

FLOYD COUNTIAN

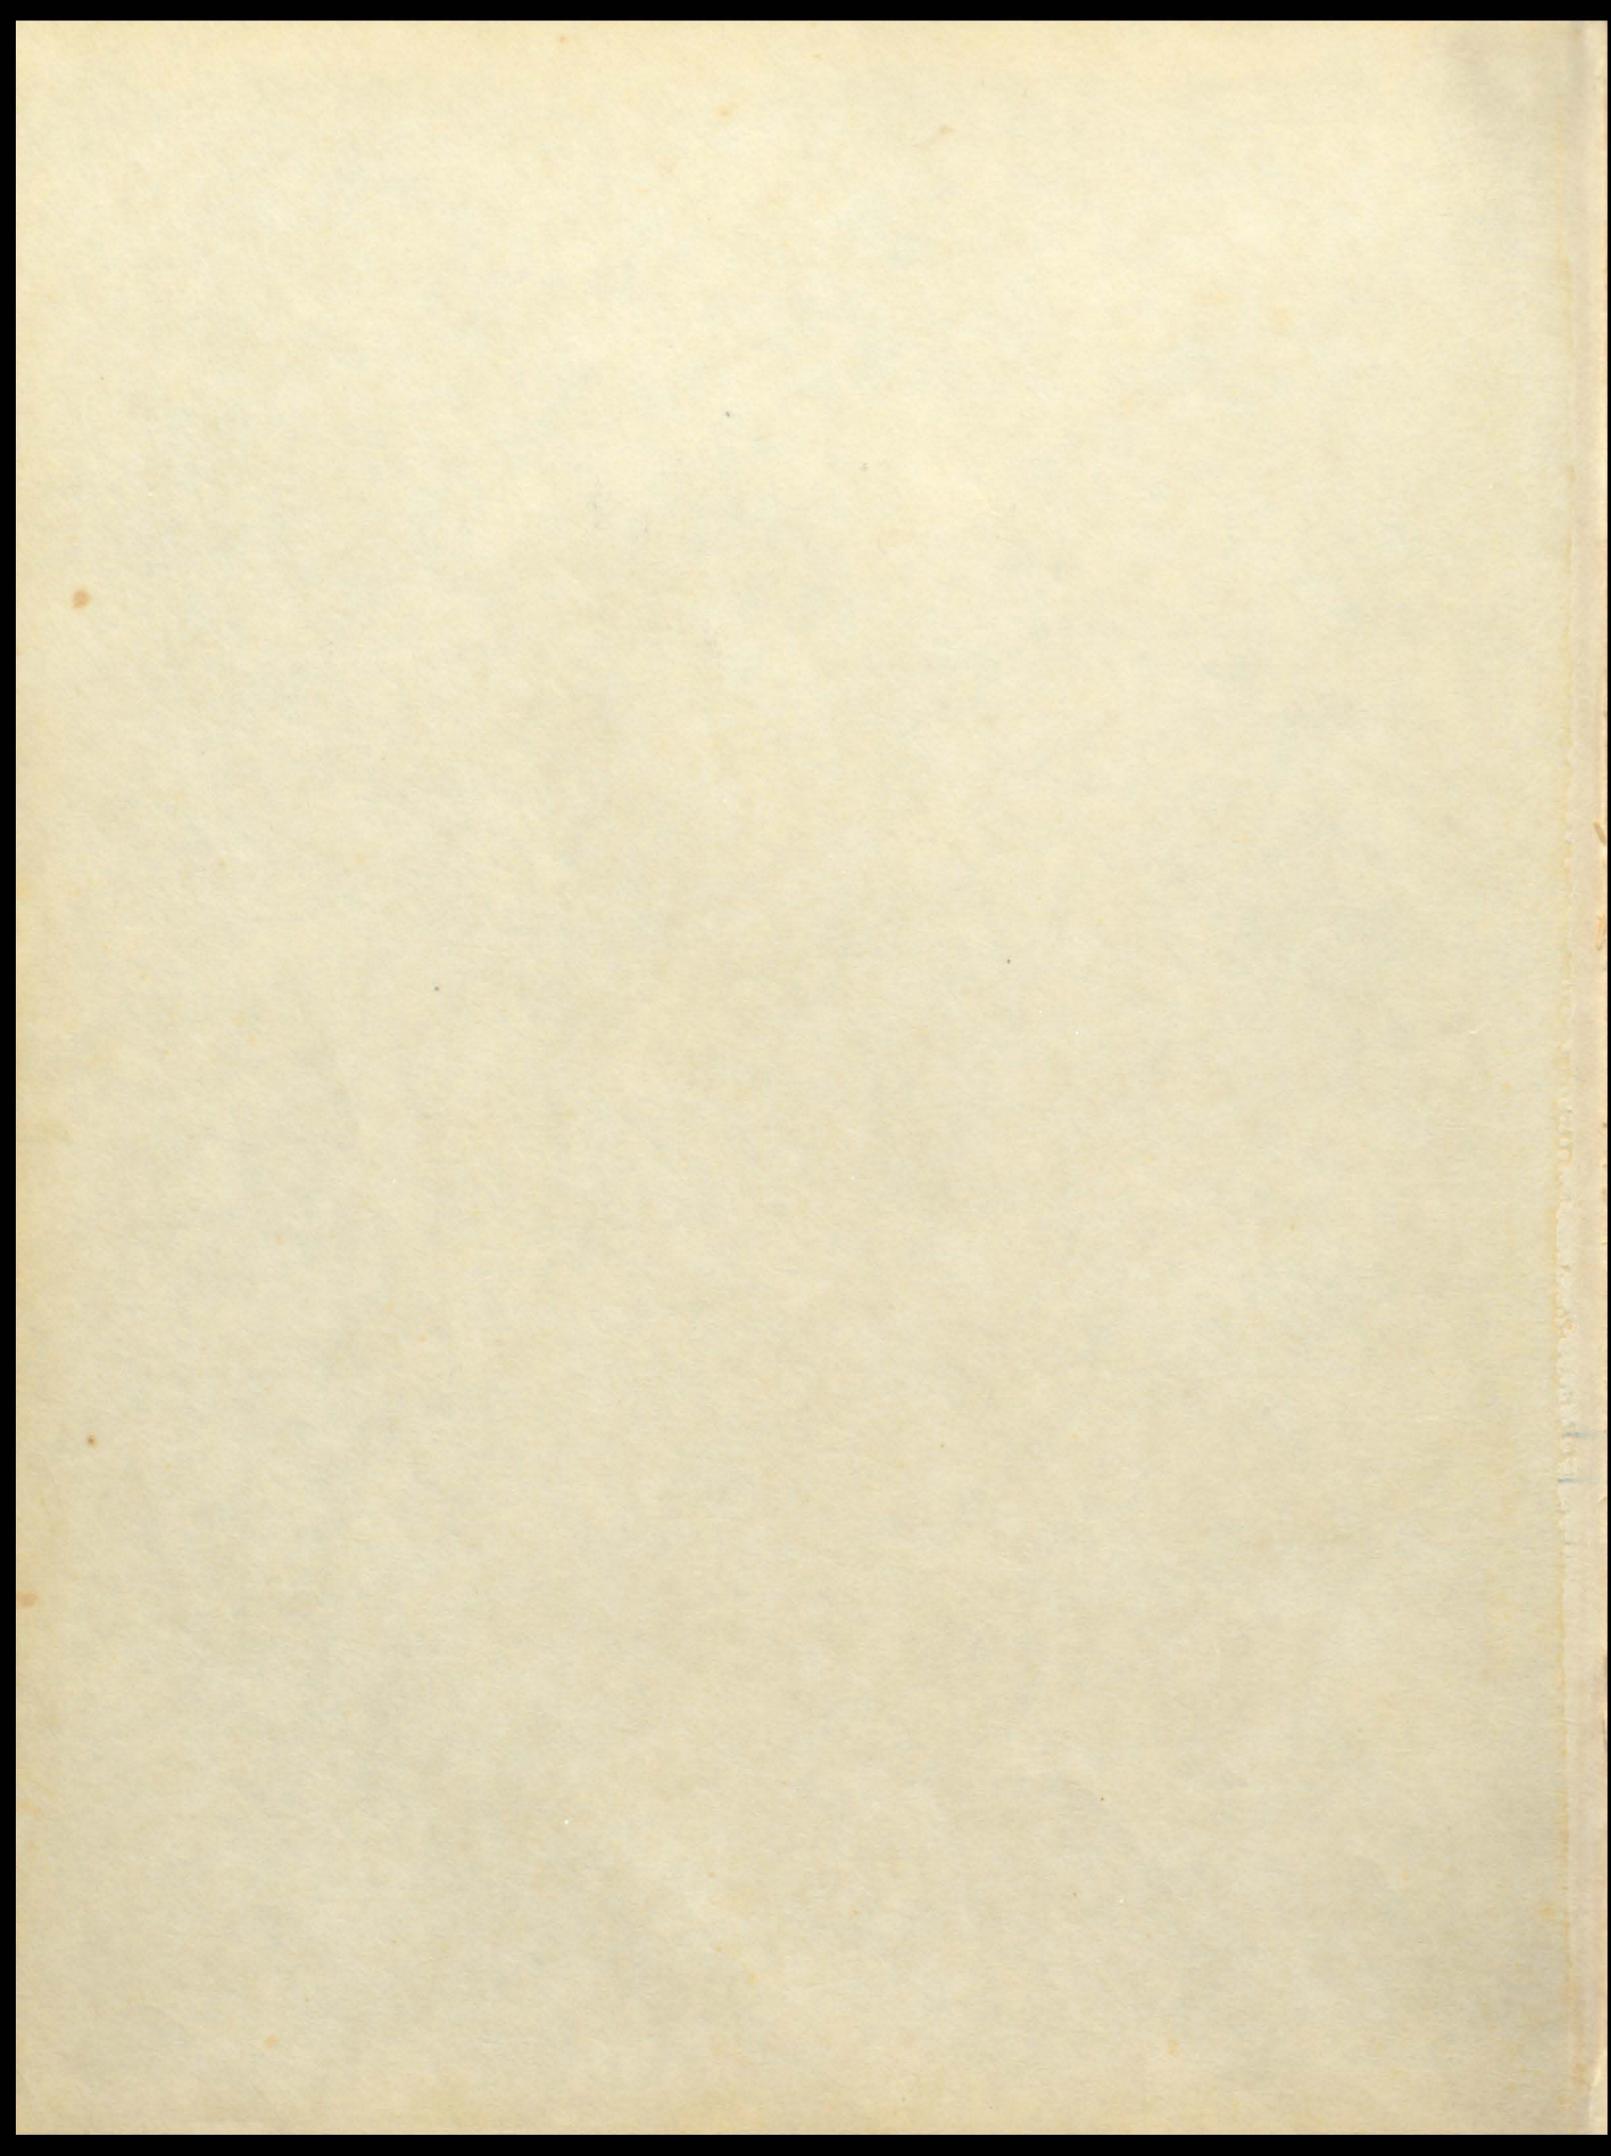

1956

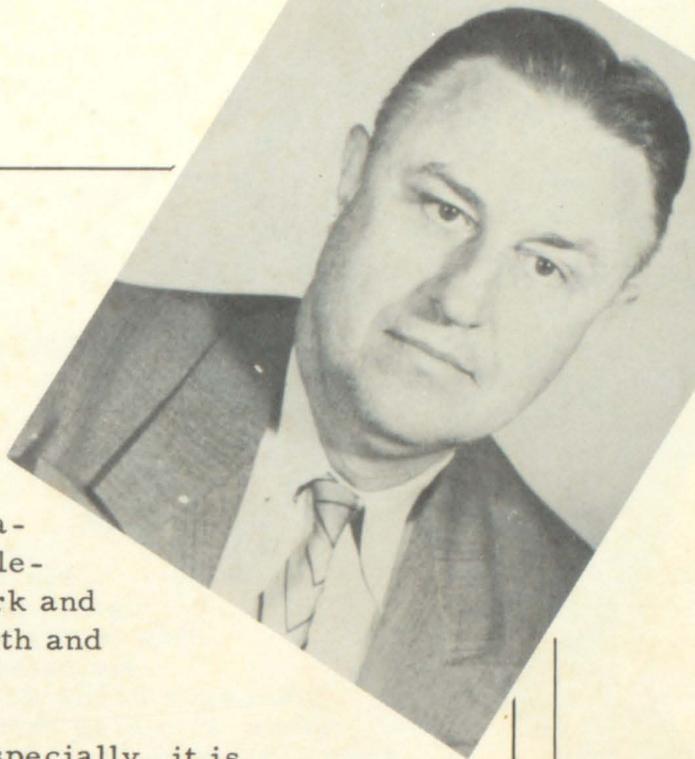

[Handwritten scribble]

Floyd County High School

The 56

Greetings:

You hold in your hands the '56 Annual of Floyd County Schools.

To some of us, parents and teachers and administrative staff, this book is a milestone marking a year of work and giving glimpses of our growth and progress.

To many, the seniors especially, it is a momento, something tangible to take with you as you leave the sweet, sad, fun-filled, despair-filled, dream-filled, "crazy mixed-up," lonely, lovely moments of your high school life.

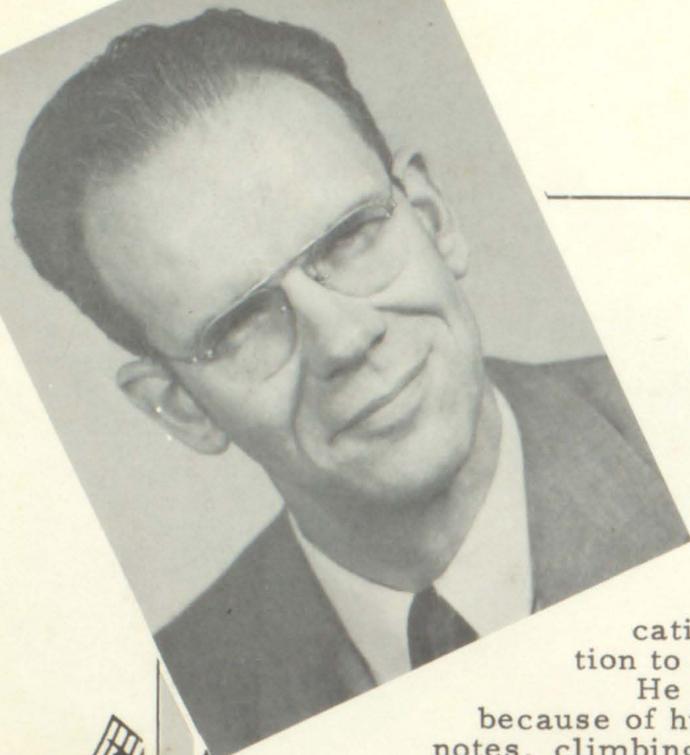

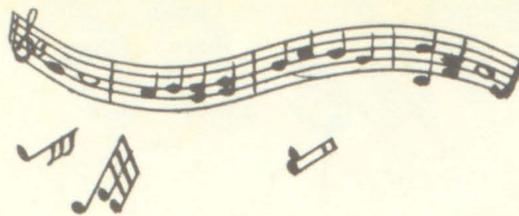

In this book "when other nights and other days find you gone your separate ways, you will have these moments to remember."

To all of us, I feel, this is a book of promise. These pictures of the thousands of fine school boys and girls and of the wise, gentle faces of the teachers who guide them are assurance and promise that tomorrow will be better in Floyd County and in the world.

Virgil Q. Turner

Superintendent

Floyd Countian

Dedication

To Jesse Elliott,
director of music in
Floyd County Schools,
who through more
than twenty years
of service has shown
his love for music, his dedi-
cation to teaching, and his devo-
tion to our mountain region.

He came here with a dream and
because of his dream--starting in faint
notes, climbing through sour notes and
sweet, through harmony and discord--he has
caused music to rise momentarily in these hills
both in volume and tone.

He planted a dream and has reaped a joyful harvest.
For he is

the joy of the hundreds of beginning flutists who find
the notes for "Mary Had a Little Lamb" for the first
time

the joy of the hundreds of parents who sit in con-
certs and listen and stand on sidewalks and watch their
children perform

the joy of many who have increased music apprecia-
tion

the joy of those talented ones who have found music
for life

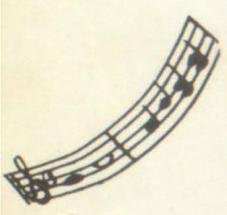

the joy of the students winning excellent and superior
ratings at contests and festivals

the exultation of the "Elliott-inspired, Elliott-trained
"boy" who was privileged to play "Hail to the Chief" for
President Eisenhower

the joy of having students come back from college
to teach music in our schools

These are part of his joyful harvest and samples
of a harvest that will continue through the years, for
he never ceases to reseed and tend even in the midst
of harvest.

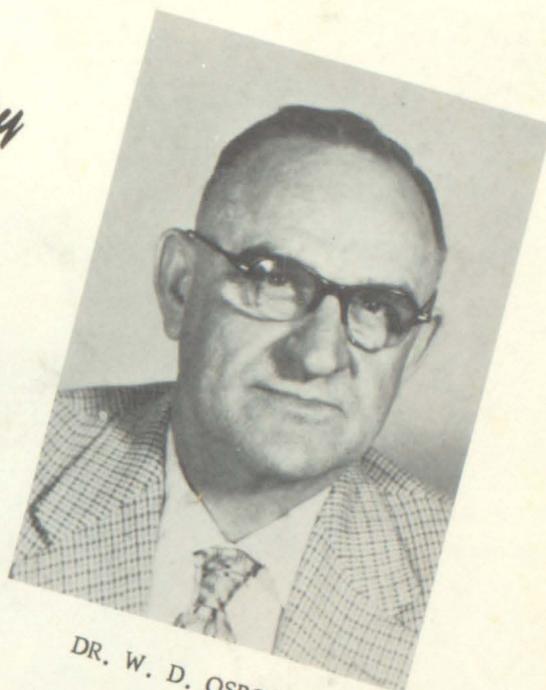

TO JESSE ELLIOTT, A TRUE TEACHER, WHO
HAS HELPED US TO FREE AND REFINE THE MUSIC
WITHIN US, WE DEDICATE THIS ANNUAL OF 1956.

In our high school teachers we found friends we could talk to, seriously, about our problems of the present and our dreams of the future.

He spent hours directing our band.

He directed in the gym, in the auditorium, down at the ball-field, on the campus, and up town. He marched with us, he played with us, he laughed with us, he criticized us, and he praised us.

In our principal we found a buddy and a pal, as well as a stern guide. We learned he was not one to fear but one to trust.

symbol of progress...

As graduation nears, let's take a serious look at the past. We see that education has been largely responsible for the progress of our nation.

Why? Education is PROGRESS.

Today — more than ever before — industry, business and labor, all, know the true values of a good educational system. EDUCATION continues to stand as a true symbol of PROGRESS.

The first part of the document discusses the importance of maintaining accurate records in a business setting. It highlights how proper record-keeping can help in decision-making, legal compliance, and financial management. The text emphasizes that records should be organized, up-to-date, and easily accessible.

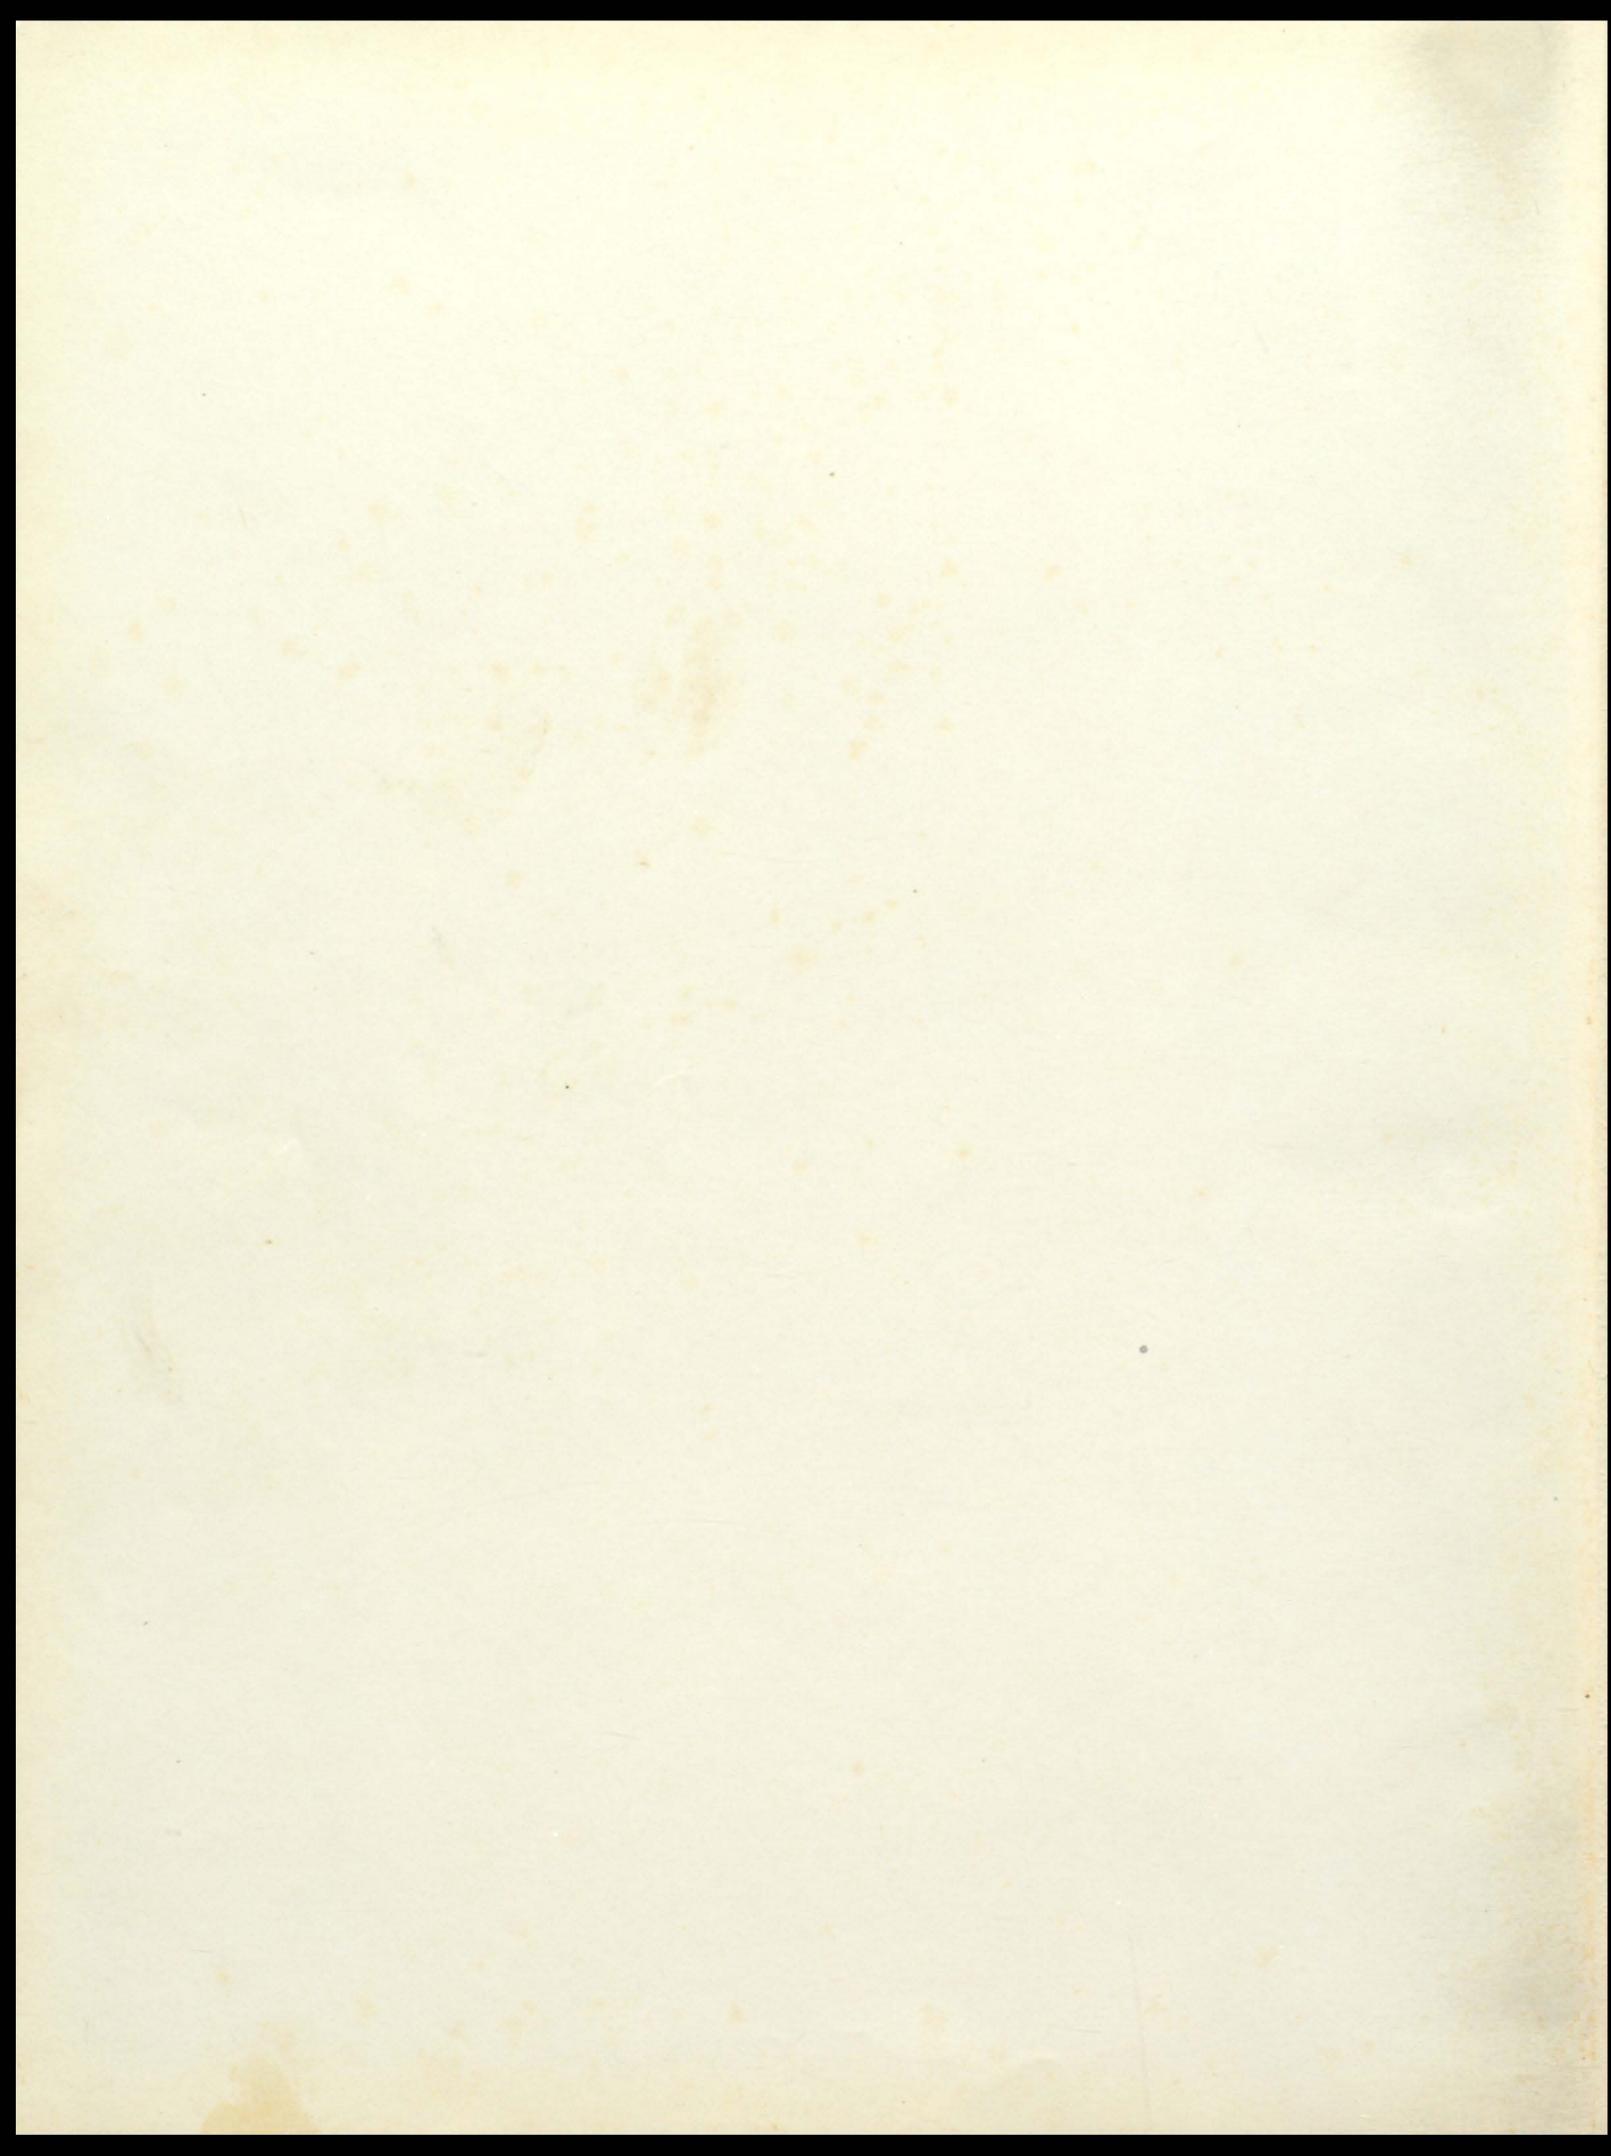

Next, the document addresses the challenges of data management in the digital age. It notes that while digital storage offers convenience, it also introduces risks such as data loss, security breaches, and information overload. Solutions like cloud storage, encryption, and regular backups are suggested to mitigate these risks.

The third section focuses on the role of technology in streamlining business processes. It describes how automation and software solutions can reduce manual errors, save time, and improve overall efficiency. Examples of tools used for project management, customer relationship management, and accounting are provided.

Finally, the document concludes by stressing the importance of employee training and awareness. It suggests that investing in education and skill development can lead to a more productive and adaptable workforce. Regular updates on new technologies and best practices are recommended to keep the organization competitive.
