

MINERAL FUEL COMPANY

INCORPORATED

MORROBERTS, KENTUCKY

February 2, 1914

Mr. George I. Neal,
Huntington, W. Va.

Dear Sir:

Received letter from Mr Fleming

this evening, dated January 30th, which is as follows.

"I have thoroughly gone over with Senator Watson the question of eliminating the railroad up Yonts Fork, and we have decided that the railroad should be built and that we should develop what is known as our No. 305 and 306 mines, and build one tipple and load coal from this spur.

You will please therefore bear in mind the condemnation proceedings of Reuben Potter and John Bentley, and see that same is properly looked after."

This for your information. Am sending copy of this to Lewis E. Harvie.

Yours very truly,

Walter Raymond
Manager.

Copy to L. E. Harvie.
