Fork Regular Baptist church. Burial was made in the Dry Creek cemetery at Topmost under direction of Hall Brothers Funeral Home.

## W'wright Wins Class A Title; Hazard Defeats Prestonsburg

The Prestonsburg Black Cats failed last Friday night to win their way to the Class AA district championship but Wheelwright, the only other Floyd county high school to field a grid team, annexed the Class A district title by walloping Jenkins high.

Prestonsburg lost to a fired-up, fast-moving Hazard team, 40 to 9. The Bulldogs cashed in on numerous breaks, turning pass interceptions and fumbles into five of their touchdowns. Randy Leslie scored Prestonsburg's only touchdown. John Paul Leslie's first-quarter field goal opened the Cat scoring.

The loss was only the second of the season for Prestonsburg. The team, which has moved farther ahead in the standings than last year's, despite the loss of talented seniors from the 1969 squad, has two games remaining on its schedule—Russell, this

week, and Paintsville next. Wheelwright's Trojans, who have lost only one game this season, and that to Prestonsburg, easily downed Jenkins on the Jenkins field, 40-14. It will meet in the playoffs either Lynch or Pineville—depending on the outcome of games these two teams have yet to play. The six touchdowns scored by Wheelwright were evenly divided between Kenny Armour, Johnny Parker and Jackie Watson.

## YOU AND THE DRAFT

Colonel Taylor L. Davidson

FRANKFORT, KY.—In "The Story of the Sun" (1918), the city editor of the New York Sun was quoted as saying: "When a dog bites a man, that is not news because it happens so often. But if a man bites a dog, that is news." That classic statement can be paraphrased, for military reference, to read: "When a Selective Service registrant employs legal counsel to permanently block or delay fulfillment of his military obligation, that is not news. When a young man obtains an attorney to help him enter military service, that is news."

In a recent column, we made the statement our middle name is service (Selective Service System). Recently, we received a letter which is further evidence that our executive secretaries strive to live up to the System's middle name. The letter was written by an attorney in northern Kentucky wanting us to know how much he and his client appreciated the kindness and consideration the executive secretary had shown them in trying to be helpful in assisting the young man to fulfill his military obligation. Unfortunately at this time, as far as the registrant is concerned, the story does not have the ending he desires.

Q. Recently because of a financial problem, I was forced to drop out of a seminary in another state. As a result of this action the draft board reclassified me from IV-D to I-A. I am 23 years of age and have a lottery number of 294. I would like to know if my liability for military service will change.

A. From the information you have provided, it would be reasonable to assume that your local board will not reach your random sequence number by the end of this calendar year. If this assumption is correct, and on December 31, 1970, your random sequence number has not been reached by your local board, you will revert to a lower priority group.

Q. Will all young men under the lottery keep the same number they received after the drawing?

A. The random sequence number a registrant is given as a result of the lotteries of 1970 and 1971, is permanent. Their selection to fulfill their military obligation is determined by the quota placed on the local board, the number of registrants classified I-A acceptable, and whether their number has been reached in the local board within the calendar year. This is the normal procedure in the involuntary selection of young men. However, there are some exceptions and we would suggest that you visit your local board for full information as to your Selective Service status.

Q. During the time my appeal from a I-A classification was being considered by the appeal board, I became 26 years of age. My question is, now that I am 26 will I be drafted?

A. No. Under current Selective Service Regulations you cannot be involuntarily ordered for induction.

# TO THE VOTERS OF EDUCATIONAL DISTRICT NO. ONE

As most of you know, Pete Howard's opponent is a medical doctor. He has been asked many times should he be elected how would he have the time to devote his COMPLETE energies toward the children and taxpayers whom he would be representing. Pete Howard's opponent's answer to this question is that he would appoint two mothers in each school to be his representatives.

I can and do appreciate the fact that there are mothers who are interested enough to handle these problems that do arise.

BUT

If a taxpayer or citizen has a serious problem, or any sort of a problem, who is it better to contact? I honestly believe it is better to contact your ELECTED board member who can do much more and get your problems solved much faster without any "red tape" being involved.

O. R. "Pete" Howard wants to, and has time to serve you PERSONALLY. Pete Howard will take the time to hear your problems and complaints and will PERSONALLY see that they are solved for you promptly.

All the people in District No. 1 know where Pete Howard can be found, six days a week. Pete Howard always welcomes any parent or delegation of parents and is always happy to assist in any way possible.

Vote for a man who wants to serve the taxpayers and parents.

VOTE FOR A MAN WHO IS VERY DEEPLY INTERESTED IN YOUR CHILDREN.

### To Be Evangelist At Methodist Church

A series of revival services will be held at the First United Methodist Church, Prestonsburg, beginning Sunday, November 1 and continuing through Sunday, November 8.

The evangelist will be Dr. Don Rollings, of Wilmore, Ky. Dr. Rollings is a graduate of the Chicago Evangelistic Institute, a member of the board of trustees of Asbury College and a lay evangelist in the United Methodist Church. As a layman, Dr. Rollings has conducted evangelistic missions in Europe, Africa and in some of the outstanding churches of the United States.

Terry Sark, a student at Asbury College, will lead the singing. From Macon, Ga., where he is active in the youth program of his church, he sings to his own accompaniment.

The general public is cordially invited to attend all the services of the revival.

In talking with some of the older generation the thing they seem to regret most is their lack of formal education. Not every one who wished to attend school could do so, and allowed this lack of schooling to color the remaining years. Some became self-educated; some remained illiterate. Some, however, determined to attend grade school, high school and college.

Morehead, county seat of Rowan, is the home of Morehead State University, an institution that serves as a guiding light in Eastern Kentucky. But back in 1911, it was the far-sighted eyes of Mrs. Cora Wilson Stewart, then superintendent of Rowan county schools, that looked into the hearts of hill people and saw the hurt, disillusionment and lack of confidence born by illiteracy.

Mrs. Stewart suspected that 25 per cent of the people in Rowan county could not read and write. She called together a group of interested persons and together planned what would become known as moonlight schools.

The task was too great for one woman, so Mrs. Stewart asked for volunteers to teach reading and writing to adults on those evenings when there was moonlight. Every teacher in the county responded, and soon teachers and volunteers from nearby counties approached the superintendent with offers to help.

In Lewis county where Lena Wells Lykins had volunteered to help, she was never afraid to go to her door to answer a knock at midnight or even later. She said invariably it would be an adult with "I want to learn how to read and write. Will you teach me?" She later rode horseback with Mrs. Stewart into the mountains near Hyden, to instruct other volunteers in starting Moonlight Schools.

One woman, nearing 70, asked to attend classes. "Back when I was a youngin' Ma had her babies close together and I allus stayed to hep take care of the little ones," she drawled.

Another said the only thing that kept her from going to school was Licking River and no bridge across the stream. A man, past 80, explained that he had helped in the coal mines from the time he was eight and there was never time to attend school.

Some of the excuses were valid; hardship on the farm, large families and no money for shoes and clothes; some excuses were false; the person too ashamed to say that he could have gone to school but preferred to stay home.

The reasons for not having learned the simple tasks of writing and reading were not important to Mrs. Stewart. The important thing was that 1200 persons from age 18 to 86 enrolled the first moonlight night. "They were earnestly and sincerely seeking knowledge," said Mrs. Stewart. "Their interest, zeal and enthusiasm were wonderful to witness." A great many of the pupils were grandparents and toiled over lessons at the same desk in a country school that their grandchildren had occupied during the day.

Some of those who wanted to enroll were shy about it, and many pupils had their first lessons in their own home.

Beginning in Rowan county in September 1911, the idea spread and Mrs. Stewart found herself and her teachers traveling to 10 Eastern Kentucky counties to set up Moonlight Schools.

Today, on Morehead's Main Street, a plaque placed by the Kentucky Historical Society and the Kentucky Department of Highways honors Cora Wilson Stewart and her Moonlight Schools.

#### PRESTONSBURG GRADE SCHOOL PLANS HALLOWE'EN CARNIVAL

Pint-sized witches, goblins, ghosts and assorted monsters will be on the prowl at the Hallowe'en Carnival, Saturday evening, at Prestonsburg Elementary school.

The evening's schedule will begin with a chili supper at the grade school cafeteria from 4 to 8 p.m. A wide variety of other activities will begin at six and continue until ten p.m. The carnival is sponsored by the Prestonsburg Elementary P.-T. A.

#### VISIT IN ASHLAND

Mr. and Mrs. E. D. Roberts spent Saturday in Ashland visiting Mr. and Mrs. Scott Roberts and Mrs. Amanda May at the Hamilton Nursing Home.

Where They Put It All Together

Guests at the open house last Saturday of American Standard's Paintsville plant survey assembly lines, where parts fabricated elsewhere in the plant become finished Aquarian plumbing fixtures. Nearly 3,000 persons toured the plant during the afternoon.

### Western Kentucky U. Bars Dangerous Speakers

Western Kentucky University's board of regents has put into written form its long-standing policy of barring from the campus any outside speakers "who would present a clear and present danger to the normal functioning of the university."

John Lyne, student body president, agreed with the policy declaration. He commented that it is not so much a matter as how it is worded but how it will be applied.

The regents directed President Dero G. Downing to go ahead with the purchase of 232 acres to be added to the WKU 550-acre farm south of Bowling Green.

# FACTS AND FIGURES FLOYD COUNTY CITIZENS SHOULD KNOW

With rising costs everywhere, your Floyd County SCHOOL taxes were LOWERED this year — Your taxes were lowered from 50.6 to 49.0. Compare your last year's school taxes against this year's school taxes.

### THIS SAVES YOUR MONEY

Your Floyd County School System has one of the best Bonding Potentials in the State of Kentucky. Our last Bonds were sold for 6.67 percent while a neighboring county had to pay 7.91 percent.

### THIS ALSO SAVES TAXPAYERS MONEY

Your Floyd County School System was one of the few Systems in the State of Kentucky whose last fiscal year's budget was in the BLACK.

Your Floyd County School System has an annual budget of approximately 5 Million Dollars. Yet LESS than 5 percent or only one twentieth of this money comes directly from the local citizens of all Floyd County.

With all the progress your Board of Education has made in the past ten years, this is certainly quite an accomplishment.

### HOW CAN IT BE THIS WAY???

The answer is deep concern for the TAXPAYERS and TOTAL AND COMPLETE DEDICATION TO THE CHILDREN OF FLOYD COUNTY.

## -- PLEASE CONSIDER --

This is from the Mother, Brothers and Sister of Pete Howard. We are sure that you have heard both platforms of the two candidates.

Let us tell you about "living" both sides.

Dr. Adams is a family doctor to some of us and we are glad to have him because we respect his ability as a doctor. He works hard at his profession and we feel that his first dedication is to his patients and we honor his dedication to his profession. We hope to continue our relationship with Dr. Adams, one reason being his deep concern and medical care for our Husband and Father during his illness.

A few days after the death of Ray Howard, the family, feeling a duty to try to carry on what he believed and strived for — that being unity within the educational system of Floyd County — we went to the board of education and asked that the most capable family member be appointed to the vacant seat, that being Pete. We have seen what a divided board can do to the man, the board itself, and, most important, TO THE CHILDREN.

Pete has not disappointed the family because he has put the welfare of the children of Floyd County first — even over the family business on many occasions. He has always wanted the best for all of our children. He has worked with the administration, and this unity is rapidly bringing about one of the most advanced school systems in the state.

We know that Pete is always available to hear the many problems that arise from a school system that is making such rapid progress and is able to take the problems to the administration and work toward getting these problems solved.

We have observed Pete's dedication to the principles and ideals of the man that he succeeded on the board of education.

We are very proud of Pete and hope in some way that you will give him your support on November 3.

# FLOYD COUNTY SCHOOL SYSTEM— SIGNIFICANT FACTS

A. Floyd County has fifth largest school system in Kentucky — 9595 students this year.

B. Total budget for 1969-70, \$4,823,000, derived from the following sources:

1. Local taxes, \$590,000
2. State Minimum Foundation, \$3,493,000
3. Federal Funds under Title I, \$750,000

C. 705 Employees

1. 490 Certified
2. 215 Non-Certified

## A DECADE OF ACCOMPLISHMENTS

1. Constructed 101 new classrooms, permitting the closing of 63 one-room schools.
2. Construction of Garth Vocational School, providing vocational training. A total of 200 boys representing all high schools in Floyd County per year.
3. New Physical Education Classroom building at Betsy Layne.
4. Served as pilot county for Rural School Lunchroom Program, in cooperation with U.S. Department of Agriculture. The only county in Appalachia with lunchroom program in each rural school.
5. Constructing new high school facility at Eastern in order to offer better high school programs in the Right Beaver Valley.
6. Served as pilot county in Adult Education in cooperation with U.S. Department of Labor and State Department of Education, and under this program, to date, have issued 500 High School Equivalency Certificates, 1,000 Elementary Equivalency Certificates, and have taught 400 adults to read and write.
7. One of the first counties in Eastern, Kentucky to qualify for Head Start Funds and under this O.E.O. Program, in six years, have given pre-school training to almost 2400 educationally deprived school children.
8. One of the first school systems in Kentucky to qualify for National Youth Corps Program, under which we have spent over one million dollars of Federal Funds on work programs for deprived high school students. Drop-out rate for the deprived group at the high school level has almost disappeared.
9. Bus fleet enlarged from 35 buses to 50 buses, to a point where over 7,940 children are hauled daily 3,673 miles. In addition, 27 contract hauls are transporting children in areas where buses cannot go. A greater percentage of children are hauled in Floyd County (85 percent) than anywhere in Eastern, Kentucky.
10. Our school system has been a pacesetter in developing new approaches in teaching in all subject matter areas. Our school system has been visited by many school people to study our Science Process Approach, High School Team Teaching and Elementary Team Teaching projects.
11. A leader in Special Education, currently operating six classes for special education children.

## TITLE I IN THE FLOYD COUNTY SCHOOLS

Title I of the Elementary and Secondary Education Act of 1965 provides federal funds to local school districts serving areas with concentrations of children from low income families and to provide programs of special educational assistance in order to serve the needs of educationally deprived children. If our county didn't get these funds other school systems would.

Title I funds in the Floyd County Schools provide the following service during the current school year:

1. Thirty-eight Special Reading Teachers serve 2,355 children with reading problems in 17 elementary schools and 5 high schools.
2. Six Physical Education teachers serve 3,193 children in eight schools.
3. Nine Guidance Counselors serve 3,893 children in 11 schools.
4. Seven Librarians serve 3,322 elementary children in 10 schools.
5. Three Art Teachers serve 1,499 children in 3 elementary schools.
6. Two Mobile Units-Drivers serve all rural schools with audio-visual equipment.
7. Three Social Workers serve 5,000 low income children in all 36 schools.
8. Two Registered Nurses serve 5,000 in all 36 schools.
9. 1,200 children to date have been tested for vision and hearing problems. (Glasses and hearing aids are provided where needed)
10. 900 low income children have been provided new clothing and shoes.
11. One Health Driver transports children to and from doctors and dentists.
12. Funds assist in making the new elementary science programs operable.
13. 38 teacher aides assist reading teacher.
14. Summer Reading Program was provided the past year to serve 2,500 children one or more years behind in reading.
15. Funds have aided needy high school students with text books.

**These things didn't happen in Floyd County by accident. Pete Howard and Dr. J. H. Allen helped make these things possible. Keep things moving by supporting Pete and J. H.**

This record was made by an educational TEAM, working as a team. Does it make sense to run in two substitutes of unknown quality at this time? The two would-be substitutes don't even know the game of Educational Progress, and, from all we have heard, they would play for the No-Progress Team. Insure Progress by re-electing "Pete" Howard and J. H. Allen.

**FARINA EVANGELISTIC TEAM**

The First Assembly of God Church at West Prestonsburg is sponsoring a special gospel singing and preaching revival with the Farina Evangelistic Team from Sunday, Nov. 1, through Friday Nov. 13 at 7 o'clock each evening, according to the pastor, the Rev. Lorie Vannucci.

The Farina Evangelistic Team is composed of the Rev. Charles Farina, his wife, Barbara, and their three children, Jacquelyn, Charles, and Stephan.

The Rev. Farina has served as pastor and evangelist for the past 10 years. He

received his theological training at Southwestern Assemblies of God College, Waxahachie, Texas. The Farinas live a unique life, traveling in their own Greyhound Bus. Their three children usually have their schooling in a Sunday School classroom, tutored by their mother, while enrolled in a fully accredited correspondence school with their assigned teacher at the school.

There will be special singing each night and prayer will be offered for the sick in each service. The public is invited.

**Alice Lloyd Poet, Strip-Mining Foe, Freed Under Bond**

HINDMAN, KY.—A third warrant was served last Tuesday on Alice Lloyd college professor and poet William H. Cohen when he appeared here to face two previous charges in Knott quarterly court in connection with the recent demonstration against coal trucks.

The warrant was issued by County Judge Sid Williams on the complaint of truck owner Michael Baker, of near Hindman. It charged Cohen damaged the radiator of Blake's truck with the standard of an American flag during the protest.

Judge Williams set a \$250 bond and scheduled a hearing Saturday. A Tuesday hearing on a previous charge by Kentucky state police naming Cohen for disorderly conduct, was continued to Saturday day.

The judge set a \$1,000 bond on another KSP charge of blocking a public road, which was to be heard Tuesday when the defendants waived to November grand jury action.

The demonstration occurred at Stillhouse Branch near its Ky. 80 junction near Hindman when Cohen led a protest against truckers of the Tarheel Coal Co., which has a strip mine operation nearby.

**McDowell Hospital Earns Bond Award**

The McDowell Appalachian Regional Hospital has received an award from the Savings Bonds Division, the Department of The Treasury.

The award was in recognition of the participation by 53 per cent of the hospital's 113 employees in the purchase of U. S. Savings Bonds on the Payroll Savings Plan.

Edward V. Collins, administrator, accepted the award on behalf of the hospital and employees. It was presented by John Anderson, of Lexington, deputy director for Kentucky, U. S. Savings Bonds.

Collins said that the hospital has set a goal of 75 per cent participation in the Payroll Savings Plan and hopes to achieve that goal in 1971.

U. S. Savings Bonds now yield an interest rate of 5 1/2 per cent, when held to maturity of 5 years, 10 months.

**Mental Health Group Warns of Heroin Danger**

The information for this section is provided weekly by the staff of Mountain Mental Health Services. If you have questions, contact your local Mental Health Office; phone 886-3893 or John E. Mason, Community Coordinator, Mountain Mental Health Services, 413 South Lake Drive, Prestonsburg, Kentucky.

1. QUESTION: What is it like to take a shot of heroin?

ANSWER: Generally, there is a feeling of relaxation and of being "High." This is accompanied by an "awayness" or pleasant, dream-like state.

As tolerance develops, the "high" is generally lost. The addict then requires heroin to avoid the withdrawal sickness. In other words, at this point he is using heroin to feel normal.

2. QUESTION: What are the physical dangers of narcotic addiction?

ANSWER: The physical complications are many and some are life endangering. An overdose, resulting in death, occurs when someone has lost or never developed tolerance because he was using very diluted heroin. If, by chance, he obtains pure heroin, he may die moments after injection.

Infections from unsterile solutions, syringes, and needles cause many bacterial diseases. Viral hepatitis can be epidemic among addicts. Skin abscesses, inflammation of the veins and congestion of the lungs are further complications. Venereal diseases, tuberculosis and pneumonia are common.

The life expectancy of the addict is much lower than that of the non-addict. Addicts of both sexes are less fertile, and infants born of addict mothers may suffer withdrawal symptoms.

3. QUESTION: What are withdrawal symptoms from a narcotic like?

ANSWER: When addiction exists, stopping the drug provokes withdrawal sickness some 12 to 16 hours after the last injection. The addict yawns, shakes, sweats, his nose and eyes run, and he vomits. Muscle aches and jerks ("kicking the habit") occur along with abdominal pain and diarrhea.

Hallucinations and delusions can develop, and these are usually terrifying. An injection of an opiate brings about immediate relief.

4. QUESTION: What are the psychiatric complications of narcotic addiction?

ANSWER: The life of the narcotic addict is deplorable. His waking existence is centered around obtaining money to buy heroin ("hustling") making a connection with a pusher ("copping"), and trying to avoid withdrawal.

The activities that an addict will resort to in order to obtain heroin are harmful to himself and those around him. He may steal from his loved ones, double-cross his best friend, or pander his wife. It is obvious that a career of heroin addiction must lead to personality decay and seriously impair emotional maturation.

**SHOULD A DOCTOR, DR. JAMES D. ADAMS, BE A MEMBER OF THE SCHOOL BOARD?**

In last week's Floyd County Times, my opponent's campaign chairman raised the issue: SHOULD I, DR. JAMES D. ADAMS, SERVE ON THE SCHOOL BOARD? A majority of the voters in Division 1, answer this question "YES". They tell me:

1. I, Dr. Adams, in the past years have demonstrated that I have the time to spend on developing better education for our children. I have taken the time to be interested in redistricting our educational divisions, supporting our athletic programs, and working for approval of our schools by the Southern Association of Secondary Schools.
2. We have had many distinguished members of the Board who were doctors. To mention only two of many, do you remember my cousin, Dr. W. D. Osborne, who gave many years of service to the cause of education in Floyd County and Dr. George P. Archer, who served with distinction on the City of Prestonsburg Board of Education for a number of years? Indeed, what is the profession of the elderly gentleman, now on the Board, and running for reelection in a joint campaign with my opponent? I, Dr. Adams, consider myself young enough and capable to serve as your Board Member.
3. A doctor's training and experience is particularly adapted to know educational needs and their remedies. I refer to such problems as sanitation, dietary measures, physical fitness, and school safety measures. A doctor's training and education include almost all subjects: mathematics, the sciences, including chemistry and biology, public speaking and debate, languages, psychology, etc. etc. etc.

**Willard (Hut) Johnson Dies at McDowell Hosp.; Funeral Held Saturday**

Willard (Hut) Johnson, 80, of Melvin, died Wednesday at McDowell Appalachian Regional hospital.

Born January 6, 1890, he was a son of the late Ben and Tillie McCown Johnson.

Survivors include his widow, Mrs. Rose Hall Johnson; a son, Wid Johnson, of Virgie; two daughters, Mrs. Imogene Tackett, of Weeksbury, and Mrs. Kathryn Mullins, of Melvin; a brother, Banner Johnson, of Greenup; a half-brother, Isom Hall, of Jonancy; a sister, Mrs. Cordelia Tackett, of Wales; a half-sister, Mrs. Effie Tackett, of Melvin; 17 grandchildren and four great-grandchildren.

Funeral services were conducted at 10 a.m., Saturday, at the home of his daughter, Mrs. Imogene Tackett, at Melvin, by ministers of the Regular Baptist church. Burial was made in the Tackett cemetery there under direction of Merion Funeral Chapel.

**PIKEVILLE COLLEGE GIFT.** Gne Davis (right), secretary of the Russell Fork Coal Company, Elkhorn City, right, presents a check for \$5,000 to Dr. Robert S. Cope, president of Pikeville College. The amount was a gift from the Massey Foundation, Richmond, Va., on behalf of the A. T. Massey Coal Company, Inc. About \$1900 of the gift will finance an all-expense scholarship for a student at Pikeville, and the remainder will be added to the college building fund.

"Why should freedom of speech and freedom of the press be allowed? Why should a government which is doing what it believes to be right allow itself to be criticized? It would not allow opposition by lethal weapons. Ideas are much more fatal things than guns. Why should any man be allowed to buy a printing press and disseminate pernicious opinion calculated to embarrass the government?"—Nikolai Lenin.

**Dr. Sherman Speaks At Wayland Club**

The Lackey-Garrett-Wayland Woman's Club held its first program meeting of the club year recently at the home of Mrs. M. M. Collins, Lackey. Dr. Frances Sherman, well-known Martin physician, spoke on "Retardation."

Dr. Sherman explained the difference between the trainable and the educable among the retarded. She also outlined the work of the Day Care center. She reported that by 1974 all school boards will be required to make provision for retarded children.

The speaker, who has sponsored for many years the school for the retarded at Martin, stressed the urgent needs of the school and of the Association for Retarded. She urged all concerned persons to become members of the Association, not just by paying dues but by attending meetings and being active in the work of the organization.

During a business session it was unanimously agreed to continue the \$100 scholarship to each, the Prestonsburg Community College and Alice Lloyd College, and add an additional \$50 to each, making the contribution each year a full scholarship to both schools. Some kind of project will be initiated, it was decided, to raise the additional \$100.

It was also unanimously agreed to assume as a project of the club the financing of one boy each year for a week of camp at Trooper Island.

Hostesses for the meeting were Mrs. Shelby Draughn, Mrs. Alice Hornsby, and Mrs. Charles Collins. There were twenty-four members present.

**Carson Hibbits' Mother Succumbs at Pikeville**

Mrs. Mattie Meade Hibbits, of Norton, Va., mother of Carson Hibbits, well-known former president of District 30, UMWA, died Sunday in a Pikeville nursing home. She was 86 years old.

Born September 20, 1884, she was a daughter of the late George and Mary Hughes Meade. Her husband, William Hibbits, died in 1943.

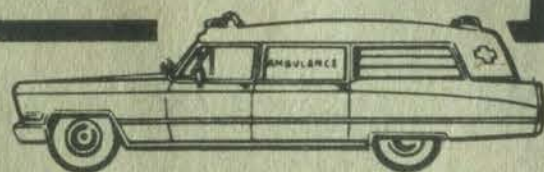

Other survivors include four other sons, Thurman Hibbits, of Orange, Calif., William Hibbits, of Evansville, Ind., Charles Hibbits, of Washington, D. C., and Harold Hibbits, of Hallendale, Fla.; three daughters, Mrs. Opal Bentley, of Pound, Va., Mrs. Beulah Blizzard, of Alexandria, Va., and Mrs. Jesse Beasley, of Paducah; a sister, Mrs. Nora Stone, of St. Paul, Va.; 22 grandchildren and 20 great-grandchildren.

Funeral services were conducted at 11 a.m., Tuesday, at the Lone Pine Free Will Baptist church at Pound, Va. Burial was made in the family cemetery at Darwin, Va.

# Floyd County Chapter Presents \$1500 Check To Birth Defects Center

Floyd County Chapter, March of Dimes, has presented a check in the amount of \$1,500 to the University of Kentucky Birth Defects Treatment Center at Lexington, according to Mrs. Anna Sue Stumbo, chapter chairman. The presentation represents Floyd county's share in an annual grant by the March of Dimes to the Birth Defects Center.

"We are pleased to make this donation to the Treatment Center in behalf of the citizens of our county who gave so generously to the March of Dimes during last year's campaign and sincerely hope that each person in the county will support the March of Dimes during the 1971 Campaign in December and January," Mrs. Stumbo said.

Disadvantaged persons effected by continuing unemployment will be given short-term job experience through STEP, a program developed by the Labor Department's Manpower Administration.

# PLEASE THINK!

Which School Board candidate is interested in ALL children in Floyd county? At the same time, which candidate was born and raised in District No. 1 and attended Prestonsburg schools and whose children will attend these schools? Which Board candidate owes his TOTAL allegiance to the schools of District No. 1?

Which School Board candidate is available at ALL times to the citizens of District No. 1, even leaving his store during rush hours to attend Board meetings? Which Board candidate has over two years' experience on the Floyd County Board and has the majority of the other Board members who are a "team"? This means better working relationships to promote the betterment of the children in District No. 1.

Which Board candidate has made no wild promises of jobs? There are no jobs available, except for vacancies which occur during the school year.

Which Board candidate has no political axes to grind? Which candidate is interested in children and ONLY children?

Please VOTE for O. R. "Pete" Howard, Nov. 3. Please help elect O. R. "Pete" Howard to the Floyd County Board of Education. You will never be sorry.

## 3000 Visit Plant For Open House; Dedication Set

American Standard's big, new plant near Paintsville, which last Saturday drew more than 3,000 area residents to its open house, will be dedicated Nov. 18, it was announced this week by Roger McKenzie, plant manager.

Governor Louie B. Nunn will make the dedicatory address, and the occasion will be marked by a visit of company officials and area leaders.

Visitors to the plant last Saturday toured the 166,240-square-foot building and saw the manufacturing facilities and processes which produce its Aquarian fittings. The Paintsville plant is the only place in the country where finished Aquarian products are manufactured. It currently employs 260 residents of this five-county area.

### ASK CONTRIBUTIONS

All who are interested in contributing toward necessary expenses of the patriotic parade, to be held Saturday, November 7, may send their contributions to Parade Fund, Prestonsburg Chamber of Commerce, Prestonsburg, Ky. 41653.

# TO THE VOTERS OF EDUCATIONAL DIVISION NO. 1

I am sure you know the answers to the following questions; therefore, after you have answered them, go to the polls, Tuesday, November 3, 1970 and vote for the candidate that will best represent your children!

1. Which candidate has given you a positive program for the next 4 years?
2. Which candidate has offered no program, except harmony, for Educational Division 1, but has tried in vain to argue the ignorance of the other candidate's platform?
3. Which candidate stated we needed no Junior High School or Graded School because the enrollment of the high school has decreased? The enrollment of the grade school has increased from 875 pupils in 1969 to 910 pupils in 1970, and expects to increase more when the Goble Roberts Housing Development opens.
4. Which candidate questioned the capability and qualifications of the other candidate, when you know as intelligent voters, this will be decided on November 3, 1970, by you, the voter.
5. Which candidate tries to hide the needs of Educational Division No. 1 by stating the needs of the other divisions as more important.

Mrs. Ida Mae Smith, 70, was stricken by an apparent heart attack and died suddenly at her home at Estill, Saturday.

Born in Morgan county, August 12, 1900, she was a daughter of the late Dave and Jenny Rudd Conley. A member of the Free Will Baptist church for 40 years, she was the widow of Russell Smith, who died in 1952.

Survivors include three sons, James A. Smith, of South Point, O., Granville Smith, of Carrollton, Ky., and Okey Lee Smith, of Mt. Vernon, Ill.; five daughters, Mrs. Margie Long, also of Mt. Vernon, Mrs. Opal Hill, of Lima, O., Mrs. Johnnie Shriner, of Albion, Ind., Mrs. Pearl Hill, of Lewiston, Montana, and Mrs. Dovie Music, of Richmond, O.; one brother, Winfred Conley, of Rockford, Ill.; 26 grandchildren and four great-grandchildren.

Funeral services were conducted at 1 p.m., Tuesday, at the Martin Branch Free Will Baptist church Estill. Burial was made in the UMWA cemetery at Eastern under direction of Hall Brothers Funeral Home.

### Engagement Announced

Mr. and Mrs. Willie Hicks, of Prestonsburg, wish to announce the engagement of their daughter, Brenda, to Mr. John Richard Porter, son of Mr. and Mrs. John M. Porter, of Prestonsburg.

The couple are recent graduates of the University of Kentucky. Miss Hicks received a bachelor's degree in the college of Arts and Sciences and Mr. Porter received a bachelor's degree in the college of Business Administration.

An open wedding is being planned for early December.

### D. A. C. MEETS

Mrs. Everett D. Sowards attended the Kentucky Society, Daughters of the American Colonists, meeting held at the Frankfort Country club, October 22. Mrs. Wendell Nicholls, of Bowling Green, president, presided, and Mrs. Bailey P. Wooton, guest speaker, spoke on national defense. The January meeting will be held in Louisville at which time the nominating committee will report. Luncheon was served to the 30 members who attended.

### THANKS!

Prestonsburg Elementary P-T. A. wishes to thank the Arrowood Hardware Co. and the Fountain Korner Drug for their contribution of boys' and girls' Timex watches to be given as door prizes at the Hallowe'en Carnival here Saturday evening. A 19-inch color TV with stand, from Don Moore's Furniture, is also among the prizes to be given away.

Surveying moose that is believed to be a U. S. record are, from left, Earnie, Ralph and Terry Moore and the young daughter of Terry.

A Floyd county family has returned from a three-week hunting trip in Wyoming—and it's held highly possible that one of the party bagged during the hunt the biggest moose killed in the United States.

The moose that is regarded as a possible record-breaker measured 50 inches across the points and weighed 1500 pounds. It was shot by Terry Moore, son of Ralph Moore, of Price. Another son, Earnie Moore, accompanied them in a hunting party of 12. The group bagged two antelopes, nine elk, five deer and two moose. The Moores were guests in Wyoming of Clyde and Arnold Moore.

## Ball of Hair and Pinch of Salt

By HELEN PRICE STACY

WEST LIBERTY, KY.—Whatever you do within the next few days, take time to brush your hair and save the loose hair from the brush—and keep a sharp eye on your window; then if you see that "Old Thing" a-comin' down the road looking as innocent as all getout, run quickly to get the hairball and hastily hide it beneath the front steps.

If her first words are: "I clean forgot to buy a sack of salt last time in town. Could you spare me a pinch," you will know you have done the right thing about the hairball. Should the "Old Thing" ask to borrow your apron, your hair ribbon or some other item that is a personal possession, just thank your lucky stars you got the hairball under the steps before she crossed over the threshold. . . . and for good measure take that pinch of salt and toss it over your shoulder.

These are the days when witches ride and warlocks roam, and a body can't be too careful about warding off spells and keeping away the "hants" and "Old Things."

This is no season to go sauntering off down the road at about the time your chickens have gone to roost, particularly if your path winds its way through an ancient graveyard. The hants, hants, haunts are about.

"One group was detailed as sentinels to walk the sacred precincts where lay the sainted dead and to scare off the curious who might be tempted to enter, or to loiter about the premises."

That observation was made by Jeston Testerman Gevedon who grew up in the Blue Ridge Mountains of Virginia before her family traveled to Eastern Kentucky 100 years ago.

"These sentinels often carried white doves which could be loosed or retained at will. I have heard old timers tell many scary tales of these graveyard ghosts. These same old timers would swear to the truth of what they had seen."

Most of you know a haunted house or two in your neighborhood. If the truth were known, many more so-called haunted abodes could be added to the list.

One middle-aged lady in Morgan County married a few years ago and left the farm home the family had maintained for many years to live in her husband's house in another section. Her home had been a lovely, softly-weathered house set beneath giant trees and surrounded by a spacious country yard, with the narrow dirt road leading past to other farms on up the creek. Why did she leave?

"She kept hearing things at night," offered a niece. "She would hear windows being raised, things hitting against doors. She was glad to get away."

There are people in Floyd County who can tell about the man who was marking his timber for sale. He came upon a big tree and marveled at its strength and beauty and estimated the board feet in it. Not long afterward he brought a buyer to the place, not so much to sell him the huge tree but to show it off. But the tree was gone. There was no stump left to indicate that a tree once had stood on the spot and grass and soil were undisturbed. The man swears that the tree had been there. . . . but there was not the slightest evidence that it had.

Parapsychologists today have come up with some marvelous evidence after years of research. . . . but this is nothing new or strange to many of another generation who

did not question the spectres who seemed to have their habitat in old buildings. "Members of this group seem to have been invisible, or at least rarely seen, but majored in making horrible noises of every description, from uttering hair-raising screams and groans to racing from cellar to garret and rolling huge objects about the house."

Another group of shades in the old days seemed to be more independent, doing their own thing wherever they wanted. "These seemed to be loafing about old deer licks, scenes where murders had been committed, at crossroads in the forest, pathways through the dark woodlands. A man returning home in the dark would be confronted by a tall, slim woman, all in white." The woman in her snowwhite pall would appear ahead on the path, then vanish at the man's approach. "No harm done. Just a scare."

But that's the way it is with these night creatures. They're real friendly and from all indications do no harm to anyone. That is, all except that certain "Old Thing" who comes trudging down the road, walking (maybe, even her riding) stick in one hand and the other clutching the strings of her black bonnet. Be kind to her this Halloween season. . . . but whatever you do don't let her borrow anything unless you have that hairball secreted beneath the front steps.

# To the Voters Of Educational Divisions No. 1 and 2

Through the efforts of the people of Bull Creek, a suit was filed in the State and Federal Courts in 1968, forcing the Floyd County Board of Education to redistrict the Educational Division, so that every person would be able to vote for the Board Member in the division in which their children attend school.

This goal was reached by circulating a petition to the people of Bull Creek, who were very eager to participate in this effort. Immediately after the petition became known, many telephone calls and personal appearances was applied by the office of the County Supt. office and their attorney attacking the validity of the petition. One of the wrongs with the petition was that the address and telephone number of the person signing the petition was left off. A special meeting was called and upon the motion made by Dr. J. H. Allen and seconded by O. R. (Pete) Howard and passed by the Board to challenge the validity of the petition.

The people of Lancer and Spurlock were helped by this action. "We are glad."

I am sure we all realize there is not much money involved in the job of Board Member, so the point is to consider who is the best qualified to represent our children and to have a look over certain shoulders to see how our tax money is spent. Oh, I know peace and harmony are good in their place, but God forbid that we don't let it destroy our desire to compete in a Democracy. We know we have in these two young men, Dr. James D. Adams and Donald L. Lafferty the very best possible for members of the Board of Education. Both men have young families and are very interested in the welfare of our children. Dr. Adams is a fine, young physician and we personally know he has gone beyond the call of duty to help someone in sickness or distress.

So we beg and plead to you, the voters in Educational Divisions 1 and 2, to go to the polls and let your conscience be your guide and I am sure that Dr. James Adams and Donald Lafferty will be the next Board Members in Educational Divisions 1 and 2.

**Murder Every 29 Hours in State, Complete 1970 Survey Discloses**

FRANKFORT, KY.—A murder was committed in Kentucky on the average of one every 29 hours during the first six months of this year, Public Safety Commissioner William O. Newman says.

Newman announced "crime clock" figures after the completion of a study of the first half-year's operation of the state uniform crime-reporting system. The figures are based on reports received from local, county and state police and from sheriffs.

"These are the most complete figures we have ever had on crime totals in the state," Newman said.

"There was a robbery on the average of every 4½ hours in Kentucky; a burglary on

the average of every 26 minutes; a larceny (\$50 or over) also on the average of every 26 minutes; a car theft every 55 minutes."

Aggravated assaults averaged one every 2½ hours and forcible rapes, one every 25 hours.

To the Citizens and Taxpayers of Educational District One in Our Floyd County School System

Our present administration has made a great amount of progress for our children in the past few years. Yet there is admittedly much more to accomplish. We have had our differences in opinion but these differences have been ironed out in behalf of the children. The present administration will have its imperfections in the future, but it is my pledge to the voters and children to work as a part of a team and see that any and all problems are solved.

The very same day my father passed away, he told me this (and I quote), "I know this administration has its faults but I know down deep in my heart these can be taken care of, working together for the benefit of all children."

My opponent has stated many times he supports OUTSIDE administrative leadership.

WHO IS THIS PROPOSED ADMINISTRATOR?  
WHERE DOES THIS MAN COME FROM?  
HOW MUCH OF A SALARY WILL THIS MAN DEMAND FOR HIS SERVICES?  
HOW MUCH OF THIS MAN'S SALARY WILL BE SPENT IN FLOYD COUNTY WITH FLOYD COUNTY MERCHANTS?  
WILL THIS OUTSIDER DEVOTE HIMSELF WHOLEHEARTEDLY TO OUR CHILDREN?

THE TAXPAYERS HAVE A RIGHT TO KNOW THE ANSWER TO THESE QUESTIONS.

There are 193 school systems in the state of Kentucky. Your Floyd County system is the FIFTH largest in the state. Yet your present administrative leader in your school system does NOT make a salary which is in the top FIFTY in the state. THIS SAVES THE TAXPAYERS MONEY.

How many people in this county really want a man from outside Floyd county in charge of a yearly budget of nearly FIVE MILLION DOLLARS? THIS FIVE MILLION DOLLARS IS BEING SPENT FOR YOUR CHILDREN.

I PERSONALLY WANT A FLOYD COUNTY MAN TAKING CARE OF YOUR MONEY AND YOUR CHILDREN

PLEASE THINK BEFORE YOU VOTE. VOTE FOR O. R. "PETE" HOWARD FOR YOUR BOARD MEMBER IN DISTRICT NO. ONE.

YOU WILL NOT BE SORRY IF YOU VOTE FOR PETE HOWARD.

A VOTE FOR O. R. "PETE" HOWARD IS A VOTE FOR YOUR CHILDREN

**O. R. "Pete" Howard**

Your CONCERNED Board Member

**Teenage syphilis and gonorrhea are the biggest things to hit the suburbs since crabgrass.**

Nice kids aren't supposed to get venereal disease.

But they do. In growing numbers. Last year 300,000 nice kids reported cases of syphilis and gonorrhea.

And there were probably three times that number of teenage cases unreported or unnoticed.

Because V.D.'s biggest ally is ignorance.

Kids today probably know just as much about venereal disease as their parents.

And that's not very much. Some people still believe that V.D. is caught from toilet seats. Or dirty door knobs. Or through the air.

The fact is, it spreads almost exclusively through sexual contact. And it continues like a chain reaction.

One good looking high school junior from a nice family was the first link in a chain of 198 people.

Once a case of venereal disease is detected it can be cured with appropriate medication.

But left untreated, V.D. can cause blindness.

Sterility.

Even death.

The greatest danger is to those who get it but don't know it.

Because the sore or rash that

signals an infection may go away without being treated.

But the disease doesn't. It stays in the body to reappear in a more severe form.

Often years later. There are some things kids and parents can do about V.D. before it does something about them.

Learn about venereal disease. If V.D. is suspected don't take chances. Talk to a doctor. Immediately.

Diagnosis and treatment are simple and painless.

Venereal disease is not.

## Makes Full Circle, Student to Teacher.

The circle of education from student to instructor has now become complete with the addition of Ronnie L. Carter, 1966 graduate of Prestonsburg Community College, as an instructor and faculty member of the community college in business and office education.

Mr. Carter, son of Mr. and Mrs. Curtis Carter, of McDowell, was graduated from McDowell high school in 1964 and from Prestonsburg Community College, majoring in business administration, in May of 1966. He later received his B. S. degree in January, 1969 from Morehead State, also majoring in business education. Carter received his masters in business education in June, 1970. While at Morehead, he received a graduate assistantship and became a member of the National Business Education Association and American Vocational Association in which he still holds membership. He married Marcia Lynn Ward, also of McDowell, a former student at Prestonsburg Community College. His wife is currently enrolled at Morehead State University where she is completing her senior year, majoring in business and secretarial studies.

Carter recently served in the capacity of business manager of the Jenny Wiley Drama Association.

Of his role at the college here, Carter said, "I feel very fortunate in being the first graduate of Prestonsburg Community College to return as an instructor. The faculty and staff here are very professional in their work and I'm constantly observing them with the intention of improving my own teaching methods and skills. The facilities, equipment and instruction offered by Prestonsburg Community College are first-class, and graduating high school seniors in this area should visit their community college and see what it has to offer them. They won't be disappointed."

## EASTERN CONSOLIDATED SCHOOL GROUND-BREAKING SET SATURDAY

Groundbreaking ceremonies at the site of the consolidated high school at Eastern will be held at 10 a.m., Saturday, it was announced this week.

Music by school bands and a brief program will mark the day. County Superintendent Charles Clark said that all friends of education are invited.

Excavation work at the school site has been under way for the last three weeks.

## "PEACE" SYMBOL UNDER FIRE

The familiar "peace" symbol, worn by many youngsters, has recently come under fire from concerned parents and church groups. The symbol is said to have been well-known in the Middle Ages as either the "Crow's Foot" or "Witch's Foot" used by those opposed to Christianity as an anti-Christ sign. Today it is said to be a central part of the national symbolism of Communist Russia, and is seen as a subtle weapon in the ideological struggle between communism and capitalism.

## Sweeney Among 11,000 Airlifted to Europe

FT. RILEY, KAN.—Staff Sgt. Frank Sweeney, son of Mrs. Mary Sweeney, Prestonsburg, Ky., was among the 11,000 troops of the 1st infantry division, who left Ft. Riley, Kan., Oct. 4-10, to be airlifted to Germany to participate in exercise Reforger II.

A few hours later, the troops picked up weapons, tanks and armored personnel carriers, which had been prepositioned in Europe, and departed to the exercise site near the Czechoslovakian border.

Reforger II was designed to test U. S. Army deployment from stateside bases in defending western Europe with NATO forces. A similar exercise, Reforger I, was held in Germany in January, 1969.

Sgt. Sweeney is a tank commander in Company C, 2nd Battalion of the Division's 63rd Armor.

 from what should be accomplished for the public schools (higher salaries, smaller classes, better buildings, etc.) to what should be accomplished BY the schools—how well students are achieving.

The panel adopted a wait-and-see attitude toward performance contracting, an experimental program in which school boards contract with private educational firms to instruct students in one or more subjects, with the firms being paid on the basis of the pupils' progress. Pilot performance contracting programs are underway in a few school districts across the country, but none have been started in Kentucky.

The panel unanimously condemned both state appropriations to nonpublic schools and the controversial "voucher system," under which parents would receive vouchers worth a certain amount of money from public funds. The parents could then choose any school—public or private—to send their children to, and that school would cash the vouchers to obtain funds.

Because of the problems the voucher system would present in planning, staffing, administering and financing public schools, one panel member predicted "it could cause the destruction of our public school system as we know it today."

KSBA Director of Field Services J. T. Clifton reviewed the state association's legislative program, noting that most of the problems facing local school boards could be solved only through the enactment of appropriate state legislation.

Gifford Varney, a member of the Pike county school board, was elected chairman of KSBA's Eastern Kentucky Region (South). As a regional chairman, he will serve on the state association's board of directors.

John Ward, also a member of the Pike county school board, was elected vice chairman of the region, and Pike County Supt. Tilden Deskins was named regional secretary. The new officers will assume their posts at KSBA's 1971 state convention in Louisville next March.

Current regional officers are Chairman John M. Stumbo, of the Floyd County Board of Education; Vice-Chairman Clyde Van Hoose, of the Johnson county school board, and Regional Secretary Charles F. Clark, superintendent of Floyd county Schools.

William J. Baird, a member of the Pikeville Board of Education, is an incumbent member of KSBA's state executive committee.

KSBA's Eastern Kentucky Region (South) is made up of the school districts of Floyd, Johnson, Magoffin, Martin and Pike counties, and the independent school districts of Paintsville and Pikeville.

**TRAFFIC SAFETY**—Gov. Louie B. Nunn will appoint seven high school students to serve on the Kentucky Traffic Safety Coordinating Committee. The governor announced this decision when he spoke in Lexington at the first of seven regional meetings of high school students concerned about the rising traffic toll among teen-agers.

**POLLUTION**—The State Water Pollution Control Commission will hold a hearing Nov. 11 on a complaint that the City of Lexington is not moving fast enough to improve a sewage-treatment plant. . . The Gulf States Paper Corp. will build a \$5 million, pollution-free carton plant at Nicholasville.

**Governor Announces Nursing Home Fund Increase for 1971**

A program to provide more state funds to patients in personal care and nursing homes and to establish a new level of care—called the intermediate level—was announced Friday by Governor Louie B. Nunn.

At a press conference at the Executive Inn in Louisville, Gov. Nunn announced these improvements in the state assistance program to the aged and infirm:

1. Effective Jan. 1, payments for public-assistance clients in nursing homes will be extended. These homes now receive full payment only during the first 180 days and \$7.50 a day thereafter. Under the new policy, full payment will be made as long as needed by patients.

2. Effective Dec. 1, payments to the state's public-assistance clients now in personal care homes will be increased by \$30 a month.

3. Effective July 1, the intermediate level of care, fitting between personal care and nursing homes, will be established. Dr. William P. McElwain, state health commissioner, and his staff have been authorized to prepare regulations. With establishment of the new level of care, the state will be eligible for matching funds from the federal government.

Gov. Nunn said the increased payments for personal care home patients will be financed by \$250,000 from his contingency fund and will be used to obtain federal money on a matching basis.

**School Board Member, District 2**

**TO THE TAXPAYERS OF FLOYD COUNTY SCHOOL DISTRICT 2**

Are you satisfied with the way the Floyd County Schools are being run, with the quality of education your children are receiving? If you are happy with the schools being run as they are now, DON'T VOTE FOR ME! If you want a change for your children, someone to work for them, I ask you to vote for THEM (your children) by electing me to represent them.

5. Re-districting, that would place all children in a school in their district.

6. A free lunch program for EVERY Floyd County school child.

7. Higher wages for qualified bus drivers.

8. More school buses to relieve overcrowding.

9. A school bus shelter for every child in School District 2.

10. To help the teachers liberate themselves by:

- A. Encouraging their honest opinions.
- B. Vowing to stand with those teachers who will endeavor to restore dignity to their profession.
- C. Strongly oppose heavy-handed soliciting of contributions for any campaign fund.
- D. Adamantly oppose, discriminatory transfers.

11. Improved maintenance and sanitary conditions in all existing school facilities.

12. To never be persuaded to vote for anything that is not, in my opinion, FOR THE CHILDREN.

I offer my pledge to work for the following:

1. Insist the tax dollars be spent wisely.

2. To construct school buildings where the need is greatest.

3. To know the people of my district and the needs of ALL our children by:

A. Inviting representatives from each of the 8 school precincts to meet with me before each monthly school board meeting to discuss our educational problems or needs.

B. To attend any and all P.T.A. meetings.

4. To request the agenda for each regular meeting of the Floyd County Board of Education be published, prior to the meeting, so that anyone concerned with the pending issues may attend.

I ask you, the people in Educational District 2, to vote for me, Donald L. (Donnie) Lafferty, because I am your candidate who will be —

**CRAWFISH FOR BLACK BASS**

Recently this column pointed out the great fishing possibilities during the fall months. It was stated that big bass could be caught on surface lures, early and late, and on artificial nightcrawlers fished about anywhere, but especially off rocky points where crawfish were feeding. This brought about a strong suggestion that fishing with live crawfish in such areas also is good during the months of October and November. And that is exactly right.

If a person enjoys live bait fishing (and we suggest just about everyone does), then he may catch some monstrous bass by using live crawfish at this time of year. The biggest drawback is obtaining the crawfish.

This is relatively easy in the warmer periods of fall, but at the end of the season, they are really hard to come by. But right up until the snow flies, good catches of black bass, and catfish as well, may be made on the live crawfish.

One system that pays off big for know-how fishermen is casting the smaller type craws (those half as long as your finger) on the rocky ledges and letting the craw work around in the crevices, back under the ledges etc. If there is a bass in the area he will sooner or later take the craw, first daintily picking it up in his mouth, then dashing madly away for maybe a distance of 15 feet. Then he will swallow his prize. When that second tug comes that's the time to set the hook.

Now there's a bit more to crawfish fishing than that. The bait must be hooked from underneath the tail flapper, slightly to one side of a nerve center that grooves that portion of the body. Push the hook right on through this membrane. This allows the crawfish to have good action; it does not cramp the style of the bait too much since the nerve center has been spared, and by having the hook emerge from the topline there isn't too much danger of its sharp point becoming lodged on a rock or other obstruction. The fisherman should use a barrel-type sinker—that is, one that allows the line to flow freely through the opening. This permits the bass to pick up the crawfish and dash off in its mad fashion without having to drag behind him the heavy sinker. Often if there is a tightness to the line the bass will shy off when he first mouths his prey.

The fisherman will cast this rig into the water, set his pole firmly on the side of his boat or fix it in the bank, if bank fishing, and wait for the crawfish and the bass to meet. That monumental confrontation most often results in a caught bass.

The crawfish, same size, may be fished beneath a rig composed of a floater, pulled down by a good-sized sinker which is but a few inches above the crawfish-baited hook. This rig does not touch the bottom but apparently is attractive to any and all bass that may be cruising in the area. Black bass will bite in much the same manner as bass taking crawfish used on the bottom of rocky points. The fisherman should not be too hasty in hitting back when he has a bite on this rig. He may let the submerged cork remain out of sight for several seconds (it will seem like minutes) before he sets the hook.

Be sure to use the smaller crawfish in this type fishing. Bass seem to take the smaller craws better than the larger ones, although a monster will sometimes take a crawfish that is four or five inches long.

Then there may be times when black bass will totally refuse crawfish. So, if you try them once and don't get good results, don't give up. The bass may well cooperate the next time.

To the Voters of **Educational Division No. 1:**

As a candidate for the Floyd County Board of Education, Division 1, I recognize my duty to the voters to state as clearly as I may some of the things I will work for as a Board Member.

First of all, I frankly admit that not everything is perfect with our schools. They may never be perfect, but I think they should be and can be improved. I make this statement, not as one skilled in getting the last drop of political strength from every word I may say or promise to be made, but as the father of two young children and as one who has an interest not only in his own youngsters but in the welfare of all our children.

There are other items, no doubt, that could be mentioned, but at this time I consider the following aims of top importance, and I pledge myself to make every effort to put them into effect:

1. PUPIL TRANSPORTATION. I will work for a daily evaluation of this department to the end that a more convenient, safer means of transportation can be achieved.
2. INSTRUCTION. A monthly evaluation, with continuing improvement.
3. LUNCHROOMS. A monthly evaluation, with changes made where and when needed for the benefit of the children.
4. INTERNAL SCHOOL ACCOUNTS. A monthly evaluation, and an annual audit of these individual school accounts once each year by professional people.
5. Better and more efficient maintenance of school properties.
6. The closing of the remaining six one-room schools in the county within the next two years.
7. The replacement of all inadequate buildings as soon as this is financially possible.
8. The construction of the new high school at Eastern on Right Beaver Creek.

I have no axes to grind, no political dynasties to build, no ambition for personal gain for myself or any of my friends. I will work for the progress of our school system and as best I may for the benefit of the boys and girls who attend these schools, and on this basis I ask your support at the election, Nov. 3.

**O. R. (Pete) Howard**

## Financial Help To 101 Students Totals \$55,560

More than \$55,560 in financial aid has given 101 students at Prestonsburg Community College the opportunity to attend school during the 1970-1971 academic year, it was said here this week.

More than a fourth of this money is from federal loans through local participating banks. This amounts to almost \$15,000 with 20 students receiving these loans.

The largest form of aid received was from the College Work-Study Program through the University of Kentucky, with 34 students receiving \$15,610. Under the Work-Study Program a fulltime student may work a maximum of 30 hours in a two-week period at \$1.45 per hour. This rate will be increased in January, 1971 to \$1.60 per hour. Students currently in the Work-Study Program have jobs such as librarian assistants, faculty aides and members of the maintenance department.

Other forms of aid received by students this year are: State vocational rehabilitation scholarships, \$5,800; economic opportunity grants, \$5,850; national defense student loans, \$7,300; and scholarships made available through contributions of local civic-minded individuals, groups and businesses, \$6,050.

Contributors of scholarships to the Prestonsburg Community College scholarship program are Big Sandy Insurance Agency, Brown Produce Company, Citizens National Bank, Compton Adjustment Service, George Evans, Jr., First National Bank, Floyd County Farm Bureau, Floyd County P. T. A. Council, Francis Store, Hall-Clark Insurance Agency, Inc., Holbrook Construction Company, Lackey-Wayland-Garrett Woman's Club, Marvin Music Gulf Distributors, Maytown Woman's Club, Music-Carter-Hughes Motor Company, Paintsville Jaycees, Paintsville Rotary Club, Prestonsburg Dairy Queen, Prestonsburg Woman's Club, Ray Howard Furniture Company, R. ### NOTICE AS TO THE FILING OF A PETITION FOR THE CREATION OF A WATER DISTRICT TO BE KNOWN AS DAVID WATER DISTRICT AND NOTICE OF HEARING AS TO SAME

Notice is hereby given by the Floyd County Court, of the filing of a Petition in such Court for the formation of a Water District pursuant to the provisions of Chapter 74 of the Kentucky Revised Statutes, asking that said proposed Water District be known as the David Water District.

Said Petition states that there is a small privately owned waterworks system in the District, consisting of a water reservoir, water treatment plant, water storage facility and water distribution facilities, serving between 70 and 80 customers, which existing waterworks system is owned and operated by David Properties, Inc. Said Petition states (a) that with the exception of the customers served by said existing system, the only water available for use by the residents of said District is that which may be pumped from wells or cisterns or carried from springs, which water supply is inadequate for the use of the residents of said District; (b) that the existing system is dilapidated and in bad need of repairs, and the cost of repairing said existing system would be more than the cost of the project which the citizens of the District desire to undertake; (c) that it is contemplated that the proposed District will purchase the existing system, will run lines from said system to Prestonsburg, will purchase water from Prestonsburg and will supply water to additional customers located on the lines to be laid between the District and Prestonsburg, thus reducing the cost per capita; (d) that the District will contemplate purchasing water from Prestonsburg and will not have need of the treatment facilities of said existing waterworks system in the District; (e) that the District proposes to serve customers located between the point where the District begins (approximately 2 1/2 miles west of Prestonsburg) and the point where the existing system is located, which distance is approximately 5 miles in length; (f) that the District will need to purchase the existing system in order to acquire the existing distribution facilities of that system; (g) that the convenience, comfort, health and safety of the public, because of lack of adequate fire protection, are in grave danger, and subject to extreme hazards; (h) that it is desperately urgent and necessary to create the new Water District in order to correct such undesirable conditions; (i) that no cities, districts or other municipal corporations, or any parts thereof, are located within the boundaries of the territory of said proposed District; and (j) that prior to the filing of said Petition, said Petitioners obtained an Order of the Public Service Commission of Kentucky, dated September 22, 1970, granting said Petitioners the right to Petition the County Court for the establishment of a Water District, pursuant to KRS 74.015, a copy of which Order was filed as an exhibit with said Petition.

Said Petition is signed by not less than 25 resident freeholders of the proposed District, states that no incorporated City or part of an incorporated City is located within the boundaries of said District, is accompanied by preliminary approval of the Public Service Commission of Kentucky, and describes the territory intended to be included in the District, as follows: DESCRIPTION OF AREA COVERED BY DAVID WATER DISTRICT. Lying on the waters of Left Fork of Middle Creek, Middle Creek being a tributary to the Levisa Fork of the Big Sandy River, situated in the County of Floyd, State of Kentucky, being more particularly described as follows: Beginning at the intersection of (forks) Left Fork of Middle Creek and Middle Creek; thence in a southeasterly direction across the bottom and up the defined center of the point to the top of a knob between Spurlock Creek and Left Fork of Middle Creek; thence in a southerly direction up the defined meanders of the ridge to the gap between Caney Creek of Left Fork of Middle Creek and Stephens Branch of the Right Fork of Beaver Creek; thence in a southwesterly direction along the defined meanders of the ridge between Caney Creek of Left Fork of Middle Creek and Wilson and Brush Creeks of Right Fork of Beaver Creek to the Gap between Left Fork of Middle Creek and Brush Creek, through which Ky. 850 passes; thence with the said defined ridge a northwesterly direction to the Magoffin County line; thence in a northerly direction along the Magoffin County line to a point on top of the ridge between Mill Branch of Middle Creek and Rough and Tough Creek and Buckeye Branch of the Left Fork of Middle Creek; thence in a northeasterly direction down the defined ridge (away from the Magoffin County line) between said tributaries and between Middle Creek and the Left Fork of Middle Creek to the place of beginning. Said description includes all the watershed of the Left Fork of Middle Creek.

Within thirty days after the first publication of this Notice on Oct. 1, 1970, any resident of the area of said proposed District, as described above, may file with the County Clerk of this County, at his office in the County Courthouse in Prestonsburg,

### COMMISSIONER'S SALE FLOYD CIRCUIT COURT

Russell Jarrell and Beulah Jarrell, Plfs. Vs. CR. 5770  
Thomas Jefferson Insurance Co., et al, Defts.  
And  
Floyd Federal Savings and Loan Ass'n., Plif.  
Vs. CR. 6359  
Russell Jarrell and Beulah Jarrell, Defts.

By virtue of a judgment and order of sale of the Floyd Circuit Court rendered at the September term, 1970, in the above-styled cause I shall proceed to offer for sale at the Courthouse door in Prestonsburg, Kentucky, to the highest and best bidder, at public auction, on the 31st day of October, 1970, at 10 o'clock a.m., same being first day of the regular term of the Floyd County Court, upon a credit of six months, the following described property to-wit:

TRACT 1: Beginning at Jane Boyd's garden fence in center of point to top of ridge; thence with the ridge around the head of the hollow to a stake; thence down the point to Jane Boyd's line to the beginning, containing twenty (20) acres, more or less.

TRACT 2: Beginning with Jane Boyd's line and with said line to the top of the ridge and around the head of left branch to opposite the beginning; thence a straight line to the beginning.

Being the same property conveyed to Beulah Jarrell by deed of April 11, 1961, from John C. Hall and others and recorded in Deed Book 177-Page 341, Floyd County Court Clerk's Office.

The amount of money to be raised by this sale shall be in the principal sum of \$2,088.18 with interest thereon at 7 per cent annually from the 11th day of Sept., 1970 until satisfied and the costs of this action, including costs of advertising of this sale and the fees and commissions for conducting this sale.

For the purchase price the purchaser must execute bond with approved surety or sureties, bearing legal interest from the day of sale until paid and having the force and effect of a judgment with a lien retained upon said property as a further security. Bidders will be prepared to comply with these terms.

Given under my hand, this 12 day of October 1970.  
HARRIS S. HOWARD  
Special Commissioner  
Floyd Circuit Court  
(Cost of adv. \$26.25) 10-15-3t.

### NOTICE

The Kentucky Department of Highways, in order to assist those people displaced by highway construction, desires to obtain listings of available housing and building lots which are for sale, rent or lease in Pike and Floyd counties.

Information concerning property listed with the Department will be made available, free of charge, to those people displaced by highway construction and at no cost to the property owner offering the property.

Any property owner having property for sale, rent, or lease, is requested to send a brief description of the property, giving the lot size, type (brick, frame, block), number of rooms, type of heat, if gas and water are available, location and whether or not the house has a bathroom. If the house is for rent, state monthly rent; if house is for sale, the sale price. Be sure to indicate the name and address of the owner and telephone number, if any.

All properties listed must be safe, decent, and sanitary, and available for sale or rent without regard to race, creed, color, or national origin.

All replies should be sent to David Watson, District Relocation Assistance Agent, Department of Highways, P. O. Box 2468, Pikeville, Kentucky.

YOUR PRESENT BOARD MEMBER, O. R. "PETE" HOWARD, has made a public statement supporting ANOTHER addition to the Prestonsburg Elementary School due to a serious overcrowded problem which now exists.

-----B U T-----

PETE HOWARD'S opponent made a public statement supporting the COMPLETE REMOVAL of the Prestonsburg Elementary School somewhere to the south of Prestonsburg! ! ! !

HOW????? WHERE????? and WHY?????

There is a gentleman living approximately 15 miles south of Prestonsburg, who has stated that if he had his way, he would build a large fence around Prestonsburg, lock this so-called fence up AND THROW AWAY THE KEY. This man is a supporter of DR. ADAMS.

THINK ABOUT THIS SERIOUSLY!!! Could This Be REVENGE???

## PAGAN RITES, CHRISTIAN RITUALS COMBINE IN ALL HALLOWS EVE

By LOIS CAMPBELL

FRANKFORT, KY.—When Autumn comes round with its red and yellow leaves and chill air that hints of winter winds to come, girls and boys start thinking of Halloween.

Every year children look forward to the celebration. In the display windows of the stores there are fake faces, party decorations, paper Jack O'Lanterns and black cats and witches.

Round yellow pumpkins are brought in from the fields to be made into grinning Jack O'Lanterns.

According to legend, everything connected with Hallowe'en smacks of the supernatural.

Jack O'Lantern was a legendary man who was so stingy he was refused entrance to heaven. Because he played practical jokes on the devil, the gates of hell were barred to him also. He was condemned to wander over the earth with his lighted lantern until Judgment Day.

Most people avoid the churchyard and cemetery on Hallowe'en. The common notion is that the spirits of the dead walk abroad on that night. There is a superstition that if a man meets one of these spirits face to face, he will fall dead. Therefore, under no circumstances should one turn or look behind if he hears footsteps on Hallowe'en.

Stealing gates, chairs, etc., a popular Hallowe'en prank, is a relic of the time when gates and gate-posts disappeared and were said to have been stolen by the evil spirits.

Did you ever wonder why ghosts and witches are part of Hallowe'en? Why, on this night, we bob for apples and then count the seeds in the core to learn our fortunes?

The name means All Hallows Eve, or the night before All Saints Day. But long before the church gave this name to the day, it had been celebrated in one way or another in many parts of the world.

Years and years ago Britain was inhabited by Celts. These people worshiped the sun. One of the most important of the Celtic festivals, over which the Druids presided, was Samhain. Samhain meant "Summer's End." It came in the fall of the year, just after the harvest, and was celebrated the last day of October.

A feast was held in honor of Samhain, Lord of Death, and ghosts were said to rise from their graves to warm their bones at familiar firesides.

Mischievous witches rode through the air on broomsticks or black cats, magically turned to coal black steeds for this one night.

When the Romans invaded England in 55 B. C., they brought with them the festival of Pomona, goddess of harvest. So nuts and fruits, especially pumpkins and apples, became part of the Samhain ceremonies.

Soon after this invasion, Celtic customs

began to change. The Christian religion with its churches, religious festivals and religious holidays spread throughout Great Britain. On the first day of November they celebrated Ferialia, as it was called in Rome. But in this new country it came to be known as Halligan, or All Hallows.

The evening before it was known as All Hallows Eve, soon shortened to Hallowe'en. Halloween was celebrated at the same time as the old Celtic Samhain.

And so, in that way, the Celtic and Roman cultures mingled in the celebration of the holiday which has come down to us through the centuries as Hallowe'en.

Halloween customs of today, from trick or treating and soaping windows to carrying Jack O'Lanterns and having fortunes told at masked balls, tell us more about the beliefs and customs of our long-gone ancestors than almost any other holiday.

## Research Project On Strip-Mining Gets Federal Grant

Senator John Sherman Cooper announced last week that the Appalachian Regional Commission has approved a new research and demonstration program for better strip mining reclamation methods. The program, to be carried out by the state of Kentucky under a \$437,000 federal grant from the ARC, will extend for three years at a total cost of \$550,000.

The research project is designed to develop new methods and modifications of existing practices needed to reduce the environmental damage of steep-slope surface mining.

Senator Cooper said, "I am very glad that the Appalachian program can help carry forward the research work to reduce the damage from strip mining in the mountains—for which I secured the first increase in funds in 1962, for the Forest Service research center at Berea, Kentucky. This new effort, with state leadership, can complement and accelerate that work. It is especially needed now, when stripping of the land is increasing, for present methods are not sufficient to protect the land when coal is taken from steep terrain." Senator Cooper is a co-author of the Appalachian Act, and the ranking Republican member of the Senate Committee on Public Works having legislative jurisdiction over the Appalachian program.

The Appalachian Regional Commission informed Cooper that the research project would investigate both improved mining systems which could use existing equipment, and the development of new equipment and processes. The study will also include soil preparation experiments in areas where re-vegetation is difficult, mapping of environmental hazard areas, and preventive measures which may be carried out by mine operators.

## Burchett Attains Scholastic Honors

Byron Burchett, son of Mr. and Mrs. G. Bernard Burchett, of Lebanon, Tenn., possesses an outstanding scholastic record. Now a student at Vanderbilt University, he was graduated magna cum laude from Webb School at Bell Buckle, Tenn., and was a National Merit finalist. He also earned a letter in swimming and soccer and was active in the drama department of the school.

He is a grandson of Mr. and Mrs. Tom "Jumper" Burchett, of Knotley Hollow.

# SCHOOL BOARD MEMBER PROPOSES PROGRAM

I offer these objectives as a program of action for the consideration of the voters of Division No. 1.

1. The construction of a junior high school here to lessen over-crowding in our school buildings.
2. A redistricting of educational divisions so that people from Cow Creek, Bull Creek, David and parts of Middle Creek and Allen can vote for a Board Member representing the district where their children attend school.
3. Division No. 1 should receive its fair share of school budgeted funds for the amount of taxes paid and number of pupils enrolled.
4. Removing of political pressure from all school employees.
5. A faculty member to attend meetings and advise with the Board Budget Planning Committee.
6. Up-grade our school system so we can meet the standards of the Southern Association of Secondary Schools.

I pledge my wholehearted support to reaching these goals when elected.

# MORE ABOUT THE 6-POINT ADAMS PROGRAM

My 6-point program seems to have struck a nerve. In last week's Floyd County Times my opponent's campaign chairman, George C. Brown, tried to find fault with the proposed improvements but only high-lighted the great educational needs of our Division No. 1. Here are some facts and figures for him and my opponent to digest:

## 1. Junior High School In Prestonsburg To Relieve Crowding.

My opponent's campaign chairman says enrollment has dropped at Prestonsburg High. So what — the overcrowding of the High School and Elementary School is still obvious to anyone who wants to see it on any school day. He mentions a few building additions which, of course, are only stop-gap measures and do not at all solve our long range problem. Look at these indications of serious population growth in the south end of this division:

(A) Construction of Goble-Roberts Addition: When completed, an anticipated 250 families — one fifth of the total number of families now in Prestonsburg—at 3 children per family will add 750 pupils, or one more than the present high school enrollment.

(B) Cow Creek and Bull Creek: When construction of U. S. 23 is completed, numerous homesites will become available along the present highway in Cow Creek and Bull Creek. Couple this with the now existing large school population in these areas, and you have a very serious problem in furnishing school facilities.

(C) Brandy Keg: Are there children in Corn Fork and Stratton Branch? And will the by-pass to U. S. 23 from the lake section offer rapid access to the proposed new Junior High School? See: PLANNING 1969 PRESTONSBURG KENTUCKY A General Plan and Neighborhood Analysis. (a) "populations projections" page 7 (b) "Educational Facilities" page 30 (c) Map No. 5 regarding "General Plan" for a proposed new school in Goble Roberts Addition.)

## 2. Redistricting Educational Divisions

My opponents campaign chairman failed to tell you that it took a citizens lawsuit in Federal Court to get the present school redistricting. **MORE IS NEEDED AS SUGGESTED IN MY PROGRAM.**

Two other matters about that lawsuit Mr. Brown failed to tell you:

(A) Mr. Brown himself, along with other Lancer residents, gained from that lawsuit the privilege of voting for the Board Member in the district where his children attended school. Prior to that time he voted in Division 4, the so-called Mud Creek section, where none of his children go to school.

(B) I, and my campaign chairman, Dr. Ronald Leslie, contributed a great part to pay attorney fees and court costs in that lawsuit which gained this privilege for Mr. Brown and hundreds of others.

## 3. Division No. 1 Share of Tax Dollars.

Mr. Brown points out new classroom construction in our Division since 1960. This is great! But we need more and **WE'RE ENTITLED TO MORE, BECAUSE WE PAY MORE.**

## 4. Removing Political Pressure.

His campaign chairman says my opponent has placed no pressure on board employees or teachers. He doesn't have to, but does the superintendent and his assistant take care of this chore? For that matter I ask Mr. Brown and you, the voter: **WHO IS THE SCHOOL BOARD ATTORNEY? OF WHAT POLITICAL PARTY IS HE THE CHAIRMAN?** I, Dr. Adams, have never served as County Chairman of any political party.

## 5. A Teacher on Board Budget Planning Committee.

Mr. Brown has accused me of knowing very little about our school system and points out that we presently have a 14 member teacher advisory committee. True, but this committee deals with, and only with employee salaries. Ladies and gentlemen, the faculty member I propose will meet with the Board and request budgeted funds necessary to purchase toilet tissue, soap, art equipment, pipettes, bunsen burners and chemical reagents etc. for a chemistry lab, equipment necessary to furnish an adequate physics lab, etc. etc.

## 6. Meeting Southern Association Standards

I am glad that Mr. Brown agrees with my program in that we should be readmitted to the Southern Association of Secondary Schools. Let us congratulate the honor student at Harvard. He is one. Now, Mr. Brown, how many students were dropouts last year at Prestonsburg High? How many graduates of Prestonsburg High dropped out at college, or had to change their major in college? I ask you, are there more than one? In 1968, when my daughter, April Lynn, entered the elementary school in Prestonsburg, the Reverend Milton Skiff, and I recommended that a program be started to meet the standards required by this association. Did this get the ball rolling? Ladies and gentlemen, I **AM PROUD TO CONTINUE TO ADVOCATE THIS SAME PROGRAM.**

In conclusion, Mr. Brown says I am opposed to the construction of a school. **THIS STATEMENT BY HIM IS ABSOLUTELY FALSE!** I am, have been, and always will be for the construction of any needed school plant facility at the place where it is most needed and can best be built.

## So That 'Dumb' Trooper Handed You A Ticket

(Editor's Note: This article by Commissioner Newman, himself a former State Trooper, is timely reading, especially in the light of the recent toll of 36 Kentuckians killed in two weekends.)

By W. O. NEWMAN, Commissioner  
Kentucky State Department  
Of Public Safety

FRANKFORT, KY.—Maybe you're one of them. Are you one of the people who call me on the telephone or write me a letter to tell me my troopers are stopping motorists and giving them tickets for "no reason at all?" I wouldn't know—you never give your name.

You tell me you're a good citizen and a safe driver, just using Interstate 64 for what it was intended—speed. And that "dumb cop" gave you a ticket.

You break my heart! I hope the next time you're tearing down the road at 85 mph. that trooper catches you again. I hope he gives you another ticket and the traffic judge takes your license away. I hope he catches you before you smash into a concrete bridge abutment at 85 and he has to pry your lifeless body out of that crushed speed machine of yours.

I hope we can teach you a lesson with a ticket so maybe you won't cause a wreck and cost somebody else his or her life.

You really break my heart telling me you don't have time to go to court about that ticket. I wish you could come with me to the scene of a wreck, sometime. I wish I could make you stand and watch a man writhe in the gravel on the shoulder of a highway while he waits for an ambulance that will get there too late to do anything but carry him to the morgue.

I wish I could make you help scrape the bits of bone and flesh of a whole family off the asphalt and into baskets. You'd vomit just like my troopers do, but you'd think differently the next time you climbed into that car of yours.

You said you were driving safely when the trooper stopped you. The road was clear and there was no harm in edging over the speed limit a few miles per hour, you said. I'm really impressed with your ability to judge road conditions. I'm only sorry a trooper wasn't at the same place a few months ago when a man with a wife and four children had a blowout at over 80 mph. He might have slowed him down, and his children would still have a father and his wife a husband.

Oh, am I getting you mad again? That man might have been mad if a trooper had stopped him. He might have written me a letter. But he'd be alive.

Your letter doesn't bother me, friend. What bothers me is that you apparently haven't learned your lesson. You're probably going to get back behind the wheel of your car, thinking you own the road and nothing can happen to you. You don't think

about the other people on the road who want to go on living.

And who gave your kid driving lessons? You? Then he's probably gotten a couple of tickets, too. It's no wonder he weaves in and out of traffic, speeds and leaves strips of burned rubber at stop lights.

I hope we catch him, too, mister, before we have to call you and your wife to come identify his body at the morgue. I don't want to watch you crying and wishing you hadn't let him have a car until he learned to drive maturely.

And you say you want my troopers to let you off with a warning. What you really want is for us to stop doing our jobs. You want us to let you go until you meet another guy just like you—head on.

I wish you could come with me to a wreck and see the seared body of a victim after the fire department has finished its job of extinguishing 15 gallons of flaming gasoline. I wish you could go with me to her home and help me tell her husband that his wife isn't coming home because some idiot ran her off the road while trying to pass her. I want you to help him explain to his kids why mommy won't be home.

You're mad because you got a ticket, and you have to take off from work to go to court. You break my heart, mister.

## Crash Claims 5 In Pike County

PIKEVILLE, KY.—A truck and a car collided early Tuesday in Pike county, killing five of the six members of an Ohio family.

The only survivors were a nine-year-old girl and the truck driver.

The dead were identified as Laddis Senter, 29, driver of the car; his wife, Joy, 30; their children, Terry, four, and Michele, two, all of Defiance, Ohio, and Mr. Senter's mother, Mrs. Amanda Senter, 60, of Harmon, Va.

State Police said the only member of the family to survive was a daughter, Teresa Senter, nine, who was listed in critical condition late Tuesday in a Lexington, hospital with a possible skull fracture, broken jaw and other injuries.

The family's pet dog was also killed in the accident.

Jack Picklesimer, of Shelby Creek, a Pikeville mining engineer and driver of the truck, is in a Pikeville hospital listed in fair condition with a broken leg and other injuries.

Police said the accident occurred at about 5:45 a.m., a mile north of Robinson Creek on U. S. 23, and about eight miles south of here. The Senter's car, northbound, swerved out of control and hit the southbound Jeep driven by Mr. Picklesimer, who was alone, police said.

The bodies have been sent to Defiance for burial.

## Mrs. Virginia Wright, 64, P'burg Resident's Mother, Passes Away Friday

Mrs. Virginia Hereford Wright, 64, of Pikeville, died Friday at Methodist hospital at Pikeville.

Born September 23, 1906, she was a daughter of the late Samuel and Octavia Hereford. A member of the First Presbyterian church at Pikeville, she was a member of the Daughters of the American Revolution and the Women's Association of the Presbyterian church.

Survivors include her husband, B. A. Wright; five daughters, Mrs. Carolyn Ford, of Prestonsburg, Mrs. Janice Bailey, of Detroit, Mich., Mrs. Virginia Stubblefield, of Lexington, Mrs. Patricia Baker, of Caywood, and Mrs. Margaret Boley, of Williamson, W. Va.; a brother, Challen Hereford, of Pikeville; 13 grandchildren and one great-grandchild.

Funeral services were conducted Sunday at 3 p.m., at St. David Episcopal church at Pikeville by the Rev. David M. Webb. Burial was made in Johnson Memorial Park there.

## Support Allen and Howard

We, the officers of B. E. S. T. (Build Eastern School Today), are aware of the fine record achieved by the current Floyd County Board of Education. We are also aware that Dr. J. H. Allen and O. R. "Pete" Howard, currently running for re-election in their respective school districts, have been staunch supporters of the construction of the consolidated high school at Eastern and if re-elected will continue to support this project, not only to completion of Phase I but also the essential Phase 2. The opposing candidates have declared open opposition to the location of the high school at Eastern.

Therefore, we urge the voters in their districts to support Dr. J. H. Allen and O. R. "Pete" Howard for re-election as members of the Floyd County Board of Education.

# ABOUT THE 6-POINT ADAMS PROGRAM

The Adams Program, as outlined in last week's Times, reflects a total lack of knowledge of the Floyd County School System and even of Educational District No. 1. Although school board actions are public records, the good Doctor doesn't know what is going on here in this educational district as is proven below:

### 1. JUNIOR HIGH SCHOOL IN PRESTONSBURG TO RELIEVE CROWDING

The enrollment at the High School has dropped from 868 at the end of 1964-1965 to 749 at the end of the 1969-70 school year. Three new classrooms were added to this school plant six years ago. As the elementary school enrollment has grown slowly, eight new classrooms, a music room, lunchroom and multipurpose room were added. A new junior high school in Prestonsburg at this time would be a waste of taxpayers money. With building needs as serious at Martin, McDowell and elsewhere as they are, this promise is unbelievable. Pete Howard stated publicly recently that additions would be made to Prestonsburg Elementary as needed.

### 2. REDISTRICTING EDUCATIONAL DIVISIONS

The good Doctor knows that all our board districts were redrawn by Federal Court order in 1968 and by state law they cannot be redistricted before 1973. High School students in Allen may go to Martin, Betsy Layne or Prestonsburg, would Dr. Adams put Allen in all three educational districts?

### 3. DISTRICT NO. 1 SHARE OF TAX DOLLARS

Of the 101 new classrooms constructed since 1960, thirty rooms have been constructed in District No. 1, at Clark, Prestonsburg High and Prestonsburg Elementary.

### 4. REMOVING POLITICAL PRESSURE

At no time within the last ten years has a board employee been pressured in any political race. Pete Howard has never approached a teacher in this board election. Has he ever tried to be elected Democratic County Chairman? Dr. Adams, on the other hand, ran for Republican County Chairman at the last election. We do not believe the county chairman of either party should be a board member. Is the good Doctor trying to control both parties by slipping through the back door by controlling the school system? Dr. Adams hasn't been bashful about campaigning with teachers and other board employees in this race.

### 5. A TEACHER ON BOARD COMMITTEE

A teacher committee of up to fourteen members has served each year to develop salary budget for the board for five years. Would Dr. Adams cut the teacher committee down to one member? We prefer the larger number.

### 6. MEETING SOUTHERN ASSOCIATION STANDARDS

Prestonsburg High was dropped from Association during teacher shortage when emergency teachers had to be used. This has not in any way affected college entrance for our graduates. A graduate of last year is an honor Freshman at Harvard. A self-study has gone on at Prestonsburg since early last school year in order to ask for readmission to Southern Association.

We all agree that Doctor Adams knows medicine and works hard at his profession, but the truth is, he knows very little about the school system in our County. By electing Pete Howard, we can be sure that Dr. Doug has enough time for his patients and the school system can keep marching forward through harmony and sensible planning. DR. ADAMS STATED HIS OPPOSITION TO THE NEW HIGH SCHOOL AT EASTERN AT A VERY RECENT CIVIC CLUB MEETING WHILE PETE HOWARD RESTATED HIS SUPPORT. We must not forget that the needless lawsuits filed by a number of Doug's relatives and friends at Martin have already cost Floyd County taxpayers over \$225,000.00 and this should tell us something. The present board has worked as a team for all Floyd County children. Please preserve the team by re-electing Pete Howard and J. H. Allen.

**Education Funds Being Released**

Congressman Carl D. Perkins announced last Thursday that he had been advised by the office of the Secretary of Health, Education and Welfare that funds being withheld from state and local agencies in Kentucky for education will be released and allocated immediately.

Approximately \$19 million federal support funds for education programs in Kentucky is involved in the decision. In the President's budget approximately \$55,747,207 was requested to support education in Kentucky for the school year, beginning last September. Congress in overriding the presidential veto of the education appropriation bill in August provided a total of \$75,390,619.

Perkins as chairman of the House Education and Labor Committee called a hearing in Washington Oct. 12 to have the Secretary explain why funds appropriated for education had not been allocated. Representatives of the Secretary explained at that hearing that Administration attorneys were reviewing the legal opinions to see whether or not any portion of the funds appropriated by Congress could be withheld, despite the override of the presidential veto.

Perkins said of paramount importance to the counties in the Seventh Congressional district are appropriations under Title I of the Elementary and Secondary Education Act. The growth of this program is illustrated by allocations of \$764,092 to Floyd county in 1968, \$798,135 in 1969, \$964,414 this year and \$1,035,500 for 1971.

# To All the People in Educational Districts No. 1 and No. 2 Who Are Interested in the Welfare of the Children of These Districts—

### GREETINGS:

We the undersigned teachers have taught a cumulative total of 820 years in the Floyd County School System. We have seen this system grow from that of rural, one to four-room schools where the teachers taught all grades and performed his own janitorial service, to today's system of consolidation where the teacher teaches the grade or group of children for which he is specially trained and lets the janitor care for the buildings and grounds. The child is the center of concentration in all phases of his life — physical, mental, emotional, esthetical and spiritual. Art, music, physical education, guidance counselors and libraries have been added to the curriculum as the schools have grown in enrollment and qualified for these additional units.

We could enumerate many advances which have been made, but we would not insult your intelligence by doing so, because we know you have already observed the progress made, and that you the public, know that your children, as a whole, are now experiencing the best program for learning, in the best environmental setting they have ever been privileged to attend. Those conditions which are undesirable are rapidly being overcome.

Dr. J. H. Allen and Pete Howard, two of your outstanding Board members have done much to spearhead the progress which has been made.

Won't you join us at the polls, November 3rd, and cast your vote for continued progress by voting for Pete Howard in Educational District No. 1 and Dr. J. H. Allen in Educational District No. 2? You'll be glad you did.

**Basketball All-American**

Pat Tallent, Maytown high school senior and last of the four talented brothers who have starred for the team, has been named to the first five of the basketball "dream team" put together by the All-American High School Basketball Yearbook.

Pat is the second member of the Tallent family to be an All-America basketball player. His brother Bob was the first. And Pat, a 6-2, 185-pounder, is considered by many to be the best of the four. He averaged 30.2 points, 16 rebounds and 9 assists per game last year when he was a first team All-Kentucky choice. He also made the All-State five as a sophomore when his team, the Maytown Wildcats, represented the 15th region in the 1969 state tournament.

Bill Tallent, eldest of the brothers, played scholarship basketball at Presbyterian College, Clinton, S. C., and now is an accountant in Miami, Florida. Bob, Maytown's first All-America player, played at the University of Kentucky and George Washington University,

Washington, D. C. He now is freshman coach at George Washington. Mike, who played with the 1967 Maytown team, the first to represent the school in the state tourney, is a senior at George Washington where he led the Colonials on offense last year.

The brother foursome are sons of Mr. and Mrs. Jones Tallent, of Langley.

**Brothers Are Recognized  
For Outstanding Work**

Warren Grady Stumbo and Tracy Layne Stumbo, sons of Mrs. Ruth Stumbo Hall, of McDowell, have both received awards and certificates recently in recognition of achievement in their respective fields.

Grady, a senior at University of Kentucky Medical Center, has been named one of America's Outstanding Young Men of 1970 for his professional and civic work.

Tracy, serving with the Army in South Korea, has been chosen Soldier of the Month of the second brigade and of the Second Infantry Division for his outstanding achievements.

**Friends and Neighbors  
of  
Educational District 1:**

We, Pete and Hattie Howard, would like to thank you very much for your kindness while visiting in your homes. To those we were unable to see personally, we would like to take this opportunity to ask you to vote for O. R. "Pete" Howard on November 3rd.

We have two children that we love very much and, just as you, we want the VERY BEST for our children, most especially their education.

Our children spend most of their waking hours in our schools and they are and will be instructed by our teachers and principals. Just as Hattie and myself, our children WILL ATTEND THE SCHOOLS IN PRESTONSBURG until they are graduated from high school, and we have very high hopes they will attend college at Prestonsburg Community College.

Can and will our opponent make the same statement concerning his children, or will his children be attending PRIVATE SCHOOLS out of Floyd county? How many times has our opponent made the statement that HE INTENDS TO SEND HIS CHILDREN TO PRIVATE SCHOOLS — ESPECIALLY IN THEIR UPPER GRADES?

Our hearts, minds, souls and strength are with and working for a better school system for our children in all of Floyd county and most especially in District No. 1.

My platform is a constructive platform and NOT ONE OF VENGEANCE. We have NO AXES to grind; we simply want the best school system in the state of Kentucky.

SUPPORT O. R. "PETE" HOWARD FOR YOUR BOARD MEMBER IN DISTRICT NO. ONE.

PLEASE VOTE FOR O. R. "PETE" HOWARD THIS NOVEMBER 3rd.

YOU WILL BE GLAD YOU DID.

AGAIN, WE THANK YOU VERY MUCH.

**PETE AND HATTIE HOWARD**
