

## School Job At Eastern Is Approved Award of Contract On \$1 Million-Plus Work Expected Soon

The Floyd County Board of Education should be receiving contractors' bids on the second phase of construction at the new Allen Central High School at Eastern by the end of October or during the following month, Charles Clark, superintendent of Floyd schools, said Saturday following the meeting of the Floyd County Board of Education.

Phase II construction involves a gymnasium-auditorium-music department-swimming pool complex which, architects estimate, will cost \$1,237,752.

Supt. Clark discussed the construction timetable after the board had approved the architect's final plans. The board approved a resolution asking the Floyd fiscal court to advertise the project for bids, the court acting as fiscal agent, and this resolution is expected to be given the court's consideration at its meeting today (Wednesday).

If acceptable bids are received without delay, the architect predicts, the gymnasium will be ready for use during the 1974-75 school year.

Use of pre-stressed concrete slabs in the outer walls of the structure will speed up construction, it was said. The swimming pool will be indoors and of such size that it will afford all students a part in the swimming and water sports program.

A special meeting of the board was set for Friday of this week at 7 p.m., to receive the auditor's report on internal accounting for the county's five high schools.

Miss Mary Elizabeth Nunnery was employed as the school system's first speech-hearing therapist. A graduate of the University of Kentucky, she will work in all schools but will deal mainly with eligible Title I pupils.

Teachers hired or transferred:

Emma G. Hartley, from Prater Creek to Harold elementary in remedial reading; Rozella Newsome and Pearl Newsome, employed at Stumbo elementary; Yvonne Mosley, employed at Martin elementary to replace Linda Turner who was transferred to McDowell as commerce teacher; Tan Allen, employed at McDowell as special remedial reading teacher; Pat Shelton, employed as science teacher at McDowell, to replace Joan Caldwell who resigned; transferred Edna Frazier from basic Minimum Foundation at Osborne elementary to Title I post there, Hobert Newman from Melvin to Osborne to fill post vacated by Edna Frazier; Bonnie

## Officers Probe Death of Irick

State Police and County Detective Sam Hale said Tuesday they are continuing their investigation of the death of Tram shortly after midnight Friday of William Thomas Irick, 32, whose body was found on the railroad tracks there.

The continued probe is at the request of members of the victim's family.

Irick was struck by a train which was en route from Russell to Shelby. One head wound resulted in death, it was said. The engineer told officers he saw the man lying on the tracks but that he made the discovery too late to stop the train. Relatives suspected foul play, but officers said there was no evidence of a fight.

The victim was a son of James Beckham Irick and the late Judy McKinney Irick. Besides his father, he is survived by his widow, Mrs. Martha Slone Irick, of Justell; three sons, Terry Thomas, Jerry Dean and Ronnie Ray Irick, all of Tram; five brothers and four sisters, Franklin, Dallas and Charles Ray Irick, all of Denver, Colo.; James Beckham Irick, Jr., Betsy Layne, Oliver Irick, Lincoln Park, Mich.; Mrs. Bertha Cole, Ashland, Mrs. Birchie Wilhite, Wyandotte, Mich.; Mrs. Gana Stilton, of Ivel, and Mrs. Irene Akers, of Betsy Layne.

Funeral rites were conducted at 1 p.m. Monday from the home of James Beckham Irick, Jr., the Revs. Luther Conn and Walter Akers officiating. Burial in the Bush cemetery at Harold was directed by the Baker Funeral Home.

## Trooper Beaten, One Is Wounded In Garrett Fray

Two Garrett brothers, one of whom had been shot in his leg during a fight with a Kentucky state trooper, executed bond here Tuesday when they were charged with resisting arrest and committing assault and battery on an officer.

The brothers, James Martin and Johnnie David Case, allegedly struck State Trooper Leeman Bevins on the forehead and face with a jar and otherwise assaulted him when he attempted to arrest them early Monday morning. Capt. Billy Lykins, commander of the Pikeville State Police post, said Bevins was called to Garrett where drunks were creating a disturbance. He said three or more members of the party fled on the approach of Bevins but that the Case brothers assaulted him.

The brothers also bore the marks of battle and Johnnie David Case suffered a flesh wound in his leg.

Dale Kinney was wounded Sunday near Weebury by a shot allegedly fired by Mark Smith as Kinney walked away from the Smith home. Smith was jailed by State Troopers E. B. Allen and Danny Stumbo. He was released from jail under \$1,000 bond Tuesday by Magistrate Bill Wells to appear for hearing, Sept. 8.

Others jailed within the week, charges against each and names of arresting officers:

Bob Blanton, auto theft, arrested by Allen Policeman Virgil Conn; Patricia Ann Hall, forgery, five counts, by Martin Policeman Hershell Lester; Joie Stevens, drunk driving, by State Troopers Estep and Bevins; Harold Huff, drunk driving, by Troopers Bevins and Estep; Henry Boyd, drunk driving, by Park Ranger Setser; Robert R. Ratliff, drunk driving, by Trooper Bevins; Herman Newsome and J. E. Bentley, destroying property, by Wheelwright Policeman Harold Johnson; Carson Tackett and Ralph Akers, destroying private property, by Policeman Harold Johnson.

## Dedication of Archer Clinic Scheduled Sunday Afternoon

This marker stands outside the \$500,000 Archer Memorial Clinic which will be dedicated at 2 p.m. Sunday. Congressman Carl D. Perkins and State Representative W. J. Reynolds will be the dedication speakers. Open house will follow the dedication.

The two-story clinic structure was a dream of the late Dr. George P. Archer, whose offices occupied a part of the clinic until his recent death. Five doctors now have office suites in the clinic structure, and three others are scheduled to open offices there next year. The building has space for 13 office suites and contains laboratory, X-ray and minor surgery departments, plus a pharmacy.

Doctors who have offices there, and who invite the public to be guests at open house and the dedicatory exercises, are: Dr. William B. Cook, surgeon; Dr. David White, radiologist; Dr. Ernest C. Holbrook, urologist; Dr. Daniel Spurlock and Dr. Charles Hieronymus, general practitioners.

## 'Follow Every Lead,' Judge Tells Panel

Circuit Judge Hollie Conley called Monday morning on the grand jury which he had empaneled for service during the current term of court to make a complete investigation of the July 12 slaying here of Dr. George P. Archer.

"This is a case you should go into thoroughly," he told the jury. "Follow every lead, every angle."

At the conclusion of the judge's remarks to the grand jury Commonwealth's Attorney Harold J. Stumbo referred to statements made by Sheriff Frank Leslie inferring that he (Stumbo) is biased in his consideration of the Archer case. The prosecutor said that if the court feels this could be true, he would be glad to step aside and leave the investigation to some other. Judge Conley replied that he had no reason to doubt that Stumbo would do his duty.

## Alert Worker Supplies Clue In IGA Break

A worker's interest in protecting his employer's business here resulted in the arrest Sunday at Winchester of one man on a breaking and entering charge and in a possible break for officers in their efforts to solve earlier offenses.

Ralph G. Harrison, who was arrested by Winchester city police after they had been apprised of the license number of a car seen near Thompson's IGA Store here shortly before it was looted, between midnight and daybreak Sunday, admitted his part in the break. Questioned by State Detectives Chester D. Potter and B. J. Music and Prestonsburg police, Harrison also named three confederates. The detectives returned Monday to Clark county where a search for the three continued.

When Larry Pitts left the store at 2:42 a.m. after he and others had done stock work, he saw a GTO and a Dodge parked near the store. Two minutes later, Del Tackett left. He saw only one of the cars.

En route home, Tackett decided to return and take a closer look at the auto. He did, noted the Hart county license, and when he learned later in the day of the break into the store was able to tell Paul Thompson, the owner, the identifying number. A phone call to Winchester then resulted in the arrest.

Mr. Thompson said the loot consisted of hams, 300 cartons of cigarettes, between 200 and 220 tapes (recordings), a tape player, two radios, a rifle and revolver, about \$1,700 in coin, including a coin collection, money orders and a money order check machine.

The second car which had disappeared when Tackett returned to the vicinity of the store had apparently been driven on to the old road at the rear of the store to receive the loot. Picnic hams, tapes and other items were strewn between the store and the old road, apparently when the burglars hurried their getaway.

An attempt to break the store safe failed after the burglars had drilled an inch into the door. Mr. Thompson said the intruders apparently enjoyed an early-

Willie Salisbury, of Printer, was named foreman of the jury, which is composed of nine men and three women. The grand jury may be in session for five days, it was indicated. Judge Conley emphasized the point that thoroughness is needed not only in the Archer case but in all others. He mentioned other unsolved murder cases and the whiskey traffic among offenses requiring attention.

The judge bore down hard on the duty of citizens to answer to jury service and warned those called for service that "doctors' excuses" would be unacceptable. "If," he said, "you have any doctor's excuses, wad them up and put them back in your pocket. I pay no attention to them. But if you are sick and unable to do the job right, I will listen to you individually."

## This Town . . . That World

There may have been those who pitied us, here at The Times, as we worked through Labor Day. We appreciate their concern, but would remind them that while they were out getting sunburns and peeled noses under a broiling sun we labored in air-conditioned comfort . . . Thanks for all mercies, great and small.

## WEIGHT WATCHERS

We have tried this week to keep the number of pages in the paper to a minimum, leaving out regular features (we may cut this column before it's all over) and several columns of news-matter that we ordinarily print. All because of this newsprint shortage. We beg your indulgence. If we don't cut the size of the paper, soon there will be none at all. You say, cut out the ads? If we do, the money to pay for newsprint, higher postage, to meet the payroll and all other expenses, which are numerous indeed, will not exist, and so . . .

## SORRY

Last week, we were without a photo of the new Miss Floyd County. But the Strahan-Nelson Studio came to the rescue, delivered the picture to this office, and Mr. Strahan even called from his sick-bed at the Mountain Manor Nursing Home here to ascertain if we had received the photo. And then, after all that, we failed to give them credit for it.

## Trout Is Winner Of Dist. 30 Post; Floyd Men Lose

J. B. Trout, of Stone, is the apparent winner of the election held by District 30, United Mine Workers, to name an international board member, and in winning he defeated five other candidates for the post, two of whom are Floyd countians.

Labor Department officials who counted the votes at Pikeville last Tuesday did not announce the number of ballots cast for each candidate but indicated that Trout won by "about a 2 to 1 margin," according to Squire Felner, District 30 president. Trout will fill the vacancy created by the resignation of Tom Raney.

Other candidates for international board member were Forrest McCown, of Wheelwright, Bill Roberts, Eastern, Walter Akers, Hellier, Clayton Hall, Jenkins, and Evans Robinson, Vansant, Virginia.

The election of Trout was followed last week-end by a constitutional convention

## 8th Highlands Folk Festival Last Week-End 'Biggest Ever'

Helped along by three days of cloudless skies and the presence of a variety of gifted folk entertainers, the eighth annual Kentucky Highlands Folk Festival attracted some 1,500 visitors and made this year's festival what its founder, Mrs. Edith Fitzpatrick James, called "the biggest we've ever had."

Friday, Saturday and Sunday performances held at the Jenny Wiley State Park Amphitheatre featured dozens of native Kentucky folk artists as well as performers from as far away as Florida and Michigan and for the three days of the festival songs were sung, tunes played and dances danced which differed little from their centuries-old southern mountain and Anglo-Saxon forebears.

Tunes like "Barbara Allen," "Sally Goodin," "Old Joe Clark," and the "Knoxville Girl" were played, accompanied by instruments such as the dulcimer, autoharp, fiddle, five-string

## Leslie Alleges No Cooperation; Stumbo Replies

When the grand jury of the Floyd circuit court convened here Tuesday morning it faced the task of making a complete investigation of the slaying here July 12 of Mayor George P. Archer and of the circumstances surrounding the shooting death, a week later, of Mrs. Judith D. Archer, city clerk.

State Police began serving subpoenas on witnesses in the twin tragedies a week or more ago, but the investigation was given impetus last Thursday when Sheriff Frank Leslie wrote Attorney General Ed Hancock, asking him to take part in the probe.

Sheriff Leslie told Hancock that "unless an unbiased prosecutor conducts an investigation and prosecution, guilty persons will not be brought to justice."

In the same letter to the attorney general he charged that "an attempt has been made and will continue to be made on the part of three or perhaps four duly elected county officials to suppress evidence."

The sheriff did not name any of the officials whom he held suspect but did state in his letter that Commonwealth's Attorney Harold J. Stumbo had failed to cooperate with him in the investigation of the case.

Stumbo announced Saturday that Sheriff Leslie was being subpoenaed to appear before the grand jury "to explain his accusations that evidence has been suppressed." He and County Attorney James R. Allen issued a joint statement in which they said the sheriff "will be asked to provide the grand jury with any evidence he has obtained in his investigation of this murder case."

Commenting on Leslie's charge that Stumbo had failed to cooperate with him, the commonwealth's attorney said he will be glad to have any possible assistance from the attorney general or any other official. He added that Sheriff Leslie was not at the murder scene after Dr. Archer's body was found in front of the new clinic here which bears his name and that Leslie had never spoken to him about the case.

Sheriff Leslie indicated in a conversation with The Times that he does not have new evidence to present but said, "I think the public is entitled to know the truth as near as it can be learned."

Of the subpoena reportedly issued for him he said it had not been served as of last Saturday afternoon, adding, "I will answer no questions to Stumbo or Allen."

The prosecutor said, "He is a law-enforcement officer, and if he has any information I want to know about it."

banjo and guitar. Modal tunes and mountain ballads were also presented with no accompaniment in traditional Appalachian style.

Friday and Saturday evening's performances featured mainly secular mountain ballads, instrumentals and the impressive square dancing of two groups of the famed Carl Clark dancers from Lexington. A poet's corner earlier Saturday afternoon gave local poets the opportunity to recite their works which dealt largely with Appalachian themes, and the festival's final performance Sunday afternoon was dedicated to the various forms of religious music, traditional and modern.

During Saturday evening's activities Mrs. James was honored by the Kentucky Council of the Folk Arts with a plaque in recognition for her "valuable services in preserving our Kentucky folk heritage." The award was presented by Dr. Leonard Roberts and Dr. Carl Clark, members of the council. Ms. James was also presented a silver bowl in her honor by the Jenny Wiley Drama Association.

Mrs. James commended local merchants and businesses for their support of the festival which included advertising space and window displays carrying the mountain heritage theme. She also said that the work of Chalmers and Katherine Frazier had been the "backbone" of the festival and that the planning of people like Curtis Clark and the late Dr. George P. Archer had been invaluable.

As a result of the continuing success of the yearly event, plans are in the making for the formation of a folk festival board. Such a group, it is hoped, would help in the promotion and further development of the festival.

**School Meal Policy**

The Floyd County Board of Education announces a free-price meal policy for school children unable to pay full-price meals served in schools under the National School Lunch and School Breakfast Programs.

Local school officials have adopted the following family size-income criteria for use in determining eligibility. (For each additional family member above 12, add \$640 per year to the income level in each of the categories.)

Family Size	Free Meals if income is below	Full Price Meals if income is or above
1	\$2740	\$2,741
2	\$3600	\$3,601
3	\$4460	\$4,461
4	\$5310	\$5,311
5	\$6100	\$6,010
6	\$6800	\$6,801
7	\$7600	\$7,601
8	\$8310	\$8,311
9	\$8960	\$8,961
10	\$9600	\$9,601
11	\$10240	\$10,241
12	\$10880	\$10,881

Families not meeting this criteria but with other unusual expenses due to unusually high medical expenses, shelter cost in excess of 30 percent of income, special education expenses due to the mental or physical condition of a child, and disaster or casualty losses are urged to apply.

They may do so by filling in the application forms sent home in a letter to parents. Additional copies are available at the Principal's office in each school. The information provided on the application will be confidential and will be used only for the purpose of determining eligibility. Applications may be submitted any time during the school year.

In certain cases foster children are also eligible for these benefits. If a family has such children living with them and wishes to apply for such meals for them, they should contact the school.

In the operation of child feeding programs, no child will be discriminated against because of his race, sex, color, or national origin.

Under the provision of the Policy the Principal will review applications and determine eligibility.

If a parent is dissatisfied with the ruling of the official he may make a request either orally or in writing to Charles Clark, Supt. whose address is Prestonsburg, Ky. for a hearing to appeal the decision.

Hearing procedures are outlined in the policy.

A complete copy of the policy is on file in each school and in the office of the School Principal where it may be reviewed by any interested party.

## Can EPA Do the Job?

Industrial pollution of Kentucky streams apparently will become a federal rather than a state concern, and whether that will help or hurt the average Kentuckian remains to be seen.

The federal Environmental Protection Agency has already begun the take-over by issuing almost a hundred tentative permits to coal companies and other industries to discharge their effluents into streams. Later, EPA admits, the number of permits issued in the state may run into the thousands. The smallest mining operation will route its black water into a stream under promise to EPA to reduce the sediment and acid content of the water.

The 96 tentative permits already issued will become effective unless EPA is convinced at a hearing scheduled in Frankfort Sept. 25 that the permits should not be granted. After that, we learn, permits may be issued without hearing. Literally thousands of them.

It may be that the federal government can handle stream pollution more effectively than the state of Kentucky has, but the people need to know several things before individuals, or their representatives, undertake at an official hearing to give the situation due consideration and to make protest if protest is needed.

Does this mean that Kentuckystreams will run black wherever a coal mine is located? that coal washings may be released at any time, or continually, into these waterways on promise of the company that it will reduce the silt and acid content of the effluent?

Will EPA supply enough inspectors to maintain surveillance on all these operations and enforce the regulations?

Will black water, though perhaps not so black as in the past, or acid water, lowered in acidity, be of such quality that downstream water systems and others using the water will not be affected?

Will the \$10,000-a-day fine threatened by EPA be of any greater effect than the state's \$1,000 if EPA does not maintain a huge enforcement force to make certain that violators are caught?

The Times does not mean to infer that the EPA plan will not work. It could work, and it could be an improvement over what Kentucky has had in the past, but that is no means certain, and the people are entitled to know. In short, we "Indians" would like to know what the "Great White Father" has in mind for us as he moves onto the reservation.

## Nearly 500 Attend Annual ALC Event Winners Announced

Pippa Passes, Ky.—Nearly 500 persons turned out August 18 for the second annual Our Appalachia Day at Alice Lloyd College. Ten local musicians, singers and musical groups were awarded prizes for their talents, according to Bob Hall, director of community services at the College.

Performers at Our Appalachia Day competed for prizes in six categories. The winners were:

Emma Smith, of Leburn, and Teresa Stamper, of Hindman, best female vocalist; Johnny Johnson, of Wheelwright, and Sid Triplett, of Pippa Passes, best male vocalist; Lummie Thornsberry, of Pippa Passes, best banjo picker; Dewey Shepherd, of David, best fiddle player; the Beaver Valley Boys, of Floyd county, and the Country Wranglers, of Knott county, best musical group; Tommy Hall, of Price, best harmonica player; and the Gospel Sunlighters, of Prestonsburg, best gospel group.

The purpose of Our Appalachia Day is to share and celebrate the heritage of Appalachia with the people of the communities surrounding the College. Hall said that 28 musicians and musical groups provided about 10 hours of continuous entertainment, and the most of the items offered at the arts and crafts exhibit in the College library were sold before the end of the day.

At 5 p.m., the college served a free supper of soup beans, kraut and weiners, corn muffins, onions, cooked potatoes, chocolate cake and milk to about 400. The day's activities ended with a special presentation of "The Thread That Runs So True," a play by Jesse Stuart, in Cushing Hall on the Alice Lloyd campus. The play was the last production of the season by Alice Lloyd College's Appalachian Summer Theatre.

**PAUL P. HUGHES**

**Candidate for Mayor**

November 6, 1973, Election

In announcing my intention to run for the office of Mayor, I would like to take this opportunity to tell you something about myself. In 1962, after being away from Prestonsburg for four years attending school, I made the decision to return here to earn a living and raise my family. In 1967, I realized that each person has a responsibility to support and work for the area in which he or she lives. This belief caused me to run for the City Council in November of 1967 and I was elected and began to serve in that capacity in January, 1968. I was elected twice more to the City Council, a position that I continue to serve in at the present time.

In 1971, I was elected President of the Prestonsburg Area Chamber of Commerce and during this term of office, the Chamber more than doubled in membership. In 1972, I was re-elected President of the Chamber for another year.

I am asking for your support now in my candidacy for Mayor because I have a strong desire to see Prestonsburg continue to grow.

I realize the need to improve the downtown area of Prestonsburg. I presently serve on the Prestonsburg Planning and Zoning Commission that drew up the proposed Court Street Mall with additional parking lots to handle off-street parking. I strongly support establishing additional downtown parking for the continued growth of the business area of Prestonsburg.

Based on my experience as a member of the City Council for the past six years, I see no reason for the need to increase taxes of any kind. Prestonsburg can continue to provide all necessary services and upgrade them, where needed, through the efficient management of our existing revenues. We now have the finest police and fire departments of any town our size. Our sanitation department offers twice-a-week residential garbage pick-up for a fee much lower than any town in the surrounding area. I will strive to upgrade these services to stay abreast of the needs of the people of Prestonsburg.

I helped initiate an Environmental Program this past summer, in which we employed some of our high school and college students to clean up vacant lots, cut weeds along sidewalks, paint and repair parking meters and street signs, and do other clean-up jobs throughout the city. I strongly support the continuation of this program during each summer.

I think we have one of the finest city parks of any town in the State of Kentucky. We need to continue expanding the facilities at Archer Park, so that the people of Prestonsburg will have a place to get wholesome recreation and exercise. No other single facility can do more for the young people of our area than Archer Park. Let us continue to work for its improvement.

If elected, I pledge to do all in my power to see that Prestonsburg continues to offer its citizens the same clean, honest and efficient government they have had and are entitled to.

### Setser-Allen Vows Exchanged July 15

Miss Erelene Setser, daughter of Mrs. Roberta Setser, of Prestonsburg, and Mr. Millard Setser, of Van Lear, became the bride of Mr. James Allen, son of Mrs. Mary Allen, of Prestonsburg, at 4:30 p.m. Sunday, July 15 at the First United Methodist Church in Prestonsburg.

The double-ring ceremony was performed by the Rev. Deacon Terry, of Wheelwright. Wedding music was provided by Mrs. Katherine Frazier, organist.

Given in marriage by her parents, the bride wore a white floor-length sata-peau gown with mandarin neckline fashioned with lily-pointed, wrist-length sleeves and empire waistline. The semi-gathered full skirt swept to a chapel train trimmed with venise lace and re-embroidered pearls over white lining. Her silk imported veil of illusion was held in place by a mid-Victorian cap trimmed with matching lace and pearls. She carried a Honor Bible, given to her by her mother.

Mrs. Elaine Gibson, matron of honor and sister of the bride, wore a petal-pink polyester street-length, sleeveless dress with a white tailored collar and piping down the front, trimmed with pink and gold buttons from the neckline to a double ruffled hemline. She carried one long-stemmed pink rosebud tied with white satin streamers.

Miss Judy Setser was her sister's junior bridesmaid. She chose a dress of heavenly blue polyester waffle pique with a swing skirt and white pique insert emphasizing the empire waist. Blue and white embroidered tulips accented the "V" neckline. She carried one pink rosebud tied with white satin streamers.

The mother of the bride chose a white polyester sleeveless street-length dress with a cowl neckline, trimmed with a red silk scarf held in place with red rosebuds. The mother of the groom wore a printed polyester street-length dress with a "V" neckline and elbow-length sleeves. Her corsage was of red rosebuds.

Mr. Kenney Rice, of Wayland, served as best man. Assisting at the reception held at the church was Mrs. Gena Williams, of Paintsville.

The couple honeymooned at May Lodge, Jenny Wiley State Park. The bride will attend Prestonsburg High School as a senior this fall. The groom attended Prestonsburg Community College and is now employed at Radio Station WDOC.

**Season for Sneezes**

Ragweed pollen is in the air. It's hay fever season for millions of sneezing people.

Pollens that are light enough to be carried by the wind are the chief culprits in most hay fever suffering. Trees, grasses, and weeds all have windborne pollen. However, the overwhelming majority of people with hay fever are sensitive to one special pollen—ragweed—which flourishes in most parts of the country from midsummer to late fall.

But any person may react to more than one pollen. An individual's sneezing season may start in early spring, when tree pollen float into the air, and stretch until fall when the first frost arrives to kill all the pollens. In fact, someone sensitive to dust or animal dander or other air-borne material may suffer all year long.

The symptoms of so-called hay fever are repeated and prolonged sneezing spells accompanied by a stuffy nose and itching eyes. Though the symptoms are annoying and cause discomfort, the disease itself is not dangerous. And once the offending substance is pin-pointed—by skin tests with suspected substances—the doctor can give specific desensitizing injections that can control the allergic reaction.

If hay fever is untreated, the repercussions from repeated attacks year after year can be serious. Chronic sinusitis—inflammation of the sinus cavities—can result. Growths in the nose, nasal polyps, may occur. In addition, about 30 percent of people with hay fever develop asthma, a widespread narrowing of the smaller breathing passages.

Most lung diseases are triggered by offending substances in the air we breathe. To find out more about ways to prevent and treat lung diseases of all kinds, contact your Kentucky Lung Association. It's a matter of life and breath.

morning breakfast while inside the store, as was evidenced by empty milk cartons.

A blue commode bowl sanitizer was spilled by the burglars while they were inside the store, and Thompson said Harrison's shoes were still stained by the substance when he was returned here. He also had in his possession some of the money orders taken from the store, officers said.

The prisoner or one of his alleged confederates applied at the store two weeks ago for work, and it is believed he was there at that time to "case" the store.

Chief of Police Bill Potter said a plaster cast made of a footprint found at the scene of an earlier break here corresponds closely to one found at IGA after the Sunday morning break.

Officers are seeking information which might link Harrison and others named with the looting of the Eastern Kentucky Auto Parts, Parkway Motors and the Farm and Home Store here, the first week-end in July.

Harrison was returned to the county jail here from Winchester by State Detective Music and Prestonsburg Policeman "Hack" Thornsburg.

held at Pikeville to approve District 30's first constitution.

The 44-page constitution includes articles calling for an increase in monthly dues to \$10 and increased salaries for district officers. These two sections drew sharp debate during the closing session of the two-day convention.

The district president's salary was increased from \$18,000 to \$21,000 annually, while the secretary-treasurer will receive \$19,000 annually. Four sub-district representatives will be paid \$15,000 annually.

Until a recent federal court ruling, the international union paid the salaries of the district officers. Now it is a district responsibility.

The delegates turned down a proposal to create the post of district vice-president on the ground that the \$16,000 annual salary would be an unnecessary expense.

They approved separating four positions which would have been joint representative and governing board jobs. Four persons will serve in each capacity.

The delegates also approved unanimously a resolution calling for full support of the strike action in progress since 1972 at the Methodist Hospital in Pikeville.

picture. Yes, we agree—we are ingrates, though that may not be the exact word used by Strahan-Nelson to describe of us.

THAT'S WHAT THE AD SAID

Tim Bostic, of The Salyersville Independent, tells of a subscriber's recent call at his office to renew his subscription. Having laid down the hard cash, he asked the girl for his Top Value stamps. Turned out he had mistaken an ad in which a drug store had offered 100 extra TV stamps for any refilled prescription.

HOW COME?

As if we haven't enough problems on our hands, Leo Carter tells of this one:

A man had three sons and 17 horses and decided to divide the horses between the boys in this fashion—one-half to one, a third to another and one-ninth to the third. That brought on trouble; the formula wouldn't work, because each of the sons came up with an odd part of a horse—8 1/2 to one, 5 2/3 to the next and so on, and all not adding up to 17.

A neighbor rode up while the calculatin' was in progress and inquired about the trouble. They explained. "Why, that's easy," the man said. Then he put his own horse in with the 17 and began dividing—half to one would be 9, a third would be 6 and a ninth would be 2. Then he got aboard his own nag and rode away, leaving each of the boys an even number of horses, more than they had figured, and the total coming to exactly 17.

If you're worried about inflation, try that one for a change of pace.

The sheriff said he did not appear at the slaying scene immediately after the shooting because he was in a Lexington hospital at the time. He added that he contacted his office and asked deputies to investigate but did not know if they did.

The investigation, which slowed appreciably upon the death of Mrs. Archer, was conducted by State Police detectives, Prestonsburg city police, County Detective Sam Hale, Commonwealth's Attorney Stumbo and County Attorney Allen.

Mr. Stumbo said the bullet removed from Dr. Archer's body was sent to the State Police laboratory for ballistics tests that he has never been given a written statement of findings, despite the fact that he had made several requests for the information. He said State Police personnel will be among those questioned this week.

Apparently, all involved in the investigation and in the exchange precipitated by Sheriff Leslie's statements are agreed that they will accept the conclusions reached by the grand jury after its investigation has been completed.

INJURED BY CAR DOOR

Mrs. Cecil Kendrick was injured by a car door which in closing hit her on the ear, last Sunday. She received first-aid treatment at the Highlands Regional Hospital.

Never let a faucet drip. One drop a second can waste 700 gallons a year. If it's hot water, you're wasting fuel energy as well as money.

Today, 77% of our energy comes from oil and natural gas. Domestic supplies of both are falling far behind demand. America can't afford to waste energy—and every American can help save it. Write today for a free copy of "A Consumer's Guide to Efficient Energy Use in the Home." It's packed with ideas that can save the nation's energy and your money.
