Board Drops Personnel, *Cuts Costs by \$490,000

Dozen Positions Are Eliminated In Special Meet

Parents of Clark Elementary students, who protested earlier this year when their trusted physical education teacher was stretched to cover Wayland Elementary as well, now have even more to complain about. Bridget Clay was one of four physical education teachers laid off last week in a lengthy closed-door session of the Floyd Board of Education.

Grade schoolers who never seen an art teacher will now see fewer music teachers, too.

Five teachers who spent their summers trying to persuade likely dropouts to stay in school will now be expected to restrict their counseling to regular school hours.

The school district's public relations officer was cut from the payroll. A visiting teacher position will not be filled. Summer laborers will not be hired. No school will have an assistant

In all, a dozen so-called ASIS or support positions were eliminated. Next month will be time for the board to cut

basic teacher positions. The problem that prompted the cuts is one which school administrators call "overstaffing," but the term has less to do with the number of teachers needed than with the number the district can

Education Issue Topic of Meets Set in County

Education, which has emerged in recent years as a leading topic on state and local agendas, is the subject of two upcoming meetings in this county.

As part of a statewide campaign to win grassroots support for the program she will be trying to push through the next legislature, a program likely to require increases in public funding, Gov. Martha Layne Collins will address a public meeting this Friday at Jenny Wiley State Park.

On Thursday next week, Robert Spillman, an associate superintendent for local services in the state Department of Education, will address a meeting-this one organized by the Floyd County Education Forum—on the topic. "How does the state Department of Education view Floyd county

Gov. Collins will be accompanied Friday by state Superintendent of Public Instruction Alice McDonald. The May Lodge meeting, which is scheduled to run from 4:30 to 6 p.m., will be the last of two days of similar meetings this week, taking the governor to 10 counties.

Gov. Collins has vowed to visit all Kentucky counties in person and is reported to have called on 41 to date. She visited five western counties yesterday (Tuesday) and, on Friday, will speak in Maysville, Flemingsburg, Sandy Hook and Inez before coming here.

To All Candidates

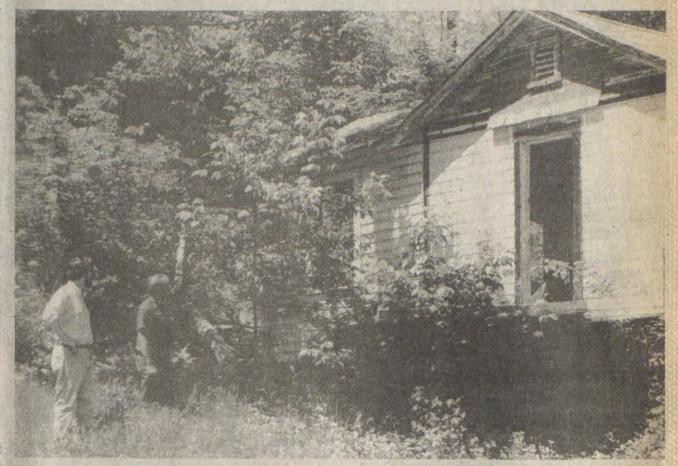

The Floyd County Times will not accept for next week's edition (May 22) any political advertising which personally attacks any individual or reflects on the individual's character.

This policy has been adopted because the May 22 issue will be the last before the primary election, and for that reason any person attacked by such advertising would not have the opportunity to reply to or refute any charges made.

Career Educator To Address '85 Seniors

Floyd county high school seniors will gather for an address in the Prestonsburg High School fieldhouse Friday, to be given by a Texas specialist in career education and goal-setting.

In a visit sponsored by community leaders and the Floyd Board of Education, Fredric E. Jefferson, vicepresident of the Education Achievement Corporation of Waco, will address the students, beginning at 10 a.m. Parents, citizens and members of civic organizations are also invited to attend.

Grand Jury Indicts 2 On Murder Charges Two murder indictments were return-

ed by the Floyd Circuit Court grand jury last week, including one stemming from the stabbing of a man on Arkansas Creek 10 months ago.

Gary Hall is accused of stabbing Dennis Wayne Conn with a steak knife on July 18, 1984. Conn, 23, who was married to Hall's niece, died two months later in a Lexington hospital. The case was presented last year to a grand jury, which declined to issue an indictment. Attorney Ned Pillersdorf, who was hired by Conn's parents to argue the case a second time, said new evidence was presented to the grand jury.

Otto W. Honaker, of Tram, was indicted in the April 22 shooting death at his home of Teresa Lynn Smith, his fiancee's sister. He was also named on a charge of first degree assault for allegedly shooting Eddie Prater, his fiancee's ex-husband, in the arm last

Dismissed was a charge accusing Benjamin Castro, of Pikeville, of raping a woman at Auxier last month.

Indicted on a charge of first-degree assault was Dale Christian Conn, 35, of Tram, who is accused of hitting his wife on the head and cutting her neck with a machete on Jan. 26. His wife, Bonnie Blair Conn, 34, of West Prestonsburg, subsequently filed for divorce. The couple was married last August but separated in January this year, about

two weeks before the alleged assault. Also indicted on assault charges were Eric McNeece, accused of beating Steve Price with his fists on March 9, and Lenny Newsome, said to have knocked Michael Shane Mullins against a

radiator, causing a wound that required 13 stitches to close.

Lester Chambers and James Curry are accused of breaking into the Tinker Fork home of Teddy B. Tackett, while armed, on March 26 last year. The following May the pair are said to have stolen from Tackett two shotguns, 35 eight-track tapes, and Tylenol and Librium tablets.

Also facing burglary charges are James Jacobs, for allegedly breaking into an empty house owned by Maggie Dixon on Feb. 2; Gary Warick, accused of stealing money and other items from the Montgomery Ward store here on June 26; and John Steven McIntosh and David Ray Craft, who allegedly broke into the Southern Video store and R.H. Hobbs store in Prestonsburg on Feb. 25.

Craft and William Douglas Nelson are indicted for receiving property allegedly stolen in the Southern Video and Hobbs break-ins. David H. Jacobs is accused of receiving and selling a .45-caliber pistol on April 16, knowing it was stolen. He is also charged with possessing a handgun, although a convicted felon.

Randy William Mitchell is accused of stealing a check book, credit cards and personal papers from Shirley Mitchell, of the Goble-Roberts Addition, and a 1982 Toyota from Cindy Wells, her daughter, on April 23. Johnny Bentley is accused of issuing a dud check for \$569 payable to L.J. Hall.

Indicted for forgery are Ira Scott Cantrell, accused of forging Dr. Charles J. Hieronymus' signature on a prescription for 60 Tylenol IV tablets at the Herrin-

Johnson pharmacy; Diana Howell, ac-(See Story No. 3, Page 4)

The sewage system has been repaired. The water system was working well until an English firm salvaging the huge gob pile on the 79 Hill apparently let sodium-rich chemicals contaminate the reservoir. In any case, a grant application is in to replace the system and even extend it to Hi Hat and Ligon.

The 1979 deal by which \$3 million in public funds was put up to buy Wheelwright from the Florida firm which then owned it and sell it back to the people was "the best thing that's ever happened" to the town, Nicholas said last week. What is more, it is a success story that others can still be part of, he adds, with many good homes and lots available, at very affordable prices, in a pleasant, growing community...

Water Systems' Renovation, **Expansion in County Near**

As public water systems go, Mud Creek's is a youngster, barely a dozen years of age. But for at least half of its short lifespan it has been as cranky and feeble as a grizzled old veteran.

For the better part of a year, the 117 customers who live on the seven-or-so miles between Morg Branch and Tinkers Fork have been rationed to four hours' service a day

A pump and four water tanks, designed to insure that water service could be kept up during the time it took to repair a break in the main, have never been properly maintained and haven't worked right for years.

But relief is in sight, said Rob Nicholas, a technical adviser with WRAC, who met Monday with county and water district officials to plow through some of the legal work that must be done before reconstruction of the system can begin.

Proposed Replacement Of Computer System Given Review Status

The Cabinet for Human Resources has granted nonsubstantive review status to a proposal by a Prestonsburg hospital for replacement computer services.

Under its proposal, Highlands Regional Medical Center would replace its shared computer service at an estimated cost of \$1,296,855.

Nonsubstantive review status permits the applicant to waive formal review procedures normally required for a certificate of need. Such status can be granted in certain cases involving nosubstantial change in facilities, equipment or services.

Persons affected by the proposal may request a public hearing on the application. Requests must be submitted in writing before May 18 to Jack S. Lesshafft, Executive Director, Division of State Health Planning, 275 E. Main St., Frankfort, Ky. 40621.

Hospital officials also seek the cabinet's approval for federal Medicare-Medicaid reimbursement of interest and depreciation expenses related to the capital expenditure. The agency plans to complete that review by June 17.

NUMB ARMS, LEGS Warning Signals

There may be misalignment of vertebrae in the spine causing pressure on nerves, yet the patient experiences no pain in the back. Instead, a variety of sensations may be felt in other parts of the body. These include tingling, tightness, hot spots, cold spots, crawling sensations, electric shock sensations, stinging, burning, and others.

The following nine symptoms involving back pain or strange sensations are often the forerunners of more serious conditions. Any one of these may spell back trouble.

(1) Paresthesias (see above) (2) Headaches (3) Painful joints (4) Numbness in the arms or hands (5) Loss of sleep (6) Stiffness in the neck (7) Pain between the shoulders (8) Stiffness or pain in lower back (9) Numbness or pain

These signals may indicate your body is being robbed of normal nerve function. Until this function is restored, you will, in some degree, be incapacitated. The longer you wait to seek help, the worse the condition will likely become. Don't wait! Should you experience any of these warning signals . . . call for in depth consultation in Layman's terms.

A Message from **Gerald DeRossett:**

I am again asking the people of District 1 to re-elect me to the office of magistrate. I will work in the best interest of all the people of District 1 for the following:

- 1. The upgrading and maintenance of roads and bridges and school grounds.
- 2. Continued support of our senior citizens.
- 3. Aid all our volunteer groups, such as the Fire Department, churches, development groups, and the Rescue Squad, so they may carry out their programs.
- 4. Honest and efficient management of your tax

I will continue to work for you, and with you, to make District 1 the best in Floyd County.

POSITION ON THE ISSUES

Have you noticed that I am the only candidate for County Attorney who has ever mentioned issues facing the next County Attorney? I believe the voters need to know what to expect from the persons seeking office.

During this campaign I have made it clear I will prosecute drunk drivers. I will not be party to nor turn my back on stealing from the county. I have promised I will do everything within my power to see that the citizens of Floyd County get a dollar's worth of goods and services for each of their tax dollars.

I will diligently assist mothers in receiving their child support.

Education Held a 'Must' In the War on Drugs

The Drug Education Awareness Program (D.E.A.P.), formally "The Kentucky War on Drugs," was organized in Floyd County in October, 1983 and has been meeting on the first and third Mondays of every month since. The place and time of the meeting is 7:30 p.m. at the Floyd County Library. As might be expected, the local press and radio have been very cooperative in advertising the time and place of meetings and informng the public of the aims and purposes of the program. The response of the general public has been less than desirable pointing up the two main objectives of the program-education and

awareness

The apathy of parents generally has allowed the drug problem to reach epidemic proportions simply because they don't know or don't want to believe that their children could be affected. We in the D.E.A.P. have learned that the problem exists in far greater numbers than we ever thought possible. In order to reverse the trend the definite conclusion has been reached that only by education of parents and of young people through their parents and teachers, can the problem start to turn around. Law enforcement alone cannot solve the problem; it must come through education and awareness. Our public officials are aware that the problem exists, but they need the support of parents to effect any lasting remedy. Fines and jail sentences will not stop the illegal use of drugs. Only education can do that. Parents, It's your responsibility. Spiritually, most young people will grow no faster nor further than their parents. Make yourself aware of the problem and learn how to detect it at home. The tools are here. Use them before it's too late. Attend the program on May 20 at the loyd County Library WESLEY HOWARD,

Clothes Do Not Make the Man

No wonder that elections in Kentucky are a matter of jest and ridicule outside its borders! Since when is a candidate judged unsuitable because he wears 'nothing but a suit and tie"? Letter to Candidates

The closer we get to the election, the dirtier the air gets. I'm not talking about industrial pollution, but rather political pollution. The air waves are clogged with the slime of "mud slinging"-that oldtime political maneuver where (after you've exclaimed your good points to the limit) you verbally tear down your opponent, wrecking his life, destroying his family, and running him out of the

Hey, Mr. Candidate! Who do you think you're dealing with? The voters of this county are smarter than you think! They realize that the oldtime campaign you practice shows that the "best man" for the job is not running this time around. The only thing mudslinging breeds is corruption, and since the best mudslinger usually won, that meant the most corrupt was voted into office. That kind of (crap) should have ended with Nixon's resignation.

Today's voters are more aware than you give them credit. They see where change is needed, and they'll use their vote to make a change. I doubt if they will fall for that "trick-of-the-trade" you've always used to get their vote. (I'm always suspicious of someone who has to bring down another person, just to make himself look better.)

Times have changed, Mr. Candidate, and I'm surprised you haven't. People are different, now. They're honest, open, and respect a person (or candidate) for who he or she really is.

Give us a break! Run on your own merits-not on the demerits of your opponents. We're not interested in how little you think of the opposition, only in what kind of office holder you would make. The campaign you run is a good indication of just what kind of "public servant" you'll be.

Says Road Neglected

The Floyd County Times

On behalf of the residents of Spewing Camp Eranch, (Floyd Co.), McDowell R.R., I would like to call attention to a long-standing problem.

Most of us live near an unpaved, county road that has been neglected for too long. It is heavily traveled by coal trucks and covered with dust. Several calls or contacts have been made to or with Magistrate Ed Caudill and Co. Judge Executive John M. Stumbo, yet nothing has been done to alleviate the problem. Occasionally, there is sporadic grading to the extent that our driveways are closed to small car traffic, and that needs to be changed.

Several seniors live in the area, many of whom suffer from Black Lung or other pulmonary disease, yet the outdoors is off-limits. A clothes line becomes an archaic piece of yesteryear for the housewife who prefers the out-ofdoors. The ones who enjoy a daily stroll or see the beauties of nature through the wondering eyes of a child are out of luck. And, if one doesn't own an air conditioner for the hot weather-well, that's just tough

We need the potholes filled and the road oiled, periodically. Believe it or not, we are still part of Floyd county, and it's difficult to believe there isn't money somewhere for such a project. For that responsibility and to paraphrase the late Pres. Harry Truman-the buck stops somewhere.

Gentlemen, you seek our votesplease oil our roads.

THE MESSAGE

Drove to Auxier, the other morning, and, returning home, found that a spot on US 23 that I had passed not more than 20 minutes earlier was covered with a rock spill from the road-nugging cliff. And immediately decided that, if the state can't provide a four-lane road, the only solution to the problem is to close the traffic lane next to the cliffs, post flagmen and leave only one lane

Every rockfall along that road is a message. If we continue to ignore what we're being told, tragedy lies ahead... The wonder of it all is how we've escaped loss of life thus far.

When you have nothing to say, keep your mouth shut. Some day-which many perhaps look forward to-I'll accept that advice and stop passing it on

(Continued from Page One) At next week's meeting, scheduled to

begin at 7 p.m. at McDowell High School, Spillman and other panelists will answer questions from the audience about education in this county. Sharing the platform with the state official will be McDowell Principal Gary Frazier, Wheelwright Principal Wilbur "Shorty" Jamerson, and Forrest Hughes, of the Maytown PTO.

The Floyd County Education Forum, sponsor of the meeting, grew out of a series of statewide "town forums" organized last November by the Prichard Committee on Academic Excellence. The group recently persuaded the Floyd Board of Education to open up its meetings to public participation and asked the board earlier this month to hold some of its monthly meetings out in the county.

Lying Detectors

· Do lie detectors lie? Psychologists at the University of Illinois decided to find out, using 50 confessed thieves and 50 innocent persons interrogated during genuine cases of theft. As reported in New Scientist magazine, "the researchers asked six polygraph operators to distinguish the thieves from the innocents on the basis of their physiological responses during the test.' The result? "The interpreters falsely accused 37 percent of the truthful subjects of theft and declared 24 percent of the thieves innocent," says the magazine.

--- 7 ---(Continued from Page One)

For many administrators, including Floyd Superintendent E.P. Grigsby, Jr., its roots go back to the 30-year-old formula, called the Minimum Foundation Program, according to which the state dispenses education funds to local school districts. While teachers must be hired according to the number of students enrolled, and a certain range of courses must be offered to meet accreditation standards, local districts are funded on the basis, not of students enrolled, but of students in actual daily attendance.

Enter the million-dollar gap. That is the difference, Floyd administrators say, between actual school jobs and the number the state will pay for. It is a difference the local district must pick up. It is a difference they say we cannot afford and, in three hours of artful juggling last Wednesday night, the board figured to cut jobs and so cut local costs by \$490,000.

The details:

-The elimination of practical arts programs at Betsy Layne, McDowell, Prestonsburg and Osborne grade schools will free six teachers. Five, who are tenured, will have to be absorbed elsewhere in the system. Emma Cecil. who teaches at Betsy Layne, will be let go at the end of the current school year. The state recently decided to stop funding the program, which was designed to give middle-school students an idea of the range of careers they might pick from, although local districts could carry it at their own expense. Dropping the program will mean a saving to the school district of around \$18,000.

-Besides Bridget Clay, three other non-tenured physical education teachers have received pink slips, for a saving of \$75,000. One is Ervin Pack, former Wheelwright High School principal who has taught at Osborne and Melvin grade schools since he was forced to step down in March. The others are Tim Rice (Betsy Layne Elementary) and Greg Johnson (McDowell Elementary).

-Music teachers Valeria Hale (Wheelwright) and Maria Thompson Allen Central), the lowest in seniority, have been "bumped" for a saving of \$35,000.

-\$50,000 will be saved on summer employment-\$30,000 by not hiring extra laborers for summertime maintenance work and \$20,000 by reducing the work year of five high-school vocational teachers from 12 to 101/2 months. They are Steven Halbert (Allen Central), Rodney McKinney (Wheelwright), Greg Hall (Betsy Layne), Janet Lawson (McDowell) and David Layne (Prestonsburg).

-Laid off is Jennifer Martin, former school nurse who has been public relations officer for the school district since 1982. That will save the board \$25,000.

-When Denzil Halbert and Mildred Kendrick retire as visiting teachers at the end of this school year, only one of them will be replaced (Savings: \$27,000). About \$12,000 more will be saved as retiring central office personnel are replaced by persons with less seniority. The retirees include Assistant Superintendent Ray Brackett, supervisers Blanche Dingus and Gordon Moore, and Philip Dingus, director of pupil personnel.

-Further savings, put at \$110,000, will be realized by eliminating the district's four assistant principal positions. Two of the assistant principals-Frank Stewart, at Prestonsburg Elementary, and Forrest Curry at Betsy Layne High School-are retiring; the other two-Jack Stanford, Prestonsburg High School, and Gwen Harmon, Allen Central-will be reassigned. At McDowell, where the assistant principal (currently Franklin Pack) has traditionally run the elementary school, he or she will from now on be officially designated as grade school principal.

In addition, three administrators of the Chapter I (remedial reading) program-Hiram Couch, Brent Allen, and Roberta Davidson-will be reassigned to meet government staffing guidelines. The transfers will mean a saving of \$90,000 for the federal government, which funds the program.

The board found itself caught between a declining average daily attendance (ADA) and the need to increase staff in some areas to meet state law or accreditation requirements.

This year's funding is based on an ADA of 92.1 percent last year. An anticipated drop of one percent in this year's ADA would mean that several fewer teaching positions will be funded by the state here next year.

At the same time, state law now requires that all children attend kindergarten-where ADA is traditionally low-before enrolling in the first grade and, to meet accreditation standards, Floyd must hire four guidance counselors for seventh and eighth graders and another librarian.

While state legislators and bureaucrats have recently stressed the need for local communities to help themselves more—especially in school districts like Floyd's, where a relatively small proportion of the school budget is raised through local taxes-Grigsby argued last week that those who decide how many teachers must be hired and what programs must be offered should also be responsible for making available the necessary funds. "What I say to them is, 'If you say these are frills, cut them out, but if you say you want these teachers, fund them," "the superintendent said.

later found drunk behind the wheel of his own vehicle. District Judge Harold Stumbo handed down a 30-day jail term and ordered Russell to pay a \$500 fine and \$47.50 in court costs.

Lee was arrested by Prestonsburg police officer Gerald Clarke, who reported that the defendant had a reading of .23 percent on the breathalyser, more than twice the score at which a person is presumed drunk under state law. But Clarke was not in court Monday and sheriff's deputy Junior Lawson said the police officer told him he "did not want to prosecute this boy." The charge was dismissed, with a proviso that it could be redocketed if the arresting officer chose to press it.

Prestonsburg police officer Mike Meade said Crace had a BA reading of 10 percent and was driving the wrong way down a one-way street when he was arrested. Crace was in court but the officer was not. The charge was

Or contrast the cases of Rick Hall and Cret Caudill, both of Prestonsburg, with those of Danny R. Newsome and Ed ward Hall, both of Melvin, all of them scheduled to appear Monday on charges of public intoxication.

Caudill and Rick Hall, both convicted on the evidence presented by Trooper Sizemore, each drew 10 days of public service and fines and fees amounting to \$107.50. Newsome and Edward Hall, both arrested by sheriff's deputies Harold Johnson and Denvil Hunt, were dismissed "for lack of prosecution."

Not that the arresting officer's evidence always results in conviction, least of all on the original charges. When Tpr. Sizemore arrested David Jones, 20, of Langley, in February last year, he said he chased Jones from Maytown to Martin at speeds of up to 100 m.p.h. He booked him on charges of doing 85 and of attempting to elude a police officer. The attempting-to-elude charge was dropped Monday and Jones pleaded guilty to an amended charge of doing 75. He was ordered to pay \$112.50 in fine and

And then there was the case of Carl Trent Hicks, of Prestonsburg, scheduled to appear Monday on charges of reckless driving, terroristic threatening, driving on a suspended license, and attempting to elude Prestonsburg police officer Meade in January. The case never came to open court, Meade and his father settling it with Judge Stumbo in the judge's chambers. On a reduced charge of disorderly conduct, Hicks was put on 30 days' probation and fined \$100, with an additional \$57.50 in costs.

The Kentucky Oil & Gas Association (KOGA) filed suit in Johnson Circuit Court last Thursday and obtained a restraining order against enforcement of several state water pollution regulations which threaten to end crude oil

within a month.

KOGA, on behalf of its members, decided to challenge the validity of the regulations after the Kentucky Natural Resources and Environmental Protection Cabinet (KNREPC) ruled that seasonally dry drainage ways, intermittent streams, and oil producers' private water supply impoundments must meet a 600 milligram per liter instream chloride standard. The Association suit did not take issue with the more stringent chloride standard which protects public drinking water supplies, but contends that the 600 mg. standard requires protection of waters which would not currently support aquatic life in natural conditions.

has no sound scientific basis, and claims the regulation was adopted without indepth consideration of the costs or benefits that would result.

SOUTH CENTRAL BELL EMPLOYEES, Glenn Copley, left, and Jim Green,

Last week, KOGA appeared before an interim committee of the Kentucky General Assembly to submit testimony on a related matter in support of legislation that would compel state agencies to balance the costs and benefits of proposed environmental regulations.

Another issue of contention in KOGA's suit stems from a previously adopted regulation (401 KAR 5:090) which deals specificaly with water pollution from oil and gas production facilities. The KOGA suit contends that KNREPC has failed to properly implement this regulation. thus preventing oil producers from complying. It asserts that the KNREPC has taken no action on water discharge permit applications submitted by producers, and claims the Cabinet has failed to issue guidelines necessary for producers to comply. The restraining order prohibits the Cabinet from further enforcement of 401 KAR 5:090.

I have gladly served the people the last three years...l look forward to serving you for at least another four years.

EXPERIENCE AND EDUCATION:

Six (6) years of college: Accounting-Nine (9) courses, all the way through Advanced Accounting, Income Taxes, Auditing, Bonding, Insurance, Advanced Office Practices, and etc.

Tax Commissioner—P.V.A.: Two (2) terms—and while serving as Floyd County's Tax Commissioner, P.V.A., I never had one (1) taxpayer appear against me before the Tax Board concerning their taxes.

Six (6) years Teacher: Taught at Maytown, Martin and Prestonsburg high schools. Ask any of my former students if I wasn't always fair and honest with them and was always interested in their welfare and education.

Four (4) years Military: Four (4) years of military service—thirty six (36) months overseas and my outfit in the Korean War won the Presidential Unit Citation.

AFL-CIO, Pipefitter: Have worked over twenty thousand hours (20,000) in heavy construction; Coal burning powerhouses, Nuclear powerhouses, Chemical plants, Oil refineries, Steel mills, Water treatment units, Sewerage treatment units, pipelines, Coal conversion plants that convert coal to oil, and others.

NOTE: One of the main functions of the fiscal court and your magistrates is the annual setting of the tax rates. I understand this and the procedure they must go through by taking the property assessments from the Tax Commissioner, P.V.A., and then setting the ratesand eventually the taxes you must pay.

I have served you from the courthouse, the military, and from the classroom—most of you know me well and you know that if elected you can depend on me and trust me.

CANDIDATE SHERIFF

To the people of Floyd County:

I am the other choice for Sheriff of Floyd County. During my campaign I have traveled throughout Floyd County and talked to many people and told them my plans if elected sheriff. Among these are the following:

- 1. I will work against drugs to the fullest extent.
- 2. And the same goes for drunk drivers and thieves.
- 3. It will be mandatory for all full-time deputies to receive training.
- 4. Lend any help possible to our older citizens.
- 5. 24-hour answering service, seven days a week.
- 6. Escort any and all funerals.
- 7. No deputy will work without being fully dressed in uniform.

Finally, I want the people of Floyd County to know that any rumors spread over the county by other candidates or their supporters are untrue. Maybe when they start telling you these tales you can figure out what kind of candidate they are or what kind of sheriff they will make. I am a candidate till this election is over.

Thanks to the people I have met during my campaign which have given me their best wishes and support.

LET'S GIVE THE PEOPLE A CHOICE

Over the past few months, the James R. Allen Campaign has presented a well thought out developmental plan for Floyd County. A plan that is honest, open and includes the people in a full partnership with their local government. Several times, we have asked John M. Stumbo to tell the people what, if any, plan he has. John has refused to discuss his plan and has not documented one single issue for the people.

The election is drawing to a close. It's time the people had an opportunity to talk with John M. Stumbo and ask him about his record and what he plans to do. The people deserve to see the candidates and to hear them discuss the issues. Therefore, I propose the following:

I will personally pay for 30 minutes radio time if John will agree to debate the issues. A panel composed of the media in Floyd County will ask each candidate questions about the vital issues that are facing Floyd County now and will face our people in the future. Okay now, John. You've made a lot of false accusations, I'm giving you an opportunity to meet me face to face, in front of the people of Floyd County and discuss the issues. If you agree, simply call my secretary at 886-6243 and we'll take care of all the details. I, and the people of Floyd County anxiously await your answer.

Historical Society Acquires Manuscripts

The Kentucky Historical Society has recently added several manuscript collections of note to its research library in Frankfort. The personal and business papers of Milton H. Smith, the powerful president of the Louisville & Nashville Railroad at the turn of this century, are among the most recent additions. Other donations include the papers of Laura White, an Eastern Kentucky suffragist, and a new series of letters concerning 19th century editor and politician Orlando Brown.

The Society has maintained a manuscript collection for more than a century in keeping with its charter "to collect, preserve and make known materials and memorials relating to the history of Kentucky." The collection. located in the KHS library in the Old Capitol Annex, Frankfort, is primarily composed of personal and family papers. The Society actively solicits donations of old letters and manuscripts and hopes to expand the scope of its holdings to represent the entire state more fully.

The Society would particularly like to acquire original materials concerning the Civil War, agricultural papers and records, and papers pertaining to 19th century politics in the state. Anything related to Kentucky history will be considered, however, for inclusion in the preserved papers.

Potential donors are encouraged to write or call the Society at P.O. Box H, Frankfort, Ky. 40602; (502) 564-3016.

CERTIFIED BY THE STATE JUSTICE OFFICE DEMOCRATIC CANDIDATE FOR

FLOYD COUNTY CORON

Call for an appointment 478-9795 MAKES A GREAT MOTHER'S DAY GIFT! A VIEW OF THE PAST, PRESENT AND FUTURE

WITH JOHN M. STUMBO

PAST:

Judge Stumbo has always been a man of honesty and integrity. He served as a representative of Educational District 3 of the Floyd County School Board for 31 years and at all times demonstrated competence and a desire to serve the people of Floyd County.

Judge Stumbo has 21 years of road building and maintenance experience and has demonstrated that he has both the energy and ability to plan, construct, and repair the Floyd County road system.

Judge Stumbo took office when Floyd County was in debt in the amount of \$525,000.00 and was under the control of the State Department of Local Government. He worked in conjunction with the appropriate state officials to balance Floyd County's Fiscal Budget, during the first six months of his administration. This was done in part by participating with the Commonwealth of Kentucky in what is known as State Purchasing Contracts. What this means is that the Commonwealth of Kentucky annually puts out bids for blacktop, tires, gravel, and other road building materials and supplies and enters into a contract with the lowest and best bidder. Through Judge Stumbo's efforts, Floyd County purchased blacktop, tires, and other materials through and by virtue of State Purchasing Contracts. The end result is that in 1984 in blacktop alone, he saved the county \$91,000.00. Furthermore, he saved the county \$108.00 per grader tire through this inovative and progressive program.

Judge Stumbo reformed the Floyd County Solid Waste Program by moving it to the Courthouse Annex, where he could review monthly its finances. The end result being, the solid waste program is operating in the black with a balanced budget, for the first time.

Judge Stumbo, during the last two years has helped Floyd County receive from the Farmer's Home Administration by loan or grant \$6,392,220.00; from Community Development Block Grant for water and sewerage, \$651,000.00; from Appalachian Regional Commission (for the Mud Creek Clinic), \$320,000.00; for water line extensions, \$560,000.00; from the Kentucky Housing Corporation, \$197,000.00; from HUDD, \$2,868,000.00; and for the housing project at Ivel, \$2,500,000.00.

PRESENT:

Presently, Floyd County's Government is on sound financial footing. Our county road system which has suffered through a spring flood and a severe winter has been brought back into a state of repair where that all citizens now have access over it. In the area of economical development new shopping centers and projects are being built at a dramatic rate. Unemployment has dropped nearly 8% and over 1,000 new jobs have been created in Floyd County. Judge Stumbo has been able to accomplish this through cost efficient methods and has even found the money to provide funding for such essential public services as volunteer fire departments, senior citizens systems and a new drainage system at the Allen Park. Once again Floyd County citizens are able to point with pride to their county government and it is considered a model for Eastern Kentucky.

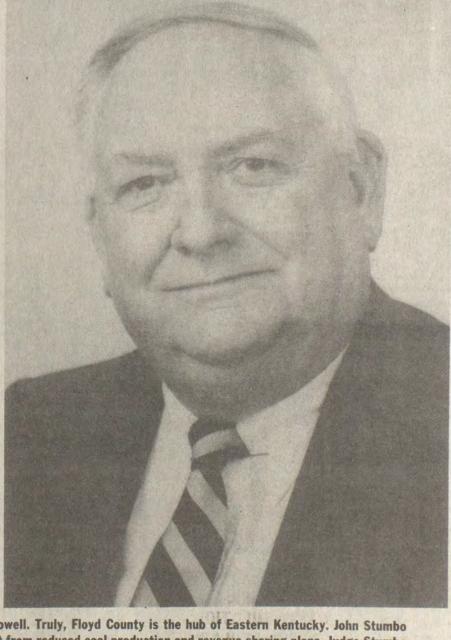

With limitless natural resources here in our county and a population that believes in hard work and integrity, Judge

John M. Stumbo believes that our future is bright. The 6 year construction plan includes a new road to be constructed between Inez and Auxier, the 4-laning of U.S. Highway 23 between Paintsville and Prestonsburg and a spur between Garrett and McDowell. Truly, Floyd County is the hub of Eastern Kentucky. John Stumbo believes that we are at a crucial point in terms of our county government. Even though some of our county's monies may be lost from reduced coal production and revenue sharing plans, Judge Stumbo believes that the dollars that come in can be utilized in a cost efficient manner to improve the quality of life for the people here. He reaffirms his promise that he made when he took office, that he will view every public dollar as an opportunity to serve, and not as an opportunity for his friends or supporters. John Stumbo says that this will remain his guiding light. The needs of our people are too acute for us to surrender the control of the Floyd County Judge-Executive's office or allow decisions of the Judge-Executive to be made based upon personal ambitions or profit to himself. Judge John M. Stumbo believes that there is nothing more valuable than the public trust. His future will be dedicated to continuing the programs that are presently being managed at his direction. and that help put Floyd County's government back upon the right path. The choice is clear, the real underlying issue in this campaign is integrity, honesty, and who deserves the public trust.

John M. Stumbo has answered all of the charges and false accusations leveled at him by his opponent because he believes that you have a right to know. He has set a standard by agreeing to release his personal income tax records so that you the public can see that he is not governed nor tied to special interest or outside sources.

Goble-Roberts Bridge Said Nearer Reality

A definite strategy, which includes the possibility of a city bond issue, for acquisition of adequate funding for construction of a bridge to the Goble-Roberts Addition, was presented at Monday night's meeting of the Prestonsburg City Council, and Councilman Paul Hunt Thompson called the plan the city's "best shot" for seeing the project begun.

Although the bulk of the approximately \$1.2 million undertaking would come from a Federal Highway Replacement Program 80-20 matching grant, the ability of the city to raise the \$245,000 required for the 20 percent match has been uncertain.

Now, however, as a result of meetings between Thompson and Department of Highways officials as well as the work of other council members and City Manager David Evans, it appears likely that the funding requirement will be met.

According to the plan, which was explained by Thompson, the money will come from a variety of sources: \$60,000 from a state allowance for city-owned property at Cliff which will be needed for planned construction of a new bridge there: \$50,000 from private contributions: \$20,000 through the Municipal Road Aid Fund: \$30,000 through the Local Government Economic Assistance Program, and \$10,000 in credit for paving work previously done by the city. Thompson said possibilities for additional funds existed through the County Rural Road Aid Program and the Prestonsburg Housing Authority. As much as \$75,000 in area development funds will be applied for as well, it was said, through the Big Sandy Area Development

If area development funds are not available. Thompson said, "the City should be prepared to pass a bond ordinance for the remaining amount of funds needed for construction of the bridge." The bond ordinance could be as high as \$75,000 although City Manager David Evans stressed that if alternate funding sources came through, that amount might be reduced considerably.

Thompson pointed out that the city had paid off a \$265,000 street and sidewalk bond ordinance issued in 1964 and has successfully paid off a \$193,000 urban renewal bond issue from 1978, as well.

Thompson emphasized that "with all the federal cutbacks we're faced with

we'd better do it now or face losing it." Thompson's motion to issue a bond ordinance, if needed, was approved by

council. A new bridge for Goble-Roberts would be located at the site of the old swinging bridge which crosses the Big Sandy from old U.S. 23, it was said.

Councilman Bobby Watson proposed the consolidation of the city's street. sanitation, parks and recreation departments into a central publics work department with a department manager to serve as purchasing agent for the city. Maintenance and general supplies for operation of the various functions of the city could be bought in quantity at a reduced price, according to Watson, who said it would enable all operations to be carried out more economically and efficiently

Watson, who has expressed interest in working as head of such a centralized city department, stated that "anyone opposed (to the idea) would be so only because of personal or political interests, not in the interest of the city.

Four council members supported Watson's idea, four voted against his proposal to establish a new city public

works department, and Mayor Harold Cooley tipped the scales against the motion with his "nay" vote although he and other council members who voted against the proposal said they would like to see a more detailed plan before committing their support. A dispute of six years involving the

right of certain residents to park along an alleyway between Hager and Shepherd Streets emerged at Monday night's meet with Homer Fugate complaining that city police harassed him whenever he tried to park in front of his house along the alley. Another woman said she had been warned in a harsh manner by a city employee as she stopped in the alley to help a disabled child whom she tutors into her house.

The problem, apparently, revolves around a ruling that an alley cannot be blocked and although Fugate, who lives at the end of the deadend roadway, says his car doesn't effectively block other traffic, a court decision in an earlier suit filed by Fugate. ruled against the complainant.

"I just want to figure out a way to get to my house," Fugate said. "I just want a place to park.

The problem was referred to City Attorney Larry Brown who was directed to review the earlier judge's decision and make a recommendation at the next council meeting.

East Kentucky Mack's bid of \$66,051 for a new garbage compactor truck was accepted by council from among several other bids from across the state. The truck will replace an older truck of the city's which is being sold to the city of Leitchfield, Ky. for \$12,500.

In other business council approved a motion to advertise for a replacement for City Policeman Paul Auxier, who recently resigned.

The next council meeting is scheduled for Monday, June 10.

SUPPORTS THOMPSON FOR SHERIFF

Dear Friends.

As the primary election is drawing near, you can read all kinds of gossip, but rarely do you hear of anything good about a man. I have known Paul Hunt Thompson and his family for 17 years. I know that when he tells you something, you can depend on it. He is an honest man who works hard to support his famly. He always gives money to schools and organizations anytime he is asked. It takes someone with a kind and generous heart to continue to give the way he does.

Paul Hunt helped my son and I will never forget it. I am a concerned mother who knows what a deplorable situation our schools are in. We need an honest man who does not drink to lead our youth.

Please, when you go to the polls to vote, think about our county: do we want to continue as we are or do we want a sheriff who will work to change things? Think about it.

First Stores Open For Trade in New Shopping Center

Jim Hughes, center, was often left holding the ribbon last week as the first stores were officially opened at Glyn View Plaza, the \$3 million shopping center he has developed at West Prestonsburg. Joining him for the ribbon-cutting that formally opened Artley's, a fashion store that was the first in the plaza to open its doors, were, on Hughes' left, store manager Norita Kidd, supervisor Phyllis Smiley, and Bill Hunter, of Branscum Construction, general contractor for the project; and, on Hughes' right, County Clerk Carla Boyd, and Betsy Lambert and Helen Neeley, representing the First Commonwealth Bank.

Other stores in the plaza to open last week were Glyn View Casuals, owned by Michael Ward, Eddie Ward, and Delores Ward; and Cynthia's, a women's clothing store owned by Cindy Hughes, wife of the plaza developer.

* DID YOU AS COUNTY CLERK CAUSE THE COLLECTION AGENCY TO START COLLEC-TING THE DELINQUENT TAXES?

The Fiscal Court, which is made up of four magistrates and the County Judge/Executive voted and the motion carried at the February 1984 Fiscal Court meeting to turn over the 1979 thru 1982 delinquent personal property taxes to a collection agency for collection. They did this in hopes to generate more revenue

These delinquent taxes were at that time on record in the County Clerk's office. If anyone wanted to pay their delinquent taxes before the court stepped in they would pay to the County Clerk's office...but...the County Clerk never did send out delinquent tax notices. That is not one of the Clerk's responsibilities.

(1) The tax bills were prepared; (2) The prepared tax bills were given to the sheriff and the sheriff sent out the tax notices; (3) If after June of the following year those taxes were not paid, they were considered delinquent and turned over to the County Clerk (4) It was then the responsibility of the County Attorney to collect the delinquent taxes. However, Floyd County never did pursue the collection of delinquent taxes. If they were paid, that was great, but if not, nothing was done. (5) In February of 1984 the Fiscal Court saw the monies were needed in Floyd County and thought that by turning over the delinquent personal property taxes to a collection agency that this would be one way of getting that much needed revenue. (6) The Fiscal Court gave this to the collection agency in February 1984 and it took the collection agency

What You Should Know

If mowing your lawn is getting you

soil is cooler. Moreover, mowing during the hotter part of the day exposes

the soil to sun, slowing root growth. -Mow regularly. Intervals between

- Q. Is it possible for people to keep all their teeth for a
- A. Many do-and far more could keep their teeth if they did everything they should to offset factors that destroy teeth and gums. Practicing good oral hygiene can make the difference, together with eating the proper foods, avoiding sugar, getting adequate exercise, and managing stress and weight.

Even with a family predisposition to tooth and gum problems, there are additional ways to counteract gum erosion and tooth decay including the use of sealants, early correction of a bad bite, bruxism (teeth grinding), and TMJ syndrome. Most important, periodic dental check-ups permit correction of any problems before they become serious.

RONDELL LAWSON

MAGISTRATE, DISTRICT 2

(Number 2 on the ballot)

My name is Bud Lawson. I am a lifelong resident of Garrett, Floyd County, Kentucky.

I'd like to ask you nice people in District 2 to go out on the 28th day of May and vote for my son, Rondell Lawson, for your Magistrate for the next four years.

Your vote and support greatly appreciated.

(Pol. adv. paid for by Rondell Lawson, 1t-pd.

Thank you, **BUD LAWSON** Spurlock Bible Church **Slates Sunday Showing**

Of Film, 'Heaven's Heroes' "In the back of the mind of the wife of every police officer lies the thought that one day when her husband goes to work, he may not come back. I never

really thought it would happen to me. These are the words of Cindy Hill, wife of Des Moines Police Officer, Dennis Hill. On the night of August 27, 1977, when he was dispatched to investigate a disturbance, Officer Hill was ambushed and killed by a sniper. How does a devoted wife of seven years respond to this untimely death of her husband and

the father of her two small children? The film, "Heaven's Heroes," tells the story of Cindy and Denny-how they met, were married, and began raising a family. Using the technique of flashbacks, the film depicts Danny and Cindy as they really were-with the same dreams and the same frustrations as other people. Denny had been trained to keep his emotions in check on the job, and yet to share freely with his wife. It was a thin line that he had to walk. If he didn't, as a training officer told him as a recruit, he could lose either his life

This exciting story will be shown at the Spurlock Bible Church on Sunday, May 19, at 7:00 p.m.

The pastor, Dan Heintzelman, and congregation invite the public to attend the showing of the film.

THANK YOU

I wish to extend my heartfelt thanks to all my wonderful friends and relatives for all the cards, flowers, gifts, phone calls and visitations while I was a patient at King's Daughters' Hospital in

MANY CITIZENS OF MAGISTERIAL DISTRICT NO. 1 **ACTUALLY:**

Pay taxes and get nothing in return for their tax dollars!

Cannot afford to pay fire insurance payments

Need an effective and continuing alcohol and drug abuse program

Tear up their cars and trucks attempting to drive on poorly-maintained roads with potholes

Cannot afford to pay more taxes

A few of the many reasons we need a family man and a working man like "Shag" to fight for all of us.

Are you burned out with politics and promises, promises, promises? Let's have a refreshing change for all of us. Let's elect a man who will fight for you. Let's elect "Shag" Branham, our Magistrate—

Before Quitting Post Poore Promises Funds For Letcher Highway

Before his resignation last week, Kentucky's secretary of transportation agreed to earmark money for repairs to deteriorating U.S. Highway 119 in Letcher county.

The agreement came Wednesday during a meeting in Frankfort attended by Transportation Secretary Floyd Poore, a citizens group from Letcher county, and Reps. Hoover Dawahare, D-Whitesburg, and Jim Rose, D-Hindman.

Poore told the Letcher residents that between \$2 million and \$3 million would be set aside to repair the crumbling and sliding pavement. No specific dollar amount for the repairs will be set until the start of the state's new fiscal year later this summer.

In addition, Poore promised support for a study to find a new route to connect the corridor between Whitesburg and Harlan county, now served by Highway

U.S. Highway 119 is a main route across Letcher county. The mountainside construction of the roadway makes it vulnerable to crumbling and earth slides. Sections of the roadway have given way, reducing the traffic flow to one lane in some areas.

We're glad you asked!

John C. Hall Founder Hall Funeral Home

DO I THANK PEOPLE FOR COMING TO THE VISITATION

It is not socially required for your friends to come to funeral visitations in your behalf. They are there to support you and they just want you to know they care. But, of course, most people do like to be remembered for their friendly gestures, so it is nice to remind them of your appreciation when you see them.

On the other hand, when your friends send flowers or food, acknowledgments are in order. For this purpose, we and other funeral directors provide tasteful acknowledgment cards so you can send them "Thank You" notes.

If there are other such questions in your minds, by all means come in or phone us. We will be glad to answer you as best we know how.

Renee Marie Vannucci and Pamela Ray Dingus, both students at Transylvania University from Floyd county, were recently honored at the University's annual Awards Day program.

Miss Vannucci, a senior from Martin, was recognized by Who's Who Among Students in American Colleges and Universities, received the Transylite Recognition, the Delta Sigma Phi Insalutatus Award, and the Maxine Troxel MacIntyre Biology Award. She is the daughter of the Rev. and Mrs. Lorie Vannucci, and is a graduate of Allen Central High School.

Miss Dingus, a senior from Prestonsburg, received the Wall Street Journal Award. She is the daughter of Mr. and Mrs. Jack Dingus, and is a graduate of Prestonsburg High School.

Recent showers throughout the Com- acreage heading. Some acreage was monwealth have improved the soil moisture levels in most parts of Kentucky, according to crop weather reports.

Soil moisture across the state is now rated as only 25 percent short as compared to the previous week's 61 percent

Adequate moisture levels are reported in 52 percent of the state, with 23 percent rated surplus.

The eastern third of the state continues to be the driest, and the western portion has mostly surplus soil moisture.

"Planting of all crops is well ahead of schedule, and all crops are growing well," said Agriculture Commissioner David E. Boswell. Fifty-one percent of the intended corn

acreage has been planted, as compared with 15 percent last year and an average of 33 percent. In the last decade, only 1976 exceeds this year in corn planting

'Rain last week slowed planting in the western third of the state, but approximately one-half of the planted corn has emerged. Some early planted fields are already six inches high," Boswell said.

Tobacco plants are in mostly good condition and growing well. A few growers in Barren County have been setting plants, but most transplanting is

still one to two weeks away Blue mold is not a problem in the tobacco beds at this time.

Soybean planting is now under way in some counties, primarily in the southern counties. Statewide, planting is 1 percent complete, as compared to none last year and a 1 percent average.

Wheat is reported in good condition, with a little more than one-third of the

UK Board Sets New Rates

The University of Kentucky Board of Trustees today (May 7) approved room and board rate increases of about 2 percent for the 1985-86 academic year.

"The proposed adjustments result primarily from increased labor, food, and utility costs," said Dr. Jack Blanton, UK vice chancellor for administration. "These rates cover debt service, all operating costs and funds for replacement of furniture and equipment," Blan-

"UK housing and dining is totally selfsupported by student payments with no

tax dollars whatsover going into it,' Blanton said.

Room and board rates vary according to the number of meals for which students sign up.

The most popular plan is two meals a day, five days a week. The new rates for this plan will increase by \$51 a year, from \$2,097 this school year to \$2,148 in the fall of 1985—a 2.43 percent increase. Other meal plans and the new rates

-Three meals a day, seven days a week, a \$62 per year increase from \$2,382 this school year to \$2,444 next fall, a 2.60 percent increase. *

-Two meals a day, seven days a week, a \$62 increase from \$2,272 to \$2,334, a 2.73 percent increase.

-Three meals a day, five days a week, a \$60 increase from \$2,218 to

\$2,278, a 2.71 percent increase. Room rates only for undergraduate students in the Greg Page Stadium View Apartments will increase \$20 a year from \$1,240 to \$1,260, a 1.61 percent increase. Apartment rental for married students in this complex will be increased \$10 a month from the present rate of \$380 to \$390.

The Cooperstown, Shawneetown, Commonwealth Village and Linden Walk-Rose Lane Apartments for married and graduate students will increase \$5 per month.

Residence hall rates for the 1986 summer school will be increased by \$5, from \$300 to \$305, a 1.67 percent increase for double rooms and by \$7, from \$375 to \$382, a 1.87 percent increase for single

GOOD SCHOOLS AND JOBS: EVERYONE HAS A ROLE

During the recent past, much attention has been focused on the public schools in America, Kentucky, and Floyd County. The quality of public education is important to every single Floyd Countian and every single Floyd Countian has a role to play in building and providing a quality educational opportunity for our children. Let's look at a few facts:

1. The unemployment rate among college graduates in 1983 was 3.5%; among high school graduates the rate was 10%;

2. In Kentucky in 1983, the high school drop out rate was 35%; of the 62,000 starting the 9th grade, only 40,000 will graduate;

3. The average high school graduate will earn \$350,000 less in a lifetime than a college

4. The physical facilities in Kentucky, particularly in Floyd County, need upgrading and replacement:

5. Because of consolidation, transporting our students to school presents an ever increasing and challenging problem.

Each of us, whether we want quality education to improve the life chance of our children or grandchildren, or whether we simply want quality education for our neighbors to make our county a better place to live, have a stake in the educational programs provided to the children of our area. As the Chief Executive Officer of the County, the County Judge/Executive has a major role to play in assisting our schools to provide an educational opportunity to our children that is second to none.

As a graduate of the Floyd County Public Schools, the University of Kentucky and the University of Kentucky School of Law, James R. Allen knows the importance of education. "All of our citizens must become involved in assisting our schools if we are to achieve the goal

of providing the very best educational opportunity to our children. We have made progress and we have a fine group of dedicated teachers. The school board, the administrators, the teachers, and the support personnel need the support and assistance of each Floyd Countian in building an educational program second to none. The Prichard Committee and the local leaders working with this group have made a progressive start in involving our local citizens in defining solutions to the problems facing our schools. As County Judge/Executive I will take a leadership role in appointing an ad hoc committee to work with our school personnel in bringing the full force of the County Judge/Executive's office to bear on problems in our schools and assisting, through whatever means necessary, to finding workable solutions to our problems. The key to Floyd County's future is adequate wage jobs for our people. The key to attracting and keeping these jobs is the quality of our school system."

Our children are still suffering and our classroom teachers still struggle to overcome the effects of 31 years of rule by John M. Stumbo. However, we have dedicated teachers and our children are as bright as children anywhere. With dedicated leadership we can build a school system second to none. We must change directions in Floyd County to build a proud future for our children. James R. Allen will form a partnership with the people to build a proud, secure future for our County. Vote for James R. Allen-it's a vote for you.

CANCER

Question: "Lately I've been hearing that cancer can be caused by the kind of work one does. Is this a new

ANSWERline: No. The first treatise on the nature of diseases thought to be associated with the workplace was published in 1700, and by 1775 the first report of cancer being caused by a specific work environment was reported. Sir Percival Pott noted that chimney sweeps whose work kept them in contact with soot were prone to cancer of the scrotum. It is interesting to observe that this occupational cancer could have been prevented through personal hygiene and careful washing of work clothes. Today research is trying to define both potential cancer hazards in the workplace and ways to either prevent worker exposure or to determine safe levels of exposure. A number of occupational hazards relating to cancer have been found, especially in chemicals and processing industries.

Request: "Can drinking coffee and cola drinks lead to

ANSWERline: Coffee, tea, cola drinks and chocolate contain substances called methylxanthines. Recent experiments suggest that elimination of these substances from the diet of women with benign or non-cancerous breast lumps (a condition called fibrocystic disease) seems to result in a gradual disappearance of these lumps. However, the answers aren't all in. This evidence is only preliminary. What's needed now is additional research and the development of better tests for the measurement of methylxanthine

Question: "Is thyroid cancer treatable?"

ANSWERline: Cancer of the thyroid is a highly treatable disease with excellent five-year survival rates for localized disease—99 percent for men and 97 percent for women. Fortunately, almost half of all thyroid cancer cases are discovered and treated in the localized stage. The five-year survival rate for more advanced cases is 85%. Treatment ususally includes surgery and/or radiation therapy.

Request: "Could you explain how programs of cancer control are funded in this country?

ANSWERline: Cancer is a major national concern and programs of cancer control receive widespread financial support. The Federal Government is a major source of financing through the National Cancer Institute and its other agencies. Voluntary organizations such as the American Cancer Society are another important source of funding. Foundations, institutions, industry and state and local governments also provide substantial funds. Last year this pooling of resources provided more than \$1.4 billion to find ways to prevent, detect, treat and understand the complexities of cancer. The objectives are to save more lives from this disease, to prevent the occurence of cancer whenever possible, and to bring back to normal health those who are stricken with the disease.

Question: "Are any cancer drugs made from plants?" ANSWERline: Plant screening programs to find anticancer properties have been going on for many years. Thousands of plants have been tested and botanists have conducted worldwide searches for specimens of plants, shrubs and trees. The search has been worthwhile. For example, two major cancer drugs, vinblastine and vincristine, are made from extracts of the Madagascar periwinkle, a white and rose-flowered Asian plant.

Maytansine, found in an East African shurb, is another anti-cancer drug which is now under study. While the search for and testing of botanical products is a major research effort, it is also important to learn how to synthesize active plant matter. In some instances tons of a plant may be needed to extract a tiny amount of material for use in

Comment: "I've been told that radiation therapy causes

bad side effects. Is this true?

ANSWERline: Safe doses of radiation therapy can cause skin reactions, nausea, vomiting, a feeling of tirednessall of which disappear with rest and good nutrition. When these temporary side effects are balanced against the protential for controlling or curing a form of cancer, the benefit to the patient is obvious because unchecked cancer costs

Fairy Tale Princess

Shayne Elizabeth Berger, five-yearold daughter of Jan and Stan Berger, of Melvin, and granddaughter of Mabel Berger and the later Steve Berger, of Melvin, and J.H. Easter Seals To Begin Camping Season, May 26

The Kentucky Easter Seal Society will begin its first summer session for the handicapped on May 26 at Camp Kysoc, near Carrollton. The opening session at Kysoc will be for the multiple handicapped. Residential camping for the disabled will begin June 16, at Camp Green Shores, the Society's other camp which is located on Rough River near McDaniels. For more than 35 years, the Easter Seal Society has been providing summer residential camping opportunities for handicapped children and young people all over the state.

Each camp is specially designed to accommodate individuals with limited mobility. Camper cabins are wheelchair accessible and nature trails are level and smooth-surfaced for ease in ambulation. Camp staff is composed of persons with special training in physical and occupational therapy, special education, and related health fields. Available activities include boating, fishing, swimming, nature studies, horse-back riding and other camp

Campers come from all parts of Kentucky. For children who cannot afford the camping fee, the Society's campership fund helps defray expenses. The Easter Seal Society also participates in the federally funded Food Service Program for Children. The program operates under guidelines similar to those of public school food service programs.

State To Resurface Two Roads in County

The state Transportation Cabinet has awarded contracts to resurface four miles of KY 122, the Wheelwright-Hi Hat road, from KY 306 at Wheelwright to KY 979 at Hi Hat, and two miles of KY 404, the David road from 1.1 miles east of the Magoffin county line to KY 850.

East Kentucky Paving Corp. of Grayson, was awarded both contracts. The Wheelwright-Hi Hat road job will cost \$165,448; the David road, \$111,480.

Capitol Grounds Tree Honors Perkins

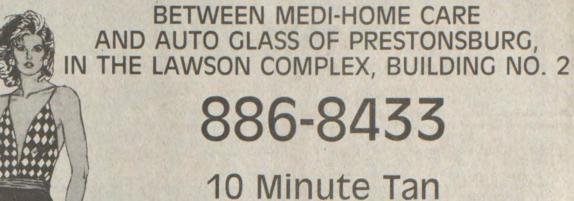

Washington, D.C.—The staff of the late Carl D. Perkins arranged recently for the planting of a tree in his memory on the grounds of the U.S. Capitol. The Zelcova (scientific name, Zelcova Serrata Village Green) tree is the same species as a tree which was outside the late Congressman's office window.

The tree is located on the west side of the Botanical Garden Conservatory at the foot of Capitol Hill.

A simple ceremony to plant the tree was held April 10. Wielding shovels are Mrs. Carl D. Perkins, Congressman Carl C. Perkins and his wife Cathy. Observing are members of the staff of the late congressman, as well as homemakers from Eastern Kentucky.

Heartworms Disease Is Problem in Dogs

By M.R. VARIA, D.V.M. Martin Animal Hospital, Martin

You curse them, you swat them, you burn citronella candles and spray foul smelling chemicals in an attempt to keep them away from you because you know you'll itch if they bite. Now here's one more reason to despise the pesky mosquito—he may give your dog canine heartworm disease.

Restricted to dogs, the disease was first identified in the Gulf Coast states and has slowly spread into all the contiguous United States as well as into Canada.

Heartworms are parasites, technically known as Dirofilaria Immitis, which live in a dog's bloodstream and heart and lungs. They have been known to reach a length of 14 inches and the diameter of a common pencil, which gives some indication of the degree of damage they can do the organs in which they grow as well as some idea of the degree to which they can restrict blood flow.

Spread by Mosquitos

The disease is spread from infected animals to non-infected animals by the common mosquito. The immature heartworm—microfilaria—is usually present in the bloodstream of an infected animal. If an infected animal is bitten by a mosquito, the insect retains some of the microfilaria, which after about two weeks in the mosquito's body develops into an infective larvae.

When the mosquito then bites a noninfected animal, it leaves the larvae in the dog's bloodstream, where the larvae migrate to the heart.

Here they mature into a mature (adult) size of from six to 14 inches in length in a time span of about four to six months. The adult heartworm then produces more microfilaria which enter the bloodstream to begin another life cycle.

Treatment

If discovered in the early stages, treatment can be effective. If left untreated, the animal may experience a slow and painful death.

First symptoms are usually rapid tiring during exercise, sometimes resulting in complete collapse, coughing, difficulty in breathing and an abnormal accumulation of fluid in the abdominal cavity. Sometimes skin lesions are apparent, but not always.

Jannie Bray, Leader With Avon Products

Jannie Bray began her career with Avon Products, Inc., over nine years ago as an Avon representative in the Pikeville area. From 1976 to 1979 Bray excelled in this position and earned the status of Top Representative in her district.

In 1979, Bray assumed the position of district sales manager with the responsibility of managing several hundred sales representatives.

Over the next six years Bray received numerous awards, including the President's Sales Challenge, 1979; an all expense paid trip to San Francisco, Rome and Vienna for her top sales in 1980, 1982 and 1984 respectively.

Bray was also a winner in Avon's "Winning is Beautiful" competition.
Bray attributes her successes to the

desire and ambition of the Sales Representatives currently on her staff. "We have a terrific opportunity" Bray points out, "for area women to build a career with Avon and to go as high as they want." Bray is a prime example of this last with her glowing track record

of successes and accomplishments.

NOTICE OF SALE

On the 25 day of March, 1985, the City ouncil of the City of Prestonsburg, Kentucky, adopted an Ordinance directing the sale, at public outcry, of a city electric power franchise. The Ordinance is in words and figures as follows:

ORDINANCE NO. 02, 1985 AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PRES-TONSBURG, KENTUCKY, PROVID-ING FOR THE ADVERTISEMENT AND SALE OF A FRANCHISE AUTHORIZING THE OWNER THERE OF, TO OWN, MAINTAIN, CON-STRUCT AND OPERATE ELECTRIC POWER TRANSMISSION AND DIS-TRIBUTION LINES UPON ALONG OVER AND UNDER THE STREETS THOROUGHFARES, ALLEYS, SIDE-WALKS, BRIDGES, PUBLIC WAYS AND OTHER PUBLIC PLACES OF

WHEREAS, the City of Prestonsburg. Floyd County, Kentucky, is incorporated under the provisions of the Kentucky Revised Statutes, and desires to grant a franchise for an electric power company to own, maintain, construct and operate its electric power transmission and distribution lines upon, along, over and under the streets, thoroughfares, alleys, sidewalks, bridges, public ways and other public places of the City of Prestonsburg, Floyd County, Kentucky,

WHEREAS, there exists a public necessity for adequate service of electric power and energy to the citizens of the City of Prestonsburg, Floyd County,

WHEREAS, it appears that is is to the interest of the public that a franchise be advertised and sold, granting and entitling the grantee to use the streets, thoroughfares, alleys, sidewalks, bridges, public ways and public places for the erection, operation and maintenance of lines for the transmission and distribution of electric power to the citizens of the City of Prestonsburg, Floyd County, Kentucky, and to persons, firms and corporations beyond the limits of the City of Prestonsburg, Floyd County, Kentucky.

THE CITY COUNCIL OF THE CITY OF PRESTONSBURG, FLOYD COUN-TY, KENTUCKY, DOES ORDAIN AS

SECTION 1

That there be sold at public auction to the highest and best bidder, the franchise, privilege, right and authority to acquire, maintain, construct and operate in, above, under, across and along the streets, thoroughfares, alleys, sidewalks, bridges, public ways and other public places (as the same now exist or may hereafter be laid out) of the City of Prestonsburg, Floyd County, Kentucky, lines, poles and equipment for the distribution of electric energy, either by means of overhead or underground conductors, with all the necessary or desirable appurtenances for the purpose of supplying electric energy to said City and the inhabitants thereof, and persons and corporations beyond the limits thereof, for light, heat, power, and any other purpose or purposes for which electric energy is now or may hereafter be used, and for the transmission of the same within, through or across said City.

SECTION 2 Said lines and appurtenances shall be constructed so as to interfere as little as possible with the traveling public in its use of the streets, thoroughfares, alleys, sidewalks, bridges, public ways and

public places. SECTION 3

The franchise, privilege, right and authority shall be in full force and effect for a period of twenty (20) years from the date of the passage of the ordinance granting it.

SECTION 4

The grantee of this franchise shall save the City harmless from any and all liability arising in any way from negligence of the grantee in the erection, maintenance or operation of said lines and appurtenances.

SECTION 5

The grantee of this franchise shall have the right and privilege to take up such portion or part of any pavement and make such excavation in the streets, thoroughfares, alleys, sidewalks, bridges, public ways and other public places of the City of Prestonsburg as may be deemed necessary for the construction and maintenance of its lines, wires or cables, but whenever the grantee of this franchise shall begin the erection or other equipment, it shall promptly and diligently prosecute the work to completion and leave the streets. thoroughfares, alleys, sidewalks, bridges, public ways and other public places where such work is done in as good condition of repair as before such work was commenced.

SECTION 6 Wherever in this franchise either the

City of Prestonsburg or the grantee thereof is referred to, it shall be deemed to include the respective successors and assigns of either, and all rights, privileges and obligations contained in this franchise shall be binding upon and inure to the benefit of, the respective successors and assigns of said City and said grantee, whether so expressed or

SECTION 7

The grantee of this franchise may make such rules and regulations covering the furnishing of said electric energy, as may be fair and reasonable and consistent with the standard practice of the grantee. Said grantee may charge such rates for electric services as shall be fair and reasonable. The said grantee shall render service under said franchise of like quality, that is, adequate, efficient and reasonable, to that now being rendered to said City.

SECTION 8 The consideration paid by the successful bidder for the franchise,

privilege, right and authority provided

for herein shall be complete compensation and consideration for said franchise, privilege, right and authority, and for the use and occupancy of the streets, thoroughfares, alleys, sidewalks, bridges, public ways and other public places of the City, in lieu of any street or alley rental or of any charge for the use or occupancy of said streets. thoroughfares, alleys, sidewalks, bridges, public ways or other public places of said City, and in lieu of any pole tax or meter tax.

SECTION 9

David Evans, City Administrator of the City of Prestonsburg, Floyd County, Kentucky, is hereby appointed Special Commissioner to sell said franchise, privilege, right and authority hereby ordered sold, and said Special Commissioner is directed to offer said franchise for sale at public auction and shall sell same to the highest bidder at the front door of the City Building in Prestonsburg, Kentucky at 10:00 a.m., on May 20, 1985, after he has advertised the time, terms, conditions and place of sale, pursuant to law, by inserting a notice of sale in the Floyd County Times, Prestonsburg, Kentucky, a newspaper of general circulation in Prestonsburg, Floyd County, Kentucky, once a week for three (3) consecutive weeks prior to the date of said sale, said advertisement to include this Ordinance.

SECTION 10

Bids and proposals for the purchase and acquisition of the franchise. privilege, right and authority hereby granted shall be in writing and shall be delivered to the Mayor upon the date and at the time fixed by the Special Commissioner in said advertising for receiving bids. Thereafter, the Special Commissioner shall report and submit to the City Council at the time and place of its next regular meeting said bids and proposals for its approval, and said City Council reserves the right for and on behalf of the City of Prestonsburg to refuse any and all bids for said franchise, privilege, right and authority. In the event the bids reported by the Special Commissioner shall be refused by the said City Council, it may direct, by resolution or ordinance, said franchise, privilege, right and authority to be again offered for sale from time to time, until a satisfactory bid therefore shall be received and approved. Each bid shall be accompanied by a deposit, and each bidder shall post bond in accordance with the provisions and requirements of KRS 96.020. However, such deposit, and bond need not be made by a corporation or person already owning in or adjacent to the City of Prestonsburg, Floyd County, Kentucky, a plant and equipment sufficient to render the service required by this Ordinance.

SECTION 11 Each bidder for said franchise, privilege, right and authority shall file, as a part of his bid, a certified copy of a Certificate of Convenience and Necessity from the Public Service Commission of Kentucky, issued under the authority of KRS 278.020 (3).

SECTION 12 This Ordinance granting this franchise shall be accepted by the grantee thereof within sixty (60) days from the date of its passage.

APPROVED, this 25 day of March,

s/Harold Cooley

Mayor

PUBLIC NOTIFICATION

Bacteria MCL Exceeded

The David Water District, hereby gives notice that the maximum contaminant level for coliform bacteria was exceeded during its recent reporting period of March 1985 to the State's Division of Water. The test results for coliform bacteria (normally found in the intestinal tract of man or other warm blooded animals) indicate that some contamination had occurred. Coliform bacteria is not considered harmful, but its presence is a reliable indicator that harmful bacteria may have been present. A Boil Water Notice was issued immediately as a preventive measure, but has now been lifted. Frequent testing is done to assure the quality of your water. This notice is in accordance with the Kentucky Public and Semipublic Water Supplies Regulations (401 KAR 6-015). 5-8-3t

The latitude is 37° 33' 03". The longitude is 82° 51' 30". The surface area is owned by Orville Adkins, Lona Duff, Donn Chickering, Tiny Hicks, Taylor Reffitt, Elmer Reffitt, Carson Reffitt, T.L. Reffitt Heirs, Henry & Edith Morris, Harrison Shepherd, Bill and Viola May, Raymond Hicks, Willis Hicks, and John T. Thornsbury

(3) The proposed operation is located on the Martin U.S.G.S. 71/2 minute quadrangle map. The operation will use the contour auger and mountain top removal method of mining.

(4) The application has been filed for public inspection at the Department for Surface Mining Reclamation and Enforcement's Prestonsburg Regional Ofice, Prestonsburg, Kentucky 41653.

Written comments, objections, or requests for a permit conference must be filed with the Director of the Division of Permits, 6th Floor, Capital Plaza Tower, Frankfort, Kentucky 40601.

NOTICE OF INTENTION TO MINE

Pursuant to Application Number 436-5167

In accordance with the provisions of KRS 350.055, notice is hereby given that Transcontinental Coal Processing, Inc.; Branham Village, Route No. 2, Prestonsburg, Ky. 41653, has filed a major revision to an application for a permit for an underground mining operation. The proposed operation will affect a surface disturbance of 11.52 acres and will underlie an additional 240 acres located 1 mile south of Ivel in Floyd county.

The proposed operation is approximately 1 mile south west from U.S. 23 junction with Ivel Bridge Road and located 0.75 miles south of the Levisa Fork of the Big Sandy River. The latitude is 37 34' 50". The longitude is 82

The proposed operation is located on the Harold U.S.G.S. 71/2 minute quadrangle map. The surface area to be disturbed is owned by Wendal Stratton of the J.K. Stratton Heirs and Transcontinental Coal Processing, Inc. The operation will underlie land owned by Wendell Stratton of the J.K. Stratton Heirs, Transcontinental Coal Processing, Inc. and John M. Stumbo, Raymond Cambell and M. Hall. The revision will allow for partial backfilling of the second cut highwall and retention of the existing haulroad.

The application has been filed for public inspection at the Department for Surface Mining Reclamation and Enforcement's Prestonsburg Regional Office, 503 South Lake Drive, Prestonsburg, Ky. 41653. Written comments, objections, or requests for a permit conference must be filed with the Director of the Division of Permits, 6th Floor, Capital Plaza Tower, Frankfort, Kentucky 40601.

This is the final advertisement of this application; all comments, objections and/or request for a permit conference must be received within thirty (30) days of today's date.

TO ALL FLOYD COUNTY CITIZENS

Election day is getting closer, a day when we have an opportunity to go to the polls and make our decision for the candidate of our choice. Of course, all candidates are hoping to be that choice. If I should be your choice, I will take a voice in our county government, anything that I can do to benefit Floyd County, will be done. I do not believe in making promises that I cannot keep, for we all know there are rules and regulations that we must abide by.

If elected as your county clerk, I will certainly work to serve all my friends and relatives to the best of my ability—no road will be too wide for me to cross, for after all, the clerk's office is an office with many obligations that must be filled.

I promise you if elected I will do everything possible to serve you as you wish to be served. Feel free to call upon me at any time, for any need you have, within my duties, and it will be done-for I know what the feeling is like to be on the outside looking in, so my door will always be open for you to enter. All I can promise if elected is honest, dependable service. For after all, I'm just a country girl whose main concern is serving people a lot like myself. Let's all work together, and put Floyd County on top.

Garnett Fairchild, chairman of the PWC's Community Improvement Committee, recently presented a check covering the cost of the newly-planted dogwoods to HRMC Associate Administrator Ruseell Briggs

'Our group strives to make the Prestonsburg area an even better place to live any way we can," said Mrs. Fairchild. "Beautifying the grounds of a large firm like Highlands Regional is one sure way to do this. This particular project should be considered an accomplishment of the administration of Elizabeth Ramey, whose term as our president just ended.

Medical Center Administrator Clarence Traum said, "We hope and believe we are making a contribution to the quality of life here, and this support from the community-minded Woman's Club is welcomed.

Betsy Layne Students Study Nuclear Power

The Physical Science class of Betsy Layne continued its studies of nuclear power, traveling to Oak Ridge, Tennessee where members toured the Oak Ridge National Laboratory (ORNL), one of the nation's largest nuclear research and energy centers. Included on the tour of ORNL was a visit to the graphite reactor that played such an important part in the production of plutonium for a nuclear weapon during World War II, The students also visited the American Museum of Science and Energy where they viewed and participated in numerous projects.

The trip was sponsored by Angeletta Fields and Freda Burke, teachers in the Science Department of Betsy Layne

LET'S WORK **TOGETHER**

As I have traveled throughout our county talking with different groups and organizations about a community patrol, I have received a wonderful

response from the people about their willingness to participate in such a program. I feel this will be a great benefit to law enforcement and to the protection of our citizens. Now I would like to go into some of the details of this program.

(1) COMMUNITY INVOLVEMENT:

Each community will have a police cruiser, operated by honest and upstanding citizens, working with volunteer firemen and rescue squads with 24 hour communication to the Sheriff's Department.

FINANCIAL ASSISTANCE:

Each community patrol would serve their own civil papers, and the fees collected would go to their fire departments and rescue squads, thus helping to make the community more financially stable and secure.

(3) LOWER CRIME RATE:

Our goal is a safer community and security in our homes. And I feel that by neighbor helping neighbor we can accomplish this.

I am trained and qualified to be your Sheriff. I am asking you to let me show my ability to be the best Sheriff Floyd County has ever had. You know what you've had in the past, now let's look toward the future.

PUBLIC NOTICE

OFFICE OF THE GOVERNOR DEPARTMENT OF LOCAL GOVERNMENT MANAGEMENT AUDIT WHEELWRIGHT, KENTUCKY GAS SYSTEM RESTORATION PROJECT LOAN-02

APRIL 1985 Since the last audit report Joyce Johnson has replaced Lowell Parker as business manager for the Wheelwright Utilities Commission. Mr. Parker resigned to take another position with the City of Wheelwright. The City is continuing to provide natural gas to approximately 383 customers in Wheelwright and vicinity. The number of customers has not changed significantly since the last report. And, while the City continues to purchase a certain amount of natural gas from Kentucky-West Virginia Gas the two City owned and operated gas wells provide an increasing portion of their needs, even though one of the wells does not appear to be producing at capacity. Some additional work on the well may increase that capacity. The two gas wells provided 78 percent of the gas metered and sold by the City in 1984. The City sold 48,669 Mcf of gas with 34,743 Mcf being produced by the two wells and 13,926 Mcf being purchased from Kentucky-West Virginia Gas.

The customers retail gas rates have been reduced slightly since the last report and as of November 1984 the 1st Mcf was \$6.61 and all over 1 Mcf was \$5.81 per Mcf. Under these rates a customer would pay \$58.90 for 10 Mcf of gas which is very reasonable within the east and central areas of Kentucky. The City has made a budget plan available to the customers and several customers have apparently taken advantage of the plan. The budget plan will reduce the low-income customers large monthly bills during the winter months to a level more commensurate with their ability to pay. And, the City is continuing to arrange payment plans for other customers who have fallen behind with their payments.

Through the April 1985 payment the City has paid the Department of Local Government \$61,255.01 interest and \$16,522.63 principal for a total of \$77,777.64. The City's loan escrow account is \$17,201.70 and it has been properly administered in terms of the loan conditions. On two separate occasions the Account Review Board approved the use of certain funds from the escrow account for restoration of the two gas wells. The utility Commission's operating account for all the utility functions is approximately 23,000. The Commission owes Kentucky-West Virginia Gas \$29,185.13 for gas purchased through the March 1985 billing. The March bill was \$14,000 and it is probably not considered to be delinquent. By the end of the summer the Kentucky-West Virginia Gas bill will be paid.

It should be pointed out that the Commission has used operating funds during the past year to make considerable improvements to the water and sewer systems. And, according to local officials these systems are fully operational and meet standards established by state and federal agencies. The Commission has Mr. James Bartley on a \$19.00 per hour contract with a guaranteed 40 hours work per week. This includes the operator and equipment. The Commission has begun to purchase the necessary pipe and fittings for making repairs as needed. They have the capability to make their own repairs. Apparently, the Office of Pipeline Safety is satisfied with the operation of the gas system. The minor deficiencies identified by the federal inspector have been corrected. Signed: TOM CRAIGHEAD

CONCURRENT NOTICE NOTICE TO PUBLIC OF NO SIGNIFICANT EFFECT ON THE ENVIRONMENT AND NOTICE TO PUBLIC OF REQUEST FOR

RELEASE OF FUNDS Date May 15, 1985 Floyd County Fiscal Court Floyd County Courthouse Annex, Prestonsburg 886-9193

TO ALL INTERESTED AGENCIES, GROUPS, AND PERSONS:

On or about May 15, 1985, the abovenamed County will request the Kentucky Department of Local Government to release Federal funds under Title I of the Housing and Community Development Act of 1974 (PL 93-383) for the following project:

Mud Creek Water District Improvement Project (Renovate tanks, pump stations; replace meter settings), Mud Creek of Floyd County, Census Tracts 589, 599 and 600.

It has been determined that such request for release of funds will not constitute an action significantly affecting the quality of the human environment county has decided not to prepare an Environmental Impact Statement under the National Environmental Policy Act of 1969 (PL 91-190).

The reasons for such decision not to prepare such Statement are as follows: The majority of the work is on existing structures. The only new construction is the extending of new service lines to 213

low income persons An Environmental Review Record respecting the within project has been made by the above-named county which documents the environmental review of the project and more fully sets forth the reasons why such Statement is not required. This Environmental Review Record is on file at the above address and is available for public examination and copying, upon request, between the hours of 9 (nine) and 4 (four).

No further environmental review of such project is proposed to be conducted prior to the request for release of Federal funds

All interested agencies, groups, and persons disagreeing with this decision are invited to submit written comments for consideration by the county to the Big Sandy Area Development District, 2nd Floor, Municipal Bldg., Prestonsburg. Such written comments should be received at the address specified on or before May 30. All such comments so received will be considered and the county will not request the release of Federal funds or take any administrative action on the within project prior to the date specified on the preceding

Floyd County Fiscal Court will undertake the project described above with Block Grant funds from the Kentucky Department of Local Government (KDLG) under Title I of the Housing and Community Development Act of 1974. Floyd County is certifying to the State that Fiscal Court and chief executive officer, in his official capacity as County Judge-Executive consent to accept the jurisdiction of the Federal courts if an action is brought to enforce responsibilities in relation to environmental reviews, decision making, and action: and that these responsibilities have been satisfied. The legal effect of the certification is that upon its approval Floyd County may use the Block Grant funds and the State and HUD will have satisfied their responsibilities under the National Environmental Policy Act of 1969. The State will accept an obligation to its approval only if it is on one of the follow-

(b) The City has failed to make one of the two findings pursuant to S58.41 or to make the written determination decision required by SS58.47, 58.53 or 58.64 for the project, as applicable

(c) The City has omitted one or more of the steps set forth at Subparts F and G for the preparation and completion of

(d) No opportunity was given to the Advisory Council on Historic Preservation or its Executive Director to review the effect of the project on a property listed on the National Register of Historic Places, or found to be eligible for such listing by the Secretary of the Interior, in accordance with 36 CFR Part 800.

(e) Objections have been made by a Federal Agency

Objections must be prepared and submitted in accordance with the required procedure (24 CFR Part 58) and may be addressed to the Kentucky Department of Local Government, Division of Community Programs, Capital Plaza Tower, 2nd Floor, Frankfort, Kentucky 40601.

Objections to release of funds on bases other than those stated above will not be considered by the State. No objection received after May 31 will be considered by the State.

The Christian Appalachian Project will be participating in the federally funded Summer Food Service Program for Children. The program operates under guidelines similar to those of public school food service programs. Taking part in this program enables the sponsors to hold down costs so that most families can afford to send their children to camp.

The program is available to all children 16 years of age and younger. All children will be served the same meals at no separate charge regardless of race, color, national origin, age, sex, or handicap and there is no discrimination in the food service. If you feel you or any individual has been discriminated against in the Summer food Service Program, write to the Secretary of Agriculture, Washington, D.C. 20250.

For more information on the camping program, contact Donna Turner,

Camp Director, at 285-5111

VOTE FOR AND ELECT

LARRY SHORTRIDGE

Democrat for

CONSTABLE, DISTRICT 1

During my campaign I have been asked why I would want to be constable if it only pays a couple of hundred dollars a month.

ANSWER: Because I am not shooting for the moon by running for a higher office. I am willing to start at the bottom and work my way up and serve the people for four years for low pay as a way of demonstrating that I am worthy of your votes.

I have been asked, "What is a Constable and what does he do?"
ANSWER: A constable is an elected policeman similar to the sheriff but with less power and less jurisdiction. His main purpose is to serve legal papers—summons, subpoenas, etc. In fulfilling this job properly and with dedication, a constable can take a lot of paperwork off the sheriff's department and other police agencies thus giving them more time to respond to calls and attend to more serious crimes.

If elected, I will serve all the people fairly and equally. I will escort all funerals where I am requested, I will serve all papers issued to me, and I intend to patrol all ball games for the safety of our children. In this way I feel I can make the constable's position a useful and helpful one as it should be.

Vote for LARRY H. SHORTRIDGE (No. 2 on the ballot). He cares and wants to serve you., <u>HONESTLY</u> and <u>COURTEOUSLY</u>.

AMVETS Mobile Office Coming To Martin

AMVETS—American Veterans of World War II, Korea and Vietnam—is bringing complete, up-to-date information about VA benefits that can help all veterans and their dependents in the Martin area.

On May 20, the AMVETS Mobile Outreach Office—a 34-foot motor home—will be at the Hayes Service Station in the parking lot across from Music Lumber, between 8 a.m. and 4 p.m.

An AMVETS National Service Officer, with VA accreditation, is traveling throughout Kentucky helping its 405,000 veterans and their families, and offering information and claims assistance on such topics as compensation for service connected disabilities, VA pension, outpatient medical treatment, VA hospital care, education, employment, GI home loan, burial benefits, survivor benefits and more.

For information about your benefits, stop by the AMVETS Mobile Office when it is at Erick Hayes Service Station, or contact your AMVETS National Service Officer Ron DeChant, VA Regional Office, 600 Federal Place, Louisville 40k202, Phone 502-582-5594.

KEEP HONESTY AND EXPERIENCE

The Office of Sheriff has two main statutory duties; Law Enforcement and Administration Collection of taxes. During Three and One-Half years as Sheriff, Henry C. Hale has done the job and made many improvements in operations of the Sheriff's Office.

LAW ENFORCEMENT: HENRY C. HALE has:

- A. Established the first "full-time" "24-hour" Radio Dispatch Communication System in Floyd County. Radio and communication with State Police and local law enforcement officers.
- B. Full-time uniformed, experienced officers.
- C. Sheriff's telephone number: 886-6171 rings into Henry C. Hale's home 24 hours a day for your service.
- D. Established first full-time drug abuse investigation program. Rated as one of the best local programs in Kentucky.
- E. Maintains full law enforcement at all regularly scheduled ballgames and school events.
- F. Provides funeral escorts for all funeral homes.
- G. Henry C. Hale has bought 2 patrol cars from his office revenue—not money for the Fiscal Court, to maintain "24-hour, on the road" law enforcement. Henry C. Hale has done this despite loss of revenue because the County Clerk now collects all tangible taxes on cars and trucks.

ADMINISTRATION: Collection of taxes is a very important responsibility of the Sheriff's office. Last year the Sheriff's office collected \$2,756,531.30 in County taxes.

- These taxes pay for our schools, libraries, health, fire protection, soil conservation, and other services.

 A. Henry C. Hale has one of the best records in percentages of tax collections in Kentucky. Last year he collected 92% of taxes
- for Floyd County. This helps our schools and County.

 B. Every year the Sheriff's office is audited by the Department of Revenue. During the 8 years Henry C. Hale has been Sheriff there has never been a question about his office—Every dime collected has been properly accounted for. The Sheriff's Office under
- Henry C. Hale has been HONEST.
- C. Established computer printout for tax bills and mailing to better serve the people in the paying and collection of taxes.

<u>LEADERSHIP</u>—<u>EXPERIENCE</u>: Henry C. Hale has a record of effective leadership and experience.

- A. Henry C. Hale has served 3 terms in the Kentucky Legislature.
- B. Henry C. Hale has twice been elected President of the Kentucky Sheriff's Association (Kentucky's leading local law enforcement group).
- C. Appointed by the Governor to the Kentucky Law Enforcement Council. This Council to study how to upgrade local law enforcement.

Nobody running for Sheriff has the leadership and experience that Henry C. Hale has. Henry C. Hale can more effectively work with State and Federal authorities to obtain grants and available financial assistance to upgrade good law enforcement in Floyd County.

Many of us look forward to the harbingers of spring-those delightful announcements that better weather is acoming as the green shoots peep above the snow and the buds break forth with varieated colors.

Mother nature, however, did not bother to include those little signs that say "Danger-Don't Eat."

And there are some 700 species of plants, many of them readily found in the home and garden, which can cause gastroenteritis if eaten. Some of them, if eaten in sufficient quantities, can

Beyond that, there are weeds and grains which grow in abundance in Kentucky, which can cause skin and ear infections if animals are exposed to them.

The Poisonous Plants Some of the more familiar plants which are toxic if eaten include philodendron, caladium, dieffenbachia, English ivy, clematis, daffodil, iris, hyacinth, elephant's ear, azaleas, pepper plants and poinsettas.

Different parts of the plant are toxic. Sometimes, the leaves are poisonous, Other times, the bulb. Still other times, it may be the flower or stem.

Pets, especially young pets, are often tempted to taste the young, tender plants and may eat enough to cause severe stomach problems. Young pets also may be tempted to chew on almost anything, including the poisonous plants, when they are teething.

Plants should be placed in the house in inaccessible places and gardens should be treated with dog and cat repellant to minimize the chance of

Large Animals, Too

Another common malady during the summer months are problems in animals caused by awns from plants such as foxtails.

Awns are the slender bristles on the ends of some weed seeds and grains and they easily stick to the animal, much as they stick to your socks and clothing. Foxtail type grasses are abundant in many parts of Kentucky.

Foxtail grass seeds are similar in structure to a fishhook or barbed harpoon. Once they penetrate the skin, they tend to dig deeper and deeper into the tissues. They carry dirt and other material into the wound, which may then become infected.

Foxtails can easily get into the ears of smaller animals and cause considerable discomfort. Large animals, such as horses, frequently have foxtails lodge under the tongue or in the eyes and lips, caused by feeding on forage contaminated with foxtails.

Awns have been known to cause abscesses in the feet, nostrils, ears, eyes, mouth and external genitals of pets and domestic animals. It is rare, but foxtails have been known to penetrate into the lungs, where they cause severe pnuemonia.

If your dog shakes his head violently, scratches its ears or throat and shows indications of genuine discomfort, suspect foxtails. The ear will be tender to the touch and may exude a discharge or have a foul odor. The more the pet shakes his head, the further the foxtail penetrates.

First Aid

Mineral or baby oil in the ear, perhaps mixed with powdered aspirin, may relieve the pain but will not remove the foxtail. The awn can penetrate deeply enough to puncture the eardrum. It is best to have it removed.

Allowing pets to roam at will increases their chance of poisoning or picking up plant awns. If they must roam, some precautions will minimize

Long haired dogs should be clipped, especially around the eyes, ears and feet. If your pet returns home with burrs or foxtails in its fur, remove them before they become attached to the skin. Do not allow horses to consume hay contaminated with foxtails.

Either your florist or your veterinarian can advise you of which plants are most likely to cause trouble for your particular pet.

They can also provide sprays or powders which keep most pets away from plants, however some individual pets may not respond to the repellants.

Awarded UK Scholarship

A Floyd county high school senior has been awarded a \$1200 scholarship to attend the University of Kentucky this fall, according to Dr. Donald Sands, vicechancellor for academic affairs at UK. "The scholarships are awarded on the basis of outstanding academic achievement as demonstrated by a student's high school grade point average and national college test scores," he said.

The Floyd county-student is: Debra Hall, a senior at Prestonsburg High School and daughter of Mr. and Mrs. Lloyd G. Hall, Goble-Roberts Addition.

Allen Central Senior Receives Bryden Grant

Lisa Harris, a senior at J.H. Allen Central High School, has been named a recipient of a John R. Bryden Appalachian Scholarship to attend Transylvania University.

The John R. Bryden Scholarship Fund was established by Transylvania in 1984 and is directed toward promising students from South Appalachia. The program is sponsored by a grant from a charitable foundation.

In announcing this year's Bryden Scholarship recipients, Dr. Charles L. Shearer, president of Transylvania University, praised the academic achievements of the students and acknowledged their future contributions to the region.

Other scholarship recipients are Mary Elizabeth Arnett and Kimberly Vanhoose, of Paintsville, and Mark Bradley Fields, of Hazard.

Miss Harris is the daughter of Mr. and Mrs. William Martin, of Printer. She is a member of the Beta Club, Pep club, and is a church youth leader.

The scholarship is named for John R. Bryden, a graduate of Transylvania who served as institution's academic dean from 1964-1976 and is a member of the Transylvania board of curators.

MISSIONARY TO SPEAK ON STARVATION IN ETHIOPIA

Come to hear and visit with the missionary son of American missionaries serving in Ethiopia, who are well known in our area. Tim Fellows, son of the Rev. and Mrs. Alex Fellows of Addis Ababa, has just returned from his work in Ethiopia, and will speak at Faith Bible Church, Martin, Ky. at 7 p.m. on May 21 and May 22. His father, Rev. Alex Fellows is in charge of food distribution to the starving in the area around Addis Ababa, the capitol city.

Bring your questions with you regarding the horrible conditions in this land of the dying, and Tim will answer you as far as possible. This may be Floyd County's last chance—their one chance, to hear about the tragic famine from one who lives and works in Ethiopia. All are welcome.

CONSTABLE, DISTRICT 2 NO. 1 ON THE BALLOT YOUR VOTE AND INFLUENCE APPRECIATED

TO FRIENDS AND VOTERS OF DISTRICT 2:

I am running for the office of Constable to accommodate the people of District 2 in your time of need, so that we, together, can have added protection for our churches, schools, homes and businesses. This is my concern for our community. As your constable, I will be available at all times to escort all funerals, serve all papers issued to me, patrol all ballgames and other social events for the concern of our children.

A new piece of legislation called the Drug Price Competition and Patent Term Restoration Act of 1984 has been passed. It permits the FDA to approve applications for the marketing of generic versions of brand-name drugs that have already been found to be safe and effective. What this means for the consumer is that cheaper versions of many popular prescription drugs are now expected to become available. To get generic drugs approved, firms will now have to show that the product is equivalent to an already approved drug in ingredients, route of administration and therapeutic effect. The drug's labeling must also be the same. However, the costly testing that was needed for approval of the original drug will not have to be duplicated.

The pharmacists at COOLEY APOTHECARY work very closely with your physician as an important part of a team whose main goal is to keep you healthy. Whether your physician prescribes a generic or brand name drug for you or a member of your family have him call us. You'll find us located at No. 2 Town Center Bldg., 886-8106 and open Mon.-Fri. 9-5:30, Sat. 9-4. Master Charge and Visa honored plus we welcome all third party payments.

The best source for information about up-to-date generic drugs is your pharmacist.

REBEKAHS MEET

Miriam Rebekah Lodge No. 31 held its regular meeting last Thursday evening in the I.O.O.F. Hall, with the noble grand, Mrs. Nancy Duff, presiding. Those receiving special recognition were the following officers of the Rebekah Assembly of Kentucky: Frances Fraley, warden, of Inez; Mrs. Wilma Castle, district deputy president, of Paintsville; Mrs. Mary Zemo, assistant conductress, and Mrs. Mabel Jean LeMaster, past president, both of Prestonsburg.

Two members were recorded as being ill and cards to be sent to them were signed. The members voted to make a monetary contribution to the Girl

ANOTHER REASON PAUL HUNT THOMPSON IS THE RIGHT MAN FOR THE JOB

VIETNAM 1966-1967 SERGEANT, UNITED STATES MARINE CORPS SIX DECORATIONS

Thousands of young Kentuckians did their duty as their fathers and grandfathers had done before them, and as our sons and grandsons, daughters and granddaughters, may have to do after them.

It is sad that this duty must be done. It is tragic that it takes so long for the rest of America to know and to appreciate and to honor the called to duty and the courage of these young men.

Thankfully, these young men can now step forward to take the places they have earned at such high cost, amongst our leadership. If they look a little old for their age sometimes, it's just that 15 years was a long, long time to fight a war.

My friend, Paul Hunt Thompson, is one of these young men. He is able. He has a constructive plan for your Sheriff's Department. He has the discipline, hard won though it is, and the dedication to put that plan in place.

I intend to do all I can to see that he is elected your **Sheriff of Floyd County.**

I hope you will join me.

JAMES E. SLONE MAGISTRATE, DISTRICT 2

During the last three months I have talked with many of the people of District No. 2. One of the most important issues that people want to talk about is their roads.

Each and every person that has to travel county-maintained roads deserve a right to a decent road. I pledge that I will be there to see that the job is done right, and the persons that you, the people, are paying to operate the county equipment get the job done. The only way that this district can have a change of direction is to have a full-time Magistrate so he can be on the job to see that the job is done right the first time, and not have to wait until he gets home from another full-time job to check and see if the job was done. Elect James Slone your Magistrate and you will see the county equipment working eight hours per day and you will have a road that you can travel without tearing up your car.

The people of this district don't need a Magistrate who will put the people of this district second, and his other job first. You need a fulltime Magistrate.

PERFORMANCE COUN

saw an ad run by James Allen whereby he was attacking John Stumbo on his record as School Board Member. No matter what Mr. Allen's ads may say, the people of Floyd County should know that the voters of District No. 3 were pleased enough with John Stumbo's performance as School Board member to allow him to serve in that office undefeated for a period of 31 years. And, no matter how difficult things may have been for Floyd County at large the simple truth is that during John Stumbo's services as representative for that district 21 one- and two-room schools were eliminated and replaced with two (2) new and modern schools built at Grethel and Harold for elementary schools. Also, Betsy Layne High School was constructed and is now the newest and most modern facility in Floyd County. Betsy Layne High School is equal to or better than any facility in East Kentucky, being fully airconditioned, innovative and modern in every detail. So, Mr. Allen, no matter what your bias opinion of Mr. Stumbo's record may be I simply say he did his job and he fulfilled his duty to the people who elected him from District No. 3. Can you say the same about your performance as Commonwealth Attorney?

Group Attends Circuit Assembly

Jehovah's Witnesses of the Allen Congregation returned Sunday evening from their circuit assembly in Beckley, West Virginia.

According to Meredith Spurlock, presiding overseer, 1689 were present Sunday afternoon when James A. Hinderer, from New York, spoke to the gathering on the subject, "Basis For Faith In An Unbelieving World"

Mr. Hinderer said we have an individual responsibility to consider the evidence. "It is possible to have a strong faith in God despite apathy and skepticism of mankind in general," he commented. "We must not straddle the fence or waiver in our loyalties. Due to the urgency of our time, all who love righteousness must act quickly and will receive God's direction and blessing".

Mr. Spurlock related that during the two days of meetings the program centered around the theme, "Be Stabilized in the Faith"

'Daily the world becomes more unstable, with no sense of direction", he went on to say, "confusion abounds in religious, political and moral areas. Our fight is to maintain a stabilized position. Our circuit assembly was designed to help us do so.

Meetings at the Kingdom Hall return to their regular schedule this week.

Blair Completes Basic Training

Pvt. Daniel C. Blair Jr., son of Daniel C. and Margaret Blair, of Glasgow, has completed one station unit training (OSUT) at the U.S. Amry Infantry school, Fort Benning, Ga.

OSUT is a 12-week period which combines basic combat training and advanced individual training.

The training included weapons qualifications, squad tactics, patrolling, landmine warfare, field communications and combat operations. Completion of this course qualifies the soldier as a light weapons infantryman and as an indirect-fire crewman.

Soldiers were taught to perform any of the duties in a rifle or mortar squad. Blair is a 1981 graduate of Barren County High School. He is the grandson of Mr. and Mrs. Windle Blair and Mr. and Mrs. Raymond Copley, all of Prestonsburg.

Members of the Tackett Family Association board of directors met May 7 at the home of Reo and Billie Johns, of Robinson Creek, to discuss plans for the 27th annual Tackett-Tacket-Tackitt family reunion. Board members present included Stanford Tackett, John Tackett, Hassell Tackett, Juble Tackett, J.E. Tackett, Leah Dean Tackett, Arnold Hampton and Reo Johns.

The reunion will be held July 14 at the G.F. Johnson Elementary School on the Long Fork of Shelby Creek at Virgie. Registration will begain at 11:30 a.m. This year's program speaker is Jim Tackitt, of Concord, Calif., national president of the Tackett Association Reunion. Following program activities, dinner will be served to family members and guests.

Last year's reunion attracted 364 members and guests and it is anticipated that this years' attendance will be even larger.

GARRETT NEWS

Mr. and Mrs. Barry Shatzer, of Huntington, Indiana, spent their first anniversary with their grandmother, Mrs. Effie Howard.

Miss Jalenda Howard staved overnight with Rita Bolding, of Huntington, Ind. She also visited Glenna and Barry Shatzer and Brenda and David Paynter,

Mrs. Effie Howard spent the night with her sister, Rebecca Baldridge, of Lackey. Mrs. Baldridge and her son, Rudolph, have been sick.

Others who have been ill are Mrs. Dora Bayes, Betty Jo Sexton, and Dollie Duff. It is hoped that they are all feeling much better.

NOTICE OF EXPLANATION

The Floyd County Fiscal Court intends to undertake improvements to the Mud Creek Water District. These improvements are needed to correct water service to the customers of the Water District. Part of this project is located in the 100 year flood plain. Proposed improvements cannot be undertaken in any other location. There is, therefore, no practical alternative to the proposed project.

The proposed improvements to the existing water lines and meters conform to all applicable State flood plain protection standards. The proposed action will not affect material or beneficial flood plain values as it represents an improvement of an existing roadway

Failure to provide these improvements would result in the continued deterioration of the Water District. It is the County's judgement that the continued viability of the Mud Creek Water District outweighs consideration of Executive Orders 11988 and 11990.

Other agencies involved in this project are the U.S. Department of Housing and Urban Development, Kentucky Housing Corporation, and the Bank Josephine. Comments on the proposed project will be accepted until May 30, 1985. Please send your comments to the address below.

A more detailed description of the project and the FIA flood maps are available for citizen review at the Big Sandy ADD, Municipal Building, 2nd Floor, Prestonsburg, Ky. 41653.

Allen Woman's Club

The Allen Woman's Club held its April meeting at the George and Josephine Evans Multi-Purpose Complex at the Allen Park, April 2.

Ruby Akers, K.F.W.C., Conservation Dept. Environmental Division, presented a talk on "Why Federation." Later she installed the new officers for the coming year. They are president Mary Hinchman; vice-president, Pat DeRossett; secretary, Denice Queen, and Judy Hester, treasurer.

Many of the other woman's clubs were represented, including Drift, Wheelwright, Lackey-Garrett and Prestonsburg, Jr.

Door prizes were awarded to guests, and Hollie Blanton was named "Club Woman of the Year" for outstanding work done.

Members present were JoAnn Adams, Belle Conn, Pat DeRossett, Hollie Blanton, Mary Hinchman, Judy Hester, Bernice Westfall, Mary Westfall, Denice Queen, Diana Reed, and Barbara Whitt. The May meeting was held May 7 with

President Mary Hinchman presiding.

A beauty aid presentation was given by Tracy Robinette, consultant for Safra skin care program, assisted by Trudy

The community improvement project, the use of seat belts, was discussed, and a poster contest will be held at the Allen Grade School, May 10-24. The posters will then be judged and prizes will be awarded.

It was decided to hold a rummage sale in August. The club will present a \$200 scholarship to an Allen resident to attend

Members present were Hollie Blanton, Belle Conn, JoAnn Adams, Judy Hester, Pat DeRossett, Mary Hinchman, Denice Queen, Elizabeth Bailey, Janice Porter, Bonita Porter, Diana Reed and Barbara Whitt.

WOMEN'S VOLLEYBALL MEET IS SCHEDULED

An organizational meeting for women's volleyball will be held at 7 p.m., Tuesday, May 21, at the Paints-ville Recreational Center. Anyone interested in playing, registering a team, or for more information is urged to attend.

CARD OF THANKS

We would like to express our appreciation to all who supported us through our time of loss. It's at times like this, one can feel the love and support of friends and relatives.

The cards, flowers and food sent by those who cared certainly helped in bearing up under our grief.

Many thanks to the staff of Our Lady of the Way Hospital, the Hall Funeral Home and our minister who gave such comfort from the scriptures and hope of a resurrection.

THE FAMILY OF JIMMY JOE WATSON

TO THE PEOPLE OF DISTRICT THREE:

As the race for Magistrate draws to an end I would like to say that I have enjoyed meeting and talking with many of you personally. Regretfully, it is not possible to converse with everyone and for this reason I would like to take this opportunity to tell those of you I have not met a little about myself.

I came to Left Beaver Creek when I was four years old. I have lived here ever since, excluding the seven years I served in the United States Army during World War II. Since 1949 I have earned my living here by coal mining. Many of you will remember the small country store we operated at Minnie for 25 years. My wife and I raised our three children on Left Beaver and they all attended the McDowell School.

Being in the army I had many opportunities to travel the world and see different cultures. No matter where I traveled this has always been my home. We have a God-given treasury of natural beauty here in Eastern Kentucky. It is my desire to have an active part in seeing our natural resources enhanced by improving our roads. mending our bridges, and working to eliminate unlawful garbage disposal and the litter that is embarrassing to those of us who enjoy living here. Someone needs to take a stand against having bridges that are in such a state of disrepair that before you cross them you have to pause and wonder if getting across is worth taking the chance. (For example, the Hunter bridge was constructed in 1927. Its rails have fallen off and a truck has fallen through it and it still "stands" as the only way across the creek for 240 people. Please—we deserve better!) Someone needs to take a stand against the pot-holed roads and the ditches full of garbage. I would like to be that person. It is only with your support that I can obtain that position. If I am elected as your Magistrate I will do my best to serve all the people of District Three and not just a select few.

Let's take a stand together to change the things that need changing in our district.

ON MAY 28TH
SWITCH OVER TO GROVER!

THE CLIQUE VERSUS THE PEOPLE

Over the past few years we have seen the emergence of a group of power-seeking individuals come upon the scene in Floyd County. This power-hungry group has used the people's money to try and control every aspect of Floyd County government from the jobs in our school system to which road gets gravel and blacktop. Let's look at what they accomplished.

The school system is now threatened with state control; our school system ranked 176 out of 183 in the state; our teachers struggle to get adequate classrooms and teaching supplies because the money has been spent; our children struggle to learn in inadequate school buildings with inadequate learning aids; the Floyd County school system is held up to the rest of the state and the nation as a model of inefficiency. Does this disturb the clique? Of course not. They're busy using your tax money to hire people at low paying jobs so they can "control" them come election time. Who controlled the Board during the time when our schools got in this shape? John M. Stumbo and his political friends, the "clique."

In county government, what is the record of the "clique"? Well, John M. Stumbo gave his former employer a blacktop contract worth over \$200,000 of the people's money and didn't allow anyone else to bid; John M. Stumbo has approved paying over \$350,000 for a lease on a piece of land that he signed the deed for as school board chairman worth \$25,000; John M. Stumbo's fiscal court leases a gas distribution company worth approximately \$1 million for \$1 per year. And during all this, John M. Stumbo tells the people that "he's saved them money." Is the clique disturbed about this waste of your tax money? Of course not. They are too busy using your money to purchase gravel so they can "control" people at election time.

Haven't you had enough of this government by the "clique"? Can't Floyd County have a government that invites the people into a full partner-ship of honest, hard working programs that guarantees all our people a secure future? We can and we will.

James R. Allen will work with us to build a proud future. We can have a well-planned program of road maintenance that works on roads when they need working on, not just before election day; we can have a program that recruits industry to our county so that you can have adequate wage jobs, not jobs given out using your money to "control" votes; we can have an honest, open county government that makes government work, for you. We can have all this if we turn our backs on the politics of the past and turn to the future. A future that is secure for us and our children. A future where all people and all areas of our county are treated equally and fairly. And most important, a future that we, and our children, can be proud of. Vote for James R. Allen—it's a vote for a proud future for Floyd County.

Three Area Projects Scheduled for Review

A total of 34 proposals, representing almost \$42.1 million in capital expenditures, is scheduled to be considered by the Kentucky Health Facilities and Health Services Certificates of Need and Licensure Board at its May 15 meeting.

Included among the proposals are several requests for replacing CT scanning equipment. There are also requests for major long-term care facilities in Henderson, Owensboro, Scottsville and Louisville, which were deferred at the March board meeting. Hospitals in Bowling Green and Paducah have requested approval to purchase linear accelerators. Eight requests for reconsideration of proposals previously denied certificates of need are scheduled to be considered.

Three Eastern Kentucky projects are to be considered:

1. Middle Kentucky River Medical Center, Jackson-to construct a 55-bed acute care facility (\$8,506,835). Applicant has requested the board defer review of this proposal until the September board meeting.

2. Estill Heights Medical Center, Irvine-to establish a primary care extension clinic of the Health Help-White House, a licensed primary care clinic in McKee (\$160,000)

3. The Paintsville Eye, Ear, Nose and Throat Institute, Inc., Paintsville-to establish an ambulatory surgery center with two operating rooms (\$287,530).

Morehead State University President Herb. F. Reinhard has announced that Sheridan Martin, a McDowell High School student, is among a select group of students being awarded Regents' Scholarships at MSU for the 1985-'86 school year.

Martin is the son of Sherman and Jacqueline Martin, of Drift. He has been the recipient of several academic and civic honors, which include Who's Who Among American High School Students, United States Achievement Awards in leadership, math, science, French, and history, KET Scholastic Challenge, Kentucky Boy's State, Women's Club Outstanding Community Service Award, and chairman of ushers at the McDowell First Baptist Church.

To be considered for a Regents' Scholarship, an entering freshman must have a grade point average of at least 3.5, a composite ACT score of at least 20 and be recommended by a school official. The scholarships are awarded on a competitive basis.

CARD OF THANKS

The family of Virgil Wicker would thank all who helped during the passing of their loved one. Thanks to all who sent food, flowers, prayers and words of comfort during this time of sorrow. Thanks to the Lackey Freewill Baptist Church, the ministers, Brodie Amburgey, Buddy Jones and Sterling Bolen for all their words of kindness and to the Hall Funeral Home for its kind and efficient service.

THE FAMILY

WHY PICK ON ME, JOHN?

Lately, you have been critical of the criminal prosecutions arising out of the Floyd County Commonwealth Attorney's Office. You charge that in 1984 out of 203 criminal indictments the office received 2 jury convictions. As usual you have your facts and figures all wrong.

The truth is: From 79 prosecutable criminal cases, we received 70 convictions and lost only 9 cases. A winning percent of 89. Even Coach Hall would envy this winning percent.

As Assistant Commonwealth Attorney, my primary duty is to prosecute criminal cases in the Floyd Circuit Court. If criticism is to be directed as a result of these prosecutions, it should be directed at me.

WHY PICK ON ME, JOHN, I have not done anything to you. I am not your opponent.

My wife, Bette Martin Burchett, and I are just trying to make an honest living. Why would you resort to mis-statements of fact and inaccuracies to hurt us? My late father, Joe Wheeler Burchett, told me that desperate men use desperate means.

John, instead of wrongfully criticizing the Commonwealth Attorney's Office, why don't you tell the good people of Floyd County what your plans and programs are for Floyd County, if you have a plan.

My family and I stand for accuracy, honesty and truthfulness in Public Office.

ALBERT A. BURCHETT ATTORNEY-AT-LAW PRESTONSBURG, KY.

CAMPAIGN GRAVEL? HEY EVERYBODY! GOOD NEWS! GOOD NEWS! THE MISSING GRAVEL HAS BEEN FOUND!

Well, here it is again—30 days before the election—and the District One Magistrate has found some of the gravel, that must have been lost for the last 3½ years. We now have new gravel (last week) on Big Branch, Spradlin Branch, Mine Camp Branch, Auxier, Buckeye and just about anywhere and everywhere that votes are needed. Ain't it amazing! It was a shame and disgrace that the gravel remained missing this past winter, when the people and the roads needed gravel so badly. Road graders and road equipment must have been lost also, because no one saw "hide nor hair" of them, either, on the creeks and up the hollows. Maybe the graders weren't lost, but had been kidnapped all this time (and we just didn't know anything about it) and maybe the magistrate got a "ransom note" from the "kidnappers" and went ahead, paid the ransom money and brought all the graders safely home again—and everyone lived happily ever after. Fairy tales and campaign gravel at election time! Shame! Shame! This kind of old-time politics is very familar, but it raises two big questions—1. Would the magistrate have found the gravel—if it wasn't right at election time? 2. Where in the world—was—the gravel—1 year ago—2 years ago—or even 6 months ago?

The other Districts in Floyd County had gravel on their roads during the last three years! Vote for a candidate who will repair the roads in spring and fall—not just every $3\frac{1}{2}$ or 4 years.

Ison, Watkins Win \$1560 in Tourney

Despite overcast skies and intermittent rain, Bassin' Buddies members, Delbert Ison, of Martin, (at right) and Tee Watkins, of Prestonsburg, fished the Grayson Lake Invitational Tourney, Saturday, April 27, and took the \$1,000 first place prize and the \$560 Lunker award.

Three 15-inch bass which weighed in for a combined weight of 8 pounds, 10 ounces gave them the first prize money, and Ison's lunker bass weighed at four pounds, 14 ounches. Last year, Ison also took the Lunker award at

Sixty-six boats participated in the Buddy tourney and prize money was awarded to the top six places.

All three first-prize fish were caught in stained, shallow water near stumps on a pig and jig.

Both Ison and Watkins are regular anglers. In the Redman Tournament Trail and finished in the top five of the Bassin' Buddies Club last year.

McDonald Says Deadline For County System, June 30

The possibility of state intervention in Floyd schools was again raised last week as state schools Superintendent Alice McDonald put Floyd school administrators on notice that they have until June 30 to correct deficiencies uncovered by recent inspections here, including an audit last month of the lunchroom and activities funds in half a dozen county schools. "We are now one step away from having to step in and have more involvement in Floyd county," Mrs. McDonald said.

Under a law passed last year, school districts are subject to state control if they do not measure up to minimum state standards. And at least one of those whose criticisms in 1982 prompted state officials to investigate conditions here thinks a state takeover is imminent. "They are taking it one step at a time because it has never been done before," said Joyce Everly, a member of the Floyd County Citizens' Education Council, "but I think Floyd county will be a test case" for Senate Bill 202.

The state Board of Education, which met last Tuesday at Prestonsburg High School, instructed McDonald to refer to the state attorney-general "matters which have come to light as a result of the Floyd county investigation" and to refer to the Floyd commonwealth's attorney "any suspected criminal activity." Commonwealth's Attorney James R. Allen said Tuesday that no matters pertaining to Floyd school personnel have yet been referred to him.

Floyd Board of Education attorney W.W. Burchett said last month, after the

lunchroom audit findings were made public, that the Floyd board was "the chicken that the rooster picked out to peck on." Asked this week whether his chickenhouse metaphor applied to last week's comments by the state superintendent, the attorney declined comment.

DEAR FLOYD COUNTIANS

I feel it is my duty as a Floyd Countian to write this letter to the public, concerning the state our county has gotten into.

It seems that Floyd County hits the news every week, and it is not good news, instead, it is how bad our financial status has become, due to money being spent for other things, rather than reasonable, limited

I was employed at Solid Waste, Inc. for approximately two years, was with the organization from opening of day one and was later promoted to office manager. I attended and took minutes at board meetings, but, was later dismissed for expressing my opinions as to ways of saving money, to board members and other participating officials. These officials and board members say that I quit; I say, "I was dismissed for stating my opinion." I was allowed to draw my unemployment without penalty. If you quit a job, you cannot. Later, when the administration changed, there were job openings at the Solid Waste office. I had several excellent typewritten recommendations with signatures from Solid Waste, Inc. officials and was told by a few magistrates and board members that they would fight to get my job back. Only <u>one magistrate kept his word</u>, this man is Gerald Derossett; the others did not!

I did not know Gerald Derossett until he became the Magistrate of District 1 in Floyd County, but, I can tell you this-in the time I have known him, I have found him to be honest, efficient and courteous. I cannot and will not say this about any other magistrate, Fiscal Court member or Solid

Gerald Derossett stands on his own record. He was the only magistrate who was not indicted during the state investigation.

He has done what he could for the roads and bridges in Floyd County. It is like this-you can only do so much when you don't have the equipment or money provided to you to do more.

Floyd Countians, I urge you to please, stick with me and let's get more honest people like Gerald Derossett in our county offices. I would like to turn on my T.V. and hear some good news about Floyd County.

Stand with me and vote for Gerald Derossett. We know he is honest, so let's try to keep and get more honesty back in Floyd County.

Maytown's team, sponsored by Kedrick Blevins, included Keith Webb, cap-

tain, Tabitha Martin, Tim Slone and Katie Osborne.

Each participant was presented a certificate, and a trophy was presented to each active team member. David Hensley served as judge and Brian Conn served as scorekeeper. The project was coordinated and sponsored by Mrs.

TO THE **PEOPLE FLOYD** COUNTY

Do you worry about your children? Do you want to feel secure that if your children get into trouble that they will be treated with compassion and accorded every safeguard?

In these times of economic hardships, high crime rates and broken homes, it is important that your Sheriff knows how to deal with our young people.

I have six children and have raised them all in Floyd County. I think I know something of the problems and concerns of young people. I have served eight years as sheriff and experience teaches me that our children must be treated fairly, with respect and understanding if we are to give them proper guidance.

During my time as sheriff our young people have always been treated with consideration by me and my deputies. I have cooperated 100% with the Department of Human Resources in carrying out investigations of child abuse and neglect. This is important work and I will exend every effort in this area of Law Enforcement.

I believe I know most of the families in Floyd County and I believe I know the children of Floyd County. With my experience in law enforcement I can pledge to you and to the children that I will continue to give good, honest, fair and understanding treatment to our young people.

Student Grant Funds Depleted For '85-'86

Funds for State Grant Programs for the 1985-86 academic year are now depleted and students now filing the 1985-85 Kentucky Financial Aid Form should not expend the fee for having College Scholarship Service send a copy of their need analysis report to the state agency.

State grant award notifications have been mailed to more than 16,500 Kentucky college students for use during the coming academic year, according to Paul P. Borden, executive director of the Kentucky Higher Education Assistance' Authority. Total grant funds amounting to \$9,080,600 have been awarded in amounts up to \$400 for students attending private proprietary and state-supported institutions and up to \$1400 to students choosing Kentucky's private colleges. Grant awards are based on need and date of applications for the limited funds.

While no additional state grant funds will be available for the year, Guaranteed Student Loan (GSL) applications are being accepted as usual. The GSL Program enables eligible students who attend eligible institutions to borrow annually up to \$2500 as undergraduate students and \$5000 as graduate students. Loans may be obtained from lending institutions located throughout the Commonwealth.

Loans are also available from the Kentucky Higher Education Student Loan Corporation for graduate students, independent undergraduates, and parents of dependent graduates.

In addition, students may still establish eligibility for the Federal Government Pell (Basic) Grant Program. Students planning to attend some Kentucky colleges may find aid available through the colleges.

Funds for the state grant programs were depleted again this year before the needs of all applicants could be considered. Since state grant funds are exhausted new applicants will not be sent individual notification letters, according to Executive Director Borden.

CARD OF THANKS

The family of Stella Newsome would like to extend their appreciation to all who helped in any way upon the passing of their loved one. Thanks to those who sent food, flowers, prepared the grave, for the prayers offered and those who spoke comforting words. A special thanks to those friends and neighbors who prepared food at the home, the Regular Baptist ministers and the Hall Funeral Home for its efficient service.

THE NEWSOME FAMILY

IN MEMORIAM

Helen Hart Allen, 1904-1982.

When the weights of life hang heavily.. Upon my weary heart...who gave me strength to journey.

And make another start...who filled the toilsome hours. With warming tenderness...and with a single smile could calm...

The wild of seas of distress. who never lost faith in me... When I had chanced to stray...and with

deep understanding .. Helped me to find my way...who loved with love beyond all love ... So wonderful and true...always and

always ready...to bring me Smiling through...I've traveled far. I've traveled wide...to find There is no other...in all the world there was but one ..

And that one was my mother. BETTY ALLEN FRANCIS

ANSWER THIS ONE, BOB

TELL THE VOTERS OF DISTRICT 2 how come your employer—Beaver-Elkhorn Water Works had to sue you and your wife to get your names off the deed to the property that Kenneth Roberts had supposedly sold to his daughter, and then his daughter in turn ended up selling it back to Beaver-Elkhorn Water Works for \$30,000. EX-PLAIN TO THE PEOPLE how your names got on this title and where you got it from.

This vacant, \$30,000 lot is still sitting at Hueysville. It has NEVER been used for anything whatsoever to do with the Beaver-Elkhorn Water Works. This is just another example of BAD-MANAGEMENT and MIS-USE of our TAX DOLLARS.

WE DON'T NEED FOUR MORE YEARS OF THIS KIND OF MANAGEMENT. (I didn't wait 'til the last week, Bob, I wanted to know the answer to this myself.)

By J.T. YURKO

The major movie studios are holding back their big releases until summer, so for the next few weeks independents and distributors of foreign films are going to try to sneak in and the viewers' attention. grab Their films are often in limited release and may not be easy to find, but many of them are worth making the effort.
"Sylvia," a New Zealand

is based on the life of famed teacher/writer Sylvia Ashton Warner. Mrs. Warner lived and worked with her hus-band in remote villages in New Zealand during the 1940s and found the schools not unlike those horrors found in Charles Dickens' novels. It was during this time that Mrs. Warner for mulated many of her concepts of teaching. (Her teaching philosophy was one of less regimentation and more interaction with the children.)

The villages she worked in were extremely isolated, and her feelings of isolation may have led to a brief affair with a school inspector. The film also hints that her relationship with a visiting nurse, who provided

the only health care the villages had, may have been more than platonic.

Director Michael Firth coaxes a fine performance from Eleanor David in the title role, and keeps the tale simple and engrossing.

"MacArthur's Children" is far more ambitious. It is the first Japanese film to deal with the American occupation after World War II (surprising, since it is now almost 40 years since the war ended).

The movie centers on a class of fifth graders. As the film opens, the children are giv-en black ink and are set to crossing 2,500 years of Japanese heritage from their schoolbooks. Some adjust well to the introduction of Western culture, some rebel, but none are left unaltered.

The film has dozens of memorable scenes, from the children trying to learn baseball to a child burning his paintings because they depict Japanese battleships. "MacArthur's Children" is eloquent and moving.

Tina Turner can still strut with the best By Barton Weiss Tina's latest

Tina Turner is one musical legend who still has all her moves. The evidence is in her-latest clip, "Show Some Respect," in which Miss Turner struts her stuff in front of a live audi-

It's just Tina, the audience and her music, helped with some good camera angles and brisk editing.

Water everywhere

Hall and Oates' "Some Things Are Better Left Unsaid" opens as Daryl and John enter an empty music hall, and several different shots of water are superimposed over the two heartthrobs.

The amount of water builds with each shot as the band and backup singers appear. By the time we see audience, the water, which was originally quite beautiful, has turned into a powerful force that threatens to drown the

A knight's night

REO Speedwagon's "One Lonely Night" tells the tale of a poor clumsy knight who leaves home after a fight with his wife and meets a wizard who beams him into modern times.

"stranger in The strange land" scenes that

Tina Turner

follow have been given a bit of a twist by speeding up this part of the clip. The sped-up scenes provide a nice contrast to the song a ballad - and give the

clip a bittersweet feeling. You'll be happy to learn that the knight really isn't clumsy — just half blind. He's fitted with a pair of glasses, and the wizard beams him back to his loving wife.

Around the dial

Tonight, May 19, at 11 p.m. EST, MTV will present the classic film "Rock, Rock, Rock." Fans of the USA Network's Night Flight Show have already seen this film, which includes performances by Chuck Berry, Frankie Lymon and the Teenagers, the Moonglows, the Flamingos and Connie Francis.

Vacation In Style Without Going Broke

There's no trick to it; Europeans have been doing it for years, and Americans are finally catching on. Instead of glitzy hotels and plastic motels, they're staying at "bread and breakfast" establishments. They're also exchanging homes, staying on farms and in youth hostels, and taking advantage of empty rooms in college dorms.

In a Report to Consumers in the May Reader's Digest, Patricia Wilson, founder of the American Bed & Breakfast Association, says, "It's the most significant travel development in years. People not only can save money, they find it more homelike than commercial lodgings."

Accommodations can be quite luxurious or of the bathroom-down-the-hall variety. Bed & Breakfast U.S.A. describes more than 600 places to stay, and lists reservation services that can book an additional 10,000 homes. The article reports, "For \$30 to \$85 a night, double, people can stay in lodgings that range from Victorian mansions to houseboats."

For those who miss (or who have never experienced) country life, there is a directory—Farm, Ranch & Country Vacations—which lists over 200 places where people can help with the chores, ride horses and stroll country lanes.

You don't have to be young to qualify for youth hostels; all you have to do is join American Youth Hostels. Hostels tend to be spartan, but lodging averages \$5.50 a night, so it may be worth your while.

There is no central booking service, but if a campus setting appeals to you, contact colleges en route to or at your destination. "Prices average under \$25 and sometimes include access to a low-cost cafeteria and other campus facilities," the article notes.

And finally, there is house-swapping. The Vacation Exchange Club lists 6000 entries. Readers correspond and make their own arrangement. Sometimes there are snags, but as a rule the exchanges go smoothly. One veteran houseswapper points out, "No money changes hands. You feel more like a guest in someone else's house."

TO THE VOTERS OF DISTRICT ONE:

President Reagan's budget cuts have had a severe economic impact on local government during the past few years. Reagan has made it quite clear that we can expect little or no help from the federal government in the future. This means we have to solve our problems ourselves, without reliance on Washington. We need creative thinking in local government if we are going to solve the problems of snow removal, open dumping, stray animal control, roads, and funding for the volunteer fire departments. I believe I can bring a fresh approach to these problems. I would like to ask for your vote and support on May 28.

APPROVED BY EAST KY. HORSE SHOW ASSOCIATION

TO THE VOTERS OF DIST. 1 & PRESTONSBURG:

I think each of you should know that last Saturday, James Allen, candidate for Floyd County Judge-Executive held a rally at Minnie, Kentucky, on Left Beaver Creek. At that rally, the master of ceremonies and the man who introduced James R. Allen as the main speaker was none other than the Hon. Senator Benny Ray Bailey. Senator Bailey made it plain that James R. Allen was "his man" and asked for each and every one of you to support James R. Allen. This is the same Benny Ray Bailey who split the city of Prestonsburg and the Northern portion of No. 1 District from his Senatorial District and gave us to Boyd County, solely to prevent two of his potential opponents from being eligible to run against him.

James Allen has openly embraced Senator Bailey and I can't help but wonder what kind of County Judge-Executive he would be for the citizens of District No. 1 and Prestonsburg. He apparently has no difficulty or objection to what Senator Bailey did to us.

I ask each of you to show Senator Bailey we haven't forgotten the knife wound in our back and that we are prepared to exercise our vote to prevent Senator Bailey from gaining a direct control of the Floyd County Judge-Executive's office through his political allies. I ask all citizens of Prestonsburg and District No. 1 to vote for John M. Stumbo for Floyd County Judge-Executive.

When the May flood hit, Gerald DeRossett was up before daylight and going to bed after dark. When the Left Fork of Abbott was blocked by a slide that could have used a D-9 dozer. Gerald moved it with a

backhoe and a few volunteers. When the blizzard hit Floyd County, Gerald and his grader-man were out when nobody else was, cleaning city streets and county roads. Gerald, his county workers, and volunteers hauled sawdust 16 hours a day, not only in an emergency, but every day. He is on the job full time, every day, as a county servant.

If the voters of District 1 want to listen to a big bag of wind, go ahead; but if you want an honest, full time, hard-working magistrate, vote on May 28th, and re-elect Gerald DeRossett.

I can say all of this for a fact, because I am usually Dad's main volunteer.

VOTE AND SUPPORT

RAY TURNER

Democrat for

COUNTY COURT CLERK

I LOOK FORWARD TO SERVING THE PEOPLE "Your Vote Appreciated"

DEAR FRIEND.

As I hope you know, I am currently seeking the Democratic nomination to the office of the Floyd County Court Clerk. My purpose in writing you is to ask not only for your vote, but to humbly request your support and influence among your many friends and family members. It is my belief that you agree that Floyd County needs a clerk who has a regard for basic honesty, and a sincere desire to serve and accomodate the public.

With all of the above in mind, I have no hesitancy in saying I am the best qualified candidate. My character and disposition is such that I have always enjoyed working with people, and welcome any oportunity to accomodate another. As your Floyd County Court Clerk, I will see that this attitude exists throughout the office among all the deputy clerks that come in contact with the various members of the public. Frankly, this has been missing under the incumbent. All too often I have heard it said that those who travel to the Floyd County Court Clerk's Office seeking assistance in the recording of various documents, or the obtaining of necessary papers for the conducting of their business, are simply advised as to what they cannot do. My intent is to see that you are assisted in finding what can be done to accomplish your personal business in a quick, competent and efficient manner. After all, the Floyd County Clerk is the person who has the training and ability to understand his or her records, and should use that ability to simplify the solution for your problems. I promise this I will do.

Thank you so much for taking the time to read this letter. Again, in closing, I respectfully ask for your vote, support, and influence. In return, I offer you four years of sincere and courteous service.

Sincerely.

Hay - Turner

"Vote For Ray On Election Day!" NO. 4 ON THE BALLOT

(Pol. adv. paid for by the candidate, 5-15-2t-pd.)

RE-ELECT A PROVEN COMPETENT LEADER

puring this campaign James K. Allen has relied upon deceptions, half truths and wild promises to direct attention away from his own record as a public official. In order to have a successful campaign, James Allen recognized this first, and bought an expensive "slick" media extravaganza designed by a professional out-of-state "election consultant" in order to buy this public office. It is a fact that the fees for this professional "election consultant" is in the tens of thousands of dollars, and contains a provision for a "bonus" payment in the event these professionals turn the public from the truth and James Allen wins. It is our hope that you, the voters of Floyd County. cannot be manipulated or fooled, and realize that the crucial issue is which candidate can be trusted to head our County Government for the next four (4) years.

John M. Stumbo has publicly answered every charge that Mr. Allen has raised and set the record straight. But James has refused to address any of the questions about the "sweetheart deals" he has made while in public office, and his willingness to put his own self interest before his sworn duty as Commonwealth Attorney. If you are wondering whose interest James R. Allen has been pursuing while he has been Commonwealth Attorney, you as the public have a right to know so consider this:

*Mr. Allen owns and/or operates a coal tipple on Right Beaver Creek that he acquired while in public office. But, how and why did he get the lease when he had no known ability or experience in the coal industry or business?

* James R. Allen owns the lease on a large tract of coal on Mud Creek, again acquired while in public office for very little consideration. It was reported in the Courier Journal that he once threatened the landowners with the power of his public office if they didn't let him use their property to strip mine the coal. As your Commonwealth Attorney, whose interest and need was he pursuing when he used his power and influence to acquire this valuable tract of coal and intimidate surface owners?

*While our county was going broke, while our roads needed repair, and while many of our people needed clean water to drink, James Allen was receiving checks which totalled \$30,968.68 ON TOP OF HIS SALARY AS COMMONWEALTH ATTORNEY and didn't perform a single known legal service for Floyd County in return. This abuse of power and trust was stopped only by State Investigators when it was discovered. Whose interest then was he serving when he accepted these checks?

*Even today, when you visit the private Law Office of James R. Allen you will find a secretary there that is paid for by your tax dollars. James R. Allen has not seen

fit to place this secretary in the public office to which he was elected, Commonwealth Attorney, in your Courthouse. Instead, this secretary can be found answering the phone and doing the typing in his private office where James makes his political and business decisions. Whose interest is James Allen Serving? It is clear that James Allen devotes a lot of time to making deals for himself, and finds the opportunities to serve you as Commonwealth Attorney unrewarding, unexciting

and undeserving of his interest or effort. To prove this point, consider 1984, where the records of the Floyd Circuit Court Clerk's Office reveal the following: 1. Of 203 criminal indictments brought before the Court, 103 were dismissed outright on recommendation of the Commonwealth Attorney, James R. Allen, without going

to trial. 2. Eighteen (18) cases were tried by jury, sixteen (16) of which were lost. There was only two (2) guilty verdicts by jury.

It is noteworthy that James R. Allen's response to his poor performance was revealed last week in this paper when he directed his Assistant Commonwealth Attorney to run an ad that essentially asked the public to blame the Assistant, and not the Commonwealth Attorney. My response is simply that James R. Allen is the man who ran upon the promise to be a working Commonwealth Attorney, who swore an oath to enforce the law, and who is receiving the full salary to do the job. Accordingly, the public

must hold the Commonwealth Attorney, not his Assistant, accountable for his failures. John M. Stumbo does not wish to be harsh or unfair. But every fair minded citizen of Floyd County must admit that through deceptions, half truths and the persistent intentional use of false allegations James R. Allen has quickly made this campaign, one of comparison of the candidates' respective records and demonstrated interest in working for public good. It is critical that the public not be fooled, and place an individual in public office who is for sale or an opportunist. Honesty and integrity, along with his reputation mean more to Judge Stumbo than power or money. In thirty-four (34) years as a public official he hasn't sought his own personal profit or gain but has strived after a personal satisfaction for a job well done. To demonstrate this, and to assure that you do have a right to know everything about your County Judge-Executive, John Stumbo proposes to release his 1983 and 1984 individual tax returns at a public meeting on May 17, 1985 at 1:00 PM at the Courthouse door, in front, in Prestonsburg. He challenges James R. Allen to do the same thing.

YOU MAY HAVE TO PUT UP WITH THE DUSTY, BUMPY AND MUDDY ROADS THE REST OF 1985. BUT THINK OF 1986.

Don't get stranded next January, February and March. Vote May 28th for a man who will help. Let's stop this nonsense. Here are some facts, not fiction:

- 1. I will see every county road in District #2 is maintained the proper way.
- 2. I will fight for flood control for all towns in District 2. 3. Have the best fire protection with or without more
- 4. As your Magistrate, I will donate out of my pocket each year \$1000.00 to Wayland, Garrett, Maytown, Allen, and \$500.00 to Martin, to help each department. One half of Martin is in District 3.
- 5. A Magistrate cannot give himself a cut in pay until April 1989. They can raise the salary anytime but not a cut. The salary was set April 18th, 1985, good thru April 1989. Don't let the candidates fool you.
- 6. I will not squeeze a nickel and throw it at a county
- 7. We will put the dollars where the dollar is needed and squeeze the nickels for something not so
- 8. We will not build anymore parks until District #2 gets things done that should have been done years ago.
- 9. When I am your Magistrate, you will have a full-time Magistrate working every day improving District 2.
- 10. Carl Duff would give you the shirt off his back if you were in need. If I was or wasn't your Magistrate, 60 to 70% of you know that is true.

ERNEST G. BURCHETT **JAILER**

How many times have we visited our courthouse and found signs on the door that our courthouse is closed due to sewage or other problems which have originated in our jail? Several times over the past few years, and particularly one time last year, our county services were completely suspended due to occupants in

our jail tying sheets and other materials together and feeding them into the sewage system. These cost our taxpayers several hundred dollars to clean up the debris plus all the damages to our courthouse. This process took several hours and went unnoticed by our jail personnel.

Can we continue to have a jail with such limited supervision?

Our jail needs closer supervision and better service for our citizens and taxpayers. If I'm elected your jailer I'll do my best to upgrade our supervision and jail facilities, while trying to make them pass state inspections more regularly and providing competent personnel to help with our people who need speedy, reasonable service.

"It's Time For A Change" **VOTE ERNEST G. BURCHETT—JAILER**

TO ALL BROTHERS AND SISTERS OF THE UNITED MINE WORKERS OF AMERICA

We, the undersigned, feel obliged to call upon each of you to make the responsible decision in the Floyd County Judge-Executive race. We have been distressed by the observation of certain UMWA members and so-called friends of the UMWA who are actively seeking the election of James R. Allen as Floyd County Judge-Executive. For those who are uninformed accept as fact that James R. Allen is the owner and/or operator of a non-union coal tipple located on Right Beaver Creek operating under the name of Lake Wood Coal. This is nothing new, being that James R. Allen has been in that non-union business for the last six (6) years.

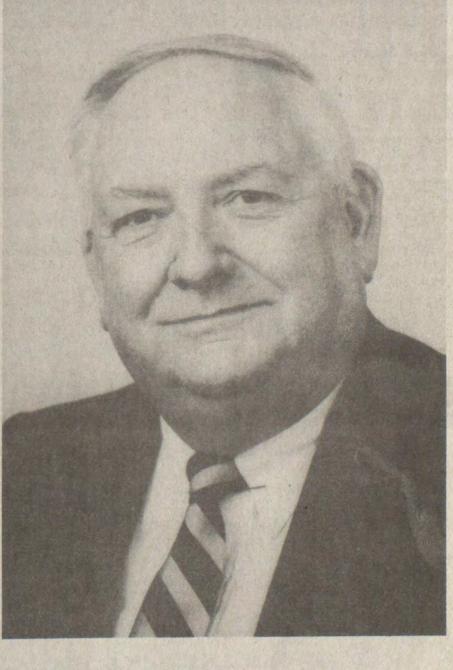

We have been reading about James R. Allen's concern for our welfare and our children's welfare but we don't believe it. If James R. Allen wants to help people in Eastern Kentucky and their families then why hasn't he given the working men at his tipple the simple benefits of union wages for the workers, medical benefits for their sick children and disability benefits for his disabled men? The truth is like most other non-union operators he would rather keep all the money himself.

A lot of people say that the UMWA's day is over. We don't believe it, but it's coming quick when UMWA members and so-called friends campaign and work for the election of

non-union operators to public office. We the undersigned have not given up yet. We simply believe that those who oppose the UMWA with one hand cannot be our friend with the other. Accordingly, we ask for every union brother and sister and their families wake-up and protect themselves. Deny James R. Allen your support. Re-elect John M. Stumbo as Floyd County Judge-Executive.

Hummingbirds See Red

Hummingbirds in your garden create a breathless sort of beauty. In the blur of their humming, fast-beating wings, the small (smallest in the world) birds hover, almost motionless, over flowers, lapping up nectar with their brush-coated tongues. These aerial acrobats dart from flower to flower. sometimes even flying backward. They shimmer with iridescent colors that come, not from the pigments of the birds' feathers, but from light striking the feathers' prism-like surfaces.

Want "hummers" in your backyard? Let your garden break out in a riot of color. Hummingbirds are suckers (so to speak) for tubular red, orange and pink flowers. Therefore, any yard flaunting a perpetual gaudy bloom will probably collect hummingbirds on their migrations in both spring (late March to mid-May depending on your distance from their wintering habitats in Mexico and the Caribbean) and fall. And if you have the right habitat for nesting, you may have hummingbirds with you the whole season.

While North American hummingbirds feed on quantities of small insects (ants, thrips, and insect larvae) found on, or near flowers, their main diet consists of flower nectar. And while you can coax hummingbirds to your yard with sugarwater feeders and/or dense foliage for nesting, the flowers are probably your best lures.

Many kinds of hummingbird-attract-

ing annual and perennial flowers, available as seeds and young plants, can be purchased at garden centers and through mailorder nurseries. Some suggestions: scarlet salvia (perhaps overall the most available, effective, cultivated hummingbird plant): scarlet or pink petunia; scarlet nicotiana or flowering tobacco (which has the added attraction of drawing night-andday flying hummingbird moths as well as hummingbirds): and scarlet morning-glory.

Hummingbirds especially like wildflowers. Buy them only from reputable nurseries or from your local or state plant societies-places that are careful to make native perennial wildflowers available without depleting natural wildflower supplies. In the East, look for: cardinal flower Lobelia cardinalis and trumpet creeper Campsis radicans or its hybrids. In the western U.S., red flowering currant, Pacific-Northwest columbine Aquilegia formosa, scarlet paintbrushes Castillija or scarlet penstemons are highly at-

In the eastern U.S., look for the ruby-throated hummingbird, the only hummer commonly found east of the Mississippi. In the Rockies, look for black-chinned, calliope and broadtailed hummingbirds. The rufous, Allen's and Anna's hummers are predominantly Pacific slope breeders. The hummingbird capital of the U.S. is southeastern Arizona, where 13 kinds of hummingbirds might be seen beating their way from flower to bright flower, all day.

"Wellness Weekend" Set At Barren River

Dr. Robert T. Johnson, the Hartford, Ky. country doctor who was named in 1982 one of the nation's top 10 family physicians by Good Housekeeping magazine, will be one of the featured speakers at the third annual Kentucky's Wellness Weekend, June 13-15 at Barren River State Resort Park near Glasgow. The event is sponsored by the Kentucky Department for Health Services.

"The term 'wellness' describes a state of general good health and wellbeing," said Phyllis Skonicki of the department's Health Promotion Branch. "We're trying to focus attention on wellness as a way to avoid the opposite condition, illness," she said, adding that "the goal of the weekend is to promote the development of wellness programs in kentucky.'

"The Wellness Weekend will allow doctors, nurses, public health educators, business people and community leaders to learn about developing model health programs that work and will provide strategies for promoting wellness among different groups within a community," said Skonicki. "They will then share the information with their patients, employees or communities and promote the benefits of a healthy lifestyle.'

Facts About Sleep

-While the average sleep time for adults is between seven and eight hours, only 60 percent of us fall within this range. Surveys indicate that a good night's sleep for the other 40 percent is less than seven or more than eight hours, and that for a few people less than five hours or more than ten hours is normal.

-A sleeping person changes the position of his entire body at least 80 times during eight hours of slumber. He moves his head, arms or legs more often than that.

-During an eight-hour period of sleep, you'll probably have from three to five intervals of dreaming sleep. These intervals last a total of about 100

EKAAC Schedule Sparks Conflict **Between Schools**

By ANTHONY CLARK Trouble is already brewing in what began four months ago as an unprecedented attempt to improve education here-and two Floyd high schools

have been caught up in the tempest. On Jan. 30, principals representing six high schools in three counties came together at Prestonsburg High to sign an agreement they hoped would bring new cohesion to their scattered schools. The organization they formed would focus both on academics and athletics, providing competition and selecting a regional champion each year on the basis of excellence in both fields.

Within weeks of its inception, however, the East Kentucky Athletics and Academics Conference (EKAAC) found itself stung by conflict. What principals Robert May (Prestonsburg High), Russell Frazier (Betsy Layne), Robert O'Bryan (Johnson Central), Tom Swartz (Pikeville), and John Haney (Sheldon Clark) had seen as a new chance for cooperation soon showed signs of falling apart.

Johnson Central was the first to pull out, citing instructions from the Johnson County Board of Education, which said the new organization conflicted with

Then, on April 24, Frazier acted to pull Betsy Layne from the conference, after learning that the school would not be eligible to play football against Pres-

EKAAC Commissioner Lavne Tackett agreed that the exclusion of BLHS from Prestonsburg's football schedule conflicted with the new organization's bylaws. But Prestonsburg football coach Chuke Williams, who made the decision to drop Betsy Layne from the schedule, defended his decision. The Prestonsburg team "needs competition that equals or exceeds its ability," he said. "Betsy Layne is an A Class school; Prestonsburg's team is AA."

Despite the controversy, Commissioner Tackett remained optimistic about EKAAC's future, noting that the scheduling conflict made more schools aware of the organization.

FIGHTER FOR THE PEOPLE

May 28th is the deadline for you to make your decision as to who you want as your Magistrate.

I seek the office of Magistrate of District No. 1 with full awareness of the problems facing us today. Whether you live in a city, town or up a hollow, most citizens have very similar problems and concerns. We are all worried about rising taxes, increased cost of fire insurance, roads and road repair, good honest government, garbage collection and many other problems. As a family man and working man, I share your same concerns.

I'll do my best in fighting for the people of Floyd County and District No. 1. I will work hard to keep your confidence, trust and respect because as your Magistrate I will:

Fight to establish a long range road building and road repair program which will get us out of the mudholes and potholes. Immediate repair of our worst roads is essential. In coal country, up the hollows and creeks, the roads and bridges will be improved and maintained on a regular basis.

Fight to establish and support, with financial assistance, a program to develop and improve existing and new fire departments in all areas which do not presently have total fire protection. It is a known fact that when citizens have adequate fire protection lives, money, and property will be saved.

Fight to maintain and improve the animal shelter. I fought to have it constructed and I will continue to support this effort to rid the roads, streets and countryside of stray animals by providing them a home.

Fight for an effective alcohol and drug abuse program for all citizens. There is no reason for people who need help in fighting to rid themselves from the control of chemical substances not to have needed help. Also there is no reason for us not to have a substance abuse program for our youth so they can make responsible decisions when confronted with the evils of substance abuse.

Fight to keep our countryside beautiful by initiating an effective garbage collection system and cleaning up the roadside dumps and roadside litter. Our environment is too important not to clean it up and keep it clean.

Fight for good government by developing a responsible budget that reflects the wishes of the citizens in addressing concerns such as roads, fire protection, garbage collection, environment, alcohol and drug abuse programs, stray animals....

This can easily be done without any increase of taxes. Taxpayer's dollars will be spent properly on taxpayer's needs. I don't see how senior citizens and the working man or woman can keep paying, paying, paying.....ENOUGH IS ENOUGH.

I am asking you to join with me for a better kind of government that we all believe in -a government of the people, by the people, and for the people. I'll do my best in fighting for you—the citizens of District Number 1. I'm proud to be a working man earning an honest day's pay. I'll work as hard for you. Let's have a refreshing change for all of uslet's elect "Shag" Branham our Magistrate.

"Where in the Question: body do most cancers begin?" ANSWERline: Most cancers originate on the surface of an organ, such as the skin, the surface of the uterine cervix (the opening of the uterus), the lining of the mouth, stomach, intestines, bladder or bronchial tube in the lung or the lining of a duct in the breast or prostate gland. These kinds of cancer typically remain on the surface of the organs mentioned until the cancerous cells begin to penetrate beyond the surface and invade underlying tissues. Ultimately, if left untreated, the cancer cells are carried by the blood stream or lymph system elsewhere in the body.

Kentucky Farmers To Be Surveyed

The Kentucky Crop and Livestock Reporting Service announced today that Kentucky farmers will be asked to participate in a nation-wide survey during late May and early June. Information obtained in the survey will be used to develop estimates of 1985 crop acreages and mid-year livestock numbers. All individual information is confidential and used only in developing official national and state estimates. Dave Williamson, state statistician, noted that concerns about cost of production and returns from farming are weighing heavily on farmer's plans this year. These uncertainties highlight the need for acreage and livestock information producers can rely on. Farmer cooperation on the survey, he adds, is the key to developing accurate estimates.

Representatives from Williamson's staff will interview a cross section of farmers, and questionnaires will be mailed to others, to gather data for the estimates. National and some state estimates will be published by USDA's Crop Reporting Board. A report on 1985 acreages will be available on July 10. Estimates of hog and pig numbers will be released on June 21, and cattle numbers on July 22.

THE STORY OF JOHNNY

There once was a little boy named Johnny. Johnny wanted so much to have the responsibilities of older, better trained, children, but his mother knew that Johnny was young and inexperienced and didn't give him much responsibility.

One day, Johnny begged so hard that his mother agreed to send him to the store to buy groceries for the family. However, when Johnny got to the store he forgot what his mother sent him after. Instead of buying the groceries he was sent after, he bought candy, pop and chewing gum for his friends. He knew he had done wrong so he made up stories to tell his mother. His mother knew the stories were false, but she loved little Johnny and knew that he couldn't handle the job she gave him. So, even though she still loved little Johnny, she wouldn't send him back to the store again because he couldn't handle the responsibility.

The story of Johnny is a lot like the public career of John M. Stumbo. The people sent John to the school board and he led the schools to the point where our schools ranked 176 out of the 183 school systems in Kentucky and spent \$1 millon more than our schools had to create the first deficit in history. Then the people sent John to the County Judge's office and he gave his former employer a \$200,000 contract without allowing anyone else to bid. Then he approves paying another friend over \$350,000 of your tax money for a piece of property that he sold for \$25,000 when he was school board chairman.

John's public career has been real rewarding for him and his friends, but the people have suffered. John simply forgets what the people elected him to do. Like little Johnny in the story, he makes things up about his opponent and even has taken to printing misleading information and unfounded stories to try and draw attention away from his record. We understand. It's no telling what people will do when they get desperate.

Now we like 'ol John and he's a decent fellow. But, like little Johnny's mother, we know John can't handle the job

It's time for change in Floyd County. It's time our county got its fair share of government grants for services for our people. It's time we had a road program that treats all areas equally. It's time Floyd County had an economic program that guarantees a secure future for our people. That's James R. Allen's program for Floyd County. Vote for James R. Allen—it's a vote for a proud, secure future for our county.

"OUR CITY, RIGHT OR WRONG, WHEN RIGHT, TO BE KEPT RIGHT, WHEN WRONG, TO BE PUT RIGHT." When I decided to run for City Council, this is the philosophy I established. We have a great City, but as with any organization, improvements can be made to make it even better. That is why, if elected to Prestonsburg City Council, I want to keep what is right and to right what is wrong. I can only promise to be a conscientious councilman for you, always striving for your best interest. As Theodore Roosevelt once said, "The only safe rule is to promise little, and faithfully to keep every promise."

Robert Samons, of Arkansas Creek, bought the doll in 1934 at a Martin store as a Christmas gift for his wife, who is now deceased. He has been told that dolls of this type are now selling for as high as \$500, but this one is not for sale.

Cesarean Group To Meet

The Cesarean Support Group, sponsored by the Big Sandy Family-Childbirth Education Association of Prestonsburg, offers families who have given birth by Cesarean a place to share birth experiences, emotional feelings and educational information. Interested mothers and fathers are encouraged to share positive feelings as well as the negative feelings that may come with a major unanticipated life event like a Cesarean birth. The group will meet at the First Presbyterian Church here Tuesday, May 21 at 7 p.m. Children are welcome-a playroom is available. For further information, contact Mary Neeley at 886-8088 or Mary Montgomery at 478-2144.

CARD OF THANKS

The family of Ida Acree wishes to express appreciation and thanks to all who sent food and flowers during this time of sorrow. Thanks to the Regular Baptist ministers for their comforting service and to the Hall Funeral Home for its efficient service.

R.D. "DOC" MARSHALL MAGISTRATE DISTRICT 2

"WAKE UP"-"STAND UP" FOR FLOYD COUNTY

I address this article to all of my supporters, new acquaintances, and to those of you who desperately want a change, but have voiced your committment to another candidate. This campaign has been one that continues to inspire within me a desire to search unending for answers to your questions. Improvements are being done as usual to areas that should have been improved 31/2 years ago. I hope and pray that this political means of securing your vote will only give you more SOLID PROOF that it is PAST TIME to make a change.

I have never felt so strong about committing myself to you (people of Dist. 2) and desiring to cast my vote toward that, which will better not only Dist. 2, but all of Floyd Co. I am a Floyd Countian, just like you, and to tell you the truth, I am sick and tired of my county being put down and counted out. There is an old saying, "Kick a dog long enough, and he will bite back." Friends, that time is at hand and with

your support we can bite back.

I am not running against anyone as such; I am running for an elective office that represents the people. I have no personal vindictiveness against any candidate. My zeal for this office is to demonstrate to the people what can be done as to what hasn't been done.

We are only two weeks away from deciding who will be your candidate to support in this Democratic Primary election. This has been a long race, but I feel like I have just gotten my "Second Wind" and with your vote and support I will cross the finish line first; however, the true winner will be yourself. For 4 more years of moving in a new direction, vote No. 4 on the ballot.

ALL I PROMISE IS EQUAL JUSTICE FOR ALL FLOYD COUNTIANS

IF YOU ARE A LIFELONG RESIDENT OF FLOYD COUNTY LIKE ME...

YOU ARE:

* Tired of untrained deputies, family, friends, and political appointments being hired to conduct law enforcement in Floyd County.

* Tired of unfulfilled promises that can't be nor don't intend to be kept.

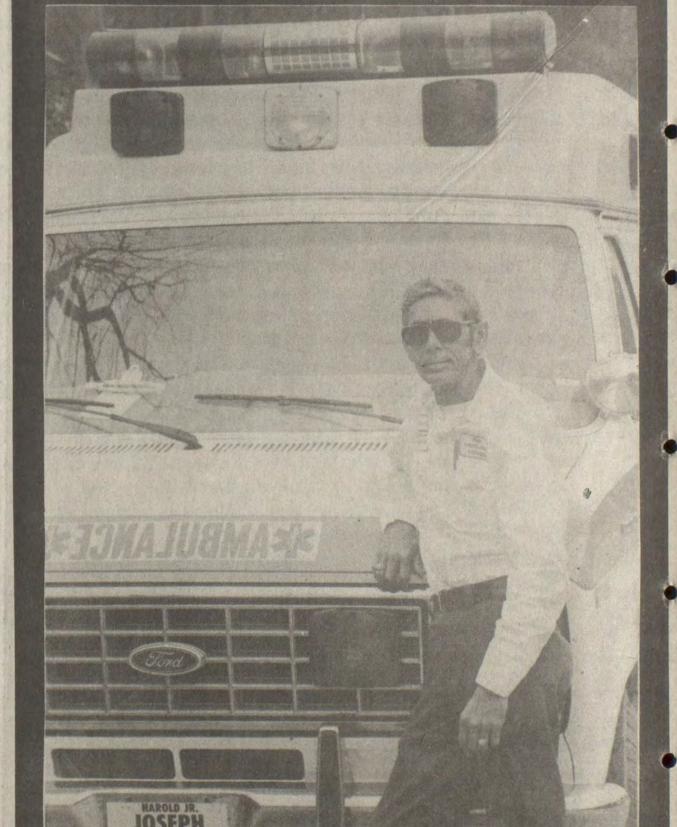

* Tired of no officers being available in times of need or officers responding several hours later.

* Tired of being unable to have simple legal papers served.

* Tired of drugs being sold in our schools.

* Tired of poor fiscal administration in our sheriff's office.

* Tired of unequal justice and treatment.
