'Not Much Change'

Jackson Weather Service personnel sum up the weather through the weekend in three words: "Not much change." Wednesday and Thursday will remain hot and very humid, with temperature highs to 95 and nighttime lows of 70-75. "An outside chance" of showers — less than 20 percent — is included in the forecast.

The extended prediction for the weekend includes fair to partly cloudy skies with scattered thundershowers a possibility for Friday. Weekend highs are expected to be in the upper 80s to low 90s, with nights in the mid-60s to lower 70s.

Auxier VFD Receives Grant

A \$4,975 grant from the Area Development Fund has been awarded to the Auxier Volunteer Fire Department for the purchase of communication equipment.

According to local officials, the new equipment will enable them to be reclassified to a class 8 on the ISO rating scale. The new rating will allow individual homeowners to save about \$130 annually on insurance premiums.

The Big Sandy Area Development District Board of Directors recommended the project for funding.

The Area Development Fund is a capital projects' program administered by the Department of Local Government in the Office of the Governor.

Floyd Native . . .

Dorothy Friend, formerly of Prestonsburg, has been named area superintendent with the Fayette County public school system, according to Superintendent Ronald Walton.

Friend served for 23 years as principal of Cassidy Elementary School in Chevy Chase, will become head of the district's new area three. Boundaries for that district have not yet been drawn by school officials.

Friend is the former Dorothy Sue Allen, daughter of Anna Mayo Allen of Prestonsburg and the late Prestonsburg attorney E.L. Allen.

Coach Considered

Coach Gordon Parido of the Prestonsburg Blackcats was one of three candidates in the running for the head coaching position of Knott County Central's basketball team.

According to Knott County Superintendent R.B. Singleton, attempts to contact Parido for an interview at Tuesday night's meeting failed.

"Parido was one of three selected by a committee to be considered for the position," Singleton said. "We haven't been able to reach him. Some tell us that he is in Indiana, others say he has gone to New Mexico. We don't know where he's gone."

According to Singleton, the committee will select from the other two candidates: David Stamper and Jim Rose. An announcement should be made Wednesday morning.

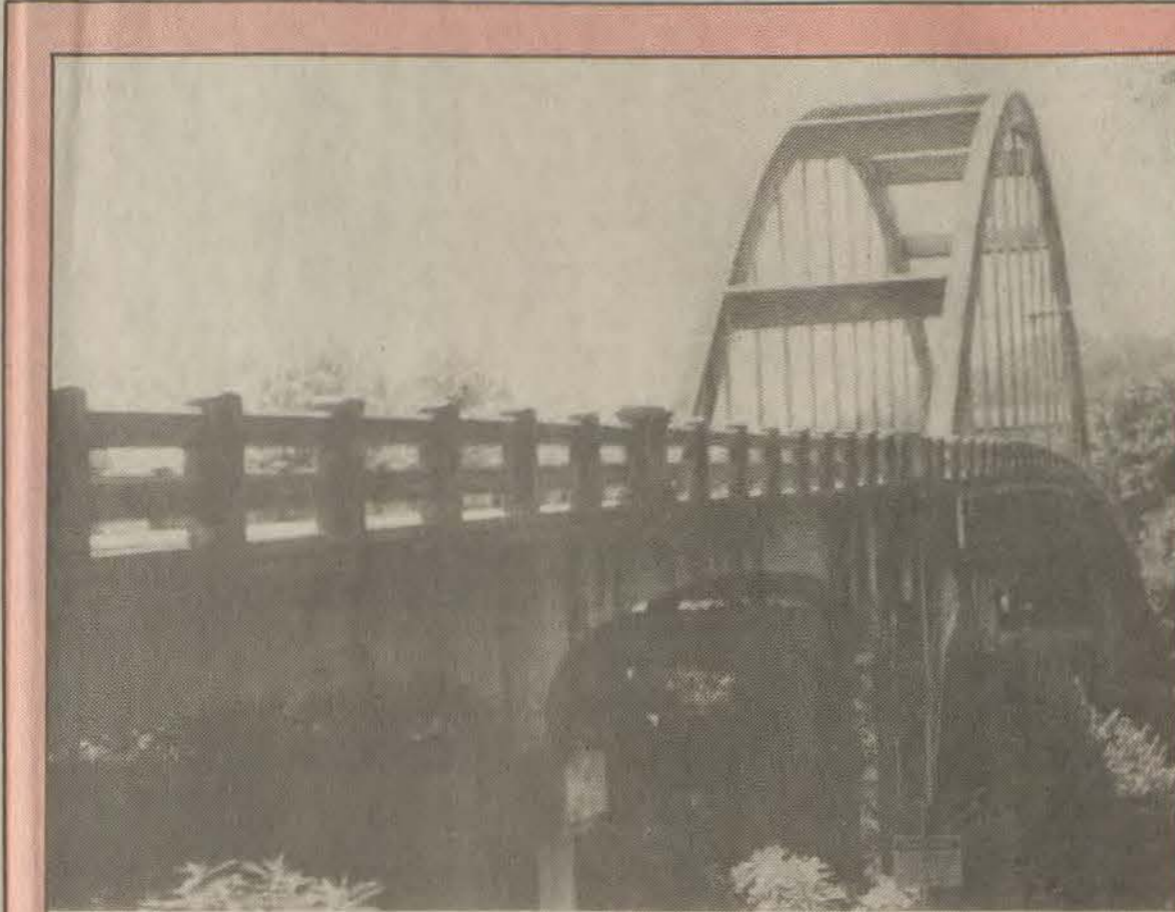

Moving . . .

The Office of Vocational Rehabilitation, located at 23 South Central Avenue in Prestonsburg, will be moving Monday, July 31, to a new location at Highlands Plaza in Prestonsburg.

West Prestonsburg Bridge Face Lift Planned

Prestonsburg's 'Golden' Arches

The 1928-vintage bridge, linking Prestonsburg and West Prestonsburg, will soon be spruced up for pedestrian traffic after the span has set idle for 10 years. Clean up, fix up, light up, all are on the city's agenda for opening the bridge in about three months, according to Mayor Ann Latta. The classic-looking bridge, recently added to the National Register of Historic Places, is featured on much of the city's promotional materials.

Walkers, runners and bicyclists will have a more pleasant and scenic alternative route if plans materialize to renovate the old West Prestonsburg bridge within the next three months.

Recently listed on the National Register of Historic Places, the bridge is to be "renovated, beautified and reopened as a pedestrian-bicycle walkway," according to Prestonsburg Mayor Ann Latta.

The arched structure, built 61 years ago, was closed by the state in 1979. Latta said she requested that the state highway department assist her in determining if the bridge was safe for pedestrian traffic.

The department, no longer responsible for the bridge since turning it over to the city, lent State Engineer James D. Wood to help with the inspection. His report, Latta said, stated that the bridge "can safely sustain limited pedestrian traffic for an in-

definite time without major renovation."

Wood also recommended several improvements that would insure public safety, including the placement of permanent barricades to prevent vehicles, other than bicycles, from entering the bridgeway. Latta suggested putting concrete planters at both ends of the bridge.

Other improvements recommended by Wood include resurfacing the approaches to the bridge, removing an unused utility pipe on the sidewalk, repair of the steel supports under the floor of the bridge to prevent deterioration and trimming of trees and brush around the bridge.

Also recommended was the erection of a chain link fence inside the bridge handrails to limit pedestrian access to the sides of the bridge.

Latta said that the city will also

Left Beaver Road Project Put On Hold

A proposed three-lane road project the McDowell area and Rt. 80 near Garrett has been put on hold, according to state officials.

Although the cause for the delay was not available as of presstime, an unnamed source with the state Transportation Cabinet confirmed Tuesday that right-of-way purchases for the road were halted Thursday.

At least five families have sold right-of-way to the state, and approximately nine residences will have to be relocated.

There were conflicting reports as to whether one family had returned money to the state for previously purchased right-of-way. According to one source, a family had refunded the money and been returned the title to the right-of-way. However, another source said that no land had been returned to any families.

State Transportation Cabinet employees have been purchasing right-of-way primarily on Sizemore Branch, an area of about one to one and a half miles. It is the most populated stretch of roadway for the proposed three-lane project.

State Rep. Greg Stumbo was unaware of any reported delay until contacted Tuesday. Stumbo called Gov. Wallace Wilkinson yesterday afternoon, and said he received verbal assurance from the governor that plans to build the road are still in place.

The design for the road calls for two 12-foot lanes and passing lanes on hills. If built, the project will connect the Left Beaver area to Rt. 80, providing easier access to the four-lane for residents in the southern portion of the county.

Insurance Rates Cause Concern For Prestonsburg Council Members

Prestonsburg City Council members got a bit of a jolt Monday evening when they heard the renewal quote for the city employee's health insurance package. The city faces a 20 percent increase in the cost of coverage, according to Dick Clark of the Hall and Clark Agency.

"When is this going to stop?" asked Councilman William O. Goebel III, referring to the series of increases in recent years.

Clark explained that these types of increases are occurring "all across the country in hospitalization." Blue Cross/Blue Shield representative Joe Wolfe said the cost of hospitalization is affected by consumer usage, expensive technology, duplication of services and the "aging of society."

The city pays 100 percent of the insurance premium for its 63 employees, which amounted to about \$110,000 during the 1988-89 fiscal year, according to Brenda Hayes, city treasurer.

Wolfe said rates are based on a formula that takes into account insurance usage by those covered locally and by state averages. He added that the only action the insurer can take to reduce rates is to "reduce benefits."

Goebel asked about the possibility of offering special rates for persons who try to keep physically fit. Wolfe replied that such a plan would

'I don't think reducing employee benefits is an option,' said Mayor Ann Latta. "It's not the employees' fault. It (the increase) is just happening.'

not be available for the next year. "If (insurance rates) keeps climbing, we've either got to find more income for the city or cut into employee paychecks," said Goebel, adding that he wanted "to guard against this."

"I don't think reducing employee benefits is an option," said Mayor Ann Latta. "It's not the employees' fault. It (the increase) is just happening."

Wolfe told the council that "rarely do you find a business that pays 100 percent of family and single plan insurance."

Council members agreed to have the personnel committee discuss the issue further. In the meantime, they authorized City Administrator Fred James to sign a non-binding master contract with the insurer.

The council also heard the first reading of an ordinance that revises the city's personnel policy. The re-

vised policy contains several changes to the previous policy and covers such matters as employment application procedures, employee evaluations, sexual harassment and overtime.

On a motion by William Callihan, seconded by Paul Joseph, the council voted to resubmit its application for monies to finance the purchase a block of buildings on Front Street. Mayor Latta had informed council that the original CDDG grant had been rejected but that the proposal could be resubmitted for the September application period.

Council members also authorized James to advertise for bids to refurbish a fire truck and to advertise the sale of surplus property.

Councilmen Charles Hale and Jim Yates were absent from the meeting.

Two Arrested In Drug Case

Two West Prestonsburg men were arrested Saturday evening on drug related charges following an undercover investigation by Kentucky State Police and the Prestonsburg Police Department.

James Patrick Allen, 25, was charged with trafficking in marijuana and Mickey Parker, 31, was arrested for possession of marijuana. The arrests took place at about 9:30 p.m. at Abbott Creek, according to a KSP spokesman.

Police confiscated two ounces of processed marijuana and 12 marijuana plants in the raid.

Both men were taken to the Floyd County Jail. Allen was later released on a \$5,000 surety bond and Parker on a \$2,000 surety bond.

Other arrests are pending, according to the KSP.

Arresting officers were KSP Tpr. Les Stapleton and Prestonsburg Police Sgt. Jeff Stumbo.

Earlier that day, KSP officers Eddie Crum, John Reynolds and Stapleton confiscated 50 marijuana plants in a field near Ashcamp in Pike County.

Court Reviews Dam Funding, Considers Glo Bridge, Salaries

by Pam Shingler, Assistant Editor
A Virginia dam, a Wayland police cruiser, a railroad bridge at Glo, sheriff's department salaries and county roads were among issues addressed at the July 21 meeting of Floyd County Fiscal Court.

At the urging of Pike County Judge-Executive Paul Patton, the local fiscal court passed a resolution in support of the construction of the proposed Haysi Dam in Dickenson County, Va., "as a flood control project benefiting Floyd County."

The resolution also expressed the willingness of the court to share with Pike and Johnson counties and the states of Kentucky and Virginia in the cost of the dam construction. According to Patton's calculations in a letter to Floyd Judge-Executive John M. Stumbo, Floyd County's part should amount to between \$45,000 and \$75,000, spread over a two or three year period in the 1990s.

Although to be built in Virginia, the US Army Corps of Engineers estimates that about 80 percent of the

Few File For City Offices

Although the offices of all city council members and mayors in the county are up for grabs this fall, very few Floyd Countians have filed for any positions.

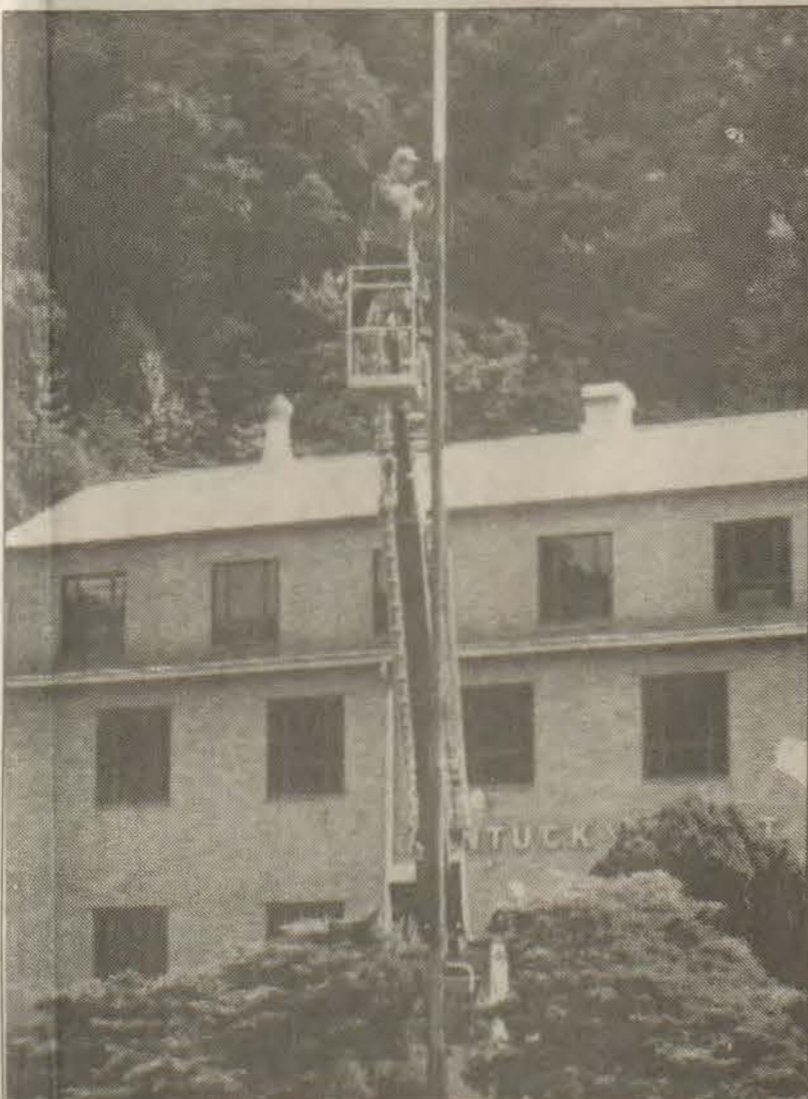

Filing, which opened Jan. 1, will close Aug. 31 at 4 p.m. Apparently, most candidates are waiting until the deadline nears.

Wheelwright, which has a four-member council and mayor, posts the largest slate of candidates. Filing for council seats to date are incumbents Dennis Harris and Dennis Holbrook. Others filing are Alfred Rhea and Ruth Daniels. Allen Taylor is the sole candidate thus far for the mayor's office.

In Martin, all but one incumbent council member has filed for reelection. The five members of the current six-seat council who have filed are Joe Simpson, E.P. Grigsby Sr., John L. Maddox, Earritt M. Hayes and Denzil Halbert. James Robinson is the only newcomer to file for the council.

No candidates have filed for the Prestonsburg, Allen, Wayland or Martin mayoral offices, nor have any filed for council seats in Prestonsburg, Allen and Wayland.

Allen has a three-member council, in addition to the mayor, while Wayland has a four-member council and a mayor. Prestonsburg, posting the largest number of seats available, has eight council and one mayoral office.

Local Scouts Will Attend National Jamboree Aug. 2-8

by Janice Shepherd
Freelance Writer

For the first time in Floyd County Cub Scout history, two complete area cub scout groups will attend the National Scout Jamboree near Fredericksburg, Va. Aug. 2-8, according to Prestonsburg Scoutmaster Johnny Ross.

The two scout patrols, The Awesome Mountain Possums and the Eastern Kentucky Thoroughbreds, are members of Prestonsburg Scout Troop 877. The troop is part of the Blue Grass Council which represents 55 counties. According to Ross, 16

area boys were among the 32 boys hand-picked from the council to form new troop, Scout Troop 422, which will attend the jamboree. Scouts were selected on the basis of superior scouting abilities, Ross said.

Steve Berger, 17-year-old Eagle Scout at Wheelwright, was chosen as Senior Patrol Leader of the troop — the number one position in scouting, Ross said. Berger is the son of Mr. and Mrs. Stephen Berger of Bevinville.

Ross was selected as the scoutmaster for the new troop. He was chosen from among 23 applicants from the council. Ross has been scoutmaster

for the Prestonsburg troop for approximately 10 years. He is employed with the Department of Environmental Protection.

Ross said that though this is his first experience with the jamboree, he is looking forward to the event. "Scouting gives a boy an awareness of his duty to God, his community, and to others," he said. The purpose of this year's jamboree, 'The Adventure Begins... With America's Youth,' will help youth know America by learning more about the principals and history of democracy, by living

and sharing with others from all parts of the nation, and by seeing America as they travel," Ross said. "The jamboree is being done because of scouting's reputation — a whole world of brotherhood," he added.

Troop 422 will add an extra day to its busy itinerary to tour Washington, D.C., since the jamboree will be held near the capital at the Fort A.P. Hill military base, Ross said. Ross indicated that though not enough funds have been raised to cover the cost of the trip, approximately \$595 per boy, the scouts will attend the jamboree.

letter before scout founder Sir Robert Baden-Powell died, he wrote about what true happiness means — happiness doesn't come from being wealthy or having some sort of social status. True happiness comes from making other people happy... remember the Scout oath and law always, even when you have ceased to be a boy, and God

help you to do that," Ross said. "Baden-Powell said scouting was a game designed for boys to be run by boys and it is my function as a scoutmaster to insure to insure safety, and to see that they have a good time," Ross added. "In other words," he added, "Train them, trust them, and let them lead."

FCEA Officers

The Floyd County Education Association recently elected new officers, who began their duties last week. Pictured above, from left, are Pat Barnette, secretary; Jane Spurlock, president; and Bud Reynolds, vice president. Not pictured is treasurer Emma Grace Hartley. Spurlock said FCEA's first goal of its new year is to build a stronger organization and plan a yearly strategy. Among the first items FCEA is expected to address is a recently-adopted policy by the local school system that prohibits teacher sick-outs or other actions that impede or impair the educational process. "That is of some concern to us," said Spurlock, adding that Kentucky Education Association lawyers studying the policy. On a lighter note, said Spurlock, FCEA will hold its first membership picnic Aug. 6 at 2 p.m. at Allen Park. Members are asked to bring a covered dish.

benefits of the dam will accrue to Kentucky, particularly the counties in the Big Sandy Valley.

A long-awaited police cruiser for the City of Wayland will soon be a reality since the fiscal court accepted a \$4,000 grant from the state Area Development Fund to purchase a replacement vehicle. The money had been requested through the Big Sandy Area Development District.

The magistrates also directed County Attorney David Allen Barber to negotiate with CSX to clean up the railroad bridge at Glo, near Wayland. The move was prompted by the Floyd County Health Department's declar-

ing the bridge as a health hazard.

In a letter to Barber, Carl Baldrige of the health department said that trash, old car bodies and other debris get caught in the bridge framework, creating "various problems including a rodent problem."

Baldrige asked Barber, in the letter, to remove the bridge. However, Stumbo said he has learned that CSX is using the once abandoned bridge again. "But that doesn't relieve the health hazard," Stumbo said in directing Barber to contact the railroad company.

The court also responded to Sheriff Henry Hale's request for a 3 per-

cent cost of living raise for his employees by approving the raise.

Magistrates authorized East Kentucky Utilities to apply for an additional loan, up to \$50,000, from First Commonwealth Bank to continue its system renovation. The loan pending application for a loan with the Gas Systems Restoration Project of the Kentucky Department of Local Government.

Also approved was the hiring of several employees: Mike Auxier (\$17,000 annually) and, at \$7.98 an hour, Freddie Daniels, Bruce Prater, Eddie Gayheart, Mike Jarrell, Scott E. Layne, Charles L. Lewis, Donnie Gayheart, Norman Hall, Greg Cooley and Ronald Akers.

The hiring resolution also included the provision that all future road crew employees will be hired at the rate of \$5.25 an hour for truck drivers and \$6 an hour for heavy equipment operators, with a work review every six months.

At the request of petitioners, the court accepted two roads into the county road system, one at the Auxier Road Hillside Addition and the other at the mouth of Spurlock.

Magistrates also heard complaints about roads from Ray Adkins of Harold and Virgil Halbert Sr. of Johns Branch, and a request by Jerry DeRossett of Bull Creek to reopen an old county road near his house. Stumbo said he would investigate the requests.

In opening bids for a variety of materials and supplies, the court agreed to accept the "lowest and best bid."

All magistrates were present for the meeting. The next fiscal court meeting will be Friday, Aug. 18, at 10 a.m. at the Courthouse annex.

P'burg Police Report Vandalism, Accidents

Five downtown Prestonsburg businesses and a car were vandalized early Tuesday morning, according to Prestonsburg Police reports.

Bricks and, in at least one instance, a concrete block were thrown into windows of the Sundry Store, Coachman, the old Hobbs building and Jim Hammond Law Offices. A brick also damaged tile below the window at the Peggy Lou Shoppe, and a car at Indian Hills apartment building was also vandalized.

In addition to glass breakage, Hammond's office sustained damage to a desk.

No arrests had been made Tuesday afternoon.

Four traffic accidents were also reported in the past week. Last Thurs-

day, a car driven by Krishna Verma of Martin struck a northbound vehicle driven by Opal May of Prestonsburg when Verma attempted to turn from a private drive on South Lake Drive.

A rear end collision resulted Friday when a car driven by Boyd Holbrook of Auxier struck one driven by Billie J. Hackworth of Prestonsburg on North Lake Drive.

In two separate Saturday accidents, a car driven by William H. Brewer of Pikeville backed into a vehicle operated by Arnold Sturgill Jr. of Betsy Layne on Railroad Street, and at Prestonsburg Village, a car driven by Melody York of Pikeville backed into one driven by Pauline Salyers of Salyersville.

Explosion Collapses Pike KPC Transmission Tower

A \$50,000 reward is being offered by Kentucky Power Co. for information leading to the arrest and conviction of persons who used explosives to blow out two legs of a steel tower carrying interstate transmission lines in Pike County Monday morning.

The 85-foot-high transmission tower, which held 765,000-volt electric lines, collapsed after the explosion and carried transmission lines to the ground.

The tower, located near Elkhorn City, is near the Kentucky-Virginia line.

According to Robert E. Matthews, president of Kentucky Power, the extra-high voltage line transmitted large blocks of power to West Vir-

ginia, Virginia, and 365,000 residents of Eastern Kentucky.

"It is evident that this violence was a planned, criminal act," Matthews said, noting that it may cost Kentucky Power Company up to \$1 to \$2 million to repair.

"It takes a criminal mind to carry out such senseless destruction of property, endangering the public which is dependent upon electricity for safety, health and comfort," Matthews said.

"If this is the outgrowth of a mining labor dispute as is suspected by some, it is a sorry commentary on the thinking and actions of the guilty parties. Kentucky Power Company is not involved in any labor dispute," he said.

Matthews said the company intends to prosecute those responsible, and has contacted the US Bureau of Alcohol, Tobacco and Firearms, the Federal Bureau of Investigation and Kentucky police authorities. Anyone with information about the incident is asked to call Kentucky Power.

Birchfield Pleads Guilty To Charges Of Counterfeiting

An Allen man pled guilty in US District Court in Huntington, W.Va., last week to the charge of counterfeiting Canadian currency.

Rick Birchfield, 32, admitted to furnishing a color photocopier and \$10,000 in a counterfeit scheme that produced \$800,000 worth of phony money, according to published reports.

Birchfield was indicted last winter for his role in the counterfeiting project which involved John P. McCoy, a Pike County man who has also faced federal charges of robbery and murder in separate incidents.

Reports indicate that McCoy asked Birchfield last summer to get a \$35,000 copier for the counterfeiting. Birchfield also reportedly gave McCoy \$10,000 to exchange for Canadian bills. Birchfield apparently did not produce the money himself.

The Floyd County man signed a plea agreement with federal prosecutors, according to wire service reports. Birchfield could get two years in prison and a fine of either \$250,000 or any gain he might have made with the counterfeit bills.

VFW Service Officers To Visit Prestonsburg

Ray Hensley and Phil Marcum, service officers for Kentucky's Veterans of Foreign Wars, will be in Prestonsburg on Saturday, Aug. 5.

The two will be at the VFW Post 5839 Home at 1330 South Lake Drive in Prestonsburg from 10 a.m. until 3 p.m., or as long as there are veterans or dependents who need assistance in filing a claim.

"The bridge's reopening will provide a functional as well as beautiful asset to the City of Prestonsburg," the mayor said.

Locals Provide Aid For Nicaraguan Co-op

About 25 Floyd County residents gathered in Prestonsburg recently to donate building equipment and much-needed funding to a private Nicaraguan fishing cooperative devastated last year in a hurricane.

The equipment and money will be carried to Nicaragua on one of about 26 trucks and buses traveling in a convoy to Central America. Several Kentuckians, including Loren Cramer of Berea, will be traveling in the caravan to deliver the aid, said Kristin Layng Szakos, one of the event's organizers.

"This project will support a group of fishermen in Bluefields, in eastern Nicaragua, whose livelihood was destroyed when their boats and warehouses were destroyed in last year's hurricane," Szakos said. "Because the

United States does not support the Nicaraguan government, our country didn't participate in any of the international relief efforts to help the hurricane's victims. We're trying to make up for that in some way. The supplies we send will be used to build boats and storage facilities so the people in eastern Nicaragua can start to support themselves again."

The caravan is sponsored by Pastors for Peace, an ecumenical group of ministers and church members throughout the country working to bring humanitarian aid to the people in Nicaragua while helping US citizens understand the situation there, Szakos said. The trucks will drive from cities in almost every state, coming together in Texas for their drive through Central America.

Traveling with the caravan through Prestonsburg was a native of Bluefields, the Rev. Norman Bent, who told the group about his country's situation.

"We have been hit by war, by flood, by earthquake, forest fires and hurricanes," Bent said. "By far the worst are the war and the hurricane. In Bluefields alone, more than 50,000 people were left homeless (by the storm), but here in the US two whales stuck in the ice in Alaska got more attention."

Bent described his recent travels through the United States, meeting people in cities and small towns. "I've seen the people in the grassroots grow in understanding about Nicaragua," he said. "I do not believe that most of them support your government's

funding of a military force against my country."

Pastors for Peace and the Kentucky Central America Information Network, whose Floyd County chapter sponsored the event at the First United Methodist Church in Prestonsburg, support a peaceful solution to political differences in Nicaragua, rather than military intervention, Szakos said.

"This kind of people-to-people effort will help us learn about the situation in Nicaragua, so we can better understand other solutions to the problems there," she added.

For more information about the Kentucky Central America Information Network, contact Szakos at 874-9584.

Hager's Doing Good Job, Says County Reader

Dear Editor,
I am appalled by the idea of some lady from Tucson, Ariz., trying to tell the good citizens or the school board of Floyd County what we should or should not feel about Ronald Hager.

It is so easy for someone over a thousand miles away who reads bits and pieces about a subject to make rash judgments and throw stones. I personally think Mr. Hager has done a very good job considering the condition the system was in when he took over. I personally believe that if one wishes to point the finger or throw stones, let them first look at the previous administration. That was when the trouble all started. By the way, isn't it our previous administrator who is under investigation right now for improper political activity on school grounds?

If Helen Storie Nicola is so interested and concerned with the Floyd County educational system, why isn't she here in Floyd County doing something about it, instead of sitting in Tucson throwing stones?

Sincerely,
T.D. Allen,
David

Floyd Students Say They're Not Getting Needed Education

Dear Editor,
Students feel that the Floyd County School System is not providing an education that the students need today.

Students feel that the teaching practices are inconsistent and do not offer the help we need in the classroom. The assignments given to the students are confusing. Because the material is often on the chalkboard rather than coming from the teachers, the students are having to depend more on the chalkboard than they do on the teachers.

HOW CAN WE LEARN LIKE THIS!!

Other issues such as unfair treatment and inconsistency also make the learning environment that much more difficult. Too many students, lack of materials, and not enough desks is a description of many classrooms. There are usually 30 to 35 students in a class which leads to not enough books and, more importantly, not enough attention. The overall

school environment is unclean. Classrooms, restrooms and cafeterias are examples of uncleanliness and need improvement. A recent graduate describes the school environment as "wild, argumentative, overcrowded, threatening. It seems that money is a priority over the students learning."

We are not trying to attack or offend our school system, we just want to be heard. What we need is an education, not a grade. We are asking for a clean environment, consistency, fairness, less crowded classes and better materials. We would like our system to be as serious about our education as we are willing to be.

We are asking for a better school environment and a better learning opportunity to prepare us for the future.

Sincerely,
Concerned Students:

Reader: 'Ain't It A Shame?'

Dear Editor,
I am a 68-year-old World War II disabled veteran and I am ashamed of our government.

For our government treating the real "Americans, the Indians or red man, the way they are and have been for much too long.

For our government treating the Americans of Japanese origin in World War II the way they were — herded off from their homes and businesses and put in concentration camps.

And for the way our government is treating we veterans — all veterans. How can our president, vice president, senator and congressman treat or mistreat we veterans as they are? We veterans were heroes after the war and now the Japanese and Germans are treated better than we veterans.

I will never forget Pearl Harbor, the Bataan death march, the atrocities by them; and the atrocities by the Nazi Germans, especially the Jewish people, both the Japanese and the Germans forgot the Geneva Convention and the rules of war. No, I'll never forget — nor should any of you.

All veterans, veterans' wives and sweethearts, veterans' parents, sisters, brothers, friends and good citizens should write to our government

officials in defense of all veterans and their needs — please.

Articles Bring Fond Memories

Dear Editor,
Am glad to see that you are doing a fine job getting the news out in the Floyd County Times. Two items brought back fond memories:

One: Your report on the passing of my dear friend Edith Fitzpatrick James. Edith played the piano at our first meeting of the Kiwanis Club of Prestonsburg, on Dec. 8, 1923, at which I became one of the charter members. We met in the Valley Inn hotel at the lower end of First Street.

Two: Your news item showing the county judge, and others, marking certain improvements of the golf course at Allen. I was one of the first members of that club, and prepared the articles of incorporation, and was instrumental in obtaining easements from the C&O, and I believe a coal company. We had sand greens, on which we spread waste oil so the sand would stay put after we leveled a pathway for the ball.

Keep up the good work, that so ably carried on by Norman Allen, Latta, Harlowe and others.

Respectfully yours,
Edward P. Hill,
Frankfort

'The Big Draw'

Dear Editor,
The Big Draw, and we ain't just talking cigarettes! (These are) two of the biggest killers in Floyd, Magoffin, Johnson and Pike counties.

Let's not make the children of the future suffer for our effortless, dependent, lack of supporting, able-bodied men who are weakened by help from a DRAW, who rely on support from the state, which lends itself to a loss of self respect.

Webster's Dictionary definition for compensation is as follows: "An attempt to disguise an undesired trait, by exaggerating a desired or socially approved trait." The moral fiber of our country is weakened by a work force who is unwilling to work hard, with self respect and respect for their employer, who, if they're willing and attend to responsible work tasks, quality control, time consciousness, etc., can in turn pay higher wages for all who go through a self help — self effort program.

Time and execution: two factors of good business. The Japanese people came back from the disaster of World

War II to rebuild a work force of a determined, although distraught but courageous people, who with self respect and honor looked with faith and hope to their symbol "the rising sun" to become the wealthiest, most productive country of modern times.

If you are sincerely interested in self improvement of our standard of living, to give our children a better future and hope of a better tomorrow, join us in a new movement! The average worker in our labor force gets \$3.35 an hour because their work precedes a weak attitude with no ambition, no desire to get ahead. Consequently, they put out no effort or thinking ability for their employer, thereby freezing their low wages. If one is educated on a program, training their help to detail their work, speed up, be time conscious, not just clock watchers, be time conscious for their employer, their pay would compensate their ability and output of effort.

To be misunderstood even by those whom one loves is the cross and bitterness of life. It is the secret and that sad and melancholy smile on the lips of great men so few understand.

Present Officials Trying To Improve Quality Of Schools

Dear Editor,
As a concerned citizen I would like to express my views regarding the public presence of the Rosenbergs, the Pillersdorfs (Janet Stumbo's husband), Delores Smith and Roberta Luxmore. I am so sick and tired of seeing them publicly degrade our school system (and) our officials. I believe if you want to help improve situations, you do not attempt to do what they have done.

I have lived in Floyd County all my life and have seen a large majority of professional people who have graduated from our high schools and gone on to college and come back to Floyd County to serve our needs.

Things are not as good in our school system as they could be, but I believe the present administration is trying to improve the quality of the schools.

I just get sick and tired of this group of people speaking for the county as a whole. Please quiet your voices so you can hear what you are saying.

Report to Kentucky

By Senator Wendell Ford

HELPING KENTUCKIANS FACE THE BUREAUCRACY

During our recent holiday recess, I was able to spend several days in Kentucky, which is always the most rewarding part of my job.

I mention this because it brings up a point that I am not sure everyone fully understands. While Congress does almost all of its legislative work in Washington, spending time with

constituents will always be one of the most important duties of any member of Congress from Kentucky or any other state.

One reason for this is the continuing need to stay in touch with the wide range of problems, opportunities and feelings of the electorate. A less obvious but equally important reason, in my opinion, is to bring our government down to a human level.

No Kentuckian and no American should be helpless at the hands of a vast, faceless, computerized and too often self-serving federal bureaucracy.

This is one reason why I spend as much time as I can in Kentucky. This is why I have well staffed district offices in Louisville, Lexington, Covington and Owensboro, and keep track of their service to Kentuckians in all walks of life. This is why I am extremely proud of the fact that these offices have handled more than 34,600 items of casework for Kentuckians over more than 14 years.

We have been able to cut through red tape, confusion, delay and inequity to keep Kentuckians from being deprived of many well deserved services. Our official inquiries have helped many Kentuckians obtain sorely needed medical and other benefits from the military, the Veterans Administration, the Social Security Administration and many other federal agencies. We have not won every case, but our Kentucky staff members have persevered to the point where they have made lasting friends in every part of our state.

In addition to casework, our Kentucky and Washington offices handle more than 25,000 constituent phone calls a year. We also welcome many Kentucky visitors and handle large volumes of constituent mail. These vital contacts involve everything from common-sense opinions on major issues of the day to complaints about misguided federal policies affecting large groups of Kentuckians.

Based on such complaints, I was able to help persuade the Army to reverse last year's unwarranted decision to cut off important medical services provided to military retirees at Ft. Knox, Ft. Campbell and the Lexington-Bluegrass Army Depot.

Every member of Congress must respond to the rising demands of national and international issues. But I also intend to keep dealing with the many concerns of Kentuckians who are dissatisfied with the quality of service emanating from distant power centers. These Kentuckians deserve help from their own elected officials, and I will continue to take pride in the efforts of my Kentucky and Washington offices to provide as much of that help as we possibly can.

U.S. SENATOR FOR KENTUCKY

Mitch McConnell

WE NEED A CONSTITUTIONAL AMENDMENT TO PROTECT THE RED, WHITE AND BLUE

In late June, the Supreme Court handed down a decision that shocked and outraged the nation. By a 5-4 decision, the eight men and one woman who are charged with interpreting the Constitution ruled that burning the American flag is a protected form of free speech and within the guidelines of the law. Their decision strikes down a Texas law that makes flag-burning a criminal offense and casts into doubt the legality of flag-burning laws throughout the rest of the United States.

Look with shame upon the Court's ruling and I believe that it is a slap in the face to the men and women who have been called to serve this country, and the tens of thousands who have laid down their lives for the ideals that are embodied in the Stars and Stripes. The founding fathers realized that free speech, the right to protest and dissent, would form the keystone of our new democracy. I believe in free speech, but I do not believe burning the flag is an expres-

sion of that freedom — in fact, I have cosponsored legislation to prohibit the desecration of the flag.

The bill I am supporting was introduced by Senate Minority Leader Bob Dole (R-Kan.) and calls for a constitutional amendment to protect the flag. To date, the amendment can count on the support of 53 out of the necessary 67 votes needed for the legislation to pass the Senate. Dole has stated that there should be no trouble picking up the other 14 votes when the amendment is voted upon in October. Once the amendment clears Congress, it will be sent to the state legislatures, including Kentucky's, for passage. If three-fourths of the states agree to adopt the amendment, it will be added to the Constitution and become law.

The flag is both symbol and monument to our struggle for freedom. Our journey from a ragged, loosely-knit band of 13 colonies to a world superpower has not been an easy one. In times of trouble, Americans have never hesitated to step forward and answer the call to arms.

Auxier DAV Honors James Caudill

A man who was twice left for dead while a prisoner of war during World War II was honored Saturday with a POW Medal by Auxier Chapter 18 of Big Sandy Disabled American Veterans.

James W. (Dee) Caudill of Auxier accepted the medal from Kelly Webb, past commander of the local chapter, at the chapter's annual picnic at Jenny Wiley State Resort Park.

Caudill was captured by German soldiers while he was on reconnaissance patrol in France in 1943. While in the German POW camp for about 10 months, he said he was twice considered expendable by his captors. Once when ill, he was thrown into the snow to freeze. The other time he was near starvation.

Both times he was nurtured back to health by other prisoners, including two other local prisoners, Shirley Lewis and Gene (Buckwheat) Castle.

When he was left to freeze, the two men "saw my name on the list of new prisoners and looked for me," Caudill said. "They fed me, dressed me up in French clothes and walked me around until I could make it."

Caudill related that even before his capture he experienced a close call. He and another soldier were in a row of buildings that was destroyed by German tanks. At first, he was reported dead and then was found under the rubble by Allied forces a few days later.

When he got out of the German prison, Caudill weighed 90 pounds, he said. "They (Army counselors) thought I would go berserk. They told everybody to humor me."

Caudill added that when he was discharged from the military, he was advised to "forget about having a family. They figured I wouldn't live very long." Now in his 60s, the for-

mer war prisoner has two children, six grandchildren and one great-grandchild.

Also at the DAV social, Cmdr. Paul

Connors presented a plaque to Kelly Webb for his service as past commander, and Dixie Campbell was recognized as a Gold Star Mother.

Auxier Man Honored

Past Cmdr. Kelly Webb, right, pins Prisoner of War Medal on James W. (Dee) Caudill during DAV picnic July 22. Caudill said he still has trouble talking about the 10 months he spent in a German prisoner of war camp during World War II.

Floyd Now Official Bicentennial County

Floyd County has been designated an official Bicentennial County by Gov. Wallace G. Wilkinson and the Kentucky Bicentennial Commission in anticipation of the state's 200th anniversary, which occurs in 1992.

In order to qualify to become a bicentennial county, a local planning committee must be organized and plans for the county's participation in the state's bicentennial must be sent to the Kentucky Bicentennial Commission in Frankfort.

"Our goal is to have a local Bicentennial Planning Committee in all 120 counties," according to Kentucky Bicentennial Commission Chairman Sen. David Karem of Louisville. "The commission established as a priority very early on that Kentucky's Bicentennial must include very community in Kentucky. What we're hoping for, really, is 120 bicentennial celebrations all across Kentucky. We want every county to have its own plans and celebrations throughout 1992," Karem added.

James O. VanHoose of The Bank

Josephine is chairman of the Floyd County Bicentennial Committee.

One third of Kentucky's 120 counties were recognized at a June 1 Bicentennial Planning Conference at the Old State Capitol in Frankfort. The conference was the official kick-off for bicentennial planning throughout Kentucky, which will culminate on June 1, 1992—200 years to the day that Kentucky became a Commonwealth and the 15th state to enter the Union.

"By starting now, we are encouraging local committees to undertake projects that will be a lasting contribution to the community, such as restoring historic buildings, publishing written histories, erecting historical markers, and that type of thing," Karem noted. "By the time 1992 is over, we hope there will be evidence in every county in Kentucky that in celebrating our Bicentennial, we were really trying to make our communities better for future generations of Kentuckians."

Prestonsburg's Water Utility: Nearly 90 Years Of Progress

(Editor's Note: The following story, by Gary Layne, is reprinted with permission from the Summer 1989 issue of Kentucky Rural Water Association, Inc.)

It all began near 1900, when water was sold and distributed in Prestonsburg by horse and wagon. The water came directly out of the Big Sandy River—untreated, raw water—and sold for an alarming 10 cents per barrel.

As time went on and the city's needs grew, the idea of pumps, pipes and tanks came into play. Rather than using the same untreated raw water, many of the residents reverted to hand-dug wells and cisterns for their

drinking water needs.

By 1917, chlorination was added to the water and things really began to take shape. In 1927, a filter plant was designed by H.K. Bell Engineers of Lexington for the owner of the system, Grover Davis. The system consisted of steam pumps, filters and new lines. Davis decided to sell his interest in the water system to E.S. Mays in or around 1930, for a sum of \$60,000. But as the city's demands grew, the city fathers decided it would be in the best interest of the citizens of Prestonsburg to own its only source of potable water, so the city purchased the complete water system one year later for \$100,000.

Things were starting to move at a more inflated pace. Looking back at some of the operational records in 1939, we saw that the plant was operating approximately four to six hours a day and producing approximately 75,000 gallons of potable drinking water. The daily costs were: labor, \$5.37; chemical, 47 cents; power, \$1.30; for a total daily cost of \$7.40.

In 1957, the old plant was operated at capacity and a new 1 million gallon a day plant was built upstream to meet the city's future needs.

This was adequate until around 1983, when a major change was made. The old plant was modified to a capacity of 3 million gallons per day

with capabilities of 6 million gallons a day with some modifications.

Prestonsburg Utilities currently employs 20 people in its water, wastewater and natural gas system. This is the same number of employees that was employed 15 years ago.

Bill Howard, utilities manager, grinned when asked about the unusual situation, and reminded me that many of the employees are third generation operators. This contributed to the efficient operation. Howard has been with the utility company for over 25 years. He contributed much of the success and progress to the hard work and dedication of all the employees.

Prestonsburg Utilities offers its employees a complete health benefit package which consists of dental, accidental death, etc., while also offering an excellent retirement package.

During the past 15 years the employee numbers have stayed the same, but the system has doubled in size. It currently serves parts of three counties, or 10,000 people, including six large wholesalers. Currently, 75 percent of all production capacity is being used by its out-of-city customers, and only 25 percent is used by city residents.

In keeping with the system's demands, Prestonsburg Utilities has currently installed a Motorola radio-controlled telemetry system. This enables the utility to monitor and activate several areas of the system from one central location.

For example, the day I was there, an alarm came up on the screen noting that a low tank level had occurred, but the pumps were on and had been for some time. The operator radioed the field service crew, which turned off the booster pumps, located about 10 miles away. A main line had broken. Within two hours, the leak had

been located and repaired, leaving only a few customers temporarily out of water.

Prestonsburg Utility Co. has been very aggressive in pursuing and receiving low-interest loans and grants. It has made a conscious effort not to neglect its employees' wages and benefits. The utility has only recently

raised its rates—and the last rate increase was in 1980.

Rates currently in effect are: residential, city, 6,000 gallons, \$12.40; residential, county, 6,000 gallons, \$17.20; wholesale, 100,000 gallons and above, city, 1,000 gallons, \$1.50; and wholesale, county, 1,000 gallons, \$1.65.

In comparing this with 1900 when untreated, raw water was sold to residents for 10 cents a barrel, we find that the current rates for in-house delivery, plus chemically treated water to Safe Drinking Water Act standards, is nearly 11 cents a barrel. We are assuming that a barrel of water is 55 gallons.

In conclusion, it appears that in nearly 90 years, the cost of Prestonsburg's water has risen a whopping penny a barrel.

County Students Earn, Learn At OLWH

For the seventh consecutive summer, Our Lady of the Way Hospital is participating in a summer youth employment training program sponsored by the Big Sandy Area Community Action Program, Inc.

The program provides activities and services for youths 14 to 21 years of age, assisting them in overcoming employment barriers, according to Sister Joan Shalopin of OLWH.

Such barriers include insufficient

career education and exposure to career options, Shalopin said. Some of the major objectives of the program are to encourage youths to remain in school, to provide counseling services in the area of career choices and to provide the youths with a means of earning an income during the summer, she added.

Four students are participating in the program at Our Lady of the Way this summer. They are Melinda Mar-

tin, a Morehead State University radiologic technologist major, Roger Horne, an University of Kentucky School of Pharmacy major, Tammy Smith, an MSU BSN major, and Virginia Bryant, also attending MSU as an education major. This is Bryant's fourth summer with the program.

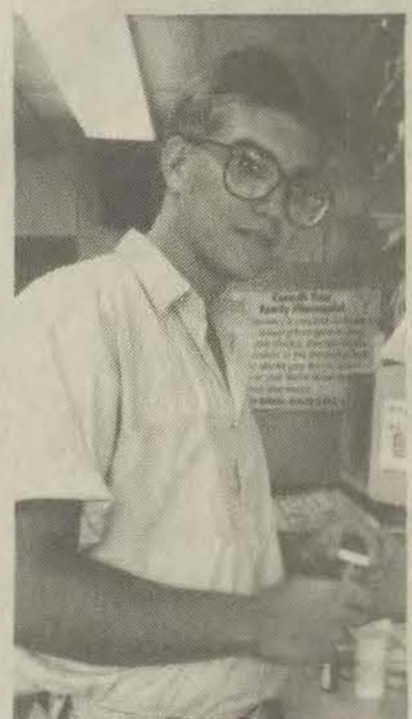

According to Shalopin, the students are placed in departments which will assist them in their careers of choice. Martin is working in the

hospital's radiology and medical records departments, Horne is working in pharmacy, Smith in the laboratory and Bryant is assigned to medical records.

Our Lady of the Way supervisors encourage the students to stay in school, and teach them employer expectations, work practices valued by employers, work oriented attitudes and responsible and dependable employee behavior, Shalopin added.

Religious Viewpoint

Grace According To Christ
by Gary Shepard

Pastor Zebulon Baptist Church

Almost everyone in religion today claims to believe in some kind of salvation by grace. Most preachers and religious leaders talk about grace in general terms and, because of that, they and their messages are widely received and accepted.

This general grace is presented as a sentimental attitude in God toward men, or they tell us that grace is simply the plan by which men who, of their own free will, respond to God's offer and are saved. Although these ideas are generally accepted, this is not the grace of God of the Bible. It leaves God as a mere well-wisher; trying, begging and pleading, and yet salvation is said to be ultimately up to man to either accept or reject. Good intentions will not raise a dead man, and neither will such grace raise a dead sinner to spiritual life.

Had Christ preached such a "grace," he, too, would have met with no opposition, much like the great majority in our day who proclaim such a message. But the Lord Jesus Christ preached salvation by the grace of God as it is — particular, not general! God is an absolute sovereign (doing what He will for whom He will) and His grace must necessarily be sovereign grace.

When Christ returned to the synagogue in his hometown of Nazareth, he stood and read the scriptures as many others before him had done, and they had offended no one. But Christ then proceeded to illustrate to these people who had been taught and believed that God was obligated to be gracious to them that God's grace was not that way at all. In Luke 4:16-30, where this account is recorded, we have the illustration of grace he used and the response of the people.

The first example was the widow to whom Elisha was sent. This is how Christ illustrated God's particular and distinguishing grace: "But I tell you of a truth, many widows were in Israel in the days of Elias . . . but unto none of them was Elias sent, save unto Sarepta, a city of Sidon, unto a

woman that was a widow." (vs. 25,26) Then, so as not to be misunderstood, He reemphasized His doctrine of discriminating grace with a second illustration: "And many lepers were in Israel in the time of Elisus the prophet; and none of them was cleansed, saving Naaman the Syrian," (vs. 27)

Their response reveals that they understood exactly what He meant. He said what the scriptures say throughout, that God will be gracious to whom He will be gracious! This makes man to be the beggar, not God! (Exodus 33:19, Roman 9:24) "And all they in the synagogue, when they heard these things, were filled with wrath, and rose up, and thrust him out of the city, and led him unto the brow of the hill whereon their city was built, that they might cast him down headlong." (Luke 4:28,29)

The response is still the same today when a true servant of God dares proclaim the distinguishing, sovereign grace of God. God did not send either of these prophets with deliverance to all in Israel, but to the two in particular. It is not God's desire nor purpose to save everyone and His desire and purpose are the same. Christ did not die to make salvation possible to all in general, but to secure it for his elect in particular. He laid down his life for the sheep and purchased the church with his blood.

Men today find no offense in hearing messages or reading articles that speak of grace in general, man's so-called free will, man able to limit and resist God, moral lessons or any brand of salvation based upon human works or general grace.

God's grace, like God Himself, is omnipotent, sovereign free grace that was purposed toward its objects before the foundation of the world, purchased by Christ on the cross and produced in the hearts of God's elect by the Almighty Spirit. The gospel of God's sovereign grace is the only message of salvation and the only message that the people of God will hear. They will not hear the voice of a stranger who makes God's grace general, not actually saving anyone. We are commanded to preach this

gospel to every creature not knowing who the sinner's ears as disturbing at first, but delivering and the false message of general grace comes not disturbing but eternally damning. Let us be of those who hear Christ and his message of grace and then bow to him as undeserving, hell-deserving sinners crying, "Lord, be gracious to me and save me, or I perish."

The true message of God's grace comes to the sinner's ears as disturbing at first, but delivering and the false message of general grace comes not disturbing but eternally damning. Let us be of those who hear Christ and his message of grace and then bow to him as undeserving, hell-deserving sinners crying, "Lord, be gracious to me and save me, or I perish."

Obituaries

Eddie Blackburn

Paul Edward Blackburn, 57, of Lacy Creek, died Tuesday, June 20, of an apparent heart attack at the Morgan County Appalachian Regional Hospital.

Born June 24, 1931 in Pike County, he was a son of the late Nicholas and Matilda Blackburn. He was chief technician at the Morgan County Appalachian Regional Hospital at West Liberty, a member of the Church of God, a Mason and a Shriner.

Survivors include his wife, Pearl Newsome Blackburn of Lacy Creek; four daughters, Joyce Nickell of West Liberty, Edna Blackburn of Winchester, Ruth Potter of Lexington and Kathy Ratliff of Pikeville; one step-daughter, Seville Bradley of Salyersville; three sons, Stacy Edwin Blackburn of West Liberty, Mike Blackburn and Tom Blackburn, both of Pikeville; a brother, Billy Ray Blackburn of McAndrews; and six grandchildren.

Funeral services were held at 2 p.m. Friday, June 23, at Herald, Stewart and Halsey Funeral Home with Brother Jimmy Adkins officiating. Burial followed in Davidson Memorial Gardens at Ivel.

Masonic rites were conducted Thursday, June 22, at the funeral home.

Myrtle Blair

Myrtle Louise Blair, 64, of Brooksville, Fla., formerly of Ivel, died Friday, July 21, at her residence.

Gerald Newsome Named Football Mentor At BLHS

By Ed Taylor
Sports Editor

The search for a football coach for the Betsy Layne Bobcats has finally come to a close. A phone call Sunday morning (July 16) at about 11:30 from Floyd County School Supt. Ron Hager officially named Gerald Newsome as the next head football coach at Betsy Layne High School.

The school has been without a football coach since Vince Tucker resigned to accept a position with Morehead State University.

Newsome, who had wanted the coaching position at the local high school, was chosen over other applicants who also applied for the job. Dewey Jamerson applied, as well as out of county applicants.

"I'm glad that Mr. Hager had the confidence in me as a coach," the new head football mentor said. "He waited as long as he could in making a decision. The job had to be advertised before the job could be filled. Mr. Hager handled everything in a very diplomatic way."

Priority number one will be getting the players in shape, according to the new coach. "That's the most important thing right now," Newsome says, "to get them in shape."

Newsome has had his players on the field now for about a week and is excited about what he sees. "The boys we have coming out this year are the most cooperative players I have ever coached. They have a good attitude, and that is important. I told them that I have only two rules. No foul language and be at practice."

"We want to put some pride back into the Betsy Layne football program," he says. "It has been a dead bush that others have beaten. We are going to build the program back to respectability."

Coach Newsome sees the program in the past as a stepping stone for coaches to higher positions. "No coaches have lasted more than two years here," says Newsome. "It's not that they have not been good coaches. They just want to move on for other reasons."

While the Floyd County Board of Education was waiting to name a new coach, former coach Vince Tucker had the weight room open for the players to work out in.

The first-year coach has had 32 boys to turn out for summer practice and expects more when school resumes.

"We've had four basketball players to come out this year and that is

good for the program," Newsome remarked. "I've gotten with Junior (Newsome) and we have decided to draw the whole athletic program into one. That is, when his team is playing basketball I expect the football team to be in the stands cheering for the basketball team. Likewise, I expect the basketball players to be in the stands cheering for the football team."

While Newsome is concerned about putting points on the scoreboard, his top priority will be academics at the high school. "I've talked to Mr. Bentley (school principal) and Mrs. Ratliff about academics. The players will be required to show their report cards. If they don't make the grades they will not play. I know this will be a drastic change from what has been done in the past, but they will have to learn to live with it."

"And really the kids have a desire to do well academically. All they need is someone to talk about it. This program has been kicked around long enough and we intend to instill some pride back into the program. Mr. Hager said it was my baby, go out and build it."

While the new coach cannot guarantee points on the scoreboard, there is one thing he can guarantee and "that's a new attitude." According to

Newsome, that's what the community really wants. "They want boys to act like men and not spoiled brats. If a player knows he can make the grade in the classrooms he'll know he can make it on the football field."

What about fan support? "When the school finds out what we are trying to do, they will get behind us and support us," he says.

Will his head coaching job change things at home? "No. My wife supports me 100 percent. If things are not right at home, they can't be right on the football field. She's happy for me. Her brothers played football and she comes from a football family in Lawrence County. She knows the lingo."

Newsome's wife Kathy thinks it's about time that he got a head coaching job. "I'm very happy for him. It's something that he has wanted for a long time. Gerald loves kids. He is always around football, basketball and baseball."

Mrs. Newsome also sees no changes at home. "He was an assistant coach before all this happened and he was gone all the time anyway. Gerald has been in sports ever since we've been married."

Is she a football fan? "I'm more of a football fan than anything else," she says. "More that basketball or other

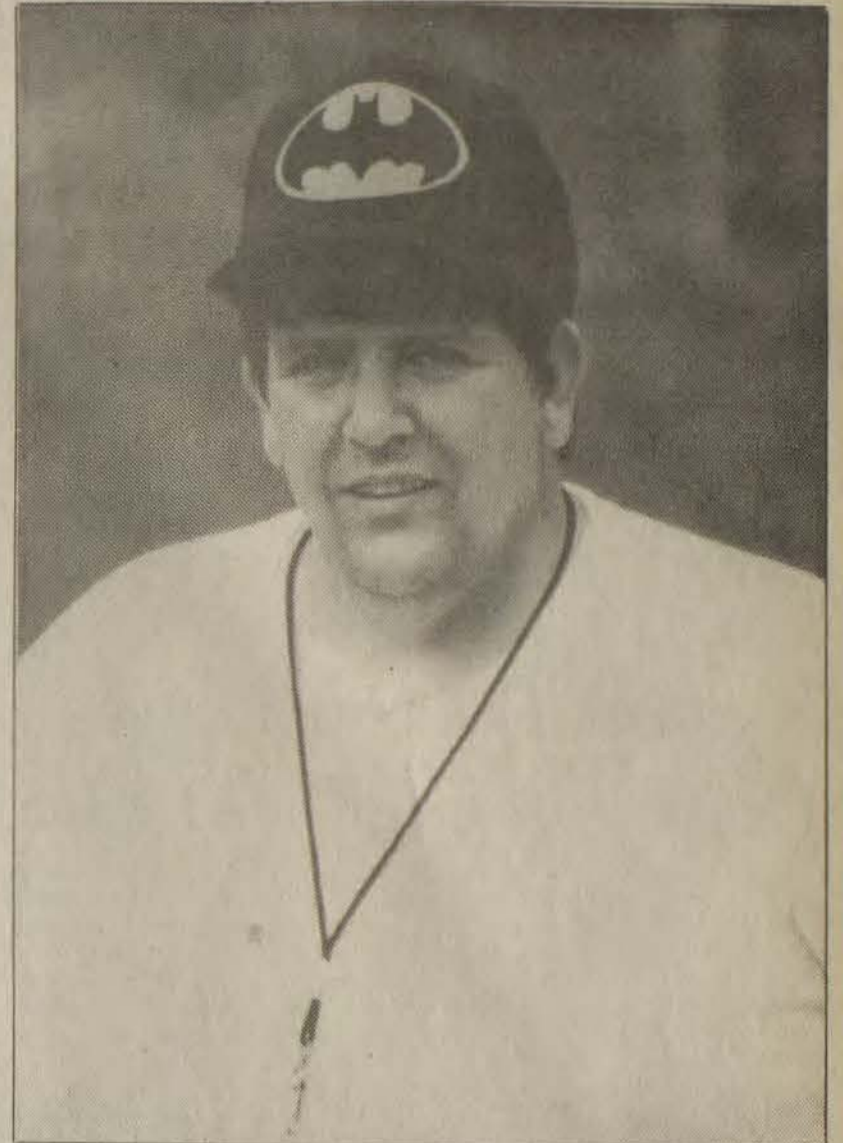

sports."

Mrs. Newsome expects to be right beside her husband at all the games. "I'll be right there with him and supporting him."

"Brandon, our six-year-old boy,

thinks his daddy is a superman. He has really set his dad on a pedestal. He says that 'his daddy is a football coach.'"

See NEWSOME, Page 2

Betsy Layne Football Mentor

Gerald Newsome was recently named head football coach at Betsy Layne High School by Superintendent Ron Hager. Newsome is working hard to get his players in shape. "A new attitude and pride in the program" is what Newsome is stressing in his practices. The Bobcats will open their season on August 18 against the Prestonsburg Blackcats at Prestonsburg.

Padres Win Tournament Over Rangers

by Ed Taylor
Sports Editor

In the midst of "Padres Power" chants, the Martin Padres overpowered the Martin Rangers 8-1, to capture the covenant title of tournament champion of the Martin Pee Wee League played last week at Martin.

"It has been a great tournament," league director Mike Robinson says. "It's been a long season, but a good one."

The Padres, a team that got off to a slow start, began to pick things up in the latter half of the season. "We just didn't make the same mistakes over again," Padres coach Bucky Martin said. "We just kept getting better."

"The rest of the league wasn't getting worse, the Padres, as well as other teams were improving," Robinson said.

Inning after inning the Padres players were chanting "Padres power,

Padres power", and they demonstrated that power with the big win.

The Rangers, who had won their first 13 games of the season, got into the finals by winning the losers bracket. They defeated the Martin Tigers in a close one, 4-3.

The Padres had three first inning hits but was unable to capitalize on the hits and failed to score. The Rangers missed a chance to get a first inning run also. Jason Osborne and B.J.

Caudill had two out base hits but was left stranded in the first.

Martin's Padres tallied two in the second. Jerry Stanley lead off the inning with a single. John Brett followed with a double scoring Stanley. Brett came home on a base hit Ryan Manns.

The Padres added five more runs in the top of the third on six hits. Brett had a double and two RBIs in the inning. John Wayne Marshall also had two RBIs in the inning on a single.

A single run in the top of the fourth made it 8-0, Padres on a home run by Timmy Yates. Yates had a third inning double also.

The Rangers avoided a shutout with a run in the bottom of the fourth. Brad Dasner had a one out single. Mark Stanley followed with a base hit to center scoring Dasner. The Rangers had two hits in the bottom of the fifth inning but was unable to push any runs across as they went down to defeat.

Stanley lead the Padres power with three base hits. Brett had two hits including a double. Spencer also had two hits in the game. Nick Hayes Martin had a couple of hits including a double.

Dasner and Mark Stanley had the only two extra base hits for the Rangers. Each had doubles. Stanley had two hits in the game, as did Rory Patton.

The Rangers collected 10 hits and the Padres had 13.

Martin Tigers Fall To Martin Padres 10-0

Coach Canier Hall's Martin Tigers fell hard to the Martin Padres 10-0 in playoff action in the Martin Pee Wee tournament last week at Martin. This is the first time the Tigers have been shutout.

Bucky Martin's team collected 20 hits in the shutout victory. The Tigers had two hits in each of the first two innings but was not able to push across a run. The Tigers went out in order in the third inning and placed a runner on base in each of the fourth and fifth innings.

The Padres scored two runs in each of the five innings. A base hit by Tim "Toad" Yates brought in two first inning runs after Desmond Spencer and Nick Sammons had singled. Five straight hits in the second tallied two runs for the Padres to make it 4-0.

Nick Sammons opened the third with a single. Ethan Blackburn followed with a base hit and Sammons was caught off base and tagged out. "Toad" Yates lined a double to right center scoring Blackburn, and Yates scored on a single by Nick Hayes Martin.

Kristina Scott's double drove in Ryan Manns, who had singled, in the fourth. Scott scored on a double by Desmond Spencer.

The Padres had doubles from Spencer, Yates, Martin, and Scott in the game. Yates and Martin had three hits each in the contest.

Martin Pee Wee Champions

The Martin Padres captured the tournament title of the Martin Pee Wee League playoffs Saturday at the Martin park. Coach Bucky Martin's team improved as the season progressed and his team had some big wins over teams ahead of them in the standings. The Padres defeated the Martin Rangers 8-1 to win the crown.

Four-Run Fifth Sinks Prestonsburg All-Stars

By Ed Taylor
Sports Editor

Coach Doug Butcher's Paintsville All-Stars scored four fifth inning runs to defeat a good Prestonsburg All-Stars team 7-2 in the semi-final round of the Paintsville Little League All-Star tournament at Paul B. Hall field. Two of the four runs were unearned.

Don Montgomery got the win for Paintsville. The big right hander struck out four batters and issued six walks in the game. Montgomery allowed only two hits to the Prestonsburg team, both of those in the third inning.

An appeal on a call at first base delayed the game for about 45 min-

utes, as a decision had to be made on an interpretation of a rule. To settle the matter a call had to be made to higher authorities. Prestonsburg won the appeal and the runner was called out. In an earlier game between the two all-star teams, Paintsville appealed a call by the home plate umpire, claiming that a Prestonsburg batter was stepping out on the pitcher. The appeal was overruled and Prestonsburg won that appeal.

Paintsville struck first in the game with a run in the first inning on a double by Mike Jarrell, a walk to Todd Ward and Byron Dixon's fly ball to center. A wild throw from center-fielder Tony Craft allowed the run to score. Montgomery struck out, ending the inning.

Coach Gordy Ratliff's squad picked up a single run in the top of the third to tie the game at 1-1. Irvin Osborne got a one-out double to left field. William Harris walked and Jason Spencer singled to bring Osborne home with the tying run. Harris was caught in a run down and tagged out between second and third. Robbie Risner walked, but Thomas Ratliff struck out to end the threat.

Paintsville tallied two runs in the bottom of the inning. With one out, Jarrell walked and Ward lined a base hit to center. Ricky Lemaster's throw to third to get Jarrell was wide and allowed Jarrell to come home with Ward ending up on third. Ward scored on a sacrifice fly by Dixon to make it 3-1.

Ratliff's team made it 3-2 in the fourth and missed a chance to tie the score. Lemaster and Craft each drew bases on balls from Montgomery. Both advanced on a wild pitch by Montgomery. Jason Burke lofted a high fly ball to right which was caught. Shutts, who was running for Lemaster, tagged up and scored, and Craft moved to third. Jerry Lafferty hit a hard bouncer to deep short that Steve Butcher made a good play on and threw out Craft trying to score. Craft seemed to have got a late start for home. Osborne struck out to end the inning.

Paintsville went out quietly in the bottom of the fourth. Butcher's squad scored four runs in the bottom of the fifth to take a 7-2 lead. Butcher and Craig Ratliff reached on errors. Jarrell walked to load the bases. Ward's bouncer back to the mound was thrown out into centerfield in an attempt to go to second. Butcher and Ratliff scored on the error. Dixon was intentionally walked to load the bases. Montgomery then lined a gapper in between right and center field for a double to score both Jarrell and Ward. Thomas Ratliff then relieved Spencer and struck out the side to end the inning.

Montgomery then retired the Prestonsburg team in order in the sixth inning to preserve the game for Paintsville.

Jason Spencer was the losing pitcher. He had five strike outs and issued three walks. Spencer pitched a

strong game and pitched good enough to win. He gave up just three hits in the game. Prestonsburg, which hit the ball, could not find their hits falling for them. Prestonsburg left three men on base and committed four errors.

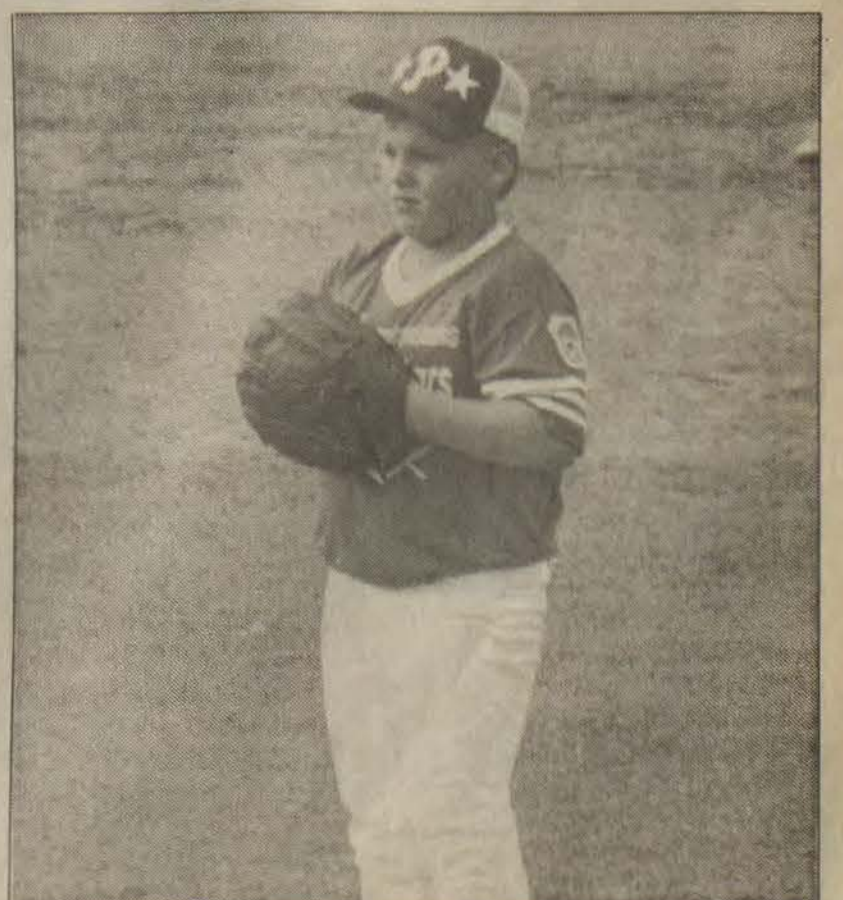

Paintsville left four men on base and played errorless baseball. Jarrell and Montgomery had doubles for the winners. Osborne doubled for Prestonsburg.

The Prestonsburg All-Stars represented the Prestonsburg Little League very well in the All-Star event. Coach Doug Butcher, a veteran of 42 years of coaching Little League baseball, also was impressed with the local team.

"Those (Prestonsburg) are the finest kids we have played against," Butcher said. "They also have a coach that will fight for the kids. He stays right in there when he knows he is right. You can't say enough about the way Spencer pitched. He pitched a strong game."

What about the delay in the game? "I feel the delay hurt Prestonsburg," the Paintsville mentor said. "I told Gordy it would hurt him. I also told him in his protest to hang in there until you are told no. Exhaust every means in your protest. He should appeal the play. I would have."

Tough Loss

Jason Spencer of the Prestonsburg Little League All-Stars took a tough loss at Paintsville last week in the Little League All-Star tournament. Spencer allowed only three hits to the Paintsville team. "You can't say enough about how this Spencer kid pitched," Paintsville coach Doug Butcher said. Paintsville won the game 7-2.

Infield Chatter

Martin Dodgers third baseman keeps up the "chatter" on the infield in a game against the Martin Royals. Eight Pee Wee teams converged on the Martin park for their tournament last week. The Royals defeated the Dodgers.

Martin Rangers Win Trio Of Tourney Games

by Ed Taylor
Sports Editor

Mike Robinson's Martin Rangers won three games during the Martin Pee Wee Tournament last week at Martin ball park.

The Rangers defeated the Martin Royals 4-3 in the first game. They were a 9-4 winner over James Skeens Martin Angels. The Rangers won over a tough Martin Tiger team in the third game, 4-3.

Against the Royals, the Rangers scored three runs in the second inning and held on to eliminate the Royals in tourney action. Brandon Bryant had doubles for the winning Rangers. Barbie Mullins had a double for the Royals.

Robinson's Rangers collected 14 hits in the game. Larry Mullins Royals managed eight hits.

In the second contest, the Rangers needed a nine run fourth to overcome a 4-0 lead of the Martin Angels. The Angels had the Rangers on the ropes until the Rangers "got their bats out of the bag". Robinson's team managed 17 hits in the game. The Angels collected 10. Brandon Bryant had a double for the Rangers. Scott Ison and Jason Keathley doubled for the Angels. Gabriel Shepherd had a home run for the Angels.

In the semi-finals the Rangers bested the Tigers 4-3. "This was the

best defensive game of the year, for both teams," Robinson said. "It was a well played game."

The Rangers scored three runs in the second inning and a single run in the third to lead 4-1. Canier Halls Tigers mounted a threat in the top of the fourth but fell a run short in the 4-3 loss.

Brad Dasner double for the win-

ning team. Jonathan Thornsberry had a home run for the Tigers. Shannon Mynhier had a double.

The Tigers had eight hits while the Rangers collected nine.

Nelson-Frazier Drops Doubleheader 10-3,13-8

With the regular season coming to a close in the Minnie softball league, Jimmy Jones' Thompson's Supermarket team is trying to get back on the winning track.

"We haven't been playing to good lately, and we have dropped some games," Jones said. "We're starting to play better. We played consistently in the doubleheader win."

Jones' squad swept a doubleheader from Nelson-Frazier Funeral Home by the scores of 10-3 and 13-8. The twin wins put Thompson's record over the .500 mark at 9-7.

Thompson's Supermarket pounded out 16 hits in each of the games. In the first game Thompson's scored three first inning runs and tallied four in the fourth inning to win the first game 10-3. Les Stapleton had a home run for the winning team. Dennis Goble had a triple and a double. Delmar Hall was the winning pitcher.

In game two, Thompson's needed a five-run sixth inning to hold off the Nelson-Frazier team, 13-8.

Thompson's had taken a 8-0 lead after three innings. Nelson plated a single run in the fourth and scored four times in the fifth to make it 8-5. Thompson's then scored its five runs in the bottom of the sixth to make it 13-5. Nelson-Frazier scored three in the top of the seventh, but fell short in losing 13-8.

Ike Combs and Lenny Hall had triples in the winning effort for Thompson's. Jimmy Jones, Brad Hall and Jimmy Tackett had doubles. Delmar Hall was the winning pitcher, while Bill Newsome suffered the setback.

(Continued from Page 1)

Newsome's daughter, Andrea, thinks that her dad being football coach at Betsy Layne, where she is a junior, is "great".

"Dad, is a great person. We're a close family. What ever we want to do he does for us. When I was in band last year, he was always there," she said.

Newsome has coached football at John M. Stumbo Elementary for the past seven years. He has also coached boys and girls basketball at the local school.

"I became interested in coaching when Don Daniels was coach at Betsy Layne. He drew me into it. I just tagged along after him," said Newsome. "I looked up to him and respected him because he was a verbal and energetic person. When I was at Morehead State University, I followed their football team all over the Ohio Valley."

"Everybody needs a chance and

Gerald's getting his," Allen Central High School football coach Donnie Daniels says. "He will find the high school level different than grade school."

Newsome has been given the opportunity to fulfill a longtime dream of coaching Betsy Layne where he attended school.

Martin Angels Over Cubs, 7-2

Coach James Skeens' Martin Angels, looking to stay alive in the double elimination tournament in the Martin Pee Wee playoffs, scored three runs in the third and fourth innings to go on and defeat the Martin Cubs 7-2. The loss closes out the season for the Cubs.

The Cubs took a 2-0 lead by scoring two runs in the second inning. The Angels came back with three in the bottom of the third to lead 3-2.

Matt Hagan, Craig Hubbard and Gabriel Shepherd had doubles for the Angels. Shepherd scored two runs in the game for the winners. J.T. Absner, Scott Ison and Hubbard had RBIs for the winning Angels. Billy Mitchell had two RBIs for the Cubs.

Gordon Maynard had two hits for the Cubs. Travis Francis and Dustin Crisp had RBIs for the Cubs.

"Heat Pump cooling. The best way to beat the heat."

A central air-conditioning system works only a few months a year, but the modern electric heat pump provides heating and cooling all year long. That's value. In summer, the heat pump is a high efficiency central air conditioner for your entire house. And in winter, it switches over to economically heat your home. For year round comfort and value, the flameless electric heat pump is your best choice. Get the full story by contacting us at 1-800-422-1093.

WHS Grid-A-Rama Scheduled On Aug. 5

Coach Roger Johnson's Wheelwright Trojans will host their first football Grid-A-Rama on Aug. 5 at Bracket Field in Wheelwright.

Four teams will take part in the football preseason event. At 6:30 p.m., Gerald Newsome's Betsy Layne Bobcats will tangle with the Virgie Eagles. In a 7:30 encounter, Wheelwright will go against Coach Donnie Daniels' Allen Central Rebels.

"We hope this will go off big," the Wheelwright mentor said. "This is our first one, and we're trying to raise some money for the coming season. All four teams will share in the gate receipts."

Martin Padres 'Mercy' Martin Dodgers 19-0

The Martin Padres, making their presence known in the Martin Pee Wee playoffs with wins over the Martin Rangers and Martin Tigers (first and second place teams), recently defeated the Martin Dodgers 19-0 after three innings.

The Padres scored 10 runs in the second and tallied nine in the third. Ethan Baldrige, John Wayne Marshall and John Brett Eperson each had two doubles in the game. Nick Samons and Ryan Manns had a double also in the game.

Tim Yates had a home run and triple for the Padres. Jerry Stanley also had a triple.

Extra Innings

By Ed Taylor

After 256 games, I can finally write this article. We have just completed another hardball season and it seems like we just started. When Allen Central marched out on the baseball diamond at Allen Park on March 31 in 80-degree temperatures, the season got off to a great start.

What was to follow was a very strong Floyd County baseball program. From the high school ranks down to Little League, we saw some great baseball. I don't remember the last time I enjoyed baseball as I have this season.

We were witnesses to a change in the sport. Billy Joe Stegall and Cassandra Keathley became women managers of high school baseball teams and did a great job. They saved two programs that otherwise would have folded had they not stepped forward.

The District tournament brought exciting baseball. Coach Russell Shepherd's Prestonsburg Blackcats captured the title over the Rebels of Allen Central, and the big win of coach Junior Newsome's Betsy Layne Bobcats over state power Paintsville Tigers was exciting.

Little League baseball was not without its excitement. The Prestonsburg league had an array of quality players. Good coaches made the season that much more interesting.

The Harold-Allen-Prater Little League program had a great year, and, according to league director Robert Damron, next year will be better and also will hold the possibility of expansion. HAP will also be playing its games on just two fields. Several of this "stars" will be returning for yet another year.

The Wheelwright Little League had some boys who could hit the ball. This was a power league. By that I mean the players could hit the long ball. Being without a field until Bracket Field was restored was a problem to the league. Their coaches were dedicated men who thought of what they could do for the kids.

The largest league in Floyd County was the Beaver Creek Little League, broken into two divisions, north and south, with six teams in each division. This program promises to be stronger next year than the past, and this year's teams were exciting to watch. Fundamentally sound coaches were one of the strong points of the Beaver Creek league.

Our All-Star teams represented Floyd County extremely well in the all-star tournament at Paintsville in the past weeks. Parents, communities, and coaches can be proud of the

teams that took part. Sportsmanship was very evident.

Who can forget about our Pee Wee teams (or farm teams). They were really enjoyable to watch. Some almost babies were playing baseball. The Mud Creek league had a successful year with good players coming back next year. Minnie's Pee Wee League consists of five teams and the Martin Pee Wee League has eight teams.

Prestonsburg had a Farm League, serving as a feeder into the Little League program. Large crowds gather to watch these little ones play.

The Floyd County Babe Ruth and Prep Leagues showcased what talent is coming into our high schools in the years ahead, promising more exciting baseball next season.

Let's not forget about the crowds, the fans. They were very supportive of their teams. Vocal, yes, but that's the way it is in baseball. They turned out in large numbers to support their favorite teams.

To all the coaches in every division, on every team and all over Floyd County, you have provided some very enjoyable evenings for many fans, especially for this writer. To you, I say thanks! Now bring on the "pig-skin".

Friendship

The Martin Angels and Martin Cubs congratulate each other after their game in the Martin Pee Wee tournament last week. The Angels defeated the Cubs 7-2 to advance to the semi-finals of the playoffs at Martin.

Minnie Reds Win First Game

by Ed Taylor
Sports Editor

With the regular season a thing of the past and still without a win, the Minnie Reds used the Minnie Pee Wee League tournament for a new start, defeating the third place Drift Astros 30-15 in the opening game of the playoffs.

The Reds scored 15 runs in the fifth inning to break a 15-15 tie and recorded their first win of the season. The Reds were 0-15 coming into the playoffs.

"We had beaten them every time we played them," Astros coach Clinis Hall said, "and we beat them easy."

The Astros took a 4-0 lead in the first inning, but the Reds came back with six runs in their half. Chad Tuttle picked up two RBIs with a base hit with the bases loaded. Ryan Shannon also had a two-RBI single in the Reds'

first stanza. Billy Hall tripled in a run in the first for the Astros. He came home on a base hit by Jeremy Stumbo.

The Astros put six more runs on the board in the second inning to take a 10-6 lead. Stumbo drove home two runs with a double for the Astros. Clabe Hall had a RBI triple.

The score was tied at 15-15 going into the Reds' half of the fifth inning. The Reds then tallied 15 runs, mostly on walks, to defeat the Astros 30-15.

Shannon, who was three for three in the game, had five RBIs, while Stumbo had four. Jason Lance had a double for the winning Reds. Stumbo and Lance both had two hits in the contest.

For the Astros, Clabe Hall and Billy Hall had triples. Josh Hall, Joshua Ward and Jeremy Stumbo had Astros doubles. Stumbo had three RBIs in

the game. Clabe Hall had two RBIs.

The loss drops the Astros into the lower bracket of the double elimination tournament. The tournament continues through Saturday. There are no games Wednesday (tonight).

Thanks, Dr. Shepherd and The Pikeville Methodist Hospital's New Neonatology Unit.

Joseph Tyler Layne, son of Lloyd and Tommie Lynn Layne, of Allen, was born prematurely on April 1st, 1989 and developed Hyaline Membrane Disease. At birth he weighed a mere 3 pounds 15 ounces. In the past, the majority of critically ill premature babies were sent to other hospitals having neonatology units staffed by specialized doctors. Now, thanks to the dedicated expert care of Dr. Ruth Shepherd and the Methodist Hospital team, babies like Joseph Tyler can now receive the care necessary for their survival without being transferred. We, the parents and grandparents of Tyler, are grateful and quite proud of his remarkable progress. Our thanks is offered, of course, to God and His servants, without whom, Tyler could not have survived.

Paintsville Does Class Job With All-Star Tournament

by Ed Taylor
Sports Editor

What a Little League season this has been! We've been treated to some great baseball by 10-, 11-, and 12-year-old boys and girls. What can you say about coaches who have given

extra time to practice and taught these young kids the game? The crowds have been great this year. Lots of people who didn't even have youngsters playing came out to enjoy some good hardball games. It all came together in the selection

of all-star teams from each league. They, in turn, journeyed to Paintsville, the site of this year's all-star tournament. There, the excitement was high, complete with large crowds, radio coverage and a great array of talent.

The people of Paintsville have put together an outstanding facility — professional in every way. Not only is their facility first-class, so are the folks that put on the All-Star Classic this year.

Licensed umpires were called on to administer the rules of the games. "We paid our umpires \$15 a game," league president Steven Frazier says. "That runs us around \$60 a game for four umpires." The umpires,

led by their umpire-in-charge, R.J. Williams, did a first class job of upholding the rules and looking out for the players' safety.

The field is laid out in such a manner to keep fans, bicycles and others that might damage the field away.

"The dirt on our field, we had brought in from Jefferson County," Frazier stated. "It is similar to the mixture on the Atlanta Braves infield. It is of Major League caliber."

A league is only given three weeks notice that it will have the privilege to host such an event before the tournament begins, according to the league's president.

"Once we receive notice we are to host the event, we have a committee headed by Darryl Dixon, of five people, and they come together to meet, plan and organize the tournament. Umpires have to be contracted. Darryl does an excellent job in running the tournament."

"When we came into the league, the league was just about gone, there was almost no league at all," the Johnson County Circuit Judge said. "We were \$2,800 in debt. Now we have a surplus of \$8,000. We have support from every profession in the county. Fifteen people make up our

board of directors."

The Paintsville Little League officials are currently installing a "t" ball league field off of the right field fence of the major diamond. The organization also includes a senior division of the program.

"If you were to measure the voluntary work that has gone into the labor of putting this all together, you would be astonished. We have invested \$70,000 in the complex here," Frazier said. "It has cost us around \$6,000 to put this tournament on. We get our revenue from donations, contributions, concession stand and other projects."

There are about 500 kids taking

part in the Paintsville league each summer. Games are played at the Paul B. Hall Little League field. Different rules for the tournaments sometimes causes a problem for the officials. "Different tournament rules are a problem. You play by one set of rules for the regular season and when tournament time comes around, you have some different ones. But I find if you follow their rules (official Little League) it pays off," Frazier says.

Umpires who called the games were Rick Preston, Vince Salyer, Eric Gray, Morris Hall and Billy Blair. The tournament director was Darryl Dixon.

Look of Determination

A player from the Martin Royals Pee Wee teams heads for first base determined to make it. The Martin Pee Wee tournament ran all week at the Martin ball park.

Martin Liquors Splits Twin Bill With Duke Boys

Martin Liquors, sporting a 21-1 record, went down to their second defeat of the season in a 6-3 loss to the Duke Boys in the Minnie Softball League.

The Martin team rebounded and won the second game of the double-header 15-9.

With the score tied at 1-1 in the first game, the Duke Boys scored twice in the third and fourth innings to go up 5-1. Martin made it 5-3 with two of their own in the top of the fourth. The Duke Boys got a single run in the bottom of the fifth for the 6-3 win.

The winning pitcher was Bobby Joe Hall. Rick Caudill was the losing pitcher for Martin Liquors. Steve Ward had a triple and double for the losing team. Brian Turner also had a double. Martin managed 12 hits in the first game, while the Duke Boys totaled 16.

In the second game, Martin Liquors, behind the home run hitting of Robbie Fraley and John Hall, took the second game 15-9.

Martin scored five times in the

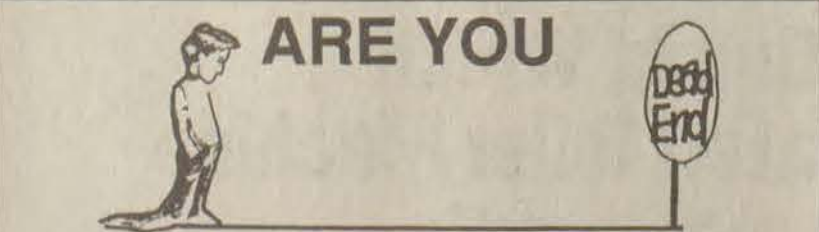

second to lead 6-2. They then pushed across four in both the fourth and sixth innings. The Duke Boys tallied three in each of the sixth and seventh innings.

Fraley hit his fifth home run of the season in the five-run second frame. Steve Ward had another triple in the second game. Rick Caudill, Jerry Boyd, Thomas Meade and Charlie Collins each had doubles.

Rick Caudill was the winning pitcher. Bobby Joe Hall suffered the second game setback.

Martin pounded out 24 second game hits.

Firearm Safety Class Scheduled August 3,4,5

A free hunter education course will be held Aug. 3-5 at the Middle Creek Sportsman's Club located at Middle Creek Fire Station on Highway 114, approximately four miles from Magoffin County line.

The program will be held from 6:30 p.m. to 9:30 p.m. on Aug. 3-4 and from 9:00 a.m. to 1:00 p.m. on Aug. 5.

The course, sponsored by the Kentucky Department of Fish and Wildlife Resources and the Middle Creek Sportsman's Club, will include classroom instruction in firearm safety, sportsmanship, hunter ethics, first aid and outdoor survival.

The last session will feature actual range firing and practice with both firearms and archery equipment.

Those successfully completing the course will receive safe hunter certificates valid in any of the 39 states where such certification is required. Completion of this or a similar hunter education course is also a requirement for those youngsters under 16 participating in: a youth deer hunt at West Kentucky Management Area; all hunters between ages of 12-18 hunting at Fort Campbell; all deer hunters under age 35 who hunt at Fort Knox; deer hunters born after Jan. 1, 1970 who hunt at Bluegrass Army Ordinance; all hunters born

PGA Players Host Benefit Golf Tourney For Pikeville College

The second Blackburn Memorial Golf Tournament to benefit Pikeville College is scheduled for Aug. 14 at Green Meadows Country Club in Pikeville, according to sponsors Mike and Woody Blackburn.

The tournament is open to the first 112 golfers to register.

The Blackburns, both golfers on the Professional Golf Association circuit, organized the tournament in honor of their parents, Clyde and Kathryn Blackburn. The elder Mr. Blackburn was an alumnus of Pikeville College, and he and his wife both taught school in Betsy Layne. Mr. Blackburn was an avid golfer, and moved the family to Florida so his sons could gain more golf experience. Both Mike and Woody attended the University of Florida on golf scholarships.

A \$75 tax deductible donation is requested from each player, payable to Pikeville College.

The scratch handicap tournament will be played in two sessions: a morning session beginning at 7:30 a.m. and an afternoon session beginning at 1 p.m. Lunch will be served from 11:30 p.m. to 1:30 p.m. A 6:30 p.m. reception and 7:30 p.m. dinner and awards presentation are included in the registration cost.

Prizes will include a 1989 Thunderbird for the first hole-in-one on hole four, compliments of Bruce Walters Ford, closest-to-the-pin awards and door prizes.

For more information, or to request registration materials, contact the Pikeville Alumni Office at 432-9326.

Hall 7th In Bodybuilding In National Championships

Marion Hall, 19, of Paintsville competed in the 1989 Teenage National Bodybuilding Championships June 16-17 at Union City, N.J., placing sixth in the Light Heavyweight class and seventh overall, out of 42 participants.

Hall qualified for the event by winning the Teenage Tall class and overall teenage division at the Kentucky Derby Festival Bodybuilding Extravaganza in Louisville, April 30. With the victory, Hall became the 1988 Mr. Teenage Kentucky and the only east Kentuckian to ever win a division at a state bodybuilding contest.

Walt Oster, NPC Bodybuilding Chairman for Kentucky, said that Hall's national showing was one of the best ever by a teenager from Kentucky. Hall was disappointed about the national contest in spite of finishing seventh overall. "I trained and dieted very hard to get in the best shape, but I feel I got beat because I didn't use steroids and everyone else did," Hall said.

Hall, a student at Prestonsburg Community College, knew this was his only chance at becoming Mr. Teenage America, so he sought help from the 1983 Mr. USA winner Dallas Peavey.

"Peavey really taught me some things that helped me get into phenomenal shape, and the secrets will definitely help me in future events," says Hall, who also attributes his success to the support given him by Kenny Meade, Allison Martin and Jerry Pelphrey.

"Each one of them gave me plenty of moral support," Hall stated.

Hall, who came into the national meet undefeated in teenage competition, says he will spend the next two years getting his college degree and in 1991 enter the mandatory drug tested Mr. Kentucky contest. "Time is on my side," the bodybuilding enthusiast said. "I need to work on some weak body parts, but my education must come first."

Tigers Upset Rangers, 6-4

The Martin Rangers, at one time winners of 13 games in a row and undefeated, dropped their third game of the year in a 6-4 loss at the hands of the Martin Tigers in the third round of the Martin Pee Wee double elimination playoffs.

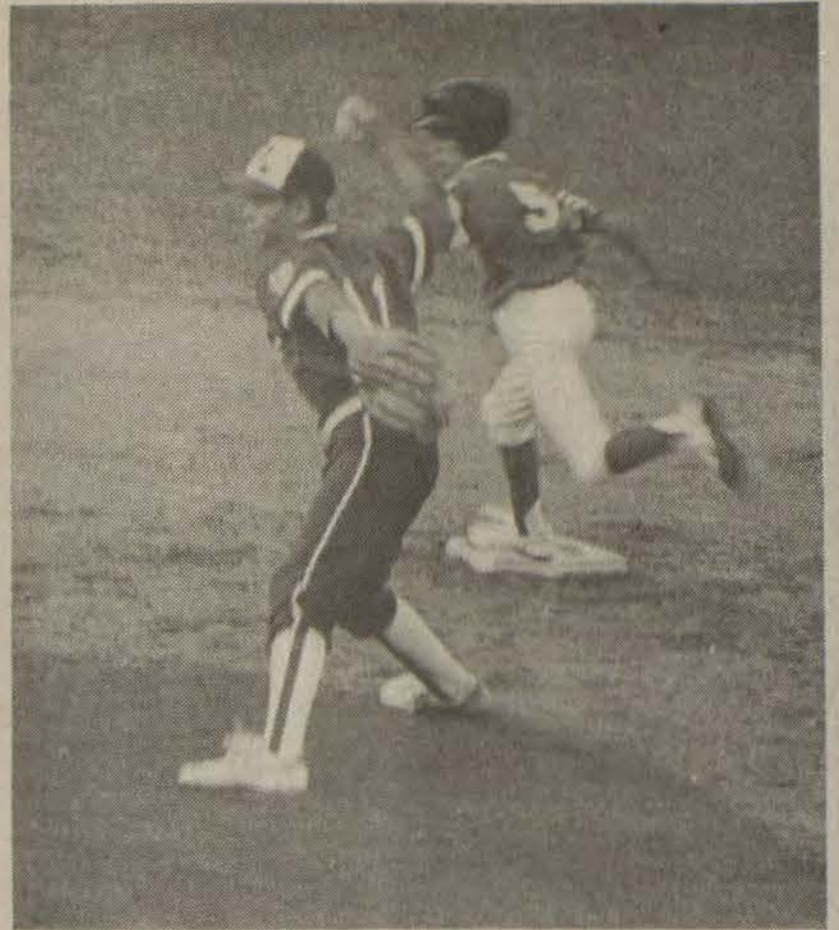

The Tigers scored five times in the top of the first inning and scored a single run in the fourth. The Rangers scored four first inning runs and that was the extent of their offense. Coach Canier Hall's Tigers collected 15 hits in the win while the Rangers managed six hits.

A double play in the bottom of the fifth inning took the rangers out of the inning. With a runner on first base and one out, Melissa Mullins fielded a grounder at short and stepped on second and fired to first to double up Brandon Bryant for the final out of the game. This was Mullins' third unassisted double play of the season.

BJ Caudill of the Rangers had a three-run first inning home run. George Thornsby had a double for the Rangers.

Ann Hall had a double for the winning Tigers. Shannon Sizemore was two for two at the plate. Mullins had three hits. John Patton of the Rangers was perfect at the plate with two for two.

AS PRESCRIBED

Approximately 1.6 billion prescriptions are written annually in this country. According to the National Council on Patient Information and Education, nearly one-half of them are taken incorrectly. Some patients mix their prescribed medications with alcohol, cigarettes, or the wrong foods. The consequences can range from fatigue and hampered mental processing, to the potential for a toxic overdose. Other patients do not take their medications at all because they fear the side effects. Another group stops taking medication too early. This practice can cause an infection that is worse than the original. Finally, there are those who increase dosages or continue taking medication beyond the prescribed period of use. This latter group can experience physical or psychological addiction, or a severe side effect due to chemical imbalance.

COOLEY APOTHECARY invites you to come in and to get acquainted with us even before you need our services. As the "Drug Store with a Difference" we offer our customers complete patient profiles so we can check for side effects, drug interactions and for possible allergic reactions. Tennis Tourney Draws 119 Players

By Ed Taylor
Sports Editor

The Third Annual First Commonwealth Bank Tennis Tournament, June 28-July 2 at Archer Park, drew 119 participants from all parts of the area, including players from Virginia.

In the men's single A division, Danny Wood from Wise, Va., bested Prestonsburg's Bob Hamilton, 6-0, 6-0 to capture the men's single "A" title. Wood defeated Mike Lykins, John Robinson and Jim Matney in advancing to the finals. Hamilton won over Benton Crum, Phil Glover and Robert Wright to reach the finals.

In the women's single "A" division, Dawn Maynard of Pikeville was a 6-3, 7-5 winner over Sharon Bentley of Wise in taking the division title. Maynard defeated Peggy Cox and Clarissa Short in reaching the finals. Bentley won over Kaye Willis and Francis Coleman to make it to the final round.

In men's "B" singles, Benji Caudill of Prestonsburg bested Chris Waugh

6-4; 3-6, 6-4 to win that match. Caudill won over Brian Adams, Larry Howard, Wes Hamilton and Willie Elliot in reaching the finals. Waugh defeated Wayne Keaton, Fred Brashear, John Kitchen and Tim Freeman.

Kerri Klaus, Van Lear, took the women's "B" singles with a 6-4, 6-1 sets over Tonya Thornsby of Prestonsburg. Klaus was a winner over Stephanie Montgomery and Leneta Fuller. Thornsby defeated Cara Hall and Debbie Matney.

In men's "C" singles, Robbie Byrge of Hazard defeated Steve Cantrell of Pikeville, 6-4, 6-4. Byrge was victorious over Richard Stewart and Mark Johnson in making it to the finals. Cantrell defeated Robert Hood, Robert Hughes and Brian Stewart.

Latusa Miller of Salyersville got by Sheila Justice of Paintsville to win the women's "C" singles with scores of 7-6, 6-4. Miller defeated Sandy Rudd in the first round, Leslie Gray in the second and Susan Burke in the semis. Justice was an easy winner

over Kelli McGeorge in the first round, Kristi Howell in the second and Johnna Rice in the semi finals.

Danny Wood and D. Willis defeated the doubles team of Don Compton and Russell Music 6-4, 3-6, 7-5 to win the men's doubles title. Wood and Willis defeated the team of Fuller and Howard to reach the finals. Compton and Music won over Brashear and Philips (by default) and Matney and Smith to make it to the finals.

In women's doubles, Sharon Beverly and Phyllis Wood of Wise defeated the team of Lois Howard and Kaye Willis, 6-0, 6-1. The winning duo won over the teams of Ousley and Short and Bartley and Maynard to get to the final round. Howard and Willis defeated Bailey and Brown, Cox and Fuller to make it to the finals.

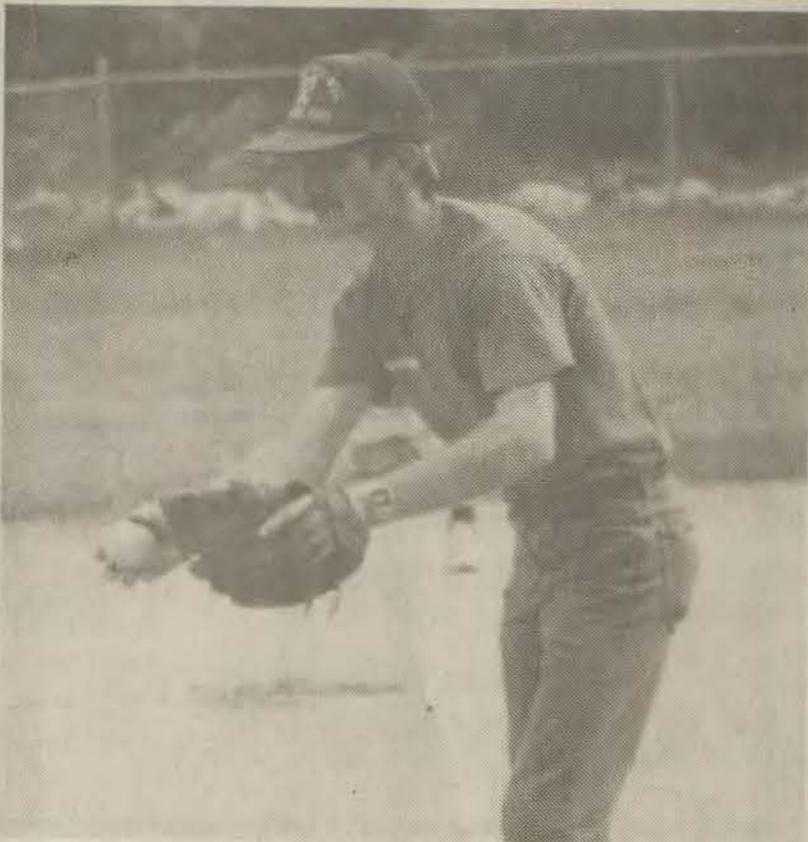

In the mixed doubles, Danny and Phyllis Wood defeated the team of Don Compton and Sharon Beverly 6-4, 7-5 to capture the title.

The tournament committee expressed appreciation to First Commonwealth Bank, Butch Bradley, Ralph Little and the "rain crew" for their help during the tournament.

Martin "B" Team Cheerleaders

The Martin "B" Team cheerleaders attended cheerleading camp June 26-30. Becky Ewers, UK Lady Cat cheerleader, was the camp's instructor. Daily competition in gymnastics, cheering motion and spirit was held, and awards given. Pictured above, back row from left, are Kelli Dingus, Amy Howard, Limikia Robinson, Misti Caudill, Barbie Mullins, Regina Frasure and Andrea Patton. Front row, from left, are Keisha Spencer, Miranda Cobbs and Samantha Martin. The group is sponsored by Shirl Patton.

Rangers Coach

Mike Robinson of the Martin Rangers Pee Wee team pitches to his team during a game with the Martin Padres in the finals of the Martin Pee Wee tournament last week at Martin. In the Martin league, coaches pitch to their own teams during the game. Padres won the championship 8-1 over the Rangers.

Helmet Chasing

A base runner for the Martin Royals seems to be chasing his helmet instead of running the bases. The helmet slipped off and the runner scored against the Martin Dodgers. The Royals defeated the Dodgers to advance in the tourney.

Whether you call them slabs or specs, papermouths or speckled perch, one thing is certain: crappie are one of the most popular game fish in the South.

Because most anglers who float a boat in search of these tasty denizens of the deep do so on a slack water reservoir, they are overlooking a

fabulous population of crappie. The fact is most southern rivers support great populations of hefty slabs.

MOVING WATER VS. STILL WATER

To catch crappie in rivers and streams, an angler must first of all understand the intricacies of moving water. Crappie, whether they live in a

stream or a lake, are still crappie. The only difference in the two is the body of water which they call home. A stream is much different than a lake, and crappie will behave differently in each environment. Consider these aspects: In a river system, current is always present. In a lake, true current is normally non-existent, and if pres-

ent, tends to be slight.

In moving water, current is usually the primary factor determining crappie location and feeding activity. In lakes and reservoirs, water temperature is usually the critical factor.

Water temperature tends to be more moderate year around in a river than in a lake. This is due to the mixing effect imparted by the "rolling" action of the current.

Because of the mixing effect of the current in a river, levels of dissolved oxygen tend to be nearly equal from surface to bottom and shore to shore. And because the water temperature and dissolved oxygen levels in a river are equal through the depths, streams do not "stratify" as do still water impoundments.

CHARACTERISTICS OF RIVER CRAPPIE

In a sense, crappie are the gypsies of the panfish family. They will travel miles and miles primarily in search of food, and secondarily in search of comfortable water conditions. With river crappie, these migrational tendencies are most pronounced in the spring and the fall. One trait of the crappie which influences and ties together their migratory travels is this: they will always locate near a food source.

Other aspects of crappie behavior to keep in mind include their tendency to school, their sensitivity to light, and inclination to feed "upwards." By nature, crappie are a gregarious lot and will travel in schools. When you find one crappie, you have found several.

Crappie are extremely light sensitive, meaning simply that they do not feel comfortable in bright light. By relating this propensity with the clarity of the water, an angler should be able to arrive at a starting depth at which to begin looking for fish. Simply stated, in muddy water, look to shallower water; in clear water, look to deeper water. Also, crappie will react to changes in light intensity. Often, a decrease in light intensity, as occurs at dusk, will trigger a feeding spree.

And finally, crappie are notorious for their tendency to feed upwards. They will most often rise to a bait presented slightly above or parallel to them, but will rarely, if ever, hit a bait placed beneath them.

Biggest Fish

Mary Cline, 8, of Allen, recently won first place in the 7-14 age group, "biggest fish" division, in the Corps of Engineers and Dewey Lake Fish and Game Club Free Fishing Derby. Pictured with the winner are Corps of Engineers Ranger Randy Grubbs, left, Cline, her father Earl Cline, right, and Dewey Lake Fish and Game Club president Johnny Lafferty, in the back.

Catches Limit

Six fishermen had a successful fishing trip to Lake Erie recently. All six men caught their limit. Shown, from left, are John Burchett of Cow Creek, Thurman Blackburn of Warsaw, Ind., Thurston Blackburn, Randy Blackburn, Tony Blackburn of Milford, Ind. and Jeff Champion of Fremont, Ind.

Legislative Perspective

By Greg Stumbo

by Rep. Greg Stumbo
Majority Floor Leader

During the past decade, 41 states out of 50 have addressed school finance on some governmental level. How each state has confronted the problems of adequate education is as varied as the court suits themselves. Most recently, Kentucky's high court has joined the chain of states that have put aside their current education system as unequal and financially unbalanced. Six finance formula cases with final decisions, including Kentucky, have held education to be a fundamental right. Ten cases already ruled upon held education not a fundamental right.

As a result of the courtruling which held the General Assembly directly responsible for the discrepancies in the system, a 21-member Task Force on Education Reform was created by legislative leaders to grapple with the problem. It was decided that members of both House and Senate leadership should be members, while the governor was given five slots on the task force to represent the executive branch of government. Task force members will be divided into three

subcommittees: finance, curriculum and governance. Other legislators who are interested in participating in the planning process will be invited to join the panel of their interest.

I am honored by being appointed to the task force and, challenged by the great responsibility that comes with the membership, I intend to work with educators in my district to create the best possible system for Floyd County and the Commonwealth.

It's not that everything about our school system is broken. It's not that we don't have some good schools out there. But all of us as Kentuckians need to realize that perhaps the single greatest legacy we can leave to the people who live in this country, and this Commonwealth, in the mid-21st Century is the strength of an educated population.

The population mix is shifting and we're finding that the old ways of educating people are not as effective as they were in the past. Industry is spending today approximately \$25 billion just to make the entry level people in our workforce trainable. That cost, unfortunately, is being passed on in terms of our world

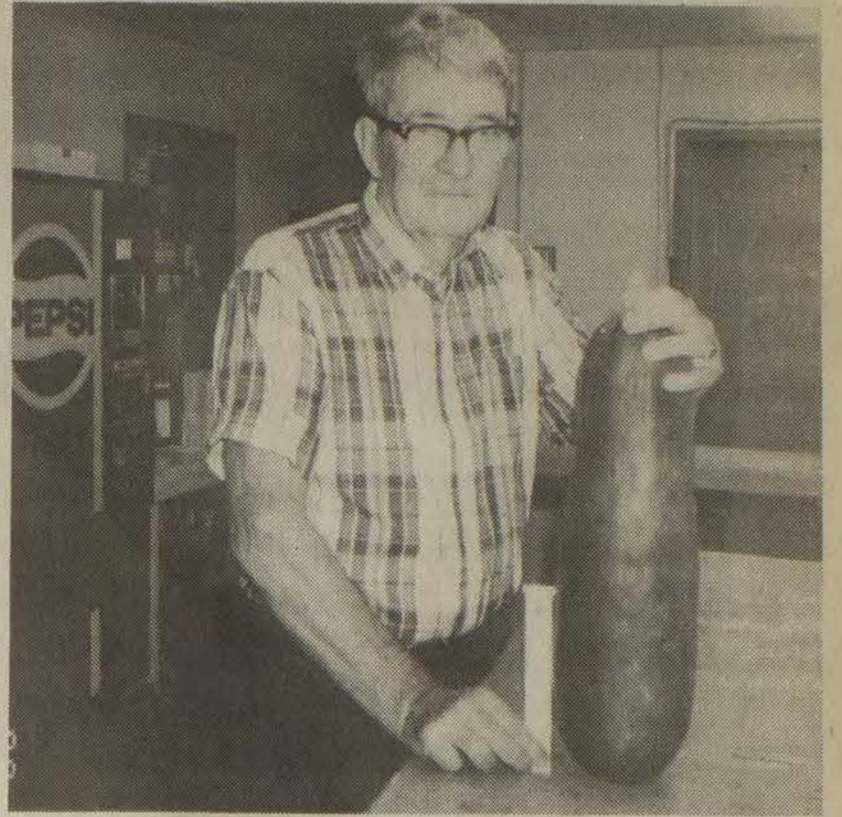

competitiveness. This is a critical reason why all of us, regardless of what political party we're a member of or whether we are employed by industry, government or education, must set very high expectations for our schools.

The education task force planning our new system has the attitude that Kentuckians deserve nothing less than an education system that will be the envy of the world by the end of the 20th century. Every child entering school today will graduate from high school in the year 2000. They should receive a diploma that will give them the ability to enter a workforce, so they can maintain a middle class lifestyle, whether they

are from rural Kentucky, Appalachia, or the Golden Triangle.

A curriculum is needed in our schools that will provide a thinking workforce. Kentucky needs citizens who can analyze a problem, make choices, and deal with volumes of information.

And, finally, we need the revenue to pay for a state-of-the-art educational system. As members of the General Assembly who are responsible for this new creation we are hopeful. It is a moment in history that will never come our way again. The US is a leader in the world of information technology. We must use it to educate the leaders of tomorrow's society.

A Zinger Of A Zucchini

A.B. Bryant uses a seven-inch ruler to illustrate the size of a zucchini he grew in his garden at Hi Hat. The squash-family vegetable measures a whopping 19 inches long, is 1 1/2 inches around and weighs 10 pounds. "It's the biggest zucchini I ever raised or have ever seen," said Bryant, 69, a retired miner. Bryant said he had also raised radishes this summer that were nine inches long. Gardening since he was nine years old, Bryant grows a variety of vegetables on a quarter-acre, hillside plot.

Books and Things:

Tips Can Assist College-Bound Adults

by Etta Cantrell,
Prestonsburg Community College
(Editor's Note: Etta Cantrell, associate professor of developmental reading and writing at PCC, is authoring "Books and Things" this week for Trisha Morris, who is on vacation.)

Have you thought about going to college or enrolling in training sessions to prepare for a better job? The kids will start back to school soon and you could do homework with them. Maybe your job is leading to a dead end, and you would like to get another one with better pay, but you need some advanced skills or credits to qualify for it. A new position might be available at your company and you would love to transfer; however, it requires several months of intense training and studying to meet the requirements or pass the tests for the position.

Oh! Have you forgotten how to study, take notes or pass tests? The local library may have the materials you need to enhance these skills and fulfill any dream you have of going back to school or seeking a better position.

During intense training sessions or in credit classes, it will be necessary for you to study, take notes and pass tests. Fortunately, there are many inexpensive books, videos and computer programs that can be purchased for at-home skill enhancement.

AARP Trip Rescheduled

The boat cruise on Dewey Lake planned by Jenny Wiley chapter #3528 AARP has been rescheduled for Monday, Aug. 7, at 11 a.m. The boat will leave from Brandy Keg Boat Dock, and participants are asked to bring a picnic lunch.

Leslie Reunion

The Leslie family reunion is set for Sunday, Aug. 13, at the Pikeville High School cafeteria, on US23 across from Pikeville National Bank.

Participants are to bring a covered dish. For information, call Rebecca Bowles at 432-1557.

Time for College, by Al Siebert and Bernadine Gilpin, Practical Psychology Press, Portland, Ore.

Many books like *Time for College: When You Work, Have a Family, and Want More from Life*, contains information on all three of these vital academic skills. The book begins with "Going to College: Dreams for a Better Future" and ends with "The School of Life: How to Develop a Survivor Personality." Chapters 9 and 10 focus on the best ways to study and making high grades on tests.

Chapter nine focuses on active learning, and advocates specific techniques to guarantee better learning and better grades. It provides specific analysis of SQ3R study method. While most people think of studying as reading and highlighting a chapter, this "passive" method is ineffective. The SQ3R technique offered in this book is the best alternative to just reading and underlining a chapter.

Often, people turn on the television and sit down to study. According to the authors, this is committing "academic suicide." Having an organized study method is important, but using it in an appropriate environment is vital to learning.

How long can you concentrate on reading material before your mind wanders? The authors say that most people concentrate for about 10 to 15 minutes without interrupting thoughts. Find out how long you concentrate and expand that time, using techniques provided in this book.

Chapter 10, "How to Get High Grades on Tests," shows how to make practice tests and predict exam questions, two important activities for learning material and relieving test anxiety. The chapter ends by reviewing various techniques for taking specific types of tests, such as multiple choice or fill-in-the-blank.

If you are an adult in your 30s with a family and job, and are contemplating returning to school, read this book.

This book does not, however, contain a section on one important academic skill: note-taking.

Improve Your Grades, by Veltisezar B. Baustista, Bookhaus Publishers, East Detroit, Mich.

Another book offered by the PCC Library, *Improve Your Grades*, includes chapters on study skills, note-taking, test-taking, and other important ba-

sic skills. In addition to a discussion of the SQ3R method of study, the book presents the author's own "eight-step system" of study that Baustista calls "From Here to Classroom Eternity." He says students must have a study room, rather than a study area. In that room, he suggests students have an alarm clock, typewriter, bulletin board and computer. The chapter explains how these items can help you study more effectively.

Chapter 12 on note-taking contains only two pages of information. If you need more intense reading or actual practice on this skill, get a workbook or video tape that presents practice exercises.

The two chapters on test-taking provide excellent information on various kinds of tests and subject areas. There is even a section on taking math tests which gives practical clues to finding the correct answer faster through memorizing a few simple techniques devised by a college instructor for completing math sections on ACT and SAT tests.

Other academic skills examined in this text include reading efficiently, improving vocabulary, spelling accurately and remembering what you read. For the person who needs a solid review of basic academic skills to use in high school or college, this book serves the purpose.

For the person who needs to do more than read a book on various studying, note-taking and test-taking techniques, there are video tapes and computer programs available in the PCC reading lab in the new Magoffin Learning Resource Center.

VIDEO TAPE
Success in the Classroom-Effective Test-Taking Skills, Cambridge Career Products, Charleston, W. Va.

When you just need a brief review of study or note-taking methods, a video tape lasting 30 minutes to an hour might be all you need. The PCC reading lab has some videos that cover basic college and academic skills, including the "Success in the Classroom" series on "Effective Study Skills" and "Effective Test-Taking." For a quick general review of skills, video tape presentations cover the material in a minimum of time.

IBM PC COMPUTER PROGRAM
Skills for Successful Test-Taking,

Microcomputer Educational Programs, Kalamazoo, Mich.

To gain practice in using these skills, the PCC reading lab has a variety of IBM computer programs on basic skills. An advantage to using computer programs for enhancing skills is that it allows the person to actively participate in exercises and activities. Examples, tests, explanations and graphics illustrate methods of study or techniques of note-taking on the computer. Then, the user learns

these methods and techniques through application and practice.

One computer program, "Skills for Successful Test-Taking," contains a segment on reading the test directions. It asks questions about how you read test directions. Based on your answers, the computer tells what is correct and gives examples of real test directions to read. After reading directions, users are asked particular questions such as "How much time will you have to answer each ques-

tion on this test?" If you can't figure the correct amount of time to spend on each answer, the computer program takes you through a section on how to calculate the time to prevent running out of time on a test and leaving answers blank. Computer programs such as these are excellent practice for new or returning students.

Before you begin a training program or college course, review some of these items to enhance basic study, note-taking and test-taking skills.

PCC's Aug. 7-11 Dance Camp Will Feature Noted Instructors

Jan Hurst

Lynette Grubb

Aaron Girlinghouse

Summer Dance Camp 1989 will be Aug. 7-11 at Prestonsburg Community College. Cosponsored by the Kentucky Arts Council, the day camp will feature instruction and practice in ballet, jazz and tap dancing, plus ballet pointe instruction for older students.

The dance camp is open to all dance students, from beginners to the more experienced dancer, according to camp director Jan Hurst. Classes will be organized according to participants' ages and, at the discretion of the instructor, their experience.

The camp will conclude with a

tree, public performance on Friday, Aug. 11, at 5 p.m.

Hurst, who has taught and directed dancers in classical ballet and pointe for many years, has worked as artistic director, choreographer and teacher in schools and dance companies throughout the country. She earned a Master of Fine Arts in ballet from the University of Utah and has performed professionally.

For the past two summers, she has taught for the International Dance Workshop in West Germany. She will teach ballet and pointe classes during the local camp.

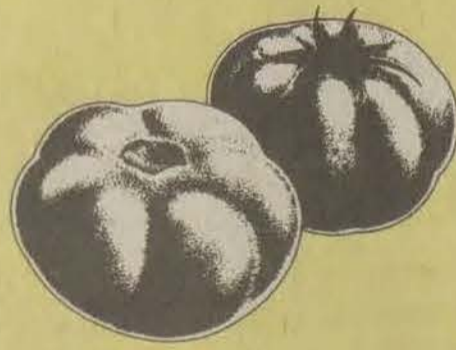

Returning as tap instructor is

Lynette Grubb, owner/director of Dance Stop in Atlanta, Ga. She is also cosponsor of the Atlanta Jazz and Tap Festival.

Aaron Girlinghouse, specialist in jazz and modern jazz dance, will join the dance camp faculty for the first time this year. The Pensacola, Fla., resident has performed with a variety of dance companies and has taught and choreographed for major dance schools and companies across the country.

For information on registration, contact the PCC Office of Community Service and Continuing Education, 886-3863, ext. 278.

County Kettle

County Kettle

Is a feature offered by the *Floyd County Times*. Send all recipes, kitchen tips and suggestions to "County Kettle," The Floyd County Times, P.O. Box 391, Prestonsburg, KY 41653

The French called it the "apple of love," the Germans, the "apple of paradise," but the British believed it to be poisonous. Commonly known as the tomato, it is now enjoyed around the world.

The popularity of the tomato spread quickly through such Mediterranean countries as Spain, Portugal and Italy. The "love apple" was introduced to North America in the 18th century. However, many people, including the colonists in America, believed it to be poisonous.

Thomas Jefferson, forever a pioneer, acquired a fondness for tomatoes. Then, in 1812, the Creoles in New Orleans put their cooking on the map with their tomato-enhanced gumbos and jambalayas. The people of Maine followed suit by combining fresh tomatoes with local seafood. In the south, tomatoes appeared in early recipes with okra and eggs or as ketchup and even marmalade.

Over the years, the per capita consumption of tomatoes has steadily increased. Currently, the average person consumes 13 pounds of tomatoes annually! There used to be argument as to whether the tomato was fruit or vegetable. Although the tomato botanically is a fruit, the Supreme Court declared it a vegetable for all legal and commercial purposes.

Tomatoes are best kept unrefrigerated, stored in a cool place, stem end up. This is because most fresh tomatoes sold in supermarkets are firm and not yet ripe because soft, ripe tomatoes bruise easily. They will ripen properly and develop good

flavor if kept at room temperature.

A medium tomato contains less than 30 calories. In addition, it provides 40 percent of the recommended daily allowance of vitamin C and 20 percent of the vitamin A allowance. Tomatoes are also good sources of potassium and iron, and are low in sodium and virtually free of fat and cholesterol.

SUMMER TOMATO & CORN PONE SOUP

Corn Pone
1/2 cup cornmeal
1/2 cup flour
1/2 tsp. baking soda
3 Tbsp. sugar
1/2 tsp. salt
2 eggs, beaten
1/2 cup butter or lard, melted
1/2 cup buttermilk
1/2 cup finely chopped fresh basil leaves
Soup
3 Tbsp. butter

1 large sweet onion, finely chopped
2 lbs. fresh tomatoes, coarsely chopped
2 Tbsp. honey
1/2 cup chopped fresh basil leaves
Salt and pepper
4 cups chicken stock

Preheat oven to 350 degrees and grease an 8-inch-square baking pan.

To make pone, mix first five ingredients in a bowl until blended. In a separate bowl combine eggs, butter and buttermilk, then mix well with dry ingredients. Stir in basil.

Turn mixture into baking pan and bake for about 30 minutes. Allow to cool and cut into six squares.

Meanwhile, to make soup, melt butter in a four-quart saucepan and saute onion until soft. Add tomatoes and cook over medium heat for five minutes. Add remaining ingredients and simmer, covered, for 15 minutes.

Pass soup through a food mill and return to pot to heat through.

Place a square of corn pone in each of 6 bowls and pour soup over it. Serves six.

PROVINCIAL TOMATO AND PEPPER TIAN

3 large red peppers
2 large green peppers
3 garlic cloves, minced or put through a press
1 small red onion, sliced
1 Tbsp. olive oil
2 lbs. (8 to 10) tomatoes, sliced
Salt and freshly ground pepper
1 cup chopped fresh basil
1 tsp. dried thyme
1/2 cup freshly grated Parmesan cheese
2 Tbsp. whole-wheat bread crumbs
Additional chopped fresh basil or parsley for garnish

Roast the red and green peppers over a gas burner flame or under the broiler, turning until all the skin is charred. Place in a paper or plastic bag and allow to cool. Remove all the charred skin, rinse and remove the seeds and membranes. Cut in lengthwise quarters, toss with one of the garlic cloves and set aside.

Preheat the oven to 400 degrees. Brush a 1 1/2 quart baking dish with olive oil.

Saute the onion and remaining garlic in the olive oil over medium

heat until the onion is tender. Set aside.

Layer a third of the tomatoes over the bottom of the baking dish. Salt and pepper lightly and top with half of the onion and garlic. Combine the basil and thyme and sprinkle a couple of tablespoons on the herbs over the tomatoes. Top with a third of the Parmesan. Next lay half the green and red peppers on top, salt and pepper, then add another layer of herbs. Repeat these layers — tomatoes, onion, and garlic, herbs, Parmesan, pepper, herbs — and finish with the final third of tomatoes, Parmesan and herbs. Sprinkle the bread crumbs over the top.

Bake 20 minutes remove from the heat and let sit for 15 minutes. Refrigerate for at least two hours and serve chilled, garnished with additional basil or parsley. Spoon the juices in the pan over each serving. This dish will keep a couple of days in the refrigerator.

Makes four to six servings.

TOMATO DUMPLINGS

1/4 cup (1/2 stick) butter
1/2 cup finely chopped onion
1/4 cup finely chopped green bell pepper
1/4 cup finely chopped celery
1 bay leaf
1 28-ounce can whole tomatoes, coarsely chopped, with juice
2 tsp brown sugar
1/2 tsp. salt
1/2 tsp. dried basil or 1 Tbsp fresh (optional)
1/4 tsp. black pepper

Dumplings
1 cup all-purpose flour
1 1/2 tsp. baking powder
1/2 tsp. salt
1 Tbsp. butter, cold
1 egg, beaten
6 Tbsp. milk
1 heaping Tbsp. finely minced fresh parsley

In a medium saucepan, melt the butter and saute the onion, pepper, celery, and bay leaf until the onion becomes transparent, about five minutes. Add the tomatoes and seasonings bring to a boil, and simmer, uncovered, for three minutes.

In a medium bowl, combine the first three ingredients for the dumplings. Cut in the cold butter with a pastry blender or two knives until the mixture resembles coarse oatmeal. Add the egg, milk and parsley. Blend lightly; don't over mix. Drop by tablespoonfuls (approximately six) on top of the simmering tomatoes.

Cover tightly, and cook over medium-low heat for 20 minutes. Do not lift the cover during the cooking period. Serve in bowls, tipped with butter.

COLD TOMATO SOUP

6 ripe medium tomatoes
1 medium cucumber
6 medium scallions
1 slice white bread
1/2 cup tomato puree
2 cups tomato juice
1 tsp. red wine vinegar
1 Tbsp. olive oil
1 small garlic clove, peeled and trimmed

1/2 to 1 tsp. salt
1/2 tsp. sugar

Place the tomatoes in a large saucepan of boiling water, remove from the heat, and let rest two or three minutes until the skins begin to crack. Lift the tomatoes out of the water with a slotted spoon, cool briefly and peel. Cut in half crosswise and squeeze out the seeds.

Peel the cucumbers, cut in half lengthwise, and scoop out the seeds with a spoon. Slice into large chunks.

Cut the root end off the scallions and discard. Trim the scallions to 5-inch lengths, measuring from the bulb end, and reserve some of the unused green tops to chop for garnish.

Place the slice of bread, broken into large chunks, in a food processor or blender and whirl on and off a few times to chop the bread into crumbs. Add the tomatoes, cucumber, scallions, and remaining ingredients to the workbowl of the processor and blend until everything is finely chopped.

Chill at least four hours so the soup is completely cold, and serve garnished with the reserved chopped green tops of the scallions.

Tip of the Week: Green tomatoes have a few more calories due to slightly more carbohydrate and protein than ripe, red tomatoes. Ripe, red tomatoes have more than three times as much vitamin A and slightly more vitamin C.

Hamilton Family Reunion Held Recently In McDowell

The family of the late D.E. "Emit" and Virgie Tackett Hamilton gathered for its annual reunion the weekend of June 24-25 at the home of Donna and Denzil Ray Hall at McDowell.

The weekend began with a golf match Friday, followed by a fish fry the same evening. On Saturday afternoon, following a pot-luck dinner, guests surprised their hosts with a silver wedding anniversary celebration.

Door prizes for the reunion included special handmade crafts such as quilted family tree wall hangings, cross-stitched samplers, stained glass items, a wreath, pot holder, clock, ceramics, wood carvings, wooden flower box, hair bows, stuffed centerpieces and decorated T-shirts. This year's family quilt squares were won by Elmer Hamilton of Kettering, Ohio, and Natalie Newsome of Grethel.

Five of the six surviving children of Mr. and Mrs. Hamilton attended.

Noah Hamilton of Michigan City, Ind., was unable to attend due to illness. Also, several other family members were unable to attend due to illnesses or work schedules.

Among those attending all or part of the weekend's activities were:

Stella Howell, Gorman and Jane Howell, all of Salem, Va.; Stephanie Howell of North Hampton, Ohio; Bobbie Ann and Aaron Adiklis of Parkersburg, W.Va.; Dot Meade, Draxie and Town Newsome, and Warren G. Hamilton, all of Ligon; Mickey, Sharon, Kelly and Natalie Newsome of Grethel; Stevie Newsome, Gloria, Kara and Blair Hall of Martin; Jean Lane of Monroe, Mich.; Geneva and Dale Begaman of Ida, Mich.; Mike and Kelly Begaman of Toledo, Ohio; Foster and Laura Hamilton of Alexandria, Ohio; Claudette, Larry and Michael Pelfrey of Lexington; Elmer and Joy Elizabeth Hamilton of Kettering, Ohio;

Karen, Terry, T.B. and Ben Belue of LaPorte, Ind.; Collis and Mazel Stumbo of Nancy; Margie Parsons, Denzil, Donna, Danita and Douglas Hall, Kelli Ann Stumbo and Veda Stumbo, all of McDowell;

James Larry and Jenny Parsons of Winchester; Gary Parsons of Knoxville, Tenn.; Jack, Connie, Tristan and Whitney Parsons of Georgetown; Thomas and Todd Lafferty of Prestonsburg; and Macel Thornsberry, her daughter Carol, and her granddaughter, all of Topmost.

Next year's reunion will be held the weekend of June 23 at the same location.

Hamilton Family Reunion

Among those attending the Hamilton family reunion held recently in McDowell were Draxie Newsome, Margie Parsons, Foster Hamilton, Stella Howell and Elmer Hamilton. Next year's reunion will be held at the same location the weekend of June 23.

Betsy Layne Students Stage Musical Production Friends

Sandy Tackett's third and fourth grade general music classes at Betsy Layne Elementary School brought last school year to a close with the musical production *Friends*.

The 15 characters were selected from five general music classes and were required to stay after school for several rehearsals. Remaining students made up the chorus.

Several students performed vocal solos. Matt Dillion and Lorie Parks opened the play with solos in "Everything." Amy Compton and Phillip Jarrell were featured in "Get Real." Holly Prater sang "Can You Reach My Friend," and Jade McKinney and Tim Welch sang "Thank You."

Andrea Westfall and Jonathan Chapman expressed the difficult relationship between teens and their parents in "Can't Talk."

The students' favorite, said Tackett, was a musical rap, "Is There Anybody Out There?" Ghent Combs, Brad Kimbler, Tim Welch and Jason Hall rapped the guys' parts, as Holly Williams, Andrea Westfall, Brandi Bryant and Jamie Hall rapped for the girls.

Jade McKinney and Holly Prater performed the theme song, "Friends." The play climaxed when Matt Dillion, explaining that his best friend was Jesus, sang "I've Never Had A Friend Like You."

'Friends'

The cast of the Betsy Layne production of the musical *Friends* were, standing, left-right, Miss Morris, Jonathan Chapman, Ghent Combs, Jason Hall, Matt Dillion, Brad Kimbler, Shannon Osborne, Brandon Hall, James Ratliff, Tim Welch and director Sandy Tackett; kneeling, Genny Crawford, Lorie Parks, Holly Williams, Jade McKinney, Holly Prater, Andrea Westfall, Candice Blackburn, Jamie Hall, Amy Compton and Brandi Bryant. Three Floyd County Students Inducted By Gamma Beta Phi

Three Morehead State University students from Floyd County were inducted recently into MSU's Gamma Beta Phi honor society.

The new members include: — Jacquelyn J. Branham, a Betsy Layne sophomore and the daughter of Steve Branham and Pam Prueett.

— Kristi Elizabeth Hall of McDowell, daughter of Troy and Eula Hall. A sophomore, she is a member of Student Government and president of

Regents Hall.

— Mark Ratliff, son of Deloris Ratliff of Prestonsburg, is a sophomore biology/pre-med major. He is a member of Lambda Chi Alpha and Prae Medicorum.

To be eligible for membership, a student must have a cumulative grade point average of 3.25 on a 4.0 scale and have completed 12 semester hours.

Local Student Participates In Internship

Lauren Marie Slone of Old Middle Creek Road is among more than 400 Eastern Kentucky University students participating this summer in ECU's Cooperative Education Program.

Slone is an administrative intern at Highlands Regional Medical Center.

Co-op students apply principles and theories learned in the classroom to practical, on-the-job situations. They also receive a salary from participating employers.

Since ECU's program began in 1973, more than 8,600 students have been placed with employers in Kentucky and throughout the United States, university officials said.

Baptists Slate Film Wednesday

A film, titled "Famine In The Land," will be shown tonight (Wednesday) at 7 p.m. at First Baptist Church (Irene Cole Memorial) in Prestonsburg.

Produced by Underground Evangelism of Camarillo, Calif., the 30-minute film focuses on contemporary Christian life in Romania and the Soviet Union, according to a release from the filmmaker. Included are scenes from evangelistic meetings in the two countries.

The film showing is open to the public.

Church Receives Three New Members

Christ United Methodist Church in Allen welcomed Frankie Church into membership during morning worship services July 9.

Also welcomed into membership recently were Marcie Lafferty and Wyman Goble.

Bobby Randall Hughes, infant son of Mr. and Mrs. Randall Hughes, was recently baptized and entered on the preparatory list of the church.

Halls Celebrate Silver Anniversary

Donna Sue and Denzil Ray Hall of McDowell recently celebrated their silver wedding anniversary.

The couple was honored with a surprise anniversary party as part of the Hamilton family reunion held at their home in McDowell June 24.

They were married June 27, 1964, by the Rev. Jerry Hall at the home of

her mother, Margie Parsons, at McDowell.

A three-tiered cake baked by an aunt, Draxie Newsome of Ligon, was served during the anniversary party. Punch was also served.

A special anniversary cross-stitched wall hanging made by a cousin, Dot Meade of Ligon, and framed by Mrs. Hall's mother, was

presented to the couple. They also received a "Silver Memories" album consisting of photos of the past 25 years, compiled by Gary Parsons of Knoxville, Tenn., Mrs. Hall's brother and best man at the couple's wedding.

Other gifts included a silver carving set presented by Jack, Connie, Tristan and Whitney Parsons of Georgetown, and a silver anniversary plant from Jean and Tom Laferty of Prestonsburg. The couple also received cards from those attending and others unable to attend.

On the eve of their anniversary, the Halls were dinner guests of their children, Danita Dawn and Douglas Ray Hall, and Kelli Ann Stumbo, all students at Morehead State University. Before dinner, the couple re-

ceived a second-honeymoon package trip to Hawaii, which they plan to schedule later this year.

Their celebration concluded with a vacation tour of the western United States, starting with a flight to Salt Lake City, Utah. Following a short visit with relatives in Idaho, the couple toured Yellowstone Park in Wyoming, Glacier National Park in northwestern Montana, the mountains of Washington, Oregon, California and Nevada. The visit to California marked the last of the 48 continental US states for Mr. Hall to visit. The western tour ended with a drive across the Bonneville Salt Flats of Utah and a visit with Mr. Hall's brother, Richard Hall, who was a patient in a Salt Lake City hospital. The couple's return flight to Lexington was July 14.

Viewing Artwork

Prestonsburg Mayor Ann Latta and son Jack recently viewed artwork created by students of Our Lady of the Mountains School. The art exhibit was part of the school's May parent-teacher organization meeting. Each student contributed at least two entries.

Silver Anniversary

Donna Sue and Denzil Ray Hall of McDowell recently celebrated their silver wedding anniversary with a surprise party, held as part of the Hamilton family reunion.

Howard Reunion Held At Burnside

The reunion of Effie Howard's family was held at Burnside recently at the home of her son and daughter-in-law, Harry and Mildred Howard.

Those attending were Effie Howard of Garrett; Willard, Glenna and Darren Howard of Marion, Ohio; Robin and Robin Howard, Joslyn and Landon of Ft. Wayne, Ind.; Sandra Rupp of Bremerton, Wash.; Kelly Howard and fiancé Julie Pharis of Toledo, Ohio; Trena Bates and children Steven and Stephanie of Florida, Mich.; Richard and Lurlie Howard of Winchester; and Alma Reed of Winchester.

Wins Contest

Jada Webb of Martin Elementary School was recognized at the recent Floyd County Conservation District's annual awards banquet for having the best poster in the annual poster and essay contest. She received several awards, including a \$50 savings bond from contest sponsor, the Louisville Courier-Journal. Hers was among 1,321 Floyd County posters entered in the competition, the theme of which was "Trees in My Community."

Hopkins Reunion Scheduled Aug. 6

The descendants of James Calloway and Mary Elizabeth Hopkins will meet Sunday, Aug. 6, in the convention center at Allen Park for a family reunion.

Registration will begin at 10 a.m. Those attending are asked to plan to spend the day, and to bring a covered dish. Music will be provided, and dinner will begin at 1 p.m.

For more information, contact Denver Osborne, 377-6772.

Highlands Regional Receives Grant

Highlands Regional Medical Center recently received a \$16,200 grant for monitoring and transporting equipment in its obstetrics department, according to Russell Briggs, associate administrator.

Earl Compton, administrator of the Floyd County Health Department, presented the check to Briggs and Barbara Clark, RN, head nurse in the obstetrics department, on Thursday, June 29.

"Highlands is pleased to have been awarded this grant to enhance its equipment and improve the service it offers to our patients," Briggs said.

The Highlands obstetrics department includes two delivery rooms, a birthing room featuring "like home" surroundings, three labor beds and a 10-bed nursery. The addition of the new equipment made possible by the grant will help provide extra care for babies before and after birth, Briggs said.

Jane Vaughn, health educator at the Floyd County Health Department, said the state health department awards such grants to help reduce infant mortality rates in the area.

Hackworths Visit Kin In Midwest

Mr. and Mrs. Albert Hackworth of David returned home last week from a three-week trip to Michigan and Indiana. They visited their son, Larry Hackworth, and family in Chelsea, Mich., Mr. and Mrs. Bill Lambert of Marquette, Mich., and Bertie Bowerman of Hulbert, Mich. In Indiana, they were guests of Mr. and Mrs. Oliver Hackworth of Claypool and Mr. and Mrs. Henry Hackworth of Warsaw. Accompanying them on the trip were their daughter and son-in-law, Mr. and Mrs. James W. Lyon of Tempe,

Ariz. The Lyons have been visiting the Hackworths and his parents, Mr. and Mrs. Ray Lyon of Isonville. While here, the Lyons have attended the 30-year reunion of her Prestonsburg High School class. Both she and her husband are also Mayo State Vocational Technical School graduates. Lyon recently retired after 32 years with the US Department of Defense, during which time they lived

in Ohio, Pennsylvania and West Virginia. At retirement, he was manager of quality assurance and contract compliance at the Idaho National Engineering Laboratory for Naval Reactors in Idaho Falls. The Lyons have two children, Kenneth, an employee of B & L Contractors in South Point, Ohio, and Ginger, a student at Arizona State University.

College for a Day

Carl Martin Jr., left, and his mother, Debbie Martin, right, of Floyd County, attended an anatomy mini-class at "College for a Day," held at Lees College in Jackson on July 15. More than 120 prospective freshmen and their families sampled college life at Lees College. "College for a Day" allows students and their parents to learn what college life is like. Campus tours, mini-classes and panel discussions were held.

Social Security:

Obtaining An Appointment Will Prevent Waiting At Office

To avoid the risk of waiting in line at the Social Security office, or getting a busy signal when calling, area residents may want to consider making an appointment.

"Interviews by appointment have been provided in many offices in recent years and have proven to be very popular," says Jim Kelly, district director of Social Security for the Big Sandy Area. Now, Kelly says, the service is being offered in all offices.

To set up an appointment, one need only call the Social Security office, 886-8525.

"Arrangements can be made to visit the office, or to have a Social

Security staff member call you at a certain time," Kelly explains. "If the office calls you, the interview may be taken by phone, and any papers to be signed may be sent to you through the mail."

Applications mailed in are handled the same as those taken in the office, he said.

Offices that have used the appointment system note that people tend to be more prepared for the interview. During the initial contact, Kelly explains, they have an opportunity to find out what documents are needed to handle the matter, and have them on hand. This helps decrease the processing time, Kelly said.

Souleyrette Earns Doctorate

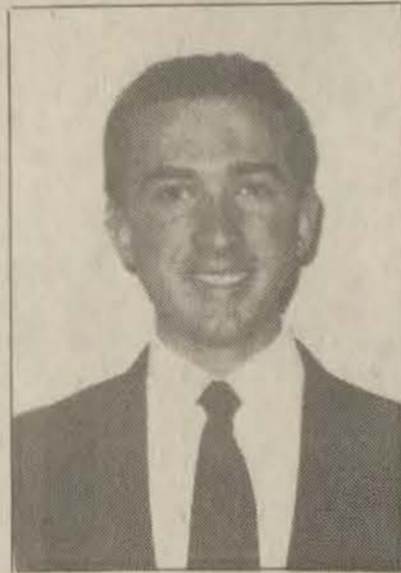

Reginald Roy Souleyrette II, son of Mr. and Mrs. R. Roy Souleyrette of Austin, Texas, recently received a doctoral degree in transportation engineering from the University of California, Berkeley.

Dr. Souleyrette, grandson of Alma Souleyrette of Wheelwright, received a bachelor of science degree in civil engineering in 1984, and a master's degree in transportation engineering in 1986, both from the University of Texas, Austin.

He has accepted a position as assistant professor of civil engineering at the Howard Hughes School of Engineering, University of Nevada, Las Vegas. His primary responsibilities will be teaching undergraduate and graduate engineering courses,

supervising graduate student work, and research for the nuclear waste transportation research center.

He is married to the former Rosemary Anderson of Austin, Texas. The two are expecting their first child in December.

Three Prestonsburg Art Groups Receive State Arts Council Funds

The Kentucky Arts Council recently announced that three Prestonsburg arts organizations have received grants for arts programming. The recipients are Jenny Wiley Drama Association, a Challenge Grant of \$9,258; Eastern Kentucky Concert Series, \$2,500 for concert performances; and Prestonsburg Community College, \$2,330, toward a dance camp and orchestral development.

The Kentucky Arts Council, a 16-member citizen board appointed by the governor, is a division of the Kentucky Department of the Arts. The council receives grant applications and disperses state and federal funds through matching grants for support of arts programming throughout Kentucky.

Cancer Hopeline

Question: I am planning a vacation at the beach. I am concerned about taking proper care of my skin. What suggestions can you make for the prevention of skin cancer.

Answer: Skin cancer is the most common form of cancer among whites in the US. Over 400,000 Americans will develop it this year. Repeated exposure to the ultraviolet (UV) rays produced by the sun and tanning booths can cause skin cancer.

Furthermore, repeated sunburns will increase the risk. Fair skinned people, those who work outdoors and those who live in a sunny climate are the most at risk. Too much sun and exposure to UV light in tanning booths also causes premature aging of the skin, leathery spots, wrinkles and cataracts (a condition characterized by the shrinking of the lens of the eye, and the loss of lens transparency.) Furthermore, 90 percent of all skin cancers occur on the areas of the body that are directly exposed to the sun (ears, hands, forearms, shoulders and lower legs.)

Steps can be taken to reduce the risk of developing skin cancer. These include:

—Avoid the sun's rays between the hours of 10:30 a.m. and 3 p.m.; the sun is strongest during these hours.

—Wear a sunscreen lotion with an "SPF" (sun protection factor) of 15. This number can be found on the sunscreen bottle. The best protection is found in products containing both PABA and oxybenzone. Whether you are swimming or not, remember to

reapply often!

—Understand that the sun's rays become stronger when they reflect off sand, water, concrete or snow.

—Further protect arms and legs with loose-fitting clothing such as a long-sleeved T-shirt and long cotton pants; protect your head and face with a straw or cloth hat.

—Apply an SPF number 15 sunscreen 30 minutes prior to playing a competitive sport so that lotion doesn't perspire off.

—Avoid tanning parlors and booths. The lamps in tanning booths give off two types of UV radiation: UV-A and UV-B. UV-B rays are associated with skin cancer, whereas the relation between UV-A rays and skin cancer remains questionable. Some

salons claim to use lamps that give off only UV-A radiation. However, this claim is misleading in that all lamps give off some UV-B radiation. Therefore, by visiting a tanning salon, you may be doing more damage than simple, premature wrinkling.

Finally, regardless of your skin type, it is important to do a simple monthly self exam. Check for changes in moles, blemishes or birthmarks. Look for changes in color, size or shape. If these changes occur, or if a sore does not heal, you should see your doctor immediately.

For more information and free materials about tanning booths, skin cancer and how to prevent it, contact the Cancer Information Service at 1-800-4-CANCER.

"THE PRETTY LADY WHO PASSED BY"

I saw a beautiful lady
Walking down the street one day
Her clothes were oh so pretty
So colorful and so gay!

On her finger was a large diamond
How it sparkled in the sun
And I found myself a-wishing...
Oh-if only I had one!

I saw her stop to chat
As an acquaintance passed by
She just bubbled with cheerfulness
You could see the twinkle in her eye.

I couldn't help but think
Oh-I wish I were her
She seemed to be so lucky,
And in my heart envy began to stir.

This lady was so pretty-
And I was so plain-
The ring upon her finger
Made me envy once again...

She seemed to just have everything And I had so few-
If only I could be her-
I'd have everything too!

A moment passed-I drew a little closer
Their voices I could hear,
The conversation wasn't as I'd expected-
In fact, my eyes began to tear.

Only six months
I heard the pretty lady say-
That's all the doctors give me
Remember me when you pray.

And to think-I wished I could be her!

To be so filled with envy
For only what my eyes could see
Taught a great lesson
I'll always carry inside of me.

Never look upon someone
With envy in your heart
For the real riches in life
Only Jesus can impart!

Now, when I see someone
Who seems to have more than I
I'll always remember
The Pretty Lady Who Passed By!

Untitled

I know no other dream.
In this barren, fruitless life,
I wish only once to taste the sweetness of his lips,
To drink from his pure kisses.
The deepest marrow of my bone aches with a love I can't share.
The hottest flame suffers in comparison to the burning in my veins.
Tears no longer pain my sorrowed eyes,
My pillow has grown familiar to their sting,
If in this life I am allowed only one true happiness,
Let me touch the roses of his cheeks before I die.

Books

I have always had a love for books.
As far back as I can remember,
They have played a major role in my life.
Through their pages I have traveled,
To far and strange lands.
I have journeyed to the moon,
And galaxies far beyond the stars.

I have met great men,
Kings, soldiers and common people.
I have seen animals of every kind,
Also large snakes that live,
In tropical rain forests.
I have seen trees of every shape and color.
Learned much about plants and vines.
Because of you, my beloved books,
These things have been mine.

I have learned much about people and places,
Seen wars come and end,
Read stories of love, hate and of poverty.
I have looked into Aesop's fables,
And Mark Twain's humor.
I have seen the greatest works of art,
Read the best poets.

I have heard great religious leaders speak
Mohammed, Buddha, and Jesus Christ.
I have visited the Colosseum in Rome,
Feel like I know Lincoln, Washington, and Longfellow.
I have seen cities grow to giant metropolises,
Looked on as floods, earthquakes, tornados,
Fire and bombs tear cities apart.
Everything I know or care about,
Has been written down in books.

I have seen students abuse books,
By not reading them.
I have found the works of Plato
And Marcus Aurelius in garbage dumps.
Books on shelves in homes just for show.
If it were not for books, few things would we know.
Those who never read books never grow.

A Salute To Our Flag

Independence Day of 89
and the freedom that we share.
Means so very much to me,
there's none like it anywhere.

To see Old Glory waving high,
makes us so very proud.
For other countries, in the world
such things are not allowed.

God has given us so much,
He made our country free.
And we must thank Him everyday
that it will always be.

Many men have fought and died,
to protect our native land.
And show the nations everywhere,
they did not die in vain.

Each star and stripe was added,
with so much love and care.
To unite each state in unity,
for all of us to share.

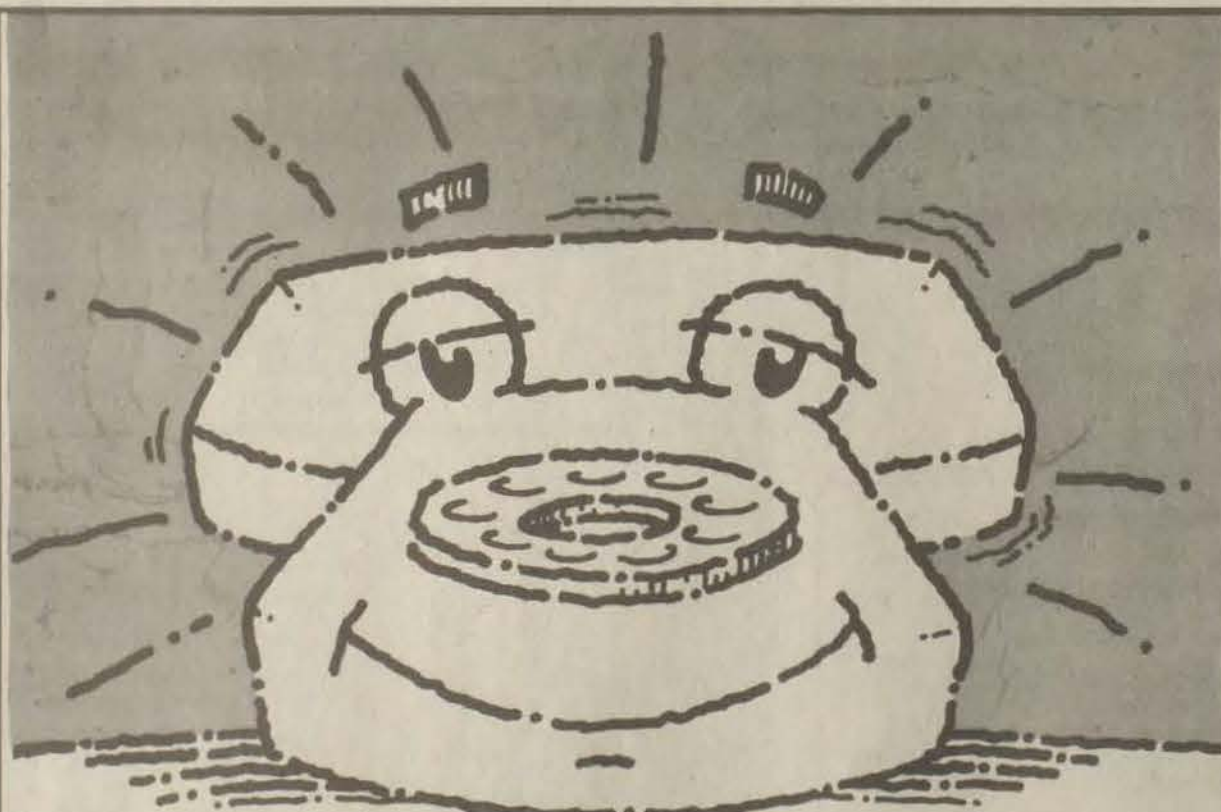

As we salute our flag today,
and say a prayer for peace.
We must thank our Father up above,
for life and liberty.

Margaret Harris,
Prestonsburg

The People-Not the World

The world is still a wonderful place,
It's the people that are a disgrace.
They try to change every law God made-
That made our life here worth living-
Take everything they can, instead of giving.
I wonder sometimes how it will all turn out.
All the hate, the fighting and all the doubt;
Not believing in any thing that's good,
Or trying to do the things they should.
Everyone trying to beat his brother,
Just doing everything-
Except loving and helping one another;
If only they could see and understand,
God's laws were made for the happiness and good of man.
To follow God's laws will bring peace to everyone-
After all, to help us, He sent His only son.
If only the people would remember-
Love Him and His words obey-
God will always be near us and
Help us along the way.

Marine Receives Achievement Medal

Marine Sgt. William D. Branham, the grandson of a Martin woman, is the recipient of one of the Navy's highest awards, the Navy Achieve-

SGT. WILLIAM D. BRANHAM

ment Medal. Branham is the son of Mr. and Mrs. Willie Branham of Springport, Mich., the grandson of Floyd and Dollie Cox and the late Hatch Branham of Martin, and the great-grandson of Mr. and Mrs. R.L. Pitts of West Prestonsburg.

The Marine was cited for his rescue of two US Chancery workers during an earthquake in El Salvador, where he was serving as a Marine Security Guard with the American Embassy. He was also credited with securing "vital classified equipment, weapons and building" in the Naval citation.

Other awards earned by the 1980 enlistee include Humanitarian Service Medal, Sea Service Ribbons and Good Conduct Medals. He has attended numerous military training programs and is now an instructor in the heavy machine guns section of the First Marine Division School. He served with the American Embassy in Tel Aviv, Israel, before going to El Salvador.

HOROSCOPE

July 30
through August 5

LEO (July 23 - August 22)

Don't accept the first job offer that comes your way even though you may be tired of your old job. Don't leave anything to chance; make sure all rules are put in writing.

VIRGO (August 23 - September 22)

You will see your popularity grow leaps and bounds over the next couple of months. Recent social and business contacts will be quite useful this week.

LIBRA (September 23 - October 22)

Your financial sector is in trouble this week. Take time out to read contracts carefully. The pragmatic approach brings desired results.

SCORPIO (October 23 - November 21)

What had been elusive will now become available. The information you seek is available, but temporarily hidden. Don't make any snap decisions.

SAGITTARIUS (November 22 - December 21)

Delve deep for information. Break from past procedures, and try a different approach to life. You will receive a call from someone who is very attracted to you.

CAPRICORN (December 22 - January 19)

A financial debt will be repaid soon. A family member will make a request. If it is reasonable, comply. Share your knowledge with a young person this week.

AQUARIUS (January 20 - February 18)

You are on the verge of a major breakthrough in the self-discovery department; you become more aware. An old friend will travel with you soon.

PISCES (February 19 - March 20)

A new start is featured. You will have a chance to create a more secure future. Focus on the domestic front. A dispute with a relative will be easily mended.

ARIES (March 21 - April 19)

Be aware of loved one's needs. Terms will be defined, a project will be completed, and you will also learn where you stand in your love sector.

TAURUS (April 20 - May 20)

You will be rid of an unnecessary money burden. It is time to fulfill a promise made to family members. A domestic adjustment is part of the scenario.

GEMINI (May 21 - June 20)

Someone of the opposite sex is intrigued by your witty personality. Be receptive and open to suggestion without losing your own identity.

CANCER (June 21 - July 22)

Define terms, aim high, but be practical enough to outline your ideas and plans. Someone of the opposite sex cares for you and is willing to prove it.

Sam Donaldson anchors show with Diane Sawyer

Newsman moves to 'Prime Time'

By Mary Ann Townsend

With several of its top-rated news programs—including *Nightline* and *20/20*—currently making headlines, ABC News will premiere yet another nighttime news show on Thursday, Aug. 3.

Appropriately called *Prime Time*, the new hour-long show will be co-anchored by Sam Donaldson and Diane Sawyer, with reports by correspondents Chris Wallace and Judd Rose.

The program is designed to provide a provocative look at the news of the week from wherever it is happening through live and taped reports.

Donaldson brings 22 years of experience with ABC News to *Prime Time*. He currently is also anchor of *World News Sunday*, and an interviewer and panelist on *This Week With David Brinkley*, both on Sundays.

Prior to joining *Prime Time*, Donaldson had been ABC's chief White House correspondent since 1977. He covered the daily activities of the president at the White House and traveled with him on foreign and domestic trips.

The Washington Journalism Review named him the "best television White House Correspondent in the business" in 1985, and the "best television correspondent in the business" in 1986, '87 and '88.

Of course comments from the other side of the notepad have been less kind. President Reagan referred to him as "the Ayatollah of the press corps," and former Speaker of the House Tip O'Neill dubbed him "the meanest man in Washington." With a reputation like that, *Prime Time* promises to be as provocative as the network says it will be.

Donaldson has seen many

Diane Sawyer will co-anchor *Prime Time* with Sam Donaldson, beginning Thursday on ABC.

world events since beginning his broadcasting career 30 years ago. He covered the Vietnam war, the Iranian hostage crisis, Watergate, every political convention since 1964, the Cuban missile crisis and civil rights riots in Cambridge, Md.

The newsman began his career in 1959 at KRLD-TV in Dallas, Texas, then two years later moved to WTOP in Washington.

An El Paso, Texas native, Donaldson received his bachelor's degree from Texas Western College and did graduate work at the University of Southern California. His 1987 autobiography, *Hold On, Mr. President!*, is a best-seller.

Sawyer, who joined ABC News in February when she was announced as Donaldson's co-anchor on *Prime Time*, has had an equally distinguished career. She switched networks after five years as a co-editor of CBS' *60 Minutes*, and was a correspondent for many news programs on that network. Most recently she was podium correspondent for the 1988 Democratic and Republican National Conventions.

TV Q&A

Artistic parents influenced youthful actor's career

By Polly Vonetes

Q: I would like to know more about Corin "Corky" Nemec. I recently viewed I Know My First Name is Steven, and I enjoyed his acting. —Elizabeth Saunders, Montrose, Colo.

A: Corky was born in Little Rock, Ark. in 1972, but was raised in Atlanta, Ga. His father is an art director and his mother a graphic designer. At an early age he decided he would be an actor on television before he grew up. He moved to Los Angeles with his mother and sister to begin studying acting, and was soon signed with a commercial agent. Before long, Corky began acquiring an impressive list of commercial credits. His acting debut came in the TV series *Sidekicks*. He stands 5'7" and has dark blond hair and hazel eyes. While devoted to his craft, he maintains a number of outside interests, including all water sports, and drawing cartoons. He resides in Los Angeles with his mother and sister.

Q: On an episode of *China Beach*, Dana Delany went home and met a veteran who was a double amputee. He had no hands. Is it the same man who won an Academy Award shortly after World War II? —Barb Knapp, Anchorage, Alaska

A: Yes, Harold Russell, the handless ex-paratrooper who acted in *The Best Years of Our Lives* and became the only performer in history to receive two Academy Awards for the same role, guest starred in the April 26th episode of *China Beach*.

Q: No doubt my question is unusual, to say the least. *Jr. Samples*, who appeared as a regular on *Hee Haw* was a distant cousin of mine and I am compiling a notebook of my Brownlee relations in Georgia. Could you forward this letter to them or tell me

Corky Nemec

how to get in touch with Jr.'s family? I won't cause them any embarrassment I'm honestly just desiring genealogy information. —Effie Brownlee Jackson, Denison, Texas

A: I suggest you contact Ms. Susan Charney, c/o Gaylord Syndication, 66 Music Square, West, Nashville, Tenn. 37203. As a publicist for *Hee Haw*, she may have contact with his family.

Q: I was watching reruns of *Here Come the Brides* and was wondering what happened to Robert Brown. What did he do after *Brides*? Where can I reach him? —Kim Anderson, Clinton, Tenn.

A: Robert Brown was born on Nov. 17, 1927, in Hebrides Islands, Scotland. His last residence has him living on what used to be a farm in West Los Angeles. *Here Come the Brides* aired from 1968-70. In 1971 he starred in the syndicated adventure series *Primus*. I have no listing for him after that date. Sorry.

Please send your questions about television past and present to: Polly Vonetes, TV Q&A, P.O. Box 17748, Fort Worth, Texas 76102-0748.

This is the plant that manufactures our sauce.

Other pizza makers will proudly tell you they manufacture their sauce to the highest standards. Note: They manufacture it. In huge factories. In vast quantities, with enough preservatives to make it last a long time.

At Little Caesars® our sauce is all natural. The tomatoes, the spices, everything. The truth is, our sauce isn't made. It's grown. So naturally, it tastes better. And we make it fresh every day.

Somerset Woman Forming Guillian-Barre Support Group

After finding that there was no support group in Kentucky for victims of Guillian-Barre Syndrome, an acute neurological disorder, Fran Johnson of Somerset decided to begin one.

Johnson, herself a victim, contracted GBS about five years ago. Paralyzed and wheelchair-bound for the entire first year, she received therapy at home.

GBS can cause partial paralysis of several muscle groups. It is a rare disease that occurs after certain viral infections and vaccinations.

Today, she is able to walk without the aid of a walker.

"If someone could have walked in my room and said they had survived this disease, it sure would have given me some hope for the future," Johnson explains. "I was certainly frightened, to say the least."

At one point, the family of another GBS patient asked her to visit. Remembering how strange Guillian-Barre sounded to her when she was in the hospital, she went.

"All other states have from one to three support groups, except Kentucky," she relates. "We didn't have any at all."

As she got stronger, she began to

think about starting a support group. In May 1989, the group held its first meeting.

"The support group is designed to help patients emotionally, as well as to hear the latest methods of treatment. Our speakers are very knowledgeable about Guillian-Barre," Johnson said.

The group's next meeting will be in Lexington Oct. 28, although a location has not been determined. Johnson said anyone interested in the group can contact her by calling (606) 679-7058, or writing 521 N. Horseshoe Drive, Somerset, KY 42501.

Local Women Attend Convention

Two representatives of the Big Sandy Chapter of Mended Hearts Inc. attended the 37th annual national convention of the organization, July 2-7 in New York City.

Local chapter president Maxine Bierman and coordinator Sharon Handshoe were among more than 500 delegates from across the United States and Canada who represented

189 local chapters of Mended Hearts, a volunteer, non-profit, self help organization for recovered heart patients.

At the convention, delegates participated in workshops on the activities and programs of Mended Hearts. They also heard talks by cardiologists on the latest techniques for lowering cholesterol and studies that indicate that hardening of the arteries, a cause of heart disease, may be corrected medically.

The purpose of the organization, according to Bierman, is to offer support and encouragement to heart disease patients and their families. The next meeting of the local chapter will be Aug. 8 at 7 p.m. at Highlands Regional Medical Center cafeteria.

Pickin' Chickens

Floyd County 4-H Club members are honing their skills in poultry judging, and recently participated in a training workshop in Paintsville. Pictured above, from left, are Jimmie Martin, Jeff Moore, Frank Martin and Derek Hale. Two county 4-H poultry judging teams are being trained to compete in the state contest Aug. 17 at the state fair. Team members were announced recently by Gene Ball, Floyd County Cooperative Extension Service agent. Senior (over age 14) team members are Jimmie Martin of Langley, Jeff Moore of Garrett, and Derek Hale and Ronnie Leedy of Betsy Layne. Junior team members are Ethen and Chad Martin of Maytown, Todd Howard of Hueysville and Frank Martin of Langley. Ball said both teams will be required to judge live birds for laying characteristics, dressed birds for eating, and eggs for exterior shell quality, as well as interior quality by candling and break quality. The top four individual judges in the senior age group will make up the state judging team, which will judge again at the International Livestock Exposition in November in Louisville.

Miss Boyd Is Four

Sheena Elise Boyd, daughter of Victor and Clevetta Boyd of Prestonsburg, celebrated her fourth birthday, July 7, with gifts from family and friends. She is the granddaughter of James (Red) and Gertrude Adkins of Prestonsburg and Charles and Helen Boyd of Langley.

Celebrates Third

Terry Wayne Cesco celebrated his third birthday June 26 with a party at Pizza Hut and another at the home of his grandmother, Betty Ward. He is the son of Glenna Cesco of Prestonsburg and Tommy Cesco of Sugarloaf.

Our Family...

Cares For Your Family.

For a child, a hospital can be a strange and frightening place.

But when your child is ill you want him to have the best medical care available — the best and most modern facilities, the latest medical technology, and an experienced, caring staff of physicians and nurses.

And because your child is an important member of the family — yours and ours — we believe he

deserves something extra.

At Paul B. Hall Regional Medical Center of Paintsville, that something extra includes visits from volunteers of the Patsy Knight Teddy Bear fund and local church organizations.

In our modern facility, your child will receive the care, affection and attention he has a right to expect from family — your family, and our family.

History Of Byington's College, Normal School Given

(Editor's Note: The following information was prepared by Minnie Grace Harris Sutherland for the recent reunion of the Prestonsburg Classes of 1919 to 1933.)

The first academy was established on Jan. 13, 1820. The academy was named the Prestonsburg Academy.

On March 29, 1873, the name of the institution was changed to Prestonsburg Academy and the Normal School.

In 1891, Walter Byington founded the East Kentucky and Prestonsburg Normal College. It had 300 pupils in 1903, and by 1904, the enrollment had grown to 500 pupils. In 1904, County Superintendent Henry F. Patton stated, "The East Kentucky Normal School of Prestonsburg is doing a wonderful job training teachers for the surrounding areas."

In 1908, the Normal school was purchased by the Baptist Educational

Society of Kentucky. The school became known as the Prestonsburg Baptist Institute and was headed by the Rev. W.H. Sledge.

In 1912, the Rev. Sledge resigned and A.C. Harlowe assumed charge. In 1918 Mr. Harlowe bought the school from the Baptist Educational Society. In the same year, Superintendent Tilden Collins proposed to the Prestonsburg Grade School District that the Prestonsburg Baptist Institute be bought jointly by the county and city. The property was conveyed on Aug. 31, 1918. The county sold its interest to the city in 1927, and the school became known as Prestonsburg High School. A new high school was constructed in 1927 and is now operated by the Floyd County Board of Education. The present high school building was constructed in 1955. The school system is now controlled by the board of education of Floyd County."

Two Floyd County Students Receive MSU Transfer Awards

Peggy Frasure Westfall of Ivel and Michelle Leigh Epling of Allen are among several students receiving transfer student awards for the fall semester at Morehead State University, according to university officials.

Epling, daughter of Jimmy Epling of Fords Branch and Mary Stephens of Allen, is a graduate of Mullins High School. President of the senior class, she was a member of the academic team and Beta Club. She has taken classes at Prestonsburg Community College.

Westfall has taken classes at PCC, where she was a member of the Phi Theta Kappa. A graduate of Betsy Layne High School, she is the daughter of Paul and Lou Ellen Frasure.

To be eligible for the award, applicants must be admitted to MSU, have completed at least 12 hours of college work, have a cumulative 2.75 college gpa and have submitted a complete scholarship application and a copy of their college transcripts. The award is

renewable of three years if the student maintains a cumulative 2.50 gpa.

Mayo Vo-Tech Registration, In-Service Set

An in-service training for all staff at Mayo State Vocational-Technical School in Paintsville will be held on Thursday, Aug. 3.

According to Bronelle Skaggs, vocational education regional administrator, registration for Mayo students will be held Monday, Aug. 7, for continuing students, and on Tuesday, Aug. 8, for beginning students. Classes will begin the day following registration.

Classes for the area centers will begin with the opening of local school districts, Skaggs said.

Floyd County Students Receive MSU Scholarships

Several Floyd County students have received various scholarships to Morehead State University for the coming fall semester.

They are:
— Valerie Dawn Mosley of Martin, who received an Alumni Award and a Regional Honors I scholarship. Mosley, daughter of Ronnie and Yvonne Mosley, is a graduate of Allen Central High School, Salutatorian of the senior class, she received first place in English composition in the Governor's Cup competition in Floyd County, and was a member of the All-County Band.

To be eligible for an Alumni Award, at least one of the applicant's parents must be an MSU alumnus and an active participant in the MSU Alumni Association. High school students must have a 2.75 cumulative grade point average (on a 4.0 scale) based on seven semesters of work, or a composite ACT score of 20. The award is valued at \$500 per year and is renewable for four years if the applicant maintains a minimum cumulative grade point average of 2.5 and at least one parent remains active in the MSU Alumni Association.

— Also receiving Regional Honors I scholarships are Stacy Lynn Brewer of Galveston and Clark Dwayne Slone of Blue River.

MSU Summer Registration

Morehead State University's second summer session is underway. Completing their registration for Summer II classes are, from left, Kim Kelsey of Morehead and Melissa Reynolds of Floyd County, both of whom are majoring in elementary education. Summer II continues through Aug. 4 with commencement scheduled Aug. 5 at 1:30 p.m. in Button Auditorium.

Governor's Scholar Program Memorable, Says McDowell Youth

"I will never forget the program because of the people, the community we formed and the educational and cultural experience it was. You meet many diverse people and get a taste of so many cultural things that you can't help but love it."

So says Gregory B. Dye, a rising senior from McDowell High School, participating recently in the Governor's Scholars Program at Murray State University.

Dye, son of Rabon and Millie Dye of McDowell, is one of 325 students from throughout Kentucky selected for the program at Murray State. His areas of interest for the five-week session are a major in biology and a minor in "Writers Have the Last Word (or 'The Pen is Mightier than the Sword')."

Begun in 1983, the Governor's Scholars Program promotes learning and encourages leadership development by creating an environment that enables students to interact academi-

cally and socially. Besides classroom work in areas such as astronomy, biology, fine arts, Spanish, history, literature, math, philosophy, physical science and political and social theory, students are also involved in out-of-class activities, including field trips, lectures, film presentations, computer use, seminars and other non-traditional methods of instruction.

Payne Receives Two Scholarships

Amy Payne, the 17-year-old daughter of Joan Payne of Bypro and the late Warren Payne Jr. of River Rouge, Mich., recently attended the Kentucky Appalachian Foundation Volunteer Leadership Corp's meeting at Alice Lloyd College.

During the conference, students from throughout Eastern Kentucky attended workshops on teen pregnancy, drug and alcohol abuse, goal setting, creating self-images and development of public service announcements.

"The leadership conference went very well. I feel even better about this year's conference than I did last year's, and that's saying a lot. I just wish more people would get involved," said Payne.

Each participant received a certificate for attending.

Payne, a 1989 Wheelwright High School graduate, plans to attend Berea College this fall, where she has been awarded an \$8,500 scholarship that is renewable for the next four years. She has also received a Mollet Scholarship, entitling her to receive \$800 when she begins college.

The scholarships were presented to Payne with her high school diploma during graduation ceremonies. At that time, she was also recognized as an outstanding academic achiever, and for having met the standards of the Presidential Academic Fitness Awards Program.

Shank Receives Governor's Scholar Award At U of L

Kimberly Sue Shank, a graduate of Prestonsburg High School, has received a Governor's Scholar Award for 1989 at the University of Louisville.

The Prestonsburg native plans to major in biology and medical technology.

Governor's Scholar Awards at U of L cover full tuition and fees for four academic years — five years for the engineering program — provided the student maintains a 3.0 cumulative grade point average.

Shank is the daughter of Robert and Sue Shank of Prestonsburg.

Perfect Attendance

Tressie Francis Morrison, daughter of Lochie and Barbara Morrison of Endicott, recently received a plaque for perfect attendance during her four years at Prestonsburg High School.

Betsy Layne, Bardstown Pen Pals Meet

Most people remember social studies as being a very dull subject.

However, two third-grade teachers have found a way to truly bring it alive.

Students in Trish Adkins' class at Betsy Layne Elementary School and those in Bonnie Cecil's class at Foster Heights (near Bardstown) studied the coal mining community of Pikeville in their textbooks.

The two teachers, who are friends from college, encouraged their students to become pen pals.

The real reward of their two-year correspondence came in late May when 25 Betsy Layne students and their parents drove 175 miles to meet and visit with the students' pen pals.

Funding for the trip was provided through a SACT mini-grant written by Adkins.

The children exchanged gifts — including a chunk of coal for Cecil — and took a tour of Foster Heights and joined the fun of the PTC's Child's Day Out. To end their day, the students visited My Old Kentucky Home State Park.

NOTICE OF INTENTION TO MINE Pursuant to Application Number 836-0117 Am. #2

In accordance with the provisions of KRS 350.055, notice is hereby given that Coal Mac, Inc., P.O. Box 3428, Pikeville, Kentucky 41501, has filed an application for an amendment to an existing surface coal mining and reclamation operation. The amendment proposed to add an additional 225.3 surface acres and will underlie an additional 67.9 acres for a total proposed permit acreage of 572.1 acres, located 2.5 miles north of Galveston in Floyd County.

The proposed amendment is approximately 3.5 miles south from KY 979's junction with Branham Creek Road and located 0.1 miles east of Branham Creek. The latitude is 37° 27' 15". The longitude is 82° 37' 33". The surface area to be disturbed and the surface area overlying the underground mining and augering is shown on the included map.

The proposed amendment is located on the McDowell and Pikeville U.S.G.S. 7-1/2 minute quadrangle map. The operation will use the contour strip, area mining, auger and deep mining method of mining. The application also includes a proposed land use change from the forest land pre-mining land use to a wildlife habitat post-mining land use. The operation will affect an area within 100 feet of Keathley Branch Road. The operation will not involve relocation of the public road.

This amendment proposes to add 225.3 acres of mining with associated hollow fills and ponds and 67.9 acres of augering on the Firclay, Elkhorn No. 1, 2 and 3 coal seams and will delete 8.3 surface acres and 12.8 underground acres.

The amendment application has been filed for public inspection at the Department for Surface Mining Reclamation and Enforcement's Prestonsburg Regional Office, 503 South Lake Drive, Prestonsburg, Kentucky 41653. Written comments, objections, or requests for a permit conference must be filed with the Director of the Division of Permits, #2 Hudson Hollow, U.S. 127 South, Frankfort, Kentucky 40601. 7-26-4t.

Preparing Homebuyers For The Loan Application Process

"Learning residential financing—and staying up-to-date on new financing alternatives—is a formidable task, even for a skilled real estate person," according to Allen F. Hainge, whose article, "Earn Your Black Belt in Mortgage Financing," appears in the July issue of Real Estate Today, the official publication of the National Association of Realtors.

"Today, this knowledge, as well as the ability to convey it to buyers and sellers, is increasingly important in getting and marketing a listing and making the sale," the author states.

Hainge is president of Allen F. Hainge Seminars based in Springfield, Va. He is an instructor for graduate realtor institute courses and certified residential specialist courses offered by the Realtors National Marketing Institute.

To familiarize oneself with the mortgage finance options, Hainge suggests real estate agents start by reviewing the lending guidelines, beginning with those established by the three big secondary mortgage market organizations—The Federal National Mortgage Association, the Federal Home Loan Corporation, and the Government National Mortgage Association—the major buyers of the mortgage loans originated by local lenders.

"Since most lenders want to sell their loans through a secondary market, they follow guidelines established by the secondary mortgage market," says Hainge. "Once you understand those guidelines, you have a solid base for basic residential financing skills."

Hainge also advises agents to study any additional underwriting guidelines imposed by local lenders because some, called portfolio lenders, don't resell their loans in the secondary market. "They set their own guidelines, which might include tighter qualifying ratios than those required by the big three, a different way of looking at the applicant's debts, or tighter appraisal standards," says Hainge.

It's also important to have a working knowledge of private mortgage insurance companies (PMI), which provide default insurance on home loans. Approval by a PMI company used to be automatic if the lender approved the loan. "Not today," says Hainge. "PMI companies have tightened their requirements for insuring low down-payment—and in some cases, high down-payment loans."

Government loans are an additional source of mortgages that salespeople should be familiar with in

order to assist the homebuyer, asserts Hainge.

The salesperson should prepare the buyer for the loan application process, he adds.

"Misunderstandings often arise when the lender asks a poorly-prepared loan applicant to provide additional information or documentation," according to Hainge. The subsequent delays that occur can be traumatic for buyers and sellers during the time before closing.

Hainge recommends giving the prospective buyer a list of what will be needed at loan application time. "It should be done early in the process, preferably during the qualifying interview, so that problem areas can be spotted early and corrected before the application process even begins," says Hainge.

The author also urges instructing the prospect to give the loan officer everything he or she requests throughout the loan process. This preparation is, according to loan officers and processors, the most overlooked element of the loan process.

"One of the most important skills you should have," says Hainge, "is the ability to qualify buyers for the maximum loan payment they can carry for conventional and government financing." Qualifying prospects ahead of time gives homebuyers an accurate picture of their loan capability and limits the homes shown to those that they can afford, thereby saving everyone's time.

Also, the obligation to sellers will be truly fulfilled. "Their home won't be shown to unqualified prospects," says Hainge, "and you can better advise them as to whether or not the prospect making an offer seems qualified for the loan."
